

VMBO 2020

14th International Workshop on Value Modelling and Business Ontologies

Proceedings of 14th International Workshop on Value Modelling and Business Ontologies

Brussels, Belgium, January 16-17, 2020.

Edited by

Ben Roelens *
Wim Laurier **
Geert Poels ***
Hans Weigand ****

* Open Universiteit, Heerlen, The Netherlands

** Université Saint-Louis, Brussels, Belgium

*** Ghent University, Ghent, Belgium

**** Tilburg University, Tilburg, The Netherlands

Table of Contents

- Preface

Session 1: Data Ecosystems

- Data Ecosystems – Fuelling the Digital Age (invited paper) 1-4
Henderik Proper
- Privacy Value Modeling: A Gateway to Ethical Big Data Handling (full paper) 5-15
Syeda Sohail, Johannes Krabbe, Patrício Silva, Faiza Bukhsh
- Architecture and Value Analysis of a Blockchain-Based Electronic Health Record Permission Management System (short paper) 16-24
Michaël Verdonck, Geert Poels
- Ontological Architecture for Knowledge Management – Applied to Global Parts Logistics (IBM)(short paper) 25-32
Sander Nijbakker

Session 2: Enterprise Modeling

- Digital Enterprise Modelling — Opportunities and Challenges (short paper) 33-40
Henderik Proper
- Why a Value-oriented Process Modelling Concept is Needed (short paper) 41-48
Mark von Rosing, Georg Etzel
- Meta-Study of Enterprise Modelling – Why and How (invited paper) 49-53
Mijalche Santa, Geert Poels
- e-GPS - The Need for an Enterprise Navigation System (short paper) 54-61
Hans-Jürgen Scheruhn, Mark von Rosing

Session 3: Enterprise Architecture

- Leading the Practice in Layered Enterprise Architecture (short paper) 62-69
Simon Polovina, Mark von Rosing, Georg Etzel
- The Need and Requirements to a Strategy Ontology (short paper) 70-77
Jamie Caine, Mark von Rosing
- An Ontology of IS Artefacts – Some Questions (short paper) 78-83
Hans Weigand, Paul Johannesson, Birger Andersson
- How to Go about Enterprise Standardization (short paper) 84-91
Thomas Olsen, Mark von Rosing

Session 4: Digital Transformation

- Introduction to the Digital Transformation Lifecycle (short paper) 92-99
Mark von Rosing, Georg Etzel
- Digital Transformation of Manufacturing Record Books – an Ontology-based Case Study (short paper) 100-107
Bjørn Jæger, Beni Ruef
- Extending e3tools to Assess Adoption Chain and Co-Innovation Risks (short

- paper) 108-116
Alejandro Arreola González, Jens Wittenzellner, Helmut Krcmar
- Productization of Business Models by Affordance (short paper) 117-124
Anders W. Tell

Session 5: Value Networks

- Governance in Peer-to-Peer Networks Is a Design Problem (short paper) 125-132
Fadime Kaya, Jaap Gordijn, Roel Wieringa, Marc Makkes
- Defining Sharing Economy, Marketplace and Other Service Platform Related Concepts: a Reference Ontology Approach (short paper) 133-138
Thomas Derave, Tiago Prince Sales, Geert Poels, Frederik Gailly
- The Value Management Platform and ArchiMate – Towards an Integration? An Illustrative Example for Value Stream Mapping (full paper) 139-148
Geert Poels, Kathleen Nollet, Ben Roelens, Henk de Man, Theodoor van Donge
- Modelling Services of Cooperatives of Autonomous Workers to Create a Space for Autonomy and Security (short paper) 149-156
Samuel Desguin, Wim Laurier

Session 6: Formal Semantics

- An Ontological Account of the Action Theory of Economic Exchanges (full paper) 157-169
Daniele Porello, Giancarlo Guizzardi, Tiago Prince Sales, Glenda Amaral, Nicola Guarino
- Towards a Reference Ontology of Money: Monetary Objects, Currencies and Related Concepts (short paper) 170-178
Glenda Amaral, Tiago Prince Sales, Giancarlo Guizzardi, Daniele Porello, Nicola Guarino
- Formalising Commitments Using the Event Calculus (full paper) 179-190
Joost de Kruijff, Hans Weigand

Session 7: Decentralized Accounting

- Market Information Systems based Reporting (full paper) 191-201
Ivars Blums, Hans Weigand
- Traditional Accounting with Decentralised Ledger Technology (short paper) 202-208
Wim Laurier, Walter S.A Schwaiger, Simon Polovina
- Expressing Contracts and Equity Using REA Semantics (short paper) 209-216
Mike Bennett
- Augmenting Value Stream Mapping by Possession, Ownership and Availability (short paper) 217-221
Pavel Hruby, Christian Scheller
- The Metaphysics of Internal Controls (short paper) 222-230
Graham Gal
