Least expensive meal:

- Pick least expensive of each
Glacier Salad, Water, and Garlic Button Sirloin \$40.97

Second least expensive meal:

- Change salad, drink, or steak?
Buffalo Chicken, Water, and Garlic Button Sirloin
Glacier Salad, Hot Tea, and Garlic Button Sirloin
Glacier Salad, Water, and House Marinated Ribeye

Third least expensive meal:

- Change salad, drink, or steak?
• Buffalo Chicken, Water, and Garlic Button Sirloin
Chinese Chicken, Water, and Garlic Button Sirloin
Buffalo Chicken, Hot Tea, and Garlic Button Sirloin
Buffalo Chicken, Water, and House Marinated Ribeye
• Glacier Salad, Hot Tea, and Garlic Button Sirloin
Buffalo Chicken, Hot Tea, and Garlic Button Sirloin
Glacier Salad, Hot Choc, and Garlic Button Sirloin
Glacier Salad, Hot Tea, and House Marinated Ribeye
• Glacier Salad, Water, and House Marinated Ribeye
Buffalo Chicken, Water, and House Marinated Ribeye
Glacier Salad, Hot Tea, and House Marinated Ribeye
Glacier Salad, Water, and The Royal New York

RUNTIME

Runtimes are compared to several other methods:

- 1 FastSoftTree has runtime $\in O(n \cdot m + k \cdot m^{0.1})$
- 2 SoftTree has runtime $\in O(n \cdot m + k \cdot m)$
- 3 SortTree has runtime $\in O(n \cdot m + k \log(k) \cdot \log(m) + k \cdot m)$

The theoretical runtime is remarkable because the runtime scales sublinearly in m for more requested items, k .
