POLICE AND FIRE INFORMATION

Many of our directories contain the listings of several municipalities served by separate telephone exchanges, and the subscribers are listed in the same directory.

The Orlando directory lists subscribers in the municipalities of Orlando and others, each having its own fire and police service.

Under such conditions, subscribers connected with these exchanges are dependent upon a different Fire and Police service for protection, for which reason space has been provided on the outside front cover of this directory for listing your Fire and Police call numbers.

It is suggested that you refer to the directory or call and ascertain your Fire and Police call number and then enter it on the front cover in the space provided for this purpose.

If doubt exists as to the station you should call in case of emergency, ascertain from the Fire and Police stations the correct number to enter on your directory.

HOW TO USE THE DIAL TELEPHONE

Be sure you have the right number.

OBTAIN THE RIGHT TELEPHONE NUMBER FROM THE DIRECTORY. If the person or firm you want is not listed in the directory, dial "113" and ask the "Operator" answering to furnish you the number.

Remove the Receiver Carefully.

BEFORE DIALING REMOVE THE RECEIVER FROM THE HOOK AND PLACE IT TO YOUR EAR, being careful not to "Jiggle" the hook.

Listen for the dial tone.

THE DIAL TONE IS a steady humming sound which can

be heard as soon as the equipment is ready for your call.

The dial tone will usually be heard at once, or within a few seconds after removing the receiver. However, it may occasionally be necessary to wait a short time for it to come on the line.

If the dial tone is not heard within a short while, hang up the receiver, wait for a few seconds and try again. If the dial tone is not heard on the second attempt, it indicates that there is some trouble on your line and you should dial "114," "Repair Service," from another telephone and report the trouble.

HOW TO DIAL

Starting to dial the figure 2.

Ready to release Dial after dialing the figure "2."

Suppose for example, you are calling 3234.

1. Lift the receiver from the hook and keep it off while dialing.
2. Listen carefully for the dial tone. When you hear it—
3. Place your finger firmly in the opening through which the figure "3" is seen.
4. Turn the dial around until your finger rests firmly against the finger stop.
5. Withdraw your finger from the opening, and without touching the dial, let it return to its original position.
6. Proceed in the same manner with the other figures, 2, 3 and 4.

If, before you complete dialing a number, you find that you have made an error, or if your finger slips out of the opening before you have turned the dial around to the finger stop, hang up the receiver for a few seconds. Then take the receiver from the hook, listen for the dial tone and when it is heard, dial all of the figures in the number again.

To dial Operator, place your finger in the first opening below the finger stop which is the one through which the word "Operator" is seen. Turn the dial around until your finger strikes the stop and release the dial. An operator will answer.

THE RINGING OR BUSY SIGNAL

The ringing signal is a "burring" sound, heard at intervals after you have completed dialing, which informs you that the dialed telephone bell is ringing. If, after hearing the ringing signal for one or two minutes, you obtain no answer, it indicates that there is no one within hearing distance to answer.

The busy signal is a "buzz-buzz-buzz" sound, heard after you have dialed, which informs you that the dialed line is busy. When this signal is heard, hang up the receiver and dial again a little later.

Having dialed the number, wait for the ringing or busy signal with the receiver to your ear. Either the ringing signal or the busy signal should come on the line within a reasonable time after you have finished dialing. If you do not hear either of these signals, hang up the receiver for a few seconds, then remove it and dial the complete number again. If after a second attempt to get a number, you have not heard the ringing signal or the busy signal, dial "Operator" and report the condition to her.

HANG UP THE RECEIVER AFTER YOU HAVE FINISHED WITH A CALL

To disconnect your telephone from the telephone you dialed, hang up the receiver. Do not move the receiver hook or hang up the receiver before you finish talking, as it will break the connection. Do not move the dial while you are talking as it might also break the connection.

REPLACE THE RECEIVER ON THE HOOK FOR A FEW SECONDS BEFORE MAKING ANOTHER CALL

If you desire to place a second call after completing the first, hang up the receiver for a few seconds in order to give the equipment time to break the first connection. Before starting to dial on a second call, make sure you hear the dial tone.

HOW TO DIAL EMERGENCY CALLS IF THE LIGHTS ARE OUT

Place your finger in the first opening below the finger stop, marked

"Operator," which may easily be located by the sense of touch. Turn the dial around until your finger strikes the stop and then release the dial. When the operator answers, give her your name, telephone number and address, then explain the situation and she will assist you.

CALLS TO COUNTY SUBSCRIBERS

To secure a County number from a Dial telephone, dial "116" and when the operator answers ask for the number desired, as listed in the directory. Calls for County subscribers from Manual telephones will be placed as heretofore, for example, say "County 3432."

HOW TO MAKE "NUMBER-NUMBER" TOLL CALLS TO:

Sanford, Winter Park, Apopka, Clermont, Eustis, Kissimmee, Leesburg, Mount Dora, Ocoee, St. Cloud, Tavares, Winter Garden, Haines City and Davenport.

For "Number-Number" toll calls to these points consult the directory and after securing correct number, dial "Operator" and when the operator answers, give her your own telephone number, the name of place and telephone number desired.

For example: "This is 3640 calling Winter Park 125." After giving the number to the operator, remain on the line until the called number answers or the Operator reports on the call.

Toll Calls, where you wish to speak to a particular person, (Person-to-Person Calls) can be made by dialing "110" for Long Distance Operator and giving her the details of your call.

SUGGESTIONS FOR PARTY LINE SUBSCRIBERS

After removing your receiver from the hook, always listen to make

sure the line is not in use and that you hear the dial tone before starting to dial. If you hear a conversation, or the busy or ringing signal, hang up your receiver and wait until the line is free before attempting to make a call. If no one is talking and you do not hear the dial tone, ask if the line is being held.

If, while you are dialing, you hear another party on the line remove his receiver, or hear successive clicks in your receiver, indicating that another party on your line is dialing, stop dialing and inform the other party that the line is in use and ask him to hang up his receiver. When he does so (indicated by a loud click in your receiver), hang up your receiver for a few seconds, then remove it, wait until you hear the dial tone, and dial the complete number again.

HOW TO DIAL ANOTHER PARTY ON YOUR LINE

If you wish to be connected with either of the other parties on your line, it will be necessary to dial a special code number instead of the regular listed telephone number. These code numbers and the names and telephone numbers of the other parties on your line will be furnished to you in post card form.

After you have finished dialing the code number, hang up your receiver. Your bell, as well as the bell of the other party on the line, will ring at brief intervals. When the dialed party answers, your bell will stop ringing. You should then lift your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one within hearing distance to answer the dialed telephone. You should then stop your bell from ringing and free the line from the connection by removing your receiver from the hook for a few seconds and then replacing it.

HOW TO MAKE LONG DISTANCE CALLS

Dial "110" for Long Distance Operator. When the Long Distance Operator answers give her your telephone number and your name, followed by the details of the call, the same as if calling from a manual telephone.

SERVICE DEMONSTRATION

The successful operation of the dial system, and the efficiency of the service received depend largely upon the dialing party being familiar with the use of this particular type of telephone. If its use is not thoroughly understood, the Company will deem it a favor to be permitted to give individual instruction and it is prepared to do so at its business office. Every patron who does not fully understand the use of the dial system is urged to call at the office of the Company and have the proper use of the system demonstrated.

HOW TO GET BEST RESULTS IN USING YOUR TELEPHONE

Speak clearly and distinctly into the telephone, with your lips about an inch from the mouthpiece, so that you will not be misunderstood.

Answer your calls promptly. In answering a call say, for example: "Mr. Jones speaking" or "Smith & Company, Jones speaking." This way of answering saves time, whether you are at your business or residence telephone.

When your telephone is not in use always keep the receiver on the hook, otherwise your line will appear out of order or busy to anyone calling you.

We do not advise the use of your telephone call number on stationery, printed matter, signs, etc., but if desirable to advertise your telephone service, the phrase "Bell Telephone Connection" is suggested, as all telephone call numbers are subject to change at any time.

CHARGES FOR SERVICE CONNECTION AND MOVES AND CHANGES

1. Rates, other than for short term season service and private branch exchange service, are based on monthly contracts and bills therefor are rendered monthly.
2. The Company reserves the right to discontinue service without further notice unless prompt payment of bill is made.
3. If service is suspended on account of non-payment of account, service will be restored only upon the payment of the restoration charge of \$1.00 in addition to payment of bill in full.

SERVICE CONNECTION CHARGES:

- (a) Instrumentalities not in place.
- | | |
|---|--------|
| Individual line or party line service, each main station..... | \$3.50 |
| Extension stations: | |
| Installed at the same time as a main or another extension station | \$1.50 |
| Installed after the establishment of a main or extension station | \$3.50 |
- (b) Instrumentalities in place.
- Where service is established by the use of instrumentalities already in place on the applicant's premises, provided no change is made in the type or location of such instrumentalities, except changes necessary because of a change in the class or grade of service.
- | | |
|--|-----------|
| Individual line or party line service, | |
| Each main station | \$1.50 |
| Each extension station | No charge |

CHARGES FOR MOVES AND CHANGES:

- A "move" is a transfer of telephone equipment from one location to another in the same room or building, under a continuing service.
- | | |
|---|--------|
| (a) For moving a telephone from one location to another in the same room | \$1.00 |
| (b) For moving a telephone from one room to another in the same building | \$2.00 |
| (c) For moving any other equipment from one location to another in the same room or building, a charge based on cost of labor and material. | |
- A "change" is a substitution of a different style or type of telephone instrument or a rearrangement of equipment or wiring made at the subscriber's request.
- | | |
|--|--|
| (a) For change in type or style of telephone set, no charge. | |
| (b) For all other changes in equipment or wiring, a charge based on the actual cost of labor and material. | |

SHORT TERM SEASON RATES:

- Season rates are based on contracts for a minimum term period of six months.
- Season rates are based upon the rates authorized for the class of service applied for, plus 50% thereof.
- All charges for service under short term season rates are payable in advance for the full season period, and no service connection charge is made.
- Subscribers under season contracts paying season rates may, after six months, change to monthly contracts at monthly rates. When changes are made to monthly contracts the usual service connection charge will be made. When a season contract is succeeded by a monthly contract, and when the full annual rate has been paid, exchange service will be rendered for the remainder of the annual period without further charge.

DIRECTORY LISTING FOR TENANTS SUB-LEASING PREMISES:

Residence subscribers who lease their premises for periods of less than one year and who request the Company to render service to their tenants without change in billing, may arrange for the listing of such tenants on "Information" records at the additional listing rate, the minimum charge for any listing period to be \$1.00. Listing of the tenant will be furnished provided the subscriber and the tenant do not occupy the premises at the same time. Bills covering all charges for exchange service, toll service and listing charges will be rendered in the name of the subscriber and the subscriber will be responsible for such charges.

SOUTHERN BELL TELEPHONE AND TELEGRAPH CO.

(Florida)

Incorporated

Long Distance Rates from Orlando, Fla.

The rates given below are for the initial period. An initial period of 5 minutes is allowed on Station-to-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. Rates to over 70,000 other points may be obtained by calling "Long Distance."

Where the Station-to-Station rate is 20 cents, a 25-cent rate applies if the charges are reversed.

Where the Station-to-Station rate is 10 or 15 cents, the Person-to-Person rate applies if the charges are reversed.

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service—Economic operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded. The general plan for furnishing telephone service as authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

Term Period of Contract—The Company's contracts covering the furnishing of telephone service are ordinarily for initial term periods of one month. Under some special conditions involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods. Season contracts are for minimum periods of six months and season rates are applicable thereunder. The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

Construction and Installation Charges—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service equipment or facilities furnished by the Telephone Company.

No charge is made for providing new pole line construction on public highways, when the subscriber is located within the base rate area.

No charge is made for providing and maintaining new pole line construction along public highways outside the base rate area, when such pole lines are to be used in serving subscribers in general.

Except as provided above, when an applicant for service is located outside of the base rate area in territory where new pole line construction is required and the cost of providing the necessary additional poles is more than three times the annual mileage charge for the circuit thereon, connection with the Telephone Company's system is provided in one of the following methods as the applicant may elect:

The subscriber may bear the cost in excess of the amounts specified above of providing the poles and pay extra exchange line mileage charges for the necessary circuit. Ownership of such poles is vested in the Telephone Company. Maintenance of poles and circuits is at the expense of the Telephone Company.

The subscriber at his own expense may furnish the portion of pole line and circuit from his location to an agreed upon point of connection with the Telephone Company's system. The subscriber is required to maintain or bear the expense of maintaining his portion of the pole line and circuit and also to bear the expense of installing and maintaining the station equipment, except that when the station is brought to the Company's central office for repairs, no labor expense incurred for such repairs is charged to the subscriber. The subscriber is charged extra exchange line mileage charges for that portion of the Telephone Company's circuit outside of the base rate area. Ownership of the portion of pole line and circuit provided by the subscriber is vested in the subscriber. Ownership of the station equipment is vested in the Telephone Company.

Poles on private property to be used in serving an individual subscriber must in all cases be furnished and maintained at the subscriber's expense. Ownership of such poles on private property is vested in the subscriber. No charge is made for furnishing and maintaining poles on private property when such poles are to be used to carry circuits serving subscribers in general. In such cases, ownership of poles on private property is vested in the Telephone Company. Whenever it becomes necessary to replace poles on private property, the new poles are furnished only in accordance with the arrangements specified above. All circuits on poles on private property are owned and maintained by the Telephone Company.

When a specified type of construction is desired by a subscriber, as for example, when underground service connections are desired in places where aerial drop wires are regularly used to reach subscriber's premises or where the individual requirements of a subscriber make the installation unusually expensive, the subscriber is required to bear the cost of such special construction or installation.

Service Connection Charges and Charges for Moves and Changes—A schedule of fixed charges is established covering the connection of a subscriber's station with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in detail in this directory.

Unauthorized Use of the Telephone—Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments—The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in con-

nection with any telephone directory furnished by the Telephone Company.

Changes of Call Numbers—In order to provide facilities for growth it is necessary for the Telephone Company to add new plant and rearrange existing plant. Such additions and rearrangements frequently require changes in call numbers. We appreciate that changes in call numbers are to be avoided where possible, and such changes are never made by the Telephone Company except when required by engineering necessity. The Company reserves the right to change the subscriber's telephone number or designation at any time.

Party Line Service—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariffs, is borne by the Telephone Company. The subscriber is billed the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station, and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation by the subscriber of the Telephone Company's rules and regulations applying to subscribers' contracts or to the furnishing of service, the Company may without notice, (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a restoration charge of \$1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such of the telephone service, equipment and facilities furnished as are rendered useless or inoperative. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

Public Pay Station Telephones—Public Pay Station telephones are equipped with coin collecting devices. These coin collectors are of two types. One type requires that the coin be deposited to signal the operator. If for any reason the connection is not completed, the operator will return the coin through slot at lower left of the telephone set. The other type of coin collector does not require the coin to be deposited until request to do so is made by the operator. Instruction cards are displayed with each public pay station telephone, explaining the operation and patrons should observe and follow those instructions when making calls.

Telegrams by Telephone—Telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram, call by name or dial the number given in the directory for the telegraph company desired. By arrangement with the Western Union Telegraph Company any telephone subscriber may have charges for messages received or sent by Western Union Telegraph Company charged to his telephone and collected with his telephone bill. (Fla.)

Faster Service at Minimum Rates

Number-Number toll service has been extended to include all of the exchanges shown below. The listings for these exchanges will be found in the back of this directory.

For "Number-Number" toll calls to these points, consult the directory and after securing the correct number, dial "Operator" and when she answers, give her your own telephone number and the name of place and telephone number desired. For example: "This is 3640 calling Winter Park 125." After giving the number to the operator, remain on the line until the called number answers or the operator reports on the call.

The exchanges to which this service is now given and the rates applicable are as follows:

Apopka	10	Mt. Dora	25
Clermont	25	Ocoee	10
Eustis	25	Sanford	20
Haines City	30	St. Cloud	20
Kissimmee	15	Tavares	25
Leesburg	30	Winter Garden	15
Winter Park	10		

To obtain the fastest possible service to these points at minimum rates place your toll calls by number.

This low cost speedy service applies to calls made by number only. Calls for particular persons must be given to "Long Distance" in the usual way.

This space is provided for your convenience in recording
Local and Out of Town Numbers Frequently Called.

NAME	City	Tel. Number

TRY THIS SERVICE

YOU can save money and get speedier service on long distance telephone calls by calling for the number of the distant telephone wanted, or if the number is not known, then tell "Long Distance" you wish to make a station-to-station call, giving the name of the person or business whose telephone you wish to call.

There is a reduction in rates for station-to-station service between the hours of 7 and 8:30 P. M. and a further reduction from 8:30 P.M. to 4:30 A.M. Charges on station-to-station calls may now be reversed.

Place your Long Distance calls by telephone number! This enables the operator to give you faster service.

If the number of the distant telephone is not known the operator will furnish it when completing your call. It should then be listed above for future use.

Give the number and speed up your service!

ORLANDO, FLA., SUBSCRIBERS

ALPHABETICAL LISTINGS

Employees of this Company are forbidden to accept either oral or written telephone messages to be transmitted by an employe of this Company over the lines of this Company.
In case of trouble with your telephone DIAL 114.

SAVE MONEY ON YOUR CALLS

Use Station to Station Service

Numbers of business men make a habit of notifying distant parties, by letter, the day and hour they expect to call by long distance telephone.

This enables them to use the quick, cheap station to station service with assurance that the desired party will be ready to talk.

Try this quick, cheap service. Ask Long Distance for rates and other information.

“One is *never* lonely
with the telephone near.”

“D O I mind being alone? Well, I can't say I'm frightfully keen about it, but there are worse things, you know. . . Exactly, one is never out of reach of one's friends with a telephone near. . . When Grant is away on one of these trips, he seldom fails to call me every evening by long distance. . . My dear, it's the best sort of tonic — just hearing his voice. . . No, I'm not a bit uneasy at night any more. It was his idea that we have an extension put in the bedroom, and you can imagine what a comfort it is, and besides it gives me such a complete sense of security.”

To be without a telephone in the home these days is to suffer the inconvenience of a darker Age—while its presence assures the utmost in expediency, comfort and protection.

SOUTHERN BELL TELEPHONE
AND TELEGRAPH COMPANY
(Incorporated)

A NATION OF NEIGHBORS

Modern methods of communication and transportation have made neighbors of 114 million American people. They have shattered the barriers of distance and unified the nation.

These public servants have brought about a common language, uniform customs and ideals in America. No equal area in the world is so firmly cemented together.

But the telephone is the quickest of them all. It will carry your voice instantly around the corner or across the continent.

"BELL SYSTEM"
SOUTHERN BELL TELEPHONE
AND TELEGRAPH CO.

Incorporated
One Policy, One System, Universal Service

Modern Homes Require Adequate Telephone Service

HAVING telephone service in the home is one thing—having adequate telephone service which will compare with other conveniences and comforts of the modern home is quite another.

The living room or library should certainly be provided with an extension telephone. Another should be in or handy to the kitchen. A telephone beside the bed is indispensable in time of illness or other emergency. Guests will appreciate the thoughtfulness of another telephone conveniently located upstairs.

Our Business Office, or any telephone man or woman, will be glad to secure full information for you about extension telephones, or special wiring plans.

This listing demonstrates how you may be represented under a heading that indicates a particular type of article or service

This is known as the extra line listing where a maximum of five lines is allowed, together with your name, address and telephone number

A trade-mark heading such as this enables you to tie in your name and telephone number with the national advertising of your product or service

A bold type listing such as this is most effective and has always been favored for its strong attention-getting value

This is a Cross Reference Heading to assist in locating Trade Mark Advertising

This is called an informational listing. It emphasizes your name, address and telephone number and provides space for additional information

Display advertising such as this is, of course, most productive. Space sizes range all the way from one-eighth of a page to a full page colored insert

Classified Telephone Directory

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

All subscribers (both residence and business) are listed alphabetically on the preceding white pages. The following pages (yellow) list only business subscribers.

Do You Advertise?

Your Advertisement in this directory will increase your business. The Telephone Directory remains always by the side of the means of giving the order—the telephone. It is permanently in the homes and offices of the leading people of the city.

Rates and information cheerfully given.

Call the Manager

Courtesy Between

Telephone Users

In this day and time it is trite to say that good telephone service depends upon courtesy and cooperation. But this is as true today as it was in 1879 when the telephone was regarded as a toy.

Telephone courtesy has been construed, by some, to apply solely to their attitude toward the operator. But that is only the beginning. True telephone courtesy is reflected in our treatment of the person we call and of those who call us—whether the call results in a wrong number or reaches the wrong person.

Then there is the other party on the line. He is entitled to our considerate treatment and he may even profit by our good example.

The telephone has become so essential in everyday life and the services of the operator are now so highly appreciated, that most people respond to the operators' efforts to help them. This courtesy and cooperation has added much to the pleasure and value of the telephone.

Courtesy between telephone users is now regarded as a good business practice, and as essential to satisfactory service.

ANOTHER social tragedy takes place when the Weems have dinner guests and Mr. Weems, discovering that his new grey suit is still at the tailors, makes a desperate effort to get at the only telephone in the house. And of course, Rollo, the vigilant poodle, spots him in the act! It seems hardly necessary to add that after this embarrassing incident Mrs. Weems' entreaties for an extension telephone in the bedroom will meet with ready approval. You just know that her lord and master will hie himself to the Business Office of the Southern Bell Telephone Company and order a second telephone installed forthwith.

Southern Bell Telephone and Telegraph Co.

An Advertising Medium That Gets Big Results

The Telephone Directory is indispensable. It goes into homes and offices and stays there in daily use.

It is a good advertising medium and enables you to keep your name hourly before telephone users at a very small cost.

Your advertisement in the Telephone Directory will reach a great number of people, a great number of times, both day and night, at a low cost.

Call our Business Office today and arrange for advertising space in the next issue of this directory.

We can't answer questions
and render *good service* at the
same time!

THERE was a time when the telephone operators could tell you where the fire was, the time of day, and the answers to a host of other questions.

But those leisurely days have gone! People now use their telephones more and expect fast and satisfactory service. To render such a service the operators must devote their whole time to it.

To ask telephone operators questions which are not directly concerned with the service itself is to imperil the serious needs of the community.

Those who refrain from making "curiosity calls" will materially aid us in maintaining a high standard of service.

Calling the Wrong Number is Knocking at the Wrong Door

Have you ever searched for the home of a friend in a strange neighborhood and accidentally knocked at the wrong door?

A similar inconvenience can be avoided when making a telephone call by consulting the directory before placing your call.

Calling the Wrong Number is Knocking at the Wrong Door

Have you ever searched for the home of a friend in a strange neighborhood and accidentally knocked at the wrong door?

A similar inconvenience can be avoided when making a telephone call by consulting the directory before placing your call.

How Quickly Do You Open Your Telephone Door?

YOUR telephone is a door to your establishment. In some lines of business more trade flows through it than through the office door.

The customer who calls on you by telephone deserves the same prompt, courteous attention that you give to the customer who visits you in person.

Always open your telephone door promptly.

The importance of prompt answers to telephone calls is being recognized more and more each day throughout the South. Ten years ago the answering delay was the cause of considerable annoyance and resulted in complaints about the service.

The improvement is due to the increasing importance and value of telephone service, but there is still opportunity for a great reduction in the delay in answering telephone calls.

It is both courtesy and good business
to open your telephone door promptly.

"BELL SYSTEM"
SOUTHERN BELL TELEPHONE
AND TELEGRAPH CO.

Incorporated

One Policy, One System, Universal Service

The Winter Park Telephone Company

(INCORPORATED)

WINTER PARK, FLA., SUBSCRIBERS

CARL H. GALLOWAY, Pres. & Gen. Mgr. WINFRED W. LEWIS, Sec. LENA K. GALLOWAY, Treasurer

OPERATORS ON DUTY ALL HOURS.

PAY STATIONS OPEN ALL HOURS.

Employees of this Company are forbidden to accept either oral or written telephone messages to be transmitted by an employe of this Company over the lines of this Company.
In case of trouble with your telephone Call 506.

Bell Telephone Service

Fills every requirement of the office and home. It is recognized as the standard of the world. We are striving to render a perfect service. Your suggestions and criticisms are invited.

“Another One of Those Wait-a-Minute Calls”

“**B**ILL, I feel like hanging up on a man who orders someone to get me on the telephone and then makes me wait until he is ready to talk.

“It is one of the biggest discourtesies in business today.

“My time is worth money. There’s no reason why I should waste it waiting for some man to complete a call HE started.

“If people who call me had as high regard for their time and my good will as I have for my time and their good will, they would do as I do when I start a call, be ready to talk the moment the connection is established.”

Of all bad telephone habits, the one most universally condemned by business men is the “wait-a-minute” habit. It is a habit that not only causes loss of time and business friendship, but often turns away profitable trade.

When YOU START A CALL, the courteous, business-like thing to do is to remain at your telephone and be ready to talk.

When YOU RECEIVE A CALL do what you want people to do when YOU call—answer promptly.
