Hi Manos,

This is all I have (see below) hope this one will suffice.

BW

Samantha

Subliminal versus supraliminal stimuli activate neural responses in anterior cingulate cortex, fusiform gyrus and insula: a meta-analysis of fMRI studies  
Paolo Meneguzzo, Manos Tsakiris, Helgi B Schioth, Dan J Stein and Samantha J Brooks

Dear Dr. Brooks,

Peer review of your manuscript (above) is now complete, and we are delighted, in principle, to accept the manuscript for publication in BMC Psychology. However, before acceptance we would be grateful if you could address the editorial requests below:

-----  
Editor's comments :

[http://www.biomedcentral.com/imedia/7815703911467296\\_comment.pdf](http://www.biomedcentral.com/imedia/7815703911467296_comment.pdf)

-----  
\*Editorial requests:

## 1. Post-review copyediting:

We recommend that you copyedit the paper to improve the style of written English. If this is not possible, you may need to use a professional language editing service. For authors who wish to have the language in their manuscript edited by a native-English speaker with scientific expertise, BioMed Central recommends Edanz ([www.edanzediting.com/bmc1](http://www.edanzediting.com/bmc1)). BioMed Central has negotiated a 10% discount to the fee charged to BioMed Central authors by Edanz. Use of an editing service is neither a requirement nor a guarantee of acceptance for publication. For more information, see our FAQ on language editing services at <http://www.biomedcentral.com/authors/authorfaq/editing>.

## 2. MOOSE guidelines

In accordance with BioMed Central editorial policies (<http://www.biomedcentral.com/about/editorialpolicies#StandardsofReporting>), could you please ensure your manuscript reporting adheres to MOOSE guidelines ([www.consort-statement.org/?o=1347](http://www.consort-statement.org/?o=1347)) for reporting meta-analysis observational studies in epidemiology. This is so your methodology can be fully evaluated and utilised. Can you please include a completed MOOSE checklist as an additional file when submitting your revised manuscript.

## 3. Please include all authors emails on title page.

4. Please could you clarify the source of all the images in your manuscript. Please could you clarify whether you produced these yourselves or whether these were adapted from a different source. Please note that it is the responsibility of the author(s) to obtain permission from the copyright holder to reproduce figures or tables that have previously been published elsewhere.

-----  
We would be grateful if you could address the comments in a revised manuscript and provide a cover letter giving a point-by-point response to the concerns.

Please also ensure that your revised manuscript conforms to the journal style ([http://www.biomedcentral.com/info/fora/medicine\\_journals](http://www.biomedcentral.com/info/fora/medicine_journals)). It is important that your files are correctly formatted.

We look forward to receiving your revised manuscript by 31 October 2014. If you imagine that it will take longer to prepare please give us some estimate of when we can expect it.

You should upload your cover letter and revised manuscript through [http://www.biomedcentral.com/manuscript/login/man.asp?txt\\_nav=man&txt\\_man\\_id=1349984441263226](http://www.biomedcentral.com/manuscript/login/man.asp?txt_nav=man&txt_man_id=1349984441263226). You will find more detailed instructions at the base of this email.

Please don't hesitate to contact me if you have any problems or questions regarding your manuscript.

With best wishes,

Mr. Gilbert Tacbobo  
on behalf of Prof. Giuseppe Sartori

Web: <http://www.biomedcentral.com/>

To submit your revised manuscript  
-----

When you have revised your manuscript in light of the reviewer's comments and made any required changes to the format of your paper, please upload the revised version by following these instructions:

1. Go to

[http://www.biomedcentral.com/manuscript/login/man.asp?txt\\_nav=man&txt\\_man\\_id=1349984441263226](http://www.biomedcentral.com/manuscript/login/man.asp?txt_nav=man&txt_man_id=1349984441263226)

and log on with your email address and password.

2. With the 'Manuscript details' tab, please update the title, abstract and author details if they have changed since the previous version. It is very important that all changes are updated on this page, as well as in the manuscript file as the information on this page will be used in PubMed and on BioMed Central if your manuscript is accepted for publication.

3. With the 'Cover letter' tab, please provide a covering letter with a point-by-point description of the changes made.

4. With the 'Upload files' tab, please upload the revised version of the manuscript and press 'Submit new version'. Please wait for the confirmation page to appear - this may take a few moments.
