ARTICLE 1. APPLICATION OF REGULATION S-X

Rule 1-01. Application of Regulation S-X.

(a) This regulation (together with the Accounting Series Releases) states the requirements applicable to the form and content of all financial statements required to be filed as a part of—

(1) Registration statements under the Securities Act of 1933, except as otherwise specifically provided in the forms which are to be used for registration under this Act;

(2) Registration statements under section 12 and annual or other reports under sections 13 and 15(d) of the Securities Exchange Act of 1934, except as otherwise specifically provided in the forms which are to be used for registration and reporting under these sections of this Act;

(3) Registration statements and annual reports filed under the Public Utility Holding Company Act of 1935 by public utility holding companies registered under such Act; and

(4) Registration statements and annual reports under the Investment Company Act of 1940.

(b) The term “financial statements” as used in this regulation shall be deemed to include all supporting schedules.

Amended para. (a) Mar. 20, 1968, Rel. AS-111, eff. Mar. 20, 1968.

Rule 1-02. Definitions of Terms Used in Regulation S-X.

Unless the context otherwise requires, terms defined in the General Rules and Regulations or in the instructions to the applicable form, when used in regulation S-X, shall have the respective meanings given in such instructions or rules. In addition the following terms shall have the meanings indicated in this rule unless the context otherwise requires:

Affiliate.—An “affiliate” of, or a person “affiliated” with, a specified person, is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.

Bank holding company.—The term “bank holding company” means a person which is engaged, either directly or indirectly, primarily in the business of owning securities of banks, for the purpose and with the effect of exercising control.

Control.—The term “control” (including the terms “controlling,” “controlled by” and “under common control with”) means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Equity security.—The term “equity security” means any stock or similar security; or any security convertible, with or without consideration, into such a security, or carrying any warrant or right to subscribe to or purchase such a security; or any such warrant or right.

Fifty-percent owned person.—The term “fifty-percent owned person” means a person in respect of which the registrant owns directly or indirectly approximately 50% of the voting securities and approximately 50% of the voting securities of such person is owned directly or indirectly by another single interest.

Majority-owned subsidiary.—The term “majority-owned subsidiary” means a subsidiary more than fifty percent of whose outstanding securities representing the right, other than as affected by events of default, to vote for the election of directors, is owned by the subsidiary’s parent and/or one or more of the parent’s other majority-owned subsidiaries.

Material.—The term “material,” when used to qualify a requirement for the furnishing of information as to any subject, limits the information required to those matters as to which an average prudent investor ought reasonably to be informed before purchasing the security registered.

Parent.—A “parent” of a specified person is an affiliate controlling such person directly, or indirectly through one or more intermediaries.

Principal holders of equity securities.—The term “principal holders of equity securities,” used in respect of a particular registration statement or report, means the persons named in the item of such statement or report calling for holders of record or beneficial owners of more than 10 percent of any class of equity securities. If the particular statement or report contains no such item, the term means the persons named in the most recent related registration statement, application or report of the registrant which contains such an item.

Registrant.—The term “registrant” means the issuer of the securities for which an application, a registration statement, or a report is filed.

Significant subsidiary.—The term “significant subsidiary” means a subsidiary meeting any one of the following conditions:

(a) The assets of the subsidiary, or the investments in and advances to the subsidiary by its parent and the parent’s other subsidiaries, if any, exceed 15 percent of the assets of the parent and its subsidiaries on a consolidated basis.

(b) The sales and operating revenues of the

subsidiary exceed 15 percent of the sales and operating revenues of its parent and the parent’s subsidiaries on a consolidated basis.

(c) The subsidiary is the parent of one or more subsidiaries and together with such subsidiaries would, if considered in the aggregate, constitute a significant subsidiary.

Subsidiary.—A “subsidiary” of a specified person is an affiliate controlled by such person directly, or indirectly through one or more intermediaries.

Totally-held subsidiary.—The term “totally-held subsidiary” means a subsidiary (a) substantially all of whose outstanding securities are owned by its parent and/or the parent’s other totally-held subsidiaries, and (b) which is not indebted to any person other than its parent and/or the parent’s other totally-held subsidiaries, in an amount which is material in relation to the particular subsidiary, excepting indebtedness incurred in the ordinary course of business which is not overdue and which matures within one year from the date of its creation, whether evidenced by securities or not.

ARTICLE 2. CERTIFICATION

Rule 2-01. Qualifications of Accountants.

(a) The Commission will not recognize any person as a certified public accountant who is not duly registered and in good standing as such under the laws of the place of his residence or principal office. The Commission will not recognize any person as a public accountant who is not in good standing and entitled to practice as such under the laws of the place of his residence or principal office.

(b) The Commission will not recognize any certified public accountant or public accountant as independent who is not in fact independent. For example, an accountant will be considered not independent with respect to any person or any of its parents or subsidiaries in whom he has, or had during the period of report, any direct financial interest or any material indirect financial interest; or with whom he is, or was during such period, connected as a promoter, underwriter, voting trustee, director, officer, or employee.

(c) In determining whether an accountant may in fact be not independent with respect to a

particular person, the Commission will give appropriate consideration to all relevant circumstances, including evidence bearing on all relationships between the accountant and that person or any affiliate thereof, and will not confine itself to the relationships existing in connection with the filing of reports with the Commission.

Rule 2-02. Accountants’ Certificates.

(a) **Technical requirements.**—The accountant’s certificate shall be dated, shall be signed manually, and shall identify without detailed enumeration the financial statements covered by the certificate.

(b) **Representations as to the audit.**—The accountant’s certificate (i) shall state whether the audit was made in accordance with generally accepted auditing standards; and (ii) shall designate any auditing procedures generally recognized as normal, or deemed necessary by the accountant under the circumstances of the particular case, which have been omitted, and the reasons for their omission.

Nothing in this rule shall be construed to imply authority for the omission of any procedure which

independent accountants would ordinarily employ in the course of an audit made for the purpose of expressing the opinions required by paragraph (c) of this rule.

(c) **Opinions to be expressed.**—The accountant's certificate shall state clearly: (i) the opinion of the accountant in respect of the financial statements covered by the certificate and the accounting principles and practices reflected therein; (ii) the opinion of the accountant as to any material changes in accounting principles or practices or method of applying the accounting principles or practices, or adjustments of the accounts, required to be set forth by rule 3-07; and (iii) the nature of, and the opinion of the accountant as to, any material differences between the accounting principles and practices reflected in the financial statements and those reflected in the accounts after the entry of adjustments for the period under review.

(d) **Exceptions.**—Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related financial statements given.

Rule 2-03. Certification by Foreign Government Auditors.

Notwithstanding any requirements as to certification by independent accountants, the financial statements of any foreign governmental agency

may be certified by the regular and customary auditing staff of the respective government, if public financial statements of such governmental agency are customarily certified by such auditing staff.

Rule 2-04. Certification of Financial Statements of Persons Other Than the Registrant.

If a registrant is required to file financial statements of any other person, such statements need not be certified if certification of such statements would not be required if such person were itself a registrant.

Rule 2-05. Certification of Financial Statements by More Than One Accountant.

If, with respect to the certification of the financial statements of any person, the principal accountant relies on an examination made by another independent public accountant of certain of the accounts of such person or its subsidiaries, the certificate of such other accountant shall be filed (and the provisions of rules 2-01 and 2-02 shall be applicable thereto); however, the certificate of such other accountant need not be filed (a) if no reference is made directly or indirectly to such other accountant's examination in the principal accountant's certificate, or (b) if, having referred to such other accountant's examination, the principal accountant states in his certificate that he assumes responsibility for such other accountant's examination in the same manner as if it had been made by him.

ARTICLE 3. RULES OF GENERAL APPLICATION

Rule 3-01. Form, Order, and Terminology.

(a) Financial statements may be filed in such form and order, and may use such generally accepted terminology, as will best indicate their significance and character in the light of the provisions applicable thereto.

(b) All money amounts required to be shown in financial statements may be expressed in even dollars or thousands of dollars, provided that, in the latter case, an indication to that effect is inserted immediately beneath the caption of the statement or schedule, or at the top of each money column. The individual amounts shown need not be adjusted to the nearest dollar or thousand if in a note it is stated that the failure of the items

to add to the totals shown is due to the dropping of amounts less than \$1.00 or \$1,000, as appropriate.

Rule 3-02. Items Not Material.

If the amount which would otherwise be required to be shown with respect to any item is not material, it need not be separately set forth in the manner prescribed.

Rule 3-03. Inapplicable Captions and Omission of Unrequired or Inapplicable Financial Statements.

(a) No caption need be shown in any financial statement as to which the items and conditions are not present.

(b) Financial statements not required or inapplicable because the required matter is not present need not be filed.

(c) Financial statements omitted and the reasons for their omission shall be indicated in the list of financial statements required by the applicable form.

Rule 3-04. Omission of Substantially Identical Notes.

If a note covering substantially the same subject matter is required with respect to two or more financial statements, the required information may be shown in a note to only one of such statements provided that a clear and specific reference thereto is made in each of the other statements with respect to which the note is required.

Rule 3-05. Omission of Names of Certain Subsidiaries.

Notwithstanding the requirements as to particular statements, subsidiaries, the names of which are permitted to be omitted from the list of affiliates required by the applicable form, need not be named in any financial statement. Reasonable grouping of such subsidiaries may be made, with an explanatory group caption which shall state the number of subsidiaries included in the group.

Rule 3-06. Additional Information.

The information required with respect to any statement shall be furnished as a minimum requirement to which shall be added such further material information as is necessary to make the required statements, in the light of the circumstances under which they are made, not misleading. This rule shall be applicable to all statements required to be filed, including copies of statements required to be filed in the first instance with other governmental agencies.

Rule 3-07. Changes in Accounting Principles and Practices and Retroactive Adjustments of Accounts.

(a) Any change in accounting principle or practice, or in the method of applying any accounting principle or practice, made during any period for which financial statements are filed which affects comparability of such financial statements with those of prior or future periods,

and the effect thereof upon the net income for each period for which financial statements are filed, shall be disclosed in a note to the appropriate financial statement.

(b) Any material retroactive adjustment made during any period for which financial statements are filed, and the effect thereof upon net income of prior periods shall be disclosed in a note to the appropriate financial statement.

Rule 3-08. Summary of Accounting Principles and Practices.

Information required in notes as to accounting principles and practices reflected in the financial statements may be presented in the form of a single statement. In such case specific references shall be made in the appropriate financial statements to the applicable portion of such single statement.

Rule 3-09. Conversion of Items in Foreign Currencies.

The basis of conversion of all items in foreign currencies shall be stated, and the amount and disposition of the resulting unrealized profit or loss shown.

Rule 3-10. Opening Balances.

Instructions which permit the balance of an account at the beginning of the period for which financial statements are being filed to be "as per the accounts" shall not be applicable with respect to companies which have previously filed financial statements under the Securities Act of 1933 or the Securities Exchange Act of 1934. As to such companies, however, balances as per accounts may be taken as of the close of the most recent period for which certified financial statements are on file.

Rule 3-11. Valuation and Qualifying Reserves.

Valuation and qualifying reserves shall be shown separately in the financial statements as deductions from the specific assets to which they apply.

Rule 3-12. Basis of Determining Amounts—Book Value.

If an instruction requires a statement as to "the basis of determining the amount," the basis shall be stated specifically. The term "book value" will not be sufficiently explanatory unless, in a particular instruction, it is stated to be acceptable with respect to a particular item.

Rule 3-13. Current Assets.

Items classed as current assets shall be generally realizable within one year. However, generally recognized trade practices may be followed with respect to the inclusion of items such as installment receivables or inventories long in process, provided an appropriate explanation of the circumstances is made and, if practicable, an estimate is given of the amount not realizable within one year.

Rule 3-14. Current Liabilities.

Items due and payable within one year shall in general be classed as current liabilities. However, generally recognized trade practices may be followed with respect to the exclusion of items such as customers' deposits and deferred income, provided an appropriate explanation of the circumstances is made.

Rule 3-15. Reacquired Evidences of Indebtedness.

Reacquired evidences of indebtedness shall be shown separately as a deduction, under the appropriate liability caption. However, reacquired evidences of indebtedness held for pension and other special funds not related to the particular issues may be shown as assets of such funds, provided that there be stated parenthetically the amount of such evidences of indebtedness, the cost thereof, and the amount at which carried.

Rule 3-16. Reacquired Shares.

Reacquired shares shall be shown separately as a deduction from capital shares, or from the total of capital shares and surplus, or from surplus, at either par or stated value, or cost, as circumstances require.

Rule 3-17. Discount on Capital Shares.

Discount on capital shares, or any unamortized balance thereof, shall be shown separately as a deduction from capital shares or from surplus, as circumstances require.

Rule 3-18. Commitments.

(c) References to the schedules shall be made against the appropriate captions of the statement of assets and unrecovered promotional, exploratory, and development costs.

(d) If the information required by any schedule (including the footnotes thereto) may be shown in the related statement of assets and unrecovered promotional, exploratory, and development costs, without making such statement unclear or confusing, that procedure may be followed and the schedule omitted.

(e) If schedules, other than those specifically called for by paragraph (a) of this rule, are required to make clear and not confusing certain material items appearing in the financial statements, the

This article shall be applicable to financial statements filed for management investment companies other than those which are issuers of periodic payment plan certificates.

Rule 6-02. Special Rules Applicable to Management Investment Companies.

The financial statements filed for persons to which this article is applicable shall be prepared in accordance with the following special rules in addition to the general rules in articles 1, 2, 3, and 4. Where the requirements of a special rule differ from those prescribed in a general rule, the requirements of the special rule shall be met.

1. **Content of financial statements.**—The financial statements shall be prepared in accordance with the requirements of regulation S-X notwithstanding any provision of the articles of incorporation, trust indenture or other governing legal instruments specifying certain accounting procedures inconsistent with those herein required.

2. **Certification.**—Where, under the applicable form, financial statements are required to be

certified, the certifying accountant shall have been selected and ratified in accordance with section 32 of the Investment Company Act of 1940 and the applicable rules thereunder.

3. **Consolidated and combined statements.**—
(a) Consolidated and combined statements filed for management investment companies shall be prepared in accordance with article 4 except that (1) statements of the registrant may be consolidated only with the statements of subsidiaries which are investment companies; (2) a consolidated statement of the registrant and any of its investment company subsidiaries shall not be filed unless accompanied by a consolidating statement which sets forth the individual statements of each significant subsidiary included in the consolidated statement: *Provided, however,* That a consolidating statement need not be filed if all included subsidiaries are totally held; and (3) consolidated or combined statements filed for subsidiaries not consolidated with the registrant shall not include any investment companies unless accompanied by consolidating or combining statements which set forth the individual statements

of each included investment company which is a significant subsidiary.

(b) If consolidated statements are filed, the amounts included under each caption in which financial data pertaining to affiliates is required to be furnished shall be subdivided to show separately the amounts (1) eliminated in consolidation and (2) not eliminated in consolidation.

4. Affiliates.—The term “affiliate” means an “affiliated person” as defined in section 2 (a) (3) of the Investment Company Act of 1940. The term “control” has the meaning given in section 2 (a) (9) of that Act.

5. Value.—As used in this article 6, the word “value” shall have the meaning given in section 2 (a) (39) (B) of the Investment Company Act of 1940.

6. Valuation of assets.—(a) The balance sheets of open-end companies shall reflect all assets at value, showing cost parenthetically.

(b) The balance sheets of closed-end companies shall either (1) reflect all assets at cost, showing value parenthetically, or (2) reflect all assets at value, showing cost parenthetically. If assets are reflected at cost, however, due consideration shall be given to evidence of probable loss and, where such evidence indicates an apparently permanent decline in underlying value and earning power, recognition thereof shall be made by means of an appropriate write-down or the establishment of an appropriate reserve.

(c) The balance sheet shall clearly disclose whether assets are carried at cost or value.

7. Cost in case of reorganizations, exchanges of investments, syndicate operations, etc.—Where information as to the cost of investments is required to be furnished, the term “cost” shall have the indicated special meaning in the following instances:

(a) **Reorganizations and quasi-reorganizations.**—Where investments have been adjusted in the course of a reorganization or quasi-reorganization of the registrant, “cost” shall mean such adjusted amount. The date of and a brief statement as to such adjustment shall be given in a note referred to in the balance sheet.

(b) **Exchanges of investments.**—(1) Where investments have been acquired in exchange for other investments as a result of a reorganization, consolidation or merger of a portfolio company,

“cost” of the investments acquired shall be the cost of the investments released. Due consideration shall, however, be given to evidence of probable loss and, where such evidence indicates an apparently permanent decline in underlying value and earning power, “cost” of the investments acquired shall be the value, on the effective date of the transaction, of the investments released or of the investments received, as appropriate. (2) In other cases in which investments have been acquired in exchange for assets other than cash, “cost” of the investments acquired shall be the value, on the effective date of the exchange, of the assets released or of the assets received, as appropriate.

(c) **Syndicate operations.**—In the case of securities acquired through joint syndicate operations, “cost” shall be net of syndicate discounts and commissions applicable thereto.

8. Issuance and repurchase of securities by a management investment company.—In a footnote or statement referred to in the balance sheet or other appropriate statement, show for each class of the company’s securities (1) the number of shares or principal amount of bonds sold during the period of report, the amount received therefor, and, in the case of shares sold by closed-end companies, the difference, if any, between the amount received and the net asset value or preference in involuntary liquidation (whichever is appropriate) of securities of the same class prior to such sale; and (2) the number of shares or principal amount of bonds repurchased during the period of report and the total or average cost thereof. Closed-end companies shall furnish the following additional information as to securities repurchased during the period of report:

(a) as to bonds and preferred shares, the aggregate difference between cost and the face amount or preference in involuntary liquidation and, if applicable net assets taken at value as of the date of repurchase were less than such face amount or preference, the aggregate difference between cost and such applicable net asset value;

(b) as to common shares, the weighted average discount per share, expressed as a percentage, between cost of repurchase and the net asset value applicable to such shares at the date of repurchases.

The information required by 2 (a) and (b) may be based on reasonable estimates if it is impractic-

cable to determine the exact amounts involved.

9. Federal income taxes.—Appropriate provision shall be made, on the basis of the applicable tax laws, for Federal income taxes that it is reasonably believed are, or will become, payable in respect of (a) current net income, (b) realized gain on investments and (c) unrealized appreciation on investments. The company's status as a "regulated investment company" as defined in Subtitle A, Chapter 1, Subchapter M of the Internal Revenue Code as amended shall be stated in a note referred to in the appropriate statements. Such note shall also indicate briefly the principal present assumptions on which the company has relied in making or not making provisions for such taxes. However, a company which retains realized capital gains and designates such gains as a distribution to shareholders in accordance with Section 852(b)(3)(D) of the Code shall, on the last day of its taxable year (and not earlier), make provision for taxes on such undistributed capital gains during such year.

10. Balance sheets; statements of assets and liabilities.—As used herein the term "balance sheets" shall include statements of assets and liabilities unless the context clearly indicates the contrary.

11. Inapplicable captions.—Attention is directed to the provisions of rule 3-02 which permit the omission of separate captions in financial statements as to which the items and conditions are not present, or the amounts involved not significant. However, amounts involving directors, officers, and affiliates shall nevertheless be separately set forth except as otherwise specifically permitted under a particular caption.
