FORT COLLINS, COLO., Oct. 14, 1902

President W.J. Kerr,
Logan, Utah.

Dear Sir:-

Mr. Ball, Associate Professor of Zoology and Entomology at this Institution, informs me that he desires to be considered as a candidate for the position of Entomologist at your Institution, and it is a pleasure for me to write a few words in his behalf.

Mr. Ball has been here for a number of years, during which time he has had extensive experience in his line of work. Numerous articles from his pen show that he has accomplished much desirable work. In fact he is authority on certain species of insects. He has shown himself to be a thorough student and a diligent investigator. He is a man of good moral character, has no bad habits, and takes well with the students.

Should Mr. Ball receive the appointment I am very sure you will not be disappointed in him as an instructor and investigator.

Socially, Mr. Ball and his estimable wife are very popular, and this is a feature not to be overlooked in a position like this.

Yours respectfully,

W. Paddock

Dic.M.M.
