Checklists and Illustrative Financial Statements for Property and Liability Insurance Companies

.01 These checklists and illustrative materials have been developed by the AICPA Accounting and Auditing Publications Team to serve as nonauthoritative practice aids for use by preparers and auditors of financial statements. The auditor's report checklist addresses those requirements most likely to be encountered when reporting on financial statements of a property and liability insurance company prepared in conformity with generally accepted accounting principles. It does not include reporting requirements relating to other matters such as internal control, agreed-upon procedures, etc. The financial statement and notes checklist includes disclosures that should be considered by property and liability insurance companies in preparing financial statements in conformity with generally accepted accounting principles (GAAP). The checklist does not include disclosures prescribed by pronouncements whose applicability to property and liability insurance companies is considered to be remote.

.02 Users of the financial statements and notes checklist should remember that it is a disclosure checklist only and not a comprehensive GAAP application or measurement checklist. Accordingly, application and measurement issues related to preparing financial statements in conformity with GAAP are not included in the checklist.

The financial statements and notes checklist has been updated to include relevant disclosure guidance in accounting pronouncements issued through the following pronouncements:

- Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 153, *Exchanges of Nonmonetary Assets*, an amendment of APB Opinion No. 29, and revised FASB Statements issued through December 31, 2004, including
 - FASB Statement No. 123 (revised 2004), *Share-Based Payment*
- FASB Interpretation (FASBI) No. 46 (revised December 2003), *Consolidation of Variable Interest Entities, an interpretation of ARB No. 51*
- FASB Technical Bulletin (FTB) No. 01-1, *Effective Date for Certain Financial Institutions of Certain Provisions of Statement 140 Related to the Isolation of Transferred Financial Assets*
- FASB Emerging Issues Task Force (EITF) consensuses adopted through the November 2004 meeting
- FASB Staff Positions (FSP) issued through December 31, 2004
- AICPA Statement on Auditing Standards (SAS) No. 101, *Auditing Fair Value Measurements and Disclosures*
- Auditing Interpretations No. 17 and No. 18 of SAS No. 58, *Reports on Audited Financial Statements*, as amended, titled "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards," and "References to PCAOB Standards in an Audit Report on a Nonissuer," respectively
- AICPA Statement of Position (SOP) 04-2, *Accounting for Real Estate Time-Sharing Transactions*
- AICPA Practice Bulletin (PB) No. 15, *Accounting by the Issuer of Surplus Notes*

(continued)

- AICPA Statement on Standards for Accounting and Review Services (SSARS) No. 11, *Standards for Accounting and Review Services*
- Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 3, *Audit Documentation* (and Amendment to Interim Standards)

The checklists and illustrative financial statements should be modified, as appropriate, for pronouncements issued subsequent to the above. In determining the applicability of a pronouncement, its effective date should also be considered.

.03 Users of the checklists and illustrative financial statements are urged to refer directly to applicable authoritative pronouncements when appropriate. If you have further questions, call the AICPA Technical Hotline at 888-777-7077.

Note: This publication was extracted from sections 17,000 through 17,600 of the AICPA *Financial Statement Preparation Manual* (FSP).

FSP Section 17,100

Introduction

.01 The primary purpose of the property and liability insurance business is the spreading of risks. The term risk generally has two meanings in insurance. It can mean either a peril insured against (e.g., fire is a risk to which most property is exposed) or a person or property protected (e.g., young drivers, who many insurance companies believe are not good risks). For a payment known as a premium, insurance companies undertake to relieve the policyholder of all or part of a risk and to spread the total cost of similar risks among large groups of policyholders.

.02 The functions of the property and liability insurance business include marketing, underwriting (e.g., determining the acceptability of risks and the amounts of the premiums), billing and collecting premiums, investing and managing assets, investigating and settling claims made under policies, and paying expenses associated with these functions.

.03 In conducting its business, an insurance company accumulates a significant amount of investable assets. In addition to funds raised as equity and funds retained as undistributed earnings, funds accumulated from premiums collected in advance; from sums held for the payment of claims in the process of investigation, adjustment, or litigation; and from sums held for payment of future claims settlement expenses. The accumulation of these funds, their investment, and the generation of investment income are major activities of insurance companies.

.04 Property and liability insurance companies must file an annual statement, prepared on the basis of Statutory Accounting Practice ("SAP"), with each state in which the companies are licensed. The primary purpose of the extensive regulatory laws enacted by the states has been the protection of the policyholders. The annual statements filed with the regulatory authorities are used to monitor the financial condition of insurance companies in the periods between examinations by state or zone auditors.

.05 The National Association of Insurance Commissioners (NAIC) codified statutory accounting practices for certain insurance enterprises, resulting in a revised *Accounting Practices and Procedures Manual*. The insurance laws and regulations of the states require insurance companies domiciled in the states to comply with the guidance provided in the NAIC Accounting Practices and Procedures Manual except as prescribed or permitted by state law.

.06 In December 2001, the AICPA issued SOP 01-5, *Amendment to Specific AICPA Pronouncements for Changes Related to the NAIC Codification*, which amends SOP 94-5, *Disclosures of Certain Matters in the Financial Statements of Insurance Enterprises*, as a result of the completion of the National Association of Insurance Commissioners (NAIC) Codification of statutory accounting practices for certain insurance enterprises.

.07 The amendments to SOP 94-5 included in SOP 01-5 require insurance enterprises to disclose, at the date each balance sheet is presented, a description of the prescribed or permitted statutory accounting practice and the related monetary effect on statutory surplus of using an accounting practice that differs from either state prescribed statutory accounting practices or NAIC statutory accounting practices.

.08 Those disclosures should be made if (a) state prescribed statutory accounting practices differ from NAIC statutory accounting practices or (b) permitted state statutory accounting practices differ from either state prescribed statutory accounting practices or NAIC statutory accounting practices, and the use of prescribed or permitted statutory accounting practices (individually or in the aggregate) results in reported

statutory surplus or risk-based capital that is significantly different from the statutory surplus or risk-based capital that would have been reported had NAIC statutory accounting practices been followed.

.09 Those disclosures should be applied by a U.S. insurance enterprise, a U.S. enterprise with a U.S. insurance subsidiary, or a foreign enterprise with a U.S. insurance subsidiary, if the enterprise prepares U.S. generally accepted accounting principles (GAAP) financial statements. If a foreign insurance enterprise that does not have a U.S. insurance subsidiary prepares U.S. GAAP financial statements or is included in its parent's consolidated U.S. GAAP financial statements, the notes to the financial statements should disclose permitted regulatory accounting practices that significantly differ from the prescribed regulatory accounting practices of its respective regulatory authority and their monetary effects.

.10 SOP 01-5 also includes the following auditing guidance that has been updated as a result of the completion of the NAIC Codification: SOP 95-5, *Auditor's Reporting on Statutory Financial Statements of Insurance Enterprises*; SOP 94-1, *Inquiries of State Insurance Regulators*; and AICPA Auditing Interpretation No. 12, "Evaluation of the Appropriateness of Informative Disclosures in Insurance Enterprises' Financial Statements Prepared on a Statutory Basis," of Statement on Auditing Standards (SAS) No. 62, *Special Reports*, as amended (AICPA, *Professional Standards*, vol. 1, AU sec. 9623.60–81). The included auditing guidance has been approved by the Auditing Standards Board.

FSP Section 17,200

Checklists—General

.01 AICPA disclosure checklists have been designed as practice aids to assist accountants in the preparation of financial statements and to assist auditors in their evaluation of the adequacy of disclosures in the financial statements they audit. Authoritative literature does not require the use of checklists, nor does it prescribe their format or content.

.02 This checklist consists of a number of questions or statements that are accompanied by references to the established sources of generally accepted accounting principles (GAAP) in which the disclosure requirements are found. These sources include Statements of Financial Accounting Standards, FASB Interpretations, FASB Staff Positions, Accounting Principles Board Opinions, Accounting Research Bulletins, AICPA Audit and Accounting Guides, AICPA Statements of Position, and EITF consensuses. Checklists are designed to serve as convenient memory aids but should not be used as a substitute for direct reference to authoritative literature.

.03 These checklists consist of a number of questions or statements that are accompanied by references to applicable authoritative pronouncements. The checklists provide spaces for checking off or initialing each question or point to indicate that it has been considered. Users should check or initial—

- **Yes**—If the disclosure is required and has been made appropriately.
- **No**—If the disclosure is required but is not made.
- **N/A (not applicable)**—If the disclosure is not required to be made.

Users may find it helpful to include references to the place where each disclosure for which a “Yes” is indicated can be found in the financial statements. It may also be helpful to include either on the checklist or elsewhere the reasons that items marked “N/A” do not apply in the circumstances of the particular report.

.04 It is important that the effect of any “No” response be considered on the auditor’s report. A “No” response that is material to the financial statements may warrant the issuance of a qualified or adverse report on the financial statements. (See paragraphs 35–60 of SAS No. 58, *Reports on Audited Financial Statements*, as amended [AICPA, *Professional Standards*, vol. 1, AU sec. 508.35–60]. If a “No” response is indicated, the authors recommend that a notation be made in the margin to explain why the disclosure was not made (for example, because the item was not considered to be material to the financial statements) or to indicate the effect that the response will have on the auditor’s report.

.05 At the beginning of certain sections, a appears in the “N/A” column. If the entire section is deemed to be non-applicable, place a check mark in the and proceed to the next section.

.06 As you use this checklist, please remember that:

- The exercise of sound professional judgment is of paramount importance in applying the checklist provisions.
- The checklist may require modification based on the engagement circumstances. The checklist may not be all-inclusive.
- Users need to modify the checklist for any pronouncements issued subsequent to those mentioned in the checklist.

.07 These checklists and illustrative materials have been prepared by the AICPA staff. They have not been reviewed, approved, disapproved, or otherwise acted on by any senior technical committee of the AICPA and do not represent official positions or pronouncements of the AICPA.

Financial Statements and Notes Checklist

.01 This checklist has been developed by the staff of the Accounting and Auditing Publications Team of the AICPA as a nonauthoritative practice aid. This checklist and the reporting checklists include disclosures commonly encountered in the financial statements of property and liability insurance companies and reporting issues likely to be encountered by accountants who audit, compile, and review these types of financial statements. They do not include all disclosures and presentation items required by GAAP or all reporting situations required by GAAS, PCAOB Standards, and SSARS. Pronouncements deemed unlikely to be encountered in financial statements of property and liability companies are not included.

Important: Depending upon whether an entity is a nonpublic entity, a public entity, or an SEC registrant, FSP 150-3 defers the effective date for applying the provisions of SFAS 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. Readers should read FSP 150-3 to understand the various effective dates of SFAS 150. FSP 150-3 is available at the FASB Web site at www.fasb.org.

Early adoption of the provisions of SFAS 150 for instruments within the scope of the indefinite deferrals established by FSP 150-3 is precluded during the deferral period.

During the deferral period, all public entities as well as nonpublic entities that are SEC registrants are required to follow the disclosure requirements in paragraphs 26 and 27 of SFAS 150 (Questions 20 and 21 below) as well as disclosures required by other applicable guidance.

⁴ Appropriate ways of reporting the quantitative information encouraged will differ for different entities and will likely evolve over time as management approaches and measurement techniques evolve. Possibilities include disclosing (a) more details about current positions and perhaps activity during the period, (b) the hypothetical effects on comprehensive income (or net assets), or annual income, of several possible changes in market prices, (c) a gap analysis of interest rate repricing or maturity dates, (d) the duration of the financial instruments, or (e) the entity's value at risk from derivatives and from other positions at the end of the reporting period and the average value at risk during the year. This list is not exhaustive, and an entity is encouraged to develop other ways of reporting quantitative information.

Yes No N/A

Note: In January 2004, the FASB issued FSP 106-1, *Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003*, which permits a sponsor of a postretirement health care plan that provides a prescription drug benefit to make a one-time election to defer accounting for the effects of the Act. Regardless of whether a sponsor elects that deferral, the FSP requires certain disclosures pending further consideration of the underlying accounting issues. The disclosures required by FSP 106-1, *Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003*, (Questions 6 and 7) are effective for financial statements of fiscal years ending after December 7, 2003. When FSP 106-2 becomes effective, or upon earlier adoption if elected, it supersedes FSP 106-1, and Questions 8, 9, and 10 would apply (see below).

In May 2004, the FASB issued FSP 106-2, *Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003*, which provides guidance on the accounting for the effects of the Act for employers that sponsor postretirement health care plans that provide prescription drug benefits. This FSP also requires those employers to provide certain disclosures regarding the effect of the federal subsidy provided by the Act. When this FSP becomes effective, or upon earlier adoption if elected, it supersedes FSP 106-1. Except for certain nonpublic entities, FSP 106-2 is effective for the first interim or annual period beginning after June 15, 2004. For a nonpublic entity, as defined in SFAS 87, *Employers' Accounting for Pensions*, that sponsors one or more defined benefit postretirement health care plans that provide prescription drug coverage but of which no plan has more than 100 participants, FSP 106-2 is effective for fiscal years beginning after December 15, 2004. Earlier application of FSP 106-2 is encouraged. Readers should refer to the detailed effective date requirements in FSP 106-2.

6. If the entity sponsors a postretirement health care plan that provides prescription drug benefits and has elected to defer recognizing the effects of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act), did the entity disclose:
 - a. The existence of the Act and the fact that in accordance with FSP 106-1, any measures of the accumulated postretirement benefit obligation or net periodic postretirement benefit cost in the financial statements or accompanying notes do not reflect the effects on the plan of the Act? _____
 - b. The fact that specific authoritative guidance on the accounting for the federal subsidy is pending and that guidance, when issued, could require the entity to change previously reported information? _____
 - c. Any additional information is appropriate to help the reader understand the Act's possible economic consequences, including whether the entity would need to amend the plan (regardless of whether it intends to do so) in order to benefit from the new legislation? (This disclosure is encouraged, but not required.) _____
 - d. An estimate of the cash flows that the entity believes it will be entitled to receive under the federal subsidy with an acknowledgment that the issues of how and when the federal subsidy

	<u>Yes</u>	<u>No</u>	<u>N/A</u>
should be accounted for are not yet resolved by the FASB? (This disclosure is encouraged, but not required.) [FSP 106-1]	_____	_____	_____
7. If the entity sponsors a postretirement health care plan that provides prescription drug benefits and has recognized the effects of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act), did the entity disclose:			
a. The effects, if any, of the Act on the reported measure of the accumulated postretirement benefit obligation?	_____	_____	_____
b. How that effect has been, or will be reflected, in the net postretirement benefit costs of current or subsequent periods?	_____	_____	_____
c. The effects of any changes in estimates of participation rates or per capita claims costs as a result of the Act?	_____	_____	_____
d. The fact that specific authoritative guidance on the accounting for the federal subsidy is pending and that guidance, when issued, could require the entity to change previously reported information?	_____	_____	_____
e. The basis for concluding that its plan is at least "actuarially equivalent" (as defined in the Act) to Medicare Part D?	_____	_____	_____
f. If some or all of the federal subsidy (other than current period amortization) related to prescription drug is recognized immediately as a component of income from continuing operations, is the amount recognized reported as a separate line item on the face of the statement of activities? [FSP 106-1]	_____	_____	_____

Note: The Public Company Accounting Oversight Board (PCAOB) establishes standards for audits of "issuers," as that term is defined by the Sarbanes-Oxley Act of 2002 (the Act) or whose audit is prescribed by the rules of the SEC. Other entities are referred to as "nonissuers." Interpretation 17, "Clarification in the Audit Report of the Extent of Testing of Internal Control Over Financial Reporting in Accordance With Generally Accepted Auditing Standards," of SAS 58, *Reports on Audited Financial Statements*, as amended (AU 9508.85-.88), provides language that may be added to the auditor's standard report on the financial statements of a nonissuer to clarify differences between a GAAS audit and an audit conducted in accordance with the standards of the PCAOB. Interpretation 18, "References to PCAOB Standards in an Audit Report on a Nonissuer," of SAS 58, as amended (AU 9508.89-.92), explains how the auditor should report if engaged to also follow PCAOB auditing standards in the audit of a nonissuer.

Practice Tip

Scope limitations include situations in which the auditor is unable to obtain sufficient evidential matter to support management’s assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements.

[SAS 58, as amended by SAS 79, par. 31 (AU 508.31)]

FSP Section 17,500

Supplemental Information for Property and Liability Insurance Companies That Are Securities and Exchange Commission Registrants

.01 Footnote 3 to SAS 69 states, in part, that, for Securities and Exchange Commission (SEC) registrants, rules and releases of the SEC have an authority similar to other officially established accounting principles. Regulation S-X is the primary source of requirements for financial statements and related footnotes required to be included in documents filed with the SEC. In addition to Regulation S-X, preparers and auditors of financial statements should be familiar with the SEC's Financial Reporting Releases (FRR) and Staff Accounting Bulletins (SAB). FRRs communicate the SEC's position on accounting and auditing principles and practices. SABs represent interpretations and practices followed by the Division of Corporation Finance and the Office of the Chief Accountant of the SEC.

.02 When determining compliance with SEC requirements, preparers and auditors should refer to the appropriate SEC pronouncements to ensure compliance with SEC disclosure rules. In particular, the following documents should be consulted:

- Regulation S-X, Article 3, *General Instructions as to Financial Statements*
 - Regulation S-X, Article 4, *Rules of General Application*
 - Regulation S-X, Article 7, *Insurance Companies*
 - Staff Accounting Bulletins (SAB) — SABs reflect the SEC staff's views regarding accounting-related disclosure practices. They represent interpretations and policies followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the federal securities laws.
 - Financial Reporting Releases (FRR) — FRRs adopt, change, or interpret requirements relating to accounting, auditing, and disclosure issues.
 - The Sarbanes-Oxley Act of 2002
 - Rules and Standards of the Public Company Accounting Oversight Board

FSP Section 17,600

Illustrative Financial Statements

.01 This section illustrates financial statements of a nonpublic property and liability insurance company and the accompanying disclosures that are unique to such companies. Disclosures concerning the company's pension plans, postretirement benefits other than pensions, stock options, lease commitments, long-term debt, extraordinary items, segments, accounting changes, and other items that are not unique to property and liability insurance companies have been omitted for purposes of this checklist. The format presented and the wording of the accompanying notes are only illustrative and are not necessarily the only possible presentations.

.02 Except for the treatment of gains and losses described in SFAS 97, *Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments*, insurance companies that are SEC registrants should follow Article 7 of SEC Regulation S-X, which prescribes the form and content of financial statements. Also, the SEC's Financial Reporting Release (FRR) No. 20, *Rules and Guide for Disclosures Concerning Reserves for Unpaid Claims and Claim Adjustment Expenses of Property-Casualty Underwriters*, requires property and liability insurance companies to disclose in financial statements filed with the SEC certain information concerning reserves for unpaid claims and claim adjustment expenses. The Exchange Act requires certain supplementary information with respect to quarterly financial data. Other SEC regulations also require additional disclosures (for example, details with respect to deferred acquisition costs).

.03 GASB 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, as amended and interpreted by various pronouncements,^{*} requires public entity risk pools to present additional information beyond these illustrative financial statements. This additional information includes reporting assessments receivable from pool participants for premium deficiencies, disclosures about revenues collected in anticipation of future catastrophe losses, the aggregate outstanding amount of claims outstanding that have been settled through the purchase of annuity contracts, and the pool risk transfer agreement. Also, outstanding claims by kind of contract and ten-year claims development information on a policy-year basis should be presented as required supplementary information.

.04 Interpretation No. 3 of AU section 410, "Adherence to Generally Accepted Accounting Principles" [AICPA, *Professional Standards*, vol. 1, AU sec. 9410], addresses the impact on an auditor's report on a FASB statement prior to the statement's effective date. Readers may want to familiarize themselves with the guidance in that Interpretation.

.05 Also, preparers and auditors of SEC-registrant financial statements are reminded that as discussed in SAB Topic 11M (SAB No. 74), and AU section 9410, Interpretation No. 3, "The Impact on an Auditor's Report of an FASB Statement Prior to the Statement's Effective Date," filings with the SEC that include financial statements for a period ending after the issuance of an accounting standard but before the required date of adoption of that accounting standard should include disclosure of the impact that the recently issued accounting standard will have on the financial position and results of operations of the registrant when such standard is adopted in a future period. The following disclosures should be considered by registrants:

- A brief description of the new standard, the date that adoption is required and the date that the registrant plans to adopt, if earlier;

^{*} The Governmental Accounting Standards Board (GASB) issued GASB 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*. That Statement fundamentally changes the format and content of financial statements for all state and local governmental entities, including public entity risk pools.

- A discussion of the methods of adoption allowed by the standard and the method expected to be utilized by the registrant, if determined;
- A discussion of the impact that adoption of the standard is expected to have on the financial statements of the registrant, unless unknown or not reasonably estimable. In that case, a statement to that effect may be made;
- Disclosure of the potential impact of other significant matters that the registrant believes might result from the adoption of the new standard (such as technical violations of debt covenant agreements, planned or intended changes in business practices, etc.).

.06 These illustrative financial statements are not intended to include items that should be accounted for under the requirements of SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended, and do not reflect the requirements of SFAS 133. Practitioners should refer to SFAS 133 and its amendments for guidance on reporting derivative instruments and hedging activities.

.07

The checklists and illustrative financial statements do not include all disclosures and presentation items required by GAAP.

SOP 01-6 requires that a description of the accounting policies and methodology the entity used to estimate its allowance for doubtful accounts be included in the notes to the financial statements. Such a description should identify the factors that influenced management's judgment and may also include discussion of risk elements relevant to particular categories of financial instruments. In addition, SOP 01-6 requires that the summary of significant accounting policies include the policy for charging off uncollectible trade receivables. SOP 01-6 contains other presentation and disclosure requirements that may apply to the financial statements of insurance entities. Readers should refer to the full text of SOP 01-6. [†] SFAS 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*, establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity and requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. Paragraphs 26–28 of the Statement also govern disclosure requirements, which include, but are not limited to, disclosing the nature and terms of financial instruments and the rights and obligations embodied in those instruments along with settlement information. The standard's effective dates have been deferred indefinitely for certain instruments by FSP 150-3. However, during the deferral period, all public and non public entities that are SEC registrants are required to follow the disclosure requirements in paragraphs 26 and 27 as well as disclosures required by other applicable guidance.

COMPANY AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

For the Years Ended December 31, 20X2 and 20X1

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations: The Property and Liability Insurance Company and subsidiaries (the Company) is a nonpublic insurance organization providing property and liability coverage to both domestic and foreign markets. The Company is principally involved in writing insurance for domestic commercial lines.

The significant accounting policies followed by the Company are summarized as follows:

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation: The consolidated financial statements include the accounts, after intercompany eliminations, of the Company and its subsidiaries.

Basis of Presentation: The accompanying financial statements have been prepared in conformity with generally accepted accounting principles that differ from statutory accounting practices prescribed or permitted for insurance companies by regulatory authorities.

Trading Securities: Bonds, notes, and redeemable and non-redeemable preferred stock held principally for resale in the near term are classified as trading securities and recorded at their fair values. Realized and unrealized gains and losses on trading securities are included in other income.

Securities Held to Maturity: Bonds, notes, and redeemable and non-redeemable preferred stock for which the insurance company has the intent and ability to hold to maturity are reported at amortized cost, adjusted for amortization of premiums or discounts and other-than-temporary declines in fair value. Realized gains and losses are determined using the specific identification method.

Securities Available for Sale: Bonds, notes, common stock, and redeemable preferred stock not classified as either trading or held-to-maturity are reported at fair value, adjusted for other than temporary declines in fair value, with unrealized gains and losses, net of tax, reported as a net amount in other comprehensive income. Realized gains and losses are determined using the specific identification method.

Mortgage Loans on Real Estate: Reported at unpaid balances, adjusted for amortization of premium or discount, less a provision for credit losses.

Real Estate: Reported at cost, less allowances for depreciation and impairment of value.

Cash Equivalents: Cash equivalents are short-term, highly liquid investments with original maturities of three months or less.

Recognition of Premium Revenues: Property and liability premiums are generally recognized as revenue on a pro rata basis over the policy term. The portion of premiums that will be earned in the future are deferred and reported as unearned premiums.

Deferred Policy Acquisition Costs: Commissions and other costs of acquiring insurance that vary with and are primarily related to the production of new and renewal business are deferred and amortized over the terms of the policies or reinsurance treaties to which they relate. Proceeds from reinsurance transactions that represent recovery of acquisition costs shall reduce applicable

unamortized acquisition costs in such a manner that net acquisition costs are capitalized and charged to expense in proportion to net revenue recognized. Amortization in 20X2 and 20X1 was approximately \$58,000,000 and \$55,000,000, respectively.

Property and Equipment: Property and equipment is recorded at cost and is depreciated principally under the straight-line method over the estimated useful lives of the respective assets.

Insurance Liabilities: The liability for losses and loss-adjustment expenses includes an amount determined from loss reports and individual cases and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on estimates and, while management believes that the amount is adequate, the ultimate liability may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in earnings currently. The reserve for losses and loss-adjustment expenses is reported net of receivables for salvage and subrogation of approximately \$17,527,000 and \$16,276,000 at December 31, 20X2 and 20X1, respectively.

Participating Policies: Participating business represents 6 percent of total premiums in force and premium income at December 31, 20X2, and 8 percent at December 31, 20X1. The majority of participating business is composed of workers' compensation policies. The amount of dividends to be paid on these policies is determined based on the terms of the individual policies.

Reinsurance: In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsured policy. The amount by which the liabilities associated with the reinsured policies exceed the amounts paid for retroactive reinsurance contracts is amortized in income over the estimated remaining settlement period using the interest method. The effects of subsequent changes in estimated or actual cash flows are accounted for by adjusting the previously deferred amount to the balance that would have existed had the revised estimate been available at the inception of the reinsurance transactions, with a corresponding charge or credit to income.

Codification: The National Association of Insurance Commissioners revised the *Accounting Practices and Procedures Manual* in a process referred to as Codification. Codification became effective on January 1, 2001. The Company's state of domicile has adopted the provisions of the revised manual effective January 1, 2001. The revised manual has changed, to some extent, prescribed statutory accounting practices, and has resulted in changes to the Company's statutory-basis financial statements. The cumulative effect of changes in accounting principles adopted to conform to the revised *Accounting Practices and Procedures Manual* of \$___ has been reported as an adjustment to increase (decrease) surplus in the Company's statutory-basis financial statements as of January 1, 2001.

Income Taxes: Income tax provisions are based on the asset and liability method. Deferred federal income taxes have been provided for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements. Such differences are related principally to the deferral of policy acquisition costs and the recognition of salvage and subrogation on an accrual basis.

Income per Share of Common Stock: Income per share of common stock is based on the weighted average number of shares of common stock outstanding during each year. The effect of stock options is not material to the computation of earnings per share.

Note 2. Investments

In reporting disclosures about investments in securities, entities should comply primarily with the requirements of paragraphs 6, 17, 19, 20, 21, and 22 of SFAS 115 (as amended); paragraphs 47

and 48 of SFAS 60 (as amended) and paragraphs 22, 23, and 28 of SFAS 91 (as amended). Other disclosure requirements may also be applicable.

Note 3. Reinsurance Activity

Substantial amounts of reinsurance are assumed, both domestic and foreign. Such reinsurance includes quota share, excess of loss, catastrophe, facultative, and other forms of reinsurance on essentially all property and casualty lines of insurance. The Company also cedes insurance to other companies and these reinsurance contracts do not relieve the Company from its obligations to policyholders. Failure of reinsurers to honor their obligations could result in losses to the Company; consequently, allowances are established for amounts deemed uncollectible. The Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. At December 31, 20X2, reinsurance receivables with a carrying value of \$8 million and prepaid reinsurance premiums of \$5 million were associated with a single reinsurer. The Company holds collateral under related reinsurance agreements in the form of letters of credit totaling \$5 million that can be drawn on for amounts that remain unpaid for more than 120 days.

The Company limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risks with other insurers or reinsurers, either on an automatic basis under general reinsurance contracts known as "treaties" or by negotiation on substantial individual risks. Ceded reinsurance is treated as the risk and liability of the assuming companies.

The effect of reinsurance on premiums written and earned for 20X2 and 20X1 are as follows:

	<i>(Dollars in thousands)</i>			
	<u>20X2</u>		<u>20X1</u>	
	<i>Written</i>	<i>Earned</i>	<i>Written</i>	<i>Earned</i>
Direct	\$ 477,836	\$457,828	\$420,580	\$415,369
Assumed	206,814	198,689	207,328	188,092
Ceded	<u>(102,551)</u>	<u>(85,632)</u>	<u>(86,100)</u>	<u>(78,715)</u>
Net	<u>\$ 582,099</u>	<u>\$570,885</u>	<u>\$541,808</u>	<u>\$524,746</u>

The amounts of recoveries pertaining to reinsurance contracts that were deducted from losses incurred during 20X2 and 20X1 were approximately \$4,892,000 and \$3,232,000, respectively.

Note 4. Liability for Unpaid Losses and Loss Adjustment Expenses

Activity in the liability for unpaid losses and loss adjustment expenses is summarized as follows:

	<i>(Dollars in thousands)</i>	
	<u>20X2</u>	<u>20X1</u>
Balance at January 1	\$1,030,345	\$947,890
Less reinsurance recoverables	23,728	21,275
Net Balance at January 1	<u>1,006,617</u>	<u>926,615</u>
Incurred related to:		
Current year	509,843	429,294
Prior years	(275)	3,119
Total incurred	<u>509,568</u>	<u>432,413</u>
Paid related to:		
Current year	56,015	42,315
Prior years	300,555	310,096
Total paid	<u>356,570</u>	<u>352,411</u>
Net Balance at December 31	<u>1,159,615</u>	<u>1,006,617</u>
Plus reinsurance recoverables	23,728	23,728
Balance at December 31	<u>\$1,183,343</u>	<u>\$1,030,345</u>

As a result of changes in estimates of insured events in prior years, the losses and loss adjustment expenses (net of reinsurance recoveries of \$X and \$X in 20X2 and 20X1, respectively) decreased by \$275 in 20X2 reflecting lower-than-anticipated losses on Hurricane Howard, and increased by \$3,119 in 20X1 reflecting higher-than-anticipated losses and related expenses for claims for asbestos-related illnesses, toxic waste cleanup, and workers' compensation.

Note 5. Income Taxes

The U.S. Federal statutory income tax rate applicable to ordinary income is 34 percent for 20X2 and 20X1. The Company's effective federal income tax rate is less than the statutory rate due primarily to tax exempt interest, dividends-received deduction, and fresh start adjustments.

The components of the net deferred tax liability are as follows:

	<i>(Dollars in thousands)</i>	
	<u>20X2</u>	<u>20X1</u>
Deferred policy acquisition costs	\$17,093	\$17,298
Salvage and subrogation	12,901	11,736
Other	<u>4,090</u>	<u>6,101</u>
Deferred tax liability	<u>\$34,084</u>	<u>\$35,135</u>

The Company has net operating loss carryforwards for tax purposes of \$35,297 and investment tax credit carryforwards of \$49,396. The tax loss carryforwards (if not utilized against taxable income) and investment tax credit carryforwards expire beginning in 20XX and continuing through 20YY.

The Company paid income taxes of \$30,000 in 20X2 and \$21,300 in 20X1.

Note 6. Dividends From Subsidiaries

The funding of the cash requirements of the Company (parent company) is primarily provided by cash dividends from the Company's subsidiaries. Dividends paid by the insurance subsidiaries are restricted by regulatory requirements of the domiciliary states. Generally, the maximum dividend that may be paid without prior regulatory approval is limited to the greater of 10 percent of statutory surplus (shareholders' equity on a statutory basis) or 100 percent of net investment income for the prior year. Dividends exceeding these limitations can generally be made subject to approval by various state insurance departments. The subsidiaries paid cash dividends to the Company of \$24,754,000 and \$22,100,000 in 20X2 and 20X1, respectively. At December 31, 20X2, the maximum dividend that may be paid to the Company in 20X3 without regulatory approval is approximately \$146,000,000.

Note 7. Statutory Net Income and Shareholders' Equity

The Company, which is domiciled in ABC State, prepares its statutory financial statements in accordance with accounting principles and practices prescribed or permitted by the ABC state insurance department, which (state of domicile) recognizes for determining solvency under the (state of domicile) Insurance Law. The commissioner of the state of domicile Insurance Department has the right to permit other practices that may deviate from prescribed practices. Prescribed statutory accounting practices are those practices that are incorporated directly or by reference in state laws, regulations, and general administrative rules applicable to all insurance enterprises domiciled in (state of domicile). Permitted statutory accounting practices encompass all accounting practices that are not prescribed; such practices differ from state to state, may differ from company to company within a state, and may change in the future.

Note: Although the following statutory financial information is not required to be disclosed in financial statements prepared in conformity with GAAP, insurance entities sometimes include such disclosures to facilitate use of those financial statements for purposes of filing with state regulatory authorities. The second disclosure on variances from NAIC SAP (as defined below) and permitted accounting practices is required under SOP 94-5, as amended by SOP 01-5.

Generally accepted accounting principles differ in certain respects from the accounting practices prescribed or permitted by insurance regulatory authorities (statutory basis). Statutory net income was approximately \$35.7 million and \$52.7 million in 20X2 and 20X1, respectively, and statutory shareholders' equity, including the effects of prescribed and permitted practices was approximately \$347.2 million and \$299.7 million at December 31, 20X2 and 20X1, respectively.

The Company's statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the [state of domicile] Insurance Department. [State of domicile] has adopted the National Association of Insurance Commissioners' statutory accounting practices (NAIC SAP) as the basis of its statutory accounting practices, except that it has retained the prescribed practice of writing off goodwill immediately to statutory surplus in the year of acquisition.

In addition, the commissioner of [state of domicile] Insurance Department has the right to permit other specific practices that may deviate from prescribed practices. The commissioner has permitted the Company to record its home office property at estimated fair value instead of at depreciated cost, as required by NAIC SAP. This accounting practice increased statutory capital and surplus by \$____ million and \$____ million at December 31, 20X2 and 20X1, respectively, over what it would have been had the permitted practice not been allowed. The Company's statutory capital and surplus, including the effects of the permitted practice, was \$____ million and \$____ million at December 31, 20X2 and 20X1, respectively.

Had the Company amortized its goodwill over ten years and recorded its home office property at depreciated cost, in accordance with NAIC SAP, the Company's capital and surplus would have been \$____ million and \$____ million at December 31, 20X2 and 20X1, respectively.

Note 8. Contingencies

In November ____, California voters passed Proposition 103, requiring insurers doing business in that state to roll back property/casualty premium prices to November ____ levels, less an additional 20 percent discount. Insurers challenged the constitutionality of Proposition 103, and in May ____ the California Supreme Court upheld the proposition in large part. However, the Court also ruled that the rollback provision does not apply to an insurer who demonstrates through rate filings that the rate rollback would not allow a "fair and reasonable return." The Company filed for exemption from the rate rollback for all lines affected by Proposition 103. In September ____, the California Insurance Commissioner announced that the Company would be afforded a hearing and, using different assumptions and methods than prescribed for the original filing, determined that the Company should roll back its rates and refund premiums of \$19 million. The Company disagrees with the Commissioner's methods and conclusions, and no provision for potential rate rollbacks or premium refunds is reflected in the financial results.

In October ____, the Commissioner suspended the individual hearings and began a consolidated hearing, in which the Company is participating, intended to define the generic issue of the methods to be used to calculate potential rate rollbacks and analyze future rate filings. Until the generic issues are resolved in the Commissioner's consolidated hearing, there will be uncertainty as to whether the Company will ultimately be required to roll back any of its rates or refund any premiums. Management believes such rate rollbacks and premium refunds, if any, would not have a material adverse effect on the Company's financial position.

Note 9. Concentrations of Credit Risk

At December 31, 20X2, the Company held unrated or less-than-investment grade corporate debt securities of \$_____ net of reserves for losses, with an aggregate market value of \$_____.

Those holdings amounted to 6% of the Company's corporate debt securities investments and less than 3% of total assets. The holdings of less-than-investment grade securities are widely diversified and of satisfactory quality based on the Company's investment policies and credit standards. The Company also invests in mortgage loans principally involving commercial real estate. At December 31, 20X2, 20% of such mortgages (\$ _____) involved properties located in California and Arizona. Such investments consist of first mortgage liens on completed income-producing properties, and mortgages on individual properties do not exceed \$ _____.

Note 10. Fair Value of Financial Instruments¹¹

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and Short Term Investments. For those short term instruments, the carrying amount is a reasonable estimate of fair value.

Investment in Securities. For investments in securities, fair values are based on quoted market prices or dealer quotes, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Mortgage Loans on Real Estate and Policy Loans. The fair value of mortgage loans on real estate is estimated using the quoted market prices for securities backed by similar loans, adjusted for differences in loan characteristics. The fair value of policy loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to contract holders with similar credit ratings and the same remaining maturities.

The estimated fair values of the Company's financial instruments which are not disclosed on the face of the balance sheet or elsewhere in the notes are as follows:

	20X2		20X1	
	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Carrying Amount</u>	<u>Fair Value</u>
Mortgage on real estate loans	\$472,509	\$474,163	\$398,426	\$401,582
Policy loans	19,862	20,974	18,623	19,953

¹¹ SFAS 126, *Exemption from Certain Required Disclosures about Financial Instruments for Certain Nonpublic Entities* (an amendment of SFAS 107), as amended by SFAS 133 and SFAS 149, amends SFAS 107, *Disclosures about Fair Value of Financial Instruments*, to make the disclosures about fair value of financial instruments prescribed in SFAS 107 optional for entities that meet all of the following criteria:

- a. The entity is a nonpublic entity.
- b. The entity's total assets are less than \$100 million on the date of the financial statements.
- c. The entity has no instrument that, in whole or in part, is accounted for as a derivative instrument under SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*, other than commitments related to the origination of mortgage loans to be held for sale during the reporting period.
