Dear James,

I want to tell you that we are proud of you! You do
arduous work for the colored people by fighting against
dullness and hate of some stupid people which seems
to live with their brains still in the stone-age. There are
many with us in Austria who follow your actions with
sympathy and admiration, for to try, what you did, needs
a very brave fellow. With us there study many colored
people at our University of Vienna and thank god our
people are bright enough and up to date and we have no
race problem.

I'm a student myself and I know what difficulties.
For we have no race problem and everybody can study if
he can afford! And unfortunately I'm only the son of a
worker. I had also many difficulties to defeat before I've
got now a scholarship and succeeded against the
lack of money.

I read in the newspaper that you said: "I was always
lonesome and never had a white friend." I hope that is
nonsense of the reporter for otherwise I would have to be
too much ashamed for my race. Don't hate all the white
people, as hard as this may be sometimes! There is a good
number to which it would be an honour to become your
friend.

So don't give in and don't forget there are much
more people on your side all over the world than you
might think sometimes in this is vpp and they hope
all, that your undertaking will become a full success.

I wish you all the best, your sincere friend
Franz
