Strengths-Based Approaches to Crime and Substance Use

From Drugs and Crime to Desistance and Recovery

Edited by **David Best**, College of Business, Law and Social Sciences, Derby University and **Charlotte Colman**, Department of Law and Criminology, Ghent University

Instead of focusing on the active period of its onset and persistence, this book examines the mechanisms that support desistance, addiction recovery, and the common themes of reintegration and rehabilitation. With contributions from a wide range of international experts in the fields of desistance and addiction recovery, the book focuses on a strengths-based, relational and community-focused approach to long term change in offending and drug-using populations, as well as the shared barriers to effective reintegration for both.
