Pres. W. J. Kerr.
Logan. Utah.

Dear Sir -

At your request I
am sending a statement
of my training in agriculture,
also my experience as an
instructor and in experimental
work.

I graduated from Cornell
University June. 1902. with a
degree of B. S. C. After
graduation I instructed in
"agricultural chemistry" at the
same institution for over
a year - leaving to take

a position at the Rhode
Island Experiment Station.

Seeing the need of an
advanced degree, resigned
my position, and came to
Iowa to study for a master's
degree. My work here during
the past year has been along
the lines of Farm Crops,
Plant Breeding and Soil
Physics.

In the East I had some
experience talking at Farmer's
Institutes.

If any other information
or references are desired
would be only too glad

To send same.

Very truly yours
A. G. Lauder.
