¹ A U.S. entity is an entity that is either organized or domiciled in the United States.

AU Section 543

Part of Audit Performed by Other Independent Auditors

Source: SAS No. 1, section 543; SAS No. 64; Auditing Standard No. 3; Auditing Standard No. 5.

See section 9543 for interpretations of this section.

Issue date, unless otherwise indicated: November, 1972.

.01 This section provides guidance on the professional judgments the independent auditor makes in deciding (a) whether he may serve as principal auditor and use the work and reports of other independent auditors who have audited the financial statements of one or more subsidiaries, divisions, branches, components, or investments included in the financial statements presented and (b) the form and content of the principal auditor's report in these circumstances.¹ Nothing in this section should be construed to require or imply that an auditor, in deciding whether he may properly serve as principal auditor without himself auditing particular subsidiaries, divisions, branches, components, or investments of his client, should make that decision on any basis other than his judgment regarding the professional considerations as discussed in paragraphs .02 and .10; nor should an auditor state or imply that a report that makes reference to another auditor is inferior in professional standing to a report without such a reference. [As modified, September 1981, by the Auditing Standards Board.]

[The following note is effective for audits of fiscal years ending on or after November 15, 2007. See PCAOB Release 2007-005.]

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs C8-C11 of Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, which provide direction with respect to opinions based, in part, on the report of another auditor in an audit of internal control over financial reporting.

Principal Auditor's Course of Action

.02 The auditor considering whether he may serve as principal auditor may have performed all but a relatively minor portion of the work, or significant parts of the audit may have been performed by other auditors. In the latter case, he must decide whether his own participation is sufficient to enable him to serve as the principal auditor and to report as such on the financial statements. In deciding this question, the auditor should consider, among other things, the materiality of the portion of the financial statements he has audited in comparison with the portion audited by other auditors, the extent of his knowledge

¹ Section 315 applies if an auditor uses the work of a predecessor auditor in expressing an opinion on financial statements.

of the overall financial statements, and the importance of the components he audited in relation to the enterprise as a whole. [As modified, September 1981, by the Auditing Standards Board.]

.03 If the auditor decides that it is appropriate for him to serve as the principal auditor, he must then decide whether to make reference in his report² to the audit performed by another auditor. If the principal auditor decides to assume responsibility for the work of the other auditor insofar as that work relates to the principal auditor's expression of an opinion on the financial statements taken as a whole, no reference should be made to the other auditor's work or report. On the other hand, if the principal auditor decides not to assume that responsibility, his report should make reference to the audit of the other auditor and should indicate clearly the division of responsibility between himself and the other auditor in expressing his opinion on the financial statements. Regardless of the principal auditor's decision, the other auditor remains responsible for the performance of his own work and for his own report.

Decision Not to Make Reference

.04 If the principal auditor is able to satisfy himself as to the independence and professional reputation of the other auditor (see paragraph .10) and takes steps he considers appropriate to satisfy himself as to the audit performed by the other auditor (see paragraph .12), he may be able to express an opinion on the financial statements taken as a whole without making reference in his report to the audit of the other auditor. If the principal auditor decides to take this position, he should not state in his report that part of the audit was made by another auditor because to do so may cause a reader to misinterpret the degree of responsibility being assumed.

.05 Ordinarily, the principal auditor would be able to adopt this position when:

- a. Part of the audit is performed by another independent auditor which is an associated or correspondent firm and whose work is acceptable to the principal auditor based on his knowledge of the professional standards and competence of that firm; or
- b. The other auditor was retained by the principal auditor and the work was performed under the principal auditor's guidance and control; or
- c. The principal auditor, whether or not he selected the other auditor, nevertheless takes steps he considers necessary to satisfy himself as to the audit performed by the other auditor and accordingly is satisfied as to the reasonableness of the accounts for the purpose of inclusion in the financial statements on which he is expressing his opinion; or
- d. The portion of the financial statements audited by the other auditor is not material to the financial statements covered by the principal auditor's opinion.

Decision to Make Reference

.06 On the other hand, the principal auditor may decide to make reference to the audit of the other auditor when he expresses his opinion on the financial

² See paragraph .09 for example of appropriate reporting when reference is made to the audit of other auditors.

statements. In some situations, it may be impracticable for the principal auditor to review the other auditor's work or to use other procedures which in the judgment of the principal auditor would be necessary for him to satisfy himself as to the audit performed by the other auditor. Also, if the financial statements of a component audited by another auditor are material in relation to the total, the principal auditor may decide, regardless of any other considerations, to make reference in his report to the audit of the other auditor.

.07 When the principal auditor decides that he will make reference to the audit of the other auditor, his report should indicate clearly, in both the introductory, scope and opinion paragraphs, the division of responsibility as between that portion of the financial statements covered by his own audit and that covered by the audit of the other auditor. The report should disclose the magnitude of the portion of the financial statements audited by the other auditor. This may be done by stating the dollar amounts or percentages of one or more of the following: total assets, total revenues, or other appropriate criteria, whichever most clearly reveals the portion of the financial statements audited by the other auditor. The other auditor may be named but only with his express permission and provided his report is presented together with that of the principal auditor.³

.08 Reference in the report of the principal auditor to the fact that part of the audit was made by another auditor is not to be construed as a qualification of the opinion but rather as an indication of the divided responsibility between the auditors who conducted the audits of various components of the overall financial statements. [As modified, September 1981, by the Auditing Standards Board.]

.09 An example of appropriate reporting by the principal auditor indicating the division of responsibility when he makes reference to the audit of the other auditor follows:

Independent Auditor's Report

We have audited the consolidated balance sheet of X Company and subsidiaries as of December 31, 20...., and the related consolidated statements of income and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of B Company, a wholly-owned subsidiary, which statements reflect total assets and revenues constituting 20 percent and 22 percent, respectively, of the related consolidated totals. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for B Company, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinion.

³ As to filings with the Securities and Exchange Commission, see Rule 2-05 of Regulation S-X.

In our opinion, based on our audit and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of X Company as of [at] December 31, 20..., and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

When two or more auditors in addition to the principal auditor participate in the audit, the percentages covered by the other auditors may be stated in the aggregate. [Revised, April 1998, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards Nos. 53 through 62. Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Procedures Applicable to Both Methods of Reporting

.10 Whether or not the principal auditor decides to make reference to the audit of the other auditor, he should make inquiries concerning the professional reputation and independence of the other auditor. He also should adopt appropriate measures to assure the coordination of his activities with those of the other auditor in order to achieve a proper review of matters affecting the consolidating or combining of accounts in the financial statements. These inquiries and other measures may include procedures such as the following:

- a. Make inquiries as to the professional reputation and standing of the other auditor to one or more of the following:
 - (i) The American Institute of Certified Public Accountants,⁴ the applicable state society of certified public accountants and/or the local chapter, or in the case of a foreign auditor, his corresponding professional organization.
 - (ii) Other practitioners.
 - (iii) Bankers and other credit grantors.
 - (iv) Other appropriate sources.
- b. Obtain a representation from the other auditor that he is independent under the requirements of the American Institute of Certified Public Accountants and, if appropriate, the requirements of the Securities and Exchange Commission (SEC).^[4a]

⁴ The AICPA Professional Ethics Division can respond to inquiries about whether individuals are members of the American Institute of Certified Public Accountants and whether complaints against members have been adjudicated by the Joint Trial Board. The division cannot respond to inquiries about public accounting firms or provide information about letters of required corrective action issued by the division or pending disciplinary proceedings or investigations. The AICPA Division for CPA Firms can respond to inquiries about whether specific public accounting firms are members of either the Private Companies Practice Section (PCPS) or the SEC Practice Section (SECPS), and can indicate whether a firm had a peer review in compliance with the Section's membership requirements and whether any sanctions against the firm have been publicly announced. In addition, the division will supply copies of peer-review reports that have been accepted by the applicable section of the division and information submitted by member firms on applications for membership and annual updates. The AICPA Practice Monitoring staff or the appropriate state CPA society can respond to inquiries as to whether specific public accounting firms are enrolled in the AICPA Peer Review Program and can indicate whether a firm had a peer review in compliance with the AICPA *Standards for Performing and Reporting on Peer Reviews* [PR section 100]. [As amended by the Auditing Standards Board, June 1990.]

^[4a] [Footnote deleted, December 2001, to acknowledge the dissolution of the Independence Standard Board.]

- c. Ascertain through communication with the other auditor:
- (i) That he is aware that the financial statements of the component which he is to audit are to be included in the financial statements on which the principal auditor will report and that the other auditor's report thereon will be relied upon (and, where applicable, referred to) by the principal auditor.
 - (ii) That he or she is familiar with accounting principles generally accepted in the United States of America and with the generally accepted auditing standards promulgated by the American Institute of Certified Public Accountants and will conduct his or her audit and will report in accordance therewith.
 - (iii) That he has knowledge of the relevant financial reporting requirements for statements and schedules to be filed with regulatory agencies such as the Securities and Exchange Commission, if appropriate.
 - (iv) That a review will be made of matters affecting elimination of intercompany transactions and accounts and, if appropriate in the circumstances, the uniformity of accounting practices among the components included in the financial statements.

(Inquiries as to matters under *a*, and *c* (ii) and (iii) ordinarily would be unnecessary if the principal auditor already knows the professional reputation and standing of the other auditor and if the other auditor's primary place of practice is in the United States.) [As modified, September 1981, by the Auditing Standards Board. Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.11 If the results of inquiries and procedures by the principal auditor with respect to matters described in paragraph .10 lead him to the conclusion that he can neither assume responsibility for the work of the other auditor insofar as that work relates to the principal auditor's expression of an opinion on the financial statements taken as a whole, nor report in the manner set forth in paragraph .09, he should appropriately qualify his opinion or disclaim an opinion on the financial statements taken as a whole. His reasons therefor should be stated, and the magnitude of the portion of the financial statements to which his qualification extends should be disclosed.

Additional Procedures Under Decision Not to Make Reference

.12 *[The following paragraph is effective for audits of fiscal years ending on or after November 15, 2004. See PCAOB Release 2004-006.]*

When the principal auditor decides not to make reference to the audit of the other auditor, in addition to satisfying himself as to the matters described in AU sec. 543.10, the principal auditor must obtain, and review and retain, the following information from the other auditor:

- a.* An engagement completion document consistent with paragraphs 12 and 13 of PCAOB Auditing Standard No. 3.

Note: This engagement completion document should include all cross-referenced, supporting audit documentation.

- b. A list of significant fraud risk factors, the auditor's response, and the results of the auditor's related procedures.
- c. Sufficient information relating to significant findings or issues that are inconsistent with or contradict the auditor's final conclusions, as described in paragraph 8 of PCAOB Auditing Standard No. 3.
- d. Any findings affecting the consolidating or combining of accounts in the consolidated financial statements.
- e. Sufficient information to enable the office issuing the auditor's report to agree or reconcile the financial statement amounts audited by the other firm to the information underlying the consolidated financial statements.
- f. A schedule of audit adjustments, including a description of the nature and cause of each misstatement.
- g. All significant deficiencies and material weaknesses in internal control over financial reporting, including a clear distinction between those two categories.
- h. Letters of representations from management.
- i. All matters to be communicated to the audit committee.

The principal auditor must obtain, and review and retain, such documents prior to the report release date.⁵ In addition, the principal auditor should consider performing one or more of the following procedures:

- Visit the other auditor and discuss the audit procedures followed and results thereof.
- Review the audit programs of the other auditor. In some cases, it may be appropriate to issue instructions to the other auditor as to the scope of the audit work.
- Review additional audit documentation of the other auditor relating to significant findings or issues in the engagement completion document.

.13 In some circumstances the principal auditor may consider it appropriate to participate in discussions regarding the accounts with management personnel of the component whose financial statements are being audited by other auditors and/or to make supplemental tests of such accounts. The determination of the extent of additional procedures, if any, to be applied rests with the principal auditor alone in the exercise of his professional judgment and in no way constitutes a reflection on the adequacy of the other auditor's work. Because the principal auditor in this case assumes responsibility for his opinion on the financial statements on which he is reporting without making reference to the audit performed by the other auditor, his judgment must govern as to the extent of procedures to be undertaken.

Long-Term Investments

.14 With respect to investments accounted for under the equity method, the auditor who uses another auditor's report for the purpose of reporting on the investor's equity in underlying net assets and its share of earnings or losses and other transactions of the investee is in the position of a principal auditor

⁵ As it relates to the direction in paragraph .19 of AU sec. 324, for the auditor to "give consideration to the guidance in section 543.12," the auditor need not, in this circumstance, obtain the previously enumerated documents.

using the work and reports of other auditors. Under these circumstances, the auditor may decide that it would be appropriate to refer to the work and report of the other auditor in his report on the financial statements of the investor. (See paragraphs .06-.11.) When the work and reports of other auditors constitute a major element of evidence with respect to investments accounted for under the cost method, the auditor may be in a position analogous to that of a principal auditor.

Other Auditor's Report Departs From Standard Report

.15 If the report of the other auditor is other than a standard report, the principal auditor should decide whether the reason for the departure from the standard report is of such nature and significance in relation to the financial statements on which the principal auditor is reporting that it would require recognition in his own report. If the reason for the departure is not material in relation to such financial statements and the other auditor's report is not presented, the principal auditor need not make reference in his report to such departure. If the other auditor's report is presented, the principal auditor may wish to make reference to such departure and its disposition.

Restated Financial Statements of Prior Years Following a Pooling of Interests

.16 Following a pooling-of-interests transaction, an auditor may be asked to report on restated financial statements for one or more prior years when other auditors have audited one or more of the entities included in such financial statements. In some of these situations the auditor may decide that he has not audited a sufficient portion of the financial statements for such prior year or years to enable him to serve as principal auditor (see paragraph .02). Also, in such cases, it often is not possible or it may not be appropriate or necessary for the auditor to satisfy himself with respect to the restated financial statements. In these circumstances it may be appropriate for him to express his opinion solely with respect to the combining of such statements; however, no opinion should be expressed unless the auditor has audited the statements of at least one of the entities included in the restatement for at least the latest period presented. The following is an illustration of appropriate reporting on such combination that can be presented in an additional paragraph of the auditor's report following the standard introductory, scope and opinion paragraphs covering the consolidated financial statements for the current year:^{*}

We previously audited and reported on the consolidated statements of income and cash flows of XYZ Company and subsidiaries for the year ended December 31, 19X1, prior to their restatement for the 19X2 pooling of interests. The contribution of XYZ Company and subsidiaries to revenues and net income represented percent and percent of the respective restated totals. Separate financial statements of the other companies included in the 19X1 restated consolidated statements of income and cash flows were audited and reported on separately by other auditors. We also audited the combination of the accompanying consolidated statements of income and cash flows for the year ended December 31, 19X1, after restatement for the 19X2 pooling of interests; in our opinion, such consolidated statements have been properly combined on the basis described in Note A of notes to consolidated financial statements.

* If restated consolidated balance sheets are also presented, the auditor may also express his opinion with respect to the combination of the consolidated balance sheets.

[As modified, October 1980, by the Auditing Standards Board. As amended, effective for reports issued after December 31, 1990, by Statement on Auditing Standards No. 64.]

.17 In reporting on restated financial statements as described in the preceding paragraph, the auditor does not assume responsibility for the work of other auditors nor the responsibility for expressing an opinion on the restated financial statements taken as a whole. He should apply procedures which will enable him to express an opinion only as to proper combination of the financial statements. These procedures include testing the combination for clerical accuracy and the methods used to combine the restated financial statements for conformity with generally accepted accounting principles. For example, the auditor should make inquiries and apply procedures regarding such matters as the following:

- a. Elimination of intercompany transactions and accounts.
- b. Combining adjustments and reclassifications.
- c. Adjustments to treat like items in a comparable manner, if appropriate.
- d. The manner and extent of presentation of disclosure matters in the restated financial statements and notes thereto.

The auditor should also consider the application of procedures contained in paragraph .10.

[As modified, October 1980, by the Auditing Standards Board.]

Predecessor Auditor

[.18] [Superseded by Statement on Auditing Standards No. 7, effective November 30, 1975, as superseded by Statement on Auditing Standards No. 84, effective with respect to acceptance of an engagement after March 31, 1998.] (See section 315.)

AU Section 9543

Part of Audit Performed by Other Independent Auditors: Auditing Interpretations of Section 543

1. Specific Procedures Performed by the Other Auditor at the Principal Auditor's Request

.01 Question—An independent auditor is auditing the financial statements of a component¹ in accordance with generally accepted auditing standards and is issuing a report to his client that will also be used by another independent auditor who is acting as a principal auditor.² The principal auditor requests the other auditor to perform specific procedures, for example, to furnish or test amounts to be eliminated in consolidation, such as intercompany profits, or to read other information in documents containing audited financial statements. In those circumstances, who is responsible to determine the extent of the procedures to be performed?

.02 Interpretation—Section 543, *Part of Audit Performed by Other Independent Auditors*, paragraph .10, states that the principal auditor "should adopt appropriate measures to assure the coordination of his activities with those of the other auditor in order to achieve a proper review of matters affecting the consolidating or combining of accounts in the financial statements." Section 543.10c(iv) further states that those measures may include procedures such as ascertaining through communication with the other auditor "that a review will be made of matters affecting elimination of intercompany transactions and accounts."

.03 Thus, when the principal auditor requests the other auditor to perform procedures, the principal auditor is responsible for determining the extent of the procedures to be performed. The principal auditor should provide specific instructions on procedures to be performed, materiality considerations for that purpose, and other information that may be necessary in the circumstances. The other auditor should perform the requested procedures in accordance with the principal auditor's instructions and report the findings solely for the use of the principal auditor.

[Issue Date: April, 1979; Revised: November 1996.]

2. Inquiries of the Principal Auditor by the Other Auditor

.04 Question—Section 543, *Part of Audit Performed by Other Independent Auditors*, gives guidance to a principal auditor on making inquiries of the other auditor. Section 543.03 also states that "the other auditor remains responsible for the performance of his own work and for his own report." Should the other auditor also make inquiries of the principal auditor to fulfill that responsibility?

.05 Interpretation—Section 334, *Related Parties*, states that there may be inquiry of the principal auditor regarding related parties. In addition, before

¹ For the purposes of this interpretation, the entities whose separate financial statements collectively comprise the consolidated or other financial statements are referred to as components.

² See section 543 for the definition of a principal auditor. For the purposes of this interpretation, the auditor whose work is used by a principal auditor is referred to as the other auditor.

issuing his report, the other auditor should consider whether he should inquire of the principal auditor as to matters that may be significant to his own audit.

.06 The other auditor's consideration of whether to make the inquiry should be based on factors such as his awareness that there are transactions or relationships which are unusual or complex between the component he is auditing and the component the principal auditor is auditing, or his knowledge that in the past matters relating to his audit have arisen that were known to the principal auditor but not to him.

.07 If the other auditor believes inquiry is appropriate he may furnish the principal auditor with a draft of the financial statements expected to be issued and of his report solely for the purpose of aiding the principal auditor to respond to the inquiry. The inquiry would concern transactions, adjustments, or other matters that have come to the principal auditor's attention that he believes require adjustment to or disclosure in the financial statements of the component being audited by the other auditor. Also, the other auditor should inquire about any relevant limitation on the scope of the audit performed by the principal auditor.

[Issue Date: April, 1979.]

3. Form of Inquiries of the Principal Auditor Made by the Other Auditor

.08 Question—In those circumstances when the other auditor believes an inquiry of the principal auditor is appropriate, what form should the inquiry take and when should it be made?

.09 Interpretation—The other auditor's inquiry ordinarily should be in writing. It should indicate whether the response should be in writing, and should specify the date as of which the principal auditor should respond. Ordinarily, that date should be near the anticipated date of the other auditor's report. An example of a written inquiry from the other auditor is as follows:

"We are auditing the financial statements of (name of client) as of (date) and for the (period of audit) for the purpose of expressing an opinion as to whether the financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows of (name of client) in conformity with generally accepted accounting principles.

A draft of the financial statements referred to above and a draft of our report are enclosed solely to aid you in responding to this inquiry. Please provide us (in writing) (orally) with the following information in connection with your current examination of the consolidated financial statements of (name of parent company):

1. Transactions or other matters (including adjustments made during consolidation or contemplated at the date of your reply) that have come to your attention that you believe require adjustment to or disclosure in the financial statements of (name of client) being audited by us.
2. Any limitation on the scope of your audit that is related to the financial statements of (name of client) being audited by us, or that limits your ability to provide us with the information requested in this inquiry.

Please make your response as of a date near (expected date of the other auditor's report)."

.10 The principal auditor's reply will often be made as of a date when his audit is still in progress; however, the other auditor should expect that ordinarily the response should satisfy his need for information. However, there may be instances when the principal auditor's response explains that it is limited because his audit has not progressed to a point that enables him to provide a response that satisfies the other auditor's need for information. If the principal auditor's response is limited in that manner, the other auditor should consider whether to apply acceptable alternative procedures, delay the issuance of his report until the principal auditor can respond, or qualify his opinion or disclaim an opinion for a limitation on the scope of his audit.

[Issue Date: April, 1979]

4. Form of Principal Auditor's Response to Inquiries from Other Auditors

.11 *Question*—An independent auditor acting in the capacity of a principal auditor may receive an inquiry from another independent auditor performing the audit of the financial statements of a component concerning transactions, adjustments, or limitations on his audit.³ What should be the form of the principal auditor's response?

.12 *Interpretation*—The principal auditor should respond promptly to the other auditor's inquiry, based on his audit, and if applicable, on his reading of the draft financial statements and report furnished by the other auditor. His response may be written or oral, as requested by the other auditor. However, the principal auditor's response ordinarily should be in writing if it contains information that may have a significant effect on the other auditor's audit.

.13 The principal auditor should identify the stage of completion of his audit as of the date of his reply. He should also indicate that no audit procedures were performed for the purpose of identifying matters that would not affect his audit and report, and therefore, not all the information requested would necessarily be revealed. If the principal auditor has been furnished with a draft of the financial statements being audited by the other auditor and a draft of his report, the principal auditor should state that he has read the draft only to aid him in making his reply.

.14 An example of a written response from the principal auditor is as follows:

"This letter is furnished to you in response to your request that we provide you with certain information in connection with your audit of the financial statements of (name of component), a (subsidiary, division, branch or investment) of Parent Company for the year ended (date).

We are in the process of performing an audit of the consolidated financial statements of Parent Company for the year ended (date) (but have not completed our work as of this date). The objective of our audit is to enable us to express an opinion on the consolidated financial statements of Parent Company and, accordingly, we have performed no procedures directed toward identifying matters that would not affect our audit or our report. However, solely for the purpose of responding to your inquiry, we have read the draft of the financial statements of (name of component) as of (date) and for the (period of audit) and the draft of your report on them, included with your inquiry dated (date of inquiry).

³ See section 9543.04-.07, "Inquiries of the Principal Auditor by the Other Auditor," above.

Based solely on the work we have performed (to date) in connection with our audit of the consolidated financial statements, which would not necessarily reveal all or any of the matters covered in your inquiry, we advise you that:

1. No transactions or other matters (including adjustments made during consolidation or contemplated at this date) have come to our attention that we believe require adjustment to or disclosure in the financial statements of (name of component) being audited by you.
2. No limitation has been placed by Parent Company on the scope of our audit that, to our knowledge, is related to the financial statements of (name of component) being audited by you, that has limited our ability to provide you with the information requested in your inquiry."

[Issue Date: April, 1979.]

5. Procedures of the Principal Auditor

.15 Question—What steps, if any, should the principal auditor take in responding to an inquiry such as that described in section 9543.11?

.16 Interpretation—The principal auditor's response should ordinarily be made by the auditor with final responsibility for the engagement. He should take those steps that he considers reasonable under the circumstances to be informed of known matters pertinent to the other auditor's inquiry. For example, the auditor with final responsibility may inquire of principal assistants⁴ responsible for various aspects of the engagement or he may direct assistants to bring to his attention any significant matters of which they become aware during the audit. The principal auditor is not required to perform any procedures directed toward identifying matters that would not affect his audit or his report.

.17 If between the date of his response and the completion of his audit, the principal auditor becomes aware of information that he would have included in his response to the other auditor's inquiry had he been aware of it, the principal auditor should promptly communicate such information to the other auditor.⁵

[Issue Date: April, 1979.]

6. Application of Additional Procedures Concerning the Audit Performed by the Other Auditor

.18 Question—If a principal auditor decides not to make reference to the audit of another auditor, section 543 requires him to consider whether to apply procedures to obtain information about the adequacy of the audit performed by the other auditor. In making a decision about (a) whether to apply one or more of the procedures listed in section 543.12 and (b), if applicable, the extent of those procedures, may the principal auditor consider his knowledge of the other auditor's compliance with quality control policies and procedures?

.19 Interpretation—Yes. The principal auditor's judgment about the extent of additional procedures, if any, to be applied in the circumstances may be affected by various factors including his knowledge of the other auditor's

⁴ See section 311, *Planning and Supervision*, for the definition of "assistants."

⁵ See section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, concerning procedures to be followed by the other auditor if he receives the information after the issuance of his report.

quality control policies and procedures that provide the other auditor with reasonable assurance of conformity with generally accepted auditing standards in his audit engagements.

.20 Other factors that the principal auditor may wish to consider in making that decision include his previous experience with the other auditor, the materiality of the portion of the financial statements audited by the other auditor, the control exercised by the principal auditor over the conduct of the audit performed by the other auditor, and the results of the principal auditor's other procedures that may indicate whether additional evidential matter is necessary.

[Issue Date: December, 1981.]

[7.] Reporting on Financial Statements Presented on a Comprehensive Annual Financial Report of a Governmental Entity When One Fund Has Been Audited by Another Auditor

[.21-.24] [Withdrawn December, 1992 by the Audit Issues Task Force.]^{[6], [7]}

AU Section 544

Lack of Conformity With Generally Accepted Accounting Principles

Source: SAS No. 1, section 544; SAS No. 2; SAS No. 62; SAS No. 77.

Issue date, unless otherwise indicated: November, 1972.

[.01] [Superseded by Statement on Auditing Standards No. 2, effective December 31, 1974.]

Regulated Companies

.02 The basic postulates and broad principles of accounting comprehended in the term "generally accepted accounting principles" which pertain to business enterprises in general apply also to companies whose accounting practices are prescribed by governmental regulatory authorities or commissions. (For example, public utilities and insurance companies.) Accordingly, the first reporting standard is equally applicable to opinions on financial statements of such regulated companies presented for purposes other than filings with their respective supervisory agencies; and material variances from generally accepted accounting principles, and their effects, should be dealt with in the independent auditor's report in the same manner followed for companies which are not regulated.¹ Ordinarily, this will require either a qualified or an adverse opinion on such statements. An adverse opinion may be accompanied by an opinion on supplementary data which are presented in conformity with generally accepted accounting principles. [As amended, effective periods ending on or after December 31, 1974, by Statement on Auditing Standards No. 2. As amended by Statement on Auditing Standards No. 62, effective for reports issued on or after July 1, 1989.]

.03 It should be recognized, however, that appropriate differences exist with respect to the application of generally accepted accounting principles as between regulated and nonregulated businesses because of the effect in regulated businesses of the rate-making process, a phenomenon not present in nonregulated businesses (FASB Statement No. 71, *Accounting for the Effects of Certain Types of Regulations* [AC section Re6]). Such differences usually concern mainly the time at which various items enter into the determination of net income in accordance with the principle of matching costs and revenues.

¹ When reporting on financial statements of a regulated entity that are prepared in accordance with the requirements of financial reporting provisions of a government regulatory agency to whose jurisdiction the entity is subject, the auditor may report on the financial statements as being prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles (see section 623, *Special Reports*, paragraphs .02 and .10). Reports of this nature, however, should be issued only if the financial statements are intended solely for filing with one or more regulatory agencies to whose jurisdiction the entity is subject. [As amended, effective for audits of financial statements for periods ended on or after December 31, 1996, by Statement on Auditing Standards No. 77.]

It should also be recognized that accounting requirements not directly related to the rate-making process commonly are imposed on regulated businesses and that the imposition of such accounting requirements does not necessarily mean that they conform with generally accepted accounting principles.

.04 When financial statements of a regulated entity are prepared in accordance with a basis of accounting prescribed by one or more regulatory agencies or the financial reporting provisions of another agency, the independent auditor may also be requested to report on their fair presentation in conformity with such prescribed basis of accounting in presentations for distribution in other than filings with the entity's regulatory agency. In those circumstances, the auditor should use the standard form of report (see section 508, *Reports on Audited Financial Statements*, paragraph .08), modified as appropriate (see section 508.35-.60) because of the departures from generally accepted accounting principles, and then, in an additional paragraph to the report, express an opinion on whether the financial statements are presented in conformity with the prescribed basis of accounting. [As amended by Statement on Auditing Standards No. 62, effective for reports issued on or after July 1, 1989. As amended, effective for audits of financial statements for periods ended on or after December 31, 1996, by Statement on Auditing Standards No. 77.]

AU Section 550

Other Information in Documents Containing Audited Financial Statements

Source: SAS No. 8; SAS No. 98.

See section 9550 for interpretations of this section.

Issue date, unless otherwise indicated: December, 1975.

.01 An entity may publish various documents that contain information (hereinafter, "other information") in addition to audited financial statements and the independent auditor's report thereon. This section provides guidance for the auditor's consideration of other information included in such documents.

.02 This section is applicable only to other information contained in (a) annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the Securities Exchange Act of 1934 or (b) other documents to which the auditor, at the client's request, devotes attention.

.03 This section is not applicable when the financial statements and report appear in a registration statement filed under the Securities Act of 1933. The auditor's procedures with respect to 1933 Act filings are unaltered by this section (see sections 634[†] and 711^{††}). Also, this section is not applicable to other information on which the auditor is engaged to express an opinion.¹ The guidance applicable to auditing and reporting on certain information other than financial statements intended to be presented in conformity with generally accepted accounting principles is unaltered by this section (see sections 551* and 623**).

.04 Other information in a document may be relevant to an audit performed by an independent auditor or to the continuing propriety of his report. The auditor's responsibility with respect to information in a document does not extend beyond the financial information identified in his report, and the auditor has no obligation to perform any procedures to corroborate other information contained in a document. However, he should read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with information, or the manner of its

[†] [Section 631, formerly 630, changed by the issuance of Statement on Auditing Standards No. 38 (superseded). Section 634, formerly 631, changed by the issuance of Statement on Auditing Standards No. 49.] (See section 634.)

^{††} [Section number revised, April 1981, by the issuance of Statement on Auditing Standards No. 37.] (See section 711.)

¹ Mere reading of other information is an inadequate basis for expressing an opinion on that information.

* [Section number revised, July 1980, by the issuance of Statement on Auditing Standards No. 29.] (See section 551.)

** [Section number changed, April 1989, by the issuance of Statement on Auditing Standards No. 62.] (See section 623.)

presentation, appearing in the financial statements.² If the auditor concludes that there is a material inconsistency, he should determine whether the financial statements, his report, or both require revision. If he concludes that they do not require revision, he should request the client to revise the other information. If the other information is not revised to eliminate the material inconsistency, he should consider other actions such as revising his report to include an explanatory paragraph describing the material inconsistency, withholding the use of his report in the document, and withdrawing from the engagement. The action he takes will depend on the particular circumstances and the significance of the inconsistency in the other information.

.05 If, while reading the other information for the reasons set forth in paragraph .04, the auditor becomes aware of information that he believes is a material misstatement of fact that is not a material inconsistency as described in paragraph .04, he should discuss the matter with the client. In connection with this discussion, the auditor should consider that he may not have the expertise to assess the validity of the statement, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the auditor concludes he has a valid basis for concern he should propose that the client consult with some other party whose advice might be useful to the client, such as the client's legal counsel.

.06 If, after discussing the matter as described in paragraph .05, the auditor concludes that a material misstatement of fact remains, the action he takes will depend on his judgment in the particular circumstances. He should consider steps such as notifying his client in writing of his views concerning the information and consulting his legal counsel as to further appropriate action in the circumstances.

.07 If certain other information³ has been subjected to auditing procedures applied in the audit of the basic financial statements, the auditor may express an opinion on whether the information is fairly stated in all material respects in relation to those financial statements taken as a whole. In those circumstances, the auditor's report on the information should describe clearly the character of the auditor's work and the degree of responsibility the auditor is taking. The auditor may report on such information using the guidance in section 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*, paragraphs .12 and .14. [Paragraph added, effective September 2002, by Statement on Auditing Standards No. 98.]

² In fulfilling his responsibility under this section, a principal auditor may also request the other auditor or auditors involved in the engagement to read the other information. If a predecessor auditor's report appears in a document to which this section applies, he should read the other information for the reasons described in this paragraph.

³ This information may include supplementary information required by generally accepted accounting principles. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

AU Section 9550

Other Information in Documents Containing Audited Financial Statements: Auditing Interpretations of Section 550

[1.] Reports by Management on Internal Accounting Control^[1-4]

[.01–.06] [Superseded May, 1994 by Interpretation Nos. 2 and 3, paragraphs .07–.15.]

2. Reports by Management on Internal Control Over Financial Reporting

.07 Question—Communications to various parties specified in section 550, *Other Information in Documents Containing Audited Financial Statements*, paragraph .02 may include a separate report by management containing an assertion about the effectiveness of the entity's internal control over financial reporting. What is the auditor's responsibility concerning such report?

.08 Interpretation—If the auditor has been engaged to examine and report on management's assertion, the guidance in AT section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*, should be followed.

.09 If the auditor has not been engaged to examine and report on management's assertion, the auditor should follow the guidance in section 550, which states that "the auditor has no obligation to perform any procedures to corroborate other information contained in [such] a document." Under section 550, the auditor is required to read the report by management and consider whether it is materially inconsistent with information appearing in the financial statements and, as a result, he or she may become aware of a material misstatement of fact.⁵

.10 Although not required, the auditor may consider adding the following paragraph to the standard auditor's report: "We were not engaged to examine management's assertion about the effectiveness of [*name of entity's*] internal control over financial reporting as of [*date*] included in the accompanying [*title of management's report*] and, accordingly, we do not express an opinion thereon."

.11 Because an auditor is required to consider internal control in an audit of the financial statements, he or she would often be familiar with matters covered in a management report on internal control over financial reporting. As a result, the auditor may become aware of information that causes him or her to believe that management's assertion on the effectiveness of internal control

^[1-4] [Superseded May, 1994 by Interpretation Nos. 2 and 3, paragraphs .07–.15.]

⁵ Unless information on internal control over financial reporting appears in the financial statements, which is not common, a management assertion on the effectiveness of internal control over financial reporting could not be inconsistent with information appearing in financial statements.

over financial reporting contains a material misstatement of fact as described in section 550.⁶ If the auditor becomes aware of information in the report by management that conflicts with his or her knowledge or understanding of such matters, he or she should discuss the information with the client. If, after discussions with the client, the auditor concludes that a material misstatement of fact exists, the auditor should follow the guidance in section 550.06.

[Issue Date: May, 1994; Revised: January, 2001.]

3. Other References by Management to Internal Control Over Financial Reporting, Including References to the Independent Auditor

.12 Question—Communications to various parties specified in section 550, *Other Information in Documents Containing Audited Financial Statements*, paragraph .02 may include a statement by management about the entity's internal control over financial reporting. Such documents may also refer to the independent auditor in circumstances other than when the auditor has been engaged to examine and report on management's assertion about the effectiveness of internal control over financial reporting. What is the auditor's responsibility in such circumstances?

.13 Interpretation—The auditor should follow the guidance in section 550, which states that "the auditor has no obligation to perform any procedures to corroborate other information contained in [such] a document." Under section 550, the auditor is required to read other information in documents containing audited financial statements and consider whether it is materially inconsistent with information appearing in the financial statements and, as a result, he or she may become aware of a material misstatement of fact. If the auditor becomes aware of information in the report by management that conflicts with his or her knowledge or understanding of such matters, he or she should discuss the information with the client. If, after discussions with the client, the auditor concludes that a material misstatement of fact exists, the auditor should follow the guidance in section 550.06.

.14 Generally, management may discuss its responsibility for internal control over financial reporting and report on its effectiveness. In reading such information, the auditor should evaluate specific references by management that deal with the auditor's consideration of internal control in planning and performing the audit of the financial statements, particularly if such reference would lead the reader to assume the auditor had performed more work than required under generally accepted auditing standards or would lead the reader to believe that the auditor was giving assurances on internal control. The auditor should also consider whether management's comment or statement uses the auditor's name in such a way as to indicate or imply that the auditor's involvement is greater than is supported by the facts.⁷ If management misstates

⁶ For example, the auditor has communicated to management a material weakness in internal control over financial reporting and management states or implies there are no material weaknesses.

⁷ For instance, management may report that "X Company's external auditors have reviewed the company's internal control in connection with their audit of the financial statements." Because AT section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*, prohibits an engagement to review and report on the effectiveness of the entity's internal control over financial reporting or a written assertion thereon, a statement by management that the auditors had "reviewed" the company's internal control would be inappropriate.

the auditor's responsibility for consideration of internal control over financial reporting, the auditor should discuss the matter with the client and consider whether any further action is needed in accordance with section 550.06.

.15 The auditing interpretation of section 325, *Communication of Internal Control Related Matters Noted in an Audit*, titled "Reporting on the Existence of Material Weaknesses" (section 9325.01-.07), permits an auditor to report to management that he or she has not become aware of any material weaknesses⁸ during his or her audit of the financial statements, but requires such reports to be solely for the information and use of the entity's audit committee, management and others within the organization. If, however, management decides to include or refer to this communication in a general use document, the auditor should communicate to management the restrictions on use of the communication and the potential for such a statement to be misunderstood. For example, the fact that an audit has not disclosed any material weaknesses does not necessarily mean none exist since an audit of the financial statements does not constitute an examination of a management assertion about the effectiveness of internal control over financial reporting. If management refuses to make appropriate changes to the report, the auditor should advise management that he or she has not consented to the use of his or her name and should consider what other actions might be appropriate. In considering what actions, if any, may be appropriate in the circumstances, the auditor may wish to consult legal counsel.

[Issue Date: May, 1994; Revised: January, 2001.]

4. Other Information in Electronic Sites Containing Audited Financial Statements

.16 Question—An entity may make information available in public computer networks, such as the World Wide Web area of the Internet, an electronic bulletin board, the Securities and Exchange Commission's EDGAR system, or similar electronic venues (hereinafter, "electronic sites"). Information in electronic sites may include annual reports to shareholders, financial statements and other financial information, as well as press releases, product information and promotional material. When audited financial statements and the independent auditor's report thereon are included in an electronic site, what is the auditor's responsibility with respect to other information included in the electronic site?

.17 Interpretation—Electronic sites are a means of distributing information and are not "documents," as that term is used in section 550, *Other Information in Documents Containing Audited Financial Statements*. Thus, auditors are not required by section 550 to read information contained in electronic sites, or to consider the consistency of other information (as that term is used in section 550) in electronic sites with the original documents.

.18 Auditors may be asked by their clients to render professional services with respect to information in electronic sites. Such services, which might take

⁸ Section 325.08 prohibits a written communication that no significant deficiencies were noted during the audit. If management reports that an auditor made an oral communication that no significant deficiencies were noted during the audit, the auditor should follow the guidance in this paragraph.

different forms, are not contemplated by section 550. Other auditing or attestation standards may apply, for example, agreed-upon procedures pursuant to AT section 201, *Agreed-Upon Procedures Engagements*, depending on the nature of the service requested.

[Issue Date: March, 1997; Revised: January, 2001.]

AU Section 551

Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents

(Supersedes section 610, "Long-Form Reports")¹

Source: SAS No. 29; SAS No. 52; SAS No. 98.

Effective for auditors' reports dated on or after December 31, 1980, unless otherwise indicated.

.01 This section provides guidance on the form and content of reporting when an auditor submits to his client or to others a document that contains information in addition to the client's basic financial statements and the auditor's report thereon.

.02 The auditor's standard report covers the basic financial statements: balance sheet, statement of income, statement of retained earnings or changes in stockholders' equity, and statement of cash flows. The following presentations are considered part of the basic financial statements: descriptions of accounting policies, notes to financial statements, and schedules and explanatory material that are identified as being part of the basic financial statements. For purposes of this section, basic financial statements also include an individual basic financial statement, such as a balance sheet or statement of income and financial statements prepared in accordance with a comprehensive basis of accounting other than generally accepted accounting principles.

.03 The information covered by this section is presented outside the basic financial statements and is not considered necessary for presentation of financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Such information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity.

Reporting Responsibility

.04 When an auditor submits a document containing audited financial statements to his client or to others, he has a responsibility to report on all the information included in the document. On the other hand, when the auditor's report is included in a client-prepared document² and the auditor is not engaged to report on information accompanying the basic financial statements, his responsibility with respect to such information is described in (a) section 550, *Other*

¹ This section also supersedes the March 1979 auditing interpretation, "Reports on Consolidated Financial Statements That Include Supplementary Consolidating Information".

² Client-prepared documents include financial reports prepared by the client but merely reproduced by the auditor on the client's behalf.

Information in Documents Containing Audited Financial Statements, and (b) other sections covering particular types of information or circumstances, such as section 558, *Required Supplementary Information*.

.05 An auditor's report on information accompanying the basic financial statements in an auditor-submitted document has the same objective as an auditor's report on the basic financial statements: to describe clearly the character of the auditor's work and the degree of responsibility the auditor is taking. Although the auditor may participate in the preparation of the accompanying information as well as the basic financial statements, both the statements and the accompanying information are representations of management.

.06 The following guidelines apply to an auditor's report on information accompanying the basic financial statements in an auditor-submitted document:

- a. The report should state that the audit has been performed for the purpose of forming an opinion on the basic financial statements taken as a whole.
- b. The report should identify the accompanying information. (Identification may be by descriptive title or page number of the document.)
- c. The report should state that the accompanying information is presented for purposes of additional analysis and is not a required part of the basic financial statements.³
- d. The report should include either an opinion on whether the accompanying information is fairly stated in all material respects in relation to the basic financial statements taken as a whole or a disclaimer of opinion, depending on whether the information has been subjected to the auditing procedures applied in the audit of the basic financial statements. The auditor may express an opinion on a portion of the accompanying information and disclaim an opinion on the remainder.
- e. The report on the accompanying information may be added to the auditor's report on the basic financial statements or may appear separately in the auditor-submitted document.

.07 The purpose of an audit of basic financial statements in accordance with generally accepted auditing standards is to form an opinion on those statements taken as a whole. Nevertheless, an audit of basic financial statements often encompasses information accompanying those statements in an auditor-submitted document. Also, although an auditor has no obligation to apply auditing procedures to information presented outside the basic financial statements, he may choose to modify or redirect certain of the procedures to be applied in the audit of the basic financial statements so that he may express an opinion on the accompanying information in the manner described in paragraph .06.

.08 When reporting in this manner, the measurement of materiality is the same as that used in forming an opinion on the basic financial statements taken as a whole. Accordingly, the auditor need not apply procedures as extensive as would be necessary to express an opinion on the information taken by itself. Guidance applicable to the expression of an opinion on specified elements,

³ The auditor may refer to any regulatory agency requirements applicable to the information presented.

accounts, or items of financial statements for the purpose of a separate presentation is provided in section 623.11-18, *Special Reports*.

.09 If the auditor concludes, on the basis of facts known to him, that any accompanying information is materially misstated in relation to the basic financial statements taken as a whole, he should discuss the matter with the client and propose appropriate revision of the accompanying information.⁴ If the client will not agree to revision of the accompanying information, the auditor should either modify his report on the accompanying information and describe the misstatement or refuse to include the information in the document.

.10 The auditor should consider the effect of any modifications in his standard report when reporting on accompanying information. When the auditor expresses a qualified opinion on the basic financial statements, he should make clear the effects upon any accompanying information as well (see paragraph .14). When the auditor expresses an adverse opinion, or disclaims an opinion, on the basic financial statements, he should not express the opinion described in paragraph .06 on any accompanying information.⁵ An expression of such an opinion in these circumstances would be inappropriate because, like a piecemeal opinion, it may tend to overshadow or contradict the disclaimer of opinion or adverse opinion on the basic financial statements. (See section 508.64 and section 623.14.)

.11 A client may request that nonaccounting information and certain accounting information not directly related to the basic financial statements be included in an auditor-submitted document. Ordinarily, such information would not have been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, the auditor would disclaim an opinion on it. In some circumstances, however, such information may have been obtained or derived from accounting records that have been tested by the auditor (for example, number of units produced related to royalties under a license agreement or number of employees related to a given payroll period). Accordingly, the auditor may be in a position to express an opinion on such information in the manner described in paragraph .06.

Reporting Examples

.12 An example of reporting on information accompanying the basic financial statements in an auditor-submitted document follows:

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The (identify accompanying information) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.^{6]}

⁴ See paragraph .10 for guidance when there is a modification of the auditor's standard report on the basic financial statements.

⁵ The provisions of this paragraph do not change the guidance, concerning companies whose accounting practices are prescribed by governmental regulatory authorities or commissions, in the last sentence of section 544.02, "Regulated Companies," which reads: "An adverse opinion may be accompanied by an opinion on supplementary data which are presented in conformity with generally accepted accounting principles."

^{6]} [Footnote deleted by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.13 When the auditor disclaims an opinion on all or part of the accompanying information in a document that he submits to his client or to others, such information should either be marked as unaudited or should include a reference to the auditor's disclaimer of opinion. The wording of the disclaimer will vary according to the circumstances. Two examples follow.

Disclaimer on All of the Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The (identify the accompanying information) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on it.

Disclaimer on Part of the Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information on pages XX—YY is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information, except for that portion marked "unaudited," on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements; and, in our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

.14 An example follows of reporting on accompanying information to which a qualification in the auditor's report on the basic financial statements applies.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules of investments (page 7), property (page 8), and other assets (page 9) as of December 31, 19XX, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information in such schedules has been subjected to the auditing procedures applied in the audit of the basic financial statements; and, in our opinion, except for the effects on the schedule of investments of not accounting for the investments in certain companies by the equity method as explained in the second preceding paragraph [second paragraph of our report on page 1], such information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information Required by GAAP

.15 When supplementary information required by GAAP is presented outside the basic financial statements in an auditor-submitted document, the auditor should (a) express an opinion on the information if the auditor has been engaged to examine the information, (b) report on the information using the guidance in paragraphs .12 and .14, provided such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, or (c) disclaim an opinion on the information.⁷ The following is an example of a disclaimer an auditor might use in these circumstances:

The [identify the supplementary information] on page XX is not a required part of the basic financial statements but is supplementary information required by

⁷ The guidance in subsection (b) of this paragraph applies to GASB required supplementary information, such as that required by GASB Statement No. 5, *Disclosure of Pension Information by Public Employee Retirement Systems and State and Local Governmental Employers*. The auditor should refer to section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*, paragraphs .09–.10, for an example of a report on GASB required supplementary information.

accounting principles generally accepted in the United States of America.⁸ We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

[As amended, effective April 1988, by Statement on Auditing Standards No. 52. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.16 The auditor's report should be expanded in accordance with section 558, *Required Supplementary Information*, paragraph .08, if (a) supplementary information that GAAP requires to be presented in the circumstances is omitted, (b) the auditor has concluded that the measurement or presentation of the supplementary information departs materially from guidelines prescribed by GAAP, (c) the auditor is unable to complete the procedures prescribed by section 558, or (d) the auditor is unable to remove substantial doubts about whether the supplementary information conforms to prescribed guidelines. [Paragraph added, effective September 2002, by Statement on Auditing Standards No. 98.]

Consolidating Information

.17 Consolidated financial statements may include consolidating information or consolidating schedules presenting separate financial statements of one or more components of the consolidated group.⁹ In some cases, the auditor is engaged to express an opinion on the financial statements of the components as well as on the consolidated financial statements. In other cases, the auditor is engaged to express an opinion only on the consolidated financial statements but consolidating information or schedules accompany the basic consolidated financial statements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.18 When the auditor is engaged to express an opinion only on the consolidated financial statements and consolidating information is also included, the auditor should be satisfied that the consolidating information is suitably identified. For example, when the consolidated financial statements include columns of information about the components of the consolidated group, the balance sheets might be titled, "Consolidated Balance Sheet—December 31, 19X1, with Consolidating Information," and the columns including the consolidating information might be marked, "Consolidating Information." When the consolidating information is presented in separate schedules, the schedules presenting balance sheet information of the components might be titled, for example, "Consolidating Schedule, Balance Sheet Information, December 31, 19X1." [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.19 When the consolidated financial statements include consolidating information that has not been separately audited, the auditor's report on the consolidating information might read

⁸ The auditor may identify the body requiring the information, such as the Financial Accounting Standards Board or the Governmental Accounting Standards Board. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

⁹ This section [paragraphs .17–.20] is also applicable to combined and combining financial statements. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002. Footnote revised, September 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 98.]

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.20 When the auditor is engaged to express an opinion on both the consolidated financial statements and the separate financial statements of the components presented in consolidating financial statements, the auditor's reporting responsibilities with respect to the separate financial statements are the same as his responsibilities with respect to the consolidated financial statements. In such cases, the consolidating financial statements and accompanying notes should include all the disclosures that would be necessary for presentation in conformity with generally accepted accounting principles of separate financial statements of each component. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

Additional Commentary Concerning the Audit

.21 The auditor may be requested to describe the procedures applied to specific items in the financial statements. Additional comments of this nature should not contradict or detract from the description of the scope of his audit in the standard report. Also, they should be set forth separately rather than interspersed with the information accompanying the basic financial statements to maintain a clear distinction between management's representations and the auditor's representations. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

Co-Existing Financial Statements

.22 More than one type of document containing the audited financial statements may exist. For example, the auditor may submit to his client or others a document containing the basic financial statements, other information, and his report thereon, and the client may issue a separate document containing only the basic financial statements and the auditor's report. The basic financial statements should include all the information considered necessary for presentation in conformity with generally accepted accounting principles in all co-existing documents. The auditor should be satisfied that information accompanying the basic financial statements in an auditor-submitted document would not support a contention that the basic financial statements in the other document were not presented in conformity with generally accepted accounting principles because of inadequate disclosure of material information known to the auditor. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

Effective Date

.23 This section will be effective for auditors' reports dated on or after December 31, 1980. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

AU Section 552

Reporting on Condensed Financial Statements and Selected Financial Data*

Source: SAS No. 42; SAS No. 71.

Effective for reports issued or reissued on or after January 1, 1989, on condensed financial statements or selected financial data unless otherwise indicated.

.01 This section provides guidance on reporting in a client-prepared document on—

- a. Condensed financial statements (either for an annual or an interim period) that are derived from audited financial statements of a public entity¹ that is required to file, at least annually, complete audited financial statements with a regulatory agency.
- b. Selected financial data that are derived from audited financial statements of either a public or a nonpublic entity and that are presented in a document that includes audited financial statements (or, with respect to a public entity, that incorporates audited financial statements by reference to information filed with a regulatory agency).

Guidance on reporting on condensed financial statements or selected financial data that accompany audited financial statements in an auditor-submitted document is provided in section 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*.

.02 In reporting on condensed financial statements or selected financial data in circumstances other than those described in paragraph .01, the auditor should follow the guidance in section 508, *Reports on Audited Financial Statements*, paragraphs .41 through .44, section 623, *Special Reports*, or other applicable Statements on Auditing Standards.²

Condensed Financial Statements

.03 Condensed financial statements are presented in considerably less detail than complete financial statements that are intended to present financial position, results of operations, and cash flows in conformity with generally accepted accounting principles. For this reason, they should be read in conjunction with the entity's most recent complete financial statements that include all the disclosures required by generally accepted accounting principles.

.04 An auditor may be engaged to report on condensed financial statements that are derived from audited financial statements. Because condensed

* This section has been revised to reflect the conforming changes necessary due to the issuance of Statement on Auditing Standards Nos. 53 through 62.

¹ *Public entity* is defined in section 504, *Association With Financial Statements*, footnote 2.

² An auditor who has audited and reported on complete financial statements of a nonpublic entity may subsequently be requested to compile financial statements for the same period that omit substantially all disclosures required by generally accepted accounting principles. Reporting on comparative financial statements in those circumstances is described in SSARS No. 2, paragraphs 29 and 30.

financial statements do not constitute a fair presentation of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles, an auditor should not report on condensed financial statements in the same manner as he reported on the complete financial statements from which they are derived. To do so might lead users to assume, erroneously, that the condensed financial statements include all the disclosures necessary for complete financial statements. For the same reason, it is desirable that the condensed financial statements be so marked.

.05 In the circumstances described in paragraph .01(a),³ the auditor's report on condensed financial statements that are derived from financial statements that he has audited should indicate (a) that the auditor has audited and expressed an opinion on the complete financial statements, (b) the date of the auditor's report on the complete financial statements,⁴ (c) the type of opinion expressed, and (d) whether, in the auditor's opinion, the information set forth in the condensed financial statements is fairly stated in all material respects in relation to the complete financial statements from which it has been derived.⁵

.06 The following is an example of wording that an auditor may use in the circumstances described in paragraph .01(a) to report on condensed financial statements that are derived from financial statements that he or she has audited and on which he or she has issued a standard report:

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of X Company and subsidiaries as of December 31, 20X0, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended (not presented herein); and in our report dated February 15, 20X1, we expressed an unqualified opinion on those consolidated financial statements.

In our opinion, the information set forth in the accompanying condensed consolidated financial statements is fairly stated, in all material respects, in relation to the consolidated financial statements from which it has been derived.

³ SEC regulations require certain registrants to include in filings, as a supplementary schedule to the consolidated financial statements, condensed financial information of the parent company. The auditor should report on such condensed financial information in the same manner as he reports on other supplementary schedules.

⁴ Reference to the date of the original report removes any implication that records, transactions, or events after that date have been examined. The auditor does not have a responsibility to investigate or inquire further into events that may have occurred during the period between the date of the report on the complete financial statements and the date of the report on the condensed financial statements. (However, see section 711, *Filings Under Federal Securities Statutes*, regarding the auditor's responsibility when his report is included in a registration statement filed under the Securities Act of 1933.)

⁵ If the auditor's opinion on the complete financial statements was other than unqualified, the report should describe the nature of, and the reasons for, the qualification. The auditor should also consider the effect that any modification of the report on the complete financial statements might have on the report on the condensed financial statements or selected financial data. For example, if the auditor's report on the complete financial statements referred to another auditor or included an explanatory paragraph because of a material uncertainty, a going concern matter, or an inconsistency in the application of accounting principles, the report on the condensed financial statements should state that fact. However, no reference to the inconsistency is necessary if a change in accounting referred to in the auditor's report on the complete financial statements does not affect the comparability of the information being presented.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.07 A client might make a statement in a client-prepared document that names the auditor and also states that condensed financial statements have been derived from audited financial statements. Such a statement does not, in itself, require the auditor to report on the condensed financial statements, provided that they are included in a document that contains audited financial statements (or that incorporates such statements by reference to information filed with a regulatory agency). However, if such a statement is made in a client-prepared document of a public entity that is required to file, at least annually, complete audited financial statements with a regulatory agency and that document does not include audited financial statements (or does not incorporate such statements by reference to information filed with a regulatory agency),⁶ the auditor should request that the client either (a) not include the auditor's name in the document or (b) include the auditor's report on the condensed financial statements, as described in paragraph .05. If the client will neither delete the reference to the auditor nor allow the appropriate report to be included, the auditor should advise the client that he does not consent to either the use of his name or the reference to him, and he should consider what other actions might be appropriate.⁷

.08 Condensed financial statements derived from audited financial statements of a public entity may be presented on a comparative basis with interim financial information as of a subsequent date that is accompanied by the auditor's review report. In that case, the auditor should report on the condensed

⁶ If such a statement is made in a client-prepared document that does not include audited financial statements and the client is not a public entity that is required to file complete audited financial statements with a regulatory agency (at least annually), the auditor would ordinarily express an adverse opinion on the condensed financial statements because of inadequate disclosure. (See section 508, *Reports on Audited Financial Statements*, paragraphs .41 through .44.) The auditor would not be expected to provide the disclosure in his report. The following is an example of an auditor's report on condensed financial statements in such circumstances when the auditor had previously audited and reported on the complete financial statements:

Independent Auditor's Report

We have audited the consolidated balance sheet of X Company and subsidiaries as of December 31, 20X0, and the related earnings, and cash flows for the year then ended (not presented herein). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion. The condensed consolidated balance sheet as of December 31, 20X0, and the related condensed statements of income, retained earnings, and cash flows for the year then ended, presented on pages xx-xx, are presented as a summary and therefore do not include all of the disclosures required by accounting principles generally accepted in the United States of America. In our opinion, because of the significance of the omission of the information referred to in the preceding paragraph, the condensed consolidated financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of X Company and subsidiaries as of December 31, 20X0, or the results of its operations or its cash flows for the year then ended. [Footnote revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

⁷ In considering what other actions, if any, may be appropriate in these circumstances, the auditor may wish to consult his legal counsel.

financial statements of each period in a manner appropriate for the type of service provided for each period. The following is an example of a review report on a condensed balance sheet as of March 31, 19X1, and the related condensed statements of income and cash flows for the three-month periods ended March 31, 19X1 and 19X0, together with a report on a condensed balance sheet derived from audited financial statements as of December 31, 19X0, included in Form 10-Q:⁸

We have reviewed the condensed consolidated balance sheet of ABC Company and subsidiaries as of March 31, 19X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 19X1 and 19X0. These financial statements are the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with generally accepted accounting principles.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 20X0, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended (not presented herein); and in our report dated February 15, 20X1, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 20X0, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

[Revised, May 1992, to reflect the conforming changes necessary due to the issuance of Statement on Auditing Standards No. 71. Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

⁸ Regulation S-X specifies that the following financial information should be provided in filings on Form 10-Q:

- a. An interim balance sheet as of the end of the most recent fiscal quarter and a balance sheet (which may be condensed to the same extent as the interim balance sheet) as of the end of the preceding fiscal year.
- b. Interim condensed statements of income for the most recent fiscal quarter, for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the corresponding periods of the preceding fiscal year.
- c. Interim condensed cash flow statements for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter and for the corresponding period for the preceding fiscal year. The Securities and Exchange Commission requires a registrant to engage an independent accountant to review the registrant's interim financial information before the registrant files its interim financial information on Form 10-Q or Form 10-QSB. If the auditor has made a review of interim financial information, he may agree to the reference to his name and the inclusion of his review report in a Form 10-Q. (See section 722, *Interim Financial Information*, paragraph .03.) [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

Selected Financial Data

.09 An auditor may be engaged to report on selected financial data that are included in a client-prepared document that contains audited financial statements (or, with respect to a public entity, that incorporates such statements by reference to information filed with a regulatory agency). Selected financial data are not a required part of the basic financial statements, and the entity's management is responsible for determining the specific selected financial data to be presented.⁹ If the auditor is engaged to report on the selected financial data, his report should be limited to data that are derived from audited financial statements (which may include data that are calculated from amounts presented in the financial statements, such as working capital). If the selected financial data that management presents include both data derived from audited financial statements and other information (such as number of employees or square footage of facilities), the auditor's report should specifically identify the data on which he is reporting. The report should indicate (a) that the auditor has audited and expressed an opinion on the complete financial statements, (b) the type of opinion expressed,¹⁰ and (c) whether, in the auditor's opinion, the information set forth in the selected financial data is fairly stated in all material respects in relation to the complete financial statements from which it has been derived.¹¹ If the selected financial data for any of the years presented are derived from financial statements that were audited by another independent auditor, the report on the selected financial data should state that fact, and the auditor should not express an opinion on that data.

.10 The following is an example of an auditor's report that includes an additional paragraph because he is also engaged to report on selected financial data for a five-year period ended December 31, 19X5, in a client-prepared document that includes audited financial statements:

Independent Auditor's Report

We have audited the consolidated balance sheets of ABC Company and subsidiaries as of December 31, 19X5 and 19X4, and the related consolidated statements of income, retained earnings, and cash flows for each of the three years in the period ended December 31, 19X5. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as

⁹ Under regulations of the SEC, certain reports must include, for each of the last five fiscal years, selected financial data in accordance with regulation S-K, including net sales or operating revenues, income or loss from continuing operations, income or loss from continuing operations per common share, total assets, long-term obligations and redeemable preferred stock and cash dividends declared per common share. Registrants may include additional items that they believe may be useful. There is no SEC requirement for the auditor to report on selected financial data.

¹⁰ See footnote 5.

¹¹ Nothing in this section is intended to preclude an auditor from expressing an opinion on one or more specified elements, accounts, or items of a financial statement, providing the provisions of section 623, *Special Reports*, are observed.

evaluating the overall financial statement presentation. We believe that our audits provided a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the ABC Company and subsidiaries as of December 31, 20X5 and 20X4, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 20X5, in conformity with accounting principles generally accepted in the United States of America.

We have also previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheets as of December 31, 20X3, 20X2, and 20X1, and the related statements of income, retained earnings, and cash flows for the years ended December 31, 20X2, and 20X1 (none of which are presented herein); and we expressed unqualified opinions on those consolidated financial statements. In our opinion, the information set forth in the selected financial data for each of the five years in the period ended December 31, 20X5, appearing on page xx, is fairly stated, in all material respects, in relation to the consolidated financial statements from which it has been derived.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.11 In introductory material regarding the selected financial data included in a client-prepared document, an entity might name the independent auditor and state that the data are derived from financial statements that he audited. Such a statement does not, in itself, require the auditor to report on the selected financial data, provided that the selected financial data are presented in a document that contains audited financial statements (or, with respect to a public entity, that incorporates such statements by reference to information filed with a regulatory agency). If such a statement is made in a document that does not include (or incorporate by reference) audited financial statements, the auditor should request that neither his name nor reference to him be associated with the information, or he should disclaim an opinion on the selected financial data and request that the disclaimer be included in the document. If the client does not comply, the auditor should advise the client that he does not consent to either the use of his name or the reference to him, and he should consider what other actions might be appropriate.¹²

Effective Date

.12 This section is effective for reports issued or reissued on or after January 1, 1989. Earlier application of the provision of this section is permissible.

¹² See footnote 7.

AU Section 558

Required Supplementary Information

(Supersedes section 553)*

Source: SAS No. 52; SAS No. 98.

See section 9558 for interpretations of this section.

Issue date, unless otherwise indicated: April, 1988.

.01 The Financial Accounting Standards Board (FASB), Governmental Accounting Standards Board (GASB), and the Federal Accounting Standards Advisory Board (FASAB) develop standards for financial reporting, including standards for financial statements and for certain other information supplementary to financial statements.¹ This section provides the independent auditor with

* This section also withdraws the following Statements on Auditing Standards:

- Statement on Auditing Standards No. 28, *Supplementary Information on the Effects of Changing Prices* [Formerly section 554].
- Statement on Auditing Standards No. 40, *Supplementary Mineral Reserve Information* [Formerly section 556].
- Statement on Auditing Standards No. 45, *Supplementary Oil and Gas Reserve Information* [Formerly section 557]. SAS No. 45 was reissued as an auditing interpretation, see section 9558.01-.06.

¹ The FASB, GASB, and FASAB's roles in setting standards for financial reporting have been recognized by the AICPA Council. The FASB's authority to establish standards for disclosure of financial information outside of the basic financial statements is described in the following resolution:

That as of (September 19, 1987), the FASB, in respect of statements of financial accounting standards finally adopted by such board in accordance with its rules of procedure and the bylaws of the Financial Accounting Foundation, be, and hereby is, designated by this Council as the body to establish accounting principles pursuant to rule 203 and standards on disclosure of financial information for such entities outside financial statements in published financial reports containing financial statements under rule 202 of the *Rules of the Code of Professional Conduct* of the American Institute of Certified Public Accountants provided, however, any accounting research bulletins, or opinions of the accounting principles board issued or approved for exposure by the accounting principles board prior to April 1, 1973, and finally adopted by such board on or before June 30, 1973, shall constitute statements of accounting principles promulgated by a body designated by Council as contemplated in rule 203 of the *Rules of the Code of Professional Conduct* unless and until such time as they are expressly superseded by action of the FASB. The GASB's authority to establish standards for financial reporting is described in the following resolution:

That as of (September 19, 1987), the GASB, with respect to statements of governmental accounting standards adopted and issued in July 1984 and subsequently in accordance with its rules of procedure and the bylaws of the FASB, be, and hereby is, designated by the Council of the American Institute of Certified Public Accountants as the body to establish financial accounting principles for state and local governmental entities pursuant to rule 203, and standards on disclosure of financial information for such entities outside financial statements in published financial reports containing financial statements under rule 202. The FASAB's authority to establish standards for financial reporting for federal government entities is described in the following resolution:

That as of (October 19, 1999), the FASAB is designated under rule 203 of the AICPA's *Code of Professional Conduct* as the body to establish accounting principles for federal government entities, and be it further resolved to recognize the Federal Accounting Standards Advisory Board with respect to statements of federal accounting standards adopted and issued in March of 1993 and subsequently in accordance with the FASAB's rules of procedure, and be it further resolved that no later than five years from the date the FASAB is granted rule 203 authority, the AICPA's Board of Directors will review the mission and operations of the FASAB and will evaluate whether the FASAB continues to meet council-approved criteria used to assess standards setting bodies designated under rule 203. Upon such review and evaluation, the AICPA's board shall recommend to council whether council shall continue to designate the FASAB under rule 203. [Footnote revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

guidance on the nature of procedures to be applied to supplementary information required by the FASB, GASB, or FASAB and describes the circumstances that would require the auditor to report such information. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

Applicability

.02 This section is applicable in an audit in accordance with generally accepted auditing standards of financial statements included in a document that should contain supplementary information required by generally accepted accounting principles (GAAP). However, this section is not applicable if the auditor has been engaged to audit such supplementary information.² [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.03 Some entities may voluntarily include, in documents containing audited financial statements, certain supplementary information that is required of other entities. When an entity voluntarily includes such information as a supplement to the financial statements or in an unaudited note to the financial statements, the provisions of this section are applicable unless either the entity indicates that the auditor has not applied the procedures described in this section or the auditor includes in an explanatory paragraph in his report on the audited financial statements a disclaimer on the information.³ The following is an example of a disclaimer an auditor might use in these circumstances:

The [*identify the supplementary information*] on page XX (or in Note XX) is not a required part of the basic financial statements, and we did not audit or apply limited procedures to such information and do not express any assurances on such information.

When the auditor does not apply the procedures described in this section to a voluntary presentation of required supplementary information required for other entities, the provisions of section 550, apply.

Involvement With Information Outside Financial Statements

.04 The objective of an audit of financial statements in accordance with generally accepted auditing standards is the expression of an opinion on such statements. The auditor has no responsibility to audit information outside the basic financial statements in accordance with generally accepted auditing standards. However, the auditor does have certain responsibilities with respect to information outside the financial statements. The nature of the

² This section is not applicable to entities that voluntarily present supplementary information not required by GAAP. For example, entities that voluntarily present supplementary information on the effects of inflation and changes in specific prices, formerly required by FASB Statement No. 33, *Financial Reporting and Changing Prices*, are guided by section 550, *Other Information in Documents Containing Audited Financial Statements*. [Footnote revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

³ When supplementary information is presented in an auditor-submitted document outside the basic financial statements, the guidance in section 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*, as amended by SAS No. 52, *Omnibus Statement on Auditing Standards—1987*, should be followed.

auditor's responsibility varies with the nature of both the information and the document containing the financial statements.

.05 The auditor's responsibility for other information not required by the FASB, GASB, or FASAB but included in certain annual reports—which are client-prepared documents⁴—is specified in section 550. The auditor's responsibility for information outside the basic financial statements in documents that the auditor submits to the client or to others is specified in section 551. The auditor's responsibility for supplementary information required by the FASB, GASB or FASAB (called *required supplementary information*) is discussed in the paragraphs that follow. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

Involvement With Required Supplementary Information

.06 Required supplementary information differs from other types of information outside the basic financial statements because the FASB, GASB or FASAB considers the information an essential part of the financial reporting of certain entities and because authoritative guidelines for the measurement and presentation of the information have been established. Accordingly, the auditor should apply certain limited procedures to required supplementary information and should report deficiencies in, or the omission of, such information. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

Procedures

.07 The auditor should consider whether supplementary information is required by the FASB or GASB in the circumstances. If supplementary information is required, the auditor ordinarily should apply the following procedures to the information.⁵

- a. Inquire of management about the methods of preparing the information, including (1) whether it is measured and presented within prescribed guidelines, (2) whether methods of measurement or presentation have been changed from those used in the prior period and the reasons for any such changes, and (3) any significant assumptions or interpretations underlying the measurement or presentation.
- b. Compare the information for consistency with (1) management's responses to the foregoing inquiries, (2) audited financial statements,⁶ and (3) other knowledge obtained during the examination of the financial statements.

⁴ Client-prepared documents include financial reports prepared by the client but merely reproduced by the auditor on the client's behalf.

⁵ These procedures are also appropriate when the auditor is involved with voluntary presentations of such information required for other entities (see paragraph .03).

⁶ GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, requires presentation of certain 6-year historical trend information relating to pension activities as supplementary information outside the basic financial statements. Such information is generally derived from financial statements. If such required supplementary information has been derived from audited financial statements and is presented outside the basic financial statements in an auditor-submitted document, the auditor may report on this information as indicated in section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*, paragraph .10. [Footnote revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91.]

- c. Consider whether representations on required supplementary information should be included in specific written representations obtained from management (section 333, *Management Representations*).
- d. Apply additional procedures, if any, that other statements, interpretations, guides, or statements of position prescribe for specific types of required supplementary information.
- e. Make additional inquiries if application of the foregoing procedures causes the auditor to believe that the information may not be measured or presented within applicable guidelines.

Reporting on Required Supplementary Information

.08 Since the supplementary information is not audited and is not a required part of the basic financial statements, the auditor need not add an explanatory paragraph to the report on the audited financial statements to refer to the supplementary information or to his or her limited procedures, except in any of the following circumstances:⁷ (a) the supplementary information that GAAP requires to be presented in the circumstances is omitted; (b) the auditor has concluded that the measurement or presentation of the supplementary information departs materially from prescribed guidelines; (c) the auditor is unable to complete the prescribed procedures; (d) the auditor is unable to remove substantial doubts about whether the supplementary information conforms to prescribed guidelines. Since the required supplementary information does not change the standards of financial accounting and reporting used for the preparation of the entity's basic financial statements, the circumstances described above do not affect the auditor's opinion on the fairness of presentation of such financial statements in conformity with generally accepted accounting principles. Furthermore, the auditor need not present the supplementary information if it is omitted by the entity. The following are examples of additional explanatory paragraphs an auditor might use in these circumstances.

Omission of Required Supplementary Information

The (Company or Governmental Unit) has not presented [*describe the supplementary information required by GAAP*[†]] that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Material Departures From Guidelines

The [*specifically identify the supplementary information*] on page XX is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. However, we have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary

⁷ When required supplementary information is presented outside the basic financial statements in an auditor-submitted document, the auditor should (a) express an opinion on the information if engaged to examine the information; (b) report on such information using the guidance in section 551.12 and .14, provided such information has been subjected to the auditing procedures applied in the audit of the basic financial statements; or (c) disclaim an opinion on the information (see section 551.15 and .16). [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

[†] The auditor may identify the body requiring the information, such as the Financial Accounting Standards Board or the Governmental Accounting Standards Board. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

information. As a result of such limited procedures, we believe that the [*specifically identify the supplementary information*] is not in conformity with accounting principles generally accepted in the United States because [*describe the material departure(s) from the GAAP[†]*].

Prescribed Procedures Not Completed

The [*specifically identify the supplementary information*] on page XX is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. Further, we were unable to apply to the information certain procedures prescribed by professional standards because [*state the reasons*].

Unresolved Doubts About Adherence to Guidelines

The [*specifically identify the supplementary information*] on page XX is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. However, we have applied certain limited procedures prescribed by professional standards that raised doubts that we were unable to resolve regarding whether material modifications should be made to the information for it to conform with guidelines established by accounting principles generally accepted in the United States. [*The auditor should consider including in the report the reason(s) he or she was unable to resolve his or her substantial doubts.*]

Even though the auditor is unable to complete the prescribed procedures, if, on the basis of facts known to him or her, the auditor concludes that the supplementary information has not been measured or presented within prescribed guidelines, he or she should suggest appropriate revision; failing that, he or she should describe the nature of any material departure(s) in the report. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.09 In conjunction with the audit of the financial statements, the auditor may subject the supplementary information to certain auditing procedures. If the procedures are sufficient to enable the auditor to express an opinion on whether the information is fairly stated in all material respects in relation to the financial statements taken as a whole, the auditor may expand the audit report in accordance with section 550.07. [Paragraph added, effective September 2002, by Statement on Auditing Standards No. 98.]

.10 If the entity includes with the supplementary information an indication that the auditor performed any procedures regarding the information without also indicating that the auditor does not express an opinion on the information presented, the auditor's report on the audited financial statements should be expanded to include a disclaimer on the information or, if appropriate, an opinion on whether the information is fairly stated in all material respects in relation to the financial statements taken as a whole. [Paragraph renumbered and amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.11 Ordinarily, the required supplementary information should be distinct from the audited financial statements and distinguished from other information outside the financial statements that is not required by GAAP. However, management may choose not to place the required supplementary information

[†] The auditor may identify the body requiring the information, such as the Financial Accounting Standards Board or the Governmental Accounting Standards Board. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

outside the basic financial statements. In such circumstances, unless it is audited as part of the basic financial statements, the information should be clearly marked as unaudited. If the information is not clearly marked as unaudited, the auditor's report on the audited financial statements should be expanded to include a disclaimer on the supplementary information. [Revised, April 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 91. Paragraph renumbered and amended, effective September 2002, by Statement on Auditing Standards No. 98.]

AU Section 9558

Required Supplementary Information: Auditing Interpretations of Section 558

1. Supplementary Oil and Gas Reserve Information

.01 *Question*—FASB Statement No. 69, *Disclosures About Oil and Gas Producing Activities* [AC section Oi5], which amended FASB Statement No. 19, *Financial Accounting and Reporting by Oil and Gas Producing Companies* [AC section Oi5], and FASB Statement No. 25, *Suspension of Certain Accounting Requirements for Oil and Gas Producing Companies* [AC section Oi5], requires publicly traded entities that have significant oil and gas producing activities to include, with complete sets of annual financial statements, disclosures of proved oil and gas reserve quantities, changes in reserve quantities, a standardized measure of discounted future net cash flows relating to reserve quantities, and changes in the standardized measure. In documents filed with the Securities and Exchange Commission (SEC), Regulation S-K requires that the disclosures related to annual periods be presented for each annual period for which an income statement is required and the disclosures as of the end of an annual period be presented as of the date of each audited balance sheet required. These disclosures are considered to be supplementary information and may be presented outside the basic financial statements. In these circumstances, should the auditor consider the provisions of section 558, *Required Supplementary Information*?

.02 *Interpretation*—Yes. Also, in addition to the provisions of section 558, the auditor should also consider the provisions of this Interpretation.

.03 Estimating oil and gas reserves is a complex process requiring the knowledge and experience of a reservoir engineer. In general, the quality of the estimate of proved reserves for an individual reservoir depends on the availability, completeness, and accuracy of data needed to develop the estimate and on the experience and judgment of the reservoir engineer. Estimates of proved reserves inevitably change over time as additional data become available and are taken into account. The magnitude of changes in these estimates is often substantial. Because oil and gas reserve estimates are more imprecise than most estimates that are made in preparing financial statements, entities are encouraged to explain the imprecise nature of such reserve estimates.

.04 In applying the procedures specified in section 558, the auditor's inquiries should be directed to management's understanding of the specific requirements for disclosure of the supplementary oil and gas reserve information, including—

- a. The factors considered in determining the reserve quantity information to be reported, such as including in the information (1) quantities of all domestic and foreign proved oil and gas reserves owned by the entity net of interests of others, (2) reserves attributable to consolidated subsidiaries, (3) a proportionate share of reserves of investees that are proportionately consolidated, and (4) reserves relating to royalty interests owned.

- b. The separate disclosure of items such as (1) the entity's share of oil and gas produced from royalty interests for which reserve quantity information is unavailable, (2) reserves subject to long-term agreements with governments or authorities in which the entity participates in the operation or otherwise serves as producer, (3) the entity's proportional interest in reserves of investees accounted for by the equity method, (4) subsequent events, important economic factors, or significant uncertainties affecting particular components of the reserve quantity information, (5) whether the entity's reserves are located entirely within its home country, and (6) whether certain named governments restrict the disclosure of reserves or require that the reserve estimates include reserves other than proved.
- c. The factors considered in determining the standardized measure of discounted future net cash flows to be reported.

.05 In addition, the auditor should also—

- a. Inquire about whether the person who estimated the entity's reserve quantity information has appropriate qualifications.¹
- b. Compare the entity's recent production with its reserve estimates for properties that have significant production or significant reserve quantities and inquire about disproportionate ratios.
- c. Compare the entity's reserve quantity information with the corresponding information used for depletion and amortization, and make inquiries when differences exist.
- d. Inquire about the calculation of the standardized measure of discounted future net cash flows. These inquiries might include matters such as whether—
 - i. The prices used to develop future cast inflows from estimated production of the proved reserves are based on prices received at the end of the entity's fiscal year, and whether the calculation of future cash inflows appropriately reflects the terms of sales contracts and applicable governmental laws and regulations.
 - ii. The entity's estimate of the nature and timing of future development of the proved reserves and the future rates of production are consistent with available development plans.
 - iii. The entity's estimates of future development and production costs are based on year-end costs and assumed continuation of existing economic conditions.
 - iv. Future income tax expenses have been computed using the appropriate year-end statutory tax rates, with consideration of future tax rates already legislated,

¹ For example, the Society of Petroleum Engineers has prepared "Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserve Information," which indicate that a reserve estimator would normally be considered to be qualified if he or she (1) has a minimum of three years' practical experience in petroleum engineering or petroleum production geology, with at least one year of such experience being in the estimation and evaluation of reserve information; and (2) either (a) has obtained, from a college or university of recognized stature, a bachelor's or advanced degree in petroleum engineering, geology, or other discipline of engineering or physical science or (b) has received, and is maintaining in good standing, a registered or certified professional engineer's license or a registered or certified professional geologist's license, or the equivalent thereof, from an appropriate governmental authority or professional organization.

- after giving effect to the tax basis of the properties involved, permanent differences, and tax credits and allowances.
- v. The future net cash flows have been appropriately discounted.
 - vi. With respect to full cost companies, the estimated future development costs are consistent with the corresponding amounts used for depletion and amortization purposes.
 - vii. With respect to the disclosure of changes in the standardized measure of discounted future net cash flows, the entity has computed and presented the sources of the changes in conformity with the requirements of FASB Statement No. 69 [AC section Oi5].
- e. Inquire about whether the methods and bases for estimating the entity's reserve information are documented and whether the information is current.

.06 If the auditor believes that the information may not be presented within the applicable guidelines, section 558 indicates that he ordinarily should make additional inquiries. However, because of the nature of estimates of oil and gas reserve information, the auditor may not be in a position to evaluate the responses to such additional inquiries and, thus, will need to report this limitation on the procedures prescribed by professional standards. The following is an example that illustrates reporting on oil and gas reserve information in that event.

The oil and gas reserve information is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. However, we have applied certain limited procedures prescribed by professional standards that raised doubts that we were unable to resolve regarding whether material modifications should be made to the information for it to conform with guidelines established by the Financial Accounting Standards Board. [The auditor should consider including in his report the reason(s) why he was unable to resolve his doubts. For example, the auditor may wish to state that the information was estimated by a person lacking appropriate qualifications.]

[Issue Date: February, 1989.]

AU Section 560

Subsequent Events

Source: SAS No. 1, section 560; SAS No. 12; SAS No. 98; Auditing Standard No. 5.

Issue date, unless otherwise indicated: November, 1972.

.01 An independent auditor's report ordinarily is issued in connection with historical financial statements that purport to present financial position at a stated date and results of operations and cash flows for a period ended on that date. However, events or transactions sometimes occur subsequent to the balance-sheet date, but prior to the issuance of the financial statements, that have a material effect on the financial statements and therefore require adjustment or disclosure in the statements. These occurrences hereinafter are referred to as "subsequent events." [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

[The following note is effective for audits of fiscal years ending on or after November 15, 2007. See PCAOB Release 2007-005.]

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 93–97 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, which provide direction with respect to subsequent events in an audit of internal control over financial reporting.

.02 Two types of subsequent events require consideration by management and evaluation by the independent auditor.

.03 The first type consists of those events that provide additional evidence with respect to conditions that existed at the date of the balance sheet and affect the estimates inherent in the process of preparing financial statements. All information that becomes available prior to the issuance of the financial statements should be used by management in its evaluation of the conditions on which the estimates were based. The financial statements should be adjusted for any changes in estimates resulting from the use of such evidence.

.04 Identifying events that require adjustment of the financial statements under the criteria stated above calls for the exercise of judgment and knowledge of the facts and circumstances. For example, a loss on an uncollectible trade account receivable as a result of a customer's deteriorating financial condition leading to bankruptcy subsequent to the balance-sheet date would be indicative of conditions existing at the balance-sheet date, thereby calling for adjustment of the financial statements before their issuance. On the other hand, a similar loss resulting from a customer's major casualty such as a fire or flood subsequent to the balance-sheet date would not be indicative of conditions existing at the balance-sheet date and adjustment of the financial statements would not be appropriate. The settlement of litigation for an amount different from the liability recorded in the accounts would require adjustment of the financial statements if the events, such as personal injury or patent infringement, that gave rise to the litigation had taken place prior to the balance-sheet date.

.05 The second type consists of those events that provide evidence with respect to conditions that did not exist at the date of the balance sheet being reported on but arose subsequent to that date. These events should not result in adjustment of the financial statements.¹ Some of these events, however, may be of such a nature that disclosure of them is required to keep the financial statements from being misleading. Occasionally such an event may be so significant that disclosure can best be made by supplementing the historical financial statements with pro forma financial data giving effect to the event as if it had occurred on the date of the balance sheet. It may be desirable to present pro forma statements, usually a balance sheet only, in columnar form on the face of the historical statements.

.06 Examples of events of the second type that require disclosure to the financial statements (but should not result in adjustment) are:

- a. Sale of a bond or capital stock issue.
- b. Purchase of a business.
- c. Settlement of litigation when the event giving rise to the claim took place subsequent to the balance-sheet date.
- d. Loss of plant or inventories as a result of fire or flood.
- e. Losses on receivables resulting from conditions (such as a customer's major casualty) arising subsequent to the balance-sheet date.

.07 Subsequent events affecting the realization of assets such as receivables and inventories or the settlement of estimated liabilities ordinarily will require adjustment of the financial statements (see paragraph .03) because such events typically represent the culmination of conditions that existed over a relatively long period of time. Subsequent events such as changes in the quoted market prices of securities ordinarily should not result in adjustment of the financial statements (see paragraph .05) because such changes typically reflect a concurrent evaluation of new conditions.

.08 When financial statements are reissued, for example, in reports filed with the Securities and Exchange Commission or other regulatory agencies, events that require disclosure in the reissued financial statements to keep them from being misleading may have occurred subsequent to the original issuance of the financial statements. Events occurring between the time of original issuance and reissuance of financial statements should not result in adjustment of the financial statements² unless the adjustment meets the criteria for the correction of an error or the criteria for prior period adjustments set forth in Opinions of the Accounting Principles Board.* Similarly, financial statements reissued in comparative form with financial statements of subsequent periods should not be adjusted for events occurring subsequent to the original issuance unless the adjustment meets the criteria stated above.

.09 Occasionally, a subsequent event of the second type has such a material impact on the entity that the auditor may wish to include in his report an explanatory paragraph directing the reader's attention to the event and its effects. (See section 508.19.)

¹ This paragraph is not intended to preclude giving effect in the balance sheet, with appropriate disclosure, to stock dividends or stock splits or reverse splits consummated after the balance-sheet date but before issuance of the financial statements.

² However, see paragraph .05 as to the desirability of presenting pro forma financial statements to supplement the historical financial statements in certain circumstances.

* See also Statement of Financial Accounting Standards No. 16, *Prior Period Adjustments* (AC section A35).

Auditing Procedures in the Subsequent Period

.10 There is a period after the balance-sheet date with which the auditor must be concerned in completing various phases of his audit. This period is known as the "subsequent period" and is considered to extend to the date of the auditor's report. Its duration will depend upon the practical requirements of each audit and may vary from a relatively short period to one of several months. Also, all auditing procedures are not carried out at the same time and some phases of an audit will be performed during the subsequent period, whereas other phases will be substantially completed on or before the balance-sheet date. As an audit approaches completion, the auditor will be concentrating on the unresolved auditing and reporting matters and he is not expected to be conducting a continuing review of those matters to which he has previously applied auditing procedures and reached satisfaction.

.11 Certain specific procedures are applied to transactions occurring after the balance-sheet date such as (a) the examination of data to assure that proper cutoffs have been made and (b) the examination of data which provide information to aid the auditor in his evaluation of the assets and liabilities as of the balance-sheet date.

.12 *[The following paragraph is effective for audits of fiscal years ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

In addition, the independent auditor should perform other auditing procedures with respect to the period after the balance-sheet date for the purpose of ascertaining the occurrence of subsequent events that may require adjustment or disclosure essential to a fair presentation of the financial statements in conformity with generally accepted accounting principles. These procedures should be performed at or near the date of the auditor's report. The auditor generally should:

- a. Read the latest available interim financial statements; compare them with the financial statements being reported upon; and make any other comparisons considered appropriate in the circumstances. In order to make these procedures as meaningful as possible for the purpose expressed above, the auditor should inquire of officers and other executives having responsibility for financial and accounting matters as to whether the interim statements have been prepared on the same basis as that used for the statements under audit.
- b. Inquire of and discuss with officers and other executives having responsibility for financial and accounting matters (limited where appropriate to major locations) as to:
 - (i) Whether any substantial contingent liabilities or commitments existed at the date of the balance sheet being reported on or at the date of inquiry.
 - (ii) Whether there was any significant change in the capital stock, long-term debt, or working capital to the date of inquiry.
 - (iii) The current status of items, in the financial statements being reported on, that were accounted for on the basis of tentative, preliminary, or inconclusive data.

The Fourth Standard of Reporting

- (iv) Whether any unusual adjustments had been made during the period from the balance-sheet date to the date of inquiry.
- c. Read the available minutes of meetings of stockholders, directors, and appropriate committees; as to meetings for which minutes are not available, inquire about matters dealt with at such meetings.
 - d. Inquire of client's legal counsel concerning litigation, claims, and assessments. [As amended, January 1976, by Statement on Auditing Standards No. 12.] (See section 337.)
 - e. Obtain a letter of representations, dated as of the date of the auditor's report, from appropriate officials, generally the chief executive officer, chief financial officer, or others with equivalent positions in the entity, as to whether any events occurred subsequent to the date of the financial statements being reported on by the independent auditor that in the officer's opinion would require adjustment or disclosure in these statements. The auditor may elect to have the client include representations as to significant matters disclosed to the auditor in his performance of the procedures in subparagraphs (a) to (d) above and (f) below. (See section 333, *Management Representations*.)
 - f. Make such additional inquiries or perform such procedures as he considers necessary and appropriate to dispose of questions that arise in carrying out the foregoing procedures, inquiries, and discussions.
-

AU Section 561

Subsequent Discovery of Facts Existing at the Date of the Auditor's Report

Source: SAS No. 1, section 561; SAS No. 98; Auditing Standard No. 5; Auditing Standard No. 6.

See section 9561 for interpretations of this section.

Issue date, unless otherwise indicated: November, 1972.

.01 The procedures described in this section should be followed by the auditor who, subsequent to the date of the report upon audited financial statements, becomes aware that facts may have existed at that date which might have affected the report had he or she then been aware of such facts.¹ [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

[The following note is effective for audits of fiscal years ending on or after November 15, 2007. See PCAOB Release 2007-005.]

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraph 98 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, which provides direction with respect to the subsequent discovery of information existing at the date of the auditor's report on internal control over financial reporting.

.02 Because of the variety of conditions which might be encountered, some of these procedures are necessarily set out only in general terms; the specific actions to be taken in a particular case may vary somewhat in the light of the circumstances. The auditor would be well advised to consult with an attorney when he or she encounters the circumstances to which this section may apply because of legal implications that may be involved in actions contemplated herein, including, for example, the possible effect of state statutes regarding confidentiality of auditor-client communications. [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

.03 After the date of the report, the auditor has no obligation² to make any further or continuing inquiry or perform any other auditing procedures with respect to the audited financial statements covered by that report, unless new information which may affect the report comes to his or her attention. [As amended, effective September 2002, by Statement on Auditing Standards No. 98.]

¹ If the financial statements have not yet been issued, see the guidance found in section 560, *Subsequent Events*. [Footnote added, effective September 2002, by Statement on Auditing Standards No. 98.]

² However, see section 711.10–.13 as to an auditor's obligation with respect to audited financial statements included in registration statements filed under the Securities Act of 1933 between the date of the auditor's report and the effective date of the registration statement. [Footnote revised by the issuance of Statement on Auditing Standards No. 37, April 1981. Footnote renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

.04 When the auditor becomes aware of information which relates to financial statements previously reported on by him, but which was not known to him at the date of his report, and which is of such a nature and from such a source that he would have investigated it had it come to his attention during the course of his audit, he should, as soon as practicable, undertake to determine whether the information is reliable and whether the facts existed at the date of his report. In this connection, the auditor should discuss the matter with his client at whatever management levels he deems appropriate, including the board of directors, and request cooperation in whatever investigation may be necessary.

.05 When the subsequently discovered information is found both to be reliable and to have existed at the date of the auditor's report, the auditor should take action in accordance with the procedures set out in subsequent paragraphs if the nature and effect of the matter are such that (a) his report would have been affected if the information had been known to him at the date of his report and had not been reflected in the financial statements and (b) he believes there are persons currently relying or likely to rely on the financial statements who would attach importance to the information. With respect to (b), consideration should be given, among other things, to the time elapsed since the financial statements were issued.

.06 When the auditor has concluded, after considering (a) and (b) in paragraph .05, that action should be taken to prevent future reliance on his report, he should advise his client to make appropriate disclosure of the newly discovered facts and their impact on the financial statements to persons who are known to be currently relying or who are likely to rely on the financial statements and the related auditor's report. When the client undertakes to make appropriate disclosure, the method used and the disclosure made will depend on the circumstances.

- a. If the effect on the financial statements or auditor's report of the subsequently discovered information can promptly be determined, disclosure should consist of issuing, as soon as practicable, revised financial statements and auditor's report. The reasons for the revision usually should be described in a note to the financial statements and referred to in the auditor's report. Generally, only the most recently issued audited financial statements would need to be revised, even though the revision resulted from events that had occurred in prior years.³
- b. When issuance of financial statements accompanied by the auditor's report for a subsequent period is imminent, so that disclosure is not delayed, appropriate disclosure of the revision can be made in such statements instead of reissuing the earlier statements pursuant to subparagraph (a).⁴
- c. When the effect on the financial statements of the subsequently discovered information cannot be determined without a prolonged investigation, the issuance of revised financial statements and auditor's report would necessarily be delayed. In this circumstance, when it appears that the information will require a revision of the statements, appropriate disclosure would consist of notification

³ [The following footnote is effective November 15, 2008. See PCAOB Release 2008-001.] See paragraphs 26 and 27 of Accounting Principles Board Opinion No. 9 and paragraphs 25 and 26 of FASB Statement No. 154, regarding disclosure of adjustments applicable to prior periods.

⁴ Ibid. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 98, September 2002.]

by the client to persons who are known to be relying or who are likely to rely on the financial statements and the related report that they should not be relied upon, and that revised financial statements and auditor's report will be issued upon completion of an investigation. If applicable, the client should be advised to discuss with the Securities and Exchange Commission, stock exchanges, and appropriate regulatory agencies the disclosure to be made or other measures to be taken in the circumstances.

.07 The auditor should take whatever steps he deems necessary to satisfy himself that the client has made the disclosures specified in paragraph .06.

.08 If the client refuses to make the disclosures specified in paragraph .06, the auditor should notify each member of the board of directors of such refusal and of the fact that, in the absence of disclosure by the client, the auditor will take steps as outlined below to prevent future reliance upon his report. The steps that can appropriately be taken will depend upon the degree of certainty of the auditor's knowledge that there are persons who are currently relying or who will rely on the financial statements and the auditor's report, and who would attach importance to the information, and the auditor's ability as a practical matter to communicate with them. Unless the auditor's attorney recommends a different course of action, the auditor should take the following steps to the extent applicable:

- a. Notification to the client that the auditor's report must no longer be associated with the financial statements.
- b. Notification to regulatory agencies having jurisdiction over the client that the auditor's report should no longer be relied upon.
- c. Notification to each person known to the auditor to be relying on the financial statements that his report should no longer be relied upon. In many instances, it will not be practicable for the auditor to give appropriate individual notification to stockholders or investors at large, whose identities ordinarily are unknown to him; notification to a regulatory agency having jurisdiction over the client will usually be the only practicable way for the auditor to provide appropriate disclosure. Such notification should be accompanied by a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure. The Securities and Exchange Commission and the stock exchanges are appropriate agencies for this purpose as to corporations within their jurisdictions.

.09 The following guidelines should govern the content of any disclosure made by the auditor in accordance with paragraph .08 to persons other than his client:

- a. If the auditor has been able to make a satisfactory investigation of the information and has determined that the information is reliable:
 - (i) The disclosure should describe the effect the subsequently acquired information would have had on the auditor's report if it had been known to him at the date of his report and had not been reflected in the financial statements. The disclosure should include a description of the nature of the subsequently acquired information and of its effect on the financial statements.
 - (ii) The information disclosed should be as precise and factual as possible and should not go beyond that which

The Fourth Standard of Reporting

is reasonably necessary to accomplish the purpose mentioned in the preceding subparagraph (i). Comments concerning the conduct or motives of any person should be avoided.

- b. If the client has not cooperated and as a result the auditor is unable to conduct a satisfactory investigation of the information, his disclosure need not detail the specific information but can merely indicate that information has come to his attention which his client has not cooperated in attempting to substantiate and that, if the information is true, the auditor believes that his report must no longer be relied upon or be associated with the financial statements. No such disclosure should be made unless the auditor believes that the financial statements are likely to be misleading and that his report should not be relied on.

.10 The concepts embodied in this section are not limited solely to corporations but apply in all cases where financial statements have been audited and reported on by independent auditors.

AU Section 9561

Subsequent Discovery of Facts Existing at the Date of the Auditor's Report: Auditing Interpretations of Section 561

1. Auditor Association With Subsequently Discovered Information When the Auditor Has Resigned or Been Discharged

.01 Question—New information may come to an auditor's attention subsequent to the date of his report on audited financial statements that might affect the previously issued audit report. Is the auditor's responsibility with respect to that information different if the auditor has resigned or been discharged prior to undertaking or completing his investigation than if he were the continuing auditor?

.02 Interpretation—No. Section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, requires the auditor to undertake to determine whether the information is reliable and whether the facts existed at the date of his report. This undertaking must be performed even when the auditor has resigned or been discharged.

[Issue Date: February, 1989.]

Special Reports

(Supersedes section 621)

Source: SAS No. 62; SAS No. 77.

See section 9623 for interpretations of this section.

Effective for reports issued on or after July 1, 1989, unless otherwise indicated.

Introduction

.01 This section applies to auditors' reports issued in connection with the following:

- a. Financial statements that are prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting principles (paragraphs .02 through .10)
- b. Specified elements, accounts, or items of a financial statement (paragraphs .11 through .18)
- c. Compliance with aspects of contractual agreements or regulatory requirements related to audited financial statements (paragraphs .19 through .21)
- d. Financial presentations to comply with contractual agreements or regulatory provisions (paragraphs .22 through .30)
- e. Financial information presented in prescribed forms or schedules that require a prescribed form of auditor's reports (paragraphs .32 and .33)

Financial Statements Prepared in Conformity With a Comprehensive Basis of Accounting Other Than Generally Accepted Accounting Principles

.02 Generally accepted auditing standards are applicable when an auditor conducts an audit of and reports on any financial statement. A financial statement may be, for example, that of a corporation, a consolidated group of corporations, a combined group of affiliated entities, a not-for-profit organization, a governmental unit, an estate or trust, a partnership, a proprietorship, a segment of any of these, or an individual. The term *financial statement* refers to a presentation of financial data, including accompanying notes, derived from accounting records and intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in conformity with a comprehensive basis of accounting. For reporting purposes, the independent auditor should consider each of the following types of financial presentations to be a financial statement:

- a. Balance sheet
- b. Statement of income or statement of operations
- c. Statement of retained earnings

- d. Statement of cash flows
- e. Statement of changes in owners' equity
- f. Statement of assets and liabilities that does not include owners' equity accounts
- g. Statement of revenue and expenses
- h. Summary of operations
- i. Statement of operations by product lines
- j. Statement of cash receipts and disbursements

.03 An independent auditor's judgment concerning the overall presentation of financial statements should be applied within an identifiable framework (see section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*). Normally, the framework is provided by generally accepted accounting principles, and the auditor's judgment in forming an opinion is applied accordingly (see section 411.05). In some circumstances, however, a comprehensive basis of accounting other than generally accepted accounting principles may be used. [Title of section 411 amended, effective for reports issued or reissued on or after June 30, 2001, by Statement on Auditing Standards No. 93.]

.04 For purposes of this section, a comprehensive basis of accounting other than generally accepted accounting principles is one of the following—

- a. A basis of accounting that the reporting entity uses to comply with the requirements or financial reporting provisions of a governmental regulatory agency to whose jurisdiction the entity is subject. An example is a basis of accounting insurance companies use pursuant to the rules of a state insurance commission.
- b. A basis of accounting that the reporting entity uses or expects to use to file its income tax return for the period covered by the financial statements.
- c. The cash receipts and disbursements basis of accounting, and modifications of the cash basis having substantial support, such as recording depreciation on fixed assets or accruing income taxes.
- d. A definite set of criteria having substantial support that is applied to all material items appearing in financial statements, such as the price-level basis of accounting.

Unless one of the foregoing descriptions applies, reporting under the provisions of paragraph .05 is not permitted.

Reporting on Financial Statements Prepared in Conformity With an Other Comprehensive Basis of Accounting (OCBOA)

.05 When reporting on financial statements prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting principles, as defined in paragraph .04, an independent auditor should include in the report—

- a. A title that includes the word *independent*.¹
- b. A paragraph that—

¹ This section does not require a title for an auditor's report if the auditor is not independent. See section 504, *Association With Financial Statements*, for guidance on reporting when the auditor is not independent.

- (1) States that the financial statements identified in the report were audited.
 - (2) States that the financial statements are the responsibility of the Company's management² and that the auditor is responsible for expressing an opinion on the financial statements based on the audit.
- c. A paragraph that—
- (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.
 - (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall financial statement presentation (see paragraph .09).
 - (4) States that the auditor believes that his or her audit provides a reasonable basis for the opinion.
- d. A paragraph that—
- (1) States the basis of presentation and refers to the note to the financial statements that describes the basis (see paragraphs .09 and .10).
 - (2) States that the basis of presentation is a comprehensive basis of accounting other than generally accepted accounting principles.
- e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) on whether the financial statements are presented fairly, in all material respects, in conformity with the basis of accounting described. If the auditor concludes that the financial statements are not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, he or she should disclose all the substantive reasons for the conclusion in an explanatory paragraph(s) (preceding the opinion paragraph)

² In some instances, a document containing the auditor's report may include a statement by management regarding its responsibility for the presentation of the financial statements. Nevertheless, the auditor's report should state that the financial statements are management's responsibility. However, the statement about management's responsibility should not be further elaborated upon in the auditor's standard report or referenced to management's report.

of the report and should include in the opinion paragraph the appropriate modifying language and a reference to such explanatory paragraph(s).³

- f. If the financial statements are prepared in conformity with the requirements or financial reporting provisions of a governmental regulatory agency (see paragraph .04a), a separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the regulatory agencies to whose jurisdiction the entity is subject, and is not intended to be and should not be used by anyone other than these specified parties. Such a paragraph is appropriate even though by law or regulation the auditor's report may be made a matter of public record.⁴ The auditor may use this form of report only if the financial statements and report are intended solely for use by those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject.⁵
- g. The manual or printed signature of the auditor's firm.
- h. The date.⁶

[As amended, effective for audits of financial statements for periods ended on or after December 31, 1996, by Statement on Auditing Standards No. 77. Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.06 Unless the financial statements meet the conditions for presentation in conformity with a "comprehensive basis of accounting other than generally accepted accounting principles" as defined in paragraph .04, the auditor should use the standard form of report (see section 508, *Reports on Audited Financial Statements*, paragraph .08) modified as appropriate because of the departures from generally accepted accounting principles.

.07 Terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Consequently, the auditor should consider whether the financial statements that he or she is reporting on are suitably titled. For example, cash basis financial statements might be titled *statement of assets and liabilities arising from cash*

³ Paragraph .31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report.

⁴ Public record, for purposes of auditor's reports on financial statements of a regulated entity that are prepared in accordance with the financial reporting provisions of a government regulatory agency, includes circumstances in which specific requests must be made by the public to obtain access to or copies of the report. In contrast, the auditor would be precluded from using this form of report in circumstances in which the entity distributes the financial statements to parties other than the regulatory agency either voluntarily or upon specific request. [Footnote added, effective for audits of financial statements for periods ended on or after December 31, 1996, by Statement on Auditing Standards No. 77.]

⁵ If the financial statements and report are intended for use by parties other than those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject, the auditor should follow the guidance in section 544, *Lack of Conformity With Generally Accepted Accounting Principles*. [Footnote renumbered and amended, effective for audits of financial statements for periods ended on or after December 31, 1996, by the issuance of Statement on Auditing Standards No. 77.]

⁶ For guidance on dating the auditor's report, see section 530, *Dating of the Independent Auditor's Report*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

*transactions, or statement of revenue collected and expenses paid, and a financial statement prepared on a statutory or regulatory basis might be titled *statement of income—statutory basis*. If the auditor believes that the financial statements are not suitably titled, the auditor should disclose his or her reservations in an explanatory paragraph of the report and qualify the opinion.*

.08 Following are illustrations of reports on financial statements prepared in conformity with a comprehensive basis of accounting other than generally accepted accounting principles.^[7]

Financial Statements Prepared on a Basis Prescribed by a Regulatory Agency Solely for Filing With That Agency

Independent Auditor's Report

We have audited the accompanying statements of admitted assets, liabilities, and surplus—statutory basis of XYZ Insurance Company as of December 31, 20X2 and 20X1, and the related statements of income and cash flows—statutory basis and changes in surplus—statutory basis for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared in conformity with the accounting practices prescribed or permitted by the Insurance Department of [State], which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and surplus of XYZ Insurance Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note X.

This report is intended solely for the information and use of the board of directors and management of XYZ Insurance Company and [name of regulatory agency] and is not intended to be and should not be used by anyone other than these specified parties.

Financial Statements Prepared on the Entity's Income Tax Basis

Independent Auditor's Report

We have audited the accompanying statements of assets, liabilities, and capital—income tax basis of ABC Partnership as of December 31, 20X2 and 20X1, and the related statements of revenue and expenses—income tax basis

^[7] [Footnote deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 87.]

and of changes in partners' capital accounts—income tax basis for the years then ended. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared on the basis of accounting the Partnership uses for income tax purposes, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and capital of ABC Partnership as of [at] December 31, 20X2 and 20X1, and its revenue and expenses and changes in partners' capital accounts for the years then ended, on the basis of accounting described in Note X.

Financial Statements Prepared on the Cash Basis

Independent Auditor's Report

We have audited the accompanying statements of assets and liabilities arising from cash transactions of XYZ Company as of December 31, 20X2 and 20X1, and the related statements of revenue collected and expenses paid for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of XYZ Company as of December 31, 20X2 and 20X1, and its revenue collected and expenses paid during the years then ended, on the basis of accounting described in Note X.

[Revised, October 2000, to reflect conforming changes necessary to reflect the issuance of Statement on Auditing Standards No. 93.]

Evaluating the Adequacy of Disclosure in Financial Statements Prepared in Conformity With an Other Comprehensive Basis of Accounting

.09 When reporting on financial statements prepared on a comprehensive basis of accounting other than generally accepted accounting principles, the auditor should consider whether the financial statements (including the accompanying notes) include all informative disclosures that are appropriate for the basis of accounting used. The auditor should apply essentially the same criteria to financial statements prepared on an other comprehensive basis of accounting as he or she does to financial statements prepared in conformity with generally accepted accounting principles. Therefore, the auditor's opinion should be based on his or her judgment regarding whether the financial statements, including the related notes, are informative of matters that may affect their use, understanding, and interpretation as discussed in section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*, paragraph .04. [Title of section 411 amended, effective for reports issued or reissued on or after June 30, 2001, by Statement on Auditing Standards No. 93.]

.10 Financial statements prepared on an other comprehensive basis of accounting should include, in the accompanying notes, a summary of significant accounting policies that discusses the basis of presentation and describes how that basis differs from generally accepted accounting principles. However, the effects of the differences between generally accepted accounting principles and the basis of presentation of the financial statements that the auditor is reporting on need not be quantified. In addition, when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in conformity with generally accepted accounting principles, similar informative disclosures are appropriate. For example, financial statements prepared on an income tax basis or a modified cash basis of accounting usually reflect depreciation, long-term debt and owners' equity. Thus, the informative disclosures for depreciation, long-term debt and owners' equity in such financial statements should be comparable to those in financial statements prepared in conformity with generally accepted accounting principles. When evaluating the adequacy of disclosures, the auditor should also consider disclosures related to matters that are not specifically identified on the face of the financial statements, such as (a) related party transactions, (b) restrictions on assets and owners' equity, (c) subsequent events, and (d) uncertainties.

Specified Elements, Accounts, or Items of a Financial Statement

.11 An independent auditor may be requested to express an opinion on one or more specified elements, accounts, or items of a financial statement. In such an engagement, the specified element(s), account(s), or item(s) may be presented in the report or in a document accompanying the report. Examples of one or more specified elements, accounts, or items of a financial statement that an auditor may report on based on an audit made in accordance with generally

accepted auditing standards include rentals, royalties, a profit participation, or a provision for income taxes.⁸

.12 When expressing an opinion on one or more specified elements, accounts, or items of a financial statement, the auditor should plan and perform the audit and prepare his or her report with a view to the purpose of the engagement. With the exception of the first standard of reporting, the ten generally accepted auditing standards are applicable to any engagement to express an opinion on one or more specified elements, accounts, or items of a financial statement. The first standard of reporting, which requires that the auditor's report state whether the financial statements are presented in conformity with generally accepted accounting principles, is applicable only when the specified elements, accounts, or items of a financial statement are intended to be presented in conformity with generally accepted accounting principles.

.13 An engagement to express an opinion on one or more specified elements, accounts, or items of a financial statement may be undertaken as a separate engagement or in conjunction with an audit of financial statements. In either case, an auditor expresses an opinion on each of the specified elements, accounts, or items encompassed by the auditor's report; therefore, the measurement of materiality must be related to each individual element, account, or item reported on rather than to the aggregate thereof or to the financial statements taken as a whole. Consequently, an audit of a specified element, account, or item for purposes of reporting thereon is usually more extensive than if the same information were being considered in conjunction with an audit of financial statements taken as a whole. Also, many financial statement elements are interrelated, for example, sales and receivables; inventory and payables; and buildings and equipment and depreciation. The auditor should be satisfied that elements, accounts, or items that are interrelated with those on which he or she has been engaged to express an opinion have been considered in expressing an opinion.

.14 The auditor should not express an opinion on specified elements, accounts, or items included in financial statements on which he or she has expressed an adverse opinion or disclaimed an opinion based on an audit, if such reporting would be tantamount to expressing a piecemeal opinion on the financial statements (see section 508, *Reports on Audited Financial Statements*, paragraph .64). However, an auditor would be able to express an opinion on one or more specified elements, accounts, or items of a financial statement provided that the matters to be reported on and the related scope of the audit were not intended to and did not encompass so many elements, accounts, or items as to constitute a major portion of the financial statements. For example, it may be appropriate for an auditor to express an opinion on an entity's accounts receivable balance even if the auditor has disclaimed an opinion on the financial statements taken as a whole. However, the report on the specified element, account, or item should be presented separately from the report on the financial statements of the entity.

⁸ See AT section 201, *Agreed-Upon Procedures Engagements*, for guidance when reporting on the results of applying agreed-upon procedures to one or more specified elements, accounts, or items of a financial statement. See AT section 101, *Attest Engagements*, for guidance when reporting on a review of one or more specified elements, accounts, or items of a financial statement. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Reports on One or More Specified Elements, Accounts, or Items of a Financial Statement

.15 When an independent auditor is engaged to express an opinion on one or more specified elements, accounts, or items of a financial statement, the report should include—

- a. A title that includes the word *independent*.⁹
- b. A paragraph that—
 - (1) States that the specified elements, accounts, or items identified in the report were audited. If the audit was made in conjunction with an audit of the company's financial statements, the paragraph should so state and indicate the date of the auditor's report on those financial statements. Furthermore, any departure from the standard report on those statements should also be disclosed if considered relevant to the presentation of the specified element, account or item.
 - (2) States that the specified elements, accounts, or items are the responsibility of the Company's management and that the auditor is responsible for expressing an opinion on the specified elements, accounts or items based on the audit.
- c. A paragraph that—
 - (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the specified elements, accounts, or items are free of material misstatement.
 - (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the presentation of the specified elements, accounts, or items,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall presentation of the specified elements, accounts, or items.
 - (4) States that the auditor believes that his or her audit provides a reasonable basis for the auditor's opinion.

⁹ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

- d. A paragraph¹⁰ that—
- (1) Describes the basis on which the specified elements, accounts, or items are presented (see paragraphs .09 and .10) and, when applicable, any agreements specifying such basis if the presentation is not prepared in conformity with generally accepted accounting principles.¹¹ If the presentation is prepared in conformity with generally accepted accounting principles, the paragraph should include an identification of the United States of America as the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles).
 - (2) If considered necessary, includes a description and the source of significant interpretations, if any, made by the Company's management, relating to the provisions of a relevant agreement.
- e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) on whether the specified elements, accounts, or items are fairly presented, in all material respects, in conformity with the basis of accounting described. If the auditor concludes that the specified elements, accounts, or items are not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, the auditor should disclose all the substantive reasons for that conclusion in an explanatory paragraph(s) (preceding the opinion paragraph) of the report and should include in the opinion paragraph appropriate modifying language and a reference to such explanatory paragraph(s).¹²
- f. If the specified element, account, or item is prepared to comply with the requirements or financial reporting provisions of a contract or agreement that results in a presentation that is not in conformity with either generally accepted accounting principles or an other comprehensive basis of accounting, a separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the parties to the contract or agreement,¹³ and is not intended to be and should not be used by anyone other than these specified parties. Such a restriction on the use of the report is necessary because the basis, assumptions, or purpose of the presentation (contained in the contract or agreement) is developed for and directed only to the parties to the contract or agreement.
- g. The manual or printed signature of the auditor's firm.

¹⁰ Alternatively, this requirement can be met by incorporating the description in the introductory paragraph discussed in paragraph .15b above. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹¹ When the specified element, account, or item is presented in conformity with an other comprehensive basis of accounting, see paragraph .05d(2). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹² Paragraph 31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹³ If the presentation is prepared on a basis prescribed by a governmental regulatory agency (which is also OCBOA), the auditor should restrict the distribution of the report on such presentation. See paragraph .05f for further reporting guidance in this situation. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

h. The date.¹⁴

When expressing an opinion on one or more specified elements, accounts, or items of a financial statement, the auditor, to provide more information as to the scope of the audit, may wish to describe in a separate paragraph certain other auditing procedures applied. However, no modification in the content of paragraph .15c above should be made. [Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.16 If a specified element, account, or item is, or is based upon, an entity's net income or stockholders' equity or the equivalent thereof, the auditor should have audited the complete financial statements to express an opinion on the specified element, account, or item.

.17 The auditor should consider the effect that any departure, including additional explanatory language because of the circumstances discussed in section 508, *Reports on Audited Financial Statements*, paragraph .11, from the standard report on the audited financial statements might have on the report on a specified element, account, or item thereof.

.18 Following are illustrations of reports expressing an opinion on one or more specified elements, accounts, or items of a financial statement.

Report Relating to Accounts Receivable

Independent Auditor's Report

We have audited the accompanying schedule of accounts receivable of ABC Company as of December 31, 20X2. This schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of accounts receivable is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of accounts receivable. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the schedule of accounts receivable referred to above presents fairly, in all material respects, the accounts receivable of ABC Company as of December 31, 20X2, in conformity with accounting principles generally accepted in the United States of America.¹⁵

Report Relating to Amount of Sales for the Purpose of Computing Rental

Independent Auditor's Report

We have audited the accompanying schedule of gross sales (as defined in the lease agreement dated March 4, 20XX, between ABC Company, as lessor, and

¹⁴ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹⁵ Since this presentation was prepared in conformity with generally accepted accounting principles, the report need not be restricted. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

XYZ Stores Corporation, as lessee) of XYZ Stores Corporation at its Main Street store, [City], [State], for the year ended December 31, 20X2. This schedule is the responsibility of XYZ Stores Corporation's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of gross sales is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of gross sales. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the schedule of gross sales referred to above presents fairly, in all material respects, the gross sales of XYZ Stores Corporation at its Main Street store, [City], [State], for the year ended December 31, 20X2, as defined in the lease agreement referred to in the first paragraph.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Stores Corporation and ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

Report Relating to Royalties

Independent Auditor's Report

We have audited the accompanying schedule of royalties applicable to engine production of the Q Division of XYZ Corporation for the year ended December 31, 20X2, under the terms of a license agreement dated May 14, 20XX, between ABC Company and XYZ Corporation. This schedule is the responsibility of XYZ Corporation's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of royalties is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of royalties. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

We have been informed that, under XYZ Corporation's interpretation of the agreement referred to in the first paragraph, royalties were based on the number of engines produced after giving effect to a reduction for production retirements that were scrapped, but without a reduction for field returns that were scrapped, even though the field returns were replaced with new engines without charge to customers.

In our opinion, the schedule of royalties referred to above presents fairly, in all material respects, the number of engines produced by the Q Division of XYZ Corporation during the year ended December 31, 20X2, and the amount of royalties applicable thereto, under the license agreement referred to above.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Corporation and ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

Report on a Profit Participation¹⁶

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company for the year ended December 31, 20X1, and have issued our report thereon dated March 10, 20X2. We have also audited XYZ Company's schedule of John Smith's profit participation for the year ended December 31, 20X1. This schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit of the schedule in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of profit participation is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

We have been informed that the documents that govern the determination of John Smith's profit participation are (a) the employment agreement between John Smith and XYZ Company dated February 1, 20X0, (b) the production and distribution agreement between XYZ Company and Television Network Incorporated dated March 1, 20X0, and (c) the studio facilities agreement between XYZ Company and QRX Studios dated April 1, 20X0, as amended November 1, 20X0.

In our opinion, the schedule of profit participation referred to above presents fairly, in all material respects, John Smith's participation in the profits of XYZ Company for the year ended December 31, 20X1, in accordance with the provisions of the agreements referred to above.

This report is intended solely for the information and use of the boards of directors and managements of XYZ Company and John Smith and is not intended to be and should not be used by anyone other than these specified parties.

Report on Federal and State Income Taxes Included in Financial Statements¹⁷

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, Inc., for the year ended June 30, 20XX, and have issued our report thereon dated August 15, 20XX. We have also audited the current and deferred provision for the Company's federal and state income taxes for the year ended June 30, 20XX, included in those financial statements, and the related asset and liability tax accounts as of June 30, 20XX. This income tax information is the responsibility of the Company's management. Our responsibility is to express an opinion on it based on our audit.

¹⁶ See paragraph .16. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹⁷ See paragraph .16. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

We conducted our audit of the income tax information in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the federal and state income tax accounts are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures related to the federal and state income tax accounts. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the federal and state income tax accounts. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Company has paid or, in all material respects, made adequate provision in the financial statements referred to above for the payment of all federal and state income taxes and for related deferred income taxes that could be reasonably estimated at the time of our audit of the financial statements of XYZ Company, Inc., for the year ended June 30, 20XX.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Compliance With Aspects of Contractual Agreements or Regulatory Requirements Related to Audited Financial Statements

.19 Entities may be required by contractual agreements, such as certain bond indentures and loan agreements, or by regulatory agencies to furnish compliance reports by independent auditors.¹⁸ For example, loan agreements often impose on borrowers a variety of obligations involving matters such as payments into sinking funds, payments of interest, maintenance of current ratios, and restrictions of dividend payments. They usually also require the borrower to furnish annual financial statements that have been audited by an independent auditor. In some instances, the lenders or their trustees may request assurance from the independent auditor that the borrower has complied with certain covenants of the agreement relating to accounting matters. The independent auditor may satisfy this request by giving negative assurance relative to the applicable covenants based on the audit of the financial statements. This assurance may be given in a separate report or in one or more paragraphs of the auditor's report accompanying the financial statements. Such assurance, however, should not be given unless the auditor has audited the financial statements to which the contractual agreements or regulatory requirements relate and should not extend to covenants that relate to matters that have not been subjected to the audit procedures applied in the audit of the financial statements.¹⁹ In addition, such assurance should not be given if the auditor has

¹⁸ When the auditor is engaged to test compliance with laws and regulations in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States (Yellow Book), he or she should follow guidance contained in section 801, *Compliance Auditing Applicable to Governmental Entities and Other Specified Recipients of Governmental Financial Assistance*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

¹⁹ When the auditor is engaged to provide assurance on compliance with contractual agreements or regulatory provisions that relate to matters that have not been subjected to the audit procedures applied in the audit of the financial statements, the auditor should refer to the guidance in AT section 601, *Compliance Attestation*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995. Footnote revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 3. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

expressed an adverse opinion or disclaimed an opinion on the financial statements to which these covenants relate.

.20 When an auditor's report on compliance with contractual agreements or regulatory provisions is being given in a separate report, the report should include—

- a. A title that includes the word *independent*.²⁰
- b. A paragraph that states the financial statements were audited in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and the date of the auditor's report on those financial statements. Furthermore, any departure from the standard report on those statements should also be disclosed.
- c. A paragraph that includes a reference to the specific covenants or paragraphs of the agreement, provides negative assurance relative to compliance with the applicable covenants of the agreement insofar as they relate to accounting matters, and specifies that the negative assurance is being given in connection with the audit of the financial statements. The auditor should ordinarily state that the audit was not directed primarily toward obtaining knowledge regarding compliance.
- d. A paragraph that includes a description and the source of significant interpretations, if any, made by the Company's management relating to the provisions of a relevant agreement.
- e. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity and the parties to the contract or agreement or the regulatory agency with which the report is being filed, and is not intended to be and should not be used by anyone other than these specified parties. Such a restriction on the use of the report is necessary because the basis, assumptions, or purpose of such presentations (contained in such contracts, agreements, or regulatory provisions) are developed for and directed only to the parties to the contract or agreement, or regulatory agency responsible for the provisions.
- f. The manual or printed signature of the auditor's firm.
- g. The date.²¹

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.21 When an auditor's report on compliance with contractual agreements or regulatory provisions is included in the report that expresses the auditor's opinion on the financial statements, the auditor should include a paragraph, after the opinion paragraph, that provides negative assurance relative to compliance with the applicable covenants of the agreement, insofar as they relate to accounting matters, and that specifies the negative assurance is being given

²⁰ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²¹ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

in connection with the audit of the financial statements. The auditor should also ordinarily state that the audit was not directed primarily toward obtaining knowledge regarding compliance. In addition, the report should include a paragraph that includes a description and source of any significant interpretations made by the entity's management as discussed in paragraph .20*d* as well as a paragraph that restricts the use of the report to the specified parties as discussed in paragraph .20*e*. Following are examples of reports that might be issued:

Report on Compliance With Contractual Provisions Given in a Separate Report²²

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet of XYZ Company as of December 31, 20X2, and the related statement of income, retained earnings, and cash flows for the year then ended, and have issued our report thereon dated February 16, 20X3.

In connection with our audit, nothing came to our attention that caused us to believe that the Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to XX, inclusive, of the Indenture dated July 21, 20X0, with ABC Bank insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

This report is intended solely for the information and use of the boards of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance With Regulatory Requirements Given in a Separate Report When the Auditor's Report on the Financial Statements Included an Explanatory Paragraph Because of an Uncertainty

Independent Auditor's Report

We have audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet of XYZ Company as of December 31, 20X2, and the related statement of income, retained earnings, and cash flows for the year then ended, and have issued our report thereon dated March 5, 20X3, which included an explanatory paragraph that described the litigation discussed in Note X of those statements.

In connection with our audit, nothing came to our attention that caused us to believe that the Company failed to comply with the accounting provisions in sections (1), (2) and (3) of the [name of state regulatory agency]. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

²² When the auditor's report on compliance with contractual agreements or regulatory provisions is included in the report that expresses the auditor's opinion on the financial statements, the last two paragraphs of this report are examples of the paragraphs that should follow the opinion paragraph of the auditor's report on the financial statements. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

This report is intended solely for the information and use of the board of directors and managements of XYZ Company and the [name of state regulatory agency] and is not intended to be and should not be used by anyone other than these specified parties.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Special-Purpose Financial Presentations to Comply With Contractual Agreements or Regulatory Provisions

.22 An auditor is sometimes asked to report on special-purpose financial statements prepared to comply with a contractual agreement²³ or regulatory provisions. In most circumstances, these types of presentations are intended solely for the use of the parties to the agreement, regulatory bodies, or other specified parties. This section discusses reporting on these types of presentations, which include the following:

- a. A special-purpose financial presentation prepared in compliance with a contractual agreement or regulatory provision that does not constitute a complete presentation of the entity's assets, liabilities, revenues and expenses, but is otherwise prepared in conformity with generally accepted accounting principles or an other comprehensive basis of accounting (paragraphs .23 through .26).
- b. A special-purpose financial presentation (may be a complete set of financial statements or a single financial statement) prepared on a basis of accounting prescribed in an agreement that does not result in a presentation in conformity with generally accepted accounting principles or an other comprehensive basis of accounting (paragraphs .27 through .30).

Financial Statements Prepared on a Basis of Accounting Prescribed in a Contractual Agreement or Regulatory Provision That Results in an Incomplete Presentation But One That is Otherwise in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

.23 A governmental agency may require a schedule of gross income and certain expenses of an entity's real estate operation in which income and expenses are measured in conformity with generally accepted accounting principles, but expenses are defined to exclude certain items such as interest, depreciation, and income taxes. Such a schedule may also present the excess of gross income over defined expenses. Also, a buy-sell agreement may specify a schedule of gross assets and liabilities of the entity measured in conformity with generally accepted accounting principles, but limited to the assets to be sold and liabilities to be transferred pursuant to the agreement.

.24 Paragraph .02 of this section defines the term *financial statement* and includes a list of financial presentations that an auditor should consider to be financial statements for reporting purposes. The concept of specified elements, accounts, or items of a financial statement discussed in paragraphs .11

²³ A contractual agreement as discussed in this section is an agreement between the client and one or more third parties other than the auditor. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

through .18, on the other hand, refers to accounting information that is part of, but significantly less than, a financial statement. The financial presentations described above and similar presentations should generally be regarded as financial statements, even though, as indicated above, certain items may be excluded. Thus, when the auditor is asked to report on these types of presentations, the measurement of materiality for purposes of expressing an opinion should be related to the presentations taken as a whole (see section 312, *Audit Risk and Materiality in Conducting an Audit*). Further, the presentations should differ from complete financial statements only to the extent necessary to meet special purposes for which they were prepared. In addition, when these financial presentations contain items that are the same as, or similar to, those contained in a full set of financial statements prepared in conformity with generally accepted accounting principles, similar informative disclosures are appropriate (see paragraphs .09 and .10). The auditor should also be satisfied that the financial statements presented are suitably titled to avoid any implication that the special-purpose financial statements on which he or she is reporting are intended to present financial position, results of operations, or cash flows.

.25 When the auditor is asked to report on financial statements prepared on a basis of accounting prescribed in a contractual agreement or regulatory provision that results in an incomplete presentation but one that is otherwise in conformity with generally accepted accounting principles or an other comprehensive basis of accounting, the auditor's report should include—

- a. A title that includes the word *independent*.²⁴
- b. A paragraph that—
 - (1) States that the financial statements identified in the report were audited.
 - (2) States that the financial statements are the responsibility of the Company's management²⁵ and that the auditor is responsible for expressing an opinion on the financial statements based on the audit.²⁶
- c. A paragraph that—
 - (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

²⁴ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²⁵ Sometimes the auditor's client may not be the person responsible for the financial statements on which the auditor is reporting. For example, when the auditor is engaged by the buyer to report on the seller's financial statements prepared in conformity with a buy-sell agreement, the person responsible for the financial statements may be the seller's management. In this case, the wording of this statement should be changed to clearly identify the party that is responsible for the financial statements reported on. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²⁶ See footnote 2. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

- (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall financial statement presentation.
 - (4) States that the auditor believes that the audit provides a reasonable basis for his or her opinion.
- d. A paragraph that—
- (1) Explains what the presentation is intended to present and refers to the note to the special-purpose financial statements that describes the basis of presentation (see paragraphs .09 and .10).
 - (2) If the basis of presentation is in conformity with generally accepted accounting principles, states that the presentation is not intended to be a complete presentation of the entity's assets, liabilities, revenues and expenses.²⁷
- e. A paragraph that expresses the auditor's opinion (or disclaims an opinion) related to the fair presentation, in all material respects, of the information the presentation is intended to present in conformity with generally accepted accounting principles or an other comprehensive basis of accounting. If the presentation is prepared in conformity with generally accepted accounting principles, the paragraph should include an identification of the United States of America as the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles). If the auditor concludes that the information the presentation is intended to present is not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, the auditor should disclose all the substantive reasons for that conclusion in an explanatory paragraph(s) (preceding the opinion paragraph) of the report and should include in the opinion paragraph appropriate modifying language and a reference to such explanatory paragraph(s).²⁸
- f. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity, the parties to the contract or agreement, the regulatory agency with which the report is being filed, or those with whom the entity is negotiating directly, and is not intended to be and should not be used by anyone other than these specified parties.

²⁷ If the basis of presentation is an other comprehensive basis of accounting, the paragraph should state that the basis of presentation is a comprehensive basis of accounting other than generally accepted accounting principles and that it is not intended to be a complete presentation of the entity's assets, liabilities, revenues and expenses on the basis described. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

²⁸ Paragraph .31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

However, such a paragraph is not appropriate if the report and related financial presentation are to be filed with a regulatory agency, such as the Securities and Exchange Commission, and are to be included in a document (such as a prospectus) that is distributed to the general public.

- g. The manual or printed signature of the auditor's firm.
- h. The date.²⁹

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.26 The following examples illustrate reports expressing an opinion on such special-purpose financial statements:

Report on a Schedule of Gross Income and Certain Expenses to Meet a Regulatory Requirement and to Be Included in a Document Distributed to the General Public

Independent Auditor's Report

We have audited the accompanying Historical Summaries of Gross Income and Direct Operating Expenses of ABC Apartments, City, State (Historical Summaries), for each of the three years in the period ended December 31, 20XX. These Historical Summaries are the responsibility of the Apartments' management. Our responsibility is to express an opinion on the Historical Summaries based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Historical Summaries are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Historical Summaries. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Historical Summaries. We believe that our audits provide a reasonable basis for our opinion.

The accompanying Historical Summaries were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the registration statement on Form S-11 of DEF Corporation) as described in Note X and are not intended to be a complete presentation of the Apartments' revenues and expenses.

In our opinion, the Historical Summaries referred to above present fairly, in all material respects, the gross income and direct operating expenses described in Note X of ABC Apartments for each of the three years in the period ended December 31, 20XX, in conformity with accounting principles generally accepted in the United States of America.

Report on a Statement of Assets Sold and Liabilities Transferred to Comply With a Contractual Agreement

Independent Auditor's Report

We have audited the accompanying statement of net assets sold of ABC Company as of June 8, 20XX. This statement of net assets sold is the responsibility

²⁹ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

of ABC Company's management. Our responsibility is to express an opinion on the statement of net assets sold based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of net assets sold is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of net assets sold. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present the net assets of ABC Company sold to XYZ Corporation pursuant to the purchase agreement described in Note X, and is not intended to be a complete presentation of ABC Company's assets and liabilities.

In our opinion, the accompanying statement of net assets sold presents fairly, in all material respects, the net assets of ABC Company as of June 8, 20XX sold pursuant to the purchase agreement referred to in Note X, in conformity with accounting principles generally accepted in the United States of America.

This report is intended solely for the information and use of the boards of directors and managements of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Financial Statements Prepared on a Basis of Accounting Prescribed in an Agreement That Results in a Presentation That is not in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

.27 The auditor may be asked to report on special-purpose financial statements prepared in conformity with a basis of accounting that departs from generally accepted accounting principles or an other comprehensive basis of accounting. A loan agreement, for example, may require the borrower to prepare consolidated financial statements in which assets, such as inventory, are presented on a basis that is not in conformity with generally accepted accounting principles or an other comprehensive basis of accounting. An acquisition agreement may require the financial statements of the entity being acquired (or a segment of it) to be prepared in conformity with generally accepted accounting principles except for certain assets, such as receivables, inventories, and properties for which a valuation basis is specified in the agreement.

.28 Financial statements prepared under a basis of accounting as discussed above are not considered to be prepared in conformity with a "comprehensive basis of accounting" as contemplated by paragraph .04 of this section because the criteria used to prepare such financial statements do not meet the requirement of being "criteria having substantial support," even though the criteria are definite.

.29 When an auditor is asked to report on these types of financial presentations, the report should include—

- a. A title that includes the word *independent*.³⁰
- b. A paragraph that—
 - (1) States that the special-purpose financial statements identified in the report were audited.
 - (2) States that the financial statements are the responsibility of the Company's management³¹ and that the auditor is responsible for expressing an opinion on the financial statements based on the audit.³²
- c. A paragraph that—
 - (1) States that the audit was conducted in accordance with generally accepted auditing standards and includes an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards).
 - (2) States that those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.
 - (3) States that an audit includes—
 - (a) Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements,
 - (b) Assessing the accounting principles used and significant estimates made by management, and
 - (c) Evaluating the overall financial statement presentation.
 - (4) States that the auditor believes that the audit provides a reasonable basis for the auditor's opinion.
- d. A paragraph that—
 - (1) Explains what the presentation is intended to present and refers to the note to the special-purpose financial statements that describes the basis of presentation (see paragraphs .09 and .10).
 - (2) States that the presentation is not intended to be a presentation in conformity with generally accepted accounting principles.
- e. A paragraph that includes a description and the source of significant interpretations, if any, made by the Company's management relating to the provisions of a relevant agreement.

³⁰ See footnote 1. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³¹ See footnote 25. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³² See footnote 2. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

- f. A paragraph that expresses the auditor's opinion (or disclaims an opinion) related to the fair presentation, in all material respects, of the information the presentation is intended to present on the basis of accounting specified. If the auditor concludes that the information the presentation is intended to present is not presented fairly on the basis of accounting described or if there has been a limitation on the scope of the audit, the auditor should disclose all the substantive reasons for that conclusion in an explanatory paragraph(s) (preceding the opinion paragraph) of the report and should include in the opinion paragraph appropriate modifying language and a reference to such explanatory paragraph(s).³³
- g. A separate paragraph at the end of the report stating that the report is intended solely for the information and use of those within the entity, the parties to the contract or agreement, the regulatory agency with which the report is being filed, or those with whom the entity is negotiating directly, and is not intended to be and should not be used by anyone other than these specified parties. For example, if the financial statements have been prepared for the specified purpose of obtaining bank financing, the report's use should be restricted to the various banks with whom the entity is negotiating the proposed financing.
- h. The manual or printed signature of the auditor's firm.
- i. The date.³⁴

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

.30 The following example illustrates reporting on special-purpose financial statements that have been prepared pursuant to a loan agreement:

Report on Financial Statements Prepared Pursuant to a Loan Agreement That Results in a Presentation not in Conformity With Generally Accepted Accounting Principles or an Other Comprehensive Basis of Accounting

Independent Auditor's Report

We have audited the special-purpose statement of assets and liabilities of ABC Company as of December 31, 20X2 and 20X1, and the related special-purpose statements of revenues and expenses and of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the

³³ Paragraph .31 discusses other circumstances that may require that the auditor add additional explanatory language to the special report. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³⁴ See footnote 6. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of complying with Section 4 of a loan agreement between DEF Bank and the Company as discussed in Note X, and are not intended to be a presentation in conformity with generally accepted accounting principles.

In our opinion, the special-purpose financial statements referred to above present fairly, in all material respects, the assets and liabilities of ABC Company at December 31, 20X2 and 20X1, and the revenues, expenses and cash flows for the years then ended, on the basis of accounting described in Note X.

This report is intended solely for the information and use of the boards of directors and management of ABC Company and DEF Bank and is not intended to be and should not be used by anyone other than these specified parties.

[Revised, October 2000, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 93.]

Circumstances Requiring Explanatory Language in an Auditor's Special Report

.31 Certain circumstances, while not affecting the auditor's unqualified opinion, may require that the auditor add additional explanatory language to the special report. These circumstances include the following:

- a. *Lack of Consistency in Accounting Principles.* If there has been a change in accounting principles or in the method of their application,³⁵ the auditor should add an explanatory paragraph to the report (following the opinion paragraph) that describes the change and refers to the note to the financial presentation (or specified elements, accounts, or items thereof) that discusses the change and its effect thereon³⁶ if the accounting change is considered relevant to the presentation. Guidance on reporting in this situation is contained in section 508, *Reports on Audited Financial Statements*, paragraphs .16 through .18.^[37-38]
- b. *Going Concern Uncertainties.* If the auditor has substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time not to exceed one year beyond the date of the financial statement, the auditor should add an explanatory

³⁵ When financial statements (or specified elements, accounts, or items thereof) have been prepared in conformity with generally accepted accounting principles in prior years, and the entity changes its method of presentation in the current year by preparing its financial statements in conformity with an other comprehensive basis of accounting, the auditor need not follow the reporting guidance in this subparagraph. However, the auditor may wish to add an explanatory paragraph to the report to highlight (1) a difference in the basis of presentation from that used in prior years or (2) that another report has been issued on the entity's financial statements prepared in conformity with another basis of presentation (for example, when cash basis financial statements are issued in addition to GAAP financial statements). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

³⁶ A change in the tax law is not considered to be a change in accounting principle for which the auditor would need to add an explanatory paragraph, although disclosure may be necessary. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 77, November 1995.]

^[37-38] [Footnotes deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 79.]

paragraph after the opinion paragraph of the report only if the auditor's substantial doubt is relevant to the presentation.³⁹

- c. *Other Auditors.* When the auditor decides to make reference to the report of another auditor as a basis, in part, for his or her opinion, the auditor should disclose that fact in the introductory paragraph of the report and should refer to the report of the other auditors in expressing his or her opinion. Guidance on reporting in this situation is contained in section 508, *Reports on Audited Financial Statements*, paragraphs .12 and .13.
- d. *Comparative Financial Statements (or Specified Elements, Accounts, or Items Thereof).* If the auditor expresses an opinion on prior-period financial statements (or specified elements, accounts, or items thereof) that is different from the opinion he or she previously expressed on that same information, the auditor should disclose all of the substantive reasons for the different opinion in a separate explanatory paragraph preceding the opinion paragraph of the report. Guidance on reporting in this situation is contained in section 508, *Reports on Audited Financial Statements*, paragraphs .68 and .69.

As in reports on financial statements prepared in conformity with generally accepted accounting principles, the auditor may add an explanatory paragraph to emphasize a matter regarding the financial statements (or specified elements, accounts, or items thereof). [Revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 79.]

Financial Information Presented in Prescribed Forms or Schedules

.32 Printed forms or schedules designed or adopted by the bodies with which they are to be filed often prescribe the wording of an auditor's report. Many of these forms are not acceptable to independent auditors because the prescribed form of auditor's report does not conform to the applicable professional reporting standards. For example, the prescribed language of the report may call for statements by the auditor that are not consistent with the auditor's function or responsibility.

.33 Some report forms can be made acceptable by inserting additional wording; others can be made acceptable only by complete revision. When a printed report form calls upon an independent auditor to make a statement that he or she is not justified in making, the auditor should reword the form or attach a separate report. In those situations, the reporting provisions of paragraph .05 may be appropriate.

Effective Date

.34 This section is effective for reports issued on or after July 1, 1989. Early application of the provisions of this section is permissible.

³⁹ See section 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, for a report example when the auditor has substantial doubt about the entity's ability to continue as a going concern. 9. Auditors' Special Reports on Property and Liability Insurance Companies' Loss Reserves

.40 Question—The instructions to the statutory annual statement to be filed by property and liability insurance companies with state regulatory agencies include the following:

If a company is required by its domiciliary commissioner, there is to be submitted to the commissioner as an addendum to the Annual Statement by April 1 of the subsequent year a statement of a qualified loss reserve specialist setting forth his or her opinion relating to loss and loss adjustment expense reserves.

The term "qualified loss reserve specialist" includes an independent auditor who has competency in loss reserve evaluation.

.41 If an independent auditor who has made an audit of the insurance company's financial statements in accordance with generally accepted auditing standards is engaged to express a separate opinion on the company's loss and loss adjustment expense reserves for the purpose of compliance with the above instruction, what form of report should be used by the independent auditor?

.42 Interpretation—Section 623.11 through .18 provides guidance on auditors' reports expressing an opinion on one or more specified elements, accounts, or items of a financial statement. Following are illustrations of the auditor's report expressing an opinion on a company's loss and loss adjustment expense reserves and the schedule of liabilities for losses and loss adjustment expenses that would accompany the report.⁵

Illustrative report

Board of Directors

X Insurance Company

We are members of the American Institute of Certified Public Accountants (AICPA) and are the independent public accountants of X Insurance Company. We acknowledge our responsibility under the AICPA's Code of Professional Conduct to undertake only those engagements which we can complete with professional competence.

We have audited the financial statements prepared in conformity with accounting principles generally accepted in the United States of America *[or prepared in conformity with accounting practices prescribed or permitted by the*

⁵ If a significant period of time has elapsed between the date of the report on the financial statements and the date he is reporting on the loss and loss adjustment expense reserves, the auditor may wish to include the following paragraph after the opinion paragraph: Because we have not audited any financial statements of X Insurance Company as of any date or for any period subsequent to December 31, 20X0, we have no knowledge of the effects, if any, on the liability for unpaid losses and unpaid loss adjustment expenses of events that may have occurred subsequent to the date of our audit.

Insurance Department of the State of] of X Insurance Company as of December 31, 20X0, and have issued our report thereon dated March 1, 19X1. In the course of our audit, we have audited the estimated liabilities for unpaid losses and unpaid loss adjustment expenses of X Insurance Company as of December 31, 20X0, as set forth in the accompanying schedule including consideration of the assumptions and methods relating to the estimation of such liabilities.

In our opinion, the accompanying schedule presents fairly, in all material respects, the estimated unpaid losses and unpaid loss adjustment expenses of X Insurance Company that could be reasonably estimated at December 31, 20X0, in conformity with accounting practices prescribed or permitted by the Insurance Department of the State of on a basis consistent with that of the preceding year.

This report is intended solely for the information and use of the board of directors and management of X Insurance Company and [*the state regulatory agencies to whose jurisdiction the entity is subject*] and is not intended to be and should not be used by anyone other than these specified parties.

Signature
Date

X Insurance Company
Schedule of Liabilities for Losses
and Loss Adjustment Expenses
December 31, 19X0

Liability for losses	\$xx,xxx,xxx
Liability for loss adjustment expenses	<u>x,xxx,xxx</u>
Total	<u>\$xx,xxx,xxx</u>

Note 1—Basis of presentation

The above schedule has been prepared in conformity with accounting practices prescribed or permitted by the Insurance Department of the State of (Significant differences between statutory practices and generally accepted accounting principles for the calculation of the above amounts should be described but the monetary effect of any such differences need not be stated.)

Losses and loss adjustment expenses are provided for when incurred in accordance with the applicable requirements of the insurance laws [and/or regulations] of the State of Such provisions include (1) individual case estimates for reported losses, (2) estimates received from other insurers with respect to reinsurance assumed, (3) estimates for unreported losses based on past experience modified for current trends, and (4) estimates of expenses for investigating and settling claims.

Note 2—Reinsurance

The Company reinsures certain portions of its liability insurance coverages to limit the amount of loss on individual claims and purchases catastrophe insurance to protect against aggregate single occurrence losses. Certain portions of property insurance are reinsured on a quota share basis.

The liability for losses and the liability for loss adjustment expenses were reduced by \$xxx,xxx and \$xxx,xxx, respectively, for reinsurance ceded to other companies.

Contingent liability exists with respect to reinsurance which would become an actual liability in the event the reinsuring companies, or any of them, might be unable to meet their obligations to the Company under existing reinsurance agreements.

.43 Question—The instructions to the statutory annual statement also include the following:

If there has been any material change in the assumptions and/or methods from those previously employed, that change should be described in the statement of opinion by inserting a phrase such as:

A material change in assumptions (and/or methods) was made during the past year, but such change accords with accepted loss reserving standards.

A brief description of the change should follow.

.44 In what circumstances is it appropriate for the independent auditor to modify his special report on loss and loss adjustment expense reserves for material changes in assumptions and/or methods?

.45 Interpretation—Section 420.06 states that changes in accounting principles and methods of applying them affect consistency and require the addition of an explanatory paragraph (following the opinion paragraph) in the auditor's report on the audited financial statements. Section 623.16 states that, if applicable, any departures from the auditor's standard report on the related financial statements should be indicated in the special report on an element, account, or item of a financial statement.

.46 Section 420.16 states that a change in accounting estimate is not a change affecting consistency requiring recognition in the auditor's report. However, such changes in estimates that are disclosed in the financial statements on which the auditor has reported should also be disclosed in the notes to the schedule of liabilities for unpaid losses and unpaid loss adjustment expenses accompanying the auditor's special report. (See APB Opinion No. 20, *Accounting Changes*, paragraph 33 [AC section A06.132].)

[Issue Date: May, 1981; Revised: February, 1999; Revised: October, 2000.]

10. Reports on the Financial Statements Included in Internal Revenue Form 990, "Return of Organizations Exempt From Income Tax"

.47 Question—Internal Revenue Form 990, "Return of Organizations Exempt from Income Tax," may be used as a uniform annual report by charitable organizations in some states for reporting to both state and federal governments. Many states require an auditor's opinion on whether the financial statements included in the report⁶ are presented fairly in conformity with generally accepted accounting principles. Ordinarily, financial statements included in a Form 990 used by a charitable organization as a uniform annual report may be expected to contain certain material departures from the accounting principles in the AICPA Audit and Accounting Guides *Health Care Organizations* and *Not-for-Profit Organizations*.

.48 In most states the report is used primarily to satisfy statutory requirements, but regulatory authorities make the financial statements and the accompanying auditor's report a matter of public record. In some situations, however, there may be public distribution of the report. What should be the form of the auditor's report in each of the above situations?

.49 Interpretation—In both situations, the auditor should first consider whether the financial statements (including appropriate notes to financial

⁶ As used in this interpretation, the report refers to a Form 990 report by a charitable organization in a filing with a government agency.

statements) are in conformity with generally accepted accounting principles. If they are, the auditor can express an unqualified opinion.

.50 If the financial statements are not in conformity with generally accepted accounting principles, the auditor should consider the distribution of the report to determine whether it is appropriate to issue a special report (as illustrated in section 623, *Special Reports*, paragraph .08, for reporting on financial statements prepared in accordance with the requirements or financial reporting provisions of a government regulatory agency).

.51 Section 623 permits this type of special report only if the financial statements and report are intended solely for use by those within the entity and one or more regulatory agencies to whose jurisdiction the entity is subject. However, section 623 makes this form of reporting appropriate, even though by law or regulation the accountant's report may be made a matter of public record.⁷

.52 The following example illustrates a report expressing an opinion on such special purpose financial statements:

Independent Auditor's Report

We have audited the balance sheet (Part IV) of XYZ Charity as of December 31, 20XX, and the related statement of revenue, expenses and changes in net assets (Part I) and statement of functional expenses (Part II) for the year then ended included in the accompanying Internal Revenue Service Form 990. These financial statements are the responsibility of Charity's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note X, these financial statements were prepared in conformity with the accounting practices prescribed by the Internal Revenue Service and the Office of the State of, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities and fund balances of XYZ Charity as of December 31, 19XX and its revenue and expenses and changes in fund balances for the year then ended on the basis of accounting described in Note X.^[8]

⁷ *Public record*, for purposes of auditors' reports in states with filing requirements for exempt organizations, includes circumstances in which specific requests must be made by the public to obtain access to or copies of the report, notwithstanding the fact that some states may advertise or require the exempt organization to advertise the availability of Form 990. In contrast, *public distribution*, for purposes of auditors' reports in state filings on various Forms 990 dealing with exempt organizations, includes circumstances in which the regulatory agency or the exempt organization, either because of regulatory requirements or voluntarily, distributes copies of Form 990 to contributors or others without receiving a specific request for such distribution.

^[8] [Footnote deleted.]

Our audit was made for the purpose of forming an opinion on the above financial statements taken as a whole. The accompanying information on pages to is presented for purposes of additional analysis and is not a required part of the above financial statements. Such information, except for that portion marked "unaudited," on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the above financial statements; and, in our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

This report is intended solely for the information and use of the board of directors and management of XYZ Charity, the Internal Revenue Service, and the Office of the State of and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.53 If there is public distribution⁹ of the report, because the law requires it or otherwise (copies of Form 990 are distributed to contributors or others without receiving a specific request for such distribution) and the financial statements included in it are not in conformity with generally accepted accounting principles, a special report (as illustrated in section 623.08) is not appropriate. In such cases, the auditor should express a qualified or adverse opinion and disclose the effects on the financial statements of the departures from generally accepted accounting principles if the effects are reasonably determinable. If the effects are not reasonably determinable, the report should so state.

[.54] [Paragraph deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 87.]

[Issue Date: December, 1991; Revised: February, 1997; Revised: February, 1999; Revised: October 2000.]

11. Reporting on Current-Value Financial Statements That Supplement Historical-Cost Financial Statements in Presentations of Real Estate Entities

.55 Question—A real estate entity presents current-value financial statements¹⁰ to supplement historical-cost financial statements. May an auditor accept an engagement to report on current-value financial statements that supplement historical-cost financial statements, and if so, how should the auditor report?

.56 Interpretation—An auditor may accept an engagement to report on current-value financial statements that supplement historical-cost financial

⁹ Auditors should consider whether there is a public distribution requirement by reference to the relevant state law. However, at this time (April 1982), most state laws do not contain a public distribution requirement and a special report is ordinarily appropriate. For example, the laws of New York, New Jersey and Connecticut do not presently require public distribution as defined by this interpretation.

¹⁰ Generally accepted accounting principles require the use of current-value accounting for financial statements of certain types of entities (for example, investment companies, employee benefit plans, personal financial statements, and mutual and common trust funds). This interpretation does not apply to reports on current-value financial statements of such entities. The auditor engaged to report on current-value financial statements of such entities should follow the guidance in section 508, *Reports on Audited Financial Statements*, and the applicable industry audit guide.

statements of a real estate entity only if the auditor believes the following two conditions exist—

- the measurement and disclosure criteria used to prepare the current-value financial statements are reasonable, and
- competent persons using the measurement and disclosure criteria would ordinarily obtain materially similar measurements or disclosures.

.57 If these conditions are satisfied, an auditor may report on such current-value financial statements in a manner similar to that discussed in section 623, *Special Reports*, paragraph .29. However, because the current-value financial statements only supplement the historical-cost financial statements and are not presented as a stand-alone presentation, it is not necessary to restrict the use of the auditor's report on the presentation as required by that paragraph.

.58 The following is an example of a report an auditor might issue when reporting on current-value financial statements that supplement historical-cost financial statements of a real estate entity:

Independent Auditor's Report

We have audited the accompanying historical-cost balance sheets of X Company as of December 31, 20X3 and 20X2, and the related historical-cost statements of income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 20X3. We also have audited the supplemental current-value balance sheets of X Company as of December 31, 20X3 and 20X2, and the related supplemental current-value statements of income and shareholders' equity for each of the three years in the period ended December 31, 20X3. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the historical-cost financial statements referred to above present fairly, in all material respects, the financial position of X Company as of December 31, 20X3 and 20X2, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 20X3, in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1, the supplemental current-value financial statements have been prepared by management to present relevant financial information that is not provided by the historical-cost financial statements and are not intended to be a presentation in conformity with generally accepted accounting principles. In addition, the supplemental current-value financial statements do not purport to present the net realizable, liquidation, or market value of the Company as a whole. Furthermore, amounts ultimately realized by the Company from the disposal of properties may vary significantly from the current values presented.

In our opinion, the supplemental current-value financial statements referred to above present fairly, in all material respects, the information set forth in them on the basis of accounting described in Note 1.

[Signature]

[Date]

.59 The auditor should also consider the adequacy of disclosures relating to the current value financial statements. Such disclosures should describe the accounting policies applied and such matters as the basis of presentation, nature of the reporting entity's properties, status of construction-in-process, valuation bases used for each classification of assets and liabilities, and sources of valuation. These matters should be disclosed in the notes in a sufficiently clear and comprehensive manner that enables a knowledgeable reader to understand the current-value financial statements.

[Issue Date: July, 1990; Revised: February, 1999; Revised: October, 2000.]

12. Evaluation of the Appropriateness of Informative Disclosures in Insurance Enterprises' Financial Statements Prepared on a Statutory Basis

.60 Question—Insurance enterprises issue financial statements prepared in accordance with accounting practices prescribed or permitted by insurance regulators (a statutory basis) in addition to, or instead of, financial statements prepared in accordance with generally accepted accounting principles (GAAP). Effective January 1, 2001, most states are expected to adopt a comprehensively updated *Accounting Practices and Procedures Manual*, as revised by the National Association of Insurance Commissioners' (NAIC's) Codification project. The updated *Accounting Practices and Procedures Manual*, along with any subsequent revisions, is referred to as the revised Manual. The revised Manual contains extensive disclosure requirements. As a result, after a state adopts the revised Manual, its statutory basis of accounting will include informative disclosures appropriate for that basis of accounting. The NAIC Annual Statement Instructions prescribe the financial statements to be included in the annual audited financial report. Some states may not adopt the revised Manual or may adopt it with significant departures. How should auditors evaluate whether informative disclosures in financial statements prepared on a statutory basis are appropriate?¹¹ [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.61 Interpretation—Financial statements prepared on a statutory basis are financial statements prepared on a comprehensive basis of accounting other than GAAP according to section 623, *Special Reports*, paragraph .04). Section 623.09 states that "When reporting on financial statements prepared on a comprehensive basis of accounting other than generally accepted accounting principles, the auditor should consider whether the financial statements

¹¹ It is possible for one of three different situations to occur: The state adopted the revised Manual without significant departures, adopted the revised Manual with significant departures, or has not yet adopted the revised Manual. [Footnote added, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

(including the accompanying notes) include all informative disclosures that are appropriate for the basis of accounting used. The auditor should apply essentially the same criteria to financial statements prepared on an other comprehensive basis of accounting as those applied to financial statements prepared in conformity with generally accepted accounting principles. Therefore, the auditor's opinion should be based on his or her judgment regarding whether the financial statements, including the related notes, are informative of matters that may affect their use, understanding, and interpretation as discussed in section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*, paragraph .04. [Title of section 411 amended, effective for reports issued or reissued on or after June 30, 2001, by Statement on Auditing Standards No. 93. As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.62 Section 623.02 states that generally accepted auditing standards apply when an auditor conducts an audit of and reports on financial statements prepared on an other comprehensive basis of accounting. Thus, in accordance with the third standard of reporting, informative disclosures in the financial statements are to be regarded as reasonably adequate unless otherwise stated in the report.d

.63 Question—What types of items or matters should auditors consider in evaluating whether informative disclosures are reasonably adequate?

.64 Interpretation—Section 623.09 and .10 indicates that financial statements prepared on a comprehensive basis of accounting other than GAAP should include all informative disclosures that are appropriate for the basis of accounting used. That includes a summary of significant accounting policies that discusses the basis of presentation and describes how that basis differs from GAAP. Section 623.10 also states that when the financial statements [prepared on an other comprehensive basis of accounting] contain items that are the same as, or similar to, those in financial statements prepared in conformity with generally accepted accounting principles, similar informative disclosures are appropriate.d [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[.65–.66] [Paragraphs deleted by the issuance of Statement of Position 01-5, December 2001.]

.67 Question—How does the auditor evaluate whether similar informative disclosures are appropriate for—

- a. Items and transactions that are accounted for essentially the same or in a similar manner under a statutory basis as under GAAP?
- b. Items and transactions that are accounted for differently under a statutory basis than under GAAP?
- c. Items and transactions that are accounted for differently under requirements of the state of domicile than under the revised Manual?

[As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.68 Interpretation—Disclosures in statutory basis financial statements for items and transactions that are accounted for essentially the same or in a similar manner under the statutory basis as under GAAP should be the same as, or similar to, the disclosures required by GAAP unless the revised Manual specifically states the NAIC Codification rejected the GAAP disclosures. Disclosures should also include those required by the revised Manual. [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[.69] [Paragraph deleted by the issuance of Statement of Position 01-5, December 2001.]

.70 Disclosures in statutory basis financial statements for items or transactions that are accounted for differently under the statutory basis than under GAAP, but in accordance with the revised Manual, should be the disclosures required by the revised Manual. [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.71 If the accounting required by the state of domicile for an item or transaction differs from the accounting set forth in the revised Manual for that item or transaction, but it is in accordance with GAAP or superseded GAAP, the disclosures in statutory basis financial statements for that item or transaction should be the applicable GAAP disclosures for the GAAP or superseded GAAP. If the accounting required by the state of domicile for an item or transaction differs from the accounting set forth in the revised Manual, GAAP or superseded GAAP, sufficient relevant disclosures should be made. [As amended, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[.72–.76] [Paragraphs deleted by the issuance of Statement of Position 01-5, December 2001.]

.77 When evaluating the adequacy of disclosures, the auditor should also consider disclosures related to matters that are not specifically identified on the face of the financial statements, such as (a) related party transactions, (b) restrictions on assets and owners' equity, (c) subsequent events, and (d) uncertainties. Other matters should be disclosed if such disclosures are necessary to keep the financial statements from being misleading.

[.78–.79] [Paragraphs deleted to reflect conforming changes necessary due to the issuance of FASB Statement No. 120, *Accounting and Reporting by Mutual Life Insurance Enterprises and by Insurance Enterprises for Certain Long-Duration Participating Contracts*, and FASB Interpretation No. 40, *Applicability of Generally Accepted Accounting Principles to Mutual Life Insurance and Other Enterprises*.]

.80 Question—There may also be instances in which state requirements have not been revised to reflect a new GAAP disclosure requirement. What are the disclosure requirements in those situations? [Paragraph added, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

.81 Interpretation—Until state requirements are determined, the statutory basis financial statements should include disclosures required by new GAAP requirements that are relevant and significant to the statutory basis of accounting, pending acceptance or rejection for inclusion in the revised Manual. [Paragraph added, effective for annual financial statements for fiscal years ending on or after December 15, 2001, and complete sets of interim financial statements for periods beginning on or after that date and audits of those financial statements, by Statement of Position 01-5.]

[Issue Date: December, 1991; Revised: February, 1997;
Amended: December, 2001.]

13. Reporting on a Special-Purpose Financial Statement That Results in an Incomplete Presentation But Is Otherwise in Conformity With Generally Accepted Accounting Principles

.82 Question—An auditor may be requested to report on a special-purpose financial statement that results in an incomplete presentation but otherwise is in conformity with generally accepted accounting principles. For example, an entity wishing to sell a division or product line may prepare an offering memorandum that includes a special-purpose financial statement that presents certain assets and liabilities, revenues and expenses relating to the division or product line being sold. Section 623, *Special Reports*, paragraph .22 states that the auditor may report on a special-purpose financial statement prepared to comply with a contractual agreement. Does an offering memorandum (not including a filing with a regulatory agency) constitute a contractual agreement for purposes of issuing an auditor's report under this section? [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.83 Interpretation—No. An offering memorandum generally is a document providing information as the basis for negotiating an offer to sell certain assets or businesses or to raise funds. Normally, parties to an agreement or other specified parties for whom the special-purpose financial presentation is intended have not been identified. Accordingly, the auditor should follow the reporting guidance in section 508, *Reports on Audited Financial Statements*, paragraphs .35-.44 and .58-.60. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.84 Question—Does an agreement between a client and one or more third parties other than the auditor to prepare financial statements using a special-purpose presentation constitute a contractual agreement for purposes of issuing an auditor's report under this section? [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.85 Interpretation—Yes. In such cases, the auditor should follow the guidance in section 623.22-.26, and use of the auditor's report should be restricted to those within the entity, to the parties to the contract or agreement or to those with whom the entity is negotiating directly.

.86 If there is no such agreement, the auditor should follow the guidance in section 508.35-.44 and .58-.60. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

[.87-.89] [Paragraphs deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 87. Paragraphs renumbered by the issuance of Statement of Position 01-5, December 2001.]

[Issue Date: May, 1995; Revised: February, 1999.]

14. Evaluating the Adequacy of Disclosure in Financial Statements Prepared on the Cash, Modified Cash, or Income Tax Basis of Accounting

.90 Question—Section 623, *Special Reports*, paragraph .10, requires that financial statements prepared on a comprehensive basis of accounting other than generally accepted accounting principles (GAAP) include a summary of significant accounting policies that discusses the basis of presentation and describes how that basis differs from GAAP. It also states that when such financial statements contain items that are the same as, or similar to, those in statements prepared in conformity with GAAP, "similar informative disclosures are appropriate." To illustrate how to apply that statement, section 623.10 says that the disclosures for depreciation, long-term debt, and owners' equity should be "comparable to" those in financial statements prepared in conformity with GAAP. That paragraph then states that the auditor "should also consider" the need for disclosure of matters that are not specifically identified on the face of the statements, such as (a) related party transactions, (b) restrictions on assets and owners' equity, (c) subsequent events, and (d) uncertainties. How should the guidance in section 623.10 be applied in evaluating the adequacy of disclosure in financial statements prepared on the cash, modified cash, or income tax basis of accounting? [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.91 Interpretation—The discussion of the basis of presentation may be brief; for example: "The accompanying financial statements present financial results on the accrual basis of accounting used for federal income tax reporting." Only the primary differences from GAAP need to be described. To illustrate, assume that several items are accounted for differently than they would be under GAAP, but that only the differences in depreciation calculations are significant. In that situation, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. Quantifying differences is not required. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.92 If cash, modified cash, or income tax basis financial statements contain elements, accounts, or items for which GAAP would require disclosure, the statements should either provide the relevant disclosure that would be required for those items in a GAAP presentation or provide information that communicates the substance of that disclosure. That may result in substituting qualitative information for some of the quantitative information required for GAAP presentations. For example, disclosing the repayment terms of significant long-term borrowings may sufficiently communicate information about future principal reduction without providing the summary of principal reduction during each of the next five years that would be required for a GAAP presentation. Similarly, disclosing estimated percentages of revenues, rather than amounts that GAAP presentations would require, may sufficiently convey the significance of sales or leasing to related parties. GAAP disclosure requirements that are not relevant to the measurement of the element, account, or item need not be considered. To illustrate:

- a. The fair value information that FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities* [AC section I80], would require disclosing for debt and equity securities reported in GAAP presentations would not be relevant when the basis of presentation does not adjust the cost of such securities to their fair value.

- b. The information based on actuarial calculations that FASB Statement No. 87, *Employers' Accounting for Pensions* [AC section P16], would require disclosing for contributions to defined benefit plans reported in GAAP presentations would not be relevant in income tax or cash basis financial statements.

[Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.93 If GAAP sets forth requirements that apply to the presentation of financial statements, then cash, modified cash, and income tax basis statements should either comply with those requirements or provide information that communicates the substance of those requirements. The substance of GAAP presentation requirements may be communicated using qualitative information and without modifying the financial statement format. For example:

- a. Information about the effects of accounting changes, discontinued operations, and extraordinary items could be disclosed in a note to the financial statements without following the GAAP presentation requirements in the statement of results of operations, using those terms, or disclosing net-of-tax effects.
- b. Instead of showing expenses by their functional classifications, the income tax basis statement of activities of a trade organization could present expenses according to their natural classifications, and a note to the statement could use estimated percentages to communicate information about expenses incurred by the major program and supporting services. A voluntary health and welfare organization could take such an approach instead of presenting the matrix of natural and functional expense classifications that would be required for a GAAP presentation, or, if information has been gathered for the Form 990 matrix required for such organizations, it could be presented either in the form of a separate statement or in a note to the financial statements.
- c. Instead of showing the amounts of, and changes in, the unrestricted and temporarily and permanently restricted classes of net assets, which would be required for a GAAP presentation, the income tax basis statement of financial position of a voluntary health and welfare organization could report total net assets or fund balances, the related statement of activities could report changes in those totals, and a note to the financial statements could provide information, using estimated or actual amounts or percentages, about the restrictions on those amounts and on any deferred restricted amounts, describe the major restrictions, and provide information about significant changes in restricted amounts.

[Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.94 Presentations using the cash basis of accounting, the modified cash basis, or the cash basis used for income tax reporting often include a presentation consisting entirely or mainly of cash receipts and disbursements. Such presentations need not conform with the requirements for a statement of cash flows that would be included in a GAAP presentation. While a statement of cash flows is not required in presentations using the cash, modified cash, or income tax basis of accounting, if a presentation of cash receipts and disbursements is presented in a format similar to a statement of cash flows or if the entity chooses to present such a statement, for example in a presentation on

the accrual basis of accounting used for federal income tax reporting, the statement should either conform to the requirements for a GAAP presentation or communicate their substance. As an example, the statement of cash flows might disclose noncash acquisitions through captions on its face. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

.95 If GAAP would require disclosure of other matters, the auditor should consider the need for that same disclosure or disclosure that communicates the substance of those requirements. Some examples are contingent liabilities, going concern considerations, and significant risks and uncertainties. However, the disclosures need not include information that is not relevant to the basis of accounting. To illustrate, the general information about the use of estimates that is required to be disclosed in GAAP presentations by Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*, would not be relevant in a presentation that has no estimates, such as one based on cash receipts and disbursements. [Paragraph renumbered by the issuance of Statement of Position 01-5, December 2001.]

[Issue Date: January, 1998.]

AU Section 625

Reports on the Application of Accounting Principles

Source: SAS No. 50; SAS No. 97.

Issue date, unless otherwise indicated: July, 1986.

Introduction

.01 There may be differing interpretations as to whether and, if so, how existing accounting principles apply to new transactions and financial products.¹ Management and others often consult with accountants on the application of accounting principles to those transactions and products, or to increase their knowledge of specific financial reporting issues.^[2] Such consultations often provide relevant information and insights not otherwise available. [As amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.02 For purposes of this section, reporting accountant refers to an accountant in public practice³ who prepares a written report⁴ or provides oral advice on the application of accounting principles to specified transactions involving facts and circumstances of a specific entity, or the type of opinion that may be rendered on a specific entity's financial statements. Continuing accountant refers to an accountant who has been engaged to report on the financial statements of a specific entity.⁵ [Paragraph added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.03 This section provides guidance that a reporting accountant, either in connection with a proposal to obtain a new client or otherwise, should apply when preparing a written report on—

- a. The application of accounting principles to specified transactions, either completed or proposed, involving facts and circumstances of a specific entity ("specific transactions").

¹ Accounting principles include generally accepted accounting principles and other comprehensive bases of accounting. See section 623, *Special Reports*, paragraph .04 for a description of other comprehensive bases of accounting.

^[2] [Footnote deleted by the issuance of Statement on Auditing Standards No. 97, June 2002.]

³ See ET section 92.25 of the AICPA Code of Professional Conduct for a definition of cpractice of public accounting.d

⁴ Written report, for purposes of this section, includes any written communication that expresses a conclusion on the appropriate accounting principle(s) to be applied or the type of opinion that may be rendered on an entity's financial statements. [Footnote added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

⁵ An accountant engaged by the entity to perform services other than reporting on the entity's financial statements is not considered to be a continuing accountant. [Footnote added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

- b. The type of opinion that may be rendered on a specific entity's financial statements.

This section also applies to oral advice that the reporting accountant concludes is intended to be used by a principal to the transaction as an important factor considered in reaching a decision on the application of accounting principles to a specific transaction, or the type of opinion that may be rendered on a specific entity's financial statements. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.04 Because of the nature of a transaction not involving facts or circumstances of a specific entity (hypothetical transaction), a reporting accountant cannot know, for example, whether the continuing accountant has reached a different conclusion on the application of accounting principles for the same or a similar transaction, or how the specific entity has accounted for similar transactions in the past. Therefore an accountant should not undertake an engagement to provide a written report on the application of accounting principles to a hypothetical transaction. [Paragraph added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.05 This section does not apply to a continuing accountant with respect to the specific entity whose financial statements he or she has been engaged to report on, to engagements either to assist in litigation involving accounting matters or to provide expert testimony in connection with such litigation, or to professional advice provided to another accountant in public practice. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.06 This section also does not apply to communications such as position papers prepared by an accountant for the purpose of presenting views on an issue involving the application of accounting principles or the type of opinion that may be rendered. Position papers include newsletters, articles, speeches and texts thereof, lectures and other forms of public presentations, and letters for the public record to professional and governmental standard-setting bodies. However, if communications of the type discussed in this paragraph are intended to provide guidance on the application of accounting principles to a specific transaction, or on the type of opinion that may be rendered on a specific entity's financial statements, the provisions of this section should be followed. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

Performance Standards

.07 The reporting accountant should exercise due professional care in performing the engagement and should have adequate technical training and proficiency. The reporting accountant should also plan the engagement adequately, supervise the work of assistants, if any, and accumulate sufficient information to provide a reasonable basis for the professional judgment described in the report. The reporting accountant should consider the circumstances under which the written report or oral advice is requested, the purpose of the request, and the intended use of the written report or oral advice. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.08 To aid in forming a judgment, the reporting accountant should perform the following procedures: (a) obtain an understanding of the form and substance of the transaction(s); (b) review applicable generally accepted accounting principles (see section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*); (c) if appropriate, consult with other professionals or experts; and (d) if appropriate, perform research or other procedures to ascertain and consider the existence of creditable precedents or analogies. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 97, June 2002.]

.09 When evaluating accounting principles that relate to a specific transaction or determining the type of opinion that may be rendered on a specific entity's financial statements, the reporting accountant should consult with the continuing accountant of the entity to ascertain all the available facts relevant to forming a professional judgment. The continuing accountant may provide information not otherwise available to the reporting accountant regarding, for example, the following: the form and substance of the transaction; how management has applied accounting principles to similar transactions; whether the method of accounting recommended by the continuing accountant is disputed by management; or whether the continuing accountant has reached a different conclusion on the application of accounting principles or the type of opinion that may be rendered on the entity's financial statements. The reporting accountant should explain to the entity's management the need to consult with the continuing accountant, request permission to do so, and request the entity's management to authorize the continuing accountant to respond fully to the reporting accountant's inquiries. The responsibilities of an entity's continuing accountant to respond to inquiries by the reporting accountant are the same as the responsibilities of a predecessor auditor to respond to inquiries by a successor auditor. See section 315, *Communications Between Predecessor and Successor Auditors*, paragraph .10. [Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

Reporting Standards

.10 The accountant's written report should be addressed to the requesting entity (for example, management or the board of directors of the entity), and should ordinarily include the following:⁶

- a. A brief description of the nature of the engagement and a statement that the engagement was performed in accordance with applicable AICPA standards.
- b. Identification of the specific entity, a description of the transaction(s), a statement of the relevant facts, circumstances, and assumptions, and a statement about the source of the information.
- c. A statement describing the appropriate accounting principle(s) (including the country of origin) to be applied or type of opinion that may be rendered on the entity's financial statements, and, if appropriate, a description of the reasons for the reporting accountant's conclusion.

⁶ Although the reporting standards in this section apply only to written reports, accountants may find this guidance useful in providing oral advice. [Footnote renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

- d. A statement that the responsibility for the proper accounting treatment rests with the preparers of the financial statements, who should consult with their continuing accountant.
- e. A statement that any difference in the facts, circumstances, or assumptions presented may change the report.
- f. A separate paragraph at the end of the report that includes the following elements:⁷
 - A statement indicating that the report is intended solely for the information and use of the specified parties;
 - An identification of the specified parties to whom use is restricted; and
 - A statement that the report is not intended to be and should not be used by anyone other than the specified parties.

[Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

.11 The following is an illustration of sections of the report described in paragraph .10.

Introduction

We have been engaged to report on the appropriate application of accounting principles generally accepted in [*country of origin of such principles*] to the specific transaction described below. This report is being issued to ABC Company for assistance in evaluating accounting principles for the described specific transaction. Our engagement has been conducted in accordance with standards established by the American Institute of Certified Public Accountants.

Description of Transaction

The facts, circumstances, and assumptions relevant to the specific transaction as provided to us by the management of ABC Company are as follows:

Appropriate Accounting Principles

[*Text discussing generally accepted accounting principles*]

Concluding Comments

The ultimate responsibility for the decision on the appropriate application of accounting principles generally accepted in [*country of origin of such principles*] for an actual transaction rests with the preparers of financial statements, who should consult with their continuing accountant. Our judgment on the appropriate application of accounting principles generally accepted in [*country of origin of such principles*] for the described specific transaction is based solely on the facts provided to us as described above; should these facts and circumstances differ, our conclusion may change.

⁷ See section 532, *Restricting the Use of an Auditor's Report*. Although restricted, this is not intended to preclude distribution of the report to the continuing accountant. [Footnote added, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

Restricted Use

This report is intended solely for the information and use of the board of directors and management of ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

[Paragraph renumbered and amended, effective for written reports issued or oral advice provided on or after June 30, 2002, by Statement on Auditing Standards No. 97.]

AU Section 634

Letters for Underwriters and Certain Other Requesting Parties

(Supersedes SAS No. 49)

Source: SAS No. 72; SAS No. 76; SAS No. 86.

See section 9634 for interpretations of this section.

Effective for comfort letters issued on or after June 30, 1993, unless otherwise indicated.

Introduction

.01 This section^[1] provides guidance to accountants for performing and reporting on the results of engagements to issue letters for underwriters and certain other requesting parties described in and meeting the requirements of paragraph .03, .04, or .05 (commonly referred to as "comfort letters") in connection with financial statements and financial statement schedules contained in registration statements filed with the Securities and Exchange Commission (SEC) under the Securities Act of 1933 (the Act) and other securities offerings. In paragraph .09, this section also provides guidance to accountants for performing and reporting on the results of engagements to issue letters for certain requesting parties, other than underwriters or other parties with a due diligence defense under section 11 of the Act, that are described in, but do not meet the requirements of, paragraph .03, .04, or .05. [As amended, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

.02 The service of accountants providing letters for underwriters developed following enactment of the Act. Section 11 of the Act provides that underwriters, among others, could be liable if any part of a registration statement contains material omissions or misstatements. The Act also provides for an affirmative defense for underwriters if it can be demonstrated that, after a reasonable investigation, the underwriter has reasonable grounds to believe that there were no material omissions or misstatements. Consequently, underwriters request accountants to assist them in developing a record of reasonable investigation. An accountant issuing a comfort letter is one of a number of procedures that may be used to establish that an underwriter has conducted a reasonable investigation.

Applicability

.03 Accountants may provide a comfort letter to underwriters,² or to other parties with a statutory due diligence defense under section 11 of the Act,

^[1] [Footnote deleted by the issuance of Statement on Auditing Standards No. 76, September 1995.]

² The term *underwriter* is defined in section 2 of the Act as "any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any

(continued)

in connection with financial statements and financial statement schedules included (incorporated by reference) in registration statements filed with the SEC under the Act. A comfort letter may be addressed to parties with a statutory due diligence defense under section 11 of the Act, other than a named underwriter, only when a law firm or attorney for the requesting party issues a written opinion to the accountants that states that such party has a due diligence defense under section 11 of the Act.³ An attorney's letter indicating that a party "may" be deemed to be an underwriter or has liability substantially equivalent to that of an underwriter under the securities laws would not meet this requirement. If the requesting party, in a securities offering registered pursuant to the Act, other than a named underwriter (such as a selling shareholder or sales agent) cannot provide such a letter, he or she must provide the representation letter described in paragraphs .06 and .07 for the accountants to provide them with a comfort letter.

.04 Accountants may also issue a comfort letter to a broker-dealer or other financial intermediary, acting as principal or agent in an offering or a placement of securities, in connection with the following types of securities offerings:

- Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings
- Transactions that are exempt from the registration requirements of section 5 of the Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
- Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the Act

In these situations the accountants may provide a comfort letter to a broker-dealer or other financial intermediary in connection with a securities offering only if the broker-dealer or other financial intermediary provides in writing the representations described in paragraphs .06 and .07.

.05 Accountants may also issue a comfort letter in connection with acquisition transactions (for example, cross-comfort letters in a typical Form S-4 or merger proxy situation) in which there is an exchange of stock and such comfort letters are requested by the buyer or seller, or both, as long as the representation letter described in paragraphs .06 and .07 is provided. An accountants' report on a preliminary investigation in connection with a proposed transaction (for example, a merger, an acquisition, or a financing) is not covered by this section; accountants should refer to the guidance in AT section 201, *Agreed-Upon Procedures Engagements*. [Revised, January 2001, to reflect

(footnote continued)

security, or participates or has a participation in the direct or indirect participation in any such undertaking or participates or has a participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission. As used in this paragraph, the term *issuer* shall include, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer."

³ This section is not intended to preclude accountants from providing to the client's board of directors, when appropriate, a letter addressed to the board of directors similar in content to a comfort letter. See the auditing interpretation "Letters to Directors Relating to Annual Reports on Form 10-K" (section 9634.01-.09).

conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

.06 The required elements of the representation letter from a broker-dealer or other financial intermediary, or of other requesting parties described in paragraphs .03 and .05, are as follows:

- The letter should be addressed to the accountants.
- The letter should contain the following:

"This review process, applied to the information relating to the issuer, is (will be) substantially consistent⁴ with the due diligence review process that we would perform if this placement of securities (or issuance of securities in an acquisition transaction) were being registered pursuant to the Securities Act of 1933 (the Act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Act."⁵

- The letter should be signed by the requesting party.

.07 An example of a letter, setting forth the required elements specified in paragraph .06, from a party requesting a comfort letter follows:

[Date]

Dear ABC Accountants:

[Name of financial intermediary], as principal or agent, in the placement of [identify securities] to be issued by [name of issuer], will be reviewing certain information relating to [issuer] that will be included (incorporated by reference) in the document [if appropriate, the document should be identified], which may be delivered to investors and utilized by them as a basis for their investment decision. This review process, applied to the information relating to the issuer, is (will be) substantially consistent with the due diligence review process that we would perform if this placement of securities⁶ were being registered pursuant to the Securities Act of 1933 (the Act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Act. We hereby request that you deliver to us a "comfort" letter concerning the financial statements of the issuer and certain statistical and other data included in the offering document. We will contact you to identify the procedures we wish you to follow and the form we wish the comfort letter to take.

Very truly yours,

[Name of Financial Intermediary]

⁴ It is recognized that what is "substantially consistent" may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same issuer; whether the procedures being, or to be, followed will be "substantially consistent" will be determined by the requesting party on a case-by-case basis.

⁵ If a nonunderwriter requests a comfort letter in connection with a securities offering pursuant to the Act, the wording of the representation letter should be revised as follows:

"This review process . . . is substantially consistent with the due diligence review process that an underwriter would perform in connection with this placement of securities. We are knowledgeable with respect to the due diligence review process that an underwriter would perform in connection with a placement of securities registered pursuant to the Securities Act of 1933."

⁶ In an acquisition of securities, this sentence could be reworded to refer to "issuance of securities." See paragraph .05.

.08 When one of the parties identified in paragraphs .03, .04, and .05 requests a comfort letter and has provided the accountants with the representation letter described above, the accountants should refer in the comfort letter to the requesting party's representations (see example P [paragraph .64]).

.09 When one of the parties identified in paragraphs .03, .04, or .05, other than an underwriter or other party with a due diligence defense under section 11 of the Act, requests a comfort letter but does not provide the representation letter described in paragraphs .06 and .07, accountants should not provide a comfort letter but may provide another form of letter. In such a letter, the accountants should not provide negative assurance on the financial statements as a whole, or on any of the specified elements, accounts, or items thereof. The other guidance in this section is applicable to performing procedures in connection with a letter and on the form of the letter (see paragraphs .36 through .43 and .54 through .60). Example Q in the Appendix [paragraph .64] provides an example of a letter issued in such a situation. Any such letter should include the following statements:

- a. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in the paragraphs above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation⁷ or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the offering circular. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company taken as a whole.
- b. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's [*give dates of any interim financial statements*] consolidated financial statements in accordance with standards established by the American Institute of Certified Public Accountants, other matters might have come to our attention that would have been reported to you.
- c. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
- d. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered

⁷ If this letter is requested in connection with a secured debt offering, the accountants should also refer to the attest interpretation "Responding to Requests for Reports on Matters Relating to Solvency" (AT section 9101.23–33) for inclusion of additional statements. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

by the offering circular, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.

- e. We have no responsibility to update this letter for events and circumstances occurring after [cutoff date].

[As amended, effective for letters issued pursuant to this paragraph after April 30, 1996, by Statement on Auditing Standards No. 76.]

.10 When a party other than those described in paragraphs .03, .04, or .05 requests a comfort letter, the accountants should not provide that party with a comfort letter or the letter described in paragraph .09 or example Q [paragraph .64]. The accountants may instead provide that party with a report on agreed-upon procedures and should refer to AT section 201, *Agreed-Upon Procedures Engagements*, for guidance. [Paragraph added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

General

.11 The services of independent accountants include audits of financial statements and financial statement schedules included (incorporated by reference) in registration statements filed with the SEC under the Act. In connection with this type of service, accountants are often called upon to confer with clients, underwriters, and their respective counsel concerning the accounting and auditing requirements of the Act and the SEC and to perform other services. One of these other services is the issuance of letters for underwriters, which generally address the subjects described in paragraph .22. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.12 Much of the uncertainty, and consequent risk of misunderstanding, with regard to the nature and scope of comfort letters has arisen from a lack of recognition of the necessarily limited nature of the comments that accountants can properly make with respect to financial information, in a registration statement or other offering document (hereafter referred to as a registration statement), that has not been audited in accordance with generally accepted auditing standards and, accordingly, is not covered by their opinion. In requesting comfort letters, underwriters are generally seeking assistance on matters of importance to them. They wish to perform a "reasonable investigation" of financial and accounting data not "expertized"⁸ (that is, covered by a report of independent accountants, who consent to be named as experts, based on an audit performed in accordance with generally accepted auditing standards)

⁸ See the auditing interpretation "Consenting to Be Named as an Expert in an Offering Document in Connection With Securities Offerings Other Than Those Registered Under the Securities Act of 1933" (section 9711.12-.15). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

as a defense against possible claims under section 11 of the Act.⁹ What constitutes a reasonable investigation of unaudited financial information sufficient to satisfy an underwriter's purposes has never been authoritatively established. Consequently, only the underwriter can determine what is sufficient for his or her purposes. Accountants will normally be willing to assist the underwriter, but the assistance accountants can provide by way of comfort letters is subject to limitations. One limitation is that independent accountants can properly comment in their professional capacity only on matters to which their professional expertise is substantially relevant. Another limitation is that procedures short of an audit, such as those contemplated in a comfort letter, provide the accountants with a basis for expressing, at the most, negative assurance.¹⁰ Such limited procedures may bring to the accountants' attention significant matters affecting the financial information, but they do not provide assurance that the accountants will become aware of any or all significant matters that would be disclosed in an audit. Accordingly, there is necessarily a risk that the accountants may have provided negative assurance of the absence of conditions or matters that may prove to have existed. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.13 This section deals with several different kinds of matters. First, it addresses whether, in a number of areas involving professional standards, it is proper for independent accountants, acting in their professional capacity, to comment in a comfort letter on specified matters, and, if so, the form such a comment should take. Second, practical suggestions are offered on which form of comfort letter is suitable in a given circumstance, procedural matters, the dating of letters, and what steps may be taken when information that may require special mention in a letter comes to the accountants' attention.¹¹ Third, it suggests ways of reducing or avoiding the uncertainties, described in the preceding paragraph, regarding the nature and extent of accountants' responsibilities in connection with a comfort letter. Accountants who have been requested to follow a course other than what has been recommended, with regard to points not involving professional standards, would do well to consult their legal counsel. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.14 Comfort letters are not required under the Act, and copies are not filed with the SEC. It is nonetheless a common condition of an underwriting agreement in connection with the offering for sale of securities registered with the SEC under the Act that the accountants are to furnish a comfort letter. Some underwriters do not make the receipt of a comfort letter a condition of the

⁹ See section 711, *Filings Under Federal Securities Statutes*, for a discussion of certain responsibilities of accountants that result from the inclusion of their reports in registration statements. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹⁰ Negative assurance consists of a statement by accountants that, as a result of performing specified procedures, nothing came to their attention that caused them to believe that specified matters do not meet a specified standard (for example, that nothing came to their attention that caused them to believe that any material modifications should be made to the unaudited financial statements or unaudited condensed financial statements for them to be in conformity with generally accepted accounting principles). [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹¹ It is important to note that although the illustrations in this section describe procedures that may be followed by accountants as a basis for their comments in comfort letters, this section does not necessarily prescribe such procedures. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

underwriting agreement or purchase agreement (hereafter referred to as the underwriting agreement) but nevertheless ask for such a letter.¹² [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.15 The accountants should suggest to the underwriter that they meet together with the client to discuss the procedures to be followed in connection with a comfort letter; during this meeting, the accountants may describe procedures that are frequently followed (see the examples in the appendix [paragraph .64]). Because of the accountants' knowledge of the client, such a meeting may substantially assist the underwriter in reaching a decision about procedures to be followed by the accountants. However, any discussion of procedures should be accompanied by a clear statement that the accountants cannot furnish any assurance regarding the sufficiency of the procedures for the underwriter's purposes, and the appropriate way of expressing this is shown in paragraph 4 of example A [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.16 Because the underwriter will expect the accountants to furnish a comfort letter of a scope to be specified in the underwriting agreement, a draft of that agreement should be furnished to the accountants so that they can indicate whether they will be able to furnish a letter in acceptable form. It is desirable practice for the accountants, promptly after they have received the draft of the agreement (or have been informed that a letter covering specified matters, although not a condition of the agreement, will nonetheless be requested), to prepare a draft of the form of the letter they expect to furnish. To the extent possible, the draft should deal with all matters to be covered in the final letter and should use exactly the same terms as those to be used in the final letter (subject, of course, to the understanding that the comments in the final letter cannot be determined until the procedures underlying it have been performed). The draft letter should be identified as a draft to avoid giving the impression that the procedures described therein have been performed. This practice of furnishing a draft letter at an early point permits the accountants to make clear to the client and the underwriter what they may expect the accountants to furnish. Thus furnished with a draft letter, the underwriter is afforded the opportunity to discuss further with the accountants the procedures that the accountants have indicated they expect to follow and to request any additional procedures that the underwriter may desire. If the additional procedures pertain to matters relevant to the accountants' professional competence, the accountants would ordinarily be willing to perform them, and it is desirable for them to furnish the underwriter with an appropriately revised draft letter. The accountants may reasonably assume that the underwriter, by indicating his or her acceptance of the draft comfort letter, and subsequently, by accepting the letter in final form, considers the procedures described sufficient for his or her purposes. It is important,

¹² Except when the context otherwise requires, the word underwriter (or certain other requesting parties, as described in paragraphs .03, .04, and .05), as used in this section refers to the managing, or lead, underwriter, who typically negotiates the underwriting agreement for a group of underwriters whose exact composition is not determined until shortly before a registration statement becomes effective. In competitive bidding situations in which legal counsel for the underwriters acts as the underwriters' representative prior to opening and acceptance of the bid, the accountants should carry out the discussions and other communications contemplated by this section with the legal counsel until the underwriter is selected. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

therefore, that the procedures¹³ to be followed by the accountants be clearly set out in the comfort letter, in both draft and final form, so that there will be no misunderstanding about the basis on which the accountants' comments have been made and so that the underwriter can decide whether the procedures performed are sufficient for his or her purposes. For reasons explained in paragraph .12, statements or implications that the accountants are carrying out such procedures as they consider necessary should be avoided, since this may lead to misunderstanding about the responsibility for the sufficiency of the procedures for the underwriter's purposes. The following is a suggested form of legend that may be placed on the draft letter for identification and explanation of its purposes and limitations.

This draft is furnished solely for the purpose of indicating the form of letter that we would expect to be able to furnish [*name of underwriter*] in response to their request, the matters expected to be covered in the letter, and the nature of the procedures that we would expect to carry out with respect to such matters. Based on our discussions with [*name of underwriter*], it is our understanding that the procedures outlined in this draft letter are those they wish us to follow.¹⁴ Unless [*name of underwriter*] informs us otherwise, we shall assume that there are no additional procedures they wish us to follow. The text of the letter itself will depend, of course, on the results of the procedures, which we would not expect to complete until shortly before the letter is given and in no event before the cutoff date indicated therein.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.17 Comfort letters are occasionally requested from more than one accountant (for example, in connection with registration statements to be used in the subsequent sale of shares issued in recently effected mergers and from predecessor auditors). At the earliest practicable date, the client should advise any other accountants who may be involved about any letter that may be required from them and should arrange for them to receive a draft of the underwriting agreement so that they may make arrangements at an early date for the preparation of a draft of their letter (a copy of which should be furnished to the principal accountants) and for the performance of their procedures. In addition, the underwriter may wish to meet with the other accountants for the purposes discussed in paragraph .15. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.18 There may be situations in which more than one accountant is involved in the audit of the financial statements of a business and in which the reports of more than one accountant appear in the registration statement. For example, certain significant divisions, branches, or subsidiaries may be audited by other accountants. The principal accountants (that is, those who

¹³ When the accountants have been requested to provide negative assurance on interim financial information or capsule financial information and the procedures required for an SAS No. 100 [section 722] review have been performed, those procedures need not be specified. See paragraphs .37 through .41. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote revised, January 2003, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

¹⁴ In the absence of any discussions with the underwriter, the accountants should outline in the draft letter those procedures specified in the underwriting agreement that they are willing to perform. In that event, the sentence to which this footnote refers should be revised as follows: "In the absence of any discussions with [*name of underwriter*], we have set out in this draft letter those procedures referred to in the draft underwriting agreement (of which we have been furnished a copy) that we are willing to follow." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

report on the consolidated financial statements and, consequently, are asked to give a comfort letter with regard to information expressed on a consolidated basis) should read the letters of the other accountants reporting on significant units. Such letters should contain statements similar to those contained in the comfort letter prepared by the principal accountants, including statements about their independence. The principal accountants should state in their comfort letters that (a) reading letters of the other accountants was one of the procedures followed, and (b) the procedures performed by the principal accountants (other than reading the letters of the other accountants) relate solely to companies audited by the principal accountants and to the consolidated financial statements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.19 Regulations under the Act permit companies, in certain circumstances, to register a designated amount of securities for continuous or delayed offerings during an extended period by filing one "shelf" registration statement. At the effective date of a shelf registration statement, the registrant may not have selected an underwriter (see footnote 12). A client or the legal counsel designated to represent the underwriting group might, however, ask the accountants to issue a comfort letter at the effective date of a shelf registration statement to expedite the due diligence activities of the underwriter when he or she is subsequently designated and to avoid later corrections of financial information included in an effective prospectus. However, as stated in paragraph .12, only the underwriter can determine the procedures that will be sufficient for his or her purposes. Under these circumstances, therefore, the accountants should not agree to furnish a comfort letter addressed to the client, legal counsel or a nonspecific addressee such as "any or all underwriters to be selected." The accountants may agree to furnish the client or legal counsel for the underwriting group with a draft comfort letter describing the procedures that the accountants have performed and the comments the accountants are willing to express as a result of those procedures. The draft comfort letter should include a legend, such as the following, describing the letter's purpose and limitations:

This draft describes the procedures that we have performed and represents a letter we would be prepared to sign as of the effective date of the registration statement if the managing underwriter had been chosen at that date and requested such a letter. Based on our discussions with [*name of client or legal counsel*], the procedures set forth are similar to those that experience indicates underwriters often request in such circumstances. The text of the final letter will depend, of course, on whether the managing underwriter who is selected requests that other procedures be performed to meet his or her needs and whether the managing underwriter requests that any of the procedures be updated to the date of issuance of the signed letter.

A signed comfort letter may be issued to the underwriter selected for the portion of the issue then being offered when the underwriting agreement for an offering is signed and on each closing date. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.20 Accountants, when issuing a letter under the guidance provided in this section, may not issue any additional letters or reports, under any other section, to the underwriter or the other requesting parties identified in paragraphs .03, .04, and .05 (hereinafter referred to as the underwriter) in connection with the offering or placement of securities, in which the accountants comment on items for which commenting is otherwise precluded by this section. [Paragraph renumbered by the issuance of Statement on Auditing

Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

.21 While the guidance in this section generally addresses comfort letters issued in connection with securities offerings registered pursuant to the Act, it also provides guidance on comfort letters issued in other securities transactions. However, the guidance that specifically refers to compliance of the information commented on with SEC rules and regulations, such as compliance with Regulation S-X¹⁵ or S-K,¹⁶ generally applies only to comfort letters issued in connection with securities offerings registered pursuant to the Act. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Guidance on the Format and Contents of Comfort Letters

.22 This section (paragraphs .22 through .62) provides guidance on the format and possible contents of a typical comfort letter. It addresses how the comfort letter should be dated, to whom it may be addressed, and the contents of the introductory paragraph of the comfort letter. Further, it addresses the subjects that may be covered in a comfort letter:

- a. The independence of the accountants (paragraphs .31 and .32)
- b. Whether the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC (paragraphs .33 and .34)
- c. Unaudited financial statements, condensed interim financial information, capsule financial information, pro forma financial information, financial forecasts, management's discussion and analysis (MD&A), and changes in selected financial statement items during a period subsequent to the date and period of the latest financial statements included (incorporated by reference) in the registration statement (paragraphs .29 and .35 through .53)
- d. Tables, statistics, and other financial information included (incorporated by reference) in the registration statement (paragraphs .54 through .62)
- e. Negative assurance as to whether certain non-financial statement information, included (incorporated by reference) in the registration statement complies as to form in all material respects with Regulation S-K (paragraph .57)

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

¹⁵ Regulation S-X, "Form and Content of and Requirements for Financial Statements, Securities Act of 1933, Securities Exchange Act of 1934, Public Utility Holding Company Act of 1935, Investment Company Act of 1940, and Energy Policy and Conservation Act of 1975." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹⁶ Regulation S-K, "Standard Instructions for Filing Forms Under Securities Act of 1933, Securities Exchange Act of 1934 and Energy Policy and Conservation Act of 1975." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Dating

.23 The letter ordinarily is dated on or shortly before the effective date (that is, the date on which the registration statement becomes effective). On rare occasions, letters have been requested to be dated at or shortly before the filing date (that is, the date on which the registration statement is first filed with the SEC). The underwriting agreement ordinarily specifies the date, often referred to as the "cutoff date," to which certain procedures described in the letter are to relate (for example, a date five days before the date of the letter). The letter should state that the inquiries and other procedures described in the letter did not cover the period from the cutoff date to the date of the letter. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.24 An additional letter may also be dated at or shortly before the closing date (that is, the date on which the issuer or selling security holder delivers the securities to the underwriter in exchange for the proceeds of the offering). If more than one letter is requested, it will be necessary to carry out the specified procedures and inquiries as of the cutoff date for each letter. Although comments contained in an earlier letter may, on occasion, be incorporated by reference in a subsequent letter (see example C [paragraph .64]), any subsequent letter should relate only to information in the registration statement as most recently amended. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Addressee

.25 The letter should not be addressed or given to any parties other than the client and the named underwriters,¹⁷ broker-dealer, financial intermediary or buyer or seller. The appropriate addressee is the intermediary who has negotiated the agreement with the client, and with whom the accountants will deal in discussions regarding the scope and sufficiency of the letter. When a comfort letter is furnished to other accountants, it should be addressed in accordance with the guidance in this paragraph and copies should be furnished to the principal accountants and their client. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Introductory Paragraph

.26 It is desirable to include an introductory paragraph similar to the following:

We have audited the [*identify the financial statements and financial statement schedules*] included (incorporated by reference) in the registration statement (no. 33-00000) on Form _____ filed by the company under the Securities Act of 1933 (the Act); our reports with respect thereto are also included (incorporated by reference) in that registration statement. The registration statement, as amended as of _____, is herein referred to as the registration statement.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

¹⁷ An example of an appropriate form of address for this purpose is "The Blank Company and XYZ & Company, as Representative of the Several Underwriters." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.27 When the report on the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement departs from the standard report, for instance, where one or more explanatory paragraphs or a paragraph to emphasize a matter regarding the financial statements have been added to the report, the accountants should refer¹⁸ to that fact in the comfort letter and discuss the subject matter of the paragraph.¹⁹ In those rare instances in which the SEC accepts a qualified opinion on historical financial statements, the accountants should refer to the qualification in the opening paragraph of the comfort letter and discuss the subject matter of the qualification. (See also paragraph .35f.) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.28 The underwriter occasionally requests the accountants to repeat in the comfort letter their report on the audited financial statements included (incorporated by reference) in the registration statement. Because of the special significance of the date of the accountants' report, the accountants should not repeat their opinion.²⁰ The underwriter sometimes requests negative assurance regarding the accountants' report. Because accountants have a statutory responsibility with respect to their opinion as of the effective date of a registration statement, and because the additional significance, if any, of negative assurance is unclear and such assurance may therefore give rise to misunderstanding, accountants should not give such negative assurance. Furthermore, the accountants should not give negative assurance with respect to financial statements and financial statement schedules that have been audited and are reported on in the registration statement by other accountants. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.29 The accountants may refer in the introductory paragraphs of the comfort letter to the fact that they have issued reports on—²¹

- a. Condensed financial statements that are derived from audited financial statements (see section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*).
- b. Selected financial data (see section 552).
- c. Interim financial information (see section 722).

¹⁸ The accountants may also refer in the opening paragraph to expansions of their report that do not affect their opinion on the basic financial statements, for example, expansions of their report regarding (a) interim financial information accompanying or included in the notes to audited financial statements (see section 722.50) or (b) required supplementary information described in section 558, *Required Supplementary Information*, paragraphs .08 through .11. See paragraph .30 of this section. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote revised, September 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 98. Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

¹⁹ The accountants need not refer to or discuss explanatory paragraphs covering consistency of application of accounting principles. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

²⁰ See section 530, *Dating of the Independent Auditor's Report*, paragraphs .03 through .08. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

²¹ Except for a review report on management's discussion and analysis (MD&A), the accountants should not refer to or attach to the comfort letter any restricted use report, such as a report on agreed-upon procedures. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

- d. Pro forma financial information (see AT section 401, *Reporting on Pro Forma Financial Information*).
- e. A financial forecast (see AT section 301, *Financial Forecasts and Projections*).
- f. Management's discussion and analysis (see AT section 701, *Management's Discussion and Analysis*).

Such a reference should be to the accountants' reports that were previously issued, and if the reports are not included (incorporated by reference) in the registration statement, they may be attached to the comfort letter.²² In referring to previously issued reports, the accountants should not repeat their reports in the comfort letter or otherwise imply that they are reporting as of the date of the comfort letter or that they assume responsibility for the sufficiency of the procedures for the underwriter's purposes. However, for certain information on which they have reported, the accountants may agree to comment regarding compliance with rules and regulations adopted by the SEC (see paragraphs .33 and .34). Accountants should not mention in a comfort letter reports issued in accordance with section 325, *Communications About Control Deficiencies in An Audit of Financial Statements*, or any restricted use reports issued to a client in connection with procedures performed on the client's internal control in accordance with AT section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

.30 An underwriter may also request that the accountants comment in their comfort letter on (a) unaudited interim financial information required by item 302(a) of Regulation S-K, to which section 722 pertains or (b) required supplementary information, to which section 558, *Required Supplementary Information*, pertains. Section 722 and section 558 provide that the accountants should expand the standard report on the audited financial statements to refer to such information when the scope of their procedures with regard to the information was restricted or when the information appears not to be presented in conformity with generally accepted accounting principles or, for required supplementary information, applicable guidelines. Such expansions of the accountants' standard report in the registration statement would ordinarily be referred to in the opening paragraph of the comfort letter (see also paragraph .35f). Additional comments on such unaudited information are therefore unnecessary. However, if the underwriter requests that the accountants perform procedures with regard to such information in addition to those performed in connection with their review or audit as prescribed by sections 722 and 558, the accountants may do so and report their findings. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

²² When the accountant does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the accountant may perform agreed-upon procedures with respect to items in MD&A, subject to controls over financial reporting (see paragraph .55). [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

Independence

.31 It is customary in conjunction with SEC filings for the underwriting agreement to provide for the accountants to make a statement in the letter concerning their independence. This may be done substantially as follows:

We are independent certified public accountants with respect to The Blank Company, Inc., within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC.

Regulation S-K requires disclosure in the prospectus and registration statement of interests of named experts (including independent accountants) in the registrant. Regulation S-X precludes accountants who report on financial statements included (incorporated by reference) in a registration statement from having interests of the type requiring disclosure in the prospectus or registration statement. Therefore, if the accountants make a statement in a comfort letter that they are independent within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC, any additional comments on independence would be unnecessary.^{22a} In a non-SEC filing, the accountants may refer to the AICPA's *Code of Professional Conduct* [ET section 101]. This may be done substantially as follows:

We are independent certified public accountants with respect to The Blank Company, Inc., under rule 101 of the AICPA's *Code of Professional Conduct* and its interpretations and rulings.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.32 When comfort letters are requested from more than one accountant (see paragraphs .17 and .18), each accountant must, of course, be sure he or she is independent within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC. The accountants for previously nonaffiliated companies recently acquired by the registrant would not be required to have been independent with respect to the company whose shares are being registered. In such a case, the accountants should modify the wording suggested in paragraph .31 and make a statement regarding their independence along the following lines.

As of [insert date of the accountants' most recent report on the financial statements of their client] and during the period covered by the financial statements on which we reported, we were independent certified public accountants with respect to [insert the name of their client] within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

^{22a} The SEC, in Financial Reporting Release No. 50 dated February 18, 1998, recognized the establishment of the Independence Standards Board (ISB) and indicated that the SEC intends to look to the ISB as the private sector body responsible for establishing independence standards and interpretations for auditors of public entities. [Footnote added, June 1999, to acknowledge the SEC's recognition of the ISB.]

Compliance With SEC Requirements

.33 The accountants may be requested to express an opinion on whether the financial statements covered by their report comply as to form with the pertinent accounting requirements adopted by the SEC.²³ This may be done substantially as follows:

In our opinion [*include phrase "except as disclosed in the registration statement," if applicable*], the [*identify the financial statements and financial statement schedules*] audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.²⁴

If there is a material departure from the pertinent rules and regulations adopted by the SEC, the departure should be disclosed in the letter.²⁵ An appropriate manner of doing this is shown in example K [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.34 Accountants may provide positive assurance on compliance as to form with requirements under the rules and regulations adopted by the SEC only with respect to those rules and regulations applicable to the form and content of financial statements and financial statement schedules that they have audited. Accountants are limited to providing negative assurance on compliance as to form when the financial statements or financial statement schedules have not been audited. (For guidance in commenting on compliance as to form, see paragraph .37 regarding unaudited condensed interim financial information, paragraph .42 regarding pro forma financial information, paragraph .44

²³ The phrase rules and regulations adopted by the SEC is used because accountants should not be expected to be familiar with, or express assurances on compliance with, informal positions of the SEC staff. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered and amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

²⁴ Certain financial statements may be incorporated in a registration statement under the Act by reference to filings under the Securities Exchange Act of 1934 (the 1934 Act). In those circumstances, the accountants may refer to whether the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the 1934 Act and the related rules and regulations adopted by the SEC (see Example B [paragraph .64]). However, the accountants should not refer to compliance with the provisions of the 1934 Act regarding internal accounting control. See AT section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*, paragraph .82. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered and amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

²⁵ Departures from rules and regulations adopted by the SEC that require mention in a comfort letter ordinarily do not affect fair presentation in conformity with generally accepted accounting principles; however, if they do, the accountants will, of course, mention these departures in expressing their opinion and in consenting to the use of their report in the registration statement. If departures from rules and regulations adopted by the SEC that require mention in a comfort letter either are not disclosed in the registration statement or have not been agreed to by representatives of the SEC, the accountants should carefully consider whether a consent to the use of their report in the registration statement should be issued. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered and amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

regarding a forecast, and paragraph .57 regarding Regulation S-K items.²⁶) [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

General

.35 Comments included in the letter will often concern (a) unaudited condensed interim financial information (see paragraphs .36 through .38),²⁷ (b) capsule financial information (see paragraphs .36 and .39 through .41), (c) pro forma financial information (see paragraphs .42 and .43), (d) financial forecasts (see paragraphs .36 and .44), and (e) changes in capital stock, increases in long-term debt, and decreases in other specified financial statement items (see paragraphs .36 and .45 through .53). For commenting on these matters, the following guidance is important:

- a. As explained in paragraph .16, the agreed-upon procedures performed by the accountants should be set forth in the letter, except that when the accountants have been requested to provide negative assurance on interim financial information or capsule financial information, the procedures involved in an SAS No. 71 [section 722] review need not be specified (see paragraphs .37 through .41 of this section and paragraph 4 of example A [paragraph .64]).
- b. To avoid any misunderstanding about the responsibility for the sufficiency of the agreed-upon procedures for the underwriter's purposes, the accountants should not make any statements, or imply that they have applied procedures that they have determined to be necessary or sufficient for the underwriter's purposes. If the accountants state that they have performed an SAS No. 71 [section 722] review, this does not imply that those procedures are sufficient for the underwriter's purposes. The underwriter may ask the accountants to perform additional procedures. For example, if the underwriter requests the accountants to apply additional procedures and specifies items of financial information to be reviewed and the materiality level for changes in those items that would necessitate further inquiry by the accountants, the accountants may perform those procedures and should describe them in their letter. Descriptions of procedures in the comfort letter should include descriptions of the criteria specified by the underwriter.
- c. Terms of uncertain meaning (such as *general review*, *limited review*, *reconcile*, *check*, or *test*) should not be used in describing the

²⁶ Accountants should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC; accountants may agree to examine or review MD&A in accordance with AT section 701. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

²⁷ The SEC requirements specify condensed financial statements. However, the guidance in paragraphs .37 and .38 also applies to complete financial statements. For purposes of this section, interim financial statements may be for a twelve-month period ending on a date other than the entity's normal year end. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

work, unless the procedures comprehended by these terms are described in the comfort letter.

- d. The procedures performed with respect to interim periods may not disclose changes in capital stock, increases in long-term debt or decreases in the specified financial statement items, inconsistencies in the application of generally accepted accounting principles, instances of noncompliance as to form with accounting requirements of the SEC, or other matters about which negative assurance is requested. An appropriate manner of making this clear is shown in the last three sentences in paragraph 4 of example A [paragraph .64].
- e. Matters to be covered by the letter should be made clear in the meetings with the underwriter and should be identified in the underwriting agreement and in the draft comfort letter. Since there is no way of anticipating other matters that would be of interest to an underwriter, accountants should not make a general statement in a comfort letter that, as a result of carrying out the specified procedures, nothing else has come to their attention that would be of interest to the underwriter.
- f. When the report on the audited financial statements and financial statement schedules in the registration statement departs from the auditor's standard report, and the comfort letter includes negative assurance with respect to subsequent unaudited condensed interim financial information included (incorporated by reference) in the registration statement or with respect to an absence of specified subsequent changes, increases, or decreases, the accountant should consider the effect thereon of the subject matter of the qualification, explanatory paragraph(s), or paragraph(s) emphasizing a matter regarding the financial statements. The accountant should also follow the guidance in paragraph .27. An illustration of how this type of situation may be dealt with is shown in example I [paragraph .64].

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Knowledge of Internal Control

.36 The accountants should not comment in a comfort letter on (a) unaudited condensed interim financial information, (b) capsule financial information, (c) a financial forecast when historical financial statements provide a basis for one or more significant assumptions for the forecast, or (d) changes in capital stock, increases in long-term debt and decreases in selected financial statement items, unless they have obtained knowledge of a client's internal control as it relates to the preparation of both annual and interim financial information. Knowledge of the client's internal control over financial reporting includes knowledge of the control environment, risk assessment, control activities, information and communication, and monitoring. Sufficient knowledge of a client's internal control as it relates to the preparation of annual financial information ordinarily would have been acquired, and may have been acquired with respect to interim financial information, by the accountants who have audited a client's financial statements for one or more periods. When the accountants have not audited the most recent annual financial statements, and thus have not acquired sufficient knowledge of the entity's internal control, the accountants should perform procedures to obtain that knowledge. [Paragraph renumbered by the issuance of Statement on Auditing Standards

No. 76, September 1995. Revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 78.]

Unaudited Condensed Interim Financial Information

.37 Comments concerning the unaudited condensed interim financial information²⁸ included (incorporated by reference) in the registration statement provide negative assurance as to whether (a) any material modifications should be made to the unaudited condensed interim financial information for it to be in conformity with generally accepted accounting principles and (b) the unaudited condensed interim financial information complies as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC. Accountants may comment in the form of negative assurance only when they have conducted a review of the interim financial information in accordance with section 722. The accountants may (a) state in the comfort letter that they have performed the procedures identified in section 722 for a review of interim financial information (see paragraphs 4a and 5a of example A [paragraph .64] or (b) if the accountants have issued a report on the review, they may mention that fact in the comfort letter. If it is mentioned in the comfort letter, the accountants should attach the review report to the letter unless the review report is already included (incorporated by reference) in the registration statement. When the accountants have not conducted a review in accordance with section 722, the accountants may not comment in the form of negative assurance and are, therefore, limited to reporting procedures performed and findings obtained (see example O [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.38 The letter should specifically identify any unaudited condensed interim financial information and should state that the accountants have not audited the condensed interim financial information in accordance with generally accepted auditing standards and do not express an opinion concerning such information. An appropriate manner of making this clear is shown in paragraph 3 of example A [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Capsule Financial Information

.39 In some registration statements, the information shown in the audited financial statements or unaudited condensed interim financial information is supplemented by unaudited summarized interim information for subsequent periods (commonly called "capsule financial information"). This capsule financial information (either in narrative or tabular form) often is provided for the most recent interim period and for the corresponding period of the prior year. With regard to selected capsule financial information, the accountants—

- a. May give negative assurance with regard to conformity with generally accepted accounting principles and may refer to whether the dollar amounts were determined on a basis substantially

²⁸ When accountants are engaged to perform procedures on interim financial information, they may have additional responsibilities under certain circumstances. The accountants should refer to section 722 for guidance. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

consistent with that of the corresponding amounts in the audited financial statements if (1) the selected capsule financial information is presented in accordance with the minimum disclosure requirements of Accounting Principles Board (APB) Opinion No. 28, paragraph 30 [AC section I73.146], and (2) the accountants have performed an SAS No. 71 [section 722] review of the financial statements underlying the capsule financial information. If those conditions have not been met, the accountants are limited to reporting procedures performed and findings obtained.

- b. May give negative assurance as to whether the dollar amounts were determined on a basis substantially consistent with that of the corresponding amounts in the audited financial statements if the selected capsule financial information is more limited than the minimum disclosures described in APB Opinion 28, paragraph 30 (see example L [paragraph .64]), as long as the accountants have performed an SAS No. 71 [section 722] review of the financial statements underlying the capsule financial information. If an SAS No. 71 [section 722] review has not been performed, the accountants are limited to reporting procedures performed and findings obtained.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.40 The underwriter occasionally asks the accountants to give negative assurance with respect to the unaudited interim financial statements or unaudited condensed interim financial information (see paragraph .37 and the interim financial information requirements of Regulation S-X) that underlie the capsule financial information and asks the accountants to state that the capsule financial information agrees with amounts set forth in such statements. Paragraphs 4*b* and 5*b* in example L [paragraph .64] provide an example of the accountants' comments in these circumstances. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.41 The underwriter might ask the accountants to give negative assurance on the unaudited condensed interim financial information, or information extracted therefrom, for a monthly period ending after the latest financial statements included (incorporated by reference) in the registration statement. In those cases, the guidance in paragraph .37 is applicable. The unaudited condensed interim financial information should be attached to the comfort letter so that it is clear what financial information is being referred to; if the client requests, the unaudited condensed interim financial information may be attached only to the copy of the letter intended for the managing underwriter. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Pro Forma Financial Information

.42 Accountants should not comment in a comfort letter on pro forma financial information unless they have an appropriate level of knowledge of the accounting and financial reporting practices of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity). This would ordinarily have been obtained by the accountants auditing or reviewing historical financial statements of the entity for the most recent annual or interim period for which the pro forma financial information is presented. Accountants should not give negative assurance in a comfort letter on the application of pro forma adjustments to historical amounts, the compilation

of pro forma financial information, whether the pro forma financial information complies as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X or otherwise provide negative assurance with respect to pro forma financial information unless they have obtained the required knowledge described above and they have performed an audit of the annual financial statements, or an SAS No. 71 [section 722] review of the interim financial statements, of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) to which the pro forma adjustments were applied. In the case of a business combination, the historical financial statements of each constituent part of the combined entity on which the pro forma financial information is based should be audited or reviewed. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.43 If the accountants have obtained the required knowledge as described in paragraph .36, but have not met the requirements for giving negative assurance, the accountants are limited to reporting procedures performed and findings obtained. (See example O [paragraph .64].) The accountants should comply with the relevant guidance on reporting the results of agreed-upon procedures in AT section 201. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Financial Forecasts

.44 For accountants to perform agreed-upon procedures on a financial forecast and comment thereon in a comfort letter, they should obtain the knowledge described in paragraph .36 and then perform procedures prescribed in AT section 301.69, for reporting on compilation of a forecast. Having performed these procedures, they should follow the guidance in AT section 301.18 and .19 regarding reports on compilations of prospective financial information and should attach their report²⁹ thereon to the comfort letter.³⁰ Then they can perform additional procedures and report their findings in the comfort letter (see examples E and O [paragraph .64]). Accountants may not provide negative assurance on the results of procedures performed. Further, accountants may not provide negative assurance with respect to compliance of the forecast with rule 11-03 of Regulation S-X unless they have performed an examination of the forecast in accordance with AT section 301. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

²⁹ For purposes of issuing a comfort letter, if the forecast is included in the registration statement, the forecast must be accompanied by an indication that the accountants have not examined the forecast and therefore do not express an opinion on it. If a compilation report on the forecast has been issued in connection with the comfort letter, the report need not be included in the registration statement. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

³⁰ When a client's securities are subject to regulation by the SEC, the accountants should be aware of the SEC's views regarding independence when agreeing to perform a compilation of a forecast. Independence may be deemed to be impaired when services include preparation or assembly of financial forecasts. The SEC generally will not question the accountants' independence, however, when services are limited to issuing a report on a forecast as a result of performing the procedures stated in paragraph 5 of AT section 301.69. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

Subsequent Changes

.45 Comments regarding subsequent changes typically relate to whether there has been any change in capital stock, increase in long-term debt or decreases in other specified financial statement items during a period, known as the "change period," subsequent to the date and period of the latest financial statements included (incorporated by reference) in the registration statement (see paragraph .50). These comments would also address such matters as subsequent changes in the amounts of (a) net current assets or stockholders' equity and (b) net sales and the total and per-share amounts of income before extraordinary items and of net income. The accountants ordinarily will be requested to read minutes and make inquiries of company officials relating to the whole of the change period.³¹ For the period between the date of the latest financial statements made available and the cutoff date, the accountants must base their comments solely on the limited procedures actually performed with respect to that period (which, in most cases, will be limited to the reading of minutes and the inquiries of company officials referred to in the preceding sentence), and their comfort letter should make this clear (see paragraph 6 of example A [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.46 If the underwriter requests negative assurance as to subsequent changes in specified financial statement items as of a date less than 135 days from the end of the most recent period for which the accountants have performed an audit or a review, the accountants may provide such negative assurance in the comfort letter. For instance—

- When the accountants have audited the December 31, 19X6, financial statements, the accountants may provide negative assurance on increases and decreases of specified financial statement items as of any date up to May 14 (135 days subsequent to December 31).
- When the accountants have audited the December 31, 19X6, financial statements and have also conducted an SAS No. 71 [section 722] review of the interim financial information as of and for the quarter ended March 31, 19X7, the accountants may provide negative assurance as to increases and decreases of specified financial statement items as of any date up to August 14, 19X7 (135 days subsequent to March 31).

An appropriate manner of expressing negative assurance regarding subsequent changes is shown in paragraphs 5b and 6 of example A [paragraph .64], if there has been no decrease and in example M [paragraph .64], if there has been a decrease. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.47 However, if the underwriter requests negative assurance as to subsequent changes in specified financial statement items as of a date 135 days or

³¹ The answers to these inquiries generally should be supported by appropriate written representations of the company officials. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

more subsequent to the end of the most recent period for which the accountants have performed an audit or a review, the accountants may not provide negative assurance but are limited to reporting procedures performed and findings obtained (see example O [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.48 In order that comments on subsequent changes be unambiguous and their determination be within accountants' professional expertise, the comments should not relate to "adverse changes," since that term has not acquired any clearly understood meaning. If there has been a change in an accounting principle during the change period, the accountants should note that fact in the letter. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.49 Comments on the occurrence of changes in capital stock, increases in long-term debt, and decreases in other specified financial statement items are limited to changes, increases, or decreases not disclosed in the registration statement. Accordingly, the phrase "except for changes, increases, or decreases that the registration statement discloses have occurred or may occur" should be included in the letter when it has come to the accountants' attention that a change, increase, or decrease has occurred during the change period, and the amount of such change, increase, or decrease is disclosed in the registration statement. This phrase need not be included in the letter when no changes, increases, or decreases in the specified financial statement items are disclosed in the registration statement. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.50 *Change period.* In the context of a comfort letter, a decrease occurs when the amount of a financial statement item at the cutoff date or for the change period (as if financial statements had been prepared at that date and for that period) is less than the amount of the same item at a specified earlier date or for a specified earlier period. With respect to the items mentioned in paragraph .45, the term *decrease* means (a) any combination of changes in amounts of current assets and current liabilities that results in decreased net current assets, (b) any combination of changes in amounts of assets and liabilities that results in decreased stockholders' equity, (c) decreased net sales, and (d) any combination of changes in amounts of sales, expenses and outstanding shares that results in decreased total and per-share amounts of income before extraordinary items and of net income (including, in each instance, a greater loss or other negative amount). The change period for which the accountants give negative assurance in the comfort letter ends on the cutoff date (see paragraph .23) and ordinarily begins, for balance sheet items, immediately after the date of the latest balance sheet in the registration statement and, for income statement items, immediately after the latest period for which such items are presented in the registration statement. The comparison relates to the entire period and not to portions of that period. A decrease during one part of the period may be offset by an equal or larger increase in another part of the period; however, because there was no decrease for the period as a whole, the comfort letter would not report the decrease occurring during one part of the period (see, however, paragraph .62). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.51 The underwriting agreement usually specifies the dates as of which, and periods for which, data at the cutoff date and data for the change period are to be compared. For balance sheet items, the comparison date is normally that

of the latest balance sheet included (incorporated by reference) in the registration statement (that is, immediately prior to the beginning of the change period). For income statement items, the comparison period or periods might be one or more of the following: (a) the corresponding period of the preceding year, (b) a period of corresponding length immediately preceding the change period, (c) a proportionate part of the preceding fiscal year, or (d) any other period of corresponding length chosen by the underwriter. Whether or not specified in the underwriting agreement, the date and period used in comparison should be identified in the comfort letter in both draft and final form so that there is no misunderstanding about the matters being compared and so that the underwriter can determine whether the comparison period is suitable for his or her purposes. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.52 The underwriter occasionally requests that the change period begin immediately after the date of the latest audited balance sheet (which is, ordinarily, also the closing date of the latest audited statement of income) in the registration statement, even though the registration statement includes a more recent unaudited condensed balance sheet and condensed statement of income. The use of the earlier date may defeat the underwriter's purpose, since it is possible that an increase in one of the items referred to in paragraph .45 occurring between the dates of the latest audited and unaudited balance sheets included (incorporated by reference) in the registration statement might more than offset a decrease occurring after the latter date. A similar situation might arise in the comparison of income statement items. In these circumstances, the decrease occurring after the date of the latest unaudited condensed interim financial statements included (incorporated by reference) in the registration statement would not be reported in the comfort letter. It is desirable for the accountants to explain the foregoing considerations to the underwriter; however, if the underwriter nonetheless requests the use of a change period or periods other than those described in paragraph .50, the accountants may use the period or periods requested. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.53 When other accountants are involved and their letters do not disclose matters that affect the negative assurance given, an appropriate manner of expressing these comments is shown in example J [paragraph .64]. When appropriate, the principal accountants may comment that there were no decreases in the consolidated financial statement items despite the possibility that decreases have been mentioned by the other accountants. In such a case, the principal accountants could make a statement that "nothing came to our attention regarding the consolidated financial statements as a result of the specified procedures (which, so far as the related company was concerned, consisted solely of reading the other accountants' letter) that caused us to believe that...." [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Tables, Statistics, and Other Financial Information

.54 The underwriting agreement sometimes calls for a comfort letter that includes comments on tables, statistics, and other financial information appearing in the registration statement. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.55 The accountants should refrain from commenting on certain matters in a comfort letter. Except as indicated in the next sentence, they should comment only with respect to information (a) that is expressed in dollars (or

percentages derived from such dollar amounts) and that has been obtained from accounting records that are subject to the entity's controls over financial reporting or (b) that has been derived directly from such accounting records by analysis or computation. The accountants may also comment on quantitative information that has been obtained from an accounting record if the information is subject to the same controls over financial reporting as the dollar amounts. The accountants should not comment on matters merely because they happen to be present and are capable of reading, counting, measuring, or performing other functions that might be applicable. Examples of matters that, unless subjected to the entity's controls over financial reporting (which is not ordinarily the case), should not be commented on by the accountants include the square footage of facilities, number of employees (except as related to a given payroll period), and backlog information.³² The accountants should not comment on tables, statistics, and other financial information relating to an unaudited period unless (a) they have performed an audit of the client's financial statements for a period including or immediately prior to the unaudited period or have completed an audit for a later period or (b) they have otherwise obtained knowledge of the client's internal control as provided for in paragraph .36 herein. In addition, the accountants should not comment on information subject to legal interpretation, such as beneficial share ownership. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

.56 As with comments relating to financial statement information, it is important that the procedures followed by the accountants with respect to other information be clearly set out in the comfort letter, in both draft and final form, so that there will be no misunderstanding about the basis of the comments on the information. Further, so that there will be no implication that the accountants are furnishing any assurance with respect to the sufficiency of the procedures for the underwriter's intended purpose, the comfort letter should contain a statement to this effect. An appropriate way of expressing this is shown in paragraph 10 of example F [paragraph .64] (see also paragraph .16 of this section). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.57 Certain financial information in registration statements is included because of specific requirements of Regulation S-K. Accountants may comment as to whether this information is in conformity with the disclosure requirements of Regulation S-K if the following conditions are met:

- a. The information is derived from the accounting records subject to the entity's controls over financial reporting, or has been derived directly from such accounting records by analysis or computation.
- b. This information is capable of evaluation against reasonable criteria that have been established by the SEC.

³² Accountants generally will be unable to comment on nonfinancial data presented in MD&A. However, when the accountants have conducted an examination or a review of MD&A in accordance with AT section 701, they may agree to trace nonfinancial data presented outside MD&A to similar data included in the MD&A presentation. When the accountant does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the accountant may perform agreed-upon procedures with respect to items in MD&A subject to controls over financial reporting. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

The following are the disclosure requirements of Regulation S-K³³ that generally meet these conditions:

- Item 301, "Selected Financial Data"
- Item 302, "Supplementary Financial Information"
- Item 402, "Executive Compensation"
- Item 503(d), "Ratio of Earnings to Fixed Charges"

Accountants may not give positive assurance on conformity with the disclosure requirements of Regulation S-K; they are limited to giving negative assurance, since this information is not given in the form of financial statements and generally has not been audited by the accountants. Even with respect to the above-mentioned items, there may be situations in which it would be inappropriate to provide negative assurance with respect to conformity of this information with Regulation S-K because conditions (a) and (b) above have not been met. Since information relevant to Regulation S-K disclosure requirements other than those noted previously is generally not derived from the accounting records subject to the entity's controls over financial reporting, it is not appropriate for the accountants to comment on conformity of this information with Regulation S-K. The accountants' inability to comment on conformity with Regulation S-K does not preclude accountants from performing procedures and reporting findings with respect to this information. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.58 To avoid ambiguity, the specific information commented on in the letter should be identified by reference to specific captions, tables, page numbers, paragraphs, or sentences. Descriptions of the procedures followed and the findings obtained may be stated individually for each item of specific information commented on. Alternatively, if the procedures and findings are adequately described, some or all of the descriptions may be grouped or summarized, as long as the applicability of the descriptions to items in the registration statement is clear and the descriptions do not imply that the accountants assume responsibility for the adequacy of the procedures. It would also be appropriate to present a matrix listing the financial information and common procedures employed and indicating the procedures applied to the specific items. Another presentation that could be used identifies procedures performed with specified symbols and identifies items to which those procedures have been applied directly on a copy of the prospectus which is attached to the comfort letter. (See examples F, G, and H [paragraph .64]). [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.59 Comments in the comfort letter concerning tables, statistics, and other financial information included (incorporated by reference) in the registration statement should be made in the form of a description of the procedures followed; the findings (ordinarily expressed in terms of agreement between items compared); and in some cases, as described below, statements with respect to the acceptability of methods of allocation used in deriving the figures

³³ Accountants should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC; accountants may agree to examine or review MD&A in accordance with AT section 701. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

commented on. Whether comments on the allocation of income or expense items between categories of sales (such as military and commercial sales) may appropriately be made will depend on the extent to which such allocation is made in, or can be derived directly by analysis or computation from, the client's accounting records. In any event, such comments, if made, should make clear that such allocations are to a substantial extent arbitrary, that the method of allocation used is not the only acceptable one, and that other acceptable methods of allocation might produce significantly different results. Furthermore, no comments should be made regarding segment information (or the appropriateness of allocations made to derive segment information) included in financial statements, since the accountants' report encompasses that information (see section 435, *Segment Information*).³⁴ Appropriate ways of expressing comments on tables, statistics, and other financial information are shown in examples F, G, and H [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.60 In comments concerning tables, statistics, and other financial information, the expression "presents fairly" (or a variation of it) should not be used. That expression, when used by independent accountants, ordinarily relates to presentations of financial statements and should not be used in commenting on other types of information. Except with respect to requirements for financial statements and certain Regulation S-K items discussed in paragraph .57, the question of what constitutes appropriate information for compliance with the requirements of a particular item of the registration statement form is a matter of legal interpretation outside the competence of accountants. Consequently, the letter should state that the accountants make no representations regarding any matter of legal interpretation. Since the accountants will not be in a position to make any representations about the completeness or adequacy of disclosure or about the adequacy of the procedures followed, the letter should so state. It should point out, as well, that such procedures would not necessarily disclose material misstatements or omissions in the information to which the comments relate. An appropriate manner of expressing the comments is shown in examples F, G, and H [paragraph .64]. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Concluding Paragraph

.61 In order to avoid misunderstanding of the purpose and intended use of the comfort letter, it is desirable that the letter conclude with a paragraph along the following lines:

This letter is solely for the information of the addressees and to assist the underwriters³⁵ in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or

³⁴ See paragraph .30 regarding requests by an underwriter for comments on interim financial information required by item 302(a) of Regulation S-K and required supplementary information described in section 558. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

³⁵ When the letter is furnished by the accountants for a subsidiary and they are not also accountants for the parent company, the letter should include the following phrase at this point: "and for the use of the accountants for [name of issuer] in furnishing their letter to the underwriters." [Footnote renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995. Footnote subsequently renumbered by the issuance of Statement on Auditing Standards No. 86, March 1998.]

otherwise referred to within or without the underwriting group for any other purpose, including, but not limited to, the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Disclosure of Subsequently Discovered Matters

.62 Accountants who discover matters that may require mention in the final comfort letter but that are not mentioned in the draft letter that has been furnished to the underwriter, such as changes, increases, or decreases in specified items not disclosed in the registration statement (see paragraphs .45 and .49), will naturally want to discuss them with their client so that consideration can be given to whether disclosure should be made in the registration statement. If disclosure is not to be made, the accountants should inform the client that the matters will be mentioned in the comfort letter and should suggest that the underwriter be informed promptly. It is recommended that the accountants be present when the client and the underwriter discuss such matters. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

Effective Date

.63 This section is effective for comfort letters issued on or after June 30, 1993. Early application of this section is encouraged. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 76, September 1995.]

.64

Appendix

Examples

1. The contents of comfort letters vary, depending on the extent of the information in the registration statement and the wishes of the underwriter or other requesting party. Shelf registration statements may have several closing dates and different underwriters. Descriptions of procedures and findings regarding interim financial statements, tables, statistics, or other financial information that is incorporated by reference from previous 1934 Act filings may have to be repeated in several comfort letters. To avoid restating these descriptions in each comfort letter, accountants may initially issue the comments in a format (such as an appendix) that can be referred to in, and attached to, subsequently issued comfort letters.

Example A: Typical Comfort Letter

2. A typical comfort letter includes—

- a. A statement regarding the independence of the accountants (paragraphs .31 and .32).
- b. An opinion regarding whether the audited financial statements and financial statement schedules included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and related rules and regulations adopted by the SEC (paragraphs .33 and .34).
- c. Negative assurance on whether—
 1. The unaudited condensed interim financial information included (incorporated by reference) in the registration statement (paragraph .37) complies as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
 2. Any material modifications should be made to the unaudited condensed consolidated financial statements included (incorporated by reference) in the registration statement for them to be in conformity with generally accepted accounting principles.
- d. Negative assurance on whether, during a specified period following the date of the latest financial statements in the registration statement and prospectus, there has been any change in capital stock, increase in long-term debt or any decrease in other specified financial statement items (paragraphs .45 through .53).

Example A is a letter covering all these items. Letters that cover some of the items may be developed by omitting inapplicable portions of example A.

Example A assumes the following circumstances.¹ The prospectus (part I of the registration statement) includes audited consolidated balance sheets as of December 31, 19X5 and 19X4, and audited consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5. Part I also includes an unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, reviewed in accordance with section 722 but not previously reported on by the accountants. Part II of the registration statement includes audited consolidated financial statement schedules for the three years ended December 31, 19X5. The cutoff date is June 23, 19X6, and the letter is dated June 28, 19X6. The effective date is June 28, 19X6.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example A, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

¹ The example includes financial statements required by SEC regulations to be included in the filing. If additional financial information is covered by the comfort letter, appropriate modifications should be made.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, and the related financial statement schedules all included in the registration statement (no. 33-00000) on Form S-1 filed by the company under the Securities Act of 1933 (the Act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement.²

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. For purposes of this letter we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings³ through that date were set forth therein; we have

² The example assumes that the accountants have not previously reported on the interim financial information. If the accountants have previously reported on the interim financial information, they may refer to that fact in the introductory paragraph of the comfort letter as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 19X6 and 19X5, and for the three-month periods then ended, as indicated in our report dated May 15, 19X6, which is included (incorporated by reference) in the registration statement. The report may be attached to the comfort letter (see paragraph .29). The accountants may agree to comment in the comment letter on whether the interim financial information complies as to form in all material respects with the applicable accounting requirements of the rules and regulations adopted by the SEC.

³ The accountants should discuss with the secretary those meetings for which minutes have not been approved. The letter should be modified to identify specifically the unapproved minutes of meetings that the accountants have discussed with the secretary.

carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of interim financial information as described in SAS No. 71, *Interim Financial Information*, on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited consolidated financial statements⁴ of the company and subsidiaries for April and May of both 19X5 and 19X6 furnished us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us⁵ to believe that—

- a.
 - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4a(i), included in the registration

⁴ If the interim financial information is incomplete, a sentence similar to the following should be added: "The financial information for April and May is incomplete in that it omits the statements of cash flows and other disclosures."

⁵ If there has been a change in accounting principle during the interim period, a reference to that change should be included herein.

Other Types of Reports

statement, for them to be in conformity with generally accepted accounting principles.⁶

- (ii) The unaudited condensed consolidated financial statements described in 4a(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b.

- (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or
- (ii) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

⁶ Section 722 does not require the accountants to modify the report on a review of interim financial information for a lack of consistency in the application of accounting principles provided that the interim financial information appropriately discloses such matters.

Example B: Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Forms 10-K and 10-Q by Reference

3. Example B is applicable when a registrant uses a short-form registration statement (Form S-2 or S-3) which, by reference, incorporates previously filed Forms 10-K and 10-Q. It assumes that the short-form registration statement and prospectus include the Form 10-K for the year ended December 31, 19X5, and Form 10-Q for the quarter ended March 31, 19X6, which have been incorporated by reference. In addition to the information presented below, the letter would also contain paragraphs 6 and 7 of the typical letter in example A. A Form S-2 registration statement will often both incorporate and include the registrant's financial statements. In such situations, the language in the following example should be appropriately modified to refer to such information as being both incorporated and included.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, and the related financial statement schedules, all included (incorporated by reference) in the company's annual report on Form 10-K for the year ended December 31, 19X5, and incorporated by reference in the registration statement (no. 33-00000) on Form S-3 filed by the company under the Securities Act of 1933 (the Act); our report with respect thereto is also incorporated by reference in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC.
2. In our opinion, the consolidated financial statements and financial statement schedules audited by us and incorporated by reference in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the consolidated financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the company's quarterly report on Form 10-Q for the quarter ended March 31, 19X6, incorporated by reference in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

Other Types of Reports

4. For purposes of this letter, we have read the 19X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings⁷ through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of interim financial information as described in SAS No. 71, *Interim Financial Information*, on the unaudited condensed consolidated financial statements for these periods, described in 3, included in the company's quarterly report on Form 10-Q for the quarter ended March 31, 19X6, incorporated by reference in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 as it applies to Form 10-Q and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited consolidated financial statements⁸ of the company and subsidiaries for April and May of both 19X5 and 19X6 furnished us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements incorporated by reference in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations about the sufficiency of the foregoing procedures for your purposes.

⁷ See footnote 3 of the Appendix.

⁸ See footnote 4 of the Appendix.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

a.

- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 3, incorporated by reference in the registration statement, for them to be in conformity with generally accepted accounting principles.
- (ii) The unaudited condensed consolidated financial statements described in 3 do not comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 as it applies to Form 10-Q and the related rules and regulations adopted by the SEC.

b.

- (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6 unaudited condensed consolidated balance sheet incorporated by reference in the registration statement or
- (ii) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example C: Letter Reaffirming Comments in Example A as of a Later Date

4. If more than one comfort letter is requested, the later letter may, in appropriate situations, refer to information appearing in the earlier letter without repeating such information (see paragraph .24 and paragraph 1 of the Appendix). Example C reaffirms and updates the information in example A.

July 25, 19X6

[Addressee]

Dear Sirs:

We refer to our letter of June 28, 19X6, relating to the registration statement (no. 33-00000) of The Blank Company, Inc. (the company). We reaffirm as of the date hereof (and as though made on the date hereof) all statements made in that letter except that, for the purposes of this letter—

- a. The registration statement to which this letter relates is as amended on July 13, 19X6 [*effective date*].
- b. The reading of minutes described in paragraph 4 of that letter has been carried out through July 20, 19X6 [*the new cutoff date*].
- c. The procedures and inquiries covered in paragraph 4 of that letter were carried out to July 20, 19X6 [*the new cutoff date*] (our work did not extend to the period from July 21, 19X6, to July 25, 19X6 [*date of letter*], inclusive).
- d. The period covered in paragraph 4b of that letter is changed to the period from April 1, 19X6, to June 30, 19X6, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to June 30, 19X6, were available.
- e. The references to May 31, 19X6, in paragraph 5b of that letter are changed to June 30, 19X6.
- f. The references to May 31, 19X6, and June 23, 19X6, in paragraph 6 of that letter are changed to June 30, 19X6, and July 20, 19X6, respectively.

This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example D: Comments on Pro Forma Financial Information

5. Example D is applicable when the accountants are asked to comment on (a) whether the pro forma financial information included in a registration statement complies as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .42 and .43). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A. The accountants have audited the December 31, 19X5, financial statements and have conducted an SAS No. 71 [section 722] review of the March 31, 19X6, interim financial information of the acquiring company. Other accountants conducted a review of the March 31, 19X6, interim financial information of XYZ Company, the company being acquired. The example assumes that the accountants have not previously reported on the pro forma financial information. If the accountants did previously report on the pro forma financial information, they may refer in the introductory paragraph of the comfort letter to the fact that they have issued a report, and the report may be attached to the comfort letter (see paragraph .29). In that circumstance, therefore, the procedures in 7b(i) and 7c ordinarily would not be performed, and the accountants should not separately comment on the application of pro forma adjustments to historical financial information, since that assurance is encompassed in the accountants' report on pro forma financial information. The accountants may, however, agree to comment on compliance as to form with the applicable accounting requirements of rule 11-02 of Regulation S-X.

7. At your request, we have—

- a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 19X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 19X5, and the three-month period ended March 31, 19X6, included in the registration statement.
- b. Inquired of certain officials of the company and of XYZ Company (the company being acquired) who have responsibility for financial and accounting matters about—
 - (i) The basis for their determination of the pro forma adjustments, and
 - (ii) Whether the unaudited pro forma condensed consolidated financial statements referred to in 7a comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X.
- c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

8. Nothing came to our attention as a result of the procedures specified in paragraph 7, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 7*a* included in the registration statement do not comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X and that the pro forma adjustments have not been properly applied to the historical amounts in the compilation of those statements. Had we performed additional procedures or had we made an examination of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

Example E: Comments on a Financial Forecast

6. Example E is applicable when accountants are asked to comment on a financial forecast (see paragraph .44). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A. The example assumes that the accountants have previously reported on the compilation of the financial forecast and that the report is attached to the letter (see paragraph .29 and example O).

7. At your request, we performed the following procedure with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 19X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.

8. Because the procedure described above does not constitute an examination of prospective financial statements in accordance with standards established by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation.

Had we performed additional procedures or had we made an examination of the forecast in accordance with standards established by the American Institute of Certified Public Accountants, matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

Example F: Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings

7. Example F is applicable when the accountants are asked to comment on tables, statistics, or other compilations of information appearing in a registration statement (paragraphs .54 through .60). Each of the comments is in response to a specific request. The paragraphs in example F are intended to follow paragraph 6 in example A.

7. For purposes of this letter, we have also read the following, set forth in the registration statement on the indicated pages.⁹

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of June 15, 19X6" and "As Adjusted." The related notes, except the following in Note 2: "See 'Transactions With Interested Persons.' From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See 'Use of Proceeds.'"
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	22	"Executive Compensation—19X5 Compensation."
<i>d</i>	33	"Selected Financial Data." ¹⁰

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements taken as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

9. However, for purposes of this letter we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

Item in 7

Procedures and Findings

- a* We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 19X6 (the latest date for which posting had been made), and found them to be in

⁹ In some cases it may be considered desirable to combine in one paragraph the substance of paragraphs 7 and 9. This may be done by expanding the identification of items in paragraph 9 to provide the identification information contained in paragraph 7. In such cases, the introductory sentences in paragraphs 7 and 9 and the text of paragraph 8 might be combined as follows: "For purposes of this letter, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements. . ."

¹⁰ In some cases the company or the underwriter may request that the independent accountants report on "selected financial data" as described in section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*. When the accountants report on this data and the report is included in the registration statement, separate comments should not be included in the comfort letter (see paragraph .30).

Item in 7Procedures and Findings

agreement. We were informed by company officials who have responsibility for financial and accounting matters that there have been no changes in such amounts and numbers of shares between May 31, 19X6, and June 15, 19X6. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6," adjusted for the issuance of the debentures to be offered by means of the registration statement and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of the "Use of Proceeds" or whether such use will actually take place.) We compared the description of the securities and the information (except certain information in Note 2, referred to in 7) included in the notes to the table with the corresponding descriptions and information in the company's consolidated financial statements, including the notes thereto included in the registration statement, and found such description and information to be in agreement.

- b* We compared the amounts of military sales, commercial sales, and total sales shown in the registration statement with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the registration statement and found them to be in agreement.
- c* We compared the dollar amounts of compensation (salary, bonus, and other compensation) for each individual listed in the table "Annual Compensation" with the corresponding amounts shown by the individual employee earnings records for the year 19X5 and found them to be in agreement. We compared the dollar amount of aggregate executive officers' cash compensation on page 22 with the corresponding amount shown in an analysis prepared by the company and found the amounts to be in agreement. We traced every item over \$10,000 on the analysis to the individual employee records for 19X5. We compared the dollar amounts shown under the heading of "Long-Term Compensation" on page 24 for each listed individual and the aggregate amounts for executive officers with corresponding amounts shown in an analysis prepared by the company and found such amounts to be in agreement.

We compared the executive compensation information with the requirements of item 402 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether the executive compensation information conforms in all material respects with the disclosure requirements of item 402 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of item 402 of Regulation S-K.

- d* We compared the amounts of net sales, income from continuing operations, income from continuing operations per common share, and cash dividends declared per common share for the years ended December 31, 19X5, 19X4, and 19X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 19X2, and 19X1, with the respective amounts in the consolidated

Item in 7Procedures and Findings

financial statements included in the company's annual reports to stockholders for 19X2 and 19X1 and found them to be in agreement.

We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 19X5 and 19X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 19X3, and 19X2, and 19X1 with the corresponding amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X3, 19X2, and 19X1 and found them to be in agreement.

We compared the information included under the heading "Selected Financial Data" with the requirements of item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of item 301 of Regulation S-K.

10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

11. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example G: Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information

8. Example G illustrates, in paragraph 9a, a method of summarizing the descriptions of procedures and findings regarding tables, statistics, and other financial information in order to avoid repetition in the comfort letter. The summarization of the descriptions is permitted by paragraph .58. Each of the comments is in response to a specific request. The paragraphs in example G are intended to follow paragraph 6 in example A.¹¹

7. For purposes of this letter, we have also read the following, set forth in the registration statement on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of June 15, 19X6" and "As Adjusted." The related notes, except the following in Note 2: "See 'Transactions With Interested Persons.' From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See 'Use of Proceeds.'"
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	22	"Executive Compensation—19X5 Compensation."
<i>d</i>	33	"Selected Financial Data." ¹²

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements taken as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

9. However, for purposes of this letter and with respect to the items enumerated in 7 above—

- a.* Except for item 7a, we have (i) compared the dollar amounts either with the amounts in the audited consolidated financial statements described in the introductory paragraph of this letter or, for prior years, included in the company's annual report to stockholders for the years 19X1, 19X2, and 19X3, or with amounts in the unaudited consolidated financial statements described in paragraph 3 to the extent such amounts are included in or can be derived from such statements and found them to be in

¹¹ Other methods of summarizing the descriptions may also be appropriately used. For example, the letter may present a matrix listing the financial information and common procedures employed and indicating the procedures applied to specific items.

¹² See footnote 10 of the Appendix.

Other Types of Reports

agreement; (ii) compared the amounts of military sales, commercial sales, and total sales and the dollar amounts of compensation for each listed individual with amounts in the company's accounting records and found them to be in agreement; (iii) compared other dollar amounts with amounts shown in analyses prepared by the company and found them to be in agreement; and (iv) proved the arithmetic accuracy of the percentages based on the data in the above-mentioned financial statements, accounting records, and analyses.

We compared the information in items 7*c* and 7*d* with the disclosure requirements of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of items 402 and 301, respectively, of Regulation S-K.

- b. With respect to item 7*a*, we compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 19X6 (the latest date for which postings had been made), and found them to be in agreement. We were informed by officials of the company who have responsibility for financial and accounting matters that there had been no changes in such amounts and numbers of shares between May 31, 19X6, and June 15, 19X6. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of June 15, 19X6" adjusted for the issuance of the debentures to be offered by means of the registration statement and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of "Use of Proceeds" or whether such use will actually take place.) We compared the description of the securities and the information (except certain information in Note 2, referred to in 7) included in the notes to the table with the corresponding descriptions and information in the company's consolidated financial statements, including the notes thereto, included in the registration statement and found such descriptions and information to be in agreement.

10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the registration statement and make no representations

regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

11. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example H: Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Registration Statement (or Selected Pages) Identifies With Designated Symbols Items to Which Procedures Were Applied

9. This example illustrates an alternate format which could facilitate reporting when the accountant is requested to perform procedures on numerous statistics included in a registration statement. This format is permitted by paragraph .58. Each of the comments is in response to a specific request. The paragraph in example H is intended to follow paragraph 6 in example A.

7. For purposes of this letter, we have also read the items identified by you on the attached copy of the registration statement (prospectus), and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:

- ✓ Compared the amount with the XYZ (Predecessor Company) financial statements for the period indicated and found them to be in agreement.
- ✓ Compared the amount with the XYZ (Predecessor Company) financial statements for the period indicated contained in the registration statement and found them to be in agreement.
- ✓ Compared the amount with ABC Company's financial statements for the period indicated contained in the registration statement and found them to be in agreement.
- ⊖ Compared with a schedule or report prepared by the Company and found them to be in agreement.

The letter would also contain paragraphs 8, 10, and 11 of the letter in example F. *[The following is an extract from a registration statement that illustrates how an accountant can document procedures performed on numerous statistics included in the registration statement.]*

The following summary is qualified in its entirety by the financial statements and detailed information appearing elsewhere in this Prospectus.

The Company

ABC Company (the "Company") designs, constructs, sells, and finances single-family homes for the entry-level and move-up homebuyer. The Company and its predecessor have built and delivered more single-family homes in the metropolitan area than any other homebuilder for each of the last five years. The Company delivered 1,000 homes in the year ending December 31, 19X5, and at December 31, 19X5, had 500 homes¹³ under contract with an aggregate sales price of approximately \$45,000,000. The Company's wholly owned mortgage banking subsidiary, which commenced operations in March 19X5, currently originates a substantial portion of the mortgages for homes sold by the Company.

The Company typically does not engage in land development without related homebuilding operations and limits speculative building. The Company purchases only that land which it is prepared to begin developing immediately for home production. A substantial portion of the Company's homes are under contract for sale before construction commences.

The DEF area has been among the top five markets in the country in housing starts for each of the last five years, with more than 90,000 single-family starts during that period. During the same period, the DEF metropolitan area has experienced increases in population, personal income, and employment at rates above the national average. The Company is a major competitive factor in three of the seven market areas, and is expanding significantly in a fourth area.

The Offering

Stock Offered by the Company.....	750,000 Ⓣ shares of Common Stock—\$.01 par value (the Common Stock)*
Common Stock to Be Outstanding.....	3,250,000 Ⓣ shares*
Use of Proceeds.....	To repay indebtedness incurred for the acquisition of the Company.
Proposed NASDAQ Symbol.....	ABC

Summary Financial Information (In thousands, except per-share data)					
<u>Income Statement Data</u>	<u>XYZ (Predecessor Company) Year Ended December 31,</u>			<u>ABC Company Year Ended December 31,</u>	
	<u>19X1</u>	<u>19X2</u>	<u>19X3</u>	<u>19X4</u>	<u>19X5</u>
Revenue from home sales	\$106,603 ✓	\$88,970 ✓	\$104,110 ✗	\$115,837 ✗	\$131,032 ✓
Gross profit from sales	15,980 ✓	21,138 ✓	23,774 ✗	17,099 ✗	22,407 ✓

Example I: Alternate Wording When Accountants' Report on Audited Financial Statements Contains an Explanatory Paragraph

10. Example I is applicable when the accountants' report on the audited financial statements included in the registration statement contains an explanatory paragraph regarding a matter that would also affect the unaudited condensed consolidated interim financial statements included in the registration statement. The introductory paragraph of example A would be revised as follows:

Our reports with respect thereto (which contain an explanatory paragraph that describes a lawsuit to which the Company is a defendant, discussed in note 8 to the consolidated financial statements) are also included in the registration statement.

The matter described in the explanatory paragraph should also be evaluated to determine whether it also requires mention in the comments on the unaudited condensed consolidated interim financial information (paragraph 5*b* of example A). If it is concluded that mention of such a matter in the comments on unaudited condensed consolidated financial statements is appropriate, a sentence should be added at the end of paragraph 5*b* in example A:

Reference should be made to the introductory paragraph of this letter which states that our audit report covering the consolidated financial statements as of and for the year ended December 31, 19X5, includes an explanatory paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements.

Example J: Alternate Wording When More Than One Accountant Is Involved

11. Example J applies when more than one accountant is involved in the audit of the financial statements of a business and the principal accountants have obtained a copy of the comfort letter of the other accountants (see paragraph .18). Example J consists of an addition to paragraph 4c, a substitution for the applicable part of paragraph 5, and an addition to paragraph 6 of example A.

[4]c. We have read the letter dated _____ of [*the other accountants*] with regard to [*the related company*].

5. Nothing came to our attention as a result of the foregoing procedures (which, so far as [*the related company*] is concerned, consisted solely of reading the letter referred to in 4c), however, that caused us to believe that....

6. . . . On the basis of these inquiries and our reading of the minutes and the letter dated _____ of [*the other accountants*] with regard to [*the related company*], as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example K: Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements

12. Example K is applicable when (a) there is a departure from the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC and (b) representatives of the SEC have agreed to the departure. Paragraph 2 of example A would be revised to read as follows:

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC; however, as agreed to by representatives of the SEC, separate financial statements and financial statement schedules of ABC Company (an equity investee) as required by rule 3-09 of Regulation S-X have been omitted.

Example L: Alternate Wording When Recent Earnings Data Are Presented in Capsule Form

13. Example L is applicable when (a) the statement of income in the registration statement is supplemented by later information regarding sales and earnings (capsule financial information), (b) the accountants are asked to comment on that information (paragraphs .39 through .41), and (c) the accountants have conducted a review in accordance with section 722 of the financial statements from which the capsule financial information is derived. The same facts exist as in example A, except for the following:

- a. Sales, net income (no extraordinary items), and earnings per share for the six-month periods ended June 30, 19X6 and 19X5 (both unaudited), are included in capsule form more limited than that specified by APB Opinion 28 [AC section I73.146].
- b. No financial statements later than those for June 19X6 are available.
- c. The letter is dated July 25, 19X6, and the cutoff date is July 20, 19X6.

Paragraphs 4, 5, and 6 of example A should be revised to read as follows:

4. For purposes of this letter we have read the 19X6 minutes of the meetings of the stockholders, the board of directors, and [include other appropriate committees, if any] of the company and its subsidiaries as set forth in the minute books at July 20, 19X6, officials of the company having advised us that the minutes of all such meetings¹⁴ through that date were set forth therein; we have carried out other procedures to July 20, 19X6, as follows (our work did not extend to the period from July 21, 19X6, to July 25, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of interim financial information as described in SAS No. 71, *Interim Financial Information*, on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in (i) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the six-month periods ended June 30, 19X6 and 19X5, we have—
 - (i) Read the unaudited amounts for sales, net income, and earnings per share for the six-month periods

¹⁴ See footnote 3 of the Appendix.

Other Types of Reports

ended June 30, 19X6 and 19X5, as set forth in paragraph [*identify location*].

- (ii) Performed the procedures specified by the American Institute of Certified Public Accountants for a review of financial information as described in SAS No. 71, *Interim Financial Information*, on the unaudited condensed consolidated balance sheet as of June 30, 19X6 and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the six-month periods ended June 30, 19X6 and 19X5 from which the unaudited amounts referred to in *b*(i) are derived.
- (iii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited amounts referred to in (i) are stated on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

a.

- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in *4a*(i), included in the registration statement, for them to be in conformity with generally accepted accounting principles.
- (ii) The unaudited condensed consolidated financial statements described in *4a*(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b.

- (i) The unaudited amounts for sales, net income and earnings per share for the six-month periods ended June 30, 19X6 and 19X5, referred to in *4b*(i) do not agree with the amounts set forth in the unaudited consolidated financial statements for those same periods.
- (ii) The unaudited amounts referred to in *b*(i) were not determined on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

- c.* At June 30, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement,

except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

6. Company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to June 30, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after June 30, 19X6, have been, of necessity, even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters regarding whether (a) at July 20, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6 unaudited condensed consolidated balance sheet included in the registration statement; or (b) for the period from July 1, 19X6, to July 20, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

Example M: Alternate Wording When Accountants Are Aware of a Decrease in a Specified Financial Statement Item

14. Example M covers a situation in which accountants are aware of a decrease in a financial statement item on which they are requested to comment (see paragraphs .45 through .53). The same facts exist as in example A, except for the decrease covered in the following change in paragraph 5b.

- b.
- (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt or any decrease in consolidated stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or
 - (ii) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur and except that the unaudited consolidated balance sheet as of May 31, 19X6, which we were furnished by the company, showed a decrease from March 31, 19X6, in consolidated net current assets as follows (in thousands of dollars):

	<u>Current Assets</u>	<u>Current Liabilities</u>	<u>Net Current Assets</u>
March 31, 19X6	\$4,251	\$1,356	\$2,895
May 31, 19X6	3,986	1,732	2,254

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have been, of necessity, even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters regarding whether (a) there was any change at June 23, 19X6, in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement; or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur and except as described in the following sentence. We have been informed by officials of the company that there continues to be a decrease in net current assets that is estimated to be approximately the same amount as set forth in 5b [or *whatever other disclosure fits the circumstances*].

Example N: Alternate Wording of the Letter for Companies That Are Permitted to Present Interim Earnings Data for a Twelve-Month Period

15. Certain types of companies are permitted to include earnings data for a twelve-month period to the date of the latest balance sheet furnished in lieu of earnings data for both the interim period between the end of the latest fiscal year and the date of the latest balance sheet and the corresponding period of the preceding fiscal year. The following would be substituted for the applicable part of paragraph 3 of example A.

3. . . .was to enable us to express our opinion on the financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any period included in part within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the related unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the twelve months then ended included in the registration statement. . . .

Example O: Alternate Wording When the Procedures That the Underwriter Has Requested the Accountant to Perform on Interim Financial Information Are Less Than an SAS No. 71 Review

16. The example assumes that the underwriter has asked the accountants to perform specified procedures on the interim financial information and report thereon in the comfort letter. The letter is dated June 28, 19X6; procedures were performed through June 23, 19X6, the cutoff date. Since an SAS No. 71 [section 722] review was not performed on the interim financial information as of March 31, 19X6 and for the quarter then ended, the accountants are limited to reporting procedures performed and findings obtained on the interim financial information. In addition to the information presented below, the letter would also contain paragraph 7 of the typical comfort letter in example A.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and the subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5 and the related financial statement schedules all included in the registration statement (no. 33-00000) on Form S-1 filed by the company under the Securities Act of 1933 (the Act); our reports with respect thereto are included in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement.

Also, we have compiled the forecasted balance sheet and consolidated statements of income, retained earnings (stockholders' equity), and cash flows as of December 31, 19X6 and for the year then ending, attached to the registration statement, as indicated in our report dated May 15, 19X6, which is attached.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, or on the financial

position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. For purposes of this letter, we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings¹⁵ through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, and agreed the amounts contained therein with the company's accounting records as of March 31, 19X6 and 19X5, and for the three-month periods then ended.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i): (1) are in conformity with generally accepted accounting principles¹⁶ applied on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, and (2) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC. Those officials stated that the unaudited condensed consolidated financial statements (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited financial statements, and (2) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited condensed consolidated financial statements of the company¹⁷ for April and May of both 19X5 and 19X6 furnished us by the company, and agreed the amounts contained therein to the company's accounting records. Officials of the company have advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.

¹⁵ See footnote 3 of the Appendix.

¹⁶ See footnote 5 of the Appendix.

¹⁷ See footnote 4 of the Appendix.

Other Types of Reports

- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited financial statements referred to in *b(i)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, (2) at May 31, 19X6, there was any change in the capital stock, increase in long-term debt or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6 unaudited condensed consolidated balance sheet included in the registration statement, and (3) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

Those officials stated that (1) the unaudited consolidated financial statements referred to in *4b(i)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement, (2) at May 31, 19X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, and (3) there were no decreases for the period from April 1, 19X6, to May 31, 19X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

- c. As mentioned in *4b(i)*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in *4a* and *4b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. Those officials stated that (1) at June 23, 19X6, there was no change in the capital stock, no increase in long-term debt and no decreases

in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet, and (2) for the period from April 1, 19X6, to June 23, 19X6, there were no decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. We make no representations regarding the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we conducted an audit or a review, other matters might have come to our attention that would have been reported to you.

5. At your request, we also performed the following procedures:

- a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 19X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 19X5, and the three-month period ended March 31, 19X6, included in the registration statement.
- b. Inquired of certain officials of the company and of XYZ Company (the company being acquired) who have responsibility for financial and accounting matters as to whether all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and whether the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X.

Those officials referred to above stated, in response to our inquiries, that all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and that the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the applicable accounting requirements of rule 11-02 of Regulation S-X.

- c. Compared the historical financial information for the company included on page 20 in the registration statement with historical financial information for the company on page 12 and found them to be in agreement.
We also compared the financial information included on page 20 of the registration statement with the historical information for XYZ Company on page 13 and found them to be in agreement.
- d. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma

adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion. We make no representation about the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we made an examination of the pro forma financial information, other matters might have come to our attention that would have been reported to you.

6. At your request, we performed the following procedures with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 19X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.

Because the procedures described above do not constitute an examination of prospective financial statements in accordance with standards established by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We make no representations about the sufficiency of such procedures for your purposes. Had we performed additional procedures or had we made an examination of the forecast in accordance with standards established by the AICPA, matters might have come to our attention that would have been reported to you.

Example P: A Typical Comfort Letter in a Non-1933 Act Offering, Including the Required Underwriter Representations

17. Example P is applicable when a comfort letter is issued in a non-1933 Act offering. The underwriter has given the accountants a letter including the representations regarding their due diligence review process, as described in paragraphs .06 and .07, and the comfort letter refers to those representations. In addition, the example assumes that the accountants were unable, or were not requested, to perform an SAS No. 71 [section 722] review of a subsequent interim period and therefore no negative assurance has been given. See paragraph .47.

November 30, 19X5

[Addressee]

Dear Sirs:

We have audited the balance sheets of Example City, Any State Utility System as of June 30, 19X5 and 19X4, and the statements of revenues, expenses, and changes in retained earnings and cash flows for the years then ended, included in the Official Statement for \$30,000,000 of Example City, Any State Utility System Revenue Bonds due November 30, 19Z5. Our report with respect thereto is included in the Official Statement. This Official Statement, dated November 30, 19X5, is herein referred to as the Official Statement.

This letter is being furnished in reliance upon your representation to us that—

- a. You are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Securities Act of 1933 (the Act).
- b. In connection with the offering of revenue bonds, the review process you have performed is substantially consistent with the due diligence review process that you would have performed if this placement of securities were being registered pursuant to the Act.

In connection with the Official Statement—

1. We are independent certified public accountants with respect to Example City, Any State and its Utility System under rule 101 of the AICPA's *Code of Professional Conduct*, and its interpretations and rulings.
2. We have not audited any financial statements of Example City, Any State Utility System as of any date or for any period subsequent to June 30, 19X5; although we have conducted an audit for the year ended June 30, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the financial statements as of June 30, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the financial position, results of operations, or cash flows as of any date or for any period subsequent to June 30, 19X5, for the Example City, Any State Utility System.
3. For purposes of this letter we have read the 19X5 minutes of the meetings of the City Council of Example City, Any State as set forth in the minutes books as of November 25, 19X5, the City Clerk of Example City having advised us that the minutes of all such meetings¹⁸ through that date were set forth therein.

¹⁸ See footnote 3 of paragraph .03.

4. With respect to the period subsequent to June 30, 19X5, we have carried out other procedures to November 25, 19X5, as follows (our work did not extend to the period from November 26, 19X5, to November 30, 19X5, inclusive):

- We have inquired of, and received assurance from, city officials who have responsibility for financial and accounting matters, that no financial statements as of any date or for any period subsequent to June 30, 19X5, are available.
- We have inquired of those officials regarding whether (a) at November 25, 19X5, there was any increase in long-term debt or any decrease in net current assets of Example City, Any State Utility System as compared with amounts shown on the June 30, 19X5, balance sheet, included in the Official Statement, or (b) for the period from July 1, 19X5, to November 25, 19X5, there were any decreases, as compared with the corresponding period in the preceding year, in total operating revenues, income from operations or net income. Those officials stated that (1) at November 25, 19X5, there was no increase in long-term debt and no decrease in net current assets of the Example City, Any State Utility System as compared with amounts shown in the June 30, 19X5, balance sheet; and (2) there were no decreases for the period from July 1, 19X5, to November 25, 19X5, as compared with the corresponding period in the preceding year, in total operating revenues, income from operations, or net income, except in all instances for changes, increases, or decreases that the Official Statement discloses have occurred or may occur.

5. For accounting data pertaining to the years 19X3 through 19X5, inclusive, shown on page 11 of the Official Statement, we have (i) for data shown in the audited financial statements, compared such data with the audited financial statements of the Example City, Any State Utility System for 19X3 through 19X5 and found them to be in agreement; and (ii) for data not directly shown in the audited financial statements, compared such data with the general ledger and accounting records of the Utility System from which such information was derived, and found them to be in agreement.

6. The procedures enumerated in the preceding paragraphs do not constitute an audit conducted in accordance with generally accepted auditing standards. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the Example City, Any State Utility System in connection with the offering of securities covered by the Official Statement, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the purchase or sale of securities, nor is it to be filed with or referred to in whole or in part in the Official Statement or any other document, except that reference may be made to it in the Purchase Contract or in any list of closing documents pertaining to the offering of securities covered by the Official Statement.

Example Q: Letter to a Requesting Party That Has Not Provided the Representation Letter Described in Paragraphs .06 and .07

18. This example assumes that these procedures are being performed at the request of the placement agent on information included in an offering circular in connection with a private placement of unsecured notes with two insurance companies.¹⁹ The letter is dated June 30, 19X6; procedures were performed through June 25, 19X6, the cutoff date. The statements in paragraphs 5 through 9 of the example should be included in any letter issued pursuant to paragraph .09.²⁰

June 30, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, included in the offering circular for \$30,000,000 of notes due June 30, 20X6. Our report with respect thereto is included in the offering circular. The offering circular dated June 30, 19X6, is herein referred to as the offering circular.

We are independent certified public accountants with respect to the company under rule 101 of the AICPA's Code of Professional Conduct, and its interpretations and rulings.²¹

We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the offering circular, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

¹⁹ This same example could be used in conjunction with a municipal bond offering in which the accountant has not received the representation letter described in paragraphs .06 and .07. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²⁰ This example may also be used in connection with a filing under the Securities Act of 1933 (the Act) when a party other than a named underwriter (for example, a selling shareholder) has not provided the accountant with the representation letter described in paragraphs .06 and .07. In such a situation, this example may be modified to include the accountant's comments on independence and compliance as to form of the audited financial statements and financial statement schedules with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC. Example paragraph 1a(ii) may include an inquiry, and the response of company officials, on compliance as to form of the unaudited condensed interim financial statements. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²¹ See paragraphs .31 and .32 for guidance in commenting on independence. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

1. At your request, we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company as set forth in the minute books at June 25, 19X6, officials of the company having advised us that the minutes of all such meetings²² through that date were set forth therein; we have carried out other procedures to June 25, 19X6 (our work did not extend to the period from June 26, 19X6, to June 30, 19X6, inclusive), as follows:

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows^{23, 24} of the company for the three-month periods ended March 31, 19X6 and 19X5, included in the offering circular, and agreed the amounts contained therein with the company's accounting records as of March 31, 19X6 and 19X5, and for the three-month periods then ended.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular. Those officials stated that the unaudited condensed consolidated financial statements are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements.
- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
 - (i) Read the unaudited condensed consolidated financial statements of the company for April and May of both 19X5 and 19X6, furnished us by the company, and agreed the amounts contained therein with the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited condensed consolidated financial statements referred to in b(i) are stated on a basis substantially consistent with

²² See footnote 3 of the Appendix. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²³ See footnotes 4 and 5 of the Appendix. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²⁴ Generally, accountants should recognize that the criteria for summarized financial information have not been established for entities other than SEC registrants. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

that of the audited consolidated financial statements included in the offering circular, (2) at May 31, 19X6, there was any change in the capital stock, increase in long-term debt or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the offering circular, and (3) for the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

Those officials stated that (1) the unaudited condensed consolidated financial statements referred to in *b(ii)* are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the offering circular, (2) at May 31, 19X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the offering circular, and (3) there were no decreases for the period from April 1, 19X6, to May 31, 19X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

- c. As mentioned in *1b*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in *1a* and *1b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (i) at June 25, 19X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the offering circular or (ii) for the period from April 1, 19X6, to June 25, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

Those officials referred to above stated that (i) at June 25, 19X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet, and (ii) there were

Other Types of Reports

no decreases for the period from April 1, 19X6, to June 25, 19X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income.

2. At your request, we have read the following items in the offering circular on the indicated pages.²⁵

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>b</i>	22	"Executive Compensation—19X5 Compensation."
<i>c</i>	33	"Selected Financial Data." ²⁶

3. Our audits of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements taken as a whole. For none of the periods referred to therein, nor for any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.

4. However, at your request, we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

*Item in 2**Procedures and Findings*

- a* We compare the amounts of military sales, commercial sales, and total sales shown in the registration statement with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the registration statement and found them to be in agreement.
- b* We compared the dollar amounts of compensation (salary, bonus, and other compensation) for each individual listed in the

²⁵ In some cases it may be considered desirable to combine in one paragraph the substance of paragraphs 2 and 4. This may be done by expanding the identification of terms in paragraph 4 to provide the identification information contained in paragraph 2. In such cases the introductory sentences in paragraphs 2 and 4 and the text of paragraph 3 might be combined as follows: "At your request, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements..." [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

²⁶ See footnote 10 of the Appendix. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

table "Annual Compensation" with the corresponding amounts shown by the individual employee earnings records for the year 19X5 and found them to be in agreement. We compared the dollar amounts shown under the heading of "Long-Term Compensation" on page 24 for each listed individual and the aggregate amounts for executive officers with corresponding amounts shown in an analysis prepared by the company and found such amounts to be in agreement.

- c We compared the amounts of net sales, income from continuing operations, income from continuing operations per common share, and cash dividends declared per common share for the years ended December 31, 19X5, 19X4, and 19X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 19X2, and 19X1, with the respective amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X2 and 19X1 and found them to be in agreement.

We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 19X5 and 19X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 19X3, and 19X2, and 19X1 with the corresponding amounts in the consolidated financial statements included in the company's annual reports to stockholders for 19X3, 19X2, and 19X1 and found them to be in agreement.

5. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in paragraphs 1 through 4 above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation²⁷ or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the offering circular. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company taken as a whole.

6. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 19X6 and 19X5, condensed consolidated financial statements in accordance with standards established by the American Institute of Certified Public Accountants, other matters might have come to our attention that would have been reported to you.

7. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.

²⁷ See footnote 7 to paragraph .09. [Footnote added, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by Statement on Auditing Standards No. 76.]

8. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the offering circular, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.

9. We have no responsibility to update this letter for events and circumstances occurring after June 25, 19X6.

Example R: Comfort Letter That Includes Reference to Examination of Annual MD&A and Review of Interim MD&A

19. This example assumes the following circumstances.²⁸ The prospectus (part I of the registration statement) includes audited consolidated balance sheets as of December 31, 19X5 and 19X4, and audited consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5. Part I also includes an unaudited condensed consolidated balance sheet as of March 31, 19X6, and unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5. Part II of the registration statement includes audited consolidated financial statement schedules for the three years ended December 31, 19X5. The accountants have examined the company's management's discussion and analysis (MD&A) for the year ended December 31, 19X5, in accordance with AT section 701; the accountants have also performed reviews of the company's unaudited condensed consolidated financial statements, referred to above, in accordance with section 722, and the company's MD&A for the three-month period ended March 31, 19X6, in accordance with AT section 701. The accountant's reports on the examination and review of MD&A have been previously issued, but not distributed publicly; none of these reports is included in the registration statement. The cutoff date is June 23, 19X6, and the letter is dated June 28, 19X6. The effective date is June 28, 19X6.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example R, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 19X6

[Addressee]

Dear Sirs:

We have audited the consolidated balance sheets of The Blank Company, Inc. (the company) and subsidiaries as of December 31, 19X5 and 19X4, and the consolidated statements of income, retained earnings (stockholders' equity), and cash flows for each of the three years in the period ended December 31, 19X5, and the related financial statement schedules, all included in the registration statement (no. 33-00000) on Form S-1 filed by the company under the Securities Act of 1933 (the Act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 19X6, is herein referred to as the registration statement. Also, we have examined²⁹ the company's Management's Discussion and Analysis for the year ended December 31, 19X5, included in the registration statement, as indicated in our report dated March 28, 19X6; our report with respect thereto is attached.³⁰ We have also reviewed the unaudited condensed consolidated financial statements

²⁸ The example includes financial statements required by SEC regulations to be included in the filing. If additional financial information is covered by the comfort letter, appropriate modifications should be made. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

²⁹ If the accountant has performed a review of the company's annual MD&A, the opening paragraph of the comfort letter should be revised accordingly. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

³⁰ The accountant has elected to attach the previously issued reports to the comfort letter (see paragraph .29). [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

as of March 31, 19X6 and 19X5, and for the three-month periods then ended, included in the registration statement, as indicated in our report dated May 15, 19X6, and have also reviewed the company's Management's Discussion and Analysis for the three-month period ended March 31, 19X6, included in the registration statement, as indicated in our report dated May 15, 19X6; our reports with respect thereto are attached.³¹

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the Act and the applicable rules and regulations thereunder adopted by the SEC.

2. In our opinion [*include the phrase "except as disclosed in the registration statement," if applicable*], the consolidated financial statements and financial statement schedules audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 19X5; although we have conducted an audit for the year ended December 31, 19X5, the purpose (and therefore the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 19X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 1, 19X6 and 19X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 19X5.

4. We have not examined any management's discussion and analysis of the company as of or for any period subsequent to December 31, 19X5; although we have made an examination of the company's Management's Discussion and Analysis for the year ended December 31, 19X5, included in the company's registration statement, the purpose (and therefore the scope) of the examination was to enable us to express our opinion on such Management's Discussion and Analysis, but not on the management's discussion and analysis for any interim period within that year. Therefore, we are unable to and do not express any opinion on the Management's Discussion and Analysis for the three-month period ended March 31, 19X6, included in the registration statement, or for any period subsequent to March 31, 19X6.

5. For purposes of this letter we have read the 19X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 19X6, officials of the company having advised us that the minutes of all such meetings³² through that date were set forth therein; we have carried out other procedures to June 23, 19X6, as follows (our work did not extend to the period from June 24, 19X6, to June 28, 19X6, inclusive):

- a. With respect to the three-month periods ended March 31, 19X6 and 19X5, we have inquired of certain officials

³¹ See footnote 30 of the Appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

³² See footnote 3 of the Appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated balance sheet as of March 31, 19X6, and the unaudited condensed consolidated statements of income, retained earnings (stockholders' equity), and cash flows for the three-month periods ended March 31, 19X6 and 19X5, included in the registration statement, comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

- b. With respect to the period from April 1, 19X6, to May 31, 19X6, we have—
- (i) Read the unaudited consolidated financial statements³³ of the company and subsidiaries for April and May of both 19X5 and 19X6 furnished to us by the company, officials of the company having advised us that no such financial statements as of any date or for any period subsequent to May 31, 19X6, were available.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial statements referred to in item b(i) are stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit of financial statements conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

6. Nothing came to our attention as a result of the foregoing procedures, however, that caused us³⁴ to believe that—

- a. The unaudited condensed consolidated financial statements described in item 5a do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b.
- (i) At May 31, 19X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement, or

³³ See footnote 4 of the Appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

³⁴ See footnote 5 of the Appendix. [Footnote added, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86.]

Other Types of Reports

- (ii) For the period from April 1, 19X6, to May 31, 19X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

7. As mentioned in item 5*b*, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 19X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 19X6, have, of necessity, been even more limited than those with respect to the periods referred to in item 5. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 19X6, there was any change in the capital stock, increase in long-term debt or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown on the March 31, 19X6, unaudited condensed consolidated balance sheet included in the registration statement or (b) for the period from April 1, 19X6, to June 23, 19X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in the total or per-share amounts of income before extraordinary items or of net income. On the basis of these inquiries and our reading of the minutes as described in item 5, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

8. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

[Paragraph renumbered and amended, effective for letters issued pursuant to paragraph .09 of this section after April 30, 1996, by the issuance of Statement on Auditing Standards No. 76. As amended, effective for comfort letters issued on or after June 30, 1998, by Statement on Auditing Standards No. 86. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

AU Section 9634

Letters for Underwriters and Certain Other Requesting Parties: Auditing Interpretations of Section 634

1. Letters to Directors Relating to Annual Reports on Form 10-K^[*]

.01 Question—Annual reports to the Securities and Exchange Commission (SEC) on Form 10-K must be signed by at least a majority of the registrant's board of directors. In reviewing the Form 10-K, directors may seek the involvement of the registrant's independent auditors and other professionals.

.02 What types of services could the auditor perform at the request of the board of directors in connection with the Form 10-K? For example, is it permissible for the auditor to comment on compliance of the registrant's Form 10-K with the requirements of the various SEC rules and regulations?^[1]

.03 Interpretation—The auditor can express an opinion to the board of directors on whether the financial statements and financial statement schedules audited comply as to form with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations thereunder adopted by the SEC (see section 634.33).²

.04 The auditor may affirm to the board of directors that under generally accepted auditing standards the auditor is required to read the information in addition to audited financial statements contained in the Form 10-K, for the purpose of considering whether such information may be materially inconsistent with information appearing in the financial statements (see section 550). However, the report to the board of directors should state that the auditor has no obligation to perform any procedures to corroborate such information.

.05 In addition, the auditor could perform, at the request of the board of directors, specified procedures and report the results of those procedures concerning various information contained in the Form 10-K such as tables, statistics and other financial information. There should be a clear understanding with the board as to the nature, extent and limitations of the procedures to be performed and as to the kind of report to be issued. Although the guidance provided in section 634 is intended primarily for auditors issuing a letter to underwriters and certain other requesting parties in connection with an offering of securities, the guidance in section 634.54-.60 would also be applicable when the auditor is asked to furnish a letter to the board of directors

[*] [Footnote deleted June 1993, by the issuance of Statement on Auditing Standards No. 72.]

[1] [Footnote deleted June 1993, by the issuance of Statement on Auditing Standards No. 72.]

² The auditor should not provide any assurance on compliance with the provisions of the Securities Exchange Act of 1934 regarding controls. See the guidance provided in AT section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*, paragraph .82.[§]

[§] AT section 501 has been superseded by PCAOB Release No. 2004-008. The PCAOB has not yet made conforming changes that may be necessary.

in connection with the filing of Form 10-K under the Securities Exchange Act of 1934.³ The types of information on which auditors may comment are described in section 634.55. The auditor should comment only on that information if the criteria in section 634.55 and .57 have been met. The comments should be made in the form of description of procedures performed and findings obtained, ordinarily expressed in terms of agreement between items compared.

.06 Certain financial information in Form 10-K is included because of specific requirements of Regulation S-K. The auditor may comment as to whether this information is in conformity with the disclosure requirements of Regulation S-K if the conditions in section 634.57 are met. Section 634.57 identifies the disclosure requirements of Regulation S-K that generally meet those conditions. The auditor is limited to giving negative assurance, since this information is not given in the form of financial statements and generally has not been audited by the accountants. (See section 634.57.)

.07 The auditor should not comment on matters that are primarily subjective or judgmental in nature such as those included in Item 7 of Form 10-K, "Management's Discussion and Analysis of Financial Condition and Results of Operations." For example, changes between periods in gross profit ratios may be caused by factors that are not necessarily within the expertise of auditors. However, the auditor can comment on specific changes in comparative amounts that are included in management's discussion if the amounts used to compute such changes are obtained from the financial statements or accounting records as discussed in section 634.55, but cannot comment with respect to the appropriateness of the explanations.

.08 There are no criteria by which to measure the sufficiency of the procedures performed by the accountants for the directors' purposes. Ordinarily the auditor should discuss with the directors or the audit committee the procedures to be performed and may suggest procedures that might be meaningful in the circumstances. However, the auditor should clearly indicate to the board of directors that the auditor cannot make any representations as to whether the agreed-upon procedures are sufficient for the directors' purposes.

.09 It should not ordinarily be necessary for the auditor to reaffirm the auditor's independence to the board of directors. If such a representation is requested, however, the auditor may include in the letter a statement similar to that described in section 634.31.

[Issue Date: April, 1981; Modified: May, 1981;
Revised: June, 1993; Revised: January, 2001.]

[2.] Negative Assurance on Unaudited Condensed Interim Financial Statements Attached to Comfort Letters

[.10-.12] [Deleted April, 1993 by Statement on Auditing Standards No. 72.]

³ Section 634.12 states in part: "Accountants will normally be willing to assist the underwriter but the assistance accountants can provide by way of comfort letters is subject to limitations. One limitation is that independent accountants can properly comment in their professional capacity only on matters to which his professional expertise is substantially relevant."

3. Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K

.13 Introduction—Regulation S-K, Item 305, *Quantitative and Qualitative Disclosures About Market Risk*, requires certain quantitative and qualitative disclosures with respect to—

- a. Derivative financial instruments, generally as defined in Financial Accounting Standards Board (FASB) Statement No. 119, *Disclosure about Derivative Financial Instruments and Fair Value of Financial Instruments* [AC section F25],
- b. Other financial instruments, generally as defined in FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments* [AC section F25], and
- c. Derivative commodity instruments, such as commodity futures, forwards, and swaps that are permitted by contract or custom to be settled in cash.

Collectively these instruments are referred to as market-risk-sensitive instruments.^d

.14 In addition to qualitative (i.e., descriptive) disclosures, Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. Disclosures generally include a combination of historical and fair value data and the hypothetical effects on such data of assumed changes in interest rates, foreign currency exchange rates, commodity prices and other relevant market rates. The quantitative and qualitative information required by Item 305 should be disclosed outside the financial statements and related notes thereto.

.15 Question—May an accountant provide positive or negative assurance on conformity with Item 305 of Regulation S-K?

.16 Interpretation—Section 634, *Letters for Underwriters and Certain Other Requesting Parties*, paragraph .57, states that accountants may not give positive assurance on conformity of information with the disclosure requirements of Regulation S-K since this information is not in the form of financial statements and generally has not been audited by the accountants. Accountants may provide negative assurance on conformity with Regulation S-K only if the following conditions are met:

- a. The information is derived from the accounting records subject to the entity's controls over financial reporting, or has been derived directly from such accounting records by analysis or computation.
- b. This information is capable of evaluation against reasonable criteria that have been established by the SEC.

Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to the entity's controls over financial reporting. As a result, accountants should not provide negative assurance on conformity with Item 305 of Regulation S-K.

.17 Question—May an accountant otherwise provide comments in a comfort letter on items disclosed by registrants in accordance with Item 305 of Regulation S-K?

.18 Interpretation—Section 634.55 states that accountants should comment only with respect to information—

- a. That is expressed in dollars (or percentages derived from such dollar amounts) and that has been obtained from accounting records that are subject to the entity's controls over financial reporting or
- b. That has been derived directly from such accounting records by analysis or computation.

As a result, accountants should not comment on the Item 305 qualitative disclosures.

.19 The three alternative forms of quantitative disclosures under Item 305 reflect hypothetical effects on market-risk-sensitive instruments and result in differing presentations. The forward-looking information used to prepare these presentations may be substantially removed from the accounting records that are subject to the entity's controls over financial reporting. Further, section 634.55 also states that the accountants should not comment on matters merely because they happen to be present and are capable of reading, counting, measuring, or performing other functions that might be applicable. Accordingly, an accountant's ability to comment on these disclosures is largely dependent upon the degree to which the forward-looking information used to prepare these disclosures is linked to such accounting records.

.20 The tabular presentation includes the fair values of market-risk-sensitive instruments and contract terms to determine the future cash flows from those instruments that are categorized by expected maturity dates. This approach may require the use of yield curves and implied forward rates to determine expected maturity dates, as well as assumptions regarding prepayments and weighted average interest rates.

.21 The term *sensitivity analysis* describes a general class of models that are designed to assess the risk of loss in market-risk-sensitive instruments, based upon hypothetical changes in market rates or prices. Sensitivity analysis does not refer to any one, specific model and may include duration analysis or other sensitivity measures. The disclosures are dependent upon assumptions about theoretical future market conditions and, therefore, are not derived from the accounting records.

.22 The term *value at risk* describes a general class of models that provide a probabilistic assessment of the risk of loss in market-risk-sensitive instruments over a selected period of time, with a selected likelihood of occurrences based upon selected confidence intervals. Value-at-risk disclosures are extremely aggregated and, in addition to the assumptions made for sensitivity analyses, may include additional assumptions regarding correlation between asset classes and future market volatilities. As a result, these disclosures are not derived from the accounting records.

.23 Of the three disclosure alternatives, the tabular presentation contains the most limited number of assumptions and least complex mathematical calculations. Furthermore, certain information, such as contractual terms, included in a tabular presentation is derived from the accounting records. Accordingly, accountants may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records.

.24 The modeling techniques and underlying assumptions utilized for sensitivity analysis and value-at-risk disclosures generally will be highly complex. The resultant disclosures may be substantially different from the

basic historical financial input derived directly from the accounting records. Due to the hypothetical and forward-looking nature of these disclosures and the potentially limited usefulness of any procedures that may be performed, accountants should not agree to make any comments or perform any procedures related to sensitivity analysis or value-at-risk disclosures.

.25 When performing procedures related to tabular presentation disclosures, the accountant will need to consider whether the entity's documentation of its contractual positions in derivatives, commodities and other financial instruments is subject to the entity's controls over financial reporting and whether it provides a complete record of the entity's market-risk-sensitive instruments. In addition, the accountant should disclaim as to the reasonableness of the assumptions underlying the disclosures.

.26 Item 305 requires registrants to stratify financial instruments according to market risk category, i.e., interest rate risk, foreign exchange risk, and equity price risk. Item 305 stipulates that, if an instrument is at risk in more than one category, the instrument should be included in the disclosures for each applicable category. In reporting findings from agreed-upon procedures relating to market risk categories, the accountant should not provide any findings that the company's stratifications are complete or comply as to form with Item 305 requirements and should disclaim with respect to the company's determination of market risk categories.

.27 Item 305 encourages registrants to provide quantitative and qualitative information about market risk in terms of, among other things, the magnitude of actual past market movements and estimates of possible near-term market movements. Accountants should not agree to perform any procedures related to such market data.

.28 The accountant should establish a clear understanding with the underwriter as to the limitations of the procedures to be performed with respect to the market risk disclosures. Further, accountants should consider the need to utilize a specialist in performing procedures related to those disclosures.

.29 The following examples, based upon Example H of section 634.64, provide very simplified procedures, findings and limitations related to Item 305 tabular presentation disclosures. In practice, the procedures generally will be substantially more complex.

Symbol

Procedures and Findings

✓

Compared with a schedule prepared by the Company from its accounting records. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness or completeness of the Company's classification of its market-risk-sensitive instruments into market risk categories, nor as to its determination of the expected maturity dates or amounts. (Note: This is an example of procedures related to tabular presentations of face amounts, carrying amounts, fair values and notional amounts which stratify such amounts as to interest rate risk.)

Symbol**Procedures and Findings**

- ⊗ Compared with a schedule prepared by the Company from its accounting records to calculate weighted average fixed interest rates and weighted average fixed pay and receive rates, and found such percentages to be in agreement. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness of the Company's methodology in calculating weighted average fixed rates.

(Note: It may be necessary to provide a more complete description of the procedures performed in other circumstances.)

We make no comment as to the appropriateness or completeness of the Company's determination of the Regulation S-K requirements for quantitative and qualitative disclosures about market risks or with respect to the reasonableness of the assumptions underlying the disclosures.

[The following is an extract from a registration statement that illustrates how an accountant can document procedures performed on a tabular presentation of market risk disclosures made in accordance with Item 305 of Regulation S-K.]

INTEREST RATE SENSITIVITY

The table below provides information about the Company's derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instrument's actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

	<i>Expected maturity dates</i>						<i>Fair Value</i>
	<i>19X2⁴</i>	<i>19X3⁴</i>	<i>19X4⁴</i>	<i>19X5⁴</i>	<i>There-after⁴</i>	<i>Total</i>

[Issue Date: August, 1998.]

⁴ No findings should be expressed on amounts in these columns because these disclosures include either management's expectations of future cash flows or the use of implied forward rates applied to such expected cash flows. Accordingly, such information does not meet the criteria of section 634.55.

AU Section 9642

Reporting on Internal Accounting Control: Auditing Interpretations of SAS No. 30

Many of the interpretations in this section were based on the concepts in Statement on Auditing Standards (SAS) No. 30, *Reporting on Internal Accounting Control*. SAS No. 30 was superseded in May 1993 by the issuance of Statement on Standards for Attestation Engagements (SSAE) No. 2, *Reporting on an Entity's Internal Control Over Financial Reporting*. Subsequently, SSAE No. 2 was superseded by SSAE No. 10, *Attestation Standards: Revision and Recodification*, which was issued in January 2001. The AICPA's Auditing Standards Board decided at its October 1993 meeting to delete these interpretations. Notes have been included below to indicate where current guidance may be found in AICPA literature.

[1.] Pre-Award Surveys^[*]

[.01–.03] [Deleted October 1993.] (See the guidance provided in paragraphs .01–.08 of attest interpretation No. 1 of SSAE No. 10, chapter 5 (AT section 9501.01–.08). [Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

[2.] Award Survey Made in Conjunction With an Audit

[.04–.05] [Deleted October 1993.] (See the guidance provided in paragraphs .01–.08 of attest interpretation No. 1 of SSAE No. 10, chapter 5 (AT section 9501.01–.08). [Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

[3.] Reporting on Matters Not Covered by Government-Established Criteria

[.06–.07] [Deleted October 1993. Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

[4.] Limited Scope

[.08–.09] [Deleted October 1993.] (See the guidance provided in SSAE No. 10, chapter 5, paragraph 5.69 (AT section 501.69).) [Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

^[*] [Footnote deleted, October 1993.]

[5.] Compliance With the Foreign Corrupt Practices Act of 1977

[10–13] [Deleted October 1993.] (See the guidance provided in SSAE No. 10, chapter 5, paragraph 5.82 (AT section 501.82).) [Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

[6.] Reports on Internal Accounting Control of Trust Departments of Banks

[14–17] [Deleted October 1993.] (See the guidance provided in SSAE No. 10, chapter 5, paragraph 5.69 (AT section 501.69).) [Revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

[7.] Report Required by U.S. General Accounting Office^[1-7]

AU Section 711*

Filings Under Federal Securities Statutes

Source: SAS No. 37; Auditing Standard No. 5.

See section 9711 for interpretations of this section.

Issue date, unless otherwise indicated: April, 1981.

.01 As in the case of financial statements used for other purposes, management has the responsibility for the financial representations contained in documents filed under the federal securities statutes. In this connection the Securities and Exchange Commission has said:

The fundamental and primary responsibility for the accuracy of information filed with the Commission and disseminated among the investors rests upon management. Management does not discharge its obligations in this respect by the employment of independent public accountants, however reputable. Accountants' certificates are required not as a substitute for management's accounting of its stewardship, but as a check upon the accounting.¹

.02 When an independent accountant's report is included in registration statements, proxy statements, or periodic reports filed under the federal securities statutes, the accountant's responsibility, generally, is in substance no different from that involved in other types of reporting. However, the nature and extent of this responsibility are specified in some detail in these statutes and in the related rules and regulations. For example, section 11(a) of the Securities Act of 1933, as amended, imposes responsibility for false or misleading statements in an effective registration statement, or for omissions that render statements made in such a document misleading, on every accountant, engineer, or appraiser, or any person whose profession gives authority to a statement made by him, who has with his consent been named as having prepared or certified any part of the registration statement, or as having prepared or certified any report or valuation which is used in connection with the registration statement, report, or valuation, which purports to have been prepared or certified by him.

[The following note is effective for audits of fiscal years ending on or after November 15, 2007. See PCAOB Release 2007-005.]

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs C16–C17 of Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, which provide direction when an auditor's report on internal control over financial reporting is included or incorporated by reference in filings under federal securities statutes.

* **Note:** This section supersedes Statement on Auditing Standards No. 1, section 710, *Filings Under Federal Securities Statutes*. The changes provide guidance for the accountant whose report based on a review of interim financial information is presented, or incorporated by reference, in a filing under the Securities Act of 1933.

¹ 4 S.E.C. 721 (1939).

.03 Section 11 also makes specific mention of the independent accountant's responsibility as an expert when his report is included in a registration statement filed under that act.² Section 11(b) states, in part, that no person shall be liable as provided therein if that person sustains the burden of proof that

as regards any part of the registration statement purporting to be made upon his authority as an expert or purporting to be a copy of or extract from a report or valuation of himself as an expert, (i) he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) such part of the registration statement did not fairly represent his statement as an expert or was not a fair copy of or extract from his report or valuation as an expert....

Section 11 further provides that, in determining what constitutes reasonable investigation and reasonable ground to believe, "the standard of reasonableness shall be that required of a prudent man in the management of his own property."

.04 This discussion of the independent accountant's responsibilities in connection with filings under the federal securities statutes is not intended to offer legal interpretations and is based on an understanding of the meaning of the statutes as they relate to accounting principles and auditing standards and procedures. The discussion is subject to any judicial interpretations that may be issued.

.05 Because a registration statement under the Securities Act of 1933 speaks as of its effective date, the independent accountant whose report is included in such a registration statement has a statutory responsibility that is determined in the light of the circumstances on that date. This aspect of responsibility is peculiar to reports used for this purpose (see paragraphs .10 through .12).

.06 Under rules of the Securities and Exchange Commission, an independent accountant's report based on a review of interim financial information is not a report by the accountant within the meaning of section 11. Thus, the accountant does not have a similar statutory responsibility for such reports as of the effective date of the registration statement (see paragraph .13).

.07 The other federal securities statutes, while not containing so detailed an exposition, do impose responsibility, under certain conditions, on persons making false or misleading statements with respect to any material fact in applications, reports, or other documents filed under the statute.

.08 In filings under the Securities Act of 1933, a statement frequently is made in the prospectus (sometimes included in a section of the prospectus called the *experts section*) that certain information is included in the registration statement in reliance upon the report of certain named experts. The independent accountant should read the relevant section of the prospectus to make sure that his name is not being used in a way that indicates that his responsibility is greater than he intends. The experts section should be so worded that there is no implication that the financial statements have been prepared by the independent accountant or that they are not the direct representations of management.

² Under rules of the Securities and Exchange Commission, a report based on a review of interim financial information is not a report by the accountant under section 11 (see paragraph .06).

.09 The Securities and Exchange Commission requires that, when an independent accountant's report based on a review of interim financial information is presented or incorporated by reference in a registration statement, a prospectus that includes a statement about the independent accountant's involvement should clarify that his review report is not a "report" or "part" of the registration statement within the meaning of sections 7 and 11 of the Securities Act of 1933. In this respect, wording such as the following in a prospectus would ordinarily be considered a satisfactory description for the accountant's purposes of the status of his review report that was included in a Form 10-Q filing that was later incorporated by reference in a registration statement.³

Independent Public Accountants

The consolidated balance sheets as of December 31, 19X2 and 19X1, and the consolidated statements of income, retained earnings, and cash flows for each of the three years in the period ended December 31, 19X2, incorporated by reference in this prospectus, have been included herein in reliance on the report of _____ independent public accountants, given on the authority of that firm as experts in auditing and accounting.

With respect to the unaudited interim financial information for the periods ended March 31, 19X3 and 19X2, incorporated by reference in this prospectus, the independent public accountants have reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report included in the company's quarterly report on Form 10-Q for the quarter ended March 31, 19X3, and incorporated by reference herein, states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. The accountants are not subject to the liability provisions of section 11 of the Securities Act of 1933 for their report on the unaudited interim financial information because that report is not a "report" or a "part" of the registration statement prepared or certified by the accountants within the meaning of sections 7 and 11 of the act.

The independent accountant should also read other sections of the prospectus to make sure that his name is not being used in a way that indicates that his responsibility is greater than he intends.

Subsequent Events Procedures in 1933 Act Filings

.10 *[The following paragraph is effective for audits of fiscal years ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

To sustain the burden of proof that he has made a "reasonable investigation" (see paragraph .03), as required under the Securities Act of 1933, an auditor should extend his procedures with respect to subsequent events from the date of his audit report up to the effective date or as close thereto as is reasonable and practicable in the circumstances. In this connection, he should arrange with his client to be kept advised of the progress of the registration proceedings so that his review of subsequent events can be completed by the effective date. The likelihood that the auditor will discover subsequent events necessarily decreases following the date of the auditor's report, and, as a practical matter,

³ A similar description of the status of the accountant's report would also ordinarily be satisfactory for the accountant's purposes when the accountant's review report is presented in the registration statement rather than incorporated by reference. In that case, the description in the prospectus would specifically refer to that report in the registration statement.

after that time the independent auditor may rely, for the most part, on inquiries of responsible officials and employees. In addition to performing the procedures outlined in section 560.12, at or near the effective date, the auditor generally should

- a. Read the entire prospectus and other pertinent portions of the registration statement.
- b. Inquire of and obtain written representations from officers and other executives responsible for financial and accounting matters (limited where appropriate to major locations) about whether any events have occurred, other than those reflected or disclosed in the registration statement, that, in the officers' or other executives' opinion, have a material effect on the audited financial statements included therein or that should be disclosed in order to keep those statements from being misleading.

.11 A registration statement filed with the Securities and Exchange Commission may contain the reports of two or more independent auditors on their audits of the financial statements for different periods. An auditor who has audited the financial statements for prior periods but has not audited the financial statements for the most recent audited period included in the registration statement has a responsibility relating to events subsequent to the date of the prior-period financial statements, and extending to the effective date, that bear materially on the prior-period financial statements on which he reported. Generally, he should

- a. Read pertinent portions of the prospectus and of the registration statement.
- b. Obtain a letter of representation from the successor independent auditor regarding whether his audit (including his procedures with respect to subsequent events) revealed any matters that, in his opinion, might have a material effect on the financial statements reported on by the predecessor auditor or would require disclosure in the notes thereto.

The auditor should make inquiries and perform other procedures that he considers necessary to satisfy himself regarding the appropriateness of any adjustment or disclosure affecting the prior-period financial statements covered by his report (see section 508).

Response to Subsequent Events and Subsequently Discovered Facts

.12 If, subsequent to the date of his report on audited financial statements, the auditor (including a predecessor auditor) (*a*) discovers, in performing the procedures described in paragraphs .10 and .11 above, subsequent events that require adjustment or disclosure in the financial statements or (*b*) becomes aware that facts may have existed at the date of his report that might have affected his report had he then been aware of those facts, he should follow the guidance in sections 560 and 561. If the financial statements are appropriately adjusted or the required additional disclosure is made, the auditor should follow the guidance in sections 530.05 and 530.07 and .08, with respect to dating his report. If the client refuses to make appropriate adjustment or disclosure in the financial statements for a subsequent event or subsequently discovered facts, the auditor should follow the procedures in section 561.08 and .09. In such circumstances, the auditor should also consider, probably with the advice of his

legal counsel, withholding his consent to the use of his report on the audited financial statements in the registration statement.

.13 If an accountant concludes on the basis of facts known to him that unaudited financial statements or unaudited interim financial information presented or incorporated by reference in a registration statement are not in conformity with generally accepted accounting principles, he should insist on appropriate revision. Failing that,

- a.* If the accountant has reported on a review of such interim financial information and the subsequently discovered facts are such that they would have affected his report had they been known to him at the date of his report, he should refer to section 561, because certain provisions of that section may be relevant to his consideration of those matters (see section 722.46).
- b.* If the accountant has not reported on a review of the unaudited financial statements or interim financial information, he should modify his report on the audited financial statements to describe the departure from generally accepted accounting principles contained in the unaudited financial statements or interim financial information.

In either case, the accountant should also consider, probably with the advice of his legal counsel, withholding his consent to the use of his report on the audited financial statements in the registration statement. [Revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

AU Section 9711

Filings Under Federal Securities Statutes: Auditing Interpretations of Section 711

1. Subsequent Events Procedures for Shelf Registration Statements Updated after the Original Effective Date

.01 Question—Rule 415 of Regulation C under the Securities Act of 1933 (1933 Act) permits companies to register a designated amount of securities for continuous or delayed offerings by filing one "shelf" registration statement with the SEC. Under this rule, a registrant can register an amount of securities it reasonably expects to offer and sell within the next two years, generally without the later need to prepare and file a new prospectus and registration statement for each sale.

.02 A Rule 415 shelf registration statement can be updated after its original effective date by—

- a. The filing of a post-effective amendment,
- b. The incorporation by reference of subsequently filed material, or
- c. The addition of a supplemental prospectus (sometimes referred to as a "sticker").

.03 Section 711, *Filings Under Federal Securities Statutes*, paragraph .05, states, "Because a registration statement under the Securities Act of 1933 speaks as of its effective date, the independent accountant whose report is included in such a registration statement has a statutory responsibility that is determined in the light of the circumstances on that date." The independent accountant's statutory responsibility regarding information covered by his report and included in a registration statement is specified in Section 11 of the 1933 Act. Section 11(b)(3)(B) states that the accountant will not be held liable if he can sustain a burden of proof that "he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading." To sustain the burden of proof that he has made a "reasonable investigation" as of the effective date, the accountant performs subsequent events procedures (as described in section 711.10 and .11) to a date as close to the effective date of the registration statement as is reasonable and practicable in the circumstances.

.04 In connection with Rule 415 shelf registrations, under what circumstances does the independent accountant have a responsibility to perform subsequent events procedures after the original effective date of the registration statement?

.05 Interpretation—As discussed in more detail below, in general, the accountant should perform the subsequent events procedures described in section 711.10 and .11, when either:

- a. A post-effective amendment to the shelf registration statement, as defined by SEC rules, is filed pursuant to Item 512(a) of Regulation S-K,¹ or
- b. A 1934 Act filing that includes or amends audited financial statements is incorporated by reference into the shelf registration statement.

.06 When a post-effective amendment is filed pursuant to the registrant's undertaking required by Item 512 of Regulation S-K, a shelf registration statement is considered to have a new effective date because Item 512(a)(2) of Regulation S-K states, ". . . for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement. . . ." Accordingly, in such cases, the accountant should perform subsequent events procedures to a date as close to the new effective date of the registration statement as is reasonable and practicable in the circumstances.

.07 Item 512(b) of Regulation S-K states that for purposes of determining any liability under the Securities Act of 1933 each filing of a registrant's annual report (Form 10-K) and each filing of an employee benefit plan annual report (Form 11-K) that is incorporated by reference into a shelf registration statement is deemed to be a new registration statement relating to the securities offering. Accordingly, when a Form 10-K or Form 11-K is incorporated by reference into a shelf registration statement, the accountant should perform subsequent events procedures to a date as close to the date of the filing of the Form 10-K or Form 11-K as is reasonable and practicable in the circumstances and date his consent as of that date.

.08 In many circumstances, a Form 10-Q, Form 8-K, or other 1934 Act filing can be incorporated by reference into a shelf registration statement (sometimes this occurs automatically—for example, in a Form S-3 or Form S-8) without the need for a post-effective amendment. In those circumstances, the accountant has no responsibility to perform subsequent events procedures unless the filing includes or amends audited financial statements—for example, a Form 8-K that includes audited financial statements of an acquired company. In these latter circumstances, when the filing is incorporated into a registration statement, SEC rules require a currently dated consent of the accountant who audited those statements, and that accountant should perform subsequent events procedures to a date as close to the date of the incorporation by reference of the related material as is reasonable and practicable in the circumstances.²

.09 In addition, an accountant's report on a review of interim financial information contained in a Form 10-Q may also include his report on the information presented in the condensed year-end balance sheet that has also been included in the form and has been derived from the latest audited annual balance sheet. (See section 552, *Reporting on Condensed Financial Statements*

¹ Item 512(a) of Regulation S-K provides that the registrant is required to undertake to file a post-effective amendment to a shelf registration statement to (a) file updated financial statements pursuant to section 10(a)(3) of the Securities Act of 1933, (b) reflect a "fundamental change" in the information in the registration statement arising from facts or events occurring after the effective date of the registration statement or previous post-effective amendments, or (c) include new material information regarding the plan of distribution.

² Typically in such cases, the affected audited financial statements are not those of the registrant, and accordingly, there would be no requirement for the registrant's auditor to update his subsequent events procedures with respect to the registrant's financial statements.

and Selected Financial Data, paragraph .08.) When the Form 10-Q is incorporated by reference into the shelf registration (which may occur automatically), the report on the year-end condensed balance sheet may be considered a report of an "expert." Because it is not clear what the accountant's responsibility is in those circumstances, the accountant should perform subsequent events procedures (as described in section 711.10 and .11) to a date as close to the date of the incorporation by reference of the Form 10-Q as is reasonable and practicable in the circumstances.

.10 One of the subsequent events procedures described in section 711 is to "read the entire prospectus and other pertinent portions of the registration statement." The reading of the entire prospectus (including any supplemental prospectuses and documents incorporated by reference—such as Form 10-Ks, 10-Qs, and 8-Ks) and the other procedures described in section 711.10 and .11, help assure that the accountant has fulfilled his statutory responsibilities under the 1933 Act to perform a "reasonable investigation."

.11 When a shelf registration statement is updated by a supplemental prospectus (or "sticker"), the effective date of the registration statement is considered to be unchanged since the supplemental prospectus does not constitute an amendment to the registration statement, and, consequently, no posteffective amendment has been filed. Accordingly, an accountant has no responsibility to update his performance of subsequent events procedures through the date of the supplemental prospectus or sticker. The accountant, however, may nevertheless become aware that facts may have existed at the date of his report that might have affected his report had he then been aware of those facts. Section 711.12 and .13, provide guidance on the accountant's response to subsequent events and subsequently discovered facts.

[Issue Date: May, 1983.]

2. Consenting to be Named as an Expert in an Offering Document in Connection With Securities Offerings Other Than Those Registered Under the Securities Act of 1933

.12 Question—Should the auditor consent to be named, or referred to, as an expert in an offering document in connection with securities offerings other than those registered under the Securities Act of 1933 (the Act)?

.13 Interpretation—No. The term "expert" has a specific statutory meaning under the Act.³ The act states that anyone who purchases a security registered under the Act may sue specified persons if the registration statement contains an untrue statement or omits to state a material fact. Those persons who may be sued include "every accountant, engineer, or appraiser, or any person whose profession gives authority to a statement made by him, who has with his consent been named as having prepared or certified any part of the registration statement." These persons are typically referred to as "experts." Auditors sign a statement, known as a consent, in which they agree to be identified as experts in a section of the registration statement.

³ If the term "expert" is defined under applicable state law, for instance, the accountant may agree to be named as an expert in an offering document in an intra-state securities offering. The accountant may also agree to be named as an expert, as that term is used by the Office of Thrift Supervision (OTS), in securities offering documents which are subject to the jurisdiction of the OTS.

.14 Outside the 1933 Act arena, however, the term "expert" is typically undefined and the auditor's responsibility, as a result of the use of that term, is also undefined.

.15 When a client wishes to make reference to the auditor's role in an offering document in connection with a securities offering that is not registered under the Act, the caption "Independent Auditors" should be used to title that section of the document; the caption "Experts" should not be used, nor should the auditors be referred to as experts anywhere in the document. The following paragraph should be used to describe the auditors role.

Independent Auditors

The financial statements as of December 31, 19XX and for the year then ended, included in this offering circular, have been audited by ABC, independent auditors, as stated in their report(s) appearing herein.

If the client refuses to delete from the offering document the reference to the auditors as experts, the auditor should not permit inclusion of the auditor's report in the offering document.

[Issue Date: June, 1992; Amended: March, 1995.]

3. Consenting to the Use of an Audit Report in an Offering Document in Securities Offerings Other Than One Registered Under the Securities Act of 1933

.16 *Question*—May the auditor consent to the use of his or her audit report in an offering document other than one registered under the Securities Act of 1933?

.17 *Interpretation*—When an auditor's report is included in an offering document other than one registered under the Securities Act of 1933, it is not usually necessary for the accountant to provide a consent. If the accountant is requested to provide a consent, he or she may do so. The following is example language the accountant might use:

We agree to the inclusion in this offering circular of our report, dated February 5, 19XX, on our audit of the financial statements of [name of entity].

[Issue Date: June, 1992.]

AU Section 722

Interim Financial Information

(Supersedes SAS No. 71)

Source: SAS No. 100; Auditing Standard No. 2; Auditing Standard No. 5.

Effective for interim periods within fiscal years beginning after December 15, 2002.

Introduction

.01 The purpose of this section is to establish standards and provide guidance on the nature, timing, and extent of the procedures to be performed by an independent accountant when conducting a review of *interim financial information* (as that term is defined in paragraph .02 of this section). The three general standards discussed in section 150, *Generally Accepted Auditing Standards*, paragraph .02), are applicable to a review of interim financial information conducted in accordance with this section. This section provides guidance on the application of the field work and reporting standards to a review of interim financial information, to the extent those standards are relevant.

.02 For purposes of this section, the term *interim financial information* means financial information or statements covering a period less than a full year or for a 12-month period ending on a date other than the entity's fiscal year end.

.03 [The following paragraph is effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]

The Securities and Exchange Commission (SEC) requires¹ a registrant to engage an independent accountant to review the registrant's interim financial information, in accordance with this section, before the registrant files its quarterly report on Form 10-Q or Form 10-QSB. The SEC also requires management, with the participation of the principal executive and financial officers (the certifying officers) to make certain quarterly and annual certifications with respect to the company's internal control over financial reporting.² Although this section does not require an accountant to issue a written report on a review of interim financial information, the SEC requires that an accountant's review report be filed with the interim financial information if, in any filing, the entity states that the interim financial information has been reviewed by an independent public accountant. Paragraphs .37 through .46 of this section provide reporting guidance for a review of interim financial information.

[Note deleted; effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]

.04 Section 315, *Communications Between Predecessor and Successor Auditors*, requires a successor auditor to contact the entity's predecessor auditor and make inquiries of the predecessor auditor in deciding whether to

¹ The Securities and Exchange Commission (SEC) requirement is set forth in Rule 10-01(d) of Regulation S-X for Form 10-Q and item 310(b) of Regulation S-B for Form 10-QSB.

² See Section 302 of the Sarbanes-Oxley Act of 2002, and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), (17 C.F.R. §240.13a-14a or 17 C.F.R. §240.15d-14a), whichever applies.

accept appointment as an entity's independent auditor. Such inquiries should be completed before accepting an engagement to perform an initial review of an entity's interim financial information.

Applicability^{2a}

.05 An accountant may conduct, in accordance with this section, a review of the interim financial information of an SEC registrant³ or of a non-SEC registrant that makes a filing with a regulatory agency⁴ in preparation for a public offering or listing, if the entity's latest annual financial statements have been or are being audited. The interim financial information may be presented in the form of financial statements or in a summarized form that purports to conform with generally accepted accounting principles⁵ and applicable regulatory requirements, for example, Article 10 of Regulation S-X for Form 10-Q.

.06 Many SEC registrants are required by item 302(a) of Regulation S-K to include selected quarterly financial data (that is, interim financial information for each full quarter within the two most recent fiscal years and any subsequent interim period for which financial statements are included or are required to be included) in their annual reports and in certain other SEC filings. Consequently, a review of the entity's fourth quarter interim financial information must be conducted even though a quarterly report for the fourth quarter is not filed on Form 10-Q. Furthermore, an accountant performing an initial audit of an entity's annual financial statements that includes selected quarterly data who has not previously reviewed one or more of the quarters in that year should perform a review of those quarters, in accordance with this section, in order to report on the audited financial statements containing such interim financial information.

Objective of a Review of Interim Financial Information

.07 *[The following paragraph is effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

The objective of a review of interim financial information pursuant to this section is to provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles. The objective of a review of interim financial information differs

^{2a} *[The following footnote has been renumbered from footnote 2 to footnote 2a.]*

Statements on Standards for Accounting and Review Services provide guidance for review engagements for which this section is not applicable.

³ This section also is applicable to a review of the interim financial information of a subsidiary, corporate joint venture, or investee of an SEC registrant, when that review is performed in the context of the review of the interim financial information of the SEC registrant itself.

⁴ For purposes of this section, a *regulatory agency* is the SEC and the following agencies with which an entity files periodic reports pursuant to the Securities Exchange Act of 1934: Office of the Comptroller of the Currency, Federal Deposit Insurance Corporation, Federal Reserve System, and Office of Thrift Supervision.

⁵ Accounting Principles Board (APB) Opinion No. 28, *Interim Financial Reporting*, outlines the application of U.S. generally accepted accounting principles to the determination of income when interim financial information is presented, provides for the use of estimated effective income tax rates, and specifies certain disclosure requirements for summarized interim financial information issued by public companies. Footnote 3 of section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*, paragraph .10, indicates that, for SEC registrants, rules and interpretive releases of the SEC have an authority similar to that of category "a" accounting principles.

significantly from that of an audit conducted in accordance with generally accepted auditing standards. A review of interim financial information does not provide a basis for expressing an opinion about whether the financial statements are presented fairly, in all material respects, in conformity with generally accepted accounting principles. A review consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters, and does not contemplate (a) tests of accounting records through inspection, observation, or confirmation; (b) tests of controls to evaluate their effectiveness; (c) obtaining corroborating evidence in response to inquiries; or (d) performing certain other procedures ordinarily performed in an audit. A review may bring to the accountant's attention significant matters affecting the interim financial information, but it does not provide assurance that the accountant will become aware of all significant matters that would be identified in an audit. Paragraph .22 of this section provides guidance to the accountant if he or she becomes aware of information that leads him or her to believe that the interim financial information may not be in conformity with generally accepted accounting principles. Likewise, the auditor's responsibility as it relates to management's quarterly certifications on internal control over financial reporting is different from the auditor's responsibility as it relates to management's annual assessment of internal control over financial reporting. The auditor should perform limited procedures quarterly to provide a basis for determining whether he or she has become aware of any material modifications that, in the auditor's judgment, should be made to the disclosures about changes in internal control over financial reporting in order for the certifications to be accurate and to comply with the requirements of Section 302 of the Act.

Note: The auditor's responsibilities for evaluating management's certification disclosures about internal control over financial reporting take effect beginning with the first quarter after the company's first annual assessment of internal control over financial reporting as described in Item 308(a)(3) of Regulations S-B and SK.

Establishing an Understanding With the Client

.08 The accountant should establish an understanding with the client regarding the services to be performed in an engagement to review interim financial information.⁶ Such an understanding reduces the risk that either the accountant or the client may misinterpret the needs or expectations of the other party. This understanding should include the objectives of the engagement, management's responsibilities, the accountant's responsibilities, and the limitations of the engagement. The accountant should document this understanding, preferably through a written communication with the client. If the accountant believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.

.09 An understanding with the client regarding a review of interim financial information generally includes the following matters:

- The objective of a review of interim financial information is to provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim

⁶ See Statement on Quality Control Standards (SQCS) No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, as amended, paragraph 16 [QC section 20.16].

financial information for it to conform with accounting principles generally accepted in the United States of America.

- Management is responsible for the entity's interim financial information.
- Management is responsible for establishing and maintaining effective internal control over financial reporting.
- Management is responsible for identifying and ensuring that the entity complies with the laws and regulations applicable to its activities.
- Management is responsible for making all financial records and related information available to the accountant.
- At the conclusion of the engagement, management will provide the accountant with a letter confirming certain representations made during the review.
- Management is responsible for adjusting the interim financial information to correct material misstatements. Although a review of interim financial information is not designed to obtain reasonable assurance that the interim financial information is free from material misstatement, management also is responsible for affirming in its representation letter to the accountant that the effects of any uncorrected misstatements aggregated by the accountant during the current engagement and pertaining to the current-year period(s) under review are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole.
- The accountant is responsible for conducting the review in accordance with standards established by the AICPA. A review of interim financial information consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, the accountant will not express an opinion on the interim financial information.
- A review includes obtaining sufficient knowledge of the entity's business and its internal control as it relates to the preparation of both annual and interim financial information to:
 - Identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
 - Select the inquiries and analytical procedures that will provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles.

[The following bullet is effective for reviews of interim periods ending on or after November 15, 2004, for accelerated filers, and for reviews of interim periods after fiscal years ending on or after July 15, 2005, for all other issuers. See PCAOB Release No. 2004-008.]

- A review is not designed to provide assurance on internal control or to identify significant deficiencies. However, the accountant is responsible for communicating with the audit committee or others with equivalent authority or responsibility, regarding any significant deficiencies that come to his or her attention.

The Accountant's Knowledge of the Entity's Business and Its Internal Control

.10 To perform a review of interim financial information, the accountant should have sufficient knowledge of the entity's business and its internal control as they relate to the preparation of both annual and interim financial information to:

- Identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
- Select the inquiries and analytical procedures that will provide the accountant with a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles.

.11 In planning a review of interim financial information, the accountant should perform procedures to update his or her knowledge of the entity's business and its internal control to (a) aid in the determination of the inquiries to be made and the analytical procedures to be performed and (b) identify particular events, transactions, or assertions to which the inquiries may be directed or analytical procedures applied. Such procedures should include:

- Reading documentation of the preceding year's audit and of reviews of prior interim period(s) of the current year and corresponding quarterly and year-to-date interim period(s) of the prior year to the extent necessary, based on the accountant's judgment, to enable the accountant to identify matters that may affect the current-period interim financial information. In reading such documents, the accountant should specifically consider the nature of any (a) corrected material misstatements; (b) matters identified in any summary of uncorrected misstatements;⁷ (c) identified risks of material misstatement due to fraud, including the risk of management override of controls; and (d) significant financial accounting and reporting matters that may be of continuing significance, such as weaknesses in internal control.
- Reading the most recent annual and comparable prior interim period financial information.
- Considering the results of any audit procedures performed with respect to the current year's financial statements.
- Inquiring of management about changes in the entity's business activities.

⁷ Section 312, *Audit Risk and Materiality in Conducting an Audit*, paragraph .40, requires the auditor to document the nature and effect of misstatements that the auditor aggregates as well as the auditor's conclusion as to whether such misstatements, individually or in the aggregate, cause the audited financial statements to be materially misstated. Paragraphs .25 and .26 of this section describe the accountant's consideration of such misstatements in a review of interim financial information.

- Inquiring of management about whether significant changes in internal control, as it relates to the preparation of interim financial information, have occurred subsequent to the preceding annual audit or prior review of interim financial information, including changes in the entity's policies, procedures, and personnel, as well as the nature and extent of such changes.

.12 In an initial review of interim financial information, the accountant should perform procedures that will enable him or her to obtain sufficient knowledge of the entity's business and its internal control to address the objectives discussed in paragraph .07 of this section. As part of the procedures to obtain this knowledge, the accountant performing an initial review of interim financial information makes inquiries of the predecessor accountant and reviews the predecessor accountant's documentation for the preceding annual audit and for any prior interim periods in the current year that have been reviewed by the predecessor accountant if the predecessor accountant permits access to such documentation.⁸ In doing so, the accountant should specifically consider the nature of any (a) corrected material misstatements; (b) matters identified in any summary of uncorrected misstatements; (c) identified risks of material misstatement due to fraud, including the risk of management override of controls; and (d) significant financial accounting and reporting matters that may be of continuing significance, such as weaknesses in internal control. However, the inquiries made and analytical procedures performed or other procedures performed in the initial review and the conclusions reached are solely the responsibility of the successor accountant. If the successor accountant is reporting on the review, the successor accountant should not make reference to the report or work of the predecessor accountant as the basis, in part, for the successor accountant's own report. If the predecessor accountant does not respond to the successor accountant's inquiries, or does not allow the successor accountant to review the predecessor accountant's documentation, the successor accountant should use alternative procedures to obtain knowledge of the matters discussed in this paragraph.

.13 The accountant who has audited the entity's financial statements for one or more annual periods would have acquired sufficient knowledge of an entity's internal control as it relates to the preparation of annual financial information and may have acquired such knowledge with respect to interim financial information. If the accountant has not audited the most recent annual financial statements, the accountant should perform procedures to obtain such knowledge. Knowledge of an entity's internal control, as it relates to the preparation of both annual and interim financial information, includes knowledge of the relevant aspects of the control environment, the entity's risk assessment process, control activities, information and communication, and monitoring, as those terms are defined in section 319, *Consideration of Internal Control in a Financial Statement Audit*. Internal control over the preparation of interim financial information may differ from internal control over the preparation of annual financial statements because certain accounting principles and practices used for interim financial information may differ from those used for the preparation of annual financial statements, for example, the use of estimated effective income tax rates for the preparation of interim financial information, which is prescribed by Accounting Principles Board (APB) Opinion No. 28, *Interim Financial Reporting*.

⁸ The accountant also may consider reviewing the predecessor accountant's documentation related to reviews of interim period(s) in the prior year.

.14 A restriction on the scope of the review may be imposed if the entity's internal control appears to contain deficiencies so significant that it would be impracticable for the accountant, based on his or her judgment, to effectively perform review procedures that would provide a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles.⁹

Analytical Procedures, Inquiries, and Other Review Procedures

.15 Procedures for conducting a review of interim financial information generally are limited to analytical procedures, inquiries, and other procedures that address significant accounting and disclosure matters relating to the interim financial information to be reported. The accountant performs these procedures to obtain a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles. The specific inquiries made and the analytical and other procedures performed should be tailored to the engagement based on the accountant's knowledge of the entity's business and its internal control. The accountant's knowledge of an entity's business and its internal control influences the inquiries made and analytical procedures performed. For example, if the accountant becomes aware of a significant change in the entity's control activities at a particular location, the accountant may consider (a) making additional inquiries, such as whether management monitored the changes and considered whether they were operating as intended, (b) employing analytical procedures with a more precise expectation, or (c) both.

.16 *Analytical procedures and related inquiries.* The accountant should apply analytical procedures to the interim financial information to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Analytical procedures, for the purposes of this section, should include:

- Comparing the quarterly interim financial information with comparable information for the immediately preceding interim period and the quarterly and year-to-date interim financial information with the corresponding period(s) in the previous year, giving consideration to knowledge about changes in the entity's business and specific transactions.
- Considering plausible relationships among both financial and, where relevant, nonfinancial information. The accountant also may wish to consider information developed and used by the entity, for example, information in a director's information package or in a senior committee's briefing materials.
- Comparing recorded amounts, or ratios developed from recorded amounts, to expectations developed by the accountant. The accountant develops such expectations by identifying and using plausible relationships that are reasonably expected to exist based on the accountant's understanding of the entity and the industry in which the entity operates (see paragraph .17 of this section).

⁹ See paragraph .28 of this section.

- Comparing disaggregated revenue data, for example, comparing revenue reported by month and by product line or operating segment during the current interim period with that of comparable prior periods.

See Appendix A [paragraph .54] of this section for examples of analytical procedures an accountant may consider performing when conducting a review of interim financial information. The accountant may find the guidance in section 329, *Analytical Procedures*, useful in conducting a review of interim financial information.

.17 Expectations developed by the accountant in performing analytical procedures in connection with a review of interim financial information ordinarily are less precise than those developed in an audit. Also, in a review the accountant ordinarily is not required to corroborate management's responses with other evidence. However, the accountant should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the accountant's knowledge of the entity's business and its internal control.¹⁰

.18 *[The following paragraph is effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

Inquiries and other review procedures. The following are inquiries the accountant should make and other review procedures the accountant should perform when conducting a review of interim financial information:

- a. Reading the available minutes of meetings of stockholders, directors, and appropriate committees, and inquiring about matters dealt with at meetings for which minutes are not available, to identify matters that may affect the interim financial information.
- b. Obtaining reports from other accountants, if any, who have been engaged to perform a review of the interim financial information of significant components of the reporting entity, its subsidiaries, or its other investees, or inquiring of those accountants if reports have not been issued.¹¹
- c. Inquiring of members of management who have responsibility for financial and accounting matters concerning:
 - Whether the interim financial information has been prepared in conformity with generally accepted accounting principles consistently applied.
 - Unusual or complex situations that may have an effect on the interim financial information. (See Appendix B [paragraph .55] of this section for examples of unusual or complex situations about which the accountant ordinarily would inquire of management.)
 - Significant transactions occurring or recognized in the last several days of the interim period.

¹⁰ See paragraph .22 of this section.

¹¹ In these circumstances, the accountant ordinarily is in a position similar to that of an auditor who acts as principal auditor (see section 543, *Part of Audit Performed by Other Independent Auditors*) and makes use of the work or reports of other auditors in the course of an audit of financial statements.

- The status of uncorrected misstatements identified during the previous audit and interim review (that is, whether adjustments had been recorded subsequent to the prior audit or interim period and, if so, the amounts recorded and period in which such adjustments were recorded).
 - Matters about which questions have arisen in the course of applying the review procedures
 - Events subsequent to the date of the interim financial information that could have a material effect on the presentation of such information.
 - Their knowledge of any fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others where the fraud could have a material effect on the financial statements.
 - Whether they are aware of allegations of fraud or suspected fraud affecting the entity, for example, received in communications from employees, former employees, analysts, regulators, short sellers, or others.
 - Significant journal entries and other adjustments.
 - Communications from regulatory agencies.
 - Significant deficiencies, including material weaknesses, in the design or operation of internal controls which could adversely affect the issuer's ability to record, process, summarize, and report financial data.
- d.* Obtaining evidence that the interim financial information agrees or reconciles with the accounting records. For example, the accountant may compare the interim financial information to (1) the accounting records, such as the general ledger; (2) a consolidating schedule derived from the accounting records; or (3) other supporting data in the entity's records. In addition, the accountant should consider inquiring of management as to the reliability of the records to which the interim financial information was compared or reconciled.
- e.* Reading the interim financial information to consider whether, based on the results of the review procedures performed and other information that has come to the accountant's attention, the information to be reported conforms with generally accepted accounting principles.
- f.* Reading other information that accompanies the interim financial information and is contained in reports (1) to holders of securities or beneficial interests or (2) filed with regulatory authorities under the Securities Exchange Act of 1934 (such as Form 10-Q or 10-QSB), to consider whether such information or the manner of its presentation is materially inconsistent with the interim financial information.¹² If the accountant concludes that there is a material inconsistency, or becomes aware of information that he or she believes is a material misstatement of fact, the action taken will depend on his or her judgment in the particular circumstances. In determining the appropriate course of action, the

¹² The principal accountant also may request other accountants involved in the engagement, if any, to read the other information.

accountant should consider the guidance in section 550, *Other Information in Documents Containing Audited Financial Statements*, paragraphs .04 through .06).

- g. Evaluating management's quarterly certifications about internal control over financial reporting by performing the following procedures—
- Inquiring of management about significant changes in the design or operation of internal control over financial reporting as it relates to the preparation of annual as well as interim financial information that could have occurred subsequent to the preceding annual audit or prior review of interim financial information;
 - Evaluating the implications of misstatements identified by the auditor as part of the auditor's other interim review procedures as they relate to effective internal control over financial reporting; and
 - Determining, through a combination of observation and inquiry, whether any change in internal control over financial reporting has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

.19 Many of the aforementioned review procedures can be performed before or simultaneously with the entity's preparation of the interim financial information. For example, it may be practicable to update the understanding of the entity's internal control and begin reading applicable minutes before the end of an interim period. Performing some of the review procedures earlier in the interim period also permits early identification and consideration of significant accounting matters affecting the interim financial information.

.20 *Inquiry concerning litigation, claims, and assessments.* A review of interim financial information does not contemplate obtaining corroborating evidence for responses to inquiries concerning litigation, claims, and assessments (see paragraph .07 of this section). Consequently, it ordinarily is not necessary to send an inquiry letter to an entity's lawyer concerning litigation, claims, and assessments. However, if information comes to the accountant's attention that leads him or her to question whether the interim financial information departs from generally accepted accounting principles¹³ with respect to litigation, claims, or assessments, and the accountant believes the entity's lawyer may have information concerning that question, an inquiry of the lawyer concerning the specific question is appropriate.

.21 *Inquiry concerning an entity's ability to continue as a going concern.* A review of interim financial information is not designed to identify conditions or events that may indicate substantial doubt about an entity's ability to continue as a going concern. However, such conditions or events may have existed at the date of prior-period financial statements.¹⁴ In addition, in the course of

¹³ In accordance with APB Opinion No. 28 and Article 10 of Regulation S-X, contingencies and other uncertainties that could be expected to affect the fairness of the presentation of financial data at an interim date should be disclosed in interim reports in the same manner required for annual reports. Such disclosures should be repeated in interim and annual reports until the contingencies have been removed, resolved, or become immaterial. The significance of a contingency or uncertainty should be judged in relation to annual financial statements.

¹⁴ For purposes of this section, "conditions or events that existed at the date of prior-period financial statements" include (a) substantial doubt about the entity's ability to continue as a going concern

(continued)

performing review procedures on the current-period interim financial information, the accountant may become aware of conditions or events that might be indicative of the entity's possible inability to continue as a going concern. In either case, the accountant should (a) inquire of management as to its plans for dealing with the adverse effects of the conditions and events and (b) consider the adequacy of the disclosure about such matters in the interim financial information.¹⁵ It ordinarily is not necessary for the accountant to obtain evidence in support of the information that mitigates the effects of the conditions and events.

.22 *Extension of interim review procedures.* If, in performing a review of interim financial information, the accountant becomes aware of information that leads him or her to believe that the interim financial information may not be in conformity with generally accepted accounting principles in all material respects, the accountant should make additional inquiries or perform other procedures that the accountant considers appropriate to provide a basis for communicating whether he or she is aware of any material modifications that should be made to the interim financial information. For example, if the accountant's interim review procedures lead him or her to question whether a significant sales transaction is recorded in conformity with generally accepted accounting principles, the accountant should perform additional procedures, such as discussing the terms of the transaction with senior marketing and accounting personnel, reading the sales contract, or both, to resolve his or her questions.

.23 *Coordination with the audit.* The accountant performing the review of interim financial information ordinarily will also be engaged to perform an audit of the annual financial statements of the entity. Certain auditing procedures may be performed concurrently with the review of interim financial information. For example, information gained from reading the minutes of meetings of the board of directors in connection with the review also may be used for the annual audit. Also, there may be significant or unusual transactions occurring during the interim period under review for which the auditing procedures that would need to be performed for purposes of the audit of the annual financial statements could be performed, to the extent practicable, at the time of the interim review, for example, business combinations, restructurings, or significant revenue transactions.

Written Representations From Management

.24 Written representations from management should be obtained for all interim financial information presented and for all periods covered by the review. Specific representations should relate to the following matters:¹⁶

Financial Statements

- a. Management's acknowledgement of its responsibility for the fair presentation of the interim financial information in conformity with generally accepted accounting principles.

(footnote continued)

that existed at the preceding year end, regardless of whether the substantial doubt was alleviated by the auditor's consideration of management's plans, or (b) conditions and events disclosed in the immediately preceding interim period.

¹⁵ Information that might be disclosed is set forth in section 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, paragraph .10. If the accountant determines that the disclosure about the entity's possible inability to continue as a going concern is inadequate, a departure from generally accepted accounting principles exists.

¹⁶ For additional guidance regarding written management representations, see section 333, *Management Representations*, paragraphs .08 through .12.

- b. Management's belief that the interim financial information has been prepared and presented in conformity with generally accepted accounting principles applicable to interim financial information.

Internal Control

- c. Disclosure of all significant deficiencies, including material weaknesses, in the design or operation of internal controls which could adversely affect the issuer's ability to record, process, summarize, and report financial data.
- d. Acknowledgment of management's responsibility for the design and implementation of programs and controls to prevent and detect fraud.
- e. Knowledge of fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others where the fraud could have a material effect on the financial statements.
- f. Knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees, former employees, analysts, regulators, short sellers, or others.

Completeness of Information

- g. Availability of all financial records and related data.
- h. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors.
- i. Communications with regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
- j. Absence of unrecorded transactions.

Recognition, Measurement, and Disclosure

- k. Management's belief that the effects of any uncorrected financial statement misstatements aggregated by the accountant during the current review engagement and pertaining to the interim period(s) in the current year are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole. (A summary of such items should be included in or attached to the letter.)¹⁷
- l. Plans or intentions that may materially affect the carrying value or classification of assets or liabilities.
- m. Information concerning related-party transactions and amounts receivable from or payable to related parties.
- n. Guarantees, whether written or oral, under which the entity is contingently liable.
- o. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*.
- p. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the interim financial information or as a basis for recording a loss contingency.

¹⁷ If a summary of uncorrected misstatements is unnecessary because there were no uncorrected misstatements identified, this representation should be eliminated.

- q. Unasserted claims or assessments that are probable of assertion and must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 5, *Accounting for Contingencies*.
- r. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB Statement No. 5.
- s. Satisfactory title to all owned assets, liens or encumbrances on such assets, and assets pledged as collateral.
- t. Compliance with aspects of contractual agreements that may affect the interim financial information.

Subsequent Events

- u. Information concerning subsequent events.

The representation letter ordinarily should be tailored to include additional representations from management related to matters specific to the entity's business or industry. Appendix C [paragraph .56] of this section presents illustrative representation letters.

Evaluating the Results of Interim Review Procedures

.25 A review of interim financial information is not designed to obtain reasonable assurance that the interim financial information is free of material misstatement. However, based on the review procedures performed, the accountant may become aware of *likely misstatements*. In the context of an interim review, a likely misstatement is the accountant's best estimate of the total misstatement in the account balances or classes of transactions on which he or she has performed review procedures. The accountant should accumulate for further evaluation likely misstatements identified in performing the review procedures. The accountant may designate an amount below which misstatements need not be accumulated, based on his or her professional judgment. However, the accountant should recognize that aggregated misstatements of relatively small amounts could have a material effect on the interim financial information.

.26 Misstatements identified by the accountant or brought to the accountant's attention, including inadequate disclosure,¹⁸ should be evaluated individually and in the aggregate to determine whether material modification should

¹⁸ Rule 10-01 of Regulation S-X states—

The interim financial information shall include disclosures either on the face of the financial statements or in accompanying footnotes sufficient so as to make the interim information presented not misleading. Registrants may presume that users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies, may be determined in that context. Accordingly, footnote disclosure which would substantially duplicate the disclosure contained in the most recent annual report to security holders or latest audited financial statements, such as a statement of significant accounting policies and practices, details of accounts which have not changed significantly in amount or composition since the end of the most recently completed fiscal year, and detailed disclosures prescribed by Rule 4-08 of this Regulation, may be omitted. However, disclosure shall be provided where events subsequent to the end of the most recent fiscal year have occurred which have a material impact on the registrant. Disclosures should encompass for example, significant changes since the end of the most recently completed fiscal year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modification of existing financing arrangements; and the reporting entity resulting from business combinations or dispositions. Notwithstanding the above, where material contingencies exist, disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

be made to the interim financial information for it to conform with generally accepted accounting principles.¹⁹ The accountant should use his or her professional judgment in evaluating the materiality of any likely misstatements that the entity has not corrected. The accountant should consider matters such as (a) the nature, cause (if known), and amount of the misstatements; (b) whether the misstatements originated in the preceding year or interim periods of the current year; (c) materiality judgments made in conjunction with the current or prior year's annual audit; and (d) the potential effect of the misstatements on future interim or annual periods.²⁰

.27 When evaluating whether uncorrected likely misstatements, individually or in the aggregate, are material, the accountant also should (a) consider the appropriateness of offsetting a misstatement of an estimated amount with a misstatement of an item capable of precise measurement and (b) recognize that an accumulation of immaterial misstatements in the balance sheet could contribute to material misstatements in future periods.

.28 When an accountant is unable to perform the procedures he or she considers necessary to achieve the objective of a review of interim financial information, or the client does not provide the accountant with the written representations the accountant believes are necessary, the review will be incomplete. An incomplete review is not an adequate basis for issuing a review report. If the accountant cannot complete the review, the accountant should communicate that information in accordance with the guidance in paragraphs .29 through .31 of this section. Nevertheless, if the accountant has become aware of material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles, such matters should be communicated pursuant to paragraphs .29 through .31 of this section.

Communications to Management, Audit Committees, and Others

.29 *[The following paragraph is effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

As a result of conducting a review of interim financial information, the accountant may become aware of matters that cause him or her to believe that—

- a. material modification should be made to the interim financial information for it to conform with generally accepted accounting principles;
- b. modification to the disclosures about changes in internal control over financial reporting is necessary for the certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies; and

¹⁹ APB Opinion No. 28 describes the applicability of generally accepted accounting principles to interim financial information and indicates the types of disclosures necessary to report on a meaningful basis for a period of less than a full year. Paragraph 29 of Opinion No. 28 provides guidance on assessing materiality in interim periods. For example, the Opinion states, "In determining materiality for the purpose of reporting the cumulative effect of an accounting change or correction of an error, amounts should be related to the estimated income for the full fiscal year and also to the effect on the trend of earnings."

²⁰ Interpretation No. 4, "Considering the Qualitative Characteristics of Misstatements," of section 312, *Audit Risk and Materiality in Conducting an Audit*, provides additional guidance on evaluating whether misstatements are material.

- c. the entity filed the Form 10-Q or Form 10-QSB before the completion of the review.

In such circumstances, the accountant should communicate the matter(s) to the appropriate level of management as soon as practicable.

.30 If, in the accountant's judgment, management does not respond appropriately to the accountant's communication within a reasonable period of time, the accountant should inform the audit committee or others with equivalent authority and responsibility (hereafter referred to as the audit committee) of the matters as soon as practicable. This communication may be oral or written. If information is communicated orally, the accountant should document the communication.

.31 If, in the accountant's judgment, the audit committee does not respond appropriately to the accountant's communication within a reasonable period of time, the accountant should evaluate whether to resign from the engagement to review the interim financial information and as the entity's auditor. The accountant may wish to consult with his or her attorney when making these evaluations.

.32 *[The following paragraph is effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

If the auditor becomes aware of information indicating that fraud or an illegal act has or may have occurred, the auditor must also determine his or her responsibilities under AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.²¹

.33 *[The following paragraph is effective for reviews of interim periods ending on or after November 15, 2007. See PCAOB Release 2007-005.]*

When conducting a review of interim financial information, the accountant may become aware of matters relating to internal control that may be of interest to the audit committee. Matters that should be reported to the audit committee are referred to as significant deficiencies. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.^[22]

.34 When conducting a review of interim financial information, the accountant also should determine whether any of the matters described in section 380, *Communication With Audit Committees*, as they relate to the interim financial information, have been identified. If such matters have been identified, the accountant should communicate them to the audit committee or be satisfied, through discussion with the audit committee, that such matters have been communicated to the audit committee by management. For example, the accountant should determine that the audit committee is informed about the process used by management to formulate particularly sensitive accounting estimates; about a change in a significant accounting policy affecting the interim financial information; about adjustments that, either individually or in the aggregate, could have a significant effect on the entity's financial reporting process; and about uncorrected misstatements aggregated by the accountant

²¹ See 15 U.S.C. § 78j-1.

^[22] [Footnote deleted due to the issuance of Auditing Standard No. 5.]

that were determined by management to be immaterial, both individually and in the aggregate, to the interim financial statements taken as a whole.²³

.35 The objective of a review of interim financial information differs significantly from that of an audit. Therefore, any communication the accountant may make about the quality, not just the acceptability, of the entity's accounting principles as applied to its interim financial reporting generally would be limited to the effect of significant events, transactions, and changes in accounting estimates that the accountant considered when conducting the review of interim financial information. Further, interim review procedures do not provide assurance that the accountant will become aware of all matters that might affect the accountant's judgments about the quality of the entity's accounting principles that would be identified as a result of an audit.

.36 If the accountant has identified matters to be communicated to the audit committee, the accountant should attempt to make such communications with the audit committee, or at least its chair, and a representative of management before the entity files its interim financial information with a regulatory agency (such as the SEC). If such communications cannot be made before the filing, they should be made as soon as practicable in the circumstances. The communications may be oral or written. If information is communicated orally, the accountant should document the communications.

The Accountant's Report on a Review of Interim Financial Information²⁴

Form of Accountant's Review Report

.37 The accountant's review report accompanying interim financial information should consist of:

- a. A title that includes the word *independent*.
- b. A statement that the interim financial information identified in the report was reviewed.
- c. A statement that the interim financial information is the responsibility of the entity's management.
- d. A statement that the review of interim financial information was conducted in accordance with standards established by the AICPA.
- e. A description of the procedures for a review of interim financial information.
- f. A statement that a review of interim financial information is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is an expression of an opinion regarding the financial statements taken as a whole, and accordingly, no such opinion is expressed.
- g. A statement about whether the accountant is aware of any material modifications that should be made to the accompanying

²³ The presentation to the audit committee should be similar to the summary of uncorrected misstatements included in or attached to the management representation letter that is described in paragraph .24(h) of this section.

²⁴ Paragraphs .37 through .46 of this section provide reporting guidance for a review of interim financial information; however, an accountant is not required to issue a report on such engagements.

interim financial information for it to conform with generally accepted accounting principles. The statement should include an identification of the country of origin of those accounting principles (for example, accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles).

- h. The manual or printed signature of the accountant's firm.
- i. The date of the review report. (Generally, the report should be dated as of the date of completion of the review procedures.²⁵)

In addition, each page of the interim financial information should be clearly marked as unaudited.

.38 The following is an example of a review report:²⁶

Independent Accountant's Report

We have reviewed the accompanying [*describe the interim financial information or statements reviewed*] of ABC Company and consolidated subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended. This (These) interim financial information (statements) is (are) the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information (statements) for it (them) to be in conformity with accounting principles generally accepted in the United States of America.

[*Signature*]

[*Date*]

.39 An accountant may be engaged to report on a review of comparative interim financial information. The following is an example of a review report on a condensed balance sheet as of March 31, 20X1, the related condensed statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0, and a condensed balance sheet derived from audited financial statements as of December 31, 20X0, that were included in Form 10-Q.²⁷

²⁵ Other reporting issues related to the dating of reports or subsequent events are similar to those encountered in an audit of financial statements. See sections 530, *Dating of the Independent Auditor's Report*, and 560, *Subsequent Events*.

²⁶ If interim financial information of a prior period is presented with that of the current period and the accountant has conducted a review of that information, the accountant should report on his or her review of the prior period. An example of the first sentence of such a report follows: "We have reviewed . . . of ABC Company and consolidated subsidiaries as of September 30, 20X1 and 20X2, and for the three-month and nine-month periods then ended. . . ."

²⁷ Regulation S-X specifies that the following financial information should be provided in filings on Form 10-Q:

- a. An interim balance sheet as of the end of the most recent fiscal quarter and a balance sheet as of the end of the preceding fiscal year that may be condensed to the same extent as the interim balance sheet.

(continued)

Independent Accountant's Report

We have reviewed the condensed consolidated balance sheet of ABC Company and subsidiaries as of March 31, 20X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0. These financial statements are the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of ABC Company and subsidiaries as of December 31, 20X0, and the related consolidated statements of income, retained earnings, and cash flows for the year then ended (not presented herein); and in our report dated February 15, 20X1, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 20X0, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.²⁸

[Signature]

[Date]

.40 The accountant may use and make reference to another accountant's review report on the interim financial information of a significant component of a reporting entity. This reference indicates a division of responsibility for performing the review.²⁹ The following is an example of report including such a reference:

Independent Accountant's Report

We have reviewed the accompanying [describe the interim financial information or statements reviewed] of ABC Company and consolidated subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods

(footnote continued)

- b. Interim condensed statements of income for the most recent fiscal quarter, for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the corresponding periods of the preceding fiscal year.
- c. Interim condensed cash flow statements for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter and for the corresponding period for the preceding fiscal year.

²⁸ If the auditor's report on the preceding year-end financial statements was other than unqualified, referred to other auditors, or included an explanatory paragraph because of a going-concern matter or an inconsistency in the application of accounting principles, the last paragraph of the illustrative report in paragraph .39 should be appropriately modified.

²⁹ See section 543, *Part of Audit Performed by Other Independent Auditors*.

then ended. This (These) interim financial information (statements) is (are) the responsibility of the company's management.

We were furnished with the report of other accountants on their review of the interim financial information of DEF subsidiary, whose total assets as of September 30, 20X1, and whose revenues for the three-month and nine-month periods then ended, constituted 15 percent, 20 percent, and 22 percent, respectively, of the related consolidated totals.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information (statements) consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review and the report of other accountants, we are not aware of any material modifications that should be made to the accompanying interim financial information (statements) for it (them) to be in conformity with accounting principles generally accepted in the United States of America.

[Signature]

[Date]

Modification of the Accountant's Review Report

.41 The accountant's report on a review of interim financial information should be modified for departures from generally accepted accounting principles,³⁰ which include inadequate disclosure and changes in accounting principle that are not in conformity with generally accepted accounting principles. The existence of substantial doubt about the entity's ability to continue as a going concern or a lack of consistency in the application of accounting principles affecting the interim financial information would not require the accountant to add an additional paragraph to the report, provided that the interim financial information appropriately discloses such matters. Although not required, the accountant may wish to emphasize such matters in a separate explanatory paragraph of the report. See paragraphs .44 and .45 of this section for examples of paragraphs that address matters related to an entity's ability to continue as a going concern.

.42 *Departure from generally accepted accounting principles.* If the accountant becomes aware that the interim financial information is materially affected by a departure from generally accepted accounting principles, he or she should modify the report. The modification should describe the nature of the departure and, if practicable, should state the effects on the interim financial information. Following is an example of such a modification of the accountant's report.

[Explanatory third paragraph]

Based on information furnished to us by management, we believe that the company has excluded from property and debt in the accompanying balance sheet certain lease obligations that we believe should be capitalized to conform

³⁰ If the circumstances contemplated by Rule 203, *Accounting Principles*, are present, the accountant should refer to the guidance in section 508, *Reports on Audited Financial Statements*, paragraph .15).

with accounting principles generally accepted in the United States of America. This information indicates that if these lease obligations were capitalized at September 30, 20X1, property would be increased by \$____, long-term debt by \$____, and net income and earnings per share would be increased (decreased) by \$____, \$____, \$____, and \$____, respectively, for the three-month and nine-month periods then ended.

[Concluding paragraph]

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information (statements) for it (them) to be in conformity with accounting principles generally accepted in the United States of America.

.43 Inadequate disclosure. The information necessary for adequate disclosure is influenced by the form and context in which the interim financial information is presented. For example, the disclosures considered necessary for interim financial information presented in accordance with the minimum disclosure requirements of APB Opinion No. 28, paragraph 30, which is applicable to summarized financial statements of public companies, are considerably less extensive than those necessary for annual financial statements that present financial position, results of operations, and cash flows in conformity with generally accepted accounting principles.³¹ If information that the accountant believes is necessary for adequate disclosure in conformity with generally accepted accounting principles³² is not included in the interim financial information, the accountant should modify the report and, if practicable, include the necessary information in the report. The following is an example of such a modification of the accountant's report:

[Explanatory third paragraph]

Management has informed us that the company is presently contesting deficiencies in federal income taxes proposed by the Internal Revenue Service for the years 20X1 through 20X3 in the aggregate amount of approximately \$____, and that the extent of the company's liability, if any, and the effect on the accompanying information (statements) is not determinable at this time. The information (statements) fail(s) to disclose these matters, which we believe are required to be disclosed in conformity with accounting principles generally accepted in the United States of America.

[Concluding paragraph]

Based on our review, with the exception of the matter(s) described in the preceding paragraph(s), we are not aware of any material modifications that should be made to the accompanying interim financial information (statements) for it (them) to be in conformity with accounting principles generally accepted in the United States of America.

.44 Going-concern paragraph was included in the prior year's audit report; conditions giving rise to the paragraph continue to exist. If (a) the auditor's

³¹ APB Opinion No. 28, paragraph 32, states that "there is a presumption that users of summarized interim financial data will have read the latest published annual report, including the financial disclosures required by generally accepted accounting principles and management's commentary concerning the annual financial results, and that the summarized interim data will be viewed in that context." See footnote 18 of this section for additional disclosure requirements.

³² Such disclosures include those set forth in section 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, paragraph .10. If the accountant determines that disclosure about the entity's possible inability to continue as a going concern is inadequate, a departure from generally accepted accounting principles exists.

report for the prior year end contained an explanatory paragraph indicating the existence of substantial doubt about the entity's ability to continue as a going concern, (b) the conditions that raised such doubt continued to exist as of the interim reporting date covered by the review, and (c) there is adequate and appropriate disclosure about these conditions in the interim financial information, the accountant is not required to modify his or her report. However, the accountant may add an explanatory paragraph to the review report, after the concluding paragraph, emphasizing the matter disclosed in the audited financial statements and the interim financial information. The following is an example of such a paragraph.

Note 4 of the Company's audited financial statements as of December 31, 20X1, and for the year then ended discloses that the Company was unable to renew its line of credit or obtain alternative financing at December 31, 20X1. Our auditor's report on those financial statements includes an explanatory paragraph referring to the matters in Note 4 of those financial statements and indicating that these matters raised substantial doubt about the Company's ability to continue as a going concern. As indicated in Note 3 of the Company's unaudited interim financial statements as of March 31, 20X2, and for the three months then ended, the Company was still unable to renew its line of credit or obtain alternative financing as of March 31, 20X2. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

.45 *Going-concern paragraph was not included in the prior year's audit report; conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern.* If (a) conditions or events exist as of the interim reporting date covered by the review that might be indicative of the entity's possible inability to continue as a going concern, and (b) there is adequate and appropriate disclosure about these conditions or events in the interim financial information, the accountant is not required to modify his or her report. However, the accountant may add an explanatory paragraph to the review report, after the concluding paragraph, emphasizing the matter disclosed in the interim financial information. The following is an example of such a paragraph.

As indicated in Note 3, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

Subsequent Discovery of Facts Existing at the Date of the Accountant's Report

.46 Subsequent to the date of the accountant's review report or the completion of the interim review procedures, if a report is not issued, the accountant may become aware that facts existed at the date of the review report (or the completion of the review procedures) that might have affected the accountant's report (or conclusion, if a report is not issued) had he or she then been aware of those matters. Because of the variety of conditions that might be encountered, the specific actions to be taken by the accountant in a particular case may vary with the circumstances. In any event, the accountant should consider the guidance in section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

Client's Representation Concerning a Review of Interim Financial Information

.47 If a client represents in a document filed with a regulatory agency (see paragraph .03 of this section for the SEC requirement) or issued to stockholders or third parties, that the accountant has reviewed the interim financial information included in the document, the accountant should advise the entity that his or her review report must be included in the document. If the client will not agree to include the accountant's review report, the accountant should perform the following procedures.

- Request that the accountant's name be neither associated with the interim financial information nor referred to in the document.
- If the client does not comply with the request, advise the client that the accountant will not consent either to the use of his or her name or to reference to him or her.
- When appropriate, recommend that the client consult with its legal counsel about the application of relevant laws and regulations to the circumstances.
- Consider what other actions might be appropriate.³³

.48 If a client represents in a document filed with a regulatory agency (see paragraph .03 of this section for the SEC requirement) or issued to stockholders or third parties that the accountant has reviewed the interim financial information included in the document, and the accountant has been unable to complete the review of the interim financial information, the accountant should refer to paragraph .28 of this section for guidance.

Interim Financial Information Accompanying Audited Financial Statements

.49 Interim financial information may be presented as supplementary information outside audited financial statements. In such circumstances, each page of the interim financial information should be clearly marked as unaudited. If management chooses or is required to present interim financial information in a note to the audited financial statements, the information also should be clearly marked as unaudited.

.50 The auditor ordinarily need not modify his or her report on the audited financial statements to refer to his or her having performed a review in accordance with this section or to refer to the interim financial information accompanying the audited financial statements because the interim financial information has not been audited and is not required for the audited financial statements to be fairly stated in conformity with generally accepted accounting principles. The auditor's report on the audited financial statements should, however, be modified in the following circumstances:

- a.* The interim financial information included in a note to the financial statements, including information that has been reviewed in accordance with this section, is not appropriately marked as unaudited. (In these circumstances the auditor should disclaim an opinion on the interim financial information.)

³³ In considering what actions, if any, may be appropriate in these circumstances, the accountant should consider consulting his or her legal counsel.

- b. The interim financial information accompanying audited financial statements does not appear to be presented in conformity with generally accepted accounting principles (see paragraphs .42 and .43 of this section). However, the auditor need not modify his or her report on the audited financial statements if his or her separate review report, which refers to those circumstances, is presented with the information.
- c. The selected quarterly financial data required by item 302(a) of Regulation S-K is omitted. The following is an example of a paragraph that should be added to the auditor's report if the selected quarterly financial data required by item 302(a) is omitted.

The company has not presented the selected quarterly financial data specified in item 302(a) of Regulation S-K that the Securities and Exchange Commission requires as supplementary information to the basic financial statements.

- d. The selected quarterly financial data required by item 302(a) of Regulation S-K has not been reviewed. The following is an example of a paragraph that should be added to the auditor's report if the selected quarterly financial data required by item 302(a) has not been reviewed.

The selected quarterly financial data on page xx contains information that we did not audit, and, accordingly, we do not express an opinion on that data. We attempted but were unable to review the quarterly data in accordance with standards established by the American Institute of Certified Public Accountants because we believe that the company's internal control for the preparation of interim financial information does not provide an adequate basis to enable us to complete such a review.

Documentation

.51 The accountant should prepare documentation in connection with a review of interim financial information, the form and content of which should be designed to meet the circumstances of the particular engagement. Documentation is the principal record of the review procedures performed and the conclusions reached by the accountant in performing the review.³⁴ Examples of documentation are review programs, analyses, memoranda, and letters of representation. Documentation may be in paper or electronic form, or other media. The quantity, type, and content of the documentation are matters of the accountant's professional judgment.

.52 Because of the different circumstances in individual engagements, it is not possible to specify the form or content of the documentation the accountant should prepare. However, the documentation should include any findings or issues that in the accountant's judgment are significant, for example, the results of review procedures that indicate that the interim financial information could be materially misstated, including actions taken to address such findings, and the basis for the final conclusions reached. In addition, the documentation should (a) enable members of the engagement team with supervision and review responsibilities to understand the nature, timing, extent, and results of the review procedures performed; (b) identify the engagement team member(s)

³⁴ However, an accountant would not be precluded from supporting his or her conclusions by other means in addition to the documentation.

who performed and reviewed the work; and (c) identify the evidence the accountant obtained in support of the conclusion that the interim financial information being reviewed agreed or reconciled with the accounting records (see paragraph .18(d) of this section).

Effective Date

.53 This section is effective for interim periods within fiscal years beginning after December 15, 2002. Earlier application of the provisions of this section is permitted.

Appendix A

Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Interim Financial Information

A1. Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the interim financial information. These procedures may consist of comparing interim financial information with prior period information, actual interim results with anticipated results (such as budgets or forecasts), and recorded amounts or ratios with expectations developed by the accountant. Examples of analytical procedures an accountant may consider performing in a review of interim financial information include:

- Comparing current interim financial information with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current interim financial information with corresponding information in (a) budgets, using expected rates, and (b) financial information for prior periods).³⁵
- Comparing current interim financial information with relevant non-financial information.
- Comparing ratios and indicators for the current interim period with expectations based on prior periods, for example, performing gross profit analysis by product line and operating segment using elements of the current interim financial information and comparing the results with corresponding information for prior periods. Examples of key ratios and indicators are the current ratio, receivable turnover or days' sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current interim period with those of entities in the same industry.
- Comparing relationships among elements in the current interim financial information with corresponding relationships in the interim financial information of prior periods, for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables.
- Comparing disaggregated data. The following are examples of how data may be disaggregated.
 - By period, for example, financial statement items disaggregated into quarterly, monthly, or weekly amounts.

³⁵ The accountant should exercise caution when comparing and evaluating current interim financial information with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and susceptibility of such information to manipulation and misstatement by management to reflect desired interim results.

- By product line or operating segment.
- By location, for example, subsidiary, division, or branch.

A2. Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques.

.55

Appendix B

Unusual or Complex Situations to Be Considered by the Accountant When Conducting a Review of Interim Financial Information

B1. The following are examples of situations about which the accountant would ordinarily inquire of management:

- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Computation of earnings per share in a complex capital structure
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior quarters
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Changes in major contracts with customers or suppliers
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates,³⁶ such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Changes in related parties or significant new related-party transactions
- Material off-balance-sheet transactions, special-purpose entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

³⁶ The accountant may wish to refer to the guidance in section 342, *Auditing Accounting Estimates*, paragraphs .05 and .06.

Appendix C

Illustrative Management Representation Letters for a Review of Interim Financial Information

C1. The following illustrative management representation letters, which relate to a review of interim financial information prepared in conformity with generally accepted accounting principles, are presented for illustrative purposes only. The first letter is designed to be used in conjunction with the representation letter provided by management in connection with the audit of the financial statements of the prior year. The second illustrative representation letter may be used independently of any other representation letter.

C2. The introductory paragraph of the letters should specify the financial statements and periods covered by the accountant's report, for example, "condensed balance sheets of XYZ Company as of June 30, 20X1 and 20X2, and the related condensed statements of income and retained earnings and cash flows for the three-month and nine-month periods then ended." The written representations to be obtained should be based on the circumstances of the engagement and the nature and basis of presentation of the financial statements being reviewed. Appendix B, "Additional Illustrative Representations," of section 333, *Management Representations*, presents examples of such representations. Illustrative representations for specialized industries are presented in AICPA Audit and Accounting Guides.

C3. If matters exist that should be disclosed to the accountant, they should be indicated by modifying the related representation. For example, if an event subsequent to the date of the balance sheet has been disclosed in the interim financial statements, the final paragraph could be modified as follows: "To the best of our knowledge and belief, except as discussed in Note X to the financial statements, no events have occurred. . . ." In appropriate circumstances, item 10 of the second illustrative representation letter could be modified as follows: "The company has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities, except for our plans to dispose of segment A, as disclosed in Note X to the interim financial information, which are discussed in the minutes of the June 7, 20X2, meeting of the board of directors (or disclosed to you at our meeting on June 15, 20X2)." Similarly, if management has received a communication regarding an allegation of fraud or suspected fraud, item 7 of the first illustrative representation letter and item 9 of the second illustrative representation letter could be modified as follows: "Except for the allegation discussed in the minutes of the December 7, 20X1, meeting of the board of directors (or disclosed to you at our meeting on October 15, 20X1), we have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, analysts, regulators, short sellers, or others."

C4. The qualitative discussion of materiality used in the illustrative letters is adapted from the Financial Accounting Standards Board Statement of Financial Accounting Concepts No. 2, *Qualitative Characteristics of Accounting Information*.

C5. Certain terms are used in the illustrative letters that are described elsewhere in authoritative literature. Examples are *fraud*, in section 319, *Consideration of Fraud in a Financial Statement Audit*, and *related parties*, in

section 334, *Related Parties*, footnote 1). To avoid misunderstanding concerning the meaning of such terms, the accountant may wish to furnish those definitions to management or request that the definitions be included in the written representations.

C6. The illustrative letters assume that management and the accountant have reached an understanding on the limits of materiality for purposes of the written representations. However, it should be noted that a materiality limit would not apply for certain representations, as explained in section 333.08.

1. Illustrative Short-Form Representation Letter for a Review of Interim Financial Information (Statements)

[This representation letter is to be used in conjunction with the representation letter for the audit of the financial statements of the prior year. Management confirms the representations made in the representation letter for the audit of the financial statements of the prior year end as they apply to the interim financial information, and makes additional representations that may be needed for the interim financial information.]

[Date]

To [Independent Accountant]:

We are providing this letter in connection with your review of the [identification of interim financial information (statements)] of [name of entity] as of [dates] and for the [periods] for the purpose of determining whether any material modifications should be made to the [consolidated] interim financial information (statements) for it (them) to conform with accounting principles generally accepted in the United States of America. We confirm that we are responsible for the fair presentation of the [consolidated] interim financial information (statements) in conformity with generally accepted accounting principles.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, [as of (date of accountant's report or completion of review)], the following representations made to you during your review.

1. The interim financial information (statements) referred to above has (have) been prepared and presented in conformity with generally accepted accounting principles applicable to interim financial information.
2. We have made available to you:
 - a. All financial records and related data.
 - b. All minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared. All significant board and committee actions are included in the summaries.

3. We believe that the effects of any uncorrected financial statement misstatements aggregated by you during the current review engagement and pertaining to the interim period(s) in the current year, as summarized in the accompanying schedule, are immaterial, both individually and in the aggregate, to the interim financial information (statements) taken as a whole.³⁷
4. There are no significant deficiencies, including material weaknesses, in the design or operation of internal controls which could adversely affect the company's ability to record, process, summarize, and report interim financial data.
5. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud.
6. We have no knowledge of any fraud or suspected fraud affecting the company involving:
 - a. Management;
 - b. Employees who have significant roles in internal control; or
 - c. Others where the fraud could have a material effect on the interim financial information.
7. We have no knowledge of any allegations of fraud or suspected fraud affecting the company in communications from employees, former employees, analysts, regulators, short sellers, or others.
8. We have reviewed our representation letter to you dated [*date of representation letter relating to most recent audit*] with respect to the audited financial statements for the year ended [*prior year-end date*]. We believe that representations A, B, and C within that representation letter do not apply to the interim financial information (statements) referred to above. We now confirm those representations 1 through X, as they apply to the interim financial information (statements) referred to above, and incorporate them herein, with the following changes:

[Indicate any changes.]
9. [*Add any representations related to new accounting or auditing standards that are being implemented for the first time.*]

To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the aforementioned interim financial information (statements).

[Name of chief executive officer and title]

[Name of chief financial officer and title]

[Name of chief accounting officer and title]

³⁷ If a summary of uncorrected misstatements is unnecessary because no uncorrected misstatements were identified, this representation should be eliminated.

2. Illustrative Representation Letter for a Review of Interim Financial Information (Statements)

[This representation letter is similar in detail to the management-representation letter used for the audit of the financial statements of the prior year and thus need not refer to the written management representations received in the most recent audit.]

[Date]

To *[Independent Accountant]*:

We are providing this letter in connection with your review of the *[identification of interim financial information (statements)]* of *[name of entity]* as of *[dates]* and for the *[periods]* for the purpose of determining whether any material modifications should be made to the *[consolidated]* interim financial information (statements) for it (them) to conform with accounting principles generally accepted in the United States of America. We confirm that we are responsible for the fair presentation of the *[consolidated]* interim financial information (statements) in conformity with generally accepted accounting principles.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, *[as of (date of accountant's report or the completion of the review)]*, the following representations made to you during your review.

1. The interim financial information (statements) referred to above has (have) been prepared and presented in conformity with generally accepted accounting principles applicable to interim financial information (statements).
2. We have made available to you—
 - a. All financial records and related data.
 - b. All minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared. All significant board and committee actions are included in the summaries.
3. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
4. There are no material transactions that have not been properly recorded in the accounting records underlying the interim financial information.
5. We believe that the effects of any uncorrected financial statement misstatements aggregated by you during the current review engagement and pertaining to the interim period(s) in the current year, as summarized in the accompanying schedule, are immaterial, both individually and in the aggregate, to the interim financial information (statements) taken as a whole.³⁸

³⁸ If a summary of uncorrected misstatements is unnecessary because no uncorrected misstatements were identified, this representation should be eliminated.

6. There are no significant deficiencies, including material weaknesses, in the design or operation of internal controls which could adversely affect the company's ability to record, process, summarize, and report interim financial data.

7. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud.

8. We have no knowledge of any fraud or suspected fraud affecting the company involving:

- a. Management;
- b. Employees who have significant roles in internal control; or
- c. Others where the fraud could have a material effect on the interim financial information.

9. We have no knowledge of any allegations of fraud or suspected fraud affecting the company received in communications from employees, former employees, analysts, regulators, short sellers, or others.

10. The company has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.

11. The following have been properly recorded or disclosed in the interim financial information (statements):

- a. Related-party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties.
- b. Guarantees, whether written or oral, under which the company is contingently liable.
- c. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. [*Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.*]

12. There are no:

- a. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the interim financial information (statements) or as a basis for recording a loss contingency.
- b. Unasserted claims or assessments that are probable of assertion and must be disclosed in accordance with Financial Accounting Standards Board (FASB) Statement No. 5, *Accounting for Contingencies*.

- c. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB Statement No. 5.

13. The company has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets; nor has any asset been pledged as collateral.

14. The company has complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.

15. *[Add additional representations that are unique to the entity's business or industry. See paragraph .21 of this section and section 333, Management Representations, paragraph .17].*

16. *[Add any representations related to new accounting or auditing standards that are being implemented for the first time.]*

To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the aforementioned interim financial information (statements).

Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance

(Supersedes SAS No. 68)

Source: SAS No. 74; SAS No. 75.

Effective for audits of financial statements and of compliance with laws and regulations for fiscal periods ending after December 31, 1994, unless otherwise indicated.

Introduction and Applicability

.01 This section^[1] is applicable when the auditor is engaged to audit a governmental entity under generally accepted auditing standards (GAAS), and engaged to test and report on compliance with laws and regulations under *Government Auditing Standards* (the Yellow Book) or in certain other circumstances involving governmental financial assistance,^{2,3} such as single or organization-wide audits or program-specific audits under certain federal or state audit regulations.⁴

^[1] [Footnote deleted to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

² Guidance for engagements related to management's written assertion about either (a) an entity's compliance with the requirements of specified laws, regulations, rules, or contracts not involving governmental financial assistance, or (b) the effectiveness of an entity's internal control structure over compliance with specified requirements is provided in AT section 601, *Compliance Attestation*. [Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

³ When engaged to perform an agreed-upon procedures engagement for which the objective is to report in accordance with this section, the auditor may consider the guidance in AT section 201, *Agreed-Upon Procedures Engagements*. [Footnote added, effective for reports on agreed-upon procedures engagements dated after April 30, 1996, by Statement on Auditing Standards No. 75. Footnote revised, January 2001, to reflect conforming changes necessary due to the issuance of Statement on Standards for Attestation Engagements No. 10.]

⁴ A single or organization-wide audit is an audit of an entity's financial statements and of compliance with regulations relating to governmental financial assistance. Examples are audits required by the Single Audit Act of 1984 and Office of Management and Budget (OMB) Circular A-128, *Audits of State and Local Governments*, OMB Circular A-133, *Audits of Institutions of Higher Education and Other Nonprofit Institutions*, or the Connecticut Single Audit Act. A program-specific audit is an audit of one governmental financial assistance program in accordance with federal or state laws, regulations or audit guides, such as the U.S. Department of Education's *Student Financial Assistance Audit Guide*, or the U.S. Department of Housing and Urban Development's (HUD's) *Consolidated Audit Guide for Audits of HUD Programs*, relative to that program. An auditor may also be engaged to test and report on compliance with other federal, state, and local laws and regulations that are beyond the scope of this section. (For additional guidance, see footnote 2.) [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

- .02** Specifically, this section provides general⁵ guidance to the auditor to—
- a. Apply the provisions of section 317, *Illegal Acts by Clients*, relative to detecting misstatements resulting from illegal acts related to laws and regulations that have a direct and material effect on the determination of financial statement amounts in audits of the financial statements of governmental entities and other recipients of governmental financial assistance (paragraphs .03 through .07).
 - b. Perform a financial audit in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States (paragraphs .08 and .09).⁶
 - c. Perform a single or organization-wide audit or a program-specific audit in accordance with federal audit requirements (paragraphs .10 through .20).
 - d. Communicate with management if the auditor becomes aware that the entity is subject to an audit requirement that may not be encompassed in the terms of his or her engagement (paragraphs .21 through .23).

Effects of Laws on Financial Statements

.03 The Governmental Accounting Standards Board's (GASB's) *Codification of Governmental Accounting and Financial Reporting Standards*, section 1200.103, recognizes that governmental entities generally are subject to a variety of laws and regulations that affect their financial statements.

An important aspect of GAAP [generally accepted accounting principles] as applied to governments is the recognition of the variety of legal and contractual considerations typical of the government environment. These considerations underlie and are reflected in the fund structure, bases of accounting, and other principles and methods set forth here, and are a major factor distinguishing governmental accounting from commercial accounting.

For example, such laws and regulations may address the fund structure required by law, regulation, or bond covenant; procurement; debt limitations; and legal authority for transactions.

.04 Federal, state, and local governmental entities provide financial assistance to other entities, including not-for-profit organizations and business enterprises that are either primary recipients, subrecipients,⁷ or beneficiaries. Among the forms of governmental financial assistance are grants of cash and

⁵ Specific guidance is provided in the AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units*, and in Statement of Position (SOP) 98-3, *Audits of States, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

⁶ In practice, *Government Auditing Standards*, or the Yellow Book, is sometimes referred to as *generally accepted government auditing standards* (GAGAS). *Government Auditing Standards* includes standards for financial and performance audits. The references to *Government Auditing Standards* in this section encompass only the standards that apply to financial audits, not the performance audit standards. The auditor should be aware that *Government Auditing Standards* is revised periodically and should ensure that the currently effective version is being followed. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

⁷ A subrecipient is an entity that receives governmental financial assistance when the assistance is initially received by another entity (the primary recipient) that distributes the assistance for the government program that created and provided the assistance. As used in this section, *recipient* means either a primary recipient or a subrecipient. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

other assets, loans, loan guarantees, and interest-rate subsidies.⁸ By accepting such assistance, both governmental and nongovernmental entities may be subject to laws and regulations that may have a direct and material effect on the determination of amounts in their financial statements.

.05 Management is responsible for ensuring that the entity complies with the laws and regulations applicable to its activities. That responsibility encompasses the identification of applicable laws and regulations and the establishment of controls designed to provide reasonable assurance that the entity complies with those laws and regulations. The auditor's responsibility for testing and reporting on compliance with laws and regulations varies according to the terms of the engagement.

.06 Section 317 describes the auditor's responsibility, in an audit performed in accordance with GAAS, for considering laws and regulations and how they affect the audit. Thus, the auditor should design the audit to provide reasonable assurance that the financial statements are free of material misstatements resulting from violations of laws and regulations that have a direct and material effect on the determination of financial statement amounts.

.07 The auditor should obtain an understanding of the possible effects on financial statements of laws and regulations that are generally recognized by auditors to have a direct and material effect on the determination of amounts in an entity's financial statements. The auditor should also assess whether management has identified laws and regulations that have a direct and material effect on the determination of amounts in the entity's financial statements and obtain an understanding of the possible effects on the financial statements of such laws and regulations. The auditor may consider performing the following procedures in assessing such laws and regulations and in obtaining an understanding of their possible effects on the financial statements.

- a. Consider knowledge about such laws and regulations obtained from prior years' audits.
- b. Discuss such laws and regulations with the entity's chief financial officer, legal counsel, or grant administrators.
- c. Obtain written representation from management regarding the completeness of management's identification.
- d. Review the relevant portions of any directly related agreements, such as those related to grants and loans.
- e. Review the minutes of meetings of the legislative body and governing board of the governmental entity being audited for the enactment of laws and regulations that have a direct and material effect on the determination of amounts in the governmental entity's financial statements.

⁸ For purposes of this section, financial assistance, as defined by the Single Audit Act of 1984 and OMB Circular A-128, does not include contracts to provide goods or services to a governmental entity or arrangements in which a nongovernmental entity purchases insurance from the government. Federal awards, as defined by OMB Circular A-133, means financial assistance and federal cost-type contracts used to buy services or goods for the use of the federal government. Federal awards do not include procurement contracts to vendors under grants or contracts used to buy goods or services. For example, financial assistance does not include a contract to design and manufacture aircraft for the U.S. Air Force or the purchase of deposit insurance by a financial institution. In addition, although Medicaid funds paid by the federal government to states constitute financial assistance, most Medicaid arrangements between the states and health-care providers are contracts for services that are not considered to be financial assistance. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

- f. Inquire of the office of the federal, state, or local auditor, or other appropriate audit oversight organization about the laws and regulations applicable to entities within their jurisdiction, including statutes and uniform reporting requirements.
- g. Review information about compliance requirements, such as the information included in the Compliance Supplements issued by OMB: *Compliance Supplement for Single Audits of State and Local Governments* and *Compliance Supplement for Audits of Institutions of Higher Learning and Other Non-Profit Institutions, Catalog of Federal Domestic Assistance*, issued by the Government Printing Office, and state and local policies and procedures.

Government Auditing Standards

.08 *Government Auditing Standards* contains standards for audits of government organizations, programs, activities, and functions and of government assistance received by contractors, not-for-profit organizations, and other non-government organizations. These standards, which include designing the audit to provide reasonable assurance of detecting material misstatements resulting from noncompliance with provisions of contracts or grant agreements that have a direct and material effect on the determination of financial statement amounts, are to be followed when required by law, regulation, agreement, contract, or policy.⁹

.09 For financial audits, *Government Auditing Standards* prescribes fieldwork and reporting standards beyond those required by GAAS. The general standards of *Government Auditing Standards* relate to qualifications of the staff, independence, due professional care, and quality control.

Federal Audit Requirements

.10 Although the scope and reporting requirements of an audit of a recipient of federal financial assistance in accordance with federal audit regulations vary, the audits generally have the following elements in common.

- a. The audit is to be conducted in accordance with GAAS and *Government Auditing Standards*.
- b. The auditor's consideration of internal control is to include obtaining and documenting an understanding of internal control established to ensure compliance with the laws and regulations applicable to the federal financial assistance. In some instances, federal audit regulations mandate a "test of controls" to evaluate the effectiveness of the design and operation of the policies and procedures in preventing or detecting material noncompliance.
- c. The auditor is to issue a report on the consideration of internal control described above.

⁹ Some states have adopted regulations that require local governments within the states to have their audits conducted in accordance with *Government Auditing Standards*. In addition, some states require that recipients of state financial assistance be audited in accordance with *Government Auditing Standards*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

- d. The auditor is to determine and report on whether the federal financial assistance has been administered in accordance with applicable laws and regulations (that is, compliance requirements).^[10]

.11 A recipient of federal financial assistance may be subject to a single or organization-wide audit or to a program-specific audit. A number of federal audit regulations permit the recipient to "elect" to have a program-specific audit, whereas other federal audit regulations require a program-specific audit in certain circumstances. In planning the audit, the auditor should determine and consider the specific federal audit requirements¹¹ applicable to the engagement, including the issuance of additional reports. As noted in paragraph .10 of this section, federal audit regulations for both single or organization-wide audits and program-specific audits generally require consideration of internal control beyond what is normally required by GAAS and *Government Auditing Standards* and a determination of whether applicable compliance requirements have been met.

Compliance Requirements Applicable to Federal Financial Assistance Programs

.12 Compliance requirements applicable to federal financial assistance programs are usually one of two types: general and specific. General requirements involve national policy and apply to all or most federal financial assistance programs.¹²

.13 Specific requirements apply to a particular federal program and generally arise from statutory requirements and regulations. The OMB's Compliance Supplements set forth general and specific requirements for many of the federal programs awarded to state and local governments and to not-for-profit organizations, as well as suggested audit procedures to test for compliance with the requirements.

.14 For program-specific audits, the auditor should consult federal grantor agency audit guides to identify general requirements that are statutory and regulatory requirements pertaining to certain federal programs, specific requirements for a particular program, and suggested audit procedures to test for compliance with the requirements.

.15 In addition to those identified in the OMB's Compliance Supplements or federal grantor agency audit guides, specific requirements may also be enumerated in grant agreements or contracts.

.16 Generally, the auditor is required to determine whether the recipient has complied with the general and specific requirements. The form of the report and the required level of assurance to be provided in the report may vary, depending on the requirements of a particular agency or program. For example, if reporting on compliance requirements, the auditor may be required to report

^[10] [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995. Footnote deleted to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 85.]

¹¹ Such requirements may be set out in an engagement letter or audit contract. In some instances, a written engagement letter is required by the federal grantor agency. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

¹² General requirements also may be referred to as *common* requirements. Detailed guidance on evaluating the results of testing general requirements can be found in the AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units*, and in SOP 92-9. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

findings relating to compliance with those requirements or the auditor may be required to express an opinion on whether the recipient has complied with the requirements applicable to its major¹³ federal financial assistance programs.¹⁴

Evaluating Results of Compliance Audit Procedures on Major Federal Financial Assistance Programs

.17 In evaluating whether an entity has complied with laws and regulations that, if not complied with, could have a material effect on each major federal financial assistance program, the auditor should consider the effect of identified instances of noncompliance on each such program. In doing so, the auditor should consider—

- a. The frequency of noncompliance identified in the audit.
- b. The adequacy of a primary recipient's system for monitoring sub-recipients and the possible effect on the program of any noncompliance identified by the primary recipient or the auditors of the subrecipients.
- c. Whether any instances of noncompliance identified in the audit resulted in questioned costs, as discussed below, and, if they did, whether questioned costs are material to the program.¹⁵

.18 The criteria for classifying a cost as a questioned cost vary from one federal agency to another. In evaluating the effect of questioned costs on the opinion on compliance, the auditor considers the best estimate of total costs questioned for each major federal financial assistance program (hereafter referred to as *likely questioned costs*), not just the questioned costs specifically identified (hereafter referred to as *known questioned costs*). When using audit sampling, as defined in section 350, *Audit Sampling*, in testing compliance, the auditor should project the amount of known questioned costs identified in the sample to the items in the major federal financial assistance program from which the sample was selected.

.19 Regardless of the auditor's opinion on compliance, federal audit regulations may require him or her to report any instances of noncompliance found and any resulting questioned costs. In reporting instances of noncompliance, the auditor should follow the provisions of *Government Auditing Standards*. For purposes of reporting questioned costs, the auditor is not required to report likely questioned costs; rather, the auditor should report only known questioned costs.

.20 When evaluating the results of compliance audit procedures on federal financial assistance programs, the auditor also should consider whether identified instances of noncompliance affect his or her opinion on the entity's financial statements (see paragraph .06).

¹³ A major federal financial assistance program is defined by a federal regulation or law or by the federal grantor agency's audit guide. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

¹⁴ Detailed testing and reporting guidance on single or organization-wide audits and program-specific audits is provided in the AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units and in SOP 92-9*. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

¹⁵ In auditing compliance with requirements governing major federal financial assistance programs, the auditor's consideration of materiality differs from that in an audit of the financial statements in accordance with GAAS. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

Communications Regarding Applicable Audit Requirements

.21 Management is responsible for obtaining audits that satisfy relevant legal, regulatory, or contractual requirements. Auditors should exercise due professional care in ensuring that they and management understand the type of engagement to be performed. If a proposal, contract, or engagement letter is used, an auditor should consider including in it a statement about the type of engagement and whether the engagement is intended to meet specific audit requirements.

.22 GAAS do not require the auditor to perform procedures beyond those he or she considers necessary to obtain sufficient competent evidential matter to form a basis for the opinion on the financial statements. However, if during a GAAS audit of the financial statements the auditor becomes aware that the entity is subject to an audit requirement that may not be encompassed in the terms of the engagement, the auditor should communicate to management and the audit committee, or to others with equivalent authority and responsibility, that an audit in accordance with GAAS may not satisfy the relevant legal, regulatory, or contractual requirements.¹⁶ For example, the auditor will be required to make this communication if an entity engages an auditor to perform an audit of its financial statements in accordance with GAAS and the auditor becomes aware that by law, regulation, or contractual agreement the entity also is required to have an audit performed in accordance with one or more of the following:

- a. *Government Auditing Standards*
- b. The Single Audit Act of 1984 and OMB Circular A-128, *Audits of State and Local Governments*
- c. OMB Circular A-133, *Audits of Institutions of Higher Education and Other Nonprofit Institutions*
- d. Other compliance audit requirements, such as state or local laws or program-specific audits under federal audit guides

.23 The communication required by paragraph .22 of this section may be oral or written. If the communication is oral, the auditor should document the communication in the working papers. The auditor should consider how the client's actions in response to such communication relate to other aspects of the audit, including the potential effect on the financial statements and on the auditor's report on those financial statements. Specifically, the auditor should consider management's actions (such as not arranging for an audit that meets the applicable requirements) in relation to the guidance in section 317.

Effective Date

.24 The provisions of this section are effective for audits of financial statements and of compliance with laws and regulations for fiscal periods ending after December 31, 1994. Early application of this section is encouraged.

¹⁶ For entities that do not have an audit committee, "others with equivalent authority or responsibility" may include the board of directors, the board of trustees, the owner in owner-managed entities, the city council, or the legislative standing committee. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 75, September 1995.]

AU Section 901

*Public Warehouses—Controls and Auditing Procedure for Goods Held**

Source: SAS No. 1, section 901; SAS No. 43.

Issue date, unless otherwise indicated: November, 1972.

Introduction

.01 This section discusses controls of a public warehouse, the procedures of its independent auditor with respect to goods in the warehouse's custody, and auditing procedures performed by the independent auditor of the owner of goods in the warehouse.¹ [As amended, effective after August 31, 1982, by Statement on Auditing Standards No. 43.]

General Considerations

.02 The management of a business has the responsibility for the proper recording of transactions in its books of account, for the safeguarding of its assets, and for the substantial accuracy and adequacy of its financial statements. The independent auditor is not an insurer or guarantor; his responsibility is to express a professional opinion on the financial statements he has audited.² [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Summary of Recommendations

.03 The Committee recommends that the independent auditor of the warehouseman:

- a. Obtain an understanding of controls, relating to the accountability for and the custody of all goods placed in the warehouse and perform tests of controls to evaluate their effectiveness.
- b. Test the warehouseman's records relating to accountability for all goods placed in his custody.
- c. Test the warehouseman's accountability under recorded outstanding warehouse receipts.
- d. Observe physical counts of the goods in custody, wherever practicable and reasonable, and reconcile his tests of such counts with records of goods stored.

* Title revised, February 1997, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 78.

¹ This section reports the conclusions of a 1966 study of the AICPA Committee on Auditing Procedure on the accountability of warehousemen for goods stored in public warehouses. [Footnote renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

² See section 110.

- e. Confirm accountability (to the extent considered necessary) by direct communication with the holders of warehouse receipts.

The independent auditor should apply such other procedures as he considers necessary in the circumstances. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982. Paragraph subsequently renumbered by the issuance of Statement on Auditing Standards No. 48, July 1984.]

.04 Warehousing activities are diverse because the warehoused goods are diverse, the purposes of placing goods in custody are varied, and the scope of operations of warehouses is not uniform. The independent auditor has the responsibility to exercise his judgment in determining what procedures, including those recommended in this report, are necessary in the circumstances to afford a reasonable basis for his opinion on the financial statements.³ [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.05 The following sections of this report describe those aspects of warehousing operations of primary concern to independent auditors, suggest elements of internal control for warehousemen, and offer the Committee's recommendations as to procedures of the independent auditor. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Public Warehouse Operations

Types of Warehouses

.06 A warehouse may be described as a facility operated by a warehouseman whose business is the maintaining of effective custody of goods for others. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.07 Warehouses may be classified functionally as terminal warehouses or field warehouses:

Terminal Warehouse. The principal economic function of a terminal warehouse is to furnish storage. It may, however, perform other functions, including packaging and billing. It may be used to store a wide variety of goods or only a particular type of commodity.

Field Warehouse. A field warehouse is established in space leased by the warehouseman on the premises of the owner of the goods or the premises of a customer of the owner. In most circumstances all or most of the personnel at the warehouse location are employed by the warehouseman from among the employees of the owner (or customer), usually from among those who previously have been responsible for custody and handling of the goods. Field warehousing is essentially a financing arrangement, rather than a storage operation. The warehouse is established to permit the warehouseman to take and maintain custody of goods and issue warehouse receipts to be used as collateral for a loan or other form of credit.

Warehouses may be classified also by types of goods stored. Foods and other perishable products may be stored in refrigerated warehouses, constructed and equipped to meet controlled temperature and special handling requirements.

³ See section 326.

Certain bulk commodities, such as various agricultural products and chemicals, are stored in commodity warehouses; these warehouses often are designed and equipped to store only one commodity, and fungible goods frequently are commingled without regard to ownership. A wide variety of goods, usually not requiring special storage facilities, is stored in general merchandise warehouses. Some warehouses confine their activities to storing furniture, other household goods, and personal effects. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Warehouse Receipts

.08 A basic document in warehousing is the warehouse receipt. Article 7 of the Uniform Commercial Code regulates the issuance of warehouse receipts, prescribes certain terms that must be contained in such receipts, provides for their negotiation and transfer, and establishes the rights of receipt holders. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.09 Warehouse receipts may be in negotiable form or non-negotiable form and may be used as evidence of collateral for loans or other forms of credit. Goods represented by a negotiable warehouse receipt may be released only upon surrender of the receipt to the warehouseman for cancellation or endorsement, whereas goods represented by a non-negotiable receipt may be released upon valid instructions without the need for surrender of the receipt. Other important ways in which the two kinds of receipts differ concern the manner in which the right of possession to the goods they represent may be transferred from one party to another and the rights acquired by bona fide purchasers of the receipts. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.10 Since goods covered by non-negotiable receipts may be released without surrender of the receipts, such outstanding receipts are not necessarily an indication of accountability on the part of the warehouseman or of evidence of ownership by the depositor. Since goods are frequently withdrawn piecemeal, the warehouseman's accountability at any given time is for the quantity of goods for which receipts have been issued minus the quantities released against properly authorized withdrawals. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.11 Article 7 of the Uniform Commercial Code, in addition to provisions with respect to the issuance and contents of warehouse receipts, contains provisions with respect to, among other things, the storage and release of warehoused goods, the standard of care to be exercised by the warehouseman, warehouseman's liability, and liens for the warehouseman's charges and expenses and the manner in which they may be enforced. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Government Regulation

.12 There are various other statutes and regulations, applicable in special situations, relating to the rights and duties of warehousemen and the operation of warehouses. Among the more important are (a) the United States Warehouse Act and the regulations adopted thereunder by the Department of Agriculture, providing for licensing and regulation of warehouses storing certain agricultural commodities, (b) the regulations adopted by commodity exchanges licensed under the United States Commodity Exchange Act, providing for issuance and registration of receipts and licensing and regulation of warehouses,

and (c) the Internal Revenue Code and the Tariff Act of 1930, and regulations adopted thereunder, relating respectively to United States Revenue Bonded Warehouses and United States Customs Bonded Warehouses, providing for licensing, bonding, and regulation of such warehouses. In addition, there are statutes and regulations in various states relating to licensing, bonding, insurance, and other matters. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

The Warehouseman

Controls

.13 Goods held in custody for others are not owned by the warehouseman and, therefore, do not appear as assets in his financial statements. Similarly, the related custodial responsibility does not appear as a liability. However, as in other businesses, the warehouseman is exposed to the risk of loss or claims for damage stemming from faulty performance of his operating functions. Faulty performance may take the form of loss or improper release of goods, improper issuance of warehouse receipts, failure to maintain effective custody of goods so that lenders' preferential liens are lost, and other forms. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.14 The recommendation herein that the independent auditor of the warehouseman obtain an understanding of relevant controls and perform tests of controls to evaluate their effectiveness is based upon the important relationship of such controls to the custodial responsibilities of the warehouseman, which are not reflected in his financial statements. Significant unrecorded liabilities may arise if these custodial responsibilities are not discharged properly. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982. Revised, April 1989, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards Nos. 53 through 62.]

.15 Whether and to what extent the suggested controls that follow may be applicable to a particular warehouse operation will depend on the nature of the operation, of the goods stored, and of the warehouseman's organization. Appropriate segregation of duties in the performance of the respective operating functions should be emphasized.

Receiving, Storing, and Delivering Goods

Receipts should be issued for all goods admitted into storage.

Receiving clerks should prepare reports as to all goods received. The receiving report should be compared with quantities shown on bills of lading or other documents received from the owner or other outside sources by an employee independent of receiving, storing, and shipping.

Goods received should be inspected, counted, weighed, measured, or graded in accordance with applicable requirements. There should be a periodic check of the accuracy of any mechanical facilities used for these purposes.

Unless commingling is unavoidable, such as with fungible goods, goods should be stored so that each lot is segregated and identified with the pertinent warehouse receipt. The warehouse office records should show the location of the goods represented by each outstanding receipt.

Instructions should be issued that goods may be released only on proper authorization which, in the case of negotiable receipts, includes surrender of the receipt.

Access to the storage area should be limited to those employees whose duties require it, and the custody of keys should be controlled.

Periodic statements to customers should identify the goods held and request that discrepancies be reported to a specified employee who is not connected with receiving, storing, and delivery of goods.

The stored goods should be physically counted or tested periodically, and quantities agreed to the records by an employee independent of the storage function; the extent to which this is done may depend on the nature of the goods, the rate of turnover, and the effectiveness of other internal control structure policies and procedures.

Where the goods held are perishable, a regular schedule for inspection of condition should be established.

Protective devices such as burglar alarms, fire alarms, sprinkler systems, and temperature and humidity controls should be inspected regularly.

Goods should be released from the warehouse only on the basis of written instructions received from an authorized employee who does not have access to the goods.

Counts of goods released as made by stock clerks should be independently checked by shipping clerks or others and the two counts should be compared before the goods are released.

Warehouse Receipts

Prenumbered receipt forms should be used, and procedures established for accounting for all forms used and for cancellation of negotiable receipts when goods have been delivered.

Unused forms should be safeguarded against theft or misuse and their custody assigned to a responsible employee who is not authorized to prepare or sign receipts.

Receipt forms should be furnished only to authorized persons, and in a quantity limited to the number required for current use.

The signer of receipts should ascertain that the receipts are supported by receiving records or other underlying documents.

Receipts should be prepared and completed in a manner designed to prevent alteration.

Authorized signers should be a limited number of responsible employees.

Insurance

The adequacy, as to both type and amount, of insurance coverage carried by the warehouseman should be reviewed at appropriate intervals.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Additional Controls for Field Warehouses

.16 As indicated earlier, the purpose of field warehousing differs from terminal warehousing. Operating requirements also may differ because a field warehouseman may operate at a large number of locations. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.17 In field warehousing, controls are applied at two points: the field location and the warehouseman's central office. At the field location, the controls as to receipt, storage, and delivery of goods and issuance of warehouse receipts generally will comprise the controls suggested above, with such variations as may be appropriate in light of the requirements, and available personnel, at the respective locations. Only non-negotiable warehouse receipts should be issued from field locations, and the receipt forms should be furnished to the field locations by the central office in quantities limited to current requirements. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.18 The central office should investigate and approve the field warehousing arrangements, and exercise control as to custody and release of goods and issuance of receipts at the field locations. Controls suggested for the central office are the following:

Consideration of the business reputation and financial standing of the depositor.

Preparation of a field warehouse contract in accordance with the particular requirements of the depositor and the lender.

Determination that the leased warehouse premises meet the physical requirements for segregation and effective custody of goods.

Satisfaction as to legal matters relative to the lease of the warehouse premises.

Investigation and bonding of the employees at the field locations.

Providing employees at field locations with written instructions covering their duties and responsibilities.

Maintenance of inventory records at the central office showing the quantity (and stated value, where applicable) of goods represented by each outstanding warehouse receipt.

Examination of the field warehouse by representatives of the central office. These examinations would include inspection of the facilities, observation as to adherence to prescribed procedures, physical counts or tests of goods in custody and reconciliation of quantities to records at the central office and at field locations, accounting for all receipt forms furnished to the field locations, and confirmation (on a test basis, where appropriate) of outstanding warehouse receipts with the registered holders.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Procedures of the Independent Auditor

.19 The Committee recommends that the independent auditor of the warehouseman:

- a. Obtain an understanding of controls, relating to the accountability for and the custody of all goods placed in the warehouse and perform tests of controls to evaluate their effectiveness.
- b. Test the warehouseman's records relating to accountability for all goods placed in his custody.
- c. Test the warehouseman's accountability under recorded outstanding warehouse receipts.
- d. Observe physical counts of the goods in custody, wherever practicable and reasonable, and reconcile his tests of such counts with records of goods stored.

- e. Confirm accountability (to the extent considered necessary) by direct communication with the holders of warehouse receipts.

The independent auditor should apply such other procedures as he considers necessary in the circumstances. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.20 The auditor's procedures relating to accountability might include, on a test basis, comparison of documentary evidence of goods received and delivered with warehouse receipts records, accounting for issued and unissued warehouse receipts by number, and comparison of the records of goods stored with billings for storage. In some circumstances, the auditor may consider it necessary to obtain confirmation from the printer as to the serial numbers of receipt forms supplied. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.21 In the case of a field warehouseman where goods are stored at many scattered locations, the independent auditor may satisfy himself that the warehouseman's physical count procedures are adequate by observing the procedures at certain selected locations. The amount of testing required will be dependent upon the effectiveness of both design and operation of controls. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.22 The confirmation of negotiable receipts with holders may be impracticable, since the identity of the holders usually is not known to the warehouseman. Confirmation with the depositor to whom the outstanding receipt was originally issued, however, would be evidential matter of the accountability for certain designated goods. It should be recognized, too, that as to both negotiable and non-negotiable receipts, confirmation may not be conclusive in the light of the possibility of issued but unrecorded receipts. In some circumstances, it may be desirable to request confirmations from former depositors who are not currently holders of record. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.23 The independent auditor should review the nature and extent of the warehouseman's insurance coverage and the adequacy of any reserves for losses under damage claims. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Controls and Auditing Procedures for Owner's Goods Stored in Public Warehouses

.24 The following paragraphs provide guidance on the controls for the owner of the goods and on the auditing procedures to be employed by his independent auditor. [As amended, effective after August 31, 1982, by Statement on Auditing Standards No. 43.]

Controls

.25 The controls of the owner should be designed to provide reasonable safeguards over his goods in a warehouseman's custody. Ordinarily, the controls should include an investigation of the warehouseman before the goods are placed in custody, and a continuing evaluation of the warehouseman's performance in maintaining custody of the goods. [Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.26 Among the suggested controls that may be comprehended in an investigation of the warehouseman before the goods are placed in his custody are the following:

Consideration of the business reputation and financial standing of the warehouseman.

Inspection of the physical facilities.

Inquiries as to the warehouseman's controls and whether the warehouseman holds goods for his own account.

Inquiries as to type and adequacy of the warehouseman's insurance.

Inquiries as to government or other licensing and bonding requirements and the nature, extent, and results of any inspection by government or other agencies.

Review of the warehouseman's financial statements and related reports of independent auditors.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

.27 After the goods are placed in the warehouse, suggested controls that may be applied periodically by the owner in evaluating the warehouseman's performance in maintaining custody of goods include the following:

Review and update the information developed from the investigation described above.

Physical counts (or test counts) of the goods, wherever practicable and reasonable (may not be practicable in the case of fungible goods).

Reconciliation of quantities shown on statements received from the warehouseman with the owner's records.

In addition, he should review his own insurance, if any, on goods in the custody of the warehouseman.

[Paragraph renumbered by the issuance of Statement on Auditing Standards No. 43, August 1982.]

Procedures of the Independent Auditor

.28 Section 331.14 describes the procedures that the auditor should apply if inventories are held in public warehouses. [As amended, effective after August 31, 1982, by Statement on Auditing Standards No. 43.]

ATTESTATION STANDARDS

Introduction

The accompanying "attestation standards" provide guidance and establish a broad framework for a variety of attest services increasingly demanded of the accounting profession. The standards and related interpretive commentary are designed to provide professional guidelines that will enhance both consistency and quality in the performance of such services.

For years, attest services generally were limited to expressing a positive opinion on historical financial statements on the basis of an audit in accordance with generally accepted auditing standards (GAAS). However, certified public accountants increasingly have been requested to provide, and have been providing, assurance on representations other than historical financial statements and in forms other than the positive opinion. In responding to these needs, certified public accountants have been able to generally apply the basic concepts underlying GAAS to these attest services. As the range of attest services has grown, however, it has become increasingly difficult to do so.

Consequently, the main objective of adopting these attestation standards and the related interpretive commentary is to provide a general framework for and set reasonable boundaries around the attest function. As such, the standards and commentary (a) provide useful and necessary guidance to certified public accountants engaged to perform new and evolving attest services and (b) guide AICPA standard-setting bodies in establishing, if deemed necessary, interpretive standards for such services.

The attestation standards are a natural extension of the ten generally accepted auditing standards. Like the auditing standards, the attestation standards deal with the need for technical competence, independence in mental attitude, due professional care, adequate planning and supervision, sufficient evidence, and appropriate reporting; however, they are much broader in scope. (The eleven attestation standards are listed below.) Such standards apply to a growing array of attest services. These services include, for example, reports on descriptions of systems of internal control; on descriptions of computer software; on compliance with statutory, regulatory, and contractual requirements; on investment performance statistics; and on information supplementary to financial statements. Thus, the standards have been developed to be responsive to a changing environment and the demands of society.

These attestation standards apply only to attest services rendered by a certified public accountant in the practice of public accounting—that is, a practitioner as defined in footnote 1 of paragraph .01.

The attestation standards do not supersede any of the existing standards in Statements on Auditing Standards (SASs), Statements on Standards for Accounting and Review Services (SSARSs), and Statement on Standards for Accountants' Services on Prospective Financial Information. Therefore, the practitioner who is engaged to perform an engagement subject to these existing standards should follow such standards.

Attestation Standards

General Standards

1. The engagement shall be performed by a practitioner having adequate technical training and proficiency in the attest function.
2. The engagement shall be performed by a practitioner having adequate knowledge of the subject matter.
3. The practitioner shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.
4. In all matters relating to the engagement, an independence in mental attitude shall be maintained by the practitioner.
5. Due professional care shall be exercised in the planning and performance of the engagement.

Standards of Fieldwork

1. The work shall be adequately planned and assistants, if any, shall be properly supervised.
2. Sufficient evidence shall be obtained to provide a reasonable basis for the conclusion that is expressed in the report.

Standards of Reporting

1. The report shall identify the subject matter or the assertion being reported on and state the character of the engagement.
2. The report shall state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated.
3. The report shall state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto.
4. The report shall state that the use of the report is restricted to specified parties under the following circumstances:
 - When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - When the criteria used to evaluate the subject matter are available only to specified parties
 - When reporting on subject matter and a written assertion has not been provided by the responsible party
 - When the report is on an attest engagement to apply agreed-upon procedures to the subject matter.

[As amended, effective for attest reports issued on or after June 30, 1999, by Statement on Standards for Attestation Engagements No. 9. As amended, effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, by Statement on Standards for Attestation Engagements No. 10.]

AT Section 101

Attest Engagements

Source: SSAE No. 10; SSAE No. 11; SSAE No. 12; Auditing Standard No. 4.

See section 9101 for interpretations of this section.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, unless otherwise indicated.

Applicability

.01 This section applies to engagements, except for those services discussed in paragraph .04, in which a certified public accountant in the practice of public accounting¹ (hereinafter referred to as a *practitioner*) is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as *the assertion*), that is the responsibility of another party.²

.02 This section establishes a framework for attest³ engagements performed by practitioners and for the ongoing development of related standards. For certain subject matter, specific attestation standards have been developed to provide additional requirements for engagement performance and reporting.

.03 When a practitioner undertakes an attest engagement for the benefit of a government body or agency and agrees to follow specified government standards, guides, procedures, statutes, rules, and regulations, the practitioner is obliged to follow those governmental requirements as well as the applicable attestation standards.

.04 Professional services provided by practitioners that are not covered by this SSAE include the following:

- a. Services performed in accordance with Statements on Auditing Standards (SASs)
- b. Services performed in accordance with Statements on Standards for Accounting and Review Services (SSARSs)
- c. Services performed in accordance with the Statement on Standards for Consulting Services (SSCS), such as engagements in which the practitioner's role is solely to assist the client (for example, acting as the company accountant in preparing information other than financial statements), or engagements in which a

¹ For a definition of the term *practice of public accounting*, see *Definitions* [ET section 92.25].

² See section 301, *Financial Forecasts and Projections*, paragraph .02, for additional guidance on applicability when engaged to provide an attest service on a financial forecast or projection.

³ The term *attest* and its variants, such as *attesting* and *attestation*, are used in a number of state accountancy laws, and in regulations issued by state boards of accountancy under such laws, for different purposes and with different meanings from those intended by this section. Consequently, the definition of *attest engagements* set out in paragraph .01, and the attendant meaning of *attest* and *attestation* as used throughout the section, should not be understood as defining these terms and similar terms, as they are used in any law or regulation, nor as embodying a common understanding of the terms which may also be reflected in such laws or regulations.

practitioner is engaged to testify as an expert witness in accounting, auditing, taxation, or other matters, given certain stipulated facts

- d. Engagements in which the practitioner is engaged to advocate a client's position—for example, tax matters being reviewed by the Internal Revenue Service
- e. Tax engagements in which a practitioner is engaged to prepare tax returns or provide tax advice

[The following item f is added effective February 6, 2006 due to issuance of PCAOB Auditing Standard No. 4, Reporting on Whether a Previously Recorded Material Weakness Continues to Exist. See PCAOB Release No. 2005-015.]

- f. Engagements in which the practitioner is engaged to report on whether a material weakness in internal control over financial reporting continues to exist for any purpose other than the company's internal use. Such engagements must be conducted pursuant to PCAOB Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*.

.05 An attest engagement may be part of a larger engagement, for example, a feasibility study or business acquisition study may also include an examination of prospective financial information. In such circumstances, these standards apply only to the attest portion of the engagement.

.06 Any professional service resulting in the expression of assurance must be performed under AICPA professional standards that provide for the expression of such assurance. Reports issued by a practitioner in connection with other professional standards should be written to be clearly distinguishable from and not to be confused with attest reports. For example, a practitioner performing an engagement which is intended solely to assist an organization in improving its controls over the privacy of client data should not issue a report as a result of that engagement expressing assurance as to the effectiveness of such controls. Additionally, a report that merely excludes the words, "...was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants..." but is otherwise similar to an examination, a review or an agreed-upon procedures attest report may be inferred to be an attest report.

Definitions and Underlying Concepts

Subject Matter

.07 The subject matter of an attest engagement may take many forms, including the following:

- a. Historical or prospective performance or condition (for example, historical or prospective financial information, performance measurements, and backlog data)
- b. Physical characteristics (for example, narrative descriptions, square footage of facilities)
- c. Historical events (for example, the price of a market basket of goods on a certain date)
- d. Analyses (for example, break-even analyses)
- e. Systems and processes (for example, internal control)

- f. Behavior (for example, corporate governance, compliance with laws and regulations, and human resource practices)

The subject matter may be as of a point in time or for a period of time.

Assertion

.08 An assertion is any declaration or set of declarations about whether the subject matter is based on or in conformity with the criteria selected.

.09 A practitioner may report on a written assertion or may report directly on the subject matter. In either case, the practitioner should ordinarily obtain a written assertion in an examination or a review engagement. A written assertion may be presented to a practitioner in a number of ways, such as in a narrative description, within a schedule, or as part of a representation letter appropriately identifying what is being presented and the point in time or period of time covered.

.10 When a written assertion has not been obtained, a practitioner may still report on the subject matter; however, the form of the report will vary depending on the circumstances and its use should be restricted.⁴ In this section, see paragraphs .58 and .60 on gathering sufficient evidence and paragraphs .73 to .75 and .78 to .80 for reporting guidance.

Responsible Party

.11 The *responsible party* is defined as the person or persons, either as individuals or representatives of the entity, responsible for the subject matter. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may provide such an assertion (hereinafter referred to as the *responsible party*).

.12 The practitioner may be engaged to gather information to enable the responsible party to evaluate the subject matter in connection with providing a written assertion. Regardless of the procedures performed by the practitioner, the responsible party must accept responsibility for its assertion and the subject matter and must not base its assertion solely on the practitioner's procedures.⁵

.13 Because the practitioner's role in an attest engagement is that of an *attester*, the practitioner should not take on the role of the responsible party in an attest engagement. Therefore, the need to clearly identify a responsible party is a prerequisite for an attest engagement. A practitioner may accept an engagement to perform an examination, a review or an agreed-upon procedures engagement on subject matter or an assertion related thereto provided that one of the following conditions is met.

- a. The party wishing to engage the practitioner is responsible for the subject matter, or has a reasonable basis for providing a written assertion about the subject matter if the nature of the subject matter is such that a responsible party does not otherwise exist.
- b. The party wishing to engage the practitioner is not responsible for the subject matter but is able to provide the practitioner, or have a third party who is responsible for the subject matter provide the

⁴ When the practitioner is unable to perform the inquiry and analytical or other procedures that he or she considers necessary to achieve the limited assurance contemplated by a review, or when the client is the responsible party and does not provide the practitioner with a written assertion, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report and, accordingly, the practitioner should withdraw from the engagement.

⁵ See paragraph .112 regarding the practitioner's assistance in developing subject matter or criteria.

practitioner, with evidence of the third party's responsibility for the subject matter.

.14 The practitioner should obtain written acknowledgment or other evidence of the responsible party's responsibility for the subject matter, or the written assertion, as it relates to the objective of the engagement. The responsible party can acknowledge that responsibility in a number of ways, for example, in an engagement letter, a representation letter, or the presentation of the subject matter, including the notes thereto, or the written assertion. If the practitioner is not able to directly obtain written acknowledgment, the practitioner should obtain other evidence of the responsible party's responsibility for the subject matter (for example, by reference to legislation, a regulation, or a contract).

Applicability to Agreed-Upon Procedures Engagements

.15 An agreed-upon procedures attest engagement is one in which a practitioner is engaged to issue a report of findings based on specific procedures performed on subject matter. The general, fieldwork, and reporting standards for attest engagements set forth in this section are applicable to agreed-upon procedures engagements. Because the application of these standards to agreed-upon procedures engagements is discussed in section 201, *Agreed-Upon Procedures Engagements*, such engagements are not discussed further in this section.

The Relationship of Attestation Standards to Quality Control Standards

.16 The practitioner is responsible for compliance with the American Institute of Certified Public Accountants' (AICPA's) Statements on Standards for Attestation Engagements (SSAEs) in an attest engagement. Rule 202, *Compliance With Standards*, of the Code of Professional Conduct [ET section 202.01], requires members to comply with such standards when conducting professional services.

.17 A firm of practitioners has a responsibility to adopt a system of quality control in the conduct of a firm's attest practice.⁶ Thus, a firm should establish quality control policies and procedures to provide it with reasonable assurance that its personnel comply with the attestation standards in its attest engagements. The nature and extent of a firm's quality control policies and procedures depend on factors such as its size, the degree of operating autonomy allowed its personnel and its practice offices, the nature of its practice, its organization, and appropriate cost-benefit considerations. [As amended, effective September 2002, by Statement on Standards for Attestation Engagements No. 12.]

.18 Attestation standards relate to the conduct of individual attest engagements; quality control standards relate to the conduct of a firm's attest practice as a whole. Thus, attestation standards and quality control standards are related and the quality control policies and procedures that a firm adopts may

⁶ The elements of quality control are identified in Statement on Quality Control Standards (SQCS) No. 2, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* [QC section 20]. A system of quality control is broadly defined as a process to provide the firm with reasonable assurance that its personnel comply with applicable professional standards and the firm's standards of quality. [As amended, effective September 2002, by Statement on Standards for Attestation Engagements No. 12.]

affect both the conduct of individual attest engagements and the conduct of a firm's attest practice as a whole. However, deficiencies in or instances of non-compliance with a firm's quality control policies and procedures do not, in and of themselves, indicate that a particular engagement was not performed in accordance with attestation standards. [As amended, effective September 2002, by Statement on Standards for Attestation Engagements No. 12.]

General Standards

Training and Proficiency

.19 The first general standard is—*The engagement shall be performed by a practitioner having adequate technical training and proficiency in the attest function.*

.20 Performing attest services is different from preparing and presenting subject matter or an assertion. The latter involves collecting, classifying, summarizing, and communicating information; this usually entails reducing a mass of detailed data to a manageable and understandable form. On the other hand, performing attest services involves gathering evidence to support the subject matter or the assertion and objectively assessing the measurements and communications of the responsible party. Thus, attest services are analytical, critical, investigative, and are concerned with the basis and support for the subject matter or the assertion.

Adequate Knowledge of Subject Matter

.21 The second general standard is—*The engagement shall be performed by a practitioner having adequate knowledge of the subject matter.*

.22 A practitioner may obtain adequate knowledge of the subject matter through formal or continuing education, including self-study, or through practical experience. However, this standard does not necessarily require a practitioner to personally acquire all of the necessary knowledge in the subject matter to be qualified to express a conclusion. This knowledge requirement may be met, in part, through the use of one or more specialists on a particular attest engagement if the practitioner has sufficient knowledge of the subject matter (a) to communicate to the specialist the objectives of the work and (b) to evaluate the specialist's work to determine if the objectives were achieved.

Suitability and Availability of Criteria

.23 The third general standard is—*The practitioner shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users.*

Suitability of Criteria

.24 Criteria are the standards or benchmarks used to measure and present the subject matter and against which the practitioner evaluates the subject matter.* Suitable criteria must have each of the following attributes:

* An example of suitable criteria are the Trust Services criteria (includes WebTrust and SysTrust) developed by the AICPA's Assurance Services Executive Committee. These criteria may be used when the subject matter of the engagement is the security, availability, processing integrity, online privacy, or confidentiality of a system. The Trust Services criteria are presented in sections 100 and 200 of the AICPA's *Technical Practice Aids*. [Footnote added by the Assurance Services Executive Committee, January 2003.]

- *Objectivity*—Criteria should be free from bias.
- *Measurability*—Criteria should permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness*—Criteria should be sufficiently complete so that those relevant factors that would alter a conclusion about subject matter are not omitted.
- *Relevance*—Criteria should be relevant to the subject matter.

.25 Criteria that are established or developed by groups composed of experts that follow due process procedures, including exposure of the proposed criteria for public comment, ordinarily should be considered suitable. Criteria promulgated by a body designated by the AICPA Governing Council under the AICPA Code of Professional Conduct are, by definition, considered to be suitable.

.26 Criteria may be established or developed by the client, the responsible party, industry associations, or other groups that do not follow due process procedures or do not as clearly represent the public interest. To determine whether these criteria are suitable, the practitioner should evaluate them based on the attributes described in paragraph .24.

.27 Regardless of who establishes or develops the criteria, the responsible party or the client is responsible for selecting the criteria and the client is responsible for determining that such criteria are appropriate for its purposes.

.28 The use of suitable criteria does not presume that all persons or groups would be expected to select the same criteria in evaluating the same subject matter. There may be more than one set of suitable criteria for a given subject matter. For example, in an engagement to express assurance about customer satisfaction, a responsible party may select as a criterion for customer satisfaction that all customer complaints are resolved to the satisfaction of the customer. In other cases, another responsible party may select a different criterion, such as the number of repeat purchases in the three months following the initial purchase.

.29 In evaluating the measurability attribute as described in paragraph .24, the practitioner should consider whether the criteria are sufficiently precise to permit people having competence in and using the same measurement criterion to be able to ordinarily obtain materially similar measurements. Consequently, practitioners should not perform an engagement when the criteria are so subjective or vague that reasonably consistent measurements, qualitative or quantitative, of subject matter cannot ordinarily be obtained. However, practitioners will not always reach the same conclusion because such evaluations often require the exercise of considerable professional judgment.

.30 For the purpose of assessing whether the use of particular criteria can be expected to yield reasonably consistent measurement and evaluation, consideration should be given to the nature of the subject matter. For example, *soft information*, such as forecasts or projections, would be expected to have a wider range of reasonable estimates than *hard* data, such as the calculated investment performance of a defined portfolio of managed investment products.

.31 Some criteria may be appropriate for only a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. For instance, criteria set forth in a lease agreement for override payments may be appropriate only for reporting

to the parties to the agreement because of the likelihood that such criteria would be misunderstood or misinterpreted by parties other than those who have specifically agreed to the criteria. Such criteria can be agreed upon directly by the parties or through a designated representative. If a practitioner determines that such criteria are appropriate only for a limited number of parties, the use of the report should be restricted to those specified parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.

.32 The third general standard in paragraph .23 applies equally regardless of the level of the attest service to be provided. Consequently, it is inappropriate to perform a review engagement if the practitioner concludes that an examination cannot be performed because competent persons using the same criteria would not be able to obtain materially similar evaluations.

Availability of Criteria

.33 The criteria should be available to users in one or more of the following ways:

- a. Available publicly
- b. Available to all users through inclusion in a clear manner in the presentation of the subject matter or in the assertion
- c. Available to all users through inclusion in a clear manner in the practitioner's report
- d. Well understood by most users, although not formally available (for example, "The distance between points A and B is twenty feet;" the criterion of distance measured in feet is considered to be well understood)
- e. Available only to specified parties; for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry

.34 If criteria are only available to specified parties, the practitioner's report should be restricted to those parties who have access to the criteria as described in paragraphs .78 and .80.

Independence

.35 The fourth general standard is—*In all matters relating to the engagement, an independence in mental attitude shall be maintained by the practitioner.*⁷

.36 The practitioner should maintain the intellectual honesty and impartiality necessary to reach an unbiased conclusion about the subject matter or the assertion. This is a cornerstone of the attest function.

.37 In the final analysis, independence in mental attitude means objective consideration of facts, unbiased judgments, and honest neutrality on the part

⁷ The practitioner performing an attest engagement should be *independent* pursuant to Rule 101, *Independence*, of the Code of Professional Conduct [ET section 101.01]. Interpretation No. 11, "Independence and the Performance of Professional Services Under the Statements on Standards for Attestation Engagements and Statement on Auditing Standards No. 75, *Engagements to Apply Agreed-Upon Procedures to Specified Elements, Accounts, or Items of a Financial Statement*," [ET section 101.13], to rule 101 [ET section 101.01] provides guidance about its application to certain attest engagements.

of the practitioner in forming and expressing conclusions. It implies not the attitude of an advocate or an adversary but an impartiality that recognizes an obligation for fairness. Independence in mental attitude presumes an undeviating concern for an unbiased conclusion about the subject matter or an assertion no matter what the subject matter or the assertion may be.

.38 The profession has established, through the AICPA's Code of Professional Conduct, precepts to guard against the *presumption* of loss of independence. Presumption is stressed because the possession of intrinsic independence is a matter of personal quality rather than of rules that formulate certain objective tests. Insofar as these precepts have been incorporated in the profession's code, they have the force of professional law for the independent practitioner.

Due Professional Care

.39 The fifth general standard is—*Due professional care shall be exercised in the planning and performance of the engagement.*

.40 Due professional care imposes a responsibility on each practitioner involved with the engagement to observe each of the attestation standards. Exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including the preparation of the report.

.41 *Cooley on Torts*, a legal treatise, describes the obligation for due care as follows:

Every man who offers his services to another and is employed assumes the duty to exercise in the employment such skill as he possesses with reasonable care and diligence. In all these employments where peculiar skill is requisite, if one offers his services, he is understood as holding himself out to the public as possessing the degree of skill commonly possessed by others in the same employment, and if his pretensions are unfounded, he commits a species of fraud upon every man who employs him in reliance on his public profession. But no man, whether skilled or unskilled, undertakes that the task he assumes shall be performed successfully, and without fault or error; he undertakes for good faith and integrity, but not for infallibility, and he is liable to his employer for negligence, bad faith, or dishonesty, but not for losses consequent upon mere errors of judgment.⁸

Standards of Fieldwork

Planning and Supervision

.42 The first standard of fieldwork is—*The work shall be adequately planned and assistants, if any, shall be properly supervised.*

.43 Proper planning and supervision contribute to the effectiveness of attest procedures. Proper planning directly influences the selection of appropriate procedures and the timeliness of their application, and proper supervision helps ensure that planned procedures are appropriately applied.

.44 Planning an attest engagement involves developing an overall strategy for the expected conduct and scope of the engagement. To develop such a

⁸ D. Haggard, *Cooley on Torts*, 472 (4th ed., 1932).

strategy, practitioners need to have sufficient knowledge to enable them to understand adequately the events, transactions, and practices that, in their judgment, have a significant effect on the subject matter or the assertion.

.45 Factors to be considered by the practitioner in planning an attest engagement include the following:

- a. The criteria to be used
- b. Preliminary judgments about attestation risk⁹ and materiality for attest purposes
- c. The nature of the subject matter or the items within the assertion that are likely to require revision or adjustment
- d. Conditions that may require extension or modification of attest procedures
- e. The nature of the report expected to be issued

.46 The practitioner should establish an understanding with the client regarding the services to be performed for each engagement.¹⁰ Such an understanding reduces the risk that either the practitioner or the client may misinterpret the needs or expectations of the other party. For example, it reduces the risk that the client may inappropriately rely on the practitioner to protect the entity against certain risks or to perform certain functions that are the client's responsibility. The understanding should include the objectives of the engagement, management's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the client. If the practitioner believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.

.47 The nature, extent, and timing of planning will vary with the nature and complexity of the subject matter or the assertion and the practitioner's prior experience with management. As part of the planning process, the practitioner should consider the nature, extent, and timing of the work to be performed to accomplish the objectives of the attest engagement. Nevertheless, as the attest engagement progresses, changed conditions may make it necessary to modify planned procedures.

.48 Supervision involves directing the efforts of assistants who participate in accomplishing the objectives of the attest engagement and determining whether those objectives were accomplished. Elements of supervision include instructing assistants, staying informed of significant problems encountered, reviewing the work performed, and dealing with differences of opinion among personnel. The extent of supervision appropriate in a given instance depends on many factors, including the nature and complexity of the subject matter and the qualifications of the persons performing the work.

.49 Assistants should be informed of their responsibilities, including the objectives of the procedures that they are to perform and matters that may affect the nature, extent, and timing of such procedures. The practitioner with

⁹ *Attestation risk* is the risk that the practitioner may unknowingly fail to appropriately modify his or her attest report on the subject matter or an assertion that is materially misstated. It consists of (a) the risk (consisting of *inherent risk* and *control risk*) that the subject matter or assertion contains deviations or misstatements that could be material and (b) the risk that the practitioner will not detect such deviations or misstatements (*detection risk*).

¹⁰ See SQCS No. 2, paragraph 16 [QC section 20.16].

final responsibility for the engagement should direct assistants to bring to his or her attention significant questions raised during the attest engagement so that their significance may be assessed.

.50 The work performed by each assistant should be reviewed to determine whether it was adequately performed and to evaluate whether the results are consistent with the conclusion to be presented in the practitioner's report.

Obtaining Sufficient Evidence

.51 The second standard of fieldwork is—*Sufficient evidence shall be obtained to provide a reasonable basis for the conclusion that is expressed in the report.*

.52 Selecting and applying procedures that will accumulate evidence that is sufficient in the circumstances to provide a reasonable basis for the level of assurance to be expressed in the attest report requires the careful exercise of professional judgment. A broad array of available procedures may be applied in an attest engagement. In establishing a proper combination of procedures to appropriately restrict attestation risk, the practitioner should consider the following presumptions, bearing in mind that they are not mutually exclusive and may be subject to important exceptions.

- a. Evidence obtained from independent sources outside an entity provides greater assurance about the subject matter or the assertion than evidence secured solely from within the entity.
- b. Information obtained from the independent attester's direct personal knowledge (such as through physical examination, observation, computation, operating tests, or inspection) is more persuasive than information obtained indirectly.
- c. The more effective the controls over the subject matter, the more assurance they provide about the subject matter or the assertion.

.53 Thus, in the hierarchy of available attest procedures, those that involve search and verification (for example, inspection, confirmation, or observation), particularly when using independent sources outside the entity, are generally more effective in restricting attestation risk than those involving internal inquiries and comparisons of internal information (for example, analytical procedures and discussions with individuals responsible for the subject matter or the assertion). On the other hand, the latter are generally less costly to apply.

.54 In an attest engagement designed to provide a high level of assurance (referred to as an *examination*), the practitioner's objective is to accumulate sufficient evidence to restrict attestation risk to a level that is, in the practitioner's professional judgment, appropriately low for the high level of assurance that may be imparted by his or her report. In such an engagement, a practitioner should select from all available procedures—that is, procedures that assess inherent and control risk and restrict detection risk—any combination that can restrict attestation risk to such an appropriately low level.

.55 In an attest engagement designed to provide a moderate level of assurance (referred to as a *review*), the objective is to accumulate sufficient evidence to restrict attestation risk to a moderate level. To accomplish this, the types of procedures performed generally are limited to inquiries and analytical procedures (rather than also including search and verification procedures).

.56 Nevertheless, there will be circumstances in which inquiry and analytical procedures (a) cannot be performed, (b) are deemed less efficient than other procedures, or (c) yield evidence indicating that the subject matter or the

assertion may be incomplete or inaccurate. In the first circumstance, the practitioner should perform other procedures that he or she believes can provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would have provided. In the second circumstance, the practitioner may perform other procedures that he or she believes would be more efficient to provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would provide. In the third circumstance, the practitioner should perform additional procedures.

.57 The extent to which attestation procedures will be performed should be based on the level of assurance to be provided and the practitioner's consideration of (a) the nature and materiality of the information to be tested to the subject matter or the assertion taken as a whole, (b) the likelihood of misstatements, (c) knowledge obtained during current and previous engagements, (d) the responsible party's competence in the subject matter, (e) the extent to which the information is affected by the asserter's judgment, and (f) inadequacies in the responsible party's underlying data.

.58 As part of the attestation procedures, the practitioner considers the written assertion ordinarily provided by the responsible party. If a written assertion cannot be obtained from the responsible party, the practitioner should consider the effects on his or her ability to obtain sufficient evidence to form a conclusion about the subject matter. When the practitioner's client is the responsible party, a failure to obtain a written assertion should result in the practitioner concluding that a scope limitation exists.¹¹ When the practitioner's client is not the responsible party and a written assertion is not provided, the practitioner may be able to conclude that he or she has sufficient evidence to form a conclusion about the subject matter.

Representation Letter

.59 During an attest engagement, the responsible party makes many representations to the practitioner, both oral and written, in response to specific inquiries or through the presentation of subject matter or an assertion. Such representations from the responsible party are part of the evidential matter the practitioner obtains.

.60 Written representations from the responsible party ordinarily confirm representations explicitly or implicitly given to the practitioner, indicate and document the continuing appropriateness of such representations, and reduce the possibility of misunderstanding concerning the matters that are the subject of the representations. Accordingly, in an examination or a review engagement, a practitioner should consider obtaining a representation letter from the responsible party. Examples of matters that might appear in such a representation letter include the following:¹²

¹¹ When the client is the responsible party, it is presumed that the client will be capable of providing the practitioner with a written assertion regarding the subject matter. Failure to provide the written assertion in this circumstance is a client-imposed limitation on the practitioner's evidence-gathering efforts. In an examination, the practitioner should modify the report for the scope limitation. In a review engagement, such a scope limitation results in an incomplete review and the practitioner should withdraw from the engagement.

¹² Specific written representations will depend on the circumstances of the engagement (for example, whether the client is the responsible party) and the nature of the subject matter and the criteria. For example, when the client is not the responsible party but has selected the criteria, the practitioner might obtain the representation regarding responsibility for selection of the criteria from the client rather than the responsible party (see paragraph .61).

- a. A statement acknowledging responsibility for the subject matter and, when applicable, the assertion
- b. A statement acknowledging responsibility for selecting the criteria, where applicable
- c. A statement acknowledging responsibility for determining that such criteria are appropriate for its purposes, where the responsible party is the client
- d. The assertion about the subject matter based on the criteria selected
- e. A statement that all known matters contradicting the assertion and any communication from regulatory agencies affecting the subject matter or the assertion have been disclosed to the practitioner
- f. Availability of all records relevant to the subject matter
- g. A statement that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter (or, if applicable, the assertion) have been disclosed to the practitioner
- h. Other matters as the practitioner deems appropriate

.61 When the client is not the responsible party, the practitioner should consider obtaining a letter of written representations from the client as part of the attest engagement. Examples of matters that might appear in such a representation letter include the following:

- a. A statement that any known events subsequent to the period (or point in time) of the subject matter being reported on that would have a material effect on the subject matter (or, if applicable, the assertion) have been disclosed to the practitioner
- b. A statement acknowledging the client's responsibility for selecting the criteria, where applicable
- c. A statement acknowledging the client's responsibility for determining that such criteria are appropriate for its purposes
- d. Other matters as the practitioner deems appropriate

.62 If the responsible party or the client refuses to furnish all written representations that the practitioner deems necessary, the practitioner should consider the effects of such a refusal on his or her ability to issue a conclusion about the subject matter. If the practitioner believes that the representation letter is necessary to obtain sufficient evidence to issue a report, the responsible party's or the client's refusal to furnish such evidence in the form of written representations constitutes a limitation on the scope of an examination sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause the practitioner to disclaim an opinion or withdraw from an examination engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude, in an examination engagement, that a qualified opinion is appropriate. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other representations. When a scope limitation exists in a review engagement, the practitioner should withdraw from the engagement. (See paragraph .75.)

Standards of Reporting

.63 The first standard of reporting is—*The report shall identify the subject matter or the assertion being reported on and state the character of the engagement.*

.64 The practitioner who accepts an attest engagement should issue a report on the subject matter or the assertion or withdraw from the attest engagement. If the practitioner is reporting on the assertion, the assertion should be bound with or accompany the practitioner's report or the assertion should be clearly stated in the practitioner's report.¹³

.65 The statement of the character of an attest engagement includes the following two elements: (a) a description of the nature and scope of the work performed and (b) a reference to the professional standards governing the engagement. The terms *examination* and *review* should be used to describe engagements to provide, respectively, a high level and a moderate level of assurance. The reference to professional standards should be accomplished by referring to "attestation standards established by the American Institute of Certified Public Accountants."

.66 The second standard of reporting is—*The report shall state the practitioner's conclusion about the subject matter or the assertion in relation to the criteria against which the subject matter was evaluated.* However, if conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should ordinarily express his or her conclusion directly on the subject matter,¹⁴ not on the assertion.

.67 The practitioner should consider the concept of materiality in applying this standard. In expressing a conclusion, the practitioner should consider an omission or a misstatement to be material if the omission or misstatement—individually or when aggregated with others—is such that a reasonable person would be influenced by the omission or misstatement. The practitioner should consider both qualitative and quantitative aspects of omissions and misstatements.

.68 The term *general use* applies to attest reports that are not restricted to specified parties. General-use attest reports should be limited to two levels of assurance: one based on a restriction of attestation risk to an appropriately low level (an *examination*) and the other based on a restriction of attestation risk to a moderate level (a *review*). In an engagement to achieve a high level of assurance (an *examination*), the practitioner's conclusion should be expressed in the form of an opinion. When attestation risk has been restricted only to a moderate level (a *review*), the conclusion should be expressed in the form of negative assurance.

.69 A practitioner may report on subject matter or an assertion at multiple dates or covering multiple periods during which criteria have changed (for example, a report on comparative information). In those circumstances, the practitioner should determine whether the criteria are clearly stated or described for each of the dates or periods, and whether the changes have been adequately disclosed.

¹³ The use of a "hot link" within the practitioner's report to management's assertion, such as might be used in a WebTrustSM report, would meet this requirement.

¹⁴ Specific standards may require that the practitioner express his or her conclusion directly on the subject matter. For example, if management states in its assertion that a material weakness exists in the entity's internal control over financial reporting, the practitioner should state his or her opinion directly on the effectiveness of internal control, not on management's assertion related thereto.

.70 If the criteria used for the subject matter for the current date or period differ from those criteria used for the subject matter for a preceding date or period and the subject matter for the prior date or period is not presented, the practitioner should consider whether the changes in criteria are likely to be significant to users of the report. If so, the practitioner should determine whether the criteria are clearly stated or described and the fact that the criteria have changed is disclosed. (See paragraphs .76 and .77.)

.71 The third standard of reporting is—*The report shall state all of the practitioner's significant reservations about the engagement, the subject matter, and, if applicable, the assertion related thereto.*

.72 *Reservations about the engagement* refers to any unresolved problem that the practitioner had in complying with these attestation standards, interpretive standards, or the specific procedures agreed to by the specified parties. The practitioner should not express an unqualified conclusion unless the engagement has been conducted in accordance with the attestation standards. Such standards will not have been complied with if the practitioner has been unable to apply all the procedures that he or she considers necessary in the circumstances.

.73 Restrictions on the scope of an engagement, whether imposed by the client or by such other circumstances as the timing of the work or the inability to obtain sufficient evidence, may require the practitioner to qualify the assurance provided, to disclaim any assurance, or to withdraw from the engagement. For example, if the practitioner's client is the responsible party, a failure to obtain a written assertion should result in the practitioner concluding that a scope limitation exists. (See paragraph .58.)

.74 The practitioner's decision to provide a qualified opinion, to disclaim an opinion, or to withdraw because of a scope limitation in an examination engagement depends on an assessment of the effect of the omitted procedure(s) on his or her ability to express assurance. This assessment will be affected by the nature and magnitude of the potential effects of the matters in question, and by their significance to the subject matter or the assertion. If the potential effects are pervasive to the subject matter or the assertion, a disclaimer or withdrawal is more likely to be appropriate. When restrictions that significantly limit the scope of the engagement are imposed by the client or the responsible party, the practitioner generally should disclaim an opinion or withdraw from the engagement. The reasons for a qualification or disclaimer should be described in the practitioner's report.

.75 In a review engagement, when the practitioner is unable to perform the inquiry and analytical or other procedures he or she considers necessary to achieve the limited assurance contemplated by a review, or when the client is the responsible party and does not provide the practitioner with a written assertion, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report and, accordingly, the practitioner should withdraw from the engagement.

.76 *Reservations about the subject matter or the assertion* refers to any unresolved reservation about the assertion or about the conformity of the subject matter with the criteria, including the adequacy of the disclosure of material matters. They can result in either a qualified or an adverse opinion, depending on the materiality of the departure from the criteria against which the subject matter or the assertion was evaluated, or a modified conclusion in a review engagement.

.77 Reservations about the subject matter or the assertion may relate to the measurement, form, arrangement, content, or underlying judgments and assumptions applicable to the subject matter or the assertion and its appended notes, including, for example, the terminology used, the amount of detail given, the classification of items, and the bases of amounts set forth. The practitioner considers whether a particular reservation should affect the report given the circumstances and facts of which he or she is aware at the time.

.78 The fourth standard of reporting is—*The report shall state that the use of the report is restricted to specified parties under the following circumstances:*

- *When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria*
- *When the criteria used to evaluate the subject matter are available only to specified parties*
- *When reporting on subject matter and a written assertion has not been provided by the responsible party*
- *When the report is on an attest engagement to apply agreed-upon procedures to the subject matter*

.79 The need for restriction on the use of a report may result from a number of circumstances, including the purpose of the report, the criteria used in preparation of the subject matter, the extent to which the procedures performed are known or understood, and the potential for the report to be misunderstood when taken out of the context in which it was intended to be used. A practitioner should consider informing his or her client that restricted-use reports are not intended for distribution to nonspecified parties, regardless of whether they are included in a document containing a separate general-use report.^{15,16} However, a practitioner is not responsible for controlling a client's distribution of restricted-use reports. Accordingly, a restricted-use report should alert readers to the restriction on the use of the report by indicating that the report is not intended to be and should not be used by anyone other than the specified parties.

.80 An attest report that is restricted as to use should contain a separate paragraph at the end of the report that includes the following elements:

- a. A statement indicating that the report is intended solely for the information and use of the specified parties
- b. An identification of the specified parties to whom use is restricted
- c. A statement that the report is not intended to be and should not be used by anyone other than the specified parties

¹⁵ In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may require access to restricted-use reports in which they are not named as a specified party.

¹⁶ This section does not preclude the practitioner, in connection with establishing the terms of the engagement, from reaching an understanding with the client that the intended use of the report will be restricted, and from obtaining the client's agreement that the client and the specified parties will not distribute the report to parties other than those identified in the report.

An example of such a paragraph is the following.

This report is intended solely for the information and use of [*the specified parties*] and is not intended to be and should not be used by anyone other than these specified parties.

.81 Other attestation standards may specify situations that require restricted reports such as the following:

- a. A review report on management's discussion and analysis
- b. A report on prospective financial information when the report is intended for use by the responsible party alone, or by the responsible party and third parties with whom the responsible party is negotiating directly, as described in section 301, *Financial Forecasts and Projections*, paragraph .10.

Furthermore, nothing in this section precludes a practitioner from restricting the use of any report.

.82 If a practitioner issues a single combined report covering both (a) subject matter or presentations that require a restriction on use to specified parties and (b) subject matter or presentations that ordinarily do not require such a restriction, the use of such a single combined report should be restricted to the specified parties.

.83 In some instances, a separate restricted-use report may be included in a document that also contains a general-use report. The inclusion of a separate restricted-use report in a document that contains a general-use report does not affect the intended use of either report. The restricted-use report remains restricted as to use, and the general-use report continues to be for general use.

Examination Reports

.84 When expressing an opinion, the practitioner should clearly state whether, in his or her opinion, (a) the subject matter is based on (or in conformity with) the criteria in all material respects or (b) the assertion is presented (or fairly stated), in all material respects, based on the criteria. Reports expressing an opinion may be qualified or modified for some aspect of the subject matter, the assertion or the engagement (see the third reporting standard). However, as stated in paragraph .66, if conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should ordinarily express his or her conclusion directly on the subject matter, not on the assertion. In addition, such reports may emphasize certain matters relating to the attest engagement, the subject matter, or the assertion. The form of the practitioner's report will depend on whether the practitioner opines on the subject matter or the assertion.

.85 The practitioner's examination report on subject matter should include the following:

- a. A title that includes the word *independent*
- b. An identification of the subject matter and the responsible party
- c. A statement that the subject matter is the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the subject matter based on his or her examination

- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and, accordingly, included procedures that the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion on whether the subject matter is based on (or in conformity with) the criteria in all material respects
- h. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - (3) When a written assertion has not been provided by the responsible party (The practitioner should also include a statement to that effect in the introductory paragraph of the report.)
- i. The manual or printed signature of the practitioner's firm
- j. The date of the examination report

Appendix A [paragraph .114], "Examination Reports," includes a standard examination report on subject matter. (See Example 1.)

.86 The practitioner's examination report on an assertion should include the following:

- a. A title that includes the word *independent*
- b. An identification of the assertion and the responsible party (When the assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the assertion.)
- c. A statement that the assertion is the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the assertion based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and, accordingly, included procedures that the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion on whether the assertion is presented (or fairly stated), in all material respects, based on the criteria (However, see paragraph .66.)
- h. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):

- (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
- (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - i. The manual or printed signature of the practitioner's firm
 - j. The date of the examination report

Appendix A [paragraph .114] includes a standard examination report on an assertion. (See Example 2.)

.87 Nothing precludes the practitioner from examining an assertion but opining directly on the subject matter. (See Appendix A [paragraph .114], Example 3.)

Review Reports

.88 In a review report, the practitioner's conclusion should state whether any information came to the practitioner's attention on the basis of the work performed that indicates that (a) the subject matter is not based on (or in conformity with) the criteria or (b) the assertion is not presented (or fairly stated) in all material respects based on the criteria. (As discussed more fully in the commentary to the third reporting standard, if the subject matter or the assertion is not modified to correct for any such information that comes to the practitioner's attention, such information should be described in the practitioner's report.)

.89 The practitioner's review report on subject matter should include the following:

- a. A title that includes the word *independent*
- b. An identification of the subject matter and the responsible party
- c. A statement that the subject matter is the responsibility of the responsible party
- d. A statement that the review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- e. A statement that a review is substantially less in scope than an examination, the objective of which is an expression of opinion on the subject matter, and accordingly, no such opinion is expressed
- f. A statement about whether the practitioner is aware of any material modifications that should be made to the subject matter in order for it to be based on (or in conformity with), in all material respects, the criteria, other than those modifications, if any, indicated in his or her report
- g. A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria

- (2) When the criteria used to evaluate the subject matter are available only to the specified parties
 - (3) When a written assertion has not been provided by the responsible party and the responsible party is not the client (The practitioner should also include a statement to that effect in the introductory paragraph of the report.)
- h.* The manual or printed signature of the practitioner's firm
 - i.* The date of the review report

Appendix B [paragraph .115] "Review Reports," includes a standard review report on subject matter. (See Example 1.) Appendix B [paragraph .115] also includes a review report on subject matter that is the responsibility of a party other than client; the report is restricted as to use because a written assertion has not been provided by the responsible party. (See Example 2.)

.90 The practitioner's review report on an assertion should include the following:

- a.* A title that includes the word *independent*
- b.* An identification of the assertion and the responsible party (When the assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the assertion.)
- c.* A statement that the assertion is the responsibility of the responsible party
- d.* A statement that the review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- e.* A statement that a review is substantially less in scope than an examination, the objective of which is an expression of opinion on the assertion, and accordingly, no such opinion is expressed
- f.* A statement about whether the practitioner is aware of any material modifications that should be made to the assertion in order for it to be presented (or fairly stated), in all material respects, based on (or in conformity with) the criteria, other than those modifications, if any, indicated in his or her report (However, see paragraph .66.)
- g.* A statement restricting the use of the report to specified parties under the following circumstances (see paragraphs .78 to .83):
 - (1) When the criteria used to evaluate the subject matter are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - (2) When the criteria used to evaluate the subject matter are available only to the specified parties
- h.* The manual or printed signature of the practitioner's firm
- i.* The date of the review report

Appendix B [paragraph .115] includes a review report on an assertion that is restricted as to use because the criteria are available only to the specified parties. (See Example 3.)

Other Information in a Client-Prepared Document Containing the Practitioner's Attest Report¹⁷

.91 A client may publish various documents that contain information (hereinafter referred to as *other information*) in addition to the practitioner's attest report on subject matter (or on an assertion related thereto). Paragraphs .92 to .94 provide guidance to the practitioner when the other information is contained in (a) annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the Securities Exchange Act of 1934 or (b) other documents to which the practitioner, at the client's request, devotes attention. These paragraphs are not applicable when an attest report appears in a registration statement filed under the Securities Act of 1933. (See AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, and AU section 711, *Filings Under Federal Securities Statutes*.) Also, these paragraphs are not applicable to other information on which the practitioner or another practitioner is engaged to issue an opinion.

.92 The practitioner's responsibility with respect to other information in such a document does not extend beyond the information identified in his or her report, and the practitioner has no obligation to perform any procedures to corroborate any other information contained in the document. However, the practitioner should read the other information not covered by the practitioner's report or by the report of the other practitioner and consider whether it, or the manner of its presentation, is materially inconsistent with the information appearing in the practitioner's report. If the practitioner believes that the other information is inconsistent with the information appearing in the practitioner's report, he or she should consider whether the practitioner's report requires revision. If the practitioner concludes that the report does not require revision, he or she should request the client to revise the other information. If the other information is not revised to eliminate the material inconsistency, the practitioner should consider other actions, such as revising his or her report to include an explanatory paragraph describing the material inconsistency, withholding the use of his or her report in the document, or withdrawing from the engagement.

.93 If, while reading the other information for the reasons set forth in paragraph .92, the practitioner becomes aware of information that he or she believes is a material misstatement of fact that is not a material inconsistency as described in paragraph .92, he or she should discuss the matter with the client. In connection with this discussion, the practitioner should consider that he or she may not have the expertise to assess the validity of the statement, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the practitioner concludes he or she has a valid basis for concern, the practitioner should propose that the client consult with some other party whose advice may be useful, such as the entity's legal counsel.

¹⁷ Such guidance pertains only to other information in a client-prepared document. The practitioner has no responsibility to read information contained in documents of nonclients. Further, the practitioner is not required to read information contained in electronic sites, or to consider the consistency of other information in electronic sites with the original documents since electronic sites are a means of distributing information and are not "documents" as that term is used in this section. Practitioners may be asked by their clients to render attest services with respect to information in electronic sites, in which case, other attest standards may apply to those services.

.94 If, after discussing the matter, the practitioner concludes that a material misstatement of fact remains, the action taken will depend on his or her judgment in the circumstances. The practitioner should consider steps such as notifying the client's management and audit committee in writing of his or her views concerning the information and consulting his or her legal counsel about further action appropriate in the circumstances.¹⁸

Consideration of Subsequent Events in an Attest Engagement

.95 Events or transactions sometimes occur subsequent to the point in time or period of time of the subject matter being tested but prior to the date of the practitioner's report that have a material effect on the subject matter and therefore require adjustment or disclosure in the presentation of the subject matter or assertion. These occurrences are referred to as *subsequent events*. In performing an attest engagement, a practitioner should consider information about subsequent events that comes to his or her attention. Two types of subsequent events require consideration by the practitioner.

.96 The first type consists of events that provide additional information with respect to conditions that existed at the point in time or during the period of time of the subject matter being tested. This information should be used by the practitioner in considering whether the subject matter is presented in conformity with the criteria and may affect the presentation of the subject matter, the assertion, or the practitioner's report.

.97 The second type consists of those events that provide information with respect to conditions that arose subsequent to the point in time or period of time of the subject matter being tested that are of such a nature and significance that their disclosure is necessary to keep the subject matter from being misleading. This type of information will not normally affect the practitioner's report if the information is appropriately disclosed.

.98 While the practitioner has no responsibility to detect subsequent events, the practitioner should inquire of the responsible party (and his or her client if the client is not the responsible party) as to whether they are aware of any subsequent events, through the date of the practitioner's report, that would have a material effect on the subject matter or assertion.¹⁹ If the practitioner has decided to obtain a representation letter, the letter ordinarily would include a representation concerning subsequent events. (See paragraphs .60 and .61.)

.99 The practitioner has no responsibility to keep informed of events subsequent to the date of his or her report; however, the practitioner may later

¹⁸ If the client does not have an audit committee, the practitioner should communicate with individuals whose authority and responsibility are equivalent to those of an audit committee, such as the board of directors, the board of trustees, an owner in a owner-managed entity, or those who engaged the practitioner.

¹⁹ For certain subject matter, specific subsequent event standards have been developed to provide additional requirements for engagement performance and reporting. Additionally, a practitioner engaged to examine the design or effectiveness of internal control over items not covered by section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*, or section 601, *Compliance Attestation*, should consider the subsequent events guidance set forth in sections 501.65–.68 and 601.50–.52.

become aware of conditions that existed at that date that might have affected the practitioner's report had he or she been aware of them. In such circumstances, the practitioner may wish to consider the guidance in AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

Attest Documentation²⁰

.100 The practitioner should prepare and maintain attest documentation, the form and content of which should be designed to meet the circumstances of the particular attest engagement.^[21] Attest documentation is the principal record of attest procedures applied, information obtained, and conclusions or findings reached by the practitioner in the engagement. The quantity, type, and content of attest documentation are matters of the practitioner's professional judgment. [As amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.101 Attest documentation serves mainly to:

- a. Provide the principal support for the practitioner's report, including the representation regarding observance of the standards of fieldwork, which is implicit in the reference in the report to attestation standards.²²
- b. Aid the practitioner in the conduct and supervision of the attest engagement.

For examinations of prospective financial statements, attest documentation ordinarily should indicate that the process by which the entity develops its prospective financial statements was considered in determining the scope of the examination. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.102 Examples of attest documentation are work programs, analyses, memoranda, letters of confirmation and representation, abstracts or copies of entity documents, and schedules or commentaries prepared or obtained by the practitioner. Attest documentation may be in paper form, electronic form, or other media. [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.103 Attest documentation should be sufficient to (a) enable members of the engagement team with supervision and review responsibilities to understand the nature, timing, extent, and results of attest procedures performed,

²⁰ *Attest documentation* also may be referred to as *working papers*. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

^[21] [Footnote renumbered and deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

²² However, there is no intention to imply that the practitioner would be precluded from supporting his or her report by other means in addition to attest documentation. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

and the information obtained²³ and (b) indicate the engagement team member(s) who performed and reviewed the work. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.104 Attest documentation is the property of the practitioner, and some states recognize this right of ownership in their statutes. The practitioner should adopt reasonable procedures to retain attest documentation for a period of time sufficient to meet the needs of his or her practice and to satisfy any applicable legal or regulatory requirements for records retention.^{24, [25]} [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.105 The practitioner has an ethical, and in some situations a legal, obligation to maintain the confidentiality of client information or information of the responsible party.²⁶ Because attest documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information.[†] [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.106 The practitioner also should adopt reasonable procedures to prevent unauthorized access to attest documentation. [Paragraph added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

.107 Certain attest documentation may sometimes serve as a useful reference source for the client, but it should not be regarded as a part of, or a substitute for, the client's records. [Paragraph renumbered and amended, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

²³ A firm of practitioners has a responsibility to adopt a system of quality control policies and procedures to provide the firm with reasonable assurance that its personnel comply with applicable professional standards, including attestation standards, and the firm's standards of quality in conducting individual attest engagements. Review of attest documentation and discussions with engagement team members are among the procedures a firm performs when monitoring compliance with the quality control policies and procedures that it has established. (Also, see paragraphs .17 and .18.) [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

²⁴ The procedures should enable the practitioner to access electronic attest documentation throughout the retention period. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

[²⁵] [Footnote renumbered and deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

²⁶ Also, see Rule 301, *Confidential Client Information*, of the AICPA's Code of Professional Conduct. [Footnote added, effective for attest engagements when the subject matter or assertion is as of or for a period ending on or after December 15, 2002, by Statement on Standards for Attestation Engagements No. 11.]

[†] **Note:** See the Attest Interpretation, "Providing Access to or Copies of Attest Documentation to a Regulator" (section 9101.43-.46).

[.108] [Paragraph renumbered and deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Attest Services Related to Consulting Service Engagements

Attest Services as Part of a Consulting Service Engagement

.109 When a practitioner provides an attest service (as defined in this section) as part of a consulting service engagement, this SSAE applies only to the attest service. The SSCS applies to the balance of the consulting service engagement. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

.110 When the practitioner determines that an attest service is to be provided as part of a consulting service engagement, the practitioner should inform the client of the relevant differences between the two types of services and obtain concurrence that the attest service is to be performed in accordance with the appropriate professional requirements. The practitioner should take such actions because the professional requirements for an attest service differ from those for a consulting service engagement. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

.111 The practitioner should issue separate reports on the attest engagement and the consulting service engagement and, if presented in a common binder, the report on the attest engagement or service should be clearly identified and segregated from the report on the consulting service engagement. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Subject Matter, Assertions, Criteria, and Evidence

.112 An attest service may involve subject matter, an assertion, criteria, or evidential matter developed during a concurrent or prior consulting service engagement. Subject matter or an assertion developed with the practitioner's advice and assistance as the result of such consulting services engagement may be the subject of an attest engagement, provided the responsible party accepts and acknowledges responsibility for the subject matter or assertion. (See paragraph .12.) Criteria developed with the practitioner's assistance may be used to evaluate subject matter in an attest engagement, provided such criteria meet the requirements of this section. Relevant information obtained in the course of a concurrent or prior consulting service engagement may be used as evidential matter in an attest engagement, provided the information satisfies the requirements of this section. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Effective Date

.113 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted. [Paragraph renumbered by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

.114

Appendix A

Examination Reports

Example 1

This is a standard examination report on subject matter for general use. This report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties; see Example 4 for an illustration of such a report.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 2

This report is a standard examination report on an assertion for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, management's assertion referred to above is fairly stated, in all material respects, based on *[identify established or stated criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 3

This is an examination report for general use; the introductory paragraph states the practitioner has examined management's assertion but the practitioner opines directly on the subject matter (see paragraph .87). The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with the ABC criteria set forth in Note 1]*. XYZ Company's management is responsible for the assertion. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, the schedule referred to above, presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on *[identify criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 4

This is an examination report on subject matter. Although suitable criteria exist, use of the report is restricted because the criteria are available only to specified parties. (See paragraph .34.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

In our opinion, the schedule referred to above, presents, in all material respects, *[identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* based on the ABC criteria referred to in the investment management agreement between XYZ Company and DEF Investment Managers, Ltd., dated November 15, 20X1.

This report is intended solely for the information and use of XYZ Company and *[identify other specified parties—for example, DEF Investment Managers, Ltd.]* and is not intended to be and should not be used by anyone other than these specified parties.

Example 5

This is an examination report with a qualified opinion because conditions exist that, individually or in combination, result in one or more material misstatements or deviations from the criteria; the report is for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have examined the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter—for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

Our examination disclosed the following *[describe condition(s) that, individually or in the aggregate, resulted in a material misstatement or deviation from the criteria]*.

In our opinion, except for the material misstatement [*or deviation from the criteria*] described in the preceding paragraph, the schedule referred to above, presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

[Signature]

[Date]

Example 6

This is an examination report that contains a disclaimer of opinion because of a scope restriction. (See paragraph .74 for reporting guidance when there is a scope restriction.) The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter.

Independent Accountant's Report

We were engaged to examine the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX. XYZ Company's management is responsible for the schedule of investment returns.

[*Scope paragraph should be omitted.*]

[*Include paragraph to describe scope restrictions.*]

Because of the restriction on the scope of our examination discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether the schedule referred to above presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

Example 7

This is an examination report on subject matter that is the responsibility of a party other than the client. The report is restricted as to use since a written assertion has not been provided by the responsible party. (See paragraph .78.) The subject matter pertains to criteria that are suitable and are available to the client.

Independent Accountant's Report

To the Board of Directors

DEF Company:

We have examined the [*identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX*]. XYZ Company's management is responsible for the schedule of investment returns. XYZ management did not provide us a written assertion about their schedule of investment returns for the year ended December 31, 20XX. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting [*identify the subject matter—for example, XYZ Company's schedule of investment returns*] and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the schedule referred to above presents, in all material respects, [*identify the subject matter—for example, the investment returns of XYZ Company for the year ended December 31, 20XX*] based on [*identify criteria—for example, the ABC criteria set forth in Note 1*].

This report is intended solely for the information and use of the management and board of directors of DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

Appendix B

Review Reports

Example 1

This is a standard review report on subject matter for general use. The report pertains to subject matter for which suitable criteria exist and are available to all users through inclusion in a clear manner in the presentation of the subject matter. (See paragraphs .78 to .83 for guidance on restricting the use of the report when criteria are available only to specified parties.) A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have reviewed the *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on *[identify the subject matter—for example, XYZ Company's schedule of investment returns]*. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that the *[identify the subject matter—for example, schedule of investment returns of XYZ Company for the year ended December 31, 20XX]* is not presented, in all material respects, in conformity with *[identify the criteria—for example, the ABC criteria set forth in Note 1]*.

[Signature]

[Date]

Example 2

This is a review report on subject matter that is the responsibility of a party other than the client. This review report is restricted as to use since a written assertion has not been provided by the responsible party. (See paragraph .78.) The subject matter pertains to criteria that are suitable and are available to the client.

Independent Accountant's Report

To the Board of Directors

DEF Company:

We have reviewed *[identify the subject matter—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns. XYZ Company's management did not provide us a written assertion about their schedule of investment returns for the year ended December 31, 20XX.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on *[identify the subject matter—for example, XYZ Company's schedule of investment returns]*. Accordingly, we do not express such an opinion. *[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]*

Based on our review, nothing came to our attention that caused us to believe that *[identify the subject matter—for example, the schedule of investment returns of XYZ Company for the year ended December 31, 20XX]* is not presented, in all material respects, in conformity with *[identify the criteria—for example, the ABC criteria set forth in Note 1]*.

This report is intended solely for the information and use of the management and board of directors of DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Example 3

This is a review report on an assertion. Although suitable criteria exist for the subject matter, the report is restricted as to use since the criteria are available only to specified parties; if the criteria are available as described in paragraph .33 (a) to (d), the paragraph restricting the use of the report would be omitted. A written assertion has been obtained from the responsible party.

Independent Accountant's Report

We have reviewed management's assertion that *[identify the assertion—for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX is presented in accordance with the ABC criteria referred to in Note 1]*. XYZ Company's management is responsible for the assertion.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assertion. Accordingly, we do not express such an opinion.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the assertion.]

Based on our review, nothing came to our attention that caused us to believe that management's assertion referred to above is not fairly stated, in all material respects, based on *[identify the criteria—for example, the ABC criteria referred to in the investment management agreement between XYZ Company and DEF Investment Managers, Ltd., dated November 15, 20X1]*.

This report is intended solely for the information and use of XYZ Company and *[identify other specified parties—for example, DEF Investment Managers, Ltd.]* and is not intended to be and should not be used by anyone other than these specified parties.

AT Section 9101

Attest Engagements: Attest Engagements Interpretations of Section 101

1. Defense Industry Questionnaire on Business Ethics and Conduct¹

.01 Question—Certain defense contractors have made a commitment to adopt and implement six principles of business ethics and conduct contained in the *Defense Industry Initiatives on Business Ethics and Conduct (Initiatives)*. One of those principles concerns defense contractors' public accountability for their commitment to the Initiatives. That public accountability begins by the contractor completing an annual *Public Accountability Questionnaire (Questionnaire)*.

.02 Each of the participating signatory companies (signatories) completes a questionnaire concerning certain policies, procedures and programs which were to have been in place during the reporting period. The public accountability process requires signatories to perform internal audits and to provide officer certifications as to whether the responses to the *Questionnaire* are current and accurate.

.03 Alternatively, a defense contractor may request its independent public accountant (practitioner) to examine or review its responses to the *Questionnaire* for the purpose of expressing a conclusion about the appropriateness of those responses in a report. Would such an engagement be an attest engagement under section 101, *Attest Engagements*?

.04 Interpretation—Section 101 states that the attestation standards apply when a certified public accountant in the practice of public accounting is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter that is the responsibility of another party. When a practitioner is engaged by a defense contractor to provide an examination or a review report on the contractor's written responses to the questionnaire, such an engagement involves subject matter that is the responsibility of the defense contractor. Consequently, section 101 applies to such engagements.

.05 Question—Section 101.23 specifies that "the practitioner shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users." What are the criteria against which such subject matter is to be evaluated and are such criteria suitable and available?

.06 Interpretation—The criteria for evaluating the defense contractor's responses are set forth primarily in the *Questionnaire* and the instructions thereto. The suitability of those criteria should be evaluated by assessing whether the criteria meet the characteristics discussed in section 101.24.

¹ Information regarding the Defense Industry Initiative on Business Ethics and Conduct (DII) is available at DII's website <http://www.dii.org>.

.07 The criteria set forth in the *Questionnaire* and its instructions will, when properly followed, be suitable. Although these should provide suitable criteria, the *Questionnaire* and its instructions are not generally available. Therefore, the practitioner's report should normally be restricted. The availability requirement can be met if the defense contractor attaches the criteria to the presentation.

.08 Question—What is the nature of the procedures that should be applied to the *Questionnaire* responses?

.09 Interpretation—The objective of the procedures performed in either an examination or a review engagement is to obtain evidential matter that the defense contractor has designed and placed in operation policies and programs in a manner that supports the signatory's responses to each of the questions on the *Questionnaire* and that the policies and programs operated during the period covered by the *Questionnaire*. The objective does not include providing assurance about whether the defense contractor's policies and programs operated effectively to ensure compliance with the defense contractor's code of business ethics and conduct on the part of individual employees or about whether the defense contractor and its employees have complied with federal procurement laws. In an examination, the evidential matter should be sufficient to limit attestation risk to a level that is appropriately low for the high degree of assurance imparted by an examination report. In a review, this evidential matter should be sufficient to limit attestation risk to a moderate level.

.10 Examination procedures include obtaining evidential matter by reading relevant policies and programs, making inquiries of appropriate defense contractor personnel, inspecting documents and records, confirming defense contractor assertions with its employees or others, and observing activities. In an examination it will be necessary for a practitioner's procedures to go beyond simply reading relevant policies and programs and making inquiries of appropriate defense contractor personnel. Alternatively, review procedures are generally limited to reading relevant policies and procedures and making inquiries of appropriate defense contractor personnel. When applying examination or review procedures, the practitioner should assess the appropriateness (including the comprehensiveness) of the policies and programs supporting the signatory's responses to each of the questions on the *Questionnaire*.

.11 A particular defense contractor's policies and programs may vary from those of other defense contractors. As a result, evidential matter obtained from the procedures performed cannot be evaluated solely on a quantitative basis. Consequently, it is not practicable to establish only quantitative guidelines for determining the nature or extent of the evidential matter that is necessary to provide the assurance required in either an examination or a review. The qualitative aspects should also be considered.

.12 In determining the nature, timing, and extent of examination or review procedures, the practitioner should consider information obtained in the performance of other services for the defense contractor, for example, the audit of the defense contractor's financial statements. For multi-location defense contractors, whether policies and programs operated during the period should be evaluated for both the defense contractor's headquarters and for selected defense contracting locations. The practitioner may consider using the work of the defense contractor's internal auditors. The guidance in AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, may be useful in that consideration.

.13 Examination procedures, and in some instances review procedures, may require access to information involving specific instances of actual or alleged noncompliance with laws. An inability to obtain access to such information because of restrictions imposed by a defense contractor (for example, to protect attorney-client privilege) may constitute a scope limitation. Section 101.73 through .75 provides guidance in such situations. The practitioner should assess the effect of the inability to obtain access to such information on his or her ability to form a conclusion about whether the related policy or program operated during the period. If the defense contractor's reasons for not permitting access to the information are reasonable (for example, the information is the subject of litigation or a governmental investigation) and have been approved by an executive officer of the defense contractor, the occurrences of restricted access to information are few in number, and the practitioner has access to other information about that specific instance or about other instances that is sufficient to permit a conclusion to be formed about whether the related policy or program operated during the period, the practitioner ordinarily would conclude that it is not necessary to disclaim assurance.

.14 If the practitioner's scope of work has been restricted with respect to one or more questions, the practitioner should consider the implications of that restriction on the practitioner's ability to form a conclusion about other questions. In addition, as the nature or number of questions on which the defense contractor has imposed scope limitations increases in significance, the practitioner should consider whether to withdraw from the engagement.

.15 *Question*—What is the form of report that should be issued to meet the requirements of section 101?

.16 *Interpretation*—The standards of reporting in section 101 provide guidance about report content and wording and the circumstances that may require report modification. Appendix A and Appendix B [paragraphs .21 and .22] provide illustrative reports appropriate for various circumstances. Section 101.66 permits the practitioner to report directly on the subject matter or on management's assertion. In either case, the practitioner should ordinarily obtain a written assertion. An illustrative defense contractor assertion is also presented in Appendix A and Appendix B [paragraphs .21 and .22].

.17 The engagements addressed in this Interpretation do not include providing assurance about whether the defense contractor's policies and programs operated effectively to ensure compliance with the defense contractor's code of business ethics and conduct on the part of individual employees or about whether the defense contractor and its employees have complied with federal procurement laws. The practitioner's report should explicitly disclaim an opinion on the extent of such compliance.

.18 Because variations in individual performance and interpretation will affect the operation of the defense contractor's policies and programs during the period, adherence to all such policies and programs in every case may not be possible. In determining whether a reservation about a response in the *Questionnaire* is sufficiently significant to result in an opinion modified for an exception to that response, the practitioner should consider the nature, causes, patterns, and pervasiveness of the instances in which the policies and programs did not operate as designed and their implications for that response in the *Questionnaire*.

.19 When scope limitations have precluded the practitioner from forming an opinion on the responses to one or more questions, the practitioner's report should describe all such scope restrictions. If the defense contractor imposed

such a scope limitation after the practitioner had begun performing procedures, that fact should be stated in the report.

.20 A defense contractor may request the practitioner to communicate to management, the board of directors, or one of its committees, either orally or in writing, conditions noted that do not constitute significant reservations about the answers to the *Questionnaire* but that might nevertheless be of value to management. Agreed-upon arrangements between the practitioner and the defense contractor to communicate conditions noted may include, for example, the reporting of matters of less significance than those contemplated by the criteria, the existence of conditions specified by the defense contractor, the results of further investigation of matters noted to identify underlying causes, or suggestions for improvements in various policies or programs. Under these arrangements, the practitioner may be requested to visit specific locations, assess the effectiveness of specific policies or programs, or undertake specific procedures not otherwise planned. In addition, the practitioner is not precluded from communicating matters believed to be of value, even if no specific request has been made.

.21

Instructions and Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have examined the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*, and the Questionnaire and responses attached thereto. XYZ Company's management is responsible for its responses to the Questionnaire. Our responsibility is to express an opinion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence as to whether XYZ Company had policies and programs in operation during that period that support the affirmative responses to the *Questionnaire* and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination procedures were not designed, however, to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws, and we do not express an opinion or any other form of assurance thereon.

In our opinion, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Illustration 2: Unqualified Opinion; Report Modified for Negative Responses to Defense Contractor Assertion; Use of the Report is Restricted Because Criteria Are Available Only to Specified Parties

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Negative responses indicate that the Company did not have policies and programs in operation during that period with respect to those areas.

Attachments: None

(The responses could include an explanation of negative responses if the defense contractor so desired.)

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have examined the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*. XYZ Company's management is responsible for its responses to the Questionnaire. Our responsibility is to express an opinion based on our examination.

[Standard Scope Paragraph]

In our opinion, the affirmative responses in the Questionnaire referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. The negative responses to Questions _____ and _____ in the Questionnaire indicate that the Company did not have policies and programs in operation during the period with respect to those areas.

This report is intended solely for the information and use of the XYZ Company and [identify other specified parties—for example, the Defense Industry Initiative] and is not intended to be and should not be used by anyone other than these specified parties.

Illustration 3: Opinion Modified for Exception on Certain Response

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____*, are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Attachments:

Defense Industry Initiatives on Business Ethics and Conduct

Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination ReportIndependent Accountant's Report

To the Board of Directors of the XYZ Company

[*Standard Introductory and Scope Paragraphs*]

Management believes that an appropriate mechanism exists for informing employees of the results of any follow-up into their charges of violations of the Company's Code of Business Ethics and Conduct, and has accordingly answered Question 12 in the affirmative. That mechanism consists principally of distributing newspaper articles and press releases of violations of federal procurement laws that have been voluntarily reported to the appropriate governmental agencies. We do not believe that such a mechanism is sufficient, inasmuch as it does not provide follow-up information on violations reported by employees that are not deemed reportable to a governmental agency. Consequently, in our opinion, the affirmative response to Question 12 in the Questionnaire is not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

In our opinion, except for the response to Question 12 as discussed in the preceding paragraph, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Illustration 4: Opinion Modified for Exception on a Certain Response; Report also Modified for Negative Responses

Defense Contractor Assertion

Statement of Responses to the *Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Negative responses indicate that the Company did not have policies and programs in operation during that period with respect to those areas.

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

[*Standard Introductory and Scope Paragraphs*]

Management believes that an appropriate mechanism exists for letting employees know of the results of any follow-up into their charges of violations of the Company's Code of Business Ethics and Conduct, and has accordingly answered Question 12 in the affirmative. That mechanism consists principally of distributing newspaper articles and press releases of violations of federal procurement laws that have been voluntarily reported to the appropriate governmental agencies. We do not believe that such a mechanism is sufficient, inasmuch as it does not provide follow-up information on violations reported by employees that are not deemed reportable to a governmental agency. Consequently, in our opinion, the affirmative response to Question 12 in the Questionnaire is not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

In our opinion, except for the response to Question 12 as discussed in the preceding paragraph, the affirmative responses in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. The negative responses to Questions _____ and _____ in the Questionnaire indicate that the Company did not have policies and programs in operation during the period with respect to those areas.

Illustration 5: Opinion Disclaimed on Certain Responses Because of Scope Restrictions Imposed by Client

Defense Contractor Assertion

Statement of Responses to the Defense Industry Questionnaire on *Business Ethics and Conduct for the period from _____ to _____*.

The affirmative responses in the accompanying *Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____* are based on policies and programs in operation for that period and are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

Attachments:

Defense Industry Initiatives on Business Ethics and Conduct

Questionnaire on Business Ethics and Conduct with Responses by the XYZ Company for the period from _____ to _____.

Examination Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

[*Standard Introductory Paragraph*]

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence as to whether XYZ Company had policies and programs in operation during that period that support the affirmative responses to the *Questionnaire*. We believe that our examination provides a reasonable basis for our opinion. Our examination procedures were not designed, however, to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws, and we do not express an opinion or any other form of assurance thereon.

We were not permitted to read relevant documents and files or interview appropriate employees to determine that the affirmative answers to Questions 6, 7, and 8 are appropriate. The nature of those questions precluded us from satisfying ourselves as to the appropriateness of those answers by means of other examination procedures.

In our opinion, the affirmative responses to Questions 1 through 5 and 9 through 17 in the Questionnaire accompanying the *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____* referred to above are appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire. Because of the matters discussed in the preceding paragraph, the scope of our work was not sufficient to express, and we do not express, an opinion on the appropriateness of the affirmative responses to Questions 6, 7, and 8 in the Questionnaire.

Review Report

Independent Accountant's Report

To the Board of Directors of the XYZ Company

We have reviewed the XYZ Company's *Statement of Responses to the Defense Industry Questionnaire on Business Ethics and Conduct for the period from _____ to _____*. XYZ Company's management is responsible for the Statement of Responses to the Defense Industry Questionnaire on Business Ethics.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the affirmative responses in the Questionnaire. Accordingly, we do not express such an opinion. Additionally, our review was not designed to evaluate whether the aforementioned policies and programs operated effectively to ensure compliance with the Company's *Code of Business Ethics and Conduct* on the part of individual employees or to evaluate the extent to which the Company or its employees have complied with federal procurement laws and we do not express an opinion or any other form of assurance thereon.

Based on our review, nothing came to our attention that caused us to believe that the affirmative responses in the Questionnaire referred to above are not appropriately presented in conformity with the criteria set forth in the *Defense Industry Initiatives on Business Ethics and Conduct*, including the Questionnaire.

This report is intended solely for the information and use of the XYZ Company and [identify other specified parties—for example, the Defense Industry Initiative] and is not intended to be and should not be used by anyone other than these specified parties.

[Issue Date: August, 1987; Amended: February, 1989;
Modified: May, 1989; Revised: January, 2001.]

2. Responding to Requests for Reports on Matters Relating to Solvency

.23 Question—Lenders, as a requisite to the closing of certain secured financings in connection with leveraged buyouts (LBOs), recapitalizations and certain other financial transactions, have sometimes requested written assurance from an accountant regarding the prospective borrower's solvency and related matters.² The lender is concerned that such financings not be considered to include a fraudulent conveyance or transfer under the Federal Bankruptcy Code³ or the relevant state fraudulent conveyance or transfer statute.⁴ If the financing is subsequently determined to have included a fraudulent conveyance or transfer, repayment obligations and security interests may be set aside or subordinated to the claims of other creditors.

.24 May a practitioner provide assurance concerning "matters relating to solvency" as hereinafter defined?

.25 Interpretation—No. For reasons set forth below, a practitioner should not provide any form of assurance, through examination, review or agreed-upon procedures engagements, that an entity

- Is not insolvent at the time the debt is incurred or would not be rendered insolvent thereby.
- Does not have unreasonably small capital.
- Has the ability to pay its debts as they mature.

In the context of particular transactions other terms are sometimes used or defined by the parties as equivalents of or substitutes for the terms listed above (e.g., fair salable value of assets exceeds liabilities). These terms, and those matters listed above, are hereinafter referred to as "matters relating to solvency." The prohibition extends to providing assurance concerning all such terms.

² While this interpretation describes requests from secured lenders and summarizes the potential effects of fraudulent conveyance or transfer laws upon such lenders, the interpretation is not limited to requests from lenders. All requests for assurance on matters relating to solvency are governed by this interpretation.

³ Section 548 of the Federal Bankruptcy Code defines fraudulent transfers and obligations as follows:

"The trustee may avoid any transfer of an interest of the debtor in property or any obligation incurred by the debtor, that was made or incurred on or within one year before the date of the filing of the petition, if the debtor voluntarily or involuntarily—

"(1) made such transfer or incurred such obligation with actual intent to hinder, delay, or defraud any entity to which the debtor was or became, on or after the date that such transfer occurred or such obligation was incurred, indebted; or

"(2)(A) received less than a reasonably equivalent value in exchange for such transfer or obligation; and

"(2)(B)(i) was insolvent on the date that such transfer was made or such obligation was incurred, or became insolvent as a result of such transfer or obligation;

"(2)(B)(ii) was engaged in business or a transaction, or was about to engage in business or a transaction, for which any property remaining with the debtor was an unreasonably small capital; or

"(2)(B)(iii) intended to incur, or believed that the debtor would incur, debts that would be beyond the debtor's ability to pay as such debts matured." (Bankruptcy Law Reporter, 3 vols. [Chicago: Commerce Clearing House, 1986], vol. 1, 1339).

⁴ State fraudulent conveyance or transfer statutes such as the Uniform Fraudulent Conveyance Act and the Uniform Fraudulent Transfer Act reflect substantially similar provisions. These state laws may be employed absent a declaration of bankruptcy or by a bankruptcy trustee under section 544(1) of the Federal Bankruptcy Code. While the statute of limitations varies from state to state, in some states financing transactions may be vulnerable to challenge for up to six years from closing.

.26 The third general attestation standard states that the practitioner shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users. Suitable criteria must have each of the following attributes:

- Objectivity—Criteria should be free from bias.
- Measurability—Criteria should permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- Completeness—Criteria should be sufficiently complete so those relevant factors that would alter a conclusion about subject matter are not omitted.
- Relevance—Criteria should be relevant to the subject matter.

In addition, the second general attestation standard states that the engagement shall be performed by a practitioner or practitioners having adequate knowledge of the subject matter.

.27 The matters relating to solvency mentioned in paragraph .23 above are subject to legal interpretation under, and varying legal definition in, the Federal Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense, and are therefore subject to varying interpretations, they do not provide the practitioner with suitable criteria required to evaluate the subject matter or an assertion under the third general attestation standard. In addition, lenders are concerned with legal issues on matters relating to solvency and the practitioner is generally unable to evaluate or provide assurance on these matters of legal interpretation. Therefore, practitioners are precluded from giving any form of assurance on matters relating to solvency or any financial presentation of matters relating to solvency.

.28 Under existing AICPA standards, the practitioner may provide a client with various professional services that may be useful to the client in connection with a financing. These services include:

- Audit of historical financial statements.
- Review of historical financial information (a review in accordance with AU section 722, *Interim Financial Information*, of interim financial information or in accordance with AR section 100, *Compilation and Review of Financial Statements*).
- Examination or review of pro forma financial information (section 401, *Reporting on Pro Forma Financial Information*).
- Examination or compilation of prospective financial information (section 301, *Financial Forecasts and Projections*).

.29 In addition, under existing AICPA attestation standards (section 201), the practitioner can provide the client and lender with an agreed-upon procedures report. In such an engagement, a client and lender may request that specified procedures be applied to various financial presentations, such as historical financial information, pro forma financial information and prospective financial information, which can be useful to a client or lender in connection with a financing.

.30 The practitioner should be aware that certain of the services described in paragraph .28 require that the practitioner have an appropriate level of knowledge of the entity's accounting and financial reporting practices and its internal control. This has ordinarily been obtained by the practitioner auditing historical financial statements of the entity for the most recent annual period or by otherwise obtaining an equivalent knowledge base. When considering acceptance of an engagement relating to a financing, the practitioner should consider whether he or she can perform these services without an equivalent knowledge base.

.31 A report on agreed-upon procedures should not provide any assurances on matters relating to solvency or any financial presentation of matters relating to solvency (e.g., fair salable value of assets less liabilities or fair salable value of assets less liabilities, contingent liabilities and other commitments). A practitioner's report on the results of applying agreed-upon procedures should contain the report elements set forth in section 201.31 (or section 301.55 if applying agreed upon procedures to prospective financial information). The practitioner's report on the results of applying agreed-upon procedures should:

- State that the service has been requested in connection with a financing (no reference should be made to any solvency provisions in the financing agreement).
- State that no representations are provided regarding questions of legal interpretation.
- State that no assurance is provided concerning the borrower's (1) solvency, (2) adequacy of capital or (3) ability to pay its debts.
- State that the procedures should not be taken to supplant any additional inquiries and procedures that the lender should undertake in its consideration of the proposed financing.
- Where applicable, state that an audit of recent historical financial statements has previously been performed and that no audit of any historical financial statements for a subsequent period has been performed. In addition, if any services have been performed pursuant to paragraph .28, they may be referred to.

.32 The report ordinarily is dated at or shortly before the closing date. The financing agreement ordinarily specifies the date, often referred to as the cutoff date, to which the report is to relate (for example, a date three business days before the date of the report). The report should state that the inquiries and other procedures carried out in connection with the report did not cover the period from the cutoff date to the date of the report.

.33 The practitioner might consider furnishing the client with a draft of the agreed-upon procedures report. The draft report should deal with all matters expected to be covered in the terms expected to be used in the final report. The draft report should be identified as a draft in order to avoid giving the impression that the procedures described therein have been performed. This practice of furnishing a draft report at an early point permits the practitioner to make clear to the client and lender what they may expect the accountant to furnish and gives them an opportunity to change the financing agreement or the agreed-upon procedures if they so desire.

[Issue Date: May, 1988; Amended: February, 1993; Revised: January, 2001.]

3. Applicability of Attestation Standards to Litigation Services

.34 Question—Section 101, *Attest Engagements*, paragraph .04, provides an example of a litigation service provided by practitioners that would not be considered an attest engagement as defined by section 101. When does section 101 not apply to litigation service engagements?

.35 Interpretation—Section 101 does not apply to litigation services that involve pending or potential formal legal or regulatory proceedings before a "trier of fact"⁵ in connection with the resolution of a dispute between two or more parties in any of the following circumstances when the:

- a. Practitioner has not been engaged to issue and does not issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter that is the responsibility of another party.
- b. Service comprises being an expert witness.
- c. Service comprises being a trier of fact or acting on behalf of one.
- d. Practitioner's work under the rules of the proceedings is subject to detailed analysis and challenge by each party to the dispute.
- e. Practitioner is engaged by an attorney to do work that will be protected by the attorney's work product privilege and such work is not intended to be used for other purposes.

When performing such litigation services, the practitioner should comply with Rule 201, *General Standards*, of the AICPA *Code of Professional Conduct* [ET section 201.01].

.36 Question—When does section 101 apply to litigation service engagements?

.37 Interpretation—Section 101 applies to litigation service engagements only when the practitioner is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter, that is the responsibility of another party.

.38 Question—Section 101.04c provides the following example of litigation service engagements that are not considered attest engagements:

Services performed in accordance with the Statement on Standards for Consulting Services, such as . . . engagements in which a practitioner is engaged to testify as an expert witness in accounting, auditing, taxation, or other matters, given certain stipulated facts.

What does the term "stipulated facts" as used in section 101.04c mean?

.39 Interpretation—The term "stipulated facts" as used in section 101.04c means facts or assumptions that are specified by one or more parties to a dispute

⁵ A "trier of fact" in this section means a court, regulatory body, or government authority; their agents; a grand jury; or an arbitrator or mediator of the dispute.

to serve as the basis for the development of an expert opinion. It is not used in its typical legal sense of facts agreed to by all parties involved in a dispute.

.40 Question—Does Attest Engagements Interpretation No. 2, *Responding to Requests for Reports on Matters Relating to Solvency* (paragraphs .23 through .33), prohibit a practitioner from providing expert testimony, as described in section 101.04c before a "trier of fact" on matters relating to solvency?

.41 Interpretation—No. Matters relating to solvency mentioned in paragraph .25 are subject to legal interpretation under, and varying legal definition in, the Federal Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense, and therefore subject to varying interpretations, they do not provide the practitioner with the suitable criteria required to evaluate the assertion. Thus, Attest Engagements Interpretation No. 2, *Responding to Requests for Reports on Matters Relating to Solvency* (paragraphs .23 through .33), prohibits a practitioner from providing any form of assurance in reporting upon examination, review or agreed-upon procedures engagements about matters relating to solvency (as defined in paragraph .25).

.42 However, a practitioner who is involved with pending or potential formal legal or regulatory proceedings before a "trier of fact" in connection with the resolution of a dispute between two or more parties may provide an expert opinion or consulting advice about matters relating to solvency. The prohibition in paragraphs .23 through .33 does not apply in such engagements because as part of the legal or regulatory proceedings, each party to the dispute has the opportunity to analyze and challenge the legal definition and interpretation of the matters relating to solvency and the criteria the practitioner uses to evaluate matters related to solvency. Such services are not intended to be used by others who do not have the opportunity to analyze and challenge such definitions and interpretations.

[Issue Date: July, 1990; Revised: January, 2001.]

4. Providing Access to or Copies of Attest Documentation to a Regulator

.43 Question—Interpretation No. 1 to AU section 339, *Audit Documentation*, entitled "Providing Access to or Copies of Audit Documentation to a Regulator" (AU section 9339.01–.15), contains guidance relating to providing access to or copies of audit documentation to a regulator. Is this guidance applicable to an attest engagement when a regulator requests access to or copies of the attest documentation?

.44 Interpretation—Yes. The guidance in Interpretation No. 1 to AU section 339 (AU section 9339.01–.15) is applicable in these circumstances; however, the letter to a regulator should be tailored to meet the individual engagement characteristics or the purpose of the regulatory request, for example, a quality control review. Illustrative letters for an examination engagement performed in accordance with section 601, *Compliance Attestation*, and an agreed-upon procedures engagement performed in accordance with section 201, *Agreed-Upon Procedures Engagements*, follow.

.45 Illustrative letter for examination engagement:

Illustrative Letter to Regulator⁶

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our attest documentation in connection with our engagement to examine (*identify the subject matter examined or restate management's assertion*). It is our understanding that the purpose of your request is (*state purpose*: for example, "to facilitate your regulatory examination").⁷

Our examination was conducted in accordance with attestation standards⁸ established by the American Institute of Certified Public Accountants, the objective of which is to form an opinion as to whether the subject matter (or management's assertion) is fairly stated, in all material respects, based on (*identify criteria*). Under these standards, we have the responsibility to plan and perform our examination to provide a reasonable basis for our opinion and to exercise due professional care in the performance of our examination. Our examination is subject to the inherent risk that material noncompliance, if it exists, would not be detected. In addition, our examination does not address the possibility that material noncompliance may occur in the future. Also, our use of professional judgment and the assessments of attestation risk and materiality for the purpose of our examination means that matters may have existed that would have been assessed differently by you. Our examination does not provide a legal determination on (*name of entity*)'s compliance with specified requirements.

The attest documentation was prepared for the purpose of providing the principal support for our opinion on (*name of entity*)'s compliance and to aid in the performance and supervision of our examination. The attest documentation is the principal record of attest procedures performed, information obtained, and conclusions reached in the examination. The procedures that we performed were limited to those we considered necessary under attestation standards⁹ established by the American Institute of Certified Public Accountants to provide us with reasonable basis for our opinion. Accordingly, we make no representation as to the sufficiency or appropriateness, for your purposes, of either the procedures or information in our attest documentation. In addition, any notations, comments, and individual conclusions appearing on any of the attest documentation do not stand alone and should not be read as an opinion on any part of management's assertion or the related subject matter.

Our examination was conducted for the purpose stated above and was not planned or performed in contemplation of your (*state purpose*: for example, "regulatory examination"). Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our examination, and the attest documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the (*name of regulatory*

⁶ The practitioner should appropriately modify this letter when the engagement has been conducted in accordance with Statements on Standards for Attestation Engagements and also in accordance with additional attest requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

⁷ If the practitioner is not required by law, regulation, or engagement contract to provide a regulator access to the attest documentation but otherwise intends to provide such access (see AU section 9339.11–15), the letter should include a statement that: "Management of (*name of entity*) has authorized us to provide you access to our attest documentation for (*state purpose*)."

⁸ Refer to footnote 6.

⁹ Refer to footnote 6.

agency) for the purpose of monitoring and regulating (*name of entity*). In addition, we have not performed any procedures since the date of our report with respect to the subject matter (*or management's assertion related thereto*), and significant events or circumstances may have occurred since that date.

The attest documentation constitutes and reflects work performed or information obtained by us in the course of our examination. The documents contain trade secrets and confidential commercial and financial information of our firm and (*name of entity*) that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the attest documentation or information contained therein or any documents created by the (*name of regulatory agency*) containing information derived there from. We further request that written notice be given to our firm before distribution of the information in the attest documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.¹⁰

[If it is expected that copies will be requested, add the following:]

Any copies of our attest documentation we agree to provide you will contain a legend "Confidential Treatment Requested by (*name of practitioner, address, telephone number*)."

[Firm signature]

.46 Example letter for agreed-upon procedures engagements:

Illustrative Letter to Regulator¹¹

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our attest documentation in connection with our engagement to perform agreed-upon procedures on (*identify the subject matter or restate management's assertion*). It is our understanding that the purpose of your request is (*state purpose: for example, "to facilitate your regulatory examinations"*).¹²

Our agreed-upon procedures engagement was conducted in accordance with attestation standards¹³ established by the American Institute of Certified Public Accountants. Under these standards, we have the responsibility to perform the agreed-upon procedures to provide a reasonable basis for the findings expressed in our report. We were not engaged to, and did not, perform an examination, the objective of which would be to form an opinion on (*identify the subject matter*

¹⁰ This illustrative paragraph may not in and of itself be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

¹¹ The practitioner should appropriately modify this letter when the engagement has been conducted in accordance with Statements on Standards for Attestation Engagements and also in accordance with additional attest requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

¹² If the practitioner is not required by law, regulation or engagement contract to provide a regulator access to the attest documentation but otherwise intends to provide such access (see AU section 9339.11–.15) the letter should include a statement that: "Management of (*name of entity*) has authorized us to provide you access to our attest documentation for (*state purpose*)."

¹³ Refer to footnote 6.

or management's assertion). Our engagement is subject to the inherent risk that material misstatement of (*identify the subject matter or management's assertion*), if it exists, would not be detected. (*The practitioner may add the following: "In addition, our engagement does not address the possibility that material misstatement of (*identify the subject matter or management's assertion*) may occur in the future."*) The procedures that we performed were limited to those agreed to by the specified users, and the sufficiency of these procedures is solely the responsibility of the specified users of the report. Further, our engagement does not provide a legal determination on (*name of entity*)'s compliance with specified requirements.

The attest documentation was prepared to document agreed-upon procedures applied, information obtained, and findings reached in the engagement. Accordingly, we make no representation, for your purposes, as to the sufficiency or appropriateness of the information in our attest documentation. In addition, any notations, comments, and individual findings appearing on any of the attest documentation should not be read as an opinion on management's assertion or the related subject matter, or any part thereof.

Our engagement was performed for the purpose stated above and was not performed in contemplation of your (*state purpose: for example, "regulatory examination"*). Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our engagement, and the attest documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the (*name of regulatory agency*) for the purpose of monitoring and regulating (*name of client*). In addition, we have not performed any procedures since the date of our report with respect to the subject matter or management's assertion related thereto, and significant events or circumstances may have occurred since that date.

The attest documentation constitutes and reflects procedures performed or information obtained by us in the course of our engagement. The documents contain trade secrets and confidential commercial and financial information of our firm and (*name of client*) that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the attest documentation or information contained therein or any documents created by the (*name of regulatory agency*) containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the attest documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.¹⁴

[If it is expected that copies will be requested, add the following:

Any copies of our attest documentation we agree to provide you will contain a legend "Confidential Treatment Requested by (*name of practitioner, address, telephone number*)."]

[Firm signature]

[Issue Date: May, 1996; Revised: January, 2001; Revised: January, 2002.]

¹⁴ This illustrative paragraph may not in and of itself be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

AT Section 201

Agreed-Upon Procedures Engagements

Source: SSAE No. 10; SSAE No. 11.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001, unless otherwise indicated.

Introduction and Applicability

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning performance and reporting in all agreed-upon procedures engagements, except as noted in paragraph .02. A practitioner also should refer to the following sections of this Statement on Standards for Attestation Engagements (SSAE), which provide additional guidance for certain types of agreed-upon procedures engagements:

- a. Section 301, *Financial Forecasts and Projections*
- b. Section 601, *Compliance Attestation*

.02 This section does not apply to the following:¹

- a. Situations in which an auditor reports on specified compliance requirements based solely on an audit of financial statements, as addressed in AU section 623, *Special Reports*, paragraphs .19–.21
- b. Engagements for which the objective is to report in accordance with AU section 801, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance*, unless the terms of the engagement specify that the engagement be performed pursuant to SSAEs
- c. Circumstances covered by AU section 324, *Service Organizations*, paragraph .58, when the service auditor is requested to apply substantive procedures to user transactions or assets at the service organization, and he or she makes specific reference in his or her service auditor's report to having carried out designated procedures (However, this section applies when the service auditor provides a separate report on the performance of agreed-upon procedures in an attestation engagement.)
- d. Engagements covered by AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*
- e. Certain professional services that would not be considered as falling under this section as described in section 101, *Attest Engagements*, paragraph .04.

¹ The Attest Interpretation, "Responding to Requests for Reports on Matters Relating to Solvency" (section 9101.23–.33), prohibits the performance of any attest engagements concerning matters of solvency or insolvency.

Agreed-Upon Procedures Engagements

.03 An agreed-upon procedures engagement is one in which a practitioner is engaged by a client to issue a report of findings based on specific procedures performed on subject matter. The client engages the practitioner to assist specified parties in evaluating subject matter or an assertion as a result of a need or needs of the specified parties.² Because the specified parties require that findings be independently derived, the services of a practitioner are obtained to perform procedures and report his or her findings. The specified parties and the practitioner agree upon the procedures to be performed by the practitioner that the specified parties believe are appropriate. Because the needs of the specified parties may vary widely, the nature, timing, and extent of the agreed-upon procedures may vary as well; consequently, the specified parties assume responsibility for the sufficiency of the procedures since they best understand their own needs. In an engagement performed under this section, the practitioner does not perform an examination or a review, as discussed in section 101, and does not provide an opinion or negative assurance.³ (See paragraph .24.) Instead, the practitioner's report on agreed-upon procedures should be in the form of procedures and findings. (See paragraph .31.)

.04 As a consequence of the role of the specified parties in agreeing upon the procedures performed or to be performed, a practitioner's report on such engagements should clearly indicate that its use is restricted to those specified parties.⁴ Those specified parties, including the client, are hereinafter referred to as *specified parties*.

Standards

.05 The general, fieldwork, and reporting standards for attestation engagements as set forth in section 101, together with interpretive guidance regarding their application as addressed throughout this section, should be followed by the practitioner in performing and reporting on agreed-upon procedures engagements.

Conditions for Engagement Performance

.06 The practitioner may perform an agreed-upon procedures attest engagement provided that—

- a. The practitioner is independent.
- b. One of the following conditions is met.
 - (1) The party wishing to engage the practitioner is responsible for the subject matter, or has a reasonable basis for providing a written assertion about the subject matter when the nature of the subject matter is such that a responsible party does not otherwise exist.
 - (2) The party wishing to engage the practitioner is not responsible for the subject matter but is able to provide the practitioner, or have a third party who is responsible for the subject matter provide the practitioner

² See paragraphs .08 and .09 for a discussion of subject matter and assertion.

³ For guidance on expressing an opinion on specified elements, accounts, or items of a financial statement based on an audit, see AU section 623.11–.18.

⁴ See section 101.78–.83 for additional guidance regarding restricted-use reports.

with evidence of the third party's responsibility for the subject matter.

- c. The practitioner and the specified parties agree upon the procedures performed or to be performed by the practitioner.
- d. The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes.
- e. The specific subject matter to which the procedures are to be applied is subject to reasonably consistent measurement.
- f. Criteria to be used in the determination of findings are agreed upon between the practitioner and the specified parties.
- g. The procedures to be applied to the specific subject matter are expected to result in reasonably consistent findings using the criteria.
- h. Evidential matter related to the specific subject matter to which the procedures are applied is expected to exist to provide a reasonable basis for expressing the findings in the practitioner's report.
- i. Where applicable, the practitioner and the specified parties agree on any materiality limits for reporting purposes. (See paragraph .25.)
- j. Use of the report is restricted to the specified parties.
- k. For agreed-upon procedures engagements on prospective financial information, the prospective financial statements include a summary of significant assumptions. (See section 301.52.)

Agreement on and Sufficiency of Procedures

.07 To satisfy the requirements that the practitioner and the specified parties agree upon the procedures performed or to be performed and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures.

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

The practitioner should not report on an engagement when specified parties do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. (See paragraph .36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.)

Subject Matter and Related Assertions

.08 The subject matter of an agreed-upon procedures engagement may take many different forms and may be at a point in time or covering a period of time. In an agreed-upon procedures engagement, it is the specific subject matter to which the agreed-upon procedures are to be applied using the criteria selected. Even though the procedures are agreed upon between the practitioner and the specified parties, the subject matter and the criteria must meet the conditions set forth in the third general standard. (See section 101.23 and .24.) The criteria against which the specific subject matter needs to be measured may be recited within the procedures enumerated or referred to in the practitioner's report.

.09 An assertion is any declaration or set of declarations about whether the subject matter is based on or in conformity with the criteria selected. A written assertion is generally not required in an agreed-upon procedures engagement unless specifically required by another attest standard (for example, see section 601.11). If, however, the practitioner requests the responsible party to provide an assertion, the assertion may be presented in a representation letter or another written communication from the responsible party, such as in a statement, narrative description, or schedule appropriately identifying what is being presented and the point in time or the period of time covered.

Establishing an Understanding With the Client

.10 The practitioner should establish an understanding with the client regarding the services to be performed. When the practitioner documents the understanding through a written communication with the client (an *engagement letter*), such communication should be addressed to the client, and in some circumstances also to all specified parties. Matters that might be included in such an understanding include the following:

- The nature of the engagement
- Identification of the subject matter (or the assertion related thereto), the responsible party, and the criteria to be used
- Identification of specified parties (See paragraph .36.)
- Specified parties' acknowledgment of their responsibility for the sufficiency of the procedures
- Responsibilities of the practitioner (See paragraphs .12 to .14 and .40.)
- Reference to attestation standards established by the American Institute of Certified Public Accountants (AICPA)
- Agreement on procedures by enumerating (or referring to) the procedures (See paragraphs .15 to .18.)
- Disclaimers expected to be included in the practitioner's report
- Use restrictions
- Assistance to be provided to the practitioner (See paragraphs .22 and .23.)
- Involvement of a specialist (See paragraphs .19 to .21.)
- Agreed-upon materiality limits (See paragraph .25.)

Nature, Timing, and Extent of Procedures

Responsibility of the Specified Parties

.11 Specified parties are responsible for the sufficiency (nature, timing, and extent) of the agreed-upon procedures because they best understand their own needs. The specified parties assume the risk that such procedures might be insufficient for their purposes. In addition, the specified parties assume the risk that they might misunderstand or otherwise inappropriately use findings properly reported by the practitioner.

Practitioner's Responsibility

.12 The responsibility of the practitioner is to carry out the procedures and report the findings in accordance with the general, fieldwork, and reporting standards as discussed and interpreted in this section. The practitioner assumes the risk that misapplication of the procedures may result in inappropriate findings being reported. Furthermore, the practitioner assumes the risk that appropriate findings may not be reported or may be reported inaccurately. The practitioner's risks can be reduced through adequate planning and supervision and due professional care in performing the procedures, determining the findings, and preparing the report.

.13 The practitioner should have adequate knowledge in the specific subject matter to which the agreed-upon procedures are to be applied. He or she may obtain such knowledge through formal or continuing education, practical experience, or consultation with others.⁵

.14 The practitioner has no responsibility to determine the differences between the agreed-upon procedures to be performed and the procedures that the practitioner would have determined to be necessary had he or she been engaged to perform another form of attest engagement. The procedures that the practitioner agrees to perform pursuant to an agreed-upon procedures engagement may be more or less extensive than the procedures that the practitioner would determine to be necessary had he or she been engaged to perform another form of engagement.

Procedures to Be Performed

.15 The procedures that the practitioner and specified parties agree upon may be as limited or as extensive as the specified parties desire. However, mere reading of an assertion or specified information about the subject matter does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures. In some circumstances, the procedures agreed upon evolve or are modified over the course of the engagement. In general, there is flexibility in determining the procedures as long as the specified parties acknowledge responsibility for the sufficiency of such procedures for their purposes. Matters that should be agreed upon include the nature, timing, and extent of the procedures.

.16 The practitioner should not agree to perform procedures that are overly subjective and thus possibly open to varying interpretations. Terms of uncertain meaning (such as general review, limited review, check, or test) should not

⁵ Section 601.19 and .20 provide guidance about obtaining an understanding of certain requirements in an agreed-upon procedures engagement on compliance.

be used in describing the procedures unless such terms are defined within the agreed-upon procedures. The practitioner should obtain evidential matter from applying the agreed-upon procedures to provide a reasonable basis for the finding or findings expressed in his or her report, but need not perform additional procedures outside the scope of the engagement to gather additional evidential matter.

.17 Examples of appropriate procedures include the following:

- Execution of a sampling application after agreeing on relevant parameters
- Inspection of specified documents evidencing certain types of transactions or detailed attributes thereof
- Confirmation of specific information with third parties
- Comparison of documents, schedules, or analyses with certain specified attributes
- Performance of specific procedures on work performed by others (including the work of internal auditors—see paragraphs .22 and .23)
- Performance of mathematical computations

.18 Examples of inappropriate procedures include the following:

- Mere reading of the work performed by others solely to describe their findings
- Evaluating the competency or objectivity of another party
- Obtaining an understanding about a particular subject
- Interpreting documents outside the scope of the practitioner's professional expertise

Involvement of a Specialist⁶

.19 The practitioner's education and experience enable him or her to be knowledgeable about business matters in general, but he or she is not expected to have the expertise of a person trained for or qualified to engage in the practice of another profession or occupation. In certain circumstances, it may be appropriate to involve a specialist to assist the practitioner in the performance of one or more procedures. The following are examples.

- An attorney might provide assistance concerning the interpretation of legal terminology involving laws, regulations, rules, contracts, or grants.
- A medical specialist might provide assistance in understanding the characteristics of diagnosis codes documented in patient medical records.
- An environmental engineer might provide assistance in interpreting environmental remedial action regulatory directives that may affect the agreed-upon procedures applied to an environmental liabilities account in a financial statement.

⁶ A *specialist* is a person (or firm) possessing skill or knowledge in a particular field other than the attest function. As used herein, a specialist does not include a person employed by the practitioner's firm who participates in the attest engagement.

- A geologist might provide assistance in distinguishing between varying physical characteristics of a generic minerals group related to information to which the agreed-upon procedures are applied.

.20 The practitioner and the specified parties should explicitly agree to the involvement of the specialist in assisting a practitioner in the performance of an agreed-upon procedures engagement. This agreement may be reached when obtaining agreement on the procedures performed or to be performed and acknowledgment of responsibility for the sufficiency of the procedures, as discussed in paragraph .07. The practitioner's report should describe the nature of the assistance provided by the specialist.

.21 A practitioner may agree to apply procedures to the report or work product of a specialist that does not constitute assistance by the specialist to the practitioner in an agreed-upon procedures engagement. For example, the practitioner may make reference to information contained in a report of a specialist in describing an agreed-upon procedure. However, it is inappropriate for the practitioner to agree to merely read the specialist's report solely to describe or repeat the findings, or to take responsibility for all or a portion of any procedures performed by a specialist or the specialist's work product.

Internal Auditors and Other Personnel

.22 The agreed-upon procedures to be enumerated or referred to in the practitioner's report are to be performed entirely by the practitioner except as discussed in paragraphs .19 to .21.⁷ However, internal auditors or other personnel may prepare schedules and accumulate data or provide other information for the practitioner's use in performing the agreed-upon procedures. Also, internal auditors may perform and report separately on procedures that they have carried out. Such procedures may be similar to those that a practitioner may perform under this section.

.23 A practitioner may agree to perform procedures on information documented in the working papers of internal auditors. For example, the practitioner may agree to—

- Repeat all or some of the procedures.
- Determine whether the internal auditors' working papers contain documentation of procedures performed and whether the findings documented in the working papers are presented in a report by the internal auditors.

However, it is inappropriate for the practitioner to—

- Agree to merely read the internal auditors' report solely to describe or repeat their findings.
- Take responsibility for all or a portion of any procedures performed by internal auditors by reporting those findings as the practitioner's own.
- Report in any manner that implies shared responsibility for the procedures with the internal auditors.

⁷ AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, does not apply to agreed-upon procedures engagements.

Findings

.24 A practitioner should present the results of applying agreed-upon procedures to specific subject matter in the form of findings. The practitioner should not provide negative assurance about whether the subject matter or the assertion is fairly stated based on the criteria. For example, the practitioner should not include a statement in his or her report that "nothing came to my attention that caused me to believe that the [*identify subject matter*] is not presented based on [or the assertion is not fairly stated based on] [*identify criteria*]."

.25 The practitioner should report all findings from application of the agreed-upon procedures. The concept of materiality does not apply to findings to be reported in an agreed-upon procedures engagement unless the definition of materiality is agreed to by the specified parties. Any agreed-upon materiality limits should be described in the practitioner's report.

.26 The practitioner should avoid vague or ambiguous language in reporting findings. Examples of appropriate and inappropriate descriptions of findings resulting from the application of certain agreed-upon procedures follow.

<i>Procedures Agreed Upon</i>	<i>Appropriate Description of Findings</i>	<i>Inappropriate Description of Findings</i>
Inspect the shipment dates for a sample (agreed-upon) of specified shipping documents, and determine whether any such dates were subsequent to December 31, 20XX.	No shipment dates shown on the sample of shipping documents were subsequent to December 31, 20XX.	Nothing came to my attention as a result of applying that procedure.
Calculate the number of blocks of streets paved during the year ended September 30, 20XX, shown on contractors' certificates of project completion; compare the resultant number to the number in an identified chart of performance statistics.	The number of blocks of streets paved in the chart of performance statistics was Y blocks more than the number calculated from the contractors' certificates of project completion.	The number of blocks of streets paved approximated the number of blocks included in the chart of performance statistics.
Calculate the rate of return on a specified investment (according to an agreed-upon formula) and verify that the resultant percentage agrees to the percentage in an identified schedule.	No exceptions were found as a result of applying the procedure.	The resultant percentage approximated the predetermined percentage in the identified schedule.

<i>Procedures Agreed Upon</i>	<i>Appropriate Description of Findings</i>	<i>Inappropriate Description of Findings</i>
Inspect the quality standards classification codes in identified performance test documents for products produced during a specified period; compare such codes to those shown in an identified computer printout.	All classification codes inspected in the identified documents were the same as those shown in the computer printout except for the following: <i>[List all exceptions.]</i>	All classification codes appeared to comply with such performance documents.
Trace all outstanding checks appearing on a bank reconciliation as of a certain date to checks cleared in the bank statement of the subsequent month.	All outstanding checks appearing on the bank reconciliation were cleared in the subsequent month's bank statement except for the following: <i>[List all exceptions.]</i>	Nothing came to my attention as a result of applying the procedure.
Compare the amounts of the invoices included in the "over ninety days" column shown in an identified schedule of aged accounts receivable of a specific customer as of a certain date to the amount and invoice date shown on the outstanding invoice and determine whether or not the invoice dates precede the date indicated on the schedule by more than ninety days.	All outstanding invoice amounts agreed with the amounts shown on the schedule in the "over ninety days" column, and the dates shown on such invoices preceded the date indicated on the schedule by more than ninety days.	The outstanding invoice amounts agreed within approximation of the amounts shown on the schedule in the "over ninety days" column, and nothing came to our attention that the dates shown on such invoices preceded the date indicated on the schedule by more than ninety days.

Reporting

Required Elements

.31 The practitioner's report on agreed-upon procedures should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties (See paragraph .36.)
- c. Identification of the subject matter¹⁰ (or the written assertion related thereto) and the character of the engagement
- d. Identification of the responsible party
- e. A statement that the subject matter is the responsibility of the responsible party
- f. A statement that the procedures performed were those agreed to by the specified parties identified in the report
- g. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the AICPA
- h. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- i. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance—see paragraph .24.)
- j. Where applicable, a description of any agreed-upon materiality limits (See paragraph .25.)
- k. A statement that the practitioner was not engaged to and did not conduct an examination^{11,12} of the subject matter, the objective of which would be the expression of an opinion, a disclaimer of opinion on the subject matter, and a statement that if the practitioner

¹⁰ In some agreed-upon procedures engagements, the practitioner may be asked to apply agreed-upon procedures to more than one subject matter or assertion. In these engagements, the practitioner may issue one report that refers to all subject matter covered or assertions presented. (For example, see section 601.28.)

¹¹ If the practitioner also wishes to refer to a review, alternate wording would be as follows.

A statement that the practitioner was not engaged to and did not conduct an examination or a review of the subject matter, the objectives of which would be the expression of an opinion or limited assurance, a disclaimer of opinion on the subject matter, and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported.

¹² If the subject matter consists of elements, accounts, or items of a financial statement, this statement may be worded as follows.

We were not engaged to and did not conduct an audit [or a review], the objective of which would be the expression of an opinion [or limited assurance] on the [identify elements, accounts, or items of a financial statement].

Accordingly, we do not express such an opinion [or limited assurance]. Alternatively, the wording may be the following.

These agreed-upon procedures do not constitute an audit [or a review] of financial statements or any part thereof, the objective of which is the expression of opinion [or limited assurance] on the financial statements or a part thereof.

had performed additional procedures, other matters might have come to his or her attention that would have been reported¹³

- l. A statement of restrictions on the use of the report because it is intended to be used solely by the specified parties¹⁴
- m. Where applicable, reservations or restrictions concerning procedures or findings as discussed in paragraphs .33, .35, .39, and .40
- n. For an agreed-upon procedures engagement on prospective financial information, all items included in section 301.55
- o. Where applicable, a description of the nature of the assistance provided by a specialist as discussed in paragraphs .19 through .21
- p. The manual or printed signature of the practitioner's firm
- q. The date of the report

Illustrative Report

.32 The following is an illustration of an agreed-upon procedures report.

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Audit Committees and Managements of ABC Inc. and XYZ Fund:

We have performed the procedures enumerated below, which were agreed to by the audit committees and managements of ABC Inc. and XYZ Fund, solely to assist you in evaluating the accompanying Statement of Investment Performance Statistics of XYZ Fund (prepared in accordance with the criteria specified therein) for the year ended December 31, 20X1. XYZ Fund's management is responsible for the statement of investment performance statistics. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying Statement

¹³ When the practitioner consents to the inclusion of his or her report on an agreed-upon procedures engagement in a document or written communication containing the entity's financial statements, he or she should refer to AU section 504, *Association With Financial Statements*, or to Statement on Standards for Accounting and Review Services (SSARS) No. 1, *Compilation and Review of Financial Statements*, as appropriate, for guidance on his or her responsibility pertaining to the financial statements. The practitioner should follow (a) AU section 504.04 when the financial statements of a public or nonpublic entity are audited (or reviewed in accordance with AU section 722, *Interim Financial Information*, or (b) AU section 504.05 when the financial statements of a public entity are unaudited. The practitioner should follow SSARS No. 1, paragraph 3 when (a) the financial statements of a nonpublic entity are reviewed or compiled or (b) the financial statements of a nonpublic entity are not reviewed or compiled and are not submitted by the accountant, as defined in SSARS No. 1, paragraph 1. (See section 101.82 and .83 for guidance when the practitioner combines or includes in a document a restricted-use report with a general-use report.) [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 9.]

¹⁴ The purpose of the restriction on the use of the practitioner's report on applying agreed-upon procedures is to restrict its use to only those parties that have agreed upon the procedures performed and taken responsibility for the sufficiency of the procedures. Paragraph .36 describes the process for adding parties who were not originally contemplated in the agreed-upon procedures engagement.

of Investment Performance Statistics of XYZ Fund. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the audit committees and managements of ABC Inc. and XYZ Fund,¹⁵ and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Explanatory Language

.33 The practitioner also may include explanatory language about matters such as the following:

- Disclosure of stipulated facts, assumptions, or interpretations (including the source thereof) used in the application of agreed-upon procedures (For example, see section 601.26.)
- Description of the condition of records, controls, or data to which the procedures were applied
- Explanation that the practitioner has no responsibility to update his or her report
- Explanation of sampling risk

Dating of Report

.34 The date of completion of the agreed-upon procedures should be used as the date of the practitioner's report.

Restrictions on the Performance of Procedures

.35 When circumstances impose restrictions on the performance of the agreed-upon procedures, the practitioner should attempt to obtain agreement from the specified parties for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe any restrictions on the performance of procedures in his or her report or withdraw from the engagement.

Adding Specified Parties (Nonparticipant Parties)

.36 Subsequent to the completion of the agreed-upon procedures engagement, a practitioner may be requested to consider the addition of another party as a specified party (*a nonparticipant party*). The practitioner may agree to add a nonparticipant party as a specified party, based on consideration of such factors as the identity of the nonparticipant party and the intended use of the report.¹⁶ If the practitioner does agree to add the nonparticipant party, he or she should obtain affirmative acknowledgment, normally in writing, from the nonparticipant party agreeing to the procedures performed and of its taking responsibility for the sufficiency of the procedures. If the nonparticipant party

¹⁵ The report may list the specified parties or refer the reader to the specified parties listed elsewhere in the report.

¹⁶ When considering whether to add a nonparticipant party, the guidance in AU section 530, *Dating of the Independent Auditor's Report*, paragraphs .06 and .07, may be helpful.

is added after the practitioner has issued his or her report, the report may be reissued or the practitioner may provide other written acknowledgment that the nonparticipant party has been added as a specified party. If the report is reissued, the report date should not be changed. If the practitioner provides written acknowledgment that the nonparticipant party has been added as a specified party, such written acknowledgment ordinarily should state that no procedures have been performed subsequent to the date of the report.

Written Representations

.37 A practitioner may find a representation letter to be a useful and practical means of obtaining representations from the responsible party. The need for such a letter may depend on the nature of the engagement and the specified parties. For example, section 601.68 requires a practitioner to obtain written representations from the responsible party in an agreed-upon procedures engagement related to compliance with specified requirements.

.38 Examples of matters that might appear in a representation letter from the responsible party include the following:

- a.* A statement acknowledging responsibility for the subject matter and, when applicable, the assertion
- b.* A statement acknowledging responsibility for selecting the criteria and for determining that such criteria are appropriate for their purposes
- c.* The assertion about the subject matter based on the criteria selected
- d.* A statement that all known matters contradicting the subject matter or the assertion and any communication from regulatory agencies affecting the subject matter or the assertion has been disclosed to the practitioner
- e.* Availability of all records relevant to the subject matter and the agreed-upon procedures
- f.* Other matters as the practitioner deems appropriate

.39 The responsible party's refusal to furnish written representations determined by the practitioner to be appropriate for the engagement constitutes a limitation on the performance of the engagement. In such circumstances, the practitioner should do one of the following.

- a.* Disclose in his or her report the inability to obtain representations from the responsible party.
- b.* Withdraw from the engagement.¹⁷
- c.* Change the engagement to another form of engagement.

Knowledge of Matters Outside Agreed-Upon Procedures

.40 The practitioner need not perform procedures beyond the agreed-upon procedures. However, in connection with the application of agreed-upon procedures, if matters come to the practitioner's attention by other means that significantly contradict the subject matter (or written assertion related thereto)

¹⁷ For an agreed-upon procedures engagement performed pursuant to section 601, management's refusal to furnish all required representations also constitutes a limitation on the scope of the engagement that requires the practitioner to withdraw from the engagement.

referred to in the practitioner's report, the practitioner should include this matter in his or her report.¹⁸ For example, if, during the course of applying agreed-upon procedures regarding an entity's internal control, the practitioner becomes aware of a material weakness by means other than performance of the agreed-upon procedure, the practitioner should include this matter in his or her report.

Change to an Agreed-Upon Procedures Engagement From Another Form of Engagement

.41 A practitioner who has been engaged to perform another form of attest engagement or a nonattest service engagement may, before the engagement's completion, be requested to change the engagement to an agreed-upon procedures engagement under this section. A request to change the engagement may result from a change in circumstances affecting the client's requirements, a misunderstanding about the nature of the original services or the alternative services originally available, or a restriction on the performance of the original engagement, whether imposed by the client or caused by circumstances.

.42 Before a practitioner who was engaged to perform another form of engagement agrees to change the engagement to an agreed-upon procedures engagement, he or she should consider the following:

- a. The possibility that certain procedures performed as part of another type of engagement are not appropriate for inclusion in an agreed-upon procedures engagement
- b. The reason given for the request, particularly the implications of a restriction on the scope of the original engagement or the matters to be reported
- c. The additional effort required to complete the original engagement
- d. If applicable, the reasons for changing from a general-use report to a restricted-use report

.43 If the specified parties acknowledge agreement to the procedures performed or to be performed and assume responsibility for the sufficiency of the procedures to be included in the agreed-upon procedures engagement, either of the following would be considered a reasonable basis for requesting a change in the engagement—

- a. A change in circumstances that requires another form of engagement
- b. A misunderstanding concerning the nature of the original engagement or the available alternatives

.44 In all circumstances, if the original engagement procedures are substantially complete or the effort to complete such procedures is relatively insignificant, the practitioner should consider the propriety of accepting a change in the engagement.

¹⁸ If the practitioner has performed (or has been engaged to perform) an audit of the entity's financial statements to which an element, account, or item of a financial statement relates and the auditor's report on such financial statements includes a departure from a standard report [see AU section 508, *Reports on Audited Financial Statements*], he or she should consider including a reference to the auditor's report and the departure from the standard report in his or her agreed-upon procedures report.

.45 If the practitioner concludes, based on his or her professional judgment, that there is reasonable justification to change the engagement, and provided he or she complies with the standards applicable to agreed-upon procedures engagements, the practitioner should issue an appropriate agreed-upon procedures report. The report should not include reference to either the original engagement or performance limitations that resulted in the changed engagement. (See paragraph .40.)

Combined Reports Covering Both Restricted-Use and General-Use Subject Matter or Presentations

.46 When a practitioner performs services pursuant to an engagement to apply agreed-upon procedures to specific subject matter as part of or in addition to another form of service, this section applies only to those services described herein; other Standards would apply to the other services. Other services may include an audit, review, or compilation of a financial statement, another attest service performed pursuant to the SSAEs, or a nonattest service.¹⁹ Reports on applying agreed-upon procedures to specific subject matter may be combined with reports on such other services, provided the types of services can be clearly distinguished and the applicable Standards for each service are followed. See section 101.82 and .83, regarding restricting the use of the combined report.

Effective Date

.47 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted.

¹⁹ See section 101.105–.107 for requirements relating to attest services provided as part of a consulting service engagement.

.48

Appendix

Additional Illustrative Reports

The following are additional illustrations of reporting on applying agreed-upon procedures to elements, accounts, or items of a financial statement.

1. Report in Connection With a Proposed Acquisition

Independent Accountant's Report
on Applying Agreed-Upon Procedures

To the Board of Directors and Management of X Company:

We have performed the procedures enumerated below, which were agreed to by the Board of Directors and Management of X Company, solely to assist you in connection with the proposed acquisition of Y Company as of December 31, 20XX. Y Company is responsible for its cash and accounts receivable records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

Cash

1. We obtained confirmation of the cash on deposit from the following banks, and we agreed the confirmed balance to the amount shown on the bank reconciliations maintained by Y Company. We mathematically checked the bank reconciliations and compared the resultant cash balances per book to the respective general ledger account balances.

<i>Bank</i>	<i>General Ledger Account Balances as of December 31, 20XX</i>
ABC National Bank	\$5,000
DEF State Bank	3,776
XYZ Trust Company regular account	86,912
XYZ Trust Company payroll account	<u>5,000</u>
	<u><u>\$110,688</u></u>

We found no exceptions as a result of the procedures.

Accounts Receivable

2. We added the individual customer account balances shown in an aged trial balance of accounts receivable (identified as Exhibit A) and compared the resultant total with the balance in the general ledger account.

We found no difference.

3. We compared the individual customer account balances shown in the aged trial balance of accounts receivable (Exhibit A) as of December 31, 19XX, to the balances shown in the accounts receivable subsidiary ledger.

We found no exceptions as a result of the comparisons.

4. We traced the aging (according to invoice dates) for 50 customer account balances shown in Exhibit A to the details of outstanding invoices in the accounts receivable subsidiary ledger. The balances selected for tracing were determined by starting at the eighth item and selecting every fifteenth item thereafter.

We found no exceptions in the aging of the amounts of the 50 customer account balances selected. The sample size traced was 9.8 percent of the aggregate amount of the customer account balances.

5. We mailed confirmations directly to the customers representing the 150 largest customer account balances selected from the accounts receivable trial balance, and we received responses as indicated below. We also traced the items constituting the outstanding customer account balance to invoices and supporting shipping documents for customers from which there was no reply. As agreed, any individual differences in a customer account balance of less than \$300 were to be considered minor, and no further procedures were performed.

Of the 150 customer balances confirmed, we received responses from 140 customers; 10 customers did not reply. No exceptions were identified in 120 of the confirmations received. The differences disclosed in the remaining 20 confirmation replies were either minor in amount (as defined above) or were reconciled to the customer account balance without proposed adjustment thereto. A summary of the confirmation results according to the respective aging categories is as follows.

<i>Accounts Receivable</i>			
<i>December 31, 20XX</i>			
<u><i>Aging Categories</i></u>	<u><i>Customer Account Balances</i></u>	<u><i>Confirmations Requested</i></u>	<u><i>Confirmations Received</i></u>
Current	\$156,000	\$ 76,000	\$ 65,000
Past due:			
Less than one month:	60,000	30,000	19,000
One to three months	36,000	18,000	10,000
Over three months	<u>48,000</u>	<u>48,000</u>	<u>8,000</u>
	<u>\$300,000</u>	<u>\$172,000</u>	<u>\$102,000</u>

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on cash and accounts receivable. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the board of directors and management of X Company and is not intended to be and should not be used by anyone other than these specified parties.

[Date]

2. Report in Connection With Claims of Creditors

Independent Accountant's Report
on Applying Agreed-Upon Procedures

To the Trustee of XYZ Company:

We have performed the procedures described below, which were agreed to by the Trustee of XYZ Company, with respect to the claims of creditors solely to assist you in determining the validity of claims of XYZ Company as of May 31, 20XX, as set forth in the accompanying Schedule A. XYZ Company is responsible for maintaining records of claims submitted by creditors of XYZ Company. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the party specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

1. Compare the total of the trial balance of accounts payable at May 31, 20XX, prepared by XYZ Company, to the balance in the related general ledger account.

The total of the accounts payable trial balance agreed with the balance in the related general ledger account.

2. Compare the amounts for claims received from creditors (as shown in claim documents provided by XYZ Company) to the respective amounts shown in the trial balance of accounts payable. Using the data included in the claims documents and in XYZ Company's accounts payable detail records, reconcile any differences found to the accounts payable trial balance.

All differences noted are presented in column 3 of Schedule A. Except for those amounts shown in column 4 of Schedule A, all such differences were reconciled.

3. Obtain the documentation submitted by creditors in support of the amounts claimed and compare it to the following documentation in XYZ Company's files: invoices, receiving reports, and other evidence of receipt of goods or services.

No exceptions were found as a result of these comparisons.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the claims of creditors set forth in the accompanying Schedule A. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Trustee of XYZ Company and is not intended to be and should not be used by anyone other than this specified party.

[Signature]

[Date]

AT Section 301

Financial Forecasts and Projections

Source: SSAE No. 10; SSAE No. 11.

Effective when the date of the practitioner's report is on or after June 1, 2001, unless otherwise indicated.

Introduction

.01 This section sets forth standards and provides guidance to practitioners who are engaged to issue or do issue examination (paragraphs .29 to .50), compilation (paragraphs .12 to .28), or agreed-upon procedures reports (paragraphs .51 to .56) on prospective financial statements.

.02 Whenever a practitioner (*a*) submits, to his or her client or others, prospective financial statements that he or she has assembled, or assisted in assembling, that are or reasonably might be expected to be used by another (third) party¹ or (*b*) reports on prospective financial statements that are, or reasonably might be expected to be used by another (third) party, the practitioner should perform one of the engagements described in the preceding paragraph. In deciding whether the prospective financial statements are or reasonably might be expected to be used by a third party, the practitioner may rely on either the written or oral representation of the responsible party, unless information comes to his or her attention that contradicts the responsible party's representation. If such third-party use of the prospective financial statements is not reasonably expected, the provisions of this section are not applicable unless the practitioner has been engaged to examine, compile, or apply agreed-upon procedures to the prospective financial statements.

.03 This section also provides standards for a practitioner who is engaged to examine, compile, or apply agreed-upon procedures to partial presentations. A partial presentation is a presentation of prospective financial information that excludes one or more of the items required for prospective financial statements as described in Appendix A [paragraph .68], "Minimum Presentation Guidelines."

.04 The practitioner who has been engaged to or does compile, examine, or apply agreed-upon procedures to a partial presentation should perform the engagement in accordance with the guidance in paragraphs .12 to .28 for compilations, .29 to .50 for examinations, and .51 to .56 for agreed-upon procedures, respectively, modified to reflect the nature of the presentation as discussed in paragraphs .03, .57, and .58.

.05 This section does not provide standards or procedures for engagements involving prospective financial statements used solely in connection with litigation support services. A practitioner may, however, look to these standards because they provide helpful guidance for many aspects of such engagements and may be referred to as useful guidance in such engagements. Litigation support services are engagements involving pending or potential formal legal proceedings before a trier of fact in connection with the resolution

¹ However, paragraph .59 permits an exception to this for certain types of budgets.

of a dispute between two or more parties, for example, when a practitioner acts as an expert witness. This exception is provided because, among other things, the practitioner's work in such proceedings is ordinarily subject to detailed analysis and challenge by each party to the dispute. This exception does not apply, however, if either of the following occur.

- a. The practitioner is specifically engaged to issue or does issue an examination, a compilation, or an agreed-upon procedures report on prospective financial statements.
- b. The prospective financial statements are for use by third parties who, under the rules of the proceedings, do not have the opportunity for analysis and challenge by each party to a dispute in a legal proceeding.

For example, creditors may not have such opportunities when prospective financial statements are submitted to them to secure their agreement to a plan of reorganization.

.06 In reporting on prospective financial statements, the practitioner may be called on to assist the responsible party in identifying assumptions, gathering information, or assembling the statements.² The responsible party is nonetheless responsible for the preparation and presentation of the prospective financial statements because the prospective financial statements are dependent on the actions, plans, and assumptions of the responsible party, and only it can take responsibility for the assumptions. Accordingly, the practitioner's engagement should not be characterized in his or her report or in the document containing his or her report as including "preparation" of the prospective financial statements. A practitioner may be engaged to prepare a financial analysis of a potential project where the engagement includes obtaining the information, making appropriate assumptions, and assembling the presentation. Such an analysis is not and should not be characterized as a forecast or projection and would not be appropriate for general use. However, if the responsible party reviewed and adopted the assumptions and presentation, or based its assumptions and presentation on the analysis, the practitioner could perform one of the engagements described in this section and issue a report appropriate for general use.

.07 The concept of materiality affects the application of this section to prospective financial statements as materiality affects the application of generally accepted auditing standards (GAAS) to historical financial statements. Materiality is a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

Definitions

.08 For the purposes of this section the following definitions apply.

- a. *Prospective financial statements*—Either financial forecasts or financial projections including the summaries of significant assumptions and accounting policies. Although prospective financial statements may cover a period that has partially expired,

² Some of these services may not be appropriate if the practitioner is to be named as the person reporting on an examination in a filing with the Securities and Exchange Commission (SEC). SEC Release Nos. 33-5992 and 34-15305, "Disclosure of Projections of Future Economic Performance," state that for prospective financial statements filed with the commission, "a person should not be named as an outside reviewer if he actively assisted in the preparation of the projection."

statements for periods that have completely expired are not considered to be prospective financial statements. Pro forma financial statements and partial presentations are not considered to be prospective financial statements.³

- b. *Partial presentation*—A presentation of prospective financial information that excludes one or more of the items required for prospective financial statements as described in Appendix A [paragraph .68], "Minimum Presentation Guidelines." Partial presentations are not ordinarily appropriate for general use; accordingly, partial presentations should be restricted for use by specified parties who will be negotiating directly with the responsible party.
- c. *Financial forecast*—Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and cash flows. A financial forecast is based on the responsible party's assumptions reflecting the conditions it expects to exist and the course of action it expects to take. A financial forecast may be expressed in specific monetary amounts as a single point estimate of forecasted results or as a range, where the responsible party selects key assumptions to form a range within which it reasonably expects, to the best of its knowledge and belief, the item or items subject to the assumptions to actually fall. When a forecast contains a range, the range is not selected in a biased or misleading manner, for example, a range in which one end is significantly less expected than the other. Minimum presentation guidelines for prospective financial statements are set forth in Appendix A [paragraph .68].
- d. *Financial projection*—Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and cash flows. A financial projection is sometimes prepared to present one or more hypothetical courses of action for evaluation, as in response to a question such as, "What would happen if . . . ?" A financial projection is based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken, given one or more hypothetical assumptions. A projection, like a forecast, may contain a range. Minimum presentation guidelines for prospective financial statements are set forth in Appendix A [paragraph .68].
- e. *Entity*—Any unit, existing or to be formed, for which financial statements could be prepared in accordance with generally accepted accounting principles (GAAP) or another comprehensive basis of accounting.⁴ For example, an entity can be an individual, partnership, corporation, trust, estate, association, or governmental unit.

³ The objective of pro forma financial information is to show what the significant effects on the historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. Although the transaction in question may be prospective, this section does not apply to such presentations because they are essentially historical financial statements and do not purport to be prospective financial statements. See section 401, *Reporting on Pro Forma Financial Information*.

⁴ AU section 623, *Special Reports*, discusses comprehensive bases of accounting other than GAAP.

- f. *Hypothetical assumption*—An assumption used in a financial projection to present a condition or course of action that is not necessarily expected to occur, but is consistent with the purpose of the projection.
- g. *Responsible party*—The person or persons who are responsible for the assumptions underlying the prospective financial statements. The responsible party usually is management, but it can be persons outside of the entity who do not currently have the authority to direct operations (for example, a party considering acquiring the entity).
- h. *Assembly*—The manual or computer processing of mathematical or other clerical functions related to the presentation of the prospective financial statements. Assembly does not refer to the mere reproduction and collation of such statements or to the responsible party's use of the practitioner's computer processing hardware or software.
- i. *Key factors*—The significant matters on which an entity's future results are expected to depend. Such factors are basic to the entity's operations and thus encompass matters that affect, among other things, the entity's sales, production, service, and financing activities. Key factors serve as a foundation for prospective financial statements and are the bases for the assumptions.

Uses of Prospective Financial Statements

.09 Prospective financial statements are for either *general use* or *limited use*. *General use* of prospective financial statements refers to the use of the statements by persons with whom the responsible party is not negotiating directly, for example, in an offering statement of an entity's debt or equity interests. Because recipients of prospective financial statements distributed for general use are unable to ask the responsible party directly about the presentation, the presentation most useful to them is one that portrays, to the best of the responsible party's knowledge and belief, the expected results. Thus, only a financial forecast is appropriate for general use.

.10 *Limited use* of prospective financial statements refers to the use of prospective financial statements by the responsible party alone or by the responsible party and third parties with whom the responsible party is negotiating directly. Examples include use in negotiations for a bank loan, submission to a regulatory agency, and use solely within the entity. Third-party recipients of prospective financial statements intended for limited use can ask questions of the responsible party and negotiate terms directly with it. Any type of prospective financial statements that would be useful in the circumstances would normally be appropriate for limited use. Thus, the presentation may be a financial forecast or a financial projection.

.11 Because a financial projection is not appropriate for general use, a practitioner should not consent to the use of his or her name in conjunction with a financial projection that he or she believes will be distributed to those who will not be negotiating directly with the responsible party, for example, in an offering statement of an entity's debt or equity interests, unless the projection is used to supplement a financial forecast.

Compilation of Prospective Financial Statements

.12 A compilation of prospective financial statements is a professional service that involves the following:

- a. Assembling, to the extent necessary, the prospective financial statements based on the responsible party's assumptions
- b. Performing the required compilation procedures,⁵ including reading the prospective financial statements with their summaries of significant assumptions and accounting policies, and considering whether they appear to be presented in conformity with AICPA presentation guidelines⁶ and not obviously inappropriate
- c. Issuing a compilation report

.13 A compilation is not intended to provide assurance on the prospective financial statements or the assumptions underlying such statements. Because of the limited nature of the practitioner's procedures, a compilation does not provide assurance that the practitioner will become aware of significant matters that might be disclosed by more extensive procedures, for example, those performed in an examination of prospective financial statements.

.14 The summary of significant assumptions is essential to the reader's understanding of prospective financial statements. Accordingly, the practitioner should not compile prospective financial statements that exclude disclosure of the summary of significant assumptions. Also, the practitioner should not compile a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation.

.15 The following standards apply to a compilation of prospective financial statements and to the resulting report.

- a. The compilation should be performed by a person or persons having adequate technical training and proficiency to compile prospective financial statements.
- b. Due professional care should be exercised in the performance of the compilation and the preparation of the report.
- c. The work should be adequately planned, and assistants, if any, should be properly supervised.
- d. Applicable compilation procedures should be performed as a basis for reporting on the compiled prospective financial statements. (See Appendix B [paragraph .69], "Training and Proficiency, Planning and Procedures Applicable to Compilations," for the procedures to be performed.)
- e. The report based on the practitioner's compilation of prospective financial statements should conform to the applicable guidance in paragraphs .18 through .28.

.16 The practitioner should consider, after applying the procedures specified in paragraph .69, whether representations or other information he or she has received appear to be obviously inappropriate, incomplete, or otherwise misleading, and if so, the practitioner should attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should ordinarily withdraw from the compilation engagement.⁷ (Note that the omission of disclosures, other than those relating to significant assumptions, would not require the practitioner to withdraw. See paragraph .26.)

⁵ See Appendix B [paragraph .69], subparagraph 5, for the required procedures.

⁶ AICPA presentation guidelines are detailed in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

⁷ The practitioner need not withdraw from the engagement if the effect of such information on the prospective financial statement does not appear to be material.

Working Papers

[.17] [Paragraph deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Reports on Compiled Prospective Financial Statements

.18 The practitioner's standard report on a compilation of prospective financial statements should include the following:

- a. An identification of the prospective financial statements presented by the responsible party
- b. A statement that the practitioner has compiled the prospective financial statements in accordance with attestation standards established by the American Institute of Certified Public Accountants
- c. A statement that a compilation is limited in scope and does not enable the practitioner to express an opinion or any other form of assurance on the prospective financial statements or the assumptions
- d. A caveat that the prospective results may not be achieved
- e. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- f. The manual or printed signature of the practitioner's firm
- g. The date of the compilation report

.19 The following is the form of the practitioner's standard report on the compilation of a forecast that does not contain a range.⁸

We have compiled the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending, in accordance with attestation standards established by the American Institute of Certified Public Accountants.⁹

A compilation is limited to presenting in the form of a forecast information that is the representation of management¹⁰ and does not include evaluation of the support for the assumptions underlying the forecast. We have not examined the forecast and, accordingly, do not express an opinion or any other form of assurance on the accompanying statements or assumptions. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[*Signature*]

[*Date*]

⁸ The forms of reports provided in this section are appropriate whether the presentation is based on GAAP or on another comprehensive basis of accounting.

⁹ When the presentation is summarized as discussed in Appendix A [paragraph .68], this sentence might read, "We have compiled the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending in accordance with attestation standards established by the American Institute of Certified Public Accountants."

¹⁰ If the responsible party is other than management, the references to management in the standard reports provided in this section should be changed to refer to the party who assumes responsibility for the assumptions.

.20 When the presentation is a projection, the practitioner's compilation report should include the report elements set forth in paragraph .18. Additionally, the report should include a statement describing the special purpose for which the projection was prepared as well as a separate paragraph that restricts the use of the report because it is intended to be used solely by the specified parties. The following is the form of the practitioner's standard report on a compilation of a projection that does not contain a range.

We have compiled the accompanying projected balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending, in accordance with attestation standards established by the American Institute of Certified Public Accountants.¹¹ The accompanying projection was prepared for *[state special purpose, for example, "the purpose of negotiating a loan to expand XYZ Company's plant"]*.

A compilation is limited to presenting in the form of a projection information that is the representation of management and does not include evaluation of the support for the assumptions underlying the projection. We have not examined the projection and, accordingly, do not express an opinion or any other form of assurance on the accompanying statements or assumptions. Furthermore, even if *[describe hypothetical assumption, for example, "the loan is granted and the plant is expanded,"]* there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

The accompanying projection and this report are intended solely for the information and use of *[identify specified parties, for example, "XYZ Company and DEF Bank"]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.21 When the prospective financial statements contain a range, the practitioner's standard report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. The following is an example of the separate paragraph to be added to the practitioner's report when he or she compiles prospective financial statements, in this case a forecast, that contain a range.

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted *[describe financial statement element or elements for which the expected results of one or more assumptions fall within a range, and identify the assumptions expected to fall within a range, for example, "revenue at the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments,"]* rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows *[describe one or more assumptions expected to fall within a range, for example, "at such occupancy rates."]* However, there is no assurance that the actual

¹¹ When the presentation is summarized as discussed in Appendix A [paragraph .68], this sentence might read as follows.

We have compiled the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending in accordance with attestation standards established by the American Institute of Certified Public Accountants.

results will fall within the range of [*describe one or more assumptions expected to fall within a range, for example, "occupancy rates"*] presented.

.22 The date of completion of the practitioner's compilation procedures should be used as the date of the report.

.23 A practitioner may compile prospective financial statements for an entity with respect to which he or she is not independent.¹² In such circumstances, the practitioner should specifically disclose his or her lack of independence; however, the reason for the lack of independence should not be described. When the practitioner is not independent, he or she may give the standard compilation report but should include the following sentence after the last paragraph.

We are not independent with respect to XYZ Company.

.24 Prospective financial statements may be included in a document that also contains historical financial statements and the practitioner's report thereon.¹³ In addition, the historical financial statements that appear in the document may be summarized and presented with the prospective financial statements for comparative purposes.¹⁴ An example of the reference to the practitioner's report on the historical financial statements when he or she audited, reviewed, or compiled those statements is presented below.

[*Concluding sentence of last paragraph*]

The historical financial statements for the year ended December 31, 20XX, [*from which the historical data are derived*] and our report thereon are set forth on pages XX-XX of this document.

.25 In some circumstances, a practitioner may wish to expand his or her report to emphasize a matter regarding the prospective financial statements. Such information may be presented in a separate paragraph of the practitioner's report. However, the practitioner should exercise care that emphasizing such a matter does not give the impression that he or she is expressing assurance or expanding the degree of responsibility he or she is taking with respect to such information.¹⁵ For example, the practitioner should not include statements in his or her compilation report about the mathematical accuracy of the statements or their conformity with presentation guidelines.

Modifications of the Standard Compilation Report

.26 An entity may request a practitioner to compile prospective financial statements that contain presentation deficiencies or omit disclosures other than

¹² In making a judgment about whether he or she is independent, the practitioner should be guided by the AICPA Code of Professional Conduct. Also, see the Auditing Interpretation "Applicability of Guidance on Reporting When Not Independent," (AU section 9504.19–22).

¹³ The practitioner's responsibility with respect to those historical financial statements upon which he or she is not engaged to perform a professional service is described in AU section 504, *Association With Financial Statements*, in the case of public entities, and Statement on Standards for Accounting and Review Services (SSARS) No. 1, *Compilation and Review of Financial Statements*, paragraph 3, in the case of nonpublic entities. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 9.]

¹⁴ AU section 552, *Reporting on Condensed Financial Statements and Selected Financial Data*, discusses the practitioner's report where summarized financial statements are derived from audited statements that are not included in the same document.

¹⁵ However, the practitioner may provide assurance on tax matters in order to comply with the requirements of regulations governing practice before the Internal Revenue Service (IRS) contained in 31 CFR pt. 10 (Treasury Department Circular No. 230).

those relating to significant assumptions. The practitioner may compile such prospective financial statements provided the deficiency or omission is clearly indicated in his or her report and is not, to his or her knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such statements.

.27 Notwithstanding the preceding, if the compiled prospective financial statements are presented on a comprehensive basis of accounting other than GAAP and do not include disclosure of the basis of accounting used, the basis should be disclosed in the practitioner's report.

.28 The following is an example of a paragraph that should be added to a report on compiled prospective financial statements, in this case a financial forecast, in which the summary of significant accounting policies has been omitted.

Management has elected to omit the summary of significant accounting policies required by the guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants. If the omitted disclosures were included in the forecast, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows for the forecast period. Accordingly, this forecast is not designed for those who are not informed about such matters.

Examination of Prospective Financial Statements

.29 An examination of prospective financial statements is a professional service that involves—

- a. Evaluating the preparation of the prospective financial statements.
- b. Evaluating the support underlying the assumptions.
- c. Evaluating the presentation of the prospective financial statements for conformity with AICPA presentation guidelines.¹⁶
- d. Issuing an examination report.

.30 As a result of his or her examination, the practitioner has a basis for reporting on whether, in his or her opinion—

- a. The prospective financial statements are presented in conformity with AICPA guidelines.
- b. The assumptions provide a reasonable basis for the responsible party's forecast, or whether the assumptions provide a reasonable basis for the responsible party's projection given the hypothetical assumptions.

.31 The practitioner should follow the general, fieldwork, and reporting standards for attestation engagements as set forth in section 101, *Attest Engagements*, in performing an examination of prospective financial statements and reporting thereon. (See paragraph .70 for standards concerning such technical training and proficiency, planning the examination engagement, and the types of procedures a practitioner should perform to obtain sufficient evidence for his or her examination report.)

¹⁶ AICPA presentation guidelines are detailed in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

Working Papers

[.32] [Paragraph deleted by the issuance of Statement on Standards for Attestation Engagements No. 11, January 2002.]

Reports on Examined Prospective Financial Statements

.33 The practitioner's standard report on an examination of prospective financial statements should include the following:

- a. A title that includes the word *independent*
- b. An identification of the prospective financial statements presented
- c. An identification of the responsible party and a statement that the prospective financial statements are the responsibility of the responsible party
- d. A statement that the practitioner's responsibility is to express an opinion on the prospective financial statements based on his or her examination
- e. A statement that the examination of the prospective financial statements was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes that the examination provides a reasonable basis for his or her opinion
- g. The practitioner's opinion that the prospective financial statements are presented in conformity with AICPA presentation guidelines and that the underlying assumptions provide a reasonable basis for the forecast or a reasonable basis for the projection given the hypothetical assumptions¹⁷
- h. A caveat that the prospective results may not be achieved
- i. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.34 The following is the form of the practitioner's standard report on an examination of a forecast that does not contain a range.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending.¹⁸ XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

¹⁷ The practitioner's report need not comment on the consistency of the application of accounting principles as long as the presentation of any change in accounting principles is in conformity with AICPA presentation guidelines as detailed in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

¹⁸ When the presentation is summarized as discussed in Appendix A [paragraph .68], this sentence might read, "We have examined the accompanying summarized forecast of XYZ Company as of December 31, 20XX, and for the year then ending."

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the accompanying forecast is presented in conformity with guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants, and the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.35 When a practitioner examines a projection, his or her opinion regarding the assumptions should be conditioned on the hypothetical assumptions; that is, he or she should express an opinion on whether the assumptions provide a reasonable basis for the projection given the hypothetical assumptions. The practitioner's examination report on a projection should include the report elements set forth in paragraph .33. Additionally, the report should include a statement describing the special purpose for which the projection was prepared as well as a separate paragraph that restricts the use of the report because it is intended to be used solely by specified parties. The following is the form of the practitioner's standard report on an examination of a projection that does not contain a range.

Independent Accountant's Report

We have examined the accompanying projected balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending.¹⁹ XYZ Company's management is responsible for the projection, which was prepared for [*state special purpose, for example, "the purpose of negotiating a loan to expand XYZ Company's plant"*]. Our responsibility is to express an opinion on the projection based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the projection. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the accompanying projection is presented in conformity with guidelines for presentation of a projection established by the American Institute of Certified Public Accountants, and the underlying assumptions provide a reasonable basis for management's projection [*describe the hypothetical assumption, for example, "assuming the granting of the requested loan for the purpose of expanding XYZ Company's plant as described in the summary of significant assumptions."*] However, even if [*describe hypothetical assumption,*

¹⁹ When the presentation is summarized as discussed in Appendix A [paragraph .68], this sentence might read, "We have examined the accompanying summarized projection of XYZ Company as of December 31, 20XX, and for the year then ending."

for example, "the loan is granted and the plant is expanded,") there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

The accompanying projection and this report are intended solely for the information and use of [identify specified parties, for example, "XYZ Company and DEF National Bank"] and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.36 When the prospective financial statements contain a range, the practitioner's standard report should also include a separate paragraph that states that the responsible party has elected to portray the expected results of one or more assumptions as a range. The following is an example of the separate paragraph to be added to the practitioner's report when he or she examines prospective financial statements, in this case a forecast, that contain a range.

As described in the summary of significant assumptions, management of XYZ Company has elected to portray forecasted [describe financial statement element or elements for which the expected results of one or more assumptions fall within a range, and identify assumptions expected to fall within a range, for example, "revenue at the amounts of \$X,XXX and \$Y,YYY, which is predicated upon occupancy rates of XX percent and YY percent of available apartments,"] rather than as a single point estimate. Accordingly, the accompanying forecast presents forecasted financial position, results of operations, and cash flows [describe one or more assumptions expected to fall within a range, for example, "at such occupancy rates."] However, there is no assurance that the actual results will fall within the range of [describe one or more assumptions expected to fall within a range, for example, "occupancy rates"] presented.

.37 The date of completion of the practitioner's examination procedures should be used as the date of the report.

Modifications to the Practitioner's Opinion²⁰

.38 The following circumstances result in the following types of modified practitioner's report involving the practitioner's opinion.

- a. If, in the practitioner's opinion, the prospective financial statements depart from AICPA presentation guidelines, he or she should express a qualified opinion (see paragraph .39) or an adverse opinion. (See paragraph .41.)²¹ However, if the presentation departs from the presentation guidelines because it fails to disclose assumptions that appear to be significant, the practitioner should express an adverse opinion. (See paragraphs .41 and .42.)

²⁰ Paragraphs .38 through .44 describe circumstances in which the practitioner's standard report on prospective financial statements may require modification. The guidance for modifying the practitioner's standard report is generally applicable to partial presentations. Also, depending on the nature of the presentation, the practitioner may decide to disclose that the partial presentation is not intended to be a presentation of financial position, results of operations, or cash flows. Illustrative reports on partial presentations may be found in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

²¹ However, the practitioner may issue the standard examination report on a financial forecast filed with the SEC that meets the presentation requirements of article XI of Regulation S-X.

- b. If the practitioner believes that one or more significant assumptions do not provide a reasonable basis for the forecast, or a reasonable basis for the projection given the hypothetical assumptions, he or she should express an adverse opinion. (See paragraph .41.)
- c. If the practitioner's examination is affected by conditions that preclude application of one or more procedures he or she considers necessary in the circumstances, he or she should disclaim an opinion and describe the scope limitation in his or her report. (See paragraph .43.)

.39 *Qualified Opinion.* In a qualified opinion, the practitioner should state, in a separate paragraph, all substantive reasons for modifying his or her opinion and describe the departure from AICPA presentation guidelines. His or her opinion should include the words "except" or "exception" as the qualifying language and should refer to the separate explanatory paragraph. The following is an example of an examination report on a forecast that is at variance with AICPA guidelines for presentation of a financial forecast.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

The forecast does not disclose significant accounting policies. Disclosure of such policies is required by guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants.

In our opinion, except for the omission of the disclosure of the significant accounting policies as discussed in the preceding paragraph, the accompanying forecast is presented in conformity with guidelines for a presentation of a forecast established by the American Institute of Certified Public Accountants and the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.40 Because of the nature, sensitivity, and interrelationship of prospective information, a reader would find a practitioner's report qualified for a measurement departure,²² the reasonableness of the underlying assumptions, or a scope limitation difficult to interpret. Accordingly, the practitioner should

²² An example of a measurement departure is the failure to capitalize a capital lease in a forecast where the historical financial statements for the prospective period are expected to be presented in conformity with GAAP.

not express his or her opinion about these items with language such as "except for . . ." or "subject to the effects of . . ." Rather, when a measurement departure, an unreasonable assumption, or a limitation on the scope of the practitioner's examination has led him or her to conclude that he or she cannot issue an unqualified opinion, he or she should issue the appropriate type of modified opinion described in paragraphs .41 through .44.

.41 *Adverse Opinion.* In an adverse opinion the practitioner should state, in a separate paragraph, all of the substantive reasons for his or her adverse opinion. His or her opinion should state that the presentation is not in conformity with presentation guidelines and should refer to the explanatory paragraph. When applicable, his or her opinion paragraph should also state that, in the practitioner's opinion, the assumptions do not provide a reasonable basis for the prospective financial statements. An example of an adverse opinion on an examination of prospective financial statements is set forth below. In this case, a financial forecast was examined and the practitioner's opinion was that a significant assumption was unreasonable. The example should be revised as appropriate for a different type of presentation or if the adverse opinion is issued because the statements do not conform to the presentation guidelines.

Independent Accountant's Report

We have examined the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.

As discussed under the caption "Sales" in the summary of significant forecast assumptions, the forecasted sales include, among other things, revenue from the Company's federal defense contracts continuing at the current level. The Company's present federal defense contracts will expire in March 20XX. No new contracts have been signed and no negotiations are under way for new federal defense contracts. Furthermore, the federal government has entered into contracts with another company to supply the items being manufactured under the Company's present contracts.

In our opinion, the accompanying forecast is not presented in conformity with guidelines for presentation of a financial forecast established by the American Institute of Certified Public Accountants because management's assumptions, as discussed in the preceding paragraph, do not provide a reasonable basis for management's forecast. We have no responsibility to update this report for events or circumstances occurring after the date of this report.

[*Signature*]

[*Date*]

.42 If the presentation, including the summary of significant assumptions, fails to disclose assumptions that, at the time, appear to be significant, the practitioner should describe the assumptions in his or her report and express an adverse opinion. The practitioner should not examine a presentation that omits all disclosures of assumptions. Also, the practitioner should not examine a financial projection that omits (a) an identification of the hypothetical

assumptions or (b) a description of the limitations on the usefulness of the presentation.

.43 *Disclaimer of Opinion.* In a disclaimer of opinion, the practitioner's report should indicate, in a separate paragraph, the respects in which the examination did not comply with standards for an examination. The practitioner should state that the scope of the examination was not sufficient to enable him or her to express an opinion with respect to the presentation or the underlying assumptions, and his or her disclaimer of opinion should include a direct reference to the explanatory paragraph. The following is an example of a report on an examination of prospective financial statements, in this case a financial forecast, for which a significant assumption could not be evaluated.

Independent Accountant's Report

We were engaged to examine the accompanying forecasted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the year then ending. XYZ Company's management is responsible for the forecast.

As discussed under the caption "Income From Investee" in the summary of significant forecast assumptions, the forecast includes income from an equity investee constituting 23 percent of forecasted net income, which is management's estimate of the Company's share of the investee's income to be accrued for 20XX. The investee has not prepared a forecast for the year ending December 31, 20XX, and we were therefore unable to obtain suitable support for this assumption.

Because, as described in the preceding paragraph, we are unable to evaluate management's assumption regarding income from an equity investee and other assumptions that depend thereon, the scope of our work was not sufficient to express, and we do not express, an opinion with respect to the presentation or the assumptions underlying the accompanying forecast. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

[Signature]

[Date]

.44 When there is a scope limitation and the practitioner also believes there are material departures from the presentation guidelines, those departures should be described in the practitioner's report.

Other Modifications to the Standard Examination Report

.45 The circumstances described below, although not necessarily resulting in modifications to the practitioner's opinion, would result in the following types of modifications to the standard examination report.

.46 *Emphasis of a Matter.* In some circumstances, the practitioner may wish to emphasize a matter regarding the prospective financial statements but nevertheless intends to express an unqualified opinion. The practitioner may present other information and comments he or she wishes to include, such as explanatory comments or other informative material, in a separate paragraph of his or her report.

.47 *Evaluation Based in Part on a Report of Another Practitioner.* When more than one practitioner is involved in the examination, the guidance provided for that situation in connection with examinations of historical financial statements is generally applicable. When the principal practitioner decides

to refer to the report of another practitioner as a basis, in part, for his or her own opinion, he or she should disclose that fact in stating the scope of the examination and should refer to the report of the other practitioner in expressing his or her opinion. Such a reference indicates the division of responsibility for the performance of the examination.

.48 Comparative Historical Financial Information. Prospective financial statements may be included in a document that also contains historical financial statements and a practitioner's report thereon.²³ In addition, the historical financial statements that appear in the document may be summarized and presented with the prospective financial statements for comparative purposes.²⁴ An example of the reference to the practitioner's report on the historical financial statements when he or she audited, reviewed, or compiled those statements is presented in paragraph .24.

.49 Reporting When the Examination Is Part of a Larger Engagement. When the practitioner's examination of prospective financial statements is part of a larger engagement, for example, a financial feasibility study or business acquisition study, it is appropriate to expand the report on the examination of the prospective financial statements to describe the entire engagement.

.50 The following is a report that might be issued when a practitioner chooses to expand his or her report on a financial feasibility study.²⁵

Independent Accountant's Report

- a. The Board of Directors
Example Hospital
Example, Texas
- b. We have prepared a financial feasibility study of Example Hospital's (the Hospital's) plans to expand and renovate its facilities. The study was undertaken to evaluate the ability of the Hospital to meet its operating expenses, working capital needs, and other financial requirements, including the debt service requirements associated with the proposed \$25,000,000 [*legal title of bonds*] issue, at an assumed average annual interest rate of 10.0 percent during the five years ending December 31, 20X6.
- c. The proposed capital improvements program (the Program) consists of a new two-level addition, which is to provide fifty additional medical-surgical beds, increasing the complement to 275 beds. In addition, various administrative and support service areas in the present facilities are to be remodeled. The Hospital administration anticipates that construction is to begin June 30, 20X2, and to be completed by December 31, 20X3.

²³ The practitioner's responsibility with respect to those historical financial statements upon which he or she is not engaged to perform a professional service is described in AU section 504, in the case of public entities, and SSARS No. 1, paragraph 3, in the case of nonpublic entities. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Standards for Accounting and Review Services No. 9.]

²⁴ AU section 552 discusses the practitioner's report for summarized financial statements derived from audited financial statements that are not included in the same document.

²⁵ Although the entity referred to in the report is a hospital, the form of report is also applicable to other entities such as hotels or stadiums. Also, although the illustrated report format and language should not be departed from in any significant way, the language used should be tailored to fit the circumstances that are unique to a particular engagement (for example, the description of the proposed capital improvement program, paragraph c; the proposed financing of the program, paragraphs b and d; the specific procedures applied by the practitioner, paragraph e; and any explanatory comments included in emphasis-of-a-matter paragraphs, paragraph i, which deals with general matter; and paragraph j, which deals with specific matters).

- d.* The estimated total cost of the Program is approximately \$30,000,000. It is assumed that the \$25,000,000 of revenue bonds that the Example Hospital Finance Authority proposes to issue would be the primary source of funds for the Program. The responsibility for payment of debt service on the bonds is solely that of the Hospital. Other necessary funds to finance the Program are assumed to be provided from the Hospital's funds, from a local fund drive, and from interest earned on funds held by the bond trustee during the construction period.
- e.* Our procedures included analysis of the following:
- Program history, objectives, timing, and financing
 - The future demand for the Hospital's services, including consideration of the following:
 - Economic and demographic characteristics of the Hospital's defined service area
 - Locations, capacities, and competitive information pertaining to other existing and planned area hospitals
 - Physician support for the Hospital and its programs
 - Historical utilization levels
 - Planning agency applications and approvals
 - Construction and equipment costs, debt service requirements, and estimated financing costs
 - Staffing patterns and other operating considerations
 - Third-party reimbursement policy and history
 - Revenue/expense/volume relationships
- f.* We also participated in gathering other information, assisted management in identifying and formulating its assumptions, and assembled the accompanying financial forecast based on those assumptions.
- g.* The accompanying financial forecast for the annual periods ending December 31, 20X2, through 20X6, is based on assumptions that were provided by or reviewed with and approved by management. The financial forecast includes the following:
- Balance sheets
 - Statements of operations
 - Statements of cash flows
 - Statements of changes in net assets
- h.* We have examined the financial forecast. Example Hospital's management is responsible for the forecast. Our responsibility is to express an opinion on the forecast based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary to evaluate both the assumptions used by management and the preparation and presentation of the forecast. We believe that our examination provides a reasonable basis for our opinion.
- i.* Legislation and regulations at all levels of government have affected and may continue to affect revenues and expenses of hospitals. The financial forecast is based on legislation and regulations currently in effect. If future legislation or regulations related to

hospital operations are enacted, such legislation or regulations could have a material effect on future operations.

- j. The interest rate, principal payments, Program costs, and other financing assumptions are described in the section entitled "Summary of Significant Forecast Assumptions and Rationale." If actual interest rates, principal payments, and funding requirements are different from those assumed, the amount of the bond issue and debt service requirements would need to be adjusted accordingly from those indicated in the forecast. If such interest rates, principal payments, and funding requirements are lower than those assumed, such adjustments would not adversely affect the forecast.
- k. Our conclusions are presented below.
 - In our opinion, the accompanying financial forecast is presented in conformity with guidelines for presentation of a financial forecast established by the American Institute of Certified Public Accountants.
 - In our opinion, the underlying assumptions provide a reasonable basis for management's forecast. However, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.
 - The accompanying financial forecast indicates that sufficient funds could be generated to meet the Hospital's operating expenses, working capital needs, and other financial requirements, including the debt service requirements associated with the proposed \$25,000,000 bond issue, during the forecast periods. However, the achievement of any financial forecast is dependent on future events, the occurrence of which cannot be assured.
- l. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

Applying Agreed-Upon Procedures to Prospective Financial Statements

.51 The practitioner who accepts an engagement to apply agreed-upon procedures to prospective financial statements should follow the general, fieldwork, and reporting standards for attest engagements set forth in section 101 and the guidance set forth herein and in section 201, *Agreed-Upon Procedures Engagements*.

.52 A practitioner may perform an agreed-upon procedures attest engagement on prospective financial statements²⁶ provided the following conditions are met.

- a. The practitioner is independent.
- b. The practitioner and the specified parties agree upon the procedures performed or to be performed by the practitioner.

²⁶ Practitioners should follow the guidance in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on a forecast and report thereon in a letter for an underwriter.

- c. The specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes.
- d. The prospective financial statements include a summary of significant assumptions.
- e. The prospective financial statements to which the procedures are to be applied are subject to reasonably consistent evaluation against criteria that are suitable and available to the specified parties.
- f. Criteria to be used in the determination of findings are agreed upon between the practitioner and the specified parties.²⁷
- g. The procedures to be applied to the prospective financial statements are expected to result in reasonably consistent findings using the criteria.
- h. Evidential matter related to the prospective financial statements to which the procedures are applied is expected to exist to provide a reasonable basis for expressing the findings in the practitioner's report.
- i. Where applicable, the practitioner and the specified users agree on any agreed-upon materiality limits for reporting purposes. (See section 201.25.)
- j. Use of the report is to be restricted to the specified parties.²⁸

.53 Generally, the practitioner's procedures may be as limited or as extensive as the specified parties desire, as long as the specified parties take responsibility for their sufficiency. However, mere reading of prospective financial statements does not constitute a procedure sufficient to permit a practitioner to report on the results of applying agreed-upon procedures to such statements. (See section 201.15.)

.54 To satisfy the requirements that the practitioner and the specified parties agree upon the procedures performed or to be performed and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified parties. For example, this may be accomplished by meeting with the specified parties or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified parties and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified parties, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures:

- Compare the procedures to be applied to written requirements of the specified parties.
- Discuss the procedures to be applied with appropriate representatives of the specified parties involved.
- Review relevant contracts with or correspondence from the specified parties.

²⁷ For example, accounting principles and other presentation criteria as discussed in chapter 8, "Presentation Guidelines," of the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

²⁸ In some cases, restricted-use reports filed with regulatory agencies are required by law or regulation to be made available to the public as a matter of public record. Also, a regulatory agency as part of its oversight responsibility for an entity may require access to restricted-use reports in which they are not named as a specified party. (See section 101.79.)

The practitioner should not report on an engagement when specified parties do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. (See section 201.36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.)

Reports on the Results of Applying Agreed-Upon Procedures

.55 The practitioner's report on the results of applying agreed-upon procedures should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties
- c. Reference to the prospective financial statements covered by the practitioner's report and the character of the engagement
- d. A statement that the procedures performed were those agreed to by the specified parties identified in the report
- e. Identification of the responsible party and a statement that the prospective financial statements are the responsibility of the responsible party
- f. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- g. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- h. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance—see section 201.24.)
- i. Where applicable, a description of any agreed-upon materiality limits (See section 201.25.)
- j. A statement that the practitioner was not engaged to and did not conduct an examination of prospective financial statements; a disclaimer of opinion on whether the presentation of the prospective financial statements is in conformity with AICPA presentation guidelines and on whether the underlying assumptions provide a reasonable basis for the forecast, or a reasonable basis for the projection given the hypothetical assumptions; and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported
- k. A statement of restrictions on the use of the report because it is intended to be used solely by the specified parties
- l. Where applicable, reservations or restrictions concerning procedures or findings as discussed in section 201.33, .35, .39, and .40
- m. A caveat that the prospective results may not be achieved
- n. A statement that the practitioner assumes no responsibility to update the report for events and circumstances occurring after the date of the report
- o. Where applicable, a description of the nature of the assistance provided by a specialist as discussed in section 201.19–.21

- p.* The manual or printed signature of the practitioner's firm
- q.* The date of the report

.56 The following illustrates a report on applying agreed-upon procedures to the prospective financial statements. (See section 201.)

Independent Accountant's Report
on Applying Agreed-Upon Procedures

Board of Directors—XYZ Corporation

Board of Directors—ABC Company

At your request, we have performed certain agreed-upon procedures, as enumerated below, with respect to the forecasted balance sheet and the related forecasted statements of income, retained earnings, and cash flows of DEF Company, a subsidiary of ABC Company, as of December 31, 20XX, and for the year then ending. These procedures, which were agreed to by the Boards of Directors of XYZ Corporation and ABC Company, were performed solely to assist you in evaluating the forecast in connection with the proposed sale of DEF Company to XYZ Corporation. DEF Company's management is responsible for the forecast.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the accompanying prospective financial statements. Accordingly, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

This report is intended solely for the information and use of the Boards of Directors of ABC Company and XYZ Corporation and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

Partial Presentations

.57 The practitioner's procedures on a partial presentation may be affected by the nature of the information presented. Many elements of prospective financial statements are interrelated. The practitioner should give appropriate consideration to whether key factors affecting elements, accounts, or items that are interrelated with those in the partial presentation he or she has been engaged to examine or compile have been considered, including key

factors that may not necessarily be obvious to the partial presentation (for example, productive capacity relative to a sales forecast), and whether all significant assumptions have been disclosed. The practitioner may find it necessary for the scope of the examination or compilation of some partial presentations to be similar to that for the examination or compilation of a presentation of prospective financial statements. For example, the scope of a practitioner's procedures when he or she examines forecasted results of operations would likely be similar to that of procedures used for the examination of prospective financial statements since the practitioner would most likely need to consider the interrelationships of all accounts in the examination of results of operations.

.58 Because partial presentations are generally appropriate only for limited use, reports on partial presentations of both forecasted and projected information should include a description of any limitations on the usefulness of the presentation.

Other Information

.59 When a practitioner's compilation, review, or audit report on historical financial statements is included in a practitioner-submitted document containing prospective financial statements, the practitioner should either examine, compile, or apply agreed-upon procedures to the prospective financial statements and report accordingly, unless the following occur.

- a. The prospective financial statements are labeled as a "budget."
- b. The budget does not extend beyond the end of the current fiscal year.
- c. The budget is presented with interim historical financial statements for the current year.

In such circumstances, the practitioner need not examine, compile, or apply agreed-upon procedures to the budget; however, he or she should report on it and—

- a. Indicate that he or she did not examine or compile the budget.
- b. Disclaim an opinion or any other form of assurance on the budget.

In addition, the budgeted information may omit the summaries of significant assumptions and accounting policies required by the guidelines for presentation of prospective financial statements established by the AICPA, provided such omission is not, to the practitioner's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such budgeted information, and is disclosed in the practitioner's report. The following is the form of the standard paragraphs to be added to the practitioner's report in this circumstance when the summaries of significant assumptions and accounting policies have been omitted.

The accompanying budgeted balance sheet, statements of income, retained earnings, and cash flows of XYZ Company as of December 31, 20XX, and for the six months then ending, have not been compiled or examined by us, and, accordingly, we do not express an opinion or any other form of assurance on them.

Management has elected to omit the summaries of significant assumptions and accounting policies required under established guidelines for presentation of prospective financial statements. If the omitted summaries were included in the budgeted information, they might influence the user's conclusions about the company's budgeted information. Accordingly, this budgeted information is not designed for those who are not informed about such matters.

.60 When the practitioner's compilation, review, or audit report on historical financial statements is included in a client-prepared document containing prospective financial statements, the practitioner should not consent to the use of his or her name in the document unless:

- a. He or she has examined, compiled, or applied agreed-upon procedures to the prospective financial statements and his or her report accompanies them.
- b. The prospective financial statements are accompanied by an indication by the responsible party or the practitioner that the practitioner has not performed such a service on the prospective financial statements and that the practitioner assumes no responsibility for them.
- c. Another practitioner has examined, compiled, or applied agreed-upon procedures to the prospective financial statements and his or her report is included in the document.

In addition, if the practitioner has audited the historical financial statements and they accompany prospective financial statements that he or she did not examine, compile, or apply agreed-upon procedures to in certain²⁹ client-prepared documents, he or she should refer to AU section 550, *Other Information in Documents Containing Audited Financial Statements*.

.61 The practitioner whose report on prospective financial statements is included in a client-prepared document containing historical financial statements should not consent to the use of his or her name in the document unless:

- a. He or she has compiled, reviewed, or audited the historical financial statements and his or her report accompanies them.
- b. The historical financial statements are accompanied by an indication by the responsible party or the practitioner that the practitioner has not performed such a service on the historical financial statements and that the practitioner assumes no responsibility for them.
- c. Another practitioner has compiled, reviewed, or audited the historical financial statements and his or her report is included in the document.

.62 An entity may publish various documents that contain information other than historical financial statements in addition to the compiled or examined prospective financial statements and the practitioner's report thereon. The practitioner's responsibility with respect to information in such a document does not extend beyond the financial information identified in the report, and he or she has no obligation to perform any procedures to corroborate other information contained in the document. However, the practitioner should read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the prospective financial statements.

²⁹ AU section 550 applies only to such prospective financial statements contained in (a) annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the Securities Exchange Act of 1934 or (b) other documents to which the auditor, at the client's request, devotes attention. AU section 550 does not apply when the historical financial statements and report appear in a registration statement filed under the Securities Act of 1933 [in which case, see AU section 711, *Filings Under Federal Securities Statutes*].

.63 If the practitioner examines prospective financial statements included in a document containing inconsistent information, he or she might not be able to conclude that there is adequate support for each significant assumption. The practitioner should consider whether the prospective financial statements, his or her report, or both require revision. Depending on the conclusion he or she reaches, the practitioner should consider other actions that may be appropriate, such as issuing an adverse opinion, disclaiming an opinion because of a scope limitation, withholding the use of his or her report in the document, or withdrawing from the engagement.

.64 If the practitioner compiles the prospective financial statements included in the document containing inconsistent information, he or she should attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should withhold the use of his or her report or withdraw from the compilation engagement.

.65 If, while reading the other information appearing in the document containing the examined or compiled prospective financial statements, as described in the preceding paragraphs, the practitioner becomes aware of information that he or she believes is a material misstatement of fact that is not an inconsistent statement, he or she should discuss the matter with the responsible party. In connection with this discussion, the practitioner should consider that he or she may not have the expertise to assess the validity of the statement made, that there may be no standards by which to assess its presentation, and that there may be valid differences of judgment or opinion. If the practitioner concludes that he or she has a valid basis for concern, he or she should propose that the responsible party consult with some other party whose advice might be useful, such as the entity's legal counsel.

.66 If, after discussing the matter as described in paragraph .65, the practitioner concludes that a material misstatement of fact remains, the action he or she takes will depend on his or her judgment in the particular circumstances. The practitioner should consider steps such as notifying the responsible party in writing of his or her views concerning the information and consulting his or her legal counsel about further appropriate action in the circumstances.

Effective Date

.67 This section is effective when the date of the practitioner's report is on or after June 1, 2001. Early application is permitted.

.68

Appendix A

Minimum Presentation Guidelines*

1. Prospective information presented in the format of historical financial statements facilitates comparisons with financial position, results of operations, and cash flows of prior periods, as well as those actually achieved for the prospective period. Accordingly, prospective financial statements preferably should be in the format of the historical financial statements that would be issued for the period(s) covered unless there is an agreement between the responsible party and potential users specifying another format. Prospective financial statements may take the form of complete basic financial statements¹ or may be limited to the following minimum items (where such items would be presented for historical financial statements for the period).²

- a. Sales or gross revenues
- b. Gross profit or cost of sales
- c. Unusual or infrequently occurring items
- d. Provision for income taxes
- e. Discontinued operations or extraordinary items
- f. Income from continuing operations
- g. Net income
- h. Basic and diluted earnings per share
- i. Significant changes in financial position³
- j. A description of what the responsible party intends the prospective financial statements to present, a statement that the assumptions are based on the responsible party's judgment at the time the prospective information was prepared, and a caveat that the prospective results may not be achieved
- k. Summary of significant assumptions
- l. Summary of significant accounting policies

* *Note:* This Appendix describes the minimum items that constitute a presentation of a financial forecast or a financial projection, as specified in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*. Complete presentation guidelines for entities that choose to issue prospective financial statements, together with illustrative presentations, are included in the Guide. The Guide also prescribes presentation guidelines for partial presentations.

¹ The details of each statement may be summarized or condensed so that only the major items in each are presented. The usual footnotes associated with historical financial statements need not be included as such. However, significant assumptions and accounting policies should be disclosed.

² Similar types of financial information should be presented for entities for which these terms do not describe operations. Further, similar items should be presented if a comprehensive basis of accounting other than GAAP is used to present the prospective financial statements. For example, if the cash basis were used, item a would be cash receipts.

³ The responsible party should disclose significant cash flows and other significant changes in balance sheet accounts during the period. However, neither a balance sheet nor a statement of cash flows, as described in FASB Statement No. 95, *Statement of Cash Flows*, is required. Furthermore, none of the specific captions or disclosures required by FASB Statement No. 95 is required. Significant changes disclosed will depend on the circumstances; however, such disclosures will often include cash flows from operations. See the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*, Exhibits 9.07 and 9.11, for illustrations of alternate methods of presenting significant cash flows.

2. A presentation that omits one or more of the applicable minimum items a through i above is a partial presentation, which would not ordinarily be appropriate for general use. If an omitted applicable minimum item is derivable from the information presented, the presentation would not be deemed to be a partial presentation. A presentation that contains the applicable minimum items a through i above, but omits items j through l above, is subject to all of the provisions of this section applicable to complete presentations.

Appendix B

Training and Proficiency, Planning, and Procedures Applicable to Compilations

Training and Proficiency

1. The practitioner should be familiar with the guidelines for the preparation and presentation of prospective financial statements. The guidelines are contained in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

2. The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates or will operate that will enable him or her to compile prospective financial statements that are in appropriate form for an entity operating in that industry.

Planning the Compilation Engagement

3. To compile the prospective financial statements of an existing entity, the practitioner should obtain a general knowledge of the nature of the entity's business transactions and the key factors upon which its future financial results appear to depend. He or she should also obtain an understanding of the accounting principles and practices of the entity to determine whether they are comparable to those used within the industry in which the entity operates.

4. To compile the prospective financial statements of a proposed entity, the practitioner should obtain knowledge of the proposed operations and the key factors upon which its future results appear to depend and that have affected the performance of entities in the same industry.

Compilation Procedures

5. In a compilation of prospective financial statements the practitioner should perform the following, where applicable.

- a. Establish an understanding with the client regarding the services to be performed. The understanding should include the objectives of the engagement, the client's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the client. If the practitioner believes an understanding with the client has not been established, he or she should decline to accept or perform the engagement.
- b. Inquire about the accounting principles used in the preparation of the prospective financial statements.
 - (1) For existing entities, compare the accounting principles used to those used in the preparation of previous historical financial statements and inquire whether such principles are the same as those expected to be used in the historical financial statements covering the prospective period.

- (2) For entities to be formed or entities formed that have not commenced operations, compare specialized industry accounting principles used, if any, to those typically used in the industry. Inquire whether the accounting principles used for the prospective financial statements are those that are expected to be used when or if the entity commences operations.
- c. Ask how the responsible party identifies the key factors and develops its assumptions.
 - d. List, or obtain a list of the responsible party's significant assumptions providing the basis for the prospective financial statements and consider whether there are any obvious omissions in light of the key factors upon which the prospective results of the entity appear to depend.
 - e. Consider whether there appear to be any obvious internal inconsistencies in the assumptions.
 - f. Perform or test the mathematical accuracy of the computations that translate the assumptions into prospective financial statements.
 - g. Read the prospective financial statements, including the summary of significant assumptions, and consider whether—
 - (1) The statements, including the disclosures of assumptions and accounting policies, appear to be not presented in conformity with the AICPA presentation guidelines for prospective financial statements.¹
 - (2) The statements, including the summary of significant assumptions, appear to be not obviously inappropriate in relation to the practitioner's knowledge of the entity and its industry and, for the following:
 - (a) *Financial forecast*, the expected conditions and course of action in the prospective period
 - (b) *Financial projection*, the purpose of the presentation
 - h. If a significant part of the prospective period has expired, inquire about the results of operations or significant portions of the operations (such as sales volume), and significant changes in financial position, and consider their effect in relation to the prospective financial statements. If historical financial statements have been prepared for the expired portion of the period, the practitioner should read such statements and consider those results in relation to the prospective financial statements.
 - i. Confirm his or her understanding of the statements (including assumptions) by obtaining written representations from the responsible party. Because the amounts reflected in the statements are not supported by historical books and records but rather by assumptions, the practitioner should obtain representations in which the responsible party indicates its responsibility for the assumptions. The representations should be signed by the responsible party at the highest level of authority who the practitioner believes is responsible for and knowledgeable, directly or through others, about matters covered by the representations.

¹ Presentation guidelines for entities that issue prospective financial statements are set forth and illustrated in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

- (1) For a *financial forecast*, the representations should include the responsible party's assertion that the financial forecast presents, to the best of its knowledge and belief, the expected financial position, results of operations, and cash flows for the forecast period and that the forecast reflects the responsible party's judgment, based on present circumstances, of the expected conditions and its expected course of action. The representations should also include a statement that the forecast is presented in conformity with guidelines for presentation of a forecast established by the American Institute of Certified Public Accountants. The representations should also include a statement that the assumptions on which the forecast is based are reasonable. If the forecast contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.
 - (2) For a *financial projection*, the representations should include the responsible party's assertion that the financial projection presents, to the best of its knowledge and belief, the expected financial position, results of operations, and cash flows for the projection period given the hypothetical assumptions, and that the projection reflects its judgment, based on present circumstances, of expected conditions and its expected course of action given the occurrence of the hypothetical events. The representations should also (i) identify the hypothetical assumptions and describe the limitations on the usefulness of the presentation, (ii) state that the assumptions are appropriate, (iii) indicate if the hypothetical assumptions are improbable, and (iv) if the projection contains a range, include a statement that, to the best of the responsible party's knowledge and belief, given the hypothetical assumptions, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner. The representations should also include a statement that the projection is presented in conformity with guidelines for presentation of a projection established by the American Institute of Certified Public Accountants.
- j. Consider, after applying the above procedures, whether he or she has received representations or other information that appears to be obviously inappropriate, incomplete, or otherwise misleading and, if so, attempt to obtain additional or revised information. If he or she does not receive such information, the practitioner should ordinarily withdraw from the compilation engagement.² (Note that the omission of disclosures, other than those relating to significant assumptions, would not require the practitioner to withdraw; see paragraph .26.)

² The practitioner need not withdraw from the engagement if the effect of such information on the prospective financial statements does not appear to be material.

Appendix C

Training and Proficiency, Planning, and Procedures Applicable to Examinations

Training and Proficiency

1. The practitioner should be familiar with the guidelines for the preparation and presentation of prospective financial statements. The guidelines are contained in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

2. The practitioner should possess or obtain a level of knowledge of the industry and the accounting principles and practices of the industry in which the entity operates or will operate that will enable him or her to examine prospective financial statements that are in appropriate form for an entity operating in that industry.

Planning an Examination Engagement

3. Planning the examination engagement involves developing an overall strategy for the expected scope and conduct of the engagement. To develop such a strategy, the practitioner needs to have sufficient knowledge to enable him or her to adequately understand the events, transactions, and practices that, in his or her judgment, may have a significant effect on the prospective financial statements.

4. Factors to be considered by the practitioner in planning the examination include the following:

- a. The accounting principles to be used and the type of presentation
- b. The anticipated level of attestation risk related to the prospective financial statements¹
- c. Preliminary judgments about materiality levels
- d. Items within the prospective financial statements that are likely to require revision or adjustment
- e. Conditions that may require extension or modification of the practitioner's examination procedures
- f. Knowledge of the entity's business and its industry
- g. The responsible party's experience in preparing prospective financial statements
- h. The length of the period covered by the prospective financial statements
- i. The process by which the responsible party develops its prospective financial statements

¹ *Attestation risk* is the risk that the practitioner may unknowingly fail to appropriately modify his or her examination report on prospective financial statements that are materially misstated, that is, that are not presented in conformity with AICPA presentation guidelines or have assumptions that do not provide a reasonable basis for management's forecast, or management's projection given the hypothetical assumptions. It consists of (a) the risk (consisting of *inherent risk* and *control risk*) that the prospective financial statements contain errors that could be material and (b) the risk (*detection risk*) that the practitioner will not detect such errors.

5. The practitioner should obtain knowledge of the entity's business, accounting principles, and the key factors upon which its future financial results appear to depend. The practitioner should focus on areas such as the following:

- a. The availability and cost of resources needed to operate (Principal items usually include raw materials, labor, short-term and long-term financing, and plant and equipment.)
- b. The nature and condition of markets in which the entity sells its goods or services, including final consumer markets if the entity sells to intermediate markets
- c. Factors specific to the industry, including competitive conditions, sensitivity to economic conditions, accounting policies, specific regulatory requirements, and technology
- d. Patterns of past performance for the entity or comparable entities, including trends in revenue and costs, turnover of assets, uses and capacities of physical facilities, and management policies

Examination Procedures

6. The practitioner should establish an understanding with the responsible party regarding the services to be performed. The understanding should include the objectives of the engagement, the responsible party's responsibilities, the practitioner's responsibilities, and limitations of the engagement. The practitioner should document the understanding in the working papers, preferably through a written communication with the responsible party. If the practitioner believes an understanding with the responsible party has not been established, he or she should decline to accept or perform the engagement. If the responsible party is different than the client, the practitioner should establish the understanding with both the client and the responsible party, and the understanding also should include the client's responsibilities.

7. The practitioner's objective in an examination of prospective financial statements is to accumulate sufficient evidence to restrict attestation risk to a level that is, in his or her professional judgment, appropriate for the level of assurance that may be imparted by his or her examination report. In a report on an examination of prospective financial statements, the practitioner provides assurance only about whether the prospective financial statements are presented in conformity with AICPA presentation guidelines and whether the assumptions provide a reasonable basis for management's forecast, or a reasonable basis for management's projection given the hypothetical assumptions. He or she does not provide assurance about the achievability of the prospective results because events and circumstances frequently do not occur as expected and achievement of the prospective results is dependent on the actions, plans, and assumptions of the responsible party.

8. In his or her examination of prospective financial statements, the practitioner should select from all available procedures—that is, procedures that assess inherent and control risk and restrict detection risk—any combination that can restrict attestation risk to such an appropriate level. The extent to which examination procedures will be performed should be based on the practitioner's consideration of the following:

- a. The nature and materiality of the information to the prospective financial statements taken as a whole
- b. The likelihood of misstatements

- c. Knowledge obtained during current and previous engagements
- d. The responsible party's competence with respect to prospective financial statements
- e. The extent to which the prospective financial statements are affected by the responsible party's judgment, for example, its judgment in selecting the assumptions used to prepare the prospective financial statements
- f. The adequacy of the responsible party's underlying data

9. The practitioner should perform those procedures he or she considers necessary in the circumstances to report on whether the assumptions provide a reasonable basis for the following.

- a. *Financial forecast.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the forecast if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, its estimate of expected financial position, results of operations, and cash flows for the prospective period² and the practitioner concludes, based on his or her examination, (i) that the responsible party has explicitly identified all factors expected to materially affect the operations of the entity during the prospective period and has developed appropriate assumptions with respect to such factors³ and (ii) that the assumptions are suitably supported.
- b. *Financial projection given the hypothetical assumptions.* The practitioner can form an opinion that the assumptions provide a reasonable basis for the financial projection given the hypothetical assumptions if the responsible party represents that the presentation reflects, to the best of its knowledge and belief, expected financial position, results of operations, and cash flows for the prospective period given the hypothetical assumptions⁴ and the practitioner concludes, based on his or her examination, that:
 - (1) The responsible party has explicitly identified all factors that would materially affect the operations of the entity during the prospective period if the hypothetical assumptions were to materialize and has developed appropriate assumptions with respect to such factors and
 - (2) The other assumptions are suitably supported given the hypothetical assumptions. However, as the number and significance of the hypothetical assumptions increase, the practitioner may not be able to satisfy himself or herself about the presentation as a whole by obtaining support for the remaining assumptions.

² If the forecast contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

³ An attempt to list all assumptions is inherently not feasible. Frequently, basic assumptions that have enormous potential impact are considered to be implicit, such as conditions of peace and absence of natural disasters.

⁴ If the projection contains a range, the representation should also include a statement that, to the best of the responsible party's knowledge and belief, given the hypothetical assumptions, the item or items subject to the assumption are expected to actually fall within the range and that the range was not selected in a biased or misleading manner.

10. The practitioner should evaluate the support for the assumptions.
- a. *Financial forecast*—The practitioner can conclude that assumptions are suitably supported if the preponderance of information supports each significant assumption.
 - b. *Financial projection*—In evaluating support for assumptions other than hypothetical assumptions, the practitioner can conclude that they are suitably supported if the preponderance of information supports each significant assumption given the hypothetical assumptions. The practitioner need not obtain support for the hypothetical assumptions, although he or she should consider whether they are consistent with the purpose of the presentation.
11. In evaluating the support for assumptions, the practitioner should consider—
- a. Whether sufficient pertinent sources of information about the assumptions have been considered. Examples of external sources the practitioner might consider are government publications, industry publications, economic forecasts, existing or proposed legislation, and reports of changing technology. Examples of internal sources are budgets, labor agreements, patents, royalty agreements and records, sales backlog records, debt agreements, and actions of the board of directors involving entity plans.
 - b. Whether the assumptions are consistent with the sources from which they are derived.
 - c. Whether the assumptions are consistent with each other.
 - d. Whether the historical financial information and other data used in developing the assumptions are sufficiently reliable for that purpose. Reliability can be assessed by inquiry and analytical or other procedures, some of which may have been completed in past audits or reviews of the historical financial statements. If historical financial statements have been prepared for an expired part of the prospective period, the practitioner should consider the historical data in relation to the prospective results for the same period, where applicable. If the prospective financial statements incorporate such historical financial results and that period is significant to the presentation, the practitioner should make a review of the historical information in conformity with the applicable standards for a review.⁵
 - e. Whether the historical financial information and other data used in developing the assumptions are comparable over the periods specified or whether the effects of any lack of comparability were considered in developing the assumptions.
 - f. Whether the logical arguments or theory, considered with the data supporting the assumptions, are reasonable.

⁵ If the entity is an SEC registrant or non-SEC registrant that makes a filing with a regulatory agency in preparation for a public offering or listing, the practitioner should perform the procedures in AU section 722, *Interim Financial Information*, paragraphs .13 through .19. If the entity is nonpublic, the practitioner should perform the procedures in SSARS No. 1, *Compilation and Review of Financial Statements*, paragraphs 24 through 33. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100 and Statement on Standards for Accounting and Review Services No. 9.]

12. In evaluating the preparation and presentation of the prospective financial statements, the practitioner should perform procedures that will provide reasonable assurance as to the following.

- a. The presentation reflects the identified assumptions.
- b. The computations made to translate the assumptions into prospective amounts are mathematically accurate.
- c. The assumptions are internally consistent.
- d. Accounting principles used in the—
 - (1) Financial forecast are consistent with the accounting principles expected to be used in the historical financial statements covering the prospective period and those used in the most recent historical financial statements, if any.
 - (2) Financial projection are consistent with the accounting principles expected to be used in the prospective period and those used in the most recent historical financial statements, if any, or that they are consistent with the purpose of the presentation.⁶
- e. The presentation of the prospective financial statements follows the AICPA guidelines applicable for such statements.⁷
- f. The assumptions have been adequately disclosed based on AICPA presentation guidelines for prospective financial statements.

13. The practitioner should consider whether the prospective financial statements, including related disclosures, should be revised because of any of the following:

- a. Mathematical errors
- b. Unreasonable or internally inconsistent assumptions
- c. Inappropriate or incomplete presentation
- d. Inadequate disclosure

14. The practitioner should obtain written representations from the responsible party acknowledging its responsibility for both the presentation and the underlying assumptions. The representations should be signed by the responsible party at the highest level of authority who the practitioner believes is responsible for and knowledgeable, directly or through others in the organization, about the matters covered by the representations. Paragraph .69, subparagraph 5*i* describes the specific representations to be obtained for a financial forecast and a financial projection. See paragraph .43 for guidance on the form of report to be rendered if the practitioner is not able to obtain the required representations.

⁶ The accounting principles used in a financial projection need not be those expected to be used in the historical financial statements for the prospective period if use of different principles is consistent with the purpose of the presentation.

⁷ Presentation guidelines for entities that issue prospective financial statements are set forth and illustrated in the AICPA Audit and Accounting Guide *Guide for Prospective Financial Information*.

AT Section 401

Reporting on Pro Forma Financial Information

Source: SSAE No. 10.

Effective when the presentation of pro forma financial information is as of or for a period ending on or after June 1, 2001. Earlier application is permitted.

Introduction

.01 This section provides guidance to a practitioner who is engaged to issue or does issue an examination or a review report on pro forma financial information. Such an engagement should comply with the general and field-work standards set forth in section 101, *Attest Engagements*, and the specific performance and reporting standards set forth in this section.¹

.02 When pro forma financial information is presented outside the basic financial statements but within the same document, and the practitioner is not engaged to report on the pro forma financial information, the practitioner's responsibilities are described in AU section 550, *Other Information in Documents Containing Audited Financial Statements*, and AU section 711, *Filings Under Federal Securities Statutes*.

.03 This section does not apply in those circumstances when, for purposes of a more meaningful presentation, a transaction consummated after the balance-sheet date is reflected in the historical financial statements (such as a revision of debt maturities or a revision of earnings per share calculations for a stock split).²

Presentation of Pro Forma Financial Information

.04 The objective of pro forma financial information is to show what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. Pro forma financial information is commonly used to show the effects of transactions such as the following:

- Business combination
- Change in capitalization

¹ AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, paragraphs .03 through .05, identify certain parties who may request a letter. When one of those parties requests a letter or asks the practitioner to perform agreed-upon procedures on pro forma financial information in connection with an offering, the practitioner should follow the guidance in AU section 634.03, .10, .36, .42, and .43.

² In certain circumstances, generally accepted accounting principles (GAAP) may require the presentation of pro forma financial information in the financial statements or the accompanying notes. That information includes, for example, pro forma financial information required by Accounting Principles Board (APB) Opinion No. 16, *Business Combinations* (paragraphs 61, 65, and 96 [AC section B50.120, .124, and .165]); APB Opinion 20, *Accounting Changes* (paragraph 21 [AC section A06.117]); or, in some cases, pro forma financial information relating to subsequent events; see AU section 560, *Subsequent Events*, paragraph .05. For guidance in reporting on audited financial statements that include pro forma financial information for a business combination or subsequent event, see AU section 508, *Reports on Audited Financial Statements*, paragraph .28.

- Disposition of a significant portion of the business
- Change in the form of business organization or status as an autonomous entity
- Proposed sale of securities and the application of the proceeds

.05 This objective is achieved primarily by applying pro forma adjustments to historical financial information. Pro forma adjustments should be based on management's assumptions and give effect to all significant effects directly attributable to the transaction (or event).

.06 Pro forma financial information should be labeled as such to distinguish it from historical financial information. This presentation should describe the transaction (or event) that is reflected in the pro forma financial information, the source of the historical financial information on which it is based, the significant assumptions used in developing the pro forma adjustments, and any significant uncertainties about those assumptions. The presentation also should indicate that the pro forma financial information should be read in conjunction with related historical financial information and that the pro forma financial information is not necessarily indicative of the results (such as financial position and results of operations, as applicable) that would have been attained had the transaction (or event) actually taken place earlier.³

Conditions for Reporting

.07 The practitioner may agree to report on an examination or a review of pro forma financial information if the following conditions are met.

- a. The document that contains the pro forma financial information includes (or incorporates by reference) complete historical financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) and, if pro forma financial information is presented for an interim period, the document also includes (or incorporates by reference) historical interim financial information for that period (which may be presented in condensed form).⁴ In the case of a business combination, the document should include (or incorporate by reference) the appropriate historical financial information for the significant constituent parts of the combined entity.
- b. The historical financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based have been audited or reviewed.⁵ The practitioner's attestation risk relating to the pro forma financial information is

³ For further guidance on the presentation of pro forma financial information included in filings with the Securities and Exchange Commission (SEC), see Article 11 of Regulation S-X.

⁴ For pro forma financial information included in an SEC Form 8-K, historical financial information previously included in an SEC filing would meet this requirement. Interim historical financial information may be presented as a column in the pro forma financial information.

⁵ The practitioner's audit or review report should be included (or incorporated by reference) in the document containing the pro forma financial information. The review may be that as defined in AU section 722, *Interim Financial Information*, for SEC registrants or non-SEC registrants that make a filing with a regulatory agency in preparation for a public offering or listing, or as defined in Statement on Standards for Accounting and Review Services (SSARS) No. 1, *Compilation and Review of Financial Statements*, for nonpublic companies. [Footnote revised, November 2002, to reflect conforming changes necessary due to the issuance of Statement on Auditing Standards No. 100.]

affected by the scope of the engagement providing the practitioner with assurance about the underlying historical financial information to which the pro forma adjustments are applied. Therefore, the level of assurance given by the practitioner on the pro forma financial information, as of a particular date or for a particular period, should be limited to the level of assurance provided on the historical financial statements (or, in the case of a business combination, the lowest level of assurance provided on the underlying historical financial statements of any significant constituent part of the combined entity). For example, if the underlying historical financial statements of each constituent part of the combined entity have been audited at year-end and reviewed at an interim date, the practitioner may perform an examination or a review of the pro forma financial information at year-end but is limited to performing a review of the pro forma financial information at the interim date.

- c. The practitioner who is reporting on the pro forma financial information should have an appropriate level of knowledge of the accounting and financial reporting practices of each significant constituent part of the combined entity. This would ordinarily have been obtained by the practitioner auditing or reviewing historical financial statements of each entity for the most recent annual or interim period for which the pro forma financial information is presented. If another practitioner has performed such an audit or a review, the need, by a practitioner reporting on the pro forma financial information, for an understanding of the entity's accounting and financial reporting practices is not diminished, and that practitioner should consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of these matters to perform the procedures necessary to report on the pro forma financial information.

Practitioner's Objective

.08 The objective of the practitioner's examination procedures applied to pro forma financial information is to provide reasonable assurance as to whether—

- Management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event).
- The related pro forma adjustments give appropriate effect to those assumptions.
- The pro forma column reflects the proper application of those adjustments to the historical financial statements.

.09 The objective of the practitioner's review procedures applied to pro forma financial information is to provide negative assurance as to whether any information came to the practitioner's attention to cause him or her to believe that—

- Management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event).
- The related pro forma adjustments do not give appropriate effect to those assumptions.

- The pro forma column does not reflect the proper application of those adjustments to the historical financial statements.

Procedures

.10 Other than the procedures applied to the historical financial statements,⁶ the procedures the practitioner should apply to the assumptions and pro forma adjustments for either an examination or a review engagement are as follows.

- a. Obtain an understanding of the underlying transaction (or event), for example, by reading relevant contracts and minutes of meetings of the board of directors and by making inquiries of appropriate officials of the entity, and, in cases, of the entity acquired or to be acquired.
- b. Obtain a level of knowledge of each constituent part of the combined entity in a business combination that will enable the practitioner to perform the required procedures. Procedures to obtain this knowledge may include communicating with other practitioners who have audited or reviewed the historical financial information on which the pro forma financial information is based. Matters that may be considered include accounting principles and financial reporting practices followed, transactions between the entities, and material contingencies.
- c. Discuss with management their assumptions regarding the effects of the transaction (or event).
- d. Evaluate whether pro forma adjustments are included for all significant effects directly attributable to the transaction (or event).
- e. Obtain sufficient evidence in support of such adjustments. The evidence required to support the level of assurance given is a matter of professional judgment. The practitioner typically would obtain more evidence in an examination engagement than in a review engagement. Examples of evidence that the practitioner might consider obtaining are purchase, merger or exchange agreements, appraisal reports, debt agreements, employment agreements, actions of the board of directors, and existing or proposed legislation or regulatory actions.
- f. Evaluate whether management's assumptions that underlie the pro forma adjustments are presented in a sufficiently clear and comprehensive manner. Also, evaluate whether the pro forma adjustments are consistent with each other and with the data used to develop them.
- g. Determine that computations of pro forma adjustments are mathematically correct and that the pro forma column reflects the proper application of those adjustments to the historical financial statements.
- h. Obtain written representations from management concerning their—
 - Responsibility for the assumptions used in determining the pro forma adjustments

⁶ See paragraph .07b.

- Assertion that the assumptions provide a reasonable basis for presenting all of the significant effects directly attributable to the transaction (or event), that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects the proper application of those adjustments to the historical financial statements
 - Assertion that the significant effects directly attributable to the transaction (or event) are appropriately disclosed in the pro forma financial information
- i.* Read the pro forma financial information and evaluate whether—
- The underlying transaction (or event), the pro forma adjustments, the significant assumptions and the significant uncertainties, if any, about those assumptions have been appropriately described.
 - The source of the historical financial information on which the pro forma financial information is based has been appropriately identified.

Reporting on Pro Forma Financial Information

.11 The practitioner's report on pro forma financial information should be dated as of the completion of the appropriate procedures. The practitioner's report on pro forma financial information may be added to the practitioner's report on historical financial information, or it may appear separately. If the reports are combined and the date of completion of the procedures for the examination or review of the pro forma financial information is after the date of completion of the fieldwork for the audit or review of the historical financial information, the combined report should be dual-dated. (For example, "February 15, 20X2, except for the paragraphs regarding pro forma financial information as to which the date is March 20, 20X2.")

.12 A practitioner's examination report on pro forma financial information should include the following:

- a.* A title that includes the word *independent*
- b.* An identification of the pro forma financial information
- c.* A reference to the financial statements from which the historical financial information is derived and a statement that such financial statements were audited (The report on pro forma financial information should refer to any modification in the practitioner's report on the historical financial information.)
- d.* An identification of the responsible party and a statement that the responsible party is responsible for the pro forma financial information
- e.* A statement that the practitioner's responsibility is to express an opinion on the pro forma financial information based on his or her examination
- f.* A statement that the examination of the pro forma financial information was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as the practitioner considered necessary in the circumstances

- g. A statement that the practitioner believes that the examination provides a reasonable basis for his or her opinion
- h. A separate paragraph explaining the objective of pro forma financial information and its limitations
- i. The practitioner's opinion as to whether management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), whether the related pro forma adjustments give appropriate effect to those assumptions, and whether the pro forma column reflects the proper application of those adjustments to the historical financial statements (see paragraphs .18 and .20)
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.13 A practitioner's review report on pro forma financial information should include the following:

- a. A title that includes the word *independent*
- b. An identification of the pro forma financial information
- c. A reference to the financial statements from which the historical financial information is derived and a statement as to whether such financial statements were audited or reviewed (The report on pro forma financial information should refer to any modification in the practitioner's report on the historical financial information.)
- d. An identification of the responsible party and a statement that the responsible party is responsible for the pro forma financial information
- e. A statement that the review of the pro forma financial information was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- f. A statement that a review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the pro forma financial information and, accordingly, the practitioner does not express such an opinion
- g. A separate paragraph explaining the objective of pro forma financial information and its limitations
- h. The practitioner's conclusion as to whether any information came to the practitioner's attention to cause him or her to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the transaction (or event), or that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statements (See paragraphs .19 and .20.)
- i. The manual or printed signature of the practitioner's firm
- j. The date of the review report

.14 Nothing precludes the practitioner from restricting the use of the report (see section 101.78–.83).

.15 Because a pooling-of-interests business combination is accounted for by combining historical amounts retroactively, pro forma adjustments for a proposed transaction generally affect only the equity section of the pro forma

condensed balance sheet. Further, because of the requirements of the Accounting Principles Board Opinion (APB) No. 16, *Business Combinations* [AC Section B50], a business combination effected as a pooling of interests would not ordinarily involve a choice of assumptions by management. Accordingly, a report on a proposed pooling transaction need not address management's assumptions unless the pro forma financial information includes adjustments to conform the accounting principles of the combining entities. (See paragraph .21.)

.16 Restrictions on the scope of the engagement (see section 101.73–.75), reservations about the propriety of the assumptions and the conformity of the presentation with those assumptions (including adequate disclosure of significant matters), or other reservations may require the practitioner to qualify the opinion, disclaim an opinion, or withdraw from the engagement.⁷ The practitioner should disclose all substantive reasons for any report modifications. Uncertainty as to whether the transaction (or event) will be consummated would not ordinarily require a report modification. (See paragraph .22.)

Effective Date

.17 This section is effective when the presentation of pro forma financial information is as of or for a period ending on or after June 1, 2001. Early application is permitted.

⁷ See section 101.76 and .77.

.18

Appendix A

Report on Examination of Pro Forma Financial Information

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]⁸ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,⁹ appearing elsewhere herein [*or incorporated by reference*].¹⁰ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

⁸ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

⁹ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

¹⁰ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

.19

Appendix B

Report on Review of Pro Forma Financial Information

Independent Accountant's Report

We have reviewed the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]¹¹ the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. These historical condensed financial statements are derived from the historical unaudited financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,^{12,13} appearing elsewhere herein [*or incorporated by reference*].¹⁴ Such pro forma adjustments are based on management's assumptions as described in Note 2. X Company's management is responsible for the pro forma financial information.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assumptions, the pro forma adjustments and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transaction [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

Based on our review, nothing came to our attention that caused us to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

[*Signature*]

[*Date*]

¹¹ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹² If either accountant's report includes an explanatory paragraph or is modified, that fact should be referred to within this report.

¹³ Where one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [*or incorporated by reference*].

¹⁴ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

Appendix C

Report on Examination of Pro Forma Financial Information at Year-End With a Review of Pro Forma Financial Information for a Subsequent Interim Date

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]¹⁵ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,¹⁶ appearing elsewhere herein [*or incorporated by reference*].¹⁷ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In addition, we have reviewed the pro forma adjustments and the application of those adjustments to the historical amounts in [*the assembly of*]¹⁵ the accompanying pro forma condensed balance sheet of X Company as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were reviewed by us, and of Y Company, which were reviewed by other accountants,¹⁸ appearing elsewhere herein [*or incorporated by reference*].¹⁹ Such pro forma adjustments are based upon management's assumptions as described in Note 2. Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on

¹⁵ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹⁶ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

¹⁷ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

¹⁵ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

¹⁸ Where one set of historical financial statements is audited and the other set is reviewed, wording similar to the following would be appropriate:

The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were reviewed by other accountants, appearing elsewhere herein [*or incorporated by reference*].

¹⁹ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion on the pro forma adjustments or the application of such adjustments to the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transactions [*or event*] occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above-mentioned transaction [*or event*] actually occurred earlier.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagements or the subject matter.]

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

Based on our review, nothing came to our attention that caused us to believe that management's assumptions do not provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, that the related pro forma adjustments do not give appropriate effect to those assumptions, or that the pro forma column does not reflect the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of March 31, 20X2, and the pro forma condensed statement of income for the three months then ended.

Appendix D

Report on Examination of Pro Forma Financial Information Giving Effect to a Business Combination to Be Accounted for as a Pooling of Interests²⁰

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the proposed business combination to be accounted for as a pooling of interests described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statements of income for each of three years in the period then ended. These historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us,²¹ and of Y Company, which were audited by other accountants, appearing elsewhere herein [*or incorporated by reference*].²² Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the transactions [*or event*] occurred at an earlier date.

[Additional paragraph(s) may be added to emphasize certain matters relating to the attest engagement or the subject matter.]

In our opinion, the accompanying condensed pro forma financial statements of X Company as of December 31, 20X1, and for each of the three years in the period then ended give appropriate effect to the pro forma adjustments necessary to reflect the proposed business combination on a pooling of interests basis as described in Note 1 and the pro forma column reflects the proper application of those adjustments to the historical financial statements.

[Signature]

[Date]

²⁰ See paragraph .15 for a discussion of the form of the opinion on pro forma financial information in a pooling of interests business combination.

²¹ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²² If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

.22

Appendix E

Other Example Reports

An example of a report qualified because of a scope limitation follows.

Independent Accountant's Report

We have examined the pro forma adjustments reflecting the transaction [*or event*] described in Note 1 and the application of those adjustments to the historical amounts in [*the assembly of*]²³ the accompanying pro forma condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,²⁴ appearing elsewhere herein [*or incorporated by reference*].²⁵ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information. Our responsibility is to express an opinion on the pro forma financial information based on our examination.

Except as described below, our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

We are unable to perform the examination procedures we considered necessary with respect to assumptions relating to the proposed loan described in Adjustment E in Note 2.

[*Same paragraph as third paragraph in examination report in paragraph .18*]

In our opinion, except for the effects of such changes, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to the assumptions relating to the proposed loan, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction [*or event*] described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[*Signature*]

[*Date*]

An example of a report qualified for reservations about the propriety of assumptions on an acquisition transaction follows:

²³ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

²⁴ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²⁵ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

[Same first three paragraphs as examination report in paragraph .18]

As discussed in Note 2 to the pro forma financial statements, the pro forma adjustments reflect management's assumption that X Division of the acquired company will be sold. The net assets of this division are reflected at their historical carrying amount; generally accepted accounting principles require these net assets to be recorded at estimated net realizable value.

In our opinion, except for inappropriate valuation of the net assets of X Division, management's assumptions described in Note 2 provide a reasonable basis for presenting the significant effects directly attributable to the above-mentioned transaction *[or event]* described in Note 1, the related pro forma adjustments give appropriate effect to those assumptions, and the pro forma column reflects the proper application of those adjustments to the historical financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

An example of a disclaimer of opinion because of a scope limitation follows:

Independent Accountant's Report

We were engaged to examine the pro forma adjustments reflecting the transaction *[or event]* described in Note 1 and the application of those adjustments to the historical amounts in *[the assembly of]*²⁶ the accompanying pro forma financial condensed balance sheet of X Company as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended. The historical condensed financial statements are derived from the historical financial statements of X Company, which were audited by us, and of Y Company, which were audited by other accountants,²⁷ appearing elsewhere herein *[or incorporated by reference]*.²⁸ Such pro forma adjustments are based upon management's assumptions described in Note 2. X Company's management is responsible for the pro forma financial information.

As discussed in Note 2 to the pro forma financial statements, the pro forma adjustments reflect management's assumptions that the elimination of duplicate facilities would have resulted in a 30 percent reduction in operating costs. Management could not supply us with sufficient evidence to support this assertion.

[Same paragraph as third paragraph in examination report in paragraph .18]

Since we were unable to evaluate management's assumptions regarding the reduction in operating costs and other assumptions related thereto, the scope of our work was not sufficient to express and, therefore, we do not express an opinion on the pro forma adjustments, management's underlying assumptions regarding those adjustments and the application of those adjustments to the historical financial statement amounts in the pro forma condensed financial statement amounts in the pro forma condensed balance sheet as of December 31, 20X1, and the pro forma condensed statement of income for the year then ended.

[Signature]

[Date]

²⁶ This wording is appropriate when one column of pro forma financial information is presented without separate columns of historical financial information and pro forma adjustments.

²⁷ If either accountant's report includes an explanatory paragraph or is other than unqualified, that fact should be referred to within this report.

²⁸ If the option in footnote 4 to paragraph .07a is followed, the report should be appropriately modified.

Reporting on an Entity's Internal Control Over Financial Reporting

This section was superseded effective November 17, 2004 by PCAOB Auditing Standard No. 2. See PCAOB Release No. 2004-008, and SEC Release No. 34-50688.

AT Section 9501

Reporting on an Entity's Internal Control Over Financial Reporting: Attest Engagements Interpretations of Section 501

This section was superseded effective November 17, 2004 by PCAOB Auditing Standard No. 2. See PCAOB Release No. 2004-008, and SEC Release No. 34-50688.

AT Section 601

Compliance Attestation

Source: SSAE No. 10.

Effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Earlier application is permitted.

Introduction and Applicability

.01 This section provides guidance for engagements related to either (a) an entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants or (b) the effectiveness of an entity's internal control over compliance with specified requirements.¹ Compliance requirements may be either financial or nonfinancial in nature. An attest engagement conducted in accordance with this section should comply with the general, fieldwork, and reporting standards in section 101, *Attest Engagements*, and the specific standards set forth in this section.

.02 This section does not—

- a. Affect the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which an auditor reports on specified compliance requirements based solely on an audit of financial statements, as addressed in AU section 623, *Special Reports*, paragraphs .19 through .21.
- c. Apply to engagements for which the objective is to report in accordance with AU section 801, *Compliance Auditing Considerations in Audits of Governmental Entities and Recipients of Governmental Financial Assistance*, unless the terms of the engagement specify an attest report under this section.
- d. Apply to engagements covered by AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*.
- e. Apply to the report that encompasses internal control over compliance for a broker or dealer in securities as required by rule 17a-5 of the Securities Exchange Act of 1934 (the 1934 Act).²

.03 A report issued in accordance with the provisions of this section does not provide a legal determination of an entity's compliance with specified requirements. However, such a report may be useful to legal counsel or others in making such determinations.

¹ Throughout this section—

- a. An entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants is referred to as *compliance with specified requirements*.
- b. An entity's internal control over compliance with specified requirements is referred to as its *internal control over compliance*. The internal control addressed in this section may include parts of but is not the same as internal control over financial reporting.

² An example of this report is contained in the AICPA Audit and Accounting Guide *Brokers and Dealers in Securities*.

Scope of Services

.04 The practitioner may be engaged to perform agreed-upon procedures to assist users in evaluating the following subject matter (or assertions related thereto)—

- a. The entity's compliance with specified requirements
- b. The effectiveness of the entity's internal control over compliance³
- c. Both the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance

The practitioner also may be engaged to examine the entity's compliance with specified requirements or a written assertion thereon.

.05 An important consideration in determining the type of engagement to be performed is expectations by users of the practitioner's report. Since the users decide the procedures to be performed in an agreed-upon procedures engagement, it often will be in the best interests of the practitioner and users (including the client) to have an agreed-upon procedures engagement rather than an examination engagement. When deciding whether to accept an examination engagement, the practitioner should consider the risks discussed in paragraphs .31 through .35.

.06 A practitioner may be engaged to examine the effectiveness of the entity's internal control over compliance or an assertion thereon. However, in accordance with section 101, the practitioner cannot accept an engagement unless he or she has reason to believe that the subject matter is capable of reasonably consistent evaluation against criteria that are suitable and available to users.⁴ If a practitioner determines that such criteria do exist for internal control over compliance, he or she should perform the engagement in accordance with section 101. Additionally, section 501, *Reporting on an Entity's Internal Control Over Financial Reporting*, may be helpful to a practitioner in such an engagement.

³ An entity's internal control over compliance is the process by which management obtains reasonable assurance of compliance with specified requirements. Although the comprehensive internal control may include a wide variety of objectives and related policies and procedures, only some of these may be relevant to an entity's compliance with specified requirements. (See footnote 1b.) The components of internal control over compliance vary based on the nature of the compliance requirements. For example, internal control over compliance with a capital requirement would generally include accounting procedures, whereas internal control over compliance with a requirement to practice nondiscriminatory hiring may not include accounting procedures.

⁴ Criteria issued by regulatory agencies and other groups composed of experts that follow due-process procedures, including exposure of the proposed criteria for public comment, ordinarily should be considered suitable criteria for this purpose. For example, the Committee of Sponsoring Organizations (COSO) of the Treadway Commission's Report, *Internal Control—Integrated Framework*, provides suitable criteria against which management may evaluate and report on the effectiveness of the entity's internal control. However, more detailed criteria relative to specific compliance requirements may have to be developed and an appropriate threshold for measuring the severity of control deficiencies needs to be developed in order to apply the concepts of the COSO report to internal control over compliance. Criteria established by a regulatory agency that does not follow such due-process procedures also may be considered suitable criteria for use by the regulatory agency. The practitioner should determine whether such criteria are suitable for general use reporting by evaluating them against the attributes in section 101.24. If the practitioner determines that such criteria are suitable for general use reporting, those criteria should also be available to users as discussed in section 101.33. If the practitioner concludes that the criteria are appropriate only for a limited number of parties or are available only to specified parties, the practitioner's report shall state that the use of the report is restricted to those parties specified in the report. (See section 101.30, .34, and .78–.83.)

.07 A practitioner should not accept an engagement to perform a review, as defined in section 101.55, of an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance or an assertion thereon.

.08 The practitioner may be engaged to provide other types of services in connection with the entity's compliance with specified requirements or the entity's internal control over compliance. For example, management may engage the practitioner to provide recommendations on how to improve the entity's compliance or related internal control. A practitioner engaged to provide such nonattest services should refer to the guidance in CS section 100, *Consulting Services: Definitions and Standards*.

Conditions for Engagement Performance

.09 A practitioner may perform an agreed-upon procedures engagement related to an entity's compliance with specified requirements or the effectiveness of internal control over compliance if the following conditions are met.

- a. The responsible party accepts responsibility for the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance.
- b. The responsible party evaluates the entity's compliance with specified requirements or the effectiveness of the entity's internal control over compliance.

See also section 201, *Agreed-Upon Procedures Engagements*.

.10 A practitioner may perform an examination engagement related to an entity's compliance with specified requirements if the following conditions are met.

- a. The responsible party accepts responsibility for the entity's compliance with specified requirements and the effectiveness of the entity's internal control over compliance.
- b. The responsible party evaluates the entity's compliance with specified requirements.
- c. Sufficient evidential matter exists or could be developed to support management's evaluation.

.11 As part of engagement performance, the practitioner should obtain from the responsible party a written assertion about compliance with specified requirements or internal control over compliance. The responsible party may present its written assertion in either of the following:

- a. A separate report that will accompany the practitioner's report
- b. A representation letter to the practitioner

.12 The responsible party's written assertion about compliance with specified requirements or internal control over compliance may take many forms. Throughout this section, for example, the phrase "responsible party's assertion that W Company complied with [*specify compliance requirement*] as of [*date*]," illustrates such an assertion. Other phrases may also be used. However, a practitioner should not accept an assertion that is so subjective (for example, "very

effective" internal control over compliance) that people having competence in and using the same or similar criteria would not ordinarily be able to arrive at similar conclusions.

.13 Regardless of whether the practitioner's client is the responsible party, the responsible party's refusal to furnish a written assertion as part of an examination engagement should cause the practitioner to withdraw from the engagement. However, an exception is provided if an examination of an entity's compliance with specified requirements is required by law or regulation. In that instance, the practitioner should disclaim an opinion on compliance unless he or she obtains evidential matter that warrants expressing an adverse opinion. If the practitioner expresses an adverse opinion and the responsible party does not provide an assertion, the practitioner's report should be restricted as to use. (See section 101.78–.81.) If, as part of an agreed-upon procedures engagement, the practitioner's client is the responsible party, a refusal by that party to provide an assertion requires the practitioner to withdraw from the engagement. However, withdrawal is not required if the engagement is required by law or regulation. If, in an agreed-upon procedures engagement, the practitioner's client is not the responsible party, the practitioner is not required to withdraw but should consider the effects of the responsible party's refusal on the engagement and his or her report.

.14 Additionally, at the beginning of the engagement, the practitioner may want to consider discussing with the client and the responsible party the need for the responsible party to provide the practitioner with a written representation letter at the conclusion of the examination engagement or an agreed-upon procedures engagement in which the client is the responsible party. In that letter, the responsible party will be asked to provide, among other possible items, an acknowledgment of their responsibility for establishing and maintaining effective internal control over compliance and their assertion stating their evaluation of the entity's compliance with specified requirements. The responsible party's refusal to furnish these representations (see paragraphs .68 through .70) will constitute a limitation on the scope of the engagement.

Responsible Party

.15 The responsible party is responsible for ensuring that the entity complies with the requirements applicable to its activities. That responsibility encompasses the following.

- a.* Identify applicable compliance requirements.
- b.* Establish and maintain internal control to provide reasonable assurance that the entity complies with those requirements.
- c.* Evaluate and monitor the entity's compliance.
- d.* Specify reports that satisfy legal, regulatory, or contractual requirements.

The responsible party's evaluation may include documentation such as accounting or statistical data, entity policy manuals, accounting manuals, narrative memoranda, procedural write-ups, flowcharts, completed questionnaires, or internal auditors' reports. The form and extent of documentation will vary depending on the nature of the compliance requirements and the size and

complexity of the entity. The responsible party may engage the practitioner to gather information to assist it in evaluating the entity's compliance. Regardless of the procedures performed by the practitioner, the responsible party must accept responsibility for its assertion and must not base such assertion solely on the practitioner's procedures.

Agreed-Upon Procedures Engagement

.16 The objective of the practitioner's agreed-upon procedures is to present specific findings to assist users in evaluating an entity's compliance with specified requirements or the effectiveness of an entity's internal control over compliance based on procedures agreed upon by the users of the report. A practitioner engaged to perform agreed-upon procedures on an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance should follow the guidance set forth herein and in section 201.

.17 The practitioner's procedures generally may be as limited or as extensive as the specified users desire, as long as the specified users (a) agree upon the procedures performed or to be performed and (b) take responsibility for the sufficiency of the agreed-upon procedures for their purposes. (See section 201.15.)

.18 To satisfy the requirements that the practitioner and the specified users agree upon the procedures performed or to be performed and that the specified users take responsibility for the sufficiency of the agreed-upon procedures for their purposes, ordinarily the practitioner should communicate directly with and obtain affirmative acknowledgment from each of the specified users. For example, this may be accomplished by meeting with the specified users or by distributing a draft of the anticipated report or a copy of an engagement letter to the specified users and obtaining their agreement. If the practitioner is not able to communicate directly with all of the specified users, the practitioner may satisfy these requirements by applying any one or more of the following or similar procedures.

- Compare the procedures to be applied to written requirements of the specified users.
- Discuss the procedures to be applied with appropriate representatives of the specified users involved.
- Review relevant contracts with or correspondence from the specified users.

The practitioner should not report on an engagement when specified users do not agree upon the procedures performed or to be performed and do not take responsibility for the sufficiency of the procedures for their purposes. See section 201.36 for guidance on satisfying these requirements when the practitioner is requested to add other parties as specified parties after the date of completion of the agreed-upon procedures.

.19 In an engagement to perform agreed-upon procedures on an entity's compliance with specified requirements or about the effectiveness of an entity's internal control over compliance, the practitioner is required to perform only the procedures that have been agreed to by users.⁵ However, prior to performing

⁵ AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, does not apply to agreed-upon procedures engagements.

such procedures, the practitioner should obtain an understanding of the specified compliance requirements, as discussed in paragraph .20. (See section 201.)

.20 To obtain an understanding of the specified compliance requirements, a practitioner should consider the following:

- a. Laws, regulations, rules, contracts, and grants that pertain to the specified compliance requirements, including published requirements
- b. Knowledge about the specified compliance requirements obtained through prior engagements and regulatory reports
- c. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- d. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals outside the entity (for example, a regulator or a third-party specialist)

.21 When circumstances impose restrictions on the scope of an agreed-upon procedures engagement, the practitioner should attempt to obtain agreement from the users for modification of the agreed-upon procedures. When such agreement cannot be obtained (for example, when the agreed-upon procedures are published by a regulatory agency that will not modify the procedures), the practitioner should describe such restrictions in his or her report or withdraw from the engagement.

.22 The practitioner has no obligation to perform procedures beyond the agreed-upon procedures. However, if noncompliance comes to the practitioner's attention by other means, such information ordinarily should be included in his or her report.

.23 The practitioner may become aware of noncompliance that occurs subsequent to the period addressed by the practitioner's report but before the date of the practitioner's report. The practitioner should consider including information regarding such noncompliance in his or her report. However, the practitioner has no responsibility to perform procedures to detect such noncompliance other than obtaining the responsible party's representation about noncompliance in the subsequent period, as described in paragraph .68.

.24 The practitioner's report on agreed-upon procedures on an entity's compliance with specified requirements (or the effectiveness of an entity's internal control over compliance) should be in the form of procedures and findings. The practitioner's report should contain the following elements:

- a. A title that includes the word *independent*
- b. Identification of the specified parties
- c. Identification of the subject matter of the engagement (or management's assertion thereon), including the period or point in time addressed and a reference to the character of the engagement⁶
- d. An identification of the responsible party

⁶ Generally, management's assertion about compliance with specified requirements will address a *period* of time, whereas an assertion about internal control over compliance will address a *point* in time.

- e. A statement that the subject matter is the responsibility of the responsible party
- f. A statement that the procedures, which were agreed to by the specified parties identified in the report, were performed to assist the specified parties in evaluating the entity's compliance with specified requirements or the effectiveness of its internal control over compliance
- g. A statement that the agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants
- h. A statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures
- i. A list of the procedures performed (or reference thereto) and related findings (The practitioner should not provide negative assurance. See section 201.24.)
- j. Where applicable, a description of any agreed-upon materiality limits (See section 201.25.)
- k. A statement that the practitioner was not engaged to and did not conduct an examination of the entity's compliance with specified requirements (or the effectiveness of an entity's internal control over compliance), a disclaimer of opinion thereon, and a statement that if the practitioner had performed additional procedures, other matters might have come to his or her attention that would have been reported
- l. A statement restricting the use of the report to the specified parties
- m. Where applicable, reservations or restrictions concerning procedures or findings as discussed in section 201.33, .35, .39, and .40
- n. Where applicable, a description of the nature of the assistance provided by the specialist as discussed in section 201.19–.21
- o. The manual or printed signature of the practitioner's firm
- p. The date of the report

.25 The following is an illustration of an agreed-upon procedures report on an entity's compliance with specified requirements in which the procedures and findings are enumerated rather than referenced.

Independent Accountant's Report on Applying Agreed-Upon Procedures

We have performed the procedures enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating *[name of entity]*'s compliance with *[list specified requirements]* during the *[period]* ended *[date]*.⁷ Management is responsible for *[name of entity]*'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below

⁷ If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin, "We have performed the procedures included in *[title of publication or other document]* and enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating"

either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than these specified parties.

[Signature]

[Date]

.26 Evaluating compliance with certain requirements may require interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements. In such situations, the practitioner should consider whether he or she is provided with the suitable criteria required to evaluate an assertion under the third general attestation standard. If these interpretations are significant, the practitioner may include a paragraph stating the description and the source of interpretations made by the entity's management. An example of such a paragraph, which should precede the procedures and findings paragraph(s), follows.

We have been informed that, under *[name of entity]*'s interpretation of *[identify the compliance requirement]*, *[explain the nature and source of the relevant interpretation]*.

.27 The following is an illustration of an agreed-upon procedures report on the effectiveness of an entity's internal control over compliance in which the procedures and findings are enumerated rather than referenced.

Independent Accountant's Report on Applying Agreed-Upon Procedures

We have performed the procedures enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating the effectiveness of *[name of entity]*'s internal control over compliance with *[list specified requirements]* as of *[date]*.⁸ Management is responsible for *[name of entity]*'s internal control over compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

⁸ If the agreed-upon procedures have been published by a third-party user (for example, a regulator in regulatory policies or a lender in a debt agreement), this sentence might begin, "We have performed the procedures included in *[title of publication or other document]* and enumerated below, which were agreed to by *[list specified parties]*, solely to assist the specified parties in evaluating the effectiveness of *[name of entity]*'s internal control over compliance"

This report is intended solely for the information and use of [*list or refer to specified parties*] and is not intended to be and should not be used by anyone other than these specified parties.

[*Signature*]

[*Date*]

.28 In some agreed-upon procedures engagements, procedures may relate to both compliance with specified requirements and the effectiveness of internal control over compliance. In these engagements, the practitioner may issue one report that addresses both. For example, the first sentence of the introductory paragraph would state the following.

We have performed the procedures enumerated below, which were agreed to by [*list users of report*], solely to assist the users in evaluating [*name of entity*]'s compliance with [*list specified requirements*] during the [*period*] ended [*date*] and the effectiveness of [*name of entity*]'s internal control over compliance with the aforementioned compliance requirements as of [*date*].

.29 The date of completion of the agreed-upon procedures should be used as the date of the practitioner's report.

Examination Engagement

.30 The objective of the practitioner's examination procedures applied to an entity's compliance with specified requirements is to express an opinion on an entity's compliance (or assertion related thereto), based on the specified criteria. To express such an opinion, the practitioner accumulates sufficient evidence about the entity's compliance with specified requirements, thereby restricting attestation risk to an appropriately low level.

Attestation Risk

.31 In an engagement to examine compliance with specified requirements, the practitioner seeks to obtain reasonable assurance that the entity complied, in all material respects, based on the specified criteria. This includes designing the examination to detect both intentional and unintentional material noncompliance. Absolute assurance is not attainable because of factors such as the need for judgment, the use of sampling, and the inherent limitations of internal control over compliance and because much of the evidence available to the practitioner is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between personnel of the entity and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the practitioner.

.32 Attestation risk is the risk that the practitioner may unknowingly fail to modify appropriately his or her opinion. It is composed of inherent risk, control risk, and detection risk. For purposes of a compliance examination, these components are defined as follows:

- a. *Inherent risk*—The risk that material noncompliance with specified requirements could occur, assuming there are no related controls
- b. *Control risk*—The risk that material noncompliance that could occur will not be prevented or detected on a timely basis by the entity's controls

- c. *Detection risk*—The risk that the practitioner's procedures will lead him or her to conclude that material noncompliance does not exist when, in fact, such noncompliance does exist

Inherent Risk

.33 In assessing inherent risk, the practitioner should consider factors affecting risk similar to those an auditor would consider when planning an audit of financial statements. Such factors are discussed in AU section 316A, *Consideration of Fraud in a Financial Statement Audit*, paragraphs .16 through .19. In addition, the practitioner should consider factors relevant to compliance engagements, such as the following:

- The complexity of the specified compliance requirements
- The length of time the entity has been subject to the specified compliance requirements
- Prior experience with the entity's compliance
- The potential impact of noncompliance

Control Risk

.34 The practitioner should assess control risk as discussed in paragraphs .45 and .46. Assessing control risk contributes to the practitioner's evaluation of the risk that material noncompliance exists. The process of assessing control risk (together with assessing inherent risk) provides evidential matter about the risk that such noncompliance may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion.

Detection Risk

.35 In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of compliance tests performed based on the assessments of inherent risk and control risk.

Materiality

.36 In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality differs from that of an audit of financial statements in accordance with GAAS. In an examination of an entity's compliance with specified requirements, the practitioner's consideration of materiality is affected by (a) the nature of the compliance requirements, which may or may not be quantifiable in monetary terms, (b) the nature and frequency of noncompliance identified with appropriate consideration of sampling risk, and (c) qualitative considerations, including the needs and expectations of the report's users.

.37 In a number of situations, the terms of the engagement may provide for a supplemental report of all or certain noncompliance discovered. Such terms should not change the practitioner's judgments about materiality in planning and performing the engagement or in forming an opinion on an entity's

compliance with specified requirements or on the responsible party's assertion about such compliance.

Performing an Examination Engagement

.38 The practitioner should exercise (a) due care in planning, performing, and evaluating the results of his or her examination procedures and (b) the proper degree of professional skepticism to achieve reasonable assurance that material noncompliance will be detected.

.39 In an examination of the entity's compliance with specified requirements, the practitioner should—

- a. Obtain an understanding of the specified compliance requirements. (See paragraph .40.)
- b. Plan the engagement. (See paragraphs .41 through .44.)
- c. Consider relevant portions of the entity's internal control over compliance. (See paragraphs .45 through .47.)
- d. Obtain sufficient evidence including testing compliance with specified requirements. (See paragraphs .48 and .49.)
- e. Consider subsequent events. (See paragraphs .50 through .52.)
- f. Form an opinion about whether the entity complied, in all material respects, with specified requirements (or whether the responsible party's assertion about such compliance is fairly stated in all material respects), based on the specified criteria. (See paragraph .53.)

Obtaining an Understanding of the Specified Compliance Requirements

.40 A practitioner should obtain an understanding of the specified compliance requirements. To obtain such an understanding, a practitioner should consider the following:

- a. Laws, regulations, rules, contracts, and grants that pertain to the specified compliance requirements, including published requirements
- b. Knowledge about the specified compliance requirements obtained through prior engagements and regulatory reports
- c. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals within the entity (for example, the chief financial officer, internal auditors, legal counsel, compliance officer, or grant or contract administrators)
- d. Knowledge about the specified compliance requirements obtained through discussions with appropriate individuals outside the entity (for example, a regulator or third-party specialist)

Planning the Engagement

General Considerations

.41 Planning an engagement to examine an entity's compliance with specified requirements involves developing an overall strategy for the expected conduct and scope of the engagement. The practitioner should consider the planning matters discussed in section 101.42–.47.

Multiple Components

.42 In an engagement to examine an entity's compliance with specified requirements when the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner may determine that it is not necessary to test compliance with requirements at every component. In making such a determination and in selecting the components to be tested, the practitioner should consider factors such as the following:

- a. The degree to which the specified compliance requirements apply at the component level
- b. Judgments about materiality
- c. The degree of centralization of records
- d. The effectiveness of the control environment, particularly management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- e. The nature and extent of operations conducted at the various components
- f. The similarity of operations over compliance for different components

Using the Work of a Specialist

.43 In some compliance engagements, the nature of the specified compliance requirements may require specialized skill or knowledge in a particular field other than accounting or auditing. In such cases, the practitioner may use the work of a specialist and should follow the relevant performance and reporting guidance in AU section 336, *Using the Work of a Specialist*.

Internal Audit Function

.44 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in monitoring compliance with the specified requirements. A practitioner should consider the guidance in AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors, the nature, timing, and extent of work to be performed, and other related matters.

Consideration of Internal Control Over Compliance

.45 The practitioner should obtain an understanding of relevant portions of internal control over compliance sufficient to plan the engagement and to assess control risk for compliance with specified requirements. In planning the examination, such knowledge should be used to identify types of potential non-compliance, to consider factors that affect the risk of material noncompliance, and to design appropriate tests of compliance.

.46 A practitioner generally obtains an understanding of the design of specific controls by performing the following:

- a. Inquiries of appropriate management, supervisory, and staff personnel

- b. Inspection of the entity's documents
- c. Observation of the entity's activities and operations

The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the specified requirements
- The practitioner's knowledge of internal control over compliance obtained in previous professional engagements
- The nature of the specified compliance requirements
- An understanding of the industry in which the entity operates
- Judgments about materiality

When seeking to assess control risk below the maximum, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk.

.47 During the course of an examination engagement, the practitioner may become aware of significant deficiencies in the design or operation of internal control over compliance that could adversely affect the entity's ability to comply with specified requirements. A practitioner's responsibility to communicate these deficiencies in an examination of an entity's compliance with specified requirements is similar to the auditor's responsibility described in AU section 325, *Communication of Internal Control Related Matters Noted in an Audit*. If, in a multiple-party arrangement, the practitioner's client is not the responsible party, the practitioner has no responsibility to communicate reportable conditions to the responsible party. For example, if the practitioner is engaged by his or her client to examine the compliance of another entity, the practitioner has no obligation to communicate any reportable conditions that he or she becomes aware of to the other entity. However, the practitioner is not precluded from making such a communication.

Obtaining Sufficient Evidence

.48 The practitioner should apply procedures to provide reasonable assurance of detecting material noncompliance. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment. When exercising such judgment, practitioners should consider the guidance contained in section 101.51–.54 and AU section 350, *Audit Sampling*.

.49 For engagements involving compliance with regulatory requirements, the practitioner's procedures should include reviewing reports of significant examinations and related communications between regulatory agencies and the entity and, when appropriate, making inquiries of the regulatory agencies, including inquiries about examinations in progress.

Consideration of Subsequent Events

.50 The practitioner's consideration of subsequent events in an examination of an entity's compliance with specified requirements is similar to the auditor's consideration of subsequent events in a financial statement audit, as outlined in AU section 560, *Subsequent Events*. The practitioner should consider information about such events that comes to his or her attention after the end of the period addressed by the practitioner's report and prior to the issuance of his or her report.

.51 Two types of subsequent events require consideration by the responsible party and evaluation by the practitioner. The first consists of events that provide additional information about the entity's compliance during the period addressed by the practitioner's report and may affect the practitioner's report. For the period from the end of the reporting period (or point in time) to the date of the practitioner's report, the practitioner should perform procedures to identify such events that provide additional information about compliance during the reporting period. Such procedures should include but may not be limited to inquiring about and considering the following information:

- Relevant internal auditors' reports issued during the subsequent period
- Other practitioners' reports identifying noncompliance, issued during the subsequent period
- Regulatory agencies' reports on the entity's noncompliance, issued during the subsequent period
- Information about the entity's noncompliance, obtained through other professional engagements for that entity

.52 The second type consists of noncompliance that occurs subsequent to the period being reported on but before the date of the practitioner's report. The practitioner has no responsibility to detect such noncompliance. However, should the practitioner become aware of such noncompliance, it may be of such a nature and significance that disclosure of it is required to keep users from being misled. In such cases, the practitioner should include in his or her report an explanatory paragraph describing the nature of the noncompliance.

Forming an Opinion

.53 In evaluating whether the entity has complied in all material respects (or whether the responsible party's assertion about such compliance is stated fairly in all material respects), the practitioner should consider (a) the nature and frequency of the noncompliance identified and (b) whether such noncompliance is material relative to the nature of the compliance requirements, as discussed in paragraph .36.

Reporting

.54 The practitioner may examine and report directly on an entity's compliance (see paragraphs .55 and .56) or he or she may examine and report on the responsible party's written assertion (see paragraphs .57, .58, and .61), except as described in paragraph .64.

.55 The practitioner's examination report on compliance, which is ordinarily addressed to the entity, should include the following:

- a. A title that includes the word *independent*
- b. Identification of the specified compliance requirements, including the period covered, and of the responsible party⁹

⁹ A practitioner also may be engaged to report on an entity's compliance with specified requirements as of point in time. In this case, the illustrative reports in this section should be adapted as appropriate.

- c. A statement that compliance with the specified requirements is the responsibility of the entity's management
- d. A statement that the practitioner's responsibility is to express an opinion on the entity's compliance with those requirements based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A statement that the examination does not provide a legal determination on the entity's compliance
- h. The practitioner's opinion on whether the entity complied, in all material respects, with specified requirements based on the specified criteria¹⁰ (See paragraph .64 for reporting on material non-compliance.)
- i. A statement restricting the use of the report to the specified parties (see the fourth reporting standard)¹¹ under the following circumstances (See also paragraph .13.):
 - When the criteria used to evaluate compliance are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria.
 - When the criteria used to evaluate compliance are available only to the specified parties
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.56 The following is the form of report a practitioner should use when he or she is expressing an opinion on an entity's compliance with specified requirements during a period of time.

Independent Accountant's Report

[Introductory paragraph]

We have examined [*name of entity*]'s compliance with [*list specified compliance requirements*] during the [*period*] ended [*date*]. Management is responsible for [*name of entity*]'s compliance with those requirements. Our responsibility is to express an opinion on [*name of entity*]'s compliance based on our examination.

¹⁰ Frequently, criteria will be contained in the compliance requirements, in which case it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the practitioner's report should identify the criteria. For example, if a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the report; however, if the requirement is to "maintain adequate capital," the practitioner should identify the criteria used to define *adequate*.

¹¹ In certain situations, however, criteria that have been specified by management and other report users may be suitable for general use.

[Scope paragraph]

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about *[name of entity]*'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on *[name of entity]*'s compliance with specified requirements.

[Opinion paragraph]

In our opinion, *[name of entity]* complied, in all material respects, with the aforementioned requirements for the year ended December 31, 20XX.¹²

[Signature]

[Date]

.57 The practitioner's examination report on an entity's assertion about compliance with specified requirements, which is ordinarily addressed to the entity, should include the following:

- a. A title that includes the word *independent*
- b. Identification of the responsible party's assertion about the entity's compliance with specified requirements, including the period covered by the responsible party's assertion, and of the responsible party (When the responsible party's assertion does not accompany the practitioner's report, the first paragraph of the report should also contain a statement of the responsible party's assertion.)¹³
- c. A statement that compliance with the requirements is the responsibility of the entity's management
- d. A statement that the practitioner's responsibility is to express an opinion on the responsible party's assertion on the entity's compliance with those requirements based on his or her examination
- e. A statement that the examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the entity's compliance with those requirements and performing such other procedures as the practitioner considered necessary in the circumstances
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A statement that the examination does not provide a legal determination on the entity's compliance
- h. The practitioner's opinion on whether the responsible party's assertion about compliance with specified requirements is fairly

¹² If it is necessary to identify criteria (see footnote 10), the criteria should be identified in the opinion paragraph (for example, "... in all material respects, based on the criteria set forth in Attachment 1").

¹³ A practitioner also may be engaged to report on the responsible party's assertion about an entity's compliance with specified requirements as of a point in time. In this case, the illustrative reports in this section should be adapted as appropriate.

stated in all material respects based on the specified criteria¹⁴ (See paragraph .64 for reporting on material noncompliance.)

- i. A statement restricting the use of the report to the specified parties (see the fourth reporting standard)^{15,16} under the following circumstances:
 - When the criteria used to evaluate compliance are determined by the practitioner to be appropriate only for a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria
 - When the criteria used to evaluate compliance are available only to the specified parties
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

.58 The following is the form of report that a practitioner should use when expressing an opinion on management's assertion about compliance with specified requirements.

Independent Accountant's Report

[Introductory paragraph]

We have examined management's assertion, included in the accompanying *[title of management report]*, that *[name of entity]* complied with *[list specified compliance requirements]* during the *[period]* ended *[date]*.^{17,18} Management is responsible for *[name of entity]*'s compliance with those requirements. Our responsibility is to express an opinion on management's assertion about *[name of entity]*'s compliance based on our examination.

[Standard scope paragraph]

[Opinion paragraph]

In our opinion, management's assertion that *[name of entity]* complied with the aforementioned requirements during the *[period]* ended *[date]* is fairly stated, in all material respects.¹⁹

[Signature]

[Date]

¹⁴ Frequently, criteria will be contained in the compliance requirements, in which case it is not necessary to repeat the criteria in the practitioner's report; however, if the criteria are not included in the compliance requirement, the practitioner's report should identify the criteria. For example, if a compliance requirement is to "maintain \$25,000 in capital," it would not be necessary to identify the \$25,000 in the report; however, if the requirement is to "maintain adequate capital," the practitioner should identify the criteria used to define *adequate*.

¹⁵ Although a practitioner's report may be appropriate for general use, the practitioner is not precluded from restricting the use of the report.

¹⁶ In certain situations, however, criteria that have been specified by management and other report users may be suitable for general use.

¹⁷ The practitioner should identify the management report examined by reference to the report title used by management in its report. Further, he or she should use the same description of compliance requirements as management uses in its report.

¹⁸ If management's assertion is stated in the practitioner's report and does not accompany the practitioner's report, the phrase "included in the accompanying *[title of management report]*" would be omitted.

¹⁹ If it is necessary to identify criteria (see footnote 10), the criteria should be identified in the opinion paragraph (for example, "...in all material respects, based on the criteria set forth in Attachment 1").

.59 Evaluating compliance with certain requirements may require interpretation of the laws, regulations, rules, contracts, or grants that establish those requirements. In such situations, the practitioner should consider whether he or she is provided with the suitable criteria required to evaluate compliance under the third general attestation standard. If these interpretations are significant, the practitioner may include a paragraph stating the description and the source of interpretations made by the entity's management. The following is an example of such a paragraph, which should directly follow the scope paragraph:

We have been informed that, under [*name of entity*]'s interpretation of [*identify the compliance requirement*], [*explain the source and nature of the relevant interpretation*].

.60 The date of completion of the examination procedures should be used as the date of the practitioner's report.

.61 Nothing precludes the practitioner from examining an assertion but opining directly on compliance.

.62 Section 101.78–83 provide guidance on restricting the use of an attest report. Nothing in this section precludes the practitioner from restricting the use of the report. For example, if the practitioner is asked by a client to examine another entity's compliance with certain regulations, he or she may want to restrict the use of the report to the client since the practitioner has no control over how the report may be used by the other entity.

Report Modifications

.63 The practitioner should modify the standard report described in paragraphs .55 and .57, if any of the following conditions exist.

- There is material noncompliance with specified requirements (paragraphs .64 through .67).
- There is a restriction on the scope of the engagement.²⁰
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for the practitioner's report.²¹

Material Noncompliance

.64 When an examination of an entity's compliance with specified requirements discloses noncompliance with the applicable requirements that the practitioner believes have a material effect on the entity's compliance, the practitioner should modify the report and, to most effectively communicate with the reader of the report, should state his or her opinion on the entity's specified compliance requirements, not on the responsible party's assertion.

.65 The following is the form of report, modified with explanatory language, that a practitioner should use when he or she has concluded that a qualified opinion is appropriate under the circumstances. It has been assumed that the

²⁰ The practitioner should refer to section 101.73 and .74 for guidance on scope restrictions.

²¹ The practitioner should refer to section 501.63 and .64⁸ for guidance on an opinion based in part on the report of another practitioner and adapt such guidance to the standard reports in this section.

practitioner has determined that the specified compliance requirements are both suitable for general use and available to users as discussed in section 101.23–.33, and, therefore, that a restricted use paragraph is not required.

Independent Accountant's Report

[Introductory paragraph]

We have examined [*name of entity*]'s compliance with [*list specified compliance requirements*] for the [*period*] ended [*date*]. Management is responsible for compliance with those requirements. Our responsibility is to express an opinion on [*name of entity*]'s compliance based on our examination.

[Standard scope paragraph]

[Explanatory paragraph]

Our examination disclosed the following material noncompliance with [*type of compliance requirement*] applicable to [*name of entity*] during the [*period*] ended [*date*]. [*Describe noncompliance.*]

[Opinion paragraph]

In our opinion, except for the material noncompliance described in the third paragraph, [*name of entity*] complied, in all material respects, with the aforementioned requirements for the [*period*] ended [*date*].

[Signature]

[Date]

.66 The following is the form of report, modified with explanatory language, that a practitioner should use when he or she concludes that an adverse opinion is appropriate in the circumstances. The practitioner has determined that the specified compliance requirements are both suitable for general use and available to users as discussed in section 101.23–.33.

Independent Accountant's Report

[Introductory paragraph]

We have examined [*name of entity*]'s compliance with [*list specified compliance requirements*] for the [*period*] ended [*date*]. Management is responsible for compliance with those requirements. Our responsibility is to express an opinion on [*name of entity*]'s compliance based on our examination.

[Standard scope paragraph]

[Explanatory paragraph]

Our examination disclosed the following material noncompliance with [*type of compliance requirement*] applicable to [*name of entity*] during the [*period*] ended [*date*]. [*Describe noncompliance.*]

[Opinion paragraph]

In our opinion, because of the effect of the noncompliance described in the third paragraph, [*name of entity*] has not complied with the aforementioned requirements for the [*period*] ended [*date*].

[Signature]

[Date]

.67 If the practitioner's report on his or her examination of the entity's compliance with specified requirements is included in a document that also includes his or her audit report on the entity's financial statements, the following sentence should be included in the paragraph of an examination report that describes material noncompliance.

These conditions were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20XX financial statements, and this report does not affect our report dated [*date of report*] on those financial statements.

The practitioner also may include the preceding sentence when the two reports are not included within the same document.

Representation Letter

.68 In an examination engagement or an agreed-upon procedures engagement, the practitioner should obtain written representations from the responsible party—²²

- a. Acknowledging the responsible party's responsibility for complying with the specified requirements.
- b. Acknowledging the responsible party's responsibility for establishing and maintaining effective internal control over compliance.
- c. Stating that the responsible party has performed an evaluation of (1) the entity's compliance with specified requirements or (2) the entity's controls for ensuring compliance and detecting noncompliance with requirements, as applicable.
- d. Stating the responsible party's assertion about the entity's compliance with the specified requirements or about the effectiveness of internal control over compliance, as applicable, based on the stated or established criteria.
- e. Stating that the responsible party has disclosed to the practitioner all known noncompliance.
- f. State that the responsible party has made available all documentation related to compliance with the specified requirements.
- g. Stating the responsible party's interpretation of any compliance requirements that have varying interpretations.
- h. State that the responsible party has disclosed any communications from regulatory agencies, internal auditors, and other practitioners concerning possible noncompliance with the specified requirements, including communications received between the end of the period addressed in the written assertion and the date of the practitioner's report.
- i. Stating that the responsible party has disclosed any known noncompliance occurring subsequent to the period for which, or date as of which, the responsible party selects to make its assertion.

²² AU section 333, *Management Representations*, paragraph .09, provides guidance on the date as of which the representation letter should be signed and who should sign it.

.69 The responsible party's refusal to furnish all appropriate written representations in an examination engagement constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause the practitioner to disclaim an opinion or withdraw from the engagement. However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude in an examination engagement that a qualified opinion is appropriate. When the practitioner is performing agreed-upon procedures and the practitioner's client is the responsible party, the responsible party's refusal to furnish all appropriate written representations constitutes a limitation on the scope of the engagement sufficient to cause the practitioner to withdraw. When the practitioner's client is not the responsible party, the practitioner is not required to withdraw but should consider the effects of the responsible party's refusal on his or her report. Further, the practitioner should consider the effects of the responsible party's refusal on his or her ability to rely on other representations of the responsible party.

.70 When the practitioner's client is not the responsible party, the practitioner may also want to obtain written representations from the client. For example, when a practitioner's client has entered into a contract with a third party (responsible party) and the practitioner is engaged to examine the responsible party's compliance with that contract, the practitioner may want to obtain written representations from his or her client as to their knowledge of any noncompliance.

Other Information in a Client-Prepared Document Containing Management's Assertion About the Entity's Compliance With Specified Requirements or the Effectiveness of the Internal Control Over Compliance

.71 An entity may publish various documents that contain information (referred to as *other information*) in addition to the practitioner's attest report on either (a) the entity's compliance with specified requirements or (b) the effectiveness of the entity's internal control over compliance or written assertion thereon. Section 101.91–.94 provide guidance to the practitioner if the other information is contained in either of the following:

- a. Annual reports to holders of securities or beneficial interests, annual reports of organizations for charitable or philanthropic purposes distributed to the public, and annual reports filed with regulatory authorities under the 1934 Act
- b. Other documents to which the practitioner, at the client's request, devotes attention

Effective Date

.72 This section is effective when the subject matter or assertion is as of or for a period ending on or after June 1, 2001. Early application is permitted.

AT Section 701

Management's Discussion and Analysis

Source: SSAE No. 10.

Effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Earlier application is permitted.

General

.01 This section sets forth attestation standards and provides guidance to a practitioner concerning the performance of an attest engagement¹ with respect to management's discussion and analysis (MD&A) prepared pursuant to the rules and regulations adopted by the Securities and Exchange Commission (SEC), which are presented in annual reports to shareholders and in other documents.²

Applicability

.02 This section is applicable to the following levels of service when a practitioner is engaged by (a) a public³ entity that prepares MD&A in accordance with the rules and regulations adopted by the SEC (see paragraph .04) or (b) a nonpublic entity that prepares an MD&A presentation and whose management provides a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC:⁴

- An examination of an MD&A presentation
- A review of an MD&A presentation for an annual period, an interim period, or a combined annual and interim period⁵

¹ Section 101, *Attest Engagements*, paragraph .01, defines an attest engagement as one in which a practitioner "is engaged to issue or does issue an examination, a review, or an agreed-upon procedures report on subject matter, or an assertion about the subject matter (hereafter referred to as the *assertion*), that is the responsibility of another party."

² Because this section provides guidance specific to attest engagements concerning MD&A presentations, a practitioner should not perform a compliance attestation engagement under section 601, *Compliance Attestation*, with respect to an MD&A presentation.

³ For purposes of this section, a public entity is any entity (a) whose securities trade in a public market either on a stock exchange (domestic or foreign) or in the over-the-counter (OTC) market, including securities quoted only locally or regionally, (b) that makes a filing with a regulatory agency in preparation for the sale of any class of its securities in a public market, or (c) a subsidiary, corporate joint venture, or other entity controlled by an entity covered by (a) or (b).

⁴ Such assertion may be made by any of the following:

- (a) Including a statement in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- (b) Providing a separate written assertion to accompany the MD&A presentation.
- (c) Providing a written assertion in a representation letter to the practitioner.

⁵ As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the Securities Act of 1933 (the 1933 Act) or the Securities Exchange Act of 1934 (the 1934 Act) and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

A practitioner⁶ engaged to examine or review MD&A and report thereon should comply with the general, fieldwork, and reporting standards in section 101, *Attest Engagements*, and the specific standards set forth in this section. A practitioner engaged to perform agreed-upon procedures on MD&A should follow the guidance set forth in section 201, *Agreed-Upon Procedures Engagements*.⁷

.03 This section does not—

- a. Change the auditor's responsibility in an audit of financial statements performed in accordance with generally accepted auditing standards (GAAS).
- b. Apply to situations in which the practitioner is requested to provide management with recommendations to improve the MD&A rather than to provide assurance. A practitioner engaged to provide such nonattest services should refer to CS section 100, *Consulting Services: Definitions and Standards*.
- c. Apply to situations in which the practitioner is engaged to provide attest services with respect to an MD&A presentation that is prepared based on criteria other than the rules and regulations adopted by the SEC. A practitioner engaged to perform an examination or a review based upon such criteria should refer to the guidance in section 101, or to section 201 if engaged to perform an agreed-upon procedures engagement.⁸

.04 The requirements for MD&A have changed periodically since the first requirement was adopted by the SEC in 1974. As of the date of issuance of this SSAE, the rules and regulations for MD&A adopted by the SEC are found in Item 303 of Regulation S-K, as interpreted by Financial Reporting Release (FRR) No. 36, *Management's Discussion and Analysis of Financial Condition and Results of Operations; Certain Investment Company Disclosures* (Chapter 5 of the "Codification of Financial Reporting Policies"); Item 303 of Regulation S-B for small business issuers; and Item 9 of Form 20-F for Foreign Private Issuers.⁹ Item 303 of Regulation S-K, as interpreted by FRR No. 36, Item 303 of Regulation S-B for small business issuers, and Item 9 of Form 20-F for Foreign Private Issuers, provide the relevant rules and regulations adopted by

⁶ In this section, the terms *practitioner* or *accountant* generally refer to a person engaged to perform an attest service on MD&A. The term *accountant* may also refer to a person engaged to review financial statements. The term *auditor* refers to a person engaged to audit financial statements. As this section includes certain requirements for the practitioner to have audited or performed a Statement on Auditing Standards (SAS) No. 71 review of financial statements (AU section 722, *Interim Financial Information*), the terms *auditor*, *practitioner*, or *accountant* may refer, in this section, to the same person.

⁷ Practitioners should follow guidance in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, when requested to perform agreed-upon procedures on MD&A and report thereon in a letter for an underwriter.

⁸ The guidance in this section may be helpful when performing an engagement to provide attest services with respect to an MD&A presentation that is based on criteria other than the rules and regulations adopted by the SEC. Such other criteria would have to be suitable and available as discussed in section 101.23–33.

⁹ The SEC staff from time to time issues guidance related to the SEC's adopted requirements; for example, Staff Accounting Bulletins (SABs), Staff Legal Bulletins, and speeches. Although such guidance may provide additional information with respect to the adopted requirements for MD&A, the practitioner should not be expected to attest to assertions on compliance with such guidance. The practitioner may find it helpful to also familiarize himself or herself with material contained on the SEC's Web site <http://www.sec.gov/> that provides further information with respect to the SEC's views concerning MD&A disclosures.

the SEC that meet the definition of suitable criteria in section 101.23–.32. The practitioner should consider whether the SEC has adopted additional rules and regulations with respect to MD&A subsequent to the issuance of this section.

Conditions for Engagement Performance

Examination

.05 The practitioner's objective in an engagement to examine MD&A is to express an opinion on the MD&A presentation taken as a whole by reporting whether—

- a. The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.¹⁰
- b. The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements.¹¹
- c. The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.¹²

.06 A practitioner may accept an engagement to examine MD&A of a public or nonpublic entity, provided the practitioner audits, in accordance with GAAS,¹³ the financial statements for at least the latest period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor. A base knowledge of the entity and its operations gained through an audit of the historical financial statements and knowledge about the industry and the environment is necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the examination.

.07 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner (the successor auditor) should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so that he or she would be able to—

- a. Identify types of potential material misstatements in MD&A and consider the likelihood of their occurrence.

¹⁰ The required elements as of the date of issuance of this SSAE include a discussion of the entity's financial condition, changes in financial condition, and results of operations, including a discussion of liquidity and capital resources.

¹¹ Whether historical financial amounts are accurately derived from the financial statements includes both amounts that are derived from the face of the financial statements (which includes the notes to the financial statements) and financial statement schedules and those that are derived from underlying records supporting elements, accounts, or items included in the financial statements.

¹² Whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein requires consideration of management's interpretation of the disclosure criteria for MD&A, management's determinations as to the relevancy of information to be included, and estimates and assumptions made by management that affect reported information.

¹³ Restrictions on the scope of the audit of the financial statements will not necessarily preclude the practitioner from accepting an engagement to examine MD&A. Note that the SEC will generally not accept an auditor's report that is modified for a scope limitation. The practitioner should consider the nature and magnitude of the scope limitation and the form of the auditor's report in assessing whether an examination of MD&A could be performed.

- b. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- c. Perform the procedures that will provide the practitioner with a basis for expressing an opinion on the MD&A presentation with respect to whether the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements for such period.
- d. Perform the procedures that will provide the practitioner with a basis for expressing an opinion as to whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein.

Refer to paragraphs .99 through .101 for guidance regarding the review of the predecessor auditor's working papers.

Review

.08 The objective of a review of MD&A is to report whether any information came to the practitioner's attention to cause him or her to believe that—

- a. The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
- b. The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
- c. The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

A review consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. A review ordinarily does not contemplate (a) tests of accounting records through inspection, observation, or confirmation, (b) obtaining corroborating evidential matter in response to inquiries, or (c) the application of certain other procedures ordinarily performed during an examination of MD&A. A review may bring to the practitioner's attention significant matters affecting the MD&A, but it does not provide assurance that the practitioner will become aware of all significant matters that would be disclosed in an examination.

.09 A practitioner may accept an engagement to review the MD&A presentation of a public entity for an annual period provided the practitioner has audited, in accordance with GAAS, the financial statements for at least the latest annual period to which the MD&A presentation relates and the financial statements for the other periods covered by the MD&A presentation have been audited by the practitioner or a predecessor auditor.¹⁴ A base knowledge of the entity and its operations gained through an audit of the historical financial statements and knowledge about the industry and the environment is

¹⁴ As discussed in paragraph .85*k*, a review report is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act and, accordingly, the review report should contain a statement of restrictions on the use of the report to specified parties if the entity is (a) a public entity or (b) a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency.

necessary to provide the practitioner with sufficient knowledge to properly evaluate the results of the procedures performed in connection with the review.

.10 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A presentation, the practitioner should also consider whether, under the particular circumstances, he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for such period so he or she would be able to—

- a. Identify types of potential material misstatements in the MD&A and consider the likelihood of their occurrence.
- b. Perform the procedures that will provide the practitioner with a basis for reporting whether any information has come to the practitioner's attention to cause him or her to believe any of the following.
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements for such period.
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

.11 A practitioner may accept an engagement to review the MD&A presentation of a public entity for an interim period provided that both of the following conditions are met.

- a. The practitioner performs either (1) a review of the historical financial statements for the related comparative interim periods and issues a review report thereon in accordance with AU section 722, *Interim Financial Information*, or (2) an audit of the interim financial statements.
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed by either the practitioner or a predecessor auditor.

.12 If a predecessor auditor examined or reviewed the MD&A presentation of a public entity for the most recent fiscal year, the practitioner should not accept an engagement to review the MD&A presentation for an interim period unless he or she can acquire sufficient knowledge of the business and of the entity's accounting and financial reporting practices for the interim period to perform the procedures described in paragraph .10.

.13 If a nonpublic entity chooses to prepare MD&A, the practitioner should not accept an engagement to perform a review of such MD&A for an annual period under this section unless both of the following conditions are met.

- a. The annual financial statements for the periods covered by the MD&A presentation have been or will be audited and the practitioner has audited or will audit the most recent year (refer to paragraph .07 if the financial statements for prior years were audited by a predecessor auditor).
- b. Management will provide a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

.14 A practitioner may accept an engagement to review the MD&A presentation of a nonpublic entity for an interim period provided that all of the following conditions are met.

- a. The practitioner performs one of the following:
 - (1) A review of the historical financial statements for the related interim periods under the Statements on Standards for Accounting and Review Services (SSARSs) and issues a review report thereon
 - (2) A review of the condensed interim financial information for the related interim periods under AU section 722 and issues a review report thereon, and such interim financial information is accompanied by complete annual financial statements for the most recent fiscal year that have been audited
 - (3) An audit of the interim financial statements
- b. The MD&A presentation for the most recent fiscal year has been or will be examined or reviewed.
- c. Management will provide a written assertion stating that the presentation has been prepared using the rules and regulations adopted by the SEC as the criteria. (See paragraph .02.)

Engagement Acceptance Considerations

.15 In determining whether to accept an engagement, the practitioner should consider whether management (and others engaged by management to assist them, such as legal counsel) has the appropriate knowledge of the rules and regulations adopted by the SEC to prepare MD&A.

Responsibilities of Management

.16 Management is responsible for the preparation of the entity's MD&A pursuant to the rules and regulations adopted by the SEC. The preparation of MD&A in conformity with the rules and regulations adopted by the SEC requires management to interpret the criteria, accurately derive the historical amounts from the entity's books and records, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information.

.17 An entity should not name the practitioner in a client-prepared document as having examined or reviewed MD&A unless the MD&A presentation and related practitioner's report and the related financial statements and auditor's (or accountant's review) report are included in the document (or, in the case of a public entity, incorporated by reference to such information filed with a regulatory agency). If such a statement is made in a document that does not include (or incorporate by reference) such information, the practitioner should request that neither his or her name nor reference to the practitioner be made with respect to the MD&A information, or that such document be revised to include the required presentations and reports. If the client does not comply, the practitioner should advise the client that he or she does not consent to either the use of his or her name or the reference to the practitioner, and he or she should consider what other actions might be appropriate.¹⁵

¹⁵ In considering what other actions, if any, may be appropriate in these circumstances, the practitioner may wish to consult his or her legal counsel.

Obtaining an Understanding of the SEC Rules and Regulations and Management's Methodology for the Preparation of MD&A

.18 The practitioner should obtain an understanding of the rules and regulations adopted by the SEC for MD&A. (Refer to paragraph .04.)

.19 The practitioner should inquire of management regarding the method of preparing MD&A, including matters such as the sources of the information, how the information is gathered, how management evaluates the types of factors having a material effect on financial condition (including liquidity and capital resources), results of operations, and cash flows, and whether there have been any changes in the procedures from the prior year.

Timing of Procedures

.20 Proper planning by the practitioner contributes to the effectiveness of the attest procedures in an examination or a review of MD&A. Performing some of the work in conjunction with the audit of the historical financial statements or the review of interim financial statements may permit the work to be carried out in a more efficient manner and to be completed at an earlier date. When performing an examination or a review of MD&A, the practitioner may consider the results of tests of controls, analytical procedures,¹⁶ and substantive tests performed in a financial statement audit or analytical procedures and inquiries made in a review of financial statements or interim financial information.

Materiality

.21 The practitioner should consider the concept of materiality in planning and performing the engagement. The objective of an examination or a review is to report on the MD&A presentation taken as a whole and not on the individual amounts and disclosures contained therein. In the context of an MD&A presentation, the concept of materiality encompasses both material omissions (for example, the omission of trends, events, and uncertainties that are currently known to management that are reasonably likely to have material effects on the entity's financial condition, results of operations, liquidity, or capital resources) and material misstatements in MD&A, both of which are referred to herein as a misstatement. Assessing the significance of a misstatement of some items in MD&A may be more dependent upon qualitative than quantitative considerations. Qualitative aspects of materiality relate to the relevance and reliability of the information presented (for example, qualitative aspects of materiality are considered in assessing whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures in the MD&A). Furthermore, quantitative information is often more meaningful when accompanied by qualitative disclosures. For example, quantitative information about market risk-sensitive instruments is more meaningful when accompanied by qualitative information about an entity's market risk exposures and how those exposures are managed.

¹⁶ AU section 329, *Analytical Procedures*, defines analytical procedures as "evaluations of financial information made by a study of plausible relationships among both financial and nonfinancial data. Analytical procedures range from simple comparisons to the use of complex models involving many relationships and elements of data." In applying analytical procedures to MD&A, the practitioner develops expectations of matters that would be discussed in MD&A by identifying and using plausible relationships that are reasonably expected to exist based on the practitioner's understanding of the client and of the industry in which the client operates, and the knowledge of relationships among the various financial elements gained through the audit of financial statements or review of interim financial information. Refer to AU section 329 for further discussion of analytical procedures.

Materiality is also a concept that is judged in light of the expected range of reasonableness of the information; therefore, users should not expect prospective information (information about events that have not yet occurred) to be as precise as historical information.

.22 In expressing an opinion, or providing the limited assurance of a review engagement, on the presentation, the practitioner should consider the omission or misstatement of an individual assertion (see paragraph .34) to be material if the magnitude of the omission or misstatement—individually or when aggregated with other omissions or misstatements—is such that a reasonable person using the MD&A presentation would be influenced by the inclusion or correction of the individual assertion. The relative rather than absolute size of an omission or misstatement may determine whether it is material in a given situation.

Inclusion of Pro Forma Financial Information

.23 Management may include pro forma financial information with respect to a business combination or other transactions in MD&A. The practitioner should consider the guidance in section 401, *Reporting on Pro Forma Financial Information*, paragraph .10, when performing procedures with respect to such information, even if management indicates in MD&A that certain information has been derived from unaudited financial statements. For example, in an examination of MD&A, the practitioner's procedures would ordinarily include obtaining an understanding of the underlying transaction or event, discussing with management their assumptions, obtaining sufficient evidence in support of the adjustments, and other procedures for the purpose of expressing an opinion on the MD&A presentation taken as a whole and not for expressing an opinion on (or providing the limited assurance of a review of) the pro forma financial information included therein under section 401.

Inclusion of External Information

.24 An entity may also include in its MD&A information external to the entity, such as the rating of its debt by certain rating agencies or comparisons with statistics from a trade association. Such external information should also be subjected to the practitioner's examination or review procedures. For example, in an examination, the practitioner might compare information concerning the statistics of a trade organization to a published source; however, the practitioner would not be expected to test the underlying support for the trade association's calculation of such statistics.

Inclusion of Forward-Looking Information

.25 An entity may include certain forward-looking disclosures in the MD&A presentation, including cautionary language concerning the achievability of the matters disclosed. Although any forward-looking disclosures that are included in the MD&A presentation should be subjected to the practitioner's examination or review, such information is subjected to testing only for the purpose of expressing an opinion that the underlying information, determinations, estimates, and assumptions provide a reasonable basis for the disclosures contained therein or providing the limited assurance of a review on the MD&A presentation taken as a whole. The practitioner may consider the guidance in section 301, *Financial Forecasts and Projections*, when performing procedures with respect to forward-looking information. The practitioner may also consider whether meaningful cautionary language has been included with the forward-looking information.

.26 Section 27A of the Securities Act of 1933 (the 1933 Act) and Section 21E of the Securities Exchange Act of 1934 (the 1934 Act) provide a safe harbor from liability in private litigation with respect to forward-looking statements that include or make reference to meaningful cautionary language. However, such sections also include exclusions from safe harbor protection in certain situations. Whether an entity's forward-looking statements and the practitioner's report thereon qualify for safe harbor protection is a legal matter.

Inclusion of Voluntary Information

.27 An entity may voluntarily include other information in the MD&A presentation that is not required by the rules and regulations adopted by the SEC for MD&A. When the entity includes in MD&A additional information required by other rules and regulations of the SEC (for example, Item 305 of Regulation S-K, *Quantitative and Qualitative Disclosures About Market Risk*), the practitioner should also consider such other rules and regulations in subjecting such information to his or her examination or review procedures.¹⁷

Examination Engagement

.28 To express an opinion about whether (a) the presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements, and (c) the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein, the practitioner seeks to obtain reasonable assurance by accumulating sufficient evidence in support of the disclosures and assumptions, thereby restricting attestation risk to an appropriately low level.

Attestation Risk

.29 In an engagement to examine MD&A, the practitioner plans and performs the examination to obtain reasonable assurance of detecting both intentional and unintentional misstatements that are material to the MD&A presentation taken as a whole. Absolute assurance is not attainable because of factors such as the need for judgment regarding the areas to be tested and the nature, timing, and extent of tests to be performed; the concept of selective testing of the data; and the inherent limitations of the controls applicable to the preparation of MD&A. The practitioner exercises professional judgment in assessing the significant determinations made by management as to the relevancy of information to be included, and the estimates and assumptions that affect reported information. As a result of these factors, in the great majority of cases, the practitioner has to rely on evidence that is persuasive rather than convincing. Also, procedures may be ineffective for detecting an intentional misstatement that is concealed through collusion among client personnel and third parties or among management or employees of the client. Therefore, the subsequent discovery that a material misstatement exists in the MD&A does not, in and of itself, evidence (a) failure to obtain reasonable assurance; (b) inadequate planning, performance, or judgment on the part of the practitioner; (c) the absence of due professional care; or (d) a failure to comply with this section.

¹⁷ To the extent that the voluntary information includes forward-looking information, refer to paragraphs .25 and .26.

.30 Factors to be considered by the practitioner in planning an examination of MD&A include (a) the anticipated level of attestation risk related to assertions embodied in the MD&A presentation, (b) preliminary judgments about materiality for attest purposes, (c) the items within the MD&A presentation that are likely to require revision or adjustment, and (d) conditions that may require extension or modification of attest procedures. For purposes of an engagement to examine MD&A, the components of attestation risk are defined as follows.

- a. *Inherent risk* is the susceptibility of an assertion within MD&A to a material misstatement, assuming that there are no related controls. (See paragraphs .34 through .38.)
- b. *Control risk* is the risk that a material misstatement that could occur in an assertion within MD&A will not be prevented or detected on a timely basis by the entity's controls; some control risk will always exist because of the inherent limitations of any internal control.
- c. *Detection risk* is the risk that the practitioner will not detect a material misstatement that exists in an assertion within MD&A.

Inherent Risk

.31 The level of inherent risk varies with the nature of the assertion. For example, the inherent risk concerning financial information included in the MD&A presentation may be low, whereas the inherent risk concerning the completeness of the disclosure of the entity's risks or liquidity may be high.

Control Risk

.32 The practitioner should assess control risk as discussed in paragraphs .53 through .57. Assessing control risk contributes to the practitioner's evaluation of the risk that material misstatement in the MD&A exists. In the process of assessing control risk (together with assessing inherent risk), the practitioner may obtain evidential matter about the risk that such misstatement may exist. The practitioner uses this evidential matter as part of the reasonable basis for his or her opinion on the MD&A presentation taken as a whole.

Detection Risk

.33 In determining an acceptable level of detection risk, the practitioner assesses inherent risk and control risk, and considers the extent to which he or she seeks to restrict attestation risk. As assessed inherent risk or control risk decreases, the acceptable level of detection risk increases. Accordingly, the practitioner may alter the nature, timing, and extent of tests performed based on the assessments of inherent risk and control risk.

Nature of Assertions

.34 Assertions are representations by management that are embodied in the MD&A presentation. They can be either explicit or implicit and can be classified according to the following broad categories:

- a. Occurrence
- b. Consistency with the financial statements
- c. Completeness
- d. Presentation and disclosure

.35 Assertions about occurrence address whether reported transactions or events have occurred during a given period. Assertions about consistency with the financial statements address whether—

- a. Reported transactions, events, and explanations are consistent with the financial statements.
- b. Historical financial amounts have been accurately derived from the financial statements and related records.
- c. Nonfinancial data have been accurately derived from related records.

.36 Assertions about completeness address whether descriptions of transactions and events necessary to obtain an understanding of the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources are included in MD&A; and whether known events, transactions, conditions, trends, demands, commitments, or uncertainties that will result in or are reasonably likely to result in material changes to these items are appropriately described in the MD&A presentation.

.37 For example, if management asserts that the reason for an increase in revenues is a price increase in the current year, they are explicitly asserting that both an increase in revenues and a price increase have occurred in the current year, and implicitly asserting that any historical financial amounts included are consistent with the financial statements for such period. They are also implicitly asserting that the explanation for the increase in revenues is complete; that there are no other significant reasons for the increase in revenues.

.38 Assertions about presentation and disclosure address whether information included in the MD&A presentation is properly classified, described, and disclosed. For example, management asserts that any forward-looking information included in MD&A is properly classified as being based on management's present assessment and includes an appropriate description of the expected results. To further disclose the nature of such information, management may also include a statement that actual results in the future may differ materially from management's present assessment. (See paragraphs .25 and .26.)

.39 The auditor of the underlying financial statements is responsible for obtaining and evaluating evidential matter concerning the assertions embodied in the account balance or transaction class of the financial statements as discussed in AU section 326, *Evidential Matter*. Although procedures designed to achieve the practitioner's objective of forming an opinion on the MD&A presentation taken as a whole may test certain assertions embodied in the underlying financial statements, the practitioner is not expected to test the underlying financial statement assertions in an examination of MD&A. For example, the practitioner is not expected to test the completeness of revenues or the existence of inventory when testing the assertions in MD&A concerning an increase in revenues or an increase in inventory levels; assurance related to completeness of revenues or for existence of inventory would be obtained as part of the audit. The practitioner is, however, responsible for testing the completeness of the explanation for the increase in revenues or the increase in inventory levels.

Performing an Examination Engagement

.40 The practitioner should exercise (*a*) due professional care in planning, performing, and evaluating the results of his or her examination procedures and

(b) the proper degree of professional skepticism to obtain reasonable assurance that material misstatements will be detected.

.41 In an examination of MD&A, the practitioner should perform the following.

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18 and .19.)
- b. Plan the engagement. (See paragraphs .42 through .48.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of MD&A. (See paragraphs .49 through .58.)
- d. Obtain sufficient evidence, including testing completeness. (See paragraphs .59 through .64.)
- e. Consider the effect of events subsequent to the balance-sheet date. (See paragraphs .65 and .66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which the practitioner believes written representations are appropriate. (See paragraphs .110 through .112.)
- g. Form an opinion about whether the MD&A presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC, whether the historical financial amounts included therein have been accurately derived, in all material respects, from the entity's financial statements, and whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A. (See paragraph .67.)

Planning the Engagement

General Considerations

.42 Planning an engagement to examine MD&A involves developing an overall strategy for the expected scope and performance of the engagement. When developing an overall strategy for the engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Knowledge of the entity's internal control applicable to the preparation of MD&A obtained during the audit of the financial statements and the extent of recent changes, if any
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases and presentations to lenders and rating agencies, if any, concerning past and future performance)
- How the entity analyzes actual performance compared to budgets and the types of information provided in documents submitted to the board

of directors for purposes of the entity's day-to-day operations and long-range planning

- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Preliminary judgments about (a) materiality, (b) inherent risk at the individual assertion level, and (c) factors (for example, matters identified during the audit or review of the historical financial statements) relating to significant deficiencies in internal control applicable to the preparation of MD&A (See paragraph .58.)
- The fraud risk factors or other conditions identified during the audit of the most recent annual financial statements and the practitioner's response to such risk factors
- The type and extent of evidential matter supporting management's assertions and disclosures in the MD&A presentation
- The nature of complex or subjective matters potentially material to the MD&A presentation that may require special skill or knowledge and whether such matters may require using the work of a specialist to obtain sufficient evidential matter (See paragraph .47.)
- The presence of an internal audit function (See paragraph .48.)

.43 In planning an engagement when MD&A has not previously been examined, the practitioner should consider the degree to which the entity has information available for such prior periods and the continuity of the entity's personnel and their ability to respond to inquiries with respect to such periods. In addition, the practitioner should obtain an understanding of the entity's internal control in prior years applicable to the preparation of MD&A.

Consideration of Audit Results

.44 The practitioner should also consider the results of the audits of the financial statements for the periods covered by the MD&A presentation on the examination engagement, such as matters relating to the following:

- The availability and condition of the entity's records
- The nature and magnitude of audit adjustments
- Likely misstatements¹⁸ that were not corrected in the financial statements that may affect MD&A disclosures (for example, misclassifications between financial statement line items)

.45 The practitioner should also consider the possible impact on the scope of the examination engagement of any modification or contemplated modification of the auditor's report, including matters addressed in explanatory language. For example, if the auditor has modified the auditor's report to include a going-concern uncertainty explanatory paragraph, the practitioner would consider such a matter in assessing attestation risk.

¹⁸ Refer to AU section 312, *Audit Risk and Materiality in Conducting an Audit*, paragraphs .34 through .40.

Multiple Components

.46 In an engagement to examine MD&A, if the entity has operations in several components (for example, locations, branches, subsidiaries, or programs), the practitioner should determine the components to which procedures should be applied. In making such a determination and in selecting the components to be tested, the practitioner should consider factors such as the following:

- The relative importance of each component to the applicable MD&A disclosure
- The degree of centralization of records
- The effectiveness of controls, particularly those that affect management's direct control over the exercise of authority delegated to others and its ability to supervise activities at various locations effectively
- The nature and extent of operations conducted at the various components
- The similarity of operations and internal control for different components

The practitioner should consider whether the audit base of the components is consistent with the components that are disclosed in MD&A. Accordingly, it may be desirable for the practitioner to coordinate the audit work with the components that will be disclosed.

Using the Work of a Specialist

.47 In some engagements to examine MD&A, the nature of complex or subjective matters potentially material to the MD&A presentation may require specialized skill or knowledge in a particular field other than accounting or auditing. For example, the entity may include information concerning plant production capacity, which would ordinarily be determined by an engineer. In such cases, the practitioner may use the work of a specialist and should consider the relevant guidance in AU section 336, *Using the Work of a Specialist*. AU section 311, *Planning and Supervision*, provides relevant guidance for situations in which a specialist employed by the practitioner's firm participates in the examination.

Internal Audit Function

.48 Another factor the practitioner should consider when planning the engagement is whether the entity has an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation, in monitoring the entity's internal control applicable to the preparation of MD&A, or in testing the underlying records supporting disclosures in the MD&A. A practitioner should consider the guidance in AU section 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, when addressing the competence and objectivity of internal auditors; the nature, timing, and extent of work to be performed; and other related matters.

Consideration of Internal Control Applicable to the Preparation of MD&A

.49 The practitioner should obtain an understanding of the entity's internal control applicable to the preparation of MD&A sufficient to plan the engagement and to assess control risk. Generally, controls that are relevant to an examination pertain to the entity's objective of preparing MD&A in conformity

with the rules and regulations adopted by the SEC, and may include controls within the control environment, risk assessment, control activities, information and communication, and monitoring components.

.50 The controls relating to operations and compliance objectives may be relevant to an examination if they pertain to data the practitioner evaluates or uses in applying examination procedures. For example, controls over the gathering of information, which are different from financial statement controls, and controls relating to nonfinancial data that are included in the MD&A presentation, may be relevant to an examination engagement.

.51 In planning the examination, knowledge of such controls should be used to identify types of potential misstatement (including types of potential material omissions), to consider factors that affect the risk of material misstatement and to design appropriate tests.

.52 A practitioner generally obtains an understanding of the design of the entity's internal control applicable to the preparation of MD&A by making inquiries of appropriate management, supervisory, and staff personnel; by inspection of the entity's documents; and by observation of the entity's relevant activities, including controls over matters discussed, nonfinancial data included, and management evaluation of the reasonableness of information included. The nature and extent of procedures a practitioner performs vary from entity to entity and are influenced by factors such as the entity's complexity, the length of time that the entity has prepared MD&A pursuant to the rules and regulations adopted by the SEC, the practitioner's knowledge of the entity's controls obtained in audits and previous professional engagements, and judgments about materiality.

.53 After obtaining an understanding of the entity's internal control applicable to the preparation of MD&A, the practitioner assesses control risk for the assertions embodied in the MD&A presentation. (Refer to paragraphs .34 through .39.) The practitioner may assess control risk at the maximum level (the greatest probability that a material misstatement that could occur in an assertion will not be prevented or detected on a timely basis by an entity's controls) because the practitioner believes controls are unlikely to pertain to an assertion, are unlikely to be effective, or because evaluating their effectiveness would be inefficient. Alternatively, the practitioner may obtain evidential matter about the effectiveness of both the design and operation of a control that supports a lower assessed level of control risk. Such evidential matter may be obtained from tests of controls planned and performed concurrently with obtaining the understanding of the internal control or from procedures performed to obtain the understanding that were not specifically planned as tests of controls.

.54 After obtaining the understanding and assessing control risk, the practitioner may desire to seek a further reduction in the assessed level of control risk for certain assertions. In such cases, the practitioner considers whether evidential matter sufficient to support a further reduction is likely to be available and whether performing additional tests of controls to obtain such evidential matter would be efficient.

.55 When seeking to assess control risk below the maximum for controls over financial and nonfinancial data, the practitioner should perform tests of controls to obtain evidence to support the assessed level of control risk. For example, the practitioner may perform tests of controls directed toward the effectiveness of the design or operation of internal control over the accumulation of the number of units sold for a manufacturing company, average interest rates earned and paid for a financial institution, or average net sales per square foot for a retail entity.

.56 The practitioner uses the knowledge provided by the understanding of internal control applicable to the preparation of MD&A and the assessed level of control risk in determining the nature, timing, and extent of substantive tests for the MD&A assertions.

.57 The practitioner should document the understanding of the internal control components obtained to plan the examination and the assessment of control risk. The form and extent of this documentation is influenced by the size and complexity of the entity, as well as the nature of the entity's controls applicable to the preparation of MD&A.

.58 During the course of an engagement to examine MD&A, the practitioner may become aware of significant deficiencies in the design or operation of internal control applicable to the preparation of MD&A that could adversely affect the entity's ability to prepare MD&A in accordance with the rules and regulations adopted by the SEC. The practitioner should consider the implications of such control deficiencies on his or her ability to rely on management's explanations and on comparisons to summary accounting records. A practitioner's responsibility to communicate these control deficiencies in an examination of MD&A is similar to the auditor's responsibility described in AU section 325, *Communication of Internal Control Related Matters Noted in an Audit*, and AU section 380, *Communication With Audit Committees*.

Obtaining Sufficient Evidence

.59 The practitioner should apply procedures to obtain reasonable assurance of detecting material misstatements. In an audit of historical financial statements, the practitioner will have applied audit procedures to some of the information included in the MD&A. However, because the objective of those audit procedures is to have a reasonable basis for expressing an opinion on the financial statements taken as a whole rather than on the MD&A, certain additional examination procedures should be performed as discussed in paragraphs .60 through .64. Determining these procedures and evaluating the sufficiency of the evidence obtained are matters of professional judgment.

.60 The practitioner ordinarily should apply the following procedures.

- a.* Read the MD&A and compare the content for consistency with the audited financial statements; compare financial amounts to the audited financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
- b.* Compare nonfinancial amounts to the audited financial statements, if applicable, or to other records. (Refer to paragraphs .62 through .64.)
- c.* Consider whether the explanations in MD&A are consistent with the information obtained during the audit; investigate further those explanations that cannot be substantiated by information in the audit working papers through inquiry (including inquiry of officers and other executives having responsibility for operational areas) and inspection of client records.
- d.* Examine internally generated documents (for example, variance analyses, sales analyses, wage cost analyses, sales or service pricing sheets, and business plans or programs) and externally generated documents (for example, correspondence, contracts, or loan agreements) in support of the existence, occurrence, or expected

occurrence of events, transactions, conditions, trends, demands, commitments, and uncertainties disclosed in the MD&A.

- e. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Evaluate whether the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the MD&A disclosures of events, transactions, conditions, trends, demands, commitments, or uncertainties.¹⁹
- f. Consider obtaining available prospective financial information relating to prior periods and comparing actual results with forecasted and projected amounts.
- g. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to their plans and expectations for the future that could affect the entity's liquidity and capital resources.
- h. Consider obtaining external information concerning industry trends, inflation, and changing prices and comparing the related MD&A disclosures to such information.
- i. Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.
- j. Read the minutes of meetings to date of the board of directors and other significant committees to identify matters that may affect MD&A; consider whether such matters are appropriately addressed in MD&A.
- k. Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- l. Obtain public communications (for example, press releases and quarterly reports) and the related supporting documentation dealing with historical and future results; consider whether MD&A is consistent with such communications.
- m. Consider obtaining other types of publicly available information (for example, analyst reports and news articles); compare the MD&A presentation with such information.

Testing Completeness

.61 The practitioner should design procedures to test the presentation for completeness, including tests of the completeness of explanations that relate to historical disclosures as discussed in paragraphs .36 and .37. The practitioner should also consider whether the MD&A discloses matters that could significantly impact future financial condition and results of operations of the entity by considering information that he or she obtained through the following:

¹⁹ Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

- a. Audit of the financial statements
- b. Inquiries of the entity's officers and other executives directed to current events, conditions, economic changes, commitments and uncertainties, within both the entity and its industry
- c. Other information obtained through procedures such as those listed in paragraphs .60, .65, and .66

As discussed in paragraph .31, the inherent risk concerning the completeness of disclosures may be high; if it is, the practitioner may extend the procedures (for example, by making additional inquiries of management or by examining additional internally generated documents).

Nonfinancial Data

.62 Management may include nonfinancial data (such as units produced; the number of units sold, locations, or customers; plant utilization; or square footage) in the MD&A. The practitioner should consider whether the definitions used by management for such nonfinancial data are reasonable for the particular disclosure in the MD&A and whether there are suitable criteria (for example, industry standards with respect to square footage for retail operations), as discussed in section 101.23–.32.

.63 In some situations, the nonfinancial data or the controls over the nonfinancial data may have been tested by the practitioner in conjunction with the financial statement audit; however, the practitioner's consideration of the nature of the procedures to apply to nonfinancial data in an examination of MD&A is based on the concept of materiality with respect to the MD&A presentation. The practitioner should consider whether industry standards exist for the nonfinancial data or whether there are different methods of measurement that may be used, and, if such methods could result in significantly different results, whether the method of measurement selected by management is reasonable and consistent between periods covered by the MD&A presentation. For example, the number of customers reported by management could vary depending on whether management defines a customer as a subsidiary or "ship to" location of a company rather than the company itself.

.64 In testing nonfinancial data included in the MD&A, the practitioner may seek to assess control risk below the maximum for controls over such nonfinancial data, as discussed in paragraph .55. The practitioner weighs the increase in effort of the examination associated with the additional tests of controls that is necessary to obtain evidential matter against the resulting decrease in examination effort associated with the reduced substantive tests. For those nonfinancial assertions for which the practitioner performs additional tests of controls, the practitioner determines the assessed level of control risk that the results of those tests will support. This assessed level of control risk is used in determining the appropriate detection risk to accept for those nonfinancial assertions and, accordingly, in determining the nature, timing, and extent of substantive tests for such assertions.

Consideration of the Effect of Events Subsequent to the Balance-Sheet Date

.65 As there is an expectation by the SEC that MD&A considers events through a date at or near the filing date,²⁰ the practitioner should consider

²⁰ A registration statement under the 1933 Act speaks as of its effective date.

information about events²¹ that comes to his or her attention after the end of the period addressed by MD&A and prior to the issuance of his or her report that may have a material effect on the entity's financial condition (including liquidity and capital resources), changes in financial condition, results of operations, and material commitments for capital resources. Events or matters that should be disclosed in MD&A include those that—²²

- Are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- Are reasonably likely to result in the entity's liquidity increasing or decreasing in any material way.
- Will have a material effect on the entity's capital resources.
- Would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition.

The practitioner should consider whether events identified during the examination of the MD&A presentation or the audit of the related financial statements require adjustment to or disclosure in the MD&A presentation. When MD&A will be included or incorporated by reference in a 1933 Act document that is filed with the SEC, the practitioner's procedures should extend up to the filing date or as close to it as is reasonable and practicable in the circumstances.²³ If a public entity's MD&A presentation is to be included only in a filing under the 1934 Act (for example, Forms 10-K or 10-KSB), the practitioner's responsibility to consider subsequent events does not extend beyond the date of the report on MD&A. Paragraphs .94 through .98 provide guidance when the practitioner is engaged subsequent to the filing of the MD&A presentation.

.66 In an examination of MD&A, the practitioner's fieldwork ordinarily extends beyond the date of the auditor's report on the related financial statements.²⁴ Accordingly, the practitioner generally should—

- a. Read available minutes of meetings of stockholders, the board of directors, and other appropriate committees; as to meetings for which minutes are not available, inquire about matters dealt with at such meetings.
- b. Read the latest available interim financial statements for periods subsequent to the date of the auditor's report, compare them with the financial statements for the periods covered by the MD&A,

²¹ Such events are only referred to as *subsequent events* in relation to an MD&A presentation if they occur after the MD&A presentation has been issued. The annual MD&A presentation ordinarily would not be updated for subsequent events if an MD&A presentation for a subsequent interim period has been issued or the event has been reported through a filing on Form 8-K.

²² The practitioner should refer to the rules and regulations adopted by the SEC for other examples of events that should be disclosed.

²³ Additionally, if the practitioner's report on MD&A is included or incorporated by reference in a 1933 Act document, the practitioner should extend his or her procedures with respect to subsequent events from the date of his or her report on MD&A up to the effective date or as close thereto as is reasonable and practicable in the circumstances.

²⁴ Undertaking an engagement to examine MD&A does not extend the auditor's responsibility to update the subsequent events review procedures for the financial statements beyond the date of the auditor's report. However, see AU section 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*. Also, see AU section 711, *Filings Under Federal Securities Statutes*, as to an auditor's responsibility when his or her report is included in a registration statement filed under the 1933 Act.

and inquire of and discuss with officers and other executives having responsibility for operational, financial, and accounting matters (limited where appropriate to major locations) matters such as the following:

- Whether interim financial statements have been prepared on the same basis as the audited financial statements
 - Whether there were any significant changes in the entity's operations, liquidity, or capital resources in the subsequent period
 - The current status of items in the financial statements for which the MD&A has been prepared that were accounted for on the basis of tentative, preliminary, or inconclusive data
 - Whether any unusual adjustments were made during the period from the balance-sheet date to the date of inquiry
- c. Make inquiries of members of senior management as to the current status of matters concerning litigation, claims, and assessments identified during the audit of the financial statements and of any new matters or unfavorable developments. Consider obtaining updated legal letters from legal counsel.²⁵
- d. Consider whether there have been any changes in economic conditions or in the industry that could have a significant effect on the entity.
- e. Obtain written representations from appropriate officials as to whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A. (See paragraphs .110 through .112.)
- f. Make such additional inquiries or perform such other procedures as considered necessary and appropriate to address questions that arise in carrying out the foregoing procedures, inquiries, and discussions.

Forming an Opinion

.67 The practitioner should consider the concept of materiality discussed in paragraphs .21 and .22, and the impact of any modification of the auditor's report on the historical financial statements in forming an opinion on the examination of MD&A, including the practitioner's ability to evaluate the results of inquiries and other procedures.

Reporting

.68 In order for the practitioner to issue a report on an examination of MD&A, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or, with respect to a public entity, be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency). In addition, if the entity is a nonpublic entity, one of the following conditions should be met.

- a. A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.

²⁵ See AU section 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, for guidance concerning obtaining legal letters.

- b. A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.69 The practitioner's report on an examination of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC, and a statement that the practitioner's responsibility is to express an opinion on the presentation based on his or her examination
- d. A reference to the auditor's report on the related financial statements, and if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the examination was conducted in accordance with attestation standards established by the AICPA and a description of the scope of an examination of MD&A
- f. A statement that the practitioner believes the examination provides a reasonable basis for his or her opinion
- g. A paragraph stating that—
 - (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
 - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties
- h. If the entity is a nonpublic entity, a statement that, although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- i. The practitioner's opinion on whether—
 - (1) The presentation includes, in all material respects, the required elements of the rules and regulations adopted by the SEC
 - (2) The historical financial amounts have been accurately derived, in all material respects, from the entity's financial statements
 - (3) The underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained therein
- j. The manual or printed signature of the practitioner's firm
- k. The date of the examination report

Appendix A [paragraph .114], "Examination Reports," includes a standard examination report. (See Example 1.)

Dating

.70 The practitioner's report on the examination of MD&A should be dated as of the completion of the practitioner's examination procedures. That date should not precede the date of the auditor's report on the latest historical financial statements covered by the MD&A.

Report Modifications

.71 The practitioner should modify the standard report described in paragraph .69, if any of the following conditions exist.

- The presentation excludes a material required element under the rules and regulations adopted by the SEC. (See paragraph .72.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .72.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosure in the MD&A. (See paragraph .72.)
- There is a restriction on the scope of the engagement. (See paragraph .73.)
- The practitioner decides to refer to the report of another practitioner as the basis in part for his or her report. (See paragraph .74.)
- The practitioner is engaged to examine the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94 through .98.)

.72 The practitioner should express a qualified or an adverse opinion if (a) the MD&A presentation excludes a material required element, (b) historical financial amounts have not been accurately derived in all material respects, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures; for example, if there is a lack of consistency between management's method of measuring nonfinancial data between periods covered by the MD&A presentation. The basis for such opinion should be stated in the practitioner's report. Appendix A [paragraph .114] includes several examples of such modifications. (See Example 2.) Also refer to paragraph .107 for required communications with the audit committee.

.73 If the practitioner is unable to perform the procedures he or she considers necessary in the circumstances, the practitioner should modify the report or withdraw from the engagement. If the practitioner modifies the report, he or she should describe the limitation on the scope of the examination in an explanatory paragraph and qualify his or her opinion, or disclaim an opinion. However, limitations on the ability of the practitioner to perform necessary procedures could also arise because of the lack of adequate support for a significant representation in the MD&A. That circumstance may result in a conclusion that the unsupported representation constitutes a material misstatement of fact and, accordingly, the practitioner may qualify his or her opinion or express an adverse opinion, as described in paragraph .72.

Reference to Report of Another Practitioner

.74 If another practitioner examined the MD&A presentation of a component (refer to paragraph .46), the practitioner may decide to make reference

to such report of the other practitioner as a basis for his or her opinion on the consolidated MD&A presentation. The practitioner should disclose this fact in the introductory paragraph of the report and should refer to the report of the other practitioner in expressing an opinion on the consolidated MD&A presentation. These references indicate a division of responsibility for performance of the examination. Appendix A [paragraph .114] provides an example of a report for such a situation. (See Example 3.) Refer to paragraph .105 for guidance when the other practitioner does not issue a report.

Emphasis of a Matter

.75 In a number of circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

Review Engagement

.76 The objective of a review engagement, including a review of MD&A for an interim period, is to accumulate sufficient evidence to provide the practitioner with a basis for reporting whether any information came to the practitioner's attention to cause him or her to believe that (a) the MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, (b) the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements, or (c) the underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein. MD&A for an interim period may be a freestanding presentation or it may be combined with the MD&A presentation for the most recent fiscal year. Procedures for conducting a review of MD&A generally are limited to inquiries and analytical procedures, rather than also including search and verification procedures, concerning factors that have a material effect on financial condition, including liquidity and capital resources, results of operations, and cash flows. In a review engagement, the practitioner should—

- a. Obtain an understanding of the rules and regulations adopted by the SEC for MD&A and management's method of preparing MD&A. (See paragraphs .18 and .19.)
- b. Plan the engagement. (See paragraph .77.)
- c. Consider relevant portions of the entity's internal control applicable to the preparation of the MD&A. (See paragraph .78.)
- d. Apply analytical procedures and make inquiries of management and others. (See paragraphs .79 and .80.)
- e. Consider the effect of events subsequent to the balance-sheet date. The practitioner's consideration of such events in a review of MD&A is similar to the practitioner's consideration in an examination. (See paragraphs .65 and .66.)
- f. Obtain written representations from management concerning its responsibility for MD&A, completeness of minutes, events subsequent to the balance-sheet date, and other matters about which

the practitioner believes written representations are appropriate. (See paragraph .110.)

- g. Form a conclusion as to whether any information came to the practitioner's attention that causes him or her to believe any of the following.
- (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC.
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

Planning the Engagement

.77 Planning an engagement to review MD&A involves developing an overall strategy for the analytical procedures and inquiries to be performed. When developing an overall strategy for the review engagement, the practitioner should consider factors such as the following:

- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, capital structure, and distribution methods
- The types of relevant information that management reports to external analysts (for example, press releases or presentations to lenders and rating agencies concerning past and future performance)
- The extent of management's knowledge of and experience with the rules and regulations adopted by the SEC for MD&A
- If the entity is a nonpublic entity, the intended use of the MD&A presentation
- Matters identified during the audit or review of the historical financial statements relating to MD&A reporting, including knowledge of the entity's internal control applicable to the preparation of MD&A and the extent of recent changes, if any
- Matters identified during prior engagements to examine or review MD&A
- Preliminary judgments about materiality
- The nature of complex or subjective matters potentially material to the MD&A that may require special skill or knowledge
- The presence of an internal audit function and the extent to which internal auditors are involved in directly testing the MD&A presentation or underlying records

Consideration of Internal Control Applicable to the Preparation of MD&A

.78 To perform a review of MD&A, the practitioner needs to have sufficient knowledge of the entity's internal control applicable to the preparation of MD&A to—

- Identify types of potential misstatements in MD&A, including types of material omissions, and consider the likelihood of their occurrence.
- Select the inquiries and analytical procedures that will provide a basis for reporting whether any information causes the practitioner to believe the following.
 - The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC, or the historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements.
 - The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein.

Application of Analytical Procedures and Inquiries

.79 The practitioner ordinarily would not obtain corroborating evidential matter of management's responses to the practitioner's inquiries in performing a review of MD&A. The practitioner should, however, consider the consistency of management's responses in light of the results of other inquiries and the application of analytical procedures. The practitioner ordinarily should apply the following analytical procedures and inquiries.

- a. Read the MD&A presentation and compare the content for consistency with the audited financial statements (or reviewed interim financial information if MD&A includes interim information); compare financial amounts to the audited or reviewed financial statements or related accounting records and analyses; recompute the increases, decreases, and percentages disclosed.
- b. Compare nonfinancial amounts to the audited (or reviewed) financial statements, if applicable, or to other records. (Refer to paragraph .80.)
- c. Consider whether the explanations in MD&A are consistent with the information obtained during the audit or the review of interim financial information; make further inquiries of officers and other executives having responsibility for operational areas as necessary.
- d. Obtain available prospective financial information (for example, budgets; sales forecasts; forecasts of labor, overhead, and materials costs; capital expenditure requests; and financial forecasts and projections) and compare such information to forward-looking MD&A disclosures. Inquire of management as to the procedures used to prepare the prospective financial information. Consider whether information came to the practitioner's attention that causes him or her to believe that the underlying information, determinations, estimates, and assumptions of the entity do not

provide a reasonable basis for the disclosures of trends, demands, commitments, events, or uncertainties.²⁶

- e. Make inquiries of officers and other executives having responsibility for operational areas (such as sales, marketing, and production) and financial and accounting matters, as to any plans and expectations for the future that could affect the entity's liquidity and capital resources.
- f. Compare the information in MD&A with the rules and regulations adopted by the SEC and consider whether the presentation includes the required elements of such rules and regulations.
- g. Read the minutes of meetings to date of the board of directors and other significant committees to identify actions that may affect MD&A; consider whether such matters are appropriately addressed in the MD&A presentation.
- h. Inquire of officers as to the entity's prior experience with the SEC and the extent of comments received upon review of documents by the SEC; read correspondence between the entity and the SEC with respect to such review, if any.
- i. Inquire of management regarding the nature of public communications (for example, press releases and quarterly reports) dealing with historical and future results and consider whether the MD&A presentation is consistent with such communications.

.80 If nonfinancial data are included in the MD&A presentation, the practitioner should inquire as to the nature of the records from which such information was derived and observe the existence of such records, but need not perform other tests of such records beyond analytical procedures and inquiries of individuals responsible for maintaining them. The practitioner should consider whether such nonfinancial data are relevant to users of the MD&A presentation and whether such data are clearly defined in the MD&A presentation. The practitioner should make inquiries regarding whether the definition of the nonfinancial data was consistently applied during the periods reported.

.81 However, if the practitioner becomes aware that the presentation may be incomplete or contain inaccuracies, or is otherwise unsatisfactory, the practitioner should perform the additional procedures he or she deems necessary to achieve the limited assurance contemplated by a review engagement.

Reporting

.82 In order for the practitioner to issue a report on a review of MD&A for an annual period, the financial statements for the periods covered by the MD&A presentation and the related auditor's report(s) should accompany the MD&A presentation (or with respect to a public entity be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency).

.83 If the MD&A presentation relates to an interim period and the entity is a public entity, the financial statements for the interim periods covered by the MD&A presentation and the related accountant's review report(s) should accompany the MD&A presentation, or be incorporated in the document containing the MD&A by reference to information filed with a regulatory agency. The comparative financial statements for the most recent annual period and

²⁶ Refer to paragraph .26 for a discussion concerning the safe harbor rules for forward-looking statements.

the related MD&A should accompany the MD&A presentation for the interim period, or be incorporated by reference to information filed with a regulatory agency. Generally, the requirement for inclusion of the annual financial statements and related MD&A is satisfied by a public entity that has met its reporting responsibility for filing its annual financial statements and MD&A in its annual report on Form 10-K.

.84 If the MD&A presentation relates to an interim period and the entity is a nonpublic entity, the following documents should accompany the interim MD&A presentation in order for the practitioner to issue a review report:

- a. The MD&A presentation for the most recent fiscal year and related accountant's examination or review report(s)
- b. The financial statements for the periods covered by the respective MD&A presentations (most recent fiscal year and interim periods and the related auditor's report(s) and accountant's review report(s))

In addition, one of the following conditions should be met.

- A statement should be included in the body of the MD&A presentation that it has been prepared using the rules and regulations adopted by the SEC.
- A separate written assertion should accompany the MD&A presentation or such assertion should be included in a representation letter obtained from the entity.

.85 The practitioner's report on a review of MD&A should include the following:

- a. A title that includes the word *independent*
- b. An identification of the MD&A presentation, including the period covered
- c. A statement that management is responsible for the preparation of the MD&A pursuant to the rules and regulations adopted by the SEC
- d. A reference to the auditor's report on the related financial statements, and, if the report was other than a standard report, the substantive reasons therefor
- e. A statement that the review was conducted in accordance with attestation standards established by the AICPA
- f. A description of the procedures for a review of MD&A
- g. A statement that a review of MD&A is substantially less in scope than an examination, the objective of which is an expression of opinion regarding the MD&A presentation, and accordingly, no such opinion is expressed
- h. A paragraph stating that—
 - (1) The preparation of MD&A requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information
 - (2) Actual results in the future may differ materially from management's present assessment of information regarding the estimated future impact of transactions and events that have occurred or are expected to occur,

expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties

- i.* If the entity is a nonpublic entity, a statement that although the entity is not subject to the rules and regulations of the SEC, the MD&A presentation is intended to be a presentation in accordance with the rules and regulations adopted by the SEC
- j.* A statement about whether any information came to the practitioner's attention that caused him or her to believe that—
 - (1) The MD&A presentation does not include, in all material respects, the required elements of the rules and regulations adopted by the SEC
 - (2) The historical financial amounts included therein have not been accurately derived, in all material respects, from the entity's financial statements
 - (3) The underlying information, determinations, estimates, and assumptions of the entity do not provide a reasonable basis for the disclosures contained therein
- k.* If the entity is a public entity as defined in paragraph .02, or a nonpublic entity that is making or has made an offering of securities and it appears that the securities may subsequently be registered or subject to a filing with the SEC or other regulatory agency (for example, certain offerings of securities under Rule 144A of the 1933 Act that purport to conform to Regulation S-K), a statement of restrictions on the use of the report to specified parties, because it is not intended to be filed with the SEC as a report under the 1933 Act or the 1934 Act.
- l.* The manual or printed signature of the practitioner's firm
- m.* The date of the review report

Appendix B [paragraph .115], "Review Reports," provides examples of a standard review report for an annual and interim period.

Dating

.86 The practitioner's report on the review of MD&A should be dated as of the completion of the practitioner's review procedures. That date should not precede the date of the accountant's report on the latest historical financial statements covered by the MD&A.

Report Modifications

.87 The practitioner should modify the standard review report described in paragraph .86 if any of the following conditions exist.

- The presentation excludes a material required element of the rules and regulations adopted by the SEC. (See paragraph .89.)
- The historical financial amounts have not been accurately derived, in all material respects, from the entity's financial statements. (See paragraph .89.)
- The underlying information, determinations, estimates, and assumptions used by management do not provide the entity with a reasonable basis for the disclosures in the MD&A. (See paragraph .89.)

- The practitioner decides to refer to the report of another practitioner as the basis, in part, for his or her report. (See paragraph .90.)
- The practitioner is engaged to review the MD&A presentation after it has been filed with the SEC or other regulatory agency. (See paragraphs .94 through .98.)

.88 When the practitioner is unable to perform the inquiry and analytical procedures he or she considers necessary to achieve the limited assurance provided by a review, or the client does not provide the practitioner with a representation letter, the review will be incomplete. A review that is incomplete is not an adequate basis for issuing a review report. If the practitioner is unable to complete a review because of a scope limitation, the practitioner should consider the implications of that limitation with respect to possible misstatements of the MD&A presentation. In those circumstances, the practitioner should also refer to paragraphs .107 through .109 for guidance concerning communications with the audit committee.

.89 If the practitioner becomes aware that the MD&A is materially misstated, the practitioner should modify the review report to describe the nature of the misstatement. Appendix B [paragraph .115] contains an example of such a modification of the accountant's report. (See Example 3.)

.90 If another practitioner reviewed or examined the MD&A for a material component, the practitioner may decide to make reference to such report of the other practitioner in reporting on the consolidated MD&A presentation. Such reference indicates a division of responsibility for performance of the review.

Emphasis of a Matter

.91 In some circumstances, the practitioner may wish to emphasize a matter regarding the MD&A presentation. For example, he or she may wish to emphasize that the entity has included information beyond the required elements of the rules and regulations adopted by the SEC. Such explanatory comments should be presented in a separate paragraph of the practitioner's report.

Combined Examination and Review Report on MD&A

.92 A practitioner may be engaged both to examine an MD&A presentation as of the most recent fiscal year-end and to review a separate MD&A presentation for a subsequent interim period. If the examination and review are completed at the same time, a combined report may be issued. Appendix C [paragraph .116], "Combined Reports," contains an example of a combined report on an examination of an annual MD&A presentation and the review of a separate MD&A presentation for an interim period. (See Example 1.)

.93 If an entity prepares a combined MD&A presentation for annual and interim periods in which there is a discussion of liquidity and capital resources only as of the most recent interim period but not as of the most recent annual period, the practitioner is limited to performing the highest level of service that is provided with respect to the historical financial statements for any of the periods covered by the MD&A presentation. For example, if the annual financial statements have been audited and the interim financial statements have been reviewed, the practitioner may be engaged to perform a review of the combined MD&A presentation. Appendix C [paragraph .116] contains an example of a review report on a combined MD&A presentation for annual and interim periods. (See Example 2.)

When Practitioner Is Engaged Subsequent to the Filing of MD&A

.94 Management's responsibility for updating an MD&A presentation for events occurring subsequent to the issuance of MD&A depends on whether the entity is a public or nonpublic entity. A public entity is required to report significant subsequent events in a Form 8-K or Form 10-Q, or in a registration statement; therefore, a public company would ordinarily not modify its MD&A presentation once it is filed with the SEC (or other regulatory agency).

.95 Therefore, if the practitioner is engaged to examine (or review) an MD&A presentation of a public entity that has already been filed with the SEC (or other regulatory agency), the practitioner should consider whether material subsequent events are appropriately disclosed in a Form 8-K or 10-Q, or a registration statement that includes or incorporates by reference such MD&A presentation. Refer to paragraphs .65 and .66 for guidance concerning consideration of events up to the filing date when the practitioner's report on MD&A will be included (or incorporated by reference) in a 1933 Act document filed with the SEC that will require a consent.

.96 If subsequent events of a public entity are appropriately disclosed in a Form 8-K or 10-Q, or in a registration statement, or if there have been no material subsequent events, the practitioner should add the following paragraph to his or her examination or review report following the opinion or concluding paragraph, respectively.

The accompanying Management's Discussion and Analysis does not consider events that have occurred subsequent to Month XX, 20X6, the date as of which it was filed with the Securities and Exchange Commission.

.97 If there has been a material subsequent event that has not been disclosed in a manner described in paragraph .95 and if the practitioner determines that it is appropriate to issue a report even though the MD&A presentation has not been updated for such material subsequent event (for example, because the filing of the Form 10-Q that will disclose such events has not yet occurred), the practitioner should express a qualified or an adverse opinion (or appropriately modify the review report) on the MD&A presentation. As discussed in paragraph .107, if such material subsequent event is not appropriately disclosed, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A presentation and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements.

.98 Because a nonpublic entity is not subject to the filing requirements of the SEC, an MD&A presentation of a nonpublic entity should be updated for material subsequent events through the date of the practitioner's report.

When a Predecessor Auditor Has Audited Prior Period Financial Statements

.99 If a predecessor auditor has audited the financial statements for a prior period covered by the MD&A, the need by the practitioner reporting on the MD&A for an understanding of the business and the entity's accounting and financial reporting practices for such prior period, as discussed in paragraph .07, is not diminished and the practitioner should apply the appropriate procedures. In applying the appropriate procedures, the practitioner may consider reviewing the predecessor auditor's working papers with respect to audits of

financial statements and examinations or reviews of MD&A presentations for such prior periods.

.100 Information that may be obtained from the audit or attest working papers of the predecessor auditor will not provide a sufficient basis in itself for the practitioner to express an opinion with respect to the MD&A disclosures for such prior periods. If the practitioner has audited the current year, the results of such audit may be considered in planning and performing the examination of MD&A and may provide evidential matter that is useful in performing the examination, including with respect to matters disclosed for prior periods. For example, an increase in salaries expense may be the result of an acquisition in the last half of the prior year. Auditing procedures applied to payroll expense in the current year that validate the increase as a result of the acquisition may provide evidential matter with respect to the increase in salaries expense in the prior year attributed to the acquisition.

.101 In addition to the procedures described in paragraphs .49 through .66, the practitioner will need to make inquiries of the predecessor auditor and management as to audit adjustments proposed by the predecessor auditor that were not recorded in the financial statements.

Communications Between Predecessor and Successor Auditors

.102 If the practitioner is appointed as the successor auditor, he or she follows the guidance in AU section 315, *Communications Between Predecessor and Successor Auditors*, in considering whether or not to accept the engagement. If, at the time of the appointment as auditor, the practitioner is also being engaged to examine or review MD&A, the practitioner should also make specific inquiries of the predecessor auditor regarding MD&A.

.103 The practitioner's examination may be facilitated by (a) making specific inquiries of the predecessor regarding matters that the successor believes may affect the conduct of the examination (or review), such as areas that required an inordinate amount of time or problems that arose from the condition of the records, and (b) if the predecessor previously examined or reviewed MD&A, reviewing the predecessor's working papers for the predecessor's examination or review engagement.

.104 If, subsequent to his or her engagement to audit the financial statements, the practitioner is requested to examine MD&A, the practitioner should request the client to authorize the predecessor auditor to allow a review of the predecessor's audit working papers related to the financial statement periods included in the MD&A presentation. Although the practitioner may previously have had access to the predecessor auditor's working papers in connection with the successor's audit of the financial statements, ordinarily the predecessor auditor should permit the practitioner to review those audit working papers relating to matters that are disclosed or that would likely be disclosed in MD&A.

Another Auditor Audits a Significant Part of the Financial Statements

.105 When another auditor or auditors audit a significant part of the financial statements, the practitioner²⁷ may request that such other auditor or

²⁷ The practitioner serving as principal auditor is presumed to have an audit base for purposes of examining or reviewing the consolidated MD&A presentation.

auditors perform procedures with respect to the MD&A or the practitioner may perform the procedures directly with respect to such component(s).²⁸ Unless the other auditor issues an examination or review report on a separate MD&A presentation of such component(s) (see paragraph .74), the principal practitioner should not make reference to the work of the other practitioner on MD&A in his or her report on MD&A.²⁹ Accordingly, if the practitioner has requested such other auditor to perform procedures, the principal practitioner should perform those procedures that he or she considers necessary to take responsibility for the work of the other auditor. Such procedures may include one or more of the following:

- a. Visiting the other auditor and discussing the procedures followed and the results thereof.
- b. Reviewing the working papers of the other auditor with respect to the component.
- c. Participating in discussions with the component's management regarding matters that may affect the preparation of MD&A.
- d. Making supplemental tests with respect to such component.

The determination of the extent of the procedures to be applied by the principal practitioner rests with the principal practitioner alone in the exercise of his or her professional judgment and in no way constitutes a reflection on the adequacy of the other auditor's work. Because the principal practitioner in this case assumes responsibility for his or her opinion on the MD&A presentation without making reference to the procedures performed by the other auditor, the practitioner's judgment should govern as to the extent of procedures to be undertaken.

Responsibility for Other Information in Documents Containing MD&A

.106 A client may publish annual reports containing MD&A and other documents to which the practitioner, at the client's request, devotes attention. See section 101.91–.94 for pertinent guidance in these circumstances. See Appendix D [paragraph .117], "Comparison of Activities Performed Under SAS No. 8, *Other Information in Documents Containing Audited Financial Statements, Versus a Review or an Examination Attest Engagement*." The guidance in AU section 711, *Filings Under Federal Securities Statutes*, is pertinent when the practitioner's report on MD&A is included in a registration statement, proxy statement, or periodic report filed under the federal securities statutes.

Communications With the Audit Committee

.107 If the practitioner concludes that the MD&A presentation contains material inconsistencies with other information included in the document containing the MD&A presentation or with the historical financial statements,³⁰ material omissions, or material misstatements of fact, and management refuses

²⁸ The practitioner should consider whether he or she has sufficient industry expertise with respect to a subsidiary audited by another auditor to take sole responsibility for the consolidated MD&A presentation.

²⁹ This does not preclude the practitioner from referring to the other auditor's report on the financial statements in his or her report on MD&A.

³⁰ See AU section 550, *Information in Documents Containing Audited Financial Statements*, for guidance on the impact of material inconsistencies or material misstatements of fact on the auditor's report on the related historical financial statements.

to take corrective action, the practitioner should inform the audit committee or others with equivalent authority and responsibility. If the MD&A is not revised, the practitioner should evaluate (a) whether to resign from the engagement related to the MD&A, and (b) whether to remain as the entity's auditor or stand for re-election to audit the entity's financial statements. The practitioner may wish to consult with his or her attorney when making these evaluations.

.108 If the practitioner is engaged after the MD&A presentation has been filed with the SEC (or other regulatory agency), and becomes aware that such MD&A presentation on file with the SEC (or other regulatory agency) has not been revised for a matter for which the practitioner has or would qualify his or her opinion, the practitioner should discuss such matter with the audit committee and request that the MD&A presentation be revised. If the audit committee fails to take appropriate action, the practitioner should consider whether to resign as the independent auditor of the company. The practitioner may consider the guidance concerning communication with the audit committee and other considerations in AU section 317, *Illegal Acts by Clients*, paragraphs .17, .22, and .23).

.109 If, as a result of performing an examination or a review of MD&A, the practitioner has determined that there is evidence that fraud may exist, that matter should be brought to the attention of an appropriate level of management. This is generally appropriate even if the matter might be considered clearly inconsequential. If the matter relates to the audited financial statements, the practitioner should consider the guidance in AU section 316, *Consideration of Fraud in a Financial Statement Audit*, concerning communication responsibilities, and the effect on the auditor's report on the financial statements.

Obtaining Written Representations

.110 In an examination or a review engagement, the practitioner should obtain written representations from management.³¹ The specific written representations obtained by the practitioner will depend on the circumstances of the engagement and the nature of the MD&A presentation. Specific representations should relate to the following matters:

- a. Management's acknowledgment of its responsibility for the preparation of MD&A and management's assertion that the MD&A presentation has been prepared in accordance with the rules and regulations adopted by the SEC for MD&A³²
- b. A statement that the historical financial amounts included in MD&A have been accurately derived from the entity's financial statements

³¹ AU section 333, *Management Representations*, paragraph .09, provides guidance on the date as of which management should sign such a representation letter and on which member(s) of management should sign it. AU section 711.10 provides guidance concerning obtaining updated representations from management in connection with accountant's reports included or incorporated by reference in filings under the 1933 Act. (See paragraph .65.)

³² Management should specify the SEC rules (for example, Item 303 of Regulation S-K, Item 303 of Regulation S-B, or Item 9 of Form 20-F). For nonpublic entities, the practitioner also obtains a written assertion that the presentation has been prepared using the rules and regulations adopted by the SEC. (See paragraph .02.)

- c. Management's belief that the underlying information, determinations, estimates, and assumptions of the entity provide a reasonable basis for the disclosures contained in the MD&A
- d. A statement that management has made available all significant documentation related to compliance with SEC rules and regulations for MD&A
- e. Completeness and availability of all minutes of meetings of stockholders, directors, and committees of directors
- f. For a public entity, whether any communications from the SEC were received concerning noncompliance with or deficiencies in MD&A reporting practices
- g. Whether any events occurred subsequent to the latest balance-sheet date that would require disclosure in the MD&A
- h. If forward-looking information is included, a statement that—
 - The forward-looking information is based on management's best estimate of expected events and operations, and is consistent with budgets, forecasts, or operating plans prepared for such periods
 - The accounting principles expected to be used for the forward-looking information are consistent with the principles used in preparing the historical financial statements
 - Management has provided the latest version of such budgets, forecasts, or operating plans, and has informed the practitioner of any anticipated changes or modifications to such information that could affect the disclosures contained in the MD&A presentation
- i. If voluntary information is included that is subject to the rules and regulations adopted by the SEC (for example, information required by Item 305, *Quantitative and Qualitative Disclosures About Market Risk*), a statement that such voluntary information has been prepared in accordance with the related rules and regulations adopted by the SEC for such information
- j. If pro forma information is included, a statement that—
 - Management is responsible for the assumptions used in determining the pro forma adjustments
 - Management believes that the assumptions provide a reasonable basis for presenting all the significant effects directly attributable to the transaction or event, that the related pro forma adjustments give appropriate effect to those assumptions, and that the pro forma column reflects the proper application of those adjustments to the historical financial statements
 - Management believes that the significant effects directly attributable to the transaction or event are appropriately disclosed in the pro forma financial information

.111 In an examination, management's refusal to furnish written representations constitutes a limitation on the scope of the engagement sufficient to preclude an unqualified opinion and is ordinarily sufficient to cause a practitioner to disclaim an opinion or withdraw from the examination engagement.

However, based on the nature of the representations not obtained or the circumstances of the refusal, the practitioner may conclude that a qualified opinion is appropriate in an examination engagement. In a review engagement, management's refusal to furnish written representations constitutes a limitation of the scope of the engagement sufficient to require withdrawal from the review engagement. Further, the practitioner should consider the effects of the refusal on his or her ability to rely on other management representations.

.112 If the practitioner is precluded from performing procedures he or she considers necessary in the circumstances with respect to a matter that is material to the MD&A presentation, even though management has given representations concerning the matter, there is a limitation on the scope of the engagement, and the practitioner should qualify his or her opinion or disclaim an opinion in an examination engagement, or withdraw from a review engagement.

Effective Date

.113 This section is effective when management's discussion and analysis is for a period ending on or after June 1, 2001. Early application is permitted.

.114

Appendix A

Examination Reports

Example 1: Standard Examination Report

1. The following is an illustration of a standard examination report.

Independent Accountant's Report

[Introductory paragraph]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements.³³

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

³³ If prior financial statements were audited by other auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of and for the year ended December 31, 20X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements. The financial statements of XYZ Company as of December 31, 20X4, and for each of the years in the two-year period then ended were audited by other auditors, whose report dated [*Month*] XX, 20X5, expressed an unqualified opinion on those financial statements. If the practitioner's opinion on the financial statements is based on the report of other auditors, this sentence would be replaced by the following:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements based on our audits and the report of other auditors.

Refer to Example 3 if the practitioner's opinion on MD&A is based on the report of another practitioner on a component of the entity.

*[Explanatory paragraph]*³⁴

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[Signature]

[Date]

Example 2: Modifications to Examination Report for a Qualified Opinion

2. An example of a modification of an examination report for a qualified opinion due to a material omission described in paragraph .72 follows.

[Additional explanatory paragraph preceding the opinion paragraph]

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

[Opinion paragraph]

In our opinion, except for the omission of the matter described in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

3. An example of a modification of an examination report for a qualified opinion when overly subjective assertions are included in MD&A follows.

³⁴ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h:

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

[Additional explanatory paragraph preceding the opinion paragraph]

Based on information furnished to us by management, we believe that the underlying information, determinations, estimates, and assumptions used by management do not provide the Company with a reasonable basis for the disclosure concerning *[describe]* in the Company's Management's Discussion and Analysis.

[Opinion paragraph]

In our opinion, except for the disclosure regarding *[describe]* discussed in the preceding paragraph, the Company's presentation of Management's Discussion and Analysis includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

Example 3: Examination Report With Reference to the Report of Another Practitioner

4. The following is an illustration of an examination report indicating a division of responsibility with another practitioner, who has examined a separate MD&A presentation of a wholly-owned subsidiary, when the practitioner reporting is serving as the principal auditor of the related consolidated financial statements.

Independent Accountant's Report

[Introductory paragraphs]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the presentation based on our examination. We did not examine Management's Discussion and Analysis of ABC Corporation, a wholly-owned subsidiary, included in ABC Corporation's *[insert description of registration statement or document]*. Such Management's Discussion and Analysis was examined by other accountants, whose report has been furnished to us, and our opinion, insofar as it relates to information included for ABC Corporation, is based solely on the report of the other accountants.

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements based on our audits and the report of other auditors.

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations

made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination and the report of other accountants provide a reasonable basis for our opinion.

*[Explanatory paragraph]*³⁵

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Opinion paragraph]

In our opinion, based on our examination and the report of other accountants, the Company's presentation of Management's Discussion and Analysis included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]* includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[Signature]

[Date]

³⁵ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69*h*.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

.115

Appendix B

Review Reports

Example 1: Standard Review Report on an Annual MD&A Presentation

1. The following is an illustration of a standard review report on an annual MD&A presentation.

Independent Accountant's Report

[Introductory paragraph]

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole, included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

[Explanatory paragraph]³⁶

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules

³⁶ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85i.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*³⁷

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

[Signature]

[Date]

Example 2: Standard Review Report on an Interim MD&A Presentation

2. The following is an illustration of a standard review report on an MD&A presentation for an interim period.

Independent Accountant's Report

[Introductory paragraph]

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the three-month and six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

*[Explanatory paragraph]*³⁸

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital

³⁷ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85k.)

³⁸ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .85i.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*³⁹

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

Example 3: Modification to Review Report for a Material Misstatement

3. An example of a modification of the accountant's report when MD&A is materially misstated, as discussed in paragraph .89, follows.

[Additional explanatory paragraph preceding the concluding paragraph]

Based on information furnished to us by management, we believe that the Company has excluded a discussion of the significant capital outlay required for its plans to expand into the telecommunications industry and the possible effects on the Company's financial condition, liquidity, and capital resources.

[Concluding paragraph]

Based on our review, with the exception of the matter described in the preceding paragraph, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

³⁹ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

.116

Appendix C

Combined Reports

Example 1: Combined Examination and Review Report on MD&A

1. An example of a combined report on an examination of an annual MD&A presentation and the review of MD&A for an interim period discussed in paragraph .92 follows.

Independent Accountant's Report

[Introductory paragraph]

We have examined XYZ Company's Management's Discussion and Analysis taken as a whole for the three-year period ended December 31, 20X5, included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. Our responsibility is to express an opinion on the annual presentation based on our examination. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 19X5, and in our report dated *[Month]* XX, 20X6, we expressed an unqualified opinion on those financial statements.

[Scope paragraph]

Our examination of Management's Discussion and Analysis was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence supporting the historical amounts and disclosures in the presentation. An examination also includes assessing the significant determinations made by management as to the relevancy of information to be included and the estimates and assumptions that affect reported information. We believe that our examination provides a reasonable basis for our opinion.

*[Explanatory paragraph]*⁴⁰

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

⁴⁰ The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

[Opinion paragraph]

In our opinion, the Company's presentation of Management's Discussion and Analysis for the three-year period ended December 31, 20X5, includes, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission; the historical financial amounts included therein have been accurately derived, in all material respects, from the Company's financial statements; and the underlying information, determinations, estimates, and assumptions of the Company provide a reasonable basis for the disclosures contained therein.

[Paragraphs on interims]

We have also reviewed XYZ Company's Management's Discussion and Analysis taken as a whole for the six-month period ended June 30, 20X6 included *[incorporated by reference]* in the Company's *[insert description of registration statement or document]*. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis for the six-month period ended June 30, 20X6, does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's unaudited interim financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

*[Restricted use paragraph]*⁴¹

This report is intended solely for the information and use of *[list or refer to specified parties]* and is not intended to be and should not be used by anyone other than the specified parties.

[Date]

Example 2: Review Report on a Combined Annual and Interim MD&A Presentation

2. An example of a review report on a combined MD&A presentation for annual and interim periods follows.

⁴¹ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85k.)

Independent Accountant's Report*[Introductory paragraph]*

We have reviewed XYZ Company's Management's Discussion and Analysis taken as a whole included [*incorporated by reference*] in the Company's [*insert description of registration statement or document*]. Management is responsible for the preparation of the Company's Management's Discussion and Analysis pursuant to the rules and regulations adopted by the Securities and Exchange Commission. We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company as of December 31, 20X5 and 20X4, and for each of the years in the three-year period ended December 31, 20X5, and in our report dated [*Month*] XX, 20X6, we expressed an unqualified opinion on those financial statements. We have reviewed, in accordance with standards established by the American Institute of Certified Public Accountants, the interim financial information of XYZ Company as of June 30, 20X6 and 20X5, and for the six-month periods then ended, and have issued our report thereon dated July XX, 20X6.

[Scope paragraph]

We conducted our review of Management's Discussion and Analysis in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review of Management's Discussion and Analysis consists principally of applying analytical procedures and making inquiries of persons responsible for financial, accounting, and operational matters. It is substantially less in scope than an examination, the objective of which is the expression of an opinion on the presentation. Accordingly, we do not express such an opinion.

[Explanatory paragraph]⁴²

The preparation of Management's Discussion and Analysis requires management to interpret the criteria, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Management's Discussion and Analysis includes information regarding the estimated future impact of transactions and events that have occurred or are expected to occur, expected sources of liquidity and capital resources, operating trends, commitments, and uncertainties. Actual results in the future may differ materially from management's present assessment of this information because events and circumstances frequently do not occur as expected.

[Concluding paragraph]

Based on our review, nothing came to our attention that caused us to believe that the Company's presentation of Management's Discussion and Analysis does not include, in all material respects, the required elements of the rules and regulations adopted by the Securities and Exchange Commission, that the historical financial amounts included therein have not been accurately derived, in all material respects, from the Company's financial statements, or that the underlying information, determinations, estimates, and assumptions of the Company do not provide a reasonable basis for the disclosures contained therein.

⁴² The following sentence should be added to the beginning of the explanatory paragraph if the entity is a nonpublic entity, as discussed in paragraph .69h.

Although XYZ Company is not subject to the rules and regulations of the Securities and Exchange Commission, the accompanying Management's Discussion and Analysis is intended to be a presentation in accordance with the rules and regulations adopted by the Securities and Exchange Commission.

[*Restricted use paragraph*]⁴³

This report is intended solely for the information and use of [*list or refer to specified parties*] and is not intended to be and should not be used by anyone other than the specified parties.

[*Signature*]

[*Date*]

⁴³ This paragraph may be omitted for certain nonpublic entities. (Refer to paragraph .85*k*.)

Comparison of Activities Performed Under SAS No. 8, Other Information in Documents Containing Audited Financial Statements [AU section 550], Versus a Review or an Examination Attest Engagement*

<i>Activities</i>	<i>SAS No. 8</i>	<i>Review</i>	<i>Examination</i>
<p>Obtain an understanding of SEC rules and regulations and management's methodology for the preparation of Management's Discussion and Analysis (MD&A).</p>	<p>Not applicable (N/A)—Auditor is only required to read the information in the MD&A and consider whether such information, or the manner of its presentation, is materially inconsistent with information, or the manner of its presentation, appearing in the financial statements.</p>	<p>Obtain an understanding of the rules and regulations adopted by the SEC for MD&A. Inquire of management regarding the method of preparing MD&A.</p>	<p>Same as for a review.</p>
<p>Plan the engagement.</p>	<p>N/A</p>	<p>Develop an overall strategy for the analytical procedures and inquiries to be performed to provide negative assurance.</p>	<p>Develop an overall strategy for the expected scope and performance of the engagement to obtain reasonable assurance to express an opinion.</p>
<p>Consider internal control.</p>	<p>N/A</p>	<p>Consider relevant portions of the entity's internal control applicable to the preparation of MD&A to identify the types of potential misstatements and to select the inquiries and analytical procedures; no testing of controls would be performed.</p>	<p>Obtain an understanding of internal control applicable to the preparation of MD&A sufficient to plan the engagement and to assess control risk; controls may be tested by performing inquiries of client personnel, inspection of documents, and observation of relevant activities.</p>

(continued)

* Refer to AU section 550, Other Information in Documents Containing Audited Financial Statements.

<i>Activities</i>	<i>SAS No. 8</i>	<i>Review</i>	<i>Examination</i>
Test assertions.	N/A	<p>Apply the following analytical procedures and make inquiries of management and others; no corroborating evidential matter is obtained:</p> <ul style="list-style-type: none"> ● Read the MD&A and compare the content for consistency with the financial statements; compare financial amounts to the financial statements or related accounting records and analyses; recompute increases, decreases and percentages disclosed. 	<p>Apply the following analytical and corroborative procedures to obtain reasonable assurance of detecting material misstatements:</p> <ul style="list-style-type: none"> ● Read the MD&A and compare the content for consistency with the financial statements; compare financial amounts to the financial statements or related accounting records and analyses; recompute increases, decreases and percentages disclosed. ● Compare nonfinancial amounts to the financial statements or other records; perform tests on other records based on the concept of materiality. ● Consider whether explanations are consistent with the information obtained during the audit of financial statements; investigate further explanations that cannot be substantiated by information in the audit working papers through inquiry and inspection of client records.
		<ul style="list-style-type: none"> ● Compare nonfinancial amounts to the financial statements or other records. 	
		<ul style="list-style-type: none"> ● Consider whether MD&A explanations are consistent with information obtained during the audit or review of financial statements; make further inquiries, as necessary. (Note: Such additional inquiries may result in a decision to perform other procedures or detail tests.) 	

<i>Activities</i>	<i>SAS No. 8</i>	<i>Review</i>	<i>Examination</i>
<p>Test assertions. (continued)</p>		<ul style="list-style-type: none"> Compare information in MD&A with the rules and regulations adopted by the SEC. 	<ul style="list-style-type: none"> Examine internally and externally generated documents in support of the existence, occurrence, or expected occurrence of events, transactions, conditions, trends, demands, commitments, and uncertainties disclosed in MD&A.
		<ul style="list-style-type: none"> Obtain and read available prospective financial information; inquire of management as to the procedures used to prepare such information; consider whether information came to the practitioner's attention that causes him or her to believe that the underlying information, determinations, estimates, and assumptions do not provide a reasonable basis for the MD&A disclosures. 	<ul style="list-style-type: none"> Compare information in MD&A with the rules and regulations adopted by the SEC.
		<ul style="list-style-type: none"> Obtain public communications and minutes of meetings for comparison with disclosures in MD&A. 	<ul style="list-style-type: none"> Obtain and read available prospective financial information; inquire of management as to the procedures used to prepare such information; evaluate whether the underlying information, determinations, estimates, and assumptions provide a reasonable basis for the MD&A disclosures.

(continued)

<i>Activities</i>	<i>SAS No. 8</i>	<i>Review</i>	<i>Examination</i>
		<ul style="list-style-type: none"> ● Make inquiries of the officers or executives with responsibility for operational areas and financial and accounting matters as to their plans and expectations for the future. ● Inquire as to prior experience with the SEC and the extent of comments received; read correspondence. 	<ul style="list-style-type: none"> ● Obtain public communications and minutes of meetings; consider obtaining other types of publicly available information for comparison with the disclosures in MD&A.
		<ul style="list-style-type: none"> ● Consider whether there are any additional matters that should be disclosed in the MD&A based on the results of the preceding procedures and knowledge obtained during the audit or review of the financial statements. 	<ul style="list-style-type: none"> ● Make inquiries of the officers or executives with responsibility for operational areas and financial and accounting matters as to their plans and expectations for the future.
			<ul style="list-style-type: none"> ● Inquire as to prior experience with the SEC and the extent of comments received; read correspondence.
			<ul style="list-style-type: none"> ● Test completeness by considering the results of the preceding procedures and knowledge obtained during the audit of the financial statements, and whether such matters are appropriately disclosed in the MD&A; extend procedures if the inherent risk relating to completeness of disclosures is high.

<i>Activities</i>	<i>SAS No. 8</i>	<i>Review</i>	<i>Examination</i>
Consider the effect of events subsequent to the balance-sheet date.	N/A	Yes	Yes
Obtain written representations from management.	N/A	Yes	Yes
Form a conclusion and report.	The auditor has no reporting responsibility with respect to MD&A unless the auditor concludes that there is a material inconsistency in the MD&A that has not been eliminated. In such a situation, the auditor may add an explanatory paragraph concerning the inconsistency to the auditor's report on the financial statements or withhold the use of the report in the document.	Form a conclusion based on the results of the preceding procedures and report in the form of negative assurance.	Form an opinion based on the results of the preceding procedures and report conclusion by expressing an opinion.
	If, while reading the MD&A, the auditor becomes aware of information that is believed to be a material misstatement of fact, the auditor should discuss such matter with the client.

ET Section 101

Independence

.01 Rule 101—Independence A member in public practice shall be independent in the performance of professional services as required by standards promulgated by bodies designated by Council.

[As adopted January 12, 1988.]

Interpretations under Rule 101—Independence

In performing an attest engagement, a member should consult the rules of his or her state board of accountancy, his or her state CPA society, the U.S. Securities and Exchange Commission (SEC) if the member's report will be filed with the SEC, the U.S. Department of Labor (DOL) if the member's report will be filed with the DOL, the AICPA SEC Practice Section (SECPS) if the member's firm is a member of the SECPS, the General Accounting Office (GAO) if law, regulation, agreement, policy or contract requires the member's report to be filed under GAO regulations, and any organization that issues or enforces standards of independence that would apply to the member's engagement. Such organizations may have independence requirements or rulings that differ from (e.g., may be more restrictive than) those of the AICPA.

.02 101-1—Interpretation of Rule 101. Independence shall be considered to be impaired if:

- A. During the **period of the professional engagement*** a **covered member**
1. Had or was committed to acquire any direct or material indirect financial interest in the **client**.
 2. Was a trustee of any trust or executor or administrator of any estate if such trust or estate had or was committed to acquire any direct or material indirect financial interest in the client and
 - (i) The covered member (individually or with others) had the authority to make investment decisions for the trust or estate; or
 - (ii) The trust or estate owned or was committed to acquire more than 10 percent of the client's outstanding equity securities or other ownership interests; or
 - (iii) The value of the trust's or estate's holdings in the client exceeded 10 percent of the total assets of the trust or estate.

* Terms shown in **boldface** type upon first usage in this interpretation are defined in ET section 92, *Definitions*. [Footnote added, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

3. Had a **joint closely held investment** that was material to the covered member.
 4. Except as specifically permitted in interpretation 101-5 [ET section 101.07], had any **loan** to or from the client, any officer or director of the client, or any individual owning 10 percent or more of the client's outstanding equity securities or other ownership interests.
- B. During the period of the professional engagement, a **partner** or professional employee of the **firm**, his or her **immediate family**, or any group of such persons acting together owned more than 5 percent of a client's outstanding equity securities or other ownership interests.
- C. During the period covered by the **financial statements** or during the period of the professional engagement, a firm, or partner or professional employee of the firm was simultaneously associated with the client as a(n)
1. Director, officer, or employee, or in any capacity equivalent to that of a member of management;
 2. Promoter, underwriter, or voting trustee; or
 3. Trustee for any pension or profit-sharing trust of the client.

Transition Period for Certain Business and Employment Relationships

A business or employment relationship with a client that impairs independence under interpretation 101-1.C [ET section 101.02], and that existed as of November 2001, will not be deemed to impair independence provided such relationship was permitted under rule 101 [ET section 101.01], and its interpretations and rulings as of November 2001, and the individual severed that relationship on or before May 31, 2002.

Application of the Independence Rules to Covered Members Formerly Employed by a Client or Otherwise Associated With a Client

An individual who was formerly (i) employed by a client or (ii) associated with a client as a(n) officer, director, promoter, underwriter, voting trustee, or trustee for a pension or profit-sharing trust of the client would impair his or her firm's independence if the individual—

1. Participated on the **attest engagement team** or was an **individual in a position to influence the attest engagement** for the client when the **attest engagement** covers any period that includes his or her former employment or association with that client; or
2. Was otherwise a covered member with respect to the client unless the individual first dissociates from the client by—
 - (a) Terminating any relationships with the client described in interpretation 101-1.C [ET section 101.02];
 - (b) Disposing of any direct or material indirect financial interest in the client;
 - (c) Collecting or repaying any loans to or from the client, except for loans specifically permitted or grandfathered under interpretation 101-5 [ET section 101.07];

- (d) Ceasing to participate¹ in all employee benefit plans sponsored by the client, unless the client is legally required to allow the individual to participate in the plan (for example, COBRA) and the individual pays 100 percent of the cost of participation on a current basis; and
- (e) Liquidating or transferring all vested benefits in the client's defined benefit plans, defined contribution plans, deferred compensation plans, and other similar arrangements at the earliest date permitted under the plan. However, liquidation or transfer is not required if a penalty² significant to the benefits is imposed upon liquidation or transfer.

Application of the Independence Rules to a Covered Member's Immediate Family

Except as stated in the following paragraph, a covered member's immediate family is subject to rule 101 [ET section 101.01], and its interpretations and rulings.

The exceptions are that independence would not be considered to be impaired solely as a result of the following:

1. An individual in a covered member's immediate family was employed by the client in a position other than a **key position**.
2. In connection with his or her employment, an individual in the immediate family of one of the following covered members participated in a retirement, savings, compensation, or similar plan that is a client, is sponsored by a client, or that invests in a client (provided such plan is normally offered to all employees in similar positions):
 - a. A partner or **manager** who provides ten or more hours of non-attest services to the client; or
 - b. Any partner in the **office** in which the lead attest engagement partner primarily practices in connection with the attest engagement.

For purposes of determining materiality under rule 101 [ET section 101.01] the financial interests of the covered member and his or her immediate family should be aggregated.

Application of the Independence Rules to Close Relatives

Independence would be considered to be impaired if—

1. An individual participating on the attest engagement team has a **close relative** who had
 - a. A key position with the client, or
 - b. A financial interest in the client that
 - (i) Was material to the close relative and of which the individual has knowledge; or

¹ See Ethics Ruling No. 107, "Participation in Health and Welfare Plan of Client" [ET section 191.214–215], for instances in which participation was the result of permitted employment of the individual's spouse or spousal equivalent.

² A penalty includes an early withdrawal penalty levied under the tax law but excludes other income taxes that would be owed or market losses that may be incurred as a result of the liquidation or transfer.

- (ii) Enabled the close relative to exercise **significant influence** over the client.
- 2. An individual in a position to influence the attest engagement or any partner in the office in which the lead attest engagement partner primarily practices in connection with the attest engagement has a close relative who had
 - a. A key position with the client; or
 - b. A financial interest in the client that
 - (i) Was material to the close relative and of which the individual or partner has knowledge; and
 - (ii) Enabled the close relative to exercise significant influence over the client.

Grandfathered Employment Relationships

Employment relationships of a covered member's immediate family and close relatives with an existing attest client that impair independence under this interpretation and that existed as of November 2001, will not be deemed to impair independence provided such relationships were permitted under preexisting requirements of rule 101 [ET section 101.01], and its interpretations and rulings.

Other Considerations

It is impossible to enumerate all circumstances in which the appearance of independence might be questioned. Members should consider whether personal and business relationships between the member and the client or an individual associated with the client would lead a reasonable person aware of all the relevant facts to conclude that there is an unacceptable threat to the member's and the firm's independence.

Revised, November 2001, effective May 31, 2002, with earlier application encouraged, by the Professional Ethics Executive Committee. Revised, effective July 31, 2002, by the Professional Ethics Executive Committee. Revised, effective March 31, 2003, by the Professional Ethics Executive Committee. Revised, effective April 30, 2003, by the Professional Ethics Executive Committee.]

[.03] [Formerly paragraph .02 renumbered by adoption of the Code of Professional Conduct on January 12, 1988. Formerly interpretation 101-1, renumbered as 101-4 and moved to paragraph .06, April 1992.]

.04 101-2—Employment or association with attest clients. A firm's independence will be considered to be impaired with respect to a client if a partner or professional employee leaves the firm and is subsequently employed by or associated with that client in a key position unless all the following conditions are met:

1. Amounts due to the former partner or professional employee for his or her previous interest in the firm and for unfunded, vested retirement benefits are not material to the firm, and the underlying formula used to calculate the payments remains fixed during the payout period. Retirement benefits may also be adjusted for inflation and interest may be paid on amounts due.

2. The former partner or professional employee is not in a position to influence the accounting firm's operations or financial policies.
3. The former partner or professional employee does not participate or appear to participate in, and is not associated with the firm, whether or not compensated for such participation or association, once employment or association with the client begins. An appearance of participation or association results from such actions as:
 - The individual provides consultation to the firm.
 - The firm provides the individual with an office and related amenities (for example, secretarial and telephone services).
 - The individual's name is included in the firm's office directory.
 - The individual's name is included as a member of the firm in other membership lists of business, professional, or civic organizations, unless the individual is clearly designated as retired.
4. The ongoing attest engagement team considers the appropriateness or necessity of modifying the engagement procedures to adjust for the risk that, by virtue of the former partner or professional employee's prior knowledge of the audit plan, audit effectiveness could be reduced.
5. The firm assesses whether existing attest engagement team members have the appropriate experience and stature to effectively deal with the former partner or professional employee and his or her work, when that person will have significant interaction with the attest engagement team.
6. The subsequent attest engagement is reviewed to determine whether the engagement team members maintained the appropriate level of skepticism when evaluating the representations and work of the former partner or professional employee, when the person joins the client in a key position within one year of disassociating from the firm and has significant interaction with the attest engagement team. The review should be performed by a professional with appropriate stature, expertise, and objectivity and should be tailored based on the position that the person assumed at the client, the position he or she held at the firm, the nature of the services he or she provided to the client, and other relevant facts and circumstances. Appropriate actions, as deemed necessary, should be taken based on the results of the review.

Responsible members within the firm should implement procedures for compliance with the preceding conditions when firm professionals are employed or associated with attest clients.

With respect to conditions 4, 5, and 6, the procedures adopted will depend on several factors, including whether the former partner or professional employee served as a member of the engagement team, the positions he or she held at the firm and has accepted at the client, the length of time that has elapsed since the professional left the firm, and the circumstances of his or her departure.³

³ An inadvertent and isolated failure to meet conditions 4, 5, and 6 would not impair independence provided that the required procedures are performed promptly upon discovery of the failure to do so, and all other provisions of the interpretation are met. [Footnote added, effective April 30, 2003, by the Professional Ethics Executive Committee.]

Considering Employment or Association With the Client

When a member of the attest engagement team or an individual in a position to influence the attest engagement intends to seek or discuss potential employment or association with an attest client, or is in receipt of a specific offer of employment from an attest client, independence will be impaired with respect to the client unless the person promptly reports such consideration or offer to an appropriate person in the firm, and removes himself or herself from the engagement until the employment offer is rejected or employment is no longer being sought. When a covered member becomes aware that a member of the attest engagement team or an individual in a position to influence the attest engagement is considering employment or association with a client, the covered member should notify an appropriate person in the firm.

The appropriate person should consider what additional procedures may be necessary to provide reasonable assurance that any work performed for the client by that person was performed with objectivity and integrity as required under rule 102 [ET section 102.01]. Additional procedures, such as reperformance of work already done, will depend on the nature of the engagement and the individual involved.

[Replaces previous interpretation 101-2, *Retired Partners and Firm Independence*, August, 1989, effective August 31, 1989. Revised, effective December 31, 1998, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, effective April 30, 2003, by the Professional Ethics Executive Committee.]

.05 101-3—Performance of other services. A member or his or her firm ("member") who performs an attest engagement for a client may also perform other nonattest services ("other services") for that client. Before a member performs other services for an attest client, he or she must evaluate the effect of such services on his or her independence. In particular, care should be taken not to perform management functions or make management decisions for the attest client, the responsibility for which remains with the client's board of directors and management.

Before performing other services, the member should establish an understanding with the client regarding the objectives of the engagement, the services to be performed, management's responsibilities, the member's responsibilities, and the limitations of the engagement. It is preferable that this understanding be documented in an engagement letter. In addition, the member should be satisfied that the client is in a position to have an informed judgment on the results of the other services and that the client understands its responsibility to—

1. Designate a management-level individual or individuals to be responsible for overseeing the services being provided.
2. Evaluate the adequacy of the services performed and any findings that result.
3. Make management decisions, including accepting responsibility for the results of the other services.
4. Establish and maintain internal controls, including monitoring ongoing activities.

Note: Paragraph 33 of PCAOB Auditing Standard No. 2 contains an additional requirement related to audit committee pre-approval of internal control-related services.

General Activities

The following are some general activities that would be considered to impair a member's independence:

- Authorizing, executing or consummating a transaction, or otherwise exercising authority on behalf of a client or having the authority to do so
- Preparing source documents⁴ or originating data, in electronic or other form, evidencing the occurrence of a transaction (for example, purchase orders, payroll time records, and customer orders)
- Having custody of client assets
- Supervising client employees in the performance of their normal recurring activities
- Determining which recommendations of the member should be implemented
- Reporting to the board of directors on behalf of management
- Serving as a client's stock transfer or escrow agent, registrar, general counsel or its equivalent

The examples in the following table identify the effect that performance of other services for an attest client can have on a member's independence. These examples are not intended to be all-inclusive of the types of other services performed by members.

Impact on Independence of Performance of Nonattest Services

<u>Type of Other Service</u>	<u>Independence Would Not Be Impaired</u>	<u>Independence Would Be Impaired</u>
Bookkeeping	<ul style="list-style-type: none"> • Record transactions for which management has determined or approved the appropriate account classification, or post coded transactions to a client's general ledger. • Prepare financial statements based on information in the trial balance. • Post client-approved entries to a client's trial balance. 	<ul style="list-style-type: none"> • Determine or change journal entries, account codings or classification for transactions, or other accounting records without obtaining client approval. • Authorize or approve transactions. • Prepare source documents or originate data. • Make changes to source documents without client approval.

(continued)

⁴ The documents upon which evidence of an accounting transaction are initially recorded. Source documents are often followed by the creation of many additional records and reports, which do not, however, qualify as initial recordings. Examples of source documents are purchase orders, payroll time cards, and customer orders. [Footnote renumbered by the revision of interpretation 101-2, April 2003.]

<u>Type of Other Service</u>	<u>Independence Would Not Be Impaired</u>	<u>Independence Would Be Impaired</u>
Payroll and other disbursement	<ul style="list-style-type: none"> • Propose standard, adjusting, or correcting journal entries or other changes affecting the financial statements to the client. • Provide data-processing services. • Using payroll time records provided and approved by the client, generate unsigned checks, or process client's payroll. • Transmit client-approved payroll or other disbursement information to a financial institution provided the client has authorized the member to make the transmission and has made arrangements for the financial institution to limit the corresponding individual payments as to amount and payee. In addition, once transmitted, the client must authorize the financial institution to process the information. • Make electronic payroll tax payments in accordance with U.S. Treasury Department guidelines provided the client has made arrangements for its financial institution to limit such payments to a named payee.⁵ 	<ul style="list-style-type: none"> • Accept responsibility to authorize payment of client funds, electronically or otherwise, except as specifically provided for with respect to electronic payroll tax payments. • Accept responsibility to sign or cosign client checks, even if only in emergency situations. • Maintain a client's bank account or otherwise have custody of a client's funds or make credit or banking decisions for the client. • Sign payroll tax return on behalf of client management. • Approve vendor invoices for payment.
Benefit plan administration ⁶	<ul style="list-style-type: none"> • Communicate summary plan data to plan trustee. • Advise client management regarding the application or impact of provisions of the plan document. 	<ul style="list-style-type: none"> • Make policy decisions on behalf of client management. • When dealing with plan participants, interpret the plan document on behalf of management without first obtaining management's concurrence.

⁵ Although this type of transaction may be considered by some to be similar to signing checks or disbursing funds, the Professional Ethics Executive Committee concluded that making electronic payroll tax payments under the specified criteria would not impair a member's independence. [Footnote renumbered by the revision of interpretation 101-2, April 2003.]

⁶ When auditing plans subject to the Employee Retirement Income Security Act (ERISA), Department of Labor (DOL) regulations, which may be more restrictive, must be followed. [Footnote renumbered by the revision of interpretation 101-2, April 2003.]

<u>Type of Other Service</u>	<u>Independence Would Not Be Impaired</u>	<u>Independence Would Be Impaired</u>
Investment— advisory or management	<ul style="list-style-type: none"> • Process transactions (e.g., investment/benefit elections or increase/decrease contributions to the plan; data entry; participant confirmations; and processing of distributions and loans) initiated by plan participants through the member's electronic medium, such as an interactive voice response system or Internet connection or other media. • Prepare account valuations for plan participants using data collected through the member's electronic or other media. • Prepare and transmit participant statements to plan participants based on data collected through the member's electronic or other medium. • Recommend the allocation of funds that a client should invest in various asset classes, depending upon the client's desired rate of return, risk tolerance, etc. • Perform recordkeeping and reporting of client's portfolio balances including providing a comparative analysis of the client's investments to third-party benchmarks. • Review the manner in which a client's portfolio is being managed by investment account managers, including determining whether the managers are (1) following the guidelines of the client's investment policy statement; (2) meeting the client's investment objectives; and (3) conforming to the client's stated investment styles. • Transmit a client's investment selection to a broker-dealer or equivalent provided the client has authorized the broker-dealer or equivalent to execute the transaction. 	<ul style="list-style-type: none"> • Make disbursements on behalf of the plan. • Have custody of assets of a plan. • Serve a plan as a fiduciary as defined by ERISA. • Make investment decisions on behalf of client management or otherwise have discretionary authority over a client's investments. • Execute a transaction to buy or sell a client's investment. • Have custody of client assets, such as taking temporary possession of securities purchased by a client.

(continued)

Independence, Integrity, and Objectivity

<u>Type of Other Service</u>	<u>Independence Would Not Be Impaired</u>	<u>Independence Would Be Impaired</u>
Corporate finance—consulting or advisory	<ul style="list-style-type: none"> • Assist in developing corporate strategies. • Assist in identifying or introducing the client to possible sources of capital that meet the client's specifications or criteria. • Assist in analyzing the effects of proposed transactions including providing advice to a client during negotiations with potential buyers, sellers, or capital sources. • Assist in drafting an offering document or memorandum. • Participate in transaction negotiations in an advisory capacity. • Be named as a financial adviser in a client's private placement memoranda or offering documents. 	<ul style="list-style-type: none"> • Commit the client to the terms of a transaction or consummate a transaction on behalf of the client. • Act as a promoter, underwriter, broker-dealer, or guarantor of client securities, or distributor of private placement memoranda or offering documents. • Maintain custody of client securities.
Appraisal, valuation or actuarial	<ul style="list-style-type: none"> • Test the reasonableness of the value placed on an asset or liability included in a client's financial statements by preparing a separate valuation of that asset or liability. • Perform a valuation of a client's business when all significant matters of judgment are determined or approved by the client and the client is in a position to have an informed judgment on the results of the valuation. 	<ul style="list-style-type: none"> • Prepare a valuation of an employer's securities contained in an employee stock ownership plan (ESOP) to support transactions with participants, plan contributions, and allocations within the ESOP, when the client is not in a position to have an informed judgment on the results of this valuation. • Prepare an appraisal, valuation, or actuarial report using assumptions determined by the member and not approved by the client.
Executive or employee search	<ul style="list-style-type: none"> • Recommend a position description or candidate specifications. • Solicit and perform screening of candidates and recommend qualified candidates to a client based on the client-approved criteria (e.g., required skills and experience). • Participate in employee hiring or compensation discussions in an advisory capacity. 	<ul style="list-style-type: none"> • Commit the client to employee compensation or benefit arrangements. • Hire or terminate client employees.

<u>Type of Other Service</u>	<u>Independence Would Not Be Impaired</u>	<u>Independence Would Be Impaired</u>
Business risk consulting	<ul style="list-style-type: none"> • Provide assistance in assessing the client's business risks and control processes. • Recommend a plan for making improvements to a client's control processes and assist in implementing these improvements. 	<ul style="list-style-type: none"> • Make or approve business risk decisions. • Present business risk considerations to the board or others on behalf of management.
Information systems—design, installation or integration	<ul style="list-style-type: none"> • Design, install or integrate a client's information system, provided the client makes all management decisions. • Customize a prepackaged accounting or information system, provided the client makes all management decisions. • Provide the initial training and instruction to client employees on a newly implemented information and control system. 	<ul style="list-style-type: none"> • Supervise client personnel in the daily operation of a client's information system. • Operate a client's local area network (LAN) system when the client has not designated a competent individual, preferably within senior management, to be responsible for the LAN.

[Formerly paragraph .04, renumbered by adoption of the Code of Professional Conduct on January 12, 1988. Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, effective May 31, 1999, by the Professional Ethics Executive Committee. Revised, effective April 30, 2000, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

.06 101-4—Honorary directorships and trusteeships of not-for-profit organization. Partners or professional employees of a firm (individual) may be asked to lend the prestige of their names to not-for-profit organizations that limit their activities to those of a charitable, religious, civic, or similar nature by being named as a director or a trustee. An individual who permits his or her name to be used in this manner would not be considered to impair independence under rule 101 [ET section 101.01] provided his or her position is clearly honorary, and he or she cannot vote or otherwise participate in board or management functions. If the individual is named in letterheads and externally circulated materials, he or she must be identified as an honorary director or honorary trustee. [Formerly paragraph .05, renumbered by adoption of the Code of Professional Conduct on January 12, 1988. Formerly interpretation 101-1. Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Renumbered as interpretation 101-4 and moved from paragraph .03, April, 1992. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

.07 101-5—Loans from financial institution clients and related terminology. Interpretation 101-1.A.4 [ET section 101.02] provides that, except as permitted in this interpretation, independence shall be considered to be

impaired if a **covered member**¹¹ has any **loan** to or from a **client**, any officer or director of the client, or any individual owning ten percent or more of the client's outstanding equity securities or other ownership interests. This interpretation describes the conditions a covered member (or his or her **immediate family**) must meet in order to apply an exception for a "Grandfathered Loan" or "Other Permitted Loan."

Grandfathered Loans

Unsecured loans that are not material to the covered member's net worth, home mortgages,⁷ and other secured loans⁷ are grandfathered if:

- (1) they were obtained from a **financial institution** under that institution's **normal lending procedures, terms, and requirements**,
- (2) after becoming a covered member they are kept current as to all terms at all times and those terms do not change in any manner not provided for in the original loan agreement,⁸ and
- (3) they were:
 - a) obtained from the financial institution prior to its becoming a client requiring independence; or
 - b) obtained from a financial institution for which independence was not required and were later sold to a client for which independence is required; or
 - c) obtained prior to February 5, 2001 and met the requirements of previous provisions of Interpretation 101-5 [ET section 101.07] covering grandfathered loans; or
 - d) obtained between February 5, 2001 and May 31, 2002, and the covered member was in compliance with the applicable independence requirements of the SEC during that period; or
 - e) obtained after May 31, 2002 from a financial institution client requiring independence by a borrower prior to his or her becoming a covered member with respect to that client

In determining when a loan was obtained, the date a loan commitment or line of credit is granted must be used, rather than the date a transaction closes or funds are obtained.

¹¹ Terms shown in **boldface** type upon first usage in this interpretation are defined in ET section 92, *Definitions*.

⁷ The value of the collateral securing a home mortgage or other secured loan should equal or exceed the remaining balance of the grandfathered loan during the term of the loan. If the value of the collateral is less than the remaining balance of the grandfathered loan, the portion of the loan that exceeds the value of the collateral must not be material to the covered member's net worth. [Footnote added, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote renumbered by the revision of interpretation 101-2, April 2003.]

⁸ Changes in the terms of the loan include, but are not limited to, a new or extended maturity date, a new interest rate or formula, revised collateral, or revised or waived covenants. [Footnote added, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote renumbered by the revision of interpretation 101-2, April 2003.]

For purposes of applying the grandfathered loans provision when the covered member is a partner in a partnership:

- a loan to a limited partnership (or similar type of entity) or a general partnership would be ascribed to each covered member who is a partner in the partnership on the basis of their legal liability as a limited or general partner if:
 - the covered member's interest in the limited partnership, either individually or combined with the interest of one or more covered members, exceeds 50 percent of the total limited partnership interest; or
 - the covered member, either individually or together with one or more covered members, can control the general partnership.
- even if no amount of a partnership loan is ascribed to the covered member(s) identified above, independence is considered to be impaired if the partnership renegotiates the loan or enters into a new loan that is not one of the permitted loans described below.

Other Permitted Loans

This interpretation permits only the following new loans to be obtained from a financial institution client for which independence is required. These loans must be obtained under the institution's normal lending procedures, terms, and requirements and must, at all times, be kept current as to all terms.

1. Automobile loans and leases collateralized by the automobile.
2. Loans fully collateralized by the cash surrender value of an insurance policy.
3. Loans fully collateralized by cash deposits at the same financial institution (e.g., "passbook loans").
4. Credit cards and cash advances where the aggregate outstanding balance on the current statement is reduced to \$5,000 or less by the payment due date.

Related prohibitions that may be more restrictive are prescribed by certain state and federal agencies having regulatory authority over such financial institutions. Broker-dealers, for example, are subject to regulation by the Securities and Exchange Commission.

[Revised, November 30, 1987, by the Professional Ethics Executive Committee. Formerly paragraph .06, renumbered by adoption of the Code of Professional Conduct on January 12, 1988. Revised, effective February 28, 1998 by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, November 2002, by the Professional Ethics Executive Committee.]

.08 101-6—The effect of actual or threatened litigation on independence. In some circumstances, independence may be considered to be impaired

as a result of litigation or the expressed intention to commence litigation as discussed below.

Litigation between client and member

The relationship between the management of the client and a covered member must be characterized by complete candor and full disclosure regarding all aspects of the client's business operations. In addition, there must be an absence of bias on the part of the covered member so that he or she can exercise professional judgment on the financial reporting decisions made by the management. When the present management of a client company commences, or expresses an intention to commence, legal action against a covered member, the covered member and the client's management may be placed in adversarial positions in which the management's willingness to make complete disclosures and the covered member's objectivity may be affected by self-interest.

For the reasons outlined above, independence may be impaired whenever the covered member and the covered member's client or its management are in threatened or actual positions of material adverse interests by reason of threatened or actual litigation. Because of the complexity and diversity of the situations of adverse interests which may arise, however, it is difficult to prescribe precise points at which independence may be impaired. The following criteria are offered as guidelines:

1. The commencement of litigation by the present management alleging deficiencies in audit work for the client would be considered to impair independence.
2. The commencement of litigation by the covered member against the present management alleging management fraud or deceit would be considered to impair independence.
3. An expressed intention by the present management to commence litigation against the covered member alleging deficiencies in audit work for the client would be considered to impair independence if the auditor concludes that it is probable that such a claim will be filed.
4. Litigation not related to performance of an attest engagement for the client (whether threatened or actual) for an amount not material to the covered member's firm⁹ or to the client company⁹ would not generally be considered to affect the relationship in such a way as to impair independence. Such claims may arise, for example, out of disputes as to billings for services, results of tax or management services advice or similar matters.

Litigation by security holders

A covered member may also become involved in litigation ("primary litigation") in which the covered member and the client or its management are defendants. Such litigation may arise, for example, when one or more stockholders bring

⁹ Because of the complexities of litigation and the circumstances under which it may arise, it is not possible to prescribe meaningful criteria for measuring materiality; accordingly, the covered member should consider the nature of the controversy underlying the litigation and all other relevant factors in reaching a judgment. [Footnote renumbered and revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote subsequently renumbered by the revision of interpretation 101-2, April 2003.]

a stockholders' derivative action or a so-called "class action" against the client or its management, its officers, directors, underwriters and covered members under the securities laws. Such primary litigation in itself would not alter fundamental relationships between the client or its management and the covered member and therefore would not be deemed to have an adverse impact on independence. These situations should be examined carefully, however, since the potential for adverse interests may exist if cross-claims are filed against the covered member alleging that the covered member is responsible for any deficiencies or if the covered member alleges fraud or deceit by the present management as a defense. In assessing the extent to which independence may be impaired under these conditions, the covered member should consider the following additional guidelines:

1. The existence of cross-claims filed by the client, its management, or any of its directors to protect a right to legal redress in the event of a future adverse decision in the primary litigation (or, in lieu of cross-claims, agreements to extend the statute of limitations) would not normally affect the relationship between client management and the covered member in such a way as to impair independence, unless there exists a significant risk that the cross-claim will result in a settlement or judgment in an amount material to the covered member's firm¹⁰ or to the client.
2. The assertion of cross-claims against the covered member by underwriters would not generally impair independence if no such claims are asserted by the client or the present management.
3. If any of the persons who file cross-claims against the covered member are also officers or directors of other clients of the covered member, independence with respect to such other clients would not generally be considered to be impaired.

Other third-party litigation

Another type of third-party litigation against the covered member may be commenced by a lending institution, other creditor, security holder, or insurance company who alleges reliance on financial statements of the client with which the covered member is associated as a basis for extending credit or insurance coverage to the client. In some instances, an insurance company may commence litigation (under subrogation rights) against the covered member in the name of the client to recover losses reimbursed to the client. These types of litigation would not normally affect independence with respect to a client who is either not the plaintiff or is only the nominal plaintiff, since the relationship between the covered member and client management would not be affected. They should be examined carefully, however, since the potential for adverse interests may exist if the covered member alleges, in his defense, fraud, or deceit by the present management.

If the real party in interest in the litigation (e.g., the insurance company) is also a client of the covered member ("the plaintiff client"), independence with respect to the plaintiff client may be impaired if the litigation involves a significant risk of a settlement or judgment in an amount which would be material to the covered member's firm¹¹ or to the plaintiff client.

¹⁰ See footnote 9. [Footnote renumbered, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote subsequently renumbered by the revision of interpretation 101-2, April 2003.]

¹¹ See footnote 9. [Footnote renumbered, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote subsequently renumbered by the revision of interpretation 101-2, April 2003.]

Effects of impairment of independence

If the covered member believes that the circumstances would lead a reasonable person having knowledge of the facts to conclude that the actual or intended litigation poses an unacceptable threat to independence, the covered member should either (a) disengage himself or herself, or (b) disclaim an opinion because of lack of independence. Such disengagement may take the form of resignation or cessation of any attest engagement then in progress pending resolution of the issue between the parties.

Termination of impairment

The conditions giving rise to a lack of independence are generally eliminated when a final resolution is reached and the matters at issue no longer affect the relationship between the covered member and client. The covered member should carefully review the conditions of such resolution to determine that all impairments to the covered member's objectivity have been removed.

[Formerly paragraph .07, renumbered by adoption of the Code of Professional Conduct on January 12, 1988. Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, effective September 30, 1995, by the Professional Ethics Executive Committee, by deletion of subhead and paragraph and reissuance as ethics ruling No. 100, *Actions Permitted When Independence is Impaired*, under rule 101. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[.09] [101-7]—[Deleted] [Formerly paragraph .08, renumbered by adoption of the Code of Professional Conduct on January 12, 1988.]

.10 101-8—Effect on independence of financial interests in non-clients having investor or investee relationships with a covered member's client.

Introduction

Financial interests in nonclients that are related in various ways to a client may impair independence. Situations in which the nonclient investor is a partnership are covered in other rulings [ET section 191.138–.139, .158–.159, and .162–.163].

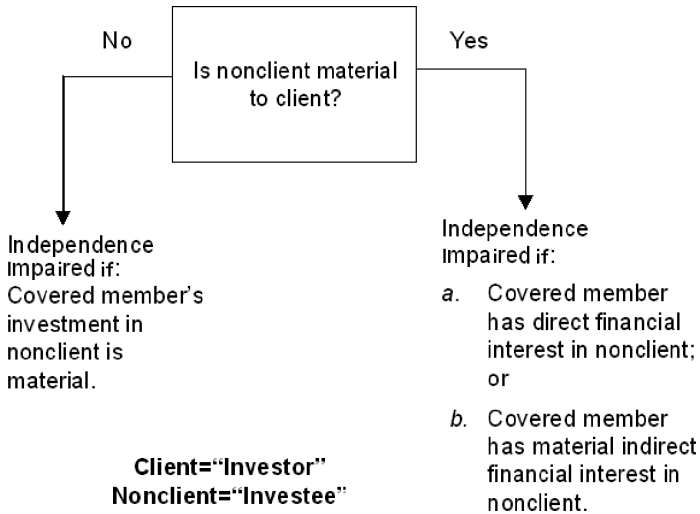

Terminology

The following specifically identified terms are used in this interpretation as indicated:

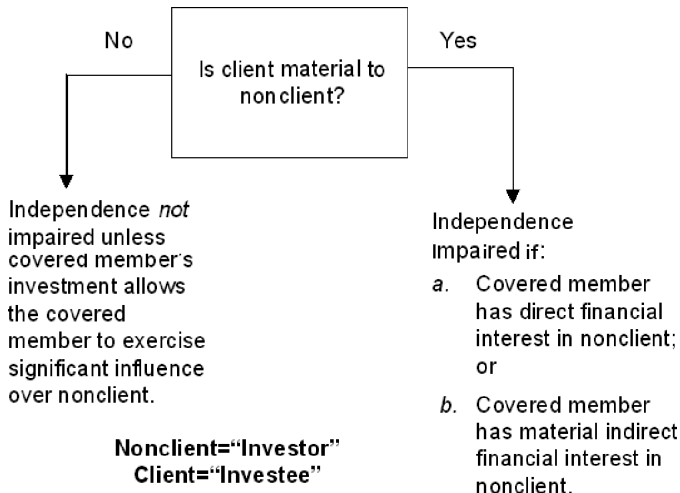

1. **Client.** The term client means the person or entity with whose financial statements a covered member is associated.
2. **Significant Influence.** The term significant influence is as defined in Accounting Principles Board (APB) Opinion 18 [AC I82].
3. **Investor.** The term investor means (a) a parent, (b) a general partner, or (c) a natural person or corporation that has the ability to exercise significant influence.
4. **Investee.** The term investee means (a) a subsidiary or (b) an entity over which an investor has the ability to exercise significant influence.

Interpretation

Where a nonclient investee is material to a client investor, any direct or material indirect financial interest of a covered member in the nonclient investee would be considered to impair independence with respect to the client investor. If the nonclient investee is immaterial to the client investor, a covered member's material investment in the nonclient investee would cause an impairment of independence.

Where a client investee is material to nonclient investor, any direct or material indirect financial interest of a covered member in the nonclient investor would be considered to impair independence with respect to the client investee. If the client investee is immaterial to the nonclient investor, and if a covered member's financial interest in the nonclient investor allows the covered member to exercise significant influence over the actions of the nonclient investor, independence would be considered to be impaired.

Other relationships, such as those involving brother-sister common control or client-nonclient joint ventures, may affect the appearance of independence. The covered member should make a reasonable inquiry to determine whether such relationships exist, and if they do, careful consideration should be given to whether the financial interests in question would lead a reasonable observer to conclude that the specified relationships pose an unacceptable threat to independence.

In general, in brother-sister common control situations, an immaterial financial interest of a covered member in the nonclient investee would not impair independence with respect to the client investee, provided the covered member could not exercise significant influence over the nonclient investor. However, if a covered member's financial interest in a nonclient investee is material, the covered member could be influenced by the nonclient investor, thereby impairing independence with respect to the client investee. In like manner, in a joint venture situation, an immaterial financial interest of a covered member in the nonclient investor would not impair the independence of the covered member with respect to the client investor, provided that the covered member could not exercise significant influence over the nonclient investor.

If a covered member does not and could not reasonably be expected to have knowledge of the financial interests or relationship described in this interpretation, independence would not be considered to be impaired under this interpretation.

[Revised, December 31, 1983, by the Professional Ethics Executive Committee. Formerly paragraph .09 renumbered by adoption of the Code of Professional Conduct on January 12, 1988. References changed to reflect the issuance of the AICPA Code of Professional Conduct on January 12, 1988. Replaces previous interpretation 101-8, *Effect on Independence of Financial Interests in Nonclients Having Investor or Investee Relationships With a Member's Client*, April 1991, effective April 30, 1991. Revised, December 31, 1991, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[.11] [101-9]—[Deleted]

.12 101-10—The effect on independence of relationships with entities included in the governmental financial statements.¹² For purposes of this Interpretation, a financial reporting entity's basic financial statements, issued in conformity with generally accepted accounting principles in the United States of America, include the government-wide financial statements (consisting of the entity's governmental activities, business-type activities, and discretely presented component units), the fund financial statements (consisting of major funds, nonmajor governmental and enterprise funds, internal service funds, blended component units, and fiduciary funds) and other entities disclosed in the notes to the basic financial statements. Entities that should be disclosed in the notes to the basic financial statements include, but are not limited to, related organizations, joint ventures, jointly governed organizations, and component units of another government with characteristics of a joint venture or jointly governed organization.

¹² Except for a financial reporting entity's basic financial statements, which is defined within the text of this Interpretation, certain terminology used throughout the Interpretation is specifically defined by the Governmental Accounting Standards Board. [Footnote renumbered, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote subsequently renumbered by the revision of interpretation 101-2, April 2003.]

Auditor of Financial Reporting Entity

A covered member issuing a report on the basic financial statements of the financial reporting entity must be independent of the financial reporting entity, as defined in paragraph 1 of this Interpretation. However, independence is not required with respect to any major or nonmajor fund, internal service fund, fiduciary fund, or component unit or other entities disclosed in the financial statements, where the primary auditor explicitly states reliance on other auditors reports thereon. In addition, independence is not required with respect to an entity disclosed in the notes to the basic financial statements, if the financial reporting entity is not financially accountable for the organization and the required disclosure does not include financial information. For example, a disclosure limited to the financial reporting entity's ability to appoint the governing board members would not require a member to be independent of that organization.

However, the covered member and his or her immediate family should not hold a key position with a major fund, nonmajor fund, internal service fund, fiduciary fund, or component unit of the financial reporting entity or other entity that should be disclosed in the notes to the basic financial statements.

Auditor of a Major Fund, Nonmajor Fund, Internal Service Fund, Fiduciary Fund, or Component Unit of the Financial Reporting Entity or Other Entity That Should Be Disclosed in the Notes to the Basic Financial Statements

A covered member who is auditing the financial statements of a major fund, nonmajor fund, internal service fund, fiduciary fund, or component unit of the financial reporting entity or an entity that should be disclosed in the notes to the basic financial statements of the financial reporting entity, but is not auditing the primary government, should be independent with respect to those financial statements that the covered member is reporting upon. The covered member is not required to be independent of the primary government or other funds or component units of the reporting entity or entities that should be disclosed in the notes to the basic financial statements. However, the covered member and his or her immediate family should not hold a key position within the primary government. For purposes of this Interpretation, a covered member and immediate family member would not be considered employed by the primary government if the exceptions provided for in ET section 92.03 are met.^[13-14]

[Formerly paragraph .11, renumbered by adoption of the Code of Professional Conduct on January 12, 1988. References changed to reflect the issuance of the AICPA Code of Professional Conduct on January 12, 1988. Replaces previous interpretation 101-10, *The Effect on Independence of Relationships Proscribed by Rule 101 and its Interpretations With Nonclient Entities Included With a Member's Client in the Financial Statements of a Governmental Reporting Entity*, April 1991, effective April 30, 1991. Replaces previous interpretation 101-10, *The Effect on Independence of Relationships With Entities Included in the Governmental Financial Statements*, January 1996, effective January 31, 1996. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, effective March 31, 2003, by the Professional Ethics Executive Committee.]

^[13-14] [Footnotes deleted by the Professional Ethics Executive Committee, March 2003. Footnotes renumbered by the revision of interpretation 101-2, April 2003.]

.13 101-11—Modified application of rule 101 for certain engagements to issue restricted-use reports under the Statements on Standards for Attestation Engagements. Rule 101: *Independence* [ET section 101.01], and its interpretations and rulings apply to all attest engagements. However, for purposes of performing engagements to issue reports under the Statements on Standards for Attestation Engagements (SSAEs) that are restricted to identified parties, only the following covered members, and their immediate families, are required to be independent with respect to the responsible party¹⁵ in accordance with rule 101 [ET section 101.01]:

- Individuals participating on the attest engagement team;
- Individuals who directly supervise or manage the attest engagement partner; and
- Individuals who consult with the attest engagement team regarding technical or industry-related issues specific to the attest engagement.

In addition, independence would be considered to be impaired if the firm had a financial relationship covered by interpretation 101-1.A [ET section 101.02] with the responsible party that was material to the firm.

In cases where the firm provides non-attest services to the responsible party that are proscribed under interpretation 101-3 [ET section 101.05] and that do not directly relate to the subject matter of the attest engagement, independence would not be considered to be impaired.

In circumstances where the individual or entity that engages the firm is not the responsible party or associated with the responsible party, individuals on the attest engagement team need not be independent of the individual or entity, but should consider their responsibilities under interpretation 102-2 [ET section 102.03] with regard to any relationships that may exist with the individual or entity that engages them to perform these services.

This interpretation does not apply to an engagement performed under the Statements on Auditing Standards or Statements on Standards for Accounting and Review Services, or to an examination or review engagement performed under the Statements on Standards for Attestation Engagements.

[Replaces previous interpretation 101-11, *Independence and Attest Engagements*, January 1996, effective January 31, 1996. Revised, effective November 30, 2001, by the Professional Ethics Executive Committee.]

.14 101-12—Independence and cooperative arrangements with clients. Independence will be considered to be impaired if, during the period of a professional engagement, a member or his or her firm had any cooperative arrangement with the client that was material to the member's firm or to the client.

Cooperative Arrangement—A cooperative arrangement exists when a member's firm and a client jointly participate in a business activity. The following are examples, which are not all inclusive, of cooperative arrangements:

¹⁵ As defined in the SSAEs. [Footnote renumbered, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote subsequently renumbered by the revision of interpretation 101-2, April 2003.]

1. Prime/subcontractor arrangements to provide services or products to a third party
2. Joint ventures to develop or market products or services
3. Arrangements to combine one or more services or products of the firm with one or more services or products of the client and market the package with references to both parties
4. Distribution or marketing arrangements under which the firm acts as a distributor or marketer of the client's products or services, or the client acts as the distributor or marketer of the products or services of the firm

Nevertheless, joint participation with a client in a business activity does not ordinarily constitute a cooperative arrangement when all the following conditions are present:

- a. The participation of the firm and the participation of the client are governed by separate agreements, arrangements, or understandings.
- b. The firm assumes no responsibility for the activities or results of the client, and vice versa.
- c. Neither party has the authority to act as the representative or agent of the other party.

In addition, the member's firm should consider the requirements of rule 302 [ET section 302.01] and rule 503 [ET section 503.01].

[Effective November 30, 1993. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

.15 101-13—Extended audit services. A member or his or her firm ("member") may be asked by a client, for which the member performs an attest engagement, to perform extended audit services. These services may include assistance in the performance of the client's internal audit activities and/or an extension of the member's audit service beyond the requirements of generally accepted auditing standards (hereinafter referred to as "extended audit services").

A member's performance of extended audit services would not be considered to impair independence with respect to a client for which the member also performs an attest engagement, provided that the member or his or her firm is not an employee of the client or does not act or appear to act in a capacity equivalent to a member of client management.

The responsibilities of the client, including its board of directors, audit committee, and management, and the responsibilities of the member, as described below, should be understood by both the member and the client. It is preferable that this understanding be documented in an engagement letter that indicates that the member may not perform management functions or make management decisions.

A member should be satisfied that the client understands its responsibility for establishing and maintaining internal control and directing the internal audit function, if any. As part of its responsibility to establish and maintain internal control, management monitors internal control to assess the quality of its performance over time. Monitoring can be accomplished through ongoing activities, separate evaluations or a combination of both.

Ongoing monitoring activities are the procedures designed to assess the quality of internal control performance over time and that are built into the normal recurring activities of an entity and include regular management and supervisory activities, comparisons, reconciliations and other routine actions. Separate evaluations focus on the continued effectiveness of a client's internal control. A member's independence would not be impaired by the performance of separate evaluations of the effectiveness of a client's internal control, including separate evaluations of the client's ongoing monitoring activities.

The member should understand that, with respect to the internal audit function, the client is responsible for—

- Designating a competent individual or individuals, preferably within senior management, to be responsible for the internal audit function
- Determining the scope, risk and frequency of internal audit activities, including those to be performed by the member providing extended audit services
- Evaluating the findings and results arising from the internal audit activities, including those performed by the member providing extended audit services
- Evaluating the adequacy of the audit procedures performed and the findings resulting from the performance of those procedures by, among other things, obtaining reports from the member

The member should be satisfied that the board of directors and/or audit committee is informed of roles and responsibilities of both client management and the member with respect to the engagement to provide extended audit services as a basis for the board of directors and/or audit committee to establish guidelines for both management and the member to follow in carrying out these responsibilities and monitoring how well the respective responsibilities have been met.

The member should be responsible for performing the audit procedures in accordance with the terms of the engagement and reporting thereon. The day-to-day performance of the audit procedures should be directed, reviewed, and supervised by the member. The report should include information that allows the individual responsible for the internal audit function to evaluate the adequacy of the audit procedures performed and the findings resulting from the performance of those procedures. This report may include recommendations for improvements in systems, processes, and procedures. The member may assist the individual responsible for the internal audit function in performing preliminary audit risk assessments, preparing audit plans, and recommending audit priorities. However, the member should not undertake any responsibilities that are required, as described above, to be performed by the individual responsible for the internal audit function.

Performing procedures that are generally of the type considered to be extensions of the member's audit scope applied in the audit of the client's financial statements, such as confirming of accounts receivable and analyzing fluctuations in account balances, would not impair the independence even if the extent of such testing exceeds that required by generally accepted auditing standards.

The following are examples of activities that, if performed as part of an extended audit service, would be considered to impair independence:

- Performing ongoing monitoring activities or control activities (for example, reviewing loan originations as part of the client's approval process or reviewing customer credit information as part of the customer's sales authorization process) that affect the execution of transactions or ensure that transactions are properly executed, accounted for, or both, and performing routine activities in connection with the client's operating or production processes that are equivalent to those of an ongoing compliance or quality control function
- Determining which, if any, recommendations for improving the internal control system should be implemented
- Reporting to the board of directors or audit committee on behalf of management or the individual responsible for the internal audit function
- Authorizing, executing, or consummating transactions or otherwise exercising authority on behalf of the client
- Preparing source documents on transactions
- Having custody of assets
- Approving or being responsible for the overall internal audit work plan including the determination of the internal audit risk and scope, project priorities and frequency of performance of audit procedures
- Being connected with the client as an employee or in any capacity equivalent to a member of client management (for example, being listed as an employee in client directories or other client publications, permitting himself or herself to be referred to by title or description as supervising or being in charge of the client's internal audit function, or using the client's letterhead or internal correspondence forms in communications)

The foregoing list is not intended to be all inclusive.

[Effective August 31, 1996. Revised, effective September 30, 1999, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

.16 101-14—The effect of alternative practice structures on the applicability of independence rules. Because of changes in the manner in which **members**[#] are structuring their practices, the AICPA's professional ethics executive committee (PEEC) studied various alternatives to "traditional structures" to determine whether additional independence requirements are necessary to ensure the protection of the public interest.

In many "nontraditional structures," a substantial (the nonattest) portion of a member's practice is conducted under public or private ownership, and the attest portion of the practice is conducted through a separate firm owned and controlled by the member. All such structures must comply with applicable laws, regulations, and Rule 505, *Form of Organization and Name* [ET section 505.01]. In complying with laws, regulations, and rule 505 [ET section 505.01], many elements of quality control are required to ensure that the public interest is adequately protected. For example, all services performed by members and persons over whom they have control must comply with standards promulgated by AICPA Council-designated bodies, and, for all other firms providing attest

[#] Terms shown in **boldface** type upon first usage in this interpretation are defined in ET section 92, *Definitions*. [Footnote added, November 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

services, enrollment is required in an AICPA-approved practice-monitoring program. Finally, and importantly, the members are responsible, financially and otherwise, for all the attest work performed. Considering the extent of such measures, PEEC believes that the additional independence rules set forth in this interpretation are sufficient to ensure that attest services can be performed with objectivity and, therefore, the additional rules satisfactorily protect the public interest.

Rule 505 [ET section 505.01] and the following independence rules for an alternative practice structure (APS) are intended to be conceptual and applicable to all structures where the "traditional firm" engaged in attest services is closely aligned with another organization, public or private, that performs other professional services. The following paragraph and the chart below provide an example of a structure in use at the time this interpretation was developed. Many of the references in this interpretation are to the example. PEEC intends that the concepts expressed herein be applied, in spirit and in substance, to variations of the example structure as they develop.

The example APS in this interpretation is one where an existing CPA practice ("Oldfirm") is sold by its owners to another (possibly public) entity ("PublicCo"). PublicCo has subsidiaries or divisions such as a bank, insurance company or broker-dealer, and it also has one or more professional service subsidiaries or divisions that offer to clients nonattest professional services (e.g., tax, personal financial planning, and management consulting). The owners and employees of Oldfirm become employees of one of PublicCo's subsidiaries or divisions and may provide those nonattest services. In addition, the owners of Oldfirm form a new CPA firm ("Newfirm") to provide attest services. CPAs, including the former owners of Oldfirm, own a majority of Newfirm (as to vote and financial interests). Attest services are performed by Newfirm and are supervised by its owners. The arrangement between Newfirm and PublicCo (or one of its subsidiaries or divisions) includes the lease of employees, office space and equipment; the performance of back-office functions such as billing and collections; and advertising. Newfirm pays a negotiated amount for these services.

APS Independence Rules for Covered Members

The term **covered member** in an APS includes both employed and leased individuals. The **firm** in such definition would be Newfirm in the example APS. All covered members, including the firm, are subject to rule 101 [ET section 101.01] and its interpretations and rulings in their entirety. For example, no covered member may have, among other things, a direct financial interest in or a loan to or from an attest client of Newfirm.

Partners of one Newfirm generally would not be considered partners of another Newfirm except in situations where those partners perform services for the other Newfirm or where there are significant shared economic interests between partners of more than one Newfirm. If, for example, partners of Newfirm 1 perform services in Newfirm 2, such owners would be considered to be partners of both Newfirms for purposes of applying the independence rules.

APS Independence Rules for Persons and Entities Other Than Covered Members

As stated above, the independence rules normally extend only to those persons and entities included in the definition of covered member. This normally would include only the "traditional firm" (Newfirm in the example APS), those covered members who own or are employed or leased by Newfirm, and entities controlled by one or more of such persons. Because of the close alignment in many APSs between persons and entities included in covered member and other persons and entities, to ensure the protection of the public interest, PEEC believes

it appropriate to require restrictions in addition to those required in a traditional firm structure. Those restrictions are divided into two groups:

1. *Direct Superiors.* Direct Superiors are defined to include those persons so closely associated with a partner or manager who is a covered member, that such persons can *directly control* the activities of such partner or manager. For this purpose, a person who can *directly control* is the immediate superior of the partner or manager who has the power to direct the activities of that person so as to be able to directly or indirectly (e.g. through another entity over which the Direct Superior can exercise significant influence¹⁶) derive a benefit from that person's activities. Examples would be the person who has day-to-day responsibility for the activities of the partner or manager and is in a position to recommend promotions and compensation levels. This group of persons is, in the view of PEEC, so closely aligned through direct reporting relationships with such persons that their interests would seem to be inseparable. *Consequently, persons considered Direct Superiors, and entities within the APS over which such persons can exercise significant influence¹⁷ are subject to rule 101 [ET section 101.01] and its interpretations and rulings in their entirety.*

2. *Indirect Superiors and Other PublicCo Entities.* Indirect Superiors are those persons who are one or more levels above persons included in Direct Superior. Generally, this would start with persons in an organization structure to whom Direct Superiors report and go up the line from there. PEEC believes that certain restrictions must be placed on Indirect Superiors, but also believes that such persons are sufficiently removed from partners and managers who are covered persons to permit a somewhat less restrictive standard. Indirect Superiors are not connected with partners and managers who are covered members through direct reporting relationships; there always is a level in between. The PEEC also believes that, for purposes of the following, the definition of Indirect Superior also includes the **immediate family** of the Indirect Superior.

PEEC carefully considered the risk that an Indirect Superior, through a Direct Superior, might attempt to influence the decisions made during the engagement for a Newfirm attest client. PEEC believes that this risk is reduced to a sufficiently low level by prohibiting certain relationships between Indirect Superiors and Newfirm attest clients and by applying a materiality concept

¹⁶ For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 [AC section I82] and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive. [Footnote added, November 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote renumbered by the revision of interpretation 101-2, April 2003.]

¹⁷ For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 [AC section I82] and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive. [Footnote added, November 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote renumbered by the revision of interpretation 101-2, April 2003.]

with respect to financial relationships. If the financial relationship is not material to the Indirect Superior, PEEC believes that he or she would not be sufficiently financially motivated to attempt such influence particularly with sufficient effort to overcome the presumed integrity, objectivity and strength of character of individuals involved in the engagement.

Similar standards also are appropriate for Other PublicCo Entities. These entities are defined to include PublicCo and all entities consolidated in the PublicCo financial statements that are not subject to rule 101 [ET section 101.01] and its interpretations and rulings in their entirety.

The rules for Indirect Superiors and Other PublicCo Entities are as follows:

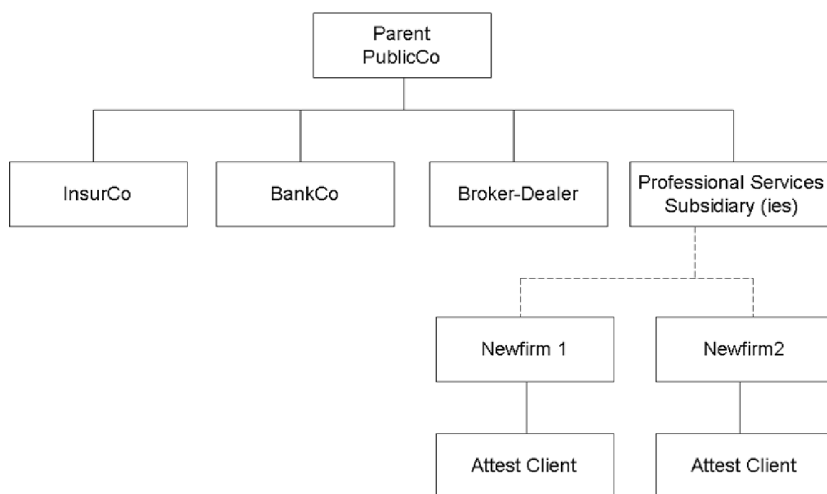

- A. Indirect Superiors and Other PublicCo Entities may *not* have a relationship contemplated by interpretation 101-1.A [ET section 101.02] (e.g., investments, loans, etc.) with an attest client of Newfirm that is material. In making the test for materiality for financial relationships of an Indirect Superior, all the financial relationships with an attest client held by such person should be aggregated and, to determine materiality, assessed in relation to the person's net worth. In making the materiality test for financial relationships of Other PublicCo Entities, all the financial relationships with an attest client held by such entities should be aggregated and, to determine materiality, assessed in relation to the consolidated financial statements of PublicCo. In addition, any Other PublicCo Entity over which an Indirect Superior has direct responsibility cannot have a financial relationship with an attest client that is material in relation to the Other PublicCo Entity's financial statements.
- B. Further, financial relationships of Indirect Superiors or Other PublicCo Entities should not allow such persons or entities to exercise significant influence¹⁸ over the attest client. In making the test for significant influence, financial relationships of all Indirect Superiors and Other PublicCo Entities should be aggregated.
- C. Neither Other PublicCo Entities nor any of their employees may be connected with an attest client of Newfirm as a promoter, underwriter, voting trustee, director or officer.
- D. Except as noted in C above, Indirect Superiors and Other PublicCo Entities may provide services to an attest client of Newfirm that would impair independence if performed by Newfirm. For example, trustee and asset custodial services in the ordinary course of business by a bank subsidiary of PublicCo would be acceptable as long as the bank was not subject to rule 101 [ET section 101.01] and its interpretations and rulings in their entirety.

¹⁸ For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 [AC section 182] and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive. [Footnote added, November 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote renumbered by the revision of interpretation 101-2, April 2003.]

Other Matters

1. An example, using the chart below, of the application of the concept of Direct and Indirect Superiors would be as follows: The chief executive of the local office of the Professional Services Subsidiary (PSS), where the partners of Newfirm are employed, would be a Direct Superior. The chief executive of PSS itself would be an Indirect Superior, and there may be Indirect Superiors in between such as a regional chief executive of all PSS offices within a geographic area.
2. PEEC has concluded that Newfirm (and its partners and employees) may not perform an **attest engagement** for PublicCo or any of its subsidiaries or divisions.
3. PEEC has concluded that independence would be considered to be impaired with respect to an attest client of Newfirm if such attest client holds an investment in PublicCo that is material to the attest client or allows the attest client to exercise significant influence¹⁹ over PublicCo.
4. When making referrals of services between Newfirm and any of the entities within PublicCo, a member should consider the provisions of Interpretation 102-2, *Conflicts of Interest* [ET section 102.03].

Alternative Practice Structure (APS) Model

[Effective February 28, 1999; Revised, November 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

¹⁹ For purposes of this Interpretation, significant influence means having the ability to exercise significant influence over the financial, operating or accounting policies of the entity, for example by (1) being connected with the entity as a promoter, underwriter, voting trustee, general partner or director, (2) being in a policy-making position such as chief executive officer, chief operating officer, chief financial officer or chief accounting officer, or (3) meeting the criteria in Accounting Principles Board Opinion No. 18 [AC section I82] and its interpretations to determine the ability of an investor to exercise such influence with respect to an entity. The foregoing examples are not necessarily all-inclusive. [Footnote added, November 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Footnote renumbered by the revision of interpretation 101-2, April 2003.]

ET Section 102

Integrity and Objectivity

.01 Rule 102—Integrity and objectivity. In the performance of any professional service, a member shall maintain objectivity and integrity, shall be free of conflicts of interest, and shall not knowingly misrepresent facts or subordinate his or her judgment to others.

[As adopted January 12, 1988.]

Interpretations under Rule 102— Integrity and Objectivity

.02 102-1—Knowing misrepresentations in the preparation of financial statements or records. A member shall be considered to have knowingly misrepresented facts in violation of rule 102 [ET section 102.01] when he or she knowingly—

- a. Makes, or permits or directs another to make, materially false and misleading entries in an entity's financial statements or records; or
- b. Fails to correct an entity's financial statements or records that are materially false and misleading when he or she has the authority to record an entry; or
- c. Signs, or permits or directs another to sign, a document containing materially false and misleading information.

[Revised, effective May 31, 1999, by the Professional Ethics Executive Committee.]

.03 102-2—Conflicts of interest. A conflict of interest may occur if a member performs a professional service for a client or employer and the member or his or her firm has a relationship with another person, entity, product, or service that could, in the member's professional judgment, be viewed by the client, employer, or other appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity, and the relationship is disclosed to and consent is obtained from such client, employer, or other appropriate parties, the rule shall not operate to prohibit the performance of the professional service. When making the disclosure, the member should consider Rule 301, *Confidential Client Information* [ET section 301.01].

Certain professional engagements, such as audits, reviews, and other attest services, require independence. Independence impairments under rule 101 [ET section 101.01], its interpretations, and rulings cannot be eliminated by such disclosure and consent.

The following are examples, not all-inclusive, of situations that should cause a member to consider whether or not the client, employer, or other appropriate parties could view the relationship as impairing the member's objectivity:

- A member has been asked to perform litigation services for the plaintiff in connection with a lawsuit filed against a client of the member's firm.

- A member has provided tax or personal financial planning (PFP) services for a married couple who are undergoing a divorce, and the member has been asked to provide the services for both parties during the divorce proceedings.
- In connection with a PFP engagement, a member plans to suggest that the client invest in a business in which he or she has a financial interest.
- A member provides tax or PFP services for several members of a family who may have opposing interests.
- A member has a significant financial interest, is a member of management, or is in a position of influence in a company that is a major competitor of a client for which the member performs management consulting services.
- A member serves on a city's board of tax appeals, which considers matters involving several of the member's tax clients.
- A member has been approached to provide services in connection with the purchase of real estate from a client of the member's firm.
- A member refers a PFP or tax client to an insurance broker or other service provider, which refers clients to the member under an exclusive arrangement to do so.
- A member recommends or refers a client to a service bureau in which the member or partner(s) in the member's firm hold material financial interest(s).

The above examples are not intended to be all-inclusive.

[Replaces previous interpretation 102-2, *Conflicts of Interest*, August 1995, effective August 31, 1995.]

.04 102-3—Obligations of a Member to His or Her Employer's External Accountant. Under rule 102 [ET section 102.01], a member must maintain objectivity and integrity in the performance of a professional service. In dealing with his or her employer's external accountant, a member must be candid and not knowingly misrepresent facts or knowingly fail to disclose material facts. This would include, for example, responding to specific inquiries for which his or her employer's external accountant requests written representation.

[Effective November 30, 1993.]

.05 102-4—Subordination of judgment by a member. Subordination of judgment by a member. Rule 102 [ET section 102.01] prohibits a member from knowingly misrepresenting facts or subordinating his or her judgment when performing professional services. Under this rule, if a member and his or her supervisor have a disagreement or dispute relating to the preparation of financial statements or the recording of transactions, the member should take the following steps to ensure that the situation does not constitute a subordination of judgment:¹

¹ A member in the practice of public accounting should refer to the Statements on Auditing Standards. For example, see SAS No. 22, *Planning and Supervision* [AU section 311], which discusses what the auditor should do when there are differences of opinion concerning accounting and auditing standards.

1. The member should consider whether (a) the entry or the failure to record a transaction in the records, or (b) the financial statement presentation or the nature or omission of disclosure in the financial statements, as proposed by the supervisor, represents the use of an acceptable alternative and does not materially misrepresent the facts. If, after appropriate research or consultation, the member concludes that the matter has authoritative support and/or does not result in a material misrepresentation, the member need do nothing further.
2. If the member concludes that the financial statements or records could be materially misstated, the member should make his or her concerns known to the appropriate higher level(s) of management within the organization (for example, the supervisor's immediate superior, senior management, the audit committee or equivalent, the board of directors, the company's owners). The member should consider documenting his or her understanding of the facts, the accounting principles involved, the application of those principles to the facts, and the parties with whom these matters were discussed.
3. If, after discussing his or her concerns with the appropriate person(s) in the organization, the member concludes that appropriate action was not taken, he or she should consider his or her continuing relationship with the employer. The member also should consider any responsibility that may exist to communicate to third parties, such as regulatory authorities or the employer's (former employer's) external accountant. In this connection, the member may wish to consult with his or her legal counsel.
4. The member should at all times be cognizant of his or her obligations under interpretation 102-3 [ET section 102.04].

[Effective November 30, 1993.]

.06 102-5—Applicability of Rule 102 to Members Performing Educational Service. Educational services (for example, teaching full- or part-time at a university, teaching a continuing professional education course, or engaging in research and scholarship) are professional services as defined in ET section 92.11, and are therefore subject to rule 102 [ET section 102.01]. Rule 102 [ET section 102.01] provides that the member shall maintain objectivity and integrity, shall be free of conflicts of interest, and shall not knowingly misrepresent facts or subordinate his or her judgment to others.

[Effective March 31, 1995.]

.07 102-6—Professional services involving client advocacy. A member or a member's firm may be requested by a client—

1. To perform tax or consulting services engagements that involve acting as an advocate for the client.
2. To act as an advocate in support of the client's position on accounting or financial reporting issues, either within the firm or outside the firm with standard setters, regulators, or others.

Services provided or actions taken pursuant to such types of client requests are professional services [ET section 92.11] governed by the Code of Professional Conduct and shall be performed in compliance with Rule 201, *General Standards* [ET section 201.01], Rule 202, *Compliance With Standards*

[ET section 202.01], and Rule 203, *Accounting Principles* [ET section 203.01], and interpretations thereof, as applicable. Furthermore, in the performance of any professional service, a member shall comply with rule 102 [ET section 102.01], which requires maintaining objectivity and integrity and prohibits subordination of judgment to others. When performing professional services requiring independence, a member shall also comply with rule 101 [ET section 101.01] of the Code of Professional Conduct.

Moreover, there is a possibility that some requested professional services involving client advocacy may appear to stretch the bounds of performance standards, may go beyond sound and reasonable professional practice, or may compromise credibility, and thereby pose an unacceptable risk of impairing the reputation of the member and his or her firm with respect to independence, integrity, and objectivity. In such circumstances, the member and the member's firm should consider whether it is appropriate to perform the service.

[Effective August 31, 1995.]

ET Section 191

Ethics Rulings on Independence, Integrity, and Objectivity

1. Acceptance of a Gift

.001 Question—Would independence be considered to be impaired if a member accepts a gift or other unusual consideration from a client?

.002 Answer—Independence would be considered to be impaired if a *covered* member accepts more than a token gift from a client, even with the knowledge of the member's firm.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

2. Association Membership

.003 Question—Would independence be considered to be impaired if a member joined a trade association that is a client of the firm?

.004 Answer—Independence would not be considered to be impaired provided the member did not serve as an officer, director, or in any capacity equivalent to that of a member of management.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[3.] Member as Signer or Cosigner of Checks

[.005–.006] [Deleted May 1999]

[4.] Payroll Preparation Services

[.007–.008] [Deleted May 1999]

[5.] Member as Bookkeeper

[.009–.010] [Deleted June 1991]

[6.] Member's Spouse as Accountant of Client

[.011–.012] [Deleted November 2001]

[7.] Member Providing Contract Services

[.013–.014] [Deleted May 1999]

8. Member Providing Advisory Services

.015 Question—A member provides extensive advisory services for a client. In that connection, the member attends board meetings, interprets financial statements, forecasts and other analyses, counsels on potential expansion plans and on banking relationships. Would independence be considered to be impaired under these circumstances?

.016 Answer—Independence would not be considered to be impaired because the member's role is advisory in nature.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

9. Member as Representative of Creditor's Committee

.017 Question—A member performs the following functions for a creditors' committee in control of a debtor corporation which will continue to operate under its existing management subject to extension agreements:

- Signs or co-signs checks issued by the debtor corporation.
- Signs or co-signs purchase orders in excess of established minimum amounts.
- Exercises general supervision to insure compliance with budgetary controls and pricing formulas established by management, with the consent of the creditors, as part of an overall program aimed at the liquidation of deferred indebtedness.

Would independence be considered to be impaired with respect to the debtor corporation?

.018 Answer—Independence would be considered to be impaired if *any* partner or professional employee of the firm performed any of the functions described, since these are considered to be management functions.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

10. Member as Legislator

.019 Question—A member is an elected legislator in a local government (a city). The city manager, who is responsible for all administrative functions, is also an elected official. Would independence be considered to be impaired with respect to the city?

.020 Answer—Independence would be considered to be impaired if *any* partner or professional employee of the firm served as an elected legislator for a city at the same time his or her firm was engaged to perform the city's attest engagement, even though the city manager is an elected official rather than an appointee of the legislature.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

11. Member Designated to Serve as Executor or Trustee

.021 Question—A member has been designated to serve as an executor or trustee of the estate of an individual who owns the majority of a client's stock. Would independence be considered to be impaired with respect to the client?

.022 Answer—The mere designation of a *covered* member as executor or trustee would not be considered to impair independence, however, if a covered member actually served in such capacity, independence would be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

12. Member as Trustee of Charitable Foundation

.023 Question—A charitable foundation is the sole beneficiary of the estate of the foundation's deceased organizer. If a member becomes a trustee of the foundation, would independence be considered to be impaired with respect to (1) the foundation or (2) the estate?

.024 Answer—If a *covered* member served as trustee of the foundation, independence would be considered to be impaired with respect to both the foundation and the estate.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[13.] Member as Bank Stockholder

[.025–.026] [Deleted November 1993]

14. Member on Board of Federated Fund-Raising Organization

.027 Question—A member serves as a director or officer of a United Way or similar federated fund-raising organization (the organization). Certain local charities receive funds from the organization. Would independence be considered to be impaired with respect to such charities?

.028 Answer—Independence would be considered to be impaired if *any* partner or professional employee of the firm served as a director or officer of the organization and the organization exercised managerial control over the local charities. (See ethics ruling No. 93 [ET section 191.186–.187] under rule 101 [ET section 101.01] for additional guidance.)

[Replaces previous ruling No. 14, *Member on Board of Directors of United Fund*, April 1991. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[15.] Retired Partner as Director

[.029–.030] [Deleted June 1991]

16. Member on Board of Directors of Nonprofit Social Club

.031 Question—Would independence be considered to be impaired if a member served on the board of directors of a nonprofit social club?

.032 Answer—Independence would be considered to be impaired if *any* partner or professional employee of the firm served on the board of directors since the board has ultimate responsibility for the club's affairs.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

17. Member of Social Club

.033 Question—Would independence be considered to be impaired if a member belongs to a social club (for example, country club, tennis club) that requires him or her to acquire a pro rata share of the club's equity or debt securities?

.034 Answer—As long as membership in a club is essentially a social matter, a *covered* member's association with the club would not impair independence because such equity or debt ownership would not be considered to be a direct financial interest within the meaning of rule 101 [ET section 101.01]. Also see interpretation 101-1.C [ET section 101.02].

[Replaces previous ruling No. 17, *Member as Stockholder in Country Club*, February 1991. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[18.] Member as City Council Chairman

[.035–.036] [Deleted June 1991]

19. Member on Deferred Compensation Committee

.037 Question—Would independence be considered to be impaired if a member served on a committee that administers a client's deferred compensation program?

.038 Answer—Independence would be considered to be impaired if *any* partner or professional employee of the firm served on the committee since such service constitutes participation in the client's management functions. The partner or professional employee could however render consulting assistance without joining the committee.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

20. Member Serving on Governmental Advisory Unit

.039 Question—A member serves on a citizens' committee which is studying possible changes in the form of a county government that the firm audits. The member also serves on a committee appointed to study the financial status of a state. Would independence be considered to be impaired with respect to a county in that state?

.040 Answer—Independence would not be considered to be impaired with respect to the county through the member's service on either committee.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

21. Member as Director and Auditor of an Entity's Profit Sharing and Retirement Trust

.041 Question—A member serves in the dual capacity of director of an entity and auditor of the financial statements of that entity's profit sharing and retirement trust (the trust). Would independence be considered to be impaired with respect to the trust?

.042 Answer—Service as director of an entity constitutes participation in management functions that affect the entity's trust. Accordingly, independence would be considered to be impaired if *any* partner or professional of the firm served in such capacity.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[22.] Family Relationship, Brother

[.043-.044] [Deleted June 1991]

[23.] Family Relationship, Uncle by Marriage

[.045-.046] [Deleted June 1991]

[24.] Family Relationship, Father

[.047-.048] [Deleted June 1991]

[25.] Family Relationship, Son

[.049-.050] [Deleted June 1991]

[26.] Family Relationship, Son

[.051-.052] [Deleted June 1991]

[27.] Family Relationship, Spouse as Trustee

[.053-.054] [Deleted June 1991]

[28.] Cash Account With Brokerage Client

[.055-.056] [Superseded by ethics ruling No. 59.]

29. Member as Bondholder

.057 Question—Would independence be considered to be impaired if a member owned an immaterial amount of a municipal authority's outstanding bonds?

.058 Answer—Ownership of a client's bonds constitute a loan to that client. Accordingly, if a *covered* member owned such bonds, independence would be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[30.] Financial Interest by Employee

[.059-.060] [Deleted July 1979]

31. Performance of Services for Common Interest Realty Associations (CIRAs), Including Cooperatives, Condominium Associations, Planned Unit Developments, Homeowners Associations, and Timeshare Developments

.061 Question—A member belongs to a common interest realty association (CIRA) as the result of the ownership or lease of real estate. Would independence be considered to be impaired with respect to the CIRA?

.062 Answer—Independence would be considered to be impaired if a *covered* member was a member of a CIRA unless all of the following conditions are met:

- a. The CIRA performs functions similar to local governments, such as public safety, road maintenance, and utilities.
- b. The covered member's annual assessment is not material to either the covered member or the CIRA's operating budgeted assessments.
- c. The liquidation of the CIRA or the sale of common assets would not result in a distribution to the covered member.
- d. The CIRA's creditors would not have recourse to the covered member's assets if the CIRA became insolvent.

Also see interpretation 101-1.C [ET section 101.02] for additional restrictions related to associations with a client.

If the member has a relationship with a real estate developer or management company that is associated with the CIRA, see interpretation 102-2 [ET section 102.03] for guidance.

[Revised, effective May 31, 1998, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[32.] Mortgage Loan to Member's Corporation

[.063-.064] [Deleted December 1991]

[33.] Member as Participant in Employee Benefit Plan

[.065-.066] [Deleted May 1998]

[34.] Member as Auditor of Common Trust Funds

[.067-.068] [Deleted February 1991]

35. Stockholder in Mutual Funds

.069 Question—A member owns shares in a non-regulated mutual investment fund (the fund) which holds shares of stock in a client. Would independence be considered to be impaired with respect to the client whose stock is held by the fund?

.070 Answer—Client securities held by the fund represent indirect financial interests. Accordingly, if a *covered* member has such an indirect financial interest, which is material to the covered member, independence would be considered to be impaired. In addition, if *any* partner or professional employee in

the firm has significant influence over the fund, independence would be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

36. Participant in Investment Club

.071 Question—A member participates in an investment club. Would independence be considered to be impaired with respect to a client in which the investment club holds shares?

.072 Answer—Independence would be considered to be impaired if a *covered* member owned stock in a client through an investment club as such holdings would be deemed to be a direct financial interest. Accordingly, any of the club's investments in a client would be deemed to impair independence regardless of materiality of the investment to the covered member's net worth.

See interpretation 101-1.B [ET section 101.02] for additional restrictions relating to all partners and professionals of the firm.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[37.] Retired Partners as Co-Trustee

[.073–.074] [Deleted November 1980]

38. Member as Co-Fiduciary With Client Bank

.075 Question—A member serves with a client bank in a co-fiduciary capacity with respect to an estate or trust. Would independence be considered to be impaired with respect to the bank or the bank's trust department?

.076 Answer—Independence would not be considered to be impaired provided the assets in the estate or trust were not material to the total assets of the bank and/or the bank's trust department.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[39.] Member as Officially Appointed Stock Transfer Agent or Registrar

[.077–.078] [Deleted May 1999]

[40.] Controller Entering Public Practice

[.079–.080] [Deleted June 1979]

41. Financial Services Company Client Has Custody of a Member's Assets

.081 Question—A financial services company client (for example, insurance company, investment adviser, broker-dealer, bank, or other depository institution) has custody of a member's assets (other than depository accounts),

including retirement plan assets. Would independence be considered to be impaired?

.082 Answer—If a covered member's assets were held by a financial services company client, independence would not be considered to be impaired provided the services were rendered under the company's normal terms, procedures, and requirements and any of the covered member's assets subject to the risk of loss were immaterial to the covered member's net worth. Risk of loss may include losses arising from the bankruptcy of or defalcation by the client but would exclude losses due to a market decline in the value of the assets. When considering the materiality of assets subject to the risk of loss, the covered member should consider the following:

- Protection provided by state or federal regulators (for example, state insurance funds)
- Private insurance or other forms of protection (for example, the Securities Investor Protection Corporation) obtained by the financial services company to protect the assets
- Protection from creditors (for example, assets held in a pooled separate account)

For guidance dealing with depository accounts, see ethics ruling No. 70 [ET section 191.140 and .141].

[Replaces previous ruling No. 41, *Member as Auditor of Mutual Insurance Company*, November, 1990. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, effective March 31, 2003, by the Professional Ethics Executive Committee.]

[42.] Member as Life Insurance Policy Holder

[.083–.084] [Deleted April 1991]

[43.] Member's Employee as Treasurer of a Client

[.085–.086] [Deleted June 1991]

[44.] Past Due Billings

[.087–.088] [Superseded by ethics ruling No. 52.]

[45.] Past Due Fees: Client in Bankruptcy

[.089–.090] [Deleted November 1990]

[46.] Member as General Counsel

[.091–.092] [Superseded by ethics ruling No. 51.]

[47.] Member as Auditor of Mutual Fund and Shareholder of Investment Advisor/Manager

[.093–.094] [Deleted February 1991]

48. Faculty Member as Auditor of a Student Fund

.095 Question—A full or part-time faculty member employed by a university is asked to audit the financial statements of the Student Senate Fund. The university:

1. Acts as a collection agent for student fees and remits them to the Student Senate.
2. Requires that a university administrator approve and sign Student Senate checks.

Would independence be considered to be impaired under these circumstances?

.096 Answer—Independence would be considered to be impaired with respect to the Student Senate Fund if *any* partner or professional employee (individual) performed the functions described since the individual would be auditing several of the management functions performed by the university, the individual's employer.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[49.] Investor and Investee Companies

[.097–.098] [Superseded by interpretation 101-8.]

[50.] Family Relationship, Brother-in-Law

[.099–.100] [Deleted June 1983]

[51.] Member Providing Legal Services

[.101–.102] [Deleted May 1999]

52. Unpaid Fees

.103 Question—A client of the member's firm has not paid fees for previously rendered professional services. Would independence be considered to be impaired for the current year?

.104 Answer—Independence is considered to be impaired if, when the report on the client's current year is issued, billed or unbilled fees, or a note receivable arising from such fees, remain unpaid for any professional services provided more than one year prior to the date of the report.

This ruling does not apply to fees outstanding from a client in bankruptcy.

[Replaces previous ruling No. 52, *Past Due Fees*, November 1990. Revised, effective November 30, 1997, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[53.] Member as Auditor of Employee Benefit Plan and Sponsoring Company

[.105–.106] [Deleted June 1991]

[54.] Member Providing Appraisal, Valuation, or Actuarial Services

[.107–.108] [Deleted May 1999]

[55.] Independence During Systems Implementation

[.109–.110] [Deleted May 1999]

[56.] Executive Search

[.111–.112] [Deleted May 1999]

[57.] MAS Engagement to Evaluate Service Bureaus

[.113–.114] [Deleted August 1995]

[58.] Member as Lessor

[.115–.116] [Deleted May 1998]

[59.] Account With Brokerage Client

[.117–.118] [Deleted November 1987]

60. Employee Benefit Plans—Member’s Relationships With Participating Employer

.119 Question—A member has been asked to audit the financial statements of an employee benefit plan (“the plan”) that may have one or more participating employer(s). Would independence be considered to be impaired with respect to the plan if the member had financial or other relationships with a participating employer(s)?

.120 Answer—Independence would be considered to be impaired with respect to the plan if *any* partner or professional employee of the firm had significant influence over such employer, was in a key position with the employer, or was associated with the employer as a promoter, underwriter, or voting trustee.

When auditing plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), Department of Labor (DOL) regulations must be followed.¹

[Replaces previous ruling No. 60, *Employee Benefit Plans—Member’s Relationships With Participating Employer(s)*, November 1993. Revised, effective November 30, 2001, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[61.] Participation of Member’s Spouse in Client’s Stock Ownership Plans (Including an ESOP)

[.121–.122] [Deleted May 1998]

[62.] Member and Client Are Limited Partners in a Limited Partnership

[.123–.124] [Deleted April 1991]

[63.] Review of Prospective Financial Information—Member’s Independence of Promoters

[.125–.127] [Deleted August 1992]

¹ Currently, DOL regulations are more restrictive than the position taken in this ruling.

64. Member Serves on Board of Organization for Which Client Raises Funds

.128 Question—A member serves on the board of directors of an organization. A fund-raising foundation functions solely to raise funds for that organization. Would independence be considered to be impaired with respect to the fund-raising foundation?

.129 Answer—Independence would be considered to be impaired with respect to the fund-raising foundation if *any* partner or professional employee of the firm served on the organization's board of directors. However, if the directorship were clearly honorary (in accordance with ET section 101.06, *Honorary directorships and trusteeships of not-for-profit organization*), independence would not be considered to be impaired.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

65. Use of the CPA Designation by Member Not in Public Practice

.130 Question—A member who is not in public practice wishes to use his or her CPA designation in connection with financial statements and correspondence of the member's employer. The member also wants to use the CPA designation along with employment title on business cards. Is it permissible for the member to use the CPA designation in these manners?

.131 Answer—Yes. However, if the member uses the CPA designation in a manner to imply that he or she is independent of the employer, the member would be knowingly misrepresenting facts in violation of rule 102 [ET section 102.01]. Therefore, it is advisable that in any transmittal within which the member uses his or her CPA designation, he or she clearly indicate the employment title. In addition, if the member states affirmatively in any transmittal that a financial statement is presented in conformity with generally accepted accounting principles, the member is subject to rule 203 [ET section 203.01].

[Replaces previous ruling No. 65, *Use of the CPA Designation by Member Not in Public Practice*, February 1996, effective February 29, 1996.]

66. Member's Retirement or Savings Plan Has Financial Interest in Client

.132 Question—A member's retirement or savings plan has a financial interest in a client. Would independence be considered to be impaired?

.133 Answer—Any direct or material indirect financial interest in a client held through a retirement or savings plan would be considered to be a direct or material indirect financial interest in the client. Accordingly, if a *covered* member had such a financial interest, independence would be considered to be impaired.

See interpretation 101-1.B [ET section 101.02] for additional restrictions relating to all partners and professionals of the firm.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

67. Servicing of Loan

.134 *Question*—Would the mere servicing of a loan by a client financial institution impair independence with respect to the client?

.135 *Answer*—No.

[Replaces previous ruling No. 67, *Servicing of Loan*, November 1993. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

68. Blind Trust

.136 *Question*—Would independence be considered to be impaired if a member transferred a direct financial interest in a client into a blind trust?

.137 *Answer*—Independence would be considered impaired if a *covered* member had a direct financial interest in a client, whether or not the interest was placed in a blind trust. Further, the covered member should ensure that any blind trust for which he or she is a beneficiary does not hold a direct or material indirect financial interest in any clients with respect to which he or she is a covered member.

[Revised, effective June 30, 1990, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

69. Investment With a General Partner

.138 *Question*—A private, closely held entity is the general partner and controls (as defined in Generally Accepted Accounting Principles) limited partnership A. The member has a material financial interest in limited partnership A. The member's firm has been asked to perform an attest engagement for a new limited partnership (B), which has the same general partner as limited partnership A. Would independence be considered to be impaired with respect to limited partnership B?

.139 *Answer*—Because the general partner has control over limited partnership A, the *covered* member would be considered to have a joint closely held investment with the general partner, who has significant influence over limited partnership B, the proposed client. Accordingly, independence would be considered to be impaired with respect to limited partnership B if the covered member had a material investment in limited partnership A.

[Replaces previous ruling No. 69, *Joint Investment With a Promoter and/or General Partner*, April 1991, effective April 30, 1991. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

70. Member's Depository Relationship With Client Financial Institution

.140 *Question*—A member maintains checking or savings accounts, certificates of deposit, or money market accounts at a client financial institution. Would these depository relationships impair independence?

.141 *Answer*—If an individual is a covered member, independence would not be considered to be impaired provided that—

- The checking accounts, savings accounts, certificates of deposit, or money market accounts were fully insured by the appropriate state or federal government deposit insurance agencies or by any other insurer; or
- The uninsured amounts, in the aggregate, were not material to the net worth of the covered member. (When insured amounts were considered material, independence would not be considered impaired provided the uninsured balance was reduced to an immaterial amount no later than 30 days from the date the uninsured amount becomes material.)

A firm's depository relationship would not impair its independence provided that the likelihood of the financial institution experiencing financial difficulties was considered to be remote.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, effective March 31, 2003, by the Professional Ethics Executive Committee.]

71. Use of Nonindependent CPA Firm on an Engagement

.142 Question—Firm A is not independent with respect to a client. Partners or professional employees of Firm A are participating on Firm B's attest engagement team for that client. Would Firm B's independence be considered to be impaired?

.143 Answer—Yes. The use by Firm B of partners or professional employees from Firm A as part of the attest engagement team would impair Firm B's independence with respect to that engagement.

However, use of the work of such individuals in a manner similar to internal auditors is permissible provided that there is compliance with the Statements on Auditing Standards. Applicable literature contained in the Statements on Auditing Standards should be consulted.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

72. Member on Advisory Board of Client

.144 Question—Would service on a client's advisory board impair independence?

.145 Answer—Independence would be considered to be impaired if *any* partner or professional employee of the firm served on the advisory board unless all the following criteria are met: (1) the responsibilities of the advisory board are in fact advisory in nature; (2) the advisory board has no authority to make nor does it appear to make management decisions on behalf of the client; and (3) the advisory board and those having authority to make management decisions (including the board of directors or its equivalent) are distinct groups with minimal, if any, common membership.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[73.] Meaning of the Period of a Professional Engagement

[.146–.147] [Deleted February 1998]

74. Audits, Reviews, or Compilations and a Lack of Independence

.148 Question—If a member or his or her firm is not independent with respect to a client, is it permissible to issue an audit, review, or compilation report for that client?

.149 Answer—A member or his or her firm may not issue an audit or review report if not independent of the client. A compilation report may be issued provided that the report specifically discloses the lack of independence without giving reasons for the impairment.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

75. Membership in Client Credit Union

.150 Question—Does membership in a client credit union impair independence?

.151 Answer—A *covered* member's association with a client credit union would not impair independence provided all of the following criteria are met:

1. The covered member individually qualifies to join the credit union (other than by virtue of the professional services provided to the client).
2. Any loans from the credit union to the covered member meet the conditions specified in interpretation 101-1.A.4 [ET section 101.02] and are made under normal lending procedures, terms, and requirements (see interpretation 101-5 [ET section 101.07]).
3. Any deposits with the credit union meet the conditions specified in ruling No. 70 [ET section 191.140–.141] under rule 101 [ET section 101.01].

Partners and professional employees may be subject to additional restrictions as described in interpretation 101-1.B [ET section 101.02].

[Effective February 28, 1992, earlier application is encouraged. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[78.] Service on Governmental Board

[.156–.157] [Deleted August 1995]

79. Member's Investment in a Partnership That Invests in Client

.158 Question—Would independence be considered to be impaired if a member had a direct financial interest in a partnership that invests in a client?

.159 Answer—If a *covered* member is a general partner, or functions in a capacity similar to that of a general partner, in a partnership that invests in a client, the covered member is deemed to have a direct financial interest in the client. Independence is considered to be impaired.

If a *covered* member is a limited partner in a partnership that invests in a client, the covered member is considered to have an indirect financial interest in the client. Independence would be considered to be impaired if the indirect financial interest is material to the covered member's net worth.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[80.] The Meaning of a Joint Closely Held Business Investment

[.160–.161] [Deleted November 2001]

81. Member's Investment in a Limited Partnership

.162 Question—A member is a limited partner in a limited partnership (LP), including a master limited partnership. A client is a general partner in the same LP. Is independence considered to be impaired with respect to (1) the LP, (2) the client, and (3) any subsidiaries of the LP?

.163 Answer—**1.** A *covered* member's limited partnership interest in the LP is a direct financial interest in the LP that would impair independence under interpretation 101-1.A.1 [ET section 101.02].

2. The LP is an investee of the client because the client is a general partner in the LP. Therefore, under interpretation 101-8 [ET section 101.10], if the investment in the LP were material to the client, a *covered* member's financial interest in the LP would impair independence. However, if the client's financial interest in the LP were not material to the client, a *covered* member's immaterial financial interest in the LP would not impair independence.

3. If the *covered* member is a limited partner in the LP, the covered member is considered to have an indirect financial interest in all subsidiaries of the LP. If the indirect financial interest in the subsidiaries were material to the covered member, independence would be considered to be impaired with respect to those subsidiaries under interpretation 101-1.A.1 [ET section 101.02].

If the covered member or client general partner, individually or together can control the LP, the LP would be considered a joint closely held investment under ET section 92.16.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

82. Campaign Treasurer

.164 Question—A member serves as the campaign treasurer of a mayoral candidate. Would independence be considered to be impaired with respect to (1) the political party with which the candidate is associated, (2) the municipality of which the candidate may become mayor, or (3) the campaign organization?

.165 Answer—Independence would not be considered to be impaired with respect to the political party or municipality. However, if *any* partner or professional employee of the firm served as campaign treasurer, independence would be considered to be impaired with respect to the campaign organization.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[83.] Member on Board of Component Unit and Auditor of Oversight Entity

[.166–.167] [Deleted January 1996]

[84.] Member on Board of Material Component Unit and Auditor of Another Material Component Unit

[.168–.169] [Deleted January 1996]

85. Bank Director

.170 Question—May a member in public practice serve as a director of a bank?

.171 Answer—Yes; however, before accepting a bank directorship, the member should carefully consider the implications of such service if the member has clients that are customers of the bank.

These implications fall into two categories:

- a. **Confidential Client Information**—Rule 301 [ET section 301.01] provides that a member in public practice shall not disclose any confidential client information without the specific consent of the client. This ethical requirement applies even though failure to disclose information may constitute a breach of the member's fiduciary responsibility as a director.
- b. **Conflicts of Interest**—Interpretation 102-2 [ET section 102.03] provides that a conflict of interest may occur if a member performs a professional service (including service as a director) and the member or his or her firm has a relationship with another entity that could, in the member's professional judgment, be viewed by appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity and the relationship is disclosed to and consent is obtained from all appropriate parties, performance of the service shall not be prohibited.

In view of the above factors, it is generally not desirable for a member in public practice to accept a position as bank director where the member's clients are likely to engage in significant transactions with the bank. If a member is engaged in public practice, the member should avoid the high probability of a conflict of interest and the appearance that the member's fiduciary obligations and responsibilities to the bank may conflict with or interfere with the member's ability to serve the client's interest objectively and in complete confidence.

The general knowledge and experience of CPAs in public practice may be very helpful to a bank in formulating policy matters and making business decisions; however, in most instances, it would be more appropriate for the member as part of the member's public practice to serve as a consultant to the bank's board. Under such an arrangement, the member could limit activities to those which did not involve conflicts of interest or confidentiality problems.

[89.] Loan to Partnership in Which Members are General Partners

[.178–.179] [Deleted February 1998]

[90.] Credit Card Balances and Cash Advances

[.180–.181] [Deleted February 1998]

91. Member Leasing Property to or From a Client

.182 Question—Would independence be considered to be impaired if a member leased property to or from a client?

.183 Answer—Independence would not be considered to be impaired if the lease meets the criteria of an operating lease (as described in Generally Accepted Accounting Principles), the terms and conditions set forth in the lease agreement are comparable with other leases of a similar nature, and all amounts are paid in accordance with the terms of the lease.

Independence would be considered to be impaired if a *covered* member had a lease that meets the criteria of a capital lease (as described in Generally Accepted Accounting Principles) unless the lease is in compliance with interpretations 101-1.A.4 [ET section 101.02] and 101-5 [ET section 101.07], because the lease would be considered to be a loan to or from the client.

[Revised, effective May 31, 1998, by the Professional Ethics Executive Committee. Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

92. Joint Interest in Vacation Home

.184 Question—A member has a joint interest in a vacation home with a client (or one of the client's officers or directors, or any owner who has the ability to exercise significant influence over the client). Would the vacation home constitute a "joint closely held investment" as defined in ET section 92.16?

.185 Answer—Yes. The vacation home, even if solely intended for the personal use of the owners, would be considered a joint closely held investment as defined in ET section 92.16 if it meets the criteria described in the aforementioned definition.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

93. Service on Board of Directors of Federated Fund-Raising Organization

.186 Question—A member serves as a director or officer of a local United Way or similar organization that operates as a federated fund-raising organization from which local charities receive funds. Some of those charities are clients of the member's firm. Does the member have a conflict of interest under rule 102 [ET section 102.01]?

.187 Answer—Interpretation 102-2 [ET section 102.03] provides that a conflict of interest may occur if a member performs a professional service for a client and the member or his or her firm has a relationship with another entity that could, in the member's professional judgment, be viewed by the client or other appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity and the relationship is disclosed to and consent is obtained from the appropriate parties, performance of the service shall not be prohibited. (If the service being provided is an attest engagement, consult ethics ruling No. 14 [ET section 191.027-.028] under rule 101 [ET section 101.01]).

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

94. Indemnification Clause in Engagement Letters

.188 Question—A member or his or her firm proposes to include in engagement letters a clause that provides that the client would release, indemnify, defend, and hold the member (and his or her partners, heirs, executors, personal representatives, successors, and assigns) harmless from any liability and costs resulting from knowing misrepresentations by management. Would inclusion of such an indemnification clause in engagement letters impair independence?

.189 Answer—No.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

95. Agreement With Attest Client to Use ADR Techniques

.190 Question—Alternative dispute resolution (ADR) techniques are used to resolve disputes (in lieu of litigation) relating to past services, but are not used as a substitute for the exercise of professional judgment for current services. Would a predispute agreement to use ADR techniques between a member or his or her firm and a client cause independence to be impaired?

.191 Answer—No. Such an agreement would not cause independence to be impaired since the member (or the firm) and the client would not be in threatened or actual positions of material adverse interests by reason of threatened or actual litigation.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

96. Commencement of ADR Proceeding

.192 Question—Would the commencement of an alternative dispute resolution (ADR) proceeding impair independence?

.193 Answer—Except as stated in the next sentence, independence would not be considered to be impaired because many of the ADR techniques designed to facilitate negotiation and the actual conduct of those negotiations do not place the member or his or her firm and the client in threatened or actual positions of material adverse interests. Nevertheless, if a *covered* member and the client are in a position of material adverse interests because the ADR proceedings are sufficiently similar to litigation, ethics interpretation 101-6 [ET section 101.08] should be applied. Such a position would exist if binding arbitration were used.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

[97.] Performance of Certain Extended Audit Services

[.194–.195] [Deleted August 1996]

98. Member's Loan From a Nonclient Subsidiary or Parent of an Attest Client

.196 Question—A member has obtained a loan from a nonclient. The member's firm performs an attest engagement for the parent or a subsidiary of the nonclient. Does the loan from the nonclient subsidiary or parent impair independence?

.197 Answer—A *covered* member's loan that is not a "grandfathered" or "permitted" loan under interpretation 101-5 [ET section 101.07] from a nonclient subsidiary would impair independence with respect to the client parent. However, a loan from a nonclient parent would not impair independence with respect to the client subsidiary as long as the subsidiary is not material to its parent.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

99. Member Providing Services for Company Executives

.198 Question—A member has been approached by a company, for which he or she may or may not perform other professional services, to provide personal financial planning or tax services for its executives. The executives are aware of the company's relationship with the member, if any, and have also consented to the arrangement. The performance of the services could result in the member recommending to the executives actions that may be adverse to the company. What rules of conduct should the member consider before accepting and during the performance of the engagement?

.199 Answer—Before accepting and during the performance of the engagement, the member should consider the applicability of Rule 102, *Integrity and Objectivity* [ET section 102.01]. If the member believes that he or she can perform the personal financial planning or tax services with objectivity, the member would not be prohibited from accepting the engagement. The member should also consider informing the company and the executives of possible results of the engagement. During the performance of the services, the member should consider his or her professional responsibility to the clients (that is, the company and the executives) under Rule 301, *Confidential Client Information* [ET section 301.01].

100. Actions Permitted When Independence Is Impaired

.200 Question—If a member or a member's firm (member) was independent when its report was initially issued, may the member re-sign the report or consent to its use at a later date when his or her independence is considered to be impaired?

.201 Answer—Yes. A member may re-sign the report or consent to its use at a later date when his or her independence is considered to be impaired, provided that no "post-audit work" is performed by the member during the period of impairment. The term "post-audit work," in this context, does not include inquiries of successor auditors, reading of subsequent financial statements, or such procedures as may be necessary to assess the effect of subsequently discovered facts on the financial statements covered by the member's previously issued report.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

101. Client Advocacy and Expert Witness Services

.202 Question—Would the performance of expert witness services be considered as acting as an advocate for a client as discussed in interpretation 102-6 [ET section 102.07]?

.203 Answer—No. A member serving as an expert witness does not serve as an advocate but as someone with specialized knowledge, training, and experience in a particular area who should arrive at and present positions objectively.

102. Indemnification of a Client

.204 Question—As a condition to retaining a member or his or her firm to perform an attest engagement, a client or prospective client requests that the member (or the firm) enter into an agreement providing, among other things, that the member (or the firm) indemnify the client for damages, losses, or costs arising from lawsuits, claims, or settlements that relate, directly or indirectly, to client acts. Would entering into such an agreement impair independence?

.205 Answer—Yes. Such an agreement would impair independence under interpretation 101-1.A [ET section 101.02] and interpretation 101-1.C [ET section 101.02].

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

103. Attest Report on Internal Controls

.206 Question—If a member or his or her firm provides extended audit services for a client in compliance with interpretation 101-13 [ET section 101.15], would the firm be considered to be independent in the performance of an attestation engagement to report on the client's assertion regarding the effectiveness of its internal control over financial reporting?

.207 Answer—Independence would not be considered to be impaired with respect to the issuance of such a report if both of the following conditions are met:

1. Management has assumed responsibility to establish and maintain internal control.
2. Management does not rely on the firm's work as the primary basis for its assertion and accordingly has (a) evaluated the results of its ongoing monitoring procedures built into the normal recurring activities of the entity (including regular management and supervisory activities) and (b) evaluated the findings and results of the firm's work and other separate evaluations of controls, if any.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

104. Operational Auditing Services

.208 Question—As part of an extended audit engagement, a member or his or her firm reviews certain of the client's business processes, as selected by the client, for how well they function, their efficiency, or their effectiveness. For example, a member (or the firm) may assess whether performance is in compliance with management's policies and procedures, to identify opportunities for improvement, and to develop recommendations for improvement or further action for management consideration and decision making. Would independence be considered to be impaired in performing such services?

.209 Answer—Independence would not be considered to be impaired provided that during the course of the review the member (and other members of his or her firm) is not employed by the client and does not act or appear to act in any capacity equivalent to that of a member of client management. The decision as to whether any of the member's (or the firm's) recommendations will be implemented must rest entirely with management.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

105. Frequency of Performance of Extended Audit Procedures

.210 Question—In providing extended audit services, would the frequency with which a member or his or her firm performs an audit procedure impair independence?

.211 Answer—Independence would not be considered to be impaired provided that the member's (or the firm's) activities have been limited in a manner consistent with interpretation 101-13 [ET section 101.15] and the procedures performed constituted separate evaluations of the effectiveness of the ongoing control and monitoring activities/procedures that are built into the client's normal recurring activities.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

106. Member Has Significant Influence Over an Entity That Has Significant Influence Over a Client

.212 Question—Would independence be considered to be impaired if a member or his or her firm had significant influence, as defined in ET section 92.27, over an entity that has significant influence over a client?

.213 Answer—Independence would be considered to be impaired if *any* partner or professional of the firm had significant influence over an entity that has significant influence over a client. By having such influence over the non-client entity, the partner or professional employee would also be considered to have significant influence over the client.

See interpretation 101-8 [ET section 101.10] for further guidance.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

107. Participation in Health and Welfare Plan Sponsored by Client

.214 Question—A member participates in or receives benefits from a health and welfare plan (the "plan") sponsored by a client. Would independence be considered to be impaired with respect to the client sponsor or the plan?

.215 Answer—A *covered* member's participation in a plan sponsored by a client would impair independence with respect to the client sponsor and the plan. However, if the covered member's participation in the plan, or benefits received thereunder, arises as a result of the permitted employment of the covered member's immediate family in accordance with interpretation 101-1 [ET section 101.02], independence would not be considered to be impaired provided that the plan is normally offered to all employees in equivalent employment positions.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1. Revised, November 2002, by the Professional Ethics Executive Committee.]

[108.] Participation of Member, Spouse or Dependent in Retirement, Savings, or Similar Plan Sponsored by, or That Invests in, Client

[.216–.217] [Deleted November 2001]

109. Member's Investment in Financial Services Products That Invest in Clients

.218 Question—Amounts contributed by a member or a member's firm (member) for investment purposes, including retirement plans, are invested or managed by a nonclient financial services company that offers financial services products, for example, insurance contracts and other investment arrangements, which allow the member to direct his or her investment into debt or equity securities. Under what circumstances would independence be considered to be impaired?

.219 Answer— If a *covered* member is able to direct and does direct his or her investment through a financial services product into a client, independence would be considered to be impaired because such investment is considered to be a direct financial interest in the client. If the covered member does not exercise his or her ability to direct the investment but the financial services product were to invest in a client, such investment would be a direct financial interest in the client and independence would be considered to be impaired.

If the covered member is not able to direct the investment and the financial services product invests in a client, the covered member is considered to have

an indirect financial interest in the client. Independence would be considered to be impaired if the indirect financial interest becomes material to the covered member. (See ethics ruling No. 35 under rule 101 [ET section 191.069–.070] for additional guidance with respect to investments in mutual funds.)

Further, an investment in a financial services product that invests only in clients with respect to which an individual is considered to be a covered member would be considered to be a direct financial interest in such client, and independence would be considered to be impaired.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

110. Member is Connected With an Entity That Has a Loan to or From a Client

.220 Question—A member is associated with an entity as an officer, director, or a shareholder who is able to exercise significant influence over an entity. That entity has a loan to or from a client of the member's firm. Would independence be considered to be impaired with respect to the client?

.221 Answer—If a *covered* member has control over the entity (as defined in Generally Accepted Accounting Principles) the existence of a loan to or from the client would impair independence unless the loan from the client is specifically permitted under interpretation 101-5 [ET section 101.07].

If *any* partner or professional employee of the firm is connected with the entity as an officer, director, or shareholder who is able to exercise significant influence over the entity, but is unable to control the entity, he or she should consider interpretation 102-2 [ET section 102.03]. Interpretation 102-2 provides that a conflict of interest may occur if a member performs a professional service for a client and the member or his or her firm has a relationship with another entity that could, in the member's professional judgment, be viewed by the client or other appropriate parties as impairing the member's objectivity. If the member believes that the professional service can be performed with objectivity, and the relationship is disclosed to and consent is obtained from such client and other appropriate parties, the rule shall not operate to prohibit the performance of the professional service.

When making the decision as to whether to perform a professional service and in making disclosure to the appropriate parties, the member should consider Rule 301, *Confidential Client Information* [ET section 301.01].

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

111. Employee Benefit Plan Sponsored by Client

.222 Question—A member or his or her firm provides asset management or investment services that may include having custody of assets, performing management functions, or making management decisions for an employee benefit plan (the plan) sponsored by a client. Would independence be considered to be impaired with respect to the plan and the client sponsor?

.223 Answer—The performance of investment management or custodial services for a plan would be considered to impair independence with respect to the plan. Independence would also be considered to be impaired with respect to the client sponsor of a defined benefit plan if the assets under management or in the custody of the member are material to the plan or the client sponsor.

Independence would not be considered to be impaired with respect to the client sponsor of a defined contribution plan provided the member does not make any management decisions or perform management functions on behalf of the client sponsor or have custody of the sponsor's assets.

[Revised, July 2002, to reflect conforming changes necessary due to the revision of interpretation 101-1.]

Independence Standards Board Standard No. 1

Independence Discussions with Audit Committees

Standard

1. This standard applies to any auditor intending to be considered an independent accountant with respect to a specific entity within the meaning of the Securities Acts ("the Acts") administered by the Securities and Exchange Commission. At least annually, such an auditor shall:

- a. disclose to the audit committee of the company (or the board of directors if there is no audit committee), in writing, all relationships between the auditor and its related entities and the company and its related entities that in the auditor's professional judgment may reasonably be thought to bear on independence;
- b. confirm in the letter that, in its professional judgment, it is independent of the company within the meaning of the Acts; and
- c. discuss the auditor's independence with the audit committee.

Effective Date

2. The above communications are required with respect to audits of companies with fiscal years ending after July 15, 1999, with earlier application encouraged. Auditors and audit committees of first-time registrants shall have these communications prior to the company's initial offering of securities to the public. These communications shall cover all audits of financial statements for periods subsequent to the effective date of this standard, included in a registration statement for an initial public offering of securities, whether performed by the current or a predecessor auditor.

Official Comment

3. In adopting this standard, the Board does not intend that an isolated and inadvertent violation of the standard's requirements would constitute a per se impairment of the auditor's independence, provided that the auditor is in compliance with all other independence rules. The Board believes, however, that in such circumstances the auditor must remedy violations of the standard's requirements promptly upon discovery.

Background and Basis for Conclusions

4. In May 1998 the ISB issued an Invitation to Comment (ITC 98-1) regarding a proposed recommendation to the Executive Committee of the SEC Practice Section (SECPS) of the American Institute of Certified Public Accountants. The proposed recommendation would have required audit firms that are members of SECPS to confirm annually to the audit committee (or board of directors) of each public company audit client, each year, that the firm was in-

dependent of the client. In the confirmation the auditor would also offer to meet with the audit committee to discuss independence matters.

5. The Board received twenty-six letters in response to the ITC. Most of the letters were supportive, but some urged the Board to go further and require communication to the audit committee of the important matters considered in each particular situation in reaching a conclusion that independence was maintained.

6. After deliberation, the Board concluded that it agreed with those who suggested that the proposal be expanded, and it also decided that it would itself address the matter as a proposed standard, rather than ask the Executive Committee of SECPS to do so. Consequently, the proposal was converted from an Invitation to Comment to an Exposure Draft of a Board pronouncement. In addition, the Board decided that the discussion about independence between the auditor and the audit committee should be required, rather than encouraged by the auditor's written communication.

7. The revised proposal was re-exposed as an Exposure Draft of an ISB standard. Comment was specifically solicited from those that had responded to the initial invitation to comment, and from several groups representing investors. Twenty-two comment letters were received, and most supported the proposal. The Board believes that the proposed pronouncement will improve corporate governance by affording to audit committees a mandated opportunity to deepen their understanding of auditor independence issues. Companies are required by the Acts to engage "independent" accountants, and this proposal will assist directors in satisfying themselves that the company has met that requirement. The Board also believes that a mandate that audit firms describe and discuss the judgmental matters that might impact on independence will bring more focus within firms on this important issue.

8. Some suggested that the Board provide guidance on how an auditor could "cure" a failure to comply with the standard. The Board did not believe it was appropriate to comply with that request, but it did add the "Official Comment" to clarify its intent in the event of an isolated and inadvertent violation.

9. Some respondents objected to the provision in the exposure draft that would seem to have imposed a requirement on audit committees to discuss independence with the auditor, on the basis that the Board did not have such authority. Without concluding on that question, the Board decided that it would revise the provision to impose the discussion requirement solely on the auditor. The Board recognizes, however, that the auditor could withhold his or her audit report until such discussion took place with the audit committee so that the auditor was in compliance with this professional requirement.

10. The Board considered whether to require that the discussion between the audit committee and the auditor take place before any substantive audit procedures had begun. There are clear benefits to the audit committee to obtaining satisfaction about independence before the audit is started. The Board recognizes, however, that many audit committees have established meeting schedules which would not accommodate such a discussion before the audit begins, and it concluded that imposing such a requirement was not essential to achieving the objectives of this pronouncement.

11. The Board recognizes that every additional requirement imposes costs, but the Board believes that the costs to implement this pronouncement would be small when compared with the benefits.

12. This standard was adopted unanimously by the members of the Board.

Independence Standards Board Standard No. 2

Certain Independence Implications of Audits of Mutual Funds and Related Entities

December 1999

As Amended—July 2000

SUMMARY

This Independence Standard, as described in more detail herein:

- A. Requires the audit firm, certain of its retirement plans, the audit engagement team and those in a position to influence the audit, when the firm is auditing mutual funds, to be independent of all sister funds and all related non-fund entities. In addition, when auditing a related non-fund entity, independence would be required by the same entities and individuals of all funds in the mutual fund complex.
- B. Permits:
 - i. Direct investment in non-audit client sister funds by all other partners and employees of the firm.
 - ii. Spouses and dependents of partners, other than of the audit engagement team and in a position to influence the audit, to invest through an employee benefit plan in mutual funds that are audit clients.
- C. Is effective with respect to audits of financial statements for periods beginning 60 days after existing rules of the SEC are modified to remove conflicts with the Standard. The SEC has proposed rulemaking with regard to its independence rules, including consideration of the provisions of this Standard. Notification of relevant changes by the SEC will be posted to the ISB's website at www.cpaindependence.org when confirmation is received by the Board.

(Please note that terms appearing for the first time in **bold** type are defined in paragraph 6.)

STANDARD

Applicability

1. This Standard applies to the determination of auditor independence with respect to audits of **mutual funds** and related entities which are subject to the independence requirements of the SEC.

Standard

2. The auditing firm will not be considered independent of all of the entities within the **mutual fund complex** if the partners in the firm, either individually or collectively, have significant influence over any entity in that complex.

3. In other situations:

- a. The auditing firm itself, and its retirement plans (*other than self-directed defined contribution employee benefit plans, such as 401(k) plans*), and
- b. The audit engagement team and **those in a position to influence the audit**, when the firm is auditing:
 - i. A *fund*, must be independent of all **sister funds**.
 - ii. A *related non-fund entity*, must be independent of all *related non-client funds*—that is, all funds in the complex.¹
 - iii. One or more *funds*, must be independent of all *related non-fund entities* in the mutual fund complex.²

4. A spouse, cohabitant or dependent of a partner not on the audit engagement team, and not in a position to influence the audit, is permitted to invest through an employer-sponsored benefit plan in mutual funds that are audit clients of the firm.

Effective Date

5. The above requirements are effective with respect to audits of financial statements for periods beginning 60 days after existing rules of the SEC are modified to remove conflicts with the Standard. The SEC has proposed rule-making with regard to its independence rules, including consideration of the provisions of this Standard. Notification of relevant changes by the SEC will be posted to the ISB's website at www.cpaindependence.org when confirmation is received by the Board.

Definitions

6. Terms and phrases noted in **bold** in the Standard are defined below:

- a. **Investment adviser.** Manages the mutual fund's portfolio according to the objectives and policies described in the fund's prospectus, executes its portfolio transactions, and typically serves as distributor of its shares to investors. When a "**sub-adviser**" substantively acts in the overall management role of an investment adviser with respect to a fund, it is to be considered the same as an investment adviser. (A **sub-adviser** is an entity generally identified, subcontracted and overseen by the investment adviser for a portfolio management role.)

¹ If the related non-fund entity is an **investment adviser**, this would include all funds it advises, even if they are outside this mutual fund complex.

² If the fund's investment adviser is outside the mutual fund complex, the independence requirement still applies. That independence restriction further extends to any parent company to which the investment advisory fees from the client funds are material, and to all other subsidiaries of those covered parent companies.

- b. **Mutual funds.** Investment companies subject to the Investment Company Act of 1940. These include, for example, open-end and closed-end funds, and unit investment trusts.
- c. **Mutual fund complex.** The mutual fund operation in its entirety, including all the funds, plus the sponsor, its ultimate parent company, and their subsidiaries.
- d. **Non-fund entity.** For example, the investment adviser, a broker-dealer, a bank, or an insurance company in the mutual fund complex.
- e. **Sister funds.** Mutual funds in a complex with a common investment adviser.
- f. **Those in a position to influence the audit.** Those in a position to influence the audit are those who supervise or have direct management responsibility for, (including at all successively senior levels, up through the firm's chief executive), or provide technical consultation, quality control or other oversight of, the partners and staff members involved in the audit. (In determining whether an individual meets one of these criteria, firms must be sensitive to their immediate practice environment. For example, in a small office, practice unit or firm, all partners might be considered as in a position to influence the audit, even if in an informal manner.)

BACKGROUND

7. At its March 12, 1999 meeting, the Board agreed that certain mutual fund issues should be added to its project agenda, and that the project should be expedited by moving directly to an Exposure Draft (ED). The project had been recommended in a letter from the Chief Accountant of the SEC and also requested through practice experience. A Board oversight task force was appointed to provide guidance for the project, and a broad-based project task force reviewed the documents for completeness and clarity.

8. In September 1999 the ISB issued ED 99-1, *Certain Independence Implications of Audits of Mutual Funds and Related Entities*. The ED proposed rules similar to those in this final Standard, except that it also would have required independence of partners (and, in certain cases, those defined as "managerial employees") in an office participating in a significant portion of the audit engagement.

9. The Board received twelve letters in response to the ED, all of which were generally supportive, and many had specific suggestions for changes. After deliberation, the Board agreed with certain of those recommendations, as described in the "Basis for Conclusions."

10. In June 2000 the Board determined to modify the effective date of this Standard as described in paragraph 5. An exposure draft proposing this change was issued and seventeen comment letters were received, virtually all of which supported this amendment.

11. The Board's general rules (the published SEC rules adopted at the commencement of the Board) require an audit firm, and its "members" (as defined), to be independent of its audit clients. This general independence requirement is not changed by ISB Standard No. 2, except as to paragraph 4.

BASIS FOR CONCLUSIONS

Introduction

12. The Board's desire is to provide guidance in mutual fund auditor independence issues to help ensure, in a rapidly changing environment, the continued integrity of audited financial statements for the ultimate benefit of investors and other users of these statements.

13. It is believed the Standard will also significantly reduce a perceived lack of clarity in present guidance, and thereby reduce likely diversity in practice.

14. To accomplish its goal, the ISB weighed a variety of significant factors, some of which are described below, in reaching its determination of an appropriate Standard.

Attributes of the Mutual Fund Organizational Structure

15. The organizational structure of a mutual funds complex (See Appendices A and B) varies significantly from that of a typical corporation, and the Board believes these differences are relevant to the setting of auditor independence standards. Specifically, SEC Regulation S-X, Rule 2-01 (b) states that auditor independence is required as to the client and "...any of its parents, its subsidiaries, or other affiliates..." but the typical mutual fund/adviser relationship is not that of a subsidiary/parent. Among the principal differences are that:

- a. In an investment adviser/mutual fund relationship, there is no majority ownership or voting control, as is present in a parent of a subsidiary; and
- b. Unlike the case of a subsidiary, the investment income of a mutual fund, after the deduction of adviser management fees, distribution fees, and other fund expenses, is distributed to the fund shareholders as opposed to the related investment adviser.

On the other hand, while not having voting control of a fund, the investment adviser usually provides the fund's officers and performs substantially all services required in its operations, and thus plays an important, even controlling, role in its policies and operations.

Analysis of Common Service Providers

16. Mutual funds often use common service providers to centralize services and control costs, and the Board believes such common services are relevant to the related independence issues. In analyzing the key factors and threats relevant to the sister fund issue, the Board concluded that the use among funds of a common investment adviser was an important enough link to provide the basis for the independence restriction. In response to comments received on the ED, the circumstances under which "sub-advisers" also would be restricted were clarified to cover only those situations in which the sub-adviser substantively acts in the overall management role of an investment adviser, because it is in that role, rather than as a portfolio manager, that any potential threat to independence exists.

17. The Board also considered the providers of other common services, including fund boards of directors and accounting systems, but concluded they were less relevant than a common investment adviser and that the

independence restriction should be based solely on the presence of common investment advisers.

Difference between Defined Benefit and Defined Contribution Plan Investments

18. The Board distinguished between the firm-directed investments of firm defined benefit plans and the self-directed investment choices available in certain firm defined contribution plans (such as 401(k) plans), and concluded that the risks differed sufficiently to provide a lesser restriction for certain personnel in the defined contribution plans. That is, the direct beneficiary of investment performance in a defined benefit plan is the firm sponsor, since the level of further firm contributions will be affected by the investment performance. By contrast, the direct beneficiary of investment performance in a defined contribution plan is the employee. As a result, the Board concluded that the firm's defined benefit plans should not be able to invest in non-audit client sister funds, but that the firm could offer a sister fund investment alternative in its defined contribution plans to non-involved partners and staff without impairing its independence.

Partner Spousal Employee Benefit Plan Investments

19. The Board recognizes that permitting investments through employer-sponsored benefit plans by partners' spouses in mutual funds that are audit clients is not consistent with the present rules. However, the Board also believes this change to be warranted as a practical good in this changing social environment, because the risk that such investments will adversely affect audit quality appears trivial. A number of factors were considered in reaching this conclusion, including the following:

- a. Many more spouses are working today;
- b. Benefit plans (especially 401(k)s) have become much more common;
- c. Audits of mutual funds in those plans have become more concentrated within a few large firms due to consolidation of both financial institutions and auditors;
- d. A number of plans provide only one family of mutual fund investments. Under existing rules, if the funds are audit clients of a firm, the spouses and dependents of all partners in the firm would be prohibited from participating in the plans. As a result, the person would lose tax deferral benefits and employer matching contributions, and sometimes have to forfeit accumulated benefits; and
- e. It is highly unlikely that those who are exempted could influence the audit.

This decision will be reconsidered when the Board addresses the question of investment in audit clients comprehensively.

Firm Significant Influence Over an Entity in the Mutual Fund Complex

20. Paragraph 2 restricts a firm when its partners collectively have significant influence over an entity in the mutual fund complex. The intent in making such a determination is to address situations where partners are "acting together" in this investment. On the other hand, later knowledge that numerous

partners, not having knowledge of one another's common investments, could have had "significant influence" over the entity if they acted together would not indicate that "significant influence" had existed at the earlier date.

Those in a Position to Influence the Audit

21. Paragraph 3 restricts firm partners and employees who are on the audit engagement team and those in a position to influence the audit. (The phrase "those in a position to influence the audit" was substituted for "chain of command," in response to comments received on the ED because it is more descriptive of the individuals included.) The definition of the phrase "those in a position to influence the audit" in paragraph 6f describes two groups of individuals who may have such influence: those with direct management responsibility, and those who provide technical or related consultation. It is intended that the individuals with direct management responsibility for the audit and for related accounting, auditing and similar consultation services be subject to the restrictions of this Standard, whether or not they participate in any way in the audit. On the other hand, professionals in a consulting department, other than the person in charge, may be "recused" and therefore made not subject to the Standard's restrictions, if they in fact are not, and will not be, involved in any way in the audit.

Uninvolved Partners and Managerial Employees

22. Several respondents to the ED suggested that it was unnecessary to include all partners and managerial employees working in the office conducting the audit in the category of those in a position to influence the audit. After deliberation, the Board agreed that there was at most a remote threat to independence from such individuals, if they were otherwise uninvolved in the audit. Consequently, the final Standard does not restrict those persons from investing in sister mutual funds, or their immediate family members from investing in client mutual funds through an employer defined contribution plan. Existing independence rules, however, prohibit their direct investment in client funds.

Analysis of Other Bases for Evaluating Independence Restrictions

23. In addition to considering the commonality of service providers for sister funds as described above, the Board also considered other and broader alternative bases for evaluating auditor independence in the mutual fund environment. For example, various applications of materiality tests were considered, as was the application of independence restrictions on a case-by-case basis to counter specific threats. The Board concluded that its Standard better fulfills its needs, in part because it provides a simpler but effective approach to addressing the independence threats raised.

Risks/Threats and Safeguards Analysis

24. In view of the importance of a risks/threats analysis and the need for related safeguards, the Board considered extensively the potential for particular independence concerns. This included those threats possible if an auditor were to encounter a systemic problem during the course of auditing one fund that would adversely impact another non-client fund in the complex, shares of which are owned by other individuals in the auditor's firm. (A safeguard to

mitigate this potential threat is the fact that the non-client fund would be audited by a different firm.) The general concerns—the possible loss of objectivity in the audit and the need for independence in both fact and appearance—also were discussed. The Board's determination was that while some threats could be envisioned specific to mutual fund-related situations, any remaining threats to the auditor's independence, after considering existing controls and the application of this Standard, were insignificant.

Deferral of Effective Date

25. ISB Standard No. 2 is an integrated set of provisions which the Board believes is appropriately restrictive to protect the public interest and be responsive to the threats envisioned, while not imposing restrictions on those other individuals where the Board believed the risks to be minimal. The Standard developed under this new approach included provisions both more and less restrictive than current SEC rules, principally because of its "on the engagement" focus and spousal benefit plan exemption.

26. The Board initially decided, when ISB No. 2 was issued in December, 1999, that the more restrictive provisions of the document should go into effect on the then-scheduled effective date of June 15, 2000, regardless of whether or not the SEC had amended its more restrictive rules by that time. The "effective date" language in the original Standard read as follows:

The above requirements are effective with respect to audits of financial statements for periods beginning after June 15, 2000, with earlier application encouraged. However, in certain respects, current rules of the SEC and, as to spousal employee benefit plan interests, of the AICPA, are more restrictive than the provisions of this Standard. Compliance with those existing more restrictive rules continues to be necessary unless and until both the SEC and the AICPA revise those rules. Notification that these changes have been made will be posted to the ISB's website at www.cpaindependence.org when confirmation is received by the Board. Where provisions of this Standard are more restrictive, those provisions are to be complied with as of the above effective date.

27. Subsequently, questions were raised as to the appropriateness of a partially effective Independence Standard, on the basis that it would add unnecessarily to the existing complexity of regulations.

28. Based upon its consideration of various factors, the Board determined that a deferral of the original June 15, 2000 effective date of ISB Standard No. 2 until 60 days after existing rules of the SEC are modified to remove conflicts with the Standard is in the best interests of its constituents and therefore appropriate.

29. In reaching this decision, the Board acknowledges the statutory oversight responsibility of the SEC for the activities of the Board. In light of that, it concluded that it would not be desirable to impose a set of new independence restrictions while existing rules remain in effect until the SEC endorsed (or indicated it did not object to) such new rules by modifying its existing ones.

30. In May 2000 the AICPA's Professional Ethics Executive Committee adopted the following policy statement:

As to any pronouncement passed by the Independence Standards Board (ISB), the Professional Ethics Executive Committee (PEEC) will treat such a pronouncement as authoritative for any engagement requiring independence unless and until the PEEC announces that it will not view that pronouncement as authoritative. Accordingly, in situations where an AICPA standard is more

restrictive, in total or in part, than an ISB pronouncement, the PEEC will not consider a member's independence to be impaired as a result of their non-compliance with respect to a more restrictive AICPA standard until members are given notice of the PEEC's rejection of the ISB's less restrictive pronouncement.

Consequently, the language regarding the AICPA's rules has been deleted from the effective date paragraph.

Summary

31. Based upon:

- a. Its consideration of the unique organizational structure of mutual fund entities;
- b. The differences inherent in self-directed defined contribution employee benefit plans;
- c. The lack of apparent significant independence risk from mutual fund audits; and
- d. The very limited threats to auditor independence from participation in an employer-sponsored benefit plan by spouses and dependents of those neither on the audit engagement team nor in a position to influence the audit,

the Board believes its Standard is appropriately restrictive to protect the public interest and be responsive to those threats that were envisioned, while not imposing restrictions on those other individuals and plans where the Board believes the risks are minimal.

32. The Board recognizes that every additional requirement imposes costs, but the Board believes that the costs to implement this pronouncement will be small when compared with the benefits.

33. This Standard and its amendment were both adopted unanimously by the Board.

The Structure of a Typical Mutual Fund Complex

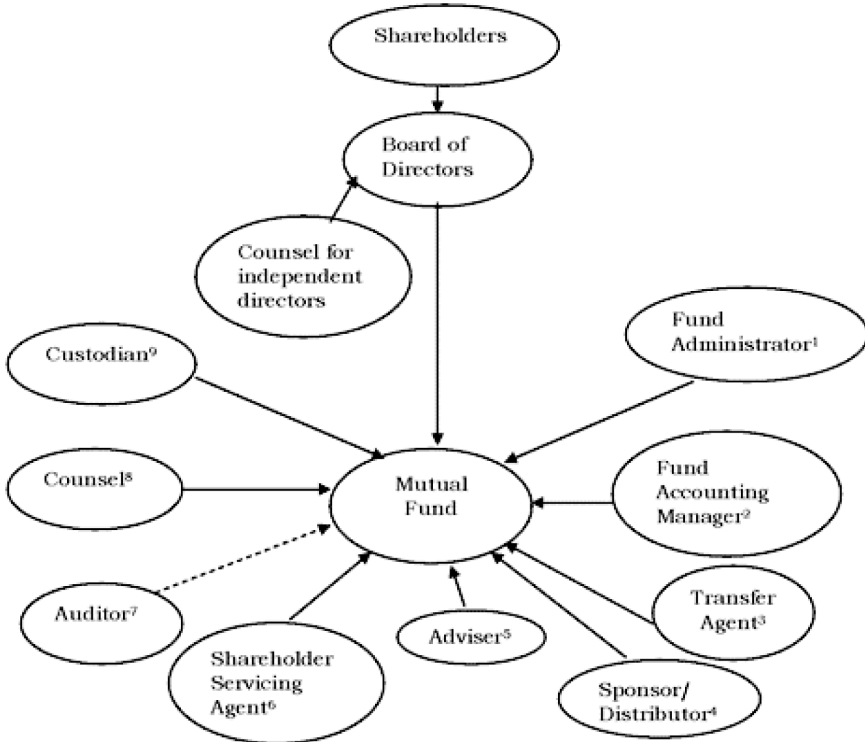

*May include any number of levels of subsidiaries, and may be public or private.

Appendix B

Organization Chart

The Structure of a Typical Mutual *Fund*

1. Makes presentations for the board, and prepares SEC, tax and shareholder reports.
2. Maintains *fund's* accounting records, computes net asset value (NAV) daily and forwards NAV to transfer agent, and prepares the fund's financial statements.
3. Maintains *shareholder* accounting records and issues share certificates.
4. Conceives the fund and markets it to investors.
5. Manages the fund and executes its portfolio transactions. Also provides portfolio management services and overall executive management of the fund, including (in consultation with the board) selection of other service providers.
6. Responds to shareholders' inquiries by accessing records maintained by Transfer Agent.
7. Audits the fund's financial statements.
8. Provides legal services.
9. Holds securities in safekeeping; receives and delivers securities as instructed. Except for the auditor, the only entity servicing the fund which (absent meeting certain incremental criteria) *must* be independent of the fund complex.

Independence Standards Board Standard No. 3

Employment with Audit Clients

Important Note: The Securities and Exchange Commission recently released a comprehensive revision to its auditor independence requirements (the Revision). The Revision contains provisions covering settlement of capital and retirement interests when former firm professionals join firm audit clients, which supercede the requirements described in paragraph 2biv of this standard. Consequently, at the next ISB meeting, the ISB staff will recommend that the Board delete paragraph 2biv of this standard. All other provisions of this standard remain in effect. The Revision can be found at the SEC's website at www.sec.gov.

July 2000

SUMMARY

This standard describes safeguards that firms should implement when their professionals join firm audit clients. These safeguards are designed to assist in ensuring that:

- professionals who are broadly evaluating their career options will exercise an appropriate level of skepticism while performing audits prior to their departure from the firm;
- a former firm professional now employed by the client cannot circumvent the audit because of familiarity with its design, approach, or testing strategy; and
- the remaining members of the audit team maintain objectivity when evaluating the work and representations of a former firm professional now employed by the audit client.

The procedures should be adapted depending on several factors, including whether the professional served as a member of the audit team, the positions he or she held at the firm and has accepted at the client, the length of time that has elapsed since the professional left the firm, and the circumstances of his or her departure.

The standard also specifies the circumstances under which capital and retirement balances owed to the departing professional should be liquidated or settled to preserve the firm's independence.

The standard's requirements are effective for employment with audit client situations arising after December 31, 2000.

STANDARD

Underlying Principle

1. An audit firm's independence is impaired with respect to an audit client that employs a former firm professional who could, by reason of his or her knowledge of and relationships with the audit firm, adversely influence the quality or effectiveness of the audit, unless the firm has taken steps that effectively eliminate such risk.

Safeguards

2. An established program of safeguards including the following procedures, when conscientiously administered, is deemed to constitute steps that effectively eliminate the risk of independence impairment:

- a. Pre-change in employment safeguards:
 - i. Firm professionals are required promptly to report to the firm conversations between themselves and an audit client respecting possible employment.
 - ii. Firm professionals engaged in negotiations respecting possible employment with an audit client are immediately removed from the audit engagement.
 - iii. Upon removal of a professional from the audit engagement as provided above, the firm reviews the professional's work to assess whether he or she exercised appropriate skepticism while working on the audit engagement.
- b. Post-change in employment safeguards:
 - i. If a professional accepts employment with the audit client, the on-going engagement team gives active consideration to the appropriateness or necessity of modifying the audit plan to adjust for risk of circumvention.
 - ii. When a former firm professional joins an audit client and will have significant interaction with the audit team, the firm takes appropriate steps to provide that the existing audit team members have the stature and objectivity to effectively deal with the former firm professional and his or her work.
 - iii. When a former firm professional joins an audit client within one year of disassociating from the firm and the professional has significant interaction with the audit team, the next following annual audit is separately reviewed by a firm professional uninvolved in the audit to determine whether the remaining engagement team maintained the appropriate skepticism when evaluating the representations and work of a former firm professional. The extent of this review should be tailored based on the position that the former professional has assumed at the audit client and other facts and circumstances that would heighten or mitigate threats to independence.
 - iv. The firm requires the prompt (1) liquidation of all capital balances of former firm partners who become employed by an audit

client; (2) settlement¹ of all retirement balances² of former firm professionals who become so employed that are not both immaterial to the firm and fixed as to amount and timing of payment; and (3) settlement of retirement balances of any firm professional, regardless of the financial immateriality of such balances to the firm, when, within five years of disassociating from the firm the identity of such former firm professional as an officer or employee of the audit client is required to be disclosed in the audit client's proxy statement or annual report filed with the Securities and Exchange Commission (SEC) pursuant to its regulations.

Effective Date

3. The above requirements are effective for employment with audit client situations arising after December 31, 2000.

BACKGROUND

4. The Board began to study the independence implications of audit firm professionals going to work for the firm's audit clients shortly after its formation. After determining that guidance was needed in these situations, the Board began the process of developing a standard concurrent with its work on a conceptual framework for auditor independence.

5. A Discussion Memorandum (DM 99-1, *Employment with Audit Clients*) covering the issues was prepared with the assistance of a Board oversight task force, and a broad-based project task force consisting of representatives from the investor, preparer, academic, and regulator communities, in addition to members of the auditing profession. The DM was released in March 1999 for a 90-day comment period. Comment from investors was specifically sought; the DM was mailed to several investor organizations and to 370 institutional investors in an effort to encourage responses from that constituency. Twenty-eight comment letters were received. After considering these letters, and with further assistance from the project and Board oversight task forces, the Board developed a proposed standard for public comment.

6. An Exposure Draft (ED) of the proposed standard was released at the end of December 1999 with a comment period that ended on February 29, 2000. Copies of the ED were mailed to a variety of individuals and groups, including those representing investors, to encourage and solicit responses. Fourteen comment letters were received. After considering these comments, and with

¹ In the United States, the payment of retirement benefits to the individual would immediately subject such benefits to income taxes. In some cases, this tax liability can be deferred by transferring the remaining retirement benefits to an Individual Retirement Account or similar vehicle, in which case the amounts become taxable only when paid to the individual. In other cases, the amount can be transferred to a "Rabbi Trust" which also serves to defer such income taxes. A Rabbi Trust is an irrevocable trust whose assets are not accessible to the firm until all benefit obligations have been met; however, such assets are subject to the claims of creditors in the event of the firm's bankruptcy or insolvency. To meet the requirements of this standard, such a trust can only be used if the amounts are fixed as to amount and timing of payment (i.e., the benefits do not fluctuate based on firm results, and the present value of benefits due to the departing professional can be calculated and placed in the trust), and the bankruptcy of the firm is considered remote.

² Retirement balances as used in this statement do not include a professional's benefits under the firm's defined contribution plan, such as a 401(k) plan, if the firm has no obligation to fund the individual's benefits after he or she disassociates from the firm.

further assistance from the project and Board oversight task forces, the Board approved the issuance of this standard.

THREATS TO INDEPENDENCE

7. The concerns expressed when professionals leave firms to join audit clients are generally threefold:

- a. That partners or other audit team members who resign to accept positions with audit clients may not have exercised an appropriate level of skepticism during the audit process prior to their departure.
- b. That the departing partner or other professional may be familiar enough with the audit approach and testing strategy so as to be able to circumvent them once he or she begins employment with the client.
- c. That remaining members of the audit team, who may have been friendly with, or respectful of a former partner or other professional when he or she was with the firm, would be reluctant to challenge the decisions of the former partner or professional and, as a result, might accept the client's proposed accounting without exercising appropriate skepticism or maintaining objectivity.

8. The perceived threats to auditor independence when the former partner or professional has retirement benefits or a capital account with the audit firm are as follows:

- a. It may appear that ties between the audit firm and the partner or other professional have not been severed—that the firm has placed its "own man" (or woman) at the client, functioning as management, and is in effect auditing the results of its own work.
- b. If the retirement benefits of the former partner or other professional vary based on the firm's profits, then the former partner or other professional may be inclined to pay the firm higher fees to inflate his or her retirement benefits (or to increase the likelihood of receiving benefits in unfunded plans). As a result, the firm may be less rigorous in its scrutiny of the client's accounting policies because its fees are overly rich.
- c. If the former partner's or other professional's unfunded retirement benefits or other monies held by the firm are material to the firm and the firm is experiencing cash flow problems, the firm may be less rigorous in its audit of the client's financial statements in exchange for forbearance on the amounts owed to the former partner or other professional.

BASIS FOR CONCLUSIONS

9. The Board's desire is to protect the quality and integrity of audited financial statements for the ultimate benefit of investors and other users of those statements. To accomplish this goal, the Board weighed a variety of factors, some of which are described below, in determining an appropriate approach to address the threats to auditor independence posed by situations where firm professionals join audit clients.

Effectiveness of Safeguards

10. The Board believes that the safeguards described in this standard will effectively protect auditor independence in situations where firm professionals go to work for their audit clients. A requirement to review an individual's work after he or she enters into employment negotiations with an audit client and, when appropriate, review the engagement team's work on the subsequent audit, is expected to have a deterrent effect. First, the expectation is that professionals who are broadly evaluating their career options will be more careful to ensure that the work they perform, including the decisions they make during the audit, will withstand scrutiny when they know it will be subject to a special review if they enter into employment negotiations with the audit client. Second, the skepticism of the remaining audit team members when evaluating the statements of a former colleague or leader may be higher; knowing that their work will be reviewed, individuals will most likely be more sensitive to appearing to have acquiesced to a client's aggressive or incorrect accounting, and will be more likely to refrain from doing so.

11. Open discussion of the client's employment of audit firm professionals with the audit committee or board of directors, as required in certain circumstances by ISB Standard No. 1, *Independence Discussions with Audit Committees*, can also serve as an effective safeguard. Airing, "in the sunshine," the potential threats to independence posed by these situations, and the safeguards employed by the firm to protect auditor independence, is likely to sensitize those involved (both the former firm professional now with the client and the remaining audit team) to these issues, and make independence impairments less likely. In addition, while auditors are responsible for upholding their own professional standards, including those related to independence, the audit committee can "set the tone at the top," and emphasize the proper separation between management and the auditor.

12. In developing the standard, the Board allowed for flexibility in adapting the safeguards to the facts and circumstances of the employment situation. The Board believes, for example, that the concerns one would have when a partner joins a client would exist, but to a lesser extent, when professionals with lower levels of responsibility join clients. These concerns would also vary depending on the nature and level of responsibilities assumed by the professional in his or her new role at the client. In addition, the issues may vary for active versus retired partners and other professionals, those leaving the firm voluntarily versus those terminated, and *engagement* professionals versus firm professionals having little or no direct prior professional relationship with the client. Therefore, the Board believes that an effective standard must establish principles that contemplate a variety of situations, especially as the structure of firms change, and more professionals are given new responsible, non-partner roles in firms.

13. The safeguards proposed in the ED contemplated a review of the former firm professional's work upon employment by the audit client. After further consideration, the Board determined that the trigger for this review should be instead the commencement of employment negotiations between the firm professional and the audit client. The Board believes that the concerns about the work of an audit team member contemplating employment with his or her audit client would exist regardless of whether the firm professional eventually accepted a position at the client. Audit team members in employment negotiations with an audit client should be returned to the engagement only if negotiations cease and employment is no longer sought.

14. When a former firm professional joins an audit client within one year of disassociating from the firm and the professional has significant interaction with the audit team, the standard requires an additional review of the next annual audit following the professional's acceptance of employment. This review is meant to determine whether the audit team had an appropriate level of skepticism when evaluating the work and representations of the former firm professional. Some asked whether such a review should always be performed prior to the firm's "sign-off" on the audit. The Board concluded that the primary benefit of the review is its deterrent effect. That is, members of the audit team, knowing that their work will be subject to an additional review, will be less likely to acquiesce to questionable client proposals. Further, mandating such a review prior to issuance of the audit report could result in deferring for a significant period of time release of the audited financial statements. Such a delay could impose a significant cost to users of financial statements and the Board did not consider the additional benefits, if any, of a pre-issuance review to justify such costs.

Peer Review

15. The ED proposed a requirement that firms have their compliance with the provisions of the standard evaluated in a peer review. The Board believes that peer review of firms' compliance with all auditing and quality control standards, including independence standards, is an important component of the profession's self-regulation. The Board ultimately concluded, however, that the scope or content of established peer review programs should be left to those that administer them, and that mandating participation in such a program should be left to other groups in the profession's regulatory system.

Settlement of Financial Interests

16. The Board considered the necessity of a "full-payout" requirement in situations where capital account and retirement obligations are immaterial to the firm, and fixed as to amount and timing of payment. The Board believes that a former partner of an audit firm who is employed by the firm's audit client should not remain an equity investee in the firm. Accordingly, the standard requires the firm to liquidate all capital accounts prior to the employment of the professional by the audit client, regardless of their materiality.

17. With respect to retirement obligations, the standard requires the firm to settle such obligations prior to employment by the client in all situations where a professional's benefits are not immaterial to the firm, and fixed as to amount and timing of payment. The Board concluded, however, that retirement obligations owed to a former professional that *are* both fixed and immaterial to the firm are not likely to impinge on the firm's independence. On the other hand, it recognized that unsettled amounts may present an "appearance" concern when a former firm professional joins an audit client in a visible position where his or her former employment at the client's audit firm is likely to be disclosed or known. Therefore, the standard mandates settlement of even immaterial retirement obligations when a former firm professional joins an audit client within five years of disassociating from the firm in a position where his or her name is required to be disclosed in the company's proxy statement or annual report to the SEC. However, because the character of retirement benefits is different from capital balances, the Board concluded that settlement of retirement obligations could be done through a "Rabbi Trust" or similar vehicle in certain circumstances.

18. In reaching its conclusions regarding retirement balances, the Board was concerned that a requirement to settle all obligations could create significant tax or other liabilities for the departing partner in either the United States or in a foreign country. In addition, such a requirement might jeopardize the tax status of certain qualified plans if all plan participants were not treated equally. Such a result could serve to either actively discourage the partner from accepting the employment position, require the client to engage a new audit firm, or drive firms to reduce benefits provided under its plans because of accelerated funding requirements. The Board did not believe such consequences were in the public interest except for benefits that were not both fixed and immaterial to the firm, and in the limited circumstances involving former partners identified in an SEC filing, as described in paragraph 2biv.

19. Some expressed concern that a former firm professional could join a large, multinational audit client several years after leaving the firm, perhaps at a foreign location. In these circumstances, it is possible that the firm would not be aware of the former professional's new position at the audit client, and may not have liquidated capital balances, or retirement benefits that are not both immaterial and fixed. The Board does not intend that an inadvertent and isolated failure to comply with these settlement provisions be deemed an impairment of independence. It does expect, however, that firms will impose conditions on former professionals who have remaining capital accounts or other than immaterial and fixed retirement benefits with the firm. One of those conditions should be to advise the firm when they are contemplating a change in employment, to allow the firm to determine if the new employer is a client subject to this standard. These arrangements should eliminate the need to implement elaborate and burdensome partner and employee tracking systems to comply with the provisions of the standard—a concern of some of the respondents to the ED. However, any inadvertent failures to comply should be corrected as soon as identified.

20. In reaching these conclusions, the Board considered making several distinctions, suggested by respondents to the DM, in determining when standards should require a full-payout of retirement benefits. These respondents suggested that a settlement requirement distinguish between defined contribution plan benefits and defined benefit plan benefits, fully funded benefits versus unfunded amounts, fixed benefits versus those that vary based on profits, and other criteria. The Board concluded that benefits which are other than immaterial to the firm, or that vary based on, for example, firm profitability, should always be settled, regardless of the amount of time that has elapsed since the professional's departure from the firm. In addition, the Board concluded that the settlement requirement should not extend to defined contribution plan benefits such as those in a 401(k) plan if the firm has no ongoing obligation to fund the individual's benefits.

The Board's Consideration of a Mandated Cooling-Off Period

21. In studying these issues, the Board considered and rejected a mandated "cooling-off period"—a rule deeming an impairment of the firm's independence when certain firm professionals join an audit client. The Board concluded the costs of such a rule would exceed its benefits.

22. A cooling-off approach would mean either deeming independence to be impaired if *any* firm professional accepted an employment offer from an audit client, or specifying which types of persons would be included in such a rule and which would not. The former course seemed unnecessary, and the latter very complex or arbitrary, since the types of individuals who might represent

threats would presumably depend upon their positions in the firm, their roles in the audit, and the positions they would be assuming at the audit client. Generalizing when that combination might constitute a threat to auditor independence and when it would not seemed to be a daunting task which should not be undertaken when an effective alternative is available.

23. The Board believes that with the appropriate safeguards in place, as called for by this standard, the threats to auditor independence are slight. In addition, the Board believes that the benefits to society and the profession of allowing firm professionals to accept employment with audit clients, without fear of jeopardizing their former firm's independence, outweigh the costs. In reaching this conclusion, the Board recognizes that a mandatory cooling-off period may promote the appearance of independence more completely, and might *eliminate* the risk that the audit team could be unduly influenced by a former colleague, but it believes the differences in actual threats to independence under the two approaches are insignificant.

24. The Board recognizes that the attraction of future employment opportunities draws talented and ambitious recruits to the profession. Turnover at public accounting firms can be quite high, and many recruits do not intend to stay long enough to be promoted to partner. Furthermore, they join public accounting firms because of the broad experience they expect to gain at the firm, and the contacts they expect to make in industry. In addition, turnover within the partner ranks has increased in the last few years. If the future employment prospects of recruits and experienced auditors now working for audit firms were limited by a mandated cooling-off period, the Board is concerned that the caliber of professional attracted to public accounting might decline.

25. The Board agreed with several corporate officials and others responding to the DM who argued that companies benefit from the ability to hire staff at all levels from their audit team. An auditor who has worked for several years on an engagement is often thoroughly familiar with the client's systems, and knows most of the client's key people and their responsibilities. Beyond familiarity with the hiring company, the auditor brings broad experience "to the table" from working at a variety of companies, and sometimes in a variety of industries. In addition, partners and professionals in public accounting firms are generally recognized as experts in accounting, financial reporting, and internal control matters—skills needed by companies with financial reporting responsibilities to investors.

26. A mandated cooling-off period might force a client to choose between, for example, its audit partner and its audit firm, knowing that if the partner was hired, the audit firm would have to be replaced. The Board recognizes that replacement of an audit firm carries costs to firms, clients, and investors. There is a learning curve on a first-year audit; auditors spend significantly more time and resources on them (developing audit programs, familiarizing themselves with the system of internal controls, etc.), and client personnel spend more time answering the auditors' questions and producing documentation previously provided to the prior auditors. And because the Board believes that audits are strengthened by institutional continuity, rotation of auditors and the increased risk that the first-year audit poses carries a cost to investors.

27. The Board acknowledges the counter-argument that a fresh look by a new audit team may carry some benefits that cannot be achieved with the same audit team and approach year after year. The consideration of a requirement that companies change audit firms periodically, however, is beyond the scope of this project.

28. The Board also concluded that a restriction on hiring former audit partners or other professionals may be a heavier burden to smaller corporations in need of the accounting expertise provided by someone familiar with their business and industry, and to smaller firms. Smaller corporations may be at a disadvantage in recruiting personnel when competing with larger companies with strong national or regional name recognition. Restricting these smaller companies from hiring directly from their audit firm (from among those who know the company well) may hurt them disproportionately.

29. Professionals from smaller accounting firms may face the same difficulties when competing in the job market with professionals from large, well-known firms. A rule that impairs the ability to go from an audit firm directly to a client, where management knows you and you have had a chance to demonstrate your abilities, may be more of a burden if you work for a smaller firm.

30. Finally, the Board concluded that a mandatory cooling-off period would be ineffective in preventing fraud or collusion between the auditor and client. If the firm professional and client management were intent on committing fraud, the professional might remain with the firm rather than risk turning the engagement over to another individual who may uncover the conspiracy. In addition, if management wanted to compensate a firm professional for his or her role in a fraud, a ban on hiring the professional for a certain period of time would not prevent the company from providing payments to the professional, after he or she resigns from the firm, via consulting contracts or other means.

Other Matters

31. The Board concluded that the threats to auditor independence described in this standard are in many respects different from those that arise when former firm professionals are elected as non-executive members of the Board of Directors. Existing rules cover these non-executive director situations and remain in effect.

32. This standard was adopted unanimously by the Board.

ISB Interpretation 99--1

Impact on Auditor Independence of Assisting Clients in the Implementation of FAS 133 (Derivatives)

The Independence Standards Board (ISB) is examining the broader issue of an auditor's association with valuations and fairness opinions. This interpretation, which is based on existing guidance, will not be considered precedent when the ISB addresses the broader issue and may be subject to change based on the ISB's conclusions reached after the public comment process.

Date Discussed: March 12, 1999

Date Issued: March 12, 1999

Issue

1. In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities" (FAS 133). FAS 133 requires that all derivatives be recorded on the balance sheet at fair value. Changes in fair value flow through the income statement, unless the instrument qualifies as a hedge, as defined. The statement is effective for fiscal years beginning after June 15, 1999, but companies can adopt the statement as of the beginning of any fiscal quarter that begins after June 1998.

2. For many companies, the complexity of the statement and of the underlying financial instruments will make the implementation process difficult. Company management may need help in understanding the statement's requirements; derivatives must be identified, inventoried, and measured at fair value; hedging relationships must be designated anew and documented as of the implementation date; and many companies will need system modifications in advance of implementation to develop and track the various required fair value measurements.

3. As a consequence of the complexity and implementation challenges inherent in adopting FAS 133, audit firms are likely to find themselves responding to many types of client requests for assistance. This interpretation provides guidance on the auditor independence implications of likely areas of requested assistance, solely with respect to the implementation of FAS 133.

Independence Concerns

4. As it considered these issues, the Board discussed the potential threats to auditor independence. Appraisals and valuation services potentially threaten the auditor's independence because of a "self-review" concern. Under the existing rules, the auditor cannot be placed in the position of "auditing his or her

own work" (or the work of someone else in his or her firm). In addition, acting in a capacity equivalent to that of management is viewed as a threat to auditor independence. The auditor may lose his or her objectivity if he or she makes decisions for or develops a mutuality of interest with the client by, for example, valuing the client's assets.

ISB Discussion and Interpretation

5. The Board considered two broad areas of likely assistance and how the existing independence rules would be applied. One category of services relates to the accounting application and the second involves valuation consulting services.

6. Management is responsible for the financial statements, and responsibility for the choices and judgments inherent in the preparation of those financial statements cannot be delegated to the auditor or to anyone else. Whatever the service being provided, the auditor must understand the level of management's expertise and must be satisfied that management has taken responsibility for the assumptions and judgments made during the course of the work, and for the results produced.

7. The Board has concluded that the auditor may provide consulting services on the proper application of FAS 133, including assisting a client in gaining a general understanding of the methods, models, assumptions, and inputs used in computing a derivative's value. To ensure, however, that the auditor's independence is not threatened, as discussed in paragraph 4, the auditor may not prepare accounting entries, compute derivative values or be responsible for key assumptions or inputs used by the client in computing derivative values.

8. The auditor's independence would be impaired if he or she created the initial journal entries that are used to implement or apply the standard, or if in providing the services described below, the auditor's level of assistance was tantamount to doing the work himself or herself.

9. Based on these general guidelines, the following is a list of illustrative services that the auditor may be asked to provide an audit client in implementing FAS 133, along with the Board's conclusions on which of these would impair the auditor's independence.

Accounting Application Assistance

10. Accountants are likely to work with clients in implementing the accounting requirements of FAS 133. Providing guidance to clients (which for this purpose encompasses discussing the requirements of FAS 133, providing advice, and expressing views as to how FAS 133 would be applied in the client's situation) would not impair independence. Performing services which would be subject to audit procedures such as compiling the inventory of derivatives, creating the initial journal entries to be recorded, initially determining whether specific derivatives meet the relevant criteria as hedges, or making management decisions concerning the implementation of FAS 133 would impair the auditor's independence.

11. The provision of the following services would not impair the auditor's independence:

- a. Discuss the requirements of FAS 133 and the related concepts, terminology and implementation issues.
- b. Provide sample journal entries used to apply FAS 133.

- c. Provide guidance in compiling an inventory of derivatives, as defined by the new rules.
- d. Provide guidance in determining whether specific derivatives meet the relevant criteria as hedges, or provide examples and discuss factors to be considered in formally documenting any hedging relationships and the entity's risk management objective and strategy for undertaking the hedge.
- e. Discuss factors to be considered in making judgments that may become critical in the accounting process, including the separation of the intrinsic value of instruments from their "time value." This separation of an instrument's fair value into its component parts might have accounting consequences within the financial statements (FAS 133 permits the exclusion of the inherently ineffective portion of a derivative's change in value, such as the time value of options, from the "hedge effectiveness" assessment).
- f. Provide guidance in determining the accounting for hedged items.
- g. Provide guidance or assist management in developing and adapting systems to account for derivative instruments and hedged items under the new standard.

Valuation Consulting Assistance

12. The provision of the following services would not impair the auditor's independence:

- a. Provide guidance or assist in developing the client's own valuation model. The client takes responsibility for the model, by testing, evaluating, approving, and running it.
- b. Provide guidance on the nature of relevant model inputs (volatility, yield curves, etc.) and related market sources of information. The client makes the final decision as to the inputs and market sources of information to be used.
- c. Validate client or third-party models used.
- d. Validate reasonableness of inputs to models (client assumptions).
- e. Provide a generic/standardized product (e.g., not unlike a Black-Scholes or binomial software model used for valuing options), which a client uses in valuing its derivative instruments. A generic or standardized product is one in which formulas are well-established and subject to only minor judgments or interpretations. It is reasonable to expect that the result produced by such a product will be similar to the result that would be produced by another vendor's product.

13. The provision of the following services would impair the auditor's independence:

- a. Compute derivative values using either auditor or client-provided assumptions and a firm-developed, or third party model approved by the client.
- b. Develop or be responsible for key assumptions or inputs for use by the client when it uses any valuation model or product.
- c. Provide a firm-developed, non-standardized model (e.g., black box equivalent) which a client uses to value its derivatives. The model's methodology or formulas are not standardized, or assumptions are built into the model such that values produced

may differ significantly from those produced by another vendor's models.

14. As mentioned above, the overarching principles underlying this interpretation are that the auditor cannot be placed in the position of "auditing his or her own work," or accepting responsibility for the choices and judgments inherent in the preparation of the financial statements such that the auditor is acting as a member of management.

ISB Interpretation 00-1

The Applicability of ISB Standard No. 1 When "Secondary Auditors" Are Involved in the Audit of a Registrant

Dates Discussed: November 19, 1999, and January 14, 2000

Date Issued: February 17, 2000

Issue

1. In January 1999, the ISB issued its Independence Standard No. 1, "Independence Discussions with Audit Committees." ISB No. 1 states its applicability in paragraph 1 as: "This standard applies to any auditor intending to be considered an independent accountant with respect to a specific entity within the meaning of the Securities Acts (the Acts) administered by the Securities and Exchange Commission."

2. The ISB has been requested to interpret how its Standard No. 1 applies when "secondary auditors" are involved in the audit of a registrant. (Secondary auditors are those, other than from the firm serving as primary auditor, that audit a subsidiary or investee of a SEC registrant.) In essence, the question seeks clarification as to how ISB No. 1 allocates responsibilities between primary and secondary auditors, including whether independence discussions should be required with subsidiary or investee audit committees.

3. It is clear that when a subsidiary or investee is itself a registrant, the secondary auditor must comply with ISB No. 1. ISB No. 1 does not, however, directly address the question of secondary auditors where the subsidiary or investee is not a public company.

ISB Interpretation

4. The responsibility to comply with ISB No. 1 rests solely with the primary auditor. The report by the primary auditor to the audit committee under ISB Standard No. 1 should, however, include all relationships that might reasonably bear on the independence of all auditors participating, at the request of the primary auditor, in the audit of the registrant's consolidated financial statements, including those of any secondary auditors.

ISB Interpretation 00--2

The Applicability of ISB Standard No. 1 When "Secondary Auditors" Are Involved in the Audit of a Registrant: An Amendment of Interpretation 00--1

Dates Discussed: May 2, 2000 and July 11, 2000

Date Issued: July 11, 2000

Issue

1. The Board has been asked to reconsider its Interpretation 00-1 and has determined to amend that interpretation as follows.

ISB Interpretation

2. The responsibility to comply with ISB No. 1 rests solely with the primary auditor. The report by the primary auditor to the audit committee should include all of its relationships and those of its domestic and foreign associated¹ firms that could reasonably bear on the independence of the primary auditor. If the primary auditor is relying on the work of secondary auditors not associated with the primary auditor's firm, the report of the primary auditor should either describe any such secondary auditors' relationships, or it should state that it does not do so.

¹ For this purpose, an associated firm is a firm that is a member of, correspondent with, or similarly associated with the primary auditor's firm or association of firms.

System of Quality Control for a CPA Firm's Accounting and Auditing Practice

(Supersedes sections 10 and 10-1)

Effective date: Applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997, unless otherwise indicated.

Statements on Quality Control Standards are issued by the Auditing Standards Board. Firms that are enrolled in an Institute-approved practice-monitoring program are obligated to adhere to quality control standards established by the Institute.

Introduction and Applicability

.01 This section provides that a CPA firm shall have a system of quality control for its accounting and auditing practice and describes elements of quality control and other matters essential to the effective design, implementation, and maintenance of the system.

.02 The AICPA Principles of Professional Conduct provide, among other things, that "members should practice in firms that have in place internal quality-control procedures to ensure that services are competently delivered and adequately supervised."¹ Because of the public interest in the services provided by and the reliance placed on the objectivity and integrity of CPAs, this section provides that a CPA firm shall have a system of quality control for its accounting and auditing practice.²

System of Quality Control

.03 A firm³ as a responsibility to ensure that its personnel⁴ comply with the professional standards applicable to its accounting and auditing practice. A system of quality control is broadly defined as a process to provide the firm with reasonable assurance that its personnel comply with applicable professional

¹ AICPA Code of Professional Conduct, "Article VI—Scope and Nature of Services".

² *Accounting and auditing practice* refers to all audit, attest, accounting and review, and other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under rule 201 or 202 of the AICPA Code of Professional Conduct. Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

³ A *firm* is defined in the AICPA Code of Professional Conduct as "a form of organization permitted by state law or regulation whose characteristics conform to resolutions of Council that is engaged in the practice of public accounting, including the individual owners thereof".

⁴ The term *personnel* refers to all individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

standards and the firm's standards of quality.⁵ The policies and procedures designed to implement the system in one segment of a firm's practice may be the same as, different from, or interrelated with the policies and procedures designed for another segment, but the purpose of the system is the same for all segments of a firm's practice.

.04 A firm's system of quality control encompasses the firm's organizational structure and the policies adopted and procedures established to provide the firm with reasonable assurance of complying with professional standards. The nature, extent, and formality of a firm's quality control policies and procedures should be appropriately comprehensive and suitably designed in relation to the firm's size, the number of its offices, the degree of authority allowed its personnel and its offices, the knowledge and experience of its personnel, the nature and complexity of the firm's practice, and appropriate cost-benefit considerations.

.05 Any system of quality control has inherent limitations that can reduce its effectiveness. Variance in an individual's performance and understanding of (a) professional requirements or (b) the firm's quality control policies and procedures affects the degree of compliance with a firm's prescribed quality control policies and procedures and, therefore, the effectiveness of the system.

.06 The system of quality control should provide the firm with reasonable assurance that the segments of the firm's engagements performed by its foreign offices or by its domestic or foreign affiliates or correspondents are performed in accordance with professional standards in the United States when such standards are applicable.

Quality Control Policies and Procedure

Elements of Quality Control

.07 The quality control policies and procedures applicable to a firm's accounting and auditing practice should encompass the following elements:

- a. *Independence, Integrity, and Objectivity*
- b. *Personnel Management*
- c. *Acceptance and Continuance of Clients and Engagements*
- d. *Engagement Performance*
- e. *Monitoring*

.08 The elements of quality control are interrelated. For example, the maintenance of *Integrity, Objectivity*, and, where required, *Independence* requires a continuing assessment of client relationships. Similarly, the element of *Personnel Management* encompasses criteria for professional development, hiring, advancement, and assignment of the firm's personnel to engagements, which affect policies and procedures developed to meet the objectives of the quality control element of *Engagement Performance*. Similarly, policies and procedures for the quality control element of *Monitoring* are established to provide the firm with reasonable assurance that the policies and procedures related to each of the other elements of quality control are suitably designed and are being effectively applied.

⁵ Deficiencies in individual audit, attest, review, and compilation engagements do not, in and of themselves, indicate that the firm's system of quality control is insufficient to provide it with reasonable assurance that its personnel comply with applicable professional standards. [Footnote added, effective September 2002, by Statement on Quality Control Standards No. 6.]

Independence, Integrity, and Objectivity

.09 Policies and procedures should be established to provide the firm with reasonable assurance that personnel maintain independence (in fact and in appearance) in all required circumstances,⁶ perform all professional responsibilities with integrity, and maintain objectivity in discharging professional responsibilities.

.10 *Independence, Integrity, and Objectivity* are defined and more fully described in the AICPA Code of Professional Conduct (the Code) and AU section 220, *Independence*. Rules 101 and 102 of the Code, and the related Interpretations and Rulings [ET sections 101, 102, and 191] contain examples of instances wherein a member's independence, integrity, and objectivity will be considered to be impaired. *Independence* encompasses an impartiality that recognizes an obligation for fairness not only to management and owners of a business but also to those who may otherwise use the firm's report. The firm and its personnel must be free from any obligation to or interest in the client, its management, or its owners.⁷ Integrity requires personnel to be honest and candid within the constraints of client confidentiality. Service and the public trust should not be subordinated to personal gain and advantage. *Objectivity* is a state of mind and a quality that lends value to a firm's services. The principle of objectivity imposes the obligation to be impartial, intellectually honest, and free of conflicts of interest.

Personnel Management

.11 A firm's quality control system depends heavily on the proficiency of its personnel. In making assignments, the nature and extent of supervision to be provided should be considered. Generally, the more able and experienced the personnel assigned to a particular engagement, the less direct supervision is needed.

.12 The quality of a firm's work ultimately depends on the integrity, objectivity, intelligence, competence, experience, and motivation of personnel who perform, supervise, and review the work. Thus, a firm's personnel management policies and procedures factor into maintaining such quality.

.13 *Personnel Management* encompasses hiring, assigning personnel to engagements, professional development, and advancement activities. Accordingly, policies and procedures should be established to provide the firm with reasonable assurance that—

- a. Those hired possess the appropriate characteristics to enable them to perform competently.
- b. Work is assigned to personnel having the degree of technical training and proficiency required in the circumstances.
- c. Personnel participate in general and industry-specific continuing professional education and other professional development activities that enable them to fulfill responsibilities assigned,

⁶ Independence requirements are set forth in Rule 101 of the AICPA Code of Professional Conduct [ET section 101] and the rules of applicable regulatory agencies such as state boards of accountancy, the Securities and Exchange Commission, the U.S. General Accounting Office, and the U.S. Department of Labor. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

⁷ See AU section 220.02. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

and satisfy applicable continuing professional education requirements of the AICPA and regulatory agencies.⁸

- d. Personnel selected for advancement have the qualifications necessary for fulfillment of the responsibilities they will be called on to assume.

Acceptance and Continuance of Clients and Engagements

.14 Policies and procedures should be established for deciding whether to accept or continue a client relationship and whether to perform a specific engagement for that client. Such policies and procedures should provide the firm with reasonable assurance that the likelihood of association with a client whose management lacks integrity is minimized. Establishing such policies and procedures does not imply that a firm vouches for the integrity or reliability of a client, nor does it imply that a firm has a duty to any person or entity but itself with respect to the acceptance, rejection, or retention of clients. However, prudence suggests that a firm be selective in determining its client relationships and the professional services it will provide.

.15 Such policies and procedures should also provide reasonable assurance that the firm—

- a. Undertakes only those engagements that the firm can reasonably expect to be completed with professional competence.
- b. Appropriately considers the risks associated with providing professional services in the particular circumstances.

.16 To minimize the risk of misunderstandings regarding the nature, scope, and limitations of the services to be performed, policies and procedures should provide for obtaining an understanding with the client regarding those services. Professional standards may provide guidance in deciding whether the understanding should be oral or written.

Engagement Performance

.17 Policies and procedures should be established to provide the firm with reasonable assurance that the work performed by engagement personnel meets applicable professional standards, regulatory requirements, and the firm's standards of quality.

.18 Policies and procedures for *Engagement Performance* encompass all phases of the design and execution of the engagement. To the extent appropriate and as required by applicable professional standards, these policies and procedures should cover planning, performing, supervising, reviewing, documenting, and communicating the results of each engagement. Where applicable, these policies and procedures should also address the concurring partner review requirements applicable to SEC engagements as set forth in membership requirements of the SEC Practice Section of the AICPA. [As amended, applicable to a CPA firm's system of quality control for its accounting, auditing, and attestation practice as of January 1, 2000, by Statement on Quality Control Standards No. 4.]

.19 Policies and procedures should also be established to provide reasonable assurance that personnel refer to authoritative literature or other sources

⁸ Regulatory agencies that have established continuing education requirements include state boards of accountancy and the U.S. General Accounting Office. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

and consult, on a timely basis, with individuals within or outside the firm, when appropriate (for example, when dealing with complex, unusual, or unfamiliar issues). Individuals consulted should have appropriate levels of knowledge, competence, judgment, and authority. The nature of the arrangements for consultation depends on a number of factors, including the size of the firm and the levels of knowledge, competence, and judgment possessed by the persons performing the work.

Monitoring

.20 Policies and procedures should be established to provide the firm with reasonable assurance that the policies and procedures established by the firm for each of the other elements of quality control described in paragraphs .07 through .19 are suitably designed and are being effectively applied.⁹ Monitoring involves an ongoing consideration and evaluation of the—

- a. Relevance and adequacy of the firm's policies and procedures.
- b. Appropriateness of the firm's guidance materials and any practice aids.
- c. Effectiveness of professional development activities.
- d. Compliance with the firm's policies and procedures. When monitoring, the effects of the firm's management philosophy and the environment in which the firm practices and its clients operate should be considered.

Administration of a Quality Control System

.21 To provide reasonable assurance that the firm's quality control system achieves its objectives, appropriate consideration should be given to the assignment of quality control responsibilities within the firm, the means by which quality control policies and procedures are communicated, and the extent to which the policies and procedures and compliance therewith should be documented.

Assignment of Responsibilities

.22 Responsibility for the *design* and *maintenance* of the various quality control policies and procedures should be assigned to an appropriate individual or individuals in the firm. In making that assignment, consideration should be given to the proficiency of the individuals, the authority to be delegated to them, and the extent of supervision to be provided. However, all of the firm's personnel are responsible for *complying* with the firm's quality control policies and procedures.

Communication

.23 A firm should communicate its quality control policies and procedures to its personnel in a manner that provides reasonable assurance that those policies and procedures are understood and complied with. The form and extent of such communications should be sufficiently comprehensive to provide the firm's personnel with an understanding of the quality control policies and procedures applicable to them. In addition, a firm should establish a means of

⁹ See section 30, *Monitoring a CPA Firm's Accounting and Auditing Practice*. [Footnote renumbered by the issuance of Statement on Quality Control Standards No. 6, September 2002.]

communicating its established quality control policies and procedures, and the changes thereto, to appropriate personnel on a timely basis.

Documentation of Quality Control Policies and Procedures

.24 The size, structure, and nature of the practice of the firm should be considered in determining whether documentation of established quality control policies and procedures is required for effective communication and, if so, the extent of such documentation. For example, documentation of established quality control policies and procedures would generally be expected to be more extensive in a large firm than in a small firm and in a multioffice firm than in a single-office firm. Although communication ordinarily is enhanced if it is in writing, the effectiveness of a firm's system of quality control is not necessarily impaired by the absence of documentation of established quality control policies and procedures.

Documentation of Compliance With Quality Control Policies and Procedures

.25 A firm should prepare appropriate documentation to demonstrate *compliance* with its policies and procedures for the quality control system discussed herein. The form and content of such documentation is a matter of judgment and depends on a number of factors, such as the size of a firm, the number of offices, the degree of authority allowed its personnel and its offices, the nature and complexity of the firm's practice, its organization, and appropriate cost-benefit considerations. Documentation should be retained for a period of time sufficient to enable those performing monitoring procedures and a peer review to evaluate the extent of the firm's compliance with its quality control policies and procedures.

Effective Date

.26 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

QC Section 30

Monitoring a CPA Firm's Accounting and Auditing Practice

Effective date: Applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

Statements on Quality Control Standards are issued by the Auditing Standards Board. Firms that are enrolled in an Institute-approved practice-monitoring program are obligated to adhere to quality control standards established by the Institute.

Introduction

.01 This section provides guidance on how a CPA firm implements the monitoring element of a quality control system in its accounting and auditing practice.¹

.02 Section 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, describes *Monitoring* as one of the five elements of quality control. It provides that a CPA firm² should establish policies and procedures to provide the firm with reasonable assurance that the policies and procedures relating to each of the other elements of quality control are suitably designed and are being effectively applied. Monitoring involves an ongoing consideration and evaluation of the—

- a. Relevance and adequacy of the firm's policies and procedures.
- b. Appropriateness of the firm's guidance materials and any practice aids.
- c. Effectiveness of professional development activities.
- d. Compliance with the firm's policies and procedures.

When monitoring, the effects of the firm's management philosophy and the environment in which the firm practices and its clients operate should be considered.

Monitoring Procedures

.03 Monitoring procedures taken as a whole should enable the firm to obtain reasonable assurance that its system of quality control is effective.

¹ *Accounting and auditing practice* refers to all audit, attest, accounting and review, and other services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under rule 201 or 202 of the AICPA Code of Professional Conduct. Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting and auditing practice.

² A *firm* is defined in the AICPA Code of Professional Conduct as "a form of organization permitted by state law or regulation whose characteristics conform to resolutions of Council that is engaged in the practice of public accounting, including the individual owners thereof".

Procedures that provide the firm with a means of identifying and communicating circumstances that may necessitate changes to or the need to improve compliance with the firm's policies and procedures contribute to the monitoring element. A firm's monitoring procedures may include—

- Inspection procedures. (See paragraphs .04 through .07.)
- Preissuance or postissuance review of selected engagements. (See paragraphs .08 and .09.)
- Analysis and assessment of—
 - New professional pronouncements.
 - Results of independence confirmations.
 - Continuing professional education and other professional development activities undertaken by firm personnel.³
 - Decisions related to acceptance and continuance of client relationships and engagements.
 - Interviews of firm personnel.
- Determination of any corrective actions to be taken and improvements to be made in the quality control system.
- Communication to appropriate firm personnel of any weaknesses identified in the quality control system or in the level of understanding or compliance therewith.
- Follow-up by appropriate firm personnel to ensure that any necessary modifications are made to the quality control policies and procedures on a timely basis.

.04 Inspection procedures evaluate the adequacy of the firm's quality control policies and procedures, its personnel's understanding of those policies and procedures, and the extent of the firm's compliance with its quality control policies and procedures. Inspection procedures contribute to the monitoring function because findings are evaluated and changes in or clarifications of quality control policies and procedures are considered.

.05 The need for and extent of inspection procedures depends in part on the existence and effectiveness of the other monitoring procedures. Factors to be considered in determining the need for and extent of inspection procedures include, but are not limited to—

- The nature, complexity, and diversity of, and the risks associated with, the firm's practice.
- The firm's size, number of offices, degree of authority allowed its personnel and its offices, and organizational structure.
- The results of recent practice reviews⁴ and previous inspection procedures.
- Appropriate cost-benefit considerations.⁵

³ The term *personnel* refers to all individuals who perform professional services for which the firm is responsible, whether or not they are CPAs.

⁴ Practice reviews include, but are not limited to, peer reviews performed under standards established by the AICPA and reviews conducted by regulatory agencies.

⁵ Although appropriate cost-benefit considerations may be considered in determining the need for and extent of inspection procedures, a firm must still effectively *monitor* its practice.

.06 The nature of inspection procedures will vary based on the firm's quality control policies and procedures and the effectiveness and results of other monitoring procedures. The adequacy of and compliance with a firm's quality control system are evaluated by performing such inspection procedures as—

- Review of selected administrative and personnel records pertaining to the quality control elements.
- Review of engagement working papers, reports, and clients' financial statements. (See also paragraphs .08 and .09.)
- Discussions with the firm's personnel.
- Summarization of the findings from the inspection procedures, at least annually, and consideration of the systemic causes of findings that indicate improvements are needed.
- Determination of any corrective actions to be taken or improvements to be made with respect to the specific engagements reviewed or the firm's quality control policies and procedures.
- Communication of the identified findings to appropriate firm management personnel.
- Consideration of inspection findings by appropriate firm management personnel who should also determine that any actions necessary, including necessary modifications to the quality control system, are taken on a timely basis.

Inspection procedures with respect to the engagement performance element of a quality control system are particularly appropriate in a firm with more than a limited number of management-level individuals⁶ responsible for the conduct of its accounting and auditing practice.

.07 Inspection procedures may be performed at a fixed time(s) during the year covering a specified period(s) of time or as part of ongoing quality control procedures, or a combination thereof.

.08 Procedures for carrying out preissuance or postissuance review of engagement working papers, reports, and clients' financial statements by a qualified management-level individual (or by a qualified individual under his or her supervision) may be considered part of the firm's monitoring procedures provided that those performing or supervising such preissuance or postissuance reviews are *not directly associated with the performance of the engagement*. Such preissuance or postissuance review procedures may constitute inspection procedures provided—

- a. The review is sufficiently comprehensive to enable the firm to assess compliance with all applicable professional standards and the firm's quality control policies and procedures.
- b. Findings of such reviews that may indicate the need to improve compliance with or modify the firm's quality control policies and procedures are periodically summarized, documented, and communicated to the firm's management personnel having the responsibility and authority to make changes in those policies and procedures.

⁶ The term *management-level individual* refers to all owners of a firm and other individuals within the firm with a managerial position as described in Interpretation 101-9 of the Code of Professional Conduct.

- c. The firm's management personnel consider on a timely basis the systemic causes of findings that indicate improvements are needed and determine appropriate actions to be taken.
- d. The firm implements on a timely basis such planned actions, communicates changes to personnel who might be affected, and follows up to determine that the planned actions were taken.

A preissuance and, except as described in paragraph .09, a postissuance review of engagement working papers, reports, and clients' financial statements by the person with final responsibility for the engagement does not constitute a monitoring procedure.

.09 In small firms with a limited number of qualified management-level individuals, postissuance review of engagement working papers, reports, and clients' financial statements by the person with final responsibility for the engagement may constitute inspection procedures, provided the provisions in paragraph .08a–d are followed. (See also paragraph .11.)

Monitoring in Small Firms With a Limited Number of Management-Level Individuals

.10 In small firms with a limited number of management-level individuals, monitoring procedures may need to be performed by some of the same individuals who are responsible for compliance with the firm's quality control policies and procedures. To effectively monitor one's own compliance with the firm's policies and procedures, an individual must be able to critically review his or her own performance, assess his or her own strengths and weaknesses, and maintain an attitude of continual improvement. Changes in conditions and in the environment within the firm (such as obtaining clients in an industry not previously serviced or significantly changing the size of the firm) may indicate the need to have quality control policies and procedures monitored by another qualified individual.

.11 The performance of inspection procedures in firms with a limited number of management-level individuals can assist the firm in the monitoring process. An individual inspecting his or her own compliance with a quality control system may be inherently less effective than having such compliance inspected by another qualified individual. When one individual inspects his or her own compliance, the firm may have a higher risk that noncompliance with policies and procedures will not be detected. Accordingly, a firm in this circumstance may find it beneficial to engage a qualified individual from outside the firm to perform inspection procedures.

The Relationship of Peer Review to Monitoring

.12 A peer review does not substitute for monitoring procedures. However, since the objective of a peer review is similar to that of inspection procedures, a firm's quality control policies and procedures may provide that a peer review conducted under standards established by the AICPA may substitute for some or all of its inspection procedures for the period covered by the peer review.

Effective Date

.13 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of January 1, 1997.

QC Section 40

The Personnel Management Element of a Firm's System of Quality Control—Competencies Required by a Practitioner-in-Charge of an Attest Engagement

Introduction

.01 Section 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, provides that a CPA firm shall have a system of quality control for its accounting and auditing practice¹ that should encompass the following elements:

- a. Independence, integrity, and objectivity
- b. Personnel management
- c. Acceptance and continuance of clients and engagements
- d. Engagement performance
- e. Monitoring

The Personnel Management Element of Quality Control

.02 *Personnel Management* encompasses hiring, assigning personnel to engagements, professional development, and advancement activities. Accordingly, policies and procedures should be established to provide the firm with reasonable assurance that—

- a. Those hired possess the appropriate characteristics to enable them to perform competently. Examples of such characteristics may include meeting minimum academic requirements established by the firm, maturity, integrity, and leadership traits.
- b. Work is assigned to personnel having the degree of technical training and proficiency required in the circumstances.
- c. Personnel participate in general and industry-specific continuing professional education and other professional development activities that enable them to fulfill responsibilities assigned, and satisfy applicable continuing professional education requirements of the AICPA, and regulatory agencies.²

¹ *Accounting and auditing practice* refers to all accounting, audit, and attestation services for which standards have been established by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under Rule 201 or 202 of the AICPA Code of Professional Conduct. Standards may also be established by other AICPA senior technical committees; engagements that are performed in accordance with those standards are not encompassed in the definition of an accounting, auditing, and attestation practice.

² Regulatory agencies that have established continuing education requirements include state boards of accountancy and the U.S. General Accounting Office.

- d.* Personnel selected for advancement have the qualifications necessary for fulfillment of the responsibilities they will be called on to assume.

.03 This section clarifies the requirements of the personnel management element of a firm's system of quality control. In light of the significant responsibilities during the planning and performance of accounting, auditing, and attestation engagements of individuals who are responsible for supervising accounting, auditing, and attestation engagements and signing or authorizing an individual to sign the accountants report on such engagements, a firm's policies and procedures related to the items noted in paragraph .02 above should be designed to provide a firm with reasonable assurance that such individuals possess the kinds of competencies that are appropriate given the circumstances of individual client engagements. For purposes of this standard, such an individual is referred to as the practitioner-in-charge of the engagement.

Competencies

.04 Competencies are the knowledge, skills, and abilities that enable a practitioner-in-charge to be qualified to perform an accounting, auditing, or attestation engagement. A firm is expected to determine the kinds of competencies that are necessary in the individual circumstances. Competencies are not measured by periods of time because such a quantitative measurement may not accurately reflect the kinds of experiences gained by a practitioner in any given time period. Accordingly, for purposes of this section, a measure of overall competency is qualitative rather than quantitative.

Gaining Competencies

.05 A firm's policies and procedures would ordinarily require a practitioner-in-charge of an engagement to gain the necessary competencies through recent experience in accounting, auditing, and attestation engagements. In some cases, however, a practitioner-in-charge will have obtained the necessary competencies through disciplines other than the practice of public accounting, such as in relevant industry, governmental, and academic positions. If necessary, the experience of the practitioner-in-charge should be supplemented by continuing professional education (CPE) and consultation. The following are examples.

- A practitioner-in-charge of an engagement whose recent experience has consisted primarily in providing tax services may acquire the competencies necessary in the circumstances to perform a compilation or review engagement by obtaining relevant CPE.
- A practitioner-in-charge of an engagement who did not have any experience in auditing the financial statements of a public company and only possessed recent prior experience in auditing the financial statements of nonpublic entities may develop the necessary competencies by obtaining relevant CPE related to SEC rules and regulations and consulting with other practitioners who possess relevant knowledge related to SEC rules and regulations.
- A practitioner-in-charge of an engagement who did not have any experience in auditing the financial statements of a public company but possessed prior public accounting practice experience auditing financial statements of nonpublic entities and who also has relevant experience as the controller of a public company may have the necessary competencies in the circumstances.

- A practitioner-in-charge of an engagement whose actual experience consists of performing review and compilation engagements may be able to obtain the necessary competencies to perform an audit by becoming familiar with the industry in which the client operates, obtaining continuing professional education relating to auditing, and/or using consulting sources during the course of performing the audit engagement
- A person in academia might obtain the necessary competencies to perform accounting, auditing or attestation engagements by (a) obtaining specialized knowledge through teaching or authorship of research projects or similar papers, and (b) a rigorous self-study program or by engaging a consultant to assist on such engagements.

.06 Regardless of the manner in which a particular competency is gained, a firm's quality control policies and procedures should be adequate to provide reasonable assurance that a practitioner-in-charge of an engagement possesses the competencies necessary to fulfill his or her engagement responsibilities.

.07 The nature and extent of competencies established by a firm that are expected of the practitioner-in-charge of an engagement should be based on the characteristics of a particular client, industry, and the kind of service being provided. For example, the following should be considered.

- The competencies expected of a practitioner-in-charge of an engagement to compile financial statements would be different than those expected of a practitioner engaged to review or audit financial statements.
- Supervising engagements and signing or authorizing others to sign reports for clients in certain industries or engagements, such as financial services, governmental, or employee benefit plan engagements, would require different competencies than what would be expected in performing attest services for clients in other industries.
- The practitioner-in-charge of an engagement to audit the financial statements of a public company would be expected to have certain technical proficiency in SEC reporting requirements, while a practitioner-in-charge who is not assigned to the audits of public companies would not need to be proficient in this area. This would include, for example, experience in the industry and appropriate knowledge of SEC and ISB rules and regulations, including accounting and independence standards.
- The practitioner-in-charge of an attestation engagement to examine management's assertion about the effectiveness of an entity's internal control over financial reporting would be expected to have certain technical proficiency in understanding and evaluating the effectiveness of controls, while a practitioner-in-charge of an attestation engagement to examine investment performance statistics would be expected to have different competencies, including an understanding of the subject matter of the underlying assertion.

Competencies Expected in Performing Accounting, Auditing, and Attestation Engagements

.08 In practice, the kinds of competency requirements that a firm should establish for the practitioner-in-charge of an engagement are necessarily broad

and varied in both their nature and number. However, the firm's quality control policies and procedures should ordinarily address the following competencies for the practitioner-in-charge of an engagement. Firms policies and procedures should also address other competencies as necessary in the circumstances.

- *Understanding of the Role of a System of Quality Control and the Code of Professional Conduct*—Practitioners-in-charge of an engagement should possess an understanding of the role of a firm's system of quality control and the AICPA's Code of Professional Conduct, both of which play critical roles in assuring the integrity of the various kinds of accountant's reports.
- *Understanding of the Service to be Performed*—Practitioners-in-charge of an engagement should possess an understanding of the performance, supervision, and reporting aspects of the engagement, which is normally gained through actual participation in that kind of engagement under appropriate supervision.
- *Technical Proficiency*—Practitioners-in-charge of an engagement should possess an understanding of the applicable accounting, auditing, and attest professional standards including those standards directly related to the industry in which a client operates and the kinds of transactions in which a client engages.
- *Familiarity with the Industry*—To the extent required by professional standards applicable to the kind of service being performed, practitioners-in-charge of an engagement should possess an understanding of the industry in which a client operates. In performing an audit or review of financial statements, this understanding would include an industry's organization and operating characteristics sufficient to identify areas of high or unusual risk associated with an engagement and to evaluate the reasonableness of industry specific estimates.
- *Professional Judgment*—Practitioners-in-charge of an engagement should possess skills that indicate sound professional judgment. In performing an audit or review of financial statements, such skills would typically include the ability to exercise professional skepticism and identify areas requiring special consideration including, for example, the evaluation of the reasonableness of estimates and representations made by management and the determination of the kind of report necessary in the circumstances.
- *Understanding the Organization's Information Technology Systems*—Practitioners-in-charge of an audit engagement should have an understanding of how the organization is dependent on or enabled by information technologies; and the manner in which information systems are used to record and maintain financial information.

Interrelationship of Competencies and Other Elements of a Firm's System of Quality Control

.09 The competencies listed above are interrelated and gaining one particular competency may be related to achieving another. For example, familiarity with the client's industry interrelates with a practitioner's ability to make professional judgments relating to the client.

.10 In establishing policies and procedures related to the nature of competencies needed by the practitioner-in-charge of an engagement, a firm may need to consider the requirements of policies and procedures established for other elements of quality control. For example, a firm would consider its requirements related to engagement performance in determining the nature of any competency requirements that assess the degree of technical proficiency necessary in a given set of circumstances.

The Relationship of the Competency Requirement of the Uniform Accountancy Act to the Personnel Management Element of Quality Control

.11 The Uniform Accountancy Act (UAA) is a model legislative statute and related administrative rules that the AICPA and the National Association of State Boards of Accountancy (NASBA) designed to provide a uniform approach to the regulation of the accounting profession. CPAs are not required to follow the provisions of the UAA itself but rather the accountancy laws of the individual licensing jurisdictions in the United States governing the practice of public accounting, which may have adopted the UAA in whole or in part. The UAA provides that "any individual licensee who is responsible for supervising attest or compilation services and signs or authorizes someone to sign the accountant's report on the financial statements on behalf of the firm shall meet the competency requirements set out in the professional standards for such services." A firm's compliance with this section is intended to enable a practitioner who performs the services described in the preceding sentence on the firm's behalf to meet this competency requirement; however, this section's applicability is broader than what is required by the UAA since the definition of an accounting and auditing practice in quality control standards encompasses a wider range of attest engagements.

Effective Date

.12 The provisions of this section are applicable to a CPA firm's system of quality control for its accounting and auditing practice as of June 30, 2000. Earlier implementation is encouraged.

Section 400—Glossary	

SECPS Section 1000.08(d), (f), (l), (m), (n), (o)

Requirements of Membership

Continuing Professional Education of Audit Firm Personnel

.08(d) Ensure that all professionals in the firm residing in the United States, including CPAs and non-CPAs, participate in at least 20 hours of qualifying continuing professional education (CPE) every year and at least 120 hours every three years. Effective for CPE years beginning on or after January 1, 1995, professionals who devote at least 25% of their time to performing audit, review or other attest engagements (excluding compilations), or who have the partner/manager-level responsibility for the overall supervision or review of any such engagements, must obtain at least 40% (eight hours in any one year and 48 hours every three years) of their required CPE in subjects relating to accounting and auditing. The term accounting and auditing subjects should be broadly interpreted, and for example, include subjects relating to the business or economic environments of the entities to which the professional is assigned.¹

Concurring Partner Review of the Audit Report and the Financial Statements of Commission Registrants

.08(f) Establish policies and procedures that meet the requirements set forth in Appendix E, SECPS §1000.39, for a concurring review by a partner other than the audit partner in charge of an SEC engagement before issuance of an audit report on the financial statements of an SEC engagement and before the reissuance of such an audit report where the performance of subsequent events procedures is required by professional standards.²

Communication by Written Statement to all Professional Personnel of Firm Policies and Procedures on the Recommendation and Approval of Accounting Principles, Present and Potential Client Relationships, and the Types of Services Provided

.08(l) Communicate through a written statement to all professional firm personnel the broad principles that influence the firm's quality control and operating policies and procedures on, as a minimum, matters related to the recommendation and approval of accounting principles, present and potential client relationships, and the types of services provided, and inform professional

¹ See SECPS §8000 for additional information about the continuing professional education requirement and the manner in which compliance is to be measured.

² Effective for audits of financial statements of SEC clients for periods ending after the date the firm becomes a member and for reports that are reissued after that date.

firm personnel periodically that compliance with those principles is mandatory.³ (Appendix H, SECPS §1000.42 is an illustration of such a statement.)

Notification of the Commission of Resignations and Dismissals from Audit Engagements for Commission Registrants

.08(m) When the member firm has been the auditor for an SEC registrant (as defined in Appendix D, SECPS §1000.38) and has resigned, declined to stand for re-election or been dismissed, report the fact that the client-auditor relationship has ceased directly in writing to the former SEC client, with a simultaneous copy to the Office of the Chief Accountant of the Securities and Exchange Commission.⁴ Such report shall be sent to the former SEC client and to the Office of the Chief Accountant by the end of the fifth business day following the member firm's determination that the client-auditor relationship has ended, irrespective of whether or not the registrant has reported the change in auditors in a timely filed Form 8-K.

Audit Firm Obligations with Respect to the Policies and Procedures of Correspondent Firms and of Other Members of International Firms or International Associations of Firms

.08(n) For SECPS member firms that are members of, correspondents with, or similarly associated with international firms or international associations of firms, seek adoption of policies and procedures by the international organization or individual foreign associated firms⁵ that are consistent with the objectives set forth in Appendix K, SECPS §1000.45 for SEC registrants.⁶

Policies and Procedures to Comply with Independence Requirements

.08(o) Ensure that the member firm has policies and procedures in place to comply with applicable independence requirements of the AICPA, SEC and Independence Standards Board.⁷

³ Firms that become members of the Section shall prepare and issue such a statement within six months of joining the Section.

⁴ See Appendix I, SECPS §1000.43, for standard form of such report.

⁵ For this purpose, a foreign associated firm is a firm domiciled outside of the United States and its territories that is a member of, correspondent with, or similarly associated with an international association of firms with which the SECPS member is associated.

⁶ See Appendix D, SECPS §1000.38, "Revised Definition of an SEC Engagement" for purposes of determining compliance with the membership requirements of SECPS §1000.08e, f, g, h, i, k, m, n, o, and p.

⁷ See Appendix L, SECPS §1000.46, "Independence Quality Controls" for purposes of determining compliance with the membership requirement.

SECPS Section 1000.38, .39, .42, .43, .45, .46**Appendixes D, E, H, I, K, L****SECPS Section 1000.38 Appendix D—Revised
Definition of an SEC Client**

1. For purposes of determining whether a U.S. member firm is required to join the SEC Practice Section (the "Section") and comply with the Section's membership requirements, the Executive Committee has defined an SEC client (which is used interchangeably with SEC audit client, SEC registrant and SEC engagement) as one that involves the audit of the financial statements of the following:¹

- a. An issuer making an initial filing, including amendments, under the Securities Act of 1933 (the "1933 Act") or the Securities Exchange Act of 1934 (the "1934 Act").
- b. A registrant that files periodic reports (for example, Forms N-SAR, 10-K or 11-K) with the Securities and Exchange Commission under the Investment Company Act of 1940 or the 1934 Act² (except a broker or dealer registered only because of section 15 paragraph a of the 1934 Act).
- c. A bank or other lending institution that files periodic reports with the Comptroller of the Currency, the Federal Reserve System, the Federal Deposit Insurance Corporation, or the Office of Thrift Supervision, because the powers, functions, and duties of the SEC to enforce its periodic reporting provisions are vested, pursuant to section 12(i) of the 1934 Act, in those agencies.³ (The Section's membership requirement §1000.08m does not apply to these entities.)

This definition of an SEC client shall also be used for purposes of determining the number of SEC clients for which a firm is the principal auditor-of-record and, therefore, for which information is required to be filed with the Section for each fiscal year of a U.S. member firm. For this purpose, the Executive Committee has determined that a series of unit investment trusts, series of limited partnerships and series of mutual funds sponsored by the same entity shall be treated as one SEC client. (see SECPS §1000.08g).

2. Only for purposes of implementing the membership requirements of SECPS §1000.08k to report certain litigation, proceedings, or investigations to

¹ Since the firm need only consider those clients for which it is the principal auditor of record in the current period, for purposes of this definition, subsidiaries or unconsolidated affiliates whose financial information is included in the financial statements or filings of an SEC registrant are not considered SEC clients, unless those subsidiaries or unconsolidated affiliates meet one of the conditions in paragraph 1.

² Clients that have only issued securities exempt from registration under Regulations A, D or S should not be considered SEC clients.

³ Rules 12g-4 and 12h-3 under the 1934 Act provide an exemption from periodic reporting to the SEC for (1) entities with less than \$10 million in total assets on the last day of the issuer's three most recent fiscal years and less than 500 shareholders and for (2) entities with less than 300 shareholders. Accordingly, such entities that utilize the exemption are not encompassed within the scope of this definition.

the Quality Control Inquiry Committee, the Executive Committee has determined that the term SEC client, in addition to entities included under paragraph 1 above, shall also include:

- a. A subsidiary or investee of an entity encompassed by paragraph 1 above, if such matters relate to financial statements presented separately in parent or investor company filings under the 1933 Act or the 1934 Act.
- b. An entity encompassed by paragraph 1 above, if such matters relate to the financial statements of a former client that are included in a 1933 Act or 1934 Act filing.

3. For purposes of implementing the membership requirements of SECPS §1000.08n, the Executive Committee has determined that the term SEC registrant shall also encompass all foreign private issuers defined by Rule 405 of Regulation C under the 1933 Act and Rule 3b-4(C) under the 1934 Act that have securities registered or have filed a registration statement with the SEC.

None of the foregoing is intended to change SECPS §1000.13 of the organizational structure and functions section regarding the appointment of members to the Executive Committee of the Section.

SECPS Section 1000.39 Appendix E—Concurring Partner Review Requirement (Revised with an Effective Date of March 31, 2002)

Statement on Auditing Standards No. 25, *The Relationship of Generally Accepted Auditing Standards to Quality Control Standards* [AU section 161], and Statement on Quality Control Standards No. 2 (SQCS No. 2), *System of Quality Control for a CPA Firm's Accounting and Auditing Practice* [QC section 20], require the firm to maintain a system of quality control to provide reasonable assurance that its personnel comply with applicable professional standards and the firm's standards of quality. Engagement performance policies and procedures required by paragraph .18 of SQCS No. 2 [QC section 20.18]¹ encompass all phases of a firm's policies and procedures for the design and execution of the engagement, which include the concurring partner review for SEC engagements. Accordingly, the concurring partner review is an integral part of the firm's system of quality control and serves as an objective review of significant auditing, accounting, and financial reporting matters² that come to the attention of the concurring partner reviewer and the resolution of such matters prior to the issuance of the firm's audit report with respect to financial statements of SEC engagements (see Appendix D, SECPS §1000.38). On the basis of that review, the concurring partner reviewer should conclude that no matters that have come to his or her attention would cause the concurring partner reviewer to believe that the financial statements are not in conformity with generally accepted accounting principles in all material respects, or that the firm's audit was not performed in accordance with generally accepted auditing standards.

¹ The Auditing Standards Board has issued a revision to SQCS No. 2 [QC section 20.18], through adoption of SQCS No. 4, to specify "Where applicable, these policies and procedures should also address the AICPA's SEC Practice Section's concurring partner review requirement for SEC engagements."

² For purposes of the concurring partner review, "significant auditing, accounting, and financial reporting matters" refers to matters involving a significant risk of material misstatement of financial statements, including a material disclosure deficiency in the footnotes to the financial statements.

A member firm's system of quality control should include policies and procedures covering (a) the qualifications of concurring partner reviewers, (b) the nature, extent, and timing of the concurring partner review, (c) the documentation required to evidence compliance with the firm's policies and procedures with respect to the concurring partner review requirement, and (d) quarterly reviews.

As a minimum, the firm's policies and procedures should be responsive to the following:

- a. **Qualifications.** The concurring partner reviewer should have sufficient technical expertise and experience to achieve the purpose described above. The determination of what constitutes sufficient technical expertise and experience requires consideration and is tailored to the circumstances of the engagement, including the personnel assigned to the engagement. An effective concurring partner review contemplates knowledge of relevant specialized industry practices. It also contemplates that the concurring partner reviewer possesses knowledge of SEC rules and regulations in areas where such rules and regulations are pertinent. There are various ways to obtain such knowledge in addition to personal audit experience, such as attendance at relevant training courses and through self-study. The concurring partner reviewer should seek assistance from other individuals to supplement this knowledge when necessary in the circumstances.

The tone set at the top of the firm should encourage and support the performance of objective concurring partner reviews. In this regard, firm policy should state that the concurring partner reviewer is expected to carry out his or her responsibilities with objectivity and due professional care without regard to the relative positions of the audit engagement partner and the concurring partner reviewer.

Further, the concurring partner reviewer should not assume any of the responsibilities of the audit partner-in-charge of the engagement or have responsibility for the audit of any significant subsidiaries, divisions, benefit plans, or affiliated or related entities.³ In addition, a prior audit engagement partner should not serve as the concurring partner reviewer for at least two annual audits following his or her last year as the audit engagement partner.⁴ A member firm that is not subject to the SECPS membership requirement regarding rotation of an audit engagement partner of an SEC engagement after seven consecutive years is exempt from the preceding requirement.⁵

- b. **Nature, Extent, and Timing.** The concurring partner reviewer's responsibility is to perform an objective review of significant

³ It is not unusual for clients to be aware of the existence of a concurring partner reviewer. A client may contact the concurring partner reviewer with respect to matters requiring immediate attention when the audit engagement partner is not available because of illness, extended travel or other reasons. When a concurring partner reviewer is thus required to deal with an accounting, auditing or financial reporting matter, he or she should advise the audit engagement partner of the facts and circumstances so that the audit engagement partner can review the matter and take full responsibility for its resolution.

⁴ The SECPS Peer Review Committee may authorize alternative procedures when this requirement imposes an undue hardship on the firm. See SECPS §2000.147, Appendix F, of the SEC Practice Section Reference Manual for submitting requests for a waiver of this requirement to the SECPS Peer Review Committee.

⁵ See SECPS §1000.08(e)(1), "Requirements of Members," of the SEC Practice Section Reference Manual.

auditing, accounting, and financial reporting matters and to conclude, based on all the relevant facts and circumstances of which the concurring partner reviewer has knowledge, that no matters that have come to his or her attention would cause the concurring partner reviewer to believe that the client's financial statements covered by the firm's audit report are not in conformity with generally accepted accounting principles in all material respects or that the audit was not performed in accordance with generally accepted auditing standards.

The concurring partner reviewer's responsibility is not the equivalent of the audit engagement partner's responsibilities. Without first-hand knowledge of the client's business environment, the benefit of discussions with management and other client personnel, the opportunity to review client documents or controls, or the ability to observe the client's actions or attitudes, a concurring partner reviewer generally is not in a position to make the informed judgments on significant issues expected of an audit engagement partner. However, the concurring partner reviewer is expected to objectively perform the procedures specified below and reach conclusions based on all relevant facts and circumstances of which he or she has knowledge.

The concurring partner reviewer's responsibility is fulfilled by performing the following procedures:

- Discussing significant accounting, auditing and financial reporting matters with the audit engagement partner;
- Discussing the audit engagement team's identification and audit of high-risk transactions and account balances;
- Reviewing documentation of the resolution of significant accounting, auditing and financial reporting matters, including documentation of consultation with firm personnel or resources external to the firm's organization (such as standard-setters, regulators, other accounting firms, the AICPA, and state societies);⁶
- Reviewing a summary of unadjusted audit differences;
- Reading the financial statements and auditors' report; and
- Confirming with the audit engagement partner that there are no significant unresolved matters.

These procedures provide the basis for the concurring partner reviewer to perform an objective review of accounting, auditing and financial reporting matters that were considered significant by the engagement team in conducting the audit. The concurring partner reviewer is not responsible for searching for additional matters to be considered by the engagement team. However, significant matters not previously identified by the engagement team that come to the concurring partner reviewer's attention should

⁶ Documentation to be reviewed should consist of summary memoranda and/or working paper summaries of the resolution of significant accounting, auditing, and financial reporting matters, and may include selected, more detailed working papers and other documentation. The review of the more detailed working papers and other documentation is a matter of professional judgment made by the concurring partner reviewer about the extent of information necessary to perform an objective review so that he or she has sufficient basis to conclude on the results of the review.

be referred to and resolved by the engagement team with the concurrence of the concurring partner reviewer.

In addition to performing the procedures described in the bullets above, the concurring partner reviewer's consideration and conclusions about whether significant matters were appropriately considered and resolved may require discussions with other firm personnel involved in any significant consultations. When discussion occurs with the concurring partner reviewer on an accounting, auditing or financial reporting matter during the engagement, the audit engagement partner ordinarily should develop an initial resolution to the matter before discussion with the concurring partner reviewer.⁷

The firm's guidelines for concurring partner review should take into account its policies and procedures for planning, supervising and reviewing engagements, and the extent to which those policies provide for the documentation of significant accounting, auditing, and financial reporting matters. The firm's guidelines also should identify the types of engagements for which a timely review should be made of the audit planning by the concurring partner reviewer so that any modifications can be implemented effectively during the performance of the audit. Firms should apply, as a minimum, this procedure to the firm's initial audit of a SEC engagement and other high-risk engagements as defined by the firm for this purpose. Such a definition might be influenced by the complexity of the entity, the engagement personnel's experience with the entity, and their knowledge of the entity's business. Factors to consider in this regard may include the entity's type of business; types of products and services; capital structure; related parties; locations; production, distribution, and compensation methods; any material changes in the entity's business; and whether the entity has plans for a public offering. (See AICPA Professional Standards, Vol. 1, AU section 311, "Planning and Supervision" and AU section 312, "Audit Risk and Materiality in Conducting an Audit.")

If the concurring partner reviewer and the audit engagement partner of the engagement have conflicting views regarding important matters, the disagreement should be resolved in accordance with applicable firm policy.⁸

In all cases, the concurring partner review should be completed before the release of the audit report and before the re-issuance of the audit report where performance of subsequent events procedures⁹ is required by professional standards.

- c. Documentation. The engagement files should contain evidence that the firm's policies and procedures with respect to the concurring partner review requirement were complied with before the issuance of the firm's audit report. Ordinarily, this would include documentation that the concurring partner reviewer has performed the procedures specified by the firm's policies and that no matters that have come to the attention of the concurring

⁷ Discussion with the concurring partner reviewer is most effective when the concurring partner reviewer is aware of and understands the issues at the time the issues are addressed by the audit engagement team rather than addressing the issues at the conclusion of the engagement.

⁸ See Statement on Auditing Standards No. 22, "Planning and Supervision" [AU section 311].

⁹ In this instance, the concurring partner reviewer ordinarily would concern himself or herself with matters relating to the subsequent events procedures.

partner reviewer would cause him or her to believe that the financial statements are not in conformity with generally accepted accounting principles in all material respects or that the firm's audit was not performed in accordance with generally accepted auditing standards.

- d. Quarterly Reviews. Items (b) and (c) above relate to the concurring partner reviewer's involvement with an audit engagement. For a review conducted in accordance with SAS No. 71, "Interim Financial Information," on financial statements in an SEC client's quarterly Form 10-Q or 10-QSB filing, a member firm's policies and procedures should require discussion with the concurring partner reviewer, prior to the completion of the review, about any matters identified in the review that involve a significant risk of material misstatement of the financial statements.¹⁰ Any such involvement should be documented.

SECPS Section 1000.42 Appendix H—Illustrative Statement of Firm Philosophy

The Firm and Its Objectives

ABC & Co. is a partnership engaged in the practice of public accounting in Anytown and Everywhere. ABC & Co. maintains correspondent relationships with selected firms that enable us to meet client needs for services outside our normal practice area.

We have as an overriding objective the provision of high quality audit, accounting, tax, and advisory services to clients in the best professional manner. Our partners and staff are expected to comply with this statement of philosophy in order to achieve that objective.

"Professionalism" in the accounting profession means integrity, objectivity, independence where required, adherence to professional standards and applicable laws and regulations, and a demonstrated will to maintain and improve the quality of professional services and to withstand all pressures, competitive and otherwise, to compromise on principles, standards, and quality. In the field of auditing, particularly, professionalism requires an understanding of and dedication to the public interest.

The public interest in audited financial statements has placed the public accounting profession in a unique position of public trust. Moreover, there is also a significant public interest in the way in which the Firm carries out accounting, tax, and advisory services. Therefore, no client or Firm consideration is allowed to interfere with our ability to carry out our commitment to professionalism.

Professional Performance

ABC & Co. demands integrity, objectivity, competence, and due care from all of its personnel in the conduct of all of its engagements, whatever their nature. We demand independence in fact and appearance in all audit and other engagements where independence is required by applicable laws and regulations and

¹⁰ For purposes of the concurring partner review, "significant risk of material misstatement of the financial statements" includes a material disclosure deficiency in the footnotes to the financial statements.

the requirements of professional societies. We take steps to insure that personnel assigned to engagements, whatever their nature, have the professional and specialized knowledge required to carry out their responsibilities; at the same time, we recognize that supervisors and other reviewers and consultants can complement that knowledge.

Our Firm is structured to provide leadership in achieving high quality professional performance while maintaining the concept of individual responsibility so necessary to clients and to individuals within the firm. ABC & Co. has established policies and procedures that we believe provide assurance that professional engagements are properly planned and executed and that decisions are based on the substance of issues, not on form. Accounting standards cannot deal with all possible situations, and we at all times urge our clients to adopt accounting and reporting policies that we believe are the most appropriate in the circumstances.

Our policies and procedures provide, among other things, for consultation on significant matters, and ABC & Co. has designated partners of the Firm whose opinions are to be sought on significant ethical, technical, and industry questions. The policies and procedures we have established are designed to assure that our clients receive the best professional services we can provide and that in providing those services we continually keep in mind the public interest in our work. We expect our partners and staff to identify and resolve all important issues relevant to an engagement.

More specifically, to achieve high quality professional performance, and to comply with the membership requirements of the AICPA Division for CPA Firms, ABC & Co. has adopted policies and procedures that implement the quality control standards for the conduct of accounting and auditing engagements established by the American Institute of Certified Public Accountants. Those policies and procedures relate to the following elements of quality control, among other matters:

Independence, Integrity, and Objectivity—To be free from financial, business, family, and other relationships involving a client when required. To be honest and candid within the constraints of client confidentiality. To have a state of mind and a quality that lends value to the firm's services and imposes the obligation to be impartial, intellectually honest, and free of conflicts of interest.

Personnel Management—To hire individuals that possess the appropriate characteristics to enable them to perform competently. To assign work to personnel who possess the technical training and competence required in the circumstances. To provide personnel with the training necessary to fulfill responsibilities assigned and satisfy applicable continuing professional education requirements. To select for advancement those individuals that have the qualifications necessary to fulfill responsibilities involved.

Acceptance and Continuance of Clients and Engagements—To appropriately consider the risks associated with providing professional services so as to decrease the likelihood of association by the firm with clients and engagements in which client management lacks integrity. To associate with clients and engagements in which the firm can reasonably expect to complete with professional competence.

Engagement Performance—To determine that the design and execution of work performed is efficient and in accordance with applicable professional standards. To have personnel refer to authoritative literature or other sources and consult with individuals with the knowledge, technical competency, judgment, and authority, when appropriate.

Monitoring—To develop a system to evaluate on an ongoing basis whether the other elements of quality control established by the firm are suitably designed and are being effectively applied.

We have also adopted appropriate policies and procedures in the above areas to guide the conduct of tax and advisory services engagements.

The adequacy of the Firm's quality control system for our accounting and auditing practice and our compliance with that system are independently evaluated every three years through a peer review conducted under the auspices of the AICPA Division for CPA Firms. The peer review report is available to our clients and other interested parties.

Relationships With Clients

The value of our services is, to a large degree, dependent on the public perception of our integrity and objectivity. If the public were to doubt our integrity or objectivity—or our competence or professional care—as a result of our work for a given client, the value of our services to that client, to all other clients, and to the public at large could drop significantly. Accordingly, just as our clients are selective in their choice of CPA firms, ABC & Co. is selective in accepting clients. Our responsibilities to existing clients and to the public demand that we consider the appropriateness of client relationships and that we carefully consider the nature of services we are asked to provide and our ability to provide those services in a quality manner in conformity with all relevant professional standards.

When potential clients who disagree with their present auditors on significant auditing, accounting, or reporting questions, request our opinion on the matter, we consult within our Firm and with a potential client's present or predecessor CPA firm before giving our final conclusion on the matter.

We value our reputation for quality services and believe that reputation is the basis on which we attract new clients and build our practice for the future. We are committed to rendering value for our fees and believe our clients should have a reasonable basis for making that judgment for themselves. Accordingly, we carefully evaluate the services we are asked to provide and the factors, such as the nature of control systems and procedures, that will affect the costs we expect to incur in providing such services before we inform present and potential clients of the fees we estimate those services will entail. Once ABC & Co. undertakes a client engagement, we bring all the resources to that engagement necessary in the circumstances.

We do not disclose to anyone outside of our Firm any confidential client information obtained in the course of any engagement unless the disclosure is authorized by the client or is required to discharge properly our responsibilities under law or authoritative regulatory or professional standards. (Our peer reviewers have access to client information, but they are bound by the same standards of confidentiality).

Services Provided

ABC & Co. provides a full range of audit, accounting, tax, and advisory services, consistent with ethical and professional standards and regulatory requirements in the United States and with the limitations imposed by our Firm's membership in the AICPA Division for CPA Firms.

The services provided by CPA firms must be responsive to changes in the environment, which is affected by developments in information technology, the

increasing complexity of tax laws and regulations, greater demands by the public for new types of information and CPA assurances on such information, the increasing need of many clients for advisory services, and a host of other factors.

If the public accounting profession as a whole, and ABC & Co. in particular, are to meet the legitimate and changing needs of clients and the public, arbitrary restrictions on the services provided are not appropriate. However, ABC & Co., as a matter of policy, will undertake only engagements that we believe we can perform with competence, that will be useful to our clients or to appropriate third parties, that will not impair our independence in fact or appearance when we also provide audit services to the client involved, and that will help attract and retain the personnel we need to provide the knowledge base essential to maintain our ability to serve our clients and the public in a professional manner. In evaluating proposed engagements, as well as the way we inform clients and others of our capabilities, we consider whether such engagements will lessen public confidence in our independence, integrity, and objectivity in the performance of the audit function or in our commitment to that function.

SECPS Section 1000.43 Appendix I—Standard Form of Letter Confirming the Cessation of the Client-Auditor Relationship

(Date)

Mr. John Doe
Chief Financial Officer
XYZ Corporation
Anytown, USA

Dear Mr. Doe:

This is to confirm that the client-auditor relationship between XYZ Corporation (Commission File Number X-XXXX) and Able Baker & Co. has ceased.

Sincerely,

Able Baker & Co.

CC: Office of the Chief Accountant
SECPS Letter File
Securities and Exchange Commission
Mail Stop 9-5
450 Fifth Street, N.W.
Washington, D.C. 20549

NOTE: The SEC has indicated that member firms may satisfy the SECPS notification requirements by faxing a copy of the SECPS letter to the SEC-Office of the Chief Accountant (202-942-9656; Attn: SECPS Letter File/Mail Stop 9-5). A copy of the fax log should be retained by the sender as documentation of timely filing and a back-up copy of the letter should be sent by regular mail to the SEC. The SEC strongly encourages sending the notification letter by fax and will accept the date of the fax as the notification date. If a fax transmission is not available, alternatively, by order of preference, the SECPS notification

letter may be sent to the SEC via (1) U.S. Postal Service overnight delivery, (2) commercial overnight courier, or (3) certified mail, "return receipt requested".

The exact name of the registrant, the Commission File Number as it appears on the cover page of the Form 10-K, and the complete SEC address, as shown above, should be used in the letter and on the envelope. If the cessation of the client-auditor relationship affects multiple SEC registrants (e.g., a parent with publicly-registered subsidiaries, series of mutual funds), the exact name of each registrant and each Commission File Number should be set forth in the SECPS letter.

SECPS Section 1000.45 Appendix K—SECPS Member Firms With Foreign Associated Firms That Audit SEC Registrants

.01 The Section acknowledges that SECPS member firms that are members of, correspondents with, or similarly associated with international firms or international associations usually do not control their international organization or individual foreign associated firms.¹ However, the Section adopted the membership requirement set forth in SECPS §1000.08(n) to obtain the assistance of SECPS member firms in their seeking to enhance the quality of SEC filings by SEC registrants² whose financial statements are audited by foreign associated firms. This assistance consists of SECPS member firms seeking adoption of policies and procedures by their international organizations or individual foreign associated firms that are consistent with the following objectives:

- a. *Procedures for Certain Filings by SEC Registrants*—The policies and procedures should address the performance of procedures with respect to certain SEC filings by SEC registrants that are clients of foreign associated firms by a person or persons knowledgeable in accounting, auditing, and independence standards generally accepted in the U.S., independence requirements of the SEC and ISB, and SEC rules and regulations in areas where such rules and regulations are pertinent (the "filing reviewer"). The procedures are performed to provide assistance to the partner of the foreign associated firm responsible for the audit (the "audit partner-in-charge of the engagement") and the foreign associated firm. Such filings are limited to registration statements, annual reports on Form 20-F and 10-K, and other SEC filings that include or incorporate the foreign associated firm's audit report on the financial statements of an SEC registrant.

The procedures performed by the filing reviewer should generally include the following:

- (1) Reading the document to be filed with the SEC with particular attention given to compliance as to form of the financial statements (and related schedules) and auditors' report with the applicable accounting and financial reporting requirements for such filings by the SEC registrant.

¹ For this purpose, a foreign associated firm is a firm domiciled outside of the United States and its territories that is a member of, correspondent with, or similarly associated with an international firm or international association of firms with which the SECPS member is associated.

² See Appendix D, SECPS §1000.38, "Definition of an SEC Engagement" for purposes of determining compliance with the membership requirements of SECPS §1000.08e, f, g, h, i, k, m, n, o and p.

- (2) Discussing with the audit partner-in-charge of the engagement:
 - (i) the engagement team's familiarity with and understanding of the applicable U.S. auditing, accounting, financial reporting, and independence standards, including independence requirements of the SEC and the ISB;
 - (ii) the significant differences between: (a) the accounting and financial reporting standards used in the presentation of the financial statements included or incorporated in the document to be filed with the SEC and those applicable in the U.S., and (b) the auditing and independence standards of the foreign associated firm's domicile country and those applicable in the U.S.; and
 - (iii) any significant auditing, accounting, financial reporting, and independence matters that come to the attention of the filing reviewer when performing the procedures described above, including how any such matters were addressed and resolved by the audit partner-in-charge of the engagement.
- (3) Documenting the results of the procedures performed.

The procedures performed by the filing reviewer described above do not relieve the audit partner-in-charge of the engagement of any of the responsibilities for the performance of the audit of, and the report rendered by the foreign associated firm on, the financial statements included in the document to be filed with the SEC. Also, the filing reviewer does not assume any of the responsibilities of the audit partner-in-charge of the engagement or of any concurring reviewer.

Because of the limited nature of the procedures described above, it is recognized that the filing reviewer can not and does not assume any responsibility for detecting a departure from, or non-compliance with, accounting, auditing, and independence standards generally accepted in the U.S., independence requirements of the SEC and ISB, or SEC rules and regulations.

- b. *Inspection Procedures*—The policies and procedures should address the review of a sample of audit engagements performed by foreign associated firms for clients that are SEC registrants. Such reviews may be performed as part of an annual inspection program of the international organization or the individual foreign associated firms. The reviews of engagements should be performed by a person or persons knowledgeable in accounting, auditing, and independence standards generally accepted in the U.S., independence requirements of the SEC and ISB, and SEC rules and regulations in areas where such rules and regulations are pertinent (the "inspection reviewer"). The need for knowledge of relevant specialized industry practices should be considered.

Based on the procedures performed, the inspection reviewers should determine whether anything came to their attention to cause them to believe that:

- (1) the financial statements were not presented in all material respects in conformity with accounting principles generally accepted in the U.S. or, if applicable, the footnote reconciliation of the financial statements to U.S. GAAP did not include appropriate treatment of the material reconciling items,

- (2) the audit engagement was not performed in accordance with auditing standards generally accepted in the U.S.,
 - (3) the document(s) filed with the SEC did not comply as to form of the financial statements (and related schedules) with pertinent SEC rules and regulations for such filings,
 - (4) the foreign associated firm did not comply with the applicable U.S. independence standards, including independence requirements of the SEC and ISB with respect to the SEC registrant, or
 - (5) the foreign associated firm did not comply with procedures consistent with those described in .01a. above.
- c. *Disagreements*—The policies and procedures should provide that if the filing or inspection reviewer and the audit partner-in-charge of the engagement have conflicting views as to the resolution of matters that came to the attention of the filing or inspection reviewer when performing the procedures for certain filings or inspection described above, that disagreement should be resolved in accordance with the applicable policy of the international organization or of the filing or inspection reviewer's firm.

SECPS Section 1000.46 Appendix L—Independence Quality Controls

Introduction

Member firms¹ must comply with the applicable independence standards promulgated by the American Institute of Certified Public Accountants (AICPA), Independence Standards Board (ISB), and the Securities and Exchange Commission (SEC). The importance of compliance with such independence standards, and the quality control standards promulgated by the AICPA, should be reinforced by the management of the member firm, thereby setting the appropriate "tone at the top" and instilling its importance into the professional values and culture of the member firm. Member firm management should also foster an environment where the seriousness and importance of compliance can be evidenced in many forms, such as the member firm's commitment to the training of professionals on independence policies and the action taken in the case of non-compliance with such policies.

Requirements

1. Each member firm shall establish written independence policies covering relationships with "restricted entities," for example, relationships between the restricted entity and the member firm (including, where applicable, its foreign-associated firms²), its benefit plans, and its professionals. These policies shall be written in language, to the extent possible, that is clear, concise, and

¹ For purposes of this requirement, *member firm*, unless otherwise noted, means the U.S. firm that is the member of the SEC Practice Section.

² For purposes of this requirement, a *foreign-associated firm* is an organization outside of the United States and its territories that would normally include only those organizations that are reported on the member firm's annual report to the SECPS in accordance with §1000.08(n) and Appendix K of the SECPS Reference Manual, but could include other organizations based on facts and circumstances.

tailored to each member firm's independence policies and procedures, given the complexity of the member firm's practice. These relationships would include investments, loans, brokerage accounts, business relationships, employment relationships, proscribed services, and fee arrangements. For purpose of this membership requirement, "restricted entities" shall include all audit clients of the member firm, and to the extent applicable its foreign-associated firms, that are SEC registrants and other entities³ that the member firm is required to be independent of under the applicable SEC requirements.

- a. Persons classified as "professional staff" (including partners) in a member firm's annual report to the SEC Practice Section (SECPS) shall be considered "professionals" for this purpose.
- b. For purposes of implementing these requirements, the term "SEC registrant" is defined as (1) an issuer making an initial filing, including amendments, under the Securities Act of 1933 or the Securities Exchange Act of 1934 ("Exchange Act"); (2) a registrant that files periodic reports under the Investment Company Act of 1940 or the Exchange Act; (3) a bank or other lending institution that files periodic reports under the Exchange Act with the Comptroller of the Currency, the Federal Reserve System, the Federal Deposit Insurance Corporation, or the Office of Thrift Supervision; (4) a company whose financial statements appear in the annual report or proxy statement of an investment fund because it is a sponsor or manager of such a fund, but which is not itself a registrant required to file periodic reports under the Investment Company Act of 1940 or section 13 or 15(d) of the Exchange Act; and (5) a foreign private issuer defined by Rule 405 of Regulation C under the Securities Act of 1933 and Rule 3b-4(c) under the Exchange Act that has securities registered or has filed a registration statement with the SEC.

2. The member firm's independence policies shall be provided or otherwise made available to all professionals, as defined in paragraph 1a. Substantive changes to the member firm's policies shall be provided or otherwise made available on a timely basis.

3. The member firm shall establish a training program to provide reasonable assurance that professionals understand the member firm's independence policies. Each professional performing professional services for clients shall complete near the time of initial employment and periodically thereafter, independence training as required by the member firm's policies. The specific content and extent and timing of the independence training requirements shall be determined by the member firm's policies, but shall include the relevant rules regarding investments, loans, brokerage accounts, business relationships, employment relationships, proscribed services and fee arrangements.

4. Each member firm shall maintain a database ("Restricted Entity List") that includes all restricted entities, as described in paragraph 1. The member firm's policies should explain why, when and how SEC registrant audit clients (and other related entities as discussed above) are to be placed on the Restricted Entity List. For member firms that provide an annual audit to more than 500 SEC registrants, an automated system to identify investment holdings of partners and managers that might impair independence is required. Member firms that provide an annual audit to more than 500 SEC registrants are required to

³ For practical purposes, member firms may exclude entities whose securities are not available for public sale.

have the automated system in place by December 31, 2000 or within a reasonable transition period upon achieving that number, not to exceed one year.

5. Each member firm shall designate a senior-level partner responsible for: (1) overseeing the adequate functioning of the independence policies of and the consultation process within the member firm; (2) providing or otherwise making the Restricted Entity List readily available to all professionals; (3) keeping the Restricted Entity List updated on at least a monthly basis; and (4) communicating additions to the Restricted Entity List on a timely basis (generally monthly).

6. Member firms that have foreign-associated firms shall provide or otherwise make available the member firm's independence policies, required in paragraph 1, and its Restricted Entity List, required in paragraph 4, to its foreign-associated firms, including the partners and managers therein. This may be accomplished directly by the member firm, by an international organization of which the member firm is a participating firm, or by a foreign-associated firm.

7. Each member firm's independence policies and procedures should specifically require the following:

- a.* Prior to obtaining any security or other financial interest in an entity, professionals should review the Restricted Entity List to determine whether the entity is included thereon. This review would also be required by the professional's spouse and dependents.
- b.* Each professional shall certify near the time of initial employment and at least annually thereafter that he or she (1) has read the member firm's independence policies, (2) understands their applicability to his or her activities and those of his or her spouse and dependents, and (3) has complied with the requirements of the member firm's independence policies since the prior certification.⁴
- c.* Each professional shall report apparent violations of policies involving himself or herself and his or her spouse and dependents and the corrective action taken or proposed to be taken on a timely basis when identified. Reporting apparent violations under this requirement would not include, for example, timely disposition of client securities resulting from additions to the Restricted Entity List or upon becoming subject to the independence rules of the ISB, SEC or AICPA.
- d.* Each member firm shall have a monitoring system under the supervision of the senior-level partner designated in 5. above to determine that adequate corrective steps are taken and documented on all apparent violations reported by professionals within the member firm. The monitoring system should include procedures to provide reasonable assurance that (i) investments of the member firm and its benefit plans are in compliance with the member firm's policies and (ii) information received from its partners and managers is complete and accurate. The monitoring system will generally include auditing, on a sample basis, selected information such as brokerage statements, or alternative procedures that accomplish the same objective.

⁴ The provisions of paragraph 7*b* are effective April 1, 2000 and shall be applied prospectively.

- e. Each member firm shall develop as part of its policies, guidelines for actions to be taken against professionals for violations of independence. These policies will describe the potential sanctions to levy against those professionals for violating member firm policies and procedures or professional independence requirements.

Effective Date

Unless otherwise stated, all requirements with respect to the member firm are effective December 31, 2000. All requirements with respect to a member firm's foreign-associated firms are effective January 1, 2002.

SECPS Section 8000

Continuing Professional Education Requirements Effective for Educational Years Beginning After May 31, 2002

Basic Requirements

.01 Continuing Professional Education (CPE) is the term used by the SEC Practice Section to describe educational activities that assist a member firm's professionals (as defined in paragraph 8000.09) in achieving and maintaining quality in professional service.

This section sets forth the requirements of SEC Practice Section member firms with respect to CPE as summarized into three categories, (1) Record-keeping for each professional to ensure that each professional adheres to all CPE requirements (2) Adherence to standards for CPE program sponsors for each program sponsored by the member firm and (3) Compliance with additional CPE requirements of the SEC Practice Section.

CPE Record-keeping Requirements

.02 A member firm shall require and monitor all professionals in the member firm, regardless of whether they are AICPA members, to adhere to the following **AICPA Policies for the CPE Membership Requirement** ("**AICPA CPE Policies**"), See Appendix A of Section 8000 for these detailed policies):

- **Part II Basic Requirements**
 - **Item A—Members in Public Practice**
 - **Item G—Documentation and Record Retention**
- **Part III Qualifying Programs**
- **Part IV Exceptions**

.03 A member firm shall require and monitor all professionals in the member firm, regardless of whether they are AICPA members, to adhere to the following **Statement on Standards for CPE Programs Issued Jointly By the AICPA and NASBA** ("**AICPA CPE Standards**"), See Appendix B of Section 8000 for these detailed standards):

- **Section 100—Preamble**
- **Section 200—Standards for CPAs**

.04 All *professionals* in the member firm, regardless of whether they are AICPA members, shall be required to adhere to these AICPA CPE Policies and AICPA CPE Standards. Accordingly, for purposes of applying these rules in the SEC Practice Section, the term *member* as used in the AICPA CPE Policies and the AICPA CPE Standards, shall mean all *professionals* in the member firm.

.05 Except as provided in SECPS §8000.08(g), each member firm must maintain appropriate records for each professional for its most recent five

educational years. These records should contain the following information for each continuing professional education activity for which credit is claimed for the individual:

- a. Sponsoring organization
 - b. Title of program and description of content
 - c. Date(s) attended or completed
 - d. Location of program (city/state)
 - e. Number of continuing professional education contact hours
 - f. Appropriate evidence of completion
- .06** Acceptable evidence of completion includes:
- a. For group programs, a certificate or other verification supplied by the sponsor
 - b. For a university or college course that is successfully completed for credit, a record of the grade the person received; for a non-credit course, a record of attendance and completion
 - c. For self-study programs, a certificate supplied by the sponsor after satisfactory completion of a workbook or examination
 - d. For instruction credit, evidence obtained from the sponsor of having been the instructor or discussion leader at a program
 - e. For published articles, books, or continuing professional education programs, evidence of publication

Requirements for Program Sponsors

.07 Each CPE program sponsored by the member firm shall adhere to the following AICPA CPE Standards, (See Appendix B of Section 8000 for these detailed standards):

- Section 300—Standards For CPE Program Sponsors

Additional CPE Requirements of the SEC Practice Section

.08 In addition to the requirements of §8000.02 to §8000.07 above, each SEC Practice Section member firm shall adhere to and shall require and monitor its **professionals** to adhere to the following:

- (a) **Selection of an Educational Year**—Each member firm shall select any consistently applied year-long period (educational year) for applying these CPE policies. The educational year may differ from the member firm's fiscal year; however, both periods are to be specified in the annual report filed with the SECPS.¹ (See SECPS §1000.08g.) A change in a member firm's educational year shall be stated in the firm's annual report for the year in which the change is made.

¹ When mandatory continuing professional education requirements for state licensing or for state society membership provide that the period to be used for determining compliance with those requirements shall vary by individuals (for example, the period might coincide with the date of the individual's license to practice), such periods may be used for determining whether there was compliance with the SECPS's continuing professional education requirements during the firm's educational year.

Additionally, firms with offices in more than one state that are required to employ different periods in each state for maintaining compliance with continuing professional education requirements are deemed to be in compliance with the SECPS's requirements.

- (b) **Partial Employment Years**—Each member firm shall adhere to and monitor compliance of each of its professionals with the SEC Practice Section CPE requirements during each **full educational year** of the professional's employment with the firm. Except as required by other regulatory bodies referred to in paragraph 8000.08(e) below, these requirements do not apply to professionals during their year of hire or year of termination.²
- (c) **3-Year and Annual Minimum CPE Requirements**—In accordance with the Section's membership requirement, (See §1000.08(d)), all professionals shall obtain at least 20 credits (hours) of qualifying CPE annually and at least 120 credits (hours) every three years (which includes the three most recently completed educational years through the peer review year end).
- (d) **Accounting and Auditing CPE Requirement**—In accordance with the Section's membership requirement, (See §1000.08(d)):
- a. All professionals who devote at least 25% of their time to performing audit, review or other attest engagements (excluding compilations) or
- b. All professionals who have the partner / manager-level responsibility for the overall supervision or review of any such engagement
- shall obtain at least 8 credits (hours) annually and 48 credits (hours) every three years of CPE in subjects related to accounting and auditing. The term *accounting and auditing subjects* should be broadly interpreted, and for example, include subjects relating to the business or economic environments of the entities to which the professional is assigned.
- (e) **Other Regulatory Bodies**—Member firms are responsible to ensure that professionals not only meet the specific CPE requirements of the SECPS, but also meet the CPE requirements of relevant state licensing bodies and other governmental entities.
- (f) **Grace Period**—Professionals who have not met all SEC Practice Section CPE credit (hourly) requirements in Appendix A as noted in paragraph 8000.02, paragraph 8000.03, paragraph 8000.08(c), and paragraph 8000.08(d) during either an educational year or a triennial educational period, shall have two months immediately following the period(s) to cure the deficiency. However, any hours used to make up a prior deficiency, may not also be counted towards the current period(s) requirement.
- (g) **New SECPS Member Firms**—New member firms shall elect an educational year, which begins within twelve months of the firm joining the SECPS. New member firms will be subject to all SECPS CPE requirements effective upon the commencement of the firm's first educational year.

² Member firms have a responsibility to adopt policies and procedures that provide reasonable assurance that all professional personnel are properly trained. The nature and extent of training needed by part-time personnel depend on a number of factors, including the type of work they perform, the degree of supervision they receive, and the number of hours they work. A firm should be prepared to justify any decision not to require a part-time professional to participate in the required number of continuing professional education hours.

.09 Professional Defined—Persons classified as "professional staff" (including partners) in a member firm's annual report to the SEC Practice Section (SECPS) shall be considered "professional" for purposes of these continuing professional education policies. (See SECPS §1000.08g(5)). Professionals shall include all CPA and non-CPA professionals who reside in the United States.

Appendix A—AICPA Policies for the CPE Membership Requirement

Revised December 2001

I. GENERAL

- A. **Purpose**—The purpose of the continuing professional education (CPE) requirement is to increase the professional competence of each member. Members are expected to maintain the high standards of the profession by selecting quality education programs to fulfill their continuing education requirements. Members will have wide latitude in selecting continuing education programs suitable to their professional activities. This policy contains the following sections:

General	I.
Basic Requirements	II.
Qualifying Programs	III.
Exceptions	IV.
Audits of CPE	V.

- B. **AICPA vs. State Requirements**—Members of the American Institute of Certified Public Accountants (AICPA) who are Certified Public Accountants licensed in specific states and/or who are members of their respective state CPA societies are cautioned that the AICPA's CPE policy, while similar in many respects to the state boards of accountancy and state CPA society policies, is not identical. For example, the AICPA's continuing education requirement covers a three-year period in contrast to the states' one- two- or three-year periods, and some states may not award CPE credit for some subjects. Thus, complying with the AICPA's policy may not necessarily maintain membership in state CPA societies or provide for continued state licensing or certification. Individuals should carefully consult the relevant state boards of accountancy and/or state CPA society guidance to ensure compliance.
- C. **Effective Date**—These policies apply to all members and became effective as of January 1, 1990.
- D. **Failure to Meet CPE Requirements**—Failure to meet the CPE requirements will, unless the requirement is waived under section IV, result in a loss of membership in the AICPA.

II. BASIC REQUIREMENTS

- A. **Members**—From January 1, 2001, forward and for each three-year reporting period thereafter, all AICPA members shall complete 120 hours, or its equivalent, of continuing professional education. Compliance can be achieved either by a formal program of education or by any other means, however measured, that would be reasonably expected to maintain professional competencies in the member's area of practice or employment. Members shall report compliance with such requirement to the AICPA each year and shall keep appropriate records and submit copies of such on request of the Institute.

- B. **New Members**—For those individuals joining the AICPA on January 1, 1990, and thereafter ("new members"), the three-year reporting period and the CPE requirements begin in the calendar year following the year membership commences. For example, a new member in calendar year 1993 begins a three-year reporting period on January 1, 1994, which ends December 31, 1996, and is required, beginning for the calendar year 1994, to comply with the CPE requirements set forth above.
- C. **Reinstatement**—Individuals applying for reinstatement who have voluntarily or involuntarily lost their membership or come out of retirement or inactive status shall be treated as "new members." Their new three-year reporting period for CPE requirements begins in the calendar year following their reinstatement.
- D. **Changing Status**—Members changing from or to public practice do not begin a new three-year reporting period. However, the CPE requirement shall be adjusted to the following three-year totals:

	<i>Year of Change</i>		
	<u><i>Year 1</i></u>	<u><i>Year 2</i></u>	<u><i>Year 3</i></u>
To Public Practice	120	110	100
From Public Practice	100	110	120

- E. **Grace Period**—Any member who has not completed the required number of hours during a reporting period will be allowed the two months immediately following the period to make up the deficiency. Hours credited toward a deficiency during this two-month period may not be counted toward the annual minimum requirement of the educational year in which they are taken. Furthermore, any continuing professional education hours claimed during the two-month period to make up any deficiency for the preceding three-year period may not be counted toward the requirement for the three-year reporting period in which they are taken.
- F. **Reporting**—No separate reporting is required. By paying their dues each year, members affirm they are in compliance with the CPE membership requirements. Members should keep detailed records of the CPE they complete in the event they are selected to verify their compliance. See the next section for information that should be retained.
- G. **Documentation and Records Retention**—Members of the AICPA bear the primary responsibility of documenting that they have complied with the CPE requirements. They should retain evidence of satisfactory completion for a period of five years after the completion of the educational programs. For each CPE program completed, members should be able to document the following:
1. Sponsor
 2. Title and description of content
 3. Date(s)
 4. Location
 5. Number of CPE contact hours.

III. QUALIFYING PROGRAMS

Members have wide latitude in selecting continuing professional education suitable to their professional activities. The underlying principle is that all programs should contribute to a member's professional competence. Acceptable subjects include the fields of study set forth in the AICPA National CPE Curriculum: accounting and auditing, consulting services, specialized knowledge and applications, management, personal development, and taxation. Other subjects may also be acceptable if they maintain and/or increase the accounting professional's competence. Members have the option of selecting programs that relate to their specific jobs. For example, a member in industry who is engaged in marketing activities may fulfill the requirement by completing continuing education in marketing and a member who owns or operates a small business may complete CPE that relates to running that business.

Members may participate in CPE programs sponsored by a wide variety of organizations including, but not limited to, the AICPA, state societies of CPAs, other professional associations, colleges and universities, and their own firms. Service as an instructor at a CPE program may qualify when it increases the instructor's professional competence. Writing published articles, books or CPE programs may also qualify.

CPE credit should be measured in whole hours and claimed only for the time a group study program is actually attended. (CPE credit is measured in 50-minute "contact hours.") CPE credit for self-study programs is recommended by the sponsor and must be documented by a certificate or other evidence of completion.

Ultimately the CPE credit claimed is the responsibility of the individual member. Each member must only claim credit for the formal programs of learning he or she actually completed that contributed to his or her professional competence.

For more detailed information about qualifying programs, please refer to the *Statement on Standards for Continuing Professional Education (CPE) Programs* which is included here [sections 100–400] as part of these policies. Members must comply with those standards that apply to individual accounting professionals—namely, the standards in these sections: General Standards, Standards for CPE Program Measurement, and Standards for CPE Program Reporting. The other two sections contain standards that apply to program developers and program sponsors. To the extent a member is in the role of a program developer or sponsor, he or she must also comply with the developer and sponsor standards. Members are not responsible to see that the program developers and sponsors of programs they attend are in compliance with the CPE standards.

IV. EXCEPTIONS

- A. **General**—Members may request a waiver if they are prohibited from fulfilling the CPE requirements for the reasons set forth below. Such requests must be submitted in writing to the CPE Division of the AICPA. When the status changes from the one for which the exception applies, the CPE requirement begins in the calendar year following the change.
 1. **Foreign Residency**—The request should include the country of residence, the name of the employer, the principal duties and responsibilities performed, and

the reasons foreign residency prohibits fulfilling the requirement.

2. **Health**—The request should include the nature of the illness, the name and address of the attending physician, and the reason the illness prohibits fulfilling the requirement.
 3. **Military Service**—The request should include the principal duties performed, where stationed, the name and address of member's commanding officer, and the reason why military service prohibits fulfilling the requirement.
 4. **Other Similar Reasons**—The request should include the nature of the hardship and the reason why it prohibits fulfilling the CPE requirement.
- B. **Retired and Inactive Members**—For purposes of the CPE requirement, "retired" and "inactive" mean a member is in one of those categories for paying AICPA dues. Retired members and inactive members who are unemployed or have left the workforce to raise a family are exempt from the CPE requirement. Members who are retired or exempt for any part of the year are exempt for the full year.

V. AUDITS OF CPE

The AICPA will verify compliance on a test basis. The extent and scope of such examination will be determined and administered by the AICPA.

Appendix B—AICPA Statement on Standards For Continuing Professional Education Programs

The following standards are issued jointly by the AICPA and NASBA.

Section 100—Preamble

01. The right to use the title "Certified Public Accountant" (CPA) is regulated in the public interest and imposes a duty to maintain public confidence and current knowledge, skills, and abilities in all areas in which they provide services. CPAs must accept and fulfill their ethical responsibilities to the public and the profession regardless of their fields of employment.³

02. The profession of accountancy is characterized by an explosion of relevant knowledge, ongoing changes and expansion, and increasing complexity. Advancing technology, globalization of commerce, increasing specialization, proliferating regulations, and the complex nature of business transactions have created a dynamic environment that requires CPAs to continuously maintain and enhance their knowledge, skills, and abilities.

03. The continuing development of professional competence involves a program of lifelong educational activities. Continuing Professional Education (CPE) is the term used in these standards to describe the educational activities that assist CPAs in achieving and maintaining quality in professional services.

04. The following standards have been broadly stated in recognition of the diversity of practice and experience among CPAs. They establish a framework for the development, presentation, measurement, and reporting of CPE programs and thereby help to ensure that CPAs receive the quality CPE necessary to satisfy their obligations to serve the public interest.

Section 200—Standards for CPAs

General Standards

01. Standard No. 1. All CPAs should participate in learning activities that maintain and/or improve their professional competence.⁴

02. Commentary. Selection of learning activities should be a thoughtful, reflective process addressing the individual CPA's current and future professional plans, current knowledge and skills level, and desired or needed additional competence to meet future opportunities and/or professional responsibilities.

03. CPAs' fields of employment do not limit the need for CPE. CPAs performing professional services need to have a broad range of knowledge, skills,

³ The term "CPAs" is used in these standards to identify all persons who are licensed and/or regulated by boards of accountancy.

⁴ The terms "should" and "must" are intended to convey specific meanings within the context of this *Joint AICPA/NASBA Statement on Standards for Continuing Professional Education Programs* [sections 100–400]. The term "must" is used only in the standards applying to CPE program sponsors to convey that CPE program sponsors are not permitted any departure from those specific standards. The term "should" is used in the standards applying to both CPAs and CPE program sponsors and is intended to convey that CPAs and CPE program sponsors are expected to follow such standards as written and are required to justify any departures from such standards when unusual circumstances warrant such departures.

and abilities. Thus, the concept of professional competence should be interpreted broadly. Accordingly, acceptable continuing education encompasses programs contributing to the development and maintenance of both technical and non-technical professional skills.

04. Acceptable subjects include accounting, assurance/auditing, consulting services, specialized knowledge and applications, management, taxation, and ethics. Other subjects, including personal development, may also be acceptable if they maintain and/or improve the CPA's professional competence.

05. To help guide their professional development, CPAs may find it useful to develop a learning plan (see definition in Glossary [section 400.15]). The learning plan can be used to evaluate learning and professional competence development. It should be reviewed periodically and modified as professional competence needs change.

06. Standard No. 2. CPAs should comply with all applicable CPE requirements and should claim CPE credit only for CPE programs when the CPE program sponsors have complied with the Standards for CPE Program Presentation (Nos. 8–11) and Standard for CPE Program Reporting No. 17.

07. Commentary. CPAs are responsible for compliance with all applicable CPE requirements, rules, and regulations of state licensing bodies, other governmental entities, membership associations, and other professional organizations or bodies. CPAs should contact each appropriate entity to which they report to determine its specific requirements or any exceptions it may have to the standards presented herein.

08. Periodically, CPAs participate in learning activities which do not comply with all applicable CPE requirements, for example specialized industry programs offered through industry sponsors. If CPAs propose to claim credit for such learning activities, they should retain all relevant information regarding the program to provide documentation to state licensing bodies and/or all other professional organizations or bodies that the learning activity is equivalent to one which meets all these Standards.

09. Standard No. 3. CPAs are responsible for accurate reporting of the appropriate number of CPE credits earned and should retain appropriate documentation of their participation in learning activities, including: (1) name and contact information of CPE program sponsor, (2) title and description of content, (3) date(s) of program, (4) location (if applicable), and (5) number of CPE credits, all of which should be included in documentation provided by the CPE program sponsor.

10. Commentary. To protect the public interest, regulators require CPAs to document maintenance and enhancement of professional competence through periodic reporting of CPE. For convenience, measurement is expressed in CPE credits. However, the objective of CPE must always be maintenance/enhancement of professional competence, not attainment of credits. Compliance with regulatory and other requirements mandates that CPAs keep documentation of their participation in activities designed to maintain and/or improve professional competence. In the absence of legal or other requirements, a reasonable policy is to retain documentation for a minimum of five years from the end of the year in which the learning activities were completed.

11. Participants must document their claims of CPE credit. Examples of acceptable evidence of completion include:

- For group and independent study programs, a certificate or other verification supplied by the CPE program sponsor.

- For self-study programs, a certificate supplied by the CPE program sponsor after satisfactory completion of an examination.
- For instruction credit, a certificate or other verification supplied by the CPE program sponsor.
- For a university or college course that is successfully completed for credit, a record or transcript of the grade the participant received.
- For university or college non-credit courses, a certificate of attendance issued by a representative of the university or college.
- For published articles, books, or CPE programs, (1) a copy of the publication (or in the case of a CPE program, course development documentation) that names the writer as author or contributor, (2) a statement from the writer supporting the number of CPE hours claimed, and (3) the name and contact information of the independent reviewer(s) or publisher.

12. Standard No. 4. CPAs who complete sponsored learning activities that maintain or improve their professional competence should claim the CPE credits recommended by CPE program sponsors.

13. Commentary. CPAs may participate in a variety of sponsored learning activities, such as workshops, seminars and conferences, self-study courses, Internet-based programs, and independent study. While CPE program sponsors determine credits, CPAs should claim credit only for activities through which they maintained or improved their professional competence. CPAs who participate in only part of a program should claim CPE credit only for the portion they attended or completed.

14. Standard No. 5. CPAs may engage in independent study under the direction of a CPE program sponsor who has met the applicable standards for CPE program sponsors when the subject matter and level of study maintain or improve their professional competence.

15. Commentary. Independent study is an educational process designed to permit a participant to learn a given subject under the guidance of a CPE program sponsor one-on-one. Participants in an independent study program should:

- Enter into a written learning contract with a CPE program sponsor who must comply with the applicable standards for CPE program sponsors.
- Accept the written recommendation of the CPE program sponsor as to the number of credits to be earned upon successful completion of the proposed learning activities. CPE credits will be awarded only if:
 1. All the requirements of the independent study as outlined in the learning contract are met,
 2. The CPE program sponsor reviews and signs the participant's report,
 3. The CPE program sponsor reports to the participant the actual credits earned, and
 4. The CPE program sponsor provides the participant with contact information.

The credits to be recommended by an independent study CPE program sponsor should be agreed upon in advance and should be equated to the effort expended to improve professional competence. The credits

cannot exceed the time devoted to the learning activities and may be less than the actual time involved.

- Retain the necessary documentation to satisfy regulatory requirements as to the content, inputs, and outcomes of the independent study.
- Complete the program of independent study in 15 weeks or less.

Section 300—Standards for CPE Program Sponsors

General Standards

01. Standard No. 1. CPE program sponsors are responsible for compliance with all applicable standards and other CPE requirements.

02. Commentary. CPE program sponsors may have to meet specific CPE requirements of state licensing bodies, other governmental entities, membership associations, and/or other professional organizations or bodies. Professional guidance for CPE program sponsors is available from the AICPA and NASBA; state-specific guidance is available from the state boards of accountancy. CPE program sponsors should contact the appropriate entity to determine requirements.

Standards for CPE Program Development

03. Standard No. 2. Sponsored learning activities must be based on relevant learning objectives and outcomes that clearly articulate the knowledge, skills, and abilities that can be achieved by participants in the learning activities.

04. Commentary. Learning activities provided by CPE program sponsors for the benefit of CPAs should specify the level, content, and learning objectives so that potential participants can determine if the learning activities are appropriate to their professional competence development needs. Levels include, for example, basic, intermediate, advanced, update, and overview (see definitions in Glossary [section 400]).

05. Standard No. 3. CPE program sponsors should develop and execute learning activities in a manner consistent with the prerequisite education, experience, and/or advance preparation of participants.

06. Commentary. To the extent it is possible to do so, CPE program sponsors should make every attempt to equate program content and level with the backgrounds of intended participants. All programs must clearly identify prerequisite education, experience, and/or advance preparation, if any, in precise language so that potential participants can readily ascertain whether they qualify for the program.

07. Standard No. 4. CPE program sponsors must use activities, materials, and delivery systems that are current, technically accurate, and effectively designed. CPE program sponsors must be qualified in the subject matter.

08. Commentary. To best facilitate the learning process, sponsored programs and materials must be prepared, presented and updated timely. Learning activities must be developed by individuals or teams having expertise in the subject matter. Expertise may be demonstrated through practical experience or education.

09. CPE program sponsors must review the course materials periodically to assure that they are accurate and consistent with currently accepted standards relating to the program's subject matter.

10. Standard No. 5. CPE program sponsors of group and self-study programs must ensure learning activities are reviewed by qualified persons other than those who developed them to assure that the program is technically accurate and current and addresses the stated learning objectives. These reviews must occur before the first presentation of these materials and again after each significant revision of the CPE programs.

11. Commentary. Individuals or teams qualified in the subject matter must review programs. When it is impractical to review certain programs in advance, such as lectures given only once, greater reliance should be placed on the recognized professional competence of the instructors or presenters. Using independent reviewing organizations familiar with these standards may enhance quality assurance.

12. Standard No. 6. CPE program sponsors of independent study learning activities must be qualified in the subject matter.

13. Commentary. A CPE program sponsor of independent study learning activities must have expertise in the specific subject area related to the independent study. The CPE program sponsor must also:

- Review, evaluate, approve and sign the proposed independent study learning contract, including agreeing in advance on the number of credits to be recommended upon successful completion.
- Review and sign the written report developed by the participant in independent study.
- Retain the necessary documentation to satisfy regulatory requirements as to the content, inputs, and outcomes of the independent study.

14. Standard No. 7. Self-study programs must employ learning methodologies that clearly define learning objectives, guide the participant through the learning process, and provide evidence of a participant's satisfactory completion of the program.

15. Commentary. To guide participants through a learning process, CPE program sponsors of self-study programs must elicit participant responses to test for understanding of the material, offer evaluative feedback to incorrect responses, and provide reinforcement feedback to correct responses. To provide evidence of satisfactory completion of the course, CPE program sponsors of self-study programs must require participants to successfully complete a final examination with a minimum-passing grade of at least 70 percent before issuing CPE credit for the course. Examinations may contain questions of varying format, (for example, multiple-choice, essay and simulations.) If objective type questions are used, at least five questions per CPE credit must be included on the final examination. For example, the final examination for a five-credit course must include at least 25 questions.

16. Self-study programs must be based on materials specifically developed for instructional use. Self-study programs requiring only the reading of general professional literature, IRS publications, or reference manuals followed by a test will not be acceptable. However, the use of the publications and reference materials in self-study programs as supplements to the instructional materials could qualify if the self-study program complies with each of the CPE standards.

Standards for CPE Program Presentation

17. Standard No. 8. CPE program sponsors must provide descriptive materials that enable CPAs to assess the appropriateness of learning activities. To accomplish this, CPE program sponsors must inform participants in advance of:

- **Learning objectives.**
- **Prerequisites.**
- **Program level.**
- **Program content.**
- **Advance preparation.**
- **Instructional delivery methods.**
- **Recommended CPE credit.**
- **Course registration requirements.**

18. Commentary. For potential participants to effectively plan their CPE, the program sponsor should disclose the significant features of the program in advance (e.g., through the use of brochures, Internet notices, invitations, direct mail, or other announcements). When CPE programs are offered in conjunction with noneducational activities, or when several CPE programs are offered concurrently, participants should receive an appropriate schedule of events indicating those components that are recommended for CPE credit. The CPE program sponsor's registration policies and procedures should be formalized, published, and made available to participants.

19. CPE program sponsors should distribute program materials timely and encourage participants to complete any advance preparation requirements. All programs should clearly identify prerequisite education, experience, and/or advance preparation requirements, if any, in the descriptive materials. Prerequisites should be written in precise language so that potential participants can readily ascertain whether they qualify for the program.

20. Standard No. 9. CPE program sponsors must ensure instructors are qualified with respect to both program content and instructional methods used.

21. Commentary. Instructors are key ingredients in the learning process for any group program. Therefore, it is imperative that CPE program sponsors exercise great care in selecting qualified instructors for all group programs. Qualified instructors are those who are capable, through training, education, or experience of communicating effectively and providing an environment conducive to learning. They should be competent and current in the subject matter, skilled in the use of the appropriate instructional methods and technology, and prepared in advance.

22. CPE program sponsors should evaluate the instructor's performance at the conclusion of each program to determine the instructor's suitability to serve in the future.

23. Standard No. 10. CPE program sponsors must employ an effective means for evaluating learning activity quality with respect to content and presentation, as well as provide a mechanism for participants to assess whether learning objectives were met.

24. Commentary. The objectives of evaluation are to assess participant satisfaction with specific programs and to increase subsequent program effectiveness. Evaluations, whether written or electronic, should be solicited from

participants and instructors for each program session, including self-study, to determine, among other things, whether:

- Stated learning objectives were met.
- If applicable, prerequisite requirements were appropriate.
- Program materials were accurate.
- Program materials were relevant and contributed to the achievement of the learning objectives.
- Time allotted to the learning activity was appropriate.
- If applicable, individual instructors were effective.
- Facilities and/or technological equipment was appropriate.
- Handout or advance preparation materials were satisfactory.
- Audio and video materials were effective.

25. CPE program sponsors should periodically review evaluation results to assess program effectiveness and should inform developers and instructors of evaluation results.

26. Standard No. 11. CPE program sponsors must ensure instructional methods employed are appropriate for the learning activities. Learning activities should be presented in a manner consistent with the descriptive and technical materials provided.

27. Commentary. CPE program sponsors should evaluate the instructional methods employed for the learning activities to determine if the delivery is appropriate and effective. Integral aspects in the learning environment that should be carefully monitored include the number of participants and the facilities and technologies employed in the delivery of the learning activity.

28. CPE program sponsors are expected to present learning activities that comply with course descriptions and objectives. Appropriate supplemental materials may also be used.

Standards for CPE Program Measurement

29. Standard No. 12. Sponsored learning activities are measured by program length, with one 50-minute period equal to one CPE credit. One-half CPE credit increments (equal to 25 minutes) are permitted after the first credit has been earned in a given learning activity.

30. Commentary. For learning activities in which individual segments are less than 50 minutes, the sum of the segments should be considered one total program. For example, five 30-minute presentations would equal 150 minutes and should be counted as three CPE credits. When the total minutes of a sponsored learning activity are greater than 50, but not equally divisible by 50, the CPE credits granted should be rounded down to the nearest one-half credit. Thus, learning activities with segments totaling 140 minutes should be granted two and one-half CPE credits.

31. While it is the participant's responsibility to report the appropriate number of credits earned, CPE program sponsors must monitor group learning activities to assign the correct number of CPE credits.

32. For university or college credit courses that meet these CPE Standards, each unit of college credit shall equal the following CPE credits:

- Semester System 15 credits
- Quarter System 10 credits

33. For university or college non-credit courses that meet these CPE standards, CPE credits shall be awarded only for the actual classroom time spent in the non-credit course.

34. Credit is not granted to participants for preparation time.

35. Only the portions of committee or staff meetings that are designed as programs of learning and comply with these standards qualify for CPE credit.

36. Standard No. 13. CPE credit for self-study learning activities must be based on a pilot test of the average completion time.

37. Commentary. A sample of intended professional participants should be selected to test program materials in an environment and manner similar to that in which the program is to be presented. The sample group of at least three individuals must be independent of the program development group and possess the appropriate level of knowledge before taking the program. The sample does not have to ensure statistical validity. CPE credits should be recommended based on the average completion time for the sample. If substantive changes are subsequently made to program materials further pilot tests of the revised program materials should be conducted to affirm or amend, as appropriate, the average completion time.

38. Standard No. 14. Instructors or discussion leaders of learning activities should receive CPE credit for both their preparation and presentation time to the extent the activities maintain or improve their professional competence and meet the requirements of these CPE standards.

39. Commentary. Instructors, discussion leaders, or speakers who present a learning activity for the first time should receive CPE credit for actual preparation time up to two times the number of CPE credits to which participants would be entitled, in addition to the time for presentation. For example, for learning activities in which participants could receive 8 CPE credits, instructors may receive up to 24 CPE credits (16 for preparation plus 8 for presentation). For repeat presentations, CPE credit can be claimed only if it can be demonstrated that the learning activity content was substantially changed and such change required significant additional study or research.

40. Standard No. 15. Writers of published articles, books, or CPE programs should receive CPE credit for their research and writing time to the extent it maintains or improves their professional competence.

41. Commentary. Writing articles, books, or CPE programs for publication is a structured activity that involves a process of learning. For the writer to receive CPE credit, the article, book, or CPE program must be formally reviewed by an independent party. CPE credits should be claimed only upon publication.

42. Standard No. 16. CPE credits recommended by a CPE program sponsor of independent study must not exceed the time the participant devoted to complete the learning activities specified in the learning contract.

43. Commentary. The credits to be recommended by an independent study CPE program sponsor should be agreed upon in advance and should be equated to the effort expended to improve professional competence. The credits cannot exceed the time devoted to the learning activities and may be less than the actual time involved.

Standards for CPE Program Reporting

44. Standard No. 17. CPE program sponsors must provide program participants with documentation of their participation, which includes the following:

- **CPE program sponsor name and contact information.**
- **Participant's name.**
- **Course title.**
- **Course field of study.**
- **Date offered or completed.**
- **If applicable, location.**
- **Type of instructional/delivery method used.**
- **Amount of CPE credit recommended.**
- **Verification by CPE program sponsor representative.**

45. Commentary. CPE program sponsors should provide participants with documentation to support their claims of CPE credit. Acceptable evidence of completion includes:

- For group and independent study programs, a certificate or other verification supplied by the CPE program sponsor.
- For self-study programs, a certificate supplied by the CPE program sponsor after satisfactory completion of an examination.
- For instruction credit, a certificate or other verification supplied by the CPE program sponsor.
- For a university or college course that is successfully completed for credit, a record or transcript of the grade the participant received.
- For university or college non-credit courses, a certificate of attendance issued by a representative of the university or college.
- For published articles, books, or CPE programs, (1) a copy of the publication (or in the case of a CPE program, course development documentation) that names the writer as author or contributor, (2) a statement from the writer supporting the number of CPE hours claimed, and (3) the name and contact information of the independent reviewer(s) or publisher.

46. Standard No. 18. CPE program sponsors must retain adequate documentation for five years to support their compliance with these standards and the reports that may be required of participants.

47. Commentary. Evidence of compliance with responsibilities set forth under these Standards which is to be retained by CPE program sponsors includes, but is not limited to:

- Records of participation.
- Dates and locations.
- Instructor names and credentials.
- Number of CPE credits earned by participants.
- Results of program evaluations.

Information to be retained by developers includes copies of program materials, evidence that the program materials were developed and reviewed by qualified parties, and a record of how CPE credits were determined.

48. For CPE program sponsors offering self-study programs, appropriate pilot test records must be retained regarding the following:

- When the pilot test was conducted.
- The intended participant population.
- How the sample was determined.
- Names and profiles of sample participants.
- A summary of participants' actual completion time.

Section 400—Glossary

01. Advanced. Learning activity level most useful for individuals with mastery of the particular topic. This level focuses on the development of in-depth knowledge, a variety of skills, or a broader range of applications.

Advanced level programs are often appropriate for seasoned professionals within organizations; however, they may also be beneficial for other professionals with specialized knowledge in a subject area.

02. Basic. Learning activity level most beneficial to CPAs new to a skill or an attribute. These individuals are often at the staff or entry level in organizations, although such programs may also benefit a seasoned professional with limited exposure to the area.

03. Continuing Professional Education (CPE). An integral part of the lifelong learning required to provide competent service to the public. The set of activities that enables CPAs to maintain and improve their professional competence.

04. CPE credit. Fifty minutes of participation in a group, independent study or self-study program. One-half CPE credit increments (equal to 25 minutes) are permitted after the first credit has been earned in a given learning activity.

05. CPE program sponsor. The individual or organization responsible for setting learning objectives, developing the program materials to achieve such objectives, offering a program to participants, and maintaining the documentation required by these standards. The term CPE program sponsor may include associations of CPAs, whether formal or informal, as well as employers who offer in-house programs.

06. Evaluative feedback. Specific response to incorrect answers to questions in self-study programs. Unique feedback must be provided for each incorrect response, as each one is likely to be wrong for differing reasons.

07. Group program. An educational process designed to permit a participant to learn a given subject through interaction with an instructor and other participants either in a classroom or conference setting or by using the Internet.

08. Independent study. An educational process designed to permit a participant to learn a given subject under a learning contract with a CPE program sponsor.

09. Instructional methods. Delivery strategies such as case studies, computer-assisted learning, lectures, group participation, programmed

instruction, teleconferencing, use of audiovisual aids, or work groups employed in group, self-study, or independent study programs.

10. Intermediate. Learning activity level that builds on a basic program, most appropriate for CPAs with detailed knowledge in an area. Such persons are often at a mid-level within the organization, with operational and/or supervisory responsibilities.

11. Internet-based programs. A learning activity, through a group program (paragraph .07 above) or a self-study program (paragraph .22 following), that is designed to permit a participant to learn the given subject matter via the Internet. To qualify as either a group or self-study program, the Internet learning activity must meet the respective standards.

12. Learning activity. An educational endeavor that maintains or improves professional competence.

13. Learning contract. A written contract signed by an independent study participant and a qualified CPE program sponsor prior to the commencement of the independent study that:

1. Specifies the nature of the independent study program and the time frame over which it is to be completed, not to exceed 15 weeks.
2. Specifies that the output must be in the form of a written report that will be reviewed by the CPE program sponsor or a qualified person selected by the CPE program sponsor.
3. Outlines the maximum CPE credit that will be awarded for the independent study program, but limits credit to actual time spent.

14. Learning objectives. Specifications on what participants should accomplish in a learning activity. Learning objectives are useful to program developers in deciding appropriate instructional methods and allocating time to various subjects.

15. Learning plans. Structured processes that help CPAs guide their professional development. They are dynamic instruments used to evaluate and document learning and professional competence development. This may be reviewed regularly and modified, as CPAs' professional competence needs change. Plans include:

- A self-assessment of the gap between current and needed knowledge, skills, and abilities;
- A set of learning objectives arising from this assessment; and
- Learning activities to be undertaken to fulfill the learning plan.

16. Overview. Learning activity level that provides a general review of a subject area from a broad perspective. These programs may be appropriate for professionals at all organizational levels.

17. Personal development. A field of study that covers such skills as communications, managing the group process, dealing effectively with others, interviewing, counseling, and career planning.

18. Pilot test. Sampling of at least three independent individuals representative of the intended participants to measure the average completion time to determine the recommended CPE credit for self-study programs.

19. Professional competence. Having requisite knowledge, skills, and abilities to provide quality services as defined by the technical and ethical standards of the profession. The expertise needed to undertake professional responsibilities and to serve the public interest.

20. Program of learning. A collection of learning activities that are designed and intended as continuing education and that comply with these standards.

21. Reinforcement feedback. Specific responses to correct answers to questions in self-study programs. Such feedback restates why the answer selected was correct.

22. Self-study program. An educational process designed to permit a participant to learn a given subject without major involvement of an instructor. Self-study programs use a pilot test to measure the average completion time from which the recommended CPE credit is determined.

23. Update. Learning activity level that provides a general review of new developments. This level is for participants with a background in the subject area who desire to keep current.

Effective Dates:

Unless otherwise established by state licensing bodies and/or other professional organizations, these Standards are to be effective as follows:

- For CPAs, group programs and independent study—January 1, 2002.
 - For self-study courses being published for the first time after December 31, 2002—upon publication.
 - For self-study courses already in existence as of December 31, 2002—January 1, 2004.
-

PCAOB STAFF QUESTIONS AND ANSWERS

.01 STAFF QUESTIONS AND ANSWERS

Audits of Financial Statements of Non-Issuers Performed Pursuant to the Standards of the Public Company Accounting Oversight Board

June 30, 2004

Summary

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to PCAOB Auditing Standard No. 1, *References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board* ("Auditing Standard No. 1"), were prepared by the Office of the Chief Auditor. Questions should be directed to C. Gregory Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org), or Thomas Ray, Deputy Chief Auditor (202/207-9112; rayt@pcaobus.org).

* * *

The Sarbanes-Oxley Act of 2002 (the "Act") directs the Public Company Accounting Oversight Board to establish auditing and related attestation, quality control, ethics and independence standards, to be used by registered public accounting firms in the preparation and issuance of audit reports of issuers.¹ The Act and PCAOB Rules require audits of issuers to be conducted in accordance with PCAOB standards. When issuing an audit report on the financial statements of an issuer, PCAOB Auditing Standard No. 1 requires registered public accounting firms to include a reference to "the standards of the Public Company Accounting Oversight Board (United States)." In contexts other than an audit of the financial statements of an issuer, however, auditors, whether registered or not, may be legally required to, or may agree voluntarily to, perform an engagement in accordance with PCAOB standards or some portion of

¹ Section 2(a) of the Act defines "issuer" as "an issuer (as defined in Section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c)), the securities of which are registered under Section 12 of the Act (15 U.S.C. 781), or that is required to file reports under Section 15(d)(15 U.S.C. 780(d)), or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 (15 U.S.C. 77a et seq.), and that it has not withdrawn."

those standards.² Auditors and other interested persons have raised questions about the implications of Auditing Standard No. 1, as well as the Act and other PCAOB rules, for such engagements. The following staff questions and answers seek to answer some of those questions.

Q1. Must a public accounting firm be registered with the PCAOB to perform an audit of a non-issuer according to PCAOB standards?

A1. No. The Sarbanes-Oxley Act requires only that those public accounting firms that prepare or issue, or participate in the preparation or issuance of, audit reports on the financial statements of issuers be registered.³

Q2. The PCAOB's Auditing Standard No. 1 requires the auditor to include a reference to "the standards of the Public Company Accounting Oversight Board (United States)" in audit reports on the financial statements of issuers. May an auditor refer to "the auditing standards of the Public Company Accounting Oversight Board (United States)" rather than to "the standards of the Public Company Accounting Oversight Board (United States)" in an audit report on an audit of the financial statements of a non-issuer that was performed in accordance with the Board's auditing standards?

A2. Yes. In an audit of the financial statements of a non-issuer, an auditor may wish to be clear that he or she adhered to only the auditing standards of the PCAOB; accordingly, the auditor may include the word "auditing" in the reference to the standards of the PCAOB. Registered public accounting firms, however, are not permitted to limit their reference to the "auditing standards" of the PCAOB in their audit reports on the financial statements of issuers.

Q3. What standards are included in a reference to "the standards of the Public Company Accounting Oversight Board (United States)"?

A3. A reference to "the standards of the Public Company Accounting Oversight Board (United States)" includes the standards of the Board that are applicable in the circumstances of the engagement. For example, in an audit of financial statements that does not involve the use of a specialist, the auditor would not be expected to follow the Board's interim auditing standard, Statement of Auditing Standards No. 73, "Using the Work of a Specialist." Similarly, in an audit of an entity that has immaterial inventory balances, the auditor would not be expected to follow the Board's interim auditing standard, AU Section 331, "Inventories," of Statement on Auditing Standards No. 1, "Codification of Auditing Standards and Procedures." On the other hand, the Board's interim auditing standard, Statement on Auditing Standards No. 99, "Consideration of Fraud in a Financial Statement Audit," would be applicable in all audits of financial statements conducted pursuant to the Board's standards. As another example, quality control standards generally apply to a firm's system of quality control over its accounting and auditing practice and not to individual audit engagements. Thus, a breakdown in the system of quality control does not necessarily mean that a particular audit was not conducted in accordance with the standards of the PCAOB. However, such a breakdown might result in a deficient audit if it caused or contributed to an audit deficiency. In addition, an auditor who states that he or she has performed the audit in accordance with

² See, e.g., Securities Exchange Act of 1934 Rule 17i-6(d), 17 CFR 240.17i-6(d) (requiring supervised investment bank holding companies to obtain an audit and review "in accordance with the rules promulgated by the Public Company Accounting Oversight Board").

³ The SEC has ordered that broker-dealers that are not issuers need not file with the Commission, and send to their customers, financial statements certified by a registered public accounting firm until January 1, 2005, unless rules are in place regarding Board registration of auditors of such broker-dealers that set an earlier date. See Notice, Broker-Dealer Financial Statement Requirements under Section 17 of the Exchange Act, Rel. No. 34-48281 (August 4, 2003).

the standards of the PCAOB must be in compliance with the applicable interim independence standards of the Board. These are examples only, and not an exhaustive list of standards that may be applicable to an engagement. While not required by PCAOB rules, auditors of issuers and other entities subject to the SEC's jurisdiction are reminded that they must also comply with applicable Commission requirements, including the Commission's auditor independence requirements.

Q4. By referring to "the auditing standards of the Public Company Accounting Oversight Board (United States)" in an audit report on the financial statements of a non-issuer, does the auditor represent that he or she has adhered to the Board's interim independence standards?

A4. No. Auditors of the financial statements of non-issuers, including non-profit organizations, government agencies, municipalities and other governments, should look to relevant state and federal laws and regulations relating to auditor independence. Auditors of nonpublic companies should bear in mind, however, that any company that becomes an issuer, as defined in Section 2(a)(7) of the Act, must file with the SEC an audit report prepared and issued by an independent registered public accounting firm, and therefore it may behoove an auditor of a nonpublic company that intends to become an issuer to comply with SEC and PCAOB independence requirements.

Q5. By referring to "the auditing standards of the Public Company Accounting Oversight Board (United States)" or to "the standards of the Public Company Accounting Oversight Board (United States)" in an audit report on the financial statements of a non-issuer, does the auditor represent that he or she has complied with the Commission's auditor independence requirements?

A5. No. A Note to the PCAOB's rule on interim independence standards, PCAOB Rule 3600T, reminds auditors of issuers and other entities subject to the SEC's jurisdiction of their separate obligations under the SEC's rule on auditor independence. The PCAOB's rule on interim independence standards does not, however, incorporate the SEC's auditor independence requirements.

Q6. What are the PCAOB's independence requirements and to whom do they apply?

A6. The PCAOB adopted interim independence standards when it adopted PCAOB Rule 3600T, which is a temporary rule in effect until the Board adopts permanent independence standards. Rule 3600T requires that, when a registered public accounting firm conducts an audit of the financial statements of an issuer, the firm comply with—

- Rule 101 of the AICPA's Code of Professional Conduct, and interpretations and rulings thereunder, as in existence on April 16, 2003; and
- Standards Nos. 1, 2 and 3, and Interpretations 99-1, 00-1, and 002, of the Independence Standards Board.

Registered public accounting firms must also comply with SEC requirements, including its Rule 2-01 of Regulation S-X, relating to auditor independence, when they conduct audits required by the federal securities laws, including audits of financial statements of issuers. The Board did not adopt the SEC's Rule 2-01 because that rule already governs auditor independence from issuers. As a Note to Rule 3600T makes clear, however, in an audit of the financial statements of an issuer, to the extent that a provision of the SEC's rule

is more restrictive—or less restrictive—than the Board's interim independence standards, a registered public accounting firm must comply with the more restrictive rule.

Q7. Does a reference to "the auditing standards of the Public Company Accounting Oversight Board (United States)" or to "the standards of the Public Company Accounting Oversight Board (United States)" in an auditor's report on the financial statements of a non-issuer imply that the non-issuer is subject to, or otherwise complied with, some or all of the provisions of the Act and other securities laws or the Commission's rules and regulations thereunder?

A7. No. An auditor's reference to PCAOB standards in an audit report on the financial statements of a non-issuer does not subject the auditor or the non-issuer to any laws that the auditor or the non-issuer would not otherwise have been required to comply with. Unless the non-issuer is involved in an activity that subjects it to the Act or other securities laws, such as the laws governing broker-dealers, compliance by the auditor or the non-issuer with the Act or other securities laws would be strictly voluntary.

Q8. Does inclusion of a reference to the Board's standards in an auditor's report on the financial statements of a non-issuer cause the audit to become eligible for review as a part of a Board inspection?

A8. No. An audit of the financial statements of a non-issuer does not become subject to PCAOB inspection solely because the auditor performed and reported on the audit in accordance with the standards of the PCAOB. Auditors of the financial statements of non-issuers may, nevertheless, be subject to various forms of state and federal oversight, such as review by federal banking regulators, the U.S. General Accounting Office, or a state board of accountancy.

Q9. If a non-issuer elects to have its financial statements audited pursuant to the Board's standards, must it also have its internal control over financial reporting audited pursuant to the Board's Auditing Standard No. 2, "An Audit of Internal Control Over Financial Reporting Conducted in Conjunction with an Audit of Financial Statement"?

A9. No. Only certain issuers that are subject to Section 404 of the Act are required to include within the scope of the audit an audit of internal control over financial reporting. Although the Board's standards provide for an integrated audit of financial statements and internal control for those issuers that are subject to Section 404 of the Act, the Board's standards also permit auditors to conduct a financial statement-only audit under circumstances, for example, when Section 404 of the Act is not applicable.

Q10. If an auditor refers to either "the standards of the Public Company Accounting Oversight Board (United States)" or "the auditing standards of the Public Company Accounting Oversight Board (United States)" in an audit report on an audit of the financial statements of a non-issuer, is the auditor also required to subject the audit to a "concurring partner review" as required by the Board's adoption of certain of the requirements of the AICPA's former Securities and Exchange Commission Practice Section ("SECPS")?

A10. No. The Board may at some time adopt a standard requiring the performance of a second partner review. At this time, however, the PCAOB interim quality control standards only require registered firms that were members of the SECPS as of April 16, 2003, to have a concurring partner review on audits of issuers. (See PCAOB Release No. 2003-006.)

.02 STAFF QUESTIONS AND ANSWERS

ATTEST ENGAGEMENTS REGARDING XBRL FINANCIAL INFORMATION FURNISHED UNDER THE XBRL VOLUNTARY FINANCIAL REPORTING PROGRAM ON THE EDGAR SYSTEM

May 25, 2005

Summary:

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to attest engagements regarding XBRL financial information furnished under the XBRL Voluntary Financial Reporting Program on the EDGAR System were prepared by the Office of the Chief Auditor. Additional questions should be directed to Keith Wilson, Associate Chief Auditor (202/207-9134; wilsonk@pcaobus.org).

* * *

Q1. What is XBRL?

A1. XBRL (eXtensible Business Reporting Language) is an open standard for electronic communication of business and financial data. The XBRL standard provides a format for tagging that data so users can extract, exchange, analyze, and present the information.

XBRL information is commonly distributed in the form of XBRL instance documents. These documents are electronic files consisting of financial data along with their corresponding XBRL tags.

To facilitate electronic communication of financial information among many parties, XBRL instance documents must be created using a common set of standards that all parties can understand and use. In XBRL, this is accomplished through taxonomies and specifications. An XBRL taxonomy (or tag list) provides a data structure and vocabulary for interpreting financial information, such as all of the items comprising "net income." An entity may extend the taxonomy by creating additional custom tags for its own use. XBRL specifications have been developed by the XBRL Consortium for creating and extending taxonomies. (See the XBRL website, www.xbrl.org, for more information about XBRL.)

Q2. What is the XBRL Voluntary Financial Reporting Program on the EDGAR System?

A2. The Securities and Exchange Commission ("SEC") has adopted rule amendments¹ allowing issuers to voluntarily submit supplemental tagged financial information using the XBRL² format as exhibits to specified EDGAR filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940. The amendments include certain requirements regarding the information in those exhibits. This SEC initiative is referred to in the SEC Release as the "XBRL Voluntary Financial Reporting Program on the EDGAR System" (hereinafter referred to as the "SEC Voluntary Program").

The XBRL documents furnished under the SEC Voluntary Program are referred to in the SEC Regulations³ as "XBRL-Related Documents." The XBRL-Related Documents must contain only certain specified content ("mandatory content" and "optional content") that appears in a specified format ("voluntary program format"), as set forth in the SEC Regulations.

According to the EDGAR Filer Manual,⁴ issuers who file under the SEC Voluntary Program must create their XBRL-Related Documents using one of the US Generally Accepted Accounting Principles ("US GAAP") taxonomies, based on XBRL Specification Version 2.1. Issuers also may use one of the Stand Alone Add-on taxonomies provided in the US Financial Reporting Taxonomy Framework for certain content. Any company extensions of those taxonomies must conform to XBRL Specification Version 2.1.

Q3. May an auditor⁵ examine and report on whether the XBRL-Related Documents accurately reflect the information in the corresponding part of the official EDGAR filings? If so, what are the primary engagement standards that apply to those engagements?

A3. Yes, an auditor may be engaged to examine and report on whether the XBRL-Related Documents accurately reflect the information in the corresponding part of the official EDGAR filings. That engagement is an examination under AT section 101 of the PCAOB's interim attestation standards, *Attest Engagements* ("AT section 101"), as amended.

Q4. The second general attestation standard in paragraph .21 of AT section 101 indicates that the engagement shall be performed by an auditor "having adequate knowledge of the subject matter." How does this general standard apply to examination engagements regarding XBRL-Related Documents?

A4. In examination engagements regarding XBRL-Related Documents, the auditor must have sufficient knowledge of the applicable SEC Regulations, EDGAR Filer Manual requirements, and XBRL taxonomies and specifications to perform the examination. The auditor must also have sufficient knowledge

¹ *Final Rule: XBRL Voluntary Financial Reporting Program on the EDGAR System*, Securities and Exchange Commission Release Nos. 33-8529, 34-51129, 3527944, 39-2432, IC-26747; File Number S7-35-04 (February 3, 2005) [70 FR 6556].

² The SEC's website, www.sec.gov, has more information about the SEC's XBRL initiative.

³ § 232.401 of Regulation S-T, 17 C.F.R. 232.401; and SEC Final Rule Release No. 33-8529 (February 3, 2005).

⁴ EDGARLink Filer Manual, Appendix L. (The EDGARLink Filer Manual comprises Volume 1 of the EDGAR Filer Manual.)

⁵ These PCAOB Staff Questions and Answers assume that the auditor who is engaged to perform this examination has also audited, in accordance with PCAOB standards, the financial statements for at least the latest period to which the XBRL financial information relates and the financial statements for the other periods covered by the XBRL financial information have been audited by the auditor or a predecessor auditor. Therefore, the word "auditor" is used instead of "practitioner."

of the company's financial statements and underlying financial records to understand how the financial data in the XBRL-Related Documents relates to the corresponding information in the official EDGAR filing.

Q5. The third general attestation standard in paragraph .23 of AT section 101 states that the auditor "shall perform the engagement only if he or she has reason to believe that the subject matter is capable of evaluation against criteria that are suitable and available to users." How does this general standard apply to examination engagements regarding XBRL-Related Documents?

A5. Paragraphs .24 through .34 of AT section 101 discuss the attributes of suitable and available criteria. The US GAAP Version 2.1 based taxonomies, Stand Alone Add-on taxonomies, and XBRL Specification Version 2.1 would be considered suitable and available criteria because (a) they were developed by a panel of widely recognized experts that follow due process procedures, including exposure for public comment, and (b) they are available free of charge through the XBRL Consortium.

Company extensions of those taxonomies normally do not go through the same development processes as described in the preceding paragraph. Accordingly, the auditor should evaluate whether company extensions represent suitable and available criteria as described in AT section 101.

Q6. May the auditor assist a company with the creation or tagging of its XBRL-Related Documents and still perform an examination regarding those documents?

A6. The fourth general attestation standard requires the auditor to be independent in order to perform an attest engagement. When evaluating independence, the auditor should apply the independence principles for financial statement audits to the context of the examination engagement. For example, although the auditor may provide technical advice on matters related to the application of the XBRL taxonomy and specifications, the auditor's independence would be impaired (and thus the auditor would be unable to examine a company's XBRL-Related Documents) if he or she prepared those documents or made decisions about the documents for management.

Q7. What are the objectives of the examination procedures regarding the XBRL-Related Documents, and what procedures should be performed to achieve those objectives?

A7. In performing the examination as set forth in AT section 101, the auditor should apply procedures as necessary to obtain sufficient evidence to provide a reasonable basis for an opinion on whether the XBRL-Related Documents accurately reflect the information in the corresponding part of the official EDGAR filings. Thus, the objectives of the examination procedures are to determine whether—

- a. the XBRL data agrees with the official EDGAR filings, and
- b. the XBRL-Related Documents are in conformity with the applicable XBRL taxonomies and specifications, as well as with the SEC requirements for format and content.

The following are examination procedures that the auditor should consider to achieve the engagement objectives:

- Compare the rendered⁶ XBRL-Related Documents to the information in the official EDGAR filing, and agree the corresponding content.
- Determine whether the content in the XBRL-Related Documents conforms to the SEC voluntary program content requirements.
- Determine whether the XBRL-Related Documents (and the related taxonomy documents, as necessary) conform to the SEC voluntary program format requirements. To accomplish this, the auditor should consider the following procedures:
 - a. Test whether the data elements (i.e., text and line item names and associated values, dates and other labels) in the XBRL-Related Documents reflect the same information as the corresponding official EDGAR filing (i.e., the HTML or ASCII version).
 - b. Verify that the data elements in the corresponding official EDGAR filing have not been changed, deleted, or summarized in the XBRL-Related Documents.
 - c. Evaluate whether the XBRL-Related Documents comply with the appropriate XBRL specification and EDGAR-supported XBRL taxonomies.
 - d. Evaluate whether any company extensions of the taxonomy are consistent with the SEC voluntary program format requirements, including conformity with XBRL specifications.
 - e. Test whether data elements in the XBRL-Related Documents are matched with appropriate tags in accordance with the applicable taxonomy.
- Read the EDGAR filing to determine whether it contains the disclosures regarding XBRL-Related Documents required by SEC Regulations.⁷
- Obtain a representation letter from management that includes a statement that the XBRL-Related Documents comply with SEC requirements.

Q8. What are the reporting requirements for examination engagements regarding XBRL-Related Documents?

A8. The report for this engagement should comply with the requirements of AT section 101, as amended.

If the underlying information in the XBRL-Related Documents has been audited, the examination report should refer to the audit report. If the underlying information was reviewed, and the review report was filed with the SEC, the examination report should refer to the review report. If the underlying information was reviewed, but the review report was not filed with the SEC, the examination report need not refer to the review report but should indicate that the underlying information has not been audited and no opinion is expressed on it. The auditor should disclaim an opinion on any underlying information in the XBRL-Related Documents that is not covered by an audit report or review report.

⁶ A rendered XBRL-Related Document has been converted from machine readable form into human readable form using a software tool.

⁷ § 232.401(d) of Regulation S-T, 17 C.F.R. 232.401(d).

The auditor may be engaged to report on management's assertion or on the subject matter of the assertion. The following are examples of examination reports for these engagements.

Report on the Subject Matter of the Assertion

Report of Independent Registered Public Accounting Firm on XBRL-Related Documents

We have examined the accompanying XBRL-Related Documents of Sample Volunteer Company, presented as Exhibit [number] to the Company's [Identify EDGAR filing, such as Form 10-K], which reflect the data presented in the [Identify corresponding information in the official EDGAR filing] as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date]. Sample Volunteer Company's management is responsible for the XBRL-Related Documents. Our responsibility is to express an opinion based on our examination.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the financial statements of Sample Volunteer Company as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date], and in our report dated [date], we expressed an unqualified opinion on those financial statements.⁸ In addition, we have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Sample Volunteer Company's internal control over financial reporting as of [Month and Day],

[Year], based on [Identify control criteria], and our report dated [date], expressed [Include nature of opinion].^{9 10 11 12}

Our examination was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included examining, on a test basis, evidence supporting the XBRL-Related Documents. Our examination also included evaluating the XBRL-Related Documents for conformity with the applicable XBRL taxonomies and specifications

⁸ If the auditor's opinion on the related financial statements is other than unqualified, this report should disclose that fact along with the reason for the modified report.

⁹ This sentence is necessary if (a) the XBRL-Related Documents include information about the effectiveness of internal control over financial reporting, and (b) that information was covered by an audit report.

¹⁰ If the financial statements have been reviewed and the review report was filed with the SEC, this paragraph should read: "We have also reviewed, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the financial statements of Sample Volunteer Company as of [date], and for the three months then ended, the objective of which was the expression of limited assurance on such financial statements, and issued our report thereon dated [date], [Describe any modifications of such report]. A review of financial statements is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion."

¹¹ If the financial statements have been reviewed but the review report was not filed with the SEC, this paragraph should read: "We did not audit the financial statements of Sample Volunteer Company (or examine [Identify any other underlying information]), the objective of which would have been the expression of an opinion on them. Accordingly, we do not express an opinion on them."

¹² If the XBRL-Related Documents contain both (a) financial statements that are covered by an audit report or review report filed with the SEC and (b) other information that is not covered by an audit or review report, this paragraph should include a statement such as the following: "We were not engaged to and did not conduct an audit (or review) of [Identify information], the objective of which would have been the expression of an opinion (or limited assurance) on such [Identify information]. Accordingly, we do not express an opinion or any other assurance on [it] [them]."

and the content and format requirements of the Securities and Exchange Commission. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the XBRL-Related Documents of Sample Volunteer Company referred to above accurately reflect, in all material respects, the data presented in the [Identify corresponding information in the official EDGAR filing] in conformity with [Identify the criteria—for example, the taxonomy, such as "US GAAP—Commercial and Industrial Taxonomy," and where applicable, the Stand Alone Add-on Taxonomy such as "US Financial Reporting—Management Report Taxonomy," and the specifications, such as "XBRL Specifications (Version 2.1)"].

[Date]

Report on Management's Assertion¹³

Report of Independent Registered Public Accounting Firm on XBRL-Related Documents

We have examined management's assertion that [Identify the assertion—for example, the accompanying XBRL-Related Documents, presented as Exhibit [number] to Sample Volunteer Company's [Identify EDGAR filing, such as Form 10-K] accurately reflect the data presented in the [Identify corresponding information in the official EDGAR filing] as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date,] in conformity with [Identify the criteria—for example, the taxonomy, such as "US GAAP—Commercial and Industrial Taxonomy," and where applicable, the Stand Alone Add-on Taxonomy such as "US Financial Reporting—Management Report Taxonomy," and the specifications, such as "XBRL Specifications (Version 2.1)"]. Sample Volunteer Company's management is responsible for the assertion. Our responsibility is to express an opinion on the assertion based on our examination.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the financial statements of Sample Volunteer Company as of [Month and Day], [Year] and [Year] and for each of the years in the [number]-year period ended [date], and in our report dated [date], we expressed an unqualified opinion on those financial statements. In addition, we have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Sample Volunteer Company's internal control over financial reporting as of [Month and Day], [Year], based on [Identify control criteria], and our report dated [date], expressed [Include nature of opinion].

Our examination was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included examining, on a test basis, evidence supporting the XBRL-Related Documents. Our examination also included evaluating the XBRL-Related Documents for conformity with the applicable XBRL taxonomies and specifications and the content and format requirements of the Securities and Exchange Commission. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, management's assertion referred to above is fairly stated, in all material respects, in conformity with [Identify the criteria—for example,

¹³ See the footnotes to the preceding report example.

the taxonomy, such as "US GAAP—Commercial and Industrial Taxonomy," and where applicable, the Stand Alone Add-on Taxonomy such as "US Financial Reporting—Management Report Taxonomy," and the specifications, such as "XBRL Specifications (Version 2.1)".

.03 STAFF QUESTIONS AND ANSWERS

ADJUSTMENTS TO PRIOR-PERIOD FINANCIAL STATEMENTS AUDITED BY A PREDECESSOR AUDITOR

June 9, 2006

Summary:

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to adjustments to prior-period financial statements audited by a predecessor auditor were prepared by the Office of the Chief Auditor. Additional questions should be directed to Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org) or Sam Guzman, Assistant Chief Auditor (202/207-9117; guzmans@pcaobus.org).

General

Q1. Circumstances arise that require a company to make adjustments to prior-period financial statements. Such circumstances include, for example, the reporting of discontinued operations, and the retrospective application of a change in accounting principle or the correction of an error in prior-period financial statements pursuant to Financial Accounting Standards Board Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("FASB Statement 154").¹

If the prior-period financial statements that require adjustments were audited by a predecessor auditor, which auditor, the predecessor or the successor, may audit the adjustments to prior-period financial statements?²

A1. Either the successor auditor or the predecessor auditor may audit the adjustments made to prior-period financial statements so long as the auditor is independent and registered with the PCAOB. Issuers sometimes select the

¹ Pursuant to Financial Accounting Standards Board Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("FASB Statement 154"), the retrospective application of a change in accounting principle also is appropriate when there are no transition requirements specific to a particular accounting pronouncement.

² The term "adjustments to prior-period financial statements" should be understood for purposes of this set of questions and answers to include, among other things, the reporting of discontinued operations, as well as, restatements to correct errors and retrospective applications of changes in accounting principles, as described in FASB Statement 154.

predecessor auditor to audit the adjustments because that auditor has performed the audit of the prior-period financial statements and has knowledge of the transactions that occurred during that period. In addition, the use of the predecessor auditor sometimes can be more cost-effective for performing this work. However, the successor auditor also may audit the adjustments.

Predecessor Auditor Audits the Adjustments to Prior-Period Financial Statements

Q2. If the predecessor auditor audits the adjustments to the prior-period financial statements, how should the predecessor auditor date his or her report on the reissued financial statements?

A2. The predecessor auditor should dual-date his or her reissued report in connection with the audit of the adjustments made to the prior-period financial statements. Paragraph .73 of AU section ("sec.") 508, *Reports on Audited Financial Statements*, states that, "A predecessor auditor's knowledge of the current affairs of his or her former client is obviously limited in the absence of a continuing relationship. Consequently, when reissuing the report on prior-period financial statements, a predecessor auditor should use the date of his or her previous report to avoid any implication that he or she has examined any records, transactions, or events after that date. If the predecessor auditor revises the report or if the financial statements are restated, he or she should dual-date the report."

Q3. If the predecessor auditor audits the adjustments made to the prior-period financial statements, what is the successor auditor's responsibility with regard to those adjustments?

A3. If the predecessor auditor audits the adjustments made to the prior-period financial statements, he or she is responsible for the audit conclusions reached with respect to those adjustments. However, because corrections of errors and the retrospective application of a change in accounting often have the effect of changing the periods in which transactions and events are recognized in the financial statements, the successor auditor should obtain an understanding of the adjustments made to the prior-period financial statements and their effects, if any, on the current-period financial statements.³

In addition, the successor auditor should evaluate the consistency of the application of accounting principles from period to period. Paragraph .24 of AU sec. 420, *Consistency of Application of Generally Accepted Accounting Principles*, states:

When the independent auditor has not audited the financial statements of a company for the preceding year, he should adopt procedures that are practicable and reasonable in the circumstances to assure himself that the accounting principles employed are consistent between the current and the preceding year.

Successor Auditor Audits the Adjustments to Prior-Period Financial Statements

Q4. What factors are relevant to a successor auditor's determination as to whether he or she is able to audit only the adjustments to prior-period

³ See the requirement for the auditor to plan and perform his or her work with due professional care in paragraph .02 of AU section ("AU sec.") 230, *Due Professional Care in the Performance of Work*.

financial statements or whether a reaudit of those financial statements is necessary?⁴

A4. To audit only the adjustments to prior-period financial statements that were audited by a predecessor auditor,⁵ a successor auditor must be able to form an opinion that the adjustments are appropriate and have been properly applied.⁶ In determining whether he or she is able to form such an opinion without performing a reaudit of the prior-period financial statements, the successor auditor should consider:

- *The extent of the adjustments.* The less extensive and pervasive the adjustments to prior-period financial statements are, the more likely it is that a successor auditor can form an opinion that the adjustments are appropriate and have been properly applied without performing a reaudit of those financial statements. More extensive and pervasive adjustments make it more likely that a reaudit is necessary.
- *The reason for the adjustments.* A successor auditor is ordinarily more likely to be able to form an opinion that adjustments to prior-period financial statements are appropriate and have been properly applied when those adjustments are due to the retrospective application of an accounting principle rather than when the adjustments are necessary to correct an error.⁷ In the latter situation, the auditor should consider the risk that there may be other undetected misstatements in the prior-period financial statements. In particular, if the adjustments correct an intentional misstatement,⁸ it is more likely that a reaudit is necessary.
- *Cooperation of predecessor auditor.* A successor auditor is more likely to be able to form an opinion that adjustments to prior-period financial statements are appropriate and have been properly applied if he or she has the cooperation of the predecessor auditor. For example, a successor auditor may determine that he or she is able to audit adjustments to prior-period financial statements if he or she has access to the audit documentation relating to the prior periods and if the predecessor auditor is responsive to questions relating to those periods.

After a successor auditor has determined that he or she is likely to be able to form an opinion that adjustments to prior-period financial statements are appropriate and have been properly applied, the auditor might obtain evidence indicating, or otherwise might determine, that the prior-period financial statements are materially misstated in other respects. In this circumstance, the successor auditor should reevaluate whether auditing only the adjustments is

⁴ This staff question and answer assumes that the predecessor auditor reissues his or her report on the prior-period financial statements before the effects of the adjustments.

⁵ This series of staff questions and answers assumes that the predecessor auditor has not ceased operations as the term "ceased operations" has been defined in footnote 2 of AU sec. 9508, *Reports on Audited Financial Statements: Auditing Interpretations of Section 508*. In cases in which the predecessor auditor has ceased operations, the successor auditor should refer to AU sec. 9508.60–75.

⁶ See paragraph .74 of AU sec. 508, *Reports on Audited Financial Statements*.

⁷ FASB Statement 154 defines an error in previously issued financial statements as an error in recognition, measurement, presentation, or disclosure in financial statements resulting from mathematical mistakes, mistakes in the application of GAAP, or oversight or misuse of facts that existed at the time the financial statements were prepared. Errors, also referred to as misstatements, include those that are intentional or unintentional.

⁸ See paragraph .05 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

appropriate or whether a reaudit of the prior-period financial statements is necessary.⁹

Q5. If the successor auditor audits adjustments to the prior-period financial statements audited by a predecessor auditor, how should the successor auditor report on the results of the audit of those adjustments?

A5. AU sec. 508.74 describes how a successor auditor should report when he or she audits adjustments and the predecessor auditor's report is not presented. The successor auditor may use a similar form of reporting if he or she has audited the adjustments made to prior-period financial statements in connection with his or her audit of a subsequent period and if the predecessor auditor also reissues his or her report on the prior-period financial statements. It also is appropriate for the successor auditor to emphasize in the report that he or she was not engaged to audit, review, or apply any procedures to the prior-period financial statements other than with respect to the adjustments.

The following are examples of a paragraph the successor auditor may include in his or her report on the audit of the financial statements of a subsequent period:

Example for retrospective application of a change in accounting

We also have audited the adjustments to the 20X4 financial statements to retrospectively apply the change in accounting [*describe accounting change*], as described in Note X. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X4 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X4 financial statements taken as a whole.

Example for correction of an error

We also have audited the adjustments described in Note X that were applied to restate the 20X4 financial statements to correct an error. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X4 financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X4 financial statements taken as a whole.

Q6. When a successor auditor audits and reports on adjustments made to prior-period financial statements due to the correction of an error, may the predecessor auditor reissue his or her report on the prior-period financial statements?

A6. Yes. A predecessor auditor may reissue his or her report on prior-period financial statements when a successor auditor has been engaged to audit and report on adjustments made to those prior-period financial statements, provided that the predecessor auditor has determined that the report on those financial statements is still appropriate, other than with respect to the error correction.¹⁰ When determining whether the report is still appropriate, the predecessor auditor may consider factors such as:

⁹ In addition, the successor auditor has responsibilities under paragraphs .21-.22 of AU sec. 315, *Communications Between Predecessor and Successor Auditors*, when the successor auditor becomes aware of information that leads him or her to believe that the prior-period financial statements reported on by the predecessor auditor may require revision.

¹⁰ See AU sec. 508.71. The predecessor auditor also may decide to withdraw his or her report on those financial statements. See AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

- The nature and extent of the adjustments pertaining to the error correction,
- Whether management has withdrawn the prior-period financial statements, and
- Whether the errors were intentional.

Q7. If the predecessor auditor does not reissue his or her report on the prior-period financial statements, may the successor auditor reaudit and report on those financial statements as adjusted?

A7. Yes. A successor auditor or another independent auditor may reaudit and report on prior-period financial statements as adjusted.

Q8. In circumstances in which a successor auditor audits and reports on adjustments made to prior-period financial statements audited by a predecessor auditor, what procedures should the predecessor auditor perform prior to reissuing his or her report on those financial statements prior to adjustment?

A8. AU sec. 508.71 states that, "a predecessor auditor should (a) read the financial statements of the current period, (b) compare the prior-period financial statements that he or she reported on with the financial statements to be presented for comparative purposes, and (c) obtain representation letters from management of the former client and from the successor auditor. The representation letter from management of the former client should state (a) whether any information has come to management's attention that would cause them to believe that any of the previous representations should be modified, and (b) whether any events have occurred subsequent to the balance-sheet date of the latest prior-period financial statements reported on by the predecessor auditor that would require adjustment to or disclosure in those financial statements [except for the adjustments]. The representation letter from the successor auditor should state whether the successor's audit revealed any matters that, in the successor's opinion, might have a material effect on, or require disclosure in, the financial statements reported on by the predecessor auditor [other than the adjustments disclosed to the predecessor auditor]."

Q9. In circumstances in which a successor auditor audits and reports on adjustments made to prior-period financial statements audited by a predecessor auditor, are there any modifications the predecessor auditor should make to his or her reissued report on the prior-period financial statements?

A9. Yes. If the predecessor auditor was not engaged to audit the adjustments to the prior-period financial statements, the predecessor auditor should modify his or her reissued report to indicate that (a) the reissued opinion relates to the prior-period financial statements before the effects of the adjustments, and (b) he or she was not engaged to audit, review, or apply any procedures to the adjustments.

The following are examples of how the predecessor auditor may modify his or her report:¹¹

Example for retrospective application of a change in accounting

Report of Independent Registered Public Accounting Firm

We have audited, before the effects of the adjustments to retrospectively apply the change in accounting described in Note X, the balance sheet of ABC Company as of December 31, 20X4, and the related statements of income, changes in shareholders' equity, and cash flows for the year then ended (the 20X4 financial

¹¹ See PCAOB staff question no. 6.

statements before the effects of the adjustments discussed in Note X are not presented herein). The 20X4 financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

[Same second paragraph as the standard report]

In our opinion, the 20X4 financial statements, before the effects of the adjustments to retrospectively apply the change in accounting described in Note X, present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X4, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

We were not engaged to audit, review, or apply any procedures to the adjustments to retrospectively apply the change in accounting described in Note X and, accordingly, we do not express an opinion or any other form of assurance about whether such adjustments are appropriate and have been properly applied. Those adjustments were audited by *[name of successor auditor]*.

[Signature]

[City and State or Country]

[Original Date]

Example for correction of an error

Report of Independent Registered Public Accounting Firm

We have audited, before the effects of the adjustments for the correction of the error described in Note X, the balance sheet of ABC Company as of December 31, 20X4, and the related statements of income, changes in shareholders' equity, and cash flows for the year then ended (the 20X4 financial statements before the effects of the adjustments discussed in Note X *[have been withdrawn and]* are not presented herein). The 20X4 financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

[Same second paragraph as the standard report]

In our opinion, except for the error described in Note X, the 20X4 financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X4, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

We were not engaged to audit, review, or apply any procedures to the adjustments for the correction of the error described in Note X and, accordingly, we do not express an opinion or any other form of assurance about whether such adjustments are appropriate and have been properly applied. Those adjustments were audited by *[name of successor auditor]*.

[Signature]

[City and State or Country]

[Original Date]

Q10. When a successor auditor audits and reports on adjustments made to prior-period financial statements audited by a predecessor auditor, how should the predecessor auditor date his or her report on the reissued financial statements?

A10. When the successor auditor has audited and reported on the adjustments made to the prior-period financial statements and the predecessor auditor is reissuing the report on the prior-period financial statements, the predecessor auditor should use the date of the previous report to avoid any implication that he or she has examined any records, transactions, or events after that date.¹²

Successor Auditor Has Not Completed an Audit

Q11. Can a successor auditor audit and report on the adjustments made to the prior-period financial statements if he or she has not yet completed an audit of the current-period financial statements?

A11. No. If the prior-period financial statements have been adjusted, the successor auditor may audit and report on the adjustments made to the prior-period financial statements in connection with the successor auditor's audit of the financial statements of the company for a subsequent period.¹³ Unless the successor auditor has completed an audit of the financial statements of the company, he or she will not have sufficient knowledge of the company and its financial reporting to adequately plan and perform an audit of the adjustments to conclude on whether they are appropriate and have been properly applied. If the successor auditor has not completed an audit of a subsequent period, the successor auditor, or another independent auditor, may be engaged to reaudit the prior-period financial statements and audit the adjustments to those financial statements.

¹² See AU sec. 508.73.

¹³ See AU sec. 508.74.

.04 STAFF QUESTIONS AND ANSWERS

AUDITING THE FAIR VALUE OF SHARE OPTIONS GRANTED TO EMPLOYEES

October 17, 2006

Summary:

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers are applicable to audits of financial statements in circumstances in which a company has granted share options to employees that must be accounted for as compensation cost in conformity with Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, issued by the Financial Accounting Standards Board. These staff questions and answers were prepared by the Office of the Chief Auditor. Additional questions should be directed to Greg Fletcher, Assistant Chief Auditor (202/207-9203; fletcher@pcaobus.org) or Jennifer Rand, Deputy Chief Auditor (202/207-9206; randj@pcaobus.org).

General

Q1. What is the purpose of these PCAOB staff questions and answers about auditing the fair value of employee share options?

A1. The purpose of these questions and answers is to help auditors implement the PCAOB's existing auditing standards when auditing the fair value of share options granted to employees. The Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123, *Share-Based Payment* (revised 2004) ("FAS 123R"), which established the accounting requirements for companies that grant share options to employees and generally required that companies recognize as compensation cost the grant-date fair value of the award. In addition, the SEC staff issued Staff Accounting Bulletin 107 ("SAB 107") in March 2005, which, among other things, provides the Securities and Exchange Commission ("SEC") staff's views regarding the valuation of share-based payment arrangements for public companies. Based on these developments, the PCAOB staff believes that there is a need for guidance for implementing the existing auditing standards related to a company's accounting for the fair value of employee share options.¹

¹ This series of PCAOB staff questions and answers addresses the principles and procedures related to auditing the grant-date fair value of employee share options, which is a component of compensation cost associated with the issuance of employee share options. It does not address auditing

(continued)

Q2. Which auditing standards of the PCAOB provide direction on auditing the fair value of employee share options and what are the general steps involved in auditing them?

A2. Because employee share options are complex financial instruments with no available market, companies generally use option-pricing models to estimate the fair value. As such, these valuations are accounting estimates, and AU sec. 342, *Auditing Accounting Estimates*, and AU sec. 328, *Auditing Fair Value Measurements*, most directly apply. In addition, because fraudulent financial reporting often is accomplished through an intentional misstatement of an estimate, AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, also applies.²

In general, when auditing the fair value of employee share options, the auditor should:

- Obtain an understanding of the process used to develop the estimated fair value of employee share options;
- Assess the risk of misstatement related to the fair value of employee share options; and
- Perform testing on the company's estimated value of employee share options. Testing includes:
 - Evaluating the consistency of the process,
 - Evaluating the reasonableness of (1) the company's model and (2) the assumptions used in the model, such as expected term and expected volatility, and
 - Verifying the accuracy and completeness of the data underlying the fair value measurements.

The auditor also should evaluate whether he or she possesses the necessary skills and knowledge to plan and perform the audit procedures.

Each of these matters is addressed in the following PCAOB staff questions and answers

The Company's Process

Q3. How should the auditor evaluate the company's process for estimating the fair value of employee share option grants?

A3. AU sec. 328.09 requires the auditor to obtain an understanding of the company's process for determining fair value measurements and disclosures and of the relevant controls sufficient to develop an effective audit approach.³ AU sec. 328.23 states that, based on the auditor's assessment of the risk of

(footnote continued)

the other components of determining and reporting compensation cost in the financial statements. Other components include making adjustments for actual pre-vesting forfeitures to arrive at the compensation cost related to the share option grant; determining the periods in which compensation cost is recognized in the financial statements; determining related financial statement effects of employee share options to the company, such as income tax effects; and making the appropriate entries in the general ledger.

² The Board adopted as its interim standards generally accepted auditing standards as described in the AICPA Auditing Standards Board's Statement on Auditing Standards No. 95, *Generally Accepted Auditing Standards*, as in existence on April 16, 2003, to the extent not superseded or amended by the Board, on an initial transitional basis.

³ Paragraph .12 of AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, also provides items that auditors should consider when obtaining an understanding of fair value measurements and disclosures.

material misstatement, the auditor should test the entity's fair value measurements and disclosures. AU sec. 328.23 also identifies three ways in which the auditor may test fair value measurements:

- Testing management's significant assumptions, the valuation model, and the underlying data,
- Developing independent fair value estimates for corroborative purposes, or
- Reviewing subsequent events and transactions.⁴

Because of the complexity involved in developing an independent estimate and the limited usefulness of reviewing subsequent events and transactions to evaluate the fair value of employee share options, in many cases, the second and third approaches are not likely to be practical approaches to auditing the fair value of employee share options. In such cases, the auditor should test management's significant assumptions, the valuation model, and the underlying data related to the fair value estimate.

In applying the provisions of AU sec. 328 to the evaluation of the company's process for estimating the fair value of employee share option grants, the auditor should review the procedures used by the company to make the estimates. These procedures include:

- Evaluating how the terms of the share option awards affect the determination of the grant date, selection of model, and the assumptions used;⁵
- Selecting the option-pricing model;⁶ (See also PCAOB staff question Nos. 5 and 6.)
- Developing the assumptions used in the valuation, including implementation of the guidance in FAS 123R and SAB 107,⁷ that could affect the assumptions;⁸ (See also PCAOB staff question Nos. 7–18.)
- Ensuring that the data upon which the fair value measurements are based (including employee exercises and post-vesting cancellations and lapses) are accurate and complete;⁹ (See also PCAOB staff question No. 19.) and
- Generating the estimated fair value of the employee share options, including executing the calculations required in the option-pricing model.¹⁰ (See also PCAOB staff question No. 20.)

The auditor also should evaluate whether the process is complete, including whether the company considers the relevant factors identified in the accounting

⁴ Similarly, in evaluating the reasonableness of an estimate, paragraph .10 of AU sec. 342, *Auditing Accounting Estimates*, requires the auditor to review and test the process used by management to develop an estimate, develop an independent estimate to corroborate the reasonableness of the company's estimate, or review subsequent events or transactions occurring before the completion of fieldwork.

⁵ See Statement of Financial Accounting Standard No. 123, *Share-Based Payment* (revised 2004) ("FAS 123R"), paragraph A2.

⁶ See FAS 123R, paragraphs A13–A15.

⁷ See SEC Staff Accounting Bulletin 107, *Share-Based Payment* (March 29, 2005).

⁸ See FAS 123R, paragraph A16.

⁹ See AU sec. 328.39.

¹⁰ *Ibid.*

literature that affect the assumptions and whether the company applies the process consistently from period to period.¹¹

In addition, in auditing the financial statements, the auditor may determine that it is not practical or possible to restrict detection risk to an acceptable level by performing only substantive tests for one or more assertions. In such circumstances, the auditor should obtain evidence about the effectiveness of both the design and operation of controls to reduce the assessed level of control risk.^{12, 13}

Risk Factors

Q4. What factors affect the auditor's assessment of risk at the financial statement and significant account levels for fair value measurements related to employee share options?

A4. Accounts consisting of amounts derived from accounting estimates have a higher inherent risk than do accounts consisting of relatively routine factual data¹⁴ or having readily determinable values. Therefore, compensation cost based on fair value measurements of employee share options, and related disclosures, often will have a high inherent risk. The auditor should be aware of how changes in assumptions and models affect fair value.

The following are examples of circumstances or conditions that indicate increased risk and might indicate a risk of fraud that would require a specific response from the auditor:¹⁵

- When an assumption that a company uses has the effect of reducing the fair value below what it would have been had the company based the assumption on unadjusted historical information.
- Exclusion of an historical period of time from the inputs to the valuation model, especially when the effect of that exclusion is to lower expected term or expected volatility.¹⁶(See also PCAOB staff question No. 14.)
- Adjustments to historical exercise behavior or historical share price volatility. For example:
 - The expected term estimate for the current grant of share options is five years when the company has averaged seven years in previous grants of share options;
 - The expected term or expected volatility estimate selected as the most likely was the lowest in a range of possible expected terms or expected volatilities; or

¹¹ AU sec. 328.19 states that the auditor should evaluate whether the company's method (in this case, the company's process) for determining fair value measurements is applied consistently and if so, whether the consistency is appropriate considering possible changes in the environment or circumstances affecting the company, or changes in accounting principles.

¹² See AU sec. 319.03.

¹³ In an integrated audit of the financial statements and internal control over financial reporting, the auditor must obtain evidence about the effectiveness of internal controls. This series of PCAOB staff questions and answers does not illustrate how the auditor should test the design and operating effectiveness of controls related to employee share option compensation cost and disclosures in an integrated audit.

¹⁴ See AU sec. 312.27a.

¹⁵ See AU sec. 316.48b.

¹⁶ See also SAB 107, interpretive response to question 2, Section D.1. SAB 107 states that valid exclusions of periods would be rare.

- The expected term and expected volatility estimates are both lower than the historical averages.
- Adjustments to historical exercise behavior or historical share price volatility are not applied consistently to each option grant in circumstances in which they should have been consistently applied.

Model Selection

Q5. Observable market prices generally are not available for employee share options because employee share options are not traded. As a result, companies ordinarily will need to use an option-pricing model to estimate the fair value of employee share options. What factors should the auditor use to evaluate the reasonableness of a company's selection of an option-pricing model for calculating the fair value of employee share options?¹⁷

A5. The auditor should evaluate whether the model selected by the company

- Is applied in a manner consistent with FAS 123R's fair value measurement objective;
- Is based on established principles of financial economic theory; and
- Reflects all of the substantive characteristics of the share options granted to employees.¹⁸

The Black-Scholes-Merton formula, a closed-form option-pricing model, was developed for exchange-traded share options. As developed, it assumes that option exercises occur at the end of an option's contractual term, and that the other factors, expected volatility, expected dividends, and risk-free interest rates, are constant over the option's term. Because employees often exercise before the contractual term expires, FAS 123R requires companies to modify the term used as an input to the original formula by estimating an expected term for the employee share options that is less than the contractual term.

A lattice, or binomial, option-pricing model, however, can accommodate dynamic assumptions of expected volatility and dividends over the option's contractual term, and estimates of expected option exercise patterns during the contractual term (for example, the likelihood that an employee will exercise when the share price reaches a certain multiple of the exercise price). Therefore, the design of a lattice model might more fully reflect the substantive characteristics of a particular employee share option.¹⁹

The auditor should be alert to circumstances in which the selection of the Black-Scholes-Merton formula might not be appropriate. For example, the appropriate model for estimating the fair value of an instrument with a market condition (such as an exercise condition that is satisfied when the share price exceeds a specified value for a specified period of days) must take into account the effect of that market condition.²⁰ The Black-Scholes-Merton option-pricing formula

¹⁷ See FAS 123R, paragraph A2. The fair value of equity instrument share options granted to employees is measured on the date of the grant.

¹⁸ See FAS 123R, paragraph A8, AU sec. 328.18, and AU sec. 328.26b. In addition to the Black-Scholes-Merton formula and a lattice option-pricing model, a Monte Carlo simulation technique also satisfies the requirements in paragraph A8 of FAS 123R. See FAS 123R, footnote 48.

¹⁹ See FAS 123R, paragraph A15.

²⁰ See FAS 123R, paragraph A14.

would not generally be an appropriate valuation model for a share option in which the exercisability is conditional on a specified increase in the price of the underlying shares because it is not designed to take into account that type of market condition.²¹

Q6. What steps should the auditor take when a company changes the valuation technique or model chosen to value employee share options?

A6. The auditor should evaluate whether the new technique or model meets the fair value measurement objective of FAS 123R. The SEC staff has stated that it would not object to a company changing its valuation technique or model, as long as the new technique or model meets the fair value measurement objective.²² SAB 107 states that a company should take into account the reason for the change in technique or model in determining whether it meets the fair value measurement objective.²³ However, the SEC staff also has stated that it would not expect that a company would frequently switch between valuation techniques or models, particularly when there has been no significant variation in the form of share-based payments being²⁴ As noted in SAB 107, changing a technique or model from period to period for the sole purpose of lowering the fair value estimate of a share option would not meet the fair value measurement objective of FAS 123R.²⁵ Finally, frequent changes in the valuation technique or model also might indicate a risk of fraud that would require a response by the auditor. Accordingly, the auditor should evaluate management's reason for the change.

Assumptions Used In Option-Pricing Models

Q7. Paragraph A18 of FAS 123R states that the valuation technique or model used to estimate the fair value of the share option shall take into account, at a minimum—

- Expected term of the option (in a lattice model, expected term is an output of the model);
- Expected volatility of the price of the underlying share for the expected term of the option;
- Exercise price of the option;
- Current price of the underlying share;
- Risk-free interest rate(s) for the expected term of the option; and
- Expected dividends of the underlying share for the expected term of the option.

How should the auditor assess the possible effect of these six items on the fair value measurement?

A7. The expected term and expected volatility assumptions have the highest risk because they involve the greatest amounts of judgment and have a significant effect on the estimated fair value. PCAOB staff question Nos. 8 through 11 provide direction to the auditor regarding expected term. PCAOB staff question Nos. 12 through 17 provide direction to the auditor regarding volatility.

²¹ See the interpretive response to question 2, section C of SAB 107.

²² See the interpretive response to question 3, section C of SAB 107.

²³ Ibid.

²⁴ Ibid.

²⁵ Ibid.

The exercise price of the option and current price of the underlying shares have a significant effect on the fair value measurement and have a high degree of verifiability. The auditor should verify that the company has properly authorized the share option plan and test whether the company has properly authorized the specific terms of the award, correctly determined the grant date, and accurately entered the exercise price and current share price, as of the measurement date, into the valuation model.

The risk-free interest rate(s) might have an elevated risk because a mathematical computation could be involved. The expected dividends assumption might have an elevated risk because of potential measurer bias. PCAOB staff question No. 18 provides direction to the auditor regarding risk-free interest rate(s) and expected dividends.

Expected Term of the Option

Q8. The expected term assumption is one of the key drivers of fair value in the Black-Scholes-Merton formula.²⁶ Paragraph A23 of FAS 123R states that assumptions used to estimate the fair value of share options granted to employees should be determined in a consistent manner from period to period. How should the auditor evaluate the reasonableness of the expected term assumption?

A8. When a company is using the Black-Scholes-Merton option-pricing formula, the auditor should apply the following procedures to the expected term assumption:²⁷

- Obtain an understanding of the company's process for estimating expected term, including the extent to which the company evaluates relevant factors in the accounting literature;²⁸
- Verify that the expected term generally is at least equal to the vesting period of the share option grant;²⁹
- Verify that the company (1) has taken into account the contractual term of the option and the effects of employees' post-vesting employment termination behavior, in addition to employees' expected exercise behavior, and (2) has not taken into account pre-vesting employment termination behavior;³⁰
- Evaluate whether adjustments that the company has made to the historical exercise behavior are reasonable and supportable,³¹ including adjustments to the historical exercise behavior of groups (See also PCAOB staff question No. 11); and

²⁶ Expected term usually is an output of lattice models.

²⁷ See PCAOB staff question No. 10 for a discussion about the "simplified method." If a company's share option plan has the characteristics that are sometimes referred to as "plain vanilla," it may use the simplified method for estimating expected term, as found in SAB 107. However, the SEC staff has stated that it does not expect the simplified method to be used for share option grants after December 31, 2007.

²⁸ For example, see FAS 123R, paragraphs A26–A30.

²⁹ See FAS 123R, paragraph 42. Some awards have graded vesting schedules. These may be accounted for as in-substance multiple awards.

³⁰ Paragraphs A27 and A28 of FAS 123R describe factors that may affect expectations about employees' exercise behavior.

³¹ See FAS 123R, footnote 50.

- Test the data that the company uses for its estimate, such as data on actual exercise behavior (See also PCAOB staff question No. 19).

The auditor also should evaluate whether the person or persons determining the expected term assumption, including the company's specialists, have experience in valuing employee share options³² and assess how that evaluation affects the audit procedures.

Q9. What should the auditor do to test a company's calculation of its historical exercise experience for employee share options, including consideration of the contractual term and post-vesting employee behavior?

A9. Paragraph A21 of FAS 123R states that historical experience generally is the starting point for developing expectations about the future. Because the expected term estimate is the period of time for which the option is expected to be outstanding (that is, generally the period of time from the grant date to the date of expected exercise or other expected settlement), companies may start by calculating a historical weighted average period of time for which previous grants of share options were outstanding.

The auditor should verify that a company's calculations include options that were not exercised during the contractual term. Failure to include such options could significantly understate average time that options were outstanding. For example, if a company calculates historical exercise behavior based only on the 70 percent of the options exercised over a 10 year contractual term, then it will probably significantly understate the average by not considering the 30 percent of options that may have been outstanding for 10 years and never exercised.

The auditor should:

- Evaluate whether the company's calculations are complete; i.e., that the calculations include all vested options, including those that were never exercised;
- Evaluate whether the company's calculations are mathematically correct, including any separate calculations for groups of employees (See also PCAOB staff question No. 11); and
- Test the underlying data upon which the company's calculations are based, for example, the grant date and exercise date (See also PCAOB staff question No. 19).

The auditor also should be aware of situations in which historical information is not sufficiently complete to enable a company to use it as the sole basis for estimating expected term. For example, if a company issues employee share options for the first time in 20X4 with a three-year vesting period and a ten-year contractual term, it cannot use its unadjusted historical experience in estimating the expected term of additional grants in 20X8 because there will have been only one year in which the earlier grants could have been exercised. The earliest it will have a complete history is at the end of the ten-year contractual term.

In situations in which the company calculated the historical exercise behavior based on incomplete historical information, the auditor should evaluate whether the company's rationale for using this calculation in connection with an estimate of expected term is reasonable and supportable.

Q10. FAS 123R states that expectations based on historical experience should be modified to reflect ways in which currently available information

³² See AU sec. 328.12.

indicates that the future is reasonably expected to differ from the past.³³ What procedures should the auditor perform to evaluate the reasonableness of adjustments to historical exercise behavior?

A10. The auditor should evaluate whether the company's rationale for adjustments to historical exercise behavior are reasonable and supportable.³⁴ The auditor also should evaluate whether the company failed to make a necessary adjustment. For example, if the historical experience is based on grants with one-year vesting, an adjustment would be appropriate if current grants have four-year vesting. The volatility of the company's stock price also can affect whether vested employees (1) exercise the options, (2) terminate from the company and exercise the options, (3) terminate from the company and let the options lapse, or (4) stay with the company through the contractual term and let the options lapse. Announced plans for acquisitions, divestitures, and initial public offerings of stock also could affect employee exercises and forfeitures.

The auditor should evaluate whether the amount of an adjustment is reasonable by reviewing the support for the adjustment. The auditor also should be alert to the risk of management override in the adjustments.

Range of expected terms. If a company, after analyzing its historical data, developed a range of possible expected terms that are each equally likely, the auditor should verify that the company selected the average of the amounts in the range (the expected value according to paragraph A20 of FAS 123R).

Use of SAB 107 "simplified method." According to SAB 107, the simplified method of estimating expected term is permitted only for "plain vanilla" options.³⁵ If a company uses the simplified method, the auditor should review the evidence that supports the company's view that it is eligible to use the simplified method. Specifically, the auditor should review the grant documentation to ensure that the terms conform to the "plain-vanilla" requirements, review pre-vesting terminations to ensure that the associated share options were cancelled, and test whether exercises by terminated employees occurred within a limited time after termination (typically 30 to 90 days).

Q11. According to FAS 123R, aggregating individual awards into relatively homogenous groups, with respect to exercise and post-vesting employment termination behaviors, and estimating the fair value of the options granted to each group separately, reduces the risk of potential misstatement of the value of the award.³⁶ How should the auditor evaluate the appropriateness of groups of employees used in the estimate of expected term?

A11. If the company segregates the employees into more than one group (such as executives and non-executives), the auditor should perform the following procedures to evaluate the company's employee groups:

³³ See FAS 123R, paragraph A21.

³⁴ AU sec. 328 provides general guidance about evaluating a company's assumptions.

³⁵ The interpretative response to question 5, section D.2 of SAB 107, establishes basic characteristics of share option plans that are sometimes referred to as "plain vanilla." The basic characteristics are: (1) share options are granted at-the-money, (2) exercisability is conditional only on performing service through the vesting date, (3) if an employee terminates service prior to vesting, the employee would forfeit the share options, (4) if an employee terminates service after vesting, the employee would have a limited time to exercise the share options (typically 30 to 90 days), and (5) share options are nontransferable and nonhedgeable. In addition, the SEC staff has stated that it does not expect the simplified method to be used for share option grants after December 31, 2007 (See the interpretative response to question 6, section D.2.).

³⁶ See FAS 123R, paragraph A30. In addition, the interpretive response to Question 4 of section D.2. of SAB 107 states that an entity may generally make a reasonable fair value estimate with as few as one or two groupings.

- Evaluate whether the company aggregated individual awards into relatively homogeneous groups with respect to exercise and post-vesting employment termination behaviors and the evidence and rationale supporting the determination of the groups is adequate;
- Evaluate the reasonableness and completeness of groups;
- Evaluate the reasonableness and support for adjustments to historical exercise behavior of groups;
- Test the underlying data upon which the groups are based (See also PCAOB staff question No. 19); and
- Evaluate whether the company's calculations of historical exercise behavior for each group are mathematically correct.

Expected Volatility

Q12. Paragraph A23 of FAS 123R states that assumptions used to estimate the fair value of share options granted to employees should be determined in a consistent manner from period to period. Paragraphs A32 and A34 provide further guidance related to the company's estimate of expected volatility. How should the auditor evaluate the reasonableness of a company's estimate of the expected volatility of its share price?

A12. The auditor should perform the following procedures to evaluate the reasonableness of a company's estimate of expected volatility:³⁷

- Obtain an understanding of the company's process for estimating expected volatility.
- Evaluate whether the company's process considers all of the applicable factors identified in paragraph A32 of FAS 123R in determining its estimate of expected volatility. The auditor also should evaluate whether the process (1) identifies the information necessary to be able to consider the volatility factors and (2) evaluates and weights that information (as required by paragraph A34 of FAS 123R).
- Evaluate the reasonableness of the assumptions, supporting information, judgments, and weightings. Evidence of reasonableness includes whether the company considered all the volatility factors and how such factors might affect the company's estimate of expected volatility. The auditor also should be alert to the risk of management override of the company's process for estimating expected volatility.
- Evaluate the consistency of the company's process for estimating expected volatility from period to period in evaluating the company's compliance with paragraphs A32 and A34 of FAS 123R.³⁸ However, the auditor also should consider that when circumstances indicate the availability of new or different information which would be useful in estimating expected volatility, SAB 107 directs the company to incorporate that information.³⁹

³⁷ AU secs. 342 and 328 provide general guidance for reviewing a company's process and evaluating its assumptions.

³⁸ The interpretative response to question 1, section D.1. of SAB 107 states that the process used to gather and review available information to estimate expected volatility should be applied consistently from period to period.

³⁹ *Ibid.*

- In general, for historical volatility, verify that the company's process provides for looking back over the expected term (for a closed-form model) or contractual term (for a lattice model)⁴⁰ to consider the extent to which currently available information indicates that future volatility will differ from historical volatility.⁴¹ A change in a company's business model that results in a material alteration to the company's risk profile is an example of a circumstance in which the company's future volatility would be expected to differ from its past volatility.⁴²
- Test the underlying data used in the estimate (See also PCAOB staff question No. 19).

The auditor also should evaluate whether the person or persons determining the expected volatility assumption, including the company's specialists, have experience in valuing employee share options,⁴³ and assess how that evaluation affects the audit procedures.

Historical Volatility

Q13. How should the auditor evaluate the reasonableness of a company's estimate of expected volatility when it uses its historical volatility as its expected volatility?

A13. As discussed in the answer to PCAOB staff question No. 12, the auditor should evaluate whether the company's process provides for looking backward to determine whether currently available information indicates that expected volatility will differ from historical volatility. The auditor should evaluate whether there is other information that the company did not consider and such information indicates that expected volatility will differ from the past. The auditor could base this evaluation on publicly available information related to the company's corporate history and future plans, and knowledge of the industry. In addition, an indication of the reasonableness of the company's process will be the extent to which the company analyzes each factor with respect to its own facts and circumstances.

Additionally, the auditor should consider the criteria established by SAB 107 for exclusive reliance on historical volatility. The SEC staff has stated that it would not object to a public company placing exclusive reliance on historical volatility when the following factors are present, and the methodology is consistently applied, if the company's common shares have been publicly traded for a sufficient period of time:⁴⁴

- The company has no reason to believe that its future volatility over the expected or contractual term, as applicable, is likely to differ from its past;
- The computation of historical volatility uses a simple average calculation method;
- A sequential period of historical data at least equal to the expected or contractual term of the share option, as applicable, is used; and

⁴⁰ See FAS 123R, paragraph A32a.

⁴¹ See FAS 123R, paragraph A34.

⁴² See SAB 107, footnote 55.

⁴³ See AU sec. 328.12.

⁴⁴ See SAB 107, section D.1., "Company B" example.

- A reasonably sufficient number of price observations are used, measured at a consistent point throughout the applicable historical period.

The auditor also should verify that the company has properly calculated the historical volatility.

If a company makes adjustments to historical volatility based on peer company data, the auditor should evaluate the reasonableness of the company's decision to use peer company data. In addition, the auditor should evaluate whether the company is using an appropriate peer group, the company is reasonably comparable to the peer group, and management reasonably blended peer group data and its own company data. The auditor also should be alert to the risk of management override in the area of adjustments to historical volatility.

Q14. FAS 123R indicates that a company should consider historical volatility over a period generally commensurate with the expected term or contractual term, as applicable. How should the auditor evaluate whether a company, in determining its expected volatility, has considered the historical volatility of its share price over an appropriate period of time?

A14. The auditor should evaluate whether the company considered the volatility of its share price over the most recent period that is generally commensurate with the expected term (or contractual term if a lattice model is used). For example, if a company estimated that the expected term of the options is four years, then the company generally should start with its historical volatility for the most recent four-year period in determining the expected volatility.

The following are circumstances that indicate increased inherent risk and might also indicate increased risk of fraud.

- The company used a period of historical data that is longer than the expected term,⁴⁵ and the effect is to lower expected volatility and the resulting fair value, or the company did not consistently use the longer period. Using a period of historical data longer than expected or contractual term is acceptable under SAB 107 if the company reasonably believes that the additional historical information will improve the estimate. However, this situation is similar to the condition described in PCAOB staff question No. 4, in which an adjustment to historical exercise behavior or share price volatility that results in a lower expected term or expected volatility increases inherent risk and might indicate a heightened risk of fraud.
- The company used a method that weights the most recent periods of a company's historical volatility more heavily than earlier periods, especially if the result is a lowering of expected volatility.⁴⁶

⁴⁵ See the interpretative response to question 2, section D.1 of SAB 107. SAB 107 also points out that paragraph A32a of FAS 123R indicates companies should consider historical volatility over a period generally commensurate with expected or contractual term.

⁴⁶ See SAB 107, interpretative response to question 2, section D.1, including footnote 40. SAB 107 states that such weighting may not be appropriate for longer term employee share options and that an estimate of expected volatility that places "extreme emphasis on the most recent periods" may not be consistent with paragraph A32(a) of FAS 123R.

- The company excludes a period of time from the calculation of historical volatility, especially if doing so results in a decrease of expected volatility, and hence a decrease in fair value.⁴⁷

Q15. How should the auditor evaluate the company's share price observations for the purpose of determining historical volatility?

A15. The auditor should evaluate whether the company used actual observed prices within intervals that were appropriate based on the facts and circumstances and that provide a basis for a reasonable estimate. For example, if a company's shares are thinly traded, then weekly or monthly price observations may be more appropriate than daily price observations.⁴⁸ The auditor also should verify that the price observations are taken consistently throughout the period and are consistent with the approach used in prior grants. For example, if a company uses weekly price observations, then the auditor should verify that the company made the observation on the same day of each week. In addition, if the company changes when it makes price observations, for example, from daily price observations to monthly, the auditor should evaluate the reasonableness of the company's rationale for the change.

Implied Volatility

Q16. Implied volatility is inferred by calculating volatility using an option-pricing model (typically Black-Scholes-Merton), where the fair value—the market price of a company's appropriate traded financial instruments—and other variables are known (i.e., share price, exercise price, expected term, risk-free rate, and expected dividends). How should the auditor evaluate a company's use of implied volatility in its estimate of expected volatility?

A16. SAB 107 provides items for a company to consider when using implied volatility. Accordingly, in such situations, the auditor should evaluate whether a company with "appropriate traded financial instruments from which they can derive an implied volatility"⁴⁹ has appropriately taken into account implied volatility in determining the estimate of expected volatility.

For companies with exchange-traded options, or other appropriate traded financial instruments,⁵⁰ the auditor should evaluate whether the company's process for estimating expected volatility is appropriate and consistent from period to period.⁵¹ A company that considers implied volatility will probably do so as part of its overall process for estimating expected volatility. Therefore, the auditor also should consider the concepts described in PCAOB staff question Nos. 3 and 12.

Regarding exclusive reliance on implied volatility, the SEC staff has stated that it would not object to a public company placing exclusive reliance on implied volatility when certain factors are present and the methodology is consistently

⁴⁷ See SAB 107, interpretative response to question 2, section D.1. SAB 107 states that if a company disregards a period of historical volatility, it should be prepared to support its conclusion that its historical share price during that previous period is not relevant to estimating expected volatility due to one or more discrete and specific historical events and that similar events are not expected to occur during the expected term of the share option. SAB 107 states that these situations would be rare.

⁴⁸ See SAB 107, footnote 42.

⁴⁹ See SAB 107, interpretative response to question 1, section D.1.

⁵⁰ Ibid. Under SAB 107, appropriate traded financial instruments could include actively traded options or financial instruments with embedded options.

⁵¹ See SAB 107, interpretative responses to question 3, section D.1, regarding the use of implied volatility.

applied, if the company's common shares have been publicly traded for a sufficient period of time and the company has multiple options on its shares outstanding that are traded on an exchange.⁵²

If the company places exclusive reliance on implied volatility based on its assessment that the factors in SAB 107 are present, the auditor should evaluate that assessment. In addition, the auditor should verify that the company has properly calculated the implied volatility.

Combined Volatility

Q17. How should the auditor evaluate the reasonableness of a company's estimate of expected volatility when it uses a combination of historical and implied volatility in that estimate?

A17. The auditor should verify that the company's process for estimating expected volatility includes consideration of the applicable factors for using historical or implied volatility, as discussed in FAS 123R and SAB 107. PCAOB staff question Nos. 13 through 16 provide guidance for the auditor to use when evaluating the company's use of historical volatility, including the effects of any adjustments, and implied volatility in its estimate of expected volatility. In considering the reasonableness of the combined expected volatility, the auditor should evaluate the company's consideration of the factors that affect volatility, including the SEC staff's factors for exclusive use of implied or historical volatility, and the company's support for its conclusions. The factors outlined in SAB 107 for a company's exclusive use of either historical volatility or implied volatility also may provide some relative benchmarks for the auditor to use in evaluating the combined volatility.

Risk-Free Interest Rate(s) and Expected Dividends

Q18. FAS 123R requires that the valuation method, such as the Black-Scholes-Merton formula or lattice models, consider the expected dividends of the underlying shares for the expected term and the risk-free interest rate(s) for the expected term. How should the auditor evaluate whether the company has properly considered these two elements?

A18. The risk-free interest rate(s) and the expected dividends assumption generally are less subjective than the expected term and volatility assumptions and also do not have as significant an effect on the estimate of fair value. However, the auditor still should evaluate the reasonableness of those assumptions.

Risk-free interest rate. In general, the risk-free rate is the yield on a zero-coupon U.S. Treasury bond with a remaining term equal to the option term. A higher risk-free interest rate increases the option value and hence the estimated fair value, all other factors being equal.

If the company uses the Black-Scholes-Merton formula, the auditor should verify that the company used a traded zero-coupon U.S. Treasury bond with a remaining term equal to the expected term, measured on the grant date. The auditor also should verify that the company properly calculated the yield based on the traded price. If the company interpolated a yield because the expected term fell within the remaining terms of two bonds, the auditor should evaluate the accuracy of the interpolation.

⁵² See SAB 107, section D.1., Company B example, and interpretative response to question 4, section D.1.

If a company's lattice model incorporates a term structure of expected volatilities, the company might use a yield curve for the contractual period. If the company's lattice model uses a yield curve, the auditor should verify that the company properly calculated the yield curve and accurately entered the yields into the lattice model.

Expected dividends. The dividend yield over the option term affects the option value because it reduces the stock price on the ex-dividend date. In general, higher expected dividends decrease the value of the option and hence the estimated fair value. The auditor should:

- Evaluate whether the company has the intent and ability to pay the dividends that are embodied in the expected dividend assumption. Sufficient cash and observable trends provide evidence of the company's intent and ability to pay dividends.⁵³
- If the company has adjusted its current or historic dividend yield, evaluate the reasonableness of and support for the expected dividend yield. The auditor should evaluate whether the expected dividend yield is consistent with management's plans and information available to market participants by reviewing evidence such as press releases on dividend policy changes and historical dividend yield rates. This evaluation should include whether the company failed to make an adjustment to expected dividends.
- Test the underlying data (See also PCAOB staff question No. 19).

Validation of Data and the Option-Pricing Model

Q19. How should the auditor test the underlying data that supports a company's estimate of fair value, and the related entries?

A19. Pursuant to AU sec. 328.39, the auditor should test the data used to develop the fair value measurements and evaluate whether the fair value measurements have been properly determined from such data and management's assumptions. This includes evaluating whether the data on which the fair value measurements are based, including the data used in the work of a specialist, are accurate, complete, and relevant; and whether fair value measurements have been properly determined using such data and management's assumptions. In considering the controls over data pursuant to AU sec. 328.12, the auditor should consider the effectiveness of the design of controls intended to safeguard the integrity and reliability of the data.

A number of systems, which can be automated or manual, often provide data relevant to the estimate of fair value. The auditor should identify the automated or manual systems that might be subject to testing. Record-keeping systems for stock plan information and awards are usually critical because information about forfeitures and exercises supports the company's estimate of expected term. Payroll, human resources, and tax systems also could be critical if they contain information about awards, forfeitures, and exercises that is used in the estimation process.⁵⁴

⁵³ AU sec. 328.17 states that the auditor should evaluate management's intent to carry out specific courses of action where intent is relevant to the use of fair value measurement and that the auditor also should evaluate management's ability to carry out those courses of action.

⁵⁴ See AU sec. 328.12. When obtaining an understanding of the company's process for determining fair value measurements and disclosures, the auditor should consider the extent to which the company relies on a service organization to provide data that supports the measurement. When a company uses a service organization, the auditor should consider the requirements of AU sec. 324, *Service Organizations*.

The auditor also should establish that any data used that resides outside the company are reliable, such as peer group data. AU sec. 329.16 provides guidance for evaluating the reliability of such data.

Q20. How should the auditor evaluate whether the model has appropriately calculated the fair value estimate for share options?

A20. If the company is using the Black-Scholes-Merton formula, the auditor should verify that the company is using the correct formula and recalculate the fair value. If the company is using a lattice option-pricing model, the auditor should obtain evidence that the model is functioning properly.

Role of Specialists

Q21. What is the role of a specialist in auditing estimates of the fair value of employee share option grants?

A21. AU sec. 328 provides guidance on auditing fair value measurements and disclosures, including auditing the fair value of employee share option grants. According to AU 328.12, as part of obtaining an understanding of the process management uses to determine fair value, such as the fair value of employee share option grants, the auditor should consider the extent to which management engages or employs specialists.

When testing fair value measurements and disclosures, the auditor should, among other things, perform procedures to evaluate whether management's assumptions are reasonable and to evaluate the source and reliability of evidence supporting management's assumptions.⁵⁵ According to AU sec. 328.05, footnote 2, management's assumptions include any assumptions developed by a specialist engaged or employed by management. Thus, the auditor should perform procedures in accordance with AU sec. 328 to evaluate the assumptions developed by a specialist engaged or employed by management.

Pursuant to AU sec. 328.20, the auditor should consider whether to engage a specialist and use the work of that specialist as evidential matter in performing substantive tests to evaluate material financial statement assertions related to the fair value of employee share option grants. In making this decision, the auditor⁵⁶ should evaluate whether he or she has the necessary skill and knowledge to plan and perform audit procedures related to the fair value of employee share option grants, including the reasonableness of the assumptions that the company or its specialist used.

The following circumstances related to the company's fair value measurement under FAS 123R often are particularly complex, involve assumptions that have a significant effect on fair value and, thus, might result in a higher assessment of risk by the auditor. Accordingly, the auditor should evaluate whether he or she has the necessary skill and knowledge to plan and perform audit procedures in these areas.

- Use of a lattice model, including obtaining evidence that the model is functioning properly. (See PCAOB staff questions No. 5, 18, and 20.)
- Exclusion of periods of historical data. (See PCAOB staff questions No. 4 and 14.)

⁵⁵ See AU secs. 328.26a and 328.31.

⁵⁶ In this context, the term *auditor* includes employees of the auditor's firm who possess relevant special skill or knowledge and who participate in the audit as a member of the audit team.

- Adjustments to historical exercise behavior or historical share price volatility that result in shorter expected term or lower expected volatility than the company's historical experience. (See PCAOB staff questions No. 4, 10, and 14.)
- Use of a method that weights the most recent periods of a company's historical volatility more heavily than earlier periods, especially if the result is a lowering of expected volatility. (See PCAOB staff question No. 14.)
- Use of combined volatility. (See PCAOB staff question No. 17.)

Q22. What should the auditor do to satisfy the requirement that he or she evaluate the qualifications of a specialist?

A22. Valuation specialists may have certain areas of experience. When evaluating the qualifications of a specialist in accordance with AU sec. 336.08,⁵⁷ the auditor should evaluate whether the specialist has experience in valuing employee share options. In doing this, the auditor should evaluate the experience of the specialist's firm and of the individual specialist, or specialists, performing the service.

⁵⁷ Pursuant to AU sec. 336.08a and b, the auditor should also consider the specialist's certification, license, or other recognition of competence and the specialist's reputation.

.05 STAFF QUESTIONS AND ANSWERS

Ethics and Independence Rules Concerning Independence, Tax Services, and Contingent Fees

April 3, 2007

Summary

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers related to ethics and independence rules concerning independence, tax services, and contingent fees were prepared by the Office of the Chief Auditor. Questions should be directed to Bella Rivshin, Associate Chief Auditor (202/207-9180; rivshinb@pcaobus.org) or Greg Scates, Associate Chief Auditor (202/207-9114; scatesg@pcaobus.org).

* * *

Rule 3522. Tax Transactions

Q1. Does Rule 3522(a), Confidential Transactions, apply when conditions of confidentiality are imposed by tax advisors who are not employed by or affiliated with the registered public accounting firm?

A1. Yes. Under Rule 3522(a), a registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any non-audit service to the client related to marketing, planning, or opining in favor of the tax treatment of a confidential transaction. Under Rule 3501(c)(i)(1), a confidential transaction is a transaction that is offered to a taxpayer under conditions of confidentiality and for which the taxpayer has paid an advisor a fee. As stated in the Board's adopting release, PCAOB Release 2004-015 (July 26, 2005), "Rule 3501(c) defines confidential transactions in terms of confidentiality restrictions imposed by tax advisors generally, not specifically auditors." Therefore, Rule 3522(a) applies not only when conditions of confidentiality have been imposed by a tax advisor that is employed by or affiliated with the registered public accounting firm, but also when conditions of confidentiality have been imposed by any tax advisor, including one that has no relationship with the registered public accounting firm.

Q2. For purposes of Rule 3522(a), Confidential Transactions, can a registered public accounting firm, when marketing, planning, or opining in favor of the tax treatment of a transaction, rely on representations from its audit

client that another tax advisor did not impose conditions of confidentiality in connection with the specific tax transaction?

A2. Yes. In determining if any tax advisor imposed conditions of confidentiality in connection with a specific tax transaction, the registered public accounting firm may rely on representations from its audit client, provided that the firm does not know, or have reason to know, that those representations are incorrect or incomplete.

Q3. In planning a tax transaction, may a registered public accounting firm advise an audit client on the tax consequences of alternative ways of structuring the transaction?

A3. Yes, as long as the auditor does not recommend an alternative tax transaction structure: (1) that is not more likely than not to be allowable under applicable tax laws, and (2) a significant purpose of which is tax avoidance. Rule 3522(b) provides that a registered public accounting firm is not independent of the audit client if the firm, or any affiliate of the firm, provides an audit client any non-audit service related to marketing, planning, or opining in favor of the tax treatment of a transaction that was initially recommended by the firm and a significant purpose of which is tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws. In planning a tax transaction for an audit client that is permitted under Rule 3522(b), the firm may need or want to inform the client about the tax consequences of alternative tax transaction structures, some of which may not be more likely than not to be allowable and have a significant purpose of tax avoidance. As long as the firm does not recommend that the audit client engage in such a transaction, the firm will not violate Rule 3522(b).

Q4. How is a registered public accounting firm's independence affected by the Internal Revenue Service's ("IRS") subsequent listing of a transaction that the firm marketed, planned, or opined in favor of, as described in Rule 3522(b), Aggressive Tax Position Transactions?

A4. The listing by the IRS of a transaction after the firm marketed, planned, or opined in favor of the tax treatment of the transaction would not retroactively affect the firm's independence. Whether the firm was independent when it planned, marketed, or opined in favor of the transaction would instead depend on the facts available at that time. An analysis under Rule 3522 would consider, among other things, whether the tax treatment of the transaction was, at the relevant time, at least more likely than not to be allowable under applicable tax laws, including whether the transaction was itself listed or substantially similar to a listed transaction.

After a transaction marketed, planned or opined on by the firm becomes listed, however, the firm's independence may, depending on the circumstances, become impaired. For example, even if a firm was independent at the time the tax transaction was executed, because it reasonably and correctly concluded the transaction was not the same as, or substantially similar to, a listed transaction, once a transaction is actually listed (or a substantially similar transaction becomes listed), the firm that participated in the transaction may find its independence impaired. In this situation, a mutuality of interest could be created by the fact that once a transaction is listed, the firm or client, or both, may be required to defend the tax treatment of the transaction and, in some cases, pay penalties. When a tax transaction in which the firm participated is subsequently listed (or is substantially similar to a transaction that is subsequently listed) by the IRS, the firm should evaluate the potential effect on its independence and discuss it, as appropriate, with the audit client's audit committee.

Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles

Q5. Rule 3523 restricts the provision of tax services to a person in a Financial Reporting Oversight Role ("FROR") at an audit client or an immediate family member of such person. FROR is defined under both SEC and PCAOB rules as a role in which a person is in a position to or does exercise influence over the contents of the financial statements or anyone who prepares them. For purposes of Rule 3522, must the auditor evaluate whether persons are in a FROR at any entities other than the one being audited?

A5. Yes. Auditors must evaluate whether a person is in a FROR at an "audit client." Because Rule 3501(a)(iv) defines "audit client" to include "any affiliates of the audit client," a person in a financial reporting oversight role at an affiliate of the audit client (and that person's immediate family members) are covered by Rule 3523, subject to two important exceptions. First, a firm's independence is not impaired under Rule 3523 if it provides tax services to a person who is in a financial reporting oversight role at the audit client (or an immediate family member of such a person) only because of the person's relationship to an affiliate whose financial statements are not material to the consolidated financial statements of the entity being audited. See Rule 3523(b)(1). Second, a firm's independence is not impaired under the rule if it provides tax services to a person who is in a financial reporting oversight role at the audit client (or an immediate family member of such a person) only because of the person's relationship to an affiliate whose financial statements are audited by an auditor other than the firm. See Rule 3523(b)(2).

Q6. What types of situations does the term "other change in employment event" in Rule 3523(c) encompass?

A6. Rule 3523(c) provides a time-limited exception to Rule 3523's restrictions on the provision of tax services to persons in financial reporting oversight roles at an audit client and certain of its affiliates. The exception applies when, among other things, a person becomes subject to the rule through a hiring, promotion, or "other change in employment event." Whether there has been an "other change in employment event" depends on the changed status of a person at an audit client. A change experienced by a company, such as a change in auditor or a change from a private company to a public one, is not, by itself, an "other change in employment event."

Some changes experienced by a company could, however, result in an "other change of employment event" for a particular person. For example, a person who is not in a financial reporting oversight role might, as a result of a business combination, be assigned additional duties and responsibilities that put him or her into a financial reporting oversight role. A business combination could also result in a change in a person's employer – for example, from an acquired company to a surviving company. A change in employer is also an "other change in employment event" under Rule 3523(c). For example, if Company A acquires Company B, a person who was in a financial reporting oversight role at Company B would experience an "other change in employment event" if he or she became an employee of Company A in a financial reporting oversight role as a result of the acquisition. If such a person had been receiving tax services from Company A's registered public accounting firm pursuant to an engagement in process before the acquisition, the time-limited exception in Rule 3523(c) would apply.

.06 STAFF QUESTIONS AND ANSWERS

REGISTRATION OF BROKER-DEALER AUDITORS

February 19, 2009

Summary:

The questions and answers below set forth staff guidance to assist auditors of non-public broker-dealers considering registration with the Public Company Accounting Oversight Board ("PCAOB" or "Board"). This guidance does not constitute Board rules, nor has it been approved by the Board.

The staff questions and answers below were prepared by the Division of Registration and Inspections to supplement PCAOB Release No. 2003-011B, *Frequently Asked Questions Regarding Registration with the Board*. Questions should be directed to the PCAOB's registration staff, by emailing registration-help@pcaobus.org or by calling 202-207-9329. The Securities and Exchange Commission ("SEC") staff and the Financial Industry Regulatory Authority ("FINRA") have also each published guidance on issues related to the requirement that auditors of non-public broker-dealers register with the Board. The SEC staff guidance can be found at www.sec.gov/divisions/marketreg/faq-pcaobregbdauditors.htm. The FINRA guidance can be found at www.finra.org/Industry/Regulation/Notices/2009/P117689.

* * *

Overview of Registration

Q1. My firm audits broker-dealers but does not audit or participate in audits of public companies. Does my firm have to register with the Board?

A1. Yes. Section 17(e) of the Securities Exchange Act of 1934 (as amended by the Sarbanes-Oxley Act of 2002) provides that every registered broker or dealer shall annually file with the SEC certain financial statements that are certified by a firm that is registered with the PCAOB. Until recently, an order of the Securities and Exchange Commission (the "SEC Order") had provided non-public broker-dealers with relief from that requirement. As a result of the SEC Order's recent expiration, financial statements of non-public broker-dealers for fiscal years ending after December 31, 2008 must be certified by a registered public accounting firm.

Q2. What does my firm have to do to become registered with the Board?

A2. To register with the Board, your firm must submit a registration application and the Board must approve it. Links to the instructions to Form 1 and to Section 2 of the Board's rules (which govern the registration process) may be found at www.pcaobus.org/Rules/Rules_of_the_Board. You may also view a sample registration application by clicking on "Sample Registration Form 1" located on the Registration page of the Board's website (www.pcaobus.org/Registration). You can read a discussion of the information Form 1 requires by

going to www.pcaobus.org/rules/docket_001 and clicking on Release 2003-007. The Board has also published answers to frequently asked questions concerning the application process generally, which you can find on the Registration page. This document, PCAOB Release No. 2003-011B, *Frequently Asked Questions Regarding Registration with the Board*, is referred to below as "Board FAQs" and can be found at www.pcaobus.org/Registration/Registration_FAQ.pdf.

In addition to submitting the Form 1 registration application, your firm will have to pay a non-refundable registration fee prior to Board consideration of your application. If your firm audited no issuers during the previous calendar year, the registration fee is \$250. "Issuer" is defined in the Sarbanes-Oxley Act of 2002 and PCAOB rules and does not include a non-public broker-dealer.

Q3. Will PCAOB registration affect the manner in which my firm audits broker-dealers?

A3. The Board does not determine, inspect for compliance with, or enforce the standards applicable to audits of entities that are not issuers. In addition, the SEC staff has published guidance indicating that the requirement to register with the PCAOB does not affect the existing requirement, under SEC rules, that audits of the financial statements of non-public broker-dealers be conducted according to generally accepted auditing standards. See "PCAOB Registration of Auditors of Non-Public Broker-Dealers Frequently Asked Questions" (Question 5), available at www.sec.gov/divisions/marketreg/faq-pcaobregbdauditors.htm.

Q4. If my firm becomes registered with the Board, what ongoing obligations will it have to the PCAOB?

A4. Board rules currently pending with the SEC would require all registered firms, including those that do not audit issuers, to comply with the PCAOB's annual and special reporting requirements. Once those rules are effective, you will have to file with the Board an annual report, providing basic information about your firm. You will also have to file a special report if certain, specified events occur. These rules, once effective, will also require firms to pay an annual fee. The amount of that fee has not yet been announced. You can read a full description of the annual and special reporting rules adopted by the Board in PCAOB Release No. 2008-004 at www.pcaobus.org/Rules/Docket_019.

In any given year, both the requirement to file an annual report and the requirement to pay an annual fee apply only to firms that are registered as of March 31 of that year. Firms that become registered after March 31 of a given year would not file an annual report or pay an annual fee that year.

A firm's failure to comply with the reporting and fee requirements, as well as a failure to comply with the requirements to provide complete and accurate information in the application process, could result in disciplinary sanctions, potentially including revocation of a firm's registration.

Mechanics of Registration

Q5. How does my firm submit a registration application?

A5. Registration applications are electronic and can only be obtained by accessing the Board's secure registration system. To gain access to the registration system, go to the Registration page of the Board's website (www.pcaobus.org/Registration) and click on "Register with the PCAOB" in the gray box on the right. You will be presented with a log-in box and instructions to establish a user ID and password by submitting an "Online Entitlement Request Form." Follow the instructions to establish a user ID and password, and

return to this log-in page to access PCAOB's secure registration system, where you may download the PDF version of the Form 1 registration application. (Note: The registration system also offers the option to submit Form 1 using XML. See Board FAQ #3 for further information on this option). Complete the application on your computer, making sure to take careful note of the name and location of the file containing your application.

To submit the registration application, log back into the registration system and follow the instructions to upload your completed Form 1. After Form 1 is uploaded, the system will calculate your firm's registration fee and present you with an invoice. You will be given a link to a site where you can submit your payment electronically. Once you've paid, your application will be deemed submitted.

Q6. How long will it take my firm to get registered?

A6. The Board has up to 45 days after the date your firm submits its application to take action on the application. The actual number of days until approval will vary depending on the information contained in the application and the number of applications that are pending at the same time as your firm's application. However, if the Board requests additional information concerning the application, a new 45-day period will begin when the additional information is received. In addition, if the Board cannot determine whether it is in the public interest to approve a firm's application, the Board may hold a hearing. While the applicant could elect to treat the hearing notice as a denial, if it does not do so, it will have waived the 45-day requirement for Board action. See Board FAQ #14 for additional information concerning notices of hearing.

Content of the Registration Application

Q7. My firm does not participate in audits of issuers. Are there sections of the registration application we can skip?

A7. Before responding to any item in the registration application, an applicant should give careful attention to the definitions of terms used in the item. Of particular significance in this context are the definitions of "issuer" (which does not include a non-public broker-dealer), "audit" and "audit report" (which are limited to work and reports relating to the financial statements of issuers), and "associated person" of the applicant (which encompasses only persons that perform work in connection with an audit of an issuer).

If your firm did not, in the current calendar year or in the year preceding submission of its application, participate at all in the audit of an issuer, and your firm does not expect to do so in the current calendar year, it will have no information responsive to Part II (Listing of Applicant's Public Company Audit Clients and Related Fees) or to Item 7.1 (Listing of Accountants Associated with Applicants), and may not have information responsive to other items on the application. The form contains "NA" boxes that you should check to indicate that particular parts of the form do not apply to your firm. A firm that certifies financial statements of broker-dealers, however, should, when filling out an application, also bear in mind the answer to question no. 9 below.

Before concluding that it does not participate in audits of issuers, an applicant should understand that audit work performed for a non-public entity could nevertheless constitute participation in an audit of an issuer if that work is used by another firm in connection with the other firm's audit of an issuer, such as a parent company. In that circumstance, applicants should carefully consider whether they have played, or expect in the current calendar year to

play, a "substantial role" in the audit of an issuer as that defined term is used in the registration application.

Q8. Part IV of the registration application requires my firm to provide a statement of its quality control policies. How detailed should we be in describing our quality control policies?

A8. Your firm's discussion of quality control policies should be a summary description presented in a clear, concise and understandable format. You should not provide us with your entire internal quality control manual, but should prepare a brief document that provides an overview of your firm's policies with respect to independence, integrity and objectivity; engagement performance; personnel management; acceptance and continuance of clients and engagements; and monitoring.

Q9. Should my firm provide any specific information relevant to its work for broker-dealers?

A9. In light of the expiration of the SEC order, the staff believes that certain specific information may be relevant to the Board's consideration of an application. In order to avoid the Board seeking the information through a formal request for additional information, which could delay Board action on the application until 45 days after all requested additional information is submitted, the staff urges all applicants who have certified financial statements for SEC filings by broker-dealer clients in the two-year period preceding submission of the application and who intend to continue to do so to (a) indicate that fact in the "Applicant Profile" section on the first page of Form 1 by checking the box for item number 2, and (b) provide the following information:

1. Broker-dealer clients: Include in Exhibit 4.1, in addition to a description of the firm's quality control policies, a separate file listing (a) all broker-dealers for which the firm certified financial statements in the current or preceding calendar year, including the business address of each broker-dealer and, as to each, the dates of any such certification by the firm; and (b) any additional broker-dealers for which the firm expects to certify financial statements in the current calendar year, including the business address of each.

2. Individuals' disciplinary histories: Include in Exhibit 5.3 a statement indicating whether any proprietor, partner, principal, shareholder, or officer of the firm, or any accountant employed by the firm who participates in the firm's work relating to certification of broker-dealer financial statements, has a history that meets any of the criteria described in Item 5.1.a. of Form 1. If any of those individuals has such a history, provide as to each matter the information described in Item 5.1.b. of Form 1. In considering the criteria described in Item 5.1.a.1., please give careful attention to Board FAQ #33.

Q10. Are registration applications made public? If so, can my firm protect any of the information it provides in the application from public disclosure?

A10. The Board makes registration applications available to the public by posting them to its web site as soon as practicable after approving or disapproving them. If your firm wishes to protect information in its registration application from public disclosure, it may request confidential treatment for that information by checking the box labeled "CR" that appears in the application relating to the exact item of information that you want to be treated confidentially. Your firm will be notified of the Board's determination with respect to your request after the Board has acted on your application.

For each request for confidential treatment, your firm must attach, as exhibit 99.1, an explanation as to why you believe the information should be treated confidentially. Refer to Board Rule 2300 (www.pcaobus.org/Rules/)

Rules_of_the_Board/Section_2.pdf) for the test the Board will apply in considering whether to grant your requests.

Requesting confidential treatment of a portion of a text exhibit to Form 1 requires your firm to submit two versions of the exhibit – one version should contain all the information in the exhibit and the other version should redact those portions of the exhibit as to which the firm is seeking confidential treatment and show with a notation each redaction that has been made.

Further Questions About Registration

Q11. What should I do if I have further questions?

A11. If you have questions, you should first review the Board's FAQs on Registration, the Board's rules and Instructions to Form 1, and the Instructions for filling out Form 1 that are available for download after you log in to the registration system. If you still have questions, you can email the PCAOB's registration staff at registration-help@pcaobus.org, or call the registration staff's help line at (202) 207-9329. The hours of operation for the help line are 9 a.m. to 5 p.m. EDT, Monday through Friday.

.07 STAFF QUESTIONS AND ANSWERS

REFERENCES TO AUTHORITATIVE ACCOUNTING GUIDANCE IN PCAOB STANDARDS

September 2, 2009

Summary:

Staff questions and answers set forth the staff's opinions on issues related to the implementation of the standards of the Public Company Accounting Oversight Board ("PCAOB" or "Board"). The staff publishes questions and answers to help auditors implement, and the Board's staff administer, the Board's standards. The statements contained in the staff questions and answers are not rules of the Board, nor have they been approved by the Board.

The following staff questions and answers regarding descriptions of and references to authoritative accounting guidance contained in the standards of the PCAOB were prepared by the Office of the Chief Auditor. Additional questions should be directed to Barbara Vanich, Associate Chief Auditor (202/207-9363; vanichb@pcaobus.org) or Greg Scates, Deputy Chief Auditor (202/207-9114; scatesg@pcaobus.org).

FASB Accounting Standards Codification

On June 30, 2009, the Financial Accounting Standards Board ("FASB") issued FASB Statement of Financial Accounting Standards No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162* ("FAS 168"). That standard establishes the FASB Codification ("Codification") as the source of authoritative non-Commission accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").¹ The Codification is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Descriptions of and References to U.S. GAAP

Q1. Certain PCAOB standards include descriptions of and references to U.S. GAAP and accounting requirements. What is the status of those descriptions of and references to U.S. GAAP and accounting requirements upon the effective date of the Codification?

¹ See U.S. Securities and Exchange Commission ("SEC" or "Commission") Release Nos. 33-9062A; 34-60519A; FR-80A, *Commission Guidance Regarding the Financial Accounting Standards Board's Accounting Standards Codification* (August 19, 2009).

A1. Certain PCAOB standards contain descriptions of and references to U.S. GAAP that existed prior to the Codification. Those descriptions and references were not intended to represent and do not represent authoritative sources of U.S. GAAP.

Some PCAOB standards include descriptions of and references to accounting requirements that are no longer current. Further, some PCAOB standards include descriptions of accounting requirements that may not represent the final language as adopted in the Codification.

The accounting standards set by the FASB are recognized by the U.S. Securities and Exchange Commission ("SEC" or "Commission") as generally accepted under Section 108 of the Sarbanes-Oxley Act of 2002.² Therefore, auditors should disregard descriptions of and references to accounting requirements in PCAOB standards that are inconsistent with the Codification.

Auditors should look to the relevant sections of the Codification and to SEC requirements to identify the applicable accounting and reporting requirements for the company under audit. The FASB's web site contains a cross-reference search function to assist users in transitioning to the Codification.³

The PCAOB plans to revise these descriptions and references in its future standards-setting projects.

Auditor's Responsibilities Regarding the Codification

Q2. What is the auditor's responsibility if, in using the Codification, the auditor believes that an item in the financial statements should be accounted for differently under the Codification than under pre-Codification U.S. GAAP?

A2. The FASB has stated that, generally, the Codification does not represent a change in U.S. GAAP. The FASB, however, has acknowledged that through the process of drafting the Codification, certain wording changes might theoretically lead an issuer to conclude differently on an accounting matter.⁴ To address those types of changes, the FASB will continue to accept feedback on Codification content after the effective date to improve content and address unintentional changes, when applicable.⁵ The FASB also has acknowledged that in reviewing the Codification issuers might discover guidance of which they were previously unaware that now indicates that an error may exist in previously issued financial statements.⁶

If an issuer reaches a different conclusion on an accounting matter, an auditor should evaluate management's conclusion on whether the different accounting treatment is a change in an accounting principle or an error, following the guidance in Codification Topic 250, Accounting Changes and Error Corrections.⁷

If the different accounting treatment is a change in an accounting principle, the auditor should follow the direction in:

² See SEC Release Nos. 33-8221; 34-47743, *Commission Statement of Policy Reaffirming the Status of the FASB as a Designated Private-Sector Standard Setter* (April 25, 2003).

³ The Codification cross-reference table is available at: http://asc.fasb.org/crossref&analyticsAssetName=home_page_crossreference.

⁴ See FAS 168, paragraph A15.

⁵ *Ibid.*, paragraph A17.

⁶ *Ibid.*, paragraph A16.

⁷ This Codification topic was formerly referred to as FAS 154, *Accounting Changes and Error Corrections*.

- AU sec. 508, *Reports on Audited Financial Statements*
- PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*

If the different accounting treatment is an error, the auditor should follow the direction in:

- AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*
- AU sec. 508, *Reports on Audited Financial Statements*
- PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*
- PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, on evaluating deficiencies in an integrated audit, and AU sec. 325, *Communications About Control Deficiencies in an Audit of Financial Statements*, on evaluating deficiencies in an audit of financial statements only.

Q3. What are the other responsibilities of an auditor with respect to the Codification?

A3. Auditors will need to become knowledgeable about using the Codification. Additionally, for reviews of interim financial information and audits of financial statements for periods ending after September 15, 2009, when referencing or including an excerpt from U.S. GAAP in audit documentation, the relevant Codification topic is the appropriate source for that reference or excerpt. It may be desirable, but is not necessary, to update certain existing audit documentation (e.g., audit schedules, memoranda) containing previous references to U.S. GAAP prepared prior to the Codification.

Audits of Financial Statements Prepared in Conformity with International Financial Reporting Standards

Q4. What consideration, if any, should an auditor give to descriptions of and references to U.S. GAAP in the standards of the PCAOB if he or she is auditing the financial statements of a foreign private issuer ("FPI")⁸ prepared in conformity with International Financial Reporting Standards ("IFRS"),⁹ as issued by the International Accounting Standards Board?

A4. In an audit of an FPI's financial statements that are prepared in conformity with IFRS, the auditor needs to consider SEC requirements and IFRS to determine the applicable accounting and reporting requirements and should disregard descriptions of and references to U.S. GAAP in PCAOB standards.

⁸ See Rule 3b-4(c) of the Securities Exchange Act of 1934 for the definition of "foreign private issuer."

⁹ See Form 20-F, General Instruction E(c), and items 17 and 18; 17 C.F.R. 249.220f; and SEC Release Nos. 33-8879; 34-57026; International Series Release No. 1306; File No. S7-13-07 (December 21, 2007).

STAFF VIEWS

.01 An Audit of Internal Control That Is Integrated With an Audit of Financial Statements: Guidance for Auditors of Smaller Public Companies

January 23, 2009

Introduction

The information in this publication is intended to help auditors apply the provisions of the Public Company Accounting Oversight Board's ("PCAOB" or "Board") Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* ("Auditing Standard No. 5"),¹ to audits of smaller, less complex public companies ("smaller, less complex companies"). If used appropriately, it can help auditors design and execute audit strategies that will achieve the objectives of Auditing Standard No. 5. This publication is not, however, a rule of the Board and does not establish new requirements. All audits of internal control over financial reporting—regardless of the size of the company—must comply with the requirements of Auditing Standard No. 5. Also, this publication does not address all of the requirements and direction in Auditing Standard No. 5 or all issues that may be encountered in audits of smaller, less complex companies.

In adopting Auditing Standard No. 5, one of the Board's objectives was to make the audit of management's assessment of the effectiveness of internal control over financial reporting ("audit of internal control") more clearly scalable for smaller, less complex companies. Thus, the standard contains direction to auditors on scaling the audit based on a company's size and complexity. This publication discusses how that direction may be applied to audits of smaller, less complex companies, including smaller companies that are not complex, and how auditors may address some of the challenges that might arise in audits of those companies.

Development of This Publication

This publication was developed by the staff of the Board's Office of the Chief Auditor ("OCA"). To develop the information in this publication, OCA organized a working group composed of auditors who have experience with audits of internal control over financial reporting in smaller, less complex companies. These auditors identified issues that pose particular challenges in auditing internal control in smaller, less complex companies. The auditors provided insights and examples based on their experiences in addressing these issues, and

¹ PCAOB Release 2007-005A, "Auditing Standard No. 5 – *An Audit Of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements and Related Independence Rule and Conforming Amendments*" (June 12, 2007).

they assisted in drafting a preliminary version of the guidance. In developing that preliminary guidance, OCA also consulted with financial executives from smaller public companies, who helped the staff evaluate whether it appropriately reflected the smaller, less complex company environment.

The staff issued the preliminary guidance for public comment on October 17, 2007, and received 23 comments. After considering those comments, the staff made certain changes in this final version that clarify or enhance the guidance. Appendix B to this publication discusses comments received and related changes.

Internal Control Examples in this Publication

This publication discusses certain types of controls and provides examples of those controls to help auditors understand the types of controls that might be encountered in the audit of a smaller, less complex company and to provide a context for the discussion of audit strategies for evaluating the effectiveness

² Auditing Standard No. 5 states that the auditor should use the same internal control framework that management uses in its assessment of internal control. Although this publication uses certain terms and concepts from COSO's *Internal Control—Integrated Framework*, the principles in this publication could be applied to other internal control frameworks.

of those controls. The discussions and examples of controls do not establish internal control requirements and are not intended as guidance to management regarding establishing or evaluating internal control over financial reporting.

Chapter 1

Scaling the Audit for Smaller, Less Complex Companies

Auditing Standard No. 5 establishes requirements and provides direction that applies when an auditor is engaged to perform an audit of internal control over financial reporting that is integrated with an audit of the financial statements.

The complexity of a company is an important factor in the auditor's risk assessment and determination of the necessary audit procedures. Auditing Standard No. 5 provides direction on scaling the audit of internal control based on the size and complexity of a company. Scaling is important for audits of internal control of all companies, especially smaller, less complex companies. This chapter highlights principles for scaling the audit of internal control over financial reporting set forth in Auditing Standard No. 5 and discusses considerations for applying the principles in audits of smaller, less complex companies.

The audit of internal control should be integrated with the audit of the financial statements, so the auditor must plan and perform the work to achieve the objectives of both audits.¹ This direction applies to all aspects of the audit, and it is particularly relevant to tests of controls. This chapter discusses testing of controls in an integrated audit of a smaller, less complex company. Appendix A illustrates an audit approach for the integrated audit.

Scaling the Audit of Internal Control

Scaling the audit of internal control involves tailoring the audit approach to fit the individual facts and circumstances of the company. Many smaller companies have less complex operations, and they typically share many of the following attributes:

- Fewer business lines
- Less complex business processes and financial reporting systems
- More centralized accounting functions
- Extensive involvement by senior management in the day-to-day activities of the business
- Fewer levels of management, each with a wide span of control.²

The attributes of a smaller, less complex company can affect the particular risks that could result in material misstatement of the company's financial statements and the controls that a company might establish to address those risks. Consequently, these attributes have a pervasive effect on the audit of internal control, including assessing risk, determining significant accounts and disclosures and relevant assertions, selecting controls to test, and testing the design and operating effectiveness of controls. The following are examples of internal control-related matters that might be particularly affected by the attributes of a smaller, less complex company—

¹ See Auditing Standard No. 5, paragraphs 6 and 7.

² See Auditing Standard No. 5, paragraph 9.

- *Use of entity-level controls to achieve control objectives.* In smaller, less complex companies, senior management often is involved in many day-to-day business activities and performs duties that are important to effective internal control over financial reporting. Consequently, the auditor's evaluation of entity-level controls can provide a substantial amount of evidence about the effectiveness of internal control over financial reporting. Chapter 2 discusses methods of evaluating entity-level controls and explains how that evaluation can affect the testing of other controls.
- *Risk of management override.* The extensive involvement of senior management in day-to-day activities and fewer levels of management can provide additional opportunities for management to override controls or intentionally misstate the financial statements in smaller, less complex companies. In an integrated audit, the auditor should consider the risk of management override and company actions to address that risk in connection with assessing the risk of material misstatement due to fraud and evaluating entity-level controls.³ Chapter 3 discusses these considerations in more detail.
- *Implementation of segregation of duties and alternative controls.* By their nature, smaller, less complex companies have fewer employees, which limits the opportunity to segregate incompatible duties. Smaller, less complex companies might use alternative approaches to achieve the objectives of segregation of duties, and the auditor should evaluate whether those alternative controls achieve the control objectives.⁴ This is discussed in Chapter 4.
- *Use of information technology (IT).* A smaller, less complex company with less complex business processes and centralized accounting operations might have less complex information systems that make greater use of off-the-shelf packaged software without modification. In the areas in which off-the-shelf software is used, the auditor's testing of information technology controls might focus on the application controls built into the pre-packaged software that management relies on to achieve its control objectives and the testing of IT general controls might focus on those controls that are important to the effective operation of the selected application controls. Chapter 5 discusses IT controls in more detail.
- *Maintenance of financial reporting competencies.* Smaller, less complex companies might address their needs for financial reporting competencies through means other than internal staffing, such as engaging outside professionals. The auditor may take into consideration the use of those third parties when assessing competencies of the company. Chapter 6 discusses the evaluation of financial reporting competencies in more detail.
- *Nature and extent of documentation.* A smaller, less complex company typically needs less formal documentation to run the business, including maintaining effective internal control over financial reporting. The auditor may take that into account when selecting controls to test and planning tests of controls. Chapter 7 discusses this in more detail.

³ See Auditing Standard No. 5, paragraphs 14 and 24.

⁴ See Auditing Standard No. 5, paragraph 42.

In some audits of internal control, auditors might encounter companies with numerous or pervasive control deficiencies. Smaller, less complex companies can be particularly affected by ineffective entity-level controls, as these companies typically have fewer employees and fewer process-level controls. The auditor's strategy can be influenced by the nature of the control deficiencies and factors such as the availability of audit evidence and the effect of the deficiencies on other controls. Chapter 8 discusses these situations in more detail.

Tests of Controls in an Integrated Audit

Auditing Standard No. 5 provides direction on selecting controls to test and testing controls in an audit of internal control. The standard also provides direction on testing controls for the audit of the financial statements. The following paragraphs discuss how the auditor might apply the directions in Auditing Standard No. 5 to an audit of a smaller, less complex company.

Selection of Controls to Test

Appropriate selection of controls helps focus the auditor's testing on those controls that are important to the auditor's conclusion about whether the company's internal control over financial reporting is effective. The decision about whether to select a control for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of misstatement in a given relevant assertion rather than on how the control is labeled (e.g., entity-level control, transaction-level control, control activity, monitoring control, preventive control, or detective control). A practical starting point for identifying these controls is to consider the controls that management relies on to achieve its objectives for reliable financial reporting.

Besides the overriding consideration of whether a control addresses the risk of misstatement, as a practical matter, the auditor might also consider the following factors when selecting controls to test:

- Is the control likely to be effective?
- What evidence exists regarding operation of the control?

When selecting controls to test, the auditor could seek to select controls that are more likely to be effective in addressing the risk of misstatement in one or more relevant assertions.⁵ If none of the controls that are intended to address a risk for a relevant assertion is likely to be effective, the auditor can take that into account in determining the evidence needed to support a conclusion about the effectiveness of controls for this assertion.⁶ Chapter 8 discusses in more detail how auditors could design their audit strategies in a situation when internal control over financial reporting is likely to be ineffective because of the presence of pervasive control deficiencies that result in one or more material weaknesses.

The auditor needs to be able to obtain enough evidence about a control's operation to conclude on its effectiveness. The auditor could take into account the nature and availability of audit evidence when selecting controls to test and determining the nature, timing, and extent of tests of controls. For example, if

⁵ There might be more than one control that addresses the assessed risk of misstatement for a particular relevant assertion; conversely, one control might address the assessed risk of misstatement to more than one relevant assertion. It is neither necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is itself a control objective. See Auditing Standard No. 5, paragraph 40.

⁶ Auditing Standard No. 5, paragraph 47, indicates that, generally, less evidence is needed to support a conclusion that controls are not operating effectively.

two or more controls adequately address the risk of misstatement for a relevant assertion, the auditor may select the control for which evidence of operating effectiveness can be obtained more readily. Chapter 7 discusses documentation and audit evidence in more detail.

Tests of Operating Effectiveness of Controls

Historically, the approach for financial statement audits of smaller, less complex companies has been to focus primarily on testing accounts and disclosures, with little or no testing of controls. The internal control reporting requirements under Sections 103 and 404 of the Sarbanes-Oxley Act of 2002 (the "Act") give auditors the opportunity to re-consider their traditional approach to the financial statement audit portion of the integrated audit. The principles in Auditing Standard No. 5 also give auditors latitude to determine an appropriate testing strategy to—

- (a) Obtain sufficient evidence to support the auditor's opinion on internal control over financial reporting as of year-end, and
- (b) Obtain sufficient evidence to support the auditor's control risk assessments in the audit of the financial statements.⁷

To express an opinion on internal control over financial reporting taken as a whole, the auditor must obtain evidence about the effectiveness of selected controls over all relevant financial statement assertions. Because the auditor's opinion on internal control over financial reporting is as of a point in time, Auditing Standard No. 5 indicates that he or she should obtain evidence that internal control over financial reporting has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the company's financial statements.⁸

In an audit of financial statements, the objective of tests of controls is to assess control risk. To assess control risk at less than the maximum, the auditing standards require the auditor to obtain evidence that the relevant controls operated effectively during the entire period upon which the auditor plans to place reliance on those controls.⁹ However, the auditor is not required to assess control risk at less than the maximum for all relevant assertions, and, for a variety of reasons, the auditor may choose not to do so.¹⁰

The auditor's assessment of control risk at the maximum for one or more relevant assertions in an audit of financial statements does not necessarily preclude the auditor from issuing an unqualified opinion in an audit of internal control. The objectives of the two audits are not identical. The auditor could obtain sufficient evidence to support his or her opinion on internal control over financial reporting, even if the auditor decides not to test controls over the entire period of reliance to support a control risk assessment below the maximum. However, if the auditor assesses control risk at the maximum because of identified control deficiencies, the auditor should evaluate the severity of the deficiencies, individually or in combination, to determine whether a material weakness exists.¹¹

The auditor's decision about relying on controls in an audit of financial statements may depend on the particular facts and circumstances. In some areas, the auditor might decide to rely on certain controls to reduce the substantive

⁷ See Auditing Standard No. 5, paragraph 7.

⁸ See Auditing Standard No. 5, paragraph B2.

⁹ See paragraph B4 of Auditing Standard No. 5 and paragraph .66 of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*.

¹⁰ See Auditing Standard No. 5, paragraph B4, and AU sec. 319.65.

¹¹ See Auditing Standard No. 5, paragraph 62.

testing of accounts and disclosures. For other areas, the auditor might perform primarily substantive tests of the assertions without relying on controls. For example, the auditor might test a company's controls over billings and cash receipts processing to cover the entire period of reliance in order to reduce the extent of confirmation of accounts receivable balances but might perform primarily substantive tests of the allowance for doubtful accounts. In this case, the auditor might perform the tests of controls over the allowance for doubtful accounts only as necessary for the audit of internal control over financial reporting.

For some significant accounts, the auditor might decide that a relevant assertion can be tested effectively and efficiently through substantive procedures without relying on controls. For example, the auditor might decide to confirm an outstanding loan payable with the lender rather than rely on controls. In that situation, the auditor may test controls of the relevant assertions only as necessary to support his or her opinion on the company's internal control over financial reporting at year-end.

To obtain evidence about whether a selected control is effective, the control must be tested; the effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements detected by substantive procedures, however, is one of a number of factors that inform the auditor's risk assessments in determining the testing necessary to conclude on the effectiveness of a control.¹² See the section entitled Specific Responses—Substantive Procedures and Tests of Controls in Appendix A to this publication for more discussion on this topic.

Chapter 2

Evaluating Entity-Level Controls

An important aspect of performing an audit of internal control is the process of identifying and evaluating entity-level controls. This chapter discusses entity-level controls and explains how they can affect the nature, timing, and extent of the auditor's procedures in an audit of internal control for a smaller, less complex company.

For the purposes of this discussion, entity-level controls are controls that have a pervasive effect on a company's internal control. These controls include¹ –

- Controls related to the control environment;
- Controls over management override;
- The company's risk assessment process;
- Centralized processing and controls, including shared service environments;
- Controls to monitor results of operations;
- Controls to monitor other controls, including activities of the audit committee² and self-assessment programs;³

¹² See Auditing Standard No. 5, paragraphs 47, 58, and B9.

¹ See Auditing Standard No. 5, paragraph 24.

² If no audit committee exists, all references to the audit committee in this publication apply to the entire Board of Directors of the company. See 15 U.S.C. 78c(a)(58 and 7201(a)(3).

³ Some smaller, less complex companies might have an internal audit function, especially in regulated industries. If the activities of the internal audit function include controls to monitor other controls, those controls also are entity-level controls.

- Controls over the period-end financial reporting process; and
- Policies that address significant business control and risk management practices.

In smaller, less complex companies, senior management often is involved in many day-to-day business activities and performs many controls—including entity-level controls—that are important to effective internal control over financial reporting. When this is the case, the auditor's evaluation of entity-level controls can be an important source of evidence about the effectiveness of internal control over financial reporting.

Effective controls related to the control environment and controls that address the risk of management override are particularly important to the effective functioning of controls performed by senior management. Chapter 3 discusses the auditor's evaluation of the risk of management override and mitigating actions.

Auditors might find that limited formal documentation is available regarding the operation of some entity-level controls. Chapter 7 discusses how the auditor can obtain evidence about controls when less formal documentation is available.

Evaluation of Entity-Level Controls and Testing of Other Controls

Auditing Standard No. 5 requires the auditor to test those entity-level controls that are important to the auditor's conclusion about whether the company has effective internal control over financial reporting. This includes evaluating the company's control environment and period-end financial reporting process.⁴

Identifying Entity-Level Controls

The process of identifying relevant entity-level controls could begin with discussions between the auditor and appropriate management personnel for the purpose of obtaining a preliminary understanding of each component of internal control over financial reporting (i.e., control environment, risk assessment, control activities, monitoring, and information and communication).

While evaluating entity-level controls, auditors might identify controls that are capable of preventing or detecting misstatements in the financial statements. The period-end financial reporting process and management's monitoring of the results of operations are potential sources of such controls.

Assessing the Precision of Entity-Level Controls

Auditing Standard No. 5 indicates that entity-level controls vary in nature and precision—

- Some entity-level controls, such as certain control environment controls, have an important, but indirect, effect on the likelihood that a misstatement will be detected or prevented on a timely basis. These controls might affect the other controls the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lowerlevel controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that

⁴ See Auditing Standard No. 5, paragraph 22, and 25–27.

misstatements to a relevant assertion will be prevented or detected on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls. [See Example 2-1.]

- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent or detect on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of misstatement, the auditor need not test additional controls relating to that risk.⁵ [See Example 2-2.]

As noted previously, the key consideration in assessing the level of precision is whether the control is designed in a manner to prevent or detect on a timely basis misstatements in one or more assertions that could cause the financial statements to be materially misstated and whether such control is operating effectively.⁶ Factors that auditors might consider when judging the level of precision of an entity-level control include the following:

- *Purpose of the control.* A procedure that functions to prevent or detect misstatements generally is more precise than a procedure that merely identifies and explains differences.
- *Level of aggregation.* A control that is performed at a more granular level generally is more precise than one performed at a higher level. For example, an analysis of revenue by location or product line normally is more precise than an analysis of total company revenue.
- *Consistency of performance.* A control that is performed routinely and consistently generally is more precise than one performed sporadically.
- *Correlation to relevant assertions.* A control that is indirectly related to an assertion normally is less likely to prevent or detect misstatements in the assertion than a control that is directly related to an assertion.
- *Criteria for investigation.* For detective controls, the threshold for investigating deviations or differences from expectations relative to materiality is an indication of a control's precision. For example, a control that investigates items that are near the threshold for financial statement materiality has less precision and a greater risk of failing to prevent or detect misstatements that could be material than a control with a lower threshold for investigation.
- *Predictability of expectations.* Some entity-level controls are designed to detect misstatements by using key performance indicators or other information to develop expectations about reported amounts. The precision of those controls depends on the ability to develop sufficiently precise expectations to highlight potentially material misstatements.

⁵ See Auditing Standard No. 5, paragraph 23.

⁶ The auditor should test the design effectiveness of controls by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence, satisfy the company's control objectives and can effectively prevent or detect errors or fraud that could result in material misstatement of the financial statements. The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control has the necessary authority and competence to perform the control effectively. See Auditing Standard No. 5, paragraphs 42 and 44.

When forming an opinion on the effectiveness of a company's internal control over financial reporting, the auditor should evaluate evidence obtained from all sources, including misstatements detected during the financial statement audit.⁷ Evidence regarding detected misstatements also might be relevant in assessing the level of precision of entity-level controls.

Effect of Entity-Level Controls on Testing of Other Controls

The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that the auditor otherwise might have performed on other controls. For example, if the auditor has designed an audit approach with an expectation that certain entity-level controls (e.g., controls in the control environment) will be effective and those controls are not effective, the auditor might re-evaluate the planned audit approach and decide to expand his or her audit procedures.

On the other hand, the auditor's evaluation of some entity-level controls can result in a reduction of his or her testing of other controls, such as controls over corresponding relevant assertions. The degree to which the auditor might be able to reduce testing of controls over relevant assertions in such cases depends on the precision of the entity-level controls.

Example 2-1—Monitoring the Effectiveness of Other Controls

Scenario: A small public video game developer conducts business in the United States and other countries, requiring the company to maintain a multitude of bank accounts. A staff accountant is charged with performing bank reconciliations for the accounts according to a predetermined schedule (some of the accounts have a different closing date). Through inquiries of management, the auditor learns that the company's chief financial officer ("CFO"), who is an experienced accountant, reviews on a monthly basis the bank reconciliations prepared by the staff accountant as a means to determine—

- whether reconciliations are being prepared on a timely basis,
- the nature of reconciling items identified through the process, and
- whether reconciling items are investigated and resolved on a timely basis.

Audit Approach: In this example, the purpose of the control is one of the factors that the auditor considers in assessing precision of the CFO's review. The auditor has noted that the purpose of the CFO's review is to check that the staff has performed the reconciliations as described above. Therefore, the auditor does not expect the CFO's review of the reconciliations to be sufficiently precise to detect misstatements by itself. However, the CFO's review could still influence the auditor's assessment of risk because it provides additional information about the nature and consistency of the reconciliation procedures. The auditor obtains evidence about the CFO's review through inquiry and document inspection, evaluates the review's effectiveness, and determines the amount of direct testing of the reconciliation controls that is needed based on the assessed level of risk. If the auditor concludes that the CFO's review is effective, she could reduce the direct testing of the reconciliation controls, absent other indications of risk.

⁷ See Auditing Standard No. 5, paragraph 71.

Example 2-2—Entity-Level Controls Related to Payroll Processing

Scenario: A manufacturer of alternative fuel products and systems for the transportation market has union labor, supervisors, managers, and executives. All plants run two shifts six days a week, with each having approximately the same number of employees.

The chief financial officer ("CFO") has been with the company for 10 years and thoroughly understands its business processes, including the payroll process, and reviews weekly payroll summary reports prepared by the centralized accounting function. With the company's flat organizational design and smaller size, the CFO's background with the company and his understanding of the seasons, cycles, and workflows, and close familiarity with the budget and reporting processes, the CFO quickly identifies any sign of improprieties with payroll and their underlying cause—whether related to a particular project, overtime, hiring, layoffs, and so forth. The CFO investigates as needed to determine whether misstatements have occurred and whether any internal control has not operated effectively, and takes corrective action.⁸ Based on the results of audit procedures relating to the control environment and controls over management override, the auditor observes that the CFO demonstrates integrity and a commitment to effective internal control over financial reporting.

Audit Approach: The auditor evaluates the effectiveness of the CFO's reviews, including the precision of those reviews. She inquires about the CFO's review process and obtains other evidence of the review. She notes that the CFO's threshold for investigating significant differences from expectations is adequate to detect misstatements that could cause the financial statements to be materially misstated. She selects some significant differences from expectations that were flagged by the CFO and determines that the CFO appropriately investigated the differences to determine whether the differences were caused by misstatements. Also, in considering evidence obtained throughout the audit, the auditor observes that the results of the financial statement audit procedures did not identify likely misstatements in payroll expense.

The auditor decides that the reviews could detect misstatements related to payroll processing because the CFO's threshold for investigating significant differences from expectations is adequate. However, she determines that the control depends on reports produced by the company's IT system, so the CFO's review can be effective only if controls over the completeness and accuracy of those reports are effective.

After performing the tests of the relevant computer controls, the auditor concludes that the review performed by the CFO, when coupled with relevant controls over the reports, meets the control objectives for the relevant aspects of payroll processing described above. (See Chapter 5 for a discussion of tests of controls over such reports.)

Chapter 3

Assessing the Risk of Management Override and Evaluating Mitigating Actions

The risk of management override of controls exists in all organizations, but the extensive involvement of senior management in day-to-day activities and fewer levels of management can provide additional opportunities for management to override controls in smaller, less complex companies. Company actions to mitigate the risk of management override are important to the consideration of the effectiveness of internal control over financial reporting.

In an integrated audit, the auditor should consider the risk of management override in connection with assessing the risk of material misstatement due to fraud, as he or she evaluates mitigating actions in connection with the evaluation of entity-level controls and selecting other controls to test.¹ This chapter discusses the auditor's consideration of the risk of management override of internal control and evaluation of actions that companies take to mitigate that risk.

Assessing the Risk of Management Override

AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, requires the auditor to assess the risk of material misstatement due to fraud ("fraud risk"). As part of that assessment, the auditor is directed to perform the following procedures to obtain information to be used in identifying fraud risks, which includes procedures to assess the risk of management override²—

- *Conducting an engagement team discussion regarding fraud risks.* This discussion includes brainstorming about how and where management could override controls to engage in or conceal fraudulent financial reporting.
- *Making inquiries of management, the audit committee, and others in the company to obtain their views about the risks of fraud and how those risks are addressed.* These inquiries can provide information about the possibility of management override of controls.
- *Considering fraud risk factors.* Fraud risk factors include events or conditions that indicate incentives and pressures for management to override controls, opportunities for management override, and attitudes or rationalizations that enable management to justify override of controls.

After identifying fraud risks, the auditor should assess those risks, taking into account an evaluation of the company's programs and controls that are intended to address those risks.³

Because of the characteristics of fraud, the auditor's exercise of professional skepticism is particularly important when considering the risk of material misstatement due to fraud, including the risk of management override of controls.

¹ See Auditing Standard No. 5, paragraph 14.

² See AU sec. 316.14–.34.

³ See AU sec. 316.43–45.

Evaluating Mitigating Controls

Auditing Standard No. 5 directs the auditor to evaluate whether the company's controls sufficiently address identified risks of material misstatement due to fraud and controls intended to address the risk of management override of other controls as part of the evaluation of entity-level controls.⁴

Smaller, less complex companies can take a number of actions to address the risk of management override. The following are examples of some of the controls that might address the risk of management override—

- Maintaining integrity and ethical values;
- Active oversight by the audit committee;
- Maintaining a whistleblower program; and
- Controls over certain journal entries.

When assessing a company's anti-fraud programs and controls, the auditor should evaluate whether the company has appropriately addressed the risk of management override.⁵ Often, a combination of actions might be implemented to address the risk of management override.

Evaluating Integrity and Ethical Values

An important part of an effective control environment is sound integrity and ethical values, particularly of top management, which are communicated and practiced throughout the company. A code of conduct or ethics policy is one way that a company can communicate its policies with respect to ethical behavior. This type of control can be effective if employees are aware of the company's policies and observe the policies in practice.

Auditors should evaluate integrity and ethical values as part of the assessment of the control environment component of internal control.⁶ One approach for testing the effectiveness of the company's communications regarding integrity and ethical values is to gain an understanding of what the company believes it is communicating to employees and interview employees to determine if they are aware of the existence of the company's policies for ethical behavior and what they understand those policies to be. A discussion with employees regarding observed behaviors can assist the auditor further in understanding management's past actions and determining whether management's behavior demonstrates and enforces the principles in its code of conduct. The auditor's experience with the company also can be an important source of information about whether management demonstrates integrity and ethical values in its business practices and supports the achievement of effective internal control in its day-to-day activities.

Evaluating Audit Committee Oversight

An active and independent audit committee evaluates the risk of management override, including identifying areas in which management override of internal control could occur, and assesses whether those risks are appropriately addressed within the company. As part of their oversight duties, the audit committee might perform duties such as meeting with management to discuss

⁴ See Auditing Standard No. 5, paragraph 14.

⁵ See Auditing Standard No. 5, paragraphs 14 and 24.

⁶ See Auditing Standard No. 5, paragraph 25.

significant accounting estimates and reviewing the reasonableness of significant assumptions and judgments.⁷

The consideration of the effectiveness of the audit committee's oversight is part of the evaluation of the control environment. In connection with the auditor's inquiries of the audit committee, required by AU sec. 316.22, the auditor may interview audit committee members to determine their level of involvement and their activities regarding the risk of management override. For example, the auditor might read minutes of audit committee discussions on matters related to the committee's oversight or might observe some of those discussions if the auditor attends the meetings in connection with the audit. In addition, the auditor can examine evidence of the board of directors' or audit committee's activities that address the risk of management override, such as monitoring of certain transactions.

Evaluating Whistleblower Programs

A whistleblower program provides an outlet for employees or others to report behaviors that might have violated company policies and procedures, including management override of controls. A key aspect of an effective whistleblower program is the appropriateness of responses to concerns expressed by employees through the program. The audit committee may review reports of significant matters and consider the need for corrective actions.⁸

Audit procedures relating to a whistleblower program are intended to assess whether the program is appropriately designed, implemented, monitored, and maintained. Such procedures might include inquiry of employees, inspection of communications to employees about the program, and, if tips or complaints have been received, follow-up procedures to evaluate whether remedial actions were taken as necessary.

Evaluating Controls over Journal Entries

Controls that prevent or detect unauthorized journal entries can reduce the opportunity for the quarterly and annual financial statements to be intentionally misstated. Such controls might include, among other things, restricting access to the general ledger system, requiring dual authorizations for manual entries, or performing periodic reviews of journal entries to identify unauthorized entries.

As part of obtaining an understanding of the financial reporting process, the auditor should consider how journal entries are recorded in the general ledger and whether the company has controls that would either prevent unauthorized journal entries from being made to the general ledger or directly to the financial statements or detect unauthorized entries.⁹ Tests of controls over journal

⁷ When a company does not have an audit committee, the entire board of directors is considered the audit committee under Section 2(b)(3) of the Act. In such circumstances, Principle 2, *Board of Directors* of COSO Small Companies Guidance states, "[w]hen a board chooses not to have an audit committee, the full board performing the activities described should have a sufficient number of independent members."

⁸ Section 10A(m)(4) of the Securities Exchange Act of 1934 requires audit committees to "establish procedures for (A) the receipt, retention, and treatment of complaints received by the issuer regarding accounting, internal accounting controls, or auditing matters; and (B) the confidential, anonymous submission by employees of the issuer of concerns regarding questionable accounting or auditing matters." The SEC has implemented this provision by adopting rules directing the national securities exchanges and national securities associations to prohibit the listing of any security of an issuer that is not in compliance with the audit committee requirements mandated by the Act.

⁹ See Auditing Standard No. 5, paragraphs 26 and 34; AU sec. 316.58–60.

entries could be performed in connection with the testing of journal entries required by AU sec. 316.

Considering the Effects of Other Evidence

The auditor might identify indications of management override in other phases of the integrated audit. For example, AU sec. 316 requires the auditor to perform procedures in response to the risk of management override, including examining journal entries for evidence of fraud, reviewing accounting estimates for bias, and evaluating the business rationale for significant, unusual transactions.¹⁰ Also, if the auditor performs walkthroughs during the audit of internal control,¹¹ he or she could obtain information about potential management override by asking employees about their knowledge of override. Also, the auditor might identify indications of management override when evaluating the results of tests of controls or other audit procedures.

If the auditor identifies indications of management override of controls, he or she should take such indications into account when evaluating the risk of override and the effectiveness of mitigating actions.¹²

Example 3-1—Audit Committee Oversight

Scenario: The audit committee of a small utility company discusses in executive session at least annually its assessment of the risks of management override of internal control, including motivations for management override and how those activities could be concealed. The audit committee performs the following procedures to address the risk of management override: (a) reviews the reasonableness of management's assumptions and judgments used to develop significant estimates; and (b) reviews the functioning of the company's whistleblower process and related reports, and from time to time, inquires of managers not directly responsible for financial reporting (including personnel in sales, procurement, and human resources, among others), obtaining information regarding concerns about ethics or indications of management override of internal controls.¹³

Audit approach: In this situation, the auditor can draw upon several sources of evidence to evaluate the audit committee's oversight. The auditor might attend selected meetings of the audit committee where the risks of override and whistleblower programs are discussed or review minutes of meetings where those matters are discussed. In connection with its inquiries of the audit committee about the risk of fraud, as required by AU sec. 316, the auditor can discuss matters relating to the risk of override, including how the audit committee assesses the risk of management override, what information, if any, the audit committee has obtained about possible management override, and how the audit committee's concerns about the risk of management override have been addressed. This information can inform the auditor's consideration of the risk of management override and the testing of mitigating controls.

¹⁰ See AU sec. 316.57–66.

¹¹ Auditing Standard No. 5, paragraph 34, sets forth the objectives that should be achieved to further understand likely sources of misstatement and as part of selecting controls to test. The standard states that performing walkthroughs will frequently be the most effective way to achieve the objectives in paragraph 34. Paragraphs 37–38 of Auditing Standard No. 5 provide direction on walkthroughs.

¹² See Auditing Standard No. 5, paragraph 15.

¹³ Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 26.

Chapter 4

Evaluating Segregation of Duties and Alternative Controls

Segregation of duties refers to dividing incompatible functions among different people to reduce the risk that a potential material misstatement of the financial statements would occur without being prevented or detected. Assigning different people responsibility for authorizing transactions, recording transactions, reconciling information, and maintaining custody of assets reduces the opportunity for any one employee to conceal errors or perpetrate fraud in the normal course of his or her duties.¹

When a person performs two or more incompatible duties, the effectiveness of some controls might be impaired. For example, reconciliation procedures may not effectively meet the control objectives if they are performed by someone who also has responsibilities for transaction recording or asset custody.

Smaller, Less Complex Companies' Approach to Segregation of Duties

By their nature, smaller, less complex companies have fewer employees, which limits their opportunities to implement segregation of duties. Due to these personnel restrictions, smaller, less complex companies might approach the control objectives relevant to segregation of duties in a different manner from larger, more complex companies. Despite personnel limitations, some smaller, less complex companies might still divide incompatible functions by using the services of external parties. Other smaller, less complex companies might implement alternative controls intended to achieve the same objectives as segregation of duties for certain processes.

This chapter discusses the auditor's evaluation of the company's approach to achieving the objectives of segregation of duties at a smaller, less complex company.

Audit Strategy Considerations

It is generally beneficial for the auditor and the company to identify concerns related to segregation of duties early in the audit process to allow the auditor to design procedures that effectively respond to those concerns. Also, management might have already identified, as part of its risk assessment, risks relating to inadequate segregation of duties and alternative controls that respond to those risks. Where walkthroughs are performed, those procedures can help identify matters related to segregation of duties.

When management implements an alternative control or combination of controls that address the same objectives as segregation of duties, the auditor should evaluate whether the alternative control or controls effectively meet the related control objectives.² The auditor's approach to evaluating those alternative control or controls depends on the control objectives, the nature of the controls, and the associated risks. The following sections of this chapter

¹ See the COSO Small Companies Guidance, Volume II: Guidance, page 5, for discussion of management's actions relevant to segregation of duties issues.

² See Auditing Standard No. 5, paragraph 42.

discuss how the auditor can evaluate common approaches to the objectives of segregation of duties.

Use of External Resources

Some small companies use external parties to assist with some of their financial reporting-related functions. Use of external parties also can help achieve segregation of certain incompatible duties without investing in additional full-time resources.

A company might use one or more types of external-party arrangements in meeting its control objectives. Consultants, other professionals, or temporary employees can assist companies in performing some controls or other duties. For more complex or specialized portions of internal control, such as cash receipts handling, payroll processing, or securities recordkeeping, the company might use an external party to perform an entire function.

When controls over a relevant assertion depend on the use of an external party to perform a particular function, the auditor could evaluate that function in relation to the company's other relevant controls and procedures. The audit approach used with respect to the externally performed function depends on the circumstances. For those controls that are documented or are observable by the auditor (e.g., controls performed by external professionals at the company's premises), the auditor's evaluation may be similar to what he or she could perform for the company's other controls. For some externally performed functions, the direction relating to use of service organizations may be relevant.³

Management Oversight and Review

A smaller, less complex company might address some segregation of duties matters through alternative controls involving management oversight and review activities, e.g., reviewing transactions, checking reconciliations, reviewing transaction reports, or taking periodic asset counts.⁴ Many of those types of management activities could be entity-level controls. Chapter 2 discusses the auditor's evaluation of entity-level controls at a smaller, less complex company.⁵ Example 4-1 below, and Example 5-1 in Chapter 5 illustrate the testing of certain types of alternative controls.

When the auditor applies a top-down approach to select the controls to test, starting at the financial statement level and evaluating entity-level controls,⁶ the auditor might identify entity-level controls that are designed to operate at a level of precision to effectively address the risk of misstatement for one or more relevant assertions. In those cases, the auditor could select and test those entity-level controls rather than test the process controls that could be affected by inadequate segregation of duties.

³ See Auditing Standard No. 5, paragraphs B17 – B27, for discussion of the auditor's consideration of a company's use of a service organization in an audit of internal control.

⁴ See the COSO Small Companies Guidance, Volume II: Guidance, page 5, for examples of the types of management actions that might be used as alternatives to segregation of duties.

⁵ As discussed in Chapter 2, controls related to the control environment and controls over the risk of management override are particularly important to the effective functioning of the controls performed by senior management. Chapter 3 discusses assessing the risk of management override and evaluating mitigating controls.

⁶ See Auditing Standard No. 5, paragraph 21.

Example 4-1—Alternative Controls over Inventory

Scenario: A provider of office furnishings and equipment uses a locked storeroom to store certain key components. The person responsible for the components has access to both the storeroom and the related accounting records. To address the risks related to undetected loss of components, the manager responsible for purchasing performs periodic spot-checks of the components and reconciles them to the general ledger in addition to the inventory ledger. The components also are included in the company's year-end inventory count. IT access controls are implemented to prevent the person responsible for the components from entering transactions or modifying related account balances in the general ledger.⁷

Audit approach: The auditor observes the company's year-end inventory counting process. He inspects documentation for some of the periodic spot-checks and the related reconciliations. For discrepancies in the counts or reconciliations inspected, he performs inquiries and inspects the accounting records to determine whether those items were appropriately resolved. Relevant IT access controls are evaluated in connection with the evaluation of IT general controls. (See Chapter 5.)

Chapter 5

Auditing Information Technology Controls in a Less Complex Information Technology Environment

A company's use of information technology (IT) can have a significant effect on the audit of internal control. The IT environment is a consideration in the auditor's risk assessments, selection of controls to test, tests of controls, and other audit procedures.

This chapter discusses the auditor's evaluation of IT controls in a smaller company with a less complex IT environment. It explains how the auditor could decide which IT controls to evaluate and how the auditor could evaluate those controls. In addition, it provides an overview of the major categories of IT controls and related testing considerations for a smaller, less complex IT environment.

Characteristics of Less Complex IT Environments

In smaller companies, less complex IT environments tend to have the following characteristics:

- *Transaction processing.* Data inputs can be readily compared or reconciled to system outputs. Management tends to rely primarily on manual controls over transaction processing.
- *Software.* The company typically uses off-the-shelf packaged software without programming modification. The packaged software requires relatively little user configuration to implement.¹
- *Systems configurations and security administration.* Computer systems tend to be centralized in a single location, and there are a limited number of interfaces between systems. Access to systems is typically managed by a limited number of personnel.

⁷ Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 60.

¹ Significant user configuration might create additional risks that require additional controls.

- *End-user computing.* The company is relatively more dependent on spreadsheets and other user-developed applications, which are used to initiate, authorize, record, process, and report the results of business operations, and, in many instances, perform straight-forward calculations using relatively simple formulas.

The complexity of the IT environment has a significant effect on the risks of misstatement and the controls implemented to address those risks. The auditor's approach in an environment with the preceding characteristics may be different from the approach in a more complex IT environment.

Some smaller, less complex companies outsource certain of their IT functions to service organizations. Auditing Standard No. 5, paragraphs B17–B27, provides direction on the auditor's consideration of a company's use of a service organization in an audit of internal control.

Determining the Scope of the Evaluation of IT Controls

The following matters affect the scope of the auditor's evaluation of IT controls in a smaller company with a less complex IT environment—

- The risks, i.e., likely sources of misstatement, in the company's IT processes or systems relevant to financial reporting, and the controls that address those risks.²
- The reports produced by IT systems that are used by the company for performing important controls over financial reporting.
- The automated controls that the company relies on to maintain effective internal control over financial reporting.

The IT controls that are important to effective internal control over financial reporting generally relate to at least one of the preceding matters, which are discussed in more detail in the following paragraphs. IT control categories and testing procedures are discussed later in this chapter.

IT-Related Risks Affecting Financial Reporting

Paragraph .19 of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, lists the following types of IT-related risks that could affect the reliability of financial reporting—

- Reliance on systems or programs that are inaccurately processing data, processing inaccurate data, or both;
- Unauthorized access to data that may result in destruction of data or improper changes to data, including the recording of unauthorized or nonexistent transactions or inaccurate recording of transactions;
- Unauthorized changes to data in master files;
- Unauthorized changes to systems or programs;
- Failure to make necessary changes to systems or programs;
- Inappropriate manual intervention;
- Potential loss of data.

² Auditing Standard No. 5, note to paragraph 36, indicates that the identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify significant accounts and disclosures and their relevant assertions, and the controls to test, as well as to assess risk and allocate audit effort as described by the standard.

The IT-related risks that are reasonably possible to result in material misstatement of the financial statements depend on the nature of the IT environment. In a less complex environment, the auditor could identify many of the risks by understanding the software being used and how it is installed and used by the company.

After understanding the relevant IT-related risks, the auditor should identify the controls that address those risks.³ These controls could include automated controls and IT-dependent controls and the IT general controls that are important to the effective operation of the selected controls. For example, even the simplest IT environments generally rely on controls that are designed to make sure that necessary software updates are appropriately installed, access controls that are designed to prevent unauthorized changes to financial data, and other controls that address potential loss of data necessary for financial statement preparation.

As the complexity of the software or environment increases, the type and number of potential IT risks increase, which could lead the auditor to devote more attention to IT controls.

IT-Dependent Controls

Many controls that smaller, less complex companies rely on are manual controls. Some of those controls are designed to use information in reports generated by IT systems, and the effectiveness of those controls depends on the accuracy and completeness of the information in the reports. When those IT-dependent controls are selected for testing, it also may be necessary to select controls over the completeness and accuracy of the information in the reports in order to address the risk of misstatement. Example 5-1 presents an illustration involving IT-dependent controls.

Other Automated Controls

Although smaller, less complex companies tend to rely primarily on manual controls, they could rely on certain automated controls built into the packaged software to achieve some control objectives. For example, software controls can be used to maintain segregation of duties, prevent certain data input errors, or to help make sure that certain types of transactions are properly recorded. The auditor might focus some of his or her testing on these automated controls and the IT general controls that are important to the effective operation of the automated controls.⁴

Consideration of Deficiencies in General Controls on Tests of Other Controls

IT general controls support operation of the application controls by ensuring the proper access to, and functioning of, the company's IT systems. Deficiencies in the IT general controls may result in deficiencies in the operation of the automated or IT-dependent controls. One of the factors in the auditor's evaluation of the identified deficiencies in the IT general controls, is the interaction of an IT general control and the related automated or IT-dependent controls.⁵

In some situations, an automated or IT-dependent control might be effective even if deficiencies exist in IT general controls. For example, despite the presence of deficient program change controls, the auditor might directly test the

³ See Auditing Standard No. 5, paragraph 36.

⁴ See Auditing Standard No. 5, paragraph 47.

⁵ According to paragraph 65 of Auditing Standard No. 5, one of the risk factors that affects the severity of a deficiency is "The interaction or relationship of the control with other controls, including whether they are interdependent or redundant."

related automated or IT-dependent manual control, giving consideration to the risk associated with the deficient change controls in his or her risk assessment and audit strategy. If the testing results were satisfactory, the auditor could conclude that the automated or IT-dependent manual controls operated effectively at that point in time e.g., as of the issuer's fiscal year end. On the other hand, deficient program change controls might result in unauthorized changes to application controls, in which case the auditor could conclude that the application controls are ineffective.

Example 5-1—IT-Dependent Controls

Scenario: A company has a small finance department. For the accounting processes that have a higher risk of misstatement, senior management performs a number of business process reviews and analyses to detect misstatements in transaction processing.

The company has a small IT department that supports a packaged financial reporting system whose software code cannot be altered by the user. Since the company uses packaged software, and there have been no changes to the system or processes in the past year, the IT general controls relevant to the audit of the internal control over financial reporting are limited to certain access controls and certain computer operation controls related to identification and correction of processing errors. Management uses several system-generated reports in the business performance reviews, but these reports are embedded in the application and programmed by the vendor and cannot be altered.

Audit Approach: The auditor determines that senior management personnel performing the business process reviews and analyses are not involved with incompatible functions or duties that impair their ability to detect misstatements. Based on the auditor's knowledge of the financial reporting system and understanding of the transaction flows affecting the relevant assertions, the auditor selects for testing certain process reviews and analyses and certain controls over the completeness and accuracy of the information in the reports used in management's reviews. The tests of controls could include, for example—

- Evaluating management's review procedures including assessing whether those controls operate at an appropriate level of precision. (See Chapter 2.)
- Evaluating how the company assures itself regarding the completeness and accuracy of the information in the reports used by management in the reviews. Matters that might be relevant to this evaluation include how the company determines that—
 - The data included in the report are accurate and complete. This evaluation might be accomplished through testing controls over the initiation, authorization, processing, and recording of the respective transactions that feed into the report.

The auditor verifies that the code in the packaged software cannot be changed by the user. The auditor also evaluates the IT general controls that are important to the effective operation of the IT-dependent controls (such as the access controls and operations controls previously described).

Categories of IT Controls

The remaining sections of this chapter discuss major categories of IT controls and considerations for testing them in a smaller, less complex IT environment.

IT General Controls

IT general controls are broad controls over general IT activities, such as security and access, computer operations, and systems development and system changes.

Security and Access

Security and access controls are controls over operating systems, critical applications, supporting databases, and networks that help ensure that access to applications and data is restricted to authorized personnel.

In a small, less complex IT environment, security administration is likely to be centralized, and policies and procedures might be documented informally. A small number of people or a single individual typically supports security administration and monitoring on a part-time basis. Controls for mitigating the risk caused by a lack of segregation of duties over operating systems, data, and applications tend to be detective controls rather than preventive. Access controls tend to be monitored informally.

Tests of security and access controls could include evaluating the general system security settings and password parameters; evaluating the process for adding, deleting, and changing security access; and evaluating the access capabilities of various types of users.

Computer Operations

Computer operations controls relate to day-to-day operations and help ensure that computer operational activities are performed as intended, processing errors are identified and corrected in a timely manner, and continuity of financial reporting data is maintained through effective data backup and recovery procedures.

A smaller, less complex IT environment might not have a formal operations function. There might not be formal policies regarding problem management or data storage and retention, and backup procedures tend to be initiated manually.

Tests of controls over computer operations could include evaluating the backup and recovery processes, reviewing the process of identifying and handling operational problems, and, if applicable, assessing control over job scheduling.

Systems Development and System Changes

Systems development and system change controls are controls over systems selection, design, implementation, and configuration changes that help ensure that new systems are appropriately developed, configured, approved, and migrated into production, and controls over changes—whether to applications, supporting databases, or operating systems—that help to ensure that those changes are properly authorized and approved, tested, and implemented. Although they might be viewed as separate categories, in less complex environments, systems development and system change procedures often are combined for ease of implementation, training, and ongoing maintenance.

A smaller, less complex IT environment typically includes a single or small number of off-the-shelf packaged applications that do not allow for modification of source code. Modifications to software are prepared by and, in some cases,

implemented by, the software vendor in the form of updates or patches or via a network connection between the vendor and the organization. Typically, a small number of individuals or a single individual (employees or consultants) support all development and production activities.

Examples of possible tests of controls over systems development and system changes include examining the processes for selecting, acquiring, and installing new software; evaluating the process for implementing software upgrades or patches; determining whether upgrades and patches are authorized and implemented on a timely basis; and assessing the process for testing new applications and updates.

Application Controls

Application controls are automated or IT-dependent controls intended to help ensure that transactions are properly initiated, authorized, recorded, processed, and reported. For example, in a three-way match process, received vendor invoices are entered into the system, which matches them automatically to the purchase order and goods receipt based on the document reference numbers, price, and quantity. The system's simultaneous matching of the information within the three documents upon their entry to authorize a payment to the vendor is an automated application control. Management's review and reconciliation of an exception report generated by the system is an example of an IT-dependent manual control.⁶

The general nature of application controls tends to be similar in most IT environments, although in less complex environments, the controls tend to be manual and detective rather than automated and preventive. The testing procedures also could be similar. In most IT environments, the auditor could focus on error correction procedures over inputting, authorizing, recording, processing, and reporting of transactions when evaluating application controls. However, in less complex IT environments there might be fewer financial applications affecting relevant assertions and fewer application controls within those applications.

Regardless of the complexity of the IT environment, the audit plan for testing application controls could include a combination of inquiry, observation, document inspection, and re-performance of the controls. Efficiencies can be achieved through altering the nature, timing, and extent of testing procedures performed related to automated and IT-dependent application controls if IT general controls are designed and operating effectively. In some situations, benchmarking of certain automated controls might be an appropriate audit strategy.⁷

End-User Computing Controls

End-user computing refers to a variety of user-based computer applications, including spreadsheets, databases, ad-hoc queries, stand-alone desktop applications, and other user-based applications. These applications might be used as the basis for making journal entries or preparing other financial statement information. End-user computing is especially prevalent in smaller, less complex companies.

End-user computing controls are controls over spreadsheets and other userdeveloped applications that help ensure that such applications are adequately

⁶ See Example 5-1 for an illustration of how those types of controls might be tested in a small, less complex IT environment.

⁷ Auditing Standard No. 5, paragraphs B28–B33, discuss benchmarking of automated controls.

documented, secured, backed up, and reviewed regularly for process integrity. Enduser computing controls include general and application controls over user-developed spreadsheets and applications.

Tests of controls over end-user computing could include assessing access controls to prevent unauthorized access; testing of controls over spreadsheet formulas or logic of queries and scripts; testing of controls over the completeness and accuracy of information reported by the end-user computing applications; and reviewing the procedures for backing up the applications and data.

Chapter 6

Considering Financial Reporting Competencies and Their Effects on Internal Control

To maintain effective internal control over financial reporting, a company needs to retain individuals who are competent in financial reporting and related oversight roles.¹ Smaller, less complex companies can face challenges in recruiting and retaining individuals with sufficient experience and skill in accounting and financial reporting. Also, resource limitations might prevent a smaller, less complex company from employing personnel who are familiar with the accounting required for unique, complex, or nonroutine transactions or relevant changes in rules, regulations, and accounting practices. Smaller, less complex companies might address their needs for financial reporting competencies through means other than internal staffing, such as engaging outside professionals.

This chapter discusses the auditor's consideration of financial reporting competencies at a smaller, less complex company, including situations in which a smaller, less complex company enlists outside assistance in financial reporting matters.

Understanding and Evaluating a Company's Financial Reporting Competencies

The evaluation of competence is one aspect of evaluating the control environment and the operating effectiveness of certain controls. For example, when evaluating entity-level controls, such as risk assessment and the period-end financial reporting process, the auditor could obtain information about whether—

- Management identifies the relevant financial reporting issues on a timely basis (e.g., issues arising from new transactions or lines of business or changes to accounting standards); and
- Management has the competence to ensure that events and transactions are properly accounted for and that financial statements and related disclosures are presented in conformity with generally accepted accounting principles ("GAAP").

For recurring clients, the auditor's experience in prior audit engagements can be a source of information regarding management's financial reporting competencies. The auditor could be aware of specific accounts or disclosures that have caused problems in prior engagements, or of management's response to past changes in accounting pronouncements. These experiences can inform

¹ See e.g., Principle 5 of the COSO Small Companies Guidance.

the auditor about management's financial reporting competencies, including whether and how management identifies and responds to financial reporting risks. The procedures performed to evaluate the period-end financial reporting process also could be valuable to the evaluation of financial reporting competency.

The auditor's inquiries and observations pertaining to the company's overall commitment to competence, which is part of the evaluation of the control environment, also can inform the auditor's assessment of financial competency. The auditor can consider whether and how the company and management—

- Establish and agree on the knowledge, skills and abilities needed to carry out the required responsibilities prior to hiring individuals for key financial reporting positions,
- Train employees involved in financial reporting processes and provide them with the appropriate tools and resources to perform their responsibilities, and
- Periodically review and evaluate employees relative to their assigned roles, including whether the audit committee (or board of directors) evaluates the competencies of individuals in key financial reporting roles, such as the chief executive and financial reporting officers.

Auditors may keep in mind that company financial reporting personnel do not need to be experts in all areas of accounting and financial reporting but need to be sufficiently competent with respect to the accounting for current and anticipated transactions and changes in accounting standards to identify and address the risks of misstatement.

Supplementing Competencies with Assistance from Outside Professionals

Some smaller, less complex companies might not have personnel on staff with experience in certain complex accounting matters that are encountered. In these circumstances, a company might engage outside professionals to provide the necessary expertise (i.e., an individual or firm possessing special skill or knowledge in the particular accounting and financial reporting matter).² When assessing the competence of the personnel responsible for the company's financial reporting and associated controls, the auditor may consider the combined competence of company personnel and other parties that assist with functions related to financial reporting.

When an outside professional provides accounting assistance related to relevant assertions or the period-end financial reporting process, the auditor might begin by considering how the company assures itself that events and transactions are properly accounted for and that financial statements and the related disclosures are free of material misstatement. The company might have differing levels of involvement with outside professionals, depending upon the nature of the services provided. The auditor could evaluate management's oversight to determine whether the company, with the assistance of the professional, is

² This section of the chapter does not pertain to management's use of a service organization that supports routine accounting functions, such as processing payroll transactions or supporting the company's information technology systems. It also does not apply to management's use of specialists in matters outside of accounting and financial reporting, such as actuaries, engineers, environmental consultants, and geologists. See Auditing Standard No. 5, AU sec. 324, *Service Organizations*, and AU sec. 336, *Using the Work of Specialists*, for direction on these matters.

adequately identifying and responding to risks.³ In performing this evaluation, the auditor can consider—

- Whether management recognizes situations for which additional expertise is needed to adequately identify and address risks of misstatement.
- How management determines that the outside professionals possess the necessary qualifications. For example, management might obtain information from the professional about his or her skills and competence.
- Whom management designates to oversee the services and whether they possess the suitable skill, knowledge, or experience to sufficiently oversee the outside professionals. (Note: Management is not required to possess the expertise to perform or re-perform the services.)
- Whether management has established controls over the work of the outside accounting professional and over the completeness and accuracy of the information provided to the outside professional. For example, in addition to reviewing the work of the outside professional, management might inquire about the professional's monitoring and review procedures related to the work performed by the professional for the company.
- How management participates in matters involving judgment, for example, whether management understands and makes significant assumptions and judgments underlying accounting calculations prepared by an outside professional.
- How management evaluates the adequacy and the results of the services performed, including the form and content of the outside accounting professional's findings, and accepts responsibility for the results of the services.

In gathering evidence to support this evaluation, the auditor could hold discussions with both management and the outside professional, perhaps while obtaining an understanding of the period-end financial reporting process. The auditor also could inspect documentation that provides support for management's oversight of the outside professional.⁴

Example 6-1—Assistance from Outside Professionals

Scenario: A small developer of analytical software products does not have an individual with strong tax accounting expertise on staff. The company retains a thirdparty accounting firm (not its auditor) to prepare the income tax provision. Management obtains information from the third-party accounting firm about the training and experience of the staff assigned to do this work. The company's CFO, who has basic knowledge of tax accounting, reviews and discusses the tax provision with the accounting firm that prepared it, and compares the provision to CFO's expectations based on past periods, budgets, and knowledge of business operations.⁵

(continued)

³ If the audit committee has oversight over the use of service providers, the auditor may also consider the nature and extent of that oversight.

⁴ Refer to Chapter 7 for discussion of how the auditor can obtain sufficient evidence when less formal documentation is available.

⁵ Adapted from the COSO Small Companies Guidance, Volume II: Guidance, page 34.

Audit Approach: The auditor observes that management identifies risks to financial reporting related to accounting for income taxes and engages an outside professional to provide technical assistance. Further, the auditor evaluates management's oversight to determine whether the company, with the assistance of the professional, is adequately identifying and responding to risks of material misstatement regarding the income tax provision. As part of this evaluation, the auditor inspects the engagement letter, other correspondence between the company and the third-party firm, and the tax schedules and other information produced by the third-party firm. The auditor also evaluates the controls over the completeness and accuracy of the information furnished by the company to the third-party firm. The auditor also assesses whether the third-party accounting firm has the proper skills and staff assigned to do this work.

Chapter 7

Obtaining Sufficient Competent Evidence When the Company Has Less Formal Documentation

Implementing and assessing effective internal control over financial reporting by a company's management generally involves some level of documentation. A smaller, less complex company often has different needs for documentation, and the nature of that documentation might differ from that of a larger or more complex organization. Differences in the form and extent of control documentation of smaller, less complex companies generally relate to their operating characteristics, particularly to fewer resources and more direct interaction of senior management with controls.¹

The nature and extent of a company's documentation of internal control over financial reporting can have a significant effect on the auditor's strategy regarding the audit of internal control. This chapter discusses how the auditor could adapt his or her audit strategy to obtain sufficient competent evidence in an environment with less formal documentation.

Audit Strategy Considerations

The auditor must plan and perform the audit to obtain competent evidence that is sufficient to obtain reasonable assurance about whether material weaknesses exist as of the date specified in management's assessment.² The auditor can obtain this evidence through direct testing or using the work of others, as appropriate. Procedures the auditor could perform to test operating effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control. The nature, timing, and extent of tests of controls depend on the risk associated with the controls. As the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases.³

PCAOB standards establish the documentation requirements for these audits. Those documentation requirements apply only to the auditor.

¹ The COSO Small Companies Guidance, Volume II: Guidance, pages 12–13, discusses circumstances that affect the need for documentation of internal control.

² See Auditing Standard No. 5, paragraph 3.

³ Auditing Standard No. 5, paragraph 46. Paragraph 47 discusses the factors that affect the risk associated with a control.

Documentation of Processes and Controls

Larger companies with complex operations are more likely to have formal documentation of their processes and controls, such as in-depth policy manuals and systems flowcharts of processes. In a smaller, less complex company, documentation of processes and controls might take a variety of forms. For example, information about processes and controls might be found in other documentation, such as memoranda, questionnaires, software manuals, source documents, or job descriptions. This documentation might not cover every process and might not be in a consistent form across all processes.

Where walkthroughs are performed, auditors could use those procedures to obtain an understanding of the flow of transactions affecting relevant assertions and to assess the design effectiveness of certain controls, even when documentation is limited.

Documentation of Operating Effectiveness of Controls

In a smaller, less complex business, the nature and extent of documentation of the operating effectiveness of controls may vary. Also, evidence of a control's operation might exist only for a limited period.

The type and availability of evidence regarding controls to be tested can affect the auditor's testing strategy.⁴ In particular, company documentation can influence the nature and timing of audit procedures performed. For example, the nature of some audit procedures e.g., document inspection, requires documentation. Also, the timing of some tests of controls might be determined, in part, based on when the evidence of the controls' operation is available.

Obtaining sufficient evidence about the operating effectiveness of controls can be challenging when there is limited documentation of their operation. In those situations, inquiry combined with other procedures, such as observation of activities, inspection of documentation produced or used by the controls,⁵ and reperformance of certain controls, might provide sufficient evidence about whether a control is effective.

As a practical matter, the auditor also needs to obtain documentation of the work of others to use that work to reduce the auditor's own testing.⁶

Other Considerations

When auditing a smaller, less complex company with limited documentation, it generally is helpful to obtain an understanding of the nature and availability of audit evidence relating to internal control over financial reporting as early in the audit process as practical. This understanding ordinarily includes consideration of existing documentation regarding—

- Company processes and procedures, particularly for transactions affecting relevant assertions and controls that the auditor is likely to select for testing
- Monitoring of other controls performed by management or others

⁴ As discussed in Chapter 8, a pervasive lack of documentation and other audit evidence could prevent the auditor from being able to obtain sufficient evidence to support an opinion on internal control.

⁵ Examples of documentation that might be produced or used by controls include exception reports, memoranda, or documented communications between management and employees.

⁶ The auditor's use of the work of others also is dependent on such factors as the nature of the subject matter and the competence and objectivity of the individuals performing the work. See Auditing Standard No. 5, paragraphs 16–19.

The auditor can then identify gaps in important documentation so alternatives can be explored. For example, if the CFO prepares contemporaneous documentation of certain controls and retains it for a limited period, the auditor might arrange to obtain access to that documentation for testing purposes. Early conversations with management about these matters can help provide auditors with the most flexibility in developing efficient and effective audit strategies.

If the company does not have formal documentation of its processes and controls, the auditor may consider whether other documentation is available before drafting formal descriptions of processes and controls for the audit documentation. A practical way to identify such other documentation is to look at the information that the company uses to run the business.

As discussed in Chapter 1, one of the practical considerations when selecting controls to test and determining the nature, timing, and extent of testing is the nature and availability of evidence of operating effectiveness. For example, if two or more controls adequately address the risk of misstatement for a relevant assertion, the auditor could select the control for which evidence of operating effectiveness can be obtained more readily.

Example 7-1—Obtaining Information about Processes and Controls

Scenario: A small manufacturer in the electronics industry periodically makes large purchases of specialty components. The company has established procedures covering the initiation, authorization, and recording of these purchases, although the company has not developed an in-depth policies and procedures manual. The company's procedures provide for completion of a form that describes the product requirements and payment terms and indicates how to record the purchase. The forms are reviewed and approved by the CEO and CFO before the purchase is executed. When the goods are received, they are matched with the purchase form and accounted for as indicated on the form.

Audit Approach: The auditor inspects a copy of a completed purchase form and related documentation to obtain an initial understanding of the flow of the purchase transactions. She follows up with inquiries of personnel involved in the process of authorizing, sending, and accounting for the purchases and traces the recording of the transactions through the accounting system. She summarizes her understanding of the transaction flow in a memo and includes a copy of a purchase form in the workpapers. The auditor uses her understanding of the purchase process to plan and perform tests of selected controls over the purchases.

Example 7-2—Obtaining Evidence about Operating Effectiveness of Controls

Scenario: One control that management relies on with respect to the period-end financial reporting process is the CFO's review of the quarterly financial statements prepared by the controller. The CFO does not create separate documentation of her review but does retain copies of the financial statements with her handwritten notes and other markings for reference purposes. She sends her review comments to the controller via email, and the company's email system retains the email messages. If errors are identified, the controller prepares adjusting entries, which are approved by the CFO.

(continued)

Each quarter, the CFO and controller prepare and present to the audit committee a financial package, explaining significant trends in the company's financial condition, operating results, and cash flows, as well as comparisons to budgeted amounts and comparable prior periods.

Audit Approach: The auditor can draw upon multiple sources of audit evidence to evaluate whether the control is in place and operating effectively to detect errors in the period-end financial reporting process. He can make inquiries of the CFO to obtain an understanding of the frequency, nature, timing, and level of precision⁷ of the CFO's review. He can corroborate this understanding and evaluate the operating effectiveness of the review by, for selected items, inspecting copies of the reviewed drafts of the financial statements, reviewing comments sent to the controller, and reviewing adjusting entries and supporting information. He can also talk to other employees to find out if the CFO contacts them to ask questions, what types of questions are asked, and how those questions are resolved. In addition, he can read the information in the financial package delivered to the audit committee and might observe the CFO's financial review with the audit committee, if the auditor attends the meetings in connection with the audit.

Chapter 8

Auditing Smaller, Less Complex Companies with Pervasive Control Deficiencies

In some audits of internal control, auditors might encounter companies with numerous or pervasive deficiencies in internal control over financial reporting. Smaller, less complex companies can be particularly affected by ineffective entity-level controls, as these companies typically have fewer employees and fewer process-level controls.

Auditing internal control over financial reporting in companies with pervasive deficiencies can be challenging. The auditor's strategy is influenced by the nature of the control deficiencies and factors such as the effect of the deficiencies on other controls and the availability of audit evidence. Although the facts and circumstances can vary significantly, the auditor might not be able to express an unqualified opinion on the effectiveness of internal control over financial reporting in some of these situations.¹

This chapter discusses how auditors could design their audit strategies in response to situations involving pervasive deficiencies.

Pervasive Deficiencies that Result in Material Weaknesses

The auditor's objective in an audit of internal control is to express an opinion on the effectiveness of the company's internal control over financial reporting. Because a company's internal control over financial reporting cannot be

⁷ Level of precision is discussed in more detail in Chapter 2.

¹ To enable the auditor to express an unqualified opinion on internal control, the company would need to remediate all of its material weaknesses early enough before year-end to enable the auditor to obtain sufficient competent audit evidence about the remediated controls to support an unqualified opinion on internal control over financial reporting.

considered effective if one or more material weaknesses exist, to form a basis for expressing an opinion, the auditor must plan and perform the audit to obtain competent evidence that is sufficient to obtain reasonable assurance about whether material weaknesses exist as of the date specified in management's assessment.²

Ordinarily, the auditor's strategy should include tests of controls as necessary to support a conclusion that internal control over financial reporting is effective.³ However, the auditor's existing knowledge of the company or information obtained early in the audit process might lead an auditor to a preliminary judgment that internal control over financial reporting is likely to be ineffective because of the presence of pervasive control deficiencies that result in one or more material weaknesses. In those situations, the auditor's strategy for testing selected controls may depend on the effect of the pervasive deficiencies on other controls, as discussed in the following paragraphs.

Considering the Effect of Pervasive Control Deficiencies on Other Controls

When the auditor encounters pervasive control deficiencies, he or she might decide that those deficiencies also impair the effectiveness of other controls by rendering their design ineffective or by keeping them from operating effectively. For example, certain deficient entity-level controls, such as the following, might impair the effectiveness of other controls over relevant assertions:

- *Ineffective control environment (considering the risk profile of the company).* An ineffective control environment can increase the risk associated with a control by rendering its design ineffective or preventing it from operating effectively. Also, certain controls in the control environment, such as maintaining financial reporting competencies, might be necessary for the effective functioning of other controls.
- *Ineffective IT controls or information systems.* Ineffective information systems could impair the effectiveness of certain IT-dependent controls (e.g., monitoring controls that rely on the reports produced by an ineffective information system).
- *Pervasive lack of segregation of duties without appropriate alternative controls.* When a person performs two or more incompatible duties, the design of some controls might be ineffective without appropriate alternative controls.
- *Frequent management override of controls.* A control that is frequently overridden is less likely to operate effectively. The effectiveness of controls that depend on an overridden control also might be impaired.

The top-down audit approach can help the auditor identify pervasive control deficiencies earlier in the audit process and take them into account in determining the audit approach for testing other controls.

The auditor's preliminary judgments regarding the effect of the pervasive control deficiencies can help determine the approach to gathering audit evidence. When the pervasive control deficiencies adversely affect other controls, the auditor may modify the planned testing of the other controls because less evidence generally is needed to support a conclusion that controls are not effective than a conclusion that controls are effective.⁴ For example, if a control is likely to

² See Auditing Standard No. 5, paragraph 3.

³ See Auditing Standard No. 5, paragraph 39.

⁴ See Auditing Standard No. 5, paragraphs 46 and 47.

be impaired because of another control's deficiency, the inquiries and observations during walkthroughs might provide enough evidence to conclude that the design of a control is deficient and thus could not prevent or detect misstatements. In some cases, limited testing of a control might be necessary (e.g., if a walkthrough has not been performed) to conclude that a control is not operating effectively. Also, detected misstatements from the audit of the financial statements could indicate that a control is not effective.

Some companies might have pervasive control deficiencies and still have effective controls over some relevant assertions. For the selected controls that are likely to be effective, the auditor should test those controls to obtain the evidence necessary to support a conclusion about their operating effectiveness.⁵ The pervasive control deficiencies may affect the risk associated with the controls selected for testing, and, in turn, the amount of audit evidence needed. Example 8-1 discusses the effect of pervasive control deficiencies on tests of controls.

Scope Limitation Due to Lack of Sufficient Audit Evidence

Pervasive deficiencies in a company's internal control over financial reporting do not necessarily prevent an auditor from obtaining sufficient audit evidence to express an opinion on internal control over financial reporting. If the auditor determines that sufficient evidence is available to express an opinion, the auditor should perform tests of those controls that are important to the auditor's conclusion about the effectiveness of the company's internal control over financial reporting and evaluate the severity of the identified control deficiencies.⁶

In some audits of companies with pervasive control deficiencies, the auditor could become aware that there is minimal available evidence about the design and operation of internal control over financial reporting. Such situations could lead the auditor to conclude that the lack of available evidence constitutes a scope limitation that will prevent him or her from obtaining reasonable assurance necessary to express an opinion on internal control over financial reporting, including identification of existing material weaknesses.

The auditor may issue a report disclaiming an opinion on internal control over financial reporting as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion.⁷ The auditor is not required to perform any additional work before issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion. The auditor's report should disclaim an opinion on internal control and disclose the substantive reasons for the disclaimer. The report also should disclose the material weaknesses of which the auditor is aware.⁸

Even if the auditor lacks sufficient evidence to express an opinion on internal control, the auditor might still be able to obtain sufficient evidence to perform an audit of the financial statements. The auditor should, however, take into account the control deficiencies and issues encountered in the audit of internal control in assessing control risk and determining the nature, timing, and extent of tests of accounts and disclosures in the audit of the financial statements.⁹

⁵ See Auditing Standard No. 5, paragraph 39.

⁶ See Auditing Standard No. 5, paragraphs 22, 39, and 62.

⁷ See Auditing Standard No. 5, paragraph C6.

⁸ See Auditing Standard No. 5, paragraph C5, for the specific requirements regarding the disclosures of the material weaknesses.

⁹ See Auditing Standard No. 5, paragraph B5.

Example 8-2 illustrates a situation in which the auditor is unable to obtain sufficient evidence to express an opinion on internal control over financial reporting.

Example 8-1—Pervasive Deficiencies and Testing of Controls

Scenario: A small company has a two-person staff that handles all of the accounting and financial reporting duties. The staff is competent in routine financial reporting matters but has difficulty with more complex accounting matters, such as valuation of stock-based compensation and income tax calculations and disclosures. The lack of competencies in these areas has resulted in adjustments based on the auditor's identification of material misstatements.¹⁰

Audit Approach: Based on the auditor's experience with the company, she expects that controls over the valuation/allocation and disclosures related to stock-based compensation and income taxes will not be effective. For those assertions, the auditor obtains evidence about the respective controls during a walkthrough of the related process. Also, misstatements in those assertions were detected in the financial statement audit, and she observes that the controls failed to prevent or detect those misstatements. Based on this evidence, she concludes that the controls over those assertions are not effective.

With respect to routine financial reporting processes, such as cash receipts and disbursements, the auditor plans to perform tests of the selected controls to obtain enough evidence to support a conclusion that the respective controls are effective.

Example 8-2—Lack of Sufficient Audit Evidence

Scenario: A development stage company is devoted exclusively to research and development for a new product and currently generates no revenue. The financial staff consists of a CFO and accounting clerk. The company's principal accounting records consist of a checkbook and payroll records, and the company has no documentation of policies and procedures. Most of its controls are undocumented supervisory checks by the CFO.

Late in the fourth quarter, a management dispute results in the resignation of the CFO and termination of the accounting clerk. Management hires an accountant on a temporary contract basis to prepare financial statements from the company's existing records and to help the company establish appropriate controls over its financial reporting functions. However, most of these controls were implemented near or shortly after year-end.

Audit Approach: As the auditor begins trying to obtain an understanding of the company's internal control over financial reporting and evaluate entity-level controls, she notes that there is minimal information available about the controls that existed at yearend. Because of the turnover in financial reporting personnel, the auditor is unable to perform inquiries, observations,

(continued)

¹⁰ Chapter 6 discusses financial reporting competencies in more detail, including approaches that smaller, less complex companies might take to enhance their financial reporting competencies.

or other procedures to understand the flow of transactions and related controls in significant processes. The auditor identifies some material weaknesses, but she determines that the lack of evidence results in a scope limitation because she cannot obtain reasonable assurance that all of the existing material weaknesses are identified.

Accordingly, the auditor ceases further audit procedures in the audit of internal control. The auditor's report on internal control over financial reporting contains a disclaimer of opinion and disclosure of the substantive reasons for the disclaimer and the material weaknesses that she identified.

Appendix A

The Integrated Audit Process

Auditing Standard No. 5 indicates that the audit of internal control should be integrated with the audit of the financial statements. This means that the auditor should plan and perform the work to achieve the objectives of both audits,¹ which are as follows:

- *Audit of the financial statements.* To express an opinion on the fairness with which the financial statements present, in all material respects, financial position, results of operations, and its cash flows in conformity with GAAP.²
- *Audit of internal control.* To express an opinion on the effectiveness of the company's internal control over financial reporting.³

This appendix illustrates one approach for integrating the audit of internal control with the audit of the financial statements and is not intended to present all of the procedures that are required for a particular audit. Auditors must plan and perform their integrated audits to achieve the objectives of the audits and to comply with standards of the PCAOB.⁴

Summary of the Illustrative Audit Approach

The integrated audit process can be summarized into the following major components:

- a. Preliminary engagement procedures
- b. Audit planning
- c. Risk assessment procedures
- d. Auditor response, including tests of accounts and controls
- e. Conclusion and wrap-up

Preliminary Engagement Procedures

Preliminary engagement procedures include the auditor's engagement acceptance process and reaching an understanding with the audit committee about the terms of the engagement, including pre-approval of audit and non-audit services.

¹ See Auditing Standard No. 5, paragraphs 6 and 7.

² See paragraph .01 of AU sec. 110, *Responsibilities and Functions of the Independent Auditor*.

³ See Auditing Standard No. 5, paragraph 3.

⁴ See Auditing Standard No. 5, paragraph 6.

During the engagement acceptance process, the auditor might identify matters that could affect the risk of material misstatement of the financial statements or the risk of material weakness in internal control over financial reporting and, thus, could inform the auditor's risk assessments during the audit.

Audit Planning

During audit planning, the auditor should make a preliminary judgment about materiality. The judgment about materiality is the same for both the audit of the financial statements and the audit of internal control.⁵

The auditor also can develop a preliminary audit strategy and audit plan based on his or her understanding of the company and its environment. The audit strategy could cover matters such as general scope and timing of the engagement. The audit strategy and plan could be refined further as the audit progresses.

Risk Assessment Procedures

Risk assessment procedures are intended to help the auditor identify risks of misstatement and the controls that are in place to address those risks. When performing risk assessment procedures, the auditor should obtain an understanding of the company and its environment, including its internal control.⁶ These procedures include walkthroughs, or other procedures, to understand the likely sources of misstatement.⁷ It also includes performing preliminary analytical procedures and procedures to assess the risk of material misstatement due to fraud.⁸ The auditor's risk identification and assessment should also take into account his or her knowledge about the company and its environment from other sources, such as prior audits.⁹

Based on the auditor's understanding gained through performing the risk assessment procedures and obtaining other evidence, the auditor should assess the identified risks.¹⁰

The auditor's risk assessments are the basis for the identification of significant accounts and disclosures and relevant assertions as well as the selection of controls to test. Relevant assertions and significant accounts and disclosures should be determined based on whether there is a reasonable possibility that they could contain misstatements that could cause the financial statements to be materially misstated.¹¹ The identification of relevant assertions and significant accounts¹² is the same for both the audit of internal control and the audit of the financial statements.

⁵ See AU sec. 311.03, AU sec. 312.12–.33, and Auditing Standard No. 5, paragraph 20.

⁶ See AU sec. 319.25–.61, and Auditing Standard No. 5, paragraph 9.

⁷ See Auditing Standard No. 5, paragraphs 34–38, for discussion of the objectives of walkthroughs and direction on walkthrough procedures.

⁸ See AU sec. 329.06–.08, and AU sec. 316.35–.45.

⁹ See AU sec. 311.04 and .08, and AU sec. 319.59.

¹⁰ See AU sec. 312.16 and .26–.33.

¹¹ See Auditing Standard No. 5, paragraphs 28–33.

¹² In the financial statement audit, the auditor may perform substantive auditing procedures on financial statement accounts, disclosures, and assertions that are not determined to be significant accounts and disclosures and relevant assertions. This is because his or her assessment of the risk that undetected misstatement would cause the financial statements to be materially misstated is unacceptably high (see AU sec. 312.39 for further discussion about undetected misstatement) or as a means of introducing unpredictability in the procedures performed (see AU sec. 316.50 for further discussion about predictability of auditing procedures).

Auditing Standard No. 5 states that the auditor should use a top-down approach to the audit of internal control to select the controls to test. A top-down approach begins at the financial statement level and with the auditor's understanding of the overall risks to internal control over financial reporting.¹³ The auditor then focuses on entity-level controls and works down to significant accounts and disclosures and their relevant assertions. This approach directs the auditor's attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the financial statements and related disclosures. The auditor then verifies his or her understanding of the risks in the company's processes and selects for testing those controls that sufficiently address the assessed risk of misstatement to each relevant assertion.

Overall Response to Risks

Based on the auditor's risk assessment, the auditor should evaluate the need for an overall response to the risks.¹⁴ This evaluation is particularly important for pervasive risks of misstatement, which can affect many financial statement accounts, but it applies to every audit.

The overall responses could affect such aspects of the audit as—

- Assignment of staff
- Level of supervision
- Need for specialists
- Appropriateness of planned audit strategy and scope

Specific Responses—Substantive Procedures and Tests of Controls

Specific responses to risk relate to the tests of relevant assertions of significant accounts and disclosures ("substantive procedures") and the controls over those assertions. Auditing Standard No. 5 requires the auditor to obtain evidence about the controls over relevant assertions, and it states that the auditor should perform substantive procedures for all relevant assertions, regardless of the assessed level of control risk.¹⁵ The auditor should determine an appropriate mix of the nature, timing, and extent of testing based on the associated risks and other factors.¹⁶ The determination of the nature, timing, and extent of testing includes decisions about using the work of others to test controls in the integrated audit. As the associated risk increases, the evidence that the auditor should obtain also increases.¹⁷

The relationship between tests of controls and substantive procedures is important to the integration of the audit of internal control with the audit of financial statements. Obtaining sufficient evidence to support control risk assessments of low for purposes of the financial statement audit ordinarily allows the auditor to reduce the amount of substantive procedures that otherwise would have been necessary to opine on the financial statements. On the other hand, deficiencies in the controls that the auditor planned to rely on could lead the auditor to expand his or her substantive procedures.

¹³ See Auditing Standard No. 5, paragraph 21.

¹⁴ See AU sec. 312.16.

¹⁵ See Auditing Standard No. 5, paragraph B7.

¹⁶ For example, in the audit of internal control, walkthroughs might provide sufficient evidence of operating effectiveness for some selected controls, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthrough, and the results of those procedures.

¹⁷ See Auditing Standard No. 5, paragraphs 46 and 49.

As discussed in Chapter 1, the results of substantive tests of accounts and disclosures do not provide sufficient evidence for the auditor to conclude on the operating effectiveness of controls. However, the results of substantive tests could affect the auditor's risk assessments associated with the controls. For example, if the results of substantive procedures indicate misstatements in an assertion, evaluating the nature, cause, and significance of the misstatements could lead the auditor to identify a deficiency in the related controls or to modify his or her risk assessments. When no misstatements are detected from substantive procedures for an assertion, the auditor should take that into account along with the factors discussed in paragraphs 46–49 of Auditing Standard No. 5 in considering the risk associated with the related controls, which affects the nature, timing, and extent of the testing necessary to conclude on the effectiveness of the controls.¹⁸

Conclusion and Wrap-up

In the conclusion and wrap-up phase, the auditor should evaluate the results of his or her testing, particularly for identified misstatements and control deficiencies. The auditor should evaluate the misstatements and control deficiencies, individually and in the aggregate. In evaluating the effects of misstatements, the auditor should include both quantitative and qualitative considerations.¹⁹

Based on the evaluation of the testing results, the auditor should form conclusions about whether—

- The financial statements are materially misstated,
- A material weakness in internal control exists, and
- He or she has obtained sufficient competent evidence to support those conclusions.²⁰

The results of each portion of the integrated audit inform the auditor's conclusions about the other portion. For example, the auditor's conclusions about the effectiveness of controls should be based on all of the pertinent information about control effectiveness,²¹ including—

- Tests of controls for the audit of internal control,
- Tests of controls for the audit of the financial statements,
- Use of the work of others in either audit, and
- Evidence about control deficiencies resulting from identified misstatements or other sources (e.g., control deficiencies identified by management).

This information could affect the conclusions about control effectiveness as of year-end as well as control risk assessments for the financial statement audit. In some situations, the evaluation of audit results also could lead the auditor to re-evaluate his or her assessments of risk and the sufficiency of the audit procedures performed.

The conclusion and wrap-up phase of the audit also includes completion of the review of the audit and resolution of reviewers' comments.

¹⁸ See Auditing Standard No. 5, paragraph B9. This does not mean that the auditor is required to perform substantive procedures for a relevant assertion before performing tests of controls.

¹⁹ See AU sec. 312.34, and Auditing Standard No. 5, paragraphs 62 and B8.

²⁰ See paragraphs .34–.41 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, paragraph .01 of AU sec. 326, *Evidential Matter*, and Auditing Standard No. 5, paragraph 3.

²¹ See Auditing Standard No. 5, paragraph 71.

Appendix B

Discussion of Comments Received on the Preliminary Staff Views

On October 17, 2007, the staff of the Board's Office of the Chief Auditor published for comment *Preliminary Staff Views – An Audit of Internal Control That Is Integrated with An Audit of Financial Statements: Guidance for Auditors of Smaller Public Companies* ("the preliminary guidance"). During the public comment period, 23 comment letters were received from investors, auditors, issuers, and others.

The majority of commenters were supportive of the preliminary guidance. They noted that it appropriately considered the environment of smaller, less complex companies and provided useful examples that will help in designing and executing strategies for the audits of these companies in accordance with the provisions of Auditing Standard No. 5.

The commenters offered suggestions to improve the preliminary guidance. After a careful analysis, certain changes have been made to this publication to further clarify or enhance the guidance. This Appendix describes significant comments received on the preliminary guidance and the related changes that the staff made in this publication.

General Comments

The introduction to the preliminary guidance stated that it did not establish new requirements for auditors. However, some commenters suggested reinforcing this statement by providing references to the Board's standards that establish mandatory or presumptively mandatory responsibilities to which this publication refers. As suggested by commenters, this publication includes additional references to the Board's standards.

Several commenters suggested that some or all of the preliminary guidance could be applicable to audits of internal control of larger public companies. As noted in the introduction, this publication was developed specifically to describe how auditors may apply the provisions of Auditing Standard No. 5 to audits of smaller, less complex companies. If auditors of larger public companies find this guidance useful in applying the scalability principles of Auditing Standard No. 5, they may, of course, refer to it. As noted earlier, this guidance does not establish requirements for the audit of internal control. Rather, all audits of internal control—regardless of the size of the company—must comply with the requirements of Auditing Standard No. 5.

Chapter 1 – Scaling the Audit for Smaller, Less Complex Companies

The preliminary guidance said that "[i]f none of the controls that are designed to address a risk for a relevant assertion is likely to be effective, the auditor can take that into account in determining the testing of that control." According to one commenter, this statement could suggest that, under such circumstances, the auditor still has an obligation to test a particular control. This sentence has been modified to say that, if none of the controls over an assertion "is likely to be effective, the auditor can take that into account in determining the evidence needed to support a conclusion about the effectiveness of controls for this assertion." Paragraph 47 of Auditing Standard No. 5 indicates that less evidence generally is needed to support a conclusion that controls are not effective. Chapter 8 discusses how this principle may be applied when a company has pervasive control deficiencies.

Several commenters asked the staff to clarify the example in the section entitled Tests of Operating Effectiveness of Controls, in which the auditor was able to use the results of tests of controls to reduce the substantive work on accounts receivable but not revenue. In the commenters' view, it can be difficult to distinguish controls over accounts receivable—specifically, over billing and cash receipt processing—from controls over revenue recognition. In response, the reference to revenue recognition in this example has been replaced with a reference to the allowance for doubtful accounts, the controls over which are more easily distinguishable from controls over billing and cash receipt processing.

Additionally, as suggested by the commenters, the discussion leading to this example has been modified to emphasize that the auditor's decisions about relying on controls, which were illustrated by the example, were related to the audit of the financial statements rather than the audit of internal control. The example is not meant to suggest that the auditor should avoid testing controls in high-risk areas. Rather, the example assumes that the auditor is following the requirements and direction in AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, in designing his or her audit strategy.

Another commenter asked for clarification about whether an auditor would be able to issue an unqualified opinion on the effectiveness of internal control over financial reporting when the auditor assessed control risk at the maximum for one or more relevant assertions in the audit of financial statements. A new paragraph that discusses the relationship between assessing control risk at the maximum and expressing an opinion on internal control over financial reporting has been added to the section entitled Tests of Operating Effectiveness of Controls.

In the last paragraph of Chapter 1, one commenter asked to clarify what impact the absence of misstatements detected by substantive procedures has on the testing of controls. In response, this publication explains that the absence of misstatements is only one of a number of factors that informs the auditor's risk assessment in determining the testing necessary to conclude on the effectiveness of a control. Additionally, as recommended by another commenter, the wording in this paragraph has been revised to better reflect paragraph B9 of Auditing Standard No. 5, to which it refers.

One commenter suggested adding guidance to address situations in which controls changed during the period. The purpose of Chapter 1 is to discuss the principles in Auditing Standard No. 5 for scaling the audit and integrating tests of controls in audits of smaller, less complex public companies. Auditing Standard No. 5 and AU sec. 319, address the auditor's responsibilities for situations in which controls change during the year.

Chapter 2—Evaluating Entity-Level Controls

Comments on Chapter 2 related primarily to the guidance on the precision of entity-level controls.

Some commenters were concerned that the list of factors that the auditor might consider in judging the level of precision of an entity-level control, in the section entitled Assessing the Precision of Entity-Level Controls, will be used as a checklist by auditors. Other commenters suggested expanding the list. Consistent with the preliminary guidance, this publication uses the phrase "factors include" to indicate that the list of factors is not all-inclusive, and the list of factors is not a list of criteria that the auditor should determine are met for every entity-level control. Not all factors are necessarily applicable to every control (e.g., some are relevant only to detective controls), and some factors might be more important than others for a given control. Examples 2-1 and 2-2 have been

modified to better explain which factors the auditor in those examples took into account in evaluating the precision of the company's entity-level controls.

One commenter suggested expanding the guidance in Chapter 2 by discussing auditing considerations related to evaluating design and operating effectiveness of company's entity-level risk assessment component. The risk assessment component of internal control involves identification and analysis of the risks of material misstatement²² and thus, by itself, would not necessarily prevent or detect misstatements. Chapter 2 focuses on those entity-level controls that are more likely to operate at a sufficient level of precision to result in a reduction of testing of processlevel controls in an audit of a smaller, less complex company.

Additionally, another commenter asked for clarification regarding when the auditor can obtain a substantial amount of evidence about the effectiveness of internal control over financial reporting through the evaluation of entity-level controls. In this publication, the discussion following the bullet points at the beginning of Chapter 2, to which the commenter referred, has been revised to state more clearly that the auditor can obtain such evidence if senior management performs many controls—including entity-level controls—that are important to effective internal control over financial reporting.

Chapter 3—Assessing the Risk of Management Override and Evaluating Mitigating Actions

Some commenters on Chapter 3 were concerned that the introductory statement to a list of mitigating controls in the section entitled Evaluating Mitigating Controls constituted a requirement for management to implement these controls. As stated in the introduction to this publication, the discussions and examples of controls in this publication do not establish internal control requirements and are not intended as guidance to management regarding establishing or evaluating internal control over financial reporting. Nevertheless, the introductory statement has been revised to remove reference to management's implementation of controls. Additionally, as suggested by some commenters, the fourth item in the list of mitigating controls has been renamed "controls over certain journal entries" to more clearly refer to the related discussion in the subsection entitled Evaluating Controls over Journal Entries later in the chapter.

As recommended by one of the commenters, a statement about the importance of the auditor's exercise of professional skepticism when considering the risk of management override has been added to the section entitled Assessing the Risk of Management Override. Because of the important role that the audit committee may play in mitigating the risk of management override, several commenters suggested providing more details in Example 3-1 about procedures performed by the audit committee. Accordingly, Example 3-1 has been expanded to provide more details on the types of procedures performed by the audit committee to address the risk of management override.

Some commenters suggested adding clarification regarding situations in which a company does not have an audit committee. A footnote reference to COSO Small Companies Guidance has been added to the section entitled Evaluating Audit Committee Oversight for clarification, as suggested.

Chapter 4—Evaluating Segregation of Duties and Alternative Controls

Most comments on Chapter 4 related to perceived inconsistencies in Example 4-1, which illustrates some audit procedures for testing alternative controls

²² See COSO Small Companies Guidance, Volume II: Guidance, page 43.

over inventory. In response to these comments, the example has been revised to describe more clearly the access rights of both the company's employee who performs certain incompatible duties, and the manager who performs the alternative controls. The paragraph preceding the example has also been revised to clarify that entity-level controls should operate at a necessary level of precision to effectively address the risk of misstatement.

One commenter suggested using the term "compensating controls" instead of "alternative controls" to describe controls that address the same issues as segregation of duties. The term "compensating controls" is not used in this chapter because it is generally applied to situations in which control deficiencies have been identified and the auditor is evaluating whether other controls might compensate for the deficiencies. Chapter 4 of this publication, as well as paragraph 42 of Auditing Standard No. 5, use the term "alternative controls" to apply to situations in which management has designed and implemented controls that achieve the same objectives as segregation of duties.

Chapter 5—Auditing Information Technology Controls in a Less Complex IT Environment

Some commenters cautioned against underestimating risks that are associated with pre-packaged software. They indicated that readers might mistakenly perceive prepackaged software to be risk-free. In response to these comments, a footnote has been added to the section entitled Characteristics of Less Complex IT Environments in Chapter 5 to indicate that significant user configuration of the pre-packaged software might create additional risks that require additional controls.

In response to other commenters' suggestions, the following sentence has been added to the discussion in the third bullet point in the section entitled Characteristics of Less Complex IT Environments: "Access to systems is typically managed by a limited number of personnel." In the fourth bullet point, the phrase "in many instances" has been inserted to acknowledge that a smaller, less complex company might perform more complex calculations using spreadsheets and other user-developed applications. In the same bullet point, the phrase "to accumulate, summarize, process, and report" has been replaced with "to initiate, authorize, record, process and report" to more accurately describe tasks included in the end-user computing.

Some commenters asked to clarify how the lack of controls over backups might impact the financial reporting process. In response, the second to last paragraph in the section entitled IT-Related Risks Affecting Financial Reporting of this publication has been reworded to refer, more specifically, to the controls that address the financial reporting risk, i.e., the risk of loss of data necessary to prepare the financial statements, and to acknowledge that there may be different controls to address the potential loss of data.

Several commenters suggested modifying Example 5-1 in order to better illustrate the points made in this chapter. In response, the description of controls and software in the Scenario section of Example 5-1 has been clarified, and controls over authorization have been added to the first sub-bullet in the Audit Approach section.

In general, several commenters were concerned about the potential for auditors to use the lists of controls and audit procedures from Chapter 5 as checklists. As previously mentioned, the discussions and examples of controls in this publication do not establish internal control requirements and are not intended as guidance to management regarding establishing or evaluating internal control over financial reporting. These examples of controls in Chapter 5 do not represent required controls for management.

One commenter suggested adding guidance relating to testing of controls over spreadsheets. The purpose of this chapter was to discuss general audit strategies that might be employed regarding the evaluation of IT controls in a less complex IT environment rather than to discuss testing of any particular control activities.

Chapter 6—Considering Financial Reporting Competencies and Their Effects on Internal Control

Most of the comments on Chapter 6 related to controls over the work performed by outside professionals.

One commenter provided examples of the controls that a company might implement to test work performed by the outside professional. These examples have been added to the discussion of audit considerations in the section entitled *Supplemented Competencies with Assistance from Outside Professionals*. Additionally, as suggested by commenters, *Example 6-1* has been modified to more clearly outline the responsibilities of management and the third-party service provider in a situation typical for a smaller, less complex company. The discussion in the example has also been expanded to provide further details of the procedures performed by the auditor.

Some commenters asked what controls the auditors should expect to see over the work of outside professionals in addition to those over the competence and the accuracy of the information. One commenter asked for specific examples of controls in the situations when the management uses outside professionals in the areas of stock compensation, derivatives and hedging activities, off-balance-sheet accounting, and financial statements preparation. Because of the variety of situations in which outside professionals could be used, including the ones mentioned by the commenters, and the diversity of potential controls that might be implemented by companies using outside professionals, the chapter focuses mainly on the control objectives that might be relevant to those situations rather than the individual controls. However, as noted in the preceding paragraph, some additional examples of controls have been included in this publication as suggested by commenters.

Chapter 7—Obtaining Sufficient Competent Evidence When the Company Has Less Formal Documentation

Some commenters on this chapter asked the staff to clarify the differences between the terms "formal" and "less formal" documentation and the impact of the distinction on the audit. One commenter asked about the auditor's course of action if there is no documentary evidence at all.

"Formal" and "less formal" documentation are relative terms used in this publication to illustrate differences that might exist in the documentation practices of larger and smaller companies. For instance, the section entitled *Documentation of Processes and Controls* provides examples of more formal documentation and less formal documentation of processes and controls. As stated in this chapter, when auditing a smaller, less complex company, it generally is helpful to obtain an understanding of the nature and availability of documentation as early in the audit process as practical, so that the auditor has sufficient time to explore alternatives if the company has less formal documentation. The section entitled *Other Considerations* discusses various types of documentation that auditors might consider using as audit evidence relating to internal control, including the documentation of company processes and procedures and other documentation that the company uses to run the business. The chapter also addresses situations in which only limited documentation exists.

Additionally, in response to one commenter's concern, Example 7-2 has been clarified to explain that the CFO's review represents one control – rather than the only control—that management relies on with respect to the period-end financial reporting process.

Chapter 8—Auditing Smaller, Less Complex Companies with Pervasive Control Deficiencies

Several commenters asked for clarification regarding when limited testing of a control that is unlikely to be effective might be necessary. Chapter 8 now includes an example indicating that limited testing of a control might be necessary if walkthrough procedures have not been performed. In response to another commenter's suggestion, the discussion in the section entitled Considering the Effect of Pervasive Control Deficiencies on Other Controls has been expanded to clarify how certain deficient entity-level controls might impair the effectiveness of other controls over relevant assertions.

Other commenters suggested changing the discussion of management override of controls to state that a control that has been "inappropriately overridden" instead of "frequently overridden" is either less likely to operate effectively or ineffective. The wording from the preliminary guidance has been retained in this publication because it best describes the risk associated with management override. Although management override might be appropriate in certain circumstances (e.g., manual override of the old credit limits until the new limits are posted in the IT system), frequent management override of a control could impair the effectiveness of the overridden control.

Appendix A—The Integrated Audit Process

Some commenters expressed concern that auditors might view the audit approach outlined in Appendix A as the preferred approach because this publication would "formalize" it. Others expressed concern that the audit approach described in the appendix does not cover all of the auditing procedures that might need to be performed. As noted in the Introduction to this publication, the guidance is not a rule of the Board and does not establish new requirements. Rather, it discusses how the auditors of smaller, less complex companies may address some (but not all) of the challenges that might arise in audits of those companies. Thus, this publication does not attempt to "formalize" or endorse any particular approach to the audit of internal control over financial reporting. Auditing Standard No. 5 provides direction on integrating the audit of internal control with the audit of financial statements. Appendix A to this publication has been developed to illustrate one approach for integrating the two audits, and it is not intended to present all of the procedures that are required for a particular audit. Auditors should plan and perform their integrated audits to achieve the objectives of the audits and to comply with standards of the PCAOB.

Section 400

STAFF AUDIT PRACTICE ALERTS

.01 Staff Audit Practice Alert No. 1

Matters Related to Timing and Accounting for Option Grants

July 28, 2006

Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

Recent reports and disclosures about issuer practices related to the granting of stock options, including the "backdating" of such grants, indicate that some issuers' actual practices in granting options might not have been consistent with the manner in which these transactions were initially recorded and disclosed. Some issuers have announced restatements of previously issued financial statements as a result of these practices. In addition, some of these practices could result in legal and other contingencies that may require recognition of additional expense or disclosure in financial statements.

This practice alert advises auditors that these practices may have implications for audits of financial statements or of internal control over financial reporting ("ICFR") and discusses factors that may be relevant in assessing the risks related to these matters.

Background

The recorded value of a stock option depends, in part, on the market price of the underlying stock on the date that the option is granted and the exercise price specified in the option. Some issuers may have granted options with exercise prices that are less than the market price of the underlying stock on the date of grant. These options are sometimes referred to as "discounted" or "in-the-money" options. Where discounted options were granted and an issuer failed to properly consider this condition in its original accounting for the option, errors in recording compensation cost, among other effects, may have resulted. These

errors may cause an issuer's financial statements, including related disclosures, to be materially misstated.¹

While this alert does not attempt to describe all of the variations in circumstances that may result in the issuance of discounted options, a range of practices appears to be involved, including—

- The application of provisions in option plans that allow for:
 - the selection of exercise prices based on market prices on dates earlier than the grant date, or
 - the award of options that allow the option holder to obtain an exercise price equal to the lower of the market price of the stock at the grant date or during a specified period of time subsequent to the grant date.
- Preparation, or subsequent modification, of option documentation for purposes of indicating a lower exercise price than the market price at the actual grant date.
- Treating a date as the grant date when, in fact, all of the prerequisites to a grant had not yet occurred.

Available information suggests that the incidence of these and similar practices may have substantially decreased after the implementation of the shortened filing deadline for reports of option grants specified by Section 403 of the Sarbanes-Oxley Act of 2002. In August 2002, the Securities and Exchange Commission ("SEC") implemented this requirement by requiring the reporting of an option grant on Form 4 within two days of the date of grant. However, periods subsequent to the grant of an option may also be affected by improper accounting for a grant because option cost is generally expensed over the period during which the issuer receives the related services, most commonly its vesting period.

Matters for Auditor Consideration

Auditors planning or performing an audit should be alert to the risk that the issuer may not have properly accounted for stock option grants and, as a result, may have materially misstated its financial statements or may have deficiencies in its ICFR. For audits currently underway or to be performed in the future, the auditor should acquire sufficient information to allow him or her to assess the nature and potential magnitude of these risks. An auditor must use professional judgment in making these assessments and in determining whether to apply additional procedures in response.

In making these judgments, auditors should be mindful of the following—

Applicable financial accounting standards. Financial Accounting Standards Board Statement of Financial Accounting Standards ("SFAS") No. 123 R (revised 2004), *Share-Based Payment*, applies to issuer reporting periods beginning after June 15, 2005 (December 15, 2005 for small business issuers). Accounting for options was, however, previously governed by other accounting standards and related interpretations, specifically Accounting Principles

¹ In addition, academic research has suggested the possibility that some issuers may have purposefully granted options immediately before the release of information that the issuer believed would be favorable to its share price. While these practices may not result in the granting of discounted options, they may create legal or reputational risks and raise concerns about the issuer's control environment.

Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), and SFAS No. 123, *Accounting for Stock-Based Compensation*. If an auditor determines that it is necessary to consider the accounting for option grants and related disclosures in financial statements of a prior period, the auditor should take care to determine the applicable generally accepted accounting principles in effect in those periods and to consider the specific risks associated with these principles.

- *Accounting for discounted options.* For periods in which an issuer used the provisions of APB 25 to determine compensation cost related to stock options, the issuer may have been required to record additional compensation cost equal to the difference in the exercise price and the market price at the measurement date (as defined in APB 25). In periods in which the issuer has recorded option compensation cost using the fair value method as allowed by SFAS No. 123, or as required by SFAS No. 123 R (revised 2004), the impact on the calculated fair value of options of using an incorrect date as the grant date would depend on the nature and magnitude of changes in conditions that affect option valuation between the incorrect date used and the actual grant date. In all cases, the compensation cost of options should be recognized over the period benefited by the services of the option holder.
- *Accounting for variable plans.* For periods in which an issuer used the provisions of APB 25 to determine compensation cost related to stock options, an option with terms allowing a modification of the exercise price, or whose exercise price was modified subsequent to the grant date may require variable plan accounting. Variable option accounting requires that compensation cost be recorded from period to period based on the variation in current market prices. In periods in which the issuer records option compensation cost using the fair value method as allowed by SFAS No. 123, or as required by SFAS No. 123 R, the right to a lower exercise price may constitute an additional component of value of the option that should be considered at the grant date. In all cases, the cost of options should be recognized over the period benefited by the services of the option holder.
- *Accounting for contingencies.* If the consequences of the issuer's practices for stock option grants or its accounting for, and disclosure of, option grants result in legal or other contingencies, the application of SFAS No. 5, *Accounting for Contingencies*, may require that the issuer record additional cost or make additional disclosures in financial statements.
- *Accounting for tax effects.* The grant of discounted stock options may affect the issuer's ability to deduct expenses related to these options for income tax purposes, thereby affecting the issuer's cash flows and the accuracy of the related accounting for the tax effects of options.

Consideration of materiality. In evaluating materiality, auditors should remember that paragraph .11 of AU sec. 312, *Audit Risk*

and Materiality in Conducting an Audit, and SEC Staff Accounting Bulletin: No. 99—*Materiality* emphasize that both quantitative and qualitative considerations must be assessed. Quantitatively small misstatements may be material when they relate to unlawful acts or to actions by an issuer that could lead to a material contingent liability. In all cases, auditors should evaluate the adequacy of related issuer disclosures.

Possible illegal acts. Auditors who become aware that an illegal act may have occurred must comply with the applicable requirements of AU section ("AU sec.") 317, *Illegal Acts*, and Section 10A of the Securities Exchange Act of 1934. Section 10A, among other things, requires a registered public accounting firm to take certain actions if it "detects or otherwise becomes aware of information indicating that an illegal act (whether or not perceived to have a material effect on the financial statements of the issuer) has or may have occurred...." If it is likely that an illegal act has occurred, the registered public accounting firm must "determine and consider the possible effect of the illegal act on the financial statements of the issuer, including any contingent monetary effects, such as fines, penalties, and damages." The registered public accounting firm must also inform the appropriate level of management and assure that the audit committee is adequately informed "unless the illegal act is clearly inconsequential." The auditor may, depending on the circumstances, also need to take additional steps required under Section 10A if the issuer does not take timely and appropriate remedial actions with respect to the illegal act.

A. Effects of options-related matters on planned or ongoing audits

In planning and performing an audit of financial statements and ICFR, the auditor should assess the nature and potential magnitude of risks associated with the granting of stock options and perform procedures to appropriately address those risks. The following factors are relevant to accomplishing these objectives—

- Assessment of the potential magnitude of risks of misstatement of financial statements and deficiencies in ICFR related to option granting practices. This assessment should include consideration of possible indicators of risk related to option grants, including, where appropriate:
 - The status and results of any investigations relating to the timing of options grants conducted by the issuer or by regulatory or legal authorities.
 - The results of direct inquiries of members of the issuer's management and its board of directors that should have knowledge of matters related to the granting and accounting for stock options.
 - Public information related to the timing of options grants by the issuer.
 - The terms and conditions of plans or policies under which options are granted; in particular, terms that allow exercise prices that are not equal to the market price on the date of grant or that delegate authority for option grants to

management. In these situations, auditors should also consider whether issuers have other policies that adequately control the related risks.

- Patterns of transactions or conditions that may indicate higher levels of inherent risk in the period under audit. Such patterns or conditions may include levels of option grants that are very high in relation to shares outstanding, situations in which option-based compensation is a large component of executive compensation, highly variable grant dates, patterns of significant increases in stock prices following option grants, or high levels of stock-price volatility.
- In planning and performing audits, auditors should appropriately address the assessed level of risk, if any, related to option granting practices. Specifically:
 - In addition to the general planning considerations for financial statement audits identified in AU sec. 311, *Planning and Supervision*, the auditor should consider:
 - The implications of any identified or indicated fraudulent or illegal acts related to option grants to assessed risks of fraud (AU sec. 312.07 and AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*); the potential for illegal acts (AU sec. 317, *Illegal Acts by Clients*); or the assessment of an issuer's internal controls (AU sec. 319, *Internal Control in a Financial Statement Audit*).
 - The scope of procedures applied to assess the potential for fraud (AU sec. 316) and illegal acts (AU sec. 317).
 - The nature, timing, and extent of audit procedures applied to elements of the financial statements affected by the issuance of options. In particular, this assessment should include consideration of:
 - The need for specific management representations related to these matters (AU sec. 333, *Management Representations*) and the nature of matters included in inquiries of lawyers (AU sec. 337, *Inquiry of a Client's Lawyer*).
 - Where applicable, the result of tests of internal controls over the granting, recording, and reporting of option grants.
 - The need, based on the auditor's risk assessment, for additional specific auditing procedures related to the granting of stock options.

For integrated audits performed as described in PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements* ("AS No. 2"), the auditor should consider the implications of identified or potential accounting and legal risks related to options in planning, performing, and reporting on audits of ICFR. In addition, as discussed in paragraphs 145–158 of AS No. 2, the results of

the audit of ICFR should be considered in connection with the related financial statement audit.

B. Auditor involvement in registration statements

In cases where an auditor is requested to consent to the inclusion of his or her report, including a report on ICFR, in a registration statement under the Securities Act of 1933, AU sec. 711, *Filings Under Federal Securities Statutes*, provides that the auditor should perform certain procedures prior to issuing such a consent.²

- Paragraph .10 of AU sec. 711 provides that an auditor should perform certain procedures with respect to events subsequent to the date of the audit opinion up to the effective date of the registration statement (or as close thereto as is reasonable and practical under the circumstances). These procedures include inquiry of responsible officials and employees of the issuer and obtaining written representations from them about whether events have occurred subsequent to the date of the auditor's report that have a material effect on the financial statements or that should be disclosed in order to keep the financial statements from being misleading. The auditor should consider performing inquiries and obtaining representations specifically related to the granting and recording of option grants.
- Paragraph .11 of AU sec. 711 provides that a predecessor auditor that has been requested to consent to the inclusion of his or her report on prior-period financial statements in a registration statement should obtain written representations from the successor auditor regarding whether the successor auditor's audit and procedures with respect to subsequent events revealed any matters that might have a material effect on the financial statements reported on by the predecessor auditor or that would require disclosure in the notes to those financial statements. If the successor auditor becomes aware of information that leads him or her to believe that financial statements reported on by the predecessor auditor may require revision, the successor auditor should apply paragraphs .21 and .22 of AU sec. 315.³
- If either the successor or predecessor auditor discovers subsequent events that require adjustment or disclosure in the financial statements or becomes aware of facts that may have existed at the date of his or her report and might have affected the report had he or she been aware of them, the auditor should take the actions described in Paragraph .12 of AU sec. 711. In addition, where the auditor concludes that unaudited financial statements or unaudited interim financial information presented, or incorporated by reference, in a registration statement are not in conformity with generally accepted accounting principles, he or she should take the actions described in Paragraph .13 of AU sec. 711.

² Under Paragraph 198 of AS No. 2, the auditor should apply AU sec. 711 when the auditor's report on management's assessment of ICFR is included in filings under federal securities statutes.

³ In cases in which a predecessor auditor reissues his or her report on financial statements included in a filing under the Securities Exchange Act of 1934, the predecessor auditor should follow the directives in paragraphs .71 through .73 of AU sec. 508.

C. Effects of option-related matters on previously issued opinions

If an auditor becomes aware of information that relates to financial statements previously reported on by the auditor, but which was not known to him or her at the date of the report, and which is of such a nature and from such a source that he or she would have investigated it had it come to his or her attention during the course of the audit, he or she should take the actions described in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

.02 Staff Audit Practice Alert No. 2

Matters Related to Auditing Fair Value Measurements of Financial Instruments and the Use of Specialists

December 10, 2007

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

The purpose of this staff audit practice alert is to remind auditors of their responsibilities for auditing fair value measurements of financial instruments and when using the work of specialists under the existing standards of the PCAOB. This alert is focused on specific matters that are likely to increase audit risk related to the fair value of financial instruments in a rapidly changing economic environment.¹

This practice alert highlights certain requirements in the auditing standards related to fair value measurements and disclosures in the financial statements and certain aspects of generally accepted accounting principles (GAAP) that are particularly relevant to the current economic environment.

While this practice alert focuses on fair value in general, it also draws the auditor's attention to certain areas of the new fair value accounting standard, Statement of Financial Accounting Standard (SFAS) No. 157, *Fair Value Measurements*.² Auditing fair value measurements developed under the new accounting standard likely will provide new challenges during implementation.

¹ A combination of factors in the housing and mortgage markets, including rising delinquency and default rates on subprime mortgages and declining home prices, has led to increases in actual and expected credit losses for residential mortgage-backed securities and mortgage loans. In early 2007, the credit markets began reacting to these changing factors and the prices of many securities backed by subprime mortgages began to decline. Lower volumes of transactions in certain types of collateralized securities might make it more difficult to obtain relevant market information to estimate the fair value of these financial instruments.

² In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS 157, which is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. This standard, which some companies early-adopted, defines fair value, establishes a framework for measuring fair value, and expands disclosures. On November 14, 2007, the FASB voted to expose for comment a one year deferral for the implementation of SFAS 157 for certain nonrecurring, nonfinancial assets and liabilities. See FASB web site at www.fasb.org.

Therefore, the practice alert describes the applicable accounting pronouncements in these areas and provides direction, in accordance with the auditing standards, for evaluating the application of GAAP.³

The practice alert also discusses the auditor's responsibilities, under the existing auditing standards, when using the work of specialists. The alert provides some considerations for the auditor in determining whether a specialist is needed and highlights the requirement that the auditor should evaluate assumptions used in fair value measurements developed by a company's specialist in accordance with the PCAOB standard on auditing fair value measurements. It also highlights the auditor's responsibility to evaluate the appropriateness of using the specialist's work for the purpose of financial statements prepared in conformity with GAAP.

The practice alert is organized into four sections—

- Auditing fair value measurements;
- Classification within the fair value hierarchy under SFAS 157;
- Using the work of specialists; and
- Use of a pricing service.

Auditing Fair Value Measurements

AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, applies to auditing fair value measurements and disclosures in financial statements.⁴ Among other things, AU sec. 328 states that the auditor should evaluate whether the fair value measurements and disclosures in the financial statements are in conformity with GAAP. In general, for companies that had not adopted SFAS 157 before its mandatory effective date, GAAP in effect throughout 2007 provides that—

- Fair value is the amount at which an asset or liability could be bought or sold in a current transaction between willing parties, that is, other than a forced or liquidation sale;⁵
- Quoted market prices in active markets are the best evidence of fair value and should be used as the basis for the measurement, if available;⁶
- The estimate of fair value should consider prices for similar assets;⁷ and

³ In order to provide guidance to auditors on auditing fair value measurements, this practice alert necessarily describes GAAP used by public companies to measure fair value. The Board, however, has no authority to prescribe the form or content of an issuer's financial statements. That authority, and the authority to make binding determinations concerning an issuer's compliance with GAAP, rests with the Securities and Exchange Commission. Accordingly, while this staff audit practice alert describes applicable GAAP, it should not be understood as establishing or interpreting GAAP.

⁴ AU secs. 342, *Auditing Accounting Estimates*, and 332, *Auditing Derivative Instruments, Hedging Activities, and Investments in Securities*, also are related to auditing fair value.

⁵ See SFAS 115, *Accounting for Certain Investments in Debt and Equity Securities*, paragraph 137; SFAS 133, *Accounting for Derivatives and Hedging Activities*, paragraph 540; and SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, paragraph 69.

⁶ *Ibid.* Also, in paragraph 58 of SFAS 107, *Disclosures about Fair Value of Financial Assets* the FASB Board reiterated its belief that quoted prices, even from thin markets, provide useful information because investors and creditors regularly rely on those prices to make their decisions.

⁷ See SFAS 115, *Accounting for Certain Investments in Debt and Equity Securities*, paragraph 137; SFAS 133, *Accounting for Derivatives and Hedging Activities*, paragraph 540; and

(continued)

- Valuation techniques should incorporate assumptions that market participants would use in their estimates of value.⁸

In addition, AICPA Statement of Position (SOP) 94-6, *Disclosure of Certain Significant Risks and Uncertainties*, requires certain disclosures, in addition to those required by other accounting standards, about estimates when certain information is known prior to the issuance of financial statements.⁹

SFAS 157 incorporates concepts similar to those in SFASs 115, *Accounting for Certain Investments in Debt and Equity Securities*, 133, *Accounting for Derivatives and Hedging Activities*, and 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. However, it also introduces concepts such as the principal and most advantageous markets and the fair value hierarchy of inputs (further discussed in this alert).¹⁰

In planning and performing procedures in response to the risk associated with fair value measurements, the auditor should obtain an understanding of the company's process for determining fair value measurements and disclosures, including relevant controls.¹¹ In addition, the auditor should, among other things—

- Evaluate whether management's assumptions are reasonable and reflect, or are not inconsistent with, market information.¹² For example, the fact that transaction volume in a particular market is lower than in previous periods may not necessarily support an assumption that transactions in that market constituted forced or distressed sales.
- If management relies on historical financial information in the development of an assumption, consider the extent to which such reliance is justified. However, historical information might not be representative of future conditions or events.¹³ For example, an auditor should evaluate whether a company's use of historical default rates, in an environment in which default rates are increasing, is justified.
- Evaluate whether the company's method for determining fair value measurements is applied consistently and if so, whether the consistency is appropriate considering possible changes in the environment or circumstances affecting the company.¹⁴ For example, the relative weightings in a company's model may not be reasonable in situations where there has been a change in market conditions. In such cases, auditors should consider whether

⁸ Ibid.

⁹ See SOP 94-6, paragraph .13.

¹⁰ See SFAS 157, paragraphs 8, 22, and 23.

¹¹ See AU sec. 328.09.

¹² See AU sec. 328.26.

¹³ See AU sec. 328.37.

¹⁴ See AU sec. 328.19. Also, under SFAS 157, paragraph 20, a change in valuation technique or its application, is appropriate if the change results in a measurement that is equally or more representative of fair value in the circumstances.

compliance with applicable accounting standards might require a change in the model.

Inputs based on a company's own data may be more susceptible to preparer bias because they may not be based on observable market inputs.¹⁵ In such cases, the auditor should be aware of the increased risk of management bias and address the related risk of material misstatement.¹⁶

Classification Within the Fair Value Hierarchy Under SFAS 157

Under SFAS 157, a company must determine the appropriate level in the fair value hierarchy for each fair value measurement. The fair value hierarchy in SFAS 157 prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or liability, into three levels. It gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.¹⁷ The level in the fair value hierarchy within which a fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.
- Level 3 inputs are unobservable inputs for the asset or liability.¹⁸

Because there are different consequences associated with each of the three levels of the hierarchy, the auditor should be alert for circumstances in which the company may have an incentive to inappropriately classify fair value measurements within the hierarchy. For example, an asset or liability with Level 1 inputs generally must be measured using unadjusted quoted prices in an active market, while an asset or liability with Level 2 inputs is measured using observable market inputs other than quoted prices included in Level 1. Accordingly, a Level 2 measurement might allow for more discretion or judgment on the part of management than a Level 1 measurement. As another example, the required disclosures associated with Level 3 measurements are more extensive than those associated with Level 1 and Level 2 measurements.

¹⁵ See AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*. Paragraph .39 notes that certain accounts, classes of transactions, and assertions may have high inherent risk due to a high degree of management judgment and subjectivity. They also may represent fraud risks because they are susceptible to management manipulation.

¹⁶ AU sec 312, *Audit Risk and Materiality in Conducting an Audit*, paragraph .36, provides that the risk of material misstatement is generally greater when account balances include estimates because of the inherent subjectivity in estimating future events.

¹⁷ See SFAS 157, paragraph 21. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

¹⁸ See SFAS 157, paragraphs 22–32.

The auditor's opinion is based on, among other things, his or her judgment as to whether the financial statements and related notes are informative of matters that may affect their use, understanding, and interpretation.¹⁹ In evaluating whether a company's disclosures are complete, accurate, and in conformity with SFAS 157, the auditor should be aware that a financial statement disclosure that is not in accordance with GAAP could be a misstatement of the financial statements.²⁰

Using the Work of Specialists

Management and auditors frequently use the work of a specialist in preparing and auditing financial statements containing complex fair value measurements.

AU sec. 328 states that the auditor should consider whether to engage a specialist and use the work of that specialist as evidential matter in performing substantive tests to evaluate material financial statement assertions.²¹ As part of the consideration, the auditor should evaluate whether he or she has the necessary skill and knowledge to plan and perform audit procedures related to the fair value measurement. Factors to consider include—

- Significant use of unobservable inputs;
- Complexity of the valuation technique; and
- Materiality of the fair value measurement.

AU sec. 336, *Using the Work of a Specialist*, provides direction that applies when the auditor uses the work of a specialist, whether the specialist is engaged by the company or the auditor. It states that the auditor should (a) obtain an understanding of the methods and assumptions used by the specialist, (b) make appropriate tests of data provided to the specialist, and (c) evaluate whether the specialist's findings support the related assertions in the financial statements.²² In obtaining an understanding of the specialist's methods, the auditor should consider whether the method will result in a measurement that is in conformity with the applicable accounting standards.²³ In addition, the auditor should evaluate, in accordance with AU sec. 328, the assumptions developed by a specialist engaged or employed by management.²⁴

Additionally, the auditor should evaluate the specialist's qualifications, including the specialist's experience in the type of work under consideration, and obtain an understanding of the work performed by the specialist, including the appropriateness of using the specialist's work for the intended purpose.²⁵ In the context of this practice alert, the intended purpose of the specialist's work is the valuation of assets and liabilities for use in financial statements prepared in conformity with GAAP.

¹⁹ See AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*, paragraph .04.

²⁰ See AU sec. 9312, *Audit Risk and Materiality in Conducting an Audit: Auditing Interpretations of Section 312*, paragraphs .01 and .02.

²¹ See AU sec. 328.20.

²² See AU sec. 336.12.

²³ See AU secs. 328.03. and 336.09.

²⁴ AU sec. 328 provides that management's assumptions used in fair value measurements or disclosures include assumptions developed by a specialist engaged or employed by management. See AU sec. 328.05, footnote 2.

²⁵ See AU sec. 336.08–.09.

Use of a Pricing Service

If a company uses a pricing service for its fair value measurements, the auditor should determine the nature of the information provided by the pricing service. For example, the auditor should understand whether the fair value measurement was determined using quoted prices from an active market, observable inputs (such as prices for similar assets), or fair value measurements based on a model, and adjust his or her audit procedures based on the nature of the information provided by the pricing service.²⁶ In addition, if the price is not based on quoted prices from an active market or observable inputs (such as prices for similar assets), the auditor should obtain an understanding of the model and evaluate whether the assumptions are reasonable.²⁷

There are additional factors for the auditor to consider under SFAS 157. For example, under SFAS 157, a fair value measurement assumes that the transaction occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. The principal market is one in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. If there is a principal market, under SFAS 157, the fair value measurement represents the price in that market even if the price in a different market is potentially more advantageous.²⁸

Under SFAS 157, when a company uses a pricing service, the auditor should evaluate whether the assumptions used by the pricing service reflect the price to sell the asset or paid to transfer the liability in the principal market (or most advantageous market if the company has no principal market) of the company. If the pricing service valuation is based on actual trades or quotes, the auditor should evaluate whether those traded or quoted prices would be available to the company in the company's principal market (or most advantageous market, if the company has no principal market). For example, a pricing service might provide an amount for which a large financial institution could sell the financial instrument. However, a company that owns that financial instrument might not be able to transact in the same market as a large financial institution. If the price available to a large financial institution would not be available to the company, then that price may not be an appropriate measure of fair value under SFAS 157.

.03 Staff Audit Practice Alert No. 3

Audit Considerations in the Current Economic Environment

December 5, 2008

Staff Audit Practice Alerts highlight new, emerging, or otherwise noteworthy circumstances that may affect how auditors conduct audits under the existing requirements of PCAOB standards and relevant laws. Auditors should determine whether and how to respond to these circumstances based on the specific facts presented. The statements contained in Audit Practice Alerts are not rules of the Board and do not reflect any Board determination or judgment about the conduct of any particular firm, auditor, or any other person.

Recent events in the financial markets and the current economic environment may affect companies' operations and financial reporting and, in turn, may have implications for audits of financial statements and internal control over financial reporting. Audit risks that may have been identified previously may become more significant or new risks may exist due to current events (e.g. those affecting the economy, credit and liquidity). Among other things, the current uncertainties in the market and economy may create questions about the valuation, impairment, or recoverability of certain assets and the completeness or valuation of certain liabilities reflected in financial statements.

The purpose of this staff audit practice alert is to assist auditors in identifying matters related to the current economic environment that might affect audit risk and require additional emphasis. While the alert highlights certain areas, it is not intended to identify all areas that might affect audit risk in the current economic environment or serve as a substitute for the relevant auditing standards. All audits of issuers must be conducted in accordance with the standards of the PCAOB.

The practice alert is organized into six sections—

- Overall audit considerations;
- Auditing fair value measurements;
- Auditing accounting estimates;
- Auditing the adequacy of disclosures;
- Auditor's consideration of a company's ability to continue as a going concern; and
- Additional audit considerations for selected financial reporting areas.

In order to provide guidance to auditors on audit considerations in the current economic environment, this practice alert necessarily describes generally

accepted accounting principles ("GAAP") used by public companies in various areas. The Board, however, has no authority to prescribe the form or content of an issuer's financial statements. That authority, and the authority to make binding determinations concerning an issuer's compliance with GAAP, rests with the U.S. Securities and Exchange Commission ("SEC"). Accordingly, while this staff audit practice alert describes applicable GAAP, it should not be understood as establishing or interpreting GAAP.

Overall Audit Considerations

The following section describes overall audit considerations related to planning, fraud, internal controls, substantive procedures, and communications with audit committees that may be affected by recent events in the financial markets and current economic conditions.

Planning considerations

The effects of current economic conditions on a company's operations and financial reporting may affect audit planning. In planning the audit, the auditor should consider, among other things, matters affecting the industry in which the company operates, including the economic conditions.¹

As the audit progresses, changed conditions may make it necessary to modify planned audit procedures.² Accordingly, the auditor may need to reassess audit risks and update his or her understanding of how current economic conditions may affect the company's financial reporting. Knowledge of these effects helps the auditor in—

- Identifying areas that may need special consideration;
- Assessing conditions under which accounting data are produced, processed, reviewed, and accumulated within the company;
- Evaluating the reasonableness of estimates, such as valuation of inventories, depreciation, allowances for doubtful accounts, and percentage of completion of long-term contracts;
- Evaluating the reasonableness of management representations;
- Making judgments about the appropriateness of the accounting principles applied and the adequacy of disclosures.³

Whenever the auditor has concluded that there is significant risk of material misstatement of the financial statements, the auditor should consider this conclusion in determining the nature, timing, or extent of procedures; assigning staff; or requiring appropriate levels of supervision.⁴ Higher risk may cause the auditor to expand the extent of procedures applied, apply procedures closer to or as of year end, particularly in critical audit areas, or modify the nature of procedures to obtain more persuasive evidence.⁵

In an audit of internal control over financial reporting, a direct relationship exists between the degree of risk that a material weakness could exist in a

¹ Paragraphs .03 and .07 of AU sec. 311, *Planning and Supervision*, and paragraph 9 of PCAOB Auditing Standard No. 5 ("AS No. 5"), *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

² AU sec. 311.05.

³ AU sec. 311.06.

⁴ Paragraph .17 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*.

⁵ *Ibid.*

particular area of the company's internal control over financial reporting and the amount of audit attention that should be devoted to that area.⁶

Fraud risk considerations

The current economic environment may also trigger certain risk factors that may affect the risk of misstatement due to fraudulent financial reporting. Examples of risk factors include—

- Incentives and pressures
 - Financial stability or profitability is threatened by economic, industry, or company operating conditions;
 - Excessive pressure exists for management to meet the requirements or expectations of third parties;
 - Information available indicates management or the board of directors' personal financial situation is threatened by the company's financial performance;
 - Excessive pressure is placed on management or operating personnel to meet financial targets set up by the board of directors or management, including sales or profitability incentive goals;
- Opportunities
 - The nature of the industry or the company's operations provides opportunities to engage in fraudulent financial reporting;
 - There is ineffective monitoring of management;
 - There is a complex or unstable organizational structure;
 - Internal control components are deficient.⁷

The auditor has a responsibility to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud.⁸ As part of the understanding of internal control sufficient to plan the audit, the auditor should evaluate whether entity programs and controls that address identified risks of material misstatement due to fraud have been suitably designed and placed in operation.⁹ Also, the auditor should ordinarily presume that there is a risk of material misstatement due to fraud relating to revenue recognition.¹⁰ The auditor responds to risks of material misstatement due to fraud in the following three ways—
