Correct to: High Capacity Transmission with Few-Mode Fibers

Georg Rademacher, Ruben S. Luís, Benjamin J. Puttnam, Tobias A. Eriksson, Roland Ryf, Erik Agrell, Ryo Maruyama, Kazuhiko Aikawa, Yoshinari Awaji, Hideaki Furukawa, and Naoya Wada

Fig. 10: System MDL for all 348 spatial super channels after 1045 km transmission distance.

I. CORRECTIONS

The following figures had wrong captions. They should read:

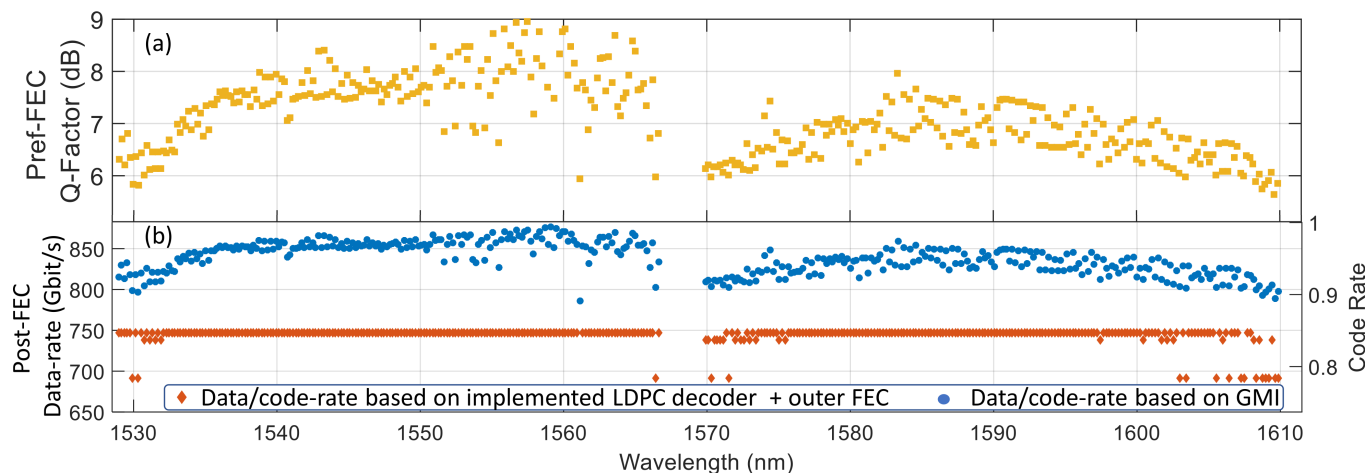

Fig. 11: (a) Q-factors of 381 64-QAM spatial super channels after 30 km transmission. (b) Blue circles show the achievable post-FEC data-rate on the left axis and the corresponding code-rates with an ideal code, calculated with the generalized mutual information. Red diamonds show the actual post-FEC data-rates and corresponding code-rates after decoding with the implemented LDPC coding scheme.
