

NETRC REGIONAL CONFERENCE: “INTEGRATING TELEHEALTH”

ANDREW SOLOMON

Sept. 23+24
Burlington, VT

The Northeast Telehealth Resource Center (NETRC) invites participation in the second annual NETRC conference, "Integrating Telehealth in an Evolving Landscape" to be held September 23-24, 2015 in Burlington, Vermont. This fall, stakeholders from across an eight-state region will gather to learn about telehealth best practice and innovation, network with colleagues, and identify opportunities to advance their telehealth programs.

The NETRC is one of fourteen telehealth resource centers funded through the Office of Rural Health Policy's Office for Advancement of Telehealth. Free, individualized technical assistance, education, and other resources are available to increase access to quality health care services for rural and medically underserved populations through telehealth. NETRC's service area includes New England, New Jersey, and New York, but calls are accepted no matter where you are located. To learn more, please visit: www.netrc.org/conference.
