ERRATUM

Open Access

Erratum: Does the revised cardiac risk index predict cardiac complications following elective lung resection?

Mahmoud Abdelaziz¹, Andrea Marshall², Amy Kerr¹, Khalid Hussain¹, Robin Wotton¹, Ehab Bishay¹, Maninder Kalkat¹, Pala Rajesh¹, Richard Steyn¹ and Babu Naidu^{1,3*}

After publication of this work [1], it was noted that Mahmoud Abdelaziz and Khalid Hussain had been inadvertently omitted from the author list. The list of authors has now been updated and the order amended. The Authors' Contributions and Competing Interests section have been modified accordingly.

Competing interests

The authors declare that they have no competing interests.

Authors' contributions

MA and AK were involved in study design, data collection and drafted first manuscript. KH was involved in data collection. AM carried out the statistical analysis. RW was involved in draft revisions and manuscript preparation for publication. EB and MK participated in both study design and data collection. RS participated in data analysis. PR involved in drafting first manuscript. BN conceived the study, before co-writing initial draft and approving all subsequent versions. All authors read and approved the final manuscript.

Submit your next manuscript to BioMed Central and take full advantage of:

- Convenient online submission
- Thorough peer review
- No space constraints or color figure charges
- Immediate publication on acceptance
- Inclusion in PubMed, CAS, Scopus and Google Scholar
- Research which is freely available for redistribution
