SIMP Tool

- ▶ Initially designed to facilitate management between CONTENTdm and Rosetta, our preservation system

- ▶ Platform agnostic and modular, provides ability to use other DAMs/Preservation Systems

- ▶ Options for automatically extracting some metadata (format, OCR text)

- ▶ Updated in 2016 to support Solphal

The screenshot shows the SIMP Tool interface. At the top, there are navigation tabs: "Browse Servers", "Assess Packages", "Admin", "Queue (0)", and "Sandbox". Below these are action buttons: "Invert", "Select all", "Select without ARK", "Select unedited", "Select unsent", "Select unapproved", "Select cancelled", and "Select none". A dropdown menu shows "uu_wss - Western Soundscape" with options: "Set Collection", "Create ARKs", "Edit Metadata", "Approve", "Download Metadata", "Select Archival Destination", and "Queue for Ar".

The screenshot shows the homepage of the J. Willard Marriott Digital Library. At the top, there is a search bar with the text "Search" and a magnifying glass icon. Below the search bar is a large banner with a dark background and a geometric pattern of triangles. The banner contains the text "J. Willard Marriott Digital Library" in a large, white, sans-serif font. Below the banner, there is a paragraph of text: "The J. Willard Marriott Digital Library at the University of Utah hosts more than 250 digital collections, containing over 1 million digital photographs, maps, books, videos, audio recordings, and other items." Below the text, there are six white rectangular boxes arranged in a 2x3 grid, each containing a collection name and a brief description. The boxes are: "Delta City Library Beckwith Photograph Collection", "Shelley City History of Shelley Idaho", "University of Utah Partnerships Art and Art History Department PR Photographs American Flame Research Committee Alta Avalanche", "Department of Heritage and Arts", "Snow College Saga of The Sanpitch", and "Alta Avalanche".
