2015 #OEGLOBAL

UC3M - Some facts and figures

- Relatively new University: *As old as the Web (25)*
- 3 campus: Getafe, Leganés and Colmenarejo
- 3 academic and research centres:
 - Faculty of Humanities, Communication and Library Science
 - Faculty of Law and Social Sciences
 - School of Engineering
- 1,900 faculty members
- 700 people on administrative staff
- 18,000 students (undergraduate and graduate)

Some thoughts on peer review

UC3M-OCW Project <http://ocw.uc3m.es>

Autor: Universidad Carlos III de Madrid - Oficina OCW

La Universidad Carlos III de Madrid promueve la difusión en abierto de material de apoyo a la formación, incentivando la participación de su profesorado en dicha iniciativa. Por ello, la UC3M se adhiere al proyecto del Instituto Tecnológico de Massachusetts (MIT), que ha generado la agrupación de universidades de alto prestigio internacional en torno al Consorcio OpenCourseWare. La misión de esta acción es promocionar la educación y potenciar el conocimiento de manera abierta y sin restricciones.

La red de universidades iberoamericanas, Universta, se ha comprometido con estos objetivos.

- Launched in 2006
- Currently 221 courses (Engineering, Humanities, Law and Social Sciences)
- Quality Group formed in 2010
- Peer review system set up in 2013

221 CURSOS
PUBLICADOS

Acceso libre a una gran variedad de cursos en CC-Salud y Jurídica, Humanidades e Ingeniería

Disponible por Campus, Titulación o Tipo de Contenido (OER)

Quality Group

Areas represented

Objectives

- Veil for quality of courses and impact on OCW-UC3M site
- Determine organizational criteria and content structure
- Foster promotion OCW courses and relationship with degree programs

Quality Control

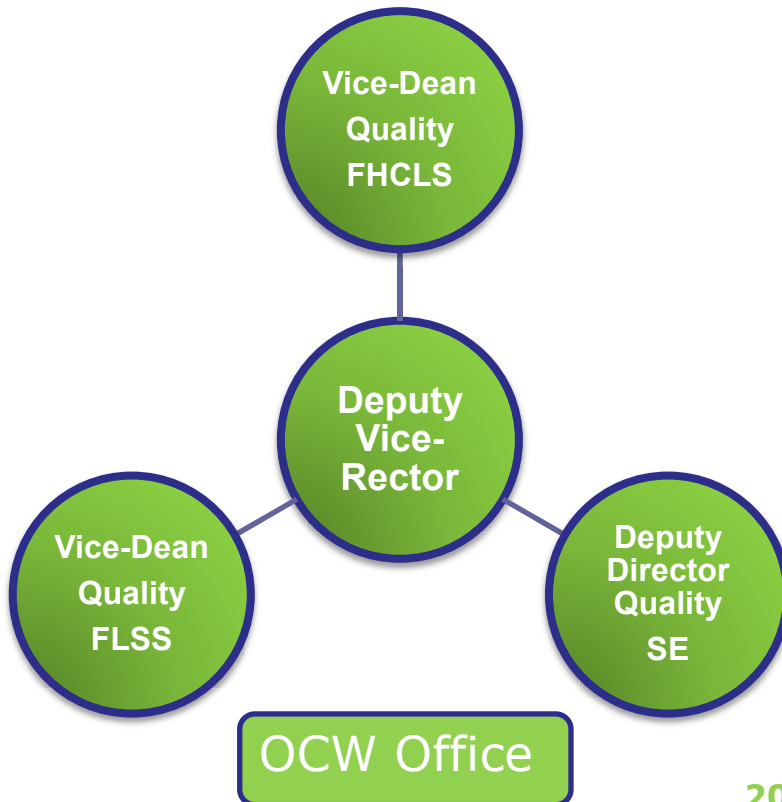

- **Questionnaire** 
 - Technical aspects (OCW Office)
 - Pedagogical aspects (Quality Group)
- **Survey**  response from 10 universities
 - ✓ Technical review general practice (10)
 - ✓ Pedagogical review less common (4)

Review Committee

Members

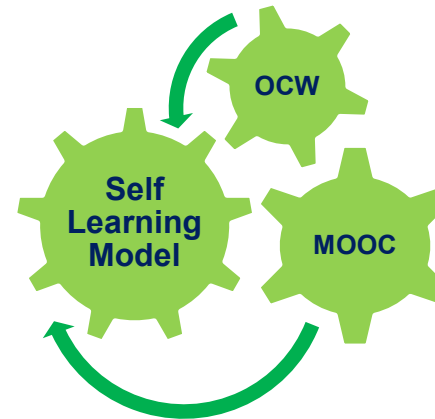

Objective

Implement validation process of new OCW courses to determine whether they meet sufficient quality criteria to be published on OCW site

Assessment process

- Design rubric (10 items, scale 0-2/3)
- Trial run (2 courses per member)
- Conclusions:
 - ✓ Set up peer review system
 - ✓ Compensate for lack of teacher's presence
 - ✓ Foster self-learning model
 - ✓ Draw up OCW pedagogical model guidelines

A peer review system

Tasks:

- Decide on technical platform (Moodle)
- Enlist faculty as reviewers (OCW awardees)
- Set up review process (blind)
- Allocate reviewers to courses (random)

Our peer review process (round 1)

- 30 courses from 2013 CFP
- 15 reviewers
- 4 courses per reviewer
- 2 stages (November 2013 & February 2014)
- 2 meetings Review Committee to study results
- 3 new reviews (3rd time round)
- 70% minimum rubric grade for publication

Results of peer review process (2013 CFP)

| Nº Courses | Resulting Grades |
|-------------------------------|------------------|
| 2 | 40% - 49% |
| 6 | 50% - 59% |
| 4 | 60% - 69% |
| 11 | 70% - 79% |
| 4 | 80% - 89% |
| 3 | 90% - 100% |
| Total courses reviewed | 30 |
| Nº courses published | 18 |

- ✓ Review Committee drew up recommendations for rejected courses
- ✓ Approved by Quality Group and VR
- ✓ Further work carried out by teachers
- ✓ 3 more courses published
- ✓ Total of 21 published courses (2013 CFP)

Improvements to the peer review process

- More refined version of rubric required:

- ✓ Criteria: redefine each criteria (10)

- ✓ Scale: change to 1-3/5

- ✓ Rubric: design new version

The 10 rubric criteria

| | Criteria | Definition |
|-----|--|---|
| 1. | Balance in the general distribution of course materials | Balance in the distribution of the study and practice materials and they have to complement each other. |
| 2. | Number and variety of study materials | Each module of the course must have study materials in different formats (videos, guides, lessons, summaries, PPT presentations,) |
| 3. | Number and variety of practice materials | Each module of the course must have practice materials in different formats with a feedback mechanism |
| 4. | Self-assessment tests | Each module of the course must have self- assessment tests with solutions in interactive online format for instant feedback. |
| 5. | Self-learning format | Must foster self-learning, study materials should cover the full syllabus, practice materials must provide feedback mechanisms. |
| 6. | Number and suitability of bibliographic sources and information resources | The course has to provide bibliographic sources and online information resources that they are relevant and up to date. |
| 7. | Accessibility of supplementary materials | Supplementary materials have to be provided in open access format, software programs must be open source. |
| 8. | Adequacy of the didactic proposal | The course contents must coincide with the didactic proposal. |
| 9. | Coherence of the didactic proposal | The course contents have to be interrelated and should be coherent with the course structure. |
| 10. | Clarity of the didactic proposal | The didactic proposal should be clear and the course propose innovative and interesting methodological and didactic practices. |

The peer review process (round 2)

- 19 courses from 2014 CFP
- 1 stage (February 2015)
- 13 reviewers
- 2 or 3 courses per reviewer
- 1 meeting Review Committee to study results
- 8 new reviews (third time round)

Image Source: Pixabay
<http://pixabay.com/en/quality-control-quality-control-571147/>
CCO Public Domain

Findings peer review process (round 2)

- Course grades:
Majority (10) between 60% and 69%
- Test new version rubric:
Highlights excellent courses
Lowers grade of good courses
- Minimum course grade for publication:
Dropped to 60%

Comparison course grades 2013 and 2014 CFPs

Results of peer review process (2014 CFP)

| Nº Courses | Resulting Grades |
|-------------------------------|------------------|
| 1 | 40% - 49% |
| 2 | 50% - 59% |
| 10 | 60% - 69% |
| 5 | 70% - 79% |
| 1 | 80% - 89% |
| 0 | 90% - 100% |
| Total courses reviewed | 19 |
| Nº courses published | 14 |

- ✓ 16 courses qualified
- ✓ 14 published
- ✓ 2 in standby
- ✓ 3 pending improvements
- ✓ Deadline 31 december 2015

Conclusions (I)

- **Positive results** first experience
- **Technical support system** (Moodle) is suitable for peer review: anonymity and grading by rubric.
- Response from potential **reviewers** was satisfactory.
- Optimum **number of courses** per reviewer is two.
- **Teachers** have been receptive to new **quality** assessment system.

Conclusions (II)

- OCW courses should adhere to a coherent **pedagogical design** that will foster **self-learning**.
- This **model** requires a greater **workload** on behalf of our **professors**.
- **New materials** prepared ad hoc can be used in **on-campus** teaching or **e-learning courses**.
- The '**Guide for the OCW Pedagogical Model**' is considered a useful resource by faculty.

Conclusions (III)

- **Rubrics** are an important tool for peer evaluation.
- **Criteria** and **scales** must be clearly defined and several **iterations** of the model may be necessary.
- Publication of the rubric prior to submitting a course puts teachers in a '**quality mode**'.
- **Peer review** is a valid model for evaluating **OERs**.
- More so for **OCWs** which compares to submitting a paper for a journal or conference.
