This Book is brought to you for free and open access by the Mississippi City and Counties Postcards at eGrove. It has been accepted for inclusion in Postcards, 2-sided by an authorized administrator of eGrove. For more information, please contact [egrove@olemiss.edu](mailto:egrove@olemiss.edu).

*Kudzu Vine Landscape*

## KUDZU VINE LANDSCAPE

This unnatural looking landscape, which looks like some sort of jade green "moonscape" from another world, is produced by the uncontrollable growth of a vigorous vine of the Pea family, called Kudzu. It is an excellent forage plant, but if it is not cut back, it becomes an outstanding pest and chokes out young forest trees.
