1990 BASEBALL GUIDE

State University of New York College at Cortland

Located atop one the rolling hills in central New York's "City of Seven Valleys," the State University of New York College at Cortland was founded in 1868 as the Cortland Normal School, which included among its earlier students inventor and industrialist Elmer A. Sperry of Sperry-Rand Corp. frame.

Over the decades, the campuses expanded and in 1941, by an act of the legislature and the Board of Regents, the institution officially became a four-year college providing courses leading to a bachelor's degree. In 1948, Cortland College was a founding member of the State University of New York

Today more than 5,600 undergraduate and 600 graduate students are pursuing degrees within the colleges two academic divisions - Arts & Sciences and Professional Studies. Twenty-three departments with a faculty of more than 300 offer the Cortland State student body some 40 majors from which to chose including economics, biology, sociology, elementary and secondary education, physical education, health education and recreation to name a few.

The College's main campus covers 191 acres and includes 30 major buildings. Fourteen of these structures are residence halls providing on-campus housing for 2,600 students. Cortland also operates its Outdoor Education Center at Raquette Lake in the Adirondacks, the Hoxie Gorge Nature Preserve outside Cortland, and the Brauer Memorial Geological field station near Albany on the Helderberg Escarpment.

At Cortland State athletics are viewed as having an important role in the educational mission of the College. During the fall, winter and spring seasons, Cortland participates in 24 intercollegiate sports - 12 men's and 12 women's - in an attempt to provide a broad program which meets the needs, interests and abilities of its students.

The stated objective of the College's athletic program is the development and welfare of the student. In the coaching of individual sports as well as in the direction of the overall athletic program, the College endeavors to provide a high calibre of professional leadership consistent with the goals of the institution.

Cortland State is particularly proud of its long tradition of intercollegiate athletics and its high standing in small college athletic circles. In support of this heritage, the College offers its student athletes - some 800 annually - a number of outstanding and indoor facilities for intercollegiate competition, as well for educational and recreational purposes.

The Park Center for Physical Education and Recreation opened in 1973, features a main gymnasium with a 3,600 seating capacity; an Olympic-sized swimming pool with gallery seating for 1,500; an ice arena which can accommodate 2,500 spectators; racquetball and squash courts, a wrestling room, and modern athletic training facilities. Nearby Lusk Field House, with its new tartan-textured surface, is home for the indoor track teams, varsity practice sessions and recreational activities. The Red Dragon football and

lacrosse squads compete on Davis Field, with its 5,000 seating capacity. Cortland soccer teams play on newly revamped Holloway Field, which has lights for night contests. The College has 50 acres of athletic fields and 24 outdoor tennis courts.
