Consequently, like the national societies of other major professions, the Institute found it advisable to establish a Washington office in 1959. (Location: Suite 401, NADA Building, 20th and K Streets, N.W., Washington, D. C. 20006) . It collects, analyzes and distributes information about significant developments in the federal government which may affect accountants; screens thousands of bills and resolutions; examines Congressional and administrative hearings, reports, public laws, regulations and releases of interest to the accounting profession; prepares, where appropriate, articles and newsletters on federal developments, and assists in bringing representatives of the accounting profession into contact with government officials. It staffs certain committees urging more effective federal financial control. Staff contact is also directly maintained with the Congress and with all agencies where federal developments affect the profession. The division conducts programs to increase the Institute's identity in government as the national professional society of certified public accountants and as the authoritative source of information about accounting. It encourages the federal government to use independent auditors, where appropriate, and it works with government on requirements affecting auditors' qualifications and the audit environment. The division works closely with national trade and professional associations and the Washington press corps. It services inquiries from government, outside groups, and Institute members.
