

INDEX OF ABSTRACTS

SA HEART CONGRESS 2011

SCIENTIFIC ABSTRACTS	224
Increase in circulating NT-proBNP in hypertension: An effect of left ventricular mass or pump dysfunction? Haroon Abbasi, Elena N. Libhaber, Gavin R. Norton, Angela J. Woodiwiss, Karen Sliwa and Mohammed R. Essop	224
Is diastolic dysfunction in hypertension closely related to left ventricular hypertrophy in patients of African ancestry? Haroon Abbasi, Elena N. Libhaber, Gavin R. Norton, Angela J. Woodiwiss, Karen Sliwa and Mohammed R. Essop	224
Pump dysfunction in hypertensive hypertrophy: Relative role of myocardial dysfunction versus adverse chamber remodelling in patients of African ancestry Haroon Abbasi, Elena N. Libhaber, Gavin R. Norton, Angela J. Woodiwiss, Karen Sliwa and Mohammed R. Essop	225
Left atrial appendage closure with Amplatzer Cardiac Plug in atrial fibrillation: Initial South African experience Mark Abelson	225
Two-year clinical outcomes after Sirolimus-eluting stent implantation for the treatment of coronary artery disease in a sample of South African patients Jamila Khatoon Adam, Wafaa Rmaih, Ashika Harrypaul and Robin Dyer	226
Red or white wine: Which 1 should you drink to protect your heart? Zulfah Albertyn, Kim Lamont, Lionel Opie, Sara Vitalini, Claudio Gardana, Marcello Iriti and Sandrine Lecour	226
Baseline characteristics and demographic differences of patients implanted with an Implantable Cardioverter Defibrillator in PANORAMA-Gulf observational study F. Al-Kandari, R. Sweidan and M. Al Fayyadh	227
Cardiac hypertrophy modified: The modulating effect of a TPM1 gene variant on hypertrophy in a hypertrophic cardiomyopathy cohort Liezl Bloem, Lize van der Merwe, Miriam Revera, Craig John Kinnear, Marshall Herandien, Althea Goosen, Paul Brink and Johanna C. Moolman-Smook	227
Left ventricular diverticulum presenting as a pulsating umbilical mass D.G. Buys, S.C. Brown and M. Long	228
Association of renin gene haplotype with hypertrophy in hypertrophic cardiomyopathy Nadia Carstens, Lize van der Merwe, Miriam Revera, Marshall Herandien, Althea Goosen, Paul A. Brink and Johanna C. Moolman-Smook	228

A case of idiopathic right ventricular tachycardia arising from the body of the right ventricle Ashley Chin and Jeff Healey	229
<hr/>	
Intracardiac thrombi in children with dilated cardiomyopathy Antoinette Cilliers, Paul Adams and Gcina Dumani	229
<hr/>	
Metabolic and clinical changes in patients with acute coronary syndrome undergoing on-pump and off-pump coronary artery bypass surgery Altia Crous, Lizelle Botes, Francis Edwin Smit and Christiaan Johannes Jordaan	230
<hr/>	
Myocardial infarction: injection of a biomaterial after 1 week is superior to immediate treatment Neil H. Davies, Karen Kadner, Stephan Dobner, Thomas Franz, Mazin S. Sirry, Deon Bezuidenhout and Peter Zilla	230
<hr/>	
Sphingosine-1-Phosphate (S-1-P) and glucose: A new therapeutic approach to acute heart failure (AHF) Gaurang Deshpande, Sandrine Lecour and Lionel H. Opie	231
<hr/>	
Transcatheter based aortic valve implantation at 5 years. What happened to our initial patients? Mirko Doss, Andreas Zierer and Anton Moritz	231
<hr/>	
Morbidity and mortality associated with anomalous origin of pulmonary artery from aorta; review of case seen at Chris Hani Baragwanath Academic Hospital G. Dumani, P.A. Adams and A.M. Cilliers	232
<hr/>	
A prospective study based on a cohort from the PANORAMA study evaluating CRT non-responders, hyper-responders and super-responders Ifthikhar Osman Ebrahim, Adele van der Walt and Riaan Meyer	232
<hr/>	
Evaluation of QT interval in β thalassemia major and intermedia patients compared with control group Behzad Farahani, Mohammad Amin Abbasi and Nazila Ghoreishi	233
<hr/>	
The use of echocardiography in predicting left ventricle thrombus in patients with idiopathic dilated cardiomyopathy at Chris Hani Baragwanath Academic Hospital Claudia Marisa Goncalves Ferreira Dos Santos, F.E.E. Peters, J.K. Adam, Elena N. Libhaber and Mohammed R. Essop	233
<hr/>	
Desmoplakin gene mutations: A common link between arrhythmogenic right ventricular cardiomyopathy and dilated cardiomyopathy Maryam Fish, Gasnat Shaboodien, Neil Hendricks, Peter J. Schwartz and Bongani M. Mayosi	234
<hr/>	
A retrospective review of rheumatic mitral valve repair in a threshold country Agneta Geldenhuys, Jithan J. Koshy, Paul A. Human, Juliana F. Mtswale, Johan G. Brink and Peter Zilla	235
<hr/>	
LV diastolic function and filling pressure assessment using the time intervals changes on the mitral inflow and mitral annular velocities Fei Qiong Huang	235

Cardioprotective effects of DPP4 inhibition in obese, insulin resistant rats Barbara Huisamen, Amanda Genis, Erna Marais and Amanda Lochner	235
Changes in RAAS (renin angiotensin aldosterone system) biomarkers in stable chronic heart failure (HF) patients following short-term angiotensin receptor neprilysin inhibitor (ARNI) treatment P. Jordaan, D. Albrecht, A. Feng, P. Chandra, Z. Kobalava, O. Averkov, L. Alexandriya, I. Meray and V. Moiseev	236
Study of markers of inflammation as predictors and prognosticators of Acute Coronary Syndrome (ACS) in patients with acute chest pain Pralhad Karki, N.K. Pandey, P. Acharya and N.K. Shrestha	237
Telomere dynamics in premature coronary artery disease Sajidah Khan, Anil Chuturgoon, Devapregasan Moodley and Alisa Phulukdaree	237
Evaluation of the AMPK alpha 1 gene (PRKAA1) as a possible modifier of cardiac hypertrophy in hypertrophic cardiomyopathy Craig John Kinnear, Kashefa Carelse-Tofa, Nadia Carstens, Paul A. Brink and Johanna C. Moolman-Smook	238
Percutaneous pericardioscopy in tuberculous pericarditis: improving the diagnostic yield Charles G. Kyriakakis, Helmuth Weich and Anton F. Doubell	238
Ischaemic post conditioning confers protection via TNFalpha: Identifying the cellular origin of TNFalpha Lydia Lacerda, Muazzam Jacobs, Lionel H. Opie and Sandrine Lecour	239
What triggers ischaemic or pharmacological preconditioning? Evidence for a role for ERKp44/p42 and PKB/Akt Amanda Lochner, Dirk Loubser and Ruduwaan Salie	239
Initial experience with the Biosense Webster Thermocool SF catheter in 3D mapping-guided robotically assisted RF ablation of atrial fibrillation Faizel Lorgat, Patricia Mc Carthy, Evan Pudney and Helena van Deventer	240
Pericardial Constriction: Haemodynamics in a nutshell Wayne Lubbe, Anton F. Doubell and Philip Herbst	240
Angiographic prevalence of epicardial coronary artery disease in black hypertensive patients with systolic left ventricular dysfunction Nirvarthi Maharaj, Chris Zambakidies, Elena N. Libhaber, Ferande Peters and Mohammed R. Essop	241
Left ventricular twist mechanics in normal black subjects Nirvarthi Maharaj, F. Peters, Elena N. Libhaber, F. Mamdoo, S. Govender and Mohammed R. Essop	241
Patterns of left ventricular remodelling and ejection performance in black South African hypertensive patients with heart failure Nirvarthi Maharaj, Ferande Peters, Elena N. Libhaber and Mohammed R. Essop	242

Tetralogy of Fallot and major arterial thrombosis – an unusual presentation of a common complication Samina Mahmud Yakooob and Lungile Pepeta	242
Left ventricular function impairment in young adults with mitral valve prolapse Eduard Malev, Eduard Zemtsovsky, Svetlana Reevea and Eugeny Timofeev	243
The Transoesophageal Echocardiography Registry of Chris Hani Baragwanath Academic Hospital (TORCH) Farouk Mamdoo, Anupa Patel, Ferande Peters and Mohammed R. Essop	243
Coronary artery disease in pregnancy Rossy Mamotabo Matshela	244
Retrospective study in patients presenting with coronary artery disease complicated by conduction defects requiring pacing; to define the benefits of RV pacing and its long-term prognostic implications Rossy Mamotabo Matshela	245
Beta Blocker tolerability in a dedicated heart failure clinic Keir McCutcheon, Nqoba Tsabedze, Pravin Manga, Darryl Smith and Eric Klug	245
Electrocardiographic findings in patients with isolated left ventricular non-compaction Ruchika Meel, Ferande Peters and Mohammed R. Essop	246
Total anomalous pulmonary venous connection - case report of an unusual drainage pattern Firoza Motara, Tania Pillay, Willy Hendson and Deliwe Ngwezi	246
The identification of a novel TNNI3 gene mutation in South African patients with hypertrophic cardiomyopathy Jacoba Martina Mouton, Adriano S. Pellizzon, Althea Goosen, Paul Andries Brink, Craig John Kinnear and Johanna C. Moolman-Smook	247
Pulmonary arterial hypertension in patients with idiopathic dilated cardiomyopathy Krinesh Naidoo, Ferade Peters, Anthony Charles Becker, Elena N. Libhaber and Mohammed R. Essop	248
Relationship between body mass index and arterial stiffness in HIV positive participants and HIV negative participants Nangamso Ndunam, K.O. Awotedu and A.V. Namugowa	248
Review of South African data for obese and non-obese patients George Nel, Eric Klug, Lizelle van Zyl, Dian Hobson and Phillip Venter	249
WellScreen: Review of real world data in South Africa George Nel, Eric Klug, Lizelle van Zyl, Dian Hobson and Phillip Venter	249

Utility of cardiac MRI (CMR) at a large referral hospital in South Africa – the Chris Hani Baragwanath Academic Hospital experience Mashudu Richard Nethononda, Blandina Nkutha, Nokuthula Mlaba, Neo Ndlovu and Mohammed R. Essop	250
Management of coronary cameral fistulae in a paediatric population Andiswa Nzimela, Ebrahim G.M. Hoosen, Noel J. Buckels and Darshan Reddy	250
Chronic rheumatic heart disease in Abeokuta, Nigeria: Data from the Abeokuta Heart Disease Registry Okechukwu Samuel Ogah, Elisha I. Ogbodo, Chibuikwe E. Nwafor, Ayodele O. Falase, Simon Stewart and Karen Sliwa	251
Markers of left and right ventricular remodelling in a Nigerian hypertensive cohort Dike Bevis Ojji, Lydia Lacerda, Sandrine Lecour, Matthew Adeyemi Billyrose and Karen Sliwa	251
Spectrum of hypertension and hypertension-related diseases in Abuja, Nigeria Dike Bevis Ojji, Samuel O. Ajayi, Manmark H. Mamven, Jacob Alfa and Karen Sliwa	252
Pacemaker implantation in South Africa: Implant practices and differences in indications, modes and demographics from the Panorama Registry Andrzej Okreglicki	253
Differentiating between transanastomotic and transmural endothelialisation: An isolation-loop-graft model in the Wistar rat Tim Pennel, Peter Zilla and Deon Bezuidenhout	253
Ductal closure using Amplatzer Duct Occluder Type II, early experience in Port Elizabeth Hospital Complex, South Africa Lungile Pepeta and Samina Mahmud Yakoob	254
Chronic diseases of lifestyle risk profiling in an urban African community: An essential role for healthy living intervention strategies S. Pretorius, S. Stewart, M. Carrington and Karen Sliwa	254
Anomalous left coronary artery to pulmonary artery (ALCAPA) patients in Red Cross War Memorial Children's Hospital Beyra Rossouw, L. Zuhlke and J. Lawrenson	255
Does the treatment of HIV infection have significant impact on body composition, lipid profile, adiponectin level and resting energy expenditure? Zono Sinethemba, Kofo Awotedu and Benjamin Longo Mbenza	256
Anthracycline-induced-cardiotoxicity: Role of proteolytic pathways Balindiwe Sishi, Ben Loos and Anna-Mart Engelbrecht	256

Retrospective audit of percutaneous balloon mitral valvuloplasty: Experience over the last 14 years at Tygerberg Hospital Zane Stevens and Anton F. Doubell	257
Micro vascular endothelial cell responses to inflammatory stimulation Hans Strijdom, Corli Westcott, Mashudu Mudau, Sam van Rensburg and Amanda Genis	257
Familial aggregation of dilated cardiomyopathy in patients with peripartum cardiomyopathy Kemi Tibazarwa, Karen Sliwa, Ambrose Wonkam, John Stevens, Andrew Boulle and Bongani Mayosi	258
Identification of novel titin-interacting sarcomeric proteins and their possible roles as modifiers of hypertrophy in hypertrophic cardiomyopathy Carol Todd, Johanna C. Moolman-Smook and Craig John Kinnear	258
Screening for cardiac disease using computer-assisted auscultation Liesl Zühlke, B. M. Mayosi and L. M. Myer	259
The unmet needs of children with rheumatic heart disease: First insights from REMEDY Liesl Zühlke, Mark Engel, Ganesan Karthikayan, Koon Teo, Alexia Joachim, Rezeen Daniels, Salim Yusuf and Bongani Mayosi	259

ABSTRACTS OF CONGRESS PRESENTATIONS

260

When God does not want me to die Graham A. Cassel	260
Rheumatic heart disease in pregnancy Blanche Cupido, Karen Sliwa, Bongani Mayosi and P.J. Commerford	260
The recognition and surgical management of chronic pulmonary thromboembolic disease R.W. Girdwood	261
An update of pharmacogenetics J.W. Jukema and J.J. Verschuren	262
Update on women and cardiovascular disease Naomi Rapeport	263
Anti-coagulation in pregnancy Vera Regitz-Zagrosek	263

Gender in Pharmacotherapy Vera Regitz-Zagrosek	264
Female sex and oestrogen receptor-beta attenuate cardiac remodelling and apoptosis in pressure overload Vera Regitz-Zagrosek	264
Update on lipid management in South Africa Colin Schamroth	265
Genetic testing for sudden death: Who, Why, and When? Peter J. Schwartz	265
Aortic valve and the advances in the role of imaging (ECHO & CMR) Joseph Selvanayagam	266
Cardiac function – how does CMR measure up to ECHO? Joseph Selvanayagam	266
CMR assessment of myocardial viability – the new kid on the block Joseph Selvanayagam	266
CMR assessment of unusual cardiomyopathy Joseph Selvanayagam	267
Cardiomyopathy in pregnancy Karen Sliwa	267
Assessment of pulmonary hypertension in the catheter laboratory James L. Wilkinson	268
Cardiac function long-term after the Fontan operation James L. Wilkinson	268
The pursuit of excellence - Setting the bar high James L. Wilkinson	269
