AICPA Audit and Accounting Guide

FEDERAL GOVERNMENT CONTRACTORS

*With Conforming Changes
as of May 1, 2004*

This edition of the AICPA Audit and Accounting Guide *Federal Government Contractors*, which was originally issued in 1990, has been modified by the AICPA staff to include certain changes necessary because of the issuance of authoritative pronouncements since the Guide was originally issued (see page iv). The changes made in the current year are identified in a schedule in Appendix G of the Guide. The changes do *not* include all those that might be considered necessary if the Guide were subjected to a comprehensive review and revision.

NOTICE TO READERS

This Audit Guide (Guide) presents guidance for the audits of financial statements in conducted accordance with *Government Auditing Standards* (also referred to as the Yellow Book), issued by the Comptroller General of the United States of the U.S. Government Accountability Office (GAO). It also presents the recommendations of the AICPA Single Audit Working Group for the conduct of audits in accordance with the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). This Guide incorporates guidance contained in Statement on Auditing Standards (SAS) No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801). Auditors of the financial statements of entities subject to the guidance in this Guide also should refer to other applicable AICPA Audit and Accounting Guides, including *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*.

Auditing guidance included in an AICPA Audit Guide is an interpretive publication pursuant to SAS No. 95, *Generally Accepted Auditing Standards*, as amended. Interpretive publications are recommendations on the application of SASs in specific circumstances, including engagements for entities in specialized industries. Interpretive publications are issued under the authority of the Auditing Standards Board (ASB).

The auditor should identify interpretive publications applicable to his or her audit. If the auditor does not apply the auditing guidance included in an applicable interpretive publication, the auditor should be prepared to explain how he or she complied with the SAS provisions addressed by such auditing guidance.

This Guide reflects relevant auditing guidance contained in standards and other requirements through May 1, 2004, as follows:

- SAS No. 101, *Auditing Fair Value Measurements and Disclosures*
- The Single Audit Act Amendments of 1996 (hereinafter referred to as the Single Audit Act)
- Circular A-133 as revised on June 27, 2003
- 2003 revision to *Government Auditing Standards*

Users of this Guide should consider standards and other requirements (such as new regulation or legislation) issued subsequent to those listed above to determine their effect on entities covered by this Guide. Users may be able to obtain information about such subsequent issuances on the AICPA's Web site at www.aicpa.org, the OMB's Web site at www.omb.gov/grants, and the GAO's Web site's Yellow Book page at www.gao.gov/govaud/ybk01.htm. In addition, the annual Audit Risk Alerts, including *Health Care Industry Developments*, *Not-for-Profit Organizations*, *Single Audits*, and *State and Local Governmental Developments*, summarize the provisions of selected standards and other requirements.

The current edition of this Guide not only includes conforming changes for recent changes in requirements and guidance, but also has been restructured to provide guidance for audits of financial statements conducted in accordance with *Government Auditing Standards* separately from the guidance for audits conducted in accordance with the Single Audit Act and Circular A-133. That restructuring was done because many entities are subject to *Government Auditing Standards* without also being subject to the Single Audit Act and Circular A-133. (Entities that are subject to *Government Auditing Standards* without also being subject to the Single

Audit Act and Circular A-133 include state and local governments and not-for-profit organizations that do not meet the threshold for a Circular A-133 audit. They also include other types of entities that are not subject to Circular A-133. See the applicability discussion in Chapter 1, “Introduction,” of this Guide.) The changes made in the current edition of this Guide are identified in Appendix C. The changes do not include all those that might be considered necessary if the Guide were subjected to a comprehensive review and revision.

Effect of PCAOB Standards on Entities Subject to Government Auditing Standards

The Public Accounting Oversight Board (PCAOB) establishes standards for audits of “issuers,” as that term is defined by the Sarbanes-Oxley Act of 2002 (the Act) or whose audit is prescribed by the rules of the Securities and Exchange Commission (SEC). Other entities are referred to as “nonissuers.” Although many entities that are subject to *Government Auditing Standards* are nonissuers, some are issuers. To date, the GAO has not addressed the effect of PCAOB standards on audits of issuers conducted in accordance with *Government Auditing Standards*. Readers can monitor the GAO’s Web site at www.gao.gov/govaud/ybk01.htm for developments in this area. In advance of GAO action, this Guide does not address that issue.¹

Substantial Changes to Audit Process Proposed

(**Note:** This discussion is not applicable to public accounting firms registered with the PCAOB and their associated persons in connection with the audits of the financial statements of issuers, as defined in Section 2(a)(7) of the Sarbanes-Oxley Act.)

In December 2002, the ASB issued an exposure draft (ED) proposing seven new SASs relating to the auditor’s risk assessment process in an audit of financial statements. The ASB believes that the requirements and guidance provided in the proposed SASs, if adopted, would result in a substantial change in audit practice and in more effective audits. The primary objective of the proposed SASs is to enhance auditors’ application of the audit risk model in practice by requiring:

- More in-depth understanding of the entity and its environment, including its internal control, to identify the risks of material misstatement in the financial statements and what the entity is doing to mitigate them.
- More rigorous assessment of the risks of material misstatement of the financial statements based on that understanding.
- Improved linkage between the assessed risks and the nature, timing, and extent of audit procedures performed in response to those risks.

¹ Readers should be aware of footnotes 9 and 11 in Auditing Interpretations No. 17, “Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards,” and No. 18, “Reference to PCAOB Standards in an Audit Report on a Nonissuer,” of SAS No. 58, *Reports on Audited Financial Statements*, as amended (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.85--92). Those footnotes state “In a report issued on the audit of the financial statements of a subsidiary, investee, or other type of affiliate of an issuer, that is not itself an issuer, the auditor should refer to the audit as having been performed in accordance with generally accepted auditing standards if the report will not be filed with the Securities and Exchange Commission (SEC). For example, a subsidiary of an issuer may be subject to certain regulations that require an audit be performed in accordance with *Government Auditing Standards* (the Yellow Book). In this example, the auditor’s report of the nonissuer should refer to generally accepted auditing standards and generally accepted government auditing standards.”

The ED consists of the following proposed SASs:

- *Amendment to Statement on Auditing Standards No. 95, Generally Accepted Auditing Standards*
- *Audit Evidence*
- *Audit Risk and Materiality in Conducting an Audit*
- *Planning and Supervision*
- *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*
- *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*
- *Amendment to Statement on Auditing Standards No. 39, Audit Sampling*

The proposed SASs would establish standards and provide guidance concerning the auditor's assessment of the risks of material misstatement in a financial statement audit, and the design and performance of audit procedures whose nature, timing, and extent are responsive to the assessed risks. Additionally, the proposed SASs establish standards and provide guidance on planning and supervision, the nature of audit evidence, and evaluating whether the audit evidence obtained affords a reasonable basis for an opinion regarding the financial statements under audit.

The progress of the proposed SASs should be monitored. Readers can access the proposed standards at AICPA Online (www.aicpa.org).

The AICPA gratefully acknowledges those who reviewed drafts of the conforming changes and otherwise contributed to this Guide: Andrew Blossom, Mari Devries, Dennis J. Duquette, John Fisher, Eric Formberg, W. Michael Fritz, Vera Garrant, John Good, Steve Kattell, Amanda Nelson, and Kevin J. O'Connell. The AICPA also acknowledges the contributions made by Venita M. Wood, a consultant in governmental accounting and auditing issues, in developing this edition of this Guide.

Preface

This Audit Guide (Guide) provides guidance on the auditor's responsibilities when conducting an audit of financial statements in accordance with *Government Auditing Standards* (also referred to as the Yellow Book), issued by the Comptroller General of the United States of the U.S. Government Accountability Office (GAO). It also provides guidance on the auditor's responsibilities when conducting a single audit or program-specific audit in accordance with the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). This Guide was originally issued as Statement of Position (SOP) 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*, in March 1998, and updated annually for conforming changes for relevant guidance contained in authoritative auditing standards and other requirements. The AICPA converted SOP 98-3 into an Audit Guide in 2003. That conversion did not supersede the guidance that appeared in SOP 98-3 but only changed its format.

Concerning an audit of financial statements in accordance with *Government Auditing Standards*, this Guide:

- Describes the applicability of *Government Auditing Standards*
- Discusses the relationship between generally accepted auditing standards (GAAS) and *Government Auditing Standards*
- Discusses the general standards and additional fieldwork and reporting standards of *Government Auditing Standards*
- Describes the auditor's responsibility for considering internal control over financial reporting, compliance with applicable laws, regulations, and provisions of contracts and grants agreements, fraud, and abuse
- Describes the auditor's responsibility for reporting and other communications and provides examples of the required auditor's reports

Concerning an audit of federal awards in accordance with Circular A-133, this Guide:

- Describes the applicability of and provides an overview of the requirements of the Single Audit Act and Circular A-133
- Discusses the relationship between *Government Auditing Standards* and Circular A-133
- Describes the auditor's additional responsibilities for considering internal control over compliance with applicable laws, regulations, and program compliance requirements; performing tests of compliance with those requirements; and performing procedures on the schedule of expenditures of federal awards
- Describes the auditor's responsibilities in a program-specific audit
- Describes the auditor's responsibility for reporting and provides examples of the required auditor's reports

Further, this Guide incorporates guidance from the following documents:

- AICPA Statement on Auditing Standards No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801)
- *Government Auditing Standards*
- The Single Audit Act and Circular A-133 and the OMB Circular A-133 *Compliance Supplement*

Conforming changes for relevant guidance contained in authoritative auditing standards and other requirements through May 1, 2004 (as discussed in the Notice to Readers), have been made to the guidance in this Guide. For additional information on selected auditing pronouncements and other relevant guidance, see the AICPA's annual Audit Risk Alerts, including *Health Care Industry Developments*, *Not-for-Profit Organizations*, *Single Audits*, and *State and Local Governmental Developments*.

Auditors of the financial statements of entities subject to the guidance in this Guide also should refer to other applicable AICPA Audit and Accounting Guides, including *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*.

Chapter 1

Introduction

Purpose and Applicability

1.01 This Audit Guide (Guide) has a two-fold purpose.

- a. The first purpose is to provide auditors with a basic understanding of the procedures they should perform and of the reports they should issue for audits of financial statements conducted in accordance with *Government Auditing Standards* (also referred to as the Yellow Book), issued by the Comptroller General of the United States of the U.S. Government Accountability Office (GAO).^{*, 1, 2, 3} *Government Auditing Standards*, which is periodically amended and codified, incorporates the fieldwork and reporting standards of generally accepted auditing standards (GAAS) and the related Statements on Auditing Standards issued by the AICPA unless the Comptroller General of the United States excludes them by formal announcement.^{4, 5}

* In July 2004, the GAO Human Capital Reform Act of 2004 (Public Law 108-271-075) redesignated the General Accounting Office to the Government Accountability Office.

¹ *Government Auditing Standards* contains requirements and guidance for financial audits, attestation engagements, and performance audits. This Guide addresses the *Government Auditing Standards* requirements and guidance for financial audits, and generally only as they relate to audits of financial statements. *Government Auditing Standards*, paragraph 4.02, footnote 41, states that the term *financial statements* “refers to a presentation of financial data, including accompanying notes, derived from accounting records and intended to communicate an entity’s economic resources or obligations at a point in time or the changes for a period of time in conformity with an identifiable framework, such as generally accepted accounting principles (GAAP) or another comprehensive basis of accounting. Audits of financial statements include all services governed by the AICPA SASs for which the auditors are engaged to provide a level of assurance on the fair presentation of financial statements in accordance with stated criteria.” Paragraph 2.05 of *Government Auditing Standards* lists the other engagements to which its requirements and guidance for financial audits apply. Those are engagements to which the AICPA Statements on Auditing Standards (SASs) apply and include, for example, (a) providing special reports for specified elements, accounts, or items of a financial statement and (b) auditing compliance with regulations relating to federal award expenditures and other governmental financial assistance in conjunction with or as a byproduct of a financial statement audit, which includes audits conducted in accordance with Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). The guidance in Part II, “Circular A-133 Audits,” (Chapters 5, “Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*,” through 13, “Program-Specific Audits,” of this Guide refers, as appropriate, to the requirements of *Government Auditing Standards*.

² The standards applicable to financial audits, including audits of financial statements, are the general, fieldwork, and reporting standards described in Chapters 3, 4, and 5 of *Government Auditing Standards*. An electronic version of *Government Auditing Standards* is available on the Government Accountability Office’s Web site’s Yellow Book page at www.gao.gov/govaud/ybk01.htm.

³ In certain situations, *Government Auditing Standards* contains different requirements for internal audit organizations. For example, *Government Auditing Standards*, paragraph 5.21, footnote 61, does not require internal audit organizations to report fraud, illegal acts (violations of laws and regulations), violations of provisions of contracts or grant agreements, or abuse directly to parties outside the entity unless required by law, rule, regulation, or policy. This Guide discusses the *Government Auditing Standards* relevant to independent auditors and does not highlight the different requirements for internal audit organizations. Internal audit organizations should refer to *Government Auditing Standards* for possible different requirements.

⁴ This Guide discusses the requirements of generally accepted auditing standards (GAAS) to the extent necessary to explain the related requirements of *Government Auditing Standards*. Auditors should refer to relevant AICPA Statements on Auditing Standards and applicable Audit and Accounting Guides, such as *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*, for additional information on GAAS requirements.

⁵ To date, the Comptroller General has not excluded any fieldwork or reporting standards or related SASs.

- b. The second purpose is to provide auditors of states, local governments, and not-for-profit organizations (NPOs) that receive federal awards with a basic understanding of the procedures they should perform and of the reports they should issue for single audits and program-specific audits under the Single Audit Act Amendments of 1996 (the Single Audit Act),⁶ Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133),⁷ and the related *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*,⁸ which incorporate the procedures and reports required by *Government Auditing Standards*.

1.02 As discussed in Chapter 2, “Planning Considerations of *Government Auditing Standards*,” of this Guide, *Government Auditing Standards* applies to the audits of governmental entities, programs, activities, and functions, and of governmental assistance administered by contractors, not-for-profit organizations (NPOs), and other nongovernmental entities, when required by statute or other mandates or when auditors hold themselves out as following those standards. Entities for which an auditor may need to apply *Government Auditing Standards* when auditing financial statements include federal, state, and local governments, NPOs, health care organizations, and organizations with mortgage banking, real estate, or student lending and servicing activities. The Single Audit Act and Circular A-133 require the use of *Government Auditing Standards*. As discussed in Chapter 5, “Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*,” of this Guide, the Single Audit Act and Circular A-133 apply to nonfederal entities that expend \$500,000* or more of federal awards in a fiscal year.

1.03 Under Statement on Auditing Standards (SAS) No. 95, *Generally Accepted Auditing Standards* (AICPA, *Professional Standards*, vol. 1, AU sec. 150), as amended, the auditing guidance included in this Guide is an interpretive publication. That is, that guidance provides recommendations on the applications of SASs to audits performed in accordance with *Government Auditing Standards* and to single and program-specific audits under Circular A-133. The OMB, GAO, and AICPA promulgate applicable standards and requirements; users of this Guide should refer to those organization’s original standards and requirements.

1.04 This Guide is organized into two parts that discuss important considerations for audits under *Government Auditing Standards* and for single and program-specific audits under Circular A-133. Each part presents chapters with topics relating to planning, performing, evaluating the results of, and reporting on those audits. See the table of contents for the specific topics addressed in each part and chapter.

⁶ The Single Audit Act Amendments of 1996 (Public Law 104-156) (the Single Audit Act) was enacted into law in July 1996 and replaced the Single Audit Act of 1984. A reprint of the Single Audit Act Amendments of 1996 is included in Appendix A of this Guide.

⁷ Circular A-133, as revised on June 27, 2003, is reprinted in Appendix B of this Guide. An electronic version can be obtained from the OMB’s home page at www.omb.gov/grants/grants_circulars.html.

⁸ The OMB Circular A-133 *Compliance Supplement (Compliance Supplement)* is updated annually. It is available from the Government Printing Office by calling (202) 512-1800 and on the OMB’s Web site at www.whitehouse.gov/omb/grants/grants_circulars.html.

* The June 27, 2003, revisions to Circular A-133 raised the threshold for the applicability of the Single Audit Act and Circular A-133 from \$300,000 to \$500,000 effective for audits of fiscal years ending after December 31, 2003, and early implementation is not permitted. See the further discussion in footnote ** to paragraph 1.12.

1.05 This Guide is not a complete manual of procedures, nor should it supplant the auditor's judgment about the auditing procedures required in particular situations. Because of the variety and complexity of the laws and regulations that govern audits performed under *Government Auditing Standards* and Circular A-133, the procedures included in this Guide cannot cover all the circumstances or conditions that would be encountered in the audits of every entity. The auditor should use professional judgment to tailor procedures to meet the conditions of the particular engagement, so that the audit objectives may be achieved.

1.06 Certain states have imposed additional audit requirements related to state or local financial assistance. Further, pass-through entities may impose additional audit requirements on their subrecipients related to the financial assistance passed through. The guidance in this Guide generally does not discuss or extend to those requirements.

Definitions

1.07 The terms used in this Guide are intended to be consistent with the definitions in *Government Auditing Standards*, the Single Audit Act, and Circular A-133. Similarly, the term *not-for-profit organization* as used in this Guide is consistent with the definition of the term *non-profit organization* in Circular A-133 and includes not-for-profit institutions of higher education, hospitals, and other health care providers.

Adherence to Professional Standards and Requirements

1.08 AICPA Ethics Interpretation No. 501-3, "Failure to Follow Standards and/or Procedures or Other Requirements in Governmental Audits," of Rule 501, *Acts Discreditable* (AICPA, *Professional Standards*, vol. 2, ET sec. 501.04), states that when an auditor undertakes an audit of government grants, government units, or other recipients of government monies and agrees to follow specified government audit standards, guides, procedures, statutes, rules, and regulations, the auditor is obligated to follow those standards or guidelines in addition to GAAS. An auditor's failure to do so is an act discreditable to the profession and a violation of rule 501 of the AICPA Code of Professional Conduct, unless the auditor's report discloses that those rules were not followed and the reasons therefore.

1.09 SAS No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801), addresses the auditor's responsibilities when engaged to conduct an audit under *Government Auditing Standards* or the Single Audit Act and Circular A-133. SAS No. 74 (AU sec. 801.21) states that auditors should exercise due professional care in ensuring that they and management understand the type of engagement to be performed. The auditor should consider including a statement about the type of engagement and whether it is intended to meet specific audit requirements in a proposal, in a contract, or in the communication issued to establish an understanding with the auditee.

1.10 SAS No. 74 (AU sec. 801.21) states that management is responsible for obtaining audits that satisfy relevant legal, regulatory, or contractual requirements. SAS No. 74 (AU sec. 801.22) states that GAAS do not require the auditor to perform procedures beyond those the auditor considers necessary to obtain sufficient competent evidential matter to form a basis for the opinion on the financial statements. However, if during a GAAS audit of the financial statements, the auditor becomes aware that the entity is subject to an audit

requirement that may not be encompassed in the terms of the engagement, the auditor should communicate to management and the audit committee, or to others with equivalent authority and responsibility, that an audit in accordance with GAAS may not satisfy the relevant legal, regulatory, or contractual requirements.⁹ For example, the auditor will be required to make this communication if the auditor is engaged to perform an audit of an entity's financial statements in accordance with GAAS and the auditor becomes aware that, by law, regulation, or contractual agreement, the entity also is required to have an audit performed in accordance with one or more of the following:

- *Government Auditing Standards*
- The Single Audit Act and Circular A-133
- Other compliance audit requirements, such as state or local laws or program-specific audits under federal audit guides

1.11 SAS No. 74 (AU sec. 801.23) states that the required communication may be oral or written. If the communication is oral, the auditor should document the communication in the audit documentation. The auditor should consider how the client's actions in response to such a communication relate to other aspects of the audit, including their potential effect on the financial statements and on the auditor's report on those financial statements. Specifically, the auditor should consider management's actions (such as not arranging for an audit that meets the applicable requirements) in relation to the guidance in SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), and SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316).

Effective Dates

1.12 The provisions of this Guide are applicable to audits of fiscal years beginning after June 30, 1996, in which the related fieldwork commences on or after March 1, 1998. The provisions of this Guide, including conforming changes, that arise from AICPA auditing standards, *Government Auditing Standards*,* the Single Audit Act, and Circular A-133** are effective as of the effective date of those standards and requirements. This Guide does not change the effective dates of those standards and requirements.

⁹ For entities that do not have audit committees, "others with equivalent authority and responsibility" may include the board of directors, the board of trustees, the owner in owner-managed entities, the city council, or the legislative standing committee.

* The standards and requirements of *Government Auditing Standards 2003 Revision* (2003 *Government Auditing Standards*) are effective for financial audits and attestation engagements for periods ending on or after January 1, 2004. Its effective date for performance audits is audits beginning on or after January 1, 2004. For all engagements, early application is permissible. For guidance on audits in accordance with the 1994 revision of *Government Auditing Standards*, as amended, auditors should refer to the 2003 edition of this Guide, titled *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*.

** The requirements of the Single Audit Act and Circular A-133 are effective for audits of fiscal years beginning after June 30, 1996. The June 27, 2003, revisions to Circular A-133 generally are effective for fiscal years ending after December 31, 2003, and early implementation is not permitted. However, the June 27, 2003, revisions to Circular A-133 that change the definition of *oversight agency for audit* are effective June 28, 2003. That change in definition permits a federal agency with oversight for an addressee to reassign oversight to another federal agency that provides substantial funding and agrees to be the oversight agency for audit. For audits in accordance with the Single Audit Act and Circular A-133 for fiscal years ending on or before December 31, 2003, auditors should refer to the June 24, 1997, revision of Circular A-133 (except for its definition of *oversight agency for audit*) and to the 2003 edition of this Guide, titled *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*.

Part I
Government Auditing Standards *Audits*

Chapter 2

Planning Considerations of Government Auditing Standards

2.01 This chapter describes the requirements and guidance in *Government Auditing Standards* (also referred to as the Yellow Book), issued by the Comptroller General of the United States of the U.S. Government Accountability Office (GAO), for audits of financial statements.¹ In describing those requirements and guidance, this chapter also discusses planning considerations for those audits.² Auditors should refer to *Government Auditing Standards* for a complete understanding of the requirements.³

Applicability

2.02 *Government Auditing Standards* applies to the audits of governmental entities, programs, activities, and functions, and of governmental assistance administered by contractors, not-for-profit organizations (NPOs), and other nongovernmental entities, when required by statute or other mandates or when auditors hold themselves out as following those standards. (See *Government Auditing Standards*, paragraph 1.04.) The Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) require the use of *Government Auditing Standards*. Other laws, regulations, agreements, contracts, or other authoritative sources could require the use of *Government Auditing Standards*. For example, state and local laws and regulations may require auditors of state and local governments to follow *Government Auditing Standards*. Federal audit guidelines pertaining to program requirements, such as those issued for Housing and Urban Development programs and Student Financial Aid programs, also may require the use of *Government Auditing Standards*.

2.03 Statement on Auditing Standards (SAS) No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801.21–.23), provides general guidance when the auditor is engaged to conduct an audit in accordance with *Government Auditing Standards*. If the

¹ As discussed in Chapter 1, “Introduction,” of this Guide, *Government Auditing Standards* contains requirements and guidance for financial audits, attestation engagements, and performance audits. This Guide addresses the *Government Auditing Standards* requirements and guidance for financial audits, generally as they relate to audits of financial statements. Those standards are in Chapters 3, 4, and 5 of *Government Auditing Standards*.

² Statement on Auditing Standards (SAS) No. 22, *Planning and Supervision* (AICPA, *Professional Standards*, vol. 1, AU sec. 311), discusses the auditor’s responsibilities for planning and supervision in an audit of financial statements in accordance with generally accepted auditing standards (GAAS). Various AICPA Audit and Accounting Guides, including *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*, also discuss planning considerations for audits of financial statements performed under GAAS.

³ An electronic version of *Government Auditing Standards* is available on the Government Accountability Office (GAO) Web site’s Yellow Book page at www.gao.gov/govaud/ybk01.htm. That page also explains how to obtain a printed version of *Government Auditing Standards*.

entity is seeking an audit in accordance with *Government Auditing Standards*, the auditor should consider including a statement in a proposal, in a contract, or in other communication establishing an understanding with the auditee that the engagement is intended to meet the requirements of *Government Auditing Standards*. (See paragraphs 2.32 and 2.33.) SAS No. 74 also describes the auditor's responsibilities, including communication responsibilities, when the auditor becomes aware that the entity is subject to an audit requirement that may not be encompassed in the terms of the engagement, such as *Government Auditing Standards*. Chapter 1, "Introduction," of this Guide further discusses the provisions of SAS No. 74, including the persons to whom such communication should be made, the documentation of the communication, and the effect of the entity's response to the auditor's communication on other aspects of the audit.

Relationship of GAAS and Government Auditing Standards

2.04 *Government Auditing Standards* incorporates the fieldwork and reporting standards of generally accepted auditing standards (GAAS) and the related SASs issued by the AICPA unless the Comptroller General of the United States excludes them by formal announcement.⁴ (See *Government Auditing Standards*, paragraph 1.09, 4.01, and 5.01.) In conducting audits of financial statements in accordance with *Government Auditing Standards*, the auditor should consider GAAS and its interpretive publications, as discussed in SAS No. 95, *Generally Accepted Auditing Standards* (AICPA, *Professional Standards*, vol. 1, AU sec. 150), as amended. Interpretive publications other than this Guide that affect the audits of financial statements of entities that are subject to *Government Auditing Standards* include the AICPA Audit and Accounting Guides, such as *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*.⁵ In addition, as indicated in paragraph 2.02, the use of *Government Auditing Standards* is required for audits conducted in accordance with Circular A-133 and may be required to be used in conjunction with other audit requirements and guidelines.

Additional Responsibilities Under Government Auditing Standards

2.05 In conducting audits of financial statements in accordance with *Government Auditing Standards*, the auditor assumes certain responsibilities beyond those of audits performed in accordance with GAAS. *Government Auditing Standards* includes general standards, as well as fieldwork and reporting standards that are in addition to those required by GAAS. Those standards are in such areas as independence, competence, quality control systems, audit documentation requirements, audit follow-up, obtaining and reporting the views of responsible officials about findings and planned corrective actions, and report distribution. (See paragraph 2.06.) *Government Auditing Standards* also requires additional reporting on internal control over financial reporting,

⁴ To date, the Comptroller General has not excluded any fieldwork or reporting standards or related SASs.

⁵ AICPA Audit and Accounting Guides that are cleared by a body designated by the AICPA Council to establish accounting principles also constitute category (b) generally accepted accounting principles (GAAP). See SAS No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles* (AICPA, *Professional Standards*, vol. 1, AU sec. 411), as amended.

compliance with laws, regulations, and provisions of contracts or grant agreements,⁶ fraud, and abuse, which affect audit procedures. Specifically, in addition to an auditor's report that expresses an opinion or disclaimer of opinion on the financial statements as required by GAAS,⁷ *Government Auditing Standards* requires a written report on internal control over financial reporting and on compliance and other matters. Table 2-1 presents the auditor's fieldwork and reporting responsibilities under GAAS for internal control, compliance, fraud, and abuse, all of which apply to audits conducted in accordance with *Government Auditing Standards*, and the additional fieldwork and reporting responsibilities that specifically relate to those areas under *Government Auditing Standards*, as discussed in more detail elsewhere in this Guide.

Table 2-1

GAAS and Additional Government Auditing Standards Fieldwork and Reporting Responsibilities Specifically Related to Internal Control, Compliance, Fraud, and Abuse

	<i>Generally Accepted Auditing Standards</i>	<i>Additional Government Auditing Standards</i>
Internal Control Over Financial Reporting		
Fieldwork Responsibilities	The auditor should obtain an understanding of internal control over financial reporting sufficient to plan the audit by performing procedures to understand both the design of controls relevant to an audit of financial statements and whether they have been placed in operation, and assess control risk, in accordance with SAS No. 55, <i>Consideration of Internal Control in a Financial Statement Audit</i> (AICPA, <i>Professional Standards</i> , vol. 1, AU sec. 319), as amended.	The auditor should communicate information regarding the nature, timing, and extent of planned testing and reporting and the level of assurance for internal control over financial reporting to certain parties during the planning stages of an audit. (<i>Government Auditing Standards</i> , paragraph 4.06.) The auditor also should develop additional documentation of the auditor's consideration that the planned audit procedures are designed to achieve audit objectives
		<i>(continued)</i>

⁶ Paragraph 4.18 of *Government Auditing Standards* and paragraph 2 of SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317.02), define the term *illegal acts* as violations of laws and regulations. As indicated in Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide and in Table 2-1, it generally has been interpreted under GAAS that the term *laws and regulations* in SAS No. 54 implicitly includes provisions of contracts or grant agreements. This Guide sometimes collectively refers to laws, regulations, and provisions of contracts and grant agreements as *compliance requirements* and to illegal acts and violations of provisions of contracts or grant agreements as *noncompliance* or *instances of noncompliance*.

⁷ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government's basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. In addition, the auditor may provide opinions or disclaimers of opinions on additional opinion units if engaged to set the scope of the audit and assess materiality at a more detailed level than by the opinion units required for the basic financial statements. Throughout this Guide, the use of the singular terms *opinion* and *disclaimer of opinion* encompasses the multiple opinions and disclaimers of opinion that generally will be provided on a government's financial statements.

<i>Generally Accepted Auditing Standards</i>	<i>Additional Government Auditing Standards</i>
Reporting Responsibilities	<p>when evidential matter obtained is highly dependent on computerized information systems and is material to the objective of the audit but the auditor is not relying on the effectiveness of internal control over those computerized systems that produced the information. (<i>Government Auditing Standards</i>, paragraph 4.24c.)</p> <p>The auditor should issue a written report describing the scope of the auditor's testing of internal control over financial reporting and presenting the results of those tests. (An opinion on internal control over financial reporting is not required, but is permitted if sufficient work was performed.) (<i>Government Auditing Standards</i>, paragraph 5.08.)</p> <p>The auditor's report should identify deficiencies in internal control considered to be reportable conditions and those reportable conditions that are individually or in the aggregate material weaknesses. The auditor should report other deficiencies in internal control, except those that are clearly inconsequential, in a management letter. (<i>Government Auditing Standards</i>, paragraphs 5.12, 5.14, and 5.16.)</p>
Compliance	
Fieldwork Responsibilities	<p>The auditor should communicate, orally or in writing, to the audit committee or others with equivalent authority and responsibility (such as the board of directors, the board of trustees, an owner in an owner-managed enterprise, or others who may have engaged the auditor) reportable conditions in internal control over financial reporting in accordance with SAS No. 60, <i>Communication of Internal Control Matters Noted in an Audit</i> (AICPA, <i>Professional Standards</i>, vol. 1, AU sec. 325), as amended.</p> <p>The auditor should design the audit to provide reasonable assurance that the financial statements are free of material misstatements resulting from violations of laws and regulations that have a direct and material effect on the determination of financial statement amounts in accordance with SAS No. 54, <i>Illegal Acts by Clients</i> (AICPA, <i>Professional Standards</i>, vol. 1,</p> <p>The auditor should communicate information regarding the nature, timing, and extent of planned testing and reporting and the level of assurance on compliance with laws, regulations, and provisions of contracts or grant agreements to certain parties during the planning stages of an audit. (<i>Government Auditing Standards</i>, paragraph 4.06.)</p>

(continued)

<i>Generally Accepted Auditing Standards</i>	<i>Additional Government Auditing Standards</i>
<p>AU sec. 317), as described in SAS No. 74, <i>Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance</i> (AICPA, <i>Professional Standards</i>, vol. 1, AU sec. 801). (It generally has been interpreted under GAAS that the phrase <i>laws and regulations</i> in SAS No. 54 implicitly includes provisions of contracts or grant agreements.)</p> <p>SAS No. 54 also requires audit procedures if specific information comes to the auditor's attention that provides evidence concerning the existence of possible illegal acts that could have a material indirect effect on the financial statements.</p>	<p><i>Government Auditing Standards</i> also specifically states that the auditor should design the audit to provide reasonable assurance of detecting material misstatements resulting from noncompliance with provisions of contracts or grant agreements that have a direct and material effect on the determination of financial statement amounts or other financial data significant to the audit objectives. (<i>Government Auditing Standards</i>, paragraph 4.17.) (See the discussion about provisions of contracts or grant agreements in the item to the left on generally accepted auditing standards.)</p>
<p>Reporting Responsibilities</p>	<p>The auditor should adequately inform the audit committee or others with equivalent authority and responsibility, orally or in writing, about any illegal acts that the auditor becomes aware of during the audit unless they are clearly inconsequential.</p> <p>The auditor should issue a written report describing the scope of the auditor's testing of compliance with laws, regulations, and provisions of contracts or grant agreements and presenting the results of those tests. (An opinion on compliance is not required, but is permitted if sufficient work was performed.) (<i>Government Auditing Standards</i>, paragraph 5.08.)</p> <p>The auditor's written report should identify all illegal acts unless they are clearly inconsequential¹ and material² violations of provisions of contracts or grant agreements. The auditor should report violations of provisions of contracts of grant agreements that are less than material but more than clearly inconsequential in a management letter. (<i>Government Auditing Standards</i>, paragraphs 5.12, 5.17, and 5.20.)</p>

(continued)

	<i>Generally Accepted Auditing Standards</i>	<i>Additional Government Auditing Standards</i>
Fraud		
Fieldwork Responsibilities	The auditor should design the audit to provide reasonable assurance about whether the financial statements are free of material misstatements (whether caused by error or fraud), as described in SAS No. 99, <i>Consideration of Fraud in a Financial Statement Audit</i> (AICPA, <i>Professional Standards</i> , vol. 1, AU sec. 316), and SAS No. 47, <i>Audit Risk and Materiality in Conducting an Audit</i> (AICPA, <i>Professional Standards</i> , vol. 1, AU sec. 312), as amended.	None.
Reporting Responsibilities	Whenever the auditor has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. Fraud involving senior management and fraud that causes a material misstatement of the financial statements should be reported directly to the audit committee. In addition, the auditor should reach an understanding with the audit committee regarding the nature and extent of communications with the committee about misappropriations perpetrated by lower-level employees. If the auditor has identified risks of material misstatement due to fraud that have continuing control implications, the auditor should communicate those factors that are considered reportable conditions to senior management and the audit committee. See SAS No. 99 (AU sec. 316.79-.82) for an additional discussion of its communication requirements.	The auditor's written report should identify all instances of fraud unless clearly inconsequential. ¹ (<i>Government Auditing Standards</i> , paragraph 5.12.)
Abuse		
Fieldwork Responsibilities	None.	The auditor has no responsibility to design the audit to detect abuse. However, the auditor should be alert to situations or transactions that could be indicative of abuse. If the

(continued)

<i>Generally Accepted Auditing Standards</i>	<i>Additional Government Auditing Standards</i>
Reporting Responsibilities	None.

auditor becomes aware of indications of abuse that could materially² affect the financial statement amounts or other financial data significant to the audit objectives, the auditor should apply audit procedures specifically directed to ascertain whether abuse has occurred and the effect on the financial statement amounts or other financial data significant to the audit objectives. (*Government Auditing Standards*, paragraphs 4.17 and 4.19.)

The auditor's written report should identify all material² abuse. The auditor should report abuse that is less than material but more than clearly inconsequential in a management letter. (*Government Auditing Standards*, paragraphs 5.12, 5.17, and 5.20.)

¹ In an audit in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report. See Chapters 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," and 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide.

² Although *Government Auditing Standards* uses the term *significant* in its fieldwork standard for abuse (paragraph 4.17b) and its reporting standard for violations of provisions of contracts or grant agreements and abuse (paragraph 5.12), footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing those standards.

Government Auditing Standards Requirements for Audits of Financial Statements

2.06 *Government Auditing Standards* has four general standards that address (1) independence, (2) professional judgment, (3) competence, and (4) quality control and assurance. Paragraphs 2.07 through 2.17 discuss those general standards. *Government Auditing Standards* also has five fieldwork standards in addition to those in GAAS that address (1) auditor communication, (2) considering the results of previous audits and attestation engagements, (3) detecting material misstatements resulting from violations of provisions of contracts or grant agreements or from abuse, (4) developing elements of a finding, and (5) audit documentation. Paragraphs 2.18 through 2.31 discuss those additional fieldwork standards. Finally, *Government Auditing Standards* has six reporting standards in addition to those in GAAS that

address (1) referring to *Government Auditing Standards* in the auditor's report, (2) reporting on internal control over financial reporting and on compliance with laws, regulations, and provisions of contracts or grant agreements, (3) reporting deficiencies in internal control, fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse, (4) obtaining and reporting the views of responsible officials about findings and planned corrective actions, (5) consideration of information that is prohibited from general disclosure, and (6) report distribution. Chapter 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide discusses those additional reporting standards.

General Standards

Independence

2.07 In a GAAS audit, auditors are required to comply with the AICPA's Code of Professional Conduct Rule 101, *Independence* (AICPA, *Professional Standards*, vol. 2, ET sec. 101). For audits conducted in accordance with *Government Auditing Standards*, auditors and audit organizations are subject to additional independence rules that are in some cases very similar to the AICPA independence rules and in other cases more restrictive.⁸ The independence rules in paragraphs 3.03 through 3.32 of *Government Auditing Standards* address when auditors and their organizations are independent from the organizations they audit by defining when personal, external, and organizational impairments to independence exist.⁹ If an audit organization is not independent, *Government Auditing Standards* states that the auditor should (a) decline to perform the work or (b) report the impairment in the scope section of the auditor's report when a government auditor cannot decline to perform the work because of a legislative requirement or for other reasons.

2.08 *Government Auditing Standards* adopts an engagement team-focused approach to independence for matters such as financial interests of an individual auditor, not unlike the AICPA's Code of Professional Conduct. It also provides criteria for when governmental audit organizations are organizationally independent from the auditee for purposes of external and internal reporting. *Government Auditing Standards* employs a principles-based approach to independence supplemented with certain safeguards for matters such as the performance of nonaudit services. In planning the audit, the auditor should consider the effects of any nonaudit services performed on the auditor's independence for current, future, and planned audit services. (See a related documentation requirement in the third bullet of the following paragraph.)

2.09 To comply with the provisions governing nonaudit services, audit organizations are required to meet two overarching principles. The first bars

⁸ Ethics Interpretation 101-3, *Performance of Nonattest Services* (AICPA, *Professional Standards*, vol. 2, ET sec. 101.05), requires compliance with independence regulations of authoritative regulatory bodies, specifically including the GAO, when a member performs nonattest services for a client and is required to be independent of the client under the regulations of the applicable regulatory body. Accordingly, failure to comply with the nonattest services provisions contained in the GAO's independence rules when those rules are more restrictive than the provisions of Ethics Interpretation 101-3 constitute a violation of that interpretation. The AICPA Web site provides a document that compares the AICPA and GAO independence rules at www.aicpa.org/download/ethics/2004_02AICPA-GAO_rules_comparison.pdf.

⁹ The GAO also has issued a question and answer document titled *Answers to Independence Standard Questions*, which responds to questions related to the independence standard's implementation time frame, underlying concepts, and application in specific nonaudit circumstances. That document is available on the GAO Web site at www.gao.gov/govaud/ybk01.htm.

audit organizations from performing management functions or making management decisions for their clients; the second prohibits audit organizations from auditing their own work or providing nonaudit services when the services are material or significant to the subject matter of the audit. If a nonaudit service does not conflict with either principle, an audit organization may perform the service as long as it complies with each of the safeguards in the following listing. (Paragraph 3.17 of *Government Auditing Standards* provides detailed descriptions of the safeguards.)

- The audit organization should preclude personnel who provided the nonaudit services from planning, conducting, or reviewing audit work of subject matter involving the nonaudit service.^{10, 11}
- The scope and extent of audit work cannot be reduced below the level that would be appropriate if the nonaudit work were performed by an unrelated party.
- The audit organization should document its consideration of the nonaudit service, including its rationale that providing the service does not violate the two overarching principles.
- The audit organization should establish and document an understanding with management regarding the objectives, scope of work, and deliverables of the nonaudit service, including an understanding that management is responsible for the results of the service.
- The audit organization's quality control system should include policies and procedures that ensure consideration of the effect of the nonaudit service on ongoing, planned, and future audits.
- Where a nonaudit service is deemed to conflict with the audit (because the service violates one or both of the overarching principles), the audit organization should communicate to management—before beginning the nonaudit service engagement—that it will be unable to perform subsequent audit work related to the subject matter of the nonaudit service.
- For audits selected during peer review, the audit organization should identify to its peer reviewer all related nonaudit services and provide all related audit documentation.

2.10 *Government Auditing Standards* describes both nonaudit services that are expressly prohibited and others that are permissible (as long as the auditor complies with the two overarching principles and all required safeguards noted in paragraph 2.09). The standards also state that an audit organization can perform routine activities for the auditee and its management without impairing its independence—provided the audit organization neither makes management decisions nor performs management functions. Such ordinary services do not violate the overarching principles and are not subject to the safeguards described in paragraph 2.09.

Professional Judgment

2.11 *Government Auditing Standards* requires the use of professional judgment in planning and performing audits and in reporting the results, which

¹⁰ Item 30 of *Answers to Independence Standard Questions* notes that when an audit organization provides 40 or fewer hours of nonaudit services related to a specific audit engagement, this safeguard is waived. However, the audit organization is required to observe the two overarching principles and other safeguards described in this paragraph.

¹¹ Personnel who provided the nonaudit service are permitted to convey to the audit assignment team the knowledge gained about the audited entity and its operations.

is similar to the AICPA's general standard on due professional care in SAS No. 1, section 230, *Due Professional Care in the Performance of Work* (AICPA, *Professional Standards*, vol. 1, AU sec. 230), as amended. Paragraphs 3.33 through 3.38 of *Government Auditing Standards*:

- Require auditors to exercise reasonable care and diligence and to observe the principles of serving the public interest and maintaining the highest degree of integrity, objectivity, and independence in applying professional judgment to all aspects of their work.
- Impose a responsibility upon each auditor performing work under *Government Auditing Standards* to observe those standards.
- Require auditors to use professional judgment in determining the type of assignment to be performed and the standards that apply to the work; defining the scope of work; selecting the methodology; determining the type and amount of evidence to be gathered; choosing the tests and procedures for their work; performing the tests and procedures; and evaluating and reporting the results of the work.
- Require auditors to exercise professional skepticism throughout the engagement and not be satisfied with less than persuasive evidence because of a belief that management is honest.

Competence

2.12 *Government Auditing Standards* requires the staff assigned to perform the audit to collectively possess adequate professional competence for the tasks required.¹² Paragraphs 3.39 through 3.48 of *Government Auditing Standards* build upon the AICPA's general standard on auditor qualification in SAS No. 1, section 210, *Training and Proficiency of the Independent Auditor* (AICPA, *Professional Standards*, vol. 1, AU sec. 210), as amended, by requiring that an audit organization have a process for maintaining a competent workforce. One of the areas that process should address is continuing professional education (CPE). Every two years, each auditor (whether certified or not) performing audits in accordance with *Government Auditing Standards* should complete at least 80 credit hours of training that directly enhances the person's professional proficiency to perform audits or attestation engagements.^{13,14} At least 20 of those hours should be completed in each year of the two-year period. Except for those auditors who both (a) are not involved in planning, directing, or reporting on the audit or attestation engagement and (b) charge less than 20 percent annually of their time to audits and attestation engagements following *Government Auditing Standards*, at least 24 hours should be in subjects directly related to government auditing, the government environment, or the specific or unique environment in which the audited entity operates. *Government Auditing Standards* states that the audit organization

¹² Paragraph 3.42 of *Government Auditing Standards* provides a listing of the types of technical knowledge and skills that staff members should collectively possess.

¹³ *Government Auditing Standards* states that, although staff members must collectively possess the technical knowledge, skills, and experience necessary to be competent for the type of work being performed before beginning work on a *Government Auditing Standards* engagement, individual auditors have 2 years from the date they start an audit or attestation engagement conducted under *Government Auditing Standards* to comply with the continuing professional education (CPE) requirements.

¹⁴ Paragraph 3.46 of *Government Auditing Standards* discusses the types of topics in which training contributes to auditors' professional proficiency to perform audits or attestation engagements. Training in topics that do not directly enhance professional proficiency to perform audits or attestation engagements, such as individual taxation, does not meet the *Government Auditing Standards* requirement. (See also footnote * to paragraph 2.13.)

is responsible for ensuring that auditors meet the CPE requirements and should maintain documentation of the CPE completed.

2.13 The GAO has issued *Interpretation of Continuing Education and Training Requirements*, a detailed interpretation of the foregoing CPE standards, which is available on its Web site at www.gao.gov/govaud/ybk01.htm.^{*} Among other things, that interpretation discusses who is subject to the CPE requirements and what programs, activities, and subjects qualify as acceptable CPE. During engagement planning, auditors and audit organizations should ensure that members of the audit team have met or will meet the appropriate CPE requirements within two years of the start of the first audit in accordance with *Government Auditing Standards*, and every two years thereafter.

2.14 *Government Auditing Standards* does not require external and internal specialists to meet its CPE requirements, but does require that they be qualified and maintain professional competence in their areas of specialization. It also requires auditors who use the work of specialists to ensure that the specialists are qualified—as required by SAS No. 73, *Using the Work of a Specialist* (AICPA, *Professional Standards*, vol. 1, AU sec. 336.08)—and specifically to include that assurance in the audit documentation.

Quality Control and Assurance

2.15 Paragraphs 3.49 through 3.56 of *Government Auditing Standards* address the general standard for quality control and assurance. That standard requires each audit organization to have in place and monitor an appropriate internal quality control system and to undergo an external peer review conducted by independent reviewers at least once every three years.¹⁵ *Government Auditing Standards* contains requirements for the conduct of the peer review, which should determine whether the internal quality control system was adequate and whether the audit organization complied with its quality control policies and procedures. *Government Auditing Standards* requires the audit organization to document its quality control system, to retain documentation of compliance for a period of time sufficient to enable monitoring and peer reviews, and to take remedial, corrective actions based on the results of the peer review.

2.16 *Government Auditing Standards* requires audit organizations seeking to enter into a contract to perform an engagement in accordance with *Government Auditing Standards* to provide their most recent external peer review report and any letter of comment to the party contracting for the audit. They also should provide subsequent reports and letters received during the period of the contract to that party. *Government Auditing Standards* requires

^{*} The GAO is in the process of updating *Interpretation of Continuing Education and Training Requirements*. Auditors should be alert for information about that effort on the GAO Web site and in the AICPA annual Audit Risk Alerts *Single Audits and State and Local Governmental Developments*. In March 2004, the GAO posted an Internet notice on its Web site to amend paragraph 46 of the *Interpretation* in advance of finalizing a more comprehensive update. That notice explains and provides examples of how taxation courses should support the subject matter of the *Government Auditing Standards* engagement to count towards the 80-hour requirement. It also explains how CPE that satisfies *Government Auditing Standards* requirements may or may not satisfy the CPE requirements of state licensing bodies and professional organizations (and vice versa). The notice explains and provides examples of how this change in the CPE requirements is effective beginning in 2004.

¹⁵ *Government Auditing Standards* provides that audit organizations have an external peer review conducted within 3 years from the date of the start of field work of their first assignment in accordance with *Government Auditing Standards*. Subsequent external peer reviews should be conducted every 3 years. Only the GAO can grant extensions of these time frames beyond 3 months and audit organizations should only request such extensions for extraordinary circumstances.

government audit organizations to transmit their external peer review reports to appropriate oversight bodies and to make the peer review report and letter of comment available to the public upon request in a timely manner. It further requires auditors who are relying on another audit organization's work to request a copy of that organization's peer review report and any letter of comment, and for that audit organization to provide the requested report and letter.¹⁶ This Guide recommends that auditors consider including information about requests for other organizations' reports and letters and the receipts and provision of reports and letters in the audit documentation.

2.17 The independence rules in *Government Auditing Standards* also establish additional quality control requirements. Paragraph 2.09 describes those requirements.

Fieldwork Standards

Auditor Communication

2.18 *Government Auditing Standards* requires the auditor to communicate information regarding the nature, timing, and extent of planned testing and reporting and the level of assurance to the parties identified in paragraph 2.19 during the planning stages of an audit. (See *Government Auditing Standards*, paragraphs 4.06 through 4.13.) *Government Auditing Standards* requires that communication to include the following:

- The auditor's responsibilities for testing and reporting on internal control over financial reporting and on compliance with laws, regulations, and provisions of contracts or grant agreements.
- The nature of any additional testing of internal control and compliance required by laws, regulations, and provisions of contracts or grant agreements or otherwise requested, and whether the auditor is planning on providing an opinion on internal control over financial reporting or on compliance with laws, regulations, and provisions of contracts or grant agreements.
- Potential restrictions on the auditor's reports.

The communication could include additional relevant topics, such as the auditor's fieldwork and reporting responsibilities for fraud and abuse. To assist in communicating the limitations of the auditor's responsibilities for testing and reporting on internal control over financial reporting and on compliance, the auditor may want to contrast those responsibilities with other audits of internal control and compliance. The discussion in paragraphs 4.12 and 4.13 of *Government Auditing Standards* may be helpful to auditors in explaining their responsibilities for testing and reporting on internal control over financial reporting and on compliance with laws, regulations, and provisions of contracts or grant agreements. Auditors should use professional judgment in determining the form, content, and frequency of the communication, although written communication is preferred. An engagement letter may be used to make the communication (see paragraphs 2.32 and 2.33). Auditors should document the communication in the audit documentation.

2.19 The auditor should communicate the information in paragraph 2.18 to the following:

¹⁶ *Government Auditing Standards* does not limit this requirement to situations in which the other audit organization's engagement is conducted in accordance with *Government Auditing Standards*. Further, *Government Auditing Standards* does not subject a subcontracting audit organization to peer review if it is not otherwise required to undergo an external peer review.

- Appropriate officials of the organization or auditee, which normally would include the head of the organization, the audit committee or board of directors or other equivalent oversight body in the absence of an audit committee, and the individual who possesses a sufficient level of authority such as the chief financial officer
- The individuals contracting for or requesting the audit services, in situations where the auditor is performing the audit under a contract with a party other than the auditee, or pursuant to a third-party request
- The legislative members or staff who have oversight of the auditee, when the auditor is performing the audit pursuant to a law or regulation (This requirement applies only to situations where the law or regulation specifically identifies the entity to be audited. The requirement excludes situations where the mandate to audit the financial statements applies to entities not specifically identified, such as audits required by the Single Audit Act.)

2.20 *Government Auditing Standards* also requires that if an audit is terminated before it is complete, auditors should write a memorandum for the record that summarizes the results of the work and explains the reasons why the audit was terminated. Auditors should communicate the reason for terminating the audit to auditee management, the entity requesting the audit, and other appropriate officials, preferably in writing. This communication should be documented in the audit documentation.

2.21 The independence rules in *Government Auditing Standards* also establish additional communication requirements related to nonaudit services. Paragraph 2.09 describes those requirements.

Considering the Results of Previous Audits and Attestation Engagements

2.22 Paragraphs 4.14 through 4.16 of *Government Auditing Standards* present and discuss the standard related to considering the results of previous audits and attestation engagements. *Government Auditing Standards* states that the auditee is responsible for resolving audit findings and recommendations and for having a process to track their status. It further requires auditors to consider the results of previous financial audits, attestation engagements, performance audits, or other studies and to follow up on known significant findings and recommendations,¹⁷ including those related to reportable conditions, that directly relate to the objectives of the audit being undertaken. (*Government Auditing Standards* requires the auditor to ask the auditee to identify those audits, engagements, and studies and the corrective actions taken to address significant findings and recommendations.) Auditors should use professional judgment in determining (1) prior periods to be considered, (2) the level of work necessary to follow up on significant findings and recommendations that affect the audit, and (3) the effect on the risk assessment and audit procedures in planning the current audit.¹⁸ Although *Government Auditing Standards* does

¹⁷ *Government Auditing Standards* defines *significant findings and recommendations* as those matters that, if not corrected, could affect the results of the auditors' work and the auditors' conclusions and recommendations about those results.

¹⁸ Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) contains additional requirements for follow-up on prior audit findings. See Chapters 8, "Compliance Auditing Applicable to Major Programs," and 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide.

not require the auditor to report the status of findings and recommendations from prior audits, whether corrected or not, the auditor should consider whether uncorrected prior-period findings should continue to be current-period findings.

Detecting Material Misstatements Resulting From Violations of Provisions of Contracts and Grant Agreements and Abuse

2.23 Paragraph 4.17 of *Government Auditing Standards* contains an additional fieldwork standard requiring that auditors design the audit to provide reasonable assurance of detecting material misstatements resulting from violations of provisions of contracts or grant agreements that have a direct and material effect on the determination of financial statement amounts or other financial data significant to the audit objectives.¹⁹ However, it generally has been interpreted under GAAS that the phrase *laws and regulations* in SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), implicitly includes provisions of contracts or grant agreements. Thus, the auditor's responsibility in an audit of financial statements with regard to detecting material misstatements resulting from violations of provisions of contracts or grant agreements under *Government Auditing Standards* equates to the auditor's responsibility under GAAS. Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide further discusses SAS No. 54 and related auditing procedures.

2.24 Paragraph 4.17 of *Government Auditing Standards* also contains an additional fieldwork standard for financial audits concerning abuse, which it defines as involving behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances. (GAAS does not contain standards relating to abuse.) Chapter 3 of this Guide discusses that standard and related auditing procedures.

Developing Elements of a Finding

2.25 Paragraph 4.21 of *Government Auditing Standards* requires that when auditors identify problems, they should plan audit procedures to develop the elements of a finding to facilitate developing the auditor's report to the extent possible. *Government Auditing Standards* states that while audit findings often have been regarded as containing the elements of criteria, condition, and effect, plus cause when problems are found, the elements needed for a finding depend entirely on the objectives of the audit and that a finding or set of findings is complete to the extent that the audit objectives are satisfied. Chapter 4 of this Guide further discusses *Government Auditing Standards* requirements for presenting audit findings.

Audit Documentation

2.26 SAS No. 96, *Audit Documentation* (AICPA, *Professional Standards*, vol. 1, AU sec. 339), provides guidance on the content, retention, and confidentiality of audit documentation as required by GAAS. Among other things, SAS No. 96 requires audit documentation to be sufficient to enable members of the engagement team with supervision and review responsibilities to understand the nature, timing, extent, and results of auditing procedures performed, and the

¹⁹ The reference in *Government Auditing Standards* to "other financial data significant to the audit objectives" relates to auditing procedures on financial data outside of the basic financial statements. For example, it may relate to required supplementary information (RSI) and supplementary information other than RSI (known as SI). It also relates to financial audits other than the audits of financial statements, including audits conducted in accordance with Circular A-133.

evidence obtained.²⁰ *Government Auditing Standards* contains an additional standard that requires audit documentation related to planning, conducting, and reporting on the audit to contain sufficient information to enable an experienced auditor having no previous connection with the audit to ascertain the evidence that supports the auditor's significant conclusions and judgments. The additional standard also requires that audit documentation contain support for findings, conclusions, and recommendations before the auditors issue their report. (See *Government Auditing Standards*, paragraphs 4.22 through 4.26.)

2.27 *Government Auditing Standards* states that audit documentation should contain:

- The objectives, scope, and methodology of the audit
- The auditors' determination that certain additional government auditing standards do not apply or that an applicable standard was not followed, the reasons therefore, and the known effect that not following the applicable standard had, or could have had, on the audit
- Evidence of supervisory review, before the audit report is issued, of the work performed that supports findings, conclusions, and recommendations contained in the audit report

2.28 *Government Auditing Standards* also states that audit documentation should contain the auditor's consideration that the planned audit procedures are designed to achieve audit objectives when evidential matter obtained is highly dependent on computerized information systems and is material to the objective of the audit but the auditor is not relying on the effectiveness of internal control over those computerized systems that produced the information. This documentation requirement does not increase the auditor's responsibility for testing internal control but is intended to assist the auditors in ensuring that audit objectives are met and audit risk is reduced to an acceptable level. This documentation should address:

- The rationale for determining the nature, timing, and extent of planned audit procedures
- The kinds and competence of available evidential matter produced outside a computerized information system or plans for direct testing of data produced from a computerized information system
- The effect on the audit report if evidential matter to be gathered does not afford a reasonable basis for the objectives of the audit

2.29 This chapter and Chapter 4 of this Guide discuss the following specific audit documentation requirements of *Government Auditing Standards*. Audit documentation should include:

- Assurance obtained that specialists used are qualified
- Communication with the auditee or others regarding the nature, timing, and extent of planned testing and reporting and the level of assurance
- Communication with the auditee or others regarding the reasons for terminating an audit

²⁰ Auditors should note that paragraph 8 of SAS No. 96, *Audit Documentation* (AICPA, *Professional Standards*, vol. 1, AU sec. 339.08), requires the auditor to include in the audit documentation abstracts or copies of significant contracts or agreements that were examined to evaluate the accounting for significant transactions. Additionally, it requires audit documentation of tests of operating effectiveness of controls and substantive tests of details that involve inspection of documents or confirmation to include an identification of the items tested. See footnote 5 of SAS No. 96 (AU sec. 339, footnote 5) for further guidance on how to satisfy that identification.

- Information about the availability of the auditor's report on internal control over financial reporting and on compliance and other matters for public inspection (See also paragraph 2.33 concerning establishing an understanding with the auditee concerning report distribution responsibilities.)
- Communications to the auditee about deficiencies in internal control, fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse.

2.30 The independence rules in *Government Auditing Standards* also establish additional documentation requirements related to nonaudit services. Paragraph 2.09 describes those requirements.

2.31 *Government Auditing Standards* states that auditors should provide for access to audit documentation by other auditors and reviewers and that contractual arrangements for audits should provide for full and timely access to audit documentation to facilitate reliance by others on the auditors' work.²¹ It also states that audit organizations should adequately safeguard documentation and develop clearly defined policies and criteria,²² considering applicable laws and regulations that apply to the audit organizations or the auditee, to deal with situations where requests are made by outside parties to obtain access to audit documentation, especially when an outside party attempts to obtain indirectly through the auditor information that it is unable to obtain directly from the audited entity.

Additional Planning Considerations

Establishing an Understanding With the Auditee

2.32 SAS No. 83, *Establishing an Understanding With the Client* (AICPA, *Professional Standards*, vol. 1, AU sec. 310), as amended, states that the auditor should establish an understanding with the auditee regarding the services to be performed. Such understanding reduces the risk that either the auditor or the auditee may misinterpret the needs or expectations of the other party. The understanding should include the objectives of the engagement, management's responsibilities, the auditor's responsibilities, and the limitations of the engagement. The auditor should document this understanding in the audit documentation, preferably through a written communication with the auditee, such as an engagement letter. If the auditor believes an understanding with the client has not been established, he or she should decline to accept the engagement.

2.33 SAS No. 83 includes a listing of the matters that generally should be included when the auditor establishes an understanding with the auditee regarding an audit of the financial statements. In addition to those matters, the auditor also should consider including the following information in the communication when he or she is engaged to perform an audit of financial statements in accordance with *Government Auditing Standards*:

- A description of the financial statements to be audited
- The reporting period

²¹ Chapter 6, "Planning Considerations of Circular A-133," of this Guide discusses the additional audit documentation access requirements of Circular A-133.

²² In establishing those policies and criteria, auditors should refer to the guidance in AICPA Auditing Interpretation No. 1, "Providing Access to or Copies of Audit Documentation to a Regulator," of SAS No. 96 (AICPA, *Professional Standards*, vol. 1, AU sec. 9339.01–15).

- The auditing standards and requirements that will be followed (that is, GAAS and *Government Auditing Standards*)
- A description of management's responsibility for the following, as provided in *Government Auditing Standards*:
 - Reviewing, approving, and taking responsibility for the financial statements and related notes and for acknowledging the auditor's role if the auditor has a role in preparing the trial balance and draft financial statements and related notes or in converting cash-basis financial statements to accrual-based financial statements²³
 - Taking timely and appropriate steps to remedy fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse that the auditor reports
 - Having a process to track the status of audit findings and recommendations
 - Identifying for the auditor previous financial audits, attestation engagements, performance audits, or other studies related to the objectives of the audit being undertaken and the corrective actions taken to address significant findings and recommendations
 - Providing views on the auditor's current findings, conclusions, and recommendations, as well as management's planned corrective actions, for the report, and the timing and format for providing that information
- A description of management and auditor responsibilities for additional information that accompanies the basic financial statements—required supplementary information (RSI) and supplementary information other than RSI (known as SI)
- A statement that because the determination of abuse is subjective, *Government Auditing Standards* does not expect auditors to provide reasonable assurance of detecting abuse
- The communication with the auditee, the individuals contracting for or requesting audit services, and the audit committee required by *Government Auditing Standards* and discussed in paragraphs 2.18 and 2.19
- A description of the reports the auditor is expected to prepare and issue
- Report distribution responsibilities, including that copies are available for public inspection unless the report is restricted by law or regulation, or contains privileged and confidential information
- A statement that the audit documentation will be made available upon request to appropriate auditors and reviewers
- A copy of the audit organization's most recent external peer review report and any letter of comment as discussed in paragraph 2.16

Audit Materiality Considerations

2.34 SAS No. 47, *Audit Risk and Materiality in Conducting an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 312), as amended, provides guidance on the auditor's consideration of materiality when he or she plans and

²³ As indicated in Chapter 3 of this Guide, footnote 28 to paragraph 3.18 of *Government Auditing Standards* requires a management representation to this effect. To ensure that the auditee is in a position to make the required representation, the auditor may wish to include in the communication that establishes an understanding with the auditee the specific steps the auditee will take, which may include designating a qualified management-level individual to be responsible and accountable for overseeing the drafting or conversion of the financial statements.

performs an audit of financial statements in accordance with GAAS. Materiality, as it relates to the financial statement audit, is further discussed in the AICPA Audit and Accounting Guides, including *Not-for-Profit Organizations* and *State and Local Governments*.²⁴

2.35 Paragraph 4.04 of *Government Auditing Standards* contains guidance on materiality considerations. It states that “Auditors should use professional judgment and consider the needs of users in applying the AICPA standards and related guidance to audits of a government entity or an entity that receives government awards. For example, auditors may need to set lower materiality levels than in audits in the private sector because of the public accountability of the audited entity, various legal and regulatory requirements, and the visibility and sensitivity of government programs.”

Determining Compliance Requirements

2.36 In planning the consideration of the internal control and compliance aspects of the audit, the auditor should obtain from management the principal compliance requirements at the start of the audit. Chapter 3 of this Guide discusses possible audit procedures to assess the completeness of management’s identification of compliance requirements.

Joint Audits

2.37 Because governmental entities and entities that receive governmental assistance often have legal or contractual requirements to make positive efforts to use small business, minority-owned firms, and women’s business enterprises, they may engage such independent accounting firms on a joint-venture or subcontract basis. In these instances it may be necessary to refer to the work of other auditors. Before entering into an agreement to perform a joint audit or to subcontract with another firm, the principal auditor should consider SAS No. 1, section 543, *Part of Audit Performed by Other Independent Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 543.02), and Ethics Interpretation No. 101-10, “The Effect on Independence of Relationships With Entities Included in the Governmental Financial Statements,” of ET section 101, *Independence* (AICPA, *Professional Standards*, vol. 2, ET sec. 101.12). The principal auditor should be satisfied that the other auditors meet the general standards of *Government Auditing Standards*, as discussed in paragraphs 2.07 through 2.17.

2.38 In some circumstances, each of the auditors participating in the audit will jointly sign the audit reports. This is appropriate only when each auditor or firm has complied with GAAS and *Government Auditing Standards* and is in a position that would justify being the only signatory of the report.

The Internal Audit Function

2.39 Another factor the auditor should consider when planning the audit is whether the auditee has an internal audit function and the nature of that function, including the extent to which internal auditors are involved in monitoring internal control and compliance with specified requirements. The auditor should consider the guidance in SAS No. 65, *The Auditor’s Consideration of the*

²⁴ As discussed in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor’s consideration of materiality for purposes of planning, performing, evaluating the results of, and reporting on the audit of the financial statements of a state or local government is based on opinion units. See that Guide for further guidance.

Internal Audit Function in an Audit of Financial Statements (AICPA, *Professional Standards*, vol. 1, AU sec. 322), when addressing the competence and objectivity of internal auditors; the nature, timing, and extent of work to be performed; and other related matters (for example, in obtaining an understanding of the entity's internal control over financial reporting and compliance, assessing audit risk, and performing substantive procedures).

Communications With Other Entities

2.40 When professional judgment indicates it is appropriate, the auditor may communicate with grantor agencies (including pass-through entities) or federal or state auditors or other oversight entities to aid in planning the audit. The auditor might want to consider documenting such communications, as well as any decisions reached as a result. If a planning meeting is held, matters such as the following may be discussed:

- The audit plan
- The scope of the review and testing of internal control over financial reporting and of compliance
- The identification of grant awards and compliance requirements, including current year changes to those requirements
- The form and content of required supplemental reporting
- The status of prior-year findings and recommendations
- Recent audits or other reviews conducted by federal or state auditors or other oversight entities

Exit Conference

2.41 Upon completion of fieldwork, the auditor should consider holding a closing or exit conference with senior officials of the auditee. The exit conference assists the auditor in obtaining the views of responsible officials concerning the findings, conclusions, and recommendations, as well as planned corrective action, as required by *Government Auditing Standards*. (Chapter 4 of this Guide discusses that *Government Auditing Standards* requirement and its guidance when auditee comments are received orally rather than in writing.) That conference also provides the auditee with an advance opportunity to discuss whether planned corrective actions adequately address the auditor's recommendations and to initiate corrective action without waiting for a final audit report. In the case of decentralized operations, such as at a university, auditors should consider having preliminary meetings with deans, department heads, and other operating personnel who have direct responsibility for financial management systems and the administration of sponsored projects.

2.42 The auditor should consider documenting the names of the auditors who conducted the exit conference, the names and positions of the representatives with whom exit conferences were held and any comments that they had, and other details of the discussions.

Chapter 3

Financial Statement Audit Considerations of Government Auditing Standards

Introduction

3.01 This chapter summarizes the requirements of generally accepted auditing standards (GAAS) related to the auditor's consideration of internal control over financial reporting and financial statement misstatements, including misstatements relating to compliance, in a financial statement audit. As discussed in Chapter 2, "Planning Considerations of *Government Auditing Standards*," of this Guide, *Government Auditing Standards* incorporates those GAAS requirements.¹ This chapter also discusses the additional requirements of *Government Auditing Standards* in those areas and in the area of abuse.

Consideration of Internal Control Over Financial Reporting

3.02 The following paragraphs describe the requirements of GAAS and *Government Auditing Standards* applicable to the auditor's consideration of internal control over financial reporting in a financial statement audit.

GAAS Requirements

3.03 Statement on Auditing Standards (SAS) No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), as amended, provides guidance on the independent auditor's consideration of an auditee's internal control in an audit of financial statements in accordance with GAAS, defines internal control, describes the objectives and components of internal control, and explains how an auditor should consider internal control in planning and performing an audit.

3.04 When obtaining an understanding of internal control over financial reporting and assessing control risk for the assertions embodied in the financial statements, the auditor should refer to SAS No. 55, as amended, and to guidance in applicable AICPA Audit and Accounting Guides.²

Definition of Internal Control

3.05 The definition of *internal control* in both SAS No. 55, as amended, and *Government Auditing Standards* is based on the definition and description

¹ *Government Auditing Standards* incorporates the fieldwork and reporting standards of generally accepted auditing standards (GAAS) and the related Statements on Auditing Standards (SASs) issued by the AICPA unless the Comptroller General of the United States excludes them by formal announcement. To date, the Comptroller General has not excluded any fieldwork or reporting standards or related SASs.

² Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units, the auditor's consideration of internal control over financial reporting in planning, performing, evaluating the results of, and reporting on the audit of a government's basic financial statements should address each opinion unit. See that Guide for further guidance.

of internal control contained in *Internal Control—Integrated Framework*, published by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission. The definition is as follows:

Internal control means a process, effected by an entity's board of directors, management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

- Effectiveness and efficiency of operations;
- Reliability of financial reporting; and
- Compliance with applicable laws and regulations.

Control Objectives

3.06 The three categories of control objectives listed in paragraph 3.05 are what an auditee strives to achieve. Those distinct but somewhat overlapping categories have differing purposes and allow a directed focus to meet the needs of the auditee and others regarding each separate purpose. In general, controls that are relevant to an audit of financial statements pertain to the auditee's objective of the reliability of financial reporting and involve the preparation of financial statements for external purposes that are fairly presented in conformity with generally accepted accounting principles (GAAP) or a comprehensive basis of accounting other than GAAP.³ However, controls pertaining to the operations and compliance objectives also may be relevant to a financial statement audit to the extent that they pertain to data the auditor evaluates or uses in applying auditing procedures to the financial statements. Controls relevant to an audit of the financial statements are referred to collectively in this Guide as *internal control over financial reporting* and are encompassed in the reporting on internal control required by *Government Auditing Standards*, as discussed in Chapter 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide.

Components of Internal Control

3.07 The five components of internal control are the control environment, risk assessment, control activities, information and communication, and monitoring. SAS No. 55, as amended, requires the auditor to obtain an understanding of each of those components that is sufficient to plan the audit by performing procedures to understand (a) the design of controls relevant to an audit of financial statements, and (b) whether they have been placed in operation. In all audits of financial statements, including those conducted in accordance with *Government Auditing Standards*, this understanding incorporates knowledge about the design of controls relevant to compliance with laws and regulations that have a direct and material effect on the determination of financial statement amounts, as well as knowledge about whether they have been placed in operation. After obtaining this understanding, the auditor assesses

³ SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623.04), defines the comprehensive bases of accounting other than generally accepted accounting principles (GAAP), known as *other comprehensive bases of accounting*, or OCBOA. The AICPA Audit and Accounting Guide *State and Local Governments* discusses the application of SAS No. 62, as amended, and Auditing Interpretation No. 14, "Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting," of SAS No. 62 (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.90-.95) to state and local governmental financial statements. That Guide also provides an illustrative auditor's report on OCBOA financial statements. In addition, in the AICPA's Practice Aid Series, two publications—*Applying OCBOA in State and Local Governmental Financial Statements* and *Preparing and Reporting on Cash- and Tax-Basis Financial Statements*—provide nonauthoritative guidance on preparing and reporting on OCBOA financial statements.

control risk for the assertions embodied in the account balance, transaction class, and disclosure components of the financial statements.

Relationship Between Objectives and Components

3.08 There is a direct relationship between the three categories of control objectives (what an auditee strives to achieve) and the control components (what is needed to achieve the objectives). Although an auditee's internal control addresses objectives in each of the categories referred to in the definition of internal control in paragraph 3.05, not all of these objectives and related controls are relevant to an audit of the auditee's financial statements.

Documentation Requirements

3.09 SAS No. 55, as amended, requires the auditor to document the understanding of the auditee's internal control components that was obtained to plan the audit. In addition, the auditor should document his or her conclusions about the assessed level of control risk and, where control risk is assessed below the maximum level, the basis for that conclusion. The form and extent of this documentation is influenced by the size and complexity of the auditee, as well as by the nature of the auditee's internal control. (Chapter 2 of this Guide discusses the additional audit documentation requirements of *Government Auditing Standards*.) Auditors should refer to SAS No. 55, as amended, for more detail on the documentation requirements related to internal control over financial reporting.

Communication Requirements

3.10 The auditor should consult SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325), as amended, for guidance on identifying and reporting conditions that relate to an entity's internal control over financial reporting observed during an audit of financial statements. (See also paragraph 3.12 and Chapter 4 of this Guide.) The auditor also should consult the guidance in SAS No. 61, *Communication With Audit Committees* (AICPA, *Professional Standards*, vol. 1, AU sec. 380), as amended, for required communications to persons who have responsibility for the oversight of the financial reporting process, as discussed in Chapter 4 of this Guide.

Additional Government Auditing Standards Requirements

3.11 As discussed in Chapter 2 of this Guide, *Government Auditing Standards* provides certain additional fieldwork standards that may specifically affect the auditor's consideration of internal control over financial reporting as follows:

- *Government Auditing Standards*, paragraph 4.06, requires the auditor to communicate information regarding the nature, timing, and extent of planned testing and reporting and the level of assurance for internal control over financial reporting to certain parties during the planning stages of an audit.
- *Government Auditing Standards*, paragraph 4.24c, requires additional documentation of the auditor's consideration that the planned audit procedures are designed to achieve audit objectives when evidential matter obtained is highly dependent on computerized information systems and is material to the objective of the audit but the auditor is not relying on the effectiveness of internal control over those computerized systems that produced the information.

- *Government Auditing Standards*, paragraph 4.14, requires the auditor to consider the effect of the status of findings and recommendations from previous audits and attestation engagements on the risk assessment procedures used to plan the current audit.

3.12 Reporting on the internal control over financial reporting under *Government Auditing Standards* differs from such reporting under SAS No. 60, as amended. *Government Auditing Standards* requires written reporting on internal control over financial reporting in all audits. SAS No. 60, as amended, requires communication (either written or oral) only when the auditor has noted reportable conditions. *Government Auditing Standards*, paragraphs 5.12 and 5.14, requires a description of any reportable conditions noted, including the identification of those that are individually or cumulatively material weaknesses. SAS No. 60, as amended, permits, but does not require, the auditor to identify and communicate separately, as material weaknesses, those reportable conditions that, in the auditor's judgment, are considered to be material weaknesses. Finally, *Government Auditing Standards* requires communication of matters that are not addressed by SAS No. 60, as amended, including:

- a. As required by paragraph 5.08 of *Government Auditing Standards*, a description of the scope of the auditor's testing of internal control and the results of those tests.⁴ (This information is communicated in the report on internal control over financial reporting and on compliance and other matters.)
- b. As required by paragraph 5.16 of *Government Auditing Standards*, deficiencies in internal control that are not considered reportable conditions, except those that are clearly inconsequential. (This information is communicated in a management letter.)

Chapter 4 of this Guide further discusses the reporting and communication requirements related to internal control over financial reporting. That chapter also provides illustrative auditor's reports on internal control over financial reporting and on compliance on other matters.

Consideration of Financial Statement Misstatements, Including Compliance

3.13 The following paragraphs summarize the requirements of GAAS that are applicable to the auditor's consideration of financial statement misstatements, including misstatements relating to compliance,⁵ in a financial statement audit. They also discuss the additional requirements of *Government Auditing Standards*. The auditor should be aware of the unique environmental characteristics relating to compliance requirements of certain entities that are subject to audits in accordance with *Government Auditing Standards*. Federal, state, and local government and not-for-profit organizations (NPOs) differ from commercial enterprises in that they may be subject to numerous, diverse compliance requirements. Other entities that are subject to *Government Auditing*

⁴ *Government Auditing Standards* permits but does not require an opinion on internal control over financial reporting if sufficient work was performed.

⁵ This Guide sometimes collectively refers to laws, regulations, and provisions of contracts and grant agreements as *compliance requirements* and to illegal acts and violations of provisions of contracts or grant agreements as *noncompliance* or *instances of noncompliance*. See also paragraphs 3.16 and 3.17.

Standards also may have transactions and balances that involve such compliance requirements. Management is responsible for ensuring compliance with relevant laws and regulations. That responsibility encompasses the identification of applicable laws and regulations and the establishment of internal control designed to provide reasonable assurance that the auditee complies with those laws and regulations.

GAAS Requirements

General Guidance

3.14 As discussed in Chapters 1, “Introduction,” and 2 of this Guide, SAS No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801), provides general guidance when the auditor is engaged to conduct an audit in accordance with *Government Auditing Standards*. SAS No. 74 describes the auditor’s responsibility in a GAAS audit for considering laws and regulations and how they affect the financial statement audit.

3.15 The auditor is required to design the audit to provide reasonable assurance that the financial statements are free of material misstatements resulting from violations of laws and regulations, fraud, or error.⁶ SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), describes the auditor’s responsibility in a GAAS audit for considering laws and regulations and how they affect the financial statement audit. SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), and SAS No. 47, *Audit Risk and Materiality in Conducting an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 312), as amended, describe the auditor’s responsibility in a GAAS audit for the consideration of fraud and errors. The rest of this section describes the requirements of SAS Nos. 54, 99, and 47.

SAS No. 54 Requirements Concerning Compliance

3.16 SAS No. 54 (AU sec. 317) requires the auditor to design the audit to provide reasonable assurance that the financial statements are free of material misstatements resulting from illegal acts (that is, violations of laws and regulations) that have a direct and material effect on the determination of financial statement amounts. This involves identifying laws and regulations that may have a direct and material effect on the determination of financial statement amounts, and then assessing the risk that noncompliance with these laws and regulations may cause the financial statements to contain a material misstatement. The auditor considers such laws or regulations from the perspective of their known relation to audit objectives derived from financial statement assertions rather than from the perspective of legality per se.

3.17 It generally has been interpreted under GAAS that the term *laws and regulations* in SAS No. 60 implicitly includes provisions of contracts or grant agreements. This Guide sometimes collectively refers to laws, regulations,

⁶ Because an audit of a government’s financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units, the auditor’s consideration of financial statement misstatements due to violations of laws and regulations (including violations of provisions of contracts and grant agreements—see footnote 5 and paragraph 3.17), fraud, or error in planning, performing, evaluating the results of, and reporting on the audit of a government’s basic financial statements should address each opinion unit. See that Guide for further guidance.

and provisions of contracts and grant agreements as *compliance requirements* and to illegal acts and violations of provisions of contracts and grant agreements as *noncompliance* or *instances of noncompliance*.

3.18 In considering whether the financial statements may be materially misstated because of instances of noncompliance, the auditor should:

- Assess whether management has identified compliance requirements that have a direct and material effect on the determination of amounts in the financial statements.
- Obtain an understanding of the possible effects of these compliance requirements on the determination of financial statement amounts.
- Assess the risk that a material misstatement of the financial statements has occurred because of instances of noncompliance.
- Design and conduct the audit to provide reasonable assurance of detecting such material noncompliance.

3.19 The auditor may consider performing the following procedures in assessing management's identification of these compliance requirements and in obtaining an understanding of their possible effects on the determination of financial statement amounts:

- a. Consider knowledge about these compliance requirements that has been obtained from prior years' audits.
- b. Discuss these compliance requirements with the auditee's chief financial officer, legal counsel, or grant administrators.
- c. Obtain written representation from management regarding the completeness of management's identification of compliance requirements (see paragraph 3.38).
- d. Review the relevant portions of any directly related agreements, such as those related to grants and loans.
- e. Identify sources of revenue, review any related agreements (for example, loan agreements or grant agreements), and inquire about the applicability of any overall governmental regulations to the accounting for the revenue.
- f. Obtain publications pertaining to compliance requirements. Such publications include those that address federal tax and other reporting requirements, such as the Department of the Treasury and the Internal Revenue Service requirements pertaining to information returns and regulations concerning the calculation of arbitrage rebates and refunds.
- g. Obtain copies of, and review pertinent sections of, laws and regulations—including federal and state constitutions, articles of incorporation, charters, and bylaws—concerning the auditee. The sections of these documents pertaining, as applicable, to financial reporting, debt, taxation, budget, and appropriation and procurement matters may be especially relevant.
- h. Review the minutes of meetings of the governing body of the auditee for the enactment of laws and regulations or information about contracts and grant agreements that have a direct and material effect on the determination of financial statement amounts.
- i. Inquire of the office of the federal, state, or local auditor or other appropriate audit oversight organization about the compliance requirements applicable to entities within their jurisdiction, including statutes and uniform reporting requirements.

- j. Review information about applicable federal and state program compliance requirements, such as the information included in the *Office of Management and Budget (OMB) Circular A-133 Compliance Supplement (Compliance Supplement)*, the *Catalog of Federal Domestic Assistance (CFDA)*, federal audit guides, and state and local policies and procedures.
- k. Review the guidance contained in the applicable AICPA Audit and Accounting Guides and the materials available from other professional organizations, such as state societies of CPAs or industry associations.
- l. Inquire of the audit, finance, or program administrators from which grants are received about the restrictions, limitations, terms, and conditions under which such grants were provided. Those administrators can usually be helpful in identifying compliance requirements, which they may identify separately or publish in an audit guide.

3.20 In obtaining an understanding of the possible effects on financial statements of compliance requirements that are generally recognized by auditors to have a direct and material effect on the determination of financial statement amounts, the auditor may consider:

- The materiality of the effect on financial statement amounts
- The level of management or employee involvement in the compliance-assurance process
- The opportunity for concealment of instances of noncompliance

3.21 As part of assessing the risk of material misstatement, the auditor should assess the risk that instances of noncompliance may cause such a material misstatement. Based on that assessment, the auditor should design the audit to provide reasonable assurance of detecting instances of noncompliance that are material to the financial statements. Therefore, the auditor should design the audit to provide reasonable assurance that the financial statements are free of material misstatements resulting from instances of noncompliance that have a direct and material effect on the determination of financial statement amounts.

3.22 Auditees may be affected by many other laws and regulations, including those related to occupational safety and health, environmental protection, equal employment, food and drug administration, and price fixing or other antitrust violations. Those laws and regulations generally concern an auditee's operations more than financial reporting and accounting. Their effect on an auditee's financial statements is indirect and normally takes the form of the disclosure of a contingent liability that follows from the allegation or determination of illegality. The auditor ordinarily would not have a sufficient basis to recognize possible violations of these laws and regulations. Even when violations of such laws and regulations can have consequences that are material to the financial statements, the auditor may not become aware of the existence of the illegal act unless he or she is informed by the auditee, or unless there is evidence of an investigation or enforcement proceeding in the records, documents, or other information normally inspected in an audit of financial statements.⁷

⁷ In addition, for compliance with laws and regulations that have an indirect effect on the determination of financial statement amounts, SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), notes that, where applicable, the auditor should also inquire of management concerning (a) the client's policies relative to the prevention of illegal acts and (b) the use of directives issued by the client, as well as periodic representations obtained by the client, from management at appropriate levels of authority, concerning compliance with laws and regulations.

3.23 If specific information comes to the auditor's attention that provides evidence concerning the existence of possible instances of noncompliance that could have a material indirect effect on the financial statements, the auditor should apply audit procedures specifically directed to ascertaining whether an instance of noncompliance occurred. However, because of the characteristics of such noncompliance, an audit made in accordance with GAAS provides no assurance that indirect-effect instances of noncompliance will be detected or that any contingent liabilities that may result will be disclosed.

SAS No. 99 Requirements Concerning Fraud

3.24 SAS No. 1, section 110, *Responsibilities and Functions of the Independent Auditor* (AICPA, *Professional Standards*, vol. 1, AU sec. 110), states that the auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. SAS No. 99 (AU sec. 316) provides guidance to auditors in fulfilling that responsibility, as it relates to fraud, in an audit of financial statements conducted in accordance with GAAS.

3.25 Although fraud is a broad legal concept, the auditor's interest specifically relates to fraudulent acts that cause a material misstatement of financial statements. The primary factor that distinguishes fraud from error is whether the underlying action that results in the misstatement of financial statements is intentional or unintentional. Two types of misstatements are relevant to the auditor's consideration of fraud in a financial statement audit: misstatements arising from fraudulent financial reporting and misstatements arising from the misappropriation of assets. Three conditions generally are present when fraud occurs. First, management or other employees have an *incentive* or are under *pressure*, which provides a reason to commit fraud. Second, circumstances exist—for example, the absence of controls, ineffective controls, or the ability of management to override controls—that provide an *opportunity* for a fraud to be perpetrated. Third, those involved are able to *rationalize* committing a fraudulent act. The two types of misstatements, the three conditions, as well as other characteristics of fraud, are discussed further in SAS No. 99 (AU sec. 316.05–.12).

3.26 The risk of material misstatement of the financial statements due to fraud is part of audit risk. SAS No. 99 requires, as part of planning the audit, that there be a discussion among the audit team members to consider how and where the entity's financial statements might be susceptible to material misstatement due to fraud and to reinforce the importance of adopting an appropriate mindset of professional skepticism. The auditor also should specifically:⁸

- Obtain the information needed to identify the risks of material misstatement due to fraud, which includes making inquiries of management and others within the entity, considering the results of analytical procedures performed in planning, and considering fraud risk factors and other information that might be helpful in identifying risks (see AU sec. 316.19–.34).

⁸ When the auditor is considering risk factors and other information that may be helpful in identifying risks of material misstatement due to fraud in an audit of financial statements of an entity that receives federal awards, the auditor's responsibilities under SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), include the consideration of risk factors associated with the receipt of federal awards that could present a material misstatement of the financial statements. This is especially true in audits conducted in accordance with Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133).

- Identify the risks that may result in a material misstatement due to fraud by considering the information gathered in the previous bullet and the risk of management override of controls (AU sec. 316.35–.42).
- Assess the identified risks after taking into account an evaluation of the entity's programs and controls that address the risks (AU sec. 316.43–.45).
- Respond to the assessments of the risks of material misstatement due to fraud by, among other things, modifying the nature, timing, and extent of auditing procedures to address the identified risks (AU sec. 316.46–.56).
- Address the risk of management override of controls by performing procedures that include examining journal entries and other adjustments, reviewing accounting estimates for biases, and evaluating the business rationale for significant unusual transactions (AU sec. 316.57–.67).

Because of the characteristics of fraud, the auditor's exercise of professional skepticism is important when considering the risk of material misstatement due to fraud.

3.27 Auditors may wish to refer to the AICPA Practice Aid titled *Fraud Detection in a GAAS Audit: Revised Edition*, which includes specific guidance on applying the concepts of SAS No. 99 to several industries, including government, health care organizations, NPOs, and real estate entities, and to recipients of federal awards. Among other things, it identifies example risk factors for those industries and recipients. Auditors should also refer to the applicable AICPA Audit and Accounting Guides, such as *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments* for additional industry-specific guidance on fulfilling the requirements of SAS No. 99.

3.28 Auditors should refer to SAS No. 99 (AU sec. 316.83) for a complete listing of the items and events that it requires the auditor to document. Among other things, the auditor should document the discussion among engagement personnel in planning the audit regarding the susceptibility of the entity's financial statements to material misstatement due to fraud, procedures performed to obtain information necessary to identify and assess the risks of material misstatement due to fraud, the specific risks of material misstatement due to fraud that were identified, and a description of the auditor's response to those risks.

3.29 SAS No. 99 also contains requirements on evaluation of audit evidence and communications about possible fraud to management, the audit committee, and others. Auditors should refer to SAS No. 99 (AU sec. 316.68–.82) for a description of the specific requirements in those areas. Chapter 4 of this Guide discusses the auditor's responsibilities under SAS 99 for communications about fraud.

SAS No. 47 Requirements Concerning Errors

3.30 SAS No. 47 (AU sec. 312), as amended, provides guidance to auditors in fulfilling the responsibility described in paragraph 3.24, as it relates to errors, in an audit of financial statements conducted in accordance with GAAS. Errors are described as unintentional misstatements, or as omissions of amounts or disclosures, in financial statements. Errors may involve (a) mistakes in gathering or processing data from which financial statements are prepared, (b) unreasonable accounting estimates arising from oversight or the misinterpretation of facts, and (c) mistakes in the application of accounting principles relating to amounts, classification, the manner of presentation, or disclosure.

When the auditor is considering his or her responsibility to obtain reasonable assurance that the financial statements are free of material misstatement, there is no important distinction between error and fraud. There is a distinction, however, in the auditor's response to detected misstatements. An isolated, immaterial error in processing accounting data or in applying accounting principles generally is not significant to the audit. In contrast, when fraud is detected, the auditor should consider its implications for the integrity of management or employees and its possible effect on other aspects of the audit. Auditors should refer to SAS No. 47, as amended, for more detailed guidance.

Audit Documentation

3.31 The auditor should document the procedures performed to evaluate compliance with laws and regulations (including violations of provisions of contracts and grant agreements—see footnote 5 and paragraph 3.17) that have a direct and material effect on the determination of financial statement amounts in accordance with SAS No. 96, *Audit Documentation* (AICPA, *Professional Standards*, vol. 1, AU sec. 339). As discussed in paragraph 3.28, SAS No. 99 requires documentation of certain items and events related to the auditor's consideration of fraud. As discussed in paragraph 3.09, SAS No. 55, as amended, requires documentation of the auditor's understanding of internal control over financial reporting, including as it pertains to compliance, and the related assessment of control risk. SAS No. 47 (AU sec. 312.40) requires the auditor to document the nature and effect of aggregated misstatements and his or her conclusion as to whether the aggregated misstatements cause the financial statements to be materially misstated. (Chapter 2 of this Guide discusses *Government Auditing Standards* requirements related to audit documentation.)

Additional Government Auditing Standards Requirements

3.32 *Government Auditing Standards* provides certain additional field-work standards that may specifically affect the auditor's consideration of compliance and fraud as follows:

- *Government Auditing Standards*, paragraph 4.06, requires the auditor to communicate information regarding the nature, timing, and extent of planned testing and reporting and the level of assurance on compliance with laws, regulations, and provisions of contracts or grant agreements to certain parties during the planning stages of an audit.
- *Government Auditing Standards*, paragraph 4.17, specifically states that the auditor should design the audit to provide reasonable assurance of detecting material misstatements resulting from noncompliance with provisions of contracts or grant agreements that have a direct and material effect on the determination of financial statement amounts. (See paragraph 3.17.)
- *Government Auditing Standards*, paragraph 4.14, requires the auditor to consider the effect of the status of findings and recommendations from previous audits and attestation engagements on the risk assessment procedures used to plan the current audit.

3.33 *Government Auditing Standards* also provides certain additional reporting standards related to compliance and fraud, including:

- a. As required by paragraph 5.08 of *Government Auditing Standards*, a description of the scope of the auditor's testing of compliance with laws, regulations, and provisions of contracts or grant agreements

and the results of those tests.⁹ (This information is communicated in the report on internal control over financial reporting and on compliance and other matters.)

- b. As required by paragraphs 5.12 and 5.17 of *Government Auditing Standards*, all instances of fraud and illegal acts, except those that are clearly inconsequential,¹⁰ and material¹¹ violations of provisions of contracts or grant agreements. (This information is communicated in the report on internal control over financial reporting and on compliance and other matters.)
- c. As required by paragraph 5.20 of *Government Auditing Standards*, immaterial violations of provisions of contracts or grant agreements, except those that are clearly inconsequential. (This information is communicated in a management letter.)

Chapter 4 of this Guide further discusses the reporting and communication requirements related to compliance and fraud. That chapter also provides illustrative auditor's reports on internal control over financial reporting and on compliance on other matters.

Consideration of Abuse

3.34 Paragraph 4.17 of *Government Auditing Standards* contains an additional fieldwork standard requiring that auditors be alert to situations or transactions that could be indicative of abuse. Auditors have no responsibility to design the audit to detect abuse. However, if auditors become aware of indications of abuse that could materially¹² affect the financial statement amounts or other financial data significant to the audit objectives, they should apply audit procedures specifically directed to ascertain whether abuse has occurred and the effect on the financial statement amounts or other financial data significant to the audit objectives.¹³ Paragraph 4.19 of *Government Auditing*

⁹ *Government Auditing Standards* permits but does not require an opinion on compliance if sufficient work was performed.

¹⁰ In an audit in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report and reporting findings that are not material to the financial statements again in the *Government Auditing Standards* report would be unnecessarily duplicative. See Chapters 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," and 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide.

¹¹ Although *Government Auditing Standards* uses the term *significant* in its reporting standard for violations of provisions of contracts or grant agreements, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

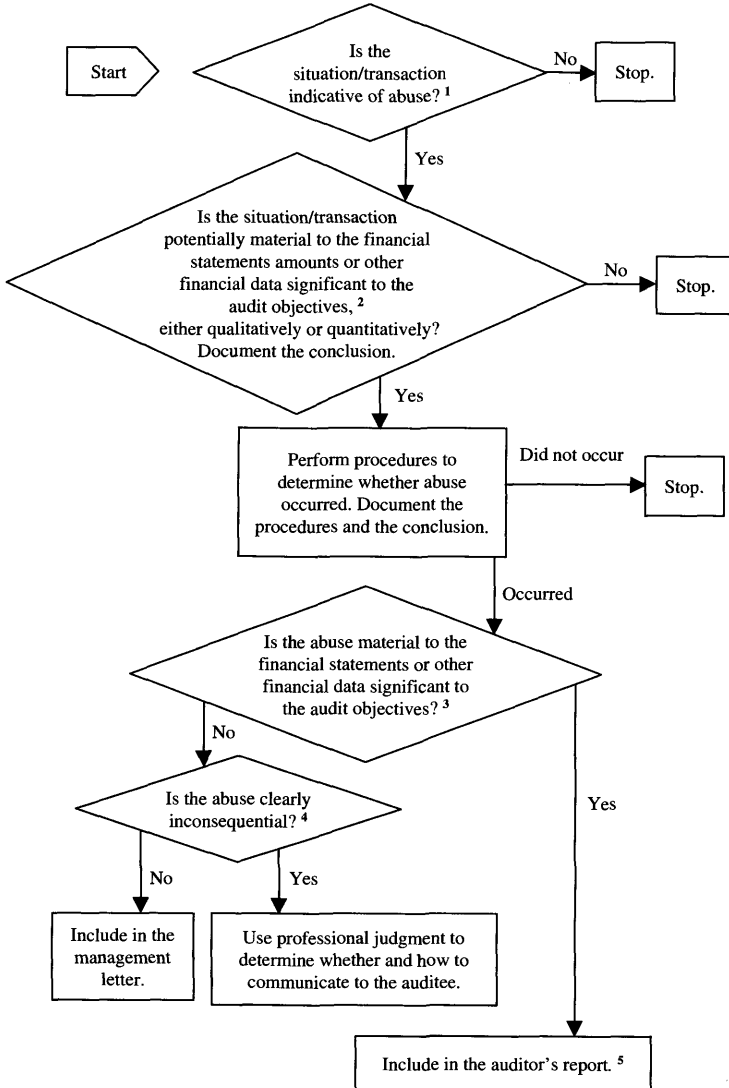

¹² Although *Government Auditing Standards* uses the term *significant* in its fieldwork standard for abuse, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

¹³ The reference in *Government Auditing Standards* to "other financial data significant to the audit objectives" relates to auditing procedures on financial data outside of the basic financial statements. For example, it may relate to required supplementary information (RSI) and supplementary information other than RSI (known as SI). It also relates to financial audits other than the audits of financial statements, including compliance audits conducted in accordance with Circular A-133. See the discussion of the effect of this requirement on compliance audits in accordance with Circular A-133 in Chapters 8, "Compliance Auditing Applicable to Major Programs," and 10, "Consideration of Internal Control over Compliance for Major Programs," of this Guide.

Standards describes “abuse” by stating that it is distinct from fraud, illegal acts, and violations of provisions of contracts or grant agreements. Abuse, it states, “involves behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances.” *Government Auditing Standards* states that auditors should consider both quantitative and qualitative factors in making judgments regarding the materiality of possible abuse and whether they need to extend the audit steps and procedures. Exhibit 3-1 is a flowchart that illustrates the evaluation and reporting of possible abuse. Chapter 4 of this Guide discusses the reporting standard for abuse and provides illustrative auditor’s reports on internal control over financial reporting and on compliance on other matters.

Exhibit 3-1

Evaluation and Reporting of Findings of Possible Abuse

¹ Auditors have no responsibility to design the audit to detect abuse. Auditors should consider the steps in this flowchart only if they become aware of indications of abuse.

² Chapters 8, "Compliance Auditing Applicable to Major Programs," and 10, "Consideration of Internal Control over Compliance for Major Programs," of this Guide discuss additional considerations in evaluating abuse related to federal awards in an audit conducted in accordance with Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). Of note in those discussions is that situations or transactions involving federal awards that might otherwise appear to constitute abuse instead generally are instances of noncompliance.

³ Chapter 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide discusses the requirements in paragraphs 5.21 through 5.25 of *Government Auditing Standards* that auditors report abuse directly to parties outside of the auditee in certain circumstances.

⁴ Generally, *Government Auditing Standards* requires the auditor to evaluate findings for the purpose of communication in the management letter based on their consequence to the financial statements or other financial data significant to the audit objectives. As discussed in Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide, however, in an audit in accordance with Circular A-133, the auditor should evaluate findings involving federal awards for the purpose of that communication based only on their consequence to the financial statements.

⁵ The auditor should report abuse findings related to financial statement audits in the report on internal control over financial reporting and on compliance and other matters required by *Government Auditing Standards*. Chapter 4 of this Guide discusses when to report those abuse findings in the internal control section of that report or instead in the section on compliance and other matters. Chapter 12 of this Guide discusses the reporting of abuse findings related to federal awards in a Circular A-133 audit, including that the auditor may need to report those findings in both (a) the report on internal control over financial reporting and on compliance and other matters required by *Government Auditing Standards* and (b) the report on compliance with requirements applicable to each major program and on internal control over compliance in accordance with Circular A-133.

3.35 *Government Auditing Standards* states that information about abuse could come to the auditor's attention through audit procedures, allegations received through a fraud hotline, or other means. For example, the auditor may become aware of abuse by reading local newspaper articles, interviewing auditee officials, and performing detailed internal control and substantive testwork. The auditor has no responsibility under *Government Auditing Standards* to seek indicators of abuse by reviewing fraud hotline logs, subscribing to and reading local newspapers, making direct inquiries of auditee officials about possible abuse, or selectively choosing items for testwork. Footnote 51 to paragraph 4.19 of *Government Auditing Standards* cites travel costs of senior management officials to locations chosen for personal reasons rather than less costly locations which would have been appropriate to satisfy the business objectives of the travel as a qualitatively material example of abuse. That example does not establish a standard that requires auditors to perform procedures on travel costs in every audit.

3.36 If an auditor becomes aware of a situation or transaction that might constitute abuse, the auditor should perform procedures (such as making inquiries of auditee officials about the nature of and reasons for the situation or transaction) to determine whether it is indicative of abuse. Those procedures

should involve evaluating whether the situation or transaction meets the definition of abuse, including that it does not involve fraud, illegal acts, or violations of provisions of contracts or grant agreements because *Government Auditing Standards* (a) defines *abuse* as being distinct from those other conditions¹⁴ and (b) has different reporting standards for abuse as compared to fraud and illegal acts, as discussed in Chapter 4 of this Guide. Those procedures also should involve evaluating whether the situation or transaction involves behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances, which is subjective and thus requires judgment. If the auditor concludes that a situation or transaction is indicative of abuse, the auditor should evaluate whether it is potentially material to the financial statement amounts¹⁵ or other financial data significant to the audit objectives. If the situation or transaction is potentially material, the auditor should perform additional procedures (such as extending sample sizes by selectively choosing items for testwork) to provide further evidence whether the situation or transaction constitutes abuse and its effect on financial statement amounts or other financial data significant to the audit objectives. Auditors should evaluate whether a situation or transaction that constitutes abuse is material to financial statement amounts or other financial data significant to the audit objectives based on both quantitative factors and qualitative factors. Qualitative factors that the auditor may consider relevant to that evaluation include the following:

- Whether the abuse is the result of a reportable condition in internal control
- The potential effect of the abuse on the entity's ability to raise resources (for example, through taxes, grants, contributions, or debt or loan financings) in the future
- The potential effect of the abuse on the continuation of existing relationships with vendors, employees, and elected and appointed officials
- Whether the abuse involves collusion or concealment
- Whether the abuse involves an activity that often is scrutinized by elected or appointed officials, citizens, the press, creditors, or rating agencies
- Whether the fact of the abuse is unambiguous rather than a matter of judgment
- Whether the abuse is an isolated event or instead has occurred with some frequency
- Whether the abuse results from management's continued unwillingness to correct internal control weaknesses
- The likelihood that similar abuse will continue in the future
- The cost-benefit of establishing internal control to prevent similar abuse in the future
- The risk that possible undetected abuse would affect the auditor's evaluation

¹⁴ As discussed in Chapters 8 and 10 of this Guide, because the OMB cost principles circulars require that costs charged to federal awards be reasonable and necessary for the performance and administration of the awards, situations or transactions involving federal awards that might otherwise appear to constitute abuse instead generally are instances of noncompliance.

¹⁵ Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units, the auditor's consideration of abuse in planning, performing, evaluating the results of, and reporting on the audit of a government's basic financial statements should address each opinion unit. See that Guide for further guidance.

3.37 As indicated in Exhibit 3-1, *Government Auditing Standards* provides guidance for reporting immaterial abuse outside of the auditor's report. Given the process for categorizing a situation or transaction as constituting abuse, and given that abuse often is material based on qualitative rather than quantitative factors, findings of abuse generally would be material or at least clearly consequential. However, an auditor might conclude that identified abuse is clearly inconsequential. For example, the auditor might find an isolated instance of abuse at an entity that subsequently instituted control to prevent future, similar abuse.

Written Representations From Management

3.38 SAS No. 85, *Management Representations* (AICPA, *Professional Standards*, vol. 1, AU sec. 333), as amended, requires the auditor to obtain written representations from management as part of an audit conducted in accordance with GAAS. It also includes an illustrative management representation letter and an appendix containing additional representations that may be appropriate to be included in a management representation letter in certain circumstances. With respect to a financial statement audit conducted in accordance with GAAS and *Government Auditing Standards*, auditors should consider obtaining additional representations from management acknowledging that management:

- a. Is responsible for compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to the auditee.
- b. Is responsible for establishing and maintaining effective internal control over financial reporting.
- c. Has identified and disclosed to the auditor all laws, regulations, and provisions of contracts and grant agreements that have a direct and material effect on the determination of financial statement amounts or other financial data significant to the audit objectives.
- d. Has identified and disclosed to the auditor violations (and possible violations) of laws, regulations, and provisions of contracts and grant agreements whose effects should be considered for disclosure in the financial statements, as a basis for recording a loss contingency, or for auditor reporting on noncompliance.
- e. Has reviewed, approved, and taken responsibility for the financial statements and related notes and an acknowledgment of the auditor's role in the preparation of this information. (This representation is required by footnote 28 to paragraph 3.18 of *Government Auditing Standards* when the auditor has a role in preparing the trial balance and draft financial statements and related notes.)
- f. Has reviewed, approved, and taken responsibility for accrual adjustments and an acknowledgment of the auditor's role in the preparation of the adjustments. (This representation is required by footnote 28 to paragraph 3.18 of *Government Auditing Standards* when the auditor has a role in converting cash-basis financial statements to accrual-based financial statements.)
- g. Has taken timely and appropriate steps to remedy fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse that the auditor reports.
- h. Has a process to track the status of audit findings and recommendations.

- i. Has identified for the auditor previous financial audits, attestation engagements, performance audits, or other studies related to the objectives of the audit being undertaken and the corrective actions taken to address significant findings and recommendations.¹⁶
- j. Has provided views on the auditors' reported findings, conclusions, and recommendations, as well as management's planned corrective actions, for the report.

An auditor should obtain representations from those members of management with overall responsibility for financial and operating matters that the auditor believes are responsible for and knowledgeable about, directly or through others in the organization, the matters covered by the representations. Such members of management normally include the chief executive officer and chief financial officer or others in equivalent positions (such as the management of component organizations). It often is desirable also to obtain representation letters from other officials (for example, asking the recording secretary for the governing body to represent that the minutes are complete for all meetings held during the period and through the date of the auditor's report).

Reasonable Assurance

3.39 SAS No. 1, section 230, *Due Professional Care in the Performance of Work* (AICPA, *Professional Standards*, vol. 1, AU sec. 230), states that because the auditor's opinion on the financial statements is based on the concept of obtaining reasonable assurance, the auditor is not an insurer and his or her audit report does not constitute a guarantee. Therefore, the subsequent discovery that a material misstatement, whether from error or fraud, exists in the financial statements does not, in and of itself, evidence (a) failure to obtain reasonable assurance, (b) inadequate planning, performance, or judgment, (c) the absence of due professional care, or (d) a failure to comply with GAAS. Paragraph 3.38 of *Government Auditing Standards* similarly states in part that "while this standard places responsibility on each auditor and audit organization to exercise professional judgment in planning and performing an assignment, it does not imply unlimited responsibility, nor does it imply infallibility on the part of either the individual auditor or the audit organization." Further, *Government Auditing Standards* states that the determination of abuse is subjective and that auditors are not expected to provide reasonable assurance of detecting abuse.

¹⁶ *Government Auditing Standards*, footnote 46 to paragraph 4.15, defines *significant findings and recommendations* as those matters that, if not corrected, could affect the results of the auditors' work and the auditors' conclusions and recommendations about those results.

Chapter 4

Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards

Overview

4.01 This chapter discusses the auditor's reporting requirements and other communication considerations in an audit of financial statements conducted in accordance with *Government Auditing Standards*. (Appendix A [paragraph 4.44] presents illustrative auditor's reports for those audits.) Primary among the reporting requirements are that the auditor (a) express an opinion or disclaim an opinion on the financial statements¹ and (b) report on internal control over financial reporting and on compliance and other matters, which concern certain fraud and abuse, based on the audit of the financial statements.

Reporting Requirements

GAAS Requirements

4.02 Generally accepted auditing standards (GAAS) contain four reporting standards, all of which are incorporated into *Government Auditing Standards*.² (See paragraph 5.03 of *Government Auditing Standards*.) Statement on Auditing Standards (SAS) No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508), as amended, establishes requirements for reporting on audits of financial statements that are intended to be presented in conformity with generally accepted accounting principles (GAAP). SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623), as amended, establishes requirements for reporting on audits of financial statements that are prepared in conformity with a comprehensive basis of accounting other than GAAP, known as *other comprehensive bases of accounting*, or OCBOA.³ SAS No. 8, *Other Information in Documents Containing Audited*

¹ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government's basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. In addition, the auditor may provide opinions or disclaimers of opinions on additional opinion units if engaged to set the scope of the audit and assess materiality at a more detailed level than by the opinion units required for the basic financial statements. Throughout this Guide, the use of the singular terms *opinion* and *disclaimer of opinion* encompasses the multiple opinions and disclaimers of opinion that generally will be provided on a government's financial statements.

² *Government Auditing Standards* incorporates the fieldwork and reporting standards of generally accepted auditing standards (GAAS) and the related Statements on Auditing Standards (SASs) issued by the AICPA unless the Comptroller General of the United States excludes them by formal announcement. To date, the Comptroller General has not excluded any fieldwork or reporting standards or related SASs.

³ The AICPA Audit and Accounting Guide *State and Local Governments* discusses the application of SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623), as amended, and Auditing Interpretation No. 14, "Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting," of SAS No. 62 (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.90-.95) to state and local governmental financial statements. That Guide also provides an illustrative auditor's report on financial statements prepared in conformity with comprehensive bases of accounting other than generally accepted accounting

(continued)

Financial Statements (AICPA, *Professional Standards*, vol. 1, AU sec. 550), as amended, SAS No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents* (AICPA, *Professional Standards*, vol. 1, AU sec. 551), as amended, and SAS No. 52, *Required Supplementary Information* (AICPA, *Professional Standards*, vol. 1, AU sec. 558), as amended, provide guidance on reporting on additional information that accompanies the basic financial statements—both required supplementary information (RSI) and supplementary information other than RSI, known as SI.⁴ Auditors also should refer to applicable AICPA Audit and Accounting Guides, such as *Health Care Organizations*, *Not-For-Profit Organizations*, and *State and Local Governments*, for additional guidance on reporting on the financial statements of specific industries. Paragraphs 4.06, 4.10 through 4.14, and 4.41 discuss other relevant GAAS reporting and communication requirements.

Government Auditing Standards Requirements

4.03 *Government Auditing Standards* requires that in addition to providing an opinion or a disclaimer of opinion on the financial statements, the auditor should report on the scope and results of testing of the auditee's internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements.⁵ The auditor also should report certain fraud and abuse.

4.04 *Government Auditing Standards* contains the following six reporting standards in addition to those required for an audit of financial statements in accordance with GAAS:

- a. When the report on the audit of the financial statements is submitted to comply with a requirement for an audit in accordance with *Government Auditing Standards*, or when those standards are voluntarily followed, the report should state that the audit was performed in accordance with generally accepted government auditing standards. (See paragraphs 5.05 through 5.07 of *Government Auditing Standards*.) Paragraph 4.23 discusses this requirement.
- b. The report on the audit of the financial statements should either (1) describe the scope of the auditor's testing of internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements and present the results of

(footnote continued)

principles (GAAP), known as *other comprehensive bases of accounting*, or OCBOA. In addition, in the AICPA's Practice Aid Series, two publications—*Applying OCBOA in State and Local Governmental Financial Statements* and *Preparing and Reporting on Cash- and Tax-Basis Financial Statements*—provide nonauthoritative guidance on preparing and reporting on financial statements prepared in conformity with OCBOA.

⁴ The Audit and Accounting Guide *State and Local Governments* includes flowcharts that summarize auditor procedures and reporting on required supplementary information (RSI) and supplementary information other than RSI, known as SI.

⁵ *Government Auditing Standards* and SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317), define the term *illegal acts* as violations of laws and regulations. As indicated in Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide, it generally has been interpreted under GAAS that the term *laws and regulations* in SAS No. 54 implicitly includes provisions of contracts or grant agreements. This Guide sometimes collectively refers to laws, regulations, and provisions of contracts and grant agreements as *compliance requirements* and to illegal acts and violations of provisions of contracts or grant agreements as *noncompliance* or *instances of noncompliance*.

those tests,⁶ or (2) refer to separate report(s) containing that information. (See paragraphs 5.08 through 5.11 of *Government Auditing Standards*.) When auditors report separately on internal control over financial reporting and on compliance and other matters, the report on the financial statements should state that they have issued the additional report. It also should state that the report on internal control over financial reporting and on compliance and other matters is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of the audit. This Guide recommends the second option; that is, to refer to a separate report on internal control over financial reporting and on compliance. This Guide also recommends that the reference to the separate report indicate that the separate report does not provide an opinion on internal control over financial reporting or on compliance.⁷ See the illustrative reports in Appendix A (paragraph 4.44), Examples 4-3 and 4-4. Paragraphs 4.07 through 4.09, 4.25, and 4.26 further discuss reporting on internal control over financial reporting and on compliance.

- c. The auditor should report, as applicable to the objectives of the audit, (1) deficiencies in internal control considered to be reportable conditions as defined in AICPA standards, (2) all instances of fraud and illegal acts unless clearly inconsequential, (3) material violations of provisions of contracts or grant agreements, and (4) material abuse.^{8,9} In some circumstances, auditors should report fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse directly to parties external to the audited entity. (See paragraphs 5.12 through 5.25 of *Government Auditing Standards*.) Paragraphs 4.08, 4.15, 4.16, 4.25, and 4.26 further discuss the requirements of this standard and paragraphs 4.27 through 4.32 discuss the reporting of findings.
- d. If the auditors' report discloses deficiencies in internal control, fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse, auditors should obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as planned corrective actions. (See paragraphs 5.26 through 5.30 of *Government Auditing Standards*.) Paragraphs 4.33 and 4.34 further discuss the requirements of this standard.

⁶ Paragraph 5.08 of *Government Auditing Standards* permits, but does not require, an opinion on internal control over financial reporting or on compliance if sufficient work was performed.

⁷ This Guide makes this recommendation so that report users who are accustomed to an opinion on internal control over financial reporting in auditor's reports for "issuers," as that term is defined by the Sarbanes-Oxley Act of 2002 or whose audit is prescribed by the rules of the Securities and Exchange Commission (SEC), are not misled by the reference to the separate report. If the auditor provides an opinion on internal control over financial reporting or on compliance (see footnote 6), the reference to the separate report should indicate that there is such an opinion.

⁸ Although *Government Auditing Standards* uses the term *significant* in its reporting standard for violations of provisions of contracts or grant agreements and abuse, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

⁹ *Government Auditing Standards* requires this reporting even if the auditor disclaims an opinion on the financial statements. These findings are communicated in the report on internal control over financial reporting and on compliance and other matters. *Government Auditing Standards* also provides reporting requirements for other findings of internal control deficiencies, fraud, illegal acts, violations of provisions of contracts or grants agreements, and abuse, as summarized in Table 4-1 and discussed in paragraph 4.35.

- e. If certain pertinent information is prohibited from general disclosure (as it may be by federal, state, or local laws or regulations), the audit report should state the nature of the information omitted and the requirement that makes the omission necessary. (See paragraphs 5.31 through 5.33 of *Government Auditing Standards*, which also discuss the issuance and distribution of separate limited-official-use reports containing omitted information, including information that is omitted because of public safety and security concerns.)
- f. Government auditors should submit audit reports to the appropriate officials of the audited entity and to appropriate officials of the organizations requiring or arranging for the audits, including external funding organizations such as legislative bodies, unless legal restrictions prevent it. Those auditors also should send copies of the reports to other officials who have legal oversight authority or who may be responsible for acting on audit findings and recommendations and to others authorized to receive such reports. Nongovernment auditors should clarify report distribution responsibilities with the party contracting for the audit and follow the agreements reached. Unless the report is restricted by law or regulation, or contains privileged and confidential information, both government and nongovernment auditors should clarify that copies are made available for public inspection.¹⁰ (See paragraphs 5.34 through 5.38 of *Government Auditing Standards*, which also discuss requirements that audit documentation include information about the availability of the report for public inspection and for communication and documentation if an audit is terminated before it is completed but the auditors do not issue an audit report.)

4.05 Table 4-1 summarizes *Government Auditing Standards* requirements for reporting matters relating to internal control over financial reporting, fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse, as discussed in this chapter:

¹⁰ This Guide recommends that auditors make the required clarification in the engagement letter or other understanding with the auditee; see Chapter 2, “Planning Considerations of *Government Auditing Standards*,” of this Guide. In addition, auditors could make the clarification in correspondence that transmits the reports to the auditee and other recipients.

Table 4-1

**Government Auditing Standards
Requirements for Reporting Findings**

	<i>Report on Internal Control Over Financial Reporting and on Compliance and Other Matters</i>	<i>Management Letter¹</i>	<i>Auditors Use Professional Judgment to Determine Reporting</i>
Deficiencies in internal control over financial reporting:			
Reportable conditions (Those that are, either individually or in the aggregate, material weaknesses should be so identified.)	X		
Other deficiencies except those that are clearly inconsequential		X	
Clearly inconsequential			X
Fraud and illegal acts:			
All except those that are clearly inconsequential ²	X		
Clearly inconsequential			X
Violations of provisions of contracts or grant agreements and abuse:			
Material	X		
Immaterial except those that are clearly inconsequential		X	
Clearly inconsequential			X

¹ See paragraph 4.35 and footnote 40.

² As explained in paragraph 4.15, in an audit in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting.

Internal Control Over Financial Reporting¹¹

GAAS Requirements

4.06 SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325), as amended,

¹¹ Chapter 3 of this Guide discusses the auditor's consideration of internal control over financial reporting. Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units (see footnote 1), the auditor's consideration of internal control over financial reporting in planning, performing, evaluating the results of, and reporting on the audit should address each opinion unit.

provides guidance in identifying and reporting conditions that relate to an auditee's internal control observed during an audit of financial statements. SAS No. 60, as amended, requires this reporting to the audit committee or to individuals with a level of authority and responsibility equivalent to an audit committee in organizations that do not have one, such as the board of directors, the board of trustees, an owner in an owner-managed enterprise, or others who may have engaged the auditor. In addition to providing guidance on communicating reportable conditions and identifying material weaknesses in the internal control over financial reporting, SAS No. 60, as amended, states that because timely communication may be important, the auditor may choose to communicate significant matters related to the internal control over financial reporting during the course of the audit rather than after the audit is concluded.

Government Auditing Standards Requirements

4.07 As discussed in paragraph 4.04b, paragraph 5.08 of *Government Auditing Standards* requires the auditor to issue a report that describes the scope of the auditor's testing of internal control over financial reporting and presents the results of those tests. Written reporting on internal control matters under *Government Auditing Standards* is based on the auditor's consideration of the internal control over financial reporting as required by SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), as amended. The report should describe the extent of the work performed under the provisions of SAS No. 55, as amended, and encompass the requirements of SAS No. 60 as well as the additional requirements of *Government Auditing Standards*. While not required, *Government Auditing Standards* does permit the report to express an opinion on the auditee's internal control over financial reporting if sufficient work was performed.

4.08 Paragraph 5.12 of *Government Auditing Standards* requires auditors to report deficiencies in internal control over financial reporting that they consider to be reportable conditions as defined by SAS No. 60, as amended. (Paragraph 5.13 of *Government Auditing Standards* provides examples of possible reportable conditions and paragraphs 4.27 through 4.32 of this chapter describe *Government Auditing Standards* requirements for presenting audit findings, including deficiencies in internal control.) SAS No. 60 (AU sec. 325.17) prohibits the auditor from issuing a written report representing that no reportable conditions were noted during an audit. The illustrative report in Appendix A (paragraph 4.44), Example 4-3, provides recommended language that satisfies the requirements of *Government Auditing Standards* when no reportable conditions are noted during an audit. In reporting reportable conditions, paragraph 5.14 of *Government Auditing Standards* requires auditors to identify those that are individually or in the aggregate material weaknesses. The illustrative report in Appendix A (paragraph 4.44), Example 4-4, provides recommended language that satisfies the requirements of *Government Auditing Standards* when reportable conditions (whether or not they are considered to be material weaknesses) are noted during an audit.

4.09 Table 4-2 summarizes the differences between SAS No. 60, as amended, and *Government Auditing Standards* with respect to reporting on internal control over financial reporting. In addition to the reporting requirements discussed above and summarized in that table, paragraph 5.16 of *Government Auditing Standards* provides guidance for communicating deficiencies in internal control that are not reportable conditions. Sometimes those deficiencies should be communicated in a management letter. (See Table 4-1 and paragraph 4.35.)

Table 4-2

Reporting on Internal Control Over Financial Reporting

	Government Auditing Standards	<i>SAS No. 60, as Amended</i>
How are reportable conditions reported?	In a report on internal control over financial reporting	In communication to the audit or equivalent committee
When is reporting required?	For every financial statement audit	When reportable conditions are noted
What is the form of the report?	Written	Oral or written, preferably in writing
Should the auditor separately identify those reportable conditions that are significant enough to be material weaknesses?	Yes	Permitted but not required

Fraud, Illegal Acts, Violations of Provisions of Contracts or Grant Agreements, and Abuse¹²

GAAS Requirements

Illegal Acts, Including Violations of Provisions of Contracts or Grant Agreements

4.10 SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317.17), discusses the auditor's responsibilities with respect to the consideration of illegal acts, including communications with the audit committee or others with equivalent authority or responsibility.¹³ (SAS No. 54 defines *illegal acts* as violations of laws or government regulations. It generally has been interpreted under GAAS that the term *laws and regulations* in SAS No. 54 implicitly includes provisions of contracts or grant agreements.¹⁴) SAS No. 54 (AU sec. 317.17) requires the auditor to assure himself or herself that the audit committee or others with equivalent authority and responsibility are adequately informed with respect to illegal acts (including violations of provisions of contracts or grant agreements) that come to the auditor's attention. The auditor need not communicate matters that are clearly inconsequential and may reach agreement in advance with the audit committee on the nature of such matters to be communicated. The communication should describe the

¹² Chapter 3 of this Guide discusses the auditor's consideration of fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse. Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units (see footnote 1), the auditor's consideration of fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse in planning, performing, evaluating the results of, and reporting on the audit should address each opinion unit.

¹³ For auditees that do not have audit committees, the phrase "others with equivalent authority and responsibility" may include the board of directors, the board of trustees, or the owner in owner-managed entities. SAS No. 54 (AU sec. 317.17) permits the communication to be oral or written (with audit documentation if oral), but *Government Auditing Standards* requires the communication to be in writing.

¹⁴ See footnote 5.

act, the circumstances of its occurrence, and its effect on the financial statements. If senior management is involved, the auditor should communicate directly with the audit committee. Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide summarizes other requirements of SAS No. 54. The auditor also should consider the effect of any noncompliance on the financial statements, and should modify the auditor's report on those financial statements as necessary in accordance with SAS No. 58, as amended.

Fraud

4.11 SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), discusses the auditor's responsibilities for fraud, including communications about fraud to management, the audit committee, and others based on a financial statement audit in accordance with GAAS. Whenever the auditor has determined that there is evidence that fraud may exist, the auditor should bring that matter to the attention of an appropriate level of management. This is appropriate even if the matter might be considered inconsequential, such as a minor defalcation by an employee at a low level in the auditee's organization. The auditor should report directly to the audit committee (a) fraud involving senior management and (b) fraud, whether caused by senior management or other employees, that causes a material misstatement of the financial statements. In addition, the auditor should reach an understanding with the audit committee regarding the nature and extent of communications with the committee about misappropriations perpetrated by lower-level employees. Under GAAS, the disclosure of possible fraud to parties other than the auditee's senior management and its audit committee ordinarily is not part of the auditor's responsibility and ordinarily would be precluded by the auditor's ethical or legal obligations of confidentiality unless the matter is reflected in the auditor's report. The auditor should recognize, however, that in the following circumstances a duty to disclose to parties outside the auditee may exist:

- To comply with certain legal and regulatory requirements
- To a successor auditor when the successor makes inquiries in accordance with SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 315), as amended
- In response to a subpoena
- To a funding agency or other specified agency in accordance with the requirements for audits of entities that receive governmental financial assistance

The above circumstances encompass financial audits in accordance with *Government Auditing Standards*, which establishes additional reporting requirements relating to fraud. See paragraphs 4.15 through 4.20.

4.12 If the auditor, as a result of the assessment of the risks of material misstatement, has identified risks of material misstatements due to fraud that have continuing control implications (whether or not transactions or adjustments that could be the result of fraud have been detected), the auditor should consider whether those risks represent reportable conditions relating to the auditee's internal control that the auditor should communicate to senior management and the audit committee.¹⁵ (See paragraph 4.06.) The auditor also

¹⁵ Alternatively, the auditor may decide to communicate solely with the audit committee.

should consider whether the absence of or deficiencies in programs and controls to mitigate specific risks of fraud or to otherwise help prevent, deter, and detect fraud represent reportable conditions that should be communicated to senior management and the audit committee. The auditor also may wish to communicate other risks of fraud identified as a result of the assessment of the risks of material misstatements due to fraud.

4.13 See SAS No. 99 (AU sec. 316.79–82) for further communication requirements. Chapter 3 of this Guide summarizes other requirements of SAS No. 99.¹⁶

Abuse

4.14 GAAS does not require the reporting of abuse. *Government Auditing Standards* does require reporting about abuse; see paragraphs 4.15 through 4.20.

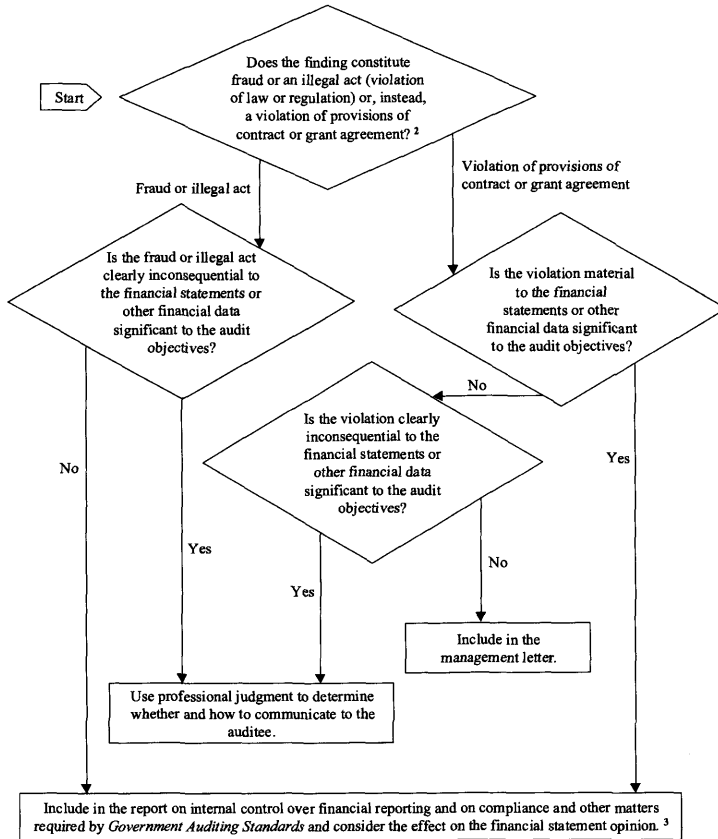

Government Auditing Standards Requirements

4.15 As discussed in paragraph 4.04b, paragraph 5.08 of *Government Auditing Standards* requires the auditor to issue a report that describes the scope of the auditor's testing of compliance with laws, regulations, and provisions of contracts or grant agreements and present the results of those tests. As discussed in paragraph 4.04c, paragraph 5.12 of *Government Auditing Standards* also requires the auditor to report, as applicable to the objectives of the audit, relevant information when the auditor concludes, based on evidence obtained, that fraud, illegal acts, material violations of provisions of contracts or grant agreements, or material abuse has occurred or is likely to have occurred. However, auditors do not need to report information about fraud or illegal acts that is clearly inconsequential. In addition, in an audit conducted in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report and reporting findings that are not material to the financial statements again in the *Government Auditing Standards* report would be unnecessarily duplicative. Paragraphs 4.27 through 4.32 describe *Government Auditing Standards* requirements for presenting audit findings. Exhibit 4-1 is a flowchart that illustrates the evaluation and reporting of findings of fraud and noncompliance under *Government Auditing Standards* when the auditee is not subject to an audit in accordance with Circular A-133. (Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide presents a flowchart that illustrates the evaluation and reporting of findings of fraud and noncompliance under *Government Auditing Standards* when the auditee is subject to an audit in accordance with Circular A-133.) Chapter 3 of this Guide includes a flowchart that illustrates its discussion of the evaluation and reporting of findings of abuse.

¹⁶ Chapter 8, "Compliance Auditing Applicable to Major Programs" discusses the auditor's consideration of fraud risk in an audit of an auditee's compliance with specified requirements applicable to its major programs in an audit conducted in accordance with Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133).

Exhibit 4-1

Evaluation and Reporting of Findings of Fraud and Noncompliance Under Government Auditing Standards¹

¹ This flowchart represents the evaluation and reporting of findings of fraud and noncompliance (illegal acts and violations of provisions of contracts or grant agreements) under *Government Auditing Standards* when the auditee is not subject to an audit in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide presents a flowchart that illustrates the evaluation and reporting of findings of fraud and noncompliance under *Government Auditing Standards* when the auditee is subject to an audit in accordance with Circular A-133.

² The auditor should consider the direct reporting requirement of *Government Auditing Standards*. Paragraph 4.18 through 4.20 discuss the requirements in paragraphs 5.21 through 5.25 of *Government Auditing Standards* that auditors report fraud and non-compliance directly to parties outside of the auditee in certain circumstances.

³ Paragraph 4.28 discusses how to report noncompliance findings that relate to both internal control over financial reporting and to compliance. Paragraph 4.29 discusses when to report fraud findings in the internal control section of the report or instead in the section on compliance and other matters.

4.16 As indicated in Exhibit 4-1, *Government Auditing Standards* has differing standards for including in the report on internal control over financial reporting and on compliance and other matters (a) noncompliance that is an illegal act (that is, violations of law or regulation) as compared to (b) noncompliance that is a violation of provisions of contract or grant agreements. The reporting for (a) is a threshold of “not clearly inconsequential” whereas the reporting for (b) is a higher threshold of “material to financial statement amounts or other financial data significant to the audit objectives.” Consequently, it is important that auditors carefully evaluate whether compliance requirements arise from laws or regulations or, instead, only from provisions of contracts or grant agreements. Often, contracts and grant agreements have compliance requirements that are based in law or regulation but those contracts or agreements do not indicate that laws or regulations are the source of the provisions. Further, it may not be apparent whether a document that provides guidance on the provisions of contracts or grant agreements (such as a program management or procedures manual) has the standing of a regulation. The auditor may need to consult with program administrators, grantors, pass-through entities, oversight agencies, legal counsel, or others about the source and standing of compliance requirements.

4.17 As indicated in Exhibit 4-1 and in the discussion and flowchart of abuse in Chapter 3 of this Guide, paragraph 5.20 of *Government Auditing Standards* provides guidance for reporting fraud and illegal acts that are clearly inconsequential, immaterial violations of provisions of contracts or grant agreements, and immaterial abuse. Sometimes, those matters should be reported in a management letter. See Table 4-1 and paragraph 4.35.

Direct Reporting of Fraud, Illegal Acts, Violations of Provisions of Contracts or Grant Agreements, and Abuse

4.18 Paragraphs 5.21 through 5.25 of *Government Auditing Standards* provide guidance on the direct reporting of fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse. *Government Auditing Standards* requires that in addition to any legal requirements for the direct reporting of those situations, auditors should report them directly to parties outside of the auditee in the following two circumstances. Auditors should meet these requirements even if they have resigned or been dismissed from the audit.

- a. The auditee may be required by law or regulation to report certain fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse to specified external parties (for example, to a federal inspector general or a state attorney general). If auditors have communicated such situations to the auditee, and it fails to report them, then auditors should communicate their awareness of that failure to the auditee’s governing body. If the auditee does not make the required report as soon as possible after the auditors’ communication with its governing body, the auditors should report the fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse directly to the external party specified in the law or regulation.
- b. When fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse involves assistance received directly or indirectly from a government agency, auditors may have a duty to report it directly if management fails to take remedial steps. If auditors conclude that such failure is likely to cause them to depart from the

standard report on the financial statements or resign from the audit, they should communicate that conclusion to the auditee's governing body. Then, if the auditee does not report the fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse as soon as possible to the entity that provided the government assistance, the auditors should report the fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse directly to that entity.

4.19 In both of these situations, auditors should obtain sufficient, competent, and relevant evidence (for example, by confirmation with outside parties) to corroborate assertions by management that it has reported fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse. If they are unable to do so, the auditors should report the fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse directly, as discussed previously.

4.20 Paragraph 5.25 of *Government Auditing Standards* states that laws, regulations, or policies may require auditors to report indications of certain types of fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse promptly to law enforcement or investigatory authorities. When auditors conclude that those types of fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse either have occurred or are likely to have occurred, they should ask those authorities, legal counsel, or both, if publicly reporting certain information about the potential fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse would compromise investigative or legal proceedings. Auditors should limit their public reporting to matters that would not compromise those proceedings, such as information that is already a part of the public record.

Report on the Financial Statements

4.21 The auditor's standard report on the financial statements identifies the financial statements audited in an opening (introductory) paragraph, describes the nature of an audit in a scope paragraph, and expresses the auditor's opinion on the financial statements in an opinion paragraph.¹⁷ See the illustrative reports in Appendix A (paragraph 4.44), Examples 4-1 and 4-2. The basic elements of the report are:¹⁸

- a. A title that includes the word *independent*.
- b. A statement that the financial statements identified in the report were audited.

¹⁷ Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units (see footnote 1), the auditor's report on those financial statements may include more than one opinion paragraph.

¹⁸ The Public Accounting Oversight Board (PCAOB) establishes standards for audits of "issuers," as that term is defined by the Sarbanes-Oxley Act of 2002 (the Act) or whose audit is prescribed by the rules of the SEC. Other entities are referred to as "nonissuers." Auditing Interpretation No. 17, "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards," of SAS No. 58, *Reports on Audited Financial Statements*, as amended (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.85-.88), provides language that may be added to the auditor's standard report on the financial statements of a nonissuer to clarify differences between a GAAS audit and an audit conducted in accordance with the standards of the PCAOB. Auditing Interpretation No. 18, "Reference to PCAOB Standards in an Audit Report on a Nonissuer," of SAS No. 58, as amended (AICPA, *Professional Standards*, vol. 1, AU sec. 9508.89-.92), explains how the auditor should report if engaged to also follow PCAOB auditing standards in the audit of a nonissuer. See also the discussion of the effect of PCAOB standards on entities subject to *Government Auditing Standards* in the Notice to Readers of this Guide.

- c. A statement that the financial statements are the responsibility of the auditee's management and that the auditor's responsibility is to express an opinion on the financial statements based on his or her audit.
- d. A statement that the audit was conducted in accordance with GAAS and an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.^{19, 20} (See paragraph 4.23.)
- e. A statement that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.
- f. A statement that an audit includes:
 - Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements.
 - Assessing the accounting principles used and significant estimates made by management.
 - Evaluating the overall financial statement presentation.
- g. A statement that the auditor believes that the audit provides a reasonable basis for his or her opinion.
- h. An opinion on whether the financial statements are fairly presented, in all material respects, in conformity with GAAP.²¹ The opinion should include an identification of the United States of America as the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles).
- i. A reference to the separate report on internal control over financial reporting and on compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters prepared in accordance with *Government Auditing Standards*,²² which includes a statement that the purpose of that report is to describe the scope of testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. This statement should be modified if the auditor is providing an opinion on internal control over financial reporting or on compliance. The reference also should include a statement that the separate

¹⁹ The standards applicable to financial audits are the general, fieldwork, and reporting standards described in Chapters 3, 4, and 5 of *Government Auditing Standards*.

²⁰ *Government Auditing Standards*, paragraph 3.05, states that when personal, external, and organizational impairments to independence exist, a government auditor who cannot decline to perform the work because of a legislative requirement or for other reasons should report the impairment in the scope section of the auditor's report.

²¹ If an auditee prepares OBOA financial statements, the auditor still is required to express or disclaim an opinion and should follow the reporting in SAS No. 62 (AICPA, *Professional Standards*, vol. 1, AU sec. 623), as amended. See also footnote 3.

²² Paragraphs 4.04, 4.07 through 4.09, 4.25, and 4.26 discuss the report on internal control over financial reporting and on compliance and other matters based on a financial statement audit in accordance with *Government Auditing Standards*.

report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of the audit. If the reporting on internal control over financial reporting and on compliance and other matters is included in the report on the financial statements, the reference to the separate report is not required. (This Guide recommends separate reporting; see paragraph 4.04*b*.)

- j.* The manual or printed signature of the auditor's firm.
- k.* The date of the audit report.

4.22 As discussed in paragraph 4.02, various SASs provide reporting guidance if the basic financial statements are accompanied by or required to be accompanied by information presented outside the basic financial statements. Those standards may require additional language in the auditor's report on the financial statements. The illustrative report in Appendix A (paragraph 4.44), Example 4-1, includes paragraphs reporting on RSI and SI.²³

4.23 As discussed in paragraph 4.04*a*, when the report on the audit of the financial statements is submitted to comply with a requirement for an audit in accordance with *Government Auditing Standards*, or when those standards are voluntarily followed, audit reports should state that the audit was performed in accordance with generally accepted government auditing standards. This Guide recommends the following language be included in the auditor's report to meet this requirement: "We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States."²⁴ Paragraph 5.06 of *Government Auditing Standards* states that if the auditor does not follow an applicable standard, the auditor should disclose in the scope section of the report the applicable standard that was not followed, the reasons therefore, and how not following the standard affected, or could have affected, the results of the audit. In assessing the effect on the results of the audit of not following an applicable standard, auditors may need to qualify the assurances provided, disclaim from providing any assurances, or withdraw from the audit.

4.24 Paragraph 5.07 of *Government Auditing Standards* acknowledges that an auditee may need a financial statement audit for purposes other than to comply with a requirement calling for an audit in accordance with *Government Auditing Standards*. For example, the auditee may need a financial statement audit to issue bonds. In that case, *Government Auditing Standards* permits auditors to issue a separate report on the financial statements conforming only to the requirements of GAAS.²⁵

²³ Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide discusses and illustrates auditor reporting on the supplementary schedule of expenditures of federal awards required by Circular A-133.

²⁴ See footnote 19.

²⁵ The AICPA Audit and Accounting Guide *State and Local Governments* discusses auditor association with municipal securities filings and the use of *Government Auditing Standards* reports and references in the official statement. That Guide states that the official statement should not include the reports required by *Government Auditing Standards* because those reports are restricted-use reports under the provisions of SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532). Further, that Guide states that it generally is advisable for the official statements to use an auditor's report on the financial statements that does not refer to the *Government Auditing Standards* audit or to those reports.

Report on Internal Control Over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

4.25 This Guide recommends combining into one report the reporting required by *Government Auditing Standards* on the scope and results of testing of the auditee's internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements and other matters, which concern certain fraud and abuse. (Paragraph 4.29 discusses the placement of findings relating to "other matters.")

4.26 The following lists the basic elements of the auditor's standard report on internal control over financial reporting and on compliance and other matters based on an audit of the financial statements in accordance with *Government Auditing Standards*. See the illustrative reports in Appendix A (paragraph 4.44), Examples 4-3 and 4-4, and the discussion of the presentation of findings and the views of responsible officials and their planned corrective actions in paragraphs 4.27 through 4.34.

- a. A statement that the auditor has audited the financial statements of the auditee and a reference to the auditor's report on the financial statements, including a description of any departure from the standard report.
- b. A statement that the audit was conducted in accordance with GAAS and an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.^{26, 27}
- c. A statement that in planning and performing the audit, the auditor considered the auditee's internal control over financial reporting in order to determine the auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide an opinion on the internal control over financial reporting.²⁸
- d. If applicable, a statement that reportable conditions were noted and the definition of a reportable condition.
- e. If no reportable conditions are noted, a statement that the auditor's consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses; if reportable conditions are noted, a statement that the auditor's consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses.

²⁶ See footnote 19.

²⁷ See footnote 20.

²⁸ See footnote 6. This statement should be modified if the auditor is providing an opinion on internal control over financial reporting.

- f. If applicable, a description of the reportable conditions noted (including the views of responsible officials and their planned corrective action) or a reference to a separate schedule in which the reportable conditions, views of responsible officials, and their planned corrective action are described.²⁹
- g. The definition of a material weakness.
- h. If applicable, a statement about whether the auditor believes any of the reportable conditions noted are material weaknesses and, if they are, that identifies which reportable conditions are considered material weaknesses. If there are no reportable conditions noted, a statement is made that no material weaknesses were noted.
- i. A statement that as part of obtaining reasonable assurance about whether the auditee's financial statements are free of material misstatement, the auditor performed tests of the auditee's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.
- j. A statement that providing an opinion on compliance with those provisions was not an objective of the audit and that, accordingly, the auditor does not express such an opinion.³⁰
- k. A statement that notes whether the results of tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*³¹ and, if they are, describes the instances of noncompliance and other matters (including the views of responsible officials and their planned corrective action) or refers to the separate schedule in which the noncompliance and other matters, views of responsible officials, and their planned corrective action are described.³²
- l. If applicable, a statement that additional matters were communicated to the auditee in a management letter.³³
- m. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of the audit committee, management and specified legislative or regulatory bodies³⁴ and is not intended to be and should not be used by anyone other than these specified parties.³⁵

²⁹ For an audit in accordance with Circular A-133, all findings, including those required to be reported under *Government Auditing Standards*, should be included in the schedule of findings and questioned costs. See the further discussion in Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide.

³⁰ See footnote 6. This statement should be modified if the auditor is providing an opinion on compliance.

³¹ Paragraph 4.15 discusses noncompliance and other matters—certain fraud and abuse—for which *Government Auditing Standards* requires reporting in the auditor's report. Paragraph 4.29 discusses where to report findings of fraud and abuse in the report on internal control over financial reporting and on compliance and other matters.

³² See footnote 29.

³³ Paragraph 4.35 discusses the *Government Auditing Standards* requirements for communicating to the auditee in a management letter the following matters unless clearly inconsequential—(a) deficiencies in internal control that are not reportable conditions and (b) immaterial violations of provisions of contracts or grants agreements and immaterial abuse.

³⁴ For an audit in accordance with Circular A-133, this reference should include federal awarding agencies and, if applicable, pass-through entities. See the further discussion in Chapter 12 of this Guide.

³⁵ This paragraph conforms to SAS No. 87. See SAS No. 87 for additional guidance on restricted-use reports.

- n. The manual or printed signature of the auditor's firm.
- o. The date of the auditor's report. (Because the report on internal control over financial reporting and on compliance and other matters relates to the audit of the financial statements and is based on the GAAS audit procedures performed, it should carry the same date as the auditor's report on the financial statements.)

Other Reporting and Communication Considerations

Findings Relating to the Financial Statements

4.27 As summarized in Table 4-1, *Government Auditing Standards* requires the auditor to include findings for the following situations in the report on internal control over financial reporting and on compliance and other matters:

- Reportable conditions in internal control over financial reporting
- All instances of fraud and illegal acts unless clearly inconsequential³⁶
- Material violations of provisions of contracts and grant agreements
- Material abuse

4.28 As indicated in paragraph 4.26, the report on internal control over financial reporting and on compliance and other matters should either describe the findings indicated in paragraph 4.27 or refer to a separate schedule that describes them. (As discussed in paragraph 4.33, the auditor also should include the reporting of the auditee's views and planned corrective action.) Findings that relate to both internal control over financial reporting and to compliance should be reported in or referred to from both the section of the report concerning internal control over financial reporting and the section of the report concerning compliance and other matters. However, the reporting in one section of the report or schedule may be in summary form with a reference to a detailed reporting in the other section.

4.29 Auditors should present or refer to findings of fraud and abuse in the compliance and other matters section of the report, unless the primary nature of the finding is a reportable condition in internal control. Auditors should present or refer to findings of fraud and abuse that represent reportable conditions in internal control in the internal control section. Neither *Government Auditing Standards* nor this Guide requires the auditor's report to use the terms *fraud* or *abuse* in presenting or referring to such findings. The illustrative reports in Example 4-3 and Example 4-4 in Appendix A (paragraph 4.44) illustrate language in the compliance and other matters section of the report to refer to findings that do or may include fraud and abuse. That language should appear in all reports, even if the report does not describe or refer to findings of fraud or abuse or even if the only findings of fraud or abuse are described in or referred to from the section on internal control over financial reporting.

4.30 Paragraphs 5.14 and 5.18 of *Government Auditing Standards* require auditors to place their findings in proper perspective (or context) by describing

³⁶ As discussed in paragraph 4.15, for an auditee that is subject to an audit in accordance with Circular A-133, the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report and reporting findings that are not material to the financial statements again in the *Government Auditing Standards* report would be unnecessarily duplicative. Chapter 12 of this Guide discusses that reporting.

the work performed that resulted in the finding. To give the reader a basis to judge the prevalence and consequences of the findings, the instances that are identified should be related to the population or the number of cases examined and be quantified in terms of dollar value, if appropriate. When reporting instances of fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse, paragraph 5.18 of *Government Auditing Standards* states that if the results cannot be projected, auditors should limit their conclusions to the items tested.

4.31 In presenting audit findings, auditors should, to the extent possible, develop the elements of (a) criteria (what should be), (b) condition (what is), (c) cause (why it happened), and (d) effect (the difference between what is and what should be). Paragraph 5.15 of *Government Auditing Standards* further describes those four elements. In addition, if auditors are able to sufficiently develop the findings, they should provide recommendations for corrective action.

4.32 This Guide recommends that each audit finding reported in accordance with *Government Auditing Standards* include a reference number.³⁷ One option for assigning reference numbers is to use the fiscal year being audited as the beginning digits of each reference number, followed by a numeric sequence. For example, findings identified and reported in the audit of fiscal year 20X1 would be assigned reference numbers 20X1-1, 20X1-2, and so forth.

Reporting Views of Responsible Officials and Planned Corrective Action

4.33 As discussed in paragraph 4.04d, if the auditor's report includes findings, paragraph 5.26 of *Government Auditing Standards* requires auditors to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as planned corrective actions.³⁸ Auditors should include in their report a copy of the officials' written comments or a summary of the comments received. Auditors normally should request that the officials submit their views and planned corrective actions in writing. When the auditor receives oral comments, the auditor should summarize those comments and provide a copy of the summary to the entity's officials to verify their accuracy before finalizing the report. Paragraph 5.30 of *Government Auditing Standards* provides that if the auditee's comments oppose the report's findings, conclusions, or recommendations, and are not, in the auditor's opinion, valid—or if the planned corrective actions do not adequately address the auditor's recommendations—the auditor should state reasons for disagreeing with the comments or planned corrective actions.³⁹

4.34 The auditor is required to extend a reasonable effort to obtain and report auditee views and planned corrective actions. *Government Auditing Standards* does not require the auditor to delay or withhold the release of the

³⁷ As discussed in Chapter 12 of this Guide, when performing a Circular A-133 audit, Circular A-133 requires all findings (including findings related to the audit of the financial statements for which *Government Auditing Standards* requires reporting) to have a reference number.

³⁸ As discussed in Chapter 2 of this Guide, the auditor should consider establishing an understanding with auditee in the engagement letter about the need and timing for developing the views of responsible officials and planned corrective action.

³⁹ In an audit in accordance with Circular A-133, the auditee is required to submit a corrective action plan. For those audits, depending on the status of the development of the corrective action plan at the time the auditor's reports are released, the auditor may be able to refer to the corrective action plan to satisfy as the required presentation of the auditee's views and planned corrective actions. See the further discussion in Chapter 12 of this Guide.

report if the auditee does not provide the necessary information on a timely basis. If, however, the auditee does not provide the necessary information by the time the report is released, the report should indicate the status of the auditee's response.

Management Letter

4.35 Paragraphs 5.16 and 5.20 of *Government Auditing Standards* require auditors to communicate certain matters to the auditee in a management letter. As indicated in Table 4-1, unless the matter is clearly inconsequential, the management letter should communicate deficiencies in internal control that are not reportable conditions, immaterial violations of provisions of contracts or grant agreements, and immaterial abuse.^{40,41} If the management letter communicates such matters, the report on internal control over financial reporting and on compliance and other matters should refer to the management letter. Footnotes in Examples 4-3 and 4-4 in Appendix A (paragraph 4.44) illustrate such a reference. *Government Auditing Standards* directs auditors to use professional judgment to determine whether and how to communicate to auditee officials deficiencies in internal control, fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse that are clearly inconsequential.⁴² Auditors should document all communications to the auditee about deficiencies in internal control, fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse.

4.36 Auditors often use a management letter to communicate information to the auditee about ways to improve operational efficiency and effectiveness or otherwise improve internal control or other policies or procedures (other than those for which communication is required by GAAS or *Government Auditing Standards*). In communicating information in a management letter, auditors could consider wording the discussions so that readers can distinguish those matters that are required to be included by GAAS or *Government Auditing Standards* from matters that are recommendations for improvements or information about "best practices." Further, as discussed in paragraph 4.42, auditors should not include personal identification or other potentially sensitive matters in the management letter.

Portions of the Entity Not Audited in Accordance With *Government Auditing Standards*

4.37 Because of the provisions of GAAP, entities that are required to have an audit in accordance with *Government Auditing Standards* sometimes include in their financial statements operating units or organizational components that are not required to have such an audit. For example, Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*,

⁴⁰ Generally, *Government Auditing Standards* requires the auditor to evaluate findings for the purpose of communication in the management letter based on their consequence to the financial statements or other financial data significant to the audit objectives. As discussed in Chapter 12 of this Guide, however, in an audit in accordance with Circular A-133, the auditor should evaluate findings involving federal awards for the purpose of that communication based only on their consequence to the financial statements.

⁴¹ The auditor should not communicate in the management letter findings that *Government Auditing Standards* or Circular A-133 requires be reported in the auditor's report or the schedule of findings and questioned costs.

⁴² As discussed in paragraph 4.11, SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), whenever the auditor has determined that there is evidence that fraud may exist, the auditor should bring that matter to the attention of an appropriate level of management, even if the matter might be considered inconsequential.

as amended, requires reporting entity financial statements to include component units. Similarly, Statement of Position (SOP) 94-3, *Reporting of Related Entities by Not-for-Profit Organizations*, requires presentation of consolidated financial statements when one not-for-profit organization (NPO) (the parent) controls the voting majority of the board of directors and has an economic interest in another NPO. When included operating units or organizational components do not have an audit in accordance with *Government Auditing Standards*, the auditor should consider modifying his or her reports on the financial statements and on internal control over financial reporting and on compliance and other matters, as discussed below.

4.38 With regard to the report on the financial statements of a governmental reporting entity, consolidated NPO, or other consolidated entity, if a material portion of the organization (such as a component unit or fund⁴³) is not required to have an audit in accordance with *Government Auditing Standards*, the auditor should modify the scope paragraph of the report on the financial statements to indicate the portion of the entity that was not audited in accordance with *Government Auditing Standards*. Example wording follows:

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of [name of the portion of the entity, such as the name of the component unit or fund]⁴⁴ were not audited in accordance with *Government Auditing Standards*. An audit includes examining . . .

4.39 With regard to the report on the internal control over financial reporting and on compliance and other matters, the auditor should modify the opening scope paragraph to indicate the portion of the entity that was not audited in accordance with *Government Auditing Standards*. Example wording for a state or local government follows:

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Example Entity as of and for the year ended June 30, 20X1, which collectively comprise Example Entity's basic financial statements and have issued our report thereon dated August 15, 20X1. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of [name of component unit or fund]⁴⁵ were not audited in accordance with *Government Auditing Standards*.

Other Auditors

4.40 When more than one independent auditor is involved in an audit of an entity's financial statements, the auditor should refer to guidance in SAS No. 58

⁴³ Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units (see footnote 1), the auditor's consideration of materiality in this instance should be considered in terms of the materiality of the component unit or fund to its related opinion unit. See that Guide for further guidance.

⁴⁴ For audits of a state or local government's financial statements, if it is not evident from the financial statements to which opinion unit the component unit or fund relates, the auditor should consider identifying the opinion unit in addition to the name of the component unit or fund.

⁴⁵ See footnote 44.

(AICPA, *Professional Standards*, vol. 1, AU sec. 508.12 and .13) regarding an opinion on financial statements based in part on the report of another auditor, as well as SAS No. 1, section 543, *Part of Audit Performed by Other Independent Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 543), as amended.

Other Communications With Audit Committees

4.41 SAS No. 61, *Communication With Audit Committees* (AICPA, *Professional Standards*, vol. 1, AU sec. 380), as amended, requires the auditor to determine that certain matters related to the conduct of an audit are communicated to those who have responsibility for the oversight of the financial reporting process. SAS No. 61, as amended, requires this communication to be made to the entity's audit committee or other formally designated group equivalent to an audit committee, such as a finance committee or a budget committee. (In the absence of such a committee, the auditor could consider making the required communication to the board of directors or other equivalent oversight body.) Matters to be communicated include (among other things) the auditor's responsibilities, significant accounting policies, management judgments and accounting estimates, significant audit adjustments, disagreements with management, and difficulties encountered in performing the audit. In addition to those SAS No. 61 requirements, *Government Auditing Standards* requires the auditor to communicate certain information to certain parties, including the audit committee or board of directors or other equivalent oversight body in the absence of an audit committee, during the planning stages of the audit, as discussed in Chapter 2, "Planning Considerations of *Government Auditing Standards*," of this Guide.

Freedom of Information Act and Similar Laws and Regulations

4.42 Often, federal, state, and local laws and regulations, such as the Freedom of Information Act (U.S. Code title 5, section 552), require governments to release certain documents, including audit reports and management letters of organizations for which the government has oversight responsibilities, to members of the press and the general public. Other laws and regulations require that audit reports of governments be made publicly available. Accordingly, auditors should not include names, Social Security numbers, other personal identification, or other potentially sensitive matters in either the body of audit reports or any attached or referenced schedules or letters.

Assurance to Regulators and Oversight Agencies

4.43 Federal and state regulators and other oversight agencies sometimes require that independent auditors sign a document, such as a standardized form or questionnaire, to provide some level of assurance about an auditee's financial or other data or systems. Auditors should only provide assurance about such data and systems in a manner that complies with applicable professional standards. In addition, auditors should refer to Attest Interpretation No. 1 of SSAE No. 10, Chapter 5, *Reporting on an Entity's Internal Control Over Financial Reporting*, titled, "Pre-Award Surveys" (AICPA, *Professional Standards*, vol. 1, AT sec. 9501) for procedures and reporting standards concerning surveys about the effectiveness (suitability) of the design of an entity's internal control as part of the process of applying for a government grant or contract (pre-award surveys).

4.44

Appendix A—Illustrative Auditor’s Reports Under Government Auditing Standards

A.1 This appendix contains examples of the reports issued under generally accepted auditing standards (GAAS) and *Government Auditing Standards* in various circumstances. As discussed previously in this chapter, *Government Auditing Standards* requires that in addition to providing an opinion or a disclaimer of opinion on the financial statements,¹ auditors should report on the scope and results of testing of the auditee’s internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements. They also should report certain fraud or abuse. Auditors should exercise professional judgment in any situation not specifically addressed in this Guide. For additional guidance the auditor should refer to Statement on Auditing Standards (SAS) No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508), as amended, and applicable AICPA Audit and Accounting Guides, such as *Health Care Organizations*, *Not-For-Profit Organizations*, and *State and Local Governments*. The following is a list of the example reports in this appendix:

<i>Example No.</i>	<i>Title</i>
4-1	Unqualified Opinions on Basic Financial Statements Accompanied by Required Supplementary Information and Supplementary Information—Governmental Entity
4-2	Unqualified Opinion on Financial Statements—Not-for-Profit Organization
4-3	Report on Internal Control Over Financial and on Compliance and Other Matter Based on an Audit of Financial Statements Performed in Accordance With <i>Government Auditing Standards</i> (<i>No Material Weaknesses [No Reportable Conditions Identified], No Reportable Instances of Noncompliance or Other Matters</i>)
4-4	Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With <i>Government Auditing Standards</i> (<i>Reportable Conditions, Reportable Instances of Noncompliance, and Other Matters Identified</i>)

¹ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government’s basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. In addition, the auditor may provide opinions or disclaimers of opinions on additional opinion units if engaged to set the scope of the audit and assess materiality at a more detailed level than by the opinion units required for the basic financial statements. Throughout this Guide, the use of the singular terms *opinion* and *disclaimer of opinion* encompasses the multiple opinions and disclaimers of opinion that generally will be provided on a government’s financial statements.

Example 4-1

Unqualified Opinions on Basic Financial Statements Accompanied by Required Supplementary Information and Supplementary Information—State or Local Governmental Entity²Independent Auditor's Report

[Addressee]

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of and for the year ended June 30, 20X1, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Example's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*,³ issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.⁴

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of June 30, 20X1, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated [date of report] on our consideration of the City of Example's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.⁵ The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial

² Auditors should refer to the AICPA Audit and Accounting Guide *State and Local Governments* for additional guidance on reporting on a government's basic financial statements.

³ The standards applicable to financial audits are the general, fieldwork, and reporting standards described in Chapters 3, 4, and 5 of *Government Auditing Standards*.

⁴ If the financial statements include operating units or organizational components that are not required to have a *Government Auditing Standards* audit, the auditor should consider modifying this scope paragraph as discussed and illustrated in paragraphs 4.37 and 4.38.

⁵ Paragraph 4.15 discusses noncompliance and other matters—certain fraud and abuse—for which *Government Auditing Standards* requires reporting in the auditor's report.

reporting or on compliance.⁶ That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The [identify accompanying required supplementary information, such as management's discussion and analysis and budgetary comparison information] on pages XX through XX and XX through XX are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America.⁷ We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.⁸

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Example's basic financial statements. The [identify accompanying supplementary information, such as the introductory section, combining and individual nonmajor fund financial statements, and statistical tables] are presented for purposes of additional analysis and are not a required part of the basic financial statements.⁹ The [identify relevant supplementary information, such as the combining and individual nonmajor fund financial statements] have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.¹⁰ The [identify relevant supplementary information, such as the introductory section and statistical tables] have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

[Signature]

[Date]

⁶ This sentence should be modified if the auditor is providing an opinion on internal control over financial reporting or on compliance. See footnote 6 to paragraph 4.046.

⁷ The auditor may identify the body requiring the information, which in this situation is the Governmental Accounting Standards Board (GASB).

⁸ Generally accepted accounting principles (GAAP) require that the financial statements of state and local governments be accompanied by a management's discussion and analysis, and may require that they be accompanied by other required supplementary information (RSI). The auditor may be required to or choose to report on that information. This example assumes such reporting. Statement on Auditing Standards (SAS) No. 52, *Required Supplementary Information* (AICPA, *Professional Standards*, vol. 1, AU sec. 558), as amended; SAS No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents* (AICPA, *Professional Standards*, vol. 1, AU sec. 551), as amended; and the AICPA Audit and Accounting Guide *State and Local Governments* contain guidance on the auditor's responsibilities for and reporting on RSI.

⁹ If the financial statements are accompanied by supplementary information other than RSI (known as SI), the auditor may be required to or choose to report on that information. This example assumes such reporting. SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550), as amended; SAS No. 29, as amended; and the AICPA Audit and Accounting Guide *State and Local Governments* contain guidance on the auditor's responsibilities for and reporting on SI. In addition, in an audit in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), the financial statements should be accompanied by a supplementary schedule of expenditures of federal awards and the auditor should report whether that schedule is presented fairly in all material respects in relation to the financial statements taken as a whole. Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide illustrates wording for this paragraph in that situation.

¹⁰ When reporting on SI, the auditor should consider the effect of any modifications to the report on the basic financial statements. Furthermore, if the report on SI is other than unqualified, this paragraph should be modified. SAS No. 29 (AU sec. 551.09–11, .13, and .14) provides guidance for reporting in these circumstances.

Example 4-2

Unqualified Opinion on Financial Statements—Not-for-Profit Organization¹¹Independent Auditor's Report

[Addressee]

We have audited the accompanying statement of financial position of Example NPO as of June 30, 20X1, and the related statements of activities and cash flows¹² for the year then ended. These financial statements are the responsibility of Example NPO's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*,¹³ issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.¹⁴

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Example NPO as of June 30, 20X1, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated [date of report] on our consideration of Example NPO's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.¹⁵ The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance.¹⁶ That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.¹⁷

[Signature]

[Date]

¹¹ Auditors also should refer to the AICPA Audit and Accounting Guide *Not-for-Profit Organizations* for additional guidance on reporting on the financial statements of a not-for-profit organization.

¹² Each of the statements presented, which may include a statement of functional expenses, should be identified in the introductory paragraph.

¹³ See footnote 3.

¹⁴ See footnote 4.

¹⁵ See footnote 5.

¹⁶ See footnote 6.

¹⁷ If the financial statements are accompanied by RSI or SI, the auditor may be required to or choose to report on that information in one or more paragraphs following this paragraph. SAS No. 8, as amended; SAS No. 29, as amended; and SAS No. 52, as amended, contain guidance on the auditor's responsibilities for and reporting on RSI and SI. See also footnote 10. In addition, in an audit in accordance with Circular A-133, the financial statements should be accompanied by a supplementary schedule of expenditures of federal awards and the auditor should report whether that schedule is presented fairly in all material respects in relation to the financial statements taken as a whole. Chapter 12 of this Guide illustrates wording for this paragraph in that situation.

Example 4-3

**Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters¹⁸ Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards (No Material Weaknesses
[No Reportable Conditions Identified], No Reportable
Instances of Noncompliance or Other Matters)¹⁹**

[Addressee]

We have audited the financial statements²⁰ of Example Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated August 15, 20X1.²¹ We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*,²² issued by the Comptroller General of the United States.²³

Internal Control Over Financial Reporting²⁴

In planning and performing our audit, we considered Example Entity's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily

¹⁸ Chapters 2, "Planning Considerations of *Government Auditing Standards*," and 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide discusses the auditor's consideration of internal control over financial reporting and of fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse.

¹⁹ The auditor should use the portions of Examples 4-3 and 4-4 that apply to a specific auditee situation. For example, if the auditor has identified reportable conditions but has not identified instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, the internal control section of Example 4-4 would be used along with the compliance and other matters section of this report. Alternatively, if the auditor has not identified reportable conditions but has identified instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, the internal control section of this report would be used along with the compliance section of Example 4-4.

²⁰ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government's basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. (See footnote 1.) For audits of governmental entities, the first sentence in this report should be modified to reflect the opinion units that have been reported on. In addition, the first sentence under the heading "Internal Control over Financial Reporting" should be revised to refer to "our opinions" instead of "our opinion." An illustration of the revised wording for the first sentence follows:

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Example Entity as of and for the year ended June 30, 20X1, which collectively comprise Example Entity's basic financial statements and have issued our report thereon dated August 15, 20X1.

²¹ Describe any departure from the standard report (for example, a qualified opinion, a modification as to consistency because of a change in accounting principle, or a reference to the report of other auditors).

²² See footnote 3.

²³ If the financial statements include operating units or organizational components that are not required to have a *Government Auditing Standards* audit, the auditor should consider modifying this scope paragraph as discussed and illustrated in paragraphs 4.37 and 4.39.

²⁴ *Government Auditing Standards* permits, but does not require, auditors to express an opinion on internal control over financial reporting or on compliance if sufficient work was performed.

disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters²⁵

As part of obtaining reasonable assurance about whether Example Entity's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.²⁶

This report is intended solely for the information and use of the audit committee, management, and [specify legislative or regulatory body]²⁷ and is not intended to be and should not be used by anyone other than these specified parties.²⁸

[Signature]

[Date]²⁹

²⁵ *Other matters* are certain findings of fraud or abuse. This heading and the reference to "other matters" in the following paragraph should appear in all reports, even if the report does not present or refer to findings of fraud or abuse or even if the only findings of fraud or abuse are presented in or referred to from the section on internal control over financial reporting. (See paragraph 4.29.) See also footnote 24.

²⁶ *Government Auditing Standards* requires the auditor to communicate to the auditee in a management letter the following matters unless clearly inconsequential—(a) deficiencies in internal control over financial reporting other than reportable conditions or (b) immaterial violations of provisions of contracts or grant agreements or immaterial abuse. If such a letter has been issued, the report should include a paragraph that follows this paragraph that states: "We noted certain matters that we reported to management of Example Entity in a separate letter dated August 15, 20X1." This reference, which is required by paragraphs 5.16 and 5.20 of *Government Auditing Standards*, does not preclude the auditor from including other discussions or recommendations in the management letter. See paragraph 4.35.

²⁷ For an audit in accordance with Circular A-133, this sentence should include a reference to federal awarding agencies and, if applicable, pass-through entities. See the further discussion in Chapter 12 of this Guide.

²⁸ This paragraph conforms to SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532). See SAS No. 87 for additional guidance on restricted-use reports.

²⁹ Because the report on internal control over financial reporting and on compliance and other matters relates to the audit of the financial statements and is based on the GAAS audit procedures performed, it should carry the same date as the auditor's report on the financial statements.

Example 4-4

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters³⁰ Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards (Reportable Conditions, Reportable Instances of Noncompliance, and Other Matters Identified)³¹

[Addressee]

We have audited the financial statements³² of Example Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated August 15, 20X1.³³ We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*,³⁴ issued by the Comptroller General of the United States.³⁵

Internal Control Over Financial Reporting³⁶

In planning and performing our audit, we considered Example Entity's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Example Entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and responses³⁷ as items [list the reference numbers of the related findings, for example, 20X1-1, 20X1-3, and 20X1-4].

[NOTE: As discussed in paragraph 4.32, this Guide recommends identifying each finding with a reference number. As discussed in paragraph 4.28, this report can, as an alternative, describe findings and responses rather than refer to a separate schedule. Paragraph 4.28 also discusses how to report findings that relate to both internal control over financial reporting and to compliance; paragraph 4.29 discusses when findings of fraud and abuse should be reported in the section on internal control over financial reporting; paragraph 4.30 and 4.31 discuss the detail to use to present each finding; and paragraphs 4.33 and 4.34 discuss the presentation of the views of responsible officials and their planned corrective actions. The schedule of findings and questioned costs shown in Example 12-5 in Appendix A in Chapter 12, "Auditor Reporting Requirements

³⁰ See footnote 18.

³¹ See footnote 19.

³² See footnote 20.

³³ See footnote 21.

³⁴ See footnote 3.

³⁵ See footnote 23.

³⁶ See footnote 24.

³⁷ For an audit in accordance with Circular A-133, this reference should be to the schedule of findings and questioned costs.

and Other Communication Considerations in a Single Audit” of this Guide further describes the presentation of financial statement findings. Further, in an audit in accordance with Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations (Circular A-133), findings and responses should not be described in this report; instead, this report should refer to the schedule of findings and questioned costs. See the further discussion in Chapter 12 of this Guide.]

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses.³⁸ However, we believe that none of the reportable conditions described above is a material weakness.

Compliance and Other Matters³⁹

As part of obtaining reasonable assurance about whether Example Entity’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*⁴⁰ and which are described in the accompanying schedule of findings and responses as items [list the reference numbers of the related findings, for example, 20X1-2 and 20X1-5].⁴¹

[NOTE: The referenced findings should be those that are instances of noncompliance. They also should be those that are fraud or abuse that are not reportable

³⁸ If conditions believed to be material weaknesses are disclosed, the report should identify the material weaknesses that have come to the auditor’s attention. The last sentence of this paragraph should be replaced with language such as the following: “However, of the reportable conditions described above, we consider items [list the reference numbers of the related findings, for example, 20X1-1 and 20X1-4] to be material weaknesses.”

³⁹ See footnote 25.

⁴⁰ Paragraphs 4.15 and 4.16 discuss the *Government Auditing Standards* criteria for reporting fraud, illegal acts, violations of provisions of contracts or grant agreements, and abuse. It is important to note within that discussion that in an audit conducted in accordance with Circular A-133, the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report and reporting findings that are not material to the financial statements again in the *Government Auditing Standards* report would be unnecessarily duplicative.

⁴¹ *Government Auditing Standards* requires the auditor to communicate to the auditee in a management letter the following matters unless clearly inconsequential—(a) deficiencies in internal control over financial reporting other than reportable conditions or (b) immaterial violations of provisions of contracts or grant agreements or immaterial abuse. If such a letter has been issued, the report should include a paragraph that follows this paragraph (including its findings, if presented in the report), that states: “We also noted certain additional matters that we reported to management of Example Entity in a separate letter dated August 15, 20X1.” This reference, which is required by paragraphs 5.16 and 5.20 of *Government Auditing Standards*, does not preclude the auditor from including other discussions or recommendations in the management letter. See paragraph 4.35.

conditions. (See paragraph 4.29.) The "Note" in the internal control section of this example report further discusses the presentation of findings and auditee responses.]

This report is intended solely for the information and use of the audit committee, management, and [specify legislative or regulatory body]⁴² and is not intended to be and should not be used by anyone other than these specified parties.⁴³

⁴⁴ See footnote 29.

Part II
Circular A-133 Audits

Chapter 5

Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “Government Auditing Standards Audits,” (Chapters 2, “Planning Considerations of Government Auditing Standards,” through 4, “Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “Circular A-133 Audits” (Chapters 5 through 13, “Program-Specific Audits”).

Introduction

5.01 This chapter provides an overview of the significant requirements and guidance in the Single Audit Act Amendments of 1996 (the Single Audit Act); Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133);¹ and the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*. As discussed in paragraph 5.07, the Single Audit Act and Circular A-133 require nonfederal entities that expend \$500,000* or more of federal awards in a fiscal year to have a single or program-specific audit. Auditors should refer to the Single Audit Act, Circular A-133, and the *Compliance Supplement* for a complete understanding of the requirements. Appendixes A and B of this Guide reprint the Single Audit Act and Circular A-133. Footnote 10 provides instructions for obtaining the *Compliance Supplement*.

¹ Because Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), incorporates the requirements of the Single Audit Act Amendments of 1996 (the Single Audit Act), the requirements of Circular A-133 and the Act often are discussed together as one in this Guide. Accordingly, references to Circular A-133 also include the requirements of the Single Audit Act.

* The June 27, 2003, revisions to Circular A-133 raised the threshold for the applicability of the Single Audit Act and Circular A-133 from \$300,000 to \$500,000 effective for audits of fiscal years ending after December 31, 2003, and early implementation is not permitted. For audits in accordance with Circular A-133 for fiscal years ending on or before December 31, 2003, auditors should refer to the June 24, 1997, revision of Circular A-133 (except for its definition of *oversight agency for audit*—see footnote ** to paragraph 5.43) and to the 2003 edition of this Guide, titled *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*.

5.02 The Single Audit Act was enacted to streamline and improve the effectiveness of audits of federal awards and to reduce the audit burden on states, local governments, and not-for-profit organizations (NPOs). Those goals were achieved, in part, by increasing the dollar threshold for requiring a single or program-specific audit and by introducing a risk-based approach for determining which federal programs are to be considered major programs. (Paragraph 5.07 discusses the audit threshold and paragraph 5.28 discusses the risk-based approach.) The Single Audit Act requires auditors to perform single and program-specific audits of federal awards in accordance with *Government Auditing Standards*, which incorporates the fieldwork and reporting standards of generally accepted auditing standards (GAAS) and the related Statements on Auditing Standards (SASs) issued by the AICPA unless the Comptroller General of the United States excludes them by formal announcement.² Circular A-133 requires the audits to be conducted by an independent auditor.³ The Single Audit Act gives the Director of OMB the authority to develop government-wide guidelines and policy on performing audits to comply with the Act. The OMB issued Circular A-133 to establish audit guidelines and policy for a uniform system of auditing states, local governments, and NPOs that expend federal awards.⁴ Individual federal departments and agencies have adopted Circular A-133 in regulation.

Single Audit Act and Circular A-133 Requirements

Objectives of a Single Audit

5.03 In a single audit, the auditor has the following objectives, each of which results in the issuance of certain auditor reports (as discussed in Chapters 12, “Auditor Reporting Requirements and Other Communication Considerations in a Single Audit,” and 13, “Program-Specific Audits,” of this Guide):

- Audit of the entity’s financial statements and reporting on the schedule of expenditures of federal awards—
 - Determine whether the financial statements of the auditee are presented fairly in all material respects in conformity with generally accepted accounting principles. (Note that Circular A-133 does not prescribe the basis of accounting that auditees should use to prepare their financial statements. See the further discussion in Chapter 6, “Planning Considerations of Circular A-133,” of this Guide.)
 - Determine whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the auditee’s financial statements taken as a whole.
- Compliance audit of federal awards—
 - Obtain an understanding of the internal control over compliance for each major program, assess the control risk, and perform tests of those controls unless the controls are deemed to be ineffective. (The

² To date, the Comptroller General has not excluded any fieldwork or reporting standards or related Statements on Auditing Standards.

³ The Single Audit Act Amendments of 1996 (the Single Audit Act) defines *independent auditor* as (a) an external state or local government auditor who meets the independence standards included in *Government Auditing Standards* or (b) a public accountant who meets such independence standards. Chapter 2, “Planning Considerations of *Government Auditing Standards*,” of this Guide discusses the independence requirements of *Government Auditing Standards*.

⁴ Circular A-133 was first revised and issued on June 30, 1997. That revision superseded OMB Circular A-128, *Audits of State and Local Governments*, and all previous versions of Circular A-133. The June 30, 1997, revision was subsequently revised by changes published in the *Federal Register* on June 27, 2003.

auditor should perform procedures to obtain an understanding of internal control over federal programs that is sufficient to plan the audit to support a low assessed level of control risk for each major program.)

- Determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements pertaining to federal awards that may have a direct and material effect on each of its major programs (hereinafter referred to as *compliance requirements*).

Audit of Entity's Financial Statements and Reporting on the Schedule of Expenditures of Federal Awards

5.04 The financial statement audit required by Circular A-133 is performed in accordance with the standards applicable to financial audits contained in GAAS and *Government Auditing Standards*.⁵ That audit results in the auditor reporting on the entity's financial statements and on the scope of the auditor's testing of compliance and internal control over financial reporting and the results of those tests. The auditor also should report certain fraud and abuse. The primary sources of guidance and standards regarding financial statement audits are the AICPA SASs, particularly SAS No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801); *Government Auditing Standards*; and the AICPA Audit and Accounting Guides, including *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*. Chapter 6 of this Guide discusses financial statement audit considerations under Circular A-133.

5.05 Circular A-133 also requires the auditor to determine and report on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements taken as a whole. SAS No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*, (AICPA, *Professional Standards*, vol. 1, AU sec. 551), as amended, and paragraph 7 of SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550.07), as amended, provide guidance on such reporting on the schedule of expenditures of federal awards. Chapter 7, "Schedule of Expenditures of Federal Awards," of this Guide discusses the schedule of expenditures of federal awards and Chapter 12 of this Guide discusses the auditor's reporting on the schedule.

Compliance Audit of Federal Awards

5.06 Under Circular A-133, the auditor has additional testing and reporting responsibilities for compliance, as well as internal control over compliance, beyond a financial statement audit performed in accordance with *Government Auditing Standards* and GAAS. The compliance audit of federal awards expended during the fiscal year provides a basis for issuing an additional report on compliance related to major programs and on internal control over compliance. Table 5-1 presents the additional compliance testing and internal control requirements of the Single Audit Act and Circular A-133. Circular A-133 defines major programs; Chapter 9, "Determination of Major Programs," of this

⁵ In performing audits in accordance with the standards applicable to financial audits contained in *Government Auditing Standards*, the auditor assumes certain responsibilities beyond those of audits performed in accordance with generally accepted auditing standards (GAAS). Chapters 2 through 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide discuss those responsibilities.

Guide discusses that definition. Chapters 8, “Compliance Auditing Applicable to Major Programs,” and 10, “Consideration of Internal Control over Compliance for Major Programs,” of this Guide discuss compliance auditing considerations applicable to major programs and internal control over compliance.

Table 5-1

Additional Compliance Testing and Internal Control Responsibilities

	<i>Fieldwork Responsibilities</i>	<i>Reporting Responsibilities</i>
Compliance Testing Responsibilities	The auditor should determine whether the entity complied with laws, regulations, and the provisions of contracts or grant agreements pertaining to federal awards that may have a direct and material effect on each major program.	The auditor should express an opinion on whether the entity complied with laws, regulations, and with the provisions of contracts or grant agreements which could have a direct and material effect on each major program and, where applicable, refer to a separate schedule of findings and questioned costs.
Internal Control Responsibilities	With regard to internal control over compliance, the auditor is required to do the following: (1) perform procedures to obtain an understanding of internal control over federal programs that is sufficient to plan the audit to support a low assessed level of control risk for major programs, (2) plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program, ¹ and (3) perform tests of internal control (unless the internal control is likely to be ineffective in preventing or detecting noncompliance). The auditor may use evidence gained from the tests of controls relevant to compliance requirements to determine the nature, timing, and extent of the testing required to express an opinion on compliance with requirements applicable to major programs.	The auditor should provide a written report on internal control over major programs describing the scope of testing internal control and the results of the tests, and, where applicable, refer to a separate schedule of findings and questioned costs.

¹ Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditor to plan the audit to support a low assessed level of control risk for major programs; however, it does not actually require the auditor to achieve a low assessed level of control risk. Chapter 10, “Consideration of Internal Control Over Compliance for Major Programs,” of this Guide further discusses that Circular A-133 provision.

General Audit Requirements

Audit Threshold

5.07 The Single Audit Act and Circular A-133 require nonfederal entities that expend \$500,000 or more of federal awards (as discussed in paragraphs 5.08 through 5.14) in a fiscal year to have a single or program-specific audit.* Entities expending awards under only one program (excluding research and development [R&D]) may elect to have a program-specific audit if the program's laws, regulations, or grant agreements do not require a financial statement audit. A program-specific audit may not be elected for R&D unless (a) all expenditures are for awards received from the same federal agency or from the same federal agency and the same pass-through entity and (b) advance approval is obtained. (Chapter 13 provides additional guidance on program-specific audits.) Entities that expend less than \$500,000 in a fiscal year in federal awards are exempt from audit requirements in the Single Audit Act and Circular A-133. However, those entities are not exempt from other federal requirements (including those to maintain records) concerning federal awards provided to the entity. Further, Section 200(d) of Circular A-133 requires that records be available for review or audit by appropriate officials of a federal agency, pass-through entity, and the U.S. Government Accountability Office (GAO). The Single Audit Act provides that, every two years, the OMB may review the amount for requiring audits and may adjust the dollar threshold amount to no less than \$300,000.

Types of Federal Awards and Payment Methods

Definition of Federal Awards

5.08 Circular A-133 defines federal awards as *federal financial assistance* and *federal cost-reimbursement contracts* that auditees receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts (under grants or contracts) used to buy goods or services from vendors. Paragraph 5.27 discusses subrecipient and vendor determinations.

Federal Financial Assistance—Classification and Types

5.09 Federal sponsors have classified federal financial assistance into program categories in the *Catalog of Federal Domestic Assistance* (CFDA), published by the Government Printing Office. (An electronic searchable version of the CFDA is available at www.cfda.gov.) Circular A-133 defines a federal program as all federal awards under the same CFDA number. Certain clusters of federal programs should be treated as one program when determining major programs. R&D, student financial aid (SFA), and certain other programs are defined as a cluster in the *Compliance Supplement* because they are closely related and share common compliance requirements. (Paragraphs 5.46 and 5.47 discuss the *Compliance Supplement*.)

5.10 Sometimes state governments combine funding from different federal awards in providing assistance to their subrecipients when the awards are closely related programs and share common compliance requirements. In this case, Circular A-133 states that the state may require the subrecipient to treat the combined federal awards as a cluster of programs, as discussed in paragraph 5.30.

* The June 27, 2003, revisions to Circular A-133 raised the threshold for requiring a single or program-specific audit from \$300,000 or more of federal awards expended. See footnote * to paragraph 5.01.

5.11 There are over 1,000 individual grant programs. Many of these programs are described in the CFDA; however, certain programs may not be included. For example, contracts may not be listed in the CFDA. Circular A-133 states that when a CFDA number is not assigned, all federal awards from the same agency that are made for the same purpose should be combined and considered one program.

5.12 Programs in the CFDA are classified into 15 types of assistance. Benefits and services are provided through seven financial and eight nonfinancial types of assistance. The following list describes the eight principal types of assistance that are available.

- *Formula grants.* For activities of a continuing nature not confined to a specific project, allocations of money to nonfederal entities are made in accordance with a distribution formula prescribed by law or administrative regulation. One example is the Department of Agriculture's award to land-grant universities for cooperative extension services. Another example is the Department of Justice's award to state and local governments for drug control and systems improvement.
- *Project grants.* These involve the funding (for fixed or known periods) of specific projects, or the delivery of specific services or products, without liability for damages resulting from a failure to perform. Project grants include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, construction grants, and unsolicited contractual agreements.
- *Direct payments for specific use.* Financial assistance is provided by the federal government directly to individuals, private firms, and other private institutions to encourage or subsidize a particular activity by conditioning the receipt of the assistance upon the recipient's performance. These do not include solicited contracts for the procurement of goods and services for the federal government.
- *Direct payments with unrestricted use.* Financial assistance is provided by the federal government directly to beneficiaries who satisfy federal eligibility requirements with no restrictions imposed on how the money is spent. Included are payments under retirement, pension, and compensation programs.
- *Direct loans.* Financial assistance is provided through the lending of federal monies for a specific period of time, with a reasonable expectation of repayment. Such loans may or may not require the payment of interest.
- *Guaranteed insured loans.* For these programs, the federal government makes an arrangement to indemnify a lender against part of any defaults by those responsible for the repayment of loans.
- *Insurance.* Financial assistance is provided to assure reimbursement for losses sustained under specified conditions. Coverage may be provided directly by the federal government or through a private carrier, and may or may not involve the payment of premiums.
- *Sale, exchange, or donation of property and goods.* These programs provide for the sale, exchange, or donation of federal real property, personal property, commodities, and other goods, including land, buildings, equipment, food, and drugs. This does not include the loan of, use of, or access to federal facilities or property.

Federal Cost-Reimbursement Contracts

5.13 The definition of federal awards also includes federal cost-reimbursement contracts. These are contracts with nonfederal entities to provide goods or

services to the federal government. These contracts generally are governed by the Federal Acquisition Regulations (found in part 41 of the *Code of Federal Regulations*) and the terms of the contracts.

Payment Methods

5.14 There are several distinct types of federal award payment methods. Awards may be provided to entities through reimbursement arrangements in which recipients bill grantors for costs as incurred. Some programs provide for advance payments. Other programs permit entities to draw cash as grant expenditures are incurred.

Covered Entity

5.15 As discussed in Chapter 6 of this Guide, the Circular A-133 audit should cover the entire operations of the auditee or, at the option of the auditee, the audit may include a series of audits that cover departments, agencies, and other organizational units that expended or otherwise administered federal awards during the fiscal year, provided that each audit encompasses the financial statements and the schedule of expenditures of federal awards for each such department, agency, and organizational unit.

Relationship to Other Audit Requirements

5.16 A Circular A-133 audit is deemed to be in lieu of any financial audit of federal awards that an entity is required to undergo under any other federal law or regulation. However, notwithstanding a Circular A-133 audit, federal agencies (including their Inspectors General or GAO) may conduct or arrange for additional audits (for example, financial audits, performance audits, evaluations, inspections, or reviews) that are necessary to carry out their responsibilities under federal law or regulation. Any additional audits should be planned and performed in such a way as to build upon work performed by auditors. Circular A-133 requires a federal agency that conducts or contracts for additional audits to arrange for funding the full cost of such additional audits. Paragraph 5.31 discusses the federal agency option to request certain programs to be audited as major programs.

5.17 Circular A-133 provides that the audit should be performed in accordance with *Government Auditing Standards*. Consequently, *Government Auditing Standards* applies not only the audit of the financial statements but also to the compliance audit. Paragraph 2.05 of *Government Auditing Standards* defines a financial audit as including auditing compliance with regulations relating to federal award expenditures and other governmental financial assistance in conjunction with or as a byproduct of a financial statement audit. Therefore, auditors should ensure that they comply with the general, fieldwork, and reporting standards in Chapters 3, 4, and 5 of *Government Auditing Standards* in conducting the A-133 compliance audit. Those standards are discussed in Chapters 2, "Planning Considerations of *Government Auditing Standards*," through 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide. Areas that may require particular attention in the compliance audit are auditor communication; audit documentation; procedures and reporting on abuse; the reporting of findings and related management views and planned corrective actions; and the reporting of certain matters in the management letter. For example:

- Auditors should communicate information regarding the nature, timing, and extent of planned testing and reporting and the level of assurance under Circular A-133 to specified parties.

- Audit documentation should contain the auditor's consideration that planned audit procedures are designed to achieve audit objectives when evidential matter obtained is highly dependent on computerized information systems and is material to the objective of the audit but the auditor is not relying on the effectiveness of internal control over those computerized systems that produced the information. Auditees may use computerized information systems in managing federal awards.
- Auditors should be alert to situations or transactions that could be indicative of abuse.⁶ Auditors have no responsibility to design the audit to detect abuse. However, if auditors become aware of indications of abuse that could materially⁷ affect the financial statement amounts or other financial data significant to the audit objectives, they should apply audit procedures specifically directed to ascertain whether abuse has occurred and the effect on the financial statement amounts or other financial data significant to the audit objectives. Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide discusses procedures relating to the evaluation of indications of abuse and Chapters 8 and 10 of this Guide discusses the nature of abuse as it relates to federal awards. Chapter 12 of this Guide discusses the reporting of abuse involving federal awards.
- Auditors should obtain and report the views of responsible officials concerning findings, conclusions, and recommendations, as well as their planned corrective actions. As discussed in Chapter 12 of this Guide, the auditor may be able to refer to the auditee's corrective action plan required by Circular A-133 to satisfy that requirement for federal award-related findings. In addition, all audit findings, including federal award-related findings, should meet the presentation requirements of *Government Auditing Standards*, as discussed in Chapters 4 and 12 of this Guide.
- Paragraphs 5.16 and 5.20 of *Government Auditing Standards* require the auditor to communicate to the auditee in a management letter the following matters unless they are clearly inconsequential—deficiencies in internal control that are not reportable conditions, immaterial violations of provisions of contracts or grant agreements, and immaterial abuse. As discussed in Chapter 12 of this Guide, in an audit in accordance with Circular A-133, the auditor should evaluate such matters involving federal awards for the purpose of that communication based only on their consequence to the financial statements.

Frequency of Audits

5.18 Circular A-133 requires audits to be performed annually unless an auditee meets one of the following criteria that would allow it to have biennial audits (biennial audits should cover both years within the biennial period):

⁶ Paragraph 4.19 of *Government Auditing Standards* describes "abuse" by stating that it is distinct from fraud, illegal acts, and violations of provisions of contracts or grant agreements. Abuse, it states, "involves behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances."

⁷ Although *Government Auditing Standards* uses the term *significant* in its fieldwork standard for abuse in paragraph 4.17b, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

- State or local governments that are required by constitution or statute (in effect on January 1, 1987) to undergo audits less frequently than annually are permitted to have Circular A-133 audits performed biennially. This requirement should still be in effect for the biennial period under audit.
- NPOs that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, are permitted to have Circular A-133 audits performed biennially.

Non-U.S.-Based Entities

5.19 Circular A-133 does not apply to non-U.S.-based entities expending federal awards received either directly as a recipient or indirectly as a subrecipient. For example, if a federal agency provides financial assistance to an orphanage operated by a foreign government, Circular A-133 would not apply. However, the Circular does apply to expenditures made by U.S.-based entities outside of the United States and by foreign branches of U.S.-based entities. For example, if a university based in the United States receives a federal award for travel and a three-month residence in a foreign country to conduct research, Circular A-133 would apply to the travel and the related research costs incurred in the foreign country. Another example would be a hospital that receives a federal award to perform medical research in a foreign country. If the research is conducted in the hospital's research laboratory based in the foreign country, the federal award would be subject to an audit under Circular A-133.

Reporting Matters

Audit Reports

5.20 Section 505 of Circular A-133 includes specific auditor reporting requirements. In addition to the auditor's reports required by GAAS and *Government Auditing Standards*,⁸ Circular A-133 requires the auditor's reports to include (a) a report on compliance and internal control over compliance applicable to each major program and (b) a schedule of findings and questioned costs. Chapters 7, 12, and 13 of this Guide discuss auditor reporting requirements for single and program-specific audits and include appendixes that illustrate schedules of findings and questioned costs and auditor's reports.

Timing of the Submission of the Report

5.21 The audit should be completed and the reporting package described in paragraph 5.37, including the auditor's reports, and the data collection form described in paragraph 5.38 should be submitted by the auditee to the Federal Audit Clearinghouse (FAC). That submission should be made within the earlier of 30 days after receipt of the auditor's reports or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit. (Paragraphs 5.41 through 5.44 discuss the definitions and responsibilities of cognizant and oversight agencies for audit.) Chapter 12 of this Guide further describes the report submission requirements of Circular A-133.

Audit Follow-Up

5.22 Circular A-133 requires the auditor to follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior

⁸ Chapter 4 of this Guide discusses the auditor's reports under GAAS and *Government Auditing Standards* and includes an appendix that illustrates those reports.

audit findings prepared by the auditee, and report a current-year audit finding when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding. Chapter 6 of this Guide further discusses the auditor's responsibility for audit follow-up.

Auditor Selection and Audit Costs

Procurement of Audit Services and Restriction on Auditors Who Prepare Indirect Cost Proposals

5.23 Circular A-133 establishes guidance on the procurement of audit services, as well as guidance on the restrictions on the selection of auditors who also prepare the indirect cost proposal or cost allocation plan. As further discussed in Chapter 6 of this Guide, auditors who prepare the indirect cost proposal or cost allocation plan may not also be selected to perform the Circular A-133 audit if the indirect costs recovered by the auditee during the prior year exceeded \$1 million.

Audit Costs

5.24 Circular A-133 provides guidance on whether the charging of audit costs to federal awards may be allowed. Unless prohibited by law, the costs of Circular A-133 audits are allowable charges to federal awards. The charges may be considered a direct cost or an allocated indirect cost, as determined in accordance with the provisions of applicable OMB Cost Principles Circulars, the Federal Acquisition Regulation, or other applicable cost principles or regulations. The costs of audits that are not conducted in accordance with Circular A-133 are unallowable. Furthermore, audit costs associated with Circular A-133 audits of entities that expend less than \$500,000* per year in federal awards are unallowable. However, this provision does not prohibit pass-through entities from charging federal awards for the costs of limited-scope audits to monitor its subrecipients. Chapter 11, "Audit Considerations of Federal Pass-Through Awards," of this Guide further discusses the allowability of audit costs associated with limited-scope audits. With regard to the amount of audit cost that can be charged to a federal award, the Single Audit Act states that in the absence of documentation demonstrating a higher actual cost, the percentage of the cost of single audits charged to federal awards by an entity may not exceed the ratio of total federal awards expended to the entity's total expenditures for the fiscal year.

Basis for Determining When Federal Awards Are Expended

5.25 The determination of when an award is expended is based on when the activity related to the award occurs. In general, the activity pertains to events that require the auditee to comply with laws, regulations, and the provisions of contracts or grant agreements. Such events include the following:

- Expenditure/expense transactions associated with grants, cost reimbursement contracts, cooperative agreements, and direct appropriations
- The disbursement of funds passed through to subrecipients
- The use of loan proceeds under loan and loan-guarantee programs
- The receipt of property

* The June 27, 2003, revisions to Circular A-133 raised this amount from \$300,000. See footnote * to paragraph 5.01.

- The receipt of surplus property
- The receipt or use of program income
- The distribution or consumption of food commodities
- The disbursement of amounts entitling the auditee to an interest subsidy
- The period when insurance is in force

5.26 As further discussed in Chapter 7 of this Guide, Circular A-133 provides specific guidance on the basis of determining federal awards expended for the following noncash items:

- Loans and loan guarantees, including those at institutions of higher education
- Prior loans and loan guarantees
- Endowment funds
- Free rent
- Noncash assistance, such as free rent, food stamps, food commodities, donated property, or donated surplus property
- Medicare payments to a nonfederal entity for providing patient care services
- Medicaid payments to a subrecipient for providing patient care services

Subrecipient and Vendor Determinations

5.27 An auditee may be a recipient, a subrecipient, and a vendor. Federal awards expended as a recipient or a subrecipient are subject to audit under Circular A-133. The payments received for goods or services provided as a vendor are not considered federal awards. Circular A-133 provides specific guidance on determining whether payments constitute a federal award or a payment for goods and services. Chapter 11 of this Guide further discusses that guidance.

Major Program Determination

Risk-Based Approach

5.28 Circular A-133 requires the auditor to use a risk-based approach to determine which federal programs are major programs, which affects the scope of the audit. Circular A-133 places the responsibility for identifying major programs on the auditor, and provides criteria for the auditor to use in applying a risk-based approach. The auditor's determination of the programs to audit is based on an overall evaluation of the risk of noncompliance occurring that could be material to the individual federal programs. In evaluating risk, the auditor considers, among other things, the current and prior audit experience with the auditee, oversight by the federal agencies and pass-through entities, and the inherent risk of the federal programs, using a specific process established in the circular. Chapter 9 of this Guide discusses that risk-based approach and the determination of major programs.

Low-Risk Auditee

5.29 Circular A-133 contains certain criteria for considering an auditee to be a low-risk auditee. A low-risk auditee is eligible for reduced audit coverage. *Low-risk auditee* is a term defined in Circular A-133 for the purpose of applying the percentage-of-coverage rule in the risk-based approach. (Chapter 9 of this

Guide discusses the low-risk auditee criteria and the percentage-of-coverage rule.) The term *low-risk auditee* does not imply or require the auditor to assess audit risk or any of its components as low for an entity that meets the Circular A-133 definition of a low-risk auditee.

Cluster of Programs

5.30 Circular A-133 defines a cluster of programs as a grouping of closely related federal programs that share common compliance requirements. The types of clusters of programs are R&D, SFA, and other clusters. “Other clusters” are defined by the OMB in the *Compliance Supplement* or are designated as such by a state for the federal awards the state provides to its subrecipients that meet the definition of a cluster of programs. When a state designates federal awards as an “other cluster,” it also should identify the federal awards included in the cluster and advise the subrecipients of the compliance requirements applicable to the cluster. A cluster of programs should be considered as one program for determining major programs and (with the exception of R&D) whether a program-specific audit may be elected.

Federal Agency Selection of Additional Major Programs

5.31 A federal agency may request an auditee to have a particular federal program audited as a major program in lieu of the federal agency conducting or arranging for additional audits. To allow for planning, such requests should be made at least 180 days prior to the end of the fiscal year to be audited. After consultation with its auditor, the auditee should promptly respond to such a request by informing the federal agency whether the program would otherwise be audited as a major program using the risk-based approach and, if not, the estimated incremental cost. The federal agency should then promptly confirm to the auditee whether it wants the program audited as a major program. If the program is to be audited as a major program based upon the federal agency request, and the federal agency agrees to pay the full incremental costs, then the auditee should have the program audited as a major program. This approach also may be used by pass-through entities for a subrecipient.

Auditee Responsibilities

Financial Statements and Schedule of Expenditures of Federal Awards

5.32 As discussed in Chapter 6 of this Guide, Circular A-133 requires auditees to prepare financial statements that reflect their financial position, the results of operations or changes in net assets, and, where appropriate, cash flows for the fiscal year audited. The financial statements should be for the same organizational unit and fiscal year that is chosen to meet the requirements of Circular A-133. However, organization-wide financial statements also may include departments, agencies, and other organizational units that have separate audits in accordance with Circular A-133 and prepare separate financial statements. As discussed in Chapter 7 of this Guide, Circular A-133 also requires auditees to prepare a schedule of expenditures of federal awards for the period covered by the financial statements.

Summary Schedule of Prior Audit Findings

5.33 The auditee is required to prepare a summary schedule of prior audit findings. The schedule should report the status of all audit findings included in the prior audit’s schedule of findings and questioned costs relative to federal awards. It also should include audit findings reported in the prior audit’s summary schedule of prior audit findings, except audit findings that have been corrected or are no longer valid. Chapter 12 of this Guide further discusses that schedule.

Other Responsibilities

5.34 Circular A-133 establishes certain other responsibilities for auditees, including:

- Identifying in its accounts all federal awards received and expended and the federal programs under which they were received, including, as applicable, the CFDA title and number, the award number and year, the name of the federal agency, and the name of the pass-through entity
- Establishing and maintaining effective internal control over compliance for federal programs that provides reasonable assurance that the auditee is managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its federal programs
- Complying with laws, regulations, and the provisions of contracts or grant agreements related to each of its federal programs
- Ensuring that the audits required by Circular A-133 are properly performed and submitted when due
- Following up and taking corrective action on audit findings (including the preparation of the previously discussed summary schedule of prior audit findings and a corrective action plan as discussed in paragraph 5.36); corrective action should be initiated within six months after the receipt of the audit report and proceed as rapidly as possible

Responsibility for Compliance at the Financial Statement Level and for Internal Control Over Financial Reporting

5.35 Although not specifically stated in Circular A-133, the auditee also is responsible for complying with the requirements of laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on the financial statements and for establishing and maintaining effective internal control over financial reporting. These responsibilities support the requirements of *Government Auditing Standards*.

Corrective Action Plan

5.36 At the completion of the audit, the auditee should prepare a corrective action plan to address each audit finding included in the current year's auditor's reports. Chapter 12 of this Guide further discusses the corrective action plan.

Reporting Package

5.37 The auditee is required to submit to the FAC a reporting package that comprises the previously discussed financial statements and schedule of expenditures of federal awards, summary schedule of prior audit findings, auditor's reports, and corrective action plan. The auditee is required to submit the reporting package with the data collection form described in paragraph 5.38. Paragraph 5.21 and Chapter 12 of this Guide describe the report submission requirements of Circular A-133. Section 320(g) of Circular A-133 states "auditees shall keep one copy of the data collection form . . . and one copy of the reporting package . . . on file for three years from the date of submission" to the FAC. Furthermore, unless restricted by law or regulation, the auditee is required to make copies of the data collection form and the reporting package available for public inspection.

Data Collection Form

5.38 The auditee is required to complete and sign certain sections of a data collection form, stating whether the audit was completed in accordance with Circular A-133 and providing information about the auditee, its federal programs, and the results of the audit. The auditor also is required to complete and sign certain sections of the form. Chapter 12 of this Guide further discusses the data collection form.

Federal Awarding Agency Responsibilities

5.39 Circular A-133 establishes certain responsibilities for federal agencies that provide federal awards to recipients, including the following:

- Identifying the federal awards made by informing each recipient of the CFDA title and number, the award name and number, the award year, and if the award is for R&D. When some of this information is not available, the federal agency is required to provide information necessary to clearly describe the federal award.
- Advising recipients of the requirements imposed on them by federal laws, regulations, and the provisions of contracts or grant agreements.
- Ensuring that audits are completed and reports are received in a timely manner and in accordance with the requirements of Circular A-133.
- Providing technical advice and counsel to auditees and auditors as requested.
- Issuing a management decision on audit findings within six months after receipt of the audit report and ensuring that the recipient takes appropriate and timely corrective action.
- Assigning a person to provide annual updates of the *Compliance Supplement* to the OMB.

Pass-Through Entity Responsibilities

5.40 Pass-through entities have many responsibilities that are similar to those of federal awarding agencies. Chapter 11 of this Guide describes the responsibilities of pass-through entities.

Cognizant Agency for Audit

Definition

5.41 Circular A-133 defines the cognizant agency for audit as a federal agency designated to carry out the federal responsibilities with regard to a single audit. For recipients expending more than \$50 million* a year in federal awards, the cognizant agency for audit will be the federal awarding agency that provides the predominant amount of direct funding to the recipient unless the OMB makes a specific cognizant agency for audit assignment. The determination of the predominant amount of direct funding is based on the direct federal awards expended by a recipient during its fiscal year ending in 2004, 2009, 2014, and every fifth year thereafter.⁹ For example, audit cognizance for periods ending in 2006 through 2010 will be determined based on the federal

* The June 27, 2003, revisions to Circular A-133, which raised the threshold for assigning a cognizant agency from \$25 million to \$50 million, contains guidance on the determination of the predominant amount of direct funding for fiscal years ending on or before December 31, 2003. See also footnote * to paragraph 5.01.

⁹ A current listing of cognizant agency for audit assignments is available at the Federal Audit Clearinghouse (FAC) home page at <http://harvester.census.gov/sac/dissemin/reports.html>. Under the heading "Select Specialized Report," enter the option titled "Cog List Report."

awards expended in 2004. (However, for 2001 through 2005, the cognizant agency for audit is determined based on the predominant amount of direct federal awards expended in the recipient's fiscal year ending in 2000). Audit cognizance can be reassigned if both the old and the new federal agencies notify the auditee (and, if known, the auditor), of the change within 30 days of the reassignment. A recipient may have one federal agency responsible for audit cognizance and another federal agency responsible for the negotiation of indirect costs.

Responsibilities

5.42 Circular A-133 states that a cognizant agency for audit is responsible for:

- Providing technical audit advice and liaison to auditees and auditors.
- Considering auditee requests for extensions to the report submission due date. The cognizant agency for audit may grant extensions for good cause.
- Obtaining or conducting quality control reviews of selected audits made by nonfederal auditors and providing the results, when appropriate, to other interested organizations.
- Promptly informing other affected federal agencies and appropriate federal law enforcement officials of any direct reporting by the auditee or its auditor of irregularities or illegal acts, as required by *Government Auditing Standards* or laws and regulations.
- Advising the auditor and, where appropriate, the auditee of any deficiencies found in the audits when the deficiencies require corrective action by the auditor. When advised of deficiencies, the auditee should work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency for audit is required to notify the auditor, the auditee, and the applicable federal awarding agencies and pass-through entities of the facts and make recommendations for follow-up action. Major inadequacies or repeated substandard performance by auditors will be referred to appropriate state licensing agencies and professional bodies for disciplinary action.
- Coordinating, to the extent practicable, the audits or reviews made by or for federal agencies that are in addition to audits under Circular A-133, so that the additional audits or reviews build upon the Circular A-133 audits performed.
- Coordinating a management decision for audit findings that affect the federal programs of more than one federal agency.
- Coordinating the audit work and reporting responsibilities among auditors, to achieve the most cost-effective audit.

For biennial audits, the cognizant agency for audit also is responsible for considering auditee requests to qualify as a low-risk auditee.

Oversight Agency for Audit

Definition

5.43 An auditee that does not have a designated cognizant agency for audit (that is, one that expends \$50 million* or less in federal awards) will have

* See footnote * to paragraph 5.41.

an oversight agency for audit. Circular A-133 defines the oversight agency for audit as a federal awarding agency that provides the predominant amount of direct funding to a recipient not assigned a cognizant agency for audit as previously discussed. When there is no direct funding, the federal agency with the predominant indirect funding is required to assume the oversight responsibilities. An oversight agency for audit may reassign oversight to another federal agency that provides substantial funding and agrees to be the oversight agency for audit.* Within thirty days after reassignment, both the old and the new oversight agency for audit are required to notify the auditee, and, if known, the auditor of the reassignment.

Responsibilities

5.44 Circular A-133 describes the duties of oversight agencies for audit. The responsibilities of an oversight agency for audit are not as broad as those of a cognizant agency for audit. However, an oversight agency's primary responsibility is to provide technical advice to auditees and auditors when it is requested. An oversight agency may assume all or some of the responsibilities normally performed by a cognizant agency for audit.

Program-Specific Audits

5.45 Circular A-133 provides general guidance on performing program-specific audits. In many cases, a program-specific audit guide will be available from the federal agency's Office of Inspector General. The audit guide will provide specific guidance to the auditor with respect to internal control, compliance requirements, suggested audit procedures, and audit reporting requirements. When a program-specific audit guide is not available, the auditee and auditor have basically the same responsibilities for the federal program as they would have for an audit of a major program in a single audit. Chapter 13 of this Guide further discusses program-specific audits.

OMB Circular A-133 Compliance Supplement

5.46 Circular A-133 requires the auditor to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements (compliance requirements) that may have a direct and material effect on each of its major programs. The principal tool for this purpose is the *Compliance Supplement*. Chapter 8 of this Guide further discusses compliance requirements and the *Compliance Supplement*.

5.47 The *Compliance Supplement* is based on the requirements of the Single Audit Act and Circular A-133, which provide for the issuance of a compliance supplement to assist auditors in performing the required audits. The *Compliance Supplement*, which is updated annually,¹⁰ serves to identify existing compliance requirements that the federal government expects to be considered as part of an audit in accordance with the Single Audit Act and Circular A-133.

- For the programs it includes, the *Compliance Supplement* provides a source of information for auditors to understand the federal program's

* This provision permitting reassignment of oversight to another federal agency was added by the June 27, 2003, revisions to Circular A-133 and is effective June 28, 2003.

¹⁰ The *Compliance Supplement* is available from the Government Printing Office by calling (202) 512-1800 and on the OMB's Web site at www.whitehouse.gov/omb/grants/grants_circulars.html.

objectives, procedures, and compliance requirements relevant to the audit, as well as the audit objectives and suggested audit procedures for determining compliance with these requirements.

- For programs not listed in the *Compliance Supplement*, the auditor should follow *Compliance Supplement* Part 7, "Guidance for Auditing Programs Not Included in This Compliance Supplement," which instructs the auditor to use the types of compliance requirements (for example, cash management, reporting, allowable costs/cost principles, activities allowed or unallowed, eligibility, and matching, level of effort, and earmarking) contained in the *Compliance Supplement* as guidance for identifying the types of compliance requirements to test, and to determine the requirements governing the federal program by reviewing the provisions of contracts and grant agreements and the laws and regulations referred to in such contracts and grant agreements.

Chapter 6

Planning Considerations of Circular A-133

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, "Government Auditing Standards Audits," (Chapters 2, "Planning Considerations of *Government Auditing Standards*," through 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*") of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, "Circular A-133 Audits" (Chapters 5, "Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*," through 13, "Program-Specific Audits").

Introduction

6.01 In planning an audit to meet the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), the auditor needs to consider several matters in addition to those ordinarily associated with an audit of financial statements in accordance with generally accepted auditing standards (GAAS) and *Government Auditing Standards*. This chapter discusses additional planning considerations in a single audit conducted in accordance with Circular A-133. Many of these planning considerations also are applicable in program-specific audits, which are discussed in Chapter 13, "Program-Specific Audits," of this Guide.

6.02 Chapter 2, "Planning Considerations of *Government Auditing Standards*," of this Guide discusses matters that are relevant to the planning of a financial statement audit. The rest of this chapter discusses the following additional or expanded matters relevant to the planning of a single audit:

- Satisfying Circular A-133 requirements
- Establishing an understanding with the auditee
- Additional requirements of the Single Audit Act Amendments of 1996 (the Single Audit Act) and Circular A-133 regarding audit documentation and audit follow-up
- Financial statement audit considerations
- Defining the entity to be audited
- Determining the audit period
- Initial-year audit considerations
- Timing of the completion of the audit and report submission deadlines
- Determining the major programs to be audited

- Preliminary assessment of audit risk
- Audit materiality considerations
- Determining compliance requirements
- Developing an efficient audit approach
- Joint audits and reliance on others
- Existence of an internal audit function
- Communications with the cognizant agency for audit and others
- Understanding the applicable state and local compliance and reporting requirements
- Desk reviews and on-site reviews
- Restriction on the auditor's preparation of indirect cost proposals

Satisfying Circular A-133 Requirements

6.03 Statement on Auditing Standards (SAS) No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801), describes the auditor's responsibility when engaged to conduct an audit in accordance with Circular A-133. If the entity is seeking an audit in accordance with Circular A-133, the auditor should consider including a statement in a proposal, in a contract, or in the communication issued to establish an understanding with the auditee (see paragraph 6.04) that the engagement is intended to meet the requirements of Circular A-133. SAS No. 74 also describes the auditor's responsibilities, including communication responsibilities, when the auditor becomes aware that the entity is subject to an audit requirement that may not be encompassed in the terms of the engagement, such as Circular A-133. Chapter 1, "Introduction," of this Guide further discusses the provisions of SAS No. 74, including the persons to whom such communication should be made, the documentation of the communication, and the effect of the entity's response to the auditor's communication on other aspects of the audit.

Establishing an Understanding With the Auditee

6.04 As discussed in Chapter 2 of this Guide, SAS No. 83, *Establishing an Understanding With the Client* (AICPA, *Professional Standards*, vol. 1, AU sec. 310), as amended, states that the auditor should establish an understanding with the auditee regarding the services to be performed. In addition to the matters discussed in that chapter, the auditor also should consider including the following information in the communication when he or she is engaged to perform an audit in accordance with Circular A-133:

- A statement that the supplemental schedule(s) to be considered in the audit include the schedule of expenditures of federal awards
- A statement that the auditing standards and requirements that will be followed include Circular A-133
- The objective of an audit in accordance with Circular A-133
- A description of the additional reports required by Circular A-133 that the auditor is expected to prepare and issue, including any limitation on their use
- A description of management's responsibility for (a) internal control over compliance; (b) compliance with laws, regulations, and the provisions of contracts and grant agreements; (c) following up and taking corrective action on audit findings, including the preparation of a summary schedule of prior audit findings and a corrective action plan; and (d) submitting the reporting package and data collection form

- A statement that management has made the auditor aware of significant vendor relationships where the vendor is responsible for program compliance (so that the auditor can determine if additional procedures on vendor records will be necessary—see Chapter 11, “Audit Considerations of Federal Pass-Through Awards,” of this Guide)
- A description of the auditor’s responsibility in a compliance audit of major programs under Circular A-133, including the determination of major programs, the consideration of internal control over compliance, and reporting responsibilities
- A statement that the parties to whom audit documentation will be made available upon request include federal agencies and the U.S. Government Accountability Office (GAO)

Additional Requirements of the Single Audit Act and Circular A-133 Regarding Audit Documentation and Audit Follow-Up¹

Audit Documentation Access and Retention

6.05 Based on language in the Single Audit Act, section 515(b) of Circular A-133 states that audit working papers (referred to in this Guide as *audit documentation*) “shall be made available upon request to the cognizant or oversight agency for audit or its designee, a Federal agency providing direct or indirect funding, or GAO at the completion of the audit, as part of a quality review, to resolve audit findings, or to carry out oversight responsibilities . . .” It also states that access to the audit documentation includes the right to obtain copies. The Single Audit Act intends that federal agencies be judicious in the exercise of this authority and that the release of audit documentation should not compromise the confidentiality of proprietary information. The Single Audit Act also intends that any trade secrets and confidential commercial or financial information obtained from the audit documentation be treated as confidential under the Freedom of Information Act (U.S. Code title 5, section 552). Auditors should refer to the guidance in AICPA Auditing Interpretation No. 1, “Providing Access to or Copies of Audit Documentation to a Regulator,” of SAS No. 96, *Audit Documentation* (AICPA, *Professional Standards*, vol. 1, AU sec. 9339.01–.15), when a regulator requests access to audit documentation pursuant to law, regulation, or audit contract.

6.06 Circular A-133 requires that auditors retain audit documentation and reports for a minimum of three years after the date of issuance of the auditor’s report to the auditee, unless the auditor is notified in writing by the cognizant agency for audit, oversight agency for audit, or pass-through entity to extend the retention period. When the auditor is aware that the federal awarding agency, pass-through entity, or auditee is contesting an audit finding, the auditor is required to contact the parties contesting the audit finding for guidance before the destruction of the audit documentation and reports.

Audit Follow-Up

6.07 Circular A-133 requires the auditor to follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee, and report, as a current-year

¹ Chapter 2, “Planning Considerations of *Government Auditing Standards*,” of this Guide discusses the *Government Auditing Standards* audit documentation access and follow-up requirements.

audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding. Chapters 8, “Compliance Auditing Applicable to Major Programs,” and 12, “Auditor Reporting Requirements and Other Communication Considerations in a Single Audit,” of this Guide further discuss the auditor’s responsibility for audit follow-up.

Financial Statement Audit Considerations

6.08 Circular A-133 requires auditees to prepare financial statements that reflect their financial position, results of operations or changes in net assets, and, where appropriate, cash flows for the fiscal year. The financial statements should be for the same organizational unit and fiscal year that is chosen to meet the requirements of Circular A-133. However, organization-wide financial statements also may include departments, agencies, and other organizational units that have separate audits and prepare separate financial statements (see paragraph 6.11). Circular A-133 also requires auditees to prepare a schedule of expenditures of federal awards for the period covered by the financial statements. Chapter 7, “Schedule of Expenditures of Federal Awards,” of this Guide discusses the schedule of expenditures of federal awards.

6.09 Circular A-133 does not prescribe the basis of accounting that auditees should use to prepare their financial statements. However, auditees are required to disclose the basis of accounting and significant accounting policies used in preparing the financial statements. Auditees should be able to reconcile amounts presented in the financial statements to related amounts in the schedule of expenditures of federal awards.

6.10 Circular A-133 does, however, require the auditor to report whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles (GAAP). This results in the expression of an opinion or a disclaimer of opinion.² (Chapters 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*,” and 12 of this Guide provide guidance on reporting on the auditee’s financial statements.) If the auditee prepares its financial statements in conformity with a comprehensive basis of accounting other than GAAP,³ the auditor still is required to express or disclaim an opinion and should

² As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government’s basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. In addition, the auditor may provide opinions or disclaimers of opinion on additional opinion units if engaged to set the scope of the audit and assess materiality at a more detailed level than by the opinion units required for the basic financial statements. Throughout this Guide, the use of the singular terms *opinion* and *disclaimer of opinion* encompasses the multiple opinions and disclaimers of opinion that generally will be provided on a government’s financial statements.

³ Statement on Auditing Standards (SAS) No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623.04), defines the comprehensive bases of accounting other than generally accepted accounting principles (GAAP), known as *other comprehensive bases of accounting*, or OCBOA. The AICPA Audit and Accounting Guide *State and Local Governments* discusses the application of SAS No. 62, as amended, and Auditing Interpretation No. 14, “Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting,” of SAS No. 62 (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.90–95) to state and local governmental financial statements. That Guide also provides an illustrative auditor’s report on OCBOA financial statements. In addition, in the AICPA’s Practice Aid Series, two publications—*Applying OCBOA in State and Local Governmental Financial Statements* and *Preparing and Reporting on Cash- and Tax-Basis Financial Statements*—provide nonauthoritative guidance on preparing and reporting on OCBOA financial statements.

follow the reporting guidance in SAS No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623), as amended. The financial statements also are required to be audited in accordance with *Government Auditing Standards*. (See the note at the beginning of this chapter.) Circular A-133 does not impose on the financial statement audit any additional audit requirements beyond *Government Auditing Standards*.

Defining the Entity to Be Audited

6.11 One of the initial tasks during the planning process of a single audit is determining whether management has properly defined the entity to be audited. Circular A-133 requires that single audits cover the entire operations of the auditee. However, Circular A-133 provides auditees the option to meet the audit requirements of the circular through a series of audits that cover an auditee's departments, agencies, and other organizational units that expended or otherwise administered federal awards during a fiscal year. If an auditee elects this option, separate financial statements and a schedule of expenditures of federal awards should be prepared for each such department, agency, or other organizational unit. In these circumstances, an auditee's organization-wide financial statements also may include departments, agencies, or other organizational units that have separate audits and prepare separate financial statements. For example, if a local government has its school districts audited separately, it would be acceptable for the local government's financial statements to include the school districts, even though the school districts were not included in the local government's Circular A-133 audit, because a separate Circular A-133 audit was conducted on the school districts. However, if separate financial statements were not prepared for the school districts, it would be unacceptable for a separate Circular A-133 audit to be conducted on the school districts (that is, the local government's organization-wide financial statements could not be used as a substitute for separate financial statements for the school districts). Chapter 12 of this Guide discusses auditor reporting in situations in which (a) the implementation regulations of federal awarding agencies define the entity to be audited differently than does GAAP and (b) the audit of federal awards does not encompass the entirety of the auditee's operations expending federal awards.

Determining the Audit Period

Fiscal Year and Program Period May Differ

6.12 An audit performed in accordance with Circular A-133 should cover the auditee's financial transactions (including transactions related to federal awards) for its fiscal year (or a two-year period, if allowed by Circular A-133), which is not necessarily the same as the period of the program being funded. (Chapter 5, "Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*," of this Guide discusses the allowability of biennial audits). Thus, the audit might include only a part of the transactions of a federal award, because some transactions may not occur within the period covered by the audit.

Stub Periods

6.13 Stub periods may occur when an auditee converts from a program-specific audit to a single audit or changes audit periods. One example would be a community college with a September 30 year end that previously had a program-specific audit and is now converting to a single audit. The prior program-specific audits were performed based on a June 30 award year. The first single audit will be for the year ending September 30. This would leave

the community college with an unaudited stub period of June 30 to September 30. Arrangements should be made to meet the audit requirements for federal expenditures during the stub period. This is usually done either as a separate audit of the stub period or by including expenditures of the stub period with the following period's Circular A-133 audit. The cognizant or oversight agency for audit or the pass-through entity should be contacted for advice on how stub periods should be addressed.

Initial-Year Audit Considerations

Preceding Period Audited by Another Auditor

6.14 Whenever an auditor is considering accepting an engagement in which the federal awards of the preceding period were audited by another auditor, he or she should refer to the guidance in SAS No. 84, *Communications Between Predecessor and Successor Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 315), as amended. It provides guidance on communications between predecessor and successor auditors when a change in auditors is in process or has taken place, and it includes illustrative letters. SAS No. 84, as amended, also provides communications guidance when possible misstatements are discovered in financial statements reported on by a predecessor auditor.

Factors to Consider Under the Risk-Based Approach

6.15 When the engagement includes the selection of major programs using the risk-based approach, an auditor accepting, or contemplating accepting, an engagement should consider gathering information about the following:

- Federal awards expended by federal programs
- Prior-period findings and questioned costs (including the corrective action plan and management decision related to the findings and summary schedule of prior audit findings)
- Whether a predecessor auditor used the exception that allows deviation from the risk-based approach during the last three years, as discussed in Chapter 9, "Determination of Major Programs," of this Guide
- Correspondence from program officials indicating potential problems
- New programs
- Changes to programs
- Amount of funding passed through to subrecipients by individual federal programs
- Extent to which computer processing is used to administer federal programs
- Federal programs audited as major programs for the last two years

Timing of the Completion of the Audit and Report Submission Deadlines

6.16 When planning the timing of the audit, auditors should be aware that Circular A-133 requires that the audit be completed and the data collection form and reporting package be submitted to the federal clearinghouse within a certain time period. Chapters 5 and 12 of this Guide discuss the reporting package and the timing requirements for submission.

Determining the Major Programs to Be Audited

6.17 As discussed in Chapter 5 of this Guide, Circular A-133 requires the auditor to use a risk-based approach to determine which federal programs are major programs. This determination will affect the scope of the audit and the compliance requirements to be tested. Chapter 9 of this Guide discusses the determination of major programs and an exception available for certain first year audits that allows deviation from the use of risk criteria in determining major programs.

Preliminary Assessment of Audit Risk

6.18 As discussed in Chapter 2 of this Guide, in a financial statement audit, GAAS and *Government Auditing Standards* require the auditor to design the audit to provide reasonable assurance of detecting material misstatements resulting from noncompliance with laws, regulations, and provisions of contracts or grant agreements that have a direct and material effect on the determination of financial statement amounts.⁴ Circular A-133 further requires the auditor to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that may have a direct and material effect on each of its major programs. Therefore, in developing an audit plan for a Circular A-133 audit, the auditor should assess not only the risk that noncompliance may cause the financial statements to contain a material misstatement, but also the risk that noncompliance may have a material effect on each major program. Furthermore, the auditor should consider risk factors related to the risk of noncompliance with those laws, regulations, and provisions of contracts and grant agreements and to the related control activities designed to prevent or to detect such noncompliance. As required by SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), and discussed in Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide, the auditor also should specifically identify and assess the risk of material misstatement of the financial statements because of fraud and should respond to the results of the assessment when designing the audit procedures to be performed. Chapter 8 of this Guide discusses audit risk as it relates to the compliance auditing of major programs.

Audit Materiality Considerations

Materiality Differences Between the Financial Statement Audit and the Single Audit

6.19 In auditing compliance with requirements governing major programs in accordance with Circular A-133, the auditor's consideration of materiality differs from that in an audit of financial statements in accordance with GAAS and *Government Auditing Standards*. In an audit of financial statements, materiality is considered in relation to the financial statements being

⁴ Paragraph 4.18 of *Government Auditing Standards* and paragraph 2 of SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317.02), define the term *illegal acts* as violations of laws and regulations. As indicated in Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide, it generally has been interpreted under generally accepted auditing standards (GAAS) that the term *laws and regulations* in SAS No. 54 implicitly includes provisions of contracts or grant agreements. This Guide sometimes collectively refers to laws, regulations, and provisions of contracts and grant agreements as *compliance requirements* and to illegal acts and violations of provisions of contracts or grant agreements as *noncompliance* or *instances of noncompliance*.

audited.⁵ In designing audit tests and developing an opinion on an auditee's compliance with requirements having a direct and material effect on each major program, however, the auditor considers materiality in relation to each major program. Chapter 8 of this Guide further discusses materiality considerations in a Circular A-133 audit.

Materiality for Purposes of Reporting Audit Findings

6.20 Circular A-133 requires the auditor to consider a lower level of materiality for purposes of reporting audit findings in the schedule of findings and questioned costs than for other purposes. The auditor should be cautious not to confuse the Circular A-133 "audit finding" materiality with (a) the materiality used for planning and performing the single audit, (b) the materiality used for planning, performing, evaluating the results of, and reporting on the financial statement audit, or (c) giving an opinion on the auditee's compliance with requirements having a direct and material effect on each major program.

6.21 Among other findings to be reported, Circular A-133 requires the auditor to report in the schedule of findings and questioned costs material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. (Chapter 12 of this Guide describes other findings that Circular A-133 requires to be reported.) The auditor's determination of whether an instance of noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement (for example, activities allowed or unallowed, cash management, eligibility, or reporting) for a major program or an audit objective identified in the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*.

6.22 If, for example, when the auditor discovers one or more instances of noncompliance involving the reporting type of compliance requirement for a particular major program, several materiality determinations should be made using professional judgment. First, the auditor should decide whether the noncompliance is material to the reporting type of compliance requirement for the particular major program. If the auditor determines the noncompliance is material to the reporting type of compliance requirement, the noncompliance would be reported as a finding in the schedule of findings and questioned costs. Second, the auditor should decide whether the discovered noncompliance is material, either individually or when aggregated with other noncompliance findings, in relation to the particular major program taken as a whole. If the auditor determines the noncompliance is material to the major program taken as a whole, the auditor would express a qualified or adverse opinion on compliance with respect to the particular major program.⁶

⁵ Because an audit of a government's financial statements under the provisions of the AICPA Audit and Accounting Guide *State and Local Governments* is based on opinion units (see footnote 2), auditors make separate materiality determinations for purposes of planning, performing, evaluating the results of, and reporting for each opinion unit.

⁶ As discussed in Chapter 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide, paragraphs 5.16 and 5.20 of *Government Auditing Standards* require the auditor to communicate to the auditee in a management letter the following matters unless they are clearly inconsequential—deficiencies in internal control that are not reportable conditions, immaterial violations of provisions of contracts or grant agreements, and immaterial abuse. As discussed in Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide, in an audit in accordance with Circular A-133, the auditor should evaluate such matters involving federal awards for the purpose of that communication based only on their consequence to the financial statements. Further, the auditor should not communicate such findings in the management letter if they are otherwise

(continued)

Determining Compliance Requirements

6.23 Chapter 2 of this Guide discusses how in planning the financial statement audit, the auditor should obtain from management the principal compliance requirements at the start of the audit. For both the financial statement audit and the compliance audit, the auditee and auditor also may ascertain the principal compliance requirements for the largest federal programs by referring to the *Compliance Supplement*. For programs not included in the *Compliance Supplement*, auditors should refer to Part 7 of that document, which provides guidance for auditing programs not included in the *Compliance Supplement*. Among other things, Part 7 instructs auditors to review the federal award document and referenced laws and regulations applicable to the program, the *Catalog of Federal Domestic Assistance (CFDA)*, and previously issued compliance supplements. Chapter 8 of this Guide further discusses the use of the *Compliance Supplement* to identify compliance requirements.

Developing an Efficient Audit Approach

6.24 Auditors should consider planning and performing a single audit to achieve maximum audit efficiency. Examples of ways to achieve audit efficiency follow.

- The financial statement audit and the compliance audit could be planned at the same time.
- If the auditee's system administers more than one major program using common internal control, the transactions of those programs could be combined into one population for selecting sample sizes. When testing transactions selected from the major programs, the auditor could use the sample to test internal control over financial reporting, internal control over compliance, and compliance requirements.
- Because Circular A-133 requires the planning and performance of internal control work to assess control risk as low (unless weaknesses are found), the auditor could take advantage of the low assessed level of control risk when he or she performs the substantive testing of compliance.
- Helpful quality control materials (such as planning checklists and reporting checklists) could be used.

Joint Audits and Reliance on Others

6.25 Circular A-133 encourages auditees, whenever possible, to make positive efforts to use small business, minority-owned firms, and women's business

(footnote continued)

reported as audit findings in accordance with Circular A-133. Assume, for example, that during the Circular A-133 compliance audit, the auditor identifies a single \$1,000 instance of noncompliance with a contractual provision for a major program. The auditor determines that the likely questioned costs are less than \$10,000 for the type of compliance requirement, the noncompliance is not material in relation to a type of compliance requirement or an audit objective identified in the *OMB Circular A-133 Compliance Supplement*, and the noncompliance is not indicative of a reportable condition. Therefore, Circular A-133 does not require the reporting of this instance of noncompliance as a federal audit finding. However, the auditor should evaluate the noncompliance in relation to the financial statements. If it is material to the financial statements, the auditor should report it as a financial statement finding in the schedule of findings and questioned costs. If it is less than material but more than inconsequential to the financial statements, the auditor should communicate it to the auditee in the management letter.

enterprises. In keeping with the spirit of that provision, certain auditees may engage such independent accounting firms on a joint-venture or subcontract basis. In these instances it may be necessary to refer to the work of other auditors. Chapter 2 of this Guide discusses planning considerations for a joint audit.

6.26 A common occurrence, particularly in the governmental environment, is the separation of a single audit between the principal auditor of the reporting entity and a secondary auditor of a component organization included in the financial statements of the reporting entity (see paragraph 6.11). The principal auditor's report on the financial statements of the reporting entity most often refers to the report of the secondary auditor as it relates to the financial statements of the component organization. The principal auditor also may need to refer to the programs audited by other auditors in the auditor's reports on the schedule of expenditures of federal awards and on compliance with requirements applicable to each major program and on the internal control over compliance as they relate to federal awards administered by the component organization. In such cases, the auditor should follow the guidance in SAS No. 1, section 543, *Part of Audit Performed by Other Independent Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 543). The AICPA Audit and Accounting Guide *State and Local Governments* also illustrates an auditor's report on the financial statements that refers to the work of another auditor in the paragraph reporting on supplementary information other than required supplementary information (known as SI), such as the schedule of expenditures of federal awards.

Existence of an Internal Audit Function

6.27 Chapter 2 of this Guide discusses planning considerations when the auditee has an internal audit function and the internal auditors are involved in monitoring compliance with specified requirements. Internal auditors may monitor not only compliance requirements that affect the financial statement audit, but also those that affect major programs.

Communications With the Cognizant Agency for Audit and Others

6.28 Chapter 2 of this Guide discusses how the auditor may communicate with grantor agencies and other entities in planning the audit, the need to document that communication, and the types of topics that might be discussed. In a single audit, the auditor also may communicate with the cognizant agency for audit or the oversight agency for audit. If a planning meeting is held with that agency, the following single audit matters also may be discussed:

- The scope of the compliance testing of federal programs
- The intended use of the *Compliance Supplement*
- The identification of federal awards, including those that are considered to be major programs
- The form and content of the supplemental schedule of expenditures of federal awards
- The testing of the monitoring of subrecipients
- The scope of the review and testing of internal control over compliance
- The testing of compliance requirements
- The status of prior-year findings and questioned costs

- Federal agency or pass-through entity management decisions on prior-year findings
- Compliance requirements and any changes to those requirements

Understanding the Applicable State and Local Compliance and Reporting Requirements

Impact on Circular A-133 Audit

6.29 Auditors may be engaged to test and report on compliance with state and local laws and regulations in addition to testing and reporting on the compliance requirements as provided by *Government Auditing Standards* and Circular A-133. For example, there may be state-imposed state award requirements that provide state funds to political subdivisions or NPOs (in this example, the state is not a pass-through entity). Even though such nonfederal awards are not considered part of the total federal awards expended by the auditee and are not subject to audit in accordance with Circular A-133, auditors would still need to consider such laws and regulations under GAAS and *Government Auditing Standards*. Therefore, in connection with the financial statement audit, auditors should obtain an understanding of applicable state and local compliance and reporting requirements that have a direct and material effect on the financial statements being audited. Chapter 3 of this Guide discusses possible audit procedures to assess the completeness of management's identification of compliance requirements in connection with the financial statement audit.

Compliance Audits of State or Local Grants

6.30 When engaged to audit one or more grants subject to state or local compliance requirements, the auditor should consider performing the following procedures:

- Determine whether the state or local government has a compliance supplement or other audit guide for the program.
- Inquire of management about the additional compliance auditing requirements applicable to the entity.
- Inquire of the audit divisions of the sponsoring agencies about the audit requirements applicable to the entity.
- Obtain any applicable audit guidance from the grantor agency (including any audit guides, amendments, administrative rulings, and so forth) pertaining to the grant.
- Read the grant agreements and any amendments, including referenced laws and regulations.
- Review information about governmental audit requirements that is available from state societies of CPAs or associations of governments.
- When appropriate, discuss with the grantor agency the scope of the testing that is expected to be performed.

Compliance Audits Not Involving Governmental Assistance

6.31 Chapter 6, "Compliance Attestation," of Statement on Standards for Attestation Engagements (SSAE) No. 10, *Attestation Standards: Revision and Recodification* (AICPA, *Professional Standards*, vol. 1, AT sec. 601), as amended, provides guidance for engagements related to an entity's compliance with (or management's written assertion about such compliance) specified state or local laws, regulations, rules, or contracts not involving governmental financial assistance.

Desk Reviews and On-Site Reviews

6.32 In addition to the quality control requirements set forth in *Government Auditing Standards* as discussed in Chapter 2 of this Guide, cognizant agencies for audit have implemented procedures for evaluating the quality of audits. These procedures include both desk reviews and on-site reviews (note that the oversight agencies for audit also may perform these reviews).⁷ As a part of the cognizant agencies' evaluation of the completed reports of such engagements, and, as required by Circular A-133, the supporting audit documentation should be made available upon request by the representative of the federal agency. Audit documentation typically is reviewed at a location agreed upon by the cognizant agency for audit and the independent auditor. (Paragraph 6.05 and Chapter 2 of this Guide further discuss access to audit documentation.)

6.33 Whenever a review of the audit report or audit documentation discloses an inadequacy, the audit firm is contacted for corrective action. Where major inadequacies are identified and the representative of the cognizant agency for audit determines that the audit report and the audit documentation are substandard, cognizant agencies may take further steps. In those instances in which the audit was determined to be substandard by the federal agency, the matter may be submitted to state boards of public accountancy.

Restriction on the Auditor's Preparation of Indirect Cost Proposals

6.34 Circular A-133 precludes the auditor who prepares the indirect cost proposal or cost allocation plan from performing the single audit when indirect costs recovered by the auditee during the prior year exceeded \$1 million.⁸ This restriction applies to the base year used in the preparation of the indirect proposal or cost allocation plan and to any subsequent years in which the resulting indirect cost agreement or cost allocation plan is used to recover costs. For example, an auditor who prepares an indirect cost proposal or cost allocation plan that is used as the basis for charging indirect costs in the fiscal year ending June 30, 20X1, is not permitted to perform the 20X1 single audit (assuming that the indirect costs recovered during the prior year exceeded \$1 million).

⁷ Among the tools that the cognizant and oversight agencies for audit use to perform desk reviews are two checklists from the President's Council on Integrity and Efficiency (PCIE): the *Uniform Guide for Initial Review of A-133 Audit Reports* and the *Uniform Guide for Initial Review Guide for A-133 Audits*. Copies of these guides are available on the Internet at www.ignet.gov/pande/audit/psingle.html.

⁸ Paragraph 3.18 of *Government Auditing Standards* addresses the effect that the preparation of an entity's indirect cost proposal or cost allocation plan has on an auditor's independence. (Chapter 2 of this Guide discusses the independence requirements of *Government Auditing Standards*.) However, even if the auditor's preparation of an indirect cost proposal or cost allocation plan does not impair the auditor's independence, Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), continues to prohibit an auditor who prepared that proposal or plan from performing the Circular A-133 audit when indirect costs recovered by the entity during the prior year exceeded \$1 million.

Chapter 7

Schedule of Expenditures of Federal Awards

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “*Government Auditing Standards Audits*,” (Chapters 2, “*Planning Considerations of Government Auditing Standards*,” through 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “*Circular A-133 Audits*” (Chapters 5, “*Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement*,” through 13, “*Program-Specific Audits*”).

Overview of Schedule Requirements

7.01 Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), requires the auditor to determine whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the auditee’s financial statements taken as a whole. Statement on Auditing Standards (SAS) No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents* (AICPA, *Professional Standards*, vol. 1, AU sec. 551), as amended, and paragraph 7 of SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550.07), as amended, provide guidance on such reporting. The schedule of expenditures of federal awards, prepared by the auditee, reports the total expenditures for each federal program. (See Chapter 5, “*Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement*,” of this Guide for the Circular A-133 definition of federal programs). This chapter describes the identification of federal awards, the general presentation requirements governing the schedule, pass-through awards, noncash awards, and endowment funds. Chapter 12, “*Auditor Reporting Requirements and Other Communication Considerations in a Single Audit*,” of this Guide discusses the auditor’s reporting on the schedule.

Identification of Federal Awards

Federal Agency and Pass-Through Entity Requirements

7.02 Circular A-133 requires federal agencies and pass-through entities to identify the federal awards made by informing each recipient or subrecipient

of the *Catalog of Federal Domestic Assistance* (CFDA) title and number, the award's name and number, the award year, and whether the award is for research and development (R&D). When some of this information is not available, the federal agency or pass-through entity is required to provide the information necessary to describe the federal award clearly.

Auditee Requirements

7.03 Circular A-133 requires the auditee to identify in its accounts all federal awards received and expended, as well as the federal programs under which they were received. Federal program and award identification includes, as applicable, the CFDA title and number, the award number and year, the name of the federal granting agency, and the name of the pass-through entity.

Auditor Assessment of Auditee Identification of Federal Programs

7.04 In assessing the appropriateness and completeness of the auditee's identification of federal programs in the schedule, the auditor should consider, among other matters, evidence obtained from audit procedures performed to evaluate the completeness and classification of recorded revenues and expenditures. This may include sending confirmations to granting federal agencies or pass-through entities in an audit of a subrecipient. When the auditee is unable to identify federally funded expenditures separately, the auditor should consider whether a reportable condition exists. If it does, the auditor should report a finding in the schedule of findings and questioned costs. Chapter 12 of this Guide further discusses the reporting of findings and the schedule of findings and questioned costs.

General Presentation Requirements

Basis of Accounting

7.05 Circular A-133 does not prescribe the basis of accounting to be used by the auditee to prepare the schedule of expenditures of federal awards. Some auditees may choose to prepare the schedule on a basis of accounting that is different from that used in the financial statements. In any case, the auditee is required to disclose the basis of accounting and the significant accounting policies used in preparing the schedule. The auditee also should be able to reconcile amounts presented in the financial statements to related amounts in the schedule of expenditures of federal awards.

Required Schedule Contents

7.06 Circular A-133 requires the auditee to prepare a schedule of expenditures of federal awards for the period covered by the auditee's financial statements. At a minimum, the schedule should:

- List individual federal programs by federal agency. For federal programs included in a cluster of programs, list individual federal programs within a cluster of programs. (Chapter 5 of this Guide discusses clusters of programs.) For R&D, the total federal awards expended should be shown either by individual award or by federal agency and major subdivision within the federal agency. For example, the National

Institutes of Health is a major subdivision in the Department of Health and Human Services (the federal agency).

- For federal awards received as a subrecipient, include the name of the pass-through entity and the identifying number assigned by the pass-through entity.
- Provide the total federal awards expended for each individual federal program and the CFDA number or other identifying number when the CFDA information is not available.
- Include notes that describe the significant accounting policies used in preparing the schedule.
- For federal awards received as a pass-through entity, identify, to the extent practical, the total amount provided to subrecipients from each federal program. (Chapter 11, “Audit Considerations of Federal Pass-Through Awards,” of this Guide further discusses the audit considerations of federal pass-through awards.)
- Include, in either the schedule or a note to the schedule, the value of federal awards expended in the form of noncash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end (see paragraph 7.13).

Appendix A (paragraph 7.17) presents example schedules of expenditures of federal awards.

Providing Additional Information

7.07 Although not required, the auditee may choose to provide other information (in addition to the foregoing requirements) that is requested by federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a federal program has multiple award years, the auditee may choose to list the amount of federal awards expended for each award year separately, if so requested by a federal agency.

Schedule Not in Agreement With Other Federal Award Reporting

7.08 Auditors should note that the information included in the schedule may not fully agree with other federal award reports that the auditee submits directly to federal granting agencies because, among other reasons, the award reports (a) may be prepared for a different fiscal period and (b) may include cumulative (from prior years) data rather than data for the current year only.

Inclusion of Nonfederal Awards

7.09 Circular A-133 does not require nonfederal awards (for example, state awards) to be presented in the schedule. However, to meet state or other requirements, auditees may decide to include such awards in the schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.

CFDA Number Not Available

7.10 The auditee may be unable to obtain the CFDA number, which is sometimes the case for new federal programs and R&D programs. In addition, cost-type contracts normally will not have a CFDA number. When the CFDA

number is not available, the auditee should indicate that fact and should include in the schedule the program's name and, if available, other identifying number.

Pass-Through Awards

Treatment of Pass-Through Awards

7.11 Circular A-133 defines a subrecipient as an entity that expends federal awards that are received from a pass-through entity to carry out a federal program. State or local government redistributions of federal awards to subrecipients, known as "pass-through awards," should be treated by the subrecipient as though they were received directly from the federal government. Accordingly, pass-through awards should be included in the scope of the single audit on the same basis as that of federal awards that are received directly. Chapter 11 of this Guide further discusses the audit considerations of federal pass-through awards. As noted in paragraph 7.06, in addition to the other general presentation requirements, Circular A-133 requires the schedule to include the name of the pass-through entity and the identifying number assigned by the pass-through entity for federal awards received as a subrecipient.

Commingled Assistance

7.12 The individual sources (that is, federal, state, and local) of federal awards may not be separately identifiable because of commingled assistance from different levels of government. If the commingled portion cannot be separated to specifically identify the individual funding sources, the total amount should be included in the schedule, with a note to the schedule describing the commingled nature of the funds.

Noncash Awards

Treatment of Noncash Awards

7.13 Most federal awards are in the form of cash awards. However, there are a number of federal programs that do not involve cash transactions. These programs may include food stamps, commodities, loan guarantees, loans, surplus property, interest rate subsidies, or insurance. Circular A-133 requires the value of federal awards expended in the form of noncash assistance (such as loan guarantees, loans, insurance programs, surplus property, food stamps issued, or commodities distributed) to be reported either on the face of the schedule or disclosed in the notes to the schedule. Circular A-133 states that although it is not required, it is preferable to present this information in the schedule rather than in the notes to the schedule. Chapter 5 of this Guide discusses the determination of when awards, including noncash awards, are considered to be expended.

Determining the Value of the Noncash Awards Expended

7.14 Table 7-1 shows the bases generally used to determine the value of noncash awards expended. (See section 205 of Circular A-133 for additional details.)

Table 7-1

Determining the Value of Noncash Awards Expended

<i>Types of Noncash Awards</i>	<i>Basis Used to Determine the Value of Noncash Awards Expended</i>
Loans and loan guarantees ¹	Value of new loans made or received during the fiscal year plus the balance of loans from previous years for which the federal government imposes continuing compliance requirements (see paragraph 7.15), plus any interest subsidy, cash, or administrative cost allowance received
Loans and loan guarantees (loans) at institutions of higher education ¹	When loans are made to students but the institution of higher education does not make the loans, only the value of loans made during the year (The balance of loans for previous years is not considered federal awards expended because the lender accounts for the prior balances.)
Insurance	Fair market value of insurance contract at the time of receipt, or the assessed value provided by the federal agency
Food stamps	Fair market value of food stamps at the time of receipt, or the assessed value provided by the federal agency
Commodities	Fair market value of commodities at the time of receipt, or the assessed value provided by the federal agency
Donated property or donated surplus property	Fair market value of donated property or donated surplus property at the time of receipt, or the assessed value provided by the federal agency
Free rent	Fair market value of free rent at the time of receipt, or the assessed value provided by the federal agency. Free rent is not considered an award expended unless it is received as part of an award to carry out a federal program

¹ The proceeds of loans that were received and expended in prior years are not considered federal awards expended when the laws, regulations, and the provisions of contracts or grant agreements pertaining to such loans impose no continuing compliance requirements other than to repay the loans.

Loan and Loan Guarantee Continuing Compliance Requirements

7.15 As noted previously, in determining the value of total noncash awards expended for loans and loan guarantees, the balances of loans from previous years are required to be included in the schedule if the federal government imposes continuing compliance requirements. Circular A-133 does not specifically define the term *continuing compliance requirements*. Therefore, it is a matter of judgment about whether continuing compliance requirements are significant enough to require inclusion of prior-year loan or loan guarantee balances. For example, if in a prior year an auditee expended the proceeds of a federal loan to construct a building, and the current-year activity consists only of loan repayments and a requirement by the federal lender for the auditee to submit a report that only details loan payment information, it may not be necessary to include the prior year's loan balance in determining the total amount of loans expended. However, if the federal lender requires the

auditee to ensure on an ongoing basis that a certain percentage of the building is rented to low-income residents, it would likely be necessary to include the prior year's loan balance in determining the total amount of loans expended. The auditor should consider contacting the federal agency's Office of Inspector General for assistance in determining whether continuing compliance requirements are significant enough to require inclusion of the balances of prior loans or loan guarantees.

Endowment Funds

7.16 Circular A-133 states that the cumulative balance of federal awards for endowment funds, which are federally restricted, is considered awards expended in each year in which the funds are still restricted.

7.17

Appendix A—Illustrative Schedules of Expenditures of Federal Awards

Example Entity Schedule of Expenditures of Federal Awards¹ For the Year Ended June 30, 20X1

<i>Federal Grantor/Pass-Through Grantor/Program or Cluster Title</i>	<i>Federal CFDA Number²</i>	<i>Pass-Through Entity Identifying Number³</i>	<i>Federal Expenditures⁴</i>
U.S. Department of Agriculture:			
Summer Food Service Program for Children—Commodities	10.559		\$ 46,000
<i>Total U.S. Department of Agriculture</i>			\$ 46,000
U.S. Department of Housing and Urban Development:			
Community Development Block Grant—Entitlement Grants (note 2)	14.218		\$1,235,632
Section 8 Rental Voucher Program	14.855		800,534
<i>Total U.S. Department of Housing and Urban Development</i>			\$2,036,166
U.S. Department of Education:			
Impact Aid	84.041		\$ 372,555
Bilingual Education	84.288		28,655
<i>Subtotal Direct Programs</i>			\$ 401,210
Pass-Through Program From:			
State Department of Education—Title I Grants to Local Educational Agencies	84.010	23-8345-7612	\$1,239,398
<i>Total U.S. Department of Education</i>			\$1,640,608
<i>Total Expenditures of Federal Awards</i>			<u>\$3,722,774</u>

The accompanying notes are an integral part of this schedule.

¹ To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule also should be modified to indicate that nonfederal awards are included.

² When the *Catalog of Federal Domestic Assistance* (CFDA) number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if available, other identifying number.

³ When awards are received as a subrecipient, the schedule should include the identifying number assigned by the pass-through entity.

⁴ Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) requires that the value of federal awards expended in the form of noncash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end be included in either the schedule or a note to the schedule. Although it is not required, Circular A-133 states that it is preferable to present this information in the schedule (versus the notes to the schedule). If the auditee presents noncash assistance in the notes to the schedule, the auditor should be aware that such amounts still are required to be included in Part III of the data collection form.

Example Entity
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 20X1

Note 1. Basis of Presentation⁵

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Example Entity and is presented on the [*identify basis of accounting*]. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Subrecipients⁶

Of the federal expenditures presented in the schedule, Example Entity provided federal awards to subrecipients as follows:

<i>Program Title</i>	<i>Federal CFDA Number</i>	<i>Amount Provided to Subrecipients</i>
Community Development Block Grant—Entitlement Grants	14.218	\$423,965

⁵ This note is included to meet the Circular A-133 requirement that the schedule include notes that describe the significant accounting policies used in preparing the schedule.

⁶ Circular A-133 requires the schedule of expenditures of federal awards to include, to the extent practical, an identification of the total amount provided to subrecipients from each federal program. Although this example includes the required subrecipient information in the notes to the schedule, the information may be included on the face of the schedule as a separate column or section, if the auditee prefers.

Example Entity University
Schedule of Expenditures of Federal Awards⁷

<i>Federal Grantor / Pass-Through Grantor / Program or Cluster Title</i>	<i>Federal CFDA⁸ Number</i>	<i>Pass-Through Entity Identifying Number⁹</i>	<i>Federal Expenditures¹⁰</i>
<i>Student Financial Aid—Cluster:</i>			
U.S. Department of Education: ¹¹			
Federal Pell Grant Program	84.063		\$ 4,757,853
Federal Family Education Loan Program	84.032		2,143,587
Federal Direct Loan Program	84.268		1,863,506
Federal Supplemental Educational Opportunity Grant	84.007		974,873
Federal Work-Study Program	84.033		575,417
Federal Perkins Loan Program (note 2)	84.038		<u>1,548,343</u>
<i>Total U.S. Department of Education</i>			<u>\$11,863,576</u>
U.S. Department of Health and Human Services:			
Nursing Student Loans (note 2)	93.364		\$ 823,582
<i>Total U.S. Department of Health and Human Services</i>			\$ 823,582
<i>Total Student Financial Aid</i>			\$12,687,158
<i>Research and Development—Cluster:¹²</i>			
U.S. Department of Defense:			
Department of Army	N.A.		\$ 87,403

<i>Total National Science Foundation</i>			<u>\$ 458,098</u>

(continued)

⁷ See footnote 1.⁸ See footnote 2.⁹ See footnote 3.¹⁰ See footnote 4.

¹¹ Institutions of higher education often participate in certain loan and loan guarantee programs (for example, the Federal Family Education Loan Program (FFELP) and the Federal Direct Loan Program), as shown here. Circular A-133 requires that when loans are made to students but the institution of higher education does not make the loans, the value of the loans made during the year is considered federal awards expended. Those loans and loan guarantees should be reported either on the face of the schedule or disclosed in the notes to the schedule, as discussed in paragraph 7.13.

¹² For research and development, Circular A-133 requires that total federal awards expended be shown either by individual award or by federal agency and major subdivision within the federal agency. This example illustrates the federal agency and major subdivision option.

<i>Federal Grantor / Pass-Through Grantor / Program or Cluster Title</i>	<i>Federal CFDA Number⁸</i>	<i>Pass-Through Entity Identifying Number⁹</i>	<i>Federal Expenditures¹⁰</i>
U.S. Department of Health and Human Services:

<i>Total Expenditures of Federal Awards</i>			<u>\$15,350,824</u>
N.A. = Not Available			

The accompanying notes are an integral part of this schedule.

Example Entity University
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 20X1

Note 1. Basis of Presentation¹³

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Example Entity University and is presented on the [identify basis of accounting]. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Loans Outstanding¹⁴

Example Entity University had the following loan balances outstanding at June 30, 20X1. Loans made during the year are included in the federal expenditures presented in the schedule.

<i>Cluster / Program Title</i>	<i>Federal CFDA Number</i>	<i>Amount Outstanding</i>
Student Financial Aid: Federal Perkins Loan Program	84.038	\$6,341,180
Nursing Student Loans	93.364	\$3,815,635

Note 3. Subrecipients¹⁵

Of the federal expenditures presented in the schedule, Example Entity University provided federal awards to subrecipients as follows:

<i>Program Title</i>	<i>Federal CFDA Number</i>	<i>Amount Provided to Subrecipients</i>
National Science Foundation	N.A.	\$236,403
Administration on Aging	N.A.	\$138,095

¹³ See footnote 5.

¹⁴ This note is intended to meet the Circular A-133 requirement that loans or loan guarantees outstanding at year end be included in the schedule. See paragraph 7.15.

¹⁵ See footnote 6.

Chapter 8

Compliance Auditing Applicable to Major Programs

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “*Government Auditing Standards Audits*,” (Chapters 2, “*Planning Considerations of Government Auditing Standards*,” through 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “*Circular A-133 Audits*” (Chapters 5, “*Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement*,” through 13, “*Program-Specific Audits*”).

8.01 This chapter discusses the auditor’s consideration of compliance requirements applicable to major programs in a single audit under Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). (As discussed in Chapter 13, “*Program-Specific Audits*,” of this Guide, much of the guidance in this chapter also would be applicable to a program-specific audit when a program-specific audit guide is not available). Chapter 12, “*Auditor Reporting Requirements and Other Communication Considerations in a Single Audit*,” of this Guide discusses the related reporting requirements. Chapters 3, “*Financial Statement Audit Considerations of Government Auditing Standards*,” and 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*,” of this Guide discuss the auditor’s consideration of and reporting on the auditee’s compliance with laws, regulations, and provisions of contracts or grant agreements in a financial statement audit.

Single Audit Compliance Objectives

8.02 In addition to a financial statement audit in accordance with generally accepted auditing standards (GAAS) and *Government Auditing Standards*, Circular A-133 requires the auditor to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that may have a direct and material effect on each of its major programs (hereinafter referred to as *compliance requirements*). A single audit results in the auditor expressing an opinion on the auditee’s compliance with those compliance requirements for each of its major programs. To express such

an opinion, the auditor accumulates sufficient evidence by planning and performing tests of transactions and such other auditing procedures as are necessary in support of the entity's compliance with applicable compliance requirements, thereby limiting audit risk to an appropriately low level.

Responsibilities of Auditee

8.03 The auditee is responsible (a) for complying with the compliance requirements related to each of its federal programs and (b) for establishing and maintaining effective internal control over compliance for federal programs that provides reasonable assurance that the auditee is managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its federal programs. Paragraphs 8.69 through 8.71 discuss how the auditor should obtain management's written representations regarding its compliance and internal control responsibilities.

8.04 The form and extent of the documentation of management's compliance will vary depending on the nature of the compliance requirements and the size and complexity of the entity. The auditee may have documentation in the form of accounting or statistical data, case files, entity policy manuals, accounting manuals, narrative memoranda, procedural write-ups, flowcharts, completed questionnaires, or internal auditors' reports.

Use of Professional Judgment

8.05 The planning, conduct, and evaluation of the results of compliance testing in a single audit require the auditor to exercise professional judgment. The auditor may consider the following factors in applying his or her professional judgment:

- The assessment of inherent risk, control risk, and fraud risk
- The assessment of materiality
- The evidence obtained from other auditing procedures
- The amount of expenditures for the program
- The diversity or homogeneity of expenditures for the program
- The length of time that the program has operated, or changes in its conditions
- The current and prior auditing experience with the program, particularly findings in previous audits and other evaluations (that is, inspections, program reviews, or system reviews required by the Federal Acquisition Regulations found in Part 41 of the *Code of Federal Regulations*)
- The extent to which the program is carried out through subrecipients, as well as the related monitoring activities
- The extent to which the program contracts for goods or services
- The level to which the program already is subject to program reviews or other forms of independent oversight
- The expectation of noncompliance or compliance with the applicable compliance requirements
- The extent to which computer processing is used to administer the program, as well as the complexity of the processing
- Whether the program has been identified as being high-risk by the OMB in the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*

Audit Risk Considerations

8.06 To express an opinion on compliance, the auditor accumulates sufficient evidence in support of compliance, thereby limiting audit risk to an appropriately low level. The auditor's consideration of audit risk and materiality when planning and performing a single audit is similar to the consideration in a financial statement audit in accordance with Statement on Auditing Standards (SAS) No. 47, *Audit Risk and Materiality in Conducting an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 312), as amended. Audit risk and materiality, among other matters, need to be considered together in determining the nature, timing, and extent of auditing procedures and in evaluating the results of those procedures.

Components of Audit Risk

8.07 Audit risk is the risk that the auditor may unknowingly fail to appropriately modify his or her opinion on compliance. It is composed of inherent risk, control risk, fraud risk, and detection risk. For the purposes of a single audit, these components are defined as follows:

- *Inherent risk*—The risk that material noncompliance with a major program's compliance requirements could occur, assuming there is no related internal control
- *Control risk*—The risk that material noncompliance that could occur in a major program will not be prevented or detected on a timely basis by the entity's internal control
- *Fraud risk*—The risk that intentional material noncompliance with a major program's compliance requirements could occur
- *Detection risk*—The risk that the auditor's procedures will lead him or her to conclude that noncompliance that could be material to a major program does not exist when, in fact, such noncompliance does exist

Paragraphs 8.08 through 8.12 discuss each of these components of audit risk and explain how the components of audit risk interrelate in providing a basis for the auditor's opinion on compliance.

Inherent Risk

8.08 In assessing inherent risk, the auditor should consider factors that are relevant to compliance engagements such as those in the following listing. (The auditor also should consider the factors listed in paragraph 8.05.)

- The complexity of the compliance requirements
- The length of time the entity has been subject to the compliance requirements
- Prior experience with the entity's compliance
- The potential effect of noncompliance, both qualitatively and quantitatively

8.09 The auditor may assess inherent risk over major programs in part when determining major programs using the risk-based approach as discussed in Chapter 9, "Determination of Major Programs," of this Guide. The nature of some programs may indicate higher inherent risk. Programs with higher inherent risk may be of a higher risk for the purpose of determining major programs. Circular A-133 provides the following examples for program characteristics with potentially higher inherent risks:

- Complex programs and the extent to which a program contracts for goods and services have the potential for higher risk. For example, federal programs that disburse funds through third-party contracts or have eligibility criteria may be of higher risk. Federal programs primarily involving staff payroll costs may have a high risk for time-and-effort reporting but may otherwise be at low risk.
- The phase of a federal program's life cycle at the federal agency may indicate risk. For example, a new program with new or interim regulations may have a higher risk than an established program with time-tested regulations. In addition, significant changes in federal programs, laws, or regulations or in the provisions of contracts or grant agreements may increase risk.
- The phase of a program's life cycle at the auditee may indicate risk. For example, during the first and last years in which an auditee participates in a program, the risk may be higher because of the start-up or closeout of the program's activities and staff.
- Type B programs with larger federal awards expended would be of higher risk than would programs with substantially smaller federal awards expended. (Chapter 9 of this Guide discusses type B programs.)

Control Risk

8.10 Circular A-133 requires the auditor to plan the testing of internal control over compliance for major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program. The circular does not, however, actually require the auditor to achieve a low assessed level of control risk. The assessment of control risk contributes to the auditor's evaluation of the risk that material noncompliance exists in a major program. The process of assessing control risk (together with assessing inherent risk and fraud risk) provides evidential matter about the risk that material noncompliance may exist. The auditor uses this evidential matter as part of the reasonable basis for his or her opinion on compliance. Chapter 10, "Consideration of Internal Control Over Compliance for Major Programs," of this Guide discusses the auditor's consideration of internal control over compliance for major programs, including the assessment of control risk.

Fraud Risk

8.11 As part of assessing audit risk in a single or program-specific audit, the auditor should specifically assess the risk of material noncompliance with a major program's compliance requirements occurring due to fraud. The auditor should consider that assessment in designing the audit procedures to be performed. As discussed in Chapter 3 of this Guide, SAS No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), provides guidance to the auditor on his or her responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement due to fraud. Although SAS No. 99 applies only to an audit of financial statements (that is, its requirements do not apply to a compliance audit), the auditor may want to consider its guidance when planning and performing an audit of an auditee's compliance with specified requirements applicable to its major programs. Additionally, auditors may wish to refer to the AICPA Practice Aid titled *Fraud Detection in a GAAS Audit—SAS No. 99 Implementation Guide*, which identifies example risk factors that relate to recipients of federal awards. When the auditor has assessed fraud risk and has deemed that a further response is necessary, the guidance in SAS No. 99 (AU sec. 316.46–.67) may be helpful.

Detection Risk

8.12 In determining an acceptable level of detection risk, the auditor considers his or her assessments of inherent risk, control risk, and fraud risk, and the extent to which he or she seeks to restrict the audit risk related to the major program. As assessed inherent risk, control risk, or fraud risk decreases, the acceptable level of detection risk increases. Accordingly, the auditor may alter the nature, timing, and extent of the compliance tests performed based on the assessments of inherent risk, control risk, and fraud risk. Circular A-133 requires compliance testing to include tests of transactions and such other auditing procedures necessary to provide the auditor with sufficient evidence to support an opinion on compliance. Such compliance testing serves to limit detection risk.

Materiality Considerations

8.13 As discussed in Chapter 6, "Planning Considerations of Circular A-133," of this Guide, the auditor's consideration of materiality in a compliance audit differs from that in an audit of the financial statements. Materiality is affected by (a) the nature of the compliance requirements, which may or may not be quantifiable in monetary terms; (b) the nature and frequency of noncompliance identified with an appropriate consideration of sampling risk; and (c) qualitative considerations, such as the needs and expectations of federal agencies and pass-through entities. Qualitative factors that indicate that an identified instance of noncompliance may be immaterial include (a) a low risk of public or political sensitivity; (b) a single exception that has a low risk of being pervasive; or (c) an indication, based on the auditor's judgment and experience, that the affected federal agency or pass-through entity normally would not need to resolve the finding or take follow-up action.

Materiality Judgments About Compliance Applied to Each Major Program Taken as a Whole

8.14 In designing audit tests and developing an opinion on the auditee's compliance with compliance requirements, the auditor should apply the concept of materiality to each major program taken as a whole, rather than to all major programs combined.

8.15 For purposes of evaluating the results of compliance testing, a material instance of noncompliance is defined as a failure to follow requirements, or a violation of prohibitions, established by law, regulation, contract, or grant agreement that results in an aggregation of noncompliance (that is, the auditor's best estimate of the overall noncompliance) that is material to the affected federal program. It should be noted that several instances of noncompliance that may not be individually material should be assessed to determine if, in the aggregate, they could have a material effect. Because the auditor expresses an opinion on each major program and not on all the major programs combined, reaching a conclusion about whether the instances of noncompliance (either individually or in the aggregate) are material to a major program requires consideration of the type and nature of the noncompliance, as well as the actual and projected effect on each major program in which the noncompliance was noted. Instances of noncompliance that are material to one major program may not be material to a major program of a different size or nature. In addition, the level of materiality relative to a particular major program can change from one audit to the next.

Effect of Material Noncompliance on the Financial Statements

8.16 If the tests of compliance reveal material noncompliance at the major program level, the auditor should consider its effect on the financial statements. The auditor also should consider the cumulative effect of all instances of noncompliance on the financial statements using the materiality level established for the basic financial statements.¹ (See also paragraph 8.54 and Chapter 12 of this Guide.)

Performing a Compliance Audit

8.17 The auditor should exercise (a) due care in planning and performing the audit and in evaluating the results of his or her audit procedures, and (b) a proper degree of professional skepticism to achieve reasonable assurance that material noncompliance will be detected.

8.18 In a compliance audit, the auditor should perform the following, as discussed in paragraphs 8.19 through 8.68:

- a. Identify the auditee's major programs to be tested and reported on for compliance
- b. Identify the applicable compliance requirements
- c. Plan the engagement
- d. Consider relevant portions of the entity's internal control over compliance for major programs
- e. Obtain sufficient evidence, which involves testing compliance with applicable compliance requirements
- f. Consider indications of abuse
- g. Consider subsequent events
- h. Form an opinion about whether the auditee complied with the applicable compliance requirements
- i. Perform follow-up procedures on previously identified findings

Identifying Major Programs to Be Tested

8.19 Circular A-133 requires the auditor to determine the major programs to be tested in a single audit using a risk-based approach, applying a specific process established in the circular. Chapter 9 of this Guide discusses the application of the risk-based approach to determine major programs.

Identifying Applicable Compliance Requirements

8.20 As discussed in this section, the auditor should determine the applicable compliance requirements to be tested and reported on in a single audit (that is, those laws, regulations, and provisions of contracts or grant agreements that may have a direct and material effect on each major federal program). The auditor should use professional judgment in making this determination.

Compliance Supplement

8.21 The *Compliance Supplement* is based on the requirements of the Single Audit Act Amendments of 1996 (the Single Audit Act) and Circular A-133,

¹ As discussed in the Audit and Accounting Guide *State and Local Governments*, the auditor's consideration of materiality for purposes of planning, performing, evaluating the results of, and reporting on the audit of the financial statements of a state or local government is based on opinion units.

which provide for the issuance of a compliance supplement to assist auditors in performing the required audits. (Chapter 5, "Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*," discusses the *Compliance Supplement* and how to obtain it.) The *Compliance Supplement* identifies the 14 types of compliance requirements applicable to most federal programs, as listed in paragraph 8.22. It also includes the compliance requirements specific to certain of the largest federal programs. As further discussed in paragraph 8.30, Part 7 of the *Compliance Supplement* provides guidance to assist the auditor in identifying the compliance requirements for federal programs not included in the *Compliance Supplement*.

Fourteen Types of Compliance Requirements

8.22 Part 3 of the *Compliance Supplement* lists and describes the 14 types of compliance requirements and the related audit objectives that the auditor should consider in every audit conducted in accordance with Circular A-133, with the exception of program-specific audits performed in accordance with a federal agency's program specific audit guide (see Chapter 13). It also provides suggested audit procedures to assist the auditor in planning and performing tests of the auditee's compliance with the requirements of federal programs. The auditor's judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objectives and whether additional or alternative audit procedures are needed (see paragraph 8.44). The 14 types of compliance requirements are as follows:

- A—Activities allowed or unallowed
- B—Allowable costs/cost principles
- C—Cash management
- D—Davis-Bacon Act
- E—Eligibility
- F—Equipment and real property management
- G—Matching, level of effort, earmarking
- H—Period of availability of federal funds
- I—Procurement and suspension and debarment
- J—Program income
- K—Real property acquisition and relocation assistance
- L—Reporting
- M—Subrecipient monitoring
- N—Special tests and provisions

The auditor should consider the applicability of these compliance requirements to the auditee's major programs. Part 2 of the *Compliance Supplement* provides a matrix that is useful to the auditor for this purpose; that matrix identifies whether particular compliance requirements apply to the federal programs included in the *Compliance Supplement*. In making a determination not to test a compliance requirement identified as applicable to a particular program, the auditor should conclude either that the requirement does not apply to the particular auditee or that noncompliance with the requirements could not have a material effect on a major program.

Keeping Abreast of Changes in Compliance Requirements

8.23 Circular A-133 states that an audit of the compliance requirements related to federal programs contained in the *Compliance Supplement* will meet the requirements of the circular. However, it also states that when there have been

changes to the compliance requirements and the changes are not reflected in the *Compliance Supplement*, the auditor should determine the current compliance requirements and modify the audit procedures accordingly.

8.24 Although Circular A-133 provides that federal agencies are responsible for informing the OMB annually of any updates needed to the *Compliance Supplement*, the auditor should recognize that laws and regulations change periodically and that delays will occur between such changes and revisions to the *Compliance Supplement*. Accordingly, the auditor should perform reasonable procedures to ensure that compliance requirements are current. Besides describing the compliance requirements, the *Compliance Supplement* includes references to the Code of Federal Regulations and other sources of information about the requirements. The auditor may refer to those other sources of information to identify significant changes to the requirements or perform other procedures, including the following:

- Hold discussions with appropriate individuals within the auditee organization (that is, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- Review contracts or grant agreements, new guidance material issued by the granting agency or pass-through entity (for example, handbooks and operating procedures), and correspondence from the granting agency or pass-through entity
- Make inquiries of granting agency personnel (A listing of federal agency contacts, including addresses, phone numbers, and e-mail or Web page addresses can be found in the *Compliance Supplement's* Appendix III.)

Considering Additional Provisions of Contracts or Grant Agreements

8.25 The *Compliance Supplement* states that in addition to the compliance requirements identified in the supplement, auditors need to consider whether there are any provisions of contracts or grant agreements that are unique to a particular entity. For example, the grant agreement may specify the matching percentage, or an entity may have agreed to additional requirements that are not required by law or regulation, perhaps as part of a resolution of prior audit findings.

8.26 Therefore, in using the *Compliance Supplement* to identify applicable compliance requirements, the auditor needs to consider:

- a. The applicability to the federal program of the 14 types of compliance requirements identified in Part 3 of the *Compliance Supplement*
- b. Additional compliance requirements specific to the federal program as identified in Part 4 of the *Compliance Supplement*
- c. Any provisions of contracts or grants that are unique to the particular entity

Compliance Requirements Specific to Certain Federal Programs

8.27 Part 4 of the *Compliance Supplement* discusses program objectives, program procedures, and compliance requirements that are specific to each federal program included. With the exception of special tests and provisions, the auditor should refer to Part 3 of the *Compliance Supplement* for the audit objectives and suggested audit procedures that pertain to the compliance requirements associated with each program. Because special tests and provisions are unique to each program, Part 4 of the *Compliance Supplement* includes those compliance requirements and the related audit objectives and suggested audit procedures.

Compliance Requirements Specific to a Cluster of Programs

8.28 As discussed in Chapter 5 of this Guide, a cluster of programs is a grouping of closely related programs that have similar compliance requirements (for example, SFA, R&D, and other clusters). Part 5 of the *Compliance Supplement* identifies those programs that are considered to be clusters of programs. It also provides compliance requirements, audit objectives, and suggested audit procedures for the clusters.

Relationship of the Compliance Supplement to Federal Program Audit Guides

8.29 The *Compliance Supplement* states that for single audits, the supplement replaces federal agency audit guides and other audit requirement documents for individual federal programs.² Accordingly, for a federal program included in the *Compliance Supplement* and having a separate federal program audit guide or other federal program audit requirement documents, the auditor needs to consider only those compliance requirements in the *Compliance Supplement* when performing a single audit (versus a program-specific audit).

Federal Programs Not Included in the Compliance Supplement

8.30 The *Compliance Supplement* does not include all federal programs from which an auditee may receive federal awards. Circular A-133 states that for those federal programs not covered in the *Compliance Supplement*, the auditor should use the 14 types of compliance requirements (see paragraph 8.22) contained in the supplement as guidance for identifying the types of compliance requirements to test, and should determine the requirements governing the federal program by reviewing the provisions of contracts and grant agreements and the laws and regulations referred to in such contracts and grant agreements. The auditor should follow the guidance in Part 7 of the *Compliance Supplement* for identifying the applicable compliance requirements to test and report on in a single audit. That guidance outlines the following steps to determine which compliance requirements to test:

- a. Identify the applicable compliance requirements for the federal program.
- b. Determine which of the compliance requirements identified in step *a* could have a direct and material effect on the major program.
- c. Determine which of the compliance requirements identified in step *b* are susceptible to testing by the auditor.
- d. Determine which of the 14 types of compliance requirements the compliance requirements identified in step *c* fall into.
- e. For special tests and provisions, determine the applicable audit objectives and audit procedures.

Part 7 of the *Compliance Supplement* provides more detailed guidance on the steps to perform to identify applicable compliance requirements.

² Some federal agencies have developed audit guides or supplements related to their programs. For programs not listed in the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*, the auditor may wish to consider that guidance in identifying the program objectives, program procedures, and compliance requirements, as suggested in Part 7 of the *Compliance Supplement*. That guidance, where available, may be obtained from the federal agency's Office of Inspector General. Auditors should consider whether such guidance might not be up-to-date with regard to compliance requirements or current authoritative auditing standards and requirements and the discussion about such situations in Chapter 13, "Program-Specific Audits," of this Guide.

Planning the Engagement

General Considerations

8.31 Planning a compliance audit involves developing an overall strategy for the expected conduct and scope of the engagement. To develop such a strategy, auditors need to have sufficient knowledge to enable them to understand adequately the events, transactions, and practices that, in their judgment, have a significant effect on compliance. Proper planning and supervision contribute to the effectiveness of audit procedures. Proper planning directly influences the selection of appropriate procedures and the timeliness of their application, and proper supervision helps ensure that planned procedures are appropriately applied.

8.32 Factors the auditor should consider in planning a compliance audit include (a) the anticipated level of audit risk related to the compliance requirements on which the auditor will report (see paragraphs 8.06 through 8.12), (b) preliminary judgments about materiality levels for audit purposes (see paragraphs 8.13 through 8.16), and (c) conditions that may require the extension or modification of audit procedures.

8.33 The nature, timing, and extent of planning will vary with the nature and complexity of the compliance requirements and the auditor's prior experience with the auditee. As part of the planning process, the auditor should consider the nature, timing, and extent of the work to be performed to accomplish the objectives of the compliance audit. Nevertheless, as the compliance audit progresses, changed conditions may make it necessary to modify planned procedures. Chapter 6 of this Guide discusses additional planning considerations.

Multiple-Component Considerations

8.34 In a compliance audit in which the auditee has operations in multiple operating units or organizational components (for example, locations or branches), the auditor may determine that it is not necessary to test compliance with requirements at every component. In making such a determination and in selecting the components to be tested, the auditor should consider such factors as the following: (a) the degree to which the specified compliance requirements apply at the component level; (b) judgments about materiality; (c) the degree of centralization of the records; (d) the effectiveness of controls, particularly those that affect management's direct control over the exercise of authority delegated to others, as well as its ability to supervise activities at various locations effectively; (e) the nature and extent of operations conducted at the various components; and (f) the similarity of operations and controls over compliance for different components. Chapters 9 and 10 of this Guide discuss other multiple-component considerations.

Consideration of Internal Control Over Compliance for Major Programs

8.35 The auditor should obtain an understanding of relevant portions of internal control over compliance sufficient to plan the audit and to assess control risk for compliance with specified requirements. In planning the audit, the auditor should use this knowledge to identify types of potential noncompliance, to consider factors that affect the risk of material noncompliance, and to design appropriate tests of compliance. Circular A-133 specifically requires the auditor to perform procedures to obtain an understanding of internal control

over compliance for federal programs sufficient to plan the audit to support a low assessed level of control risk for major programs. Circular A-133 also requires the auditor to perform testing of controls as planned. In some instances, the auditor may be able to perform compliance testing for major programs concurrently with tests of controls. (Chapter 6 of this Guide discusses how to develop an efficient audit approach.) Any reportable conditions in internal control over compliance for major programs that are noted should be reported as an audit finding. (Chapter 12 of this Guide discusses the situations that Circular A-133 requires the auditor to report as audit findings.) Further, as discussed in Chapters 4 and 12 of this Guide, paragraph 5.16 of *Government Auditing Standards* requires the auditor to communicate to the auditee in a management letter deficiencies in internal control that are not reportable conditions unless they are clearly inconsequential.³ Paragraph 8.10 further discusses control risk, and Chapter 10 of this Guide discusses the auditor's consideration of internal control over compliance for major programs, including the final control risk assessment and the performance of tests of controls.

Performing Compliance Testing

8.36 Circular A-133 requires that compliance testing include tests of transactions and such other auditing procedures as are necessary to provide the auditor with sufficient evidence to support an opinion on compliance for each major program. Such compliance testing may be performed (a) concurrently with tests of controls, (b) as substantive testing, or (c) as a combination of the two. In performing compliance testing, the auditor attempts to obtain reasonable assurance that the auditee complied, in all material respects, with the compliance requirements. This includes designing the compliance audit to detect both intentional and unintentional noncompliance. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of internal control over compliance and because much of the evidence available to the auditor is persuasive rather than conclusive in nature. Further, procedures that are effective for detecting unintentional noncompliance may be ineffective for detecting noncompliance that is intentional and is concealed through collusion between the auditee's personnel and third parties or among the auditee's management or other employees. Therefore, the subsequent discovery that material noncompliance exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the auditor.

8.37 In determining the nature, timing, and extent of tests to perform, the auditor should exercise professional judgment regarding the appropriate level of detection risk to use. In applying his or her judgment, the auditor should be aware that small sample sizes for tests of details with a low dollar value and from a large population generally do not, by themselves, provide sufficient evidence. (Paragraphs 8.45 through 8.47 further discuss audit sampling.) In determining the nature, timing, and extent of the testing of an auditee's compliance with compliance requirements, the auditor should consider audit risk and materiality related to each major program. The auditor plans compliance

³ Generally, *Government Auditing Standards* requires the auditor to evaluate findings for the purpose of communication in the management letter based on their consequence to the financial statements or other financial data significant to the audit objectives. As discussed in Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide, however, in an audit in accordance with Circular A-133, the auditor should evaluate findings involving federal awards for the purpose of that communication based only on their consequence to the financial statements.

tests to reduce detection risk to an acceptable level. The evidence provided by those tests, along with evidence regarding inherent risk and control risk, provides the basis for expressing an opinion on whether the auditee complied, in all material respects, with the compliance requirements for each major program.

8.38 In determining the nature of his or her tests of compliance with requirements governing major programs, the auditor should consider the nature of those requirements. For example, to test compliance with requirements applicable to the allowability of expenditures using program funds, audit procedures should be designed to provide the auditor with sufficient evidential matter to evaluate how management expended the funds.

Sufficient Evidence

8.39 The auditor should apply procedures to provide reasonable assurance of detecting material noncompliance. The selection and application of procedures that will accumulate evidence that is sufficient in the circumstances to provide a reasonable basis for expressing an opinion on compliance require the careful exercise of professional judgment. A broad array of available procedures may be applied in a compliance audit. In establishing a proper combination of procedures to restrict audit risk appropriately, the auditor should consider the following presumptions, bearing in mind that they are not mutually exclusive and may be subject to important exceptions:

- a. Evidence obtained from independent sources outside an entity provides greater assurance of an entity's compliance than evidence secured solely from within the entity.
- b. Information obtained from the auditor's direct personal knowledge (such as through physical examination, observation, computation, operating tests, or inspection) is more persuasive than information obtained indirectly.
- c. The more effective the internal control, the greater the assurance it provides about the entity's compliance.

8.40 Thus, in the hierarchy of available audit procedures, those that involve search and verification (for example, inspection, confirmation, or observation)—particularly when independent sources outside the entity are used—generally are more effective in reducing audit risk than are those involving internal inquiries and comparisons of internal information (for example, analytical procedures and discussions with the individuals responsible for compliance).

8.41 In a compliance audit, the auditor's objective is to accumulate sufficient evidence to limit audit risk to a level that is, in the auditor's professional judgment, appropriately low for the high level of assurance being provided. An auditor should select from all available procedures (that is, procedures that assess inherent, control, and fraud risk and restrict detection risk) any combination that can limit audit risk to such an appropriately low level.

8.42 For regulatory requirements, the auditor's procedures may include reviewing reports of significant examinations and related communications between regulatory agencies and the entity and, when appropriate, making inquiries of the regulatory agencies, including inquiries about examinations in progress.

Audit Objectives

8.43 As noted in paragraph 8.22, the *Compliance Supplement* contains the audit objectives for each type of compliance requirement that the auditor

should consider in planning and performing tests of compliance requirements. The audit objectives are useful in understanding the specific objectives to be satisfied when the auditor performs audit tests and determines whether the noncompliance that is identified is material.

Suggested Audit Procedures

8.44 The *Compliance Supplement* contains suggested audit procedures for testing federal programs for compliance. Those suggested audit procedures represent procedures that may be used by the auditor in developing an audit program. The suggested audit procedures also may be useful in testing the same types of compliance requirements for programs that are not included in the *Compliance Supplement*. Those suggested audit procedures represent a tool available to the auditor; however, the auditor is neither required to follow those audit procedures nor restricted to using only those procedures. The auditor should use professional judgment in determining the appropriate audit procedures to be performed to allow him or her to obtain sufficient evidence to form an opinion on the auditee's compliance with the compliance requirements that could have a direct and material effect on each major program.

Audit Sampling

8.45 The auditor generally uses audit sampling to obtain evidential matter. There are two approaches to audit sampling: nonstatistical and statistical. Circular A-133 does not require any particular sampling approach in a single audit. SAS No. 39, *Audit Sampling* (AICPA, *Professional Standards*, vol. 1, AU sec. 350), as amended, discusses the factors to be considered in planning, designing, and evaluating audit samples, including planning a particular sample for a test of controls. When planning to test a particular sample of transactions, the auditor should consider the specific audit objective to be achieved and should determine that the audit procedure, or combination of procedures, to be applied will achieve that objective. The size of a sample necessary to provide sufficient evidential matter depends on both the objectives and the efficiency of the sample. Auditors should note that SAS No. 74, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance* (AICPA, *Professional Standards*, vol. 1, AU sec. 801), and Circular A-133 require the auditor to determine both the known questioned costs and likely questioned costs associated with audit findings. The determination of likely questioned costs may require the projection of sample results to determine whether a finding is required to be reported in the schedule of findings and questioned costs. The auditor is not required to expand his or her testwork to definitively determine the total questioned costs. Circular A-133 does not require the auditor to report an exact amount or a statistical projection of likely questioned costs, but rather to include an audit finding when the auditor's estimate of likely questioned costs is greater than \$10,000. Paragraph 8.60 further discusses likely questioned costs.

8.46 The AICPA Audit Guide *Audit Sampling* provides guidance to help auditors apply audit sampling in accordance with SAS No. 39. That Guide discusses sampling in compliance tests of internal controls and in substantive tests of details, as well as dual-purpose testing.

Using Separate Samples for Each Major Program

8.47 Although the auditor is required to obtain sufficient evidence to support an opinion on compliance for each major federal program, separate samples for each major program are not required. Experience has shown, however,

that it is preferable to select separate samples from each major program because the separate sample provides clear evidence of the tests performed, the results of those tests, and the conclusions reached. If the auditor chooses to select audit samples from the entire universe of major program transactions, the audit documentation should be presented in such a fashion that it clearly indicates that the results of such samples, together with other audit evidence, are sufficient to support the opinion on each major program's compliance. As noted in paragraph 8.37, the auditor should be aware that a sample of a few items with a low dollar value and from a large population generally does not, by itself, provide sufficient evidence.

Consideration of Abuse

8.48 As discussed in Chapter 3 of this Guide, paragraphs 4.17 through 4.20 of *Government Auditing Standards* discuss its additional fieldwork standard that requires auditors to be alert to situations or transactions that could be indicative of abuse.⁴ Auditors have no responsibility to design the audit to detect abuse. However, if auditors become aware of indications of abuse that could materially⁵ affect the financial statement amounts or other financial data significant to the audit objectives, they should apply audit procedures specifically directed to ascertain whether abuse has occurred and the effect on the financial statement amounts or other financial data significant to the audit objectives. That standard, like all of the general, fieldwork, and reporting standards in *Government Auditing Standards*, applies to the entirety of the A-133 audit, including the compliance audit. Therefore, if in performing procedures on major programs, the auditor becomes aware of a situation or transaction that might constitute abuse, the auditor should extend procedures to determine whether it is indicative of abuse and potentially material to the financial statement amounts⁶ or to the major program. (Chapter 3 of this Guide further discusses procedures relating to and the evaluation of indications of abuse.) Because the OMB cost principles circulars require that costs charged to federal awards be reasonable and necessary for the performance and administration of the awards,⁷ situations or transactions involving federal awards that might otherwise appear to constitute abuse instead generally are instances of noncompliance. (By definition, instances of noncompliance—illegal acts and violations of provisions of contracts or grant agreements—are not abuse.) However, there may be isolated situations or transactions involving federal awards that the auditor becomes aware of that do constitute abuse. Chapter 12 of this Guide discusses the reporting of abuse involving federal awards.

Consideration of Subsequent Events

8.49 The auditor's consideration of subsequent events in a compliance audit is similar to the auditor's consideration of subsequent events in a financial

⁴ Paragraph 4.19 of *Government Auditing Standards* describes "abuse" by stating that it is distinct from fraud, illegal acts, and violations of provisions of contracts or grant agreements. Abuse, it states, "involves behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances."

⁵ Although *Government Auditing Standards* uses the term *significant* in its fieldwork standard for abuse in paragraph 4.17b, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

⁶ See footnote 1.

⁷ This compliance requirement is explained in Part 3, "Compliance Requirements," of the *Compliance Supplement*, Section B, "Allowable Costs/Cost Principles."

statement audit, as outlined in SAS No. 1, section 560, *Subsequent Events* (AICPA, *Professional Standards*, vol. 1, AU sec. 560), as amended. The auditor should consider information about events relating to the applicable compliance requirements after the end of the audit period and through the date of his or her report. Two types of subsequent events require consideration by management and evaluation by the auditor.

8.50 The first type consists of events that provide additional information about the entity's compliance during the audit period. For the period from the end of the audit period to the date of the auditor's report, the auditor should perform procedures to identify such events. Those procedures should include, but may not be limited to, inquiries about and consideration of the following information:

- Relevant internal auditors' reports issued during the subsequent period
- Other auditors' reports identifying noncompliance that were issued during the subsequent period
- Regulatory agencies' reports on the entity's noncompliance that were issued during the subsequent period
- Information about the entity's noncompliance, obtained through other professional engagements for that entity

8.51 The second type of subsequent events consists of noncompliance that occurs subsequent to the audit period but before the date of the auditor's report. These events would not result in findings of noncompliance for the current year under audit. The auditor has no responsibility to detect such noncompliance. However, should such noncompliance come to the auditor's attention, it may be of such a nature and significance that the auditor should consider whether the matter is adequately disclosed in the notes to the schedule of expenditures of federal awards.

Evaluation and Reporting of Noncompliance

Instances of Noncompliance (Findings)

8.52 The auditor's tests of compliance with compliance requirements may disclose instances of noncompliance. Circular A-133 refers to these instances of noncompliance, among other matters, as "findings." Such findings may be of a monetary nature and involve questioned costs or may be nonmonetary and not result in questioned costs. Both *Government Auditing Standards* and Circular A-133 specify how certain findings should be reported. Chapter 12 of this Guide discusses the auditor's opinion on compliance and his or her responsibilities for reporting findings.

Compliance Opinion

8.53 Circular A-133 requires the auditor to report on compliance, which includes an opinion or disclaimer of opinion (on each major program) on whether the auditee complied with the applicable compliance requirements, and to prepare a schedule of findings and questioned costs. (Chapter 12 of this Guide discusses that report and schedule.) In evaluating whether the auditee complied with the compliance requirements in all material respects, the auditor should consider (a) the nature and frequency of the noncompliance identified, and (b) whether such noncompliance is material relative to the nature of the compliance requirements. Assessing materiality at the appropriate level is critical to the proper evaluation of findings. Paragraphs 8.13 through 8.16 discuss materiality as it relates to giving an opinion on the auditee's compliance. Paragraph 8.56 discusses the auditor's evaluation of the effect of questioned costs on the compliance opinion.

Financial Statement Effect

8.54 The auditor also has the responsibility of assessing the effect of the actual and projected error noted in the single audit against the materiality level established for the basic financial statements (see paragraph 8.16). The auditor should consider the effect of (a) any contingent liability that may arise from the noncompliance in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 5, *Accounting for Contingencies*, or GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, as amended, as applicable, and (b) for nongovernmental entities, any uncertainty regarding the resolution of instances of noncompliance in accordance with Statement of Position (SOP) 94-6, *Disclosure of Certain Significant Risks and Uncertainties*.

Questioned Costs

8.55 Circular A-133 defines questioned costs to include costs that are questioned by the auditor because of an audit finding (a) that resulted from a violation or possible violation of a provision of a law, regulation contract, grant, cooperative agreement, or other agreement or document governing the use of federal funds, including funds used to match federal funds; (b) for which the costs, at the time of the audit, are not supported by adequate documentation; or (c) for which the costs incurred appear unreasonable and do not reflect the actions a prudent person would take in the circumstances.

Evaluating the Effect of Questioned Costs on the Compliance Opinion

8.56 In evaluating the effect of questioned costs on the opinion on compliance, the auditor considers the best estimate of the total costs questioned for each major program (likely questioned costs), not just the questioned costs specifically identified (known questioned costs). There may be situations in which the known questioned costs are not considered material but the likely questioned costs are considered material. In those situations, the auditor should consider the noncompliance to be material or may expand the scope of the audit and apply additional audit procedures to further establish the likely questioned costs. For example, if an auditor's sample results in known questioned costs related to 3 sample items out of 30 selected, the 3 errors may not be considered material. However, the auditor's projection of those errors to the entire population may suggest that there are likely questioned costs that are material. In this example, the auditor should consider the noncompliance to be material and should report a finding or expand the scope of the audit and apply additional audit procedures.

Federal Agency Consideration of Findings and Questioned Costs

8.57 The auditor's designation of a cost as questioned does not necessarily mean that a federal grantor agency will disallow the cost. In most instances, the auditor is unable to determine whether a federal awarding agency or pass-through entity will ultimately disallow a questioned cost, because the agency or entity has considerable discretion in those matters.

8.58 Circular A-133 defines a management decision as the evaluation by the federal awarding agency or pass-through entity of the audit findings and corrective action plan and the issuance of a written decision about what corrective action is necessary. (Chapter 12 of this Guide discusses the corrective action plan.) Circular A-133 allows a federal awarding agency or pass-through entity receiving an auditor's report indicating findings and questioned costs six months after receipt of the audit report to issue such a decision. The awarding agency or pass-through entity considers the nature of the questioned

costs, as well as the amounts involved, in issuing a management decision and deciding whether to disallow them. In addition, most federal awarding agencies have established appeal and adjudication procedures for questioned costs. Because of the discretion allowed in resolving these matters, all questioned costs are subject to uncertainty regarding their resolution.

Reporting the Findings

8.59 As discussed in Chapter 6 of this Guide, Circular A-133 requires the auditor to consider a different level of materiality for the purposes of reporting audit findings. Circular A-133 requires the auditor, in addition to providing an opinion on compliance, to include the following, among other items, in the schedule of findings and questioned costs):

- Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor's determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the *Compliance Supplement*.
- Known questioned costs that are greater than \$10,000 for a type of compliance requirement for a major program. (Paragraph 8.22 lists the 14 types of compliance requirements.) Known questioned costs are those specifically identified by the auditor.
- Known questioned costs when likely questioned costs are greater than \$10,000 for a type of compliance requirement.
- Known questioned costs that are greater than \$10,000 for a federal program that is not audited as a major program.

Chapter 12 of this Guide discusses the reporting of audit findings and contains a complete listing of the items that Circular A-133 requires to be reported in the schedule of findings and questioned costs. That chapter also discusses the requirement from paragraph 5.20 of *Government Auditing Standards* that the auditor communicate to the auditee in a management letter immaterial violations of provisions of contracts or grant agreements unless they are clearly inconsequential.⁸

Reporting Likely Questioned Costs

8.60 As noted in paragraph 8.45, in evaluating the effect of questioned costs on the opinion on compliance, the auditor considers both known questioned costs and the best estimate of the total costs questioned (likely questioned costs) for each major program. Known and likely questioned costs also need to be considered when audit findings are reported. In addition to reporting known questioned costs greater than \$10,000 in the schedule of findings and questioned costs, the auditor also is required to report known questioned costs when likely questioned costs are greater than \$10,000. For example, if the auditor specifically identifies \$7,000 in questioned costs but, based on his or her evaluation of the effect of questioned costs on the opinion on compliance, the auditor estimates that the total questioned costs are in the \$50,000 to \$60,000 range, the auditor would report a finding that indicates the known questioned costs of \$7,000. Chapter 12 of this Guide further discusses reporting findings based on likely questioned costs.

⁸ See footnote 3.

Findings That Cannot Be Quantified

8.61 The auditor may discover instances of noncompliance that cannot be quantified. The auditor's responsibility for reporting such findings can best be described through an example. Assume that the auditor encounters a pass-through entity that consistently fails to provide its subrecipients with federal award information. Circular A-133 requires the auditor to consider all findings in relation to a type of compliance requirement (in the example provided, subrecipient monitoring is the relevant type of compliance requirement) or an audit objective identified in the *Compliance Supplement*. The pertinent audit objective included in the *Compliance Supplement* and relating to the example provided here is for the auditor to "determine whether the pass-through entity identifies federal award information and compliance requirements to the subrecipient." Because the pass-through entity failed to provide federal award information to its subrecipients, this noncompliance would be material in relation to the audit objective and, therefore, should be reported as an audit finding. In addition, the auditor also should consider whether reportable conditions exist and require reporting with respect to subrecipient monitoring.

Performing Follow-Up Procedures

Auditee Responsibilities for Audit Follow-Up and for the Summary Schedule of Prior Audit Findings⁹

8.62 Circular A-133 states that the auditee is responsible for follow-up and corrective action on all audit findings. The follow-up required by Circular A-133 is facilitated by the requirement that the auditee prepare a summary schedule of prior audit findings. (Chapter 12 of this Guide discusses the summary schedule of prior audit findings.) That schedule reports the status of all audit findings included in the prior audit's schedule of findings and questioned costs relative to federal awards. It also includes audit findings reported in the prior audit's summary schedule of prior audit findings that were not identified as either (a) fully corrected, (b) no longer valid, or (c) not warranting further actions. Circular A-133 states that a valid reason for considering an audit finding as not warranting further action is that *all* of the following have occurred:

- Two years have passed since the audit report in which the finding occurred was submitted to the federal clearinghouse.
- The federal agency or pass-through entity is not currently following up with the auditee on the audit finding.
- A management decision was not issued.

8.63 Circular A-133 also states the following with regard to the auditee's schedule of prior audit findings:

- When audit findings were fully corrected, the summary schedule need only list the audit findings and state that corrective action was taken.
- When audit findings were not fully corrected or were only partially corrected, the summary schedule should describe the planned corrective action as well as any partial corrective action taken.
- When the corrective action taken is significantly different from the corrective action previously reported in a corrective action plan or in the federal agency's or pass-through entity's management decision, the summary schedule should provide an explanation.

⁹ Chapter 2, "Planning Considerations of *Government Auditing Standards*," of this Guide discusses the auditee's responsibilities under *Government Auditing Standards* for audit follow-up.

- When the auditee believes the audit findings are no longer valid or do not warrant further actions, the reasons for this position should be described in the summary schedule, as discussed in paragraph 8.62.

Auditor Responsibilities for Follow-Up on Previously Reported Findings

8.64 Circular A-133 requires the auditor to follow up on prior audit findings, perform procedures to assess the reasonableness of the schedule of prior audit findings prepared by the auditee, and report, as a current-year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding. The auditor should perform audit follow-up procedures regardless of whether a prior audit finding relates to a major program in the current year. Chapter 12 of this Guide further discusses the auditor's reporting responsibilities.

Auditor Follow-Up Procedures

8.65 To follow up on previous audit findings, the auditor should obtain the auditee's summary schedule of prior audit findings and review its contents with appropriate members of management. Although in many cases the procedures performed in the current audit will provide a basis for the auditor to assess the schedule, the auditor may find it necessary to perform procedures directed specifically at the status of prior audit findings. In these cases, the auditor should consider the following procedures:

- Make inquiries of auditee management and program personnel, including inquiries about the status of corrective actions and the estimated completion date for incomplete actions
- Review management decisions issued by federal awarding agencies or pass-through entities to the auditee (paragraph 8.58 discusses management decisions)
- Observe an activity that has been redesigned to address a prior-year finding
- Test similar current-year transactions

Audit Follow-Up for Findings Reported Under Government Auditing Standards

8.66 As discussed in Chapter 2, "Planning Considerations of *Government Auditing Standards*," of this Guide, *Government Auditing Standards* establishes an additional fieldwork standard that requires the auditor to follow up on known material findings and recommendations from previous financial audits, attestation engagements, performance audits, or other studies that directly relate to the objectives of the audit being undertaken to plan the current audit. The auditee's schedule of prior audit findings is only required to include the status of prior-year findings relative to federal awards and *Government Auditing Standards* does not require the auditor to report the status of prior audit findings reported under *Government Auditing Standards*. However, there may be certain financial statement audit findings that were reported in the prior period under *Government Auditing Standards* that are included in the summary schedule of prior audit findings (because they also relate to federal awards). Also, although not required, some auditees may decide to include the status of other financial statement audit findings (that is, those that are not related to federal awards) in the schedule.

Corrective Action Plan

8.67 Circular A-133 also requires that upon completion of the audit, the auditee prepare a corrective action plan that identifies the contact person responsible for corrective action and indicates the corrective action planned,

the anticipated completion date or, if the auditee does not agree with the finding, an explanation and specific reasons why the auditee disagrees. The auditor may find the auditee's corrective action plan useful in performing audit follow-up (in addition to the auditee's summary schedule of prior audit findings) because it may provide a preliminary indication of the corrective steps planned by the auditee. (See also the discussions in Chapters 4 and 12 concerning the *Government Auditing Standards* requirement that the auditor obtain and report the views of responsible officials concerning findings, conclusions, and recommendations, as well as planned corrective actions.)

Disputes or Unresolved Findings

8.68 There may be times when, as part of the follow-up on prior findings, the auditor determines that (a) a previous finding is the subject of a dispute between the auditee and the federal awarding agency or pass-through entity or (b) the federal awarding agency or pass-through entity has not addressed the finding by issuing a management decision. In these situations, if the finding relates to a current-year major program, the auditor should report similar transactions of the current year as findings and questioned costs until either the dispute is resolved or the initial finding no longer warrants further action under Circular A-133 as described in paragraph 8.62. However, if the auditor no longer believes that there is noncompliance because of additional evidence obtained in the current year, similar transactions need not be reported as findings.

Management Representations Related to Federal Awards

8.69 As part of an audit under Circular A-133, the auditor should obtain written representations from management about matters related to federal awards. Therefore, in addition to the management representations obtained in connection with an audit of the financial statements as discussed in Chapter 3 of this Guide, the auditor should obtain written representations from management concerning the identification and completeness of federal award programs, representations concerning compliance with compliance requirements, and identification of known instances of noncompliance. Paragraph 8.70 contains a suggested listing of representations. Chapter 3 discusses the members of management and other officials from whom the auditor should consider obtaining representations. In a Circular A-133 audit, the auditor also should consider obtaining representations from officials responsible for managing federal awards.

Suggested Representations

8.70 The auditor should consider obtaining the following written representations in a single audit:^{10, 11}

- Management is responsible for complying, and has complied, with the requirements of Circular A-133.

¹⁰ These representations may be added to a representation letter obtained in connection with an audit of the financial statements instead of a separate letter.

¹¹ As discussed in paragraph 8.11, although the requirements of Statement on Auditing Standards (SAS) No. 99, *Consideration of Fraud in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 316), do not apply to a compliance audit, the auditor may want to consider its guidance when planning and performing an audit of an auditee's compliance with specified requirements applicable to its major programs. Consequently, the auditor may wish to obtain management representations concerning fraud or suspected fraud that could have a material effect on compliance with its major programs.

- Management has prepared the schedule of expenditures of federal awards in accordance with Circular A-133 and has included expenditures made during the period being audited for all awards provided by federal agencies in the form of grants, federal cost-reimbursement contracts, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance.
- Management is responsible for establishing and maintaining, and has established and maintained, effective internal control over compliance for federal programs that provides reasonable assurance that the auditee is managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on its federal programs.
- Management is responsible for complying with the requirements of laws, regulations, and the provisions of contracts and grant agreements related to each of its federal programs and has complied, in all material respects, with those requirements except as disclosed to the auditor.
- Management has identified and disclosed to the auditor the requirements of laws, regulations, and the provisions of contracts and grant agreements that are considered to have a direct and material effect on each federal program.
- Management had provided to the auditor its interpretations of any compliance requirements that have varying interpretations.
- Management has made available all contracts and grant agreements (including amendments, if any) and any other correspondence that have taken place with federal agencies or pass-through entities related to federal programs.
- Management has identified and disclosed to the auditor all amounts questioned and any known noncompliance with the requirements of federal awards resulting from other audits or program reviews.
- Management has charged costs to federal awards in accordance with applicable cost principles.
- Management has made available all documentation related to the compliance requirements, including information related to federal program financial reports and claims for advances and reimbursements.
- Federal program financial reports and claims for advances and reimbursements are supported by the books and records from which the basic financial statements have been prepared.
- The copies of federal program financial reports provided to the auditor are true copies of the reports submitted, or electronically transmitted, to the federal agency or pass-through entity, as applicable.
- If applicable, management has monitored subrecipients to determine that they have expended pass-through assistance in accordance with applicable laws and regulations and have met the requirements of Circular A-133.
- If applicable, management has issued management decisions on a timely basis after their receipt of subrecipients' auditor's reports that identified noncompliance with laws, regulations, or the provisions of contracts or grant agreements, and has ensured that subrecipients have taken the appropriate and timely corrective action on findings.

- If applicable, management has considered the results of subrecipient audits and has made any necessary adjustments to the auditee's own books and records.
- Management is responsible for and has accurately prepared the summary schedule of prior audit findings to include all findings required to be included by Circular A-133.
- Management has provided the auditor with all information on the status of the follow-up on prior audit findings by federal awarding agencies and pass-through entities, including all management decisions.
- Management has accurately completed the appropriate sections of the data collection form.
- If applicable, management has disclosed all contracts or other agreements with service organizations.
- If applicable, management has disclosed to the auditor all communications from service organizations relating to noncompliance at those organizations.
- Management has disclosed any known noncompliance occurring subsequent to the period for which compliance is audited.
- Management has disclosed whether any changes in internal control over compliance or other factors that might significantly affect internal control, including any corrective action taken by management with regard to reportable conditions (including material weaknesses), have occurred subsequent to the date as of which compliance is audited.

Refusal to Furnish Written Representations

8.71 Management's refusal to furnish all written representations that the auditor considers necessary in the circumstances constitutes a limitation on the scope of the audit sufficient to require a qualified opinion or disclaimer of opinion on the auditee's compliance with major program requirements. The auditor also should consider the effects of management's refusal on his or her ability to rely on other management representations.

State and Local Government Compliance Auditing Considerations

8.72 An auditor also may be engaged to test and report on compliance with state and local laws and regulations in addition to the testing and reporting requirements imposed by *Government Auditing Standards* and Circular A-133. Although such auditing is outside the scope of this Guide, such a requirement may specify compliance tests, similar to those in a single audit. When this is the case, auditors should consult state or local government officials or other sources concerning the nature and scope of the required testing. However, state or local government funds should be distinguished from pass-through federal funds. When a single audit is conducted, pass-through federal funds are considered part of the federal awards received. Chapter 6 of this Guide briefly discusses state and local compliance requirements.

Chapter 9

Determination of Major Programs

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “*Government Auditing Standards Audits*,” (Chapters 2, “*Planning Considerations of Government Auditing Standards*,” through 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “*Circular A-133 Audits*” (Chapters 5, “*Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement*,” through 13, “*Program-Specific Audits*”).

Introduction

9.01 Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), requires the auditee to identify in its accounts all federal awards received and expended and the federal programs under which they were received. The auditee also is required to prepare a schedule of expenditures of federal awards for the period covered by its financial statements. (Chapter 7, “*Schedule of Expenditures of Federal Awards*,” of this Guide discusses the requirements related to that schedule.) However, Circular A-133 places the responsibility for identifying major programs on the auditor, and it provides the criteria to be used in applying a risk-based approach to determining major programs. The risk-based approach is designed to focus the single audit on higher-risk programs. Paragraph 9.20 discusses when the auditor can deviate from the use of risk criteria.

9.02 The auditor’s determination of the programs to be audited is based on an evaluation of the risk of noncompliance occurring that could be material to an individual major federal program. In evaluating such risk, the auditor considers, among other things, the current and prior audit experience with the auditee, the oversight exercised by federal agencies and pass-through entities, and the inherent risk of the federal programs. The auditor should use professional judgment and the guidance in sections 520, 525, and 530 of Circular A-133 in the risk assessment process. In addition, the auditor should consider the need to discuss the nature of federal programs with the management of the auditee and of the federal or state agency that provided the funds to the auditee.

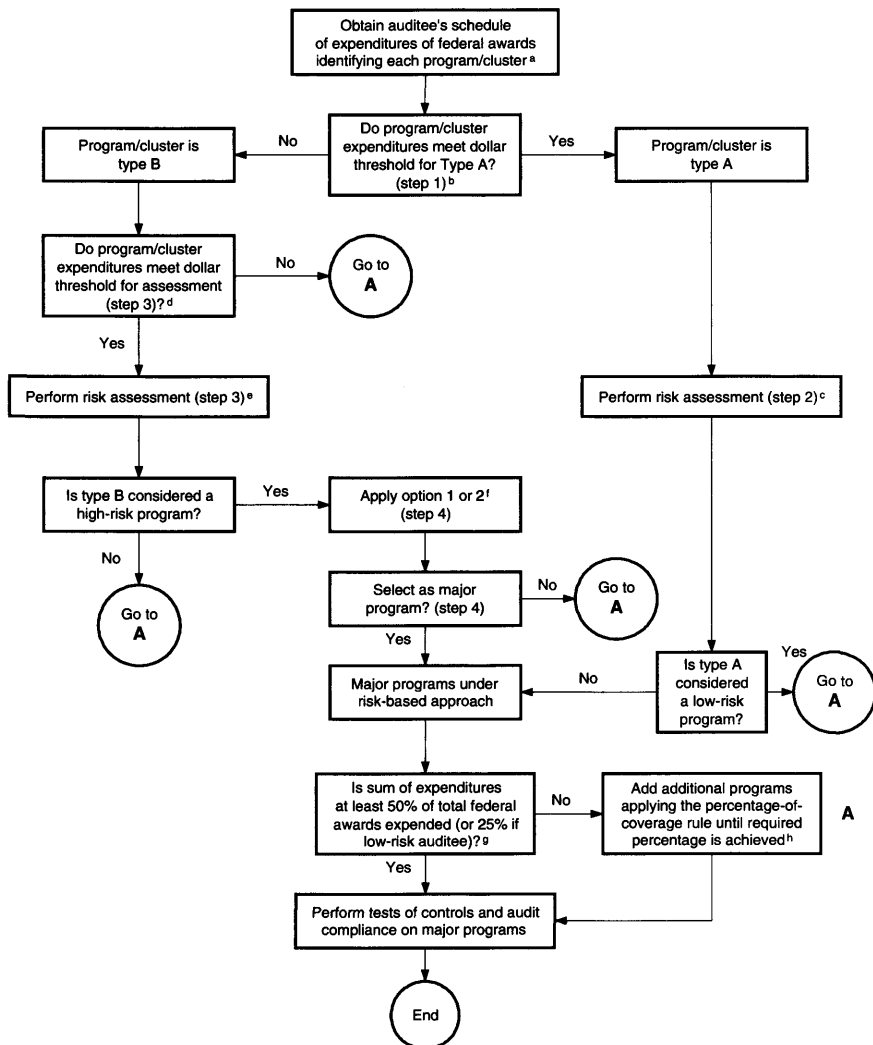

Applying the Risk-Based Approach

9.03 The guidance on the risk-based approach is organized here as provided in Circular A-133 and consists of the following steps in the following listing. Exhibit 9-1 is a flowchart illustrating the application of the risk-based approach for determining major programs.

- Step 1—Determination of type A and type B programs (paragraphs 9.04 through 9.09)
- Step 2—Identification of low-risk type A programs (paragraphs 9.10 through 9.13)
- Step 3—Identification of high-risk type B programs (paragraphs 9.14 through 9.16)
- Step 4—Determination of programs to be audited as major (paragraphs 9.17 through 9.19)

Exhibit 9-1

Flowchart Illustration of Applying the Risk-Based Approach for Determining Major Programs

- a. Chapter 5, “Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*,” of this Guide defines federal programs, including clusters.
- b. Paragraphs 9.04 through 9.09 discuss step 1.
- c. Paragraphs 9.10 through 9.13 discuss step 2.
- d. Paragraphs 9.14 through 9.16 discuss step 3.
- e. Before performing the risk assessment, the auditor should consider whether option 1 or option 2 will be selected under step 4 because it will affect whether risk assessments need to be performed on all type B programs or only some type B programs. See paragraph 9.15.
- f. The number of type B high-risk programs identified as major programs is either:
 - *Option 1:* One-half of the number of type B high-risk programs, unless this number exceeds the number of low-risk type A programs identified in step 2. In this case, the auditor would be required to audit as major the same number of high-risk type B programs as low-risk type A programs. Under this option, the auditor is expected to perform risk assessments on all type B programs that exceed the threshold for type B.
 - *Option 2:* One high-risk program for each low-risk type A program. This option does not require the auditor to perform risk assessments on all type B programs. Paragraphs 9.17 through 9.19 discuss step 4, including option 1 and option 2.
- g. There may be instances when the auditee includes certain noncash assistance (such as loan guarantees or loans) in the notes to the schedule of expenditures of federal awards. (See chapter 7 of this Guide.) The auditor should be sure to include such noncash assistance as part of total federal awards expended when performing this calculation.
- h. The additional programs/clusters selected (marked “A” on the flowchart) to meet the percentage-of-coverage rule are audited as major programs in addition to type A and type B programs identified in steps 1 through 4. Paragraph 9.24 discusses the percentage-of-coverage rule.

Step 1—Determination of Type A and Type B Programs

9.04 To determine which federal programs are to be audited as major (see step 4), the auditor should first identify federal programs as being either type A or type B as defined in Circular A-133. In general, type A programs are larger federal programs and type B programs are smaller federal programs. The auditor should obtain the schedule of expenditures of federal awards from the auditee to assist in the identification of type A and type B programs. Federal awards expended for purposes of determining type A and type B programs are the amount of cash and noncash awards, after all adjustments are made, in the *final* current-year schedule of expenditures of federal awards, including the notes thereto. An auditor who uses the prior-year schedule or preliminary current-year estimates to plan the audit should recalculate the threshold for type A programs based on the final amounts to ensure that federal awards are properly classified as type A or B. Auditors should note that for purposes of determining major programs, a cluster of programs should be considered as one program. (Chapter 5 of this Guide discusses clusters of programs.)

Type A Program Criteria

9.05 The larger federal programs are labeled as type A. Table 9-1 presents the criteria that Circular A-133 establishes for identifying Type A programs.

Table 9-1

Criteria for Identifying Type A Programs

<i>When Total Federal Awards Expended¹ Are—</i>	<i>A Type A Program Is Any Program With Federal Awards Expended That Exceed the Larger of—</i>
More than or equal to \$300,000* and less than or equal to \$100 million	\$300,000 or 3% (0.03) of federal awards expended
More than \$100 million and less than or equal to \$10 billion	\$3 million or 0.3% (0.003) of federal awards expended
More than \$10 billion	\$30 million or 0.15% (0.0015) of federal awards expended

¹ Includes both cash and noncash awards.

* Although the June 27, 2003, revisions to Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), raised the threshold for the applicability of the Single Audit Act Amendments of 1996 (the Single Audit Act) and Circular A-133 from \$300,000 to \$500,000 for audits of fiscal years ending after December 31, 2003, it did not change the \$300,000 threshold for identifying Type A programs.

Type B Program Criteria

9.06 Federal programs that do not meet the type A criteria are considered type B programs.

Effect of Large Loans and Loan Guarantees on Identification of Type A Programs

9.07 Chapter 7 of this Guide discusses the various types of noncash awards, including loans and loan guarantees, and how they are valued. Circular A-133 states that when the auditor applies the dollar criteria shown in Table 9-1 to identify type A programs, the inclusion of large loans and loan guarantees should not result in the exclusion of other federal programs as type A programs. Auditors should note that this requirement relates only to loans and loan guarantees and not to any other large noncash awards. When a federal program providing loans or loan guarantees significantly affects the number or size of type A programs, the auditor should consider the loan or loan guarantee program a type A program and exclude its values in determining other type A programs. The auditor should use professional judgment in determining whether type A programs would be significantly affected in this situation.

9.08 The example in Table 9-2 demonstrates this concept by showing the identification of type A programs as well as the effect of loans and loan guarantees on that identification process.

Table 9-2

**Identification of Type A Programs
and the Effect of Loans and Loan Guarantees**

<i>Program / Federal Grantor</i>	<i>Federal Awards Expended (\$000)</i>
Cash program A—U.S. Department of Labor	\$ 1,335
Cash program B—U.S. Department of Health and Human Services	3,000
Cash program C-1—U.S. Department of Education	175
Cash program C-2—U.S. Department of Education	280
Cash program D—U.S. Department of Housing and Urban Development (a pass-through grant from a local government)	<u>310</u>
Subtotal—Cash federal awards expended	\$ 5,100
Commodities program E—U.S. Department of Agriculture (a pass-through grant from a state)	<u>2,000</u>
Subtotal—Cash and commodities federal awards expended	\$ 7,100
Loan program F—U.S. Department of Housing and Urban Development	33,500
Loan guarantee program G—U.S. Department of Agriculture	<u>57,000¹</u>
Total federal awards expended	<u><u>\$97,600</u></u>

¹ In accordance with Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), loans and loan guarantees include new loans made during the year, plus prior-year loans for which the federal government imposes continuing compliance requirements, plus any interest subsidy, cash, or administrative cost allowance received. Chapter 7, "Schedule of Expenditures of Federal Awards," of this Guide provides additional information.

9.09 Table 9-2 shows that the auditee has \$97,600,000 in total federal awards expended. Therefore, applying the criteria in Table 9-1 indicates that type A programs would be those that expended federal awards equal to or greater than \$2,928,000 (3 percent of \$97,600,000), or programs B, F, and G. However, when large loan and loan guarantee programs F and G are excluded from the base amount of the total federal awards expended in the calculation, the type A programs would be those programs that expended federal awards equal to or greater than \$300,000 (the larger of \$213,000 [3 percent of \$7,100,000] or \$300,000). Therefore, under the second calculation, programs A, B, D, E, F, and G would be type A programs. If the auditor, in his or her professional judgment, concludes that the difference in the number or size of type A programs is significantly affected by the inclusion of the loans and loan guarantees (which in this example would be likely due to the significant increase in type A programs), the auditor would identify programs A, B, D, E, F, and G as type A programs. The auditor should consider contacting the cognizant or oversight agency for audit if the auditor is unsure about whether to exclude loan or loan guarantees when determining type A programs.

Step 2—Identification of Low-Risk Type A Programs

9.10 After completing step 1, the auditor should perform a risk assessment of each type A program to identify those that are low-risk. Circular A-133 includes certain conditions that, when met, indicate that a type A program may be low-risk.

General Conditions for Low-Risk Type A Programs

9.11 Type A programs generally may be considered low-risk if both of the following conditions are met: (a) the program has been audited as a major program in at least one of the two most recent audit periods (in the most recent audit period in the case of a biennial audit) and (b) in the most recent audit period, the program had no audit findings. (Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide discusses the situations that Circular A-133 requires the auditor to report as audit findings.) It is important for auditors to note that every type A program that was not audited in one of the two prior years is required to be audited as a major program. If a type A program is new to an entity in the current year (for example, because the entity did not previously participate in the program or because it is a new federal program), it should be audited as a major program in the current year because it was not audited in one of the prior two years. If a program that previously was a type B program is a type A program in the current year (for example, because the funding level increased), and the program was not audited as a major program in one of the two prior years, it should be audited as a major program in the current year. Auditor judgment, as discussed in paragraph 9.12, cannot override the requirement that major programs should include every type A program that (a) was not audited in one of the two prior years or (b) had audit findings other than those indicated in paragraph 9.12.

Auditor Judgment in Determination of Low-Risk Type A Programs

9.12 Circular A-133 permits the auditor to conclude, based on professional judgment, that a type A program is low-risk even though in the prior audit period (a) it may have had known or likely questioned costs greater than \$10,000 for a type of compliance requirement, (b) known fraud has been identified, or (c) the summary schedule of prior audit findings materially misrepresents the status of a prior audit finding. (The auditor cannot conclude, based on professional judgment, that a type A program is low-risk if there were other types of audit findings, such as reportable conditions in internal control or material noncompliance.) For example, consider a situation in which the funds expended under a federal program in the prior year totaled \$10 million, there were known questioned costs of \$11,000 that related to one isolated instance, and there were no additional likely questioned costs. In this example, the auditor, based on professional judgment, could decide that the program is low-risk in the current year. In making the final determination of whether a type A program is low-risk, the auditor should also consider the risk criteria in paragraphs 9.26 through 9.36, the results of audit follow-up, and whether any changes in the personnel or systems affecting a type A program have significantly increased its risk. Based on all of this information, the auditor would apply professional judgment in determining whether a type A program is low-risk.

Type A Program Not Considered Low-Risk at Request of Federal Awarding Agency

9.13 A federal awarding agency may request that a type A program for certain recipients not be considered low-risk so that it would be audited as a major

program. For example, it may be necessary for a large type A program to be audited as major each year for particular recipients to allow the federal agency to comply with the Government Management Reform Act of 1994. In this instance, Circular A-133 requires the federal awarding agency to obtain approval from the OMB. Furthermore, the federal awarding agency should notify the recipient and, if known, the auditor at least 180 days before the end of the fiscal year end to be audited. (Paragraph 9.35 discusses the federal agency option to identify federal programs as higher risk in the *OMB Circular A-133 Compliance Supplement [Compliance Supplement]*.)

Step 3—Identification of High-Risk Type B Programs

9.14 After completing steps 1 and 2, the auditor should identify type B programs that are high-risk, using professional judgment and the risk criteria discussed in paragraphs 9.26 through 9.36. Except for known reportable conditions in internal control or instances of noncompliance, a single risk criterion would, in general, seldom cause a type B program to be considered high-risk.

9.15 Before beginning step 3, the auditor should—

- a. Consider whether there are low-risk type A programs. When there are no type A programs identified as low-risk (either because there are no type A programs or because none of the type A programs are low-risk), the auditor is not required to perform step 3. If there are no Type A programs, the auditor would audit as major enough type B programs to meet the percentage-of-coverage rule (see paragraph 9.24). When there are type A programs, but none are low-risk, the auditor would audit as major all type A programs plus any additional type B programs needed to meet the percentage-of-coverage rule. In either case, any programs requested to be audited by a federal agency or pass-through entity should be audited as a major program and would be included in determining whether the percentage-of-coverage rule has been met (see paragraph 9.21).
- b. Consider whether option 1 or option 2 will be used in step 4. (Paragraphs 9.18 and 9.19 describe each option). The auditor's decision of which option to choose will likely be based on audit efficiency and will affect how many type B programs are subject to risk assessment. The auditor should consider the following discussion before deciding whether to use option 1 or option 2.
 - Under option 1, the auditor is required to perform a risk assessment on all type B programs (excluding small type B programs as discussed in paragraph 9.16). In comparison with option 2, option 1 will likely require the auditor to perform more type B program risk assessments, but may also result in the auditor having to audit fewer major programs. For example, assume that an auditee has 4 low-risk type A programs and 10 type B programs that exceed the amount specified in Table 9-3. Also assume that the auditor chooses option 1. In this scenario, the auditor would be required to perform a risk assessment on all type B programs. If the auditor finds that only four type B programs are high-risk, the auditor would be required to audit only two of the four high-risk type B programs as major (one-half of the number of high-risk type B programs).
 - Under option 2, the auditor is only required to identify high-risk type B programs up to the number of low-risk type A programs.

In comparison with option 1, option 2 will likely require the auditor to perform fewer type B risk assessments, but may also result in the auditor having to audit more major programs. For example, assume that an auditee has 4 low-risk type A programs and 10 type B programs that exceed the amount specified in Table 9-3. Assume also that the first four type B programs subject to risk assessment are determined by the auditor to be high-risk. In this scenario, the auditor may choose option 2, identify the four high-risk type B programs as major, and not perform risk assessments on the remaining six type B programs. Using the same example but assuming that the auditee only has one low-risk type A program (instead of four), the auditor would be required to audit one type B program as major under either option 1 or 2. In this scenario, option 2 would likely be the most efficient choice for the auditor because the auditor would only need to perform type B program risk assessments until one high-risk type B program was identified (under option 1 the auditor would be required to perform a risk assessment on all type B programs).

Criteria for Performing Risk Assessments on Type B Programs

9.16 An auditor is not expected to perform risk assessments on relatively small federal programs. Therefore, Circular A-133 only requires the auditor to perform risk assessments on type B programs that exceed the larger of the criteria shown in Table 9-3.

Table 9-3

Criteria for Performing Risk Assessments on Type B Programs

<i>When Total Federal Awards Expended¹ Are—</i>	<i>Perform Risk Assessment for Type B Programs That Exceed the Larger of—</i>
More than or equal to \$300,000* and less than or equal to \$100 million	\$100,000 or 0.3% (0.003) of federal awards expended
More than \$100 million	\$300,000 or 0.03% (0.0003) of federal awards expended

¹ Includes both cash and noncash awards.

* Although the June 27, 2003, revisions to Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), raised the threshold for the applicability of the Single Audit Act Amendments of 1996 (the Single Audit Act) and Circular A-133 from \$300,000 to \$500,000 for audits of fiscal years ending after December 31, 2003, it did not change the \$300,000 threshold for performing risk assessments on Type B programs.

Step 4—Determination of Programs to Be Audited as Major

Criteria for Major Programs

9.17 After completing steps 1 through 3, the auditor identifies the major programs. At a minimum, Circular A-133 requires the auditor to audit all of the following as major programs:

- All type A programs, except those identified as low-risk under step 2 (see paragraphs 9.10 through 9.13)
- High-risk type B programs as identified under either of the two options described in paragraphs 9.18 and 9.19
- Programs to be audited as major based on a federal agency request (in lieu of the federal agency conducting or arranging for additional audits; paragraph 9.21 provides further information)
- Additional programs, if any, that are necessary to meet the percentage-of-coverage rule described in paragraph 9.24

Two Options Available for Identifying High-Risk Type B Programs

9.18 Section 520(e)(2) of Circular A-133 provides two options for identifying high-risk type B programs:

- *Option 1.* Under option 1, the auditor is expected to perform risk assessments of all type B programs that exceed the amount specified in Table 9-3, and to audit at least one-half of the high-risk type B programs as major, unless this number exceeds the number of low-risk type A programs identified in step 2 (that is, the cap). In this case, the auditor would be required to audit as major the same number of high-risk type B programs as the cap. For example, consider an auditee that has 10 low-risk type A programs, and 50 type B programs above the amount specified in Table 9-3. Under this option, the auditor would be required to perform risk assessments of the 50 type B programs. Assume that based on that assessment, the auditor determines that there are 25 high-risk type B programs. One-half of the 25 high-risk type B programs is 12.5, which rounds up to 13 programs. Under this option, the auditor would audit 13 of the high-risk type B programs as major; however, since the cap in this example is 10 (that is, the number of low-risk type A programs), the auditor is required to audit only 10 high-risk type B programs as major.
- *Option 2.* Under option 2, the auditor is required to audit as major only one high-risk type B program for each type A program identified as low-risk in step 2. Under this option the auditor would not be required to perform risk assessments for any type B program when there are no low-risk type A programs (that is, the cap is zero). Continuing with the previous example, under option 2 the auditor would perform risk assessments of type B programs until 10 high-risk programs are identified (that is, 10 is the number of low-risk type A programs). The auditor would then audit as major the 10 type B programs identified as high-risk. Depending on the order in which risk assessments on type B programs are performed, the auditor might only need to perform risk assessments of 10 type B programs determined to be high-risk, or the auditor may need to perform risk assessments on additional type B programs until 10 high-risk programs are identified.

9.19 The auditor may choose option 1 or option 2. There is no requirement to justify the reasons for selecting either option. The results under options 1 and 2 may vary significantly, depending on the number of low-risk type A programs and high-risk type B programs (see paragraph 9.15). Circular A-133 encourages the auditor to use an approach that provides an opportunity for different high-risk type B programs to be audited as major over a period of time.

Deviation From Use of Risk Criteria

9.20 For first-year audits, Circular A-133 allows auditors to deviate from the above-described risk assessment process. A first-year audit is defined as the

first year an entity is audited under Circular A-133 or as the first year of a change in auditors. This exception allows the auditor to elect to determine major programs as all type A programs plus any type B programs as are necessary to meet the percentage-of-coverage rule described in paragraph 9.24. Under this option, the auditor is not required to perform steps 2, 3, and 4. However, to ensure that a frequent change of auditors would not preclude the audit of high-risk type B programs, this election for first-year audits may not be used more than once every three years. Auditors should consider whether this exception is an option during the planning phase of the single audit. (Chapter 6, "Planning Considerations of Circular A-133," of this Guide discusses other initial-year audit considerations).

Other Considerations Regarding the Risk-Based Approach

Federal Agency and Pass-Through Entity Requests for Additional Major Programs

9.21 A federal agency may request an auditee to have a particular federal program audited as a major program in lieu of the federal agency conducting or arranging for additional audits. To allow for planning, such requests should be made at least 180 days before the end of the fiscal year to be audited. The auditee, after consultation with its auditor, should promptly respond to such a request by informing the federal agency whether the program would otherwise be audited as a major program using the risk-based approach and, if it would not, informing the agency of the estimated incremental cost. The federal agency should then promptly confirm to the auditee whether it wants the program audited as a major program. If the program is to be audited as a major program based on the federal agency's request, and the federal agency agrees to pay the full incremental costs, then the auditee should have the program audited as a major program. This approach may also be used by pass-through entities for a subrecipient.

Documentation of Risk Assessment

9.22 Circular A-133 requires the auditor to document the risk assessment process used in determining major programs. It is therefore necessary for the auditor to develop adequate audit documentation, as required by generally accepted auditing standards (GAAS) and *Government Auditing Standards*, including for the determination of major programs. (Chapter 2, "Planning Considerations of *Government Auditing Standards*," discusses the audit documentation requirements of GAAS and *Government Auditing Standards*.)

Auditor Judgment in the Risk Assessment Process

9.23 Circular A-133 states that when the determination of major programs is performed and documented by the auditor in accordance with the circular, the auditor's judgment in applying the risk-based approach to determine major programs is presumed correct. Challenges by federal agencies and pass-through entities should be made only for clearly improper use of the guidance in Circular A-133. It should be noted, however, that federal agencies and pass-through entities may provide the auditor with guidance about the risk of a particular federal program, which the auditor should consider when determining major programs.

Percentage-of-Coverage Rule

9.24 Circular A-133 requires the auditor to audit, as major programs, federal programs with federal awards expended that, in the aggregate, encompass at least 50 percent of the total federal awards expended. However, if the auditee meets the criteria for a low-risk auditee (see paragraph 9.25), the auditor is only required to audit as major programs federal programs with federal awards expended that, in the aggregate, encompass at least 25 percent of the total federal awards expended. To comply with this requirement, the auditor should compute the total federal awards expended for the major programs, determined under step 4, as a percentage of the total federal awards expended. If the total does not equal 50 percent (or 25 percent in the case of a low-risk auditee) of the total federal awards expended, the auditor should select additional programs (either type A or type B) to equal 50 percent (or 25 percent in the case of a low-risk auditee) and test them as major programs. The selection of additional programs to meet the percentage-of-coverage is based on the auditor's professional judgment. When selecting additional programs to meet the percentage-of-coverage rule, the auditor may select programs without regard to risk assessment. If loans or loan guarantees are major programs, these programs may be used for purposes of meeting the percentage-of-coverage rule. Furthermore, when a federal agency or pass-through entity requests and pays for a program to be audited as major (see paragraph 9.21), that program may also be used for purposes of meeting the percentage-of-coverage rule.

Low-Risk Auditee Criteria

9.25 Circular A-133 establishes certain conditions for determining whether an auditee is low risk. An auditee that meets all of the following conditions for each of the preceding two years (or in the case of biennial audits, the preceding two audit periods) qualifies as a low-risk auditee and is eligible for the reduced audit coverage discussed in paragraph 9.24:

- a. Single audits were performed on an annual basis in accordance with Circular A-133. An auditee that has biennial audits does not qualify as a low-risk auditee, unless agreed to in advance by the cognizant or oversight agency for audit.
- b. The auditor's opinions on the financial statements¹ and the schedule of expenditures of federal awards were unqualified. However, the cognizant or oversight agency for audit may judge that an opinion qualification does not affect the management of federal awards and may provide a waiver.
- c. There were no deficiencies in internal control over financial reporting that were identified as material weaknesses under the requirements of *Government Auditing Standards*. However, the cognizant or oversight agency for audit may judge that any identified material weaknesses do not affect the management of federal awards and may provide a waiver.

¹ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government's basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. For purposes of determining low-risk auditee status for governmental entities, the auditor's opinion on each opinion unit should be unqualified.

- d. None of the federal programs had audit findings from any of the following in either of the preceding two years (or in the case of biennial audits, the preceding two audit periods) in which they were classified as type A programs:
- Material weaknesses in the internal control over compliance
 - Noncompliance with the provisions of laws, regulations, contracts, or grant agreements that have a material effect on the type A program
 - Known or likely questioned costs that exceed 5 percent of the total federal awards expended for a type A program during the year

Criteria for Federal Program Risk

9.26 The auditor's risk assessment should be based on an overall evaluation of the risk of noncompliance occurring, which could be material to the federal program being evaluated. Circular A-133 indicates that the auditor should use professional judgment and consider certain criteria to identify risk in federal programs. As a part of the risk assessment, the auditor may also wish to discuss a particular federal program with auditee management and with the federal agency or pass-through entity. The rest of this chapter discusses the criteria for federal program risk that are identified in Circular A-133.

Current and Prior Audit Experience

9.27 The auditor should consider his or her prior experience with the auditee and the results of audits performed in the past. The auditor should consider the following specific factors, as discussed in paragraphs 9.28 through 9.33:

- Weaknesses in the internal control over compliance for federal programs
- Federal programs administered under multiple internal control structures
- A weak system for monitoring subrecipients when significant parts of federal programs are passed through to subrecipients
- The extent to which computer processing is used
- Prior audit findings
- Federal programs not recently audited as major

Weaknesses in Internal Control Over Federal Programs

9.28 In assessing program risk, the auditor should consider internal control over compliance for federal programs. (See Chapter 10, "Consideration of Internal Control Over Compliance for Major Programs," of this Guide.) Weak internal control over compliance for federal programs is an indication of higher risk. Consideration also should be given to the control environment over federal programs and to such factors as the expectation of management's adherence to applicable laws and regulations and the provisions of contracts and grant agreements. The auditor may also consider the competence and experience of the personnel who administer federal programs. In instances in which the staff are new or do not have experience with a program, consideration should be given to assessing the program at a higher level of risk.

Federal Programs Administered Under Multiple Internal Control Structures

9.29 Federal programs administered by multiple internal control structures may have a higher risk. This often occurs when multiple operating units

or organizational components (for example, locations or branches) are involved in the administration of federal programs. An example of this would be a university that has several campuses administering a federal program. When assessing risk, the auditor should consider whether any internal control weaknesses are isolated in a single operating unit (that is, one college campus) or are pervasive throughout the entity. If the identified weaknesses are isolated, and absent other weaknesses, the auditor could still potentially reach the conclusion that the program is low-risk. The final determination would be based on the auditor's judgment.

Weak System for Monitoring Subrecipients

9.30 Consideration should be given to the extent that federal programs are passed through to subrecipients. If the auditee passes a significant portion of a federal program to subrecipients and the auditor has identified that the auditee has a weak system for monitoring subrecipients, the auditor should consider assigning a higher risk to the program. Alternatively, if the auditee passes a significant portion of programs to subrecipients and the auditee has an effective system in place to monitor the subrecipients, the auditor should consider assigning a lower level of risk to the program.

Extent to Which Computer Processing Is Used

9.31 When assessing risk, the auditor should consider the extent to which computer processing is used to administer federal programs, as well as the complexity of that processing. A complex system does not always indicate higher risk. On the other hand, a newly installed system that has not been tested in the past, or a recently modified system, may indicate higher risk. Auditors should refer to Statement on Auditing Standards (SAS) No. 31, *Evidential Matter* (AICPA, *Professional Standards*, vol. 1, AU sec. 326), as amended, and SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319), as amended, for guidance when significant auditee information is transmitted, processed, maintained, or accessed electronically. (In addition, as discussed in Chapter 2 of this Guide, paragraph 4.24c of *Government Auditing Standards* that requires audit documentation to contain the auditor's consideration that planned audit procedures are designed to achieve audit objectives when evidential matter obtained is highly dependent on computerized information systems and is material to the objective of the audit but the auditor is not relying on the effectiveness of internal control over those computerized systems that produced the information.)

Prior Audit Findings

9.32 As a part of the risk assessment, Circular A-133 requires the auditor to consider prior audit findings. (In addition, as discussed in Chapter 2 of this Guide, paragraph 4.14 of *Government Auditing Standards* establishes an additional fieldwork standard that requires the auditor to follow up on known material findings and recommendations from previous financial audits, attestation engagements, performance audits, or other studies that directly relate to the objectives of the audit being undertaken to plan the current audit.) These findings may be the result, for example, of previous single audits by independent auditors or of compliance or financial audits performed by internal auditors or government auditors in conjunction with the federal awarding agency's monitoring activities. The auditor should consider assessing a higher risk for programs for which prior audit findings have a significant impact on a federal program or for which no corrective action has been implemented since the findings were identified.

Federal Programs Not Recently Audited as Major

9.33 Federal programs that have not recently been audited as major programs may be of higher risk than federal programs recently audited as major. For example, many type B programs may never have been audited as major programs in the past. A higher level of risk would likely be assessed on such programs than on those programs that have been consistently audited as major programs without audit findings.

Oversight Exercised by Federal Agencies and Pass-Through Entities

9.34 The oversight exercised by federal agencies or pass-through entities could indicate risk. An important factor in assessing risk is the results of recent audits performed by federal agencies or pass-through entities. For example, recent monitoring or other reviews that were performed by an oversight entity and that disclosed no audit findings may indicate lower risk, whereas monitoring that disclosed significant findings could indicate higher risk. However, the auditor should understand the scope of the review that was performed. Reviews performed by federal agencies or pass-through entities vary widely as to coverage and intensity.

9.35 Circular A-133 states that federal agencies, with the concurrence of the OMB, may identify federal programs that are high-risk. This identification will be provided by the OMB in the *Compliance Supplement*. For example, the U.S. Department of Health and Human Services has identified the Medicaid Assistance Program as a program of higher risk in the *Compliance Supplement*. Although such an identification by a federal agency does not preclude an auditor from determining that a program is low-risk (for example, because prior audits have shown strong internal control and compliance), the auditor should consider it as part of the risk assessment process.

Inherent Risk of the Federal Programs

9.36 As part of the risk assessment, the auditor needs to consider the inherent risk of federal programs. Inherent risk is the risk that material noncompliance with requirements applicable to a major program could occur, assuming there is no related internal control. Programs with higher inherent risk may be of a higher risk for the purpose of determining major programs. Circular A-133 provides examples of program characteristics with potentially higher inherent risks, as discussed in Chapter 8, "Compliance Auditing Applicable to Major Programs," of this Guide.

Chapter 10

Consideration of Internal Control Over Compliance for Major Programs

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “*Government Auditing Standards Audits*,” (Chapters 2, “*Planning Considerations of Government Auditing Standards*,” through 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “*Circular A-133 Audits*” (Chapters 5, “*Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement*,” through 13, “*Program-Specific Audits*”).

10.01 Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), establishes requirements for additional audit procedures and reporting relative to the auditor’s consideration of internal control over compliance for major programs. Those requirements are beyond those of a financial statement audit conducted in accordance with generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Chapter 3, “*Financial Statement Audit Considerations of Government Auditing Standards*,” of this Guide discusses the auditor’s consideration of internal control over financial reporting in a financial statement audit, including a Circular A-133 audit. (As discussed in Chapter 6, “*Planning Considerations of Circular A-133*,” of this Guide, Circular A-133 does not impose on the financial statement audit any additional audit requirements beyond *Government Auditing Standards*.) This chapter discusses the additional considerations of internal control over compliance for major programs. Paragraph 10.03 and Chapter 12, “*Auditor Reporting Requirements and Other Communication Considerations in a Single Audit*,” of this Guide discuss the reporting on internal control over compliance for major programs.

Summary of Circular A-133 Requirements Related to Internal Control Over Compliance for Federal Programs

Auditee Responsibilities

10.02 Circular A-133 requires the auditee to maintain internal control over compliance for federal programs that provides reasonable assurance that

the auditee is managing federal awards in compliance with laws, regulations, and provisions of contracts or grant agreements that could have a material effect on each of its federal programs (hereinafter referred to as *compliance requirements*).

Auditor Responsibilities

10.03 In addition to the requirements of GAAS and *Government Auditing Standards*, Circular A-133 requires the auditor to:

- Perform procedures to obtain an understanding of internal control over compliance for federal programs that is sufficient to plan the audit to support a low assessed level of control risk for major programs.
- Plan the testing of internal control over compliance for major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program.
- Perform testing of internal control over compliance as planned.
- Report on internal control over compliance describing the scope of the testing of internal control and the results of the tests and, where applicable, referring to the separate schedule of findings and questioned costs. This schedule includes, where applicable, a statement that reportable conditions in internal control over compliance for major programs were disclosed by the audit and whether any such conditions were material weaknesses.

Auditor Responsibility for Internal Control Over Compliance for Programs That Are Not Major

10.04 The auditor has no responsibility under Circular A-133 to obtain an understanding of internal control over compliance for programs that are not considered major, or to plan or perform any related testing of internal control over compliance for those programs except for any procedures the auditor may choose to perform as part of the risk assessment process in determining major programs. (Chapter 9, “Determination of Major Programs,” of this Guide discusses the risk assessment process.) However, the auditor should note that a program that is not considered major could still be material to the financial statements.¹ In that situation, in conjunction with the financial statement audit, the auditor may need to obtain an understanding of internal control over financial reporting that is relative to the program.

Circular A-133 Definition of Internal Control Over Federal Programs

10.05 Circular A-133 defines internal control over federal programs as follows:

Internal control pertaining to the compliance requirements for federal programs (*internal control over federal programs*) means a process—effected by an entity’s management and other personnel—designed to provide reasonable assurance regarding the achievement of the following objectives for federal programs:

¹ As discussed in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor’s consideration of materiality for purposes of planning, performing, evaluating the results of, and reporting on the audit of the financial statements of a state or local government is based on opinion units. See that Guide for further guidance.

1. Transactions are properly recorded and accounted for to:
 - a. Permit the preparation of reliable financial statements and federal reports;
 - b. Maintain accountability over assets; and
 - c. Demonstrate compliance with laws, regulations, and other compliance requirements;
2. Transactions are executed in compliance with:
 - a. Laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on a federal program; and
 - b. Any other laws and regulations that are identified in the compliance supplement; and
3. Funds, property, and other assets are safeguarded against loss from unauthorized use or disposition.

Control Objectives

10.06 Statement on Auditing Standards (SAS) No. 55, *Consideration of Internal Control in a Financial Statement Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 319.06), as amended, states that there are three categories of internal control: effectiveness and efficiency of operations, reliability of financial reporting, and compliance with applicable laws and regulations. These distinct but somewhat overlapping categories have differing purposes and allow a directed focus to meet the needs of the auditee and others regarding each separate purpose. For purposes of this Guide, controls relevant to the audit of the financial statements are referred to as “internal control over financial reporting” and are encompassed in the report on internal control over financial reporting that is required by *Government Auditing Standards*. (See Chapters 3 and 4, “Auditor Reporting Requirements” and “Other Communication Considerations of *Government Auditing Standards*,” of this Guide.) Controls relevant to an audit of compliance with requirements applicable to major federal programs are referred to collectively in this Guide “as internal control over compliance” and are encompassed in the report on internal control over compliance required by Circular A-133. In a particular single audit engagement, some controls may be relevant to both the audit of the financial statements and the audit of compliance. When this occurs, those controls would be encompassed in both internal control reports. Chapter 12 of this Guide provides guidance on reporting findings involving reportable conditions in internal control in such a circumstance.

Auditor’s Consideration of Internal Control Over Compliance for Each Major Program

10.07 The auditor’s consideration of internal control over compliance for each major program is similar to the consideration of internal control over financial reporting in a financial statement audit as described in SAS No. 55, as amended. In his or her consideration of internal control over compliance, the auditor:

- Obtains an understanding of internal control over compliance for federal programs that is sufficient to plan the audit, by performing procedures to understand (a) the design of controls relevant to the compliance requirements for each major program and (b) whether they

have been placed in operation. (Note that although Circular A-133 requires the auditor to perform procedures to obtain an understanding of internal control over compliance for federal programs that is sufficient to plan the audit to support a low assessed level of control risk for major programs, it does not actually require the achievement of a low assessed level of control risk.)

- Assesses control risk for the assertions relevant to the compliance requirements for each major program. The auditor uses the knowledge provided by the understanding of internal control over compliance and the assessed level of control risk to determine the nature, timing, and extent of substantive tests for assertions relevant to the compliance requirements for each major program, as discussed in Chapter 8, "Compliance Auditing Applicable to Major Programs," of this Guide.

10.08 An understanding of internal control over compliance and an assessment of control risk may be performed concurrently in an audit. Similarly, based on the assessed level of control risk that the auditor expects to support and on audit efficiency considerations, the auditor often plans to perform some tests of controls concurrently with obtaining an understanding of controls.

Obtaining an Understanding of Internal Control Over Compliance for Major Programs

Understanding Compliance Assertions and Identifying Relevant Controls

10.09 As noted in paragraph 10.03, the auditor is required to perform procedures to obtain an understanding of internal control over compliance for federal programs that is sufficient to plan the audit to support a low assessed level of control risk for major programs. (Chapter 9 of this Guide discusses the determination of major programs.) The auditor needs to understand the assertions relevant to the compliance requirements for each major program. Those assertions will determine the types of controls the auditor needs to consider in a single audit. In identifying controls relevant to specific assertions, the auditor should consider that the controls can have either a pervasive effect on many assertions or a specific effect on an individual assertion depending on the nature of the particular internal control component involved. An entity generally also has controls relating to objectives that are not relevant to specific assertions and that therefore need not be considered in a Circular A-133 audit.

10.10 In obtaining an understanding of controls, the auditor should consider the guidance in SAS No. 55 (AU sec. 319.58-.60). This includes performing procedures to provide sufficient knowledge of both the design of the relevant controls pertaining to each of the five internal control components (that is, control environment, risk assessment, control activities, information and communication, and monitoring) and whether they have been placed in operation. The auditor ordinarily obtains this knowledge through previous experience with the entity and through such procedures as inquiries of appropriate management, supervisory, and staff personnel; an inspection of the entity's documents and records; and his or her observation of the entity's activities and operations. The nature and extent of the procedures performed generally vary from entity to entity and are influenced by the size and complexity of the entity, the auditor's previous experience with the entity, the nature of the particular control, and the nature of the entity's documentation of specific controls.

10.11 Entities may use the same controls for more than one federal program and for similar transactions (for example, cash disbursements). Accordingly, those controls will often provide assurance regarding the achievement of the compliance objectives related to some or all federal program transactions and assets.

Compliance Supplement *Internal Control Guidance*

10.12 When determining the assertions relevant to the compliance requirements for each major program of the entity, the auditor should consider referring to the discussion on internal control found in Part 6 of the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*. The *Compliance Supplement* provides a general discussion of the control objectives, components, and activities that are likely to apply to the 14 types of compliance requirements. (Chapter 8 of this Guide discusses the *Compliance Supplement* and the types of compliance requirements.) The guidance in the *Compliance Supplement* is not a checklist of required internal control characteristics; it is intended, instead, to assist the auditor in planning and performing the single audit. However, the auditee is responsible for designing and implementing internal control that is sufficient to provide reasonable assurance that the auditee is managing federal awards in compliance with laws, regulations, and provisions of contracts or grant agreements that could have a material effect on each of its federal programs. The auditee may need to design and implement control activities beyond those discussed in the *Compliance Supplement* to meet that responsibility. Similarly, the auditor is responsible for evaluating internal control over compliance, to plan the audit to support a low assessed level of control risk for each major program. The auditor may need to perform tests of internal control over compliance that are related to control objectives and activities in addition to those discussed in the *Compliance Supplement*.

Multiple-Component Considerations

10.13 Federal programs often are administered by multiple operating units or organizational components (for example, locations or branches) within an auditee. Each component may maintain separate internal control over compliance that is relevant to the programs, or parts of the programs, that the component administers. In these situations, the auditor should perform procedures to obtain an understanding of internal control over compliance that is separately maintained by organizational components and that is relevant to each material part of a major program, and should plan and perform testing of those controls as discussed in this chapter. (Chapters 8 and 9 of this Guide discuss other multiple-component considerations.)

Subrecipient Considerations

10.14 Many entities that are pass-through entities for federal awards make subcontract or subgrant awards and disburse their own funds, as well as federal funds, to subrecipients. The auditor of the pass-through entity has certain considerations related to the entity's internal control over the monitoring of subrecipients. Chapter 11, "Audit Considerations of Federal Pass-Through Awards," discusses the audit considerations of federal pass-through awards.

Planning and Performing Testing of Internal Control Over Compliance for Major Programs

Assessing Control Risk

10.15 After obtaining an understanding of internal control over compliance for major programs, the auditor makes a preliminary assessment of control risk

for the assertions relevant to the compliance requirements for each major program. (Chapter 8 of this Guide discusses audit risk considerations in a compliance audit.) Control risk is the risk that material noncompliance that could occur in a major program will not be prevented or detected on a timely basis by the auditee's internal control over compliance. The assessment of control risk is the process of evaluating the effectiveness of an entity's internal control over compliance in preventing or detecting material noncompliance with the compliance requirements for each major program. In assessing control risk, the auditor should consider the guidance in SAS No. 55 (AU sec. 319.62-.83). The auditor should consider the preliminary assessment of control risk when he or she designs the nature and extent of tests of compliance. Paragraphs 10.16 through 10.18 discuss the Circular A-133 requirement to plan the testing of internal control over compliance to support a low assessed level of control risk. Paragraphs 10.19 through 10.21 discuss the auditor's responsibilities when internal control over compliance is ineffective in preventing or detecting noncompliance.

Planning the Testing of Internal Control Over Compliance for Major Programs to Support a Low Assessed Level of Control Risk

10.16 Circular A-133 requires the auditor to plan the testing of internal control over compliance for major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program. Professional standards do not define or quantify a low assessed level of control risk. Therefore, the auditor exercises professional judgment to determine the procedures necessary to obtain a low level of control risk. The auditor should consider the purpose of the requirement to plan the tests of controls to achieve a low assessed level of control risk (that is, federal agencies want to know if conditions indicate that auditees have not implemented adequate internal control over compliance for federal programs to ensure compliance with applicable laws and regulations).

10.17 Assessing control risk below the maximum level involves (a) identifying specific controls relevant to specific assertions, (b) performing tests of controls, and (c) concluding on the assessed level of control risk.

10.18 When the auditor assesses control risk below the maximum level, the auditor should obtain sufficient evidential matter to support that assessed level of control risk. The type of evidential matter, its source, its timeliness, and the existence of other evidential matter related to the conclusions to which it leads all bear on the degree of assurance the evidential matter provides. In obtaining evidential matter, the auditor should consider the guidance in SAS No. 55 (AU sec. 319.90-.104).

Existence of Ineffective Internal Control in Preventing or Detecting Noncompliance

10.19 When internal control over compliance for some or all of the compliance requirements for a major program are likely to be ineffective in preventing or detecting noncompliance, the auditor is not required to plan and perform tests of internal control over compliance as described in paragraphs 10.03, 10.16, and 10.22. If internal control over compliance is deemed likely to be ineffective, Circular A-133 requires the auditor to assess control risk at the maximum and consider whether any additional compliance tests are required

because of ineffective internal control. The auditor also is required to report a reportable condition (including whether such condition is a material weakness) as part of the audit findings. (Chapter 12 discusses how reportable conditions should be reported.)

10.20 The assessment of the effectiveness of internal control over compliance in preventing or detecting noncompliance is determined in relation to each individual type of compliance requirement for each major program or to an audit objective identified in the *Compliance Supplement*. For example, controls over requirements for eligibility may be ineffective because of a lack of segregation of duties. In this case, the auditor would be required to:

- Report the lack of segregation of incompatible duties as it relates to eligibility as a reportable condition (note that the reportable condition could be a material weakness).
- Assess the control risk related to requirements for eligibility at the maximum.
- Consider the lack of effective control when designing the nature, timing, and extent of procedures designed to test compliance with requirements for eligibility of the major program. In most cases, the extent of testing would need to be expanded.

10.21 In planning the tests of controls, the auditor will need to consider the results of tests performed in prior years. If the results of the prior year tests of controls prevented the auditor from assessing a low level of control risk, the auditor may consider expanded testing in the next audit period. That consideration should include the testing of any changes in internal control over compliance that were intended to eliminate deficiencies noted in the previous year. If, however, the auditee has made no changes to its internal control over compliance, the auditor may determine that controls are not likely to be effective and may choose not to plan and perform tests of controls. In this situation, the auditor should report a reportable condition as discussed in paragraph 10.19.

Performing Tests to Evaluate the Effectiveness of Controls

10.22 As noted in paragraph 10.03, Circular A-133 requires the auditor to perform testing of internal control over compliance as planned. (Paragraphs 10.19 through 10.21 discuss an exception related to ineffective internal control over compliance.) Procedures to evaluate the effectiveness of controls should include those described in SAS No. 55 (AU sec. 319.75–79). Procedures directed toward evaluating the effectiveness of the design of a control, may include (a) inquiries of appropriate personnel, including grant and contract managers; (b) the inspection of documents, reports, or electronic files; and (c) the observation of the application of the specific controls. Procedures to obtain evidential matter about the effectiveness of the operation of a control (tests of controls) include (a), (b), (c), and (d) the reperformance of the application of the controls by the auditor. The auditor should perform such procedures (unless control is likely to be ineffective) regardless of whether he or she would otherwise choose to obtain evidence to support an assessment of control risk below the maximum level.

Evaluating the Results of Tests of Controls

10.23 If, when evaluating the results of tests of controls, the auditor is not able to support a low assessed level of control risk for major programs, the auditor is not required to expand his or her testing of internal control over compliance.

The auditor may choose not to perform further tests. In that situation, the auditor would assess control risk at other than low, design tests of compliance accordingly, and consider the need to report an audit finding. (Chapter 12 of this Guide discusses the situations that Circular A-133 requires the auditor to report as audit findings.) In general, a reportable condition or a material weakness will need to be reported. Similarly, the auditor may decide to expand the testing of internal control over compliance, but that decision would be based on whether the auditor considered expanded internal control testing to be more efficient than additional tests of compliance. The auditor should consider whether, based on the testing performed, control risk can be assessed below the maximum to reduce substantive tests of compliance. If it cannot, the auditor should assess control risk at the maximum level.

Reportable Conditions and Material Weaknesses Related to Federal Programs

10.24 For purposes of reporting on internal control over compliance for federal programs, the definitions of a reportable condition and a material weakness, which are similar to those in SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325), as amended, are as follows:

- A *reportable condition* is a matter coming to the auditor's attention relating to significant deficiencies in the design or operation of internal control over compliance that, in the auditor's judgment, could adversely affect an entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants.
- A *material weakness* in internal control over compliance is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

10.25 In performing a single audit, the auditor should be aware that reportable conditions and material weaknesses are to be considered as they relate to a type of compliance requirement for each major program or to an audit objective identified in the *Compliance Supplement*. Further, certain conditions may be reportable conditions for a major program and not be considered reportable conditions as they relate to the assertions of management in the financial statements.²

Program Cluster Considerations

10.26 An entity may have separate controls related to individual federal programs that are treated as one program "cluster" under a Circular A-133 audit, such as student financial aid (SFA) and research and development (R&D). (Chapter 5, "Overview of the Single Audit Act, Circular A-133, and the

² Chapters 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," and 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide discuss the *Government Auditing Standards* requirement that the auditor communicate certain matters to the auditee in a management letter.

Compliance Supplement.” of this Guide discusses clusters of programs.) In this case, when evaluating whether an identified deficiency is a reportable condition, the auditor should consider the significance of the deficiency in relation to the overall major program (program cluster). Following are some examples:

- Significant deficiencies in specific controls over the time cards of college work-study students would likely be considered a reportable condition when college work-study program expenditures are significant in relation to SFA programs.
- Significant deficiencies in controls over a single campus or department of a university where a significant amount of research was administered would likely be a reportable condition when considered in relation to the total expenditures of R&D programs.
- A deficiency in an SFA or R&D program that was clearly insignificant to SFA or R&D, respectively, as a whole would not necessarily be considered a reportable condition.

Documentation Requirements

10.27 The auditor should document his or her understanding of the auditee’s internal control components that was obtained to plan the audit, and should document the basis for his or her conclusions about the assessed level of control risk related to internal control over compliance for major programs. If the auditor has not performed tests of controls relevant to certain requirements or programs as discussed in paragraphs 10.19 through 10.21, the auditor should document the rationale for omitting such tests.

10.28 As noted in Chapter 2, “Planning Considerations of *Government Auditing Standards*,” of this Guide, paragraph 4.22 of *Government Auditing Standards* includes an additional standard that requires audit documentation related to planning, conducting, and reporting on the audit to contain sufficient information to enable an experienced auditor having no previous connection with the audit to ascertain from them the evidence that supports the auditor’s significant conclusions and judgments. Paragraphs 4.22 and 4.24c of *Government Auditing Standards* also require that audit documentation contain (a) support for findings, conclusions, and recommendations before the auditors issue their report and (b) the auditor’s consideration that planned audit procedures are designed to achieve audit objectives when evidential matter obtained is highly dependent on computerized information systems and is material to the objective of the audit but the auditor is not relying on the effectiveness of internal control over those computerized systems that produced the information.

10.29 The form and extent of this documentation is influenced by the size and complexity of the auditee, as well as the nature of the auditee’s internal control over compliance. For example, the documentation of the understanding of internal control over compliance of a large, complex entity may include flowcharts, questionnaires, or decision tables. For a small entity, however, the documentation may be less extensive. In general, the more complex internal control over compliance and the more extensive the procedures performed, the more extensive the auditor’s documentation.

Consideration of Abuse

10.30 As discussed in chapter 3 of this Guide, paragraphs 4.17 through 4.20 of *Government Auditing Standards* discuss its additional fieldwork standard that requires auditors to be alert to situations or transactions that could be

indicative of abuse.³ Auditors have no responsibility to design the audit to detect abuse. However, if auditors become aware of indications of abuse that could materially⁴ affect the financial statement amounts or other financial data significant to the audit objectives, they should apply audit procedures specifically directed to ascertain whether abuse has occurred and the effect on the financial statement amounts or other financial data significant to the audit objectives. That standard, like all of the general, fieldwork, and reporting standards in *Government Auditing Standards*, applies to the entirety of the A-133 audit, including the compliance audit. Therefore, if in performing procedures on major programs, the auditor becomes aware of a situation or transaction that might constitute abuse, the auditor should extend procedures to determine whether it is indicative of abuse and potentially material to the financial statement amounts⁵ or to the major program. Chapter 3 of this Guide further discusses procedures relating to and the evaluation of indications of abuse and Chapter 8 of this Guide discusses the nature of abuse as it relates to federal awards. Chapter 12 of this Guide discusses the reporting of abuse involving federal awards.

³ Paragraph 4.19 of *Government Auditing Standards* describes “abuse” by stating that it is distinct from fraud, illegal acts, and violations of provisions of contracts or grant agreements. Abuse, it states, “involves behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances.”

⁴ Although *Government Auditing Standards* uses the term *significant* in its fieldwork standard for abuse in paragraph 4.17b, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

⁵ See footnote 1.

Chapter 11

Audit Considerations of Federal Pass-Through Awards

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “Government Auditing Standards Audits,” (Chapters 2, “Planning Considerations of Government Auditing Standards,” through 4, “Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “Circular A-133 Audits” (Chapters 5, “Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement,” through 13, “Program-Specific Audits”).

Introduction

11.01 Many nonfederal entities receiving federal awards make pass-through payments of federal awards to other entities that are considered subrecipients. The amount of those payments may be material to the pass-through entity's financial statements,¹ individual major programs, or both. This chapter discusses the auditor's consideration of pass-through federal awards in an audit of both pass-through entities and subrecipients of federal awards under Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). It also discusses the auditee's and auditor's responsibilities with respect to activities carried out by vendors. An auditee with multiple federal funding agreements may be a pass-through entity in regard to some awards, a subrecipient in regard to other awards, and a vendor with respect to other agreements.

Definitions

11.02 Circular A-133 includes the following definitions that are relevant to pass-through awards:

- **Federal award**—Federal financial assistance and federal cost-reimbursement contracts that nonfederal entities receive directly from federal

¹ As discussed in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor's consideration of materiality for purposes of planning, performing, evaluating the results of, and reporting on the audit of the financial statements of a state or local government is based on opinion units. See that Guide for further guidance.

awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

- *Nonfederal entity*—A state, local government, or non-profit organization (NPO).
- *Recipient*—A nonfederal entity that expends federal awards received directly from a federal awarding agency to carry out a federal program.
- *Pass-through entity*—A nonfederal entity that provides a federal award to a subrecipient to carry out a federal program.
- *Subrecipient*—A nonfederal entity that expends federal awards received from a pass-through entity to carry out a federal program but does not include an individual who is a beneficiary of such a program. A subrecipient may also be a recipient of other federal awards directly from a federal awarding agency.
- *Vendor*—A dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a federal program. These goods or services may be for an organization's own use or for the use of beneficiaries of the federal program.

Applicability of Circular A-133

11.03 Circular A-133 applies to both recipients expending federal awards received directly from federal awarding agencies and subrecipients expending federal awards received from a pass-through entity. Accordingly, both recipients and subrecipients that expend \$500,000* or more in federal awards are required to have a single or program-specific audit in accordance with Circular A-133. (Chapter 13, "Program-Specific Audits," of this Guide discusses program-specific audits).

11.04 The determination of when a federal award is expended is based on when the activity related to the award occurs. With respect to federal awards passed through to subrecipients, the activity that requires the pass-through entity to comply with laws, regulations, and the provisions of contracts or grant agreements is the disbursement of funds to subrecipients. The activity that requires subrecipients to comply with laws, regulations, and the provisions of contracts or grant agreements is the expenditure of the pass-through award.

11.05 Payments received by a vendor for goods or services provided in connection with a federal program are not considered federal awards. Furthermore, Medicaid payments to a subrecipient for providing patient care services to Medicaid-eligible individuals are not considered federal awards expended under Circular A-133 unless a state requires the funds to be treated as federal awards expended because reimbursement is on a cost-reimbursement basis.

11.06 If a pass-through entity provides federal awards to subrecipients, the pass-through entity is required to monitor the subrecipients' activities to provide reasonable assurance that the subrecipients administer federal awards in

* The June 27, 2003, revisions to Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) raised the threshold for the applicability of the Single Audit Act Amendments of 1996 (the Single Audit Act) and Circular A-133 from \$300,000 to \$500,000 effective for audits of fiscal years ending after December 31, 2003, and early implementation is not permitted. For audits in accordance with Circular A-133 for fiscal years ending on or before December 31, 2003, auditors should refer to the June 24, 1997, revision of Circular A-133 (except for its definition of *oversight agency for audit*) and to the 2003 edition of this Guide, titled *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*.

compliance with federal requirements. As part of the compliance audit, the auditor of the pass-through entity is required to test and report on subrecipient monitoring (which is one of the 14 types of compliance requirements in the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)*, as discussed in Chapter 8, "Compliance Auditing Applicable to Major Programs," of this Guide) when federal awards passed through to subrecipients are material to a major program (see paragraphs 11.24 through 11.35). If the federal awards provided are immaterial or relate to a program that is not considered major, the auditor of the pass-through entity has no additional compliance auditing responsibilities related to the funds passed through to subrecipients.

11.07 Most of this chapter focuses on compliance auditing considerations for auditors of pass-through entities. However, paragraphs 11.43 through 11.47 provide additional considerations for auditors of subrecipients.

Pass-Through Entities, Subrecipients, and Vendors

Subrecipient Status Versus Vendor Status

11.08 The responsibilities for compliance with federal program requirements and the applicable compliance requirements to be tested by the auditor are significantly different for pass-through entities, subrecipients, and vendors. Section 210 of Circular A-133 provides guidance on distinguishing between a subrecipient and a vendor; paragraphs 11.09 through 11.11 summarize that guidance.

Characteristics Indicative of a Federal Award Received by a Subrecipient

11.09 According to Circular A-133, characteristics indicative of a federal award received by a subrecipient are when the entity:

- Determines who is eligible to receive what federal financial assistance.
- Has its performance measured against whether the objectives of the federal program are met.
- Has responsibility for programmatic decision making.
- Has responsibility for adherence to applicable federal program compliance requirements.
- Uses the federal funds to carry out a program of the entity as compared to providing goods or services for a program of the pass-through entity.

Paragraph 11.12 provides examples of the relationship between pass-through entities and subrecipients.

Characteristics Indicative of a Payment for Goods or Services Received by a Vendor

11.10 According to Circular A-133, the characteristics indicative of a payment for goods or services received by a vendor are when the entity:

- Provides the goods and services within normal business operations.
- Provides similar goods or services to many different purchasers.
- Operates in a competitive environment.
- Provides goods or services that are ancillary to the operation of the federal program.
- Is not subject to the compliance requirements of the federal program.

Paragraph 11.13 provides examples of the relationship between pass-through entities and subrecipients.

Use of Judgment in Determining Subrecipient or Vendor Status

11.11 Circular A-133 states that there may be unusual circumstances or exceptions to the characteristics listed in paragraphs 11.09 and 11.10. In making the determination of whether a subrecipient or vendor relationship exists, the substance of the relationship is more important than the form of the agreement. It is not expected that all of the characteristics will be present, and judgment should be used in determining whether an entity is a subrecipient or vendor. In some cases, it may be difficult to determine whether the relationship with the entity is that of a subrecipient or of a vendor. The federal cognizant agency for audit, the oversight agency for audit, or the federal awarding agency may be of assistance in making those determinations.

Description of Relationships

Pass-Through Entity and Subrecipient

11.12 Following are examples of a typical relationship between a pass-through entity and a subrecipient:

- A state department of education (pass-through entity) receives a federal award and is responsible for administering and disbursing the federal award to local school districts (subrecipients) according to a formula or on some other basis.
- A regional planning commission (pass-through entity) receives a federal award for the feeding of elderly and low-income individuals, and the award is disbursed to NPOs (subrecipients) to support their feeding programs.
- A hospital (subrecipient) receives a federal award from a university (pass-through entity) to conduct research.
- A theater group (subrecipient) receives a federal award from a state arts commission (pass-through entity) to support a summer arts series.

Recipient and Vendor

11.13 Following are examples of a typical relationship between a recipient and a vendor:

- A local government (recipient) receives a federal award to provide mental health services in a designated area. Some of the funds are paid to a contractor (vendor) to repair a leaking roof.
- A county (recipient) receives a federal award to operate a Head Start program and pays an NPO (vendor) to provide temporary clerical services.
- An NPO (recipient) receives a federal award to run a preschool and pays a medical doctor (vendor) to perform health screening on a per-student basis.
- An NPO (recipient) receives a federal award to operate a child care center and pays a not-for-profit clinic (vendor) to perform physical exams.

Entity Is Both a Subrecipient and a Pass-Through Entity

11.14 There are instances in which an entity can be both a subrecipient and a pass-through entity, as shown in the following examples:

- A local government receives a pass-through federal award from a state government agency (the local government is a subrecipient) and further passes through a portion of the federal award to an NPO (the local government also is a pass-through entity) to administer a federal program.
- An NPO area agency receives a pass-through federal award from a state (the NPO area agency is a subrecipient) and further passes through a portion of the federal award to a for-profit health care provider (the NPO area agency also is a pass-through entity). Paragraph 11.40 discusses a pass-through entity's responsibilities when the subrecipient is a for-profit entity.

Vendor Compliance Considerations

Auditee's Responsibilities

11.15 Circular A-133 states that in most cases, the auditee's compliance responsibility for a vendor is only to ensure that the procurement, receipt, and payment for goods and services comply with laws, regulations, and the provisions of contracts or grant agreements. A program's compliance requirements normally do not pass through to vendors. However, the auditee is responsible for ensuring compliance for vendor transactions that are structured such that the vendor is responsible for program compliance or the vendor's records should be reviewed to determine compliance.

Auditor's Responsibilities

11.16 When vendors are responsible for program compliance, the auditor should determine whether vendor transactions are in compliance with laws, regulations, and the provisions of contracts or grant agreements if such transactions are material to a major program of the auditee. In such a case, the auditor would normally evaluate a vendor's compliance by reviewing the auditee's records and the results of the auditee's procedures for ensuring compliance by the vendor. When the auditor cannot obtain sufficient assurance from reviewing the auditee's records and procedures, the auditor should consider the need to report a reportable condition. The auditor also ordinarily will need to perform additional procedures to determine compliance. These procedures may include testing the vendor's records or obtaining reports on compliance procedures performed by the vendor's independent auditor.

11.17 Prior to performing a single or program-specific audit, it is important for the auditor to understand the nature of the auditee's vendor relationships, whether the vendors are responsible for program compliance, the auditee's procedures for ensuring vendor compliance, and whether it will be necessary for the auditor to test vendor records. The auditor should consider including such information in the communication used to establish an understanding with the auditee. (Chapter 6, "Planning Considerations of Circular A-133," of this Guide discusses establishing an understanding with the auditee.) If subsequent to undertaking a single or program-specific audit the auditor becomes aware of a significant vendor relationship that will require the auditor to perform additional procedures on vendor records, the auditor should inform the auditee that the requirements of Circular A-133 will not be met unless additional procedures are performed. If the auditee or vendor precludes the auditor from performing such additional procedures, the auditor should qualify his or her opinion or disclaim an opinion because of a scope limitation. (Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide further discusses scope limitations.)

Single Audit Considerations of Pass-Through Entities

11.18 The following matters are relevant to planning and conducting a single audit of a pass-through entity, and discussed in the rest of this section of this chapter:

- Pass-through entity responsibilities
- Audit planning considerations
- Consideration of internal control over compliance
- Subrecipient monitoring
- Reporting considerations
- For-profit subrecipients
- Non-U.S.-based entities
- A state's designation of a cluster of programs

Pass-Through Entity Responsibilities

11.19 A pass-through entity is responsible for ensuring that subrecipients expend awards in accordance with applicable laws, regulations, and provisions of contracts or grants. Circular A-133 requires a pass-through entity to perform the following for the federal awards it provides to subrecipients:

- Identify the federal awards made by informing each subrecipient of the *Catalog of Federal Domestic Assistance* (CFDA) title and number, the award's name and number, the award year, whether the award is for research and development (R&D), and the name of the federal agency. When some of this information is not available, the pass-through entity should provide the best information available to describe the federal award.
- Advise subrecipients of the requirements imposed on them by federal laws, regulations, and the provisions of contracts or grant agreements, as well as any supplemental requirements imposed by the pass-through entity.
- Monitor the activities of subrecipients as necessary to ensure that federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.
- Ensure that subrecipients expending \$500,000* or more in federal awards during the subrecipient's fiscal year have met the audit requirements of Circular A-133 for that fiscal year.
- Issue management decisions on audit findings within six months after receipt of subrecipients' audit reports, and ensure that subrecipients take appropriate and timely corrective action.
- Consider whether subrecipient audits necessitate the adjustment of the pass-through entity's own records.
- Require subrecipients to permit the pass-through entity and auditors to have access to the records and financial statements as necessary for the pass-through entity to comply with Circular A-133.
- Keep subrecipients' report submissions (or other written notification when the subrecipient is not required to submit a reporting package) on file for three years from the date of receipt. (See the further discussion in paragraph 11.47.)

* The June 27, 2003, revisions to Circular A-133 raised this amount from \$300,000. See footnote

* to paragraph 11.03.

Audit Planning Considerations

Effect of Pass-Through Federal Awards on the Determination of Major Programs

11.20 As noted in paragraph 11.04, the determination of when a federal award is expended is based on when the activity related to the award occurs. With respect to federal awards provided by a pass-through entity to subrecipients, the federal awards are deemed to be expended by the pass-through entity when the funds are disbursed to subrecipients, regardless of when subrecipients expend the federal funds. Accordingly, the amount of federal funds disbursed to subrecipients should be included in the total expenditures of federal awards of the pass-through entity and in the determination of the pass-through entity's major programs. (Chapter 9, "Determination of Major Programs," of this Guide discusses the determination of major programs.)

Pass-Through Entity Request for a Program to Be Audited as a Major Program

11.21 When a subrecipient expends \$500,000* or more of federal awards, Circular A-133 permits the pass-through entity to request that the program be audited as a major program in lieu of the pass-through entity conducting or arranging for additional audits. If the pass-through entity makes such a request, it is required to pay the full incremental cost for such an audit. (Chapters 5, "Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*," and 9 of this Guide provides additional information.)

Materiality

11.22 The auditor of the pass-through entity should compare the amount of federal funds passed through to subrecipients with the total expenditures for each individual major program or cluster to determine if the amount is material. The auditor's consideration of materiality is a matter of professional judgment and is influenced by the auditor's perception of the needs of a reasonable person who will rely upon the auditor's work. When the amount of federal funds passed through to subrecipients is material in relation to the major program being audited, the need is greater for the auditor to test the subrecipient-monitoring requirements. It should be noted that some federal programs are designed in such a manner that subrecipient expenditures are intended to be material to the pass-through entity's award. For example, the Community Services Block Grant requires a state to subgrant at least 90 percent of the state's award.

Consideration of Internal Control Over Compliance

11.23 As part of performing procedures to obtain an understanding of internal control over compliance for federal programs that is sufficient to plan the audit of the pass-through entity to support a low assessed level of control risk for major programs, the auditor should consider the pass-through entity's internal control over compliance used to monitor subrecipients. (See Chapter 10, "Consideration of Internal Control Over Compliance for Major Programs," of this Guide.) Tests of internal control over compliance used to monitor subrecipients may include inquiry, observation and inspection of documentation,

* The June 27, 2003, revisions to Circular A-133 raised this amount from \$300,000. See footnote * to paragraph 11.03.

or a reperformance by the auditor of some or all of the monitoring procedures identified in paragraph 11.28. The nature and extent of the tests performed will vary depending on the auditor's assessment of inherent risk, understanding of the internal control over compliance, materiality, and professional judgment. Auditors should consider referring to Part 6 of the *Compliance Supplement*, which describes (among other things) certain characteristics of internal control over compliance that, when present and operating effectively, may ensure compliance with program requirements for subrecipient monitoring. The results of the auditor's testing of internal control over compliance assist in determining the nature, timing, and extent of subrecipient monitoring compliance testing.

Subrecipient Monitoring

11.24 The Single Audit Act Amendments of 1996 (the Single Audit Act) requires the pass-through entity to monitor subrecipients' use of federal awards through site visits, limited scope audits, or other means. Because the pass-through entity is held accountable for federal awards administered by their subrecipients, the pass-through entity needs to establish an appropriate subrecipient-monitoring process and to decide what, if any, additional monitoring procedures may be necessary to ensure the subrecipients' compliance. Arrangements for subrecipient monitoring should be made by the pass-through entity in its agreements with subrecipients.

11.25 Auditors should consider subrecipient monitoring in a compliance audit of an entity that disburses to subrecipients federal awards that are material to a major program. (Paragraph 11.22 discusses materiality.) The auditor should consider whether the pass-through entity monitors subrecipients and has established internal control over compliance that provides reasonable assurance that subrecipients are managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of the pass-through entity's major programs.

Compliance Supplement Guidance

11.26 One of the 14 types of compliance requirements included in the *Compliance Supplement* is subrecipient monitoring. The *Compliance Supplement* identifies several audit objectives for subrecipient monitoring. According to the *Compliance Supplement*, in a single audit of a pass-through entity, the auditor should obtain an understanding of internal control, assess risk, and test internal control as required by the Circular, and determine whether the pass-through entity:

- Properly identified federal award information and compliance requirements to the subrecipient, and approved only allowable activities in the award documents.
- Monitored subrecipient activities to provide reasonable assurance that the subrecipient administers federal awards in compliance with federal requirements.
- Ensured that the required audits were performed, issued a management decision on audit findings within six months after receipt of the subrecipient's audit report, and ensured that the subrecipient took timely and appropriate corrective action on all audit findings.
- Took appropriate action using sanctions in cases of continued inability or unwillingness of a subrecipient to have the required audits.
- Evaluated the effect of subrecipient activities on the pass-through entity.

11.27 As discussed in Chapter 8 of this Guide, the *Compliance Supplement* also identifies the suggested audit procedures for testing the compliance audit objectives for pass-through entities. The auditor may consider coordinating the subrecipient-related tests performed as part of cash management (tests of cash reports submitted by subrecipients), eligibility (tests that subawards were made only to eligible subrecipients), and procurement (tests of suspension and debarment certifications) with the tests of subrecipient monitoring.

Pass-Through Entity Monitoring Procedures

11.28 Part 3 of the *Compliance Supplement* discusses the pass-through entity's subrecipient monitoring responsibilities and activities. The monitoring procedures that a pass-through entity may use include on-site visits, reviews of financial and performance reports submitted by the subrecipient, regular contacts with subrecipients and appropriate inquiries concerning program activities, and limited-scope audits. Limited-scope audits are agreed-upon procedures engagements that are conducted in accordance with the AICPA attestation standards, and that are paid for and arranged by a pass-through entity and only address one or more of the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort, and earmarking; and reporting. Following are other monitoring procedures that a pass-through entity may perform:

- Reviewing grant applications submitted by subrecipients to determine that:
 - Applications are filed and approved in a timely manner.
 - Each application contains the condition that the subrecipient comply with the federal requirements set by the federal agency.
- Establishing internal control over compliance to provide reasonable assurance that:
 - Funds are disbursed to subrecipients only on an as-needed basis.
 - Funds are disbursed to subrecipients only on the basis of approved, properly completed reports submitted on a timely basis.
 - Refunds that are due from subrecipients are billed and collected in a timely manner.
 - Subrecipients and other entities and individuals receiving federal funds meet eligibility requirements.
- Reviewing financial and technical reports received from subrecipients on a timely basis and investigating unusual items
- Reviewing subrecipient audit reports to evaluate them for completeness and for compliance with applicable laws and regulations
- Evaluating audit findings; issuing appropriate management decisions, if necessary; and determining if an acceptable plan for corrective action has been prepared and implemented
- Reviewing previously detected deficiencies and determining that corrective action was taken

Monitoring When the Subrecipient Has a Single or Program-Specific Audit

11.29 As noted in paragraph 11.03, subrecipients that expend \$500,000* or more in federal awards are required to have a single or program-specific audit

* The June 27, 2003, revisions to Circular A-133 raised this amount from \$300,000. See footnote * to paragraph 11.03.

in accordance with Circular A-133. If subrecipients have a single or program-specific audit, the pass-through entity's receipt and review of the results of that audit and its action on related findings may be sufficient to meet the subrecipient-monitoring requirements of Circular A-133.² However, it is more likely that the receipt and review of such audit results should be merely one tool that should be used by the pass-through entity as part of a comprehensive subrecipient-monitoring process. Pass-through entities should be aware that a single audit is likely to provide varying degrees of assurance concerning a particular program. For example, a pass-through award may not have been tested as a major program as part of a subrecipient's audit. For this reason, the pass-through entity should consider the testing and results of the single audit of the subrecipient to determine what effect those results should have on other monitoring procedures employed by the pass-through entity.

11.30 In many cases, the pass-through entity will not have received all the subrecipient audit reports covering the time period being audited at the pass-through entity in time to incorporate the results into its own audit. The reports for the pass-through entity and the subrecipient are not required to be issued simultaneously, but the pass-through entity is required to have internal control over compliance in place to determine that (a) subrecipient audit reports have been received and (b) corrective action is taken after the receipt of the subrecipient's audit. If the subrecipient's audit report is current, it need not cover the same period as the pass-through entity's audit. If the pass-through entity has an effective system for monitoring subrecipients, its auditor should be able to rely on the subrecipient's audit cycle, even if it is not coterminous with the pass-through recipient's fiscal year.

Considering Risk Factors When Developing Monitoring Procedures

11.31 The *Compliance Supplement* and the preamble to Circular A-133 state that the OMB expects pass-through entities to consider various risk factors (such as the relative size and complexity of the federal awards administered by subrecipients, the entity's prior experience with each subrecipient, and the cost-effectiveness of various monitoring procedures) in developing the nature, timing, and extent of subrecipient-monitoring procedures. For example, if a pass-through entity provides a large percentage of the only federal award it expends to 10 subrecipients that each expends less than \$500,000* in federal awards annually, the pass-through entity should carefully consider the most cost-effective method of monitoring these federal awards. Perhaps the majority of this federal award is provided to two subrecipients. The pass-through entity might consider conducting site visits at these two subrecipients and simply reviewing the documentation supporting requests for reimbursement from the other eight subrecipients. Conversely, if a small percentage of a federal award is provided to subrecipients that each expends less than \$500,000 in federal awards, the risk to the pass-through entity is most likely low and, therefore, the monitoring procedures could be minimal.

² As discussed in paragraph 11.47, a subrecipient is not required to submit its audit report to the pass-through entity when it has no audit findings or the summary schedule of prior audit findings does not report the status of any audit findings. The *OMB Circular A-133 Compliance Supplement (Compliance Supplement)* suggests that in those situations a pass-through entity may use the information in the Federal Audit Clearinghouse (FAC) database (available at the FAC Internet site at <http://harvester.census.gov/sac>) as evidence to verify that the subrecipient had "no audit findings" and that the required audit was performed.

* The June 27, 2003, revisions to Circular A-133 raised this amount from \$300,000. See footnote * to paragraph 11.03.

Unallowable Audit Costs

11.32 For subrecipients that expend less than \$500,000* in federal awards annually, the cost of any audits or attestation engagements (other than the limited-scope audits paid for and arranged by a pass-through entity as described in paragraph 11.28), are not allowable costs and, therefore, cannot be charged to any federal award. Accordingly, Circular A-133 would prohibit the cost of a financial statement audit conducted in accordance with generally accepted auditing standards (GAAS) or *Government Auditing Standards* from being charged (by either a pass-through entity or subrecipient) to federal awards for a subrecipient that expends less than \$500,000 in federal awards annually. Chapter 5 of this Guide discusses the allowability of audit costs in greater detail.

When the Subrecipient Monitoring System Is Not Sufficient

11.33 The auditor may determine that the pass-through entity's subrecipient-monitoring system is not sufficient to ensure the subrecipient's compliance with laws, regulations, and the provisions of grants and contracts. In this situation, the auditor should report a reportable condition (and possibly a material weakness) and consider whether the insufficient monitoring system represents an instance of noncompliance that should be reported as a compliance finding. The effect of the noncompliance on the opinion on compliance for major programs is primarily a function of the pervasiveness of the lack of monitoring and the materiality of subrecipient funding to a program. For example, if the pass-through entity did not perform subrecipient-monitoring procedures and 90 percent of the program was passed through to subrecipients, an opinion modification would likely be warranted. This would likely be the case even if the scope of the audit was expanded to include additional audit procedures to determine that the subrecipients actually complied with laws and regulations.

11.34 There may be instances in which the pass-through entity asks the auditor to perform additional procedures to determine the compliance of a subrecipient (such as conducting tests of records at the subrecipient's site). This would be considered an expansion of the scope of the audit. The auditor should be aware that such an expansion of the scope of the audit would not be sufficient to remedy the reportable condition (or material weakness) and, if applicable, noncompliance of the pass-through entity's monitoring system. However, an expansion of the scope of the audit may remedy the noncompliance related to the type of compliance requirement being tested (for example, eligibility).

11.35 The auditor also should consider any implications of an insufficient subrecipient-monitoring system on the opinion on the financial statements. If amounts passed through to subrecipients are considered material to the financial statements of the pass-through entity, the auditor should determine whether the report on the financial statements should be modified. Before making this determination, the auditor should take into consideration any evidential matter that may be available to the auditor (such as subrecipients' Circular A-133 audit reports and other financial reports that may have been submitted to the pass-through entity) that could indicate that the subrecipients administered the program in compliance with laws and regulations. Further, the auditor also should consider whether it is necessary to report an internal control or compliance finding in the report issued to meet the requirements of *Government Auditing Standards*.

* The June 27, 2003, revisions to Circular A-133 raised this amount from \$300,000. See footnote * to paragraph 11.03.

Reporting Considerations

Schedule of Expenditures of Federal Awards

11.36 Circular A-133 states that, to the extent practical, pass-through entities should identify in the schedule of expenditures of federal awards the total amount provided to subrecipients from each federal program. (Chapter 7, “Schedule of Expenditures of Federal Awards,” of this Guide discusses the schedule.) If a pass-through entity is unable to identify amounts provided to subrecipients, the auditor should consider whether a reportable condition (and possibly a material weakness) should be reported. The auditor also should consider whether material noncompliance (for subrecipient monitoring) has occurred, which should be reported as an audit finding.

Evaluation of Audit Findings

11.37 Circular A-133 requires the auditor to consider a finding in relation to the type of compliance requirement (subrecipient monitoring, in this case) or an audit objective identified in the *Compliance Supplement*, whether or not the finding can be quantified. For example, the auditor may discover that a pass-through entity consistently failed to provide its subrecipients with federal award information, including applicable compliance requirements. The pertinent audit objective included in the *Compliance Supplement* and relating to this example is for the auditor to “determine whether the pass-through entity identifies federal award information and compliance requirements to the subrecipient.” Because the pass-through entity failed to provide federal award information to its subrecipients, this noncompliance is material in relation to the audit objective and, therefore, should be reported as an audit finding. In addition, the auditor should consider whether reportable conditions (and possibly, material weaknesses in internal control) exist and require reporting with respect to subrecipient monitoring.³

Effect of Subrecipients’ Noncompliance on the Pass-Through Entity’s Report

11.38 The instances of noncompliance reported in subrecipients’ audit reports are not required to be included in the pass-through entity’s audit report. However, the auditor of the pass-through entity should consider the effects of reported instances of subrecipient noncompliance or indications of weaknesses in the pass-through entity’s subrecipient-monitoring system that could have a material effect on each of the pass-through entity’s major programs.

Adjustment of Pass-Through Entity Financial Records and Reports

11.39 Questioned costs at the subrecipient level that are found to be unallowable by the pass-through entity may require the pass-through entity to adjust its financial records and its federal expenditure reports. The total of allowable program costs in excess of required expenditure levels and the requirements of individual programs regarding the timing of claims will affect whether the pass-through entity will need to reflect a liability to the awarding agency in its financial statements. As part of the finding-resolution process, the pass-through entity should estimate the total unallowable costs that are associated with each subrecipient finding and consider the need to adjust financial

³ Chapters 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*,” and 12, “Auditor Reporting Requirements and Other Communication Considerations in a Single Audit,” of this Guide discuss the *Government Auditing Standards* requirement that the auditor communicate certain matters to the auditee in a management letter.

records and federal expenditure reports. The failure of the pass-through entity to adjust its records and federal reports should be considered by the auditor in forming an opinion on compliance for major programs.

For-Profit Subrecipients

11.40 Because Circular A-133 does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. Circular A-133 states that the contract with the for-profit subrecipient should describe applicable compliance requirements and the for-profit subrecipient's compliance responsibility. Methods to ensure compliance for federal awards made to for-profit subrecipients may include preaward audits, monitoring during the contract, and postaward audits. The auditor's responsibilities related to for-profit subrecipients are similar to those of not-for-profit subrecipients; see paragraphs 11.24 through 11.35 (as applicable) for a further discussion of subrecipient monitoring.

Non-U.S.-Based Entities

11.41 As discussed in Chapter 5 of this Guide, Circular A-133 does not apply to non-U.S.-based entities expending federal awards received either directly as a recipient or indirectly as a subrecipient. Therefore, the responsibilities that a pass-through entity and its auditor have for a non-U.S.-based entity are the same as those for a for-profit subrecipient (see paragraph 11.40).

State Designation of a Cluster of Programs

11.42 Circular A-133 includes a provision that allows a state to designate as a cluster a grouping of closely related programs that share common compliance requirements. When designating a cluster of programs, a state is required by Circular A-133 to identify the federal awards included in the cluster and to advise subrecipients of the compliance requirements applicable to the cluster. (Chapter 5 of this Guide discusses clusters of programs.)

Circular A-133 Audit Considerations of Subrecipients

11.43 Auditors of subrecipients should be aware that subrecipients have additional considerations under Circular A-133. These considerations, as discussed in this section, concern (a) additional compliance requirements that may be established by the pass-through entity, (b) information included in the schedule of expenditures of federal awards, (c) audit findings, and (d) the submission of the report.

Additional Compliance Requirements Established by Pass-Through Entities

11.44 Federal awards normally are distributed to subrecipients only on the basis of properly completed and approved awards. These written agreements require subrecipients to comply with the requirements of the federal agency and, in some instances, additional requirements established by the pass-through entity. Hence, in addition to providing an audit satisfying the requirements of Circular A-133, the auditor may be engaged to test compliance with requirements specified by the pass-through entity.

Information Included in the Schedule of Expenditures of Federal Awards

11.45 For federal awards received as a subrecipient, Circular A-133 requires the schedule of expenditures of federal awards to include the name of the pass-through entity and identifying number assigned by the pass-through entity. Circular A-133 states that, to make the schedule easier to use, subrecipients may choose to provide information requested by federal awarding agencies and pass-through entities, although this information is not required. Chapter 7 of this Guide discusses the schedule.

Audit Findings

11.46 Audit findings (for example, internal control findings, compliance findings, questioned costs, or fraud) that relate to the same issue should be presented as one audit finding. Circular A-133 states that where practical, audit findings should be organized by federal agency or pass-through entity. (Chapter 12 of this Guide discusses audit findings).

Submission of Report

11.47 Section 320(e) of Circular A-133 has additional report-submission responsibilities for subrecipients. When a subrecipient is not required to submit a reporting package to the pass-through entity (because it has no audit findings or the summary schedule of prior audit findings does not report the status of any audit findings), the subrecipient is required to provide written notification of this to the pass-through entity. Chapter 12 of this Guide discusses the required contents of the written notification and the submission of the report by subrecipients.

Chapter 12

Auditor Reporting Requirements and Other Communication Considerations in a Single Audit

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “*Government Auditing Standards Audits*,” (Chapters 2, “*Planning Considerations of Government Auditing Standards*,” through 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and *Government Auditing Standards*. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “*Circular A-133 Audits*” (Chapters 5, “*Overview of the Single Audit Act, Circular A-133, and the Compliance Supplement*,” through 13, “*Program-Specific Audits*”).

Overview

12.01 This chapter discusses the auditor’s reporting requirements and other communication considerations in a single audit under Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). It also provides illustrative auditor’s reports in Appendix A (paragraph 12.54). (Chapter 13, “*Program-Specific Audits*,” discusses the auditor’s reporting requirements in and provides illustrative reports for a program-specific audit.)

12.02 The auditor’s reporting responsibilities in a single audit are driven by the three levels of auditing standards and requirements: generally accepted auditing standards (GAAS), *Government Auditing Standards*, and Circular A-133. These standards and requirements expand the level of auditor responsibility from reporting on an auditee’s financial statements to also reporting on internal control and on compliance. The auditor has additional reporting responsibilities for the audit of the financial statements in accordance with *Government Auditing Standards* (see Chapter 4, “*Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards*,” of this Guide), and for the compliance audit applicable to major programs in accordance with Circular A-133 (see Chapters 8, “*Compliance Auditing Applicable to Major Programs*,” through 10, “*Consideration of Internal Control Over Compliance for Major Programs*,” of this Guide). The auditor

also has certain additional communication considerations under GAAS and *Government Auditing Standards* related to internal control, fraud, illegal acts, violations of contracts or grant agreements, abuse, and other matters noted in the audit as discussed in this chapter and in Chapter 4 of this Guide.

Circular A-133 Requirements

Auditor's Reports

12.03 Circular A-133 requires the auditor's report(s) to include:

- An opinion (or disclaimer of opinion)¹ on whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles (GAAP) (paragraph 12.10 discusses basis of accounting) and an opinion (or a disclaimer of opinion) on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements taken as a whole.
- A report on the internal control related to the financial statements and on the internal control related to major programs. This report should describe the scope of testing of internal control and the results of the tests and, where applicable, refer to the separate schedule of findings and questioned costs.
- A report on compliance with laws, regulations, and the provisions of contracts or grant agreements (hereinafter referred to as *compliance requirements*), noncompliance with which could have a material effect on the financial statements. This report also should include an opinion (or a disclaimer of opinion) on whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on each major program, and where applicable, refer to the separate schedule of findings and questioned costs.
- A schedule of findings and questioned costs.

Paragraphs 12.07 through 12.09 describe the auditor's reports recommended in this Guide.

Data Collection Form

12.04 Circular A-133 also requires the auditor to complete applicable sections of and sign a data collection form that summarizes the auditor's results, findings, and questioned costs. (See paragraphs 12.44 through 12.43.)

Reporting Package

12.05 The auditee is required to submit a reporting package that includes the following:

¹ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government's basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. In addition, the auditor may provide opinions or disclaimers of opinions on additional opinion units if engaged to set the scope of the audit and assess materiality at a more detailed level than by the opinion units required for the basic financial statements. Throughout this Guide, the use of the singular terms *opinion* and *disclaimer of opinion* encompasses the multiple opinions and disclaimers of opinion that generally will be provided on a government's financial statements.

- Financial statements and a supplementary schedule of expenditures of federal awards (See Chapter 7, “Schedule of Expenditures of Federal Awards.”)
- Auditor’s reports (See paragraphs 12.07 through 12.09.)
- A summary schedule of prior audit findings (See paragraphs 12.41 and 12.42.)
- A corrective action plan (See paragraphs 12.41 and 12.43.)

12.06 Although not part of the reporting package, the report submission to the Federal Audit Clearinghouse (FAC) also should include the data collection form described in paragraphs 12.44 through 12.46, part of which the auditee completes. Paragraphs 12.47 through 12.52 discuss the reporting package and data collection form submission requirements.

Recommended Auditor’s Reports

12.07 Reporting on a financial statement audit and on the compliance requirements applicable to each major program involves varying levels of materiality and different forms of reporting. Circular A-133 states that the auditor’s report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in the circular. In an effort to make the reports understandable and to reduce the number of reports issued, this Guide recommends that the following reports be issued:

- a. A report on the financial statements and on the supplementary schedule of expenditures of federal awards² (See paragraph 12.10 through 12.15.)
- b. A report on internal control over financial reporting³ and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards* (See paragraphs 12.16 and 12.17.)
- c. A report on compliance with requirements applicable to each major program and on internal control over compliance⁴ in accordance with Circular A-133 (See paragraphs 12.18 through 12.25.)
- d. A schedule of findings and questioned costs (See paragraphs 12.31 through 12.40.)

12.08 Appendix A (paragraph 4.44) in Chapter 4 of this Guide and Appendix A (paragraph 12.54) in this chapter present illustrative auditor’s reports for single audits. As noted previously, those reports combine reports on compliance and internal control at the financial statement audit level and at the major program compliance audit level. Auditors need to understand the intended purpose of the reports and should tailor the reporting to the specific auditee situation. Because the reports issued to comply with Circular A-133 involve varying levels of materiality and different forms of reporting, auditors

² Note that in certain circumstances the auditor may report on the schedule of expenditures of federal awards in his or her report on compliance with requirements applicable to each major program and on internal control over compliance in accordance with Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). See paragraph 12.15 for a further discussion.

³ Controls relevant to an audit of the financial statements are referred to collectively in this Guide as “internal control over financial reporting” and are encompassed in the reporting on internal control required by *Government Auditing Standards*.

⁴ Controls relevant to an audit of compliance with requirements applicable to major federal programs are referred to collectively in this Guide as “internal control over compliance” and are encompassed in the reporting on internal control required by Circular A-133.

should exercise care in issuing reports to ensure that they meet all of the varying reporting requirements of GAAS, *Government Auditing Standards*, and Circular A-133. The basic elements of each of the recommended reports are discussed later in this chapter. Professional judgment should be exercised in any situation not specifically addressed in this Guide.

12.09 Table 12-1 provides a matrix depicting the recommended auditor's reports in a single audit required by GAAS, *Government Auditing Standards*, and Circular A-133.

Table 12-1

Recommended Reporting in Single Audits

Report	GAAS	Required by	
		Government Auditing Standards	Circular A-133
Opinion (or disclaimer of opinion) on financial statements and supplementary schedule of expenditures of federal awards	X	X	X
Report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements		X	X
Report on compliance and internal control over compliance applicable to <i>each</i> major program (this report includes separate opinions [or disclaimers of opinion] on each major program's compliance)			X
Schedule of findings and questioned costs			X

Reporting on the Financial Statements and Supplementary Schedule of Expenditures of Federal Awards in Accordance With GAAS and *Government Auditing Standards*

Basis of Accounting

12.10 Circular A-133 does not prescribe the basis of accounting that auditees should use to prepare their financial statements or the schedule of expenditures of federal awards. However, auditees are required to disclose the bases of accounting and the significant accounting policies used in preparing the financial statements and the schedule of expenditures of federal awards. The auditee also should be able to reconcile amounts presented in the financial statements to related amounts included in the schedule of expenditures of federal awards. Circular A-133 requires the auditor to issue an opinion (or a disclaimer

of opinion) as to whether the financial statements are presented fairly in all material respects in conformity with GAAP⁵ and as to whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the auditee's financial statements taken as a whole.

Implementing Regulations of Federal Awarding Agencies May Define the Entity to Be Audited Differently Than Does GAAP

12.11 The regulations implementing Circular A-133 may define the entity to be audited for single audit purposes differently than the reporting entity would be defined in conformity with GAAP. For example, Statement of Position (SOP) 94-3, *Reporting of Related Entities by Not-for-Profit Organizations*, requires presentation of consolidated financial statements when one not-for-profit organization (NPO) (the parent) controls the voting majority of the board of and has an economic interest in another NPO. If the regulations of the federal agency that provides federal awards to the parent define the entity for single audit purposes to consist of only the parent, audited parent-only financial statements instead of consolidated financial statements should be submitted to comply with these regulations. If the NPO's consolidated financial statements are not also prepared as required by GAAP, the auditor should consider whether to express an other than an unqualified opinion due to a material departure from GAAP on the parent-only financial statements. Paragraphs 35 through 60 of Statement on Auditing Standards (SAS) No. 58, *Reports on Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 508.35–60), as amended, and various AICPA Audit and Accounting Guides, including *Health Care Organizations*, *Not-for-Profit Organizations*, and *State and Local Governments*, provide guidance on reporting when there is a departure from GAAP.

Report on the Financial Statements and on the Supplementary Schedule of Expenditures of Federal Awards

12.12 Chapter 4 of this Guide describes the requirements of the auditor's standard report on the financial statements and on accompanying supplementary information—required supplementary information (RSI) and supplementary information other than RSI (known as SI). Appendix A (paragraph 4.44) in Chapter 4 of this Guide illustrates that report. With regard to the schedule of expenditures of federal awards, this Guide recommends that the auditor report on that schedule in the report on the financial statements as SI; see illustrative paragraphs for that report in paragraphs 12.13 and 12.14.⁶ (See

⁵ Statement on Auditing Standards (SAS) No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623), as amended, establishes requirements for reporting on audits of financial statements that are prepared in conformity with comprehensive bases of accounting other than generally accepted accounting principles (GAAP), known as *other comprehensive bases of accounting*, or OCBOA. The AICPA Audit and Accounting Guide *State and Local Governments* discusses the application of SAS No. 62, as amended, and Auditing Interpretation No. 14, "Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting," of SAS No. 62 (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.90–95) to state and local governmental financial statements. That Guide also provides an illustrative auditor's report on OCBOA financial statements. In addition, in the AICPA's Practice Aid Series, two publications—*Applying OCBOA in State and Local Governmental Financial Statements* and *Preparing and Reporting on Cash- and Tax-Basis Financial Statements*—provide nonauthoritative guidance on preparing and reporting on OCBOA financial statements.

⁶ SAS No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents* (AICPA, *Professional Standards*, vol. 1, AU sec. 551), as amended, and paragraph 7 of SAS No. 8, *Other Information in Documents Containing Audited Financial Statements* (AICPA, *Professional Standards*, vol. 1, AU sec. 550.07), as amended, provide guidance on such reporting.

paragraph 12.15 if the schedule does not accompany the financial statements.) Accordingly, the report on the financial statements as it relates to the schedule of expenditures of federal awards should include:

- a. An identification of the schedule of expenditures of federal awards as accompanying supplementary information. This identification may be by descriptive title or by page number of the document.
- b. A statement that the audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole (or for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of a state or local government), and that the schedule of expenditures of federal awards required by Circular A-133 is presented for purposes of additional analysis and is not a required part of the financial statements.
- c. An opinion on whether the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

12.13 The following is an illustrative paragraph for the auditor's reporting on the schedule of expenditures of federal awards for a state or local government:

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Example's basic financial statements. The accompanying schedule of expenditures of federal awards⁷ is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.⁸

12.14 The following is an illustrative paragraph for the auditor's reporting on the schedule of expenditures of federal awards for an NPO:

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards⁹ is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.¹⁰

⁷ If the auditor is reporting on additional supplementary information (for example, combining and individual nonmajor fund financial statements and schedules), this paragraph should be modified to describe the additional supplementary information. See the illustrative report in Appendix A (paragraph 4.44) in Chapter 4, "Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*," of this Guide as well as the illustrative reports in the AICPA Audit and Accounting Guide *State and Local Governments* and SAS No. 29, as amended.

⁸ When reporting on the supplementary information, the auditor should consider the effect of any modifications to the report on the basic financial statements. Furthermore, if the report on supplementary information is other than unqualified, this paragraph should be modified. Guidance for reporting in these circumstances is described in SAS No. 29 (AU sec. 551.09-.11, .13, and .14).

⁹ If the auditor is reporting on additional supplementary information (for example, a comparison of actual and budgeted expenses), this paragraph should be modified to describe the additional supplementary information. SAS No. 29, as amended, provides useful guidance.

¹⁰ See footnote 8.

12.15 Some entities do not present the schedule of expenditures of federal awards with the financial statements; that is, they issue a separate single audit package. In such a circumstance, the required reporting on the schedule may be incorporated in the report issued to meet the requirements of Circular A-133. Footnotes in the illustrative reports in Appendix A (paragraph 12.54), Examples 12-1 and 12-2, illustrate how to incorporate the reporting on the schedule into the Circular A-133 report. See also paragraphs 12.26 through 12.28 for information on dating the reports in that situation.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

12.16 As discussed in Chapter 4 of this Guide, *Government Auditing Standards* requires the auditor to issue a report that describes the scope of the auditor's testing of internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements and present the results of those tests. *Government Auditing Standards* also requires the auditor to report, as applicable to the objectives of the audit, (a) reportable conditions in internal control over financial reporting, (b) all instances of fraud and illegal acts¹¹ unless clearly inconsequential,¹² (c) material¹³ violations of provisions of contracts or grant agreements, and (d) material abuse. (Chapter 4 of this Guide describes the requirements of the auditor's standard report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*. Appendix A (paragraph 4.44) in that chapter illustrates that report.) In an audit conducted in accordance with Circular A-133, the auditor should apply a financial statement materiality consideration in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report and reporting findings that are not material to the financial statements again in the *Government Auditing Standards* report would be unnecessarily duplicative. (See paragraph 12.35.) Exhibit 12-1 is a flowchart that illustrates the evaluation and reporting of findings of fraud and noncompliance under *Government Auditing Standards* when the auditee is subject to an audit in accordance with Circular A-133 audit. (Chapter 4 of this

¹¹ Paragraph 4.18 of *Government Auditing Standards* and paragraph 2 of SAS No. 54, *Illegal Acts by Clients* (AICPA, *Professional Standards*, vol. 1, AU sec. 317.02), define the term *illegal acts* as violations of laws and regulations. As indicated in Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide, it generally has been interpreted under generally accepted auditing standards (GAAS) that the term [11] *laws and regulations* in SAS No. 54 implicitly includes provisions of contracts or grant agreements. This Guide sometimes collectively refers to laws, regulations, and provisions of contracts and grant agreements as *compliance requirements* and to illegal acts and violations of provisions of contracts or grant agreements as *noncompliance* or *instances of noncompliance*.

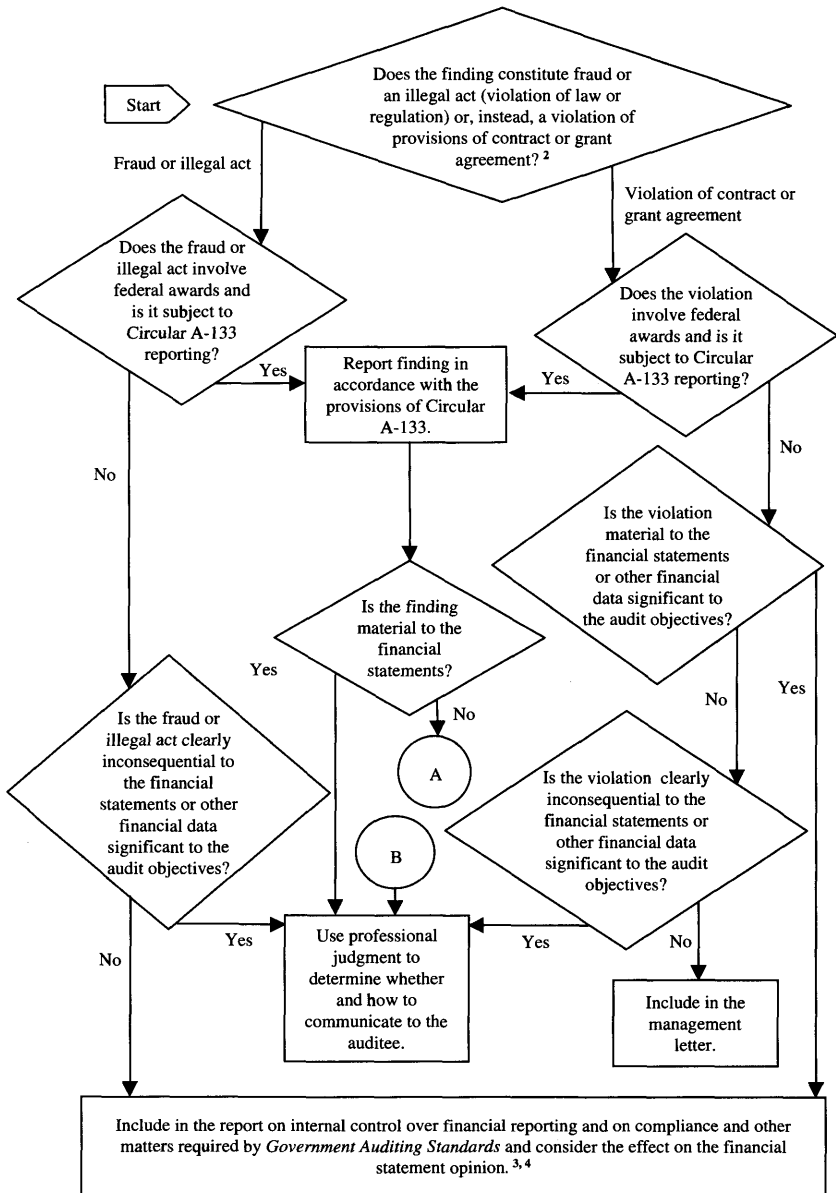

¹² Footnote 54 to paragraph 5.12 of *Government Auditing Standards* states that if the auditor is performing an audit in accordance with Circular A-133, the circular defines the thresholds for reporting and that those thresholds are sufficient to meet the requirements of *Government Auditing Standards*. Paragraph 12.35 lists the fraud and illegal acts related to federal awards that Circular A-133 requires to be reported.

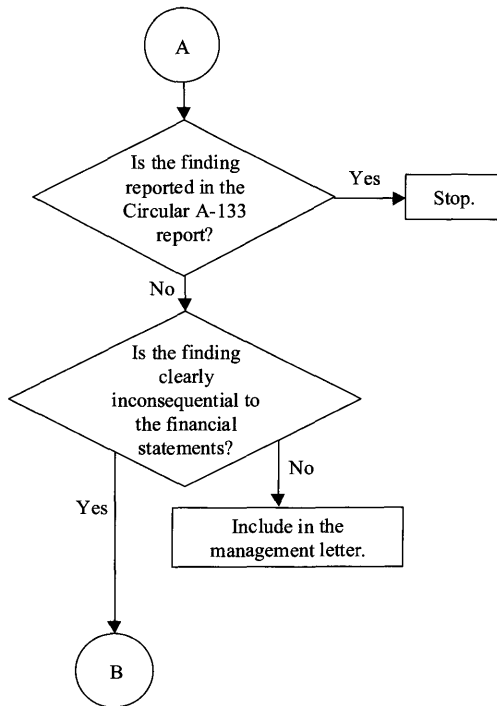

¹³ Although *Government Auditing Standards* uses the term *significant* in its reporting standard for violations of provisions of contracts or grant agreements and abuse in paragraph 5.12, footnote 47 to paragraph 4.18 of *Government Auditing Standards* states that it considers the terms *material* and *significant* to be synonymous. For consistency, this Guide uses the term *material* when discussing that standard.

Guide presents a flowchart that illustrates the evaluation and reporting of findings of fraud and noncompliance under *Government Auditing Standards* when the auditee is not subject to an audit in accordance with Circular A-133.) Chapter 3, "Financial Statement Audit Considerations of *Government Auditing Standards*," of this Guide includes a flowchart that illustrates its discussion of the evaluation and reporting of findings of abuse.

Exhibit 12-1

Evaluation and Reporting of Findings of Fraud and Noncompliance Under Government Auditing Standards and Circular A-133¹

¹ This flowchart represents the evaluation and reporting of findings of fraud and noncompliance (illegal acts and violations of provisions of contracts or grant agreements) under *Government Auditing Standards* when the auditee is subject to an audit in accordance with Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). In a Circular A-133 audit, the auditor should apply a financial statement materiality consideration in reporting fraud and illegal acts (those that concern the left leg of this flowchart) in reporting in the *Government Auditing Standards* report fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting. That is because those findings already are reported in the Circular A-133 report and reporting findings that are not material to the financial statements again in the *Government Auditing Standards* report would be unnecessarily duplicative. Chapter 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*,” of this Guide presents a flowchart that illustrates the evaluation and reporting of findings of fraud and noncompliance when the auditee is subject to an audit in accordance with *Government Auditing Standards*, but not an audit in accordance with Circular A-133.

² The auditor should consider the direct reporting requirement of *Government Auditing Standards*. Chapter 4 of this Guide discusses the requirements in paragraphs 5.21 through 5.25 of *Government Auditing Standards* that auditors report fraud and noncompliance directly to parties outside of the auditee in certain circumstances.

³ Chapter 4 of this Guide discusses (a) how to report noncompliance findings that relate to both internal control over financial reporting and to compliance and (b) when to report fraud findings in the internal control section of the report or instead in the section on compliance and other matters.

⁴ If the finding is reported in both (a) the report on internal control over financial reporting and on compliance and other matters required by *Government Auditing Standards* and (b) the report on compliance with requirements applicable to each major program and on internal control over compliance required by Circular A-133, see paragraph 12.32c.

12.17 Circular A-133 requires the schedule of findings and questioned costs to include all findings, including those required to be reported under *Government Auditing Standards*. Accordingly, the report on internal control over financial reporting and on compliance and other matters should refer to the schedule of findings and questioned costs, which should describe the findings required to be reported under *Government Auditing Standards* as discussed in the previous paragraph. In addition, the separate paragraph at the end of the report stating that the report is intended solely for the information and use of certain parties also should refer to federal awarding agencies and, if applicable, pass-through entities.

Reporting on a Compliance Audit of Major Federal Programs

12.18 This section discusses the auditor's reports that are issued based on a compliance audit of major programs in accordance with Circular A-133. The report on compliance with requirements applicable to major programs expresses the auditor's opinion on whether the auditee complied with the requirements that, if noncompliance occurred, could have a direct and material effect on a major program. Although the guidance in SAS No. 58 addresses reporting on audited financial statements, auditors may find its guidance useful when reporting on a compliance audit of major programs.

Material Instances of Noncompliance

12.19 When the audit of an auditee's compliance with requirements applicable to a major program detects material instances of noncompliance with those requirements, the auditor should express a qualified or adverse opinion. The auditor should state the basis for such an opinion in the report as shown in Appendix A (paragraph 12.54), Examples 12-2 and 12-4. The auditor also should consider the cumulative effect of all instances of noncompliance on the financial statements using the materiality level established for the basic financial statements.¹⁴ Chapter 8 of this Guide discusses materiality considerations in evaluating the effect of instances of noncompliance on the opinion on compliance.

Scope Limitations

12.20 Testing an auditee's compliance with laws, regulations, and the provisions of contracts or grant agreements requires the auditor to make a comply/noncomply decision about an auditee's adherence to those compliance requirements. The auditor is able to express an unqualified opinion only if he or she has been able to apply all the procedures the auditor considers necessary in the circumstances. Restrictions on the scope of the audit—whether imposed by the client or by circumstances such as the timing of the auditor's work, an inability to obtain sufficient competent evidential matter, or an inadequacy in the accounting records—may require the auditor to qualify his or her opinion or to disclaim an opinion. In those instances, the auditor's report should describe the reasons for such a qualification or disclaimer of opinion. Furthermore, the auditor should consider the effects of those instances on his or her ability to express an unqualified opinion on the financial statements. Appendix A (paragraph 12.54), Example 12-3, illustrates a qualified opinion on compliance due to a scope limitation.

¹⁴ As discussed in the Audit and Accounting Guide *State and Local Governments*, the auditor's consideration of materiality for purposes of planning, performing, evaluating the results of, and reporting on the audit of the financial statements of a state or local government is based on opinion units.

12.21 The auditor's decision to qualify or disclaim an opinion because of a scope limitation depends on his or her assessment of the importance of the omitted procedure(s) to his or her ability to form an opinion on compliance with requirements governing each major program. This assessment will be affected by the nature and magnitude of the potential effects of the matters in question and by their significance to each major program. When restrictions that significantly limit the scope of the audit are imposed by the client, the auditor generally should disclaim an opinion on compliance.

12.22 When disclaiming an opinion because of a scope limitation, the auditor should indicate in a separate paragraph all of the substantive reasons for the disclaimer. The auditor should state that the scope of his or her audit was not sufficient to warrant the expression of an opinion. The auditor should not identify the procedures that were performed or include a paragraph describing the characteristics of an audit (that is, the scope paragraph); to do so may tend to overshadow the disclaimer. In addition, the auditor should disclose any reservations he or she has regarding compliance with applicable laws and regulations.

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With Circular A-133

Report Requirements

12.23 The basic elements of the auditor's standard report on compliance with requirements applicable to each major program and on the internal control over compliance¹⁵ in accordance with Circular A-133 are in the following listing. Appendix A (paragraph 12.54), Examples 12-1 through 12-4, illustrates that report.

- a. A statement that the auditor has audited the compliance of the auditee with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)* that are applicable to each of its major programs.
- b. A statement that the auditee's major programs are identified in the summary of the auditor's results section of the accompanying schedule of findings and questioned costs. (See paragraph 12.31 2a.)
- c. A statement that compliance with the requirements of laws, regulations, contracts, and grants applicable to each of the auditee's major federal programs is the responsibility of the auditee's management, and that the auditor's responsibility is to express an opinion on the auditee's compliance based on the audit.
- d. A statement that the audit of compliance was conducted in accordance with GAAS and an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards), the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States,¹⁶ and Circular A-133.

¹⁵ In a particular single audit engagement, some controls may involve both internal control over financial reporting and internal control over compliance and thus be relevant to both the audit of the financial statements and the audit of compliance. When this occurs, those controls would be encompassed in both internal control reports. Section 505 of Circular A-133 provides guidance on reporting findings involving reportable conditions in internal control in such a circumstance as discussed in paragraph 12.32c.

¹⁶ The standards applicable to financial audits are the general, fieldwork, and reporting standards described in Chapters 3, 4, and 5 of *Government Auditing Standards*.

- e. A statement that those standards and Circular A-133 require that the auditor plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements that could have a direct and material effect on a major federal program occurred.
- f. A statement that an audit includes examining, on a test basis, evidence about the auditee's compliance with those requirements and performing such other procedures as the auditor considered necessary in the circumstances.
- g. A statement that the auditor believes that the audit provides a reasonable basis for the auditor's opinion.
- h. A statement that the audit does not provide a legal determination of the auditee's compliance with those requirements.
- i. If instances of noncompliance are noted that result in an opinion modification, a reference to a description in the accompanying schedule of findings and questioned costs, including:
 - The reference number(s) of the finding(s).
 - An identification of the type(s) of compliance requirements and related major program(s).
 - A statement that compliance with such requirements is necessary, in the auditor's opinion, for the auditee to comply with the requirements applicable to the program(s).
- j. An opinion on whether the auditee complied, in all material respects, with the types of compliance requirements that are applicable to each of its major federal programs.
- k. If applicable, a statement that the results of the auditing procedures disclosed instances of noncompliance that are required to be reported in accordance with Circular A-133 and a reference to the schedule of findings and questioned costs in which they are described.¹⁷
- l. A statement that the auditee's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs.
- m. A statement that in planning and performing the audit, the auditor considered the auditee's internal control over compliance with requirements that could have a direct and material effect on a major federal program, to determine the auditing procedures for the purpose of expressing an opinion on compliance and to test and report on the internal control over compliance in accordance with Circular A-133.
- n. If applicable, a statement that reportable conditions were noted and the definition of a reportable condition.
- o. If applicable, a reference to a description of reportable conditions noted in the accompanying schedule of findings and questioned costs, including the reference number of the finding(s).

¹⁷ Paragraph 12.35 discusses the audit findings that are required to be reported under Circular A-133.

- p. If no reportable conditions are noted, a statement that the auditor's consideration of the internal control over compliance would not necessarily disclose all matters in internal control that might be material weaknesses; if reportable conditions are noted, a statement that the auditor's consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses.
- q. The definition of a material weakness.
- r. If applicable, a statement about whether the auditor believes any of the reportable conditions noted are material weaknesses and, if they are, a reference to a description of the material weaknesses in the schedule of findings and questioned costs, including the reference number of the finding(s). If there are no reportable conditions, a statement is made that no material weaknesses were noted.
- s. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of the audit committee, management, specified legislative or regulatory bodies, federal awarding agencies, and (if applicable) pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.¹⁸
- t. The manual or printed signature of the auditor's firm.
- u. The date of the auditor's report.

Further, as discussed in paragraph 12.36, the auditor may need to modify the report on compliance with requirements applicable to each major program and on the internal control over compliance in accordance with Circular A-133 for abuse findings reported in the federal awards section of the schedule of findings and questioned costs.

Option to Report on the Schedule of Expenditures of Federal Awards

12.24 As discussed in paragraph 12.12, this Guide recommends reporting on the schedule of expenditures of federal awards in the report on the financial statements. However, in certain circumstances (for example, when a separate single-audit package is issued), the required reporting on the schedule may be incorporated into the report described in paragraph 12.23. A footnote in the illustrative report in Appendix A (paragraph 12.54), Example 12-1, illustrates how to incorporate the reporting on the schedule into the Circular A-133 report.

Communicating Findings in and Referring to the Management Letter

12.25 The schedule of findings and questioned costs should include all audit findings required to be reported under Circular A-133. A separate letter (that is, a management letter) may not be used to communicate such matters to the auditee in lieu of reporting them as audit findings in accordance with Circular A-133. Because all findings that are reportable under Circular A-133

¹⁸ This paragraph conforms to SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532). See SAS No. 87 for additional guidance on restricted-use reports.

are included in the schedule, there is no requirement for the auditor to refer to the management letter in the report described in paragraph 12.23. As discussed in Chapter 4 of this Guide, paragraphs 5.16 and 5.20 of *Government Auditing Standards* require the auditor to communicate to the auditee in a management letter the following matters unless clearly inconsequential—(a) deficiencies in internal control that are not reportable conditions, (b) immaterial violations of provisions of contracts or grant agreements, or (c) immaterial abuse. Generally, *Government Auditing Standards* requires the auditor to evaluate findings for the purpose of communication in the management letter based on their consequence to the financial statements or other financial data significant to the audit objectives. As shown in Exhibit 4-1, in an audit in accordance with Circular A-133, however, the auditor should evaluate findings involving federal awards for the purpose of that communication based only on their consequence to the financial statements. Further, the auditor should not communicate such findings in the management letter if they are otherwise reported as audit findings in accordance with Circular A-133. The Circular A-133 report need not refer to the management letter; as discussed in Chapter 4 of this Guide, that reference is made in the *Government Auditing Standards* report.

Other Reporting Considerations

Dating of Reports

12.26 Because the report on the schedule of expenditures of federal awards that is presented as supplementary information indicates that the auditor is reporting “in relation to” the basic financial statements, it should carry the same date as that on the report on the financial statements. Furthermore, because the report on internal control over financial reporting and on compliance and other matters, as required by *Government Auditing Standards*, relates to the audit of the financial statements and is based on the GAAS audit procedures performed, it also should carry the same date.

12.27 The auditor’s report on compliance and on internal control over compliance related to major programs, as required by Circular A-133, ordinarily should have the same date as that of the other reports, but may carry a later date, because some of the audit work to satisfy Circular A-133 requirements may be done subsequent to the work on the financial statements. When this is the case, the reporting required by Circular A-133 should be dated at the later date (that is, when the fieldwork required to support the report on the audit of compliance is completed). The auditor should perform subsequent events procedures from the date of the report on the financial statements to the date of the report on the compliance audit in accordance with SAS No. 1, section 560, *Subsequent Events* (AICPA, *Professional Standards*, vol. 1, AU sec. 560), as amended. If, after the date of the reports on the financial statements and on internal control over financial reporting and on compliance and other matters, the auditor becomes aware of misstatements, instances of noncompliance, or abuse that have a direct and material effect on financial statement amounts or other financial data significant to the audit objectives, he or she should follow the guidance in SAS No. 1, section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor’s Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 561), as amended.

12.28 This Guide recommends reporting on the schedule of expenditures of federal awards in the report on the financial statements. However, as noted

in paragraphs 12.15 and 12.24, there may be circumstances in which the auditor reports on the schedule in the report on compliance and on internal control over compliance issued to meet Circular A-133 requirements. In that situation, the report issued to meet Circular A-133 requirements should be dated the same as the report on the financial statements. That is because the report on the schedule is “in relation to” the basic financial statements. If using the same date is not possible because the work to satisfy Circular A-133 requirements is not complete as of the date of the financial statement report, the auditor has two options:

- a. The auditor can dual date the report issued to meet Circular A-133 requirements. The date related to the portion of the report pertaining to the schedule of expenditures of federal awards would be the same as the date of the financial statement report. The date pertaining to the remainder of the report would be the date on which the work done to satisfy Circular A-133 requirements is completed. Refer to SAS No. 1, section 530, *Dating of the Independent Auditor’s Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 530), as amended.
- b. The auditor can issue a separate report on the schedule of expenditures of federal awards, dated the same date as that of the financial statement report.

In some instances, the auditor may be engaged to issue a stand-alone opinion on the schedule either as part of the report issued to meet the requirements of Circular A-133 or separately (dated the same as the Circular A-133 report). The auditor should follow the guidance in SAS No. 58 when issuing such a report.

Other Auditors

12.29 When more than one independent auditor is involved in a single audit performed under Circular A-133, the auditor should refer to guidance in SAS No. 58 (AICPA, *Professional Standards*, vol. 1, AU sec. 508.12 and .13), regarding an opinion on financial statements based in part on the report of another auditor, as well as SAS No. 1, section 543, *Part of Audit Performed by Other Independent Auditors* (AICPA, *Professional Standards*, vol. 1, AU sec. 543), as amended. The principal auditor also may need to refer to the programs audited by other auditors in the auditor’s reports on the schedule of expenditures of federal awards and on compliance with requirements applicable to each major program and on the internal control over compliance as they relate to federal awards administered by the component organization. In such cases, the auditor should follow the guidance in SAS No. 1, section 543. The AICPA Audit and Accounting Guide *State and Local Governments* also illustrates an auditor’s report on the financial statements that refers to the work of another auditor in the paragraph reporting on SI, such as the schedule of expenditures of federal awards.

When the Audit of Federal Awards Does Not Encompass the Entirety of the Auditee’s Operations

12.30 If the audit of federal awards does not encompass the entirety of the auditee’s operations expending federal awards, the operations that are not included should be identified in a separate paragraph following the first paragraph of the report on major programs. (See also the discussion in Chapter 6, “Planning Considerations of Circular A-133,” of this Guide concerning the definition of the entity to be audited.) An example of such a paragraph follows:

Example Entity's basic financial statements include the operations of the [identify component organization, such as a component unit or department], which received [include dollar amount] in federal awards which is not included in schedule during the year ended June 30, 20X1. Our audit, described below, did not include the operations of [identify component organization] because [state the reason for the omission, such as the component unit engaged other auditors to perform an audit in accordance with OMB Circular A-133].

Schedule of Findings and Questioned Costs

12.31 Circular A-133 requires the auditor to prepare a schedule of findings and questioned costs, which should include the following three sections:

- a. A summary of the auditor's results
- b. Findings related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*
- c. Findings and questioned costs for federal awards

Appendix A (paragraph 12.54) presents an illustrative schedule of findings and questioned costs in Example 12-5.

What Should Be Reported

12.32 Specifically, Circular A-133 requires the schedule of findings and questioned costs to contain:

- a. A summary of the auditor's results, which is required to include:
 - The type of report the auditor issued on the financial statements of the auditee (that is, unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).¹⁹
 - Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses.²⁰
 - A statement on whether the audit disclosed any noncompliance that is material to the financial statements of the auditee.
 - Where applicable, a statement that reportable conditions in the internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses.²¹
 - The type of report the auditor issued on compliance for major programs (that is, unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).

¹⁹ As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government's basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. (See footnote 1.) Therefore, the schedule of findings and questioned costs may need to indicate multiple types of opinions on a government's basic financial statements.

²⁰ Auditors should note that SAS No. 60, *Communication of Internal Control Related Matters Noted in an Audit* (AICPA, *Professional Standards*, vol. 1, AU sec. 325), as amended, precludes an auditor from issuing a written report representing that no reportable conditions were noted during an audit. Therefore, the illustrative schedule of findings and questioned costs in Example 12-5 in Appendix A (paragraph 12.54) uses the term *none reported* to indicate that no reportable conditions were included in the auditor's report (versus *none*, which would imply that there were no reportable conditions).

²¹ See footnote 20.

- A statement on whether the audit disclosed any audit findings that the auditor is required to report under section 510(a) of Circular A-133 (see paragraph 12.35).²²
 - An identification of major programs.
 - The dollar threshold used to distinguish between type A and type B programs as described in section 520(b) of Circular A-133 (see Chapter 9, “Determination of Major Programs,” of this Guide).
 - A statement on whether the auditee qualified as a low-risk auditee under section 530 of Circular A-133 (See Chapter 9 of this Guide).
- b. Findings related to the financial statements that are required to be reported in accordance with *Government Auditing Standards* (see paragraph 12.33).
- c. Findings and questioned costs for federal awards, which is required to include audit findings as defined in section 510(a) of Circular A-133 (see paragraph 12.34) and which should include certain findings of abuse as required by *Government Auditing Standards* (see paragraph 12.36). Circular A-133 also requires the following with regard to this section of the schedule:
- Audit findings (for example, internal control findings, compliance findings, questioned costs, or fraud) that relate to the same issue should be presented as one finding. Where practical, audit findings should be organized by federal agency or pass-through entity.
 - Audit findings that relate to both the financial statements and the federal awards should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form, with a reference to a detailed reporting in the other section of the schedule. For example, a material weakness in internal control that affects the auditee as a whole, including its federal awards, usually should be reported in detail in the section of the schedule of findings and questioned costs that is related to the financial statements, with a summary identification and reference given in the section related to federal awards. Conversely, a finding of noncompliance with a federal program law that also is material to the financial statements should be reported in detail in the federal awards section of the schedule, with a summary identification and reference given in the financial statement section.

Findings Related to the Financial Statements

12.33 As noted before, Circular A-133 requires the schedule of findings and questioned costs to include a section that presents the detail of findings related to the financial statements. This section of the schedule should include all findings related to the audit of the financial statements that are required to be reported by GAAS and *Government Auditing Standards* in a Circular A-133 audit. (See paragraph 12.16.) Those findings are:

- Reportable conditions in internal control over financial reporting.

²² As discussed in paragraph 12.36, the auditor may need to modify the summary of auditor's results for abuse findings reported in the federal awards section of the schedule of findings and questioned costs.

- All instances of fraud and illegal acts unless clearly inconsequential, except for fraud and illegal acts involving federal awards that are subject to Circular A-133 reporting and that are not material to financial statement amounts.
- Material violations of provisions of contracts and grant agreements.
- Material abuse. (See also paragraph 12.36.)

12.34 Chapter 4 of this Guide discusses the details that *Government Auditing Standards* requires be reported for findings. That chapter also discusses the requirement in paragraph 5.26 of *Government Auditing Standards* that the auditor obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as their planned corrective actions. The auditor should present management views and planned corrective actions for findings related to the financial statement audit in the financial statement section of the schedule of findings and questioned costs. Alternatively, for audit findings that relate to both the financial statements and the federal awards and that are reported in both sections of the schedule of findings and questioned costs, depending on the status of the development of the corrective action plan at the time the auditor's reports are released, the auditor may be able to refer to the corrective action plan as the required presentation of the auditee's views and planned corrective actions.

Findings Related to Federal Awards

12.35 Section 510(a) of Circular A-133 requires the auditor to report as audit findings in the federal awards section of the schedule of findings and questioned costs:

- a. Reportable conditions in the internal control over major programs. The auditor's determination of whether a deficiency in internal control is a reportable condition for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or to an audit objective identified in the *Compliance Supplement*. The auditor should identify reportable conditions that are individually or cumulatively material weaknesses. (Chapter 10 of this Guide discusses reportable conditions and material weaknesses related to federal programs.)
- b. Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor's determination of whether noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the *Compliance Supplement*. (Chapter 8 of this Guide further discusses the evaluation and reporting of noncompliance.)
- c. Known questioned costs that are greater than \$10,000 for a type of compliance requirement for a major program. Known questioned costs are those specifically identified by the auditor. In evaluating the effect of questioned costs on the opinion on compliance, the auditor should consider the best estimate of the total costs questioned (likely questioned costs), not just the questioned costs specifically identified (known questioned costs). The auditor also should report (in the schedule of findings and questioned costs) known questioned costs when likely questioned costs are greater than \$10,000

for a type of compliance requirement for a major program. For example, if the auditor specifically identifies \$7,000 in questioned costs but, based on his or her evaluation of the effect of questioned costs on the opinion on compliance, estimates that the total questioned costs are in the \$50,000 to \$60,000 range, the auditor should report a finding that identifies the known questioned costs of \$7,000. Although the auditor is not required to report his or her estimate of the total questioned costs, the auditor should include information to provide proper perspective for judging the prevalence and consequences of the questioned costs.

- d. Known questioned costs that are greater than \$10,000 for programs that are not audited as major. Because (except for audit follow-up) the auditor is not required to perform audit procedures for federal programs that are not major, the auditor normally will not find questioned costs. However, if the auditor does become aware of questioned costs for a federal program that is not audited as a major program (for example, as part of audit follow-up or other audit procedures) and the known questioned costs are greater than \$10,000, then the auditor should report this as an audit finding.
- e. The circumstances concerning why the auditor's report on compliance for major programs is other than an unqualified opinion, unless such circumstances are otherwise reported as audit findings in the schedule of findings and questioned costs for federal awards (for example, a scope limitation that is not otherwise reported as a finding).
- f. Known fraud affecting a federal award, unless such fraud is otherwise reported as an audit finding in the schedule of findings and questioned costs for federal awards. Circular A-133 does not require the auditor to make an additional reporting when the auditor confirms that the fraud was reported outside of the auditor's reports under the direct reporting requirements of *Government Auditing Standards*. (Chapter 4 of this Guide discusses the direct reporting requirements of *Government Auditing Standards*.)
- g. Instances where the results of audit follow-up procedures disclosed that the summary schedule of prior audit findings prepared by the auditee in accordance with section 315(b) of Circular A-133 materially misrepresents the status of any prior audit finding. (See paragraphs 12.41 through 12.43.)

Findings of Abuse

12.36 Paragraph 5.12 of *Government Auditing Standards* requires auditors to report, as applicable to the objectives of the audit, material²³ abuse. That standard, like all of the general, fieldwork, and reporting standards in *Government Auditing Standards*, applies to the entirety of the A-133 audit, including the compliance audit. As discussed in Chapter 8 of this Guide, situations or transactions involving federal awards that might otherwise appear to constitute abuse instead generally are instances of noncompliance. However, there may be isolated situations or transactions involving federal awards that the auditor becomes aware of that do constitute abuse. For abuse involving federal

²³ See footnote 13.

awards that is material to the financial statement amounts,²⁴ the auditor should present the finding in the financial statement section of the schedule of findings and questioned costs and refer to it from the *Government Auditing Standards* report. For abuse involving federal awards that is material to a major program, the auditor should present the finding in the federal awards section of the schedule of findings and questioned costs and refer to it from the Circular A-133 report. (Chapter 4 of this Guide provides guidance for the placement of the reference from the *Government Auditing Standards* report to abuse findings based on the primary nature of the finding. That guidance also applies in referring to findings of abuse involving federal awards in the Circular A-133 report.) As discussed in paragraph 12.32c, the auditor should report abuse findings that relate to both the financial statements and the federal awards in both sections of the schedule, with the reporting in one section in summary form and a reference to a detailed reporting in the other section. If there are abuse findings reported in the federal awards section of the schedule of findings and questioned costs that do not otherwise meet the Circular A-133 requirements for reporting as findings as discussed in paragraph 12.34, the auditor should consider the need to modify both (a) the report on compliance with requirements applicable to each major program and on internal control over compliance and (b) the summary of the auditor's results section of the schedule of findings and questioned costs.

Detail of Audit Findings—Federal Awards

12.37 Section 510(b) of Circular A-133 requires that audit findings be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for federal agencies and pass-through entities to arrive at a management decision. The specific information that Circular A-133 requires in audit findings consists of (as applicable):

- a. Identification of the federal program and specific federal award, including:
 - The *Catalog of Federal Domestic Assistance* (CFDA) title and number
 - The federal award number and year
 - The name of the federal agency
 - The name of the applicable pass-through entity

When information such as the CFDA title and number or the federal award number is not available, the auditor should provide the best information available to describe the federal award.

- b. The criteria or specific requirement upon which the audit finding is based, including the statutory, regulatory, or other citation.
- c. The condition found, including facts that support the deficiency identified in the audit finding.
- d. Identification of questioned costs and how they were computed.
- e. Information to provide a proper perspective for judging the prevalence and consequences of the audit findings, (for example, whether the audit findings represent an isolated instance or a systemic problem). Where appropriate, the instances identified should be related to the universe and the number of cases examined and be quantified in terms of the dollar value.

²⁴ See footnote 14.

- f. The possible asserted effect to provide sufficient information to the auditee and federal agency (or pass-through entity, in the case of a subrecipient) to permit them to determine the cause and effect, to facilitate prompt and proper corrective action.
- g. Recommendations to prevent future occurrences of the deficiency identified in the audit finding.

12.38 Audit findings related to federal awards also should meet the presentation requirements of *Government Auditing Standards*. Chapter 4 of this Guide discusses the details that *Government Auditing Standards* requires be reported for findings. That chapter also discusses the requirements in paragraphs 5.26 through 5.30 of *Government Auditing Standards* that the auditor obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as planned corrective actions.²⁵ The auditor should report management views and planned corrective actions for findings related to federal awards in the federal awards section of the schedule of findings and questioned costs. Alternatively, depending on the status of the development of the corrective action plan at the time the auditor's reports are released, the auditor may be able to refer to the corrective action plan as the required presentation of the auditee's views and planned corrective actions.

Other Preparation Guidance

12.39 Each audit finding in the schedule of findings and questioned costs should include a reference number to allow for easy referencing of the audit findings during follow-up. One option for assigning reference numbers is to use the fiscal year being audited as the beginning digits of each reference number, followed by a numeric sequence. For example, findings identified and reported in the audit of fiscal year 20X1 would be assigned reference numbers 20X1-1, 20X1-2, and so forth.

12.40 The auditor is required to issue a schedule of findings and questioned costs for every Circular A-133 audit, regardless of whether any findings or questioned costs are noted. That is because Circular A-133 requires that one section of the schedule summarize the audit results. (See paragraphs 12.31 and 12.32.) In a situation in which there are no findings or questioned costs, the auditor should prepare the summary of auditor's results section of the schedule and indicate in the other required sections that no matters were reportable.

Summary Schedule of Prior Audit Findings and Corrective Action Plan

12.41 The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee is required to prepare a summary schedule of prior audit findings. The auditee is not required to prepare a summary schedule of prior audit findings if there are no matters reportable therein. The auditee also is required to prepare a corrective action

²⁵ Paragraph 5.30 of *Government Auditing Standards* requires that if the auditee's comments oppose the report's findings, conclusions, or recommendations, and are not, in the auditors' opinion, valid—or if the planned corrective actions do not adequately address the auditors' recommendations—the auditor should state reasons for disagreeing with the comments or planned corrective actions. That requirement subsumes the requirement in section 510(b)(8) of Circular A-133 that audit findings include the views of responsible officials when there is disagreement with the audit findings, to the extent practical.

plan that addresses each of the current-year audit findings.²⁶ The summary schedule of prior audit findings and the corrective action plan, both of which are part of the reporting package, should include the reference numbers the auditor assigns to audit findings in the schedule of findings and questioned costs. This numbering (or other identification) should include the fiscal year in which the finding initially occurred.

12.42 The auditor is required to follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee, and report, as a current-year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding in accordance with the requirements of section 500(e) of Circular A-133. (Chapter 8 of this Guide discusses follow-up procedures.)

12.43 The auditor has no responsibility for the corrective action plan; however, the auditor may be separately engaged by the auditee for assistance in developing appropriate corrective actions in response to audit findings. The auditor may find the auditee's corrective action plan useful in performing follow-up on prior audit findings (in addition to the schedule of prior audit findings) because it may provide an indication of the corrective steps planned by the auditee.

Data Collection Form

12.44 Circular A-133 requires the auditee to complete and sign certain sections of a data collection form that states whether the audit was completed in accordance with Circular A-133 and provides information about the auditee, its federal programs, and the results of the audit. This form is not part of the reporting package. The information required to be included in the form, however, represents a summary of the information contained in the reporting package, including the auditor's reports and the auditee's schedule of expenditures of federal awards.

12.45 The auditor also is required to complete certain sections of the form, including information on the auditor and information on the results of the financial statement audit and the audit of federal programs. The auditor is required to sign a statement in the form that indicates, at a minimum, the source of the information included in the form, the auditor's responsibility for the information, that the form is not a substitute for the reporting package, and that the content of the form is limited to the data elements prescribed by the OMB. As part of completing the form, the auditor is asked to date it. The date that is entered by the auditor should be the date on which he or she completes and signs the form. The wording of the auditor's statement section of the form indicates that no additional procedures were performed since the date of the audit reports. This wording releases the auditor from any subsequent-event responsibility with regard to the timing of the completion of the form and the completion of the audit. The form includes detailed instructions, which the auditor should carefully follow.

²⁶ Paragraph 5.26 of *Government Auditing Standards* also requires the auditor to obtain and report the views of responsible auditee officials concerning the findings, conclusions, and recommendations, as well as planned corrective actions. Paragraphs 12.34 and 12.38 discuss the interaction of that *Government Auditing Standards* requirement and the Circular A-133 requirement that the auditee prepare a corrective action plan.

12.46 The data collection form and related instructions are available from the FAC's home page at <http://harvester.census.gov/sac> or by calling the FAC at (888) 222-9907. The form number is SF-SAC.²⁷ The FAC prefers to receive the data collection form via an online Internet Data Entry System (IDES). The main benefit of using the IDES is that an edit function built directly into the FAC's system identifies certain errors that may have been made in completing the form. This allows both auditors and auditees to correct errors before submitting the form. Once the form is completed and has passed all of the edits, the entity is able to submit the data electronically. The IDES then allows the entity to print a hard copy of the form to be signed by both the auditor and auditee and sent to the FAC along with the appropriate number of reporting packages. The FAC home page provides instructions for completing the online submission.

Submission of Reporting Package and Data Collection Form

12.47 The auditee is responsible for submitting the data collection form and the reporting package, including the auditor's reports. The auditee is required to submit the data collection form and the reporting package within the earlier of 30 days after the receipt of the auditor's reports or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit.

Submission to Clearinghouse

12.48 All auditees are required to submit to the FAC the data collection form and one copy each of the reporting package as described in paragraph 12.05 for (a) the FAC to retain as an archival copy; (b) each federal awarding agency, when the schedule of findings and questioned costs disclosed audit findings related to federal awards that the federal awarding agency provided directly or when the summary schedule of prior audit findings reported the status of any audit findings related to federal awards that the federal awarding agency provided directly; and (c) the cognizant agency for audit if not otherwise included as an agency with audit findings in (b).

Submission by Subrecipients

12.49 In addition to the submission requirements discussed in paragraph 12.48, auditees that also are subrecipients are required to submit to each pass-through entity one copy of the reporting package when the schedule of findings and questioned costs disclosed audit findings related to federal awards that the pass-through entity provided or when the summary schedule of prior audit findings reported the status of any audit findings related to federal awards that the pass-through entity provided. When a subrecipient is not required to submit a reporting package to a pass-through entity, the subrecipient instead is required to provide written notification to the pass-through entity that:

- An audit of the subrecipient was conducted in accordance with Circular A-133 (including the period covered by the audit and the name, amount, and CFDA number of the federal awards provided by the pass-through entity).

²⁷ The OMB periodically revises the data collection form and its accompanying instructions. Auditors should exercise caution to make sure they use the version of the form and instructions that applies to the fiscal year audited.

- The schedule of findings and questioned costs disclosed no audit findings related to the federal awards that the pass-through entity provided.
- The summary schedule of prior audit findings did not report on the status of any audit findings related to the federal awards that the pass-through entity provided.

A subrecipient may submit a copy of the reporting package to a pass-through entity to comply with this notification requirement.

Requests for Copies

12.50 In response to a request by a federal agency or pass-through entity, auditees should submit the appropriate copies of the reporting package and, if requested, a copy of any management letters issued by the auditor.

Report Retention Requirements

12.51 Auditees are required to keep one copy of the data collection form and the reporting package on file for three years from the date of submission to the FAC. Pass-through entities should keep subrecipients' submissions on file for three years from the date of receipt.

Clearinghouse Address

12.52 Submissions should be mailed to the following address: Federal Audit Clearinghouse, Bureau of the Census, 1201 E. 10th St., Jeffersonville, IN 47132.

Freedom of Information Act and Similar Laws and Regulations

12.53 Often, federal, state, and local laws and regulations, such as the Freedom of Information Act (U.S. Code title 5, section 552), require governments to release certain documents, including audit reports and management letters of organizations for which the government has oversight responsibilities, to members of the press and the general public. Other laws and regulations require that audit reports of governments be made publicly available. Accordingly, the auditor should not include names, Social Security numbers, other personal identification, or other potentially sensitive matters in the body of audit reports or any attached or referenced schedules or letters.

12.54

Appendix A—Illustrative Auditor’s Reports Under Circular A-133

A-1. This appendix contains examples of the report on compliance with requirements applicable to each major program and on internal control over compliance issued under Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), in various circumstances for a single audit as discussed previously in this chapter. The following table lists the illustrative reports. Auditors should exercise professional judgment in any situation not specifically addressed in this Guide.

<i>Example No.</i>	<i>Title</i>
12-1	Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (<i>Unqualified Opinion on Compliance and No Material Weaknesses [No Reportable Conditions Identified]</i>)
12-2	Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (<i>Qualified Opinion on Compliance and Reportable Conditions Identified</i>)
12-3	Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (<i>Qualified Opinion on Compliance—Scope Limitation for One Major Program, Unqualified Opinion on Compliance for Other Major Programs, Reportable Conditions Identified</i>)
12-4	Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (<i>Adverse Opinion on Compliance for One Major Program, Unqualified Opinion on Compliance for Other Major Programs, and Material Weaknesses Identified</i>)
12-5	Schedule of Findings and Questioned Costs

A-2. In a single audit, auditors also are required to issue (a) an opinion (or disclaimer of opinion) on the financial statements and on the supplementary schedule of expenditures of federal awards and (b) a report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*. Appendix A (paragraph 4.44) in Chapter 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*,” of this Guide and paragraphs 12.13 and 12.14 illustrate those reports. (Appendix A (paragraph 13.16) in Chapter 13, “Program-Specific Audits,” of this Guide illustrates the reports issued for a program-specific audit.)

Example 12-1

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (Unqualified Opinion on Compliance and No Material Weaknesses [No Reportable Conditions Identified])¹

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,² issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

In our opinion, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 20X1. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned

¹ The auditor should use the portions of Examples 12-1 through 12-4 that apply to a specific auditee situation. For example, if the auditor will be giving an unqualified opinion on compliance but has identified reportable conditions, the compliance section of this report would be used along with the internal control section of Examples 12-2, 12-3, or 12-4. Alternatively, if the auditor will be giving a modified opinion on compliance but has not identified reportable conditions, the internal control section of this report would be used along with the compliance section of Examples 12-2, 12-3, or 12-4. See also paragraph 12.36 concerning the need to modify this report if federal awards section of the schedule of findings and questioned costs includes abuse findings.

² The standards applicable to financial audits are the general, fieldwork, and reporting standards described in Chapters 3, 4, and 5 of *Government Auditing Standards*.

costs as items [list the reference numbers of the related findings, for example, 20X1-3 and 20X1-6].³

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.⁴

³ When there are no such instances of noncompliance identified in the schedule of findings and questioned costs, the last sentence should be omitted.

⁴ As discussed in paragraphs 12.15 and 12.24, there may be instances in which it would be appropriate to report on the schedule of expenditures of federal awards in this report (that is, a separate single audit package is issued). In such a circumstance, a new section should be added immediately following this paragraph. For audits of not-for-profit organizations, the wording of the new section is as follows:

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of Example Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated August 15, 20X1. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

For audits of governmental entities, the wording of this new section is as follows:

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Example Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated August 15, 20X1. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise Example Entity's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

When reporting on the supplementary information, the auditor should consider the effect of any modifications to the report on the basic financial statements (for example, a qualified opinion, a modification as to consistency because of a change in accounting principle, or a reference to the report of other auditors). Furthermore, if the report on supplementary information is other than unqualified, this paragraph should be modified. Guidance for reporting in these circumstances is described in Statement on Auditing Standards (SAS) No. 29, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents* (AICPA, Professional Standards, vol. 1, AU sec. 551.09-.11, .13, and .14).

This report is intended solely for the information and use of the audit committee, management, [*specify legislative or regulatory body*], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.⁵

[*Date*]

⁵ This paragraph conforms to SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532). See SAS No. 87 for additional guidance on restricted-use reports.

Example 12-2

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (Qualified Opinion on Compliance and Reportable Conditions Identified)⁶

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,⁷ issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

As described in item [list the reference numbers of the related findings, for example, 20X1-10] in the accompanying schedule of findings and questioned costs, Example Entity did not comply with requirements regarding [identify the type(s) of compliance requirement] that are applicable to its [identify the major federal program]. Compliance with such requirements is necessary, in our opinion, for Example Entity to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 20X1.⁸

⁶ See footnote 1.

⁷ See footnote 2.

⁸ When other instances of noncompliance are identified in the schedule of findings and questioned costs as required by Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), the following sentence should be added: "The results of our auditing procedures also disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items [list the reference numbers of the related findings, for example, 20X1-3 and 20X1-6]."

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Example Entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items [*list the reference numbers of the related findings, for example, 20X1-7, 20X1-8, and 20X1-9*].

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.^{9, 10}

This report is intended solely for the information and use of the audit committee, management, [*specify legislative or regulatory body*], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.¹¹

[*Signature*]

[*Date*]

⁹ If conditions believed to be material weaknesses are disclosed, the report should identify the material weaknesses that have come to the auditor's attention. The last sentence of this paragraph should be replaced with language such as the following, as shown in Example 12-4: "However, of the reportable conditions described above, we consider items [*list the reference numbers of the related findings, for example, 20X1-8 and 20X1-9*] to be material weaknesses."

¹⁰ See footnote 4.

¹¹ See footnote 5.

**Report on Compliance With Requirements Applicable
to Each Major Program and on Internal Control Over
Compliance in Accordance With OMB Circular A-133
(Qualified Opinion on Compliance—Scope Limitation for
One Major Program, Unqualified Opinion on Compliance for
Other Major Programs, Reportable Conditions Identified)¹²**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

Except as discussed in the following paragraph, we conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,¹³ issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

We were unable to obtain sufficient documentation supporting the compliance of Example Entity with [identify the major federal program] regarding [identify the type(s) of compliance requirement], nor were we able to satisfy ourselves as to Example Entity's compliance with those requirements by other auditing procedures.

In our opinion, except for the effects of such noncompliance, if any, as might have been determined had we been able to examine sufficient evidence regarding Example Entity's compliance with the requirements of [identify the major federal program] regarding [identify the type(s) of compliance requirement],

¹² See footnote 1.

¹³ See footnote 2.

Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 20X1.¹⁴

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Example Entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as *items* [list the reference numbers of the related findings, for example, 20X1-7, 20X1-8, and 20X1-9].

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.¹⁵

This report is intended solely for the information and use of the audit committee, management, [specify legislative or regulatory body], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.¹⁶

Each Major Program and on Internal Control Over Compliance
in Accordance With OMB Circular A-133 (Adverse Opinion
on Compliance for One Major Program, Unqualified Opinion
on Compliance for Other Major Programs, and
Material Weaknesses Identified)¹⁷**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,¹⁸ issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

As described in items [list the reference numbers of the related findings, for example, 20X1-10, 20X1-11, and 20X1-12] in the accompanying schedule of findings and questioned costs, Example Entity did not comply with requirements regarding [identify the types of compliance requirements] that are applicable to its [identify the major federal program]. Compliance with such requirements is necessary, in our opinion, for Example Entity to comply with requirements applicable to that program.

In our opinion, because of the effects of the noncompliance described in the preceding paragraph, Example Entity did not comply in all material respects, with the requirements referred to above that are applicable to [identify the major federal program]. Also, in our opinion, Example Entity complied, in all

¹⁷ See footnote 1.

¹⁸ See footnote 2.

material respects, with the requirements referred to above that are applicable to each of its other major federal programs for the year ended June 30, 20X1.¹⁹

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Example Entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items [*list the reference numbers of the related findings, for example, 20X1-7, 20X1-8, and 20X1-9*].

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider items [*list the reference numbers of the related findings, for example 20X1-8 and 20X1-9*] to be material weaknesses.²⁰

This report is intended solely for the information and use of the audit committee, management, [*specify legislative or regulatory body*], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.²¹

[Signature]

[Date]

¹⁹ See footnote 8.

²⁰ See footnote 4.

²¹ See footnote 5.

Example 12-5

Schedule of Findings and Questioned Costs

Section I—Summary of Auditor’s Results

Financial Statements

Type of auditor’s report issued [unqualified, qualified, adverse, or disclaimer]:²²

Internal control over financial reporting:

- Material weakness(es) identified? _____ yes _____ no
- Reportable condition(s) identified that are not considered to be material weaknesses? _____ yes _____ none reported

Noncompliance material to financial statements noted? _____ yes _____ no

Federal Awards

Internal control over major programs:

- Material weakness(es) identified? _____ yes _____ no
- Reportable condition(s) identified that are not considered to be material weakness(es)? _____ yes _____ none reported

Type of auditor’s report issued on compliance for major programs [unqualified, qualified, adverse, or disclaimer]:²³

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of OMB Circular A-133? _____ yes _____ no

Identification of major programs:²⁴

<u>CFDA Number(s)</u> ²⁵	<u>Name of Federal Program or Cluster</u> ²⁶

²² As explained in the AICPA Audit and Accounting Guide *State and Local Governments*, the auditor generally expresses or disclaims an opinion on a government’s basic financial statements by providing an opinion or disclaimer of opinion on each opinion unit required to be presented in those financial statements. Therefore, there could be multiple responses to this question for audits of a government’s basic financial statements.

²³ If the audit report for one or more major programs is other than unqualified, indicate the type of report issued for each program. For example, if the audit report on major program compliance for an auditee having five major programs includes an unqualified opinion for three of the programs, a qualified opinion for one program, and a disclaimer of opinion for one program, the response to this question could be as follows: “Unqualified for all major programs except for [name of program], which was qualified and [name of program], which was a disclaimer.”

²⁴ Major programs generally should be identified in the same order as reported on the schedule of expenditures of federal awards.

²⁵ When the *Catalog of Federal Domestic Assistance* (CFDA) number is not available, include other identifying number, if applicable.

²⁶ The name of the federal program or cluster should be the same as that listed in the schedule of expenditures of federal awards. For clusters, auditors are required only to list the name of the cluster and not each individual program within the cluster.

Dollar threshold used to distinguish
between type A and type B programs: \$ _____

Auditee qualified as low-risk auditee? _____ yes _____ no

Section II—Financial Statement Findings

This section should identify the reportable conditions, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to the financial statements for which Government Auditing Standards requires reporting in a Circular A-133 audit. (See paragraphs 12.16 and 12.33) Auditors should refer to Chapter 4 of this Guide for a discussion of the Government Auditing Standards requirements for presenting findings.

Audit findings that relate to both the financial statements and federal awards should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a material weakness in internal control that affects an entity as a whole, including its federal awards, generally would be reported in detail in this section. Section III would then include a summary identification of the finding and a reference back to the specific finding in this section.

Identify each finding with a reference number.²⁷ If there are no findings, state that no matters were reported. Each finding should be presented in the level of detail shown in the following listing, as applicable. Auditors also should refer to Chapter 4 of this Guide for a discussion of the Government Auditing Standards requirements for presenting findings.

- *Criteria or specific requirement*
- *Condition*
- *Context²⁸*
- *Effect*
- *Cause*
- *Recommendation*
- *Views of responsible officials and planned corrective actions²⁹*

Section III—Federal Award Findings and Questioned Costs

This section should identify the audit findings required to be reported by section 510(a) of Circular A-133 (for example, reportable conditions, material weaknesses, and material instances of noncompliance, including questioned costs—see paragraph 12.35) as well as any abuse findings involving federal awards that is material to a major program (see paragraph 12.36). Where practical, findings should be organized by federal agency or pass-through entity.

²⁷ A suggested format for assigning reference numbers is to use the last two digits of the fiscal year being audited, followed by a numeric sequence of findings. For example, findings identified and reported in the audit of fiscal year 20X1 would be assigned reference numbers of 20X1-1, 20X1-2, and so forth.

²⁸ Describe the work performed that resulted in the finding, and provide sufficient information for judging the prevalence and consequences of the finding, such as the relation to the population or universe of costs or the number of cases examined as well as quantification of audit findings in dollars.

²⁹ Paragraphs 12.34 and 12.38 and Chapter 4, “Auditor Reporting Requirements and Other Communication Considerations of Government Auditing Standards,” of this Guide provide guidance on reporting views of responsible officials and planned corrective action.

Audit findings that relate to both the financial statements and federal awards should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a finding of noncompliance with a federal program law that is also material to the financial statements generally would be reported in detail in this section. Section II would then include a summary identification of the finding and a reference back to the specific finding in this section.

Identify each finding with a reference number.³⁰ If there are no findings, state that no matters were reported. Each finding should be presented in the level of detail shown in the following listing, as applicable. Auditors also should refer to Chapter 4 of this Guide for a discussion of the Government Auditing Standards requirements for presenting findings.

- *Information on the federal program³¹*
- *Criteria or specific requirement (including statutory, regulatory, or other citation)*
- *Condition³²*
- *Questioned costs³³*
- *Context³⁴*
- *Effect*
- *Cause*
- *Recommendation*
- *Views of responsible officials and planned corrective actions³⁵*

³⁰ See footnote 27.

³¹ Provide the federal program (CFDA number and title) and agency, the federal award's number and year, and the name of the pass-through entity, if applicable. When this information is not available, the auditor should provide the best information available to describe the federal award.

³² Include facts that support the deficiency identified in the audit finding.

³³ Identify questioned costs as required by sections 510(a)(3) and 510(a)(4) of Circular A-133.

³⁴ See footnote 28.

³⁵ See footnote 29.

Chapter 13

Program-Specific Audits

Note: The audit required by the Single Audit Act Amendments of 1996 (the Single Audit Act) and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133), is performed in accordance with the general, fieldwork, and reporting standards applicable to financial audits contained in Chapters 3, 4, and 5 of *Government Auditing Standards*. Part I, “Government Auditing Standards Audits,” (Chapters 2, “Planning Considerations of *Government Auditing Standards*,” through 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*”) of this Guide discusses those standards as well as financial statement audits under generally accepted auditing standards (GAAS) and Government Auditing Standards. Auditors who are performing an audit under the Single Audit Act and Circular A-133 should refer to and apply the guidance in Part I of this Guide in addition to the guidance in Part II, “Circular A-133 Audits” (Chapters 5, “Overview of the Single Audit Act, Circular A-133, and the *Compliance Supplement*,” through 13).

13.01 A program-specific audit is an audit of an individual federal program (rather than a single audit of an entity’s financial statements and federal programs). Section 235 of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) provides guidance on program-specific audits.

Use of a Program-Specific Audit to Satisfy Circular A-133 Audit Requirements

13.02 Section 200 of Circular A-133 states that when an auditee expends federal awards under only one federal program (excluding research and development) and the federal program’s laws, regulations, or grant agreements do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit performed in accordance with section 235 of the circular.¹ Therefore, the auditor should determine whether there is a financial statement audit requirement before performing a program-specific audit. A program-specific audit may not be elected for research and development unless all federal awards expended were received from the same federal agency (or the same federal agency and the same pass-through entity) and that federal agency (or pass-through entity, in the case of a subrecipient) approves a program-specific audit in advance.

¹ An example of a situation where a program-specific audit would not be allowed would be a not-for-profit college that receives student financial aid (SFA) (and no other federal awards). That is because the Higher Education Act of 1965, as amended, requires institutions that receive SFA to undergo an annual financial statement audit.

Program-Specific Audit Requirements

13.03 Circular A-133 requires program-specific audits to be subject to the following sections of Circular A-133 as they may apply to program-specific audits, unless contrary to the provisions of section 235 of Circular A-133, a federal program-specific audit guide, or the program's laws and regulations:

- Purpose, definitions, audit requirements, basis for determining the federal awards expended, subrecipient and vendor determinations, and relation to other audit requirements (sections 100 through 215(b))
- Frequency of audits, sanctions, and audit costs (sections 220 through 230)
- Auditee responsibilities and auditor selection (sections 300 through 305)
- Follow-up on audit findings (section 315)
- Submission of report (sections 320(f) through 320(j))
- Responsibilities of federal agencies and pass-through entities and management decisions (sections 400 through 405)
- Audit findings and audit working papers (sections 510 through 515)

Program-specific audits also are subject to other provisions, referred to in section 235 of the Circular.

Availability of Program-Specific Audit Guides

13.04 In many cases, a federal agency's Office of Inspector General will have issued a program-specific audit guide that provides guidance on internal control, compliance requirements, suggested audit procedures, and audit reporting requirements for a particular federal program. The auditor should contact the Office of Inspector General of the federal agency to determine whether such a guide is available and current. When a current program-specific audit guide is available, the auditor should follow *Government Auditing Standards* and the guide when performing a program-specific audit. However, if there have been significant changes made to a program's compliance requirements and the related program-specific audit guide has not been updated with regard to the changes, the auditor should follow section 235 of Circular A-133 and the *OMB Circular A-133 Compliance Supplement (Compliance Supplement)* in lieu of an outdated guide. If a guide is current with regard to a program's compliance requirements but has not been updated to conform to current authoritative auditing standards and requirements (such as current revisions of generally accepted auditing standards [GAAS] or *Government Auditing Standards*), the auditor should follow current applicable professional standards and guidance in lieu of the outdated or inconsistent standards and guidance in the guide.

13.05 When a program-specific audit guide is not available, the auditee and the auditor have basically the same responsibilities for the federal program as they have for an audit of a major program in a single audit as discussed in Chapters 8, "Compliance Auditing Applicable to Major Programs," and 10, "Consideration of Internal Control Over Compliance for Major Programs," of this Guide.

Auditee's Responsibilities When a Program-Specific Audit Guide Is Not Available

13.06 When a program-specific audit guide is not available, in addition to having the responsibilities included in the sections of Circular A-133 that are described in paragraph 13.03, the auditee is required to prepare the following:

- The financial statements for the federal program, which include, at a minimum, a schedule of expenditures of federal awards for the program and notes that describe the significant accounting policies used in preparing the schedule (Chapter 7, “Schedule of Expenditures of Federal Awards,” of this Guide discusses the schedule.)
- A summary schedule of prior audit findings consistent with the requirements of section 315(b) of Circular A-133 (See Chapter 12, “Auditor Reporting Requirements and Other Communication Considerations in a Single Audit,” of this Guide.)
- If applicable, a corrective action plan consistent with the requirements of section 315(c) of the Circular (See Chapter 12 of this Guide.)

Auditor’s Responsibilities When a Program-Specific Audit Guide Is Not Available

Audit Scope and Requirements

13.07 Circular A-133 requires the auditor to:

- Perform an audit of the financial statement(s) for the federal program in accordance with *Government Auditing Standards*. (Chapters 2, “Planning Considerations of *Government Auditing Standards*,” through 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*,” of this Guide provide guidance on financial statement audits.) Paragraph 13.10 further discusses the *Government Auditing Standards* report.
- Obtain an understanding of the internal control over compliance and perform tests of the internal control over compliance for the federal program, so that they are consistent with the requirements of section 500(c) of the circular for a major program. (Chapter 10 of this Guide provides guidance on the internal control considerations for major programs.)
- Perform procedures to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on the federal program consistent with the requirements of section 500(d) of Circular A-133 for a major program. (Chapter 8 of this Guide provides guidance on the compliance-auditing considerations for major programs.)
- Follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings that has been prepared by the auditee, and when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding, report this as a current-year audit finding, in accordance with the requirements of section 500(e) of Circular A-133. (See Chapter 12 of this Guide.)

Auditor’s Reports

Circular A-133 Requirements

13.08 Circular A-133 states that the auditor’s reports may be in the form of either combined or separate reports and may be organized differently from the manner described in this paragraph. The auditor’s reports should state that the audit was conducted in accordance with auditing standards generally

accepted in the United States of America, *Government Auditing Standards*, and Circular A-133 and should include the following:

- An opinion (or disclaimer of opinion) on whether the financial statement(s) of the federal program are presented fairly in all material respects in conformity with the stated accounting policies
- A report on the internal control related to the federal program, which describes the scope of the testing of the internal control and the results of the tests
- A report on compliance, which includes an opinion (or a disclaimer of opinion) on whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on the federal program
- A schedule of findings and questioned costs for the federal program, which includes a summary of the auditor's results relative to the audit of the federal program in a format consistent with the requirements for the summary of auditor's results in section 505(d)(1) of Circular A-133, as well as findings and questioned costs for federal awards consistent with the requirements of section 505(d)(3) of the circular (See Chapter 12 of this Guide.)²

Recommended Auditor's Reports

13.09 In an effort to make program-specific audit reporting understandable and to reduce the number of reports issued, this Guide recommends that the following reports be issued for a program-specific audit (a) an opinion (or disclaimer of opinion) on the financial statement(s) of the federal program and (b) a report on compliance with requirements applicable to the federal program and on the internal control over compliance in accordance with the program-specific audit option under Circular A-133. Paragraph 13.10 discusses the possible issuance of a third report to meet the reporting requirements of *Government Auditing Standards*. Appendix A (paragraph 13.16) illustrates program-specific audit reports. Chapters 4 and 12 of this Guide discuss the *Government Auditing Standards* requirement that the auditor communicate certain matters to the auditee in a management letter.

Reporting in Accordance With Government Auditing Standards

13.10 If the financial statement(s) of the program present only the activity of the federal program, the auditor is not required to issue a separate report to meet the reporting requirements of *Government Auditing Standards*. This is because, in many cases, by definition the financial statements of the program consist only of the schedule of expenditures of federal awards. In this situation, the program-specific audit reports in Appendix A (paragraph 13.16) would meet the financial, compliance, and internal control over compliance reporting requirements of both *Government Auditing Standards* and Circular A-133. However, it should be noted that the auditor always has the option of issuing a separate *Government Auditing Standards* report (in addition to the two reports described in paragraph 13.09). Although it is not as common, the financial statement(s) of the federal program may present more than the program's activity (for example, a municipal sewer district issues financial statements that include both normal operations and the federal program activity

² As discussed in Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide, the schedule of findings and questioned costs also should meet the presentation requirements of *Government Auditing Standards* and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as planned corrective actions.

related to a grant for the purpose of building a new sewage-treatment facility). In this situation, the auditor should issue a separate *Government Auditing Standards* report, and modify it so that it refers only to the financial statement(s) of the federal program. Chapter 4 in this Guide discusses the *Government Auditing Standards* report and Appendix A (paragraph 4.44) in that chapter illustrates the *Government Auditing Standards* report.

Evaluating and Reporting Abuse

13.11 Chapters 8, 10, and 12 of this Guide discuss the *Government Auditing Standards* requirements for evaluating and reporting abuse in a Circular A-133 audit. Auditors who report abuse findings should consider the need to modify the auditor's reports to refer to those findings.

Submission of Report

Timing of Submission

13.12 Circular A-133 requires the audit to be completed and the reporting required by sections 235(c)(2) and 235(c)(3) of the circular to be submitted within the earlier of 30 days after the receipt of the auditor's reports or nine months after the end of the audit period, unless a longer period is agreed to in advance by the federal agency that provided the funding or unless a different period is specified in a program-specific audit guide. Unless restricted by law or regulation, Circular A-133 requires the auditee to make copies of the report available for public inspection.

Submission When a Program-Specific Audit Guide Is Available

13.13 When a program-specific audit guide is available, the auditee is required to submit to the Federal Audit Clearinghouse (FAC) the data collection form prepared in accordance with section 320(b) of the circular, as applicable for a program-specific audit, and also is required to submit the reporting that is required by the program-specific audit guide that is to be retained as an archival copy. (Chapter 12 of this Guide provides guidance on the FAC and the data collection form.) The auditee also is required to submit to the federal awarding agency or pass-through entity the reporting required by the program-specific audit guide.

Submission When a Program-Specific Audit Guide Is Not Available

13.14 When a program-specific audit guide is not available, the reporting package for a program-specific audit consists of the following:

- The financial statement(s) of the federal program
- A summary schedule of prior audit findings (See Chapter 12 of this Guide.)
- A corrective action plan (See Chapter 12 of this Guide.)
- The auditor's report(s) described in paragraphs 13.08 through 13.10

13.15 The auditee is required to submit the data collection form, as applicable to a program-specific audit, and one copy of the reporting package to the FAC, as discussed in Chapter 12 of this Guide, to be retained as an archival copy. Furthermore, when the schedule of findings and questioned costs discloses audit findings or the summary schedule of prior audit findings

reports the status of any audit findings, the auditee should submit one copy of the reporting package to the FAC on behalf of the federal awarding agency or, in the case of a subrecipient, directly to the pass-through entity. When a subrecipient is not required to submit a reporting package to the pass-through entity, the subrecipient is instead required to provide written notification to the pass-through entity, consistent with the requirements of section 320(e)(2) of Circular A-133, as discussed in Chapter 12 of this Guide. A subrecipient may submit a copy of the reporting package to the pass-through entity to comply with the notification requirement.

13.16

Appendix A—Illustrative Auditor’s Reports for Program-Specific Audits

A.1 This appendix contains examples of the reports issued under Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) for a program-specific audit as discussed previously in this chapter. The following table lists the illustrative reports. Auditors should exercise professional judgment in any situation not specifically addressed in this Guide. (As discussed in paragraph 13.10, the auditor should, in certain circumstances, issue these program-specific audit reports as well as a separate *Government Auditing Standards* report. Appendix A (paragraph 4.44) in Chapter 4, “Auditor Reporting Requirements and Other Communication Considerations of *Government Auditing Standards*,” of this Guide illustrates the *Government Auditing Standards* report.)

<i>Example No.</i>	<i>Title</i>
13-1	Unqualified Opinion on the Financial Statement of a Federal Program in Accordance With the Program-Specific Audit Option Under OMB Circular A-133
13-2	Report on Compliance with Requirements Applicable to the Federal Program and on Internal Control Over Compliance in Accordance With the Program-Specific Audit Option Under OMB Circular A-133 (<i>Unqualified Opinion on Compliance and No Material Weaknesses [No Reportable Conditions Identified]</i>)

Example 13-1

Unqualified Opinion on the Financial Statement of a Federal Program in Accordance With the Program-Specific Audit Option Under OMB Circular A-133

Independent Auditor's Report

We have audited the accompanying schedule of expenditures of federal awards for the [identify the federal program] of Example Entity for the year ended June 30, 20X1. This financial statement is the responsibility of Example Entity's management. Our responsibility is to express an opinion on the financial statement of the program based on our audit.¹

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,² issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the schedule of expenditures of federal awards referred to above³ presents fairly, in all material respects, the expenditures of federal awards under the [identify the federal program] in conformity with accounting principles generally accepted in the United States of America.^{4,5}

[Signature]

[Date]

¹ In many cases, the financial statements of the program consist only of the schedule of expenditures of federal awards (and notes to the schedule), which is the minimum financial statement presentation required by section 235 of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). If the auditee issues financial statements that consist of more than the schedule, this paragraph should be modified to describe the financial statements. Paragraph 13.10 discusses the possible need to issue a separate report to meet the reporting requirements of *Government Auditing Standards*.

² The standards applicable to financial audits are the general, fieldwork, and reporting standards described in Chapters 3, 4, and 5 of *Government Auditing Standards*.

³ If the auditee issues financial statements that consist of more than the schedule, this sentence should be modified to identify the results displayed in the financial presentation.

⁴ The auditor should follow the guidance in Statement on Auditing Standards (SAS) No. 62, *Special Reports* (AICPA, *Professional Standards*, vol. 1, AU sec. 623), as amended, when the auditee prepares the financial statement of the program in conformity with a basis of accounting other than generally accepted accounting principles (GAAP).

⁵ If a separate report is issued to meet the reporting requirements of *Government Auditing Standards* (see paragraph 13.10), an additional paragraph should be added after the opinion paragraph as follows:

In accordance with *Government Auditing Standards*, we have also issued our report dated [date of report] on our consideration of Example Entity's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The second sentence of this paragraph should be modified if the auditor is providing an opinion on internal control over financial reporting or on compliance.

Example 13-2

Report on Compliance with Requirements Applicable to the Federal Program and on Internal Control Over Compliance in Accordance With the Program-Specific Audit Option Under OMB Circular A-133⁶ (Unqualified Opinion on Compliance and No Material Weaknesses [No Reportable Conditions Identified])⁷

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to [identify the federal program] for the year ended June 30, 20X1. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,⁸ issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on [identify the federal program] occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

In our opinion, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to its [identify the federal program] for the year ended June 30, 20X1. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned

⁶ This is an example of a report on a program-specific audit under Circular A-133 when no federal audit guide applicable to the program being audited is available. When a federal audit guide applicable to the program is available, Circular A-133 requires that the auditor follow the reporting requirements of that federal audit guide. (Paragraph 13.04 discusses the auditor's responsibility when a program-specific audit guide is not current.)

⁷ If issuing a qualified or adverse opinion on compliance, the auditor should modify the compliance section of this report to be consistent with the wording used in Examples 12-2 through 12-4 in Appendix A (paragraph 12.54) in Chapter 12, "Auditor Reporting Requirements and Other Communication Considerations in a Single Audit," of this Guide. If reporting reportable conditions, including material weaknesses, the auditor also should modify the internal control section of this report to be consistent with the wording used in those examples. See also paragraph 13.11 concerning the need to modify this report if the schedule of findings and questioned costs includes abuse findings.

⁸ See footnote 2.

costs as items [*list the reference numbers of the related findings, for example, 20X1-1 and 20X1-2*].⁹

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on its [*identify the federal program*] in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, [*specify legislative or regulatory body*], and federal awarding agency and pass-through entity and is not intended to be and should not be used by anyone other than these specified parties.¹⁰

[*Signature*]

[*Date*]

⁹ When there are no such instances of noncompliance identified in the schedule of findings and questioned costs, the last sentence should be omitted.

¹⁰ This paragraph conforms to SAS No. 87, *Restricting the Use of an Auditor's Report* (AICPA, *Professional Standards*, vol. 1, AU sec. 532). See SAS No. 87 for additional guidance on restricted-use reports.

Appendix A

Single Audit Act Amendments of 1996

Public Law 104-156

104th Congress

An Act

July 5, 1996
[S. 1579]To streamline and improve the effectiveness of chapter 75 of title 31, United States Code
(commonly referred to as the "Single Audit Act").Single Audit Act
Amendments of
1996.
31 USC 7501
note.*Be it enacted by the Senate and House of Representatives of the
United States of America in Congress assembled,***SECTION 1. SHORT TITLE; PURPOSES.**(a) SHORT TITLE—This Act may be cited as the "Single Audit Act
Amendments of 1996".

(b) PURPOSES—The purposes of this Act are to—

(1) promote sound financial management, including effective
internal controls, with respect to Federal awards administered by
non-Federal entities;(2) establish uniform requirements for audits of Federal
awards administered by non-Federal entities;

(3) promote the efficient and effective use of audit resources;

(4) reduce burdens on State and local governments, Indian
tribes, and nonprofit organizations; and(5) ensure that Federal departments and agencies, to the
maximum extent practicable, rely upon and use audit work done
pursuant to chapter 75 of title 31, United States Code (as amended
by this Act).**SEC. 2. AMENDMENT TO TITLE 31, UNITED STATES CODE.**Chapter 75 of title 31, United States Code, is amended to read as
follows:**"CHAPTER 75—REQUIREMENTS FOR SINGLE AUDITS**

"Sec.

"7501. Definitions.

"7502. Audit requirements; exemptions.

"7503. Relation to other audit requirements.

"7504. Federal agency responsibilities and relations with non-Federal entities.

"7505. Regulations.

"7506. Monitoring responsibilities of the Comptroller General.

"7507. Effective date.

"§ 7501. Definitions

(a) As used in this chapter, the term—

(1) 'Comptroller General' means the Comptroller General of
the United States;(2) 'Director' means the Director of the Office of Management
and Budget;(3) 'Federal agency' has the same meaning as the term
'agency' in section 551(1) of title 5;

“(4) ‘Federal awards’ means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities;

“(5) ‘Federal financial assistance’ means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property, cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, or other assistance, but does not include amounts received as reimbursement for services rendered to individuals in accordance with guidance issued by the Director;

“(6) ‘Federal program’ means all Federal awards to a non-Federal entity assigned a single number in the Catalog of Federal Domestic Assistance or encompassed in a group of numbers or other category as defined by the Director;

“(7) ‘generally accepted government auditing standards’ means the government auditing standards issued by the Comptroller General;

“(8) ‘independent auditor’ means—

“(A) an external State or local government auditor who meets the independence standards included in generally accepted government auditing standards; or

“(B) a public accountant who meets such independence standards;

“(9) ‘Indian tribe’ means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation (as defined in, or established under, the Alaskan Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

“(10) ‘internal controls’ means a process, effected by an entity’s management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

“(A) Effectiveness and efficiency of operations.

“(B) Reliability of financial reporting.

“(C) Compliance with applicable laws and regulations;

“(11) ‘local government’ means any unit of local government within a State, including a county, borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, any other instrumentality of local government and, in accordance with guidelines issued by the Director, a group of local governments;

“(12) ‘major program’ means a Federal program identified in accordance with risk-based criteria prescribed by the Director under this chapter, subject to the limitations described under subsection (b);

“(13) ‘non-Federal entity’ means a State, local government, or nonprofit organization;

“(14) ‘nonprofit organization’ means any corporation, trust, association, cooperative, or other organization that—

“(A) is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

“(B) is not organized primarily for profit; and

“(C) uses net proceeds to maintain, improve, or expand the operations of the organization;

“(15) ‘pass-through entity’ means a non-Federal entity that provides Federal awards to a subrecipient to carry out a Federal program;

“(16) ‘program-specific audit’ means an audit of one Federal program;

“(17) ‘recipient’ means a non-Federal entity that receives awards directly from a Federal agency to carry out a Federal program;

“(18) ‘single audit’ means an audit, as described under section 7502(d), of a non-Federal entity that includes the entity’s financial statements and Federal awards;

“(19) ‘State’ means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, any instrumentality thereof, any multi-State, regional, or interstate entity which has governmental functions, and any Indian tribe; and

“(20) ‘subrecipient’ means a non-Federal entity that receives Federal awards through another non-Federal entity to carry out a Federal program, but does not include an individual who receives financial assistance through such awards.

“(b) In prescribing risk-based program selection criteria for major programs, the Director shall not require more programs to be identified as major for a particular non-Federal entity, except as prescribed under subsection (c) or as provided under subsection (d), than would be identified if the major programs were defined as any program for which total expenditures of Federal awards by the non-Federal entity during the applicable year exceed—

“(1) the larger of \$30,000,000 or 0.15 percent of the non-Federal entity’s total Federal expenditures, in the case of a non-Federal entity for which such total expenditures for all programs exceed \$10,000,000,000;

“(2) the larger of \$3,000,000, or 0.30 percent of the non-Federal entity’s total Federal expenditures, in the case of a non-Federal entity for which such total expenditures for all programs exceed \$100,000,000 but are less than or equal to \$10,000,000,000; or

“(3) the larger of \$300,000, or 3 percent of such total Federal expenditures for all programs, in the case of a non-Federal entity for which such total expenditures for all programs equal or exceed \$300,000 but are less than or equal to \$100,000,000.

“(c) When the total expenditures of a non-Federal entity’s major programs are less than 50 percent of the non-Federal entity’s total expenditures of all Federal awards (or such lower percentage as specified by the Director), the auditor shall select and test additional programs as major programs as necessary to achieve audit coverage of at least 50 percent of Federal expenditures by the non-Federal entity (or such lower percentage as specified by the Director), in accordance with guidance issued by the Director.

“(d) Loan or loan guarantee programs, as specified by the Director, shall not be subject to the application of subsection (b).

“§ 7502. Audit requirements; exemptions

“(a)(1)(A) Each non-Federal entity that expends a total amount of Federal awards equal to or in excess of \$300,000 or such other amount specified by the Director under subsection (a)(3) in any fiscal year of such non-Federal entity shall have either a single audit or a program-specific audit made for such fiscal year in accordance with the requirements of this chapter.

“(B) Each such non-Federal entity that expends Federal awards under more than one Federal program shall undergo a single audit in accordance with the requirements of subsections (b) through (i) of this section and guidance issued by the Director under section 7505.

“(C) Each such non-Federal entity that expends awards under only one Federal program and is not subject to laws, regulations, or Federal award agreements that require a financial statement audit of the non-Federal entity, may elect to have a program-specific audit conducted in accordance with applicable provisions of this section and guidance issued by the Director under section 7505.

“(2)(A) Each non-Federal entity that expends a total amount of Federal awards of less than \$300,000 or such other amount specified by the Director under subsection (a)(3) in any fiscal year of such entity, shall be exempt for such fiscal year from compliance with—

“(i) the audit requirements of this chapter; and

“(ii) any applicable requirements concerning financial audits contained in Federal statutes and regulations governing programs under which such Federal awards are provided to that non-Federal entity.

“(B) The provisions of subparagraph (A)(ii) of this paragraph shall not exempt a non-Federal entity from compliance with any provision of a Federal statute or regulation that requires such non-Federal entity to maintain records concerning Federal awards provided to such non-Federal entity or that permits a Federal agency, pass-through entity, or the Comptroller General access to such records.

“(3) Every 2 years, the Director shall review the amount for requiring audits prescribed under paragraph (1)(A) and may adjust such dollar amount consistent with the purposes of this chapter, provided the Director does not make such adjustments below \$300,000.

“(b)(1) Except as provided in paragraphs (2) and (3), audits conducted pursuant to this chapter shall be conducted annually.

“(2) A State or local government that is required by constitution or statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits pursuant to this chapter biennially. Audits conducted biennially under the provisions of this paragraph shall cover both years within the biennial period.

“(3) Any nonprofit organization that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits pursuant to this chapter biennially. Audits conducted biennially under the provisions of this paragraph shall cover both years within the biennial period.

“(c) Each audit conducted pursuant to subsection (a) shall be conducted by an independent auditor in accordance with generally accepted government auditing standards, except that, for the purposes of this chapter, performance audits shall not be required except as authorized by the Director.

“(d) Each single audit conducted pursuant to subsection (a) for any fiscal year shall—

“(1) cover the operations of the entire non-Federal entity; or

“(2) at the option of such non-Federal entity such audit shall include a series of audits that cover departments, agencies, and other organizational units which expended or otherwise administered Federal awards during such fiscal year provided that each such audit shall encompass the financial statements and schedule of expenditures of Federal awards for each such department, agency, and organizational unit, which shall be considered to be a non-Federal entity.

“(e) The auditor shall—

“(1) determine whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles;

“(2) determine whether the schedule of expenditures of Federal awards is presented fairly in all material respects in relation to the financial statements taken as a whole;

“(3) with respect to internal controls pertaining to the compliance requirements for each major program—

“(A) obtain an understanding of such internal controls;

“(B) assess control risk; and

“(C) perform tests of controls unless the controls are deemed to be ineffective; and

“(4) determine whether the non-Federal entity has complied with the provisions of laws, regulations, and contracts or grants pertaining to Federal awards that have a direct and material effect on each major program.

“(f)(1) Each Federal agency which provides Federal awards to a recipient shall—

“(A) provide such recipient the program names (and any identifying numbers) from which such awards are derived, and the Federal requirements which govern the use of such awards and the requirements of this chapter; and

“(B) review the audit of a recipient as necessary to determine whether prompt and appropriate corrective action has been taken with respect to audit findings, as defined by the Director, pertaining to Federal awards provided to the recipient by the Federal agency.

“(2) Each pass-through entity shall—

“(A) provide such subrecipient the program names (and any identifying numbers) from which such assistance is derived, and the Federal requirements which govern the use of such awards and the requirements of this chapter;

“(B) monitor the subrecipient’s use of Federal awards through site visits, limited scope audits, or other means;

“(C) review the audit of a subrecipient as necessary to determine whether prompt and appropriate corrective action has been taken with respect to audit findings, as defined by the Director, pertaining to Federal awards provided to the subrecipient by the pass-through entity; and

“(D) require each of its subrecipients of Federal awards to permit, as a condition of receiving Federal awards, the independent auditor of the pass-through entity to have such access to the subrecipient’s records and financial statements as may be necessary for the pass-through entity to comply with this chapter.

“(g)(1) The auditor shall report on the results of any audit conducted pursuant to this section, in accordance with guidance issued by the Director. Reports.

“(2) When reporting on any single audit, the auditor shall include a summary of the auditor’s results regarding the non-Federal entity’s financial statements, internal controls, and compliance with laws and regulations.

“(h) The non-Federal entity shall transmit the reporting package, which shall include the non-Federal entity’s financial statements, schedule of expenditures of Federal awards, corrective action plan defined under subsection (i), and auditor’s reports developed pursuant to this section, to a Federal clearinghouse designated by the Director, and make it available for public inspection within the earlier of—

“(1) 30 days after receipt of the auditor’s report; or

“(2)(A) for a transition period of at least 2 years after the effective date of the Single Audit Act Amendments of 1996, as established by the Director, 13 months after the end of the period audited; or

“(B) for fiscal years beginning after the period specified in subparagraph (A), 9 months after the end of the period audited, or within a longer time frame authorized by the Federal agency, determined under criteria issued under section 7504, when the 9-month time frame would place an undue burden on the non-Federal entity.

“(i) If an audit conducted pursuant to this section discloses any audit findings, as defined by the Director, including material noncompliance with individual compliance requirements for a major program by, or reportable conditions in the internal controls of, the non-Federal entity with respect to the matters described in subsection (e), the non-Federal entity shall submit to Federal officials designated by the Director, a plan for corrective action to eliminate such audit findings or reportable conditions or a statement describing the reasons that corrective action is not necessary. Such plan shall be consistent with the audit resolution standard promulgated by the Comptroller General (as part of the standards for internal controls in the Federal Government) pursuant to section 3512(c).

“(j) The Director may authorize pilot projects to test alternative methods of achieving the purposes of this chapter. Such pilot projects may begin only after consultation with the Chair and Ranking Minority Member of the Committee on Governmental Affairs of the Senate and the Chair and Ranking Minority Member of the Committee on Government Reform and Oversight of the House of Representatives.

§ 7503. Relation to other audit requirements

“(a) An audit conducted in accordance with this chapter shall be in lieu of any financial audit of Federal awards which a non-Federal entity is required to undergo under any other Federal law or regulation. To the extent that such audit provides a Federal agency with the information it requires to carry out its responsibilities under Federal law or regulation, a Federal agency shall rely upon and use that information.

“(b) Notwithstanding subsection (a), a Federal agency may conduct or arrange for additional audits which are necessary to carry out its responsibilities under Federal law or regulation. The provisions of this chapter do not authorize any non-Federal entity (or subrecipient thereof) to constrain, in any manner, such agency from carrying out or arranging for such additional audits, except that the Federal agency shall plan such audits to not be duplicative of other audits of Federal awards.

“(c) The provisions of this chapter do not limit the authority of Federal agencies to conduct, or arrange for the conduct of, audits and evaluations of Federal awards, nor limit the authority of any Federal agency Inspector General or other Federal official.

“(d) Subsection (a) shall apply to a non-Federal entity which undergoes an audit in accordance with this chapter even though it is not required by section 7502(a) to have such an audit.

“(e) A Federal agency that provides Federal awards and conducts or arranges for audits of non-Federal entities receiving such awards that are in addition to the audits of non-Federal entities conducted pursuant to this chapter shall, consistent with other applicable law, arrange for funding the full cost of such additional audits. Any such additional audits shall be coordinated with the Federal agency determined under criteria issued under section 7504 to preclude duplication of the audits conducted pursuant to this chapter or other additional audits.

“(f) Upon request by a Federal agency or the Comptroller General, any independent auditor conducting an audit pursuant to this chapter shall make the auditor’s working papers available to the Federal agency or the Comptroller General as part of a quality review, to resolve audit findings, or to carry out oversight responsibilities consistent with the purposes of this chapter. Such access to auditor’s working papers shall include the right to obtain copies.

“§ 7504. Federal agency responsibilities and relations with non-Federal entities

“(a) Each Federal agency shall, in accordance with guidance issued by the Director under section 7505, with regard to Federal awards provided by the agency—

“(1) monitor non-Federal entity use of Federal awards, and

“(2) assess the quality of audits conducted under this chapter for audits of entities for which the agency is the single Federal agency determined under subsection (b).

“(b) Each non-Federal entity shall have a single Federal agency, determined in accordance with criteria established by the Director, to provide the non-Federal entity with technical assistance and assist with implementation of this chapter.

“(c) The Director shall designate a Federal clearinghouse to—

“(1) receive copies of all reporting packages developed in accordance with this chapter;

“(2) identify recipients that expend \$300,000 or more in Federal awards or such other amount specified by the Director under section 7502(a)(3) during the recipient’s fiscal year but did not undergo an audit in accordance with this chapter; and

“(3) perform analyses to assist the Director in carrying out responsibilities under this chapter.

“§ 7505. Regulations

“(a) The Director, after consultation with the Comptroller General, and appropriate officials from Federal, State, and local governments and nonprofit organizations shall prescribe guidance to implement this chapter. Each Federal agency shall promulgate such amendments to its regulations as may be necessary to conform such regulations to the requirements of this chapter and of such guidance.

“(b)(1) The guidance prescribed pursuant to subsection (a) shall include criteria for determining the appropriate charges to Federal awards for the cost of audits. Such criteria shall prohibit a non-Federal entity from charging to any Federal awards—

“(A) the cost of any audit which is—

“(i) not conducted in accordance with this chapter; or

“(ii) conducted in accordance with this chapter when expenditures of Federal awards are less than amounts cited in section 7502(a)(1)(A) or specified by the Director under section 7502(a)(3), except that the Director may allow the cost of limited scope audits to monitor subrecipients in accordance with section 7502(f)(2)(B); and

“(B) more than a reasonably proportionate share of the cost of any such audit that is conducted in accordance with this chapter.

“(2) The criteria prescribed pursuant to paragraph (1) shall not, in the absence of documentation demonstrating a higher actual cost, permit the percentage of the cost of audits performed pursuant to this chapter charged to Federal awards, to exceed the ratio of total Federal awards expended by such non-Federal entity during the applicable fiscal year or years, to such non-Federal entity’s total expenditures during such fiscal year or years.

“(c) Such guidance shall include such provisions as may be necessary to ensure that small business concerns and business concerns owned and controlled by socially and economically disadvantaged individuals will have the opportunity to participate in the performance of contracts awarded to fulfill the audit requirements of this chapter.

“§ 7506. Monitoring responsibilities of the Comptroller General

“(a) The Comptroller General shall review provisions requiring financial audits of non-Federal entities that receive Federal awards that are contained in bills and resolutions reported by the committees of the Senate and the House of Representatives.

“(b) If the Comptroller General determines that a bill or resolution contains provisions that are inconsistent with the requirements of this chapter, the Comptroller General shall, at the earliest practicable date, notify in writing—

“(1) the committee that reported such bill or resolution; and

“(2)(A) the Committee on Governmental Affairs of the Senate (in the case of a bill or resolution reported by a committee of the Senate); or

“(B) the Committee on Government Reform and Oversight of the House of Representatives (in the case of a bill or resolution reported by a committee of the House of Representatives).

“§ 7507. Effective date

“This chapter shall apply to any non-Federal entity with respect to any of its fiscal years which begin after June 30, 1996.”.

31 USC 7501
note.

SEC. 3. TRANSITIONAL APPLICATION

Subject to section 7507 of title 31, United States Code (as amended by section 2 of this Act) the provisions of chapter 75 of such title (before amendment by section 2 of this Act) shall continue to apply to any State or local government with respect to any of its fiscal years beginning before July 1, 1996.

Approved July 5, 1996.

LEGISLATIVE HISTORY—S. 1579 (H.R. 3184):

HOUSE REPORTS: No. 104–607 accompanying H.R. 3184 (Comm. on Government Reform and Oversight).

SENATE REPORTS: No. 104–266 (Comm. On Governmental Affairs).

CONGRESSIONAL RECORD, Vol. 142 (1996):

June 14, considered and passed Senate.

June 18, considered and passed House.

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS, Vol. 32 (1996):

July 5, Presidential statement.

Appendix B

OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations

Augustine T. Smythe,
Acting Director

1. OMB rescinds Circular A-128 June 27, 2003
2. OMB revises Circular A-133 to read as follows:

[Circular No. A-133—Revised]

To the Heads of Executive Departments and Establishments

SUBJECT: Audits of States, Local Governments, and Non-Profit Organizations.

1. *Purpose.* This Circular is issued pursuant to the Single Audit Act of 1984, P.L. 98-502, and the Single Audit Act Amendments of 1996, P.L. 104-156. It sets forth standards for obtaining consistency and uniformity among Federal agencies for the audit of States, local governments, and non-profit organizations expending Federal awards.

2. *Authority.* Circular A-133 is issued under the authority of sections 503, 1111, and 7501 *et seq.* of title 31, United States Code, and Executive Orders 8248 and 11541.

3. *Rescission and Supersession.* This Circular rescinds Circular A-128, "Audits of State and Local Governments," issued April 12, 1985, and supersedes the prior Circular A-133, "Audits of Institutions of Higher Education and Other Non-Profit Institutions," issued April 22, 1996. For effective dates, see paragraph 10.

4. *Policy.* Except as provided herein, the standards set forth in this Circular shall be applied by all Federal agencies. If any statute specifically prescribes policies or specific requirements that differ from the standards provided herein, the provisions of the subsequent statute shall govern.

Federal agencies shall apply the provisions of the sections of this Circular to non-Federal entities, whether they are recipients expending Federal awards received directly from Federal awarding agencies, or are subrecipients expending Federal awards received from a pass-through entity (a recipient or another subrecipient).

This Circular does not apply to non-U.S. based entities expending Federal awards received either directly as a recipient or indirectly as a subrecipient.

5. *Definitions.* The definitions of key terms used in this Circular are contained in § __.105 in the Attachment to this Circular.

6. *Required Action.* The specific requirements and responsibilities of Federal agencies and non-Federal entities are set forth in the Attachment to this

Circular. Federal agencies making awards to non-Federal entities, either directly or indirectly, shall adopt the language in the Circular in codified regulations as provided in Section 10 (below), unless different provisions are required by Federal statute or are approved by the Office of Management and Budget (OMB).

7. *OMB Responsibilities.* OMB will review Federal agency regulations and implementation of this Circular, and will provide interpretations of policy requirements and assistance to ensure uniform, effective and efficient implementation.

8. *Information Contact.* Further information concerning Circular A-133 may be obtained by contacting the Financial Standards and Reporting Branch, Office of Federal Financial Management, Office of Management and Budget, Washington, DC 20503, telephone (202) 395-3993.

9. *Review Date.* This Circular will have a policy review three years from the date of issuance.

10. *Effective Dates.* The standards set forth in §__.400 of the Attachment to this Circular, which apply directly to Federal agencies, shall be effective July 1, 1996, and shall apply to audits of fiscal years beginning after June 30, 1996, except as otherwise specified in §__.400(a).

The standards set forth in this Circular that Federal agencies shall apply to non-Federal entities shall be adopted by Federal agencies in codified regulations not later than 60 days after publication of this final revision in the **Federal Register**, so that they will apply to audits of fiscal years beginning after June 30, 1996, with the exception that §__.305(b) of the Attachment applies to audits of fiscal years beginning after June 30, 1998. The requirements of Circular A-128, although the Circular is rescinded, and the 1990 version of Circular A-133 remain in effect for audits of fiscal years beginning on or before June 30, 1996.

The revisions published in the *Federal Register* June 27, 2003, are effective for fiscal years ending after December 31, 2003, and early implementation is not permitted with the exception of the definition of *oversight agency for audit* which is effective July 28, 2003.

Augustine T. Smythe,
Acting Director.

§___.100 Purpose.

This part sets forth standards for obtaining consistency and uniformity among Federal agencies for the audit of non-Federal entities expending Federal awards.

§__.105 Definitions.

Auditee means any non-Federal entity that expends Federal awards which must be audited under this part.

Auditor means an auditor, that is a public accountant or a Federal, State or local government audit organization, which meets the general standards specified in generally accepted government auditing standards (GAGAS). The term *auditor* does not include internal auditors of non-profit organizations.

Audit finding means deficiencies which the auditor is required by §__.510(a) to report in the schedule of findings and questioned costs.

CFDA number means the number assigned to a Federal program in the *Catalog of Federal Domestic Assistance (CFDA)*.

Cluster of programs means a grouping of closely related programs that share common compliance requirements. The types of clusters of programs are research and development (R&D), student financial aid (SFA), and other clusters. "Other clusters" are as defined by the Office of Management and Budget (OMB) in the compliance supplement or as designated by a State for Federal awards the State provides to its subrecipients that meet the definition of a cluster of programs. When designating an "other cluster," a State shall identify the Federal awards included in the cluster and advise the subrecipients of compliance requirements applicable to the cluster, consistent with §__.400(d)(1) and §__.400(d)(2), respectively. A cluster of programs shall be considered as one program for determining major programs, as described in §__.520, and, with the exception of R&D as described in §__.200(c), whether a program-specific audit may be elected.

Cognizant agency for audit means the Federal agency designated to carry out the responsibilities described in §__.400(a).

Compliance supplement refers to the *Circular A-133 Compliance Supplement*, included as Appendix B to Circular A-133, or such documents as OMB or its designee may issue to replace it. This document is available from the Government Printing Office, Superintendent of Documents, Washington, DC 20402-9325.

Corrective action means action taken by the auditee that:

- (1) Corrects identified deficiencies;
- (2) Produces recommended improvements; or
- (3) Demonstrates that audit findings are either invalid or do not warrant auditee action.

Federal agency has the same meaning as the term *agency* in Section 551(1) of title 5, United States Code.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors. Any audits of such vendors shall be covered by the terms and conditions of the contract. Contracts to operate Federal Government owned, contractor operated facilities (GOCOs) are excluded from the requirements of this part.

Federal awarding agency means the Federal agency that provides an award directly to the recipient.

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals as described in §__.205(h) and §__.205(i).

Federal program means:

- (1) All Federal awards to a non-Federal entity assigned a single number in the CFDA.
- (2) When no CFDA number is assigned, all Federal awards from the same agency made for the same purpose should be combined and considered one program.
- (3) Notwithstanding paragraphs (1) and (2) of this definition, a cluster of programs. The types of clusters of programs are:
 - (i) Research and development (R&D);
 - (ii) Student financial aid (SFA); and
 - (iii) "Other clusters," as described in the definition of cluster of programs in this section.

GAGAS means generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits.

Generally accepted accounting principles has the meaning specified in generally accepted auditing standards issued by the American Institute of Certified Public Accountants (AICPA).

Indian tribe means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation (as defined in, or established under, the Alaskan Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Internal control means a process, effected by an entity's management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

- (1) Effectiveness and efficiency of operations;
- (2) Reliability of financial reporting; and
- (3) Compliance with applicable laws and regulations.

Internal control pertaining to the compliance requirements for Federal programs (Internal control over Federal programs) means a process—effected by an entity's management and other personnel—designed to provide reasonable assurance regarding the achievement of the following objectives for Federal programs:

- (1) Transactions are properly recorded and accounted for to:
 - (i) Permit the preparation of reliable financial statements and Federal reports;

- (ii) Maintain accountability over assets; and
- (iii) Demonstrate compliance with laws, regulations, and other compliance requirements;
- (2) Transactions are executed in compliance with:
 - (i) Laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on a Federal program; and
 - (ii) Any other laws and regulations that are identified in the compliance supplement; and
- (3) Funds, property, and other assets are safeguarded against loss from unauthorized use or disposition.

Loan means a Federal loan or loan guarantee received or administered by a non-Federal entity.

Local government means any unit of local government within a State, including a county, borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, and any other instrumentality of local government.

Major program means a Federal program determined by the auditor to be a major program in accordance with §__.520 or a program identified as a major program by a Federal agency or pass-through entity in accordance with §__.215(c).

Management decision means the evaluation by the Federal awarding agency or pass-through entity of the audit findings and corrective action plan and the issuance of a written decision as to what corrective action is necessary.

Non-Federal entity means a State, local government, or non-profit organization.

Non-profit organization means:

- (1) any corporation, trust, association, cooperative, or other organization that:
 - (i) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
 - (ii) Is not organized primarily for profit; and
 - (iii) Uses its net proceeds to maintain, improve, or expand its operations; and
- (2) The term *non-profit organization* includes non-profit institutions of higher education and hospitals.

OMB means the Executive Office of the President, Office of Management and Budget.

Oversight agency for audit means the Federal awarding agency that provides the predominant amount of direct funding to a recipient not assigned a cognizant agency for audit. When there is no direct funding, the Federal agency with the predominant indirect funding shall assume the oversight responsibilities. The duties of the oversight agency for audit are described in §__.400(b).

Effective July 28, 2003, the following is added to this definition:

A Federal agency with oversight for an auditee may reassign oversight to another Federal agency which provides substantial funding and agrees to be the oversight agency for audit. Within 30 days after any reassignment, both the old and the new oversight agency for audit shall notify the auditee, and, if known, the auditor of the reassignment.

Pass-through entity means a non-Federal entity that provides a Federal award to a subrecipient to carry out a Federal program.

Program-specific audit means an audit of one Federal program as provided for in §__.200(c) and §__.235.

Questioned cost means a cost that is questioned by the auditor because of an audit finding:

- (1) Which resulted from a violation or possible violation of a provision of a law, regulation, contract, grant, cooperative agreement, or other agreement or document governing the use of Federal funds, including funds used to match Federal funds;
- (2) Where the costs, at the time of the audit, are not supported by adequate documentation; or
- (3) Where the costs incurred appear unreasonable and do not reflect the actions a prudent person would take in the circumstances.

Recipient means a non-Federal entity that expends Federal awards received directly from a Federal awarding agency to carry out a Federal program.

Research and development (R&D) means all research activities, both basic and applied, and all development activities that are performed by a non-Federal entity. *Research* is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. The term research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function. *Development* is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

Single audit means an audit which includes both the entity's financial statements and the Federal awards as described in §__.500.

State means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, any instrumentality thereof, any multi-State, regional, or interstate entity which has governmental functions, and any Indian tribe as defined in this section.

Student Financial Aid (SFA) includes those programs of general student assistance, such as those authorized by Title IV of the Higher Education Act of 1965, as amended, (20 U.S.C. 1070 *et seq.*) which is administered by the U.S. Department of Education, and similar programs provided by other Federal agencies. It does not include programs which provide fellowships or similar Federal awards to students on a competitive basis, or for specified studies or research.

Subrecipient means a non-Federal entity that expends Federal awards received from a pass-through entity to carry out a Federal program, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency. Guidance on distinguishing between a subrecipient and a vendor is provided in §__.210.

Types of compliance requirements refers to the types of compliance requirements listed in the compliance supplement. Examples include: activities allowed or unallowed; allowable costs/cost principles; cash management; eligibility; matching, level of effort, earmarking; and, reporting.

Vendor means a dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a Federal program. These goods or services may be for an organization's own use or for the use of beneficiaries of the Federal program. Additional guidance on distinguishing between a subrecipient and a vendor is provided in § ____.210.

Subpart B—Audits

§ ____.200 Audit requirements.

(a) *Audit required.* Non-Federal entities that expend \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) or more in a year in Federal awards shall have a single or program-specific audit conducted for that year in accordance with the provisions of this part. Guidance on determining Federal awards expended is provided in § ____.205.

(b) *Single audit.* Non-Federal entities that expend \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) or more in a year in Federal awards shall have a single audit conducted in accordance with § ____.500 except when they elect to have a program-specific audit conducted in accordance with paragraph (c) of this section.

(c) *Program-specific audit election.* When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program's laws, regulations, or grant agreements do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit conducted in accordance with § ____.235. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.

(d) *Exemption when Federal awards expended are less than \$300,000 (\$500,000 for fiscal years ending after December 31, 2003).* Non-Federal entities that expend less than \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in § ____.215(a), but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and General Accounting Office (GAO).

(e) *Federally Funded Research and Development Centers (FFRDC).* Management of an auditee that owns or operates a FFRDC may elect to treat the FFRDC as a separate entity for purposes of this part.

§ ____.205 Basis for determining Federal awards expended.

(a) *Determining Federal awards expended.* The determination of when an award is expended should be based on when the activity related to the award occurs. Generally, the activity pertains to events that require the non-Federal entity to comply with laws, regulations, and the provisions of contracts or grant agreements, such as: expenditure/expense transactions associated with grants, cost-reimbursement contracts, cooperative agreements, and direct appropriations; the disbursement of funds passed through to subrecipients; the use of loan proceeds under loan and loan guarantee programs; the receipt of property; the receipt of surplus property; the receipt or use of program income; the distribution or consumption of food commodities; the disbursement of amounts entitling the non-Federal entity to an interest subsidy; and, the period when insurance is in force.

(b) *Loan and loan guarantees (loans).* Since the Federal Government is at risk for loans until the debt is repaid, the following guidelines shall be used to

calculate the value of Federal awards expended under loan programs, except as noted in paragraphs (c) and (d) of this section:

- (1) Value of new loans made or received during the fiscal year; plus
- (2) Balance of loans from previous years for which the Federal Government imposes continuing compliance requirements; plus
- (3) Any interest subsidy, cash, or administrative cost allowance received.

(c) *Loan and loan guarantees (loans) at institutions of higher education.* When loans are made to students of an institution of higher education but the institution does not make the loans, then only the value of loans made during the year shall be considered Federal awards expended in that year. The balance of loans for previous years is not included as Federal awards expended because the lender accounts for the prior balances.

(d) *Prior loan and loan guarantees (loans).* Loans, the proceeds of which were received and expended in prior-years, are not considered Federal awards expended under this part when the laws, regulations, and the provisions of contracts or grant agreements pertaining to such loans impose no continuing compliance requirements other than to repay the loans.

(e) *Endowment funds.* The cumulative balance of Federal awards for endowment funds which are federally restricted are considered awards expended in each year in which the funds are still restricted.

(f) *Free rent.* Free rent received by itself is not considered a Federal award expended under this part. However, free rent received as part of an award to carry out a Federal program shall be included in determining Federal awards expended and subject to audit under this part.

(g) *Valuing non-cash assistance.* Federal non-cash assistance, such as free rent, food stamps, food commodities, donated property, or donated surplus property, shall be valued at fair market value at the time of receipt or the assessed value provided by the Federal agency.

(h) *Medicare.* Medicare payments to a non-Federal entity for providing patient care services to Medicare eligible individuals are not considered Federal awards expended under this part.

(i) *Medicaid.* Medicaid payments to a subrecipient for providing patient care services to Medicaid eligible individuals are not considered Federal awards expended under this part unless a State requires the funds to be treated as Federal awards expended because reimbursement is on a cost-reimbursement basis.

(j) *Certain loans provided by the National Credit Union Administration.* For purposes of this part, loans made from the National Credit Union Share Insurance Fund and the Central Liquidity Facility that are funded by contributions from insured institutions are not considered Federal awards expended.

§___.210 Subrecipient and vendor determinations.

(a) *General.* An auditee may be a recipient, a subrecipient, and a vendor. Federal awards expended as a recipient or a subrecipient would be subject to audit under this part. The payments received for goods or services provided as a vendor would not be considered Federal awards. The guidance in paragraphs (b) and (c) of this section should be considered in determining whether payments constitute a Federal award or a payment for goods and services.

(b) *Federal award.* Characteristics indicative of a Federal award received by a subrecipient are when the organization:

- (1) Determines who is eligible to receive what Federal financial assistance;
- (2) Has its performance measured against whether the objectives of the Federal program are met;
- (3) Has responsibility for programmatic decision making;
- (4) Has responsibility for adherence to applicable Federal program compliance requirements; and
- (5) Uses the Federal funds to carry out a program of the organization as compared to providing goods or services for a program of the pass-through entity.

(c) *Payment for goods and services.* Characteristics indicative of a payment for goods and services received by a vendor are when the organization:

- (1) Provides the goods and services within normal business operations;
- (2) Provides similar goods or services to many different purchasers;
- (3) Operates in a competitive environment;
- (4) Provides goods or services that are ancillary to the operation of the Federal program; and
- (5) Is not subject to compliance requirements of the Federal program.

(d) *Use of judgment in making determination.* There may be unusual circumstances or exceptions to the listed characteristics. In making the determination of whether a subrecipient or vendor relationship exists, the substance of the relationship is more important than the form of the agreement. It is not expected that all of the characteristics will be present and judgment should be used in determining whether an entity is a subrecipient or vendor.

(e) *For-profit subrecipient.* Since this part does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. The contract with the for-profit subrecipient should describe applicable compliance requirements and the for-profit subrecipient's compliance responsibility. Methods to ensure compliance for Federal awards made to for-profit subrecipients may include pre-award audits, monitoring during the contract, and post-award audits.

(f) *Compliance responsibility for vendors.* In most cases, the auditee's compliance responsibility for vendors is only to ensure that the procurement, receipt, and payment for goods and services comply with laws, regulations, and the provisions of contracts or grant agreements. Program compliance requirements normally do not pass through to vendors. However, the auditee is responsible for ensuring compliance for vendor transactions which are structured such that the vendor is responsible for program compliance or the vendor's records must be reviewed to determine program compliance. Also, when these vendor transactions relate to a major program, the scope of the audit shall include determining whether these transactions are in compliance with laws, regulations, and the provisions of contracts or grant agreements.

§ __.215 Relation to other audit requirements.

(a) *Audit under this part in lieu of other audits.* An audit made in accordance with this part shall be in lieu of any financial audit required under individual

Federal awards. To the extent this audit meets a Federal agency's needs, it shall rely upon and use such audits. The provisions of this part neither limit the authority of Federal agencies, including their Inspectors General, or GAO to conduct or arrange for additional audits (e.g., financial audits, performance audits, evaluations, inspections, or reviews) nor authorize any auditee to constrain Federal agencies from carrying out additional audits. Any additional audits shall be planned and performed in such a way as to build upon work performed by other auditors.

(b) *Federal agency to pay for additional audits.* A Federal agency that conducts or contracts for additional audits shall, consistent with other applicable laws and regulations, arrange for funding the full cost of such additional audits.

(c) *Request for a program to be audited as a major program.* A Federal agency may request an auditee to have a particular Federal program audited as a major program in lieu of the Federal agency conducting or arranging for the additional audits. To allow for planning, such requests should be made at least 180 days prior to the end of the fiscal year to be audited. The auditee, after consultation with its auditor, should promptly respond to such request by informing the Federal agency whether the program would otherwise be audited as a major program using the risk-based audit approach described in §__.520 and, if not, the estimated incremental cost. The Federal agency shall then promptly confirm to the auditee whether it wants the program audited as a major program. If the program is to be audited as a major program based upon this Federal agency request, and the Federal agency agrees to pay the full incremental costs, then the auditee shall have the program audited as a major program. A pass-through entity may use the provisions of this paragraph for a subrecipient.

§__.220 Frequency of audits.

Except for the provisions for biennial audits provided in paragraphs (a) and (b) of this section, audits required by this part shall be performed annually. Any biennial audit shall cover both years within the biennial period.

- (a) A State or local government that is required by constitution or statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits pursuant to this part biennially. This requirement must still be in effect for the biennial period under audit.
- (b) Any non-profit organization that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits pursuant to this part biennially.

§__.225 Sanctions.

No audit costs may be charged to Federal awards when audits required by this part have not been made or have been made but not in accordance with this part. In cases of continued inability or unwillingness to have an audit conducted in accordance with this part, Federal agencies and pass-through entities shall take appropriate action using sanctions such as:

- (a) Withholding a percentage of Federal awards until the audit is completed satisfactorily;
- (b) Withholding or disallowing overhead costs;
- (c) Suspending Federal awards until the audit is conducted; or
- (d) Terminating the Federal award.

§ __.230 Audit costs.

(a) *Allowable costs.* Unless prohibited by law, the cost of audits made in accordance with the provisions of this part are allowable charges to Federal awards. The charges may be considered a direct cost or an allocated indirect cost, as determined in accordance with the provisions of applicable OMB cost principles circulars, the Federal Acquisition Regulation (FAR) (48 CFR parts 30 and 31), or other applicable cost principles or regulations.

(b) *Unallowable costs.* A non-Federal entity shall not charge the following to a Federal award:

- (1) The cost of any audit under the Single Audit Act Amendments of 1996 (31 U.S.C. 7501 *et seq.*) not conducted in accordance with this part.
- (2) The cost of auditing a non-Federal entity which has Federal awards expended of less than \$300,000 (*\$500,000 for fiscal years ending after December 31, 2003*) per year and is thereby exempted under § __.200(d) from having an audit conducted under this part. However, this does not prohibit a pass-through entity from charging Federal awards for the cost of limited scope audits to monitor its subrecipients in accordance with § __.400(d)(3), provided the subrecipient does not have a single audit. For purposes of this part, limited scope audits only include agreed-upon procedures engagements conducted in accordance with either the AICPA's generally accepted auditing standards or attestation standards, that are paid for and arranged by a pass-through entity and address only one or more of the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort, earmarking; and, reporting.

§ __.235 Program-specific audits.

(a) *Program-specific audit guide available.* In many cases, a program-specific audit guide will be available to provide specific guidance to the auditor with respect to internal control, compliance requirements, suggested audit procedures, and audit reporting requirements. The auditor should contact the Office of Inspector General of the Federal agency to determine whether such a guide is available. When a current program-specific audit guide is available, the auditor shall follow GAGAS and the guide when performing a program-specific audit.

(b) *Program-specific audit guide not available.* (1) When a program-specific audit guide is not available, the auditee and auditor shall have basically the same responsibilities for the Federal program as they would have for an audit of a major program in a single audit.

- (2) The auditee shall prepare the financial statement(s) for the Federal program that includes, at a minimum, a schedule of expenditures of Federal awards for the program and notes that describe the significant accounting policies used in preparing the schedule, a summary schedule of prior audit findings consistent with the requirements of § __.315(b), and a corrective action plan consistent with the requirements of § __.315(c).
- (3) The auditor shall:
 - (i) Perform an audit of the financial statement(s) for the Federal program in accordance with GAGAS;

- (ii) Obtain an understanding of internal control and perform tests of internal control over the Federal program consistent with the requirements of § __.500(c) for a major program;
 - (iii) Perform procedures to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on the Federal program consistent with the requirements of § __.500(d) for a major program; and
 - (iv) Follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee, and report, as a current year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding in accordance with the requirements of § __.500(e).
- (4) The auditor's report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The auditor's report(s) shall state that the audit was conducted in accordance with this part and include the following:
- (i) An opinion (or disclaimer of opinion) as to whether the financial statement(s) of the Federal program is presented fairly in all material respects in conformity with the stated accounting policies;
 - (ii) A report on internal control related to the Federal program, which shall describe the scope of testing of internal control and the results of the tests;
 - (iii) A report on compliance which includes an opinion (or disclaimer of opinion) as to whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on the Federal program; and
 - (iv) A schedule of findings and questioned costs for the Federal program that includes a summary of the auditor's results relative to the Federal program in a format consistent with § __.505(d)(1) and findings and questioned costs consistent with the requirements of § __.505(d)(3).

(c) *Report submission for program-specific audits.* (1) The audit shall be completed and the reporting required by paragraph (c)(2) or (c)(3) of this section submitted within the earlier of 30 days after receipt of the auditor's report(s), or nine months after the end of the audit period, unless a longer period is agreed to in advance by the Federal agency that provided the funding or a different period is specified in a program-specific audit guide. (However, for fiscal years beginning on or before June 30, 1998, the audit shall be completed and the required reporting shall be submitted within the earlier of 30 days after receipt of the auditor's report(s), or 13 months after the end of the audit period, unless a different period is specified in a program-specific audit guide.) Unless restricted by law or regulation, the auditee shall make report copies available for public inspection.

- (2) When a program-specific audit guide is available, the auditee shall submit to the Federal clearinghouse designated by OMB the data

collection form prepared in accordance with § __.320(b), as applicable to a program-specific audit, and the reporting required by the program-specific audit guide to be retained as an archival copy. Also, the auditee shall submit to the Federal awarding agency or pass-through entity the reporting required by the program-specific audit guide.

- (3) When a program-specific audit guide is not available, the reporting package for a program-specific audit shall consist of the financial statement(s) of the Federal program, a summary schedule of prior audit findings, and a corrective action plan as described in paragraph (b)(2) of this section, and the auditor's report(s) described in paragraph (b)(4) of this section. The data collection form prepared in accordance with § __.320(b), as applicable to a program-specific audit, and one copy of this reporting package shall be submitted to the Federal clearinghouse designated by OMB to be retained as an archival copy. Also, when the schedule of findings and questioned costs disclosed audit findings or the summary schedule of prior audit findings reported the status of any audit findings, the auditee shall submit one copy of the reporting package to the Federal clearinghouse on behalf of the Federal awarding agency, or directly to the pass-through entity in the case of a subrecipient. Instead of submitting the reporting package to the pass-through entity, when a subrecipient is not required to submit a reporting package to the pass-through entity, the subrecipient shall provide written notification to the pass-through entity, consistent with the requirements of § __.320(e)(2). A subrecipient may submit a copy of the reporting package to the pass-through entity to comply with this notification requirement.

(d) *Other sections of this part may apply.* Program-specific audits are subject to § __.100 through § __.215(b), § __.220 through § __.230, § __.300 through § __.305, § __.315, § __.320(f) through § __.320(j), § __.400 through § __.405, § __.510 through § __.515, and other referenced provisions of this part unless contrary to the provisions of this section, a program-specific audit guide, or program laws and regulations.

Subpart C—Auditees

§ __.300 Auditee responsibilities.

The auditee shall:

- (a) Identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity.
- (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.
- (c) Comply with laws, regulations, and the provisions of contracts or grant agreements related to each of its Federal programs.

- (d) Prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with §___.310.
- (e) Ensure that the audits required by this part are properly performed and submitted when due. When extensions to the report submission due date required by §___.320(a) are granted by the cognizant or oversight agency for audit, promptly notify the Federal clearing-house designated by OMB and each pass-through entity providing Federal awards of the extension.
- (f) Follow up and take corrective action on audit findings, including preparation of a summary schedule of prior audit findings and a corrective action plan in accordance with §___.315(b) and §___.315(c), respectively.

§___.305 Auditor selection.

(a) *Auditor procurement.* In procuring audit services, auditees shall follow the procurement standards prescribed by the Grants Management Common Rule (hereinafter referred to as the "A-102 Common Rule") published March 11, 1988 and amended April 19, 1995 [insert appropriate CFR citation], Circular A-110, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations," or the FAR (48 CFR part 42), as applicable (OMB Circulars are available from the Office of Administration, Publications Office, room 2200, New Executive Office Building, Washington, DC 20503). Whenever possible, auditees shall make positive efforts to utilize small businesses, minority-owned firms, and women's business enterprises, in procuring audit services as stated in the A-102 Common Rule, OMB Circular A-110, or the FAR (48 CFR part 42), as applicable. In requesting proposals for audit services, the objectives and scope of the audit should be made clear. Factors to be considered in evaluating each proposal for audit services include the responsiveness to the request for proposal, relevant experience, availability of staff with professional qualifications and technical abilities, the results of external quality control reviews, and price.

(b) *Restriction on auditor preparing indirect cost proposals.* An auditor who prepares the indirect cost proposal or cost allocation plan may not also be selected to perform the audit required by this part when the indirect costs recovered by the auditee during the prior year exceeded \$1 million. This restriction applies to the base year used in the preparation of the indirect cost proposal or cost allocation plan and any subsequent years in which the resulting indirect cost agreement or cost allocation plan is used to recover costs. To minimize any disruption in existing contracts for audit services, this paragraph applies to audits of fiscal years beginning after June 30, 1998.

(c) *Use of Federal auditors.* Federal auditors may perform all or part of the work required under this part if they comply fully with the requirements of this part.

§___.310 Financial statements.

(a) *Financial statements.* The auditee shall prepare financial statements that reflect its financial position, results of operations or changes in net assets, and, where appropriate, cash flows for the fiscal year audited. The financial statements shall be for the same organizational unit and fiscal year that is chosen to meet the requirements of this part. However, organization-wide financial

statements may also include departments, agencies, and other organizational units that have separate audits in accordance with §___.500(a) and prepare separate financial statements.

(b) *Schedule of expenditures of Federal awards.* The auditee shall also prepare a schedule of expenditures of Federal awards for the period covered by the auditee's financial statements. While not required, the auditee may choose to provide information requested by Federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple award years, the auditee may list the amount of Federal awards expended for each award year separately. At a minimum, the schedule shall:

- (1) List individual Federal programs by Federal agency. For Federal programs included in a cluster of programs, list individual Federal programs within a cluster of programs. For R&D, total Federal awards expended shall be shown either by individual award or by Federal agency and major subdivision within the Federal agency. For example, the National Institutes of Health is a major subdivision in the Department of Health and Human Services.
- (2) For Federal awards received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity shall be included.
- (3) Provide total Federal awards expended for each individual Federal program and the CFDA number or other identifying number when the CFDA information is not available.
- (4) Include notes that describe the significant accounting policies used in preparing the schedule.
- (5) To the extent practical, pass-through entities should identify in the schedule the total amount provided to subrecipients from each Federal program.
- (6) Include, in either the schedule or a note to the schedule, the value of the Federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end. While not required, it is preferable to present this information in the schedule.

§___.315 **Audit findings follow-up.**

(a) *General.* The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee shall prepare a summary schedule of prior audit findings. The auditee shall also prepare a corrective action plan for current year audit findings. The summary schedule of prior audit findings and the corrective action plan shall include the reference numbers the auditor assigns to audit findings under §___.510(c). Since the summary schedule may include audit findings from multiple years, it shall include the fiscal year in which the finding initially occurred.

(b) *Summary schedule of prior audit findings.* The summary schedule of prior audit findings shall report the status of all audit findings included in the prior audit's schedule of findings and questioned costs relative to Federal awards. The summary schedule shall also include audit findings reported in the prior audit's summary schedule of prior audit findings except audit findings listed as corrected in accordance with paragraph (b)(1) of this section, or no longer valid or not warranting further action in accordance with paragraph (b)(4) of this section.

- (1) When audit findings were fully corrected, the summary schedule need only list the audit findings and state that corrective action was taken.
- (2) When audit findings were not corrected or were only partially corrected, the summary schedule shall describe the planned corrective action as well as any partial corrective action taken.
- (3) When corrective action taken is significantly different from corrective action previously reported in a corrective action plan or in the Federal agency's or pass-through entity's management decision, the summary schedule shall provide an explanation.
- (4) When the auditee believes the audit findings are no longer valid or do not warrant further action, the reasons for this position shall be described in the summary schedule. A valid reason for considering an audit finding as not warranting further action is that all of the following have occurred:
 - (i) Two years have passed since the audit report in which the finding occurred was submitted to the Federal clearinghouse;
 - (ii) The Federal agency or pass-through entity is not currently following up with the auditee on the audit finding; and
 - (iii) A management decision was not issued.

(c) *Corrective action plan.* At the completion of the audit, the auditee shall prepare a corrective action plan to address each audit finding included in the current year auditor's reports. The corrective action plan shall provide the name(s) of the contact person(s) responsible for corrective action, the corrective action planned, and the anticipated completion date. If the auditee does not agree with the audit findings or believes corrective action is not required, then the corrective action plan shall include an explanation and specific reasons.

§ __.320 Report submission.

(a) *General.* The audit shall be completed and the data collection form described in paragraph (b) of this section and reporting package described in paragraph (c) of this section shall be submitted within the earlier of 30 days after receipt of the auditor's report(s), or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit. (However, for fiscal years beginning on or before June 30, 1998, the audit shall be completed and the data collection form and reporting package shall be submitted within the earlier of 30 days after receipt of the auditor's report(s), or 13 months after the end of the audit period.) Unless restricted by law or regulation, the auditee shall make copies available for public inspection.

(b) *Data Collection.* (1) The auditee shall submit a data collection form which states whether the audit was completed in accordance with this part and provides information about the auditee, its Federal programs, and the results of the audit. The form shall be approved by OMB, available from the Federal clearinghouse designated by OMB, and include data elements similar to those presented in this paragraph. A senior level representative of the auditee (e.g., State controller, director of finance, chief executive officer, or chief financial officer) shall sign a statement to be included as part of the form certifying that: the auditee complied with the requirements of this part, the form was prepared in accordance with this part (and the instructions accompanying the form), and the information included in the form, in its entirety, are accurate and complete.

- (2) The data collection form shall include the following data elements:
- (i) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).
 - (ii) Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses.
 - (iii) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee.
 - (iv) Where applicable, a statement that reportable conditions in internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses.
 - (v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).
 - (vi) A list of the Federal awarding agencies which will receive a copy of the reporting package pursuant to § ____.320(d)(2) of the OMB Circular A-133.
 - (vii) A yes or no statement as to whether the auditee qualified as a low-risk auditee under § ____.530 of the OMB Circular A-133.
 - (viii) The dollar threshold used to distinguish between Type A and Type B programs as defined in § ____.520(b) of the OMB Circular A-133.
 - (ix) The *Catalog of Federal Domestic Assistance* (CFDA) number for each Federal program, as applicable.
 - (x) The name of each Federal program and identification of each major program. Individual programs within a cluster of programs should be listed in the same level of detail as they are listed in the schedule of expenditures of Federal awards.
 - (xi) The amount of expenditures in the schedule of expenditures of Federal awards associated with each Federal program.
 - (xii) For each Federal program, a yes or no statement as to whether there are audit findings in each of the following types of compliance requirements and the total amount of any questioned costs:
 - (A) Activities allowed or unallowed.
 - (B) Allowable costs/cost principles.
 - (C) Cash management.
 - (D) Davis-Bacon Act.
 - (E) Eligibility.
 - (F) Equipment and real property management.
 - (G) Matching, level of effort, earmarking.
 - (H) Period of availability of Federal funds.
 - (I) Procurement and suspension and debarment.
 - (J) Program income.
 - (K) Real property acquisition and relocation assistance.

- (L) Reporting.
 - (M) Subrecipient monitoring.
 - (N) Special tests and provisions.
- (xiii) Auditee Name, Employer Identification Number(s), Name and Title of Certifying Official, Telephone Number, Signature, and Date.
- (xiv) Auditor Name, Name and Title of Contact Person, Auditor Address, Auditor Telephone Number, Signature, and Date.
- (xv) Whether the auditee has either a cognizant or oversight agency for audit.
- (xvi) The name of the cognizant or oversight agency for audit determined in accordance with §__.400(a) and §__.400(b), respectively.
- (3) Using the information included in the reporting package described in paragraph (c) of this section, the auditor shall complete the applicable sections of the form. The auditor shall sign a statement to be included as part of the data collection form that indicates, at a minimum, the source of the information included in the form, the auditor's responsibility for the information, that the form is not a substitute for the reporting package described in paragraph (c) of this section, and that the content of the form is limited to the data elements prescribed by OMB.

(c) *Reporting package.* The reporting package shall include the:

- (1) Financial statements and schedule of expenditures of Federal awards discussed in §__.310(a) and §__.310(b), respectively;
- (2) Summary schedule of prior audit findings discussed in §__.315(b);
- (3) Auditor's report(s) discussed in §__.505; and
- (4) Corrective action plan discussed in §__.315(c).

(d) *Submission to clearinghouse.* All auditees shall submit to the Federal clearinghouse designated by OMB the data collection form described in paragraph (b) of this section and one copy of the reporting package described in paragraph (c) of this section for:

- (1) The Federal clearinghouse to retain as an archival copy; and
- (2) Each Federal awarding agency when the schedule of findings and questioned costs disclosed audit findings relating to Federal awards that the Federal awarding agency provided directly or the summary schedule of prior audit findings reported the status of any audit findings relating to Federal awards that the Federal awarding agency provided directly.

(e) *Additional submission by subrecipients.* (1) In addition to the requirements discussed in paragraph (d) of this section, auditees that are also subrecipients shall submit to each pass-through entity one copy of the reporting package described in paragraph (c) of this section for each pass-through entity when the schedule of findings and questioned costs disclosed audit findings relating to Federal awards that the pass-through entity provided or the summary schedule of prior audit findings reported the status of any audit findings relating to Federal awards that the pass-through entity provided.

- (2) Instead of submitting the reporting package to a pass-through entity, when a subrecipient is not required to submit a reporting package to a pass-through entity pursuant to paragraph (e)(1) of this section, the subrecipient shall provide written notification to the pass-through entity that: an audit of the subrecipient was conducted in accordance with this part (including the period covered by the audit and the name, amount, and CFDA number of the Federal award(s) provided by the pass-through entity); the schedule of findings and questioned costs disclosed no audit findings relating to the Federal award(s) that the pass-through entity provided; and, the summary schedule of prior audit findings did not report on the status of any audit findings relating to the Federal award(s) that the pass-through entity provided. A subrecipient may submit a copy of the reporting package described in paragraph (c) of this section to a pass-through entity to comply with this notification requirement.

(f) *Requests for report copies.* In response to requests by a Federal agency or pass-through entity, auditees shall submit the appropriate copies of the reporting package described in paragraph (c) of this section and, if requested, a copy of any management letters issued by the auditor.

(g) *Report retention requirements.* Auditees shall keep one copy of the data collection form described in paragraph (b) of this section and one copy of the reporting package described in paragraph (c) of this section on file for three years from the date of submission to the Federal clearinghouse designated by OMB. Pass-through entities shall keep subrecipients' submissions on file for three years from date of receipt.

(h) *Clearinghouse responsibilities.* The Federal clearinghouse designated by OMB shall distribute the reporting packages received in accordance with paragraph (d)(2) of this section and § __.235(c)(3) to applicable Federal awarding agencies, maintain a data base of completed audits, provide appropriate information to Federal agencies, and follow up with known auditees which have not submitted the required data collection forms and reporting packages.

(i) *Clearinghouse address.* The address of the Federal clearinghouse currently designated by OMB is Federal Audit Clearinghouse, Bureau of the Census, 1201 E. 10th Street, Jeffersonville, IN 47132.

(j) *Electronic filing.* Nothing in this part shall preclude electronic submissions to the Federal clearinghouse in such manner as may be approved by OMB. With OMB approval, the Federal clearinghouse may pilot test methods of electronic submissions.

Subpart D—Federal Agencies and Pass-Through Entities

§ __.400 Responsibilities.

(a) *Cognizant agency for audit responsibilities.* Recipients expending more than \$25 million (\$50 million for fiscal years ending after December 31, 2003) a year in Federal awards shall have a cognizant agency for audit. The designated cognizant agency for audit shall be the Federal awarding agency that provides the predominant amount of direct funding to a recipient unless OMB makes a specific cognizant agency for audit assignment.

Following is effective for fiscal years ending on or before December 31, 2003:

To provide for continuity of cognizance, the determination of the predominant amount of direct funding shall be based upon direct Federal awards expended in the recipient's fiscal years ending in 1995, 2000, 2005, and every fifth year thereafter. For example, audit cognizance for periods ending in 1997 through

2000 will be determined based on Federal awards expended in 1995. (However, for States and local governments that expend more than \$25 million a year in Federal awards and have previously assigned cognizant agencies for audit, the requirements of this paragraph are not effective until fiscal years beginning after June 30, 2000.)

Following is effective for fiscal years ending after December 31, 2003:

The determination of the predominant amount of direct funding shall be based upon direct Federal awards expended in the recipient's fiscal years ending in 2004, 2009, 2014, and every fifth year thereafter. For example, audit cognizance for periods ending in 2006 through 2010 will be determined based on Federal awards expended in 2004. (However, for 2001 through 2005, the cognizant agency for audit is determined based on the predominant amount of direct Federal awards expended in the recipient's fiscal year ending in 2000).

Notwithstanding the manner in which audit cognizance is determined, a Federal awarding agency with cognizance for an auditee may reassign cognizance to another Federal awarding agency which provides substantial direct funding and agrees to be the cognizant agency for audit. Within 30 days after any reassignment, both the old and the new cognizant agency for audit shall notify the auditee, and, if known, the auditor of the reassignment. The cognizant agency for audit shall:

- (1) Provide technical audit advice and liaison to auditees and auditors.
- (2) Consider auditee requests for extensions to the report submission due date required by § __.320(a). The cognizant agency for audit may grant extensions for good cause.
- (3) Obtain or conduct quality control reviews of selected audits made by non-Federal auditors, and provide the results, when appropriate, to other interested organizations.
- (4) Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any direct reporting by the auditee or its auditor of irregularities or illegal acts, as required by GAGAS or laws and regulations.
- (5) Advise the auditor and, where appropriate, the auditee of any deficiencies found in the audits when the deficiencies require corrective action by the auditor. When advised of deficiencies, the auditee shall work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency for audit shall notify the auditor, the auditee, and applicable Federal awarding agencies and pass-through entities of the facts and make recommendations for follow-up action. Major inadequacies or repetitive substandard performance by auditors shall be referred to appropriate State licensing agencies and professional bodies for disciplinary action.
- (6) Coordinate, to the extent practical, audits or reviews made by or for Federal agencies that are in addition to the audits made pursuant to this part, so that the additional audits or reviews build upon audits performed in accordance with this part.
- (7) Coordinate a management decision for audit findings that affect the Federal programs of more than one agency.
- (8) Coordinate the audit work and reporting responsibilities among auditors to achieve the most cost-effective audit.
- (9) For biennial audits permitted under § __.220, consider auditee requests to qualify as a low-risk auditee under § __.530(a).

(b) *Oversight agency for audit responsibilities.* An auditee which does not have a designated cognizant agency for audit will be under the general oversight of the Federal agency determined in accordance with §____.105. The oversight agency for audit:

- (1) Shall provide technical advice to auditees and auditors as requested.
- (2) May assume all or some of the responsibilities normally performed by a cognizant agency for audit.

(c) *Federal awarding agency responsibilities.* The Federal awarding agency shall perform the following for the Federal awards it makes:

- (1) Identify Federal awards made by informing each recipient of the CFDA title and number, award name and number, award year, and if the award is for R&D. When some of this information is not available, the Federal agency shall provide information necessary to clearly describe the Federal award.
- (2) Advise recipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements.
- (3) Ensure that audits are completed and reports are received in a timely manner and in accordance with the requirements of this part.
- (4) Provide technical advice and counsel to auditees and auditors as requested.
- (5) Issue a management decision on audit findings within six months after receipt of the audit report and ensure that the recipient takes appropriate and timely corrective action.
- (6) Assign a person responsible for providing annual updates of the compliance supplement to OMB.

(d) *Pass-through entity responsibilities.* A pass-through entity shall perform the following for the Federal awards it makes:

- (1) Identify Federal awards made by informing each subrecipient of CFDA title and number, award name and number, award year, if the award is R&D, and name of Federal agency. When some of this information is not available, the pass-through entity shall provide the best information available to describe the Federal award.
- (2) Advise subrecipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements as well as any supplemental requirements imposed by the pass-through entity.
- (3) Monitor the activities of subrecipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.
- (4) Ensure that subrecipients expending \$300,000 (*\$500,000 for fiscal years ending after December 31, 2003*) or more in Federal awards during the subrecipient's fiscal year have met the audit requirements of this part for that fiscal year.
- (5) Issue a management decision on audit findings within six months after receipt of the subrecipient's audit report and ensure that the subrecipient takes appropriate and timely corrective action.
- (6) Consider whether subrecipient audits necessitate adjustment of the pass-through entity's own records.

- (7) Require each subrecipient to permit the pass-through entity and auditors to have access to the records and financial statements as necessary for the pass-through entity to comply with this part.

§ __.405 Management decision.

(a) *General.* The management decision shall clearly state whether or not the audit finding is sustained, the reasons for the decision, and the expected auditee action to repay disallowed costs, make financial adjustments, or take other action. If the auditee has not completed corrective action, a timetable for follow-up should be given. Prior to issuing the management decision, the Federal agency or pass-through entity may request additional information or documentation from the auditee, including a request for auditor assurance related to the documentation, as a way of mitigating disallowed costs. The management decision should describe any appeal process available to the auditee.

(b) *Federal agency.* As provided in § __.400(a)(7), the cognizant agency for audit shall be responsible for coordinating a management decision for audit findings that affect the programs of more than one Federal agency. As provided in § __.400(c)(5), a Federal awarding agency is responsible for issuing a management decision for findings that relate to Federal awards it makes to recipients. Alternate arrangements may be made on a case-by-case basis by agreement among the Federal agencies concerned.

(c) *Pass-through entity.* As provided in § __.400(d)(5), the pass-through entity shall be responsible for making the management decision for audit findings that relate to Federal awards it makes to subrecipients.

(d) *Time requirements.* The entity responsible for making the management decision shall do so within six months of receipt of the audit report. Corrective action should be initiated within six months after receipt of the audit report and proceed as rapidly as possible.

(e) *Reference numbers.* Management decisions shall include the reference numbers the auditor assigned to each audit finding in accordance with § __.510(c).

Subpart E—Auditors

§ __.500 Scope of audit.

(a) *General.* The audit shall be conducted in accordance with GAGAS. The audit shall cover the entire operations of the auditee; or, at the option of the auditee, such audit shall include a series of audits that cover departments, agencies, and other organizational units which expended or otherwise administered Federal awards during such fiscal year, provided that each such audit shall encompass the financial statements and schedule of expenditures of Federal awards for each such department, agency, and other organizational unit, which shall be considered to be a non-Federal entity. The financial statements and schedule of expenditures of Federal awards shall be for the same fiscal year.

(b) *Financial statements.* The auditor shall determine whether the financial statements of the auditee are presented fairly in all material respects in conformity with generally accepted accounting principles. The auditor shall also determine whether the schedule of expenditures of Federal awards is presented fairly in all material respects in relation to the auditee's financial statements taken as a whole.

(c) *Internal control.* (1) In addition to the requirements of GAGAS, the auditor shall perform procedures to obtain an understanding of internal control over Federal programs sufficient to plan the audit to support a low assessed level of control risk for major programs.

(2) Except as provided in paragraph (c)(3) of this section, the auditor shall:

(i) Plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program; and

(ii) Perform testing of internal control as planned in paragraph (c)(2)(i) of this section.

(3) When internal control over some or all of the compliance requirements for a major program are likely to be ineffective in preventing or detecting noncompliance, the planning and performing of testing described in paragraph (c)(2) of this section are not required for those compliance requirements. However, the auditor shall report a reportable condition (including whether any such condition is a material weakness) in accordance with §___.510, assess the related control risk at the maximum, and consider whether additional compliance tests are required because of ineffective internal control.

(d) *Compliance.* (1) In addition to the requirements of GAGAS, the auditor shall determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that may have a direct and material effect on each of its major programs.

(2) The principal compliance requirements applicable to most Federal programs and the compliance requirements of the largest Federal programs are included in the compliance supplement.

(3) For the compliance requirements related to Federal programs contained in the compliance supplement, an audit of these compliance requirements will meet the requirements of this part. Where there have been changes to the compliance requirements and the changes are not reflected in the compliance supplement, the auditor shall determine the current compliance requirements and modify the audit procedures accordingly. For those Federal programs not covered in the compliance supplement, the auditor should use the types of compliance requirements contained in the compliance supplement as guidance for identifying the types of compliance requirements to test, and determine the requirements governing the Federal program by reviewing the provisions of contracts and grant agreements and the laws and regulations referred to in such contracts and grant agreements.

(4) The compliance testing shall include tests of transactions and such other auditing procedures necessary to provide the auditor sufficient evidence to support an opinion on compliance.

(e) *Audit follow-up.* The auditor shall follow-up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee in accordance with §___.315(b), and report, as a current year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the

status of any prior audit finding. The auditor shall perform audit follow-up procedures regardless of whether a prior audit finding relates to a major program in the current year.

(f) *Data Collection Form.* As required in § __.320(b)(3), the auditor shall complete and sign specified sections of the data collection form.

§ __.505 Audit reporting.

The auditor's report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The auditor's report(s) shall state that the audit was conducted in accordance with this part and include the following:

- (a) An opinion (or disclaimer of opinion) as to whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles and an opinion (or disclaimer of opinion) as to whether the schedule of expenditures of Federal awards is presented fairly in all material respects in relation to the financial statements taken as a whole.
- (b) A report on internal control related to the financial statements and major programs. This report shall describe the scope of testing of internal control and the results of the tests, and, where applicable, refer to the separate schedule of findings and questioned costs described in paragraph (d) of this section.
- (c) A report on compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements. This report shall also include an opinion (or disclaimer of opinion) as to whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on each major program, and, where applicable, refer to the separate schedule of findings and questioned costs described in paragraph (d) of this section.
- (d) A schedule of findings and questioned costs which shall include the following three components:
 - (1) A summary of the auditor's results which shall include:
 - (i) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);
 - (ii) Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses;
 - (iii) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee;
 - (iv) Where applicable, a statement that reportable conditions in internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses;
 - (v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

- (vi) A statement as to whether the audit disclosed any audit findings which the auditor is required to report under §__.510(a);
 - (vii) An identification of major programs;
 - (viii) The dollar threshold used to distinguish between Type A and Type B programs, as described in §__.520(b); and
 - (ix) A statement as to whether the auditee qualified as a low-risk auditee under §__.530.
- (2) Findings relating to the financial statements which are required to be reported in accordance with GAGAS.
- (3) Findings and questioned costs for Federal awards which shall include audit findings as defined in §__.510(a).
- (i) Audit findings (e.g., internal control findings, compliance findings, questioned costs, or fraud) which relate to the same issue should be presented as a single audit finding. Where practical, audit findings should be organized by Federal agency or pass-through entity.
 - (ii) Audit findings which relate to both the financial statements and Federal awards, as reported under paragraphs (d)(2) and (d)(3) of this section, respectively, should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form with a reference to a detailed reporting in the other section of the schedule.

§__.510 Audit findings.

(a) *Audit findings reported.* The auditor shall report the following as audit findings in a schedule of findings and questioned costs:

- (1) Reportable conditions in internal control over major programs. The auditor's determination of whether a deficiency in internal control is a reportable condition for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement. The auditor shall identify reportable conditions which are individually or cumulatively material weaknesses.
- (2) Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor's determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement.
- (3) Known questioned costs which are greater than \$10,000 for a type of compliance requirement for a major program. Known questioned costs are those specifically identified by the auditor. In evaluating the effect of questioned costs on the opinion on compliance, the auditor considers the best estimate of total costs questioned (likely questioned costs), not just the questioned costs specifically identified (known questioned costs). The auditor shall also report known questioned costs when likely questioned costs are greater than \$10,000 for a type of compliance requirement for a major program.

In reporting questioned costs, the auditor shall include information to provide proper perspective for judging the prevalence and consequences of the questioned costs.

- (4) Known questioned costs which are greater than \$10,000 for a Federal program which is not audited as a major program. Except for audit follow-up, the auditor is not required under this part to perform audit procedures for such a Federal program; therefore, the auditor will normally not find questioned costs for a program which is not audited as a major program. However, if the auditor does become aware of questioned costs for a Federal program which is not audited as a major program (e.g., as part of audit follow-up or other audit procedures) and the known questioned costs are greater than \$10,000, then the auditor shall report this as an audit finding.
- (5) The circumstances concerning why the auditor's report on compliance for major programs is other than an unqualified opinion, unless such circumstances are otherwise reported as audit findings in the schedule of findings and questioned costs for Federal awards.
- (6) Known fraud affecting a Federal award, unless such fraud is otherwise reported as an audit finding in the schedule of findings and questioned costs for Federal awards. This paragraph does not require the auditor to make an additional reporting when the auditor confirms that the fraud was reported outside of the auditor's reports under the direct reporting requirements of GAGAS.
- (7) Instances where the results of audit follow-up procedures disclosed that the summary schedule of prior audit findings prepared by the auditee in accordance with §___.315(b) materially misrepresents the status of any prior audit finding.

(b) *Audit finding detail.* Audit findings shall be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for Federal agencies and pass-through entities to arrive at a management decision. The following specific information shall be included, as applicable, in audit findings:

- (1) Federal program and specific Federal award identification including the CFDA title and number, Federal award number and year, name of Federal agency, and name of the applicable pass-through entity. When information, such as the CFDA title and number or Federal award number, is not available, the auditor shall provide the best information available to describe the Federal award.
- (2) The criteria or specific requirement upon which the audit finding is based, including statutory, regulatory, or other citation.
- (3) The condition found, including facts that support the deficiency identified in the audit finding.
- (4) Identification of questioned costs and how they were computed.
- (5) Information to provide proper perspective for judging the prevalence and consequences of the audit findings, such as whether the audit findings represent an isolated instance or a systemic problem. Where appropriate, instances identified shall be related to the universe and the number of cases examined and be quantified in terms of dollar value.

- (6) The possible asserted effect to provide sufficient information to the auditee and Federal agency, or pass-through entity in the case of a subrecipient, to permit them to determine the cause and effect to facilitate prompt and proper corrective action.
- (7) Recommendations to prevent future occurrences of the deficiency identified in the audit finding.
- (8) Views of responsible officials of the auditee when there is disagreement with the audit findings, to the extent practical.

(c) *Reference numbers.* Each audit finding in the schedule of findings and questioned costs shall include a reference number to allow for easy referencing of the audit findings during follow-up.

§__.515 Audit working papers.

(a) *Retention of working papers.* The auditor shall retain working papers and reports for a minimum of three years after the date of issuance of the auditor's report(s) to the auditee, unless the auditor is notified in writing by the cognizant agency for audit, oversight agency for audit, or pass-through entity to extend the retention period. When the auditor is aware that the Federal awarding agency, pass-through entity, or auditee is contesting an audit finding, the auditor shall contact the parties contesting the audit finding for guidance prior to destruction of the working papers and reports.

(b) *Access to working papers.* Audit working papers shall be made available upon request to the cognizant or oversight agency for audit or its designee, a Federal agency providing direct or indirect funding, or GAO at the completion of the audit, as part of a quality review, to resolve audit findings, or to carry out oversight responsibilities consistent with the purposes of this part. Access to working papers includes the right of Federal agencies to obtain copies of working papers, as is reasonable and necessary.

§__.520 Major program determination.

(a) *General.* The auditor shall use a risk-based approach to determine which Federal programs are major programs. This risk-based approach shall include consideration of: Current and prior audit experience, oversight by Federal agencies and pass-through entities, and the inherent risk of the Federal program. The process in paragraphs (b) through (i) of this section shall be followed.

(b) *Step 1.* (1) The auditor shall identify the larger Federal programs, which shall be labeled Type A programs. Type A programs are defined as Federal programs with Federal awards expended during the audit period exceeding the larger of:

- (i) \$300,000 or three percent (.03) of total Federal awards expended in the case of an auditee for which total Federal awards expended equal or exceed \$300,000 but are less than or equal to \$100 million.
- (ii) \$3 million or three-tenths of one percent (.003) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed \$100 million but are less than or equal to \$10 billion.
- (iii) \$30 million or 15 hundredths of one percent (.0015) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed \$10 billion.

- (2) Federal programs not labeled Type A under paragraph (b)(1) of this section shall be labeled Type B programs.
- (3) The inclusion of large loan and loan guarantees (loans) should not result in the exclusion of other programs as Type A programs. When a Federal program providing loans significantly affects the number or size of Type A programs, the auditor shall consider this Federal program as a Type A program and exclude its values in determining other Type A programs.
- (4) For biennial audits permitted under §___.220, the determination of Type A and Type B programs shall be based upon the Federal awards expended during the two-year period.

(c) *Step 2.* (1) The auditor shall identify Type A programs which are low-risk. For a Type A program to be considered low-risk, it shall have been audited as a major program in at least one of the two most recent audit periods (in the most recent audit period in the case of a biennial audit), and, in the most recent audit period, it shall have had no audit findings under §___.510(a). However, the auditor may use judgment and consider that audit findings from questioned costs under §___.510(a)(3) and §___.510(a)(4), fraud under §___.510(a)(6), and audit follow-up for the summary schedule of prior audit findings under §___.510(a)(7) do not preclude the Type A program from being low-risk. The auditor shall consider: the criteria in §___.525(c), §___.525(d)(1), §___.525(d)(2), and §___.525(d)(3); the results of audit follow-up; whether any changes in personnel or systems affecting a Type A program have significantly increased risk; and apply professional judgment in determining whether a Type A program is low-risk.

- (2) Notwithstanding paragraph (c)(1) of this section, OMB may approve a Federal awarding agency's request that a Type A program at certain recipients may not be considered low-risk. For example, it may be necessary for a large Type A program to be audited as major each year at particular recipients to allow the Federal agency to comply with the Government Management Reform Act of 1994 (31 U.S.C. 3515). The Federal agency shall notify the recipient and, if known, the auditor at least 180 days prior to the end of the fiscal year to be audited of OMB's approval.

(d) *Step 3.* (1) The auditor shall identify Type B programs which are high-risk using professional judgment and the criteria in §___.525. However, should the auditor select Option 2 under Step 4 (paragraph (e)(2)(i)(B) of this section), the auditor is not required to identify more high-risk Type B programs than the number of low-risk Type A programs. Except for known reportable conditions in internal control or compliance problems as discussed in §___.525(b)(1), §___.525(b)(2), and §___.525(c)(1), a single criteria in §___.525 would seldom cause a Type B program to be considered high-risk.

- (2) The auditor is not expected to perform risk assessments on relatively small Federal programs. Therefore, the auditor is only required to perform risk assessments on Type B programs that exceed the larger of:
 - (i) \$100,000 or three-tenths of one percent (.003) of total Federal awards expended when the auditee has less than or equal to \$100 million in total Federal awards expended.
 - (ii) \$300,000 or three-hundredths of one percent (.0003) of total Federal awards expended when the auditee has more than \$100 million in total Federal awards expended.

(e) *Step 4.* At a minimum, the auditor shall audit all of the following as major programs:

- (1) All Type A programs, except the auditor may exclude any Type A programs identified as low-risk under Step 2 (paragraph (c)(1) of this section).
- (2) (i) High-risk Type B programs as identified under either of the following two options:
 - (A) *Option 1.* At least one half of the Type B programs identified as high-risk under Step 3 (paragraph (d) of this section), except this paragraph (e)(2)(i)(A) does not require the auditor to audit more high-risk Type B programs than the number of low-risk Type A programs identified as low-risk under Step 2.
 - (B) *Option 2.* One high-risk Type B program for each Type A program identified as low-risk under Step 2.
- (ii) When identifying which high-risk Type B programs to audit as major under either Option 1 or 2 in paragraph (e)(2)(i)(A) or (B) of this section, the auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.
- (3) Such additional programs as may be necessary to comply with the percentage of coverage rule discussed in paragraph (f) of this section. This paragraph (e)(3) may require the auditor to audit more programs as major than the number of Type A programs.

(f) *Percentage of coverage rule.* The auditor shall audit as major programs Federal programs with Federal awards expended that, in the aggregate, encompass at least 50 percent of total Federal awards expended. If the auditee meets the criteria in §___,530 for a low-risk auditee, the auditor need only audit as major programs Federal programs with Federal awards expended that, in the aggregate, encompass at least 25 percent of total Federal awards expended.

(g) *Documentation of risk.* The auditor shall document in the working papers the risk analysis process used in determining major programs.

(h) *Auditor's judgment.* When the major program determination was performed and documented in accordance with this part, the auditor's judgment in applying the risk-based approach to determine major programs shall be presumed correct. Challenges by Federal agencies and pass-through entities shall only be for clearly improper use of the guidance in this part. However, Federal agencies and pass-through entities may provide auditors guidance about the risk of a particular Federal program and the auditor shall consider this guidance in determining major programs in audits not yet completed.

(i) *Deviation from use of risk criteria.* For first-year audits, the auditor may elect to determine major programs as all Type A programs plus any Type B programs as necessary to meet the percentage of coverage rule discussed in paragraph (f) of this section. Under this option, the auditor would not be required to perform the procedures discussed in paragraphs (c), (d), and (e) of this section.

- (1) A first-year audit is the first year the entity is audited under this part or the first year of a change of auditors.

- (2) To ensure that a frequent change of auditors would not preclude audit of high-risk Type B programs, this election for first-year audits may not be used by an auditee more than once in every three years.

§ __.525 Criteria for Federal program risk.

(a) *General.* The auditor's determination should be based on an overall evaluation of the risk of noncompliance occurring which could be material to the Federal program. The auditor shall use auditor judgment and consider criteria, such as described in paragraphs (b), (c), and (d) of this section, to identify risk in Federal programs. Also, as part of the risk analysis, the auditor may wish to discuss a particular Federal program with auditee management and the Federal agency or pass-through entity.

(b) *Current and prior audit experience.* (1) Weaknesses in internal control over Federal programs would indicate higher risk. Consideration should be given to the control environment over Federal programs and such factors as the expectation of management's adherence to applicable laws and regulations and the provisions of contracts and grant agreements and the competence and experience of personnel who administer the Federal programs.

- (i) A Federal program administered under multiple internal control structures may have higher risk. When assessing risk in a large single audit, the auditor shall consider whether weaknesses are isolated in a single operating unit (e.g., one college campus) or pervasive throughout the entity.
 - (ii) When significant parts of a Federal program are passed through to subrecipients, a weak system for monitoring subrecipients would indicate higher risk.
 - (iii) The extent to which computer processing is used to administer Federal programs, as well as the complexity of that processing, should be considered by the auditor in assessing risk. New and recently modified computer systems may also indicate risk.
- (2) Prior audit findings would indicate higher risk, particularly when the situations identified in the audit findings could have a significant impact on a Federal program or have not been corrected.
 - (3) Federal programs not recently audited as major programs may be of higher risk than Federal programs recently audited as major programs without audit findings.

(c) *Oversight exercised by Federal agencies and pass-through entities.* (1) Oversight exercised by Federal agencies or pass-through entities could indicate risk. For example, recent monitoring or other reviews performed by an oversight entity which disclosed no significant problems would indicate lower risk. However, monitoring which disclosed significant problems would indicate higher risk.

- (2) Federal agencies, with the concurrence of OMB, may identify Federal programs which are higher risk. OMB plans to provide this identification in the compliance supplement.

(d) *Inherent risk of the Federal program.* (1) The nature of a Federal program may indicate risk. Consideration should be given to the complexity of the program and the extent to which the Federal program contracts for goods and services. For example, Federal programs that disburse funds through third party contracts or have eligibility criteria may be of higher risk. Federal programs primarily involving staff payroll costs may have a high-risk for time and effort reporting, but otherwise be at low-risk.

- (2) The phase of a Federal program in its life cycle at the Federal agency may indicate risk. For example, a new Federal program with new or interim regulations may have higher risk than an established program with time-tested regulations. Also, significant changes in Federal programs, laws, regulations, or the provisions of contracts or grant agreements may increase risk.
- (3) The phase of a Federal program in its life cycle at the auditee may indicate risk. For example, during the first and last years that an auditee participates in a Federal program, the risk may be higher due to start-up or closeout of program activities and staff.
- (4) Type B programs with larger Federal awards expended would be of higher risk than programs with substantially smaller Federal awards expended.

§ __.530 Criteria for a low-risk auditee.

An auditee which meets all of the following conditions for each of the preceding two years (or, in the case of biennial audits, preceding two audit periods) shall qualify as a low-risk auditee and be eligible for reduced audit coverage in accordance with § __.520:

- (a) Single audits were performed on an annual basis in accordance with the provisions of this part. A non-Federal entity that has biennial audits does not qualify as a low-risk auditee, unless agreed to in advance by the cognizant or oversight agency for audit.
- (b) The auditor's opinions on the financial statements and the schedule of expenditures of Federal awards were unqualified. However, the cognizant or oversight agency for audit may judge that an opinion qualification does not affect the management of Federal awards and provide a waiver.
- (c) There were no deficiencies in internal control which were identified as material weaknesses under the requirements of GAGAS. However, the cognizant or oversight agency for audit may judge that any identified material weaknesses do not affect the management of Federal awards and provide a waiver.
- (d) None of the Federal programs had audit findings from any of the following in either of the preceding two years (or, in the case of biennial audits, preceding two audit periods) in which they were classified as Type A programs:
 - (1) Internal control deficiencies which were identified as material weaknesses;
 - (2) Noncompliance with the provisions of laws, regulations, contracts, or grant agreements which have a material effect on the Type A program; or
 - (3) Known or likely questioned costs that exceed five percent of the total Federal awards expended for a Type A program during the year.

Appendix C

Schedule of Changes Made to Government Auditing Standards and Circular A-133 Audits

As of May 2004

The current edition of this Guide has been revised to incorporate recent changes in requirements and guidance, most notably the 2003 revision of *Government Auditing Standards* and the June 27, 2003, revisions to Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133). It also has been extensively restructured to provide guidance for audits of financial statements conducted in accordance with *Government Auditing Standards* separately from the guidance for audits conducted in accordance with the Single Audit Act Amendments of 1996 (the Single Audit Act) and Circular A-133. This schedule uses an overview approach to present the significant changes to this Guide. It does not reflect the numerous editorial, cross reference, and other changes that do not affect the substance of the material in the Guide. When this schedule indicates that specific paragraphs or footnotes have been revised, it shows the location of the original material in the 2003 edition of this Guide in brackets.

<u>Reference</u>	<u>Change</u>
Chapter 1, “Introduction”	<p>Incorporates introductory material previously presented primarily in Chapter 1, “Introduction and Overview.” In addition:</p> <ul style="list-style-type: none"> • To reflect the Guide’s current structure—revised paragraphs 1.01 [1.01] and 1.04 [1.03] • To reflect the scope of the Guide’s discussion of <i>Government Auditing Standards</i> requirements and guidance—added footnote 1 • To reflect the 2003 revision of <i>Government Auditing Standards</i>—added paragraph 1.02 and footnote 3 • To reflect the new threshold amount for Circular A-133 audits—added paragraph 1.02 • To reflect the effective dates of the 2003 revision of <i>Government Auditing Standards</i> and the June 27, 2003, revisions to Circular A-133—revised paragraph 1.12 [1.07] and added temporary footnotes • To include the Guide’s discussion of SAS No. 74 as introductory material—incorporated paragraphs 1.09 through 1.11 [3.03 through 3.05] • To reflect the effective date of SAS No. 99—deleted previously numbered footnote 4 to previously numbered Chapter 3 • To clarify the guidance—revised paragraph 1.08 [1.11]

<u>Reference</u>	<u>Change</u>
<p>Chapter 2, “Planning Considerations of <i>Government Auditing Standards</i>”</p>	<p>Incorporates relevant material previously presented in Chapters 1, “Introduction and Overview,” and 3, “Planning and Other Special Audit Considerations of Circular A-133.” Much of the material is significantly revised to reflect the 2003 revision to <i>Government Auditing Standards</i>, expanded to provide guidance on those requirements, and reorganized to reflect the restructuring of the Guide. In addition:</p> <ul style="list-style-type: none"> • To reflect the issuance of Ethics Interpretation 101-3—revised paragraphs 2.07 [3.14] and 2.08 [3.15]; added footnote 8 • To reflect the effective date of SAS No. 99—deleted previously numbered footnote 11 to previously numbered Chapter 1 • To reflect the provisions of the GAO Internet notice on CPE—added temporary footnote • To clarify the guidance— <ul style="list-style-type: none"> — Revised paragraphs 2.03 [footnote 9 to Chapter 1], 2.05 [1.13], 2.16 [3.13], 2.18 [3.18], 2.22 [3.20], 2.33 [3.07], 2.37 [3.48 and 3.50], 2.39 [3.52], 2.40 [3.53], and 2.41 [3.60]; footnote 7 [footnote 1 to Table 1-3]; and Table 2-1 [Tables 1-1 and 1-2] — Added footnotes 3, 6, 16, 18, 19, 20, 21, 23, 24 and footnotes 1 and 2 to Table 2-1
<p>Chapter 3, “Financial Statement Audit Considerations of <i>Government Auditing Standards</i>”</p>	<p>Incorporates relevant material previously presented in Chapter 4, “Financial Statement Audit Considerations Under Circular A-133.” Much of the material is significantly revised to reflect the 2003 revision to <i>Government Auditing Standards</i>, expanded to provide guidance on those requirements, and reorganized to reflect the restructuring of the Guide. In addition:</p> <ul style="list-style-type: none"> • To reflect the effective date of SAS No. 99—deleted previously numbered footnote 5 to previously numbered Chapter 4 • To reflect the revised edition of the AICPA Practice Aid <i>Fraud Detection in a GAAS Audit</i>—revised paragraph 3.27 [4.35] • To clarify the guidance— <ul style="list-style-type: none"> — Revised paragraphs 3.01 [4.07], 3.04 [4.10], 3.12 [4.19], 3.13 [4.20], 3.16 [4.24], 3.17 [4.25], 3.19 [4.27], 3.22 [4.30], 3.27 [4.35], 3.31 [4.39], 3.38 [4.40], and 3.39 [4.42]; and footnotes 2 [footnote 1 to Chapter 4], 3 [footnote 2 to Chapter 4] and 6 [footnote 4 to Chapter 4] — Added paragraphs 3.33 through 3.37; footnotes 5, 8, and 10 through 15; and Exhibit 3-1 and its footnotes

<u>Reference</u>	<u>Change</u>
Chapter 4, “Auditor Reporting Requirements and Other Communication Considerations of <i>Government Auditing Standards</i> ”	<p>Incorporates relevant material previously presented in Chapter 10, “Auditor Reporting Requirements and Other Communication Considerations in a Single Audit.” Much of the material is significantly revised to reflect the 2003 revision to <i>Government Auditing Standards</i>, expanded to provide guidance on those requirements, and reorganized to reflect the restructuring of the Guide. In addition:</p> <ul style="list-style-type: none"> • To indicate that the reference in the auditor’s report on the financial statements to the <i>Government Auditing Standards</i> report should state the purpose of the <i>Government Auditing Standards</i> report—revised paragraphs 4.04b [10.16b] and 4.21i [10.35i] • To reflect the reversal in the <i>Government Auditing Standards</i> report of the presentation of the internal control and compliance sections, which results from the reversal of the discussion of internal control and compliance in the 2003 revision to <i>Government Auditing Standards</i>—revised paragraph 4.26 [10.39] • To consolidate the references to the management letter in the <i>Government Auditing Standards</i> report—revised paragraph 4.26l [10.39f and m] • To recommend that each audit finding reported in accordance with <i>Government Auditing Standards</i> include a reference number—revised paragraph 4.32 [10.65] • To suggest that in the absence of an audit or equivalent committee, the auditor could consider making the communication required by SAS No. 61, as amended, to the board of directors or other equivalent oversight body—revised paragraph 4.41 [10.14] • To reflect the effective date of GASB 34— <ul style="list-style-type: none"> — Revised paragraphs 4.38 [10.32] and 4.39 [10.33]; and footnotes 43 [footnote 11 to Chapter 10] and 44 [footnote 12 to Chapter 10] — Deleted previously numbered footnote 13 to previously numbered Chapter 10 • To reflect the effective date of SAS No. 99—deleted previously numbered footnote 8 to previously numbered Chapter 10 • To reflect the provisions of Auditing Interpretation Nos. 17 and 18 of SAS No. 58, as amended—added footnote 18

Report Markups

The following are markups of the body of the illustrative auditor’s reports that were presented in Appendixes D and E of the 2003 edition of this Guide. Text shown with a strike-through has been deleted and text shown in underline has been added. These markups do not present changes in the accompanying footnotes. In some situations, material previously placed in the body of the illustrative reports has been moved into footnotes and visa versa.

Example + 4-1

**Unqualified Opinions on Basic Financial Statements Accompanied
by ~~Supplementary Schedule of Expenditures of Federal Awards~~
Required Supplementary Information and Supplementary
Information—State or Local Governmental Entity (GASB 34 Version)**

Independent Auditor's Report

[Addressee]

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of and for the year ended June 30, 20X1, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Example's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Example, Any State, as of June 30, 20X1, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated [date of report] on our consideration of the City of Example's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be ~~read in conjunction with this report in considering~~ considered in assessing the results of our audit.

The [identify accompanying required supplementary information, such as management's discussion and analysis and budgetary comparison information] on pages XX through XX and XX through XX are not a required part of the basic financial statements but are supplementary information required by accounting

principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Note concerning this markup: Paragraph 12.13 of this Guide illustrates the auditor's reporting on the schedule of expenditures of federal awards for a state or local government in a Circular A-133 audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Example's basic financial statements. ~~The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The [identify accompanying supplementary information, such as the introductory section, combining and individual nonmajor fund financial statements, and statistical tables] are presented for purposes of additional analysis and are not a required part of the basic financial statements. The [identify relevant supplementary information, such as the combining and individual nonmajor fund financial statements] have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The [identify relevant supplementary information, such as the introductory section and statistical tables] have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.~~

**Unqualified Opinion on Financial Statements Accompanied by
Supplementary Schedule of Expenditures of Federal
Awards—Not-for-Profit Organization**

Independent Auditor's Report

[*Addressee*]

We have audited the accompanying statement of financial position of Example ~~NFP~~ NPO as of June 30, 20X1, and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of Example ~~NFP's~~ NPO's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Example ~~NFP~~ NPO as of June 30, 20X1, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated [*date of report*] on our consideration of Example ~~NFP's~~ NPO's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants ~~agreements and other matters~~. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be ~~read in conjunction with this report in considering~~ read in conjunction with this report considered in assessing the results of our audit.

Note concerning this markup: Paragraph 12.14 of this Guide illustrates the auditor's reporting on the schedule of expenditures of federal awards for a not-for-profit organization in a Circular A-133 audit.

~~Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been~~

~~subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.~~

Example 2 4-3

Report on Compliance and on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards (No Material Weaknesses [No Reportable Conditions Identified]; No Reportable Instances of Noncompliance or Other Matters and No Material Weaknesses [No Reportable Conditions Identified])

[Addressee]

We have audited the financial statements of Example Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated August 15, 20X1. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Note concerning this markup: Although not shown in markup, the order of presentation of the internal control and compliance sections of this report have been reversed from that shown in the 2003 edition of this Guide. The presentation was reversed because the reversal of the discussion of internal control and compliance in the 2003 revision to *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Example Entity's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide ~~assurance~~ an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Example Entity's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants-agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, and *[specify legislative or regulatory body]*, ~~and federal awarding agencies and pass-through entities~~ and is not intended to be and should not be used by anyone other than these specified parties.

Example 2a 4-4

Report on Compliance and on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards (Reportable Conditions, Reportable Instances of Noncompliance, and Reportable Conditions Other Matters Identified)

[Addressee]

We have audited the financial statements of Example Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated August 15, 20X1. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Note concerning this markup: Although not shown in markup, the order of presentation of the internal control and compliance sections of this report have been reversed from that shown in the 2003 edition of this Guide. The presentation was reversed because the reversal of the discussion of internal control and compliance in the 2003 revision to *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Example Entity's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Example Entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and responses questioned costs as items [list the reference numbers of the related findings, for example, 20X1-1, 20X1-3, and 20X1-4, and 20X1-8].

[NOTE: As discussed in paragraph 4.32, this Guide recommends identifying each finding with a reference number. As discussed in paragraph 4.28, this report can, as an alternative, describe findings and responses rather than refer to a separate schedule. Paragraph 4.28 also discusses how to report findings that relate to both internal control over financial reporting and to compliance; paragraph 4.29 discusses when findings of fraud and abuse should be reported in the section on internal control over financial reporting; paragraph 4.30 and 4.31 discuss the detail to use to present each finding; and paragraphs 4.33 and 4.34 discuss the presentation of the views of responsible officials and their planned corrective actions. The schedule of findings and questioned costs shown in example 12-5 in Appendix A in chapter 12, "Auditor Reporting Requirements

and Other Communication Considerations in a Single Audit” of this Guide further describes the presentation of financial statement findings. Further, in an audit in accordance with Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations (Circular A-133), findings and responses should not be described in this report; instead, this report should refer to the schedule of findings and questioned costs. See the further discussion in chapter 12 of this Guide.]

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Example Entity’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses ~~questioned costs~~ as items [list the reference numbers of the related findings, for example, 20X1-2 and 20X1-5].

[NOTE: The referenced findings should be those that are instances of noncompliance. They also should be those that are fraud or abuse that are not reportable conditions. (See paragraph 4.29.) The “Note” in the internal control section of this example report further discusses the presentation of findings and auditee responses.]

This report is intended solely for the information and use of the audit committee, management, and [specify legislative or regulatory body], ~~and federal awarding agencies and pass-through entities~~ and is not intended to be and should not be used by anyone other than these specified parties.

Example 3 12-1

**Report on Compliance With Requirements Applicable to
Each Major Program and on Internal Control Over Compliance
in Accordance With OMB Circular A-133 (*Unqualified
Opinion on Compliance and No Material Weaknesses
[No Reportable Conditions Identified]*)**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

In our opinion, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 20X1. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items [*list the reference numbers of the related findings, for example, 20X1-3 and 20X1-6*].

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, [*specify legislative or regulatory body*], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Example 3a 12-2**Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133 (*Qualified Opinion on Compliance and Reportable Conditions Identified*)**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

As described in item [list the reference numbers of the related findings, for example, 20X1-10] in the accompanying schedule of findings and questioned costs, Example Entity did not comply with requirements regarding [identify the type(s) of compliance requirement] that are applicable to its [identify the major federal program]. Compliance with such requirements is necessary, in our opinion, for Example Entity to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 20X1.

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures

for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Example Entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items [list the reference numbers of the related findings, for example, 20X1-7, 20X1-8, and 20X1-9].

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

This report is intended solely for the information and use of the audit committee, management, [specify legislative or regulatory body], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

One Major Program, Unqualified Opinion on Compliance for
Other Major Programs, Reportable Conditions Identified)**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

Except as discussed in the following paragraph, we conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

We were unable to obtain sufficient documentation supporting the compliance of Example Entity with [identify the major federal program] regarding [identify the type(s) of compliance requirement], nor were we able to satisfy ourselves as to Example Entity's compliance with those requirements by other auditing procedures.

In our opinion, except for the effects of such noncompliance, if any, as might have been determined had we been able to examine sufficient evidence regarding Example Entity's compliance with the requirements of [identify the major federal program] regarding [identify the type(s) of compliance requirement], Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its other major federal programs for the year ended June 30, 20X1.

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws,

regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Example Entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items [list the reference numbers of the related findings, for example, 20X1-7, 20X1-8, and 20X1-9].

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

This report is intended solely for the information and use of the audit committee, management, [specify legislative or regulatory body], and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Each Major Program and on Internal Control Over
Compliance in Accordance With OMB Circular A-133
(Adverse Opinion on Compliance for One Major Program,
Unqualified Opinion on Compliance for Other Major
Programs, and Material Weaknesses Identified)**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 20X1. Example Entity's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

As described in items [list the reference numbers of the related findings, for example, 20X1-10, 20X1-11, and 20X1-12] in the accompanying schedule of findings and questioned costs, Example Entity did not comply with requirements regarding [identify the types of compliance requirements] that are applicable to its [identify the major federal program]. Compliance with such requirements is necessary, in our opinion, for Example Entity to comply with requirements applicable to that program.

In our opinion, because of the effects of the noncompliance described in the preceding paragraph, Example Entity did not comply in all material respects, with the requirements referred to above that are applicable to [identify the major federal program]. Also, in our opinion, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to each of its other major federal programs for the year ended June 30, 20X1.

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws,

regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Example Entity's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items *[list the reference numbers of the related findings, for example, 20X1-7, 20X1-8, and 20X1-9]*.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider items *[list the reference numbers of the related findings, for example 20X1-8 and 20X1-9]* to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, *[specify legislative or regulatory body]*, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Appendix E Example 12-5

Illustrative Schedule of Findings and Questioned Costs

Section I—Summary of Auditor’s Results

Financial Statements

Type of auditor’s report issued [*unqualified, qualified, adverse, or disclaimer*]:

Internal control over financial reporting:

- Material weakness(es) identified? _____ yes _____ no
- Reportable condition(s) identified that are not considered to be material weaknesses? _____ yes _____ none reported

Noncompliance material to financial statements noted? _____ yes _____ no

Federal Awards

Internal control over major programs:

- Material weakness(es) identified? _____ yes _____ no
- Reportable condition(s) identified that are not considered to be material weakness(es)? _____ yes _____ none reported

Type of auditor’s report issued on compliance for major programs [*unqualified, qualified, adverse, or disclaimer*]:

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of OMB Circular A-133? _____ yes _____ no

Identification of major programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>

Dollar threshold used to distinguish between type A and type B programs: \$ _____

Auditee qualified as low-risk auditee? _____ yes _____ no

Section II—Financial Statement Findings

This section ~~identifies~~ should identify the reportable conditions, material weaknesses, and instances of noncompliance ~~fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to the financial statements that required to be reported in accordance with paragraphs 5-18 through 5-20 of~~ for which Government Auditing Standards requires reporting in a Circular A-133 audit. (See paragraphs 12.16 and 12.33) ~~Auditors should refer to those paragraphs, as well as the reports content section of chapter 7 of Government Auditing Standards, for additional guidance on preparing this section of the schedule. Auditors should refer to Chapter 4 of this Guide for a discussion of the Government Auditing Standards requirements for presenting findings.~~

Audit findings that relate to both the financial statements and federal awards should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a material weakness in internal control that affects an entity as a whole, including its federal awards, generally would be reported in detail in this section. Section III would then include a summary identification of the finding and a reference back to the specific finding in this section.

Identify each finding with a reference number. If there are no findings, state that no matters were reported. Audit findings that relate to both the financial statements and federal awards should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a material weakness in internal control that affects an entity as a whole, including its federal awards, would generally be reported in detail in this section. Section III would then include a summary identification of the finding and a reference back to the specific finding in this section. Each finding should be presented in the following level of detail shown in the following listing, as applicable. Auditors also should refer to Chapter 4 of this Guide for a discussion of the Government Auditing Standards requirements for presenting findings.

- Criteria or specific requirement
- Condition
- Context
- Effect
- Cause
- Recommendation
- Management's response Views of responsible officials and planned corrective actions

Section III—Federal Award Findings and Questioned Costs

This section ~~identifies~~ should identify the audit findings required to be reported by section 510(a) of Circular A-133 (for example, reportable conditions, material weaknesses, and material instances of noncompliance, including questioned costs—see paragraph 12.35) as well as any abuse findings involving federal awards that is material to a major program (see paragraph 12.36). Where practical, findings should be organized by federal agency or pass-through entity.

Audit findings that relate to both the financial statements and federal awards should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a finding of noncompliance with a federal program law that is also material to the financial statements generally would be reported in detail in this section. Section II would then include a summary identification of the finding and a reference back to the specific finding in this section.

~~Identify each finding with a reference number. If there are no findings, state that no matters were reported. Audit findings that relate to both the financial statements and federal awards should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a finding of noncompliance with a federal program law that is also material to the financial statements would generally be reported in detail in this section. Section II would then include a summary identification of the finding and a reference back to the specific finding in this section. Each finding should be presented in the following level of detail shown in the following listing, as applicable. Auditors also should refer to Chapter 4 of this Guide for a discussion of the Government Auditing Standards requirements for presenting findings.~~

- Information on the federal program
- Criteria or specific requirement (including statutory, regulatory, or other citation)
- Condition
- Questioned costs
- Context
- Effect
- Cause
- Recommendation
- ~~Management's response~~ Views of responsible officials and planned corrective actions

**Unqualified Opinion on the Financial Statement of a
Federal Program in Accordance With the Program-Specific
Audit Option Under OMB Circular A-133**

Independent Auditor's Report

There are no changes in the body of this report from that shown in the 2003 edition of this Guide. Therefore, no markup is shown.

Example 6a 13-2**Report on Compliance With Requirements Applicable to the Federal Program and on Internal Control Over Compliance in Accordance With the Program-Specific Audit Option Under OMB Circular A-133 (Unqualified Opinion on Compliance and No Material Weaknesses [No Reportable Conditions Identified])**

[Addressee]

Compliance

We have audited the compliance of Example Entity with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to [identify the federal program] for the year ended June 30, 20X1. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of Example Entity's management. Our responsibility is to express an opinion on Example Entity's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on [identify the federal program] occurred. An audit includes examining, on a test basis, evidence about Example Entity's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Example Entity's compliance with those requirements.

In our opinion, Example Entity complied, in all material respects, with the requirements referred to above that are applicable to its [identify the federal program] for the year ended June 30, 20X1. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items [list the reference numbers of the related findings, for example, 20X1-1 and 20X1-2].

Internal Control Over Compliance

The management of Example Entity is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Example Entity's internal control over compliance with requirements that could have a direct and material effect on its [identify the federal program] in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, [*specify legislative or regulatory body*], and federal awarding agency and pass-through entity and is not intended to be and should not be used by anyone other than these specified parties.
