If you wish your paper to be OnlineOpen you are required to complete the OnlineOpen payment form available from our website at: https://authorservices.wiley.com/bauthor/onlineopen_order.asp

OnlineOpen is available to authors of primary research articles who wish to make their article available to non-subscribers on publication, or whose funding agency requires grantees to archive the final version of their article. With OnlineOpen the author, the author's funding agency, or the author's institution pays a fee to ensure that the article is made available to non-subscribers upon publication via Wiley Online Library as well as deposited in the funding agency's preferred archive.

In addition to publication online via Wiley Online Library, authors of OnlineOpen articles are permitted to post the final, published PDF of their article on a website, institutional repository, or other free public server, immediately on publication.

Your article cannot be published until you have signed the appropriate license agreement. Within the next few days you will receive an email from Wiley's Author Services system which will ask you to log in and will present you with the appropriate license for completion.

Please note that, effective with the 2013 volume, this journal will be published in an online-only format. All normal author benefits, and services remain in place, e.g. authors will continue to be able to order print offprints and or reprints of articles if required.

Thank you for your fine contribution. On behalf of the Editors of the European Journal of Cancer Care, we look forward to your continued contributions to the Journal.

Yours sincerely,

Dr. Natalie Pattison
