DIVISION OF VETERINARY SCIENCE  
IOWA STATE COLLEGE  
AGRICULTURE AND THE MECHANIC ARTS

65

J. H. McNEILL, V. M. D., DEAN  
PROFESSOR OF VETERINARY MEDICINE AND SURGERY

AMES, IOWA

4/22, 1905.

President W. J. Kerr,  
Logan, Utah.

My dear Sir:-

I have had a conference with Mr. H. J. Frederick regarding his application for the position as Station Veterinarian and Agronomist at your station, and at his request I am writing you to-day.

I am not prepared to say that Mr. Frederick is thoroughly qualified in agronomy, and could take up the subject, and teach it without some preparation, but I can say that his veterinary work has been of a very high order, during his three years as a student in this division. During vacations he has made excellent use of his time in the laboratory of Pathology, thus gaining much practical knowledge, which would be of great value to him in Station work.

I am pleased to recommend Mr. Frederick as a competent, conscientious, practical and consistent worker. He is thoroughly acquainted with conditions in the west, has an intimate acquaintanceship with live stock, and his diplomacy would make him a valuable addition to your faculty, as well as to the state.

I will be pleased to furnish you with any further information regarding this young man, that you might desire.

Very truly yours,

*J. H. McNeill*
