# The More Things Change...

by John Shoen

Question: What stays the same the more it changes? Answer: Ursinus College! Since 1952, many traditions have come and gone here at good old U.C., but one thing remains the same — we keep coming back for more.

From alumni donors to alumni faculty, from first generation alumni to third and fourth generation alumni, we return the one special place that we all have in common: Ursinus College.

Take a walk down memory lane, visit (and re-visit) some of those changes that we've gone through and some of the experiences we've shared. Welcome home.

In 1952, a large number of men enrolled at Ursinus because of the Veterans Act and the post war push for higher education. There were so many men that the college housed some of them at a residential summer camp called the Annex (now the Perkiomen Woods Development on Rt. 29) from where they walk ed to class everyday. Women, on the other hand, lived in houses with house mothers until the opening of the Quad in September 1957.

In 1957, the Ursinus Men's Basketball team went to the NCAA Division III championships and finished in third place. Around that time, it was a traditional prank to divert the Main Street traffic through campus drive during the morning rush hour. The women at Ursinus in the 1950's all vied for the position of director of the annual May Day pageant.

With the start of the 60's came even more changes at Ursinus. In the mid-60's, Wismer Hall opened for students to have modern dining

facilities. Reimert Hall was also erected in the mid-60's, and later became the first coed dorm on campus.

In 1972, Ursinus instituted a major change in the alcohol policy, permitting alcohol on campus for the first time.

Also in the early '70s, both Bruce Springsteen and the Hooters played to packed houses here at good old U.C.

Later, in 1977, the tradition of Songfest was born. Greek organizations put on an entertaining review with singing, dancing and fun that became the grandfather of the present day Airband competitions.

Then came the 80's, and with them came coed living in Musser and Reimert Halls. In 1982, students began receiving mid-semester progress reports on all of their classes. The tradition of Harvest Moon also began in 1982, where all the campus men went out during the full moon and dropped their pants in front of the Quad. PacMan was all the rage and students enjoyed a linen service for towels and sheets.

In 1987, kegs were banned and that year's senior class witnessed the falling of the old tree in the end zone of the Ursinus College football

field.

From 1952 until the present day, Ursinus has remained ever-changing and ever-growing; a big school on a tiny campus. Some traditions, like the Lorelei and Homecoming, still exist, while others, like Songfest, evolve into new things. Some traditions die out, but Ursinus still continues in it's reputation for an excellent education and an excellent place to come back to every

## Extra, Extra! Breaking U.C. News From...

by Jesse Federman and Kurt Miller

From school spirit to distilled spirits, one thing has remained consistent at Ursinus College over the past 45 years: Our students care. Whether the issues were trite or traumatic, inter-collegiate or international, Ursinus students were never shy about getting involved...even if it was just to complain about student apathy!

student apathy!
1952 - The '50s seemed to be such an innocent time in the history of Ursinus College. The only object of some controversy was the claim that Ursinus students lacked school spirit. To combat this, the Spirit Group held pep-rallies and a cheerwriting contest. Also notable was the student trip to the Eisenhower press conference. 1957 - This seemed to be the year of the guest speaker. Some speakers who graced the Ursinus campus were: Sasha Siemal, big game hunter; Dr. S.E. Mackey, who delivered the Founder's Day address, and Monsieur Pierre Carlier, who spoke about his experiences in World War II. This was also the year that Cherrie Soper and Ruth Anne Spencer studied abroad in Spain, and kept a tight letter writing campaign, reporting their experiences back to Ursinus. 1962-The campus was extremely

tense due to the situation in

Cuba. Dr. Donald Baker, professor of Greek remarked, "Most of the people in the United States government are insane," and referred to them as "irrational marksmen." In hopes of alleviating some of the nervous energy around campus, Dr. G. Sieber Pancoast of the Political Science Department assured students that the situation would not lead to WWIII.

In lighter news, student Larry Coon was paid a visit from a representative of the Philip Morris Tobacco Co. and was awarded a Motorola console television set for winning the Semester's Cigarette Contest. Coon collected the most empty cigarette cartons, 5,000 of them, far surpassing any of his competitors.

President Helferrich reported a record enrollment of 934 students.
1967-Students were thoroughly dissatisfied with new Wismer Dining Hall facilities. Although they admitted it "keeps Ursinus abreast of the times and has emerged as a student hang-out", they felt it was too "crotchety."

Unlike the old Freeland Hall, Wismer's atmosphere was considered bland and impersonal, and gone were the days of student favorite, Tony, the good-natured cook who often bargained with the kitchen to get students treats

such as ice cream, pretzel sticks,

Tragedy befell Ursinus when Senior Scott Pierce was killed in a fall at Dyer's Quarry near Pottstown while on a cook-out with five other students. The accident consumed the campus and filled local headlines. Pierce had been a popular young man who was active in the Yearbook and in the Pre-Med Society, and who spent his spare time singing in a professional combo and a folk singing group. A scholarship was established in his honor soon after the accident.

Students organized into groups of "Hawks" and "Doves" to provide speakers for and against the war in Vietnam. This was done to combat the campus' supposed "smug complacency" regarding the war. 1977-Wismer complaints continued. Scott Dempsey, director of Food Services. considered a change from traditional family-style dining complete with waitresses and busboys to cafeteria-style dining. In a trial-run of the new format. he noted that the cafeteria seemed quieter and that there was a "marked absence of food fights." He predicted that the plan would require heat lamps to keep food hot and conveyor belts for speedy disposal of trays.

TV Shows: The Cosby Show, 60 Minutes

Fads: Denim jeans, ragged and

THE YEAR IS... 1987

Two men escaped from Graterford Prison and made their way to the nearby town of Trooper. The incident forced the college to assess its security system, as no warning was issued to anyone on campus upon breakout. College officials complained that this was not the first unreported jail break. Judge Ditter presented his dissertation "Let's Kill All the Lawyers". Ursinus sponsored "The Pepsi Challenge", which pitted Coke against Pepsi in a one-on-one taste test; unfortunately, the results were never recorded.

This was also a big year for concerts. Ursinus played host to two very well-known bands that year. Unfortunately, however, The Fabulous Greaseband and the Hooters played to apathetic crowds. 1987- The biggest issue on campus was the decision to ban kegs from campus and to require all parties on campus to be registered.

# The Brief History of Ursinus

The year was 1869. Marie Curie was still a toddler. Westinghouse invented the airbrake. The Northwest Territories were purchased from the Hudson Bay Company for \$1,500,000. The first color photography was done by the Ducos du Haroun. The Suez Canal officially opened and the German Reform Church, now known as the United Church of Christ, founded Ursinus College.

There is a fact that is common knowledge. The Ursinus College was named in honor of Zacharias Ursinus, a sixteenth century German Protestant Theologian. However, there are other facts that very few people know. The history of Ursinus can be traced back 200 years to the construction of a log schoolhouse in Perkiomen Bridge, now known as Collegeville. Ursinus opened its doors in what was formerly a Mennonite founded institution called Freeland Seminary. These are just two facts that are less

There are some dates that should stand out in the history of Ursinus. Eleven of these are: 1869- Ursinus is founded 1870- Collegiate instruction

begins on September 6 1877- First permanent scholarship is founded

1880- Women are admitted 1884- First women graduate 1890- First Ursinus football team

is formed 1891- Olevian is purchased as the first women's dormitory 1893- Robert Patterson gave \$150,000 to Ursinus and ensured Ursinus' survival

1939- "Bump" Landis obtains a Black Bear from the Norristown Zoo, giving Ursinus its first and only living mascot

1989- The Philip and Muriel Berman Museum of Art is completed

1991- F.W. Olin hall is dedicated These are only historical fact about Ursinus. Some present facts are pretty fascinating, too.

Ursinus College is situated on 150 acres of land. The enrollment of the college is 1,200, full-time day students and 1,060, part-time evening students. The male to female ratio is 1 to 1. The ratio of faculty to students is 1 to 11. Eighty-five percent of the faculty members at Ursinus hold the Ph. D. These all show part of the current lifestyle at Ursinus.

All in all Ursinus is an estab-

lished institution. From the start in 1869 to the present many things have changed on the campus. Each of these changes has been made to improve the campus. This is what all other changes will do as well.

# Bears Take on The Bullets by Tony Palladino

This Saturday, Homecoming Saturday, the Bears take on the Bullets of Ghettysburg in Centennial Conference action. Ursinus looks to get back on the winning track after suffering a 33-6 loss at Johns Hopkins University last Saturday. Gettysburg comes into the game after losing a nonconference game to Randolf-Macon. The last time these two teams met, Ursinus prevailed 17-14 on the strength of a fourth quarter comeback and a 43 yard field goal from Mark McGonagle.

#### KEYS TO THE GAME

OFFENSE: Turnovers have plated a big part in Ursinus games this year. In their two victories, Lebanon Valley and Swarthmore, the Bears did not turn the ball over, but they turned the ball over at least once in each defeat. To defeat the Bullets, the Bears will have to show the ball control that they possessed against Swarthmore combined with the quick strike capabilities shown against Lebanon Valley.

DEFENSE: The defense will have to bounce back from their worst performance of the year last week. The Bears' "D" will face a balanced attack from the wing-T of Gettysburg. Ursinus must plug up the run and force the Bullets to get away from the game plan and put the ball in the air. Most importantly, they must show the tenacity they displayed in the first half of the season.

SPECIAL TEAMS: Kicker Mark McGonagle is one field goal short of the Ursinus Career mark. He could be called in to provide the winning points just as he was last year. Kick-off returnman Ron Withelder was close to breaking a return for a touchdown in last week's game. The coverage teams have played well this year and must continue to do so this week.

#### OUTLOOK:

Coach Paul Guenther is looking for his second victory at home and will get it. Playing Gettysburg is incentive enough for the Bears, but add on the fact that it's homecoming, in front of the largest crowd of the season, and the Bullets are in for a long day.

# Queens of the Past by Rebecca Class and Molly Jennings

From the cute saddle shoes of the they crowned queen. 50s to the trendy bell-bottoms of the 70s and the funky-punk of the 80s, there have been a multitude of changes in appearance and style over the last 50 years at Ursinus. However, even amongst these changes, one tradition has remained strong. Homecoming Queen has been a source of much excitement and anticipation on our campus. Homecoming is also a time for many reunions of Ursinus alumni and, of course, this tiggers memories of the women

# **Famous Alumni**

Cynthia Fisher '83

After receiving her B.S. in biology and physics, Fisher earned an M.B.A. from Harvard in 1990 and is founder of Viacord, Inc., a bio technology firm. An active alumna, Fisher has served as a volunteer for Ursinus admissions and annual fund efforts.

Lola S. Reed M. D., '38

Dr. Reed received her M.D. from University of Pennsylvania Medical School in 1942. A retired pediatrician, Reed worked at the Children's Hospital of Philadelphia and later became president of the Phoenixville Medical Staff.

Judith Yaskin, '63

A one-time superior Court
Judge in New Jersey, Yaskin acts
as commissioner of the Department of Environmental Protection After graduating from
Ursinus she continued her studies
at Dickinson School of Law in
1966. Yaskin served as New
Jerseys first Assistant General
and received the American Civil
Liberties Union Civil Libertarian
of the Year Award.

Joan Deacon Aikens, '50

A member of the Ursinus
College Board of Directors, Joan
Aikens presently works for the
Federal Election Commission.
After graduating form Ursinus
College Aikens served as president of the Pennsylvania Council
of Republican Women and the
member of the National Federation of Republican Women. In
1979, Aikens received and
honorary LL.D from Ursinus.

Loretta Podolak Finnegan, '60

Director of the Thomas
Jefferson University Hospital's
Family Center in Philadelphia,
Finnegan recently received the
Medical College of Pennsylvania/
Gimble Award for outstanding
humanitarian achievement in
1989. Finnegan obtained an M.D.
from Hahneman University
School of Medicine and has since
become a world renowned expert
in the field of neonatal addiction.

he recipient of the Ursinus Alumni of the Year Award in 1987, Finnegan spoke at Ursinus' commencement ceremony in 1992.

Linda Grace Hoyer Updike '23

Lynda Hoyer entered Ursinus College at the age of fifteen and met her husband-to-be within the first week of school. After graduation she attended Cornell University and earned her Masters in Literary Criticism. She was accomplished writer; in addition to having two of her novels published, many of her short stories appeared in the New Yorker. Upon her death in 1989, her son John Updike donated her literary and personal papers to Ursinus College.

Murray Silvertstein '50

ilverstein holds an M.D. from Jefferson Medical college and a PH.D. form the University of Minnesota. Working for the Mayo Clinic since 1957, he attained the rank of full professor in 1974 when he became the clinic chair of the division of hematology. Silverstein served in that capacity until 1986.

Herman F. Eilts '43

After graduation from Ursinus Eilts studied international relations at Johns Hopkins University. From 1965 until 1971 he served as ambassador to Saudi Arabia, and in 1973 he became the first American Ambassador to Egypt since 1967. Eilts remains an active alumnus and regular contributor to Ursinus College.

James Scott, '53

Scott acquired an M.S. in mathematics from the University of Delaware and went on to become the director of NASA's Magellan Mission to Venus, based at the California Institute of technology.

James R. Stellar, Ph.D., '72

An associate professor of psychology at Northeastern University, Stellar attained his B.S. in biology from Ursinus in 1972. After completing his Ph.D. in biological psychology at the University of Pennsylvania, in 1976, Stellar taught psychology for one year at the University. In 1985, Stellar received the Outstanding Harvard University Teacher of the Year Award after seven years as an assistant professor of psychology and social relations there.

Joseph DeSimmone, '86

Presently Assistant Professor in Chemistry at the University of North Carolina at Chapel Hill. DeSimone completed his Ph.D ir Polymer Chemistry at Virginia Tech in 1990. At Ursinus, DeSimone earned the American Chemical Society Award in Analytical Chemistry 1985, and the following year was awarded the Thomas Jefferson Prize for Undergraduate Research at Ursinus College in 1986. He won the National Science Foundation Young Investigator Award in 1992 and in 1993. His research and teaching accomplishments were honored by President Clinton with the President Faculty Fellowship. DeSimone serves on the editorial board of the Journal of Applied Polymer Science, the advisory editorial board of Trends in Polymer Science and is referee for other iournals.

Clarence S. Livingood, M.D., '32

Livingood attended University of Pennsylvania Medical School and received a fellowship in dermatology in 1938. Hew was awarded the American Medical Association's Physician Distinguished Service Award in 1990. Honored for his establishment of the field of dermapathology, Livingood has been an official of the American Board of Dermatology since 1963. In addition, he served as physician for the Detroit Tigers for twenty-three years.
