Dear Jim:

Upon my return from my trip abroad I find your letter of August 3, and I am glad to know that you had such an interesting trip to the meeting of the Forest History Foundation in June. I wish I could have been with you.

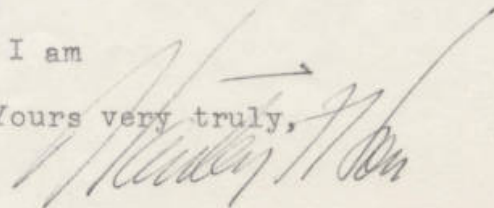

Needless to say, I am very much interested in your plan to have a session of lumber history at the annual meeting of the American Historical Association. Dean Blegen will make an excellent moderator for such a session, and Elwood Maunder should be able to prepare a good paper on the work of the Foundation.

As you can probably realize, I am going to be quite busy between now and Christmas working on our Christmas (Diamond Jubilee) Issue, which will celebrate our 75th Anniversary. At this time I shudder at the thought of trying to write such a paper as you suggest between now and the time of the meeting of the American Historical Association. At the same time, I appreciate all you have done in this connection, and I want to help out if I possibly can. How long a paper would you suggest? I shall be doing some research in the history of the Southern Lumberman anyhow and perhaps I could prepare something between now and Christmas.

Your friend, Mr. Nollie Hickman, was in the office yesterday, working in some of our back numbers, and I had some talk with him regarding the article he is going to write for our Christmas Issue. He seems to have done a lot of research work, and ought to be able to prepare a good article.

With best wishes, I am

Yours very truly,
