Conflict of interest statement

The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest

Author contribution statement

CG submitted the correction

Keywords

Drama, Art Therapy, Prison population, Mental Disorders, Addiction, substance use disorders

Contribution to the field

In the published article, there was an error regarding the affiliations for Caroline Gabrysch. As well as having affiliations 3 and 4, she should also have (*) as the second corresponding author. The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated. In the originally submitted manuscript it was planned to have APM and CG both as corresponding authors. CG was responsible for the Submission and thought that checking the correspondance field in the authors section is sufficient. Apparently the correct notice in the manuscript itself was missing. We apologize for this error.

Corrigendum: Initiating Change of People With Criminal Justice Involvement Through Participation in a Drama Project: An Exploratory Study
