

2**SAM FARR WAS AGAINST LOCAL CONTROL OF FEDERAL FUNDS**

In the recent 1999 federal budget approval process, Sam Farr and his democratic minority wanted to keep control of federal funding of education, marine sanctuary, reclamation, etc. in Washington D.C. Sam Farr is in the minority. The majority republican congress prevailed. All federal funds are being sent directly to the local groups to spend and administer. No Washington bureaucrats will be involved.

MAJORITY REPUBLICANS GOT DOUBLE THE MONEY SAM FARR RECEIVED

When Leon Panetta was in power with a majority democratic party he brought home \$71 million dollars in just 2 grants. . . he got the Monterey Bay declared a sanctuary. . . and he got millions more in other funds. That is the way Washington D.C. works. Sam Farr is powerless. He could not even get any additional money for the Prunedale by-pass – a major North-South federal highway. A majority Republican would have been given major funding.

BILL MCCAMPBELL WILL STOP FEDERAL CONTROL

Bill McCampbell will join a republican majority in Congress and they will reduce federal bureaucracy. He is a leader who will get government off our back and out of our pockets.

He will bring our tax dollars back to the Central Coast just like Leon Panetta did.

Better yet he'll vote to lower taxes so less money will go to Washington D.C. in the first place.
