Table 1 Principal Axis Analysis learning items

Item	Factor Loading (Rotated Varimax) 1
<b>Full set of 10 items</b> (Cronbach's $\alpha = 0.76$ )	
1. I believe that the threat from terrorism since 9/11 has been increasing in the UK.	.69
2. I agree that British laws have been more effective in curtailing terrorism in the UK since 9/11.	.47
3. I feel that stronger laws are needed to reduce the terrorist threat.	.86
4. I believe the media keeps me fully informed about issues related to terrorism.	.80
5. I actively seek out information about issues related to terrorism to more fully understand the issues involved.	.21
6. I feel that terrorism poses a threat to me personally	.41
7. I believe that terrorism has been fueled by British foreign policy.	-.03
8. I believe that terrorism is the most pressing security threat facing western countries.	.87
9. I believe I have an understanding of the type of person likely to carry out terrorist acts.	.42
10. I feel that the threat of terrorism is going to continue to increase in future years.	.57
<b>Optimised set of 8 items</b> (Cronbach's $\alpha = 0.82$ )	
1. I believe that the threat from terrorism since 9/11 has been increasing in the UK.	.69
2. I agree that British laws have been more effective in curtailing terrorism in the UK since 9/11.	.47
3. I feel that stronger laws are needed to reduce the terrorist threat.	.86
4. I believe the media keeps me fully informed about issues related to terrorism.	.80
6. I feel that terrorism poses a threat to me personally	.41
8. I believe that terrorism is the most pressing security threat facing western countries.	.87
9. I believe I have an understanding of the type of person likely to carry out terrorist acts.	.42
10. I feel that the threat of terrorism is going to continue to increase in future years.	.57
