Dr. Fagles Visits Ursinus

by Kim Ingot
of The Grizzly

Dr. Robert Fagles discussed his translation of Homer's *The Odyssey*, last Tuesday in Olin Auditorium. Fagles is a professor in the Comparative Literature Department at Princeton University. Fagles's translation of *The Odyssey* came just seven years after his 1990 translation of *The Iliad*. According to MetroActive Books' web site, Fagles's translation of "*The Odyssey* has emerged as 1997's unlikeliest bestseller, selling an incredible 50,000 copies in hardcover and 9,000 copies in its audiocassette version."

Dr. Fagles's translation of *The Odyssey* was a required reading for the Class of 2001. Dr. Wickersham, Professor of Classics, and one of the organizers of Fagles's visit, stated, "*The Odyssey* was the perfect book for the freshman class for many reasons. The most obvious reason being that the epic poem showed an emergence of a young person from an unpromising, young boy to a socially and emotionally mature man. *The Odyssey* is a model of maturation."

Freshman Karen Rudloff stated, "The whole epic is about a journey. It's about choosing the right path, even though it may be the more difficult one. It's also about surmounting any obstacle that stands in your way." Rudloff, who also came to hear Fagles speak on Tuesday night, said *The Odyssey* was symbolic of the journey that lay ahead for she and her fellow classmates. "We're on this odyssey through life," admitted Rudloff.

Kirsten Mascioli, a freshman who is currently studying Greek, stated, "I liked the way he presented the more well known parts of the epic. The last scene with Odysseus and his wife was actually recited during freshman orientation. It was ironic that both he and the school chose to recite and

Mary Gross

Professor Fagles studied *The Odyssey* for seven years.

discuss the same part of the epic."

Mascioli, who has been interested in Greek mythology and history for many years, feels that Fagles's translation was very easy to read. "Fagles told it (*The Odyssey*) like it was an actual story. It did not read much like a translation, with bits and pieces of missing information, but it read like a story in its original English version." Conversely, Dr. Fagles admitted that the hardest part of doing the translation was to "keep the beat going."

Fagles was delighted to hear that Ursinus decided to use his translation of *The Odyssey* as a reading for the Class of 2001. "I grew up in Bala Cynwd, so I am familiar with Ursinus," stated Fagles. "The only thing I regret is that the book was not available at that time in paperback, so the students would not have to spend so much money."

Regardless of cost Dr. Wickersham admitted, "Fagles's version of *The Odyssey* is absolutely the appropriate translation for this quarter century, because it's colloquial, with just enough elevation and loftiness to make it an epic."

Student Art Exposition Coming Soon

by Carolyn Harfman
of The Grizzly

Picasso. Monet. VanGogh. Could the next great artist be from Ursinus?

If you want to find out come to the Annual Student Art Exhibition in the main gallery of Berman Museum. The exhibit runs from April 28th to May 6th. The opening reception is from 3 p.m. to 6 p.m. on Tuesday, April 28th.

The exhibition will be a combination of media: oils, pastels, water colors, pencil, sculpture, and photography. This year's show has a wide variety of artistic expressions, by both art minors and non-art minors.

The student exhibition has taken place for over 25 years. Dr. Ted Xaras, Art Department Chair, believes that the show encourages the students to see how much they can do. "It pushes them to do more than they ever thought they were capable of. They learn new ways of thinking, visually and spatially. It drives them into developing passions about their work, to get it done to their specifications."

Senior Allyson Smith, psychology major and art minor, is participating in this

year's exhibition. She believes that, "it is a chance to put some of your best work out and it is nice to see what people are capable of, both art minors and non-art minors."

Senior Megan Brown, a non-art minor, feels the same way. She has been pouring herself into the piece she has been working on for the show called "The Inevitable." "It gives the students a chance to enhance their artistic abilities, a chance to show off their work and enrich the campus' cultural aspects," she explained.

Smith also thinks that the art department can be improved upon and that the exhibit will attract more attention from the students and administration. "I think that the department needs to be expanded upon, especially the resources," she said. "More staff, supplies, and room to work in needs to be added. If the school puts more money into it, there would be more interest by the student body."

Leadership Scholarship Reconstructed

by Mark Clymer
of The Grizzly

In the March 31 issue of *The Grizzly*, an opinion piece was written about the discontinuation of Leadership Scholarships. According to Brian Berg, the author, "By cutting scholarship aid . . . the students that the school is supposedly seeking out will be denied the monetary means with which to attend Ursinus." The truth is that the Leadership Scholarship is still in effect. "It is just being handled in a more effective manner," stated Paul Cramer, Senior Associate Director of Admissions for Policy.

In the past, the Leadership Scholarship Program worked as follows. First, students would apply to Ursinus College. If accepted, selected students would come to Ursinus for an interview for the Leadership Scholarship Program. If all went well, those students would then

receive a monetary award in the form of the Leadership Scholarship.

Beginning next year, things will be run a bit differently. According to Cramer, "The College is reinstating the Bomberger Scholarship." Now the students who would usually have to be interviewed for the Leadership Scholarship will receive a scholarship in the form of the Bomberger Scholarship. Then, after these students step foot on campus as Ursinus student, they will be interviewed to possibly become a Leadership Scholar. The students, not their scholarships, make up the Leadership Scholar Program.

As for current Leadership Scholars, they will be "grandfathered." These students will continue to receive a Leadership Scholarship. As for the incoming freshmen, they will be awarded a blanket scholarship in the form of the Bomberger Scholarship.

"The budget will stay the same,"

stated Cramer. When asked of his personal thoughts of this new policy he replied, "This new system should be as strong if not stronger than the previous way things were handled."

"I think that since the amount of money stays the same as well as the criteria, then there should not be such a dispute over it. It's not like they (financial aid) are taking it away. It sounds like the whole process will be easy for the students as well as their parents," stated freshman Tracey Domena.

News Editor

International News

Small business owners are filing taxes under British government but keep shop in France. Many owners say that paying French taxes are squeezing the life out of their businesses; the average small business pays about 50 to 60% per employee in taxes. Although members of the French government say that this practice is illegal, the business owners simply say that the shops are located in France, but the business headquarters are located in England. These owners say that they never regret changing registration from France to England and the money they are saving proves it.

In Israel, an old language is making its way back with a vengeance. Hebrew has become the more popular language in the 50th year of Israel. Meir Shalev, Israel's best selling novelist said, "In the 50th year of Israel, the only thing that is really successful about the state is waking the Hebrew language from the dead." This feeling is felt by most. In Israel, the environment at this point is one where it is felt that Hebrew is the

National News

In Cape Canaveral, Fla., space shuttle Columbia ascended from Earth at 2:19pm carrying seven astronauts and over 2000 insects, rodents, and aquatic life. This latest mission was designed so that NASA could do an in-depth study of the brain and nervous system when gravity is stripped away. The data collected will put NASA in a better position to send astronauts to Mars and establish moon colonies.

CoreStates Financial Corp. has agreed to pay \$1.5 million in back pay and withheld raises to 142 employees. It has been charged that CoreStates paid women and minorities substantially less money than whites and men who performed the same jobs. This injustice was uncovered during a random review by the Labor Department of the bank's hiring and pay schedules. CoreStates' settlement money is triple of that of other companies found doing the same thing because there were more cases of it.

City News

An outlined plan for welfare has come about in the city of Philadel-

phia. This plan is designed to employ 15,000 people and get them off public assistance over the next two years. If approved by the state Department of Public Welfare, this could get underway in the summer. Once that takes place, an aggressive advertising push in the fall will be aimed at potential employers and welfare recipients to get them interested in the program.

A panel for the Fairmount Park Commission feel that sharpshooters are the best solution to control the deer population. This decision has come after many other alternatives such as birth control and relocation of captured deer did not work. Animal-rights activist Priscilla Cohn said, "What the Friends of the Wissachickon want to do is not safe, it is not humane, and it will not work-it will not cut down the number of deer, the deer will just compensate by producing more fawns faster."

Local News

On Friday, the alarm at Limerick Generating Station sounded. Seven members of the Pottstown emergency team, along with many other emergency teams, responded to the alarm. They determined the problem was a gas leak and not associated with the nuclear plant side of the building. Within 15 minutes of the alarm sounding, the problem was dealt with and the alarm was shut off.

Local school bus driver John Paul Drabick was charged with driving under the influence of a controlled substance and possession of a controlled substance with intent to deliver after being involved in a minor traffic accident. Drabick was en route to pick up children from Mother of Divine Providence School when he rear ended a car driven by an off-duty Upper Merion police officer. He was arrested after showing signs of unsteadiness and failing a field sobriety test. He also had 13 packets of heroin in his possession. Drabick has been convicted four times prior for similar offenses.

Intellectual Prejudice Leads to Social Darwinism

by **Ryan Hemphill**
of the Grizzly

Imagine you're at McDonald's and you go up to the counter to order a Big Mac and fries. You've had a long day and as nice as you are, you're also tired and really hungry. So you go up to the register, and you ask Larry for your order. He starts punching buttons, and then you hear this big error message. He stops and goes back to talk to the manager. After a minute of talking, he comes back up and asks for your order again, having forgotten already. "Fine," you say and order your food again.

Larry still can't figure out the machine. Now it's been five minutes, and you're getting annoyed. Larry goes back and finds the manager again. While he's gone you do a little mental exercise, looking over the panel that the befuddled Larry cannot figure out. In less than ten seconds, you think you have it basically understood, and why wouldn't you? It's almost completely in pictures anyway, child's play really. Larry comes back up and stares at the machine with a dumbfounded look on his face. He just doesn't

get it.

"Look," you say, "enough of this! Press 'Big Mac' and 'small fries' and then press 'enter'! What are you? Stupid?"

Congratulations, you have just demonstrated intellectual prejudice. It's funny, but with as many different cultures as exist in this country, I can't think of one that doesn't make fun of stupidity. It seems to be our favorite pastime as human beings. Intellectual prejudice is different from other prejudices, though. It's easy to argue with a person who thinks Jews or blacks are inferior because it's doesn't take very much to prove them wrong. The argument is innately illogical. But what happens when a person says, "He's inferior because he's too stupid to even use a McDonald's register?" That statement is much more difficult to argue with.

We have been interested as a society in the concept of establishing an intelligence quotient (IQ) for a long time. We have things such as the SAT and entrance examinations to determine whether a person is intellectually fit for a certain position. Unfortunately, we can't seem to find a test that everyone agrees on. However, the Stanford-Binet IQ test has been used for many

years, long enough to develop statistics.

One of the books which covers these statistics is *The Bell Curve*. Although discredited by many people for some of its radical views, one point that was made still sticks in my mind. At one point in the book, the author states, "As cognitive ability fell below average, poverty rose even more steeply among the cognitively disadvantaged than

**"Being a dummy
don't make you
money."**

the socioeconomically disadvantaged." In layman's terms, being a dummy don't make you money.

"So what?" you may ask. Well, let's take a look at what kind of repercussions that could have over a long period of time. If people with a high IQ or high intelligence have better luck getting out of the slums than the rest, we have a pooling effect. Slowly but surely, our system is unwittingly concentrating the number of people testing with low IQs in slum districts, especially when you consider what a meritocracy this country has

become. Anyone with the willpower and the brains has the opportunity to get scholarships to go to college. I believe that the government will increase scholarships for the disadvantaged, but not the truly disadvantaged. But those scholarship winners aren't going to graduate from school just so they can return to home sweet slum.

So, now I've established how the intelligence demographics is concentrating the area of low testing IQs (over a long period of time). Let's return to Larry for a moment. Larry loses his job because he can barely figure out the register, and he is unproductive. He ends up on welfare. How many people are incapable of getting a good paying job because someone smarter can do it better? The answer for now is, not too many. This fact will become important in a moment.

One of the complaints of the welfare system is that people who are on welfare are having children when they obviously cannot afford to have them. Many people want to get rid of welfare. I don't think that's likely to happen, but when you think about how specific the complaint is, welfare might include discouragement from having additional children,

maybe even using birth control devices like Norplant. Before you see this statement as outrageous, consider this: everyone has the right to children, but you don't necessarily have the right to welfare.

Now, as I was pointing out, people on welfare may start getting more limitations and controls on how they live their lives. And as I mentioned before, only a few people will be so bad off mentally that they can't get a decent job to pay the bills. So, it won't be a question when they start passing laws to prohibit welfare recipients from having children while on welfare. But technology is evolving. Society is becoming increasingly more complicated. Eventually, there just won't be enough jobs for people who don't have what it mentally takes to compete in the rat race.

Social Darwinism is occurring right under our noses. You don't see it because it's subtle. You don't see it because it doesn't make a difference now. But while we are simply aggravated with Larry now, what happens when we realize he's stuck in more than just the slums? He's heading for a genetic dead end. What are we going to do when it gets to that point?

Voices In The Crowd

by **Maria DeGracia**

Opinions Editor

What do you think of *the Grizzly*?

"Most of the articles I read are interesting and on the ball, but the sports articles are incorrect—the stats."
Laura Libert—Freshman Ursinus Student

"I like it . . . but there's something about it that seems a bit awkward and full of nonsense. I want to hear about the crimes that occur on campus."
Stephanie Sullivan—Sophomore Ursinus Student

"I don't know what I think of it, because I don't read it."
Kristen Griffin—Junior Ursinus Student

"I think it's sad that more people do not take advantage of expressing themselves in the paper. This year especially, people aren't as fired up as in years passed, discussing different news that affects us all amongst the campus."
Amy Brown—Junior Ursinus Student

"It's good. It's something to read at lunch. Everyone gets so excited."
Steve Graham—Junior Ursinus Student

"I like the pictures."
Joe Cusella—Junior Ursinus Student

"The paper comes out once a week?"
Mike Wineburg—Freshman Ursinus Student

"That Karen Hollinger person is such a great journalist."
Brandy Kline—Freshman Ursinus Student

"I miss the sarcasm of the last year, but it's a great paper."
Karen Angelucci—Junior Ursinus Student

"They're better on the sports coverage."
Heather Dromgoole—Senior Ursinus Student

Attention:

The Grizzly is currently looking for responsible and dedicated students to help us put out the best paper possible. If you want to share your time and talent please call Mike Bauer at ext. 3295. Or email Dr. Edwards @Lewards, or Mike Bauer @Mibauer. There are a variety positions available.

Lou's MOVIE REVIEWS

Affection kind of grows on you

by Lou Nemphos

of The Grizzly

The Object of My Affection: You always want what you can't have. The more you want it, the harder it is to get. *The Object of My Affection* digs deep into these questions, but the answers it comes up with barely scratch the surface. If you're expecting a light hearted romantic comedy, look elsewhere. It's not really funny, unless cursing kids and elderly dance instructors wearing eye patches make you laugh, and it's a lot more serious than you'd think.

Jennifer Aniston stars as Nina, a counselor at a community center who's not really sure if her boyfriend, Vince (John Pankow), is the right one for her. She goes to one of her step-sister Constance's (Allison Janney) swank parties and accidentally bumps into George (Paul Rudd). She mistakenly tells him that George's boyfriend (Tim Daly) mentioned George was looking for a new apartment.

That's right, you're eyes aren't playing tricks on you, his boyfriend. George is gay. George and Nina talk for about all of five minutes, and it's settled. He's moving in with her. They become best buds. They take dancing lessons, feed each other ice cream, give each other little pecks on the cheek and playfully touch each other way too much. I heard the scene of them running through a field full of sunflowers was cut out because they didn't want to make the movie too sappy. Vince

gets upset, but, nothing to worry about Vince, they're just friends.

Nina becomes pregnant and she tells George she wants him to raise the baby. He is unsure, but finally decides this platonic relationship of raising a child can work. Can Nina accomplish her ultimate goal? Can she turn George straight? She almost does, until the phone interrupts a hot make out scene. It's George's old boyfriend. He wants to get back together.

The best part of the movie comes near the end when the aging gay theater critic, Rodney Frasier (the superb Nigel Hawthorne), tells Nina "You can't choose who you love," and "Don't fix your life so that you're alone right at the middle of it." This dialogue is so poignant, it makes you realize the rest of the dialogue falls so flat it makes a thud that echoes loudly off the theater floor.

One thing I really liked about the film was how it didn't make a big deal about the gay issue. The characters were real, not over-the-top people wearing boas and talking like Richard Simmons. The film's emotions are genuine, but instead of striking at the heart of the subject matter, the writing stays safely on the outskirts. Do yourself a favor, leave five minutes early to avoid the ridiculous Hollywood ending. Directed by Nicolas Hytner (*The Madness of King George* and *The Crucible*), and hyped as the yuppie version of *Chasing Amy*, *The Object of My Affection* tries hard, but how well it succeeds is another story.

**1/2 (2 & 1/2 stars)

Beatlemania

by Ryan Hemphill

of The Grizzly

On Wednesday, April 23, Ursinus will be taking a trip into the past with the "Beatlemania, Now, Yesterday and Today." The group will be performing hit songs in the classic style of the original group that took the world by storm so many years ago. The group performing this act has been impersonating the Beatles for several years and was noticed by an Ursinus student. Susan Varghese, of RHA stated, "Mark Clymer saw them at Magic Jungle last year and really liked them . . . They sounded and looked like the Beatles, so we decided to make it our big event."

As big as this event is supposed to be, timing may be inappropriate, as the end of the semester nears. Raun Lazier pointed out, "It's not going to be a top priority. I'd like to see it . . . They're a really good group, nationally acclaimed. I like what they've done, how they market themselves."

Although the event is going to be primarily an Ursinus campus event, surrounding towns have been encouraged to come. Varghese, who is helping to set up and advertise the event, explained, "We were hoping to get some outside interest so, we sent out fliers to Trappe and the local shopping centers. All of the Ursinus staff and faculty are also welcome."

The event will be taking place in Wismer Lower Lounge, starting at 8:00 P.M. Admission will be free, and everyone is welcome. primarily an Ursinus campus event,

Lerman.

Taking into account the fact that they put this concert together themselves, however, preparations were sufficient. "We were in a blues band at Ursinus and there was supposed to be a blues concert, but it was cancelled because it was so busy. It took us so long to put this together. We did most of it last night," Petrino said.

If they were to change anything about their impressive performance, they would add more old blues and Phish, extending the show. They definitely want to try it again, hopefully with a bigger crowd.

Ursinus gets the Blues

by Karen Hollinger

of The Grizzly

My feet were tapping and my body wanted to move. I looked around and everyone was moving something to the melodic beat of the Chaotic Blues Inferno. They performed last Thursday at 8:30 p.m. in Wismer Lower Lounge.

Although it was a short performance, only lasting about 30-40 minutes, they were able to fit in many compositions, including the nostalgic and happy "Linus and Lucy," some Thelonious Monk, John Coltrane, an original piece by band member Zach Lerman, and even some Phish. Not everyone would know

that, though, because the band failed to introduce the music.

Each member had his respective solo, proving that they all added a little something to the mix. At one point, Dave Ianucci put down his drum sticks and picked up a guitar to play with Anthony Petrino, who was on piano. Ianucci skillfully stroked the guitar creating a dream-like sound. Mike Pachelli played guitar during the rest of the performance, but due to technical difficulties, he was not heard very well.

The band was very satisfied with the turn out. "We didn't think that many people would come out to see blues," explained

Horoscopes

by Erny Hoke

of The Grizzly

Aries The Ram (3/21-4/19)

This week you tend to be more sympathetic and understanding to those in need. You appreciate beauty and artistic imagination and you might want to try and enjoy some quiet meditation. A secret romance will arise. You can make plans to improve your finances this week, maybe even think about a pay raise.

Taurus The Bull (4/20-5/20)

Entertaining and playing activities with children increase during this week. Romantic, creative, and sexual involvement increases now. Appreciation of art and music is strong, and you may enjoy performing or attending a performance. This tends to be a time of greater emotional sensitivity as unconscious memories are stimulated.

Gemini The Twins (5/21-6/21)

Dealings within partnerships are positive this week. Working with a team of people, this will give you great success. Any creative subject that you are working on will gain recognition. Your own creative talents will find form and expression. You can expect a great deal of support and good will from those around you.

Cancer The Crab (6/22-7/22)

This week you seek harmony in all your relationships and are strongly sensitive to the attitudes and reactions of others. Get away for a while by taking a walk, playing outside or visiting the library. Your energy is high, and the creative juices are flowing. This is an especially positive week for you, and much can be accomplished.

Leo The Lion (7/23-8/22)

There is a basic drive to appreciate life. Your current appreciation for just about everything may lead you to overspend or indulge too much. Be careful not to overextend your energies with group concerns. Your desires are strong while romance is very possible.

Virgo The Virgin (8/23-9/22)

This is a good week to relax. Work on scheduling rest and relaxation into each day. This will help you bring your energies into balance and lessen the possibility of physical problems later. Learning how to relax and clear your thoughts through art or music will really help your peace of mind.

Libra The Scales (9/23-10/23)

By chatting with friends this week you may come up with a clear-minded insight into your own plans. You will also find this a good week for decision making. There could

be some tension or opposition this week that requires compromise or negotiation. Social involvement with friends is great this week. Movies, books, and all forms of escape could prove enjoyable.

Scorpio The Scorpion (10/24-11/22)

You are in a great mood and don't seem to mind if you have to enjoy this time by yourself this week. If you decide to do some shopping, be careful you don't overspend or indulge too much. You may also find yourself enjoying a long talk, writing a letter, or making a special phone call. You can demonstrate a great understanding and sensitivity to the needs of others now. You will find social plans to be successful.

Sagittarius The Archer (11/23-12/21)

You love sharing your time, whether at work or play, with others. You are in a good position to communicate concerning groups and society in general. In contests, you will be successful. A friend may drop by this week and you can enjoy some in-depth conversations.

Capricorn The Goat (12/22-1/19)

This is the week for family and a renewal of relationships. Be careful that your impulses do not encourage you to purchase large items beyond your income means. Your impulses may be strong due to an overly confident attitude. Friendly and outgoing ways call for social activity this week.

Aquarius The Water-Bearer (1/20-2/18)

A very lucky week for making plans and finding your way through just about any problem you may discover. Unexpected expenses could occur this week. Avoid overreacting to argumentative loved ones, be the voice of reason. Some of your dreams can really come true and you will want to be ready. Companionship with others is most rewarding and you should take every opportunity to be with friends.

Pisces The Fish (2/19-3/20)

Budgeting your time and money may be a step in the right direction. This is a time where the desire for material success and considerable monetary gain is great. A relationship grows through change. Explore new opportunities. Good conversation and a relaxed, friendly atmosphere promotes good relationships.

UC Women's Lacrosse Team Defeats Two Big Conference Competitors

by Jacqueline Colvin

Sports Editor

The UC women's lacrosse team earned major victories over two Centennial Conference competitors this week. On Tuesday, April 14, the Bears gained a win over Washington College, 14-9.

Despite the bad weather conditions, the Ursinus lacrosse team came together with a victory over the Shorewomen. UC was ahead for the duration of the game, yet Washington never gave up the fight.

The Bears came out big in the first half, with a score of 6-3.

In the second half, the Bears were ahead 9-4 at one point, then Washington came back to end the game 14-9.

Junior defender Jamie Eissler said, "We didn't come out with our normal level of intensity, and I felt like something was missing. It was a rough game, with the messy weather, but we pulled through as a team with a big conference win."

On Thursday, the Bears competed against Division II opponent West Chester University. The Bears came out strong to start the game. With 17 minutes remaining in the first half, UC was ahead 4-2. Then West Chester came back to tie it up, 6-6.

At the end of the game the score was WCU 14 and UC 9.

Although Ursinus lost to West Chester, the loss did not hurt the Bears' chance for the NCAA and ECAC playoffs. This is due to the fact that West Chester is a Division II program.

Next, the Bears defeated Centennial Conference rival, Dickinson College, 16-5 on Saturday, April 18.

The UC lacrosse team forcefully beat Dickinson, starting from the first few minutes of the game.

Although the game was not one of the Bears' best performances, their overall skill dominated the Red Devils.

Sophomore attack-wing, Ashley Claus said, "We started the game off playing very sloppy, but by the end of the game we cleaned everything up. We finished the game smoothly, having a running clock, and beating Dickinson by over 10 goals."

Senior first-home Kristine Algeo had a tremendous game, scoring big for the Bears. Algeo supplied entertainment to the crowd with her excellent performance scoring three goals within seven minutes. Algeo ended the game by scoring a total of five goals and adding three assists to her statistics.

The Bears continue play on Wednesday at home against Haverford.

U. C. Football Offseason Update:

Brindise to Be Made Newest Coach of Quarterbacks

Noah Brindise, who started six games at quarterback for the University of Florida Gators last season, including a win over Penn State in the Citrus Bowl, has signed a letter of agreement to become the quarterbacks coach at Ursinus College, head coach Paul Guenther announced.

Brindise, a walk on, teamed with Doug Johnson to alternate at quarterback last season in coach Steve Spurrier's Fun-n-Gun offense. Guenther says Brindise will be a positive influence on the Bears offense this fall.

Ursinus, who had the second lowest offensive output in the Conference last season, is looking for a significant improvement, especially in the passing game. Last year, Ursinus quarterbacks completed only 43% of their passes and threw 20 interceptions in 10 games while finishing fourth in passing offense in the conference with 159.2 yards per game.

Brindise has been a part of a championship team on the college level. He was a member of the 1996 Florida Gators team that spanked Florida State in the Orange Bowl on the way to a national championship.

Hopefully he can help restore Ursinus to championship form. After going undefeated in conference play and earning a trip to the NCAA Division III playoffs in 1996, the Bears suffered through a lackluster 4-6 campaign in 1997.

Unprecedented Day for Ursinus Tennis

For the first time this season, both the men's and women's tennis teams won matches on the sameday.

The women, who defeated Centennial Conference foe Bryn Mawr yesterday, won for the first time in 1998. However, the victory was by no means an easy one as the Bears edged their opponents 5-4.

The Bears were powered by a strong showing in doubles play. Ursinus swept the doubles matches with Laura Hiergesell and Jen Rickards teaming to win 9-8 at number one.

Twins Meghann and Shannon Kissel won the second doubles match, 8-3, while Kate Weinrich and Jen Alessandrini won the third doubles, 8-6.

Rickards also won the second singles match, 6-2, 6-2, and Alessandrini won the fifth singles, 6-2, 6-3.

The men had a little more breathing room in their victory yesterday,

defeating Moravian 5-2 in a non-conference matchup. The win was the third of the year for the Ursinus men.

Scott Hoffman and Wagdy Okaily won their doubles match, 8-3, while Joe Ruggiero and Dan Jones posted an 8-6 win in another doubles contest.

Hoffman, Josh Hartle, and Nirav Pandya also won singles matches on the day for the Bears.

Both the men's and the women's teams rebounded well after tough losses to conference opponent Gettysburg on Saturday April 18.

In a home match, the Ursinus men were smoked 7-0 by the Bullets.

The women, who played at Gettysburg, were also sent home without winning a single match on Saturday. They were the victims of a 9-0 drubbing.

Both the men and women face Muhlenberg on Wednesday.

Myers Named Lax Player of the Week

Ursinus senior Missy Myers was named the Centennial Conference Women's Lacrosse Player of the Week for the period ending May 19.

Myers scored 11 goals, including five in a 13-9 loss to West Chester on April 16, and three in a 16-5 win over Dickinson on April 18. Myers also added four assists against West Chester and three against Dickinson.

In other Centennial news, Bears senior Kris Algeo leads the conference in scoring with 28 goals and 18 assists for 46 points in conference play. Algeo is tied for fourth overall with 36 goals and 24 assists for 60 points.

Myers and Algeo, senior co-captains of the Bears, have lead Ursinus to a 6-2 record thus far in conference play and to an overall mark of 6-5-1.

Ursinus Softball: Hopes for a Fourth Straight Title Fading Fast

by Stephanie Restine

of the Grizzly

The Ursinus Softball team has dropped five of its last eight games, including four straight losses to crush any realistic shot at another conference title.

Ursinus split a doubleheader against Gettysburg on April 11 (3-2, 1-8) and swept Swarthmore on the 14th (2-1, 5-3). The winning tables were turned on the 16th, as UC was defeated in a doubleheader against non-conference rival, CNJ. The losing continued on Saturday as the Bears dropped a pair of conference games at Western Maryland.

The first game of the Gettysburg twinbill was a lengthy outing. Gettysburg tied the score at two in the fourth. The teams remained tied until freshman Kelly Meyer scored for Ursinus in the tenth inning to win the game in dramatic fashion for the Bears.

Driving in the winning run with a sacrifice fly was sophomore Lisa Newmaster, who pitched a complete game for Ursinus (11H, 2BB, 2K).

In the second game against the Bullets, Ursinus did not prove to be quite as infallible, going down 8-1 with only 3 hits and 5 runners left on base.

Ursinus almost replicated the first Gettysburg game against Swarthmore on the 14th. The

Bears tied the game at one in the fifth, and the score remained that way until the top of the ninth.

Sophomore Cara Johnson reached on a fielder's choice, and freshman Jody Smith doubled to drive in the winning run. Once again the winning pitcher, Newmaster, had a key performance in the 9th inning game.

The Bears took the second game of the Swarthmore series with a score of 5-3. Junior Kristi Ford was the winning pitcher, while the offense was led by senior Kim Reese (2 for 3, 1R, 1RBI, 2 singles.)

Ursinus did not fare nearly as well against the College of New Jersey, which is ranked 5th in the Longstreth Division III Team Poll. The Grizzlies dropped both games by the respective scores of 5-0 and 11-1.

The knife through the heart came on Saturday, April 18, for the Bears when they were swept in a double header at Western Maryland.

The Bears failed to hold a three run lead in losing the first game 7-4. The Bears opened up the game with a 2-0 lead in the second inning after Christine Moran doubled home Reese. Moran scored on an error later in the inning.

Kelley Meyer, who went 2-for-4, singled and scored on Jody Smith's triple in the third to put Ursinus up 3-0.

Western Maryland tied the game at three in the fourth before Ursinus regained a 4-3 advantage in the fifth. Erdosy singled, went to third on a Meyer double, and scored on a ground out by Newmaster.

The lead was short lived as Julie Backoff drilled a two-run homer in the bottom half of the inning to put the Green Terror up for good.

Jacie Mathias added a two-run shot of her own in the sixth inning to give Western Maryland some unnecessary insurance.

The Bears never recovered as Western Maryland jumped out to a four run lead in the first inning of the second game. They powered their 11-3 win with a total of twelve hits.

Meyer and Reese were both 2-for-3 for Ursinus, and Newmaster added a two-run double.

Despite the loss, a host of
(cont'd on p.12)

Bonus Coverage: Baseball Drops Key Series to Hopkins, Remains in 2nd Place in Conference

The Johns Hopkins Blue Jays took a strangle hold on the Centennial Conference baseball title with a double header sweep of Ursinus yesterday in Baltimore.

The Blue Jays won the opener, 6-3, but needed eight innings to post a 6-5 win in the night cap.

Ursinus was held to four singles in the opener. The Bears did hold a short-lived 1-0 lead in the first inning, but Hopkins went up for good, 2-1, in the bottom half of the inning.

Ursinus held leads of 3-1 and 4-

2 in the second game, but needed an RBI groundout from Ben Mills to tie the game in the seventh.

Mike Romello was 2-for-4 with two runs scored in the second game, while Mills was 2-for-4 with three RBI's.

The Bears, who entered the day trailing Hopkins by a game in the conference standings, now trail by three games heading into the home stretch of the season.

The losses dropped Ursinus' conference record to 10-4, and their overall mark to 20-10.

UC Baseball: Weekly Round-up

Erny Hoke of The Grizzly

(stats as of Saturday, April 18)

With two victories over Franklin and Marshall (5-7, 8-19) this week and a Johns Hopkins (11-1, 25-2) loss to Dickinson (8-4, 13-9), Ursinus (10-2, 20-8) took sole possession of second place and trails Hopkins by only one game in the Centennial Conference.

The Bears took on F&M on Tuesday in Lancaster, PA. Senior pitcher Brian Creelman received the win on the mound, pitching a no hitter through six innings. At the plate, sophomore Craig Jones hit a homerun in the 10-3 victory.

The Diplomats of F&M then arrived at Ursinus on Friday for another Conference ball game. The Bears won this one 11-1 in seven innings behind the pitching of sophomore Kyle Goldwater. Goldwater let up only one run on seven hits, but was helped out by his teammates with a strong offensive output.

The Bears exploded for four homeruns on the day, solo shots by senior Dirk Cleveland and juniors Dave Pierce and Donny Asper. Pierce also cracked a grand slam homerun in the fifth inning.

After seven full innings rain began to fall. With the lead, Ursinus sent a new team to take the field, including freshman Drew Hershner to the mound in relief. After facing four batters, the skies unloaded and the umpires decided to call for a

rain delay.

After waiting about fifteen minutes, the rain stopped, but the field was not in good enough condition to continue. The umpires called it a game.

The top two teams in the Conference, Ursinus and Johns Hopkins, were set to meet in Baltimore on Saturday for a decisive double-header. Due to an extensive amount of rain at Hopkins, the game was postponed to Sunday. Sunday proved to be no better, pushing the game back to Monday.

In conference news, many of the Bears are still making the charts in numerous categories. Once again, junior Andy Hawkins was named to the Conference Honor roll last week. Hawkins went 7-for-14 with a homerun, four RBI's, and scored six runs. His two-run homerun was a game-winning shot against Washington.

Hawkins remains atop the Overall Hitting Average with .513. He's also in the hunt for RBI's, doubles, and stolen bases.

For the second week, three other Bears joined Hawkins in the Overall Hitting category: Ben Mills (.439), Dirk Cleveland (0.358), and Jeff de Simone (0.350). Dave Pierce is also still listed in the homerun and RBI categories.

In pitching statistics, Nate Smiley (5-1) and John Hollinger (2-0) are listed for Overall Pitching. Smiley is ranked with Kyle Goldwater (3-1) for victories, while Brian Creelman joins Smiley in K's per 9 innings.

A Picture of Perseverance

Members of the Women's Tennis Team who picked up their first win of the year in a match against Bryn Mawr on Monday.

(softball, cont'd from p.11)

Ursinus players remained well established in the conference polls as of April 17. Reese is tenth in RBI's with 19, and junior Shannon Kendzior is tied for fourth in triples with 3. Meyer is third in overall pitching (8GP, 37.6IP, 9ER, 1.67ERA), while Ford is fifteenth (13GP, 59.6IP, 38ER, 4.46ERA).

At the completion of the week, Ursinus managed to hang on to fourth place in the conference with a 7-3 conference record.

Sophomore Lisa Newmaster of the Ursinus Softball team was recognized this past week with the honor of Centennial Player of the Week. After missing eight games recovering from a concussion, Newmaster came back strong with conference victories against Washington, Gettysburg, and Swarthmore. As of April 13, she was ranked sixth in overall pitching with an ERA of 2.45, second in victories, and first in strikeouts. Newmaster's win-loss record stands at 7-3 for the season.

Newmaster commented, "After a disappointing previous week, we really pulled together as a team. I was surprised to be recognized with this award. My teammates deserve just as much credit for playing with such hard work and dedication."

Ursinus Track Fares Well Against Tough Competition

Cory Braiterman of the Grizzly

At the Widener Invitational against mostly Division I and II competition, that small Division III school from Collegeville, PA fared pretty well.

Andrea Lister continued her dominance in her events, capturing a 2nd in the high jump with her highest leap in competition this year at 5'2". She also came in 3rd in the 100 meter hurdles at :16.08 and 7th in the triple jump with a 32'8.75" leap. Angie Caine pulled a 7th place finish with a 30'11" throw in the shot put.

On the men's side, Anthony O'Hara hurled the javelin 186'4" for a 2nd place finish, Yori Adegunwa came in 4th in the 400 meter hurdles at :56.62 and Barry Keppard came in 5th in the 3,000 meter steeplechase with a run of 10:15.67.

Some of the competition that Ursinus faced included division I schools Villanova University and Lasalle University and division II West Chester.

They continue to battle with higher divisions on Saturday at the Millersville Invitational.

THE SCOREBOARD

(for the week of April 14-20)

Women's Lacrosse:

Ursinus 14, Washington 9
West Chester 15, Ursinus 9
Ursinus 16, Dickinson 5

Baseball:

Ursinus 10, F&M 3
Ursinus 11, F&M 1
