CHECKLISTS AND ILLUSTRATIVE FINANCIAL STATEMENTS FOR NONPROFIT ORGANIZATIONS

These checklists and illustrative financial statements are not designed to be applied to the financial statements of colleges, universities, hospitals or governmental units.

The checklists and illustrative financial statements included in this section have been developed by the staff of the Technical Information Division of the AICPA as nonauthoritative technical practice aids. At the request of certain AICPA members these checklists and illustrative financial statements are also being made available for purchase by AICPA members subject to their recognition of the following:

- The checklists and illustrative financial statements are "tools" and in no way represent official positions or pronouncements of the AICPA.
- The checklists and illustrative financial statements have been updated through SAS No. 68, SSARS No. 6, FASB Statement of Financial Accounting Standards No. 105, FASB Interpretation No. 38, and FASB Technical Bulletin No. 90-1. The checklists and illustrative financial statements should be modified, as appropriate, for subsequent pronouncements. In determining the applicability of a pronouncement, its effective date should also be considered.
- The checklists and illustrative financial statements should be used by or under the supervision of persons having adequate technical training and proficiency in the application of generally accepted accounting principles, generally accepted auditing standards, and statements on standards for accounting and review services.
- The checklists and illustrative financial statements do not represent minimum requirements and do not purport to be all-inclusive. The referenced standards should be reviewed if clarification is desired as to whether the disclosure indicated is required or suggested, and to what extent the disclosure is relevant to the statements being examined.

Users of these checklists and illustrative financial statements are urged to refer directly to applicable authoritative pronouncements when appropriate. If you have further questions, call the AICPA Technical Hotline (see back cover).

INTRODUCTION

The basic financial statements of a nonprofit organization are a balance sheet and a statement of activity, also referred to as a statement of support, revenue, expenses, capital additions, and changes in fund balances, or similar titles. If a reconciliation between beginning and ending fund balances is not included in the statement of activity, a separate statement of changes in fund balances ordinarily would be presented. Additionally, the basic financial statements may include a statement of cash flows¹ and/or a statement of functional expenses, depending on whether the organization follows the AICPA Audit and Accounting Guide, Audits of Certain Nonprofit Organizations¹, or the AICPA Industry Audit Guide, Audits of Voluntary Health and Welfare Organizations². Many organizations with multiple funds often present comparative totals of all funds for one or more prior periods. The basic financial statements of the current period are often presented on a comparative basis with those of one or more prior periods.

Nonprofit organizations generally present their expenses classified on a functional basis (according to the purpose for which costs are incurred, such as specific programs and supporting services). In some instances a functional classification is not necessary due to the nature of the organization (e.g., private foundations, cemeteries, country clubs, and performing arts organizations), and therefore, the object basis (according to their natural classification, such as salaries, employee benefits, and purchased services) is used.

¹Nonprofit organizations are not subject to FASB Statement No. 95, Statement of Cash Flows. According to that statement, a profit-oriented business entity whose financial statements purport to present both financial position and results of operations must present, as a basic financial statement, a statement summarizing cash flows for each period for which an income statement is presented. Under such circumstances, a nonprofit entity may, but is not required to, present a statement of cash flows. A nonprofit entity may also continue to present a statement of changes in financial position as described in the AICPA Audit and Accounting Guide, Audits of Certain Nonprofit Organizations, but this is not mandatory.

The Illustrative Cash Flow Statements in this checklist are based on the commentary and advisory conclusions contained in "Display in the Financial Statements of Not-for-Profit Organizations," a report of the AICPA Task Force on Not-for-Profit Organizations.

²The AICPA Industry Audit Guide, Audits of Voluntary Health and Welfare Organizations, states that since the information that would be presented in a statement of changes in financial position as discussed in Accounting Principles Board Opinion 19 will, in most cases, be readily apparent from other financial statements, such a statement is generally not required.

A wide variety of users are interested in the financial statements of nonprofit organizations. Among the principal users are (1) contributors to the organization, (2) beneficiaries of the organization, (3) the organization's trustees or directors, (4) employees of the organization, (5) governmental units, (6) the organization's creditors and potential creditors, and (7) constituent organizations.

A principal purpose of a nonprofit organization's financial statements is to communicate the ways resources have been used to carry out the organization's objectives. It requires reporting the nature and amount of available resources, the uses made of the resources, and the net changes in fund balances during the period. In addition, while adequate measures of program accomplishment generally are not available in the context of present financial statements, the financial statements should identify the organization's principal programs and their costs. A third aspect of financial reporting for nonprofit organizations is disclosure of the degree of control exercised by donors over use of resources. A fourth aspect is that the financial statements of a nonprofit organization should help the user evaluate the organization's ability to carry out its fiscal objectives.

Many nonprofit organizations receive resources restricted for particular purposes. To facilitate observance of limitations, the accounts are often maintained using fund accounting, by which resources are classified for accounting and reporting purposes into funds associated with specified activities or objectives. Each fund is a separate accounting entity with a self-balancing set of accounts for recording assets, liabilities, fund balance, and changes in the fund balance. Although separate accounts are maintained for each fund, the usual practice in preparing financial statements is to group funds that have similar characteristics.

Nonprofit Organizations Checklists--General

Many auditors and accountants find it helpful to use checklists as practice aids in the preparation of financial statements and reports. Some firms have developed their own checklists for internal use, and may also have specialized checklists to meet the needs of their practices, such as checklists for clients in particular industries or clients that report to the SEC. Some state CPA societies have developed checklists as practice aids which may be available to other practitioners as well as to their own members. Some commercial publishers also include checklists in certain of their publications. However, authoritative literature does not require the use of such checklists, nor does it prescribe their format or content, which may vary.

Checklists typically consist of a number of brief questions or statements that are accompanied by references to Statements on Auditing Standards, Statements on Standards for Accounting and Review Services, Statements of Financial Accounting Standards, Accounting Principles Board Opinions, Accounting Research Bulletins and Interpretations thereof. The extent of detail included in checklists varies with the judgment of the preparers on how extensively to refer to and highlight authoritative literature without developing a checklist that is too long and unwieldy. Accordingly, checklists may serve as convenient memory aids but cannot be used as a substitute for direct reference to the authoritative literature.

Checklists usually provide for checking off or initialing each question or point to show that it has been considered. The format used in these sections is a typical one; it provides for "yes," "no," and "not applicable" answers and presumes that remarks would be prepared on separate cross-referenced memorandums. Some preparers, however, prefer to include space for remarks in the body of the checklist while others prefer alternative checklist formats. For example, a checklist format may provide for the following set of answers: "not applicable," "not material," "material," "in statements" and "in note" (with provisions for indicating a cross reference to the specific statement caption or note). Another format may provide for only two answers, "disclosed" and "not applicable." Firms and practitioners who develop their own checklists should adopt formats that suit their needs and preferences.

Disclosure checklists are generally accompanied by caveats that include all of the following points:

- Use of the checklists requires the exercise of individual professional judgment and may likely require some modification based on the circumstances of individual engagements.
- The checklists are not all-inclusive and are not intended to present minimum requirements.
- Users need to modify the checklists for any pronouncements issued subsequent to those mentioned in the checklist.

If widespread circulation is expected, the preparers also generally stress the nonauthoritative or unofficial status of the checklists and disclaim responsibility for the way they may be used.

I. Pension Plans (See Appendix for effective dates of SFAS 87)

1. If there is a defined benefit plan, do disclosures include:

a. A description of the plan including employee groups covered, type of benefit formula, funding policy, types of assets held and significant nonbenefit liabilities, if any, and the nature and effect of significant matters affecting comparability of information for all periods presented? _____

b. The amount of net periodic pension cost for the period showing separately the service cost component, the interest cost component, the actual return on assets for the period, and the net total of other components?⁴ _____

c. A schedule reconciling the funded status of the plan with amounts reported in the employer's statement of financial position, showing separately:

(1) The fair value of plan assets? _____

(2) The projected benefit obligation identifying the accumulated benefit obligation and the vested benefit obligation? _____

⁴The net total of other components is the net effect during the period of certain delayed recognition provisions of this statement. That net total includes:

- a. The net asset gain or loss during the period deferred for later recognition (in effect, an offset or a supplement to the actual return on assets)
- b. Amortization of the net gain or loss from earlier periods
- c. Amortization of unrecognized prior service cost
- d. Amortization of the unrecognized net obligation or net asset existing at the date of initial application of SFAS 87 [AC P16]

benefit plans or disaggregated in groups so as to provide the most useful information?

___ ___ ___

(2) Are plans with assets in excess of accumulated benefit obligation not aggregated with plans that have accumulated benefit obligations that exceed plan assets?

___ ___ ___

(3) Are disclosures for plans outside the U.S. not combined with those for U.S. plans unless those plans use similar economic assumptions?

___ ___ ___

[SFAS 87, par. 56 (AC P16.153)]

2. If there is a defined contribution plan, do disclosures include:

a. A description of the plan(s) including employee groups covered, the basis for determining contributions, and the nature and effect of significant matters affecting comparability of information for all periods presented?

___ ___ ___

b. The amount of cost recognized during the period?

___ ___ ___

[SFAS 87, par. 65 (AC P16.162)]

c. If the pension plan has characteristics of both a defined benefit plan and a defined contribution plan:

(1) Is the substance of the plan to provide a defined benefit?

___ ___ ___

(2) If answer is yes, are accounting and disclosure requirements in accordance with the provisions of I1 above, applicable to a defined benefit plan?

___ ___ ___

[SFAS 87, par. 66 (AC P16.163)]

a. Are the financial statements included in the report presented fairly in conformity with GAAP? [Interpretation 10 of SAS 62, Section 623 (AU 9623.47)]	—	—	—
b. Whether the financial statements and auditor's report are a matter of public record? [Interpretation 10 of SAS 62, Section 623 (AU 9623.48)]	—	—	—
c. Is there public distribution of the financial statements and the accountant's report? [Interpretation 10 of SAS 62, Section 623 (AU 9623.48 and .53)]	—	—	—
d. If the financial statements are not in conformity with GAAP, would it be appropriate to issue a special report? [Interpretation 10 of SAS 62, Section 623 (AU 9623.50 and .52)]	—	—	—

Checklist for Auditors' Reports on Internal Control Structure and Compliance with Laws and Regulations in Accordance with OMB Circular A-133¹

This checklist has been developed by the staff of the Technical Information Division of the AICPA as a nonauthoritative practice aid. Accordingly, the notice on page i is incorporated herein by reference.

Explanation of References:

OMB = Office of Management and Budget

GAS = Government Auditing Standards ("Yellow Book", issued by GAO, 1988 Revision)

¹ On March 8, 1990, The Office of Management and Budget issued Circular A-133, Audits of Institutions of Higher Education and Other Nonprofit Institutions, to implement a "single audit" requirement for nonprofit institutions. The requirements of Circular A-133 are similar to those of Circular A-128, i.e. Circular A-133 requires that the auditor perform the audit in accordance with Government Auditing Standards (the "Yellow Book") issued by the Comptroller General of the United States.

Circular A-133, which supersedes the audit provisions of Circular A-110, is effective for audits of fiscal years beginning on or after January 1, 1990. Since Circular A-133 permits biennial audits, some institutions may not be required to follow its requirements until the audit of their financial statements for the fiscal year ending June 30, 1992.

Statement on Auditing Standards No. 68, Compliance Auditing Applicable to Governmental Entities and Other Recipients of Governmental Financial Assistance, provides guidance on planning, performing, and reporting on the compliance aspects of audits in accordance with GAAS, GAO Standards, Circular A-128 and Circular A-133.

b. Does each page of the financial statements reviewed by the accountant include a reference such as "See Accountant's Review Report"?

___ ___ ___

[SSARS No. 1, par. 34 (AR 100.34)]

7. When accompanying information is presented with the financial statements, did the accountant clearly indicate his degree of responsibility with respect to such information as follows:

a. If the basic financial statements were reviewed, was the degree of responsibility disclosed in the report or in a separate report on the other data that states:

(1) The review has been made primarily for the purpose of expressing limited assurance that there are no material modifications that should be made to the financial statements in order for them to be in conformity with generally accepted accounting principles or, where applicable, another comprehensive basis of accounting?

___ ___ ___

and either:

(2) The other data accompanying the financial statements are presented only for supplementary analysis purposes and

have been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, and the accountant did not become aware of any material modifications that should be made to such data,

or

(3) The other data accompanying the financial statements are presented only for supplementary analysis purposes and have not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but were compiled from information that is the representation of management, without audit or review, and the accountant does not express an opinion or any other form of assurance on such data?

[SSARS No. 1, par. 43 (AR 100.43)]

b. If the accountant has compiled both the basic financial statements and other data which is presented for supplementary analysis purposes, does the compilation report also include the other data?

[SSARS No. 1, par. 43 (AR 100.43)]

8. If an audit engagement has been changed to a review or compilation, does the report omit reference to: a) the original engagement, b) any auditing procedures that may have been performed, c) any scope limitation that resulted in the changed engagement?

[SSARS No. 1, par. 49 (AR 100.49)]

Illustrative Financial Statements

Illustrative Auditor's Reports and Financial Statements

The following illustrative auditors' reports and financial statements (exhibits 1 through 6) demonstrate the practical applications of the reporting practices discussed in the AICPA Audit and Accounting Guide, *Audits of Certain Nonprofit Organizations* and the AICPA Industry Audit Guide, *Audits of Voluntary Health and Welfare Organizations*. Specific types of nonprofit organizations have been selected to illustrate a wide diversity of reporting practices; it is not intended that these illustrations represent either the only types of disclosure or the only statement formats that would be appropriate. Nonprofit organizations are urged to develop financial statement formats that are appropriate for their individual circumstances while being consistent with the accounting and reporting practices discussed in the AICPA Audit and Accounting Guide, *Audits of Certain Nonprofit Organizations* and the Industry Audit Guide, *Audits of Voluntary Health and Welfare Organizations*.

Illustrative Auditor's Report—Nonprofit Organization

Independent Auditor's Report

[Addressee]

We have audited the accompanying balance sheet of Sample Nonprofit Organization as of December 31, 19X2, and the related statement(s) of activity [and cash flows] for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Sample Nonprofit Organization as of December 31, 19X2, and the results of its operations [and cash flows] for the year then ended in conformity with generally accepted accounting principles.

Sample Independent School Notes to Financial Statements

Year Ended June 30, 19X1

Note 1—Summary of Significant Accounting Policies

The financial statements of Sample Independent School have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of resources available to the school, the accounts of the school are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

The assets, liabilities, and fund balances of the school are reported in three self-balancing fund groups as follows:

- Operating funds, which include unrestricted and restricted resources, represent the portion of expendable funds that is available for support of school operations.
- Plant funds represent resources restricted for plant acquisitions and funds expended for plant.
- Endowment funds represent funds that are subject to restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be used.

Expendable Restricted Resources

Operating and plant funds restricted by the donor, grantor, or other outside party for particular operating purposes or for plant acquisitions are deemed to be earned and reported as revenues of operating funds or as additions to plant funds, respectively, when the school has incurred expenditures in compliance with the specific restrictions. Such amounts received but not yet earned are reported as restricted deferred amounts.

Plant Assets and Depreciation

Uses of operating funds for plant acquisitions and principal debt service payments are accounted for as transfers to plant funds. Proceeds from the sale of plant assets, if unrestricted, are transferred to operating fund balances, or, if restricted, to deferred amounts restricted for plant acquisitions. Depreciation of buildings and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis.

Other Matters

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets are accounted for in the fund that owned the assets. Ordinary income from investments, receivables, and the like is accounted for in the fund owning the assets, except for income derived from investments of endowment funds, which is accounted for, if unrestricted, as revenue of the expendable operating fund or, if restricted, as deferred amounts until the terms of the restriction have been met.

Legally enforceable pledges less an allowance for uncollectible amounts are recorded as receivables in the year made. Pledges for support of current operations are recorded as operating fund support. Pledges for support of future operations and plant acquisitions are recorded as deferred amounts in the respective funds to which they apply.

Note 2—Investments

Investments are presented in the financial statements in the aggregate at the lower of cost (amortized, in the case of bonds) or fair market value.

	<u>Cost</u>	<u>Market</u>
Operating funds	\$355,000	\$365,000
Plant funds	10,000	11,000
Endowment funds	100,000	109,000
	<u>\$465,000</u>	<u>\$485,000</u>

Investments are composed of the following:

	<u>Cost</u>	<u>Market</u>
Corporate stocks and bonds	\$318,000	\$320,000
U.S. government obligations	141,000	159,000
Municipal bonds	6,000	6,000
	<u>\$465,000</u>	<u>\$485,000</u>

The following tabulation summarizes the relationship between carrying values and market values of investment assets.

	<u>Carrying Value</u>	<u>Market Value</u>	<u>Excess of Market Over Cost</u>
Balance at end of year	<u>\$465,000</u>	<u>\$485,000</u>	\$20,000
Balance at beginning of year	<u>\$327,000</u>	<u>\$335,000</u>	8,000
Increase in unrealized appreciation			12,000
Realized net loss for year			<u>(5,000)</u>
Total net gain for year			<u>\$ 7,000</u>

The average annual yield exclusive of net gains (losses) was 7% and the annual total return based on market value was 9% for the year ended June 30, 19X1.

Note 3—Inventories

Inventories at June 30, 19X1 consist of:

Paper and supply stock	\$2,000
Textbooks	<u>5,000</u>
	<u>\$7,000</u>

Note 4—Plant Assets and Depreciation

A summary of plant assets follows:

Land	\$ 255,000
Buildings	2,552,000
Equipment	340,000
Library books	<u>115,000</u>
	3,262,000
Less accumulated depreciation	<u>980,000</u>
	<u>\$2,282,000</u>

Note 5—Long-Term Debt

A summary of long-term debt follows:

7½% unsecured notes payable to bank due in quarterly installments of \$2,500	\$ 29,000
8½% mortgage payable in semiannual installments of \$3,500 through 19X7	<u>102,000</u>
	<u>\$131,000</u>

Long-term debt maturing in the next five years consists of:

19X2	\$17,000
19X3	17,000
19X4	16,000
19X5	7,000
19X6	<u>7,000</u>
Total	<u>\$64,000</u>

Note 6—Pension Plans

Effective July 1, 19X0, the school adopted Statement of Financial Accounting Standards No. 87, Employers' Accounting for Pensions. Adoption of the statement is accounted for prospectively, without adjustment to prior years. The effect of this change in accounting principles on net pension expense for the year ended June 30, 19X1, was a reduction of \$XX,XXX.

A summary of the components of income follows:

Service cost—benefits earned during the year	\$ XX,XXX
Interest cost on projected benefit obligation	XX,XXX
Actual return on plan assets	(XX,XXX)
Net asset gain (loss) deferred for later recognition	(XX,XXX)
Amortization of unrecognized net asset	<u>(XX,XXX)</u>
Net periodic pension income	<u>\$ (XX,XXX)</u>

Funded status of the plan:

Actuarial present value of benefit obligation	
Accumulated benefit obligation, including vested benefits of \$XX,XXX in 19X1	\$ <u>(XX,XXX)</u>
Projected benefit obligation for service rendered to date	(XX,XXX)
Assets available for benefits	
Plan assets at fair value, primarily listed stocks and U.S. government securities	<u>XXX,XXX</u>
Plan assets in excess of benefit obligation	XX,XXX
Unrecorded net (gain) loss from past experience different from that assumed and effects of changes in assumptions	XXX
Unrecognized net assets at July 1, 19X0 being recognized over XX years	<u>(XX,XXX)</u>
Prepaid pension cost included in other assets	<u>\$ XX,XXX</u>

The weighted average discount rate and rate of increase in future compensation levels in determining the actuarial present value of the projected benefit obligation was X%. The expected long-term rate of return on assets was X%.

In 19X1, \$X,XXX of the vested benefit portion of the projected benefit obligation was settled through the purchase of nonparticipating annuity contracts for certain retired participants and lump sum payments for certain terminated participants. As a result, the school recognized gains of \$X,XXX in 19X1.

Note 7—Postretirement Health Care and Life Insurance Benefits

Sample Independent School offers postretirement health care and life insurance benefits to substantially all of its retired regular full-time employees. Sample Independent School shares the cost of providing these benefits with all affected retirees. Sample Independent School's cost of providing such benefits is recognized by expensing the insurance programs' premiums as paid. The aggregate amount so expensed totaled \$XX,XXX for the year ended June 30, 19X1. Sample Independent School has made no provision for recognizing the cost or postretirement benefits which may eventually be paid to employees who have not yet retired.

Note 8—Changes in Deferred Restricted Amounts

	<u>Operating Funds</u>	<u>Plant Funds</u>
Balances at beginning of year	\$ 24,000	\$ 25,000
Additions		
Contributions and bequests	79,000	158,000
Investment income	6,000	1,000
Net gain on investment transactions	—	2,000
	<u>109,000</u>	<u>186,000</u>
Deductions—funds expended during the year	82,000	86,000
Balances at end of year	<u>\$ 27,000</u>	<u>\$100,000</u>

Note 9—Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of support and revenue, expenses, capital additions, and changes in fund balances. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Note 10—Commitments

The school has entered into various agreements aggregating approximately \$80,000 for the purchase of equipment to be received subsequent to June 30, 19X1.

Sample Union Notes to Financial Statements

December 31, 19X1, and 19X0

Note 1—Summary of Significant Accounting Policies

The financial statements of Sample Union have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of resources available to the Union, the accounts of the Union are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

The assets, liabilities, and fund balances of the Union are reported in two self-balancing fund groups as follows:

- General funds, which include unrestricted and restricted resources, represent the portion of expendable funds that is available for support of operations.
- Strike funds represent resources restricted for benefits to the membership in the event of a strike.

Plant Assets and Depreciation

Uses of operating funds for plant acquisitions and principal debt service payments are accounted for as transfers to plant funds. Proceeds from the sale of plant assets, if unrestricted, are transferred to operating fund balances, or, if restricted, to deferred amounts restricted for plant acquisitions. Depreciation of buildings and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis.

Other Matters

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets are accounted for in the fund that owned the assets. Ordinary income from investments, receivables, and the like is accounted for in the fund owning the assets.

Note 2—Strike Insurance Fund

In accordance with the provisions of the Union Constitution, 27 percent of the per capita dues paid to the Union are designated for the Strike Insurance Fund. The fund may be distributed for strike relief at the discretion of the Union Executive Board. No charges may be made against the fund for administrative expenses.

Note 3—Pledged Assets and Contingent Liabilities

The Union is contingently liable as guarantor of a loan of \$15,000 to an affiliated local. In connection with the guarantee, a savings account, having a balance of \$20,000, is pledged as collateral for the loan.

Note 4—Loans to Affiliated Organizations

The loans to affiliated organizations represent short-term loans to local unions at current interest rates. All such loans are expected to be collected within one year.

Note 5—Investments

Investments are presented in the financial statements in the aggregate at fair market value.

	December 31,	
	19X1	19X0
General fund	\$ 491,800	\$ 496,000
Strike fund	9,054,200	9,144,400
	<u>\$9,546,000</u>	<u>\$9,640,400</u>

Investments are composed of the following:

U.S. government obligations	\$6,683,000	\$6,748,000
Municipal bonds	<u>2,863,000</u>	<u>2,892,000</u>
	<u>\$9,546,000</u>	<u>\$9,640,000</u>

The average annual yield exclusive of net gains (losses) was 7 percent and the annual total return based on market value was 9 percent for the year ended December 31, 19X1.

Note 6—Pension Plan

Effective January 1, 19X0, Sample Union adopted Statement of Financial Accounting Standards No. 87, Employers' Accounting for Pensions. Adoption of the statement is accounted for prospectively, without adjustment to prior years. The effect of this change in accounting principles on net pension expense for the year ended June 30, 19X1, was a reduction of \$XX,XXX.

A summary of the components of income follows:

	December 31,	
	19X1	19X0
Service cost—benefits earned during the year	\$ XX,XXX	\$ XX,XXX
Interest cost on projected benefit obligation	XX,XXX	XX,XXX
Actual return on plan assets	(XX,XXX)	(XX,XXX)
Net asset gain (loss) deferred for later recognition	(XX,XXX)	(XX,XXX)
Amortization of unrecognized net asset	<u>(XX,XXX)</u>	<u>(XX,XXX)</u>
Net periodic pension income	<u>\$ (XX,XXX)</u>	<u>\$ (XX,XXX)</u>

Funded status of the plan:

Actuarial present value of benefit obligation		
Accumulated benefit obligation, including vested benefits of \$XX,XXX in 19X1 and \$XX,XXX in 19X0	\$ (XX,XXX)	\$ (XX,XXX)
Projected benefit obligation for service rendered to date	(XX,XXX)	(XX,XXX)
Assets available for benefits		
Plan assets at fair value, primarily listed stocks and U.S. government securities	<u>XXX,XXX</u>	<u>XXX,XXX</u>
Plan assets in excess of benefit obligation	XX,XXX	XX,XXX
Unrecorded net (gain) loss from past experience different from that assumed and effects of changes in assumptions	XXX	XXX
Unrecognized net assets at July 1, 19X0, being recognized over XX years	<u>(XX,XXX)</u>	<u>(XX,XXX)</u>
Prepaid pension cost included in other assets	<u>\$ XX,XXX</u>	<u>\$ XX,XXX</u>

The weighted average discount rate and rate of increase in future compensation levels in determining the actuarial present value of the projected benefit obligation was X%. The expected long-term rate of return on assets was X%. In 19X1 and 19X0, \$X,XXX and \$XX,XXX, respectively, of the vested benefit portion of the projected benefit obligation were settled through the purchase of nonparticipating annuity contracts for certain retired participants and lump sum payments for certain terminated participants. As a result, the Union recognized gains of \$X,XXX and \$X,XXX in 19X1 and 19X0, respectively.

Note 7—Postretirement Health Care and Life Insurance Benefits

Sample Union offers postretirement health care and life insurance benefits to substantially all of its retired regular full-time employees. Sample Union shares the cost of providing these benefits with all affected retirees. Sample Union's cost of providing such benefits is recognized by expensing the insurance programs' premiums as paid. The aggregate amount so expensed totaled \$XX,XXX and \$XX,XXX for the years ended December 31, 19X1 and 19X0, respectively. Sample Union has made no provision for recognizing the cost of postretirement benefits which may eventually be paid to employees who have not yet retired.

Note 8—Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of revenue, expenses, and changes in fund balances. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Sample Museum Notes to Financial Statements

June 30, 19X1

Note 1—Summary of Significant Accounting Policies

The financial statements of Sample Museum have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of resources available to the museum, the accounts of the museum are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

The assets, liabilities, and fund balances of the museum are reported in three self-balancing fund groups as follows:

- Operating funds, which include unrestricted and restricted resources, represent the portion of expendable funds that is available for support of school operations.
- Plant funds represent resources restricted for plant acquisitions and funds expended for plant.
- Endowment funds represent funds that are subject to restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be used.

Expendable Restricted Resources

Operating and plant funds restricted by the donor, grantor, or other outside party for particular operating purposes or for plant acquisitions are deemed to be earned and reported as revenues of operating funds or as additions to plant funds, respectively, when the museum has incurred expenditures in compliance with the specific restrictions. Such amounts received but not yet earned are reported as restricted deferred amounts.

Plant Assets and Depreciation

Uses of operating funds for plant acquisitions and principal debt service payments are accounted for as transfers to plant funds. Proceeds from the sale of plant assets, if unrestricted, are transferred to operating fund balances, or, if restricted, to deferred amounts restricted for plant acquisitions. Depreciation of buildings and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis.

Other Matters

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets are accounted for in the fund that owned the assets. Ordinary income from investments, receivables, and the like is accounted for in the fund owning the assets, except for income derived from investments of endowment funds, which is accounted for, if unrestricted, as revenue of the expendable operating fund or, if restricted, as deferred amounts until the terms of the restriction have been met.

Legally enforceable pledges less an allowance for uncollectible amounts are recorded as receivables in the year made. Pledges for support of current operations are recorded as operating fund support. Pledges for support of future operations and plant acquisitions are recorded as deferred amounts in the respective funds to which they apply.

Note 2—Investments

Investments are presented in the financial statements in the aggregate at the lower of cost (amortized, in the case of bonds) or fair market value.

	June 30,			
	19X1		19X0	
	Cost	Market	Cost	Market

	<u>\$11,942,900</u>	<u>\$13,132,350</u>	<u>\$11,709,300</u>	<u>\$12,886,750</u>

Investments are composed of the following:

Corporate stocks and bonds	\$7,165,740	\$7,879,410	\$7,025,580	\$7,732,050
U.S. government obligations	3,582,870	3,939,705	3,512,790	3,866,025
Municipal bonds	1,194,290	1,313,235	1,170,930	1,288,675
	<u>\$11,942,900</u>	<u>\$13,132,350</u>	<u>\$11,709,300</u>	<u>\$12,886,750</u>

The following tabulation summarizes the relationship between carrying values and market values of investment assets.

	Carrying Value	Market Value	Excess of Market Over Cost
Balance at end of year	<u>\$11,942,900</u>	<u>\$13,132,350</u>	\$1,189,450
Balance at beginning of year	<u>\$11,709,300</u>	<u>\$12,886,750</u>	1,177,450
Increase in unrealized appreciation			12,000
Realized net loss for year			(2,200)
Total net gain for year			<u>\$ 9,800</u>

The average annual yield exclusive of net gains (losses) was 7% and the annual total return based on market value was 9% for the year ended June 30, 19X1.

Note 3—Plant Assets and Depreciation

A summary of plant assets follows:

	June 30,	
	19X1	19X0
Land	\$ 981,900	\$ 981,900

The weighted average discount rate and rate of increase in future compensation levels in determining the actuarial present value of the projected benefit obligation was X%. The expected long-term rate of return on assets was X%.

In 19X1 and 19X0, \$X,XXX and \$XX,XXX, respectively, of the vested benefit portion of the projected benefit obligation were settled through the purchase of nonparticipating annuity contracts for certain retired participants and lump sum payments for certain terminated participants. As a result, Sample Museum recognized gains of \$X,XXX and \$X,XXX in 19X1 and 19X0, respectively.

Note 6—Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of support and revenue, expenses, capital additions, and changes in fund balances. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Note 7—Commitments

The museum has entered into various agreements aggregating approximately \$80,000 for the purchase of equipment to be received subsequent to June 30, 19X1.

Note 8—Gifts Received

During the year ended June 30, 19X1, Sample Museum received several endowments totaling \$76,400. The donative instruments stipulate that the principal is to be maintained inviolate and in perpetuity and only the income from the investments of the fund may be expended.

Note 9—Interfund Transfers

During the year ended June 30, 19X1, the trustees authorized a transfer from the Operating Fund to the Plant Fund in the amount of \$151,600 representing fixed assets purchased with resources of the Operating Fund.

Note 10—Contributed Services

A substantial number of unpaid volunteers have made significant contributions of their time to develop the Museum's programs, principally in membership development and educational programs. The value of this contributed time is not reflected in these statements since it is not susceptible to objective measurement or valuation.

Note 11—Art Collection

In conformity with the practice followed by many museums, art objects purchased and donated are not included in the balance sheet.

The value of the objects acquired by gift for which the Museum can make a reasonable estimate is reported as gifts in the Statement of Activity (\$28,000 in the year ended June 30, 19X1).

The cost of all objects purchased together with the value of objects acquired by gift as indicated in the preceding paragraph, less the proceeds from deaccessions of objects, is reported as a separate program expense. During the year ended June 30, 19X1, purchase of art objects amounted to \$185,000 and the proceeds from deaccessions was \$13,000.

Gifts of cash or other property restricted by donors for the purchase of items for the collection are classified as deferred revenue until acquisitions are made in accordance with the terms of the gifts.

Sample Private Foundation Notes to Financial Statements

December 31, 19X1, and 19X0

Note 1—Summary of Significant Accounting Policies

The financial statements of Sample Private Foundation have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of resources available to the foundation, the accounts of the foundation are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined.

Expendable Restricted Resources

Funds restricted by the donor, grantor, or other outside party for particular purposes are deemed to be earned and reported as revenues when the foundation has incurred expenditures in compliance with the specific restrictions. Such amounts received but not yet earned are reported as restricted deferred amounts.

Office Furnishings

Costs of office furnishings and equipment are consistently charged to expense because the foundation does not deem such amounts to be sufficiently material to warrant capitalization and depreciation.

Note 2—Investments

Investments are presented in the financial statements at fair market value.

Investments are composed of the following:

	December 31,			
	19X1		19X0	
	<u>Cost</u>	<u>Market</u>	<u>Cost</u>	<u>Market</u>
Stocks	\$11,240,000	\$12,000,000	\$ 9,280,000	\$10,000,000
U.S. government obligations	1,870,000	2,000,000	1,620,000	1,750,000
Corporate and municipal bonds	4,690,000	5,000,000	6,500,000	7,000,000
	<u>\$17,800,000</u>	<u>\$19,000,000</u>	<u>\$17,400,000</u>	<u>\$18,750,000</u>

The average annual yield exclusive of net gains (losses) was 7% and the annual total return based on market value was 9% for the year ended June 30, 19X1.

Note 3—Federal Excise Taxes

In accordance with the applicable provisions of the Tax Reform Act of 1969, the foundation is subject to an excise tax on net investment income, including realized gains, as defined in the act. Accordingly, federal excise taxes have been accrued in amounts of \$41,000 and \$39,000 as of December 31, 19X1, and 19X0, respectively.

In addition, the Tax Reform Act requires that certain minimum distributions be made in accordance with a specified formula. At December 31, 19X1, the foundation has distributed approximately \$200,000 more than the required minimum.

Note 4—Commitments

Trustees of the foundation had approved, as of December 31, 19X1, and 19X0, grants amounting to \$750,000 and \$700,000, respectively. Such grants are subject to the satisfaction by the intended recipients of prior conditions before payment. The commitments outstanding at December 31, 19X1, are scheduled for payment as follows:

<u>Year</u>	<u>Amount</u>
19X2	\$600,000
19X3	100,000
19X4	50,000
	<u>\$750,000</u>

Note 5—Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of revenue, expenses, and changes in fund balances. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Sample Religious Organization Notes to Financial Statements

December 31, 19X1

Note 1—Summary of Significant Accounting Policies

The financial statements of Sample Religious Organization have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of resources available to the organization, the accounts of the organization are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

The assets, liabilities, and fund balances of the organization are reported in three self-balancing fund groups as follows:

- Operating funds, which include unrestricted and restricted resources, represent the portion of expendable funds that is available for support of operations.
- Plant funds represent resources restricted for plant acquisitions and funds expended for plant.
- Endowment funds represent funds that are subject to restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be used.
- Deposit and loan funds represent resources restricted for loans.
- Annuity and life income funds represent endowment resources of which the organization owns only the principal.

Basis of Presentation

The accompanying financial statements include the assets, liabilities, fund balances, and financial activities of all institutions and organizations providing services at the level of administration above the individual congregation. All significant balances and transactions among the organizations included in the financial statements have been eliminated.

Other Matters

Support arising from contributed services of certain religious personnel has been recognized in the accompanying financial statements. The computation of the value of the contribution of those services represents the difference between the stipends and other amounts paid to or on behalf of the religious personnel and the comparable compensation that would be paid to lay persons if lay persons were to occupy those positions. No computation is made for positions that can be held only by religious personnel.

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets are accounted for in the fund that owned the assets. Ordinary income from investments, receivables, and the like is accounted for in the fund owning the assets, except for income derived from investments of endowment funds, which is accounted for, if unrestricted, as revenue of the expendable operating fund or, if restricted, as deferred amounts until the terms of the restriction have been met.

Legally enforceable pledges less an allowance for uncollectible amounts are recorded as receivables in the year made. Pledges for support of current operations are recorded as operating fund support. Pledges for support of future operations and plant acquisitions are recorded as deferred amounts in the respective funds to which they apply.

Expendable Restricted Resources

Operating and plant funds restricted by the donor, grantor, or other outside party for particular operating purposes or for plant acquisitions are deemed to be earned and reported as revenues of operating funds or as additions to plant funds, respectively, when the organization has incurred expenditures in compliance with the specific restrictions. Such amounts received but not yet earned are reported as restricted deferred amounts.

Plant Assets and Depreciation

Uses of operating funds for plant acquisitions and principal debt service payments are accounted for as transfers to plant funds. Proceeds from the sale of plant assets, if unrestricted, are transferred to operating fund balances, or, if restricted, to deferred amounts restricted for plant acquisitions. Depreciation of buildings and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis.

Note 2—Investments

Investments are presented in the financial statements in the aggregate at the lower of cost (amortized, in the case of bonds) or fair market value.

	<u>Cost</u>	<u>Market</u>
Operating funds	\$3,800,000	\$4,180,000
Plant funds	260,000	286,000
Endowment funds	1,300,000	1,430,000
Deposit and loan funds	300,000	330,000
Annuity and life income funds	178,000	196,000
	<u>\$5,838,000</u>	<u>\$6,422,000</u>

Investments are composed of the following:

	<u>Cost</u>	<u>Market</u>
Corporate stocks and bonds	\$4,087,000	\$4,495,000
U.S. government obligations	1,168,000	1,284,000
Municipal bonds	583,000	643,000
	<u>\$5,838,000</u>	<u>\$6,422,000</u>

The following tabulation summarizes the relationship between carrying values and market values of investment assets.

	<u>Carrying Value</u>	<u>Market Value</u>	<u>Excess of Market Over Cost</u>
Balance at end of year	<u>\$5,838,000</u>	<u>\$6,422,000</u>	\$584,000
Balance at beginning of year	<u>\$5,769,000</u>	<u>\$6,341,000</u>	572,000
Increase in unrealized appreciation			12,000
Realized net gain for year			357,000
Total net gain for year			<u>\$369,000</u>

The average annual yield exclusive of net gains (losses) was 7% and the annual total return based on market value was 9% for the year ended December 31, 19X1.

Note 3—Plant Assets and Depreciation

A summary of plant assets follows:

Land	\$18,300,000
Buildings	41,000,000
Equipment	<u>9,100,000</u>
	68,300,000
Less accumulated depreciation	<u>23,500,000</u>
	<u><u>\$44,800,000</u></u>

Note 4—Long-Term Debt

A summary of long-term debt follows:

8½% mortgage payable in semiannual installments of \$160,000 through 19XX	<u>\$ 2,800,000</u>
---	---------------------

Note 5—Pension Plan

Effective January 1, 19X0, Sample Religious Organization adopted Statement of Financial Accounting Standards No. 87, Employers' Accounting for Pensions. Adoption of the statement is accounted for prospectively, without adjustment to prior years. The effect of this change in accounting principles on net pension expense for the year ended December 31, 19X1, was a reduction of \$XX,XXX.

A summary of the components of income follows:

Service cost—benefits earned during the year	\$ XX,XXX
Interest cost on projected benefit obligation	XX,XXX
Actual return on plan assets	(XX,XXX)
Net asset gain (loss) deferred for later recognition	(XX,XXX)
Amortization of unrecognized net asset	<u>(XX,XXX)</u>
Net periodic pension income	<u><u>\$ (XX,XXX)</u></u>

Funded status of the plan:

Actuarial present value of benefit obligation	
Accumulated benefit obligation, including vested benefits of \$XX,XXX in 19X1	<u>\$ (XX,XXX)</u>
Projected benefit obligation for service rendered to date	(XX,XXX)

Assets available for benefits

Plan assets at fair value, primarily listed stocks and U.S. government securities	<u>XXX,XXX</u>
Plan assets in excess of benefit obligation	XX,XXX
Unrecorded net (gain) loss from past experience different from that assumed and effects of changes in assumptions	XXX
Unrecognized net assets at January 1, 19X0, being recognized over XX years	<u>(XX,XXX)</u>
Prepaid pension cost included in other assets	<u><u>\$ XX,XXX</u></u>

The weighted average discount rate and rate of increase in future compensation levels in determining the actuarial present value of the projected benefit obligation was X%. The expected long-term rate of return on assets was X%.

In 19X1, \$X,XXX of the vested benefit portion of the projected benefit obligation was settled through the purchase of nonparticipating annuity contracts for certain retired participants and lump-sum payments for certain terminated participants. As a result, the organization recognized gains of \$X,XXX in 19X1.

Note 6—Changes in Deferred Restricted Amounts

	Operating Funds	Plant Fund	Annuity and Life Income Fund
Balances at beginning of year	\$ 690,000	\$ 325,000	\$58,000
Additions			
Contributions and bequests	400,000	1,188,000	2,000
Investment income	—	15,000	—
Net gain on investment transactions	—	—	—
	<u>1,090,000</u>	<u>1,528,000</u>	<u>60,000</u>
Deductions—funds expended during the year	<u>220,000</u>	<u>1,200,000</u>	<u>—</u>
Balances at end of year	<u>\$ 870,000</u>	<u>\$ 328,000</u>	<u>\$60,000</u>

Note 7—Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of support and revenue, expenses, capital additions, and changes in fund balances. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Note 8—Commitment

The organization has a lease for certain office facilities that expires December 31, 19X9. The lease contains operating expense and real estate tax escalation clauses. The minimum rental commitment on the lease as of December 31, 19X1, aggregates approximately \$210,000, with annual payments ranging from \$25,000 to \$35,000. Rent expense for the year ended December 31, 19X1, amounted to \$28,000.

Illustrative Auditor's Report—Voluntary Health and Welfare Organization

Independent Auditor's Report

[Addressee]

We have audited the accompanying balance sheet of Sample Voluntary Health and Welfare Service as of December 31, 19X1, and the related statements of support, revenue, and expenses, and changes in fund balances for the year then ended. These financial statements are the responsibility of the Service's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Sample Voluntary Health and Welfare Service as of December 31, 19X1, and the results of its operations, and the changes in fund balances for the year then ended in conformity with generally accepted accounting principles.

Sample Voluntary Health and Welfare Service Notes to Financial Statements

December 31, 19X2

Note 1—Summary of Significant Accounting Policies

The financial statements of Sample Voluntary Health and Welfare Service have been prepared on the accrual basis and include the accounts of the Service and its affiliated chapters.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of resources available to the service, the accounts of the service are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been recorded and reported by fund group.

The assets, liabilities, and fund balances of the service are reported in three self-balancing fund groups as follows:

- Current funds, which include unrestricted and restricted resources, represent the portion of expendable funds that is available for support of operations.
- Land, building, and equipment funds represent resources restricted for plant acquisitions and funds expended for plant.
- Endowment funds represent funds that are subject to restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be used.

Expendable Restricted Resources

Operating and plant funds restricted by the donor, grantor, or other outside party for particular operating purposes or for plant acquisitions are deemed to be earned and reported as revenues of operating funds or as additions to plant funds, respectively, when the service has incurred expenditures in compliance with the specific restrictions. Such amounts received but not yet earned are reported as restricted deferred amounts.

Plant Assets and Depreciation

Uses of operating funds for plant acquisitions and principal debt service payments are accounted for as transfers to plant funds. Donated assets are capitalized at fair value. Proceeds from the sale of plant assets, if unrestricted, are transferred to operating fund balances, or, if restricted, to deferred amounts restricted for plant acquisitions. Depreciation of buildings and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis.

Other Matters

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets are accounted for in the fund that owned the assets. Ordinary income from investments, receivables, and the like is accounted for in the fund owning the assets, except for income derived from investments of endowment funds, which is accounted for, if unrestricted, as revenue of the current unrestricted fund or, if restricted, as deferred amounts until the terms of the restriction have been met.

Legally enforceable pledges less an allowance for uncollectible amounts are recorded as receivables in the year made. Pledges for support of current operations are recorded as operating fund support. Pledges for support of future operations and plant acquisitions are recorded as deferred amounts in the respective funds to which they apply. Policies concerning donated materials and services are described in Note 6.

Note 2—Investments

Investments are stated at cost. Market values and unrealized appreciation (depreciation) at December 31, 19X2, and 19X1 are summarized as follows:

	(Thousands of Dollars)			
	December 31, 19X2		December 31, 19X1	
	Quoted Market Value	Unrealized Appreciation	Quoted Market Value	Unrealized Appreciation (Depreciation)
Current unrestricted funds				
For long-term purposes	\$2,735	\$ 8	\$2,230	\$ (15)
Other	1,100	25	941	(9)
Current restricted funds	73	2	73	1
Endowment funds	2,125	181	2,183	176
Land, building and equipment fund	184	7	153	8

Interfund transfers include \$100,000 for 19X2, which represents the portion of the realized appreciation (\$25,000 realized in the current year and \$75,000 realized in prior years) in endowment funds that, under the laws of (a state), were designated by the governing board for unrestricted operations. At December 31, 19X2, \$200,000 of realized appreciation was available in endowment funds, which the governing board may, if it deems prudent, also transfer to the unrestricted fund.

If the organization accounts for its investment on the market value basis, the first part of the above note might be worded as follows:

Cost and unrealized appreciation (depreciation) at December 31, 19X2, and 19X1 are summarized as follows:

	(Thousands of Dollars)			
	December 31, 19X2		December 31, 19X1	
	Cost	Unrealized Appreciation	Cost	Unrealized Appreciation (Depreciation)
Current unrestricted funds				
For long-term purposes	\$2,727	\$ 8	\$2,245	\$ (15)
Other	1,075	25	950	(9)
Current restricted funds	71	2	72	1
Endowment funds	1,944	181	2,007	176
Land, building and equipment fund	177	7	45	8

Note 3—Research Grants

The Service's awards for research grants-in-aid generally cover a period of one to three years, subject to annual renewals at the option of the governing board. At December 31, 19X2, \$1,748,000 had been designated by the board for research grants, of which \$596,000 had been awarded for research to be carried out within the next year.

Note 4—Proposed Research Center

The XYZ Foundation has contributed \$50,000 to the Service with the stipulations that it be used for the construction of a research center and that construction of the facilities begin within four years. The Service is considering the construction of a research center, the cost of which would approximate \$2,000,000. If the governing board approves the construction of these facilities, it is contemplated that its cost would be financed by a special fund drive.

Note 5—Land, Buildings and Equipment and Depreciation

Depreciation of buildings and equipment is provided on a straight-line basis over the estimated useful lives of the assets. At December 31, 19X2, and 19X1, the costs of such assets were as follows:

	<u>19X2</u>	<u>19X1</u>
Land	\$ 76,000	\$ 76,000
Buildings	324,000	324,000
Medical research equipment	336,000	312,000
Office furniture and equipment	43,000	33,000
Automobiles and trucks	<u>33,000</u>	<u>30,000</u>
Total costs	812,000	775,000
Less accumulated depreciation	<u>296,000</u>	<u>262,000</u>
Net	<u>\$516,000</u>	<u>\$513,000</u>

Note 6—Donated Materials and Services

Donated materials and equipment are reflected as contributions in the accompanying statements at their estimated values at date of receipt. No amounts have been reflected in the statements for donated services inasmuch as no objective basis is available to measure the value of such services; however, a substantial number of volunteers have donated significant amounts of their time in the organization's program services and in its fund-raising campaigns.

Note 7—Long-Term Debt

Long-term debt at December 31, 19X2, and 19X1 consists of the following:

	<u>19X2</u>	<u>19X1</u>
8% mortgage note payable in semiannual installments of \$5,400 (including principal and interest) to December 31, 19Y0 collateralized by equipment	<u>\$32,000</u>	<u>\$36,000</u>

Long-term debt maturing in the next five years consists of:

19X3	\$ 4,000
19X4	4,000
19X5	4,000
19X6	4,000
19X7	<u>4,000</u>
Total	<u>\$20,000</u>

Note 8—Leased Facilities

The buildings used by the organization for its community services programs are leased under operating leases. At December 31, 19X2, fifteen such buildings were being leased at an annual cost of approximately \$12,000.

Note 9—Pension Plan

Effective January 1, 19X0, Sample Voluntary Health and Welfare Organization adopted Statement of Financial Accounting Standards No. 87, *Employers' Accounting for Pensions*. Adoption of the statement is accounted for prospectively, without adjustment to prior years. The effect of this change in accounting principles on net pension expense for the year ended December 31, 19X2, was a reduction of \$XX,XXX.

A summary of the components of income follows:

	December 31,	
	19X2	19X1
Service cost—benefits earned during the year	\$ XX,XXX	\$ XX,XXX
Interest cost on projected benefit obligation	XX,XXX	XX,XXX
Actual return on plan assets	(XX,XXX)	(XX,XXX)
Net asset gain (loss) deferred for later recognition	(XX,XXX)	(XX,XXX)
Amortization of unrecognized net asset	(XX,XXX)	(XX,XXX)
Net periodic pension income	<u>\$(XX,XXX)</u>	<u>\$(XX,XXX)</u>

Funded status of the plan:

Actuarial present value of benefit obligation		
Accumulated benefit obligation, including vested benefits of \$XX,XXX in 19X2 and \$XX,XXX in 19X1	\$ (XX,XXX)	\$ (XX,XXX)
Projected benefit obligation for service rendered to date	(XX,XXX)	(XX,XXX)

Assets available for benefits:

Plan assets at fair value, primarily listed stocks and U.S. government securities	<u>XXX,XXX</u>	<u>XXX,XXX</u>
Plan assets in excess of benefit obligation	XX,XXX	XX,XXX
Unrecorded net (gain) loss from past experience different from that assumed and effects of changes in assumptions	XXX	XXX
Unrecognized net assets at January 1, 19X0, being recognized over XX years	<u>(XX,XXX)</u>	<u>(XX,XXX)</u>
Prepaid pension cost included in other assets	<u>\$ XX,XXX</u>	<u>\$ XX,XXX</u>

The weighted average discount rate and rate of increase in future compensation levels in determining the actuarial present value of the projected benefit obligation was X%. The expected long-term rate of return on assets was X%.

In 19X2 and 19X1, \$X,XXX and \$XX,XXX, respectively, of the vested benefit portion of the projected benefit obligation, were settled through the purchase of nonparticipating annuity contracts for certain retired participants and lump-sum payments for certain terminated participants. As a result, the school recognized gains of \$X,XXX and \$X,XXX in 19X2, and 19X1, respectively.

Note 10—Postretirement Health Care and Life Insurance Benefits

Sample Voluntary Health and Welfare Organization offers postretirement health care and life insurance benefits to substantially all of its retired regular full-time employees. Sample Voluntary Health and Welfare Organization shares the cost of providing these benefits with all affected retirees. Sample Health and Welfare Organization's cost of providing such benefits is recognized by expensing the insurance programs' premiums as paid. The aggregate amount so expensed totaled \$XX,XXX and \$XX,XXX for the years ended December 31, 19X1, and 19X0, respectively. Sample Voluntary Health and Welfare Organization has made no provision for recognizing the cost of postretirement benefits which may eventually be paid to employees who have not yet retired.
