Research Matters

Elevating care through discovery.

December 2019, Vol. 1, Iss. 1

**Message from Amy K. Starosciak, Ph.D.
Director of Outcomes Research, Center for Research**

Welcome to the inaugural issue of the system-wide BHSF *Research Matters* newsletter! This new incarnation of the newsletter is intended for all physicians, nurses, staff, and collaborators who conduct research or who are interested in research at Baptist Health. All departments that contribute to research at BHSF can contribute to this newsletter. *Research Matters* will include updates by different departments (e.g., presenting new research studies, introducing new team members, showcasing recent dissemination etc.), updates in the wider research community that will affect how we conduct research at Baptist Health (e.g., state or federal guideline changes), calls for abstracts at BHSF and local research conferences, analytics on number and types of studies occurring at Baptist Health, research meetings/seminars that are open to the BHSF research community, and any other relevant announcements. The BHSF research leaders want this newsletter to be interesting and important to the system-wide research community.

In this first issue, we want to introduce you to the different research departments throughout Baptist Health and the people who support them.

The previous incarnation of *Research Matters* was created by and for the Center for Research, but otherwise it was not distributed outside of the department. If you are interested, you can read back-issues at the Scholarly Commons.

<https://scholarlycommons.baptisthealth.net/bg-research-matters/>

I wish everyone a wonderful holiday season and Happy New Year!

Miami Neuro and Neuro Nursing Symposium

November 6-8, 2019

[View Details](#)

Miami Neuro and Neuro Nursing Symposium

November 6-8, 2019 | Hilton Miami Dadeland, Florida

The Miami Neuroscience Institute had a successful 8th Annual Miami Neuro Symposium and 7th Annual Neuro Nursing Symposium. Over 200 participants attended from 20 states and 6 countries! The American Heart/American Stroke Association presented Baptist Hospital of Miami, South Miami Hospital, and West Kendall Baptist Hospital with Get With The Guidelines Awards for our data that demonstrate excellence in stroke care.

Back in November, I sent out a Needs Assessment Survey to staff and leaders in research operations and regulatory, including clinical research coordinators, regulatory coordinators, data coordinators, research administrators, nurse scientists, and pharmacy residents across the system. The goal was to get the group together for a Meet & Greet and determine if there was an interest in an ongoing Lunch & Learn, and what topics the group was interested in.

RESULTS - Research Needs Assessment

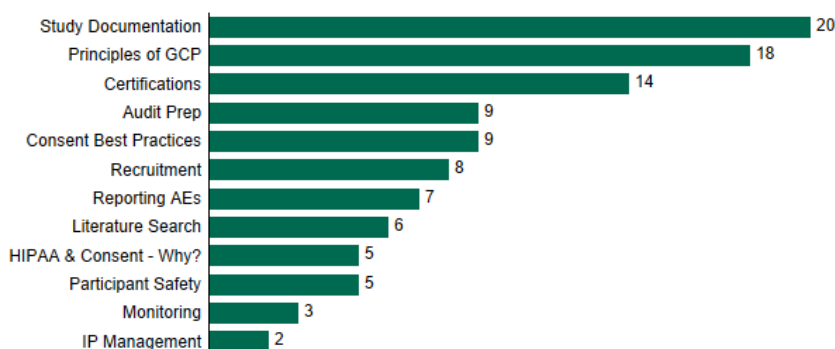

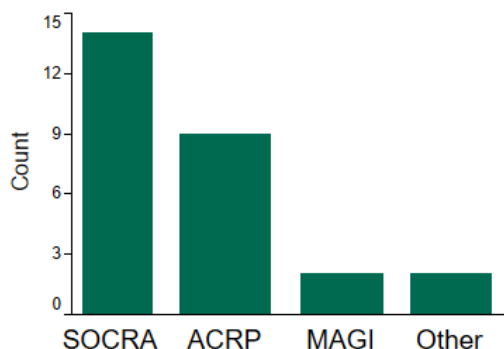

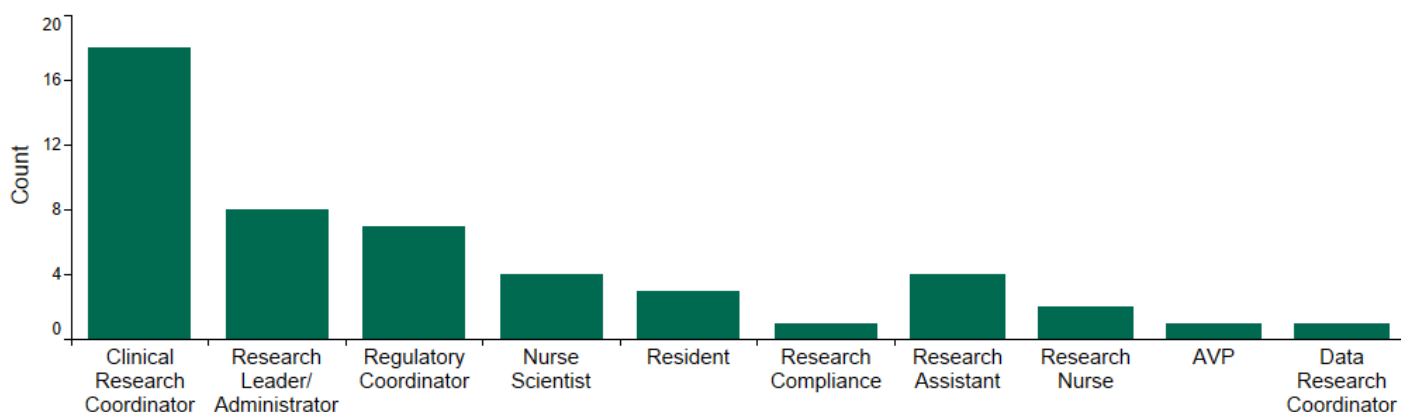

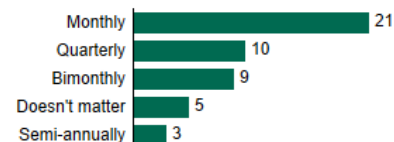

Total Respondents

49

Total Memberships

27

Frequency Preference

We had an excellent Meet & Greet Luncheon on Monday 12/16/19 with over 40 attendees across Center for Research, MCI, MCVI, Nurse Scientists, and Pharmacy residents!

Upcoming Lunch & Learns Mondays 12:00 to 1:30 —Topics TBD
 Invite will be sent out to Research Operations & Regulatory teams.
 Email Amy at amyst@baptisthealth.net if interested!

Introduction to the Principles and Practice of Clinical Research

registration + course

NOW OPEN

<https://ocr.od.nih.gov/courses/ippcr.html>

✉ ippcr2@mail.nih.gov

BHSF is a site for the FREE online course **Introduction to the Principles and Practice of Clinical Research (IPPCR)** — a national and international success in training the next generation of clinical researchers.

Information for the upcoming 2020 course year:

The course is free, self-paced and online. Please review our updated NIH course webpage:

<https://ocr.od.nih.gov/courses/ippcr.html>

- Course and registration are open NOW through June 30, 2020
- Final exam will be available on the course website starting January 2, 2020, and close on June 30, 2020 at 4:00 pm US EST.
- Participants who successfully complete the final exam and score at least 75% will receive a certificate of completion for the course.

Please email any questions or feedback to the course coordinator, Rebecca Hwang, at IPPCR2@mail.nih.gov.

Center for Research

MISSION

To serve as a research hub for elevating care through discovery for the diverse community we serve by using a shared service model that capitalizes on synergies created through a collaborative intellect.

VISION

In alignment with the strategic goals of Baptist Health South Florida, and within the context of a sustainable business model, the Center facilitates the development and dissemination of knowledge with the goals of providing continued excellence in patient care for the diverse multicultural community of South Florida.

Research Compliance Corner

The Center for Research is responsible for reviewing and providing compliance confirmation for research studies conducted at Baptist Health South Florida (BHSF). Compliance confirmation is provided for individual compliance and for study specific compliance. Confirmation for an individual is specific to an individual's compliance with BHSF's requirements to participate in research: Clinical Conflicts of Interest (CCOI) Form, CITI COI training, and CITI Human Subject (Social/Biomedical) training. Individual compliance can be provided via email and should not be used in IRBNet for study confirmation. Study-specific compliance confirmation must be done via IRBNet. This confirms that all personnel on the study have completed requirements, have been reviewed for conflicts of interest, and all conflicts (if any are present) have been addressed.

BHSF also requires that all research personnel (physicians, sub-investigators, coordinators, etc.) update their CCOI form upon acquiring any new financial relationships and or increased payments (remuneration, royalties, stock/stock options, travel, etc.) exceeding \$5,000 and therefore becoming a significant financial interest.

If you need more information, contact our office for all Research Compliance matters!

Heather Osorio, Research Compliance & Billing Administrator
