Pres. W. J. Kerr,
Logan, Utah.

Dear Sir:- Your telegram came to hand yesterday. I am willing to accept your offer at one hundred twenty-five, with an increase after July if work is satisfactory.

My work at Cornell will demand my attention for two weeks yet, after which time I will be with you as soon as possible.

I would like to have a complete account of the work in horticulture and botany for the present term. What courses are being taken and how many students - in each course? I have your catalogue, but I am anxious for additional information which will enable me to outline the work and be ready to take it
