### ALUMNAE AND THE ALUMNAE ASSOCIATION

**I**N THE twenty years since Harrisonburg Teachers College had its first graduating class, 2136 girls have received their professional diplomas, and since 1919, when the B. S. degree was first offered, 469 have received degrees. The constantly growing number of graduates can be noted in the tabulation arranged by the registrar and printed on page 109. See especially columns X and XII.

The Alumnae Association is the organization that holds together these graduates and other old students. Through it, love for their Alma Mater is perpetuated and the best interests of the college are furthered. There is one day during Commencement week set apart as Alumnae Day, on which the Association meets in regular session for the election of officers and for the consideration and discussion of policies in the interest of the school. On this same day the

Alumnae meet socially at the banquet with the graduating classes, who automatically become members of the Association, and with the faculty, thus keeping alive the fine fellowship they enjoyed on the campus. The work of the Association is centralized and directed by an Alumnae secretary, who has her office at the college.

The following list shows Alumnae chapters or clubs that have been organized or re-organized by Mrs. Dorothy Spooner Garber within the last four years, since she has been secretary. These clubs do a great service to the college. They stand ready to entertain representatives of the college, from both faculty and student organizations, visiting in their vicinity; they gave, with the aid of the faculty and other friends in Harrisonburg and elsewhere, approximately \$13,000 to Alumnae Hall, the cornerstone of which was laid in June, 1921; they have given generously to the Johnston Memorial Scholarship Fund, the amount at present being approximately \$1,000; they assist especially in sending new girls to this college.

More than 1900 graduates or former students of Harrisonburg State Teachers College are either teaching or serving in the capacity of principal or supervisor in the public elementary and high schools of Virginia alone this year. Many are teaching in the

schools of various other states, for instance, Charleston, West Virginia, Winston-Salem, North Carolina, Greenville, South Carolina, Baltimore, Maryland.

The following tabulation shows the number teaching in the counties and cities of Virginia.

STUDENT ENROLMENT

THE above tabulation gives the summary of the enrolment and the number of graduates by years since the foundation of the college and the number of counties of the state represented in the student body during the summer and winter sessions by years. The variation in attendance in the summer sessions is due largely to the change in the method of certification of teachers in the state.

Column IV shows the significant fact that except for the years immediately following the World War practically a steady increase in the number of students has taken place from year to year, and it is a notable fact that the college has built up a student

body of more than eight hundred students within the first twenty years of its existence. Columns III and V show the spread of the student body over the state. Particularly in column V there is shown a steady increase in the number of counties served by this institution each year from its beginning to the present. It is noticeable that for the last four years an average of eighty-five out of the hundred counties in Virginia have been represented in the student body. Our records show that a number of states besides Virginia have been served by this institution each year, never less than five states besides Virginia being represented in the student body in any one year and as many as fifteen states besides Virginia. In
