President W. J. Kerr,  
Logan, Utah.

Dear Sir:-

At the risk of seeming importunate, I write again to say that for some time I have been anxious to become identified with educational work in the west, and therefore to request you to keep my application on file in case the opportunity which I seek should present itself later on. If it is not an inconvenience to you, I should like to give you information regarding my qualifications to be filed with my application.

I graduated in 1898 from the Classical

and Teachers Courses of the University of Minnesota. My teacher's certificate was made "permanent" four years ago. During the six years since graduation, my position has been that of high school principal, my work, Latin, Mathematics and English.

As an applicant for the position of instructor in history, I can urge the completion of a fine course in that subject while I was a student at the University, and the historical work which I have taken up with my literature classes in a two year course.

Yours very truly,

Nina T. Updyke.
