Gibbs, son of Mrs. Evelyn Gibbs of Murray, and Nat Gibbs of Mayfield, on Saturday afternoon, May 24, at one thirty o'clock. The double ring ceremony was read by the Rev. Curtis L. Nicely, Baptist minister of Benton, at his home.

The only attendants were Miss Mary Louise Nicely of Benton and James K. Petersen of Murray. The bride was attired for her wedding in a Carley suit of white linen with black accessories and a corsage of red roses. Miss Nicely wore a frock of printed jersey with lavender accessories.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. It should stimulate digestion, give digestion a tonic, thus help build resistance for the "time" to come.
2. Started 3 days before your period, it should help relieve pain due to irregular functional periodic cases.

Try Cardui. If it helps, you'll be glad you did.

HEAD SAYS FARM MAKES NO PROFIT ON POULTRY IN '47

Prof. A. Carman Outlines Reason For Low Return

"There has been no profit in poultry for the college farm since 1945," stated Prof. A. Carman, head of the agriculture department, in an interview Tuesday, May 20. "Poultry prices are low compared with other farm prices," he added.

The 1,400 baby chicks bought by the farm were received in three shipments. One hundred seventy-five of the first shipment, which were 11 weeks old last week, have been sold. Those sold averaged three pounds each. Two hundred more, which will also average about three pounds, will be sold Saturday.

"Losses this year have been less than losses last year due to better care given them," Professor Carman said.

Five hundred pullets have been placed on the range. Of these 400 will be picked and placed in the laying house for winter egg production about August 1. Some of the chickens will be used in the feeding of the college students.

Dairying In Kentucky Is \$70,000,000 Industry; June Set As Dairy Month

June, to be known as 1947 Dairy Month, finds dairying a fast-growing industry in Kentucky, says a statement issued by the dairy division of the University of Kentucky College of Agriculture and Home Economics.

Value of dairying in Kentucky now is placed at about \$70,000,000 a year, which means it is the second-largest farm enterprise, being exceeded only by tobacco.

Dairying is being practiced in some form on 95 per cent of the farms of Kentucky, it is stated. Approximately 600,000 cows are milked. Sales of whole milk total nearly \$25,000,000 a year, and cream over \$10,000,000. Farmers sell about \$500,000 worth of butter, and about \$8,000,000 worth of milk at retail.

Veal calves and cows for beef add to the income of the industry.

There has been a marked increase in the sale of whole milk in Kentucky in recent years, due to the increase in the number of

cheese factories, condensaries and other milk plants.

The college lists artificial breeding as one of the latest boons to dairying in Kentucky. Owners of 2,074 herds in 16 counties have signed up 20,023 cows for artificial breeding. Eighteen bulls are kept at the bull stud near St. Matthews.

Through dairy herd improvement associations, more cows than ever before are being tested in the state, it is reported. Nearly 6,000 cows now are on test.

The direction for canning English peas have been revised after three years of testing by home economists in the U. S. Department of Agriculture.

Here are the revised directions: Shell and wash peas. Grade according to size and maturity. Cover with boiling water and bring to boil. Pack hot peas to within one inch of top of hot sterilized jars. Cover with the water in which peas were heated. Add half teaspoon salt to pint jars and one teaspoon to quart. Adjust jar lids. Process in pressure canner at 10 pounds pressure for 40 minutes for both pints and quarts.

One bushel of peas in the pod will produce 42-45 pints canned.

For either canning or freezing, English peas should be freshly picked, young and tender. Always sort out both the immature and tough ones.

To prepare peas for freezing dip about one pound of washed and sorted peas into a large kettle of boiling water. Let boil one minute. Remove from boiling water and chill with iced water or running cold water. Drain and pour into freezing package. Wipe moisture from inside edges of bag. Press out air. Heat-seal with a warm iron. Freeze as soon as possible.

Ex-Service Men's News
92,215 VETS GET G.I. LOANS IN THREE STATES
World War II veterans in Ohio, Michigan and Kentucky have negotiated 92,215 home, farm and business loans totaling \$497,872,254 under the loan guaranty provisions of the G. I. Bill, according to the Veterans Administration tri-state Branch Office in Columbus (O). VA has guaranteed \$236,133,300 of the total.
The totals, by states, are: Ohio, 48,228 loans for \$270,851,397; Michigan, 34,968 loans for \$182,103,828; Kentucky, 9,319 loans for \$44,827,029.
Under terms of the G. I. Bill, VA is authorized to guarantee 50 percent of a loan up to \$2,000 on a non-real estate loan and up to \$4,000 on a real estate loan. The actual loans are made by lending institutions and not by VA.

VETERAN ENROLLMENT HITS ALL-TIME HIGH
The number of World War II veterans taking educational and job-training courses in Ohio, Michigan and Kentucky reached an all-time high of 311,912 on May 1, officials at the Veterans Administration tri-state Branch Office in Columbus (O) reported today.
The total includes veterans enrolled under provisions of the G. I. Bill and also disabled veterans under terms of Public Law 16 (Vocational Rehabilitation Act). The total was more than three and one-half times greater than the figure a year ago, when 84,272 veterans were participating in educational and job-training programs in the three states.
A total of 42,586 veterans were enrolled in Kentucky, including 30,986 in schools and 11,600 in job-training. The total enrollment a year ago was 9,675.
MANY BLIND VETERANS HOLD FULL-TIME JOBS
More than half of the 126 blind veterans of World War II in Ohio, Michigan and Kentucky either are working or in training for employment, it was reported today by Ralph H. Stone, Deputy Administrator for the VA's tri-state Branch Office in Columbus, Ohio.

The Bridge That "Couldn't Be Built" Has a Birthday

They said it couldn't be done, but in celebrating its tenth birthday last Tuesday, the Golden Gate Bridge silenced the last of the skeptics. The doubters said the Gate could never be spanned; that if it could, the bridge would cost \$112,000,000 and then it would fall down; and finally that traffic across it wouldn't even pay its maintenance cost.
Actually . . . it cost less than \$35,000,000; it stands a solid guardian over the Golden Gate; nearly 20,000 automobiles cross it daily; and it doesn't cost the counties that underwrote it a dollar in tax money.
The bridge, with the longest single span in the world, 4,300 feet, links Mexico with Canada along the Pacific Coast and unites San Francisco with the other counties in Northern California.

OUR PLEDGE . . . To be forever mindful of our patron's welfare. To strive for perfection in every detail . . . To let neither wealth, poverty, creed nor position in life influence the full degree of sympathetic understanding and service extended by us.

Student veterans enrolled under the G. I. Bill who plan to transfer to another out-of-state school at the end of this term should make certain their future G. BREDS CONCLUDE SPRING PRACTICE AT MURRAY STATE

Coach Jim Moore Expects Freshmen To Join Squad

Following the 6-0 victory of Murray State over Union University's football team in a spring practice game April 25 at Cutchin stadium, the thoroughbreds of the gridiron have hung up their cleated shoes until next September. The season, one which saw the team win five games and lose five and reach a climax by beating Western 55-6, was a successful one.

"In addition to the boys from this year's squad, I will have seven or eight freshmen including Junior Rodgers and Tom Covington members of the '45 team," Jim Moore, head football coach, stated. "From these boys I should be able to select the much needed tackles and a halfback." Rodgers has already been released from the Army and Covington expects to be discharged sometime in August.

In regard to the method to be used for team attack next year Coach Moore declared, "I have been contemplating using the 'T' formation." Moore will need a number of experienced boys for this formation and they will have to be good.

The members of the squad will attend the coaching school to be held here May 29, 30, 31. They will assist in the demonstrations which will be under the supervision of Don Faurot, coach of the university of Missouri football team.
