The New Oxford High School was made possible by the finest cooperation of the patrons of the Oxford Separate School District. It is a result of careful planning by the entire school staff, the administration and many suggestions by laymen and other interested persons.

The Oxford School Board is to be commended for the fine leadership in the design and construction of this fine plant. Especially should Dr. C. M. Murry, Board Chairman, be commended for the many hours he spent in leading the Board in this project.

Some of the factors and figures relating to the size and cost of the building program are listed on the next page.
