Volume 75, Number 4
October 1979

Bulletin of the University of Rhode Island
(USPS 077-740). Published four times a
year in April, August, September and
October by the University of Rhode
Island, Kingston, Rhode Island 02881.
Second-class postage paid at Wakefield,
Rhode Island 02880.

The University

The University of Rhode Island, a land-grant institution founded in 1892, is located on 1200 acres in the village of Kingston, 30 miles south of Providence and six miles from the ocean. In 1971 it became one of the first four sea grant colleges in the United States. The full-time faculty numbers about 800, and there are about 2200 graduate and 8800 undergraduate students enrolled. Approximately 900 graduate students are in full-time residence.

The University is made up of eight colleges and three schools: the Colleges of Arts and Sciences, Business Administration, Engineering, Human Science and Services, Nursing, Pharmacy, and Resource Development, University College, the Graduate School, the Graduate Library School and the Graduate School of Oceanography.

The Division of University Extension in Providence enrolls about 3000 students. The Master of Arts in English, the Master of Business Administration, and the Master of Public Administration degrees may be earned in the Division of University Extension as well as on the main campus.

The 2300-acre W. Alton Jones Campus, where environmental education, research and conference facilities are located, is 20 miles from Kingston in West Greenwich.

The Graduate School of Oceanography is located on the 165-acre Narragansett Bay Campus, six miles from Kingston on the west shore of Narragansett Bay within easy reach of both bay and

open ocean. Major buildings include the Charles J. Fish Laboratory, the Claiborne Pell Marine Science Library, the Francis H. Horn Research Laboratory, the Norman D. Watkins building, a research aquarium, and a number of smaller laboratory and research facilities. The campus also includes the state of Rhode Island's nuclear reactor and federal laboratories devoted to the marine sciences.

The University of Rhode Island prohibits discrimination on the basis of race, sex, religion, age, color, creed, national origin or handicap in the recruitment, admission or treatment of students, the recruitment, hiring or treatment of faculty and staff, and the operation of its activities and programs, as specified by State and Federal laws, including Title VI and VII of the Civil Rights Act of 1964 as amended, Title IX of the 1972 Education Amendments to the Higher Education Act, Executive Order 11246, as amended, and Section 504 of the Rehabilitation Act of 1973. Inquiries concerning compliance with anti-discrimination laws should be addressed to the Affirmative Action Officer, University of Rhode Island. Questions regarding provisions for the handicapped should be directed to the Committee to Meet the Needs of the Handicapped.

Accreditation

The accrediting agencies which have approved the quality of the course offerings of the University of Rhode Island include the American Association of Universities, the American Assembly of Collegiate Schools of Business, the American Chemical Society, the American Council on Pharmaceutical Education, the American Library Association, the Engineers Council for Professional Development, the New England Association of Colleges and Secondary Schools, and the State University of New York.

The University is also an approved member institution of the American Association of University Women, the Council of Graduate Schools in the United States, the National Association of Schools of Music, the National Association of Summer Sessions, and the National University Extension Association. The Doctor of Philosophy programs in clinical and school psychology are accredited by the American Psychological Association.

Graduate Study

Graduate study at the University was inaugurated in 1907 with the Master of Science degrees in chemistry and in engineering. The Master of Arts degree was first awarded in 1951 and in 1960 the University awarded its first Doctor of Philosophy degree. Graduate work for professional degrees

was initiated in 1962 when the degree of Master of Public Administration was first awarded. Today, the master's degree is offered in over 60 areas of study and the doctorate in 24 areas.

The Dean of the Graduate School has primary responsibility for administering the policies and procedures relating to advanced study at the University of Rhode Island. Graduate School policy is made by the Graduate Faculty, acting through its delegate body, the Graduate Council which includes student members. Only the Dean or the Graduate Council may grant exceptions to the regulations for graduate study, which are explained in detail in the *Graduate School Manual*.

Graduate Degree Programs

The University offers the programs of study listed below. Work in a combination of special areas is usually possible.

Master of Arts

Economics Education

- Educational Research
- Elementary Education
- Guidance and Counseling
- Reading Education
- Science Education
- Secondary Education
- Youth and Adult Education

English

French

Geography

History

Marine Affairs

Philosophy

Political Science

- International Relations

Sociology

Spanish

Speech Pathology and Audiology

Master of Science

Accounting

Animal Pathology

Animal Science

Biochemistry

Biophysics

Botany

Business Education

Chemical Engineering

Chemistry

Child Development and Family Relations

Civil and Environmental Engineering

Computer Science

Electrical Engineering

Environmental Health Sciences

Experimental Statistics

Food and Nutritional Science

Food and Resource Chemistry

Geology

Home Economics Education

Industrial Engineering

Mathematics

Mechanical Engineering and Applied

- Mechanics

Medicinal Chemistry

Microbiology

Nursing

Ocean Engineering

Oceanography

Pharmacognosy

Pharmacology and Toxicology

Pharmacy

Pharmacy Administration

Physical Education (men and women)

Physics

Plant and Soil Science

Plant Pathology-Entomology

Psychology (school)

Resource Economics

Speech Pathology and Audiology

Textiles, Clothing and Related Art

Zoology

Doctor of Philosophy

Biological Sciences

- Animal Pathology

- Biochemistry

- Biophysics

- Botany

- Food and Resource Chemistry

- Microbiology

- Plant Pathology

- Zoology

Chemical Engineering

Chemistry

Civil and Environmental Engineering

Economics - Marine Resources

Electrical Engineering

- Biomedical Engineering

English

Psychology

Professional Degrees

Master of Business Administration (M.B.A.)

Master of Community Planning (M.C.P.)

Master of Library Science (M.L.S.)
 Master of Marine Affairs (M.M.A.)
 Master of Music (M.M.)
 Master of Public Administration (M.P.A.)

In addition, two graduate certificate programs are available to supplement specific master's degrees. The graduate certificates, which are not degrees, are awarded by the Dean of the Graduate School to attest to a specific, supplemental competence in Commercial Fisheries (see Marine Affairs, p. 32) or in International Development Studies (see International Studies, p. 31).

Research

Active research programs are carried on throughout the University and are supported by foundations, commercial firms, the United States government and the University. Specialized research is carried on in the several areas described below.

The Coordinator of Research signs applications for research grants on behalf of the University, maintains files of funding agencies, keeps a current facilities inventory, and in general acts as a liaison officer for the President, the Vice President for Academic Affairs, the academic deans, the Research Committee and the faculty in matters pertaining to the general research policy.

Agricultural Experiment Station. Established in 1888, the Agricultural Experiment Station within the College of Resource Development is concerned with basic and applied investigation in natural and human resources. This research aims at conserving and managing resources, at improving the quality of environments, at abating pollution and recycling waste materials, at enhancing rural environments, at developing more rewarding home life, and at supporting resource-using industry and business in the region.

Research is conducted in food and resource chemistry, resource economics, plant and soil science, plant pathology and entomology, forest and wildlife management, animal science, and animal pathology. A strong orientation to estuarine and marine problems and an interdisciplinary approach to resource research are station characteristics. The progress of research is reported and complete results of individual projects are issued in station bulletins. All are available to Rhode Island residents upon request.

Bureau of Government Research. The bureau is the research, consulting and training arm of the University in the field of public administration, specializing in state and local government. Organized in 1960, it provides consulting services in the areas of general organization and management,

budgeting and finance management systems, position classifications, pay plans and purchasing, and other administrative systems. It publishes monographs and related reference works in addition to informational pamphlets and research reports, as well as a bi-monthly newsletter. The bureau maintains a reference library in public administration and provides an information service to government officials.

It assists in the administration and operation of the University's graduate program in public administration and supervises an internship program for graduate students in public affairs. It has a working relationship with a number of University departments related to state and local problems. The bureau administers and conducts seminars and in-service training programs for state and local government officials.

Center for Energy Study. The Energy Center at the University of Rhode Island was established in 1977. Its purpose is to bring together and expand energy-related research at the University and to support the energy activities of state agencies, commercial establishments and individual citizens of Rhode Island. It offers technical advice and a number of educational programs on the subject of energy conservation.

Curriculum Research and Development Center. Founded in 1969, the Curriculum Research and Development Center conducts sponsored research in the broad field of education. While specializing in curriculum evaluation and development at the elementary and secondary level, its staff also engages in basic research in a variety of areas including learning, measurement and human services. There are specialists in research methodology, science education, bilingual, bicultural, adult and career education, survey and census methods, educational program administration and testing.

The Curriculum Research and Development Center is an integral part of the Department of Education in the College of Human Science and Services and maintains close liaison with the Rhode Island Department of Education.

Division of Engineering Research and Development. The division was established in 1942 to coordinate the research activities of the College of Engineering. It disseminates the results of basic or fundamental investigations; conducts fundamental and applied research projects; provides opportunities for graduate students and highly qualified undergraduates to participate in research studies; and offers opportunities for members of the engineering faculty, through research, to keep abreast of advances in the profession. Facilities are available for research in the fields of chemical, civil, electrical, industrial, mechanical, materials, nuclear, environmental and ocean engineering.

Laboratories for Scientific Criminal Investigation. These laboratories in the Department of Pharmacology and Toxicology of the College of Pharmacy provide instruction, research, and service in the field of scientific criminal investigation. The laboratory staff works closely with the Rhode Island Attorney General's Office and also provides technical consultation for various law enforcement agencies, and special instruction and research in criminalistics, in which faculty members of various departments participate. The program sponsors a special course for police and law enforcement agencies.

Marine Research Programs. A number of marine research programs are carried on at the University and are coordinated under the Provost for Marine Affairs. These include basic and applied research in the several areas of physical, chemical, geological and biological oceanography within the Graduate School of Oceanography as well as areas within the Colleges of Arts and Sciences, Engineering, Pharmacy and Resource Development.

The Sea Grant College Program, started in 1968 with funds from the Sea Grant College and Program Act of 1968, encompasses specialized marine research, education and public service projects in many departments of the University.

The purpose of the *Division of Marine Resources* is to develop, package, and deliver information, technology and research results which can be used by the marine community of the state, region and nation. It conducts specialized applied research investigations in cooperation with various departments throughout the University. The division consists of the Marine Advisory Service, the Coastal Resources Center, the National Sea Grant Depository and the Regional Coastal Information Center. The *Marine Advisory Service* provides field specialists and information to the marine community of the state and region under the public service responsibility of the URI Sea Grant Program. The *Coastal Resources Center* offers technical assistance in the form of studies and surveys aimed at solving marine and coastal management problems. Since its establishment in 1971, it has served as a primary resource to the state's Coastal Resources Management Council. The *National Sea Grant Depository*, housed in the Claiborne Pell Marine Science Library, was established in 1971 to ensure that materials published under Sea Grant auspices would be available at a single location. The NSGD publishes an annual computer-produced index, makes available loan copies of documents and conducts literature searches. The *Regional Coastal Information Center* was established in 1977 to provide coastal and marine information and data to planners, managers, legislators, decision-makers and researchers. It is sponsored by the National Oceanic and Atmospheric Administration.

With the support of the U.S. Agency for Interna-

tional Development, the University founded the *International Center for Marine Resource Development* in 1969 specifically to help other countries solve their marine resource problems through education, research, and extension programs. ICMRD offers faculty and selected graduate students opportunities to participate in its overseas programs, thereby gaining experience in their fields of interests and furthering the University's international outreach.

The *Center for Ocean Managements Studies (COMS)* was established in 1976 to promote effective coastal and ocean management by providing a forum for interdisciplinary research, communication, and education on ocean management issues. The center identifies ocean management issues, holds workshops and conferences to discuss these issues, and develops recommendations and research programs to resolve them.

Research Center in Business and Economics. The research activities of the College of Business Administration are centered in this organization established in 1965. The center initiates, conducts, and services research activities of the faculty in the fields of accounting, business education and office administration, business law, economics, finance, insurance, management science, marketing management, organizational management and industrial relations, and production and operations management. The center publishes *The New England Journal of Business & Economics*, whose main focus is upon the business and economics issues which directly or indirectly concern New England.

Rhode Island Water Resources Center. This is the state center for research and training in all phases of water resources. Similar centers in each of the 50 states and Guam, Puerto Rico, the Virgin Islands and the District of Columbia were established by law in 1964 and work cooperatively with the federal government in an effort "to assist in assuring the nation at all times of a supply of water sufficient in quantity and quality to meet the requirements of its expanding population." Principal investigators of projects need not be employed at the University.

The University Libraries. The University's library collection of over 650,000 volumes is housed in the University Library, the Division of University Extension Library in Providence, and the Claiborne Pell Marine Science Library on the Narragansett Bay Campus.

The University library, which holds the bulk of the collection, is a four-story, air-conditioned building where open stacks provide direct access to books, periodicals, documents, maps, microforms and audiovisual materials. The Special Collections Department collects and maintains

rare books, manuscripts, the University archives and a variety of special interest materials. Service hours at the other libraries vary, but the University Library provides full reference, bibliographic and circulation services during most of the 90 hours per week it is open. Coin operated copiers are available for reproducing pages from books and journals, and for producing copy from microform, subject to the provisions of the copyright law. A computer-based bibliographic system makes most books available to users one week after their receipt.

The Pell Library contains a wide collection of books and periodicals on the marine sciences and reports of major oceanographic expeditions, making it one of the most complete marine science libraries on the east coast. It has been designated the National Sea Grant Depository. The building also houses a remote computer console linked with the Academic Computer Center.

Research Resources

The Academic Computer Center has an Itel AS/5 computer with 3072K of high speed storage, disk storage units, magnetic tape, card, and printer input/output devices, and an on-line plotter. The system's hardware and software accommodate both remote batch and interactive terminal usage with graphics support as well as normal batch processing. An intermediate-speed remote batch terminal is installed at the Narragansett Bay Campus. The Department of Electrical Engineering has a Data General Eclipse and two PDP-9 computers with a graphics display console linked to the Academic Computer Center's system. Various types of typewriter and display terminals for interactive use or remote job entry are located on the campus in most of the science and engineering departments as well as the College of Business Administration, the College of Pharmacy, the University Library, the Graduate School of Oceanography, and the Academic Computer Center. Off-campus installations include the Division of University Extension and various high schools in the state.

The staff develops and maintains programming systems and application programs, conducts short courses and workshops, and provides programming assistance for the University community. Faculty members of the Department of Computer Science and Experimental Statistics consult on numerical methods, statistical analysis, and computational techniques.

A Nova 4/S computer with a 16 channel A to D converter, Versatec printer-plotter and a hard disk system are located in the Department of Ocean Engineering. It has a microprocessor interface and a magnetic tape input/output system.

Other equipment includes major laboratories for

digital pattern recognition and digital image processing, computer automation ("robotics"), optical properties of materials and micro-electronics, and materials research including ultra-high pressure and high pressure temperature equipment that permits study of solid state under pressure of up to 80 kilobars and temperatures up to 2000°C, a mechanical properties testing facility, a field station for radio-propagation research, reverberant and anechoic rooms for airborne acoustics work, a low speed wind tunnel for fluid mechanics studies, instrumentation including atomic absorption, emission, infra-red, mass, nuclear magnetic resonance (H-1, C-13), Raman, X-ray diffraction/fluorescence and ultraviolet spectrometers, gas and liquid chromatographs, gas chromatograph-mass spectrograph, electron microscopes, scanning electron microscopes, metallographs, nuclear counting equipment and multichannel analyzers.

Equipment available for marine research includes chambers for leak testing equipment prior to deep-sea use, triaxial test chambers for soil and sediment testing, X-ray radiographs, a rotating basin for studying basic problems on oceanographic hydrodynamics, a gamma-ray core scanner, an instrumented habitat located in Narragansett Bay to monitor ocean data, an underwater acoustics test facility, a marine experimental aquarium, and a marine ecosystem research laboratory.

The University's research vessel, *Endeavor*, operated by the Graduate School of Oceanography, is a 177-foot ship capable of working in all parts of the world's oceans. It can carry a scientific party of 14. The *R.V. Brown*, a 65-foot coastal engineering research vessel, and the *Dulcinea*, a 40-foot dragger are part of the permanent fleet. A number of smaller vessels are also available.

Students of the University have a research reactor and associated facilities available to them at the Rhode Island Nuclear Science Center, located on the Narragansett Bay Campus. Constructed and operated by the State of Rhode Island, this critical reactor is extensively used for research by many departments of the University. The reactor, designed for 5MW is now operating at 2MW. Hot laboratories, counting equipment and multichannel analyzers are also available. In addition, a sub-critical reactor is located in the nuclear laboratory in the Department of Chemical Engineering.

Graduate Life

The main campus of the University of Rhode Island is located in the quiet historic village of Kingston. Cultural variety and compact size are combined in the state of Rhode Island, and other cultural centers are easily accessible. Boston is 80 miles to the north and New York City 160 miles southwest. Direct bus service to these cities, as

well as to Providence, Newport and Cape Cod, is available from the campus. There is also a local bus service. The Kingston station of Amtrak is two miles away.

Services. The recreational and cultural facilities of the campus are open to graduate students and include use of the Memorial Union building. Facilities there include meeting and conference rooms, lounges, browsing room, study rooms, dark rooms, student video center, radio station, campus newspapers, games room, offices for student organizations, student technical services, craft center, cafeteria, snack bar, restaurant, pub, private dining rooms, ballroom and party room. Services include a full service bank, travel agency, unisex hair salon, credit union and a center where copying facilities and typewriters are available. Student cooperatives under the direction of the Student Senate include a record shop, photography lab, housing directory, book exchange and a student hostel. There are substantial facilities for commuting students.

Every effort is made to provide graduate students with opportunities for consultation and advice on matters of concern to them in their academic, extracurricular and personal lives. Descriptions of available services and facilities, including those associated with religious life, may be found in the *Undergraduate Bulletin*. Of particular interest to graduate students are the following: Career Planning and Placement, 70 Lower College Road; Counseling Center, Roosevelt Hall; Health Services, Potter Building; International Student Affairs, Taft Hall; Religious Counselors, Memorial Union and Catholic Center; Student Financial Aid Office, Roosevelt Hall.

Services for the Disadvantaged or Handicapped. The Dean of the Graduate School, the Director of Career Planning and Placement, the Director of Counseling, and the Director of the (undergraduate) Special Program for Talent Development cooperate to provide information and guidance for economically and socially disadvantaged individuals seeking opportunities for graduate study at the University. Inquiries may be directed to any of these offices.

Special counseling for physically, psychologically, or vocationally handicapped individuals is available from the Counseling Center.

Graduate Student Association. This organization is interested in both the academic and social aspects of graduate life. Officers and representatives of the association are elected annually from the entire graduate student body and the association is represented on the Graduate Council. The association has a column in the student newspaper, *The Good 5¢ Cigar*.

There are also organizations for spouses of

graduate students and for students from foreign countries.

Housing. The Graduate Village and several older buildings provide 140 units of unfurnished apartments for graduate students. There is a waiting list for these; interested students should write to the University Housing Office for applications and for additional information. The majority of off-campus housing, located in nearby resort areas, is available only on a seasonal basis, from September to June. Since most of these rentals are five miles or more from campus, people without cars should also investigate the availability of public transportation. A local bus service connects the shopping and service areas in Wakefield with the University from 8 a.m. to 6 p.m. Some of the outlying resort areas, including Narragansett Pier, Scarborough and Galilee are also included in the bus routes.

Housing information may be obtained from the University Housing Office and from advertisements in the *Narragansett Times*, a weekly local newspaper. In addition to providing information and applications for University housing, the Housing Office maintains a list of off-campus rooms, apartments and houses available to graduate students. Maps, bus schedules, rental booklets and a graduate roommate file are also available.

Housing arrangements should be made as early as possible. The Housing Office, located in the Roger Williams Complex, is open Monday through Friday from 8:30 a.m. to 4:30 p.m. (telephone 401-792-2687).

Dining Services. Dining services are available for graduate students and their guests at any of the University dining halls. The Ram's Den in the Memorial Union provides additional services. At present, resident students have a choice of a 15-meal per week (Monday through Friday) contract at \$443.00, or a 20-meal per week (Monday through Sunday) plan at \$521.00 per semester. Weekly and monthly rates for commuters as well as guest rates and other information may be obtained from the Dining Services Office, Lippitt Hall.

Army ROTC. A two-year program has been designed to fill the needs of graduate students who have not taken Army ROTC during their undergraduate years. The United States Army offers the opportunity to earn commissions as second lieutenants after two years of on-campus ROTC training. The student attends a six-week basic summer camp and completes the advanced ROTC course while attending graduate school.

Academic and Social Codes. Each student is a member of the University community with all the rights, privileges and responsibilities that go with such membership. The rights and privileges in-

clude full use of the educational opportunities and facilities offered on the campus. The responsibilities include those of making proper use of these facilities in order to progress educationally, respecting the rights of others, and knowing and obeying the rules and regulations developed by the University community for the good of the total membership.

The University expects that all course papers, theses and dissertations will be prepared, and all examinations taken, in conformance with accepted standards of academic integrity. This includes the proper citation and attribution of all material which is not the original product of the writer. It is the graduate student's responsibility to determine the appropriate style used in his or her discipline for presentation of material derived from other sources and to adhere to it scrupulously in all written presentations. Where no special disciplinary style exists, that given in Kate L. Turabian's *A Manual for Writers of Term Papers, Theses, and Dissertations*, published by the University of Chicago Press, should be used.

University Ombudsman. The ombudsman investigates complaints from students, faculty and administrative personnel that they have been unfairly dealt with in the normal channels of administrative process. An opportunity is thus provided for a personal appeal to an impartial official with broad perspective who has ready access at all levels to those involved in a grievance. The ombudsman is always available to receive complaints, inquire into the matters involved and mediate or otherwise resolve the problem. However, the ombudsman does not become involved with the normal operations of established procedures as outlined in the *Graduate Student Manual*, except where they are not functioning as intended.

The ombudsman, Dr. Karen A. Schroeder, maintains an office in Room 220, Quinn Hall. The student assistant to the ombudsman is located in room 111 in the Memorial Union.

Confidentiality of Student Records

Procedures for the release and disclosure of student records maintained by the University are in large measure governed by state and federal laws. Where the law is silent, the University is guided by the principle that the privacy of an individual is of great weight and that as much information in a student's files as possible should be disclosed to the student upon request. A current or former student has the right to inspect or review official records, files and data directly related to him or her. This right does not extend to applicants, those denied admission to the University or those who were offered admission but did not enroll.

Some records not available to students are: letters of recommendation obtained or prepared before January 1, 1975; letters of recommendation which the student has waived his or her right to inspect; employment records of students as University employees; clinical, medical, counseling, or psychiatric records; parents' financial aid records; and campus law enforcement records.

A student may challenge the factual and objective elements of the content of student records, but not the qualitative and subjective elements of grading. If the student objects to certain items included in his or her personal records, a grievance procedure has been established. Ultimately, a Hearing Board on Student Confidential Records could render a decision.

Third parties do not have access to personally identifiable records or information pertaining to students without the written consent of students who specify the records to be released. Federal law requires that parents be considered third parties.

Detailed guidelines for the release and disclosure of information from student records are available from the Office of Student Relations and Research in the Memorial Union. They comply with the legal requirements of the Family Educational Rights and Privacy Act of 1974.

Notice of Change

Rules, regulations, dates, tuition, fees, the availability and titles of programs and areas of specialization, their administrative location, and courses set forth in this catalog are subject to change without notice. Where a change in program requirements is made while a graduate student is currently enrolled, the student may elect to complete the program under the requirements in effect at the time of matriculation, or to shift entirely to the new requirements, but may not choose parts of each set. As a result of the ongoing reviews of all graduate programs, certain offerings may be deleted or restructured between editions of the *Graduate School Bulletin*.

Degree Requirements

Each advanced degree awarded by the University requires as a minimum the successful completion of a specified number of approved credits of graduate study at the University and the passing of prescribed examinations. Credit hours for a master's or doctoral degree may include formal course work, independent study, research, preparation of a thesis or dissertation, and such other scholarly activities as are approved by the candidate's program committee and the Dean of the Graduate School.

It is the student's responsibility to know the calendar, regulations and pertinent procedures of the Graduate School and to meet its standards and requirements. These are set forth in this bulletin, the *Graduate Student Manual*, the *Statement on Thesis Preparation*, and other publications, all of which are available to graduate students at the Graduate School Office.

These documents govern both master's and doctoral degree programs. The manual gives detailed information on responsibilities of major professors and program committees, examination procedures, preparation of theses and dissertations, academic standards, and the Graduate Student Academic Appeals System.

The requirements immediately following are general requirements for all graduate students. Specific requirements for individual programs are itemized in the section on Graduate Programs.

Program of Studies

All degree candidates are required to prepare a program of studies with the guidance of their major professors (for master's degree programs) or of their program committees (for doctoral programs) in accordance with the guidelines in the *Graduate Student Manual*. After the program has been approved by the major professor for master's degree candidates or program committee for doctoral candidates as specified in the manual, the program of studies is to be submitted for approval to the Dean of the Graduate School.

The purpose of the program of studies is to ensure that students, at an early stage in their graduate study, organize coherent, individualized plans for their course work and research activities. It is expected that the successful completion of the students' programs of studies along with collateral readings, research, etc., will enable them to demonstrate that they have achieved the high level of competence required of graduate students in their respective fields.

Course Numbering System

All regular graduate courses are numbered at the 500 and 600 levels. 900-level courses are special types of graduate courses for which no graduate program credit is given. Courses numbered at the 400 level are for advanced undergraduates, but may, with approval and to a limited extent, be accepted toward meeting degree requirements at the master's level. For doctoral candidates who have completed the master's degree in the same field or one closely related, all program work must be at the 500 or 600 level.

Scholastic Standing

Graduate work is evaluated by letter grades. All grades earned will remain on the student's record and, unless the courses were approved for no program credit prior to registration, will be included in calculating the student's scholastic average. Only grades of A and B carry graduate credit for courses below the 500 level. In 500- and 600-level graduate courses only grades of A, B and C will be credited toward the degree.

A grade of C or lower in courses numbered below the 500 level is considered a failing grade. In such cases of failure the course must either be repeated, if it is a required course, or else replaced by an other course approved by the candidate's program committee and the Dean of the Graduate School. When students receive more than one C in courses below the 500 level, their graduate status is subject to review by the Dean of the Graduate School.

Grades of D and F are failing grades in 500- and 600-level courses and require immediate review of the student's status. Courses failed at this level must be repeated, if they are required courses, or else replaced by another course approved by the candidate's program committee and the Dean of the Graduate School.

The grades S (satisfactory) and U (unsatisfactory) will be used for courses of study involving research undertaken for the thesis or dissertation and for certain courses and seminars so designated. The letter I (incomplete) is used for excused unfinished work. Incomplete grades assigned to graduate students may be removed within one calendar year by completion of the required work. If the grade of I (incomplete) is not removed within one calendar year, it will remain on the transcript but may not be used for program credit. Grades of S, U and I are not included in the academic average.

For graduation an average of B (3.0 on a 4.0 scale) in all work is required, except for courses meeting entrance deficiencies or approved for no program credit prior to registration in the course. At any time when the academic record indicates unsatisfactory performance, the student's status is subject to review. A student who fails to maintain satisfactory scholarship or to make acceptable progress towards the degree will be terminated as a graduate student.

Master's Degree Requirements

There are no major or minor area requirements for the master's degree. However, no degree can be awarded for the accumulation of credits without a planned program of study. Courses for the degree are expected to be concentrated in the candidate's field of interest and related areas to produce a well-developed and coherent program which will meet his or her special objectives.

Requirements for the master's degree must be completed within a period of four calendar years, or seven calendar years with special permission of the department and the Dean of the Graduate School if the study is done on a part-time basis. The master's degree may be earned either through full- or part-time study or by a combination of the two. Candidates must take at least 80 percent of the credits required for the degree at the University of Rhode Island.

Some departments offer both a thesis and a non-thesis option while others offer only one plan. Please refer to the chapter on Graduate Programs for specific information on each program. The general requirements for these options are as follows.

Thesis Option. The minimum requirements for a master's degree are: (1) The successful completion

of 30 credits, including 6 thesis research credits. (2) At the discretion of the department, the passing of written comprehensive examinations toward the end of the course work. (3) The submission of an acceptable thesis and the passing of an oral examination in defense of the thesis. Four copies of the thesis prepared in accordance with Graduate School requirements must be submitted to the Graduate School Office. A statement on preparation of theses is available from that office.

Non-Thesis Option. Depending upon departmental requirements, some master's degrees may be earned without a thesis. The minimum requirements for a non-thesis master's degree program are: (1) The successful completion of a minimum of 30 credits. (2) Registration in advanced seminars, practicums, internships, or other experiences useful to the student's future professional career. (3) Registration in one course which requires a substantial paper involving significant independent study. (4) The passing of a written comprehensive examination toward the end of the course work. Some departments may also require a final oral examination.

Language. Although a language is not normally required for the master's degree, a student's major professor or thesis committee may require proficiency in a foreign language where appropriate for the subject chosen.

Professional Degree Requirements

Students should refer to the specific program requirements for professional degrees and consult with the appropriate dean or director.

Doctor of Philosophy Degree Requirements

The Doctor of Philosophy degree must be completed within seven years of the date when the student is first enrolled as a candidate.

The requirements for the doctor's degree are: (1) The completion of a minimum of 72 credit hours of graduate study beyond the baccalaureate degree, of which a minimum of 42 credit hours must be taken at the University of Rhode Island. (2) Satisfying the residence requirement that the student must maintain full-time residence for at least two consecutive semesters while acquiring the last 42 credits for the degree, but prior to taking the doctoral comprehensive examinations. Residence is interpreted as full-time attendance (9 credits or more) on campus or in the Division of University Extension during a regularly scheduled semester.

Full-time registration for both terms of a summer session counts as one semester of residence. With the exception of graduate assistants, instructors, research assistants or equivalent, no candidate for the doctorate may count part-time study toward satisfying this residence requirement unless a specific request for an exception, outlining the reasons and alternate method of satisfying the requirement, is approved by the candidate's doctoral committee and submitted together with the candidate's program of studies for the approval of the Dean of the Graduate School. (3) If required by the department, proficiency in one or more foreign languages and/or in an approved research tool. (4) The passing of a qualifying examination. (5) The passing of a comprehensive examination. (6) The completion of a satisfactory dissertation. (7) The passing of a final oral examination in defense of the dissertation. The department in which the student studies for the doctor's degree may or may not require a master's degree preliminary to, or as a part of, the regular course of study.

Qualifying Examination. This examination is intended to assess a student's potential to perform satisfactorily at the doctoral level, and is not a review of courses taken. A student without a master's degree who is accepted as a doctoral candidate is expected to take a qualifying examination, usually after 24-30 credits of course work have been completed. A student who holds a master's degree in the same or a closely related field is normally not required to take the examination. If an examination is to be required, it will be stipulated in the letter of admission.

Comprehensive Examination. Each doctoral candidate shall take comprehensive examinations at or near, but not later than 12 months after, completion of the formal courses stipulated in the programs of study. The examination is designed to assess the student's intellectual capacity and adequacy of training for scholarly research.

The comprehensive examination consists of two parts: written, requiring a minimum of eight hours; and oral, requiring not more than two hours. The student, with the approval of his program committee, applies to the Graduate School to take the examination. The oral examination committee includes the student's committee and two additional members of the Graduate Faculty appointed by the Dean of the Graduate School. One of the additional members represents a field of study allied to that of the student's concentration. The candidate's major professor arranges for and chairs the examination. Unanimous approval by the examining committee is required for passing the comprehensive examination.

A candidate whose performance fails to receive unanimous approval of either examining committee may, upon the committee's recommendation, be permitted one reexamination in the part or parts

failed, to be taken only after an interval of at least ten weeks.

Final Oral Examination. This examination is a defense of the dissertation and is open to all members of the faculty and, generally, to all students. The examination, usually two hours long, is conducted by an examining committee comprised of the candidate's program committee and two additional Graduate Faculty members appointed by the Dean of the Graduate School. One of the appointed members will be designated by the Dean to chair the examination.

Unanimous approval of the examining committee is required for passing. If the candidate does not perform satisfactorily, the committee may recommend one reexamination under stated conditions.

Research Tool. Each department, in cooperation with the Graduate School, is authorized to formulate and to amend its own requirements and methods of testing for competency in research tools such as computer science, foreign language(s) or statistics. The department may, in turn, delegate this responsibility to the program committee for each individual doctoral candidate.

Theses and Dissertations

For the oral defense, a sufficient number of completed copies of the thesis or dissertation, acceptable in form and substance to each member of the examining committee and the Dean of the Graduate School, is required. Following a successful defense and after all changes and corrections have been made, four copies prepared in accordance with Graduate School and Library requirements must be submitted to the Graduate School Office. Four copies of an abstract, not to exceed 600 words, are also required.

Students are advised to consult the *Statement on Thesis Preparation and Instructions for Thesis Defense* available in the Graduate School Office and the most recent edition of Kate L. Turabian's *A Manual for Writers of Term Papers, Theses, and Dissertations* published by the University of Chicago Press.

Admission and Registration

Admission

Persons holding the baccalaureate degree and wishing to take graduate-level courses at the University may do so through admission to the Graduate School as degree candidates, or may be accepted for postbaccalaureate work as non-degree students. Admission to the Graduate School is based upon academic qualifications and potential without regard to age, race, religion, sex, national origin or handicap.

Application forms may be obtained from the Graduate Admissions Office, University of Rhode Island, Kingston, Rhode Island 02881. Zip code should be included in the applicant's return address. Inquiries concerning particular degree programs or courses of instruction should be addressed to the appropriate department chairperson.

Applications and credentials are to be submitted to the Dean of the Graduate School, Graduate Admissions Office, who, after obtaining the recommendation of the department concerned, notifies the applicant of either full or conditional admission, or rejection. Final decision rests with the Dean of the Graduate School.

Where admission to a doctoral program is possible for those holding the bachelor's degree and meeting other requirements, the Graduate School reserves the right to offer admission only to the

master's program while postponing a decision on admission to the doctoral program until at least a substantial portion of the master's work has been completed.

All applications must be accompanied by a \$15 non-refundable application fee. Simultaneous application to more than one department requires duplicate applications and credentials and separate application fees.

General deadlines for receipt of applications and all supporting documents are April 15 for September or Summer Session admission, and November 15 for January admission. As is indicated in the Graduate Programs section of this bulletin, certain programs admit students only for September and/or have earlier deadlines. There is no assurance that applications completed after these dates will be processed in time for enrollment in the desired semester. Admission is offered for a specific entrance date only, and must be reconsidered if a postponement is subsequently requested.

Foreign Applicants. Applicants from foreign countries must complete the Test of English as a Foreign Language (TOEFL) with minimum scores of 500 for students applying for science programs and 550 for non-science programs, unless a different minimum is listed under the admission requirements for the specific program. All inquiries from foreign students concerning applications, fees, housing, etc., should be sent to the Director for International Student Affairs, Taft Hall.

Transfer Credit. Transfer credit may be requested for graduate work taken at other accredited institutions of higher learning. Such credits may not exceed 20 percent of the total credits required for the program. Ph.D. candidates holding a master's degree in the same or a closely related area may request up to 30 credits. The transfer work must have been taken at the graduate level (equivalent to the 500 level or higher in the University of Rhode Island course numbering system) and graded as B or higher, must have been completed not more than five years prior to the date of request for transfer into a master's program (ten years for the doctoral program), and must have a clear and unquestioned relevance to the student's program of study. The request for transfer credit must have the approval of the student's major professor and the Dean of the Graduate School. If transfer credit is desired for work taken elsewhere after a graduate student is enrolled at this University, prior approval must be obtained from the Dean of the Graduate School.

Degree Candidates. Applicants must forward to the Dean of the Graduate School two completed application forms, two official copies of transcripts of all previous college work sent directly by

the issuing institutions, three letters of recommendation and scores in the appropriate nationally administered tests. Tests required for specific programs may be found in the Graduate Programs section of this bulletin.

For acceptance on full status in the Graduate School, in addition to satisfactory test scores and references, applicants should have maintained an undergraduate average of approximately B (3.0 on a 4.0 scale). Applicants with undergraduate averages below this level, but not less than 2.0, may be admitted to conditional status upon the submission of high test scores. Such persons will be admitted to full graduate standing upon the completion of the equivalent of one semester of full-time work with a grade average of B or better. No student may remain on conditional status for more than two consecutive semesters.

In certain cases, applicants who have been denied admission may be advised to take several courses in non-degree status (see below) to provide a basis for later reconsideration of their applications. In such cases, these courses are usually regarded as entrance deficiencies and are not accepted for advanced standing within minimum-credit programs of study.

Non-Degree Students. Non-degree students are those who desire registration with credits in courses during a regular academic year but who are not candidates for an advanced degree. Non-degree students do not have the privileges regularly enjoyed by degree candidates. For example, their enrollment in courses is subject to the accommodation of degree candidates wishing to take those courses. A maximum of 12 credit hours of work taken at the University of Rhode Island in non-degree status may be applied toward degree requirements if the student is later admitted to a degree program, and then only upon recommendation of the student's program committee and with the approval of the Dean of the Graduate School. Advanced standing for work taken at another institution, or obtained by examination or equivalency, must also be included within this limit.

Applicants seeking acceptance in non-degree status must file the regular application for admission and submit the required transcripts. They need not, however, submit letters of recommendation or scores on nationally administered tests until such time as they may wish to apply for admission to a degree program.

Registration

The responsibility for being properly registered rests with the student. Students must register and complete their registration within the time period announced by the University. The chairperson of the student's major department will assign an ad-

viser to assist the new graduate student in planning a program.

Registration for each semester consists of three separate procedures: registering for course selections, payment of fees, and obtaining a class program.

Registering for Course Selections. Students must obtain registration materials at the announced time and place. Currently enrolled students register in November for the spring semester and in April for the fall semester. Completed registration materials are submitted to the Registrar during the registration period, according to the announced instructions.

New and transfer students will be instructed concerning registration procedures.

Payment of Fees. Arrangements must be made with the Bursar for complete payment of tuition and/or fees by the due date. Class programs will be issued only for those students who have registered for course selections, and satisfied payment requirements with the Bursar.

Class Programs. Students may not attend classes without class programs. These are issued prior to the first day of classes according to instructions from the Office of the Registrar.

Drop and Add. Students are permitted to add courses and to drop courses without a fee penalty (see page 17) during the first two weeks of classes. The final day to drop courses without a failing grade is midsemester.

Change of Address. It is the responsibility of the student to complete a change of address form in the Office of the Registrar whenever a change is made in the local, campus, or mailing address.

Summer Session. Although many graduate-level courses are offered during the Summer Session, the University does not guarantee that any particular course will be offered. The availability of individual faculty members to supervise research or to participate in comprehensive examinations and examinations in defense of theses or dissertations during the Summer Session varies from year to year. During the Summer Session, special arrangements must be made with both the Graduate School and the department for scheduling comprehensive examinations and thesis or dissertation defenses. Graduate students must make prior, individual arrangements for taking directed studies or special problems courses.

Time Limit and Continuous Registration. Graduate students are expected to complete their course work and research within the four-year

time limit prescribed for the master's degree and the seven-year time limit for the doctorate. A student who has completed all course work and the residence requirements is required to register and pay for research until the thesis or dissertation and all examination requirements are completed. A student must also be registered for research course work or CR during the semester in which he or she expects to complete all degree requirements. Upon application to the Dean of the Graduate School, the time limit for a degree program may be extended for such legitimate reasons as military service or serious illness. This request requires the endorsement of the student's major professor or department chairperson.

See the *Graduate Student Manual 1979*, Section 4, for regulations regarding interruptions of study, notification requirements, and circumstances under which graduate students will be assumed to have withdrawn from the University.

A student who does not register for a semester, file an interruption of studies or obtain approval for a leave of absence will be considered as voluntarily withdrawn.

Full-time and Part-time Students. The normal full-time registration is 12 credit hours of study during a regular semester. Minimum full-time registration is nine credit hours during a regular semester and six credit hours during a summer term. Full-time registration is required of all students holding fellowships, full scholarships, and traineeships administered by the University. Students who do not meet the minimum full-time registration requirement are considered part-time students.

Off-campus Activity. Students who wish to register for credits to be counted toward a degree, and who will be earning these credits through off-campus activities such as research or independent study at a national laboratory, are required to obtain prior approval of the Dean of the Graduate School and to have these activities listed as part of their programs of study.

Intellectual Opportunity Plan (Pass/Fail Option).

To allow graduate students to venture into new areas of knowledge without fear that their scholastic average will suffer, the Graduate Council has approved the Intellectual Opportunity Plan. To be eligible for this option, the student's major professor or adviser must certify that the course or courses are outside the student's major field of study, are not entrance deficiencies, and are not specific requirements of, but are relevant to, the student's program. A maximum of four credit hours may be taken by the master's degree candidate and a maximum of eight credit hours, including any taken as a master's candidate, by the Ph.D. candidate.

Credit by Examination or Equivalent. In master's programs only, a maximum of six credits may be allowed for competency based on experience outside the traditional academic setting and demonstrated by examination or equivalent. This maximum of six credits must fit within an overall maximum of 12 credits including program credit allowed for advanced standing and transfer credit, if any. See the *Graduate Student Manual 1979*, Section 7.30 for details of this procedure.

Audit. Courses may be audited with the approval of individual course instructors and by presenting an auditor's card secured from the Registrar. An auditor receives no course grade; consequently, an audited course does not count as part of the student's course load for registration purposes, and cannot count as work taken toward completion of residence requirements. A student must be enrolled in at least one other course to be permitted to audit a course.

Fees and Financial Aid

Charges and fees set forth in this bulletin are subject to change without notice.

Tuition and fees vary according to whether or not the student is a legal resident of the state of Rhode Island and according to full-time or part-time enrollment. All charges are payable by the semester and are due and payable upon receipt of the bill or by the due date indicated on the bill.

The Dean of the Graduate School classifies each student admitted to the University as a resident or nonresident student on the basis of all relevant information available to him. Rhode Island residents must file with the Graduate School a certificate of residence signed by the clerk of the Rhode Island city or town where they claim legal residence. A student may appeal the decision to the Board of Residence Review.

New England Regional Student Program. Under the provisions of the New England Regional Student Program for graduate students administered by the New England Board of Higher Education, the University charges a regional student rate (125% Rhode Island resident tuition) to residents of another New England state who are matriculated graduate students in certain programs. The student must apply through the Graduate School and the specific program must be one which is not available at the student's home-state university. Normally, these programs are listed in the New

England Regional Student Program graduate level booklet. In cases where an apparently similar program of study is available at both institutions involved, residents of another New England state must obtain certification from the dean of the Graduate School of their home-state university that the program of study is not available there. This certification will normally take the form of a statement by the chairperson of the relevant department endorsed by the graduate dean. Inquiries and requests for further information may be directed to the Dean of the Graduate School at the University of Rhode Island or to the New England Board of Higher Education, 40 Grove Street, Wellesley, Massachusetts 02181.

Rhode Island Inter-institutional Exchange. Any full-time student matriculated at one of the public institutions of higher education in Rhode Island may enroll for a maximum of 7 credit hours of his/her full-time schedule per semester for study at one of the other public institutions at no additional expense. Each institution will determine and maintain the integrity of the degree to be awarded. Students will be subject to the course selection process applicable at the receiving institution. Summer session and continuing education registrants are not covered under this program. Students interested in this arrangement should contact the Registrar's Office.

Tuition Waiver for Senior Citizens at Public Institutions of Higher Education. Any Rhode Island resident senior citizen who submits evidence of being 65 years of age, or over, will be allowed to take courses at any public institution of higher education in the state with the tuition waived. Admission into particular courses will be granted upon a space-available basis and is at the discretion of the receiving institution. All other costs of attendance are to be borne by the student.

Schedule of Fees. This schedule of fees is effective for the 1979-80 academic year. The University reserves the right to revise its schedule of tuition and fees without notice.

Full-time, One Academic Year

Students registered for 9 or more credits, graduate research assistants and graduate assistants are considered full-time and are charged the following fees:

Tuition	
Rhode Island residents	\$ 906.00
Regional students	1132.00
Out-of-state residents	1688.00
Registration fee	10.00
Graduate student assessment	10.00
Memorial Union fee	66.00
Health Services fee	100.80
Medical Insurance fee	50.00

Health Service Fees

All full-time graduate students, all graduate research assistants, graduate assistants and all international students are required to participate in the University Health Services plan and accompanying Medical Insurance plan. The Medical Insurance fee may be waived if evidence of comparable coverage in another plan is provided and the student completes, signs and returns a waiver card to the Bursar's Office by the announced term bill due date. Part-time students and spouses of students are eligible to participate in the health and insurance plan on an optional basis.

Part-time, One Semester

Students registered for 8 credits or less are charged the fees below. Residents maintaining continuous enrollment and registered for no credit (CRG 999) are required to pay a fee of \$55 per semester; regional students pay \$69; non-residents pay \$98 per semester.

Tuition, per credit hour	
Rhode Island residents	\$55.00
Regional students	69.00
Out-of-state residents	98.00
Registration fee	5.00
Graduate student assessment, 5-8 credits	8.25
1 to 4 credits	3.30

Division of University Extension

See the Division's degree programs bulletin.

Summer Session

See the Summer Session bulletin.

Application Fee. Fifteen dollars (\$15) must accompany each application for admission. See page 13 for application procedure.

Additional Fees. Students may be asked to make key deposits and to cover laboratory and other incidental expenses for specific courses.

Master's degree candidates must pay a thesis-binding fee of \$4 and doctoral candidates must pay a dissertation-binding and microfilming fee of \$30. These fees are due before candidates submit their dissertations for approval by the Graduate School. All degree candidates must pay a diploma fee of \$10.

Late Fees. A late registration fee of \$15 for the first day and \$5 for each succeeding day (not including Sundays or holidays) is charged unless excused by the Registrar.

Each course dropped after the conclusion of the "drop and add" period (see page 14) incurs a \$5 charge unless the student withdraws from the University.

Remission of Fees. Remission of tuition and the registration fee is granted to holders of tuition

scholarships, graduate assistantships (10 credits per semester) and most fellowships. This policy does not include graduate research assistants and associates whose stipends are normally larger than those of graduate assistants. The health services and medical insurance fees and the graduate student assessment are excluded from this remission policy.

Refunds. Refunds of payments made or credits against amounts due to the University shall be made to students who officially withdraw according to the following scale: first two weeks, 80%; third week, 60%; fourth week, 40%; fifth week, 20%; after five weeks, no refund. The attendance period in which withdrawal occurs is counted from the first day of registration and includes weekends and holidays.

The above policy pertains only to tuition for part-time graduate students who drop courses or credits and to full-time students changing to part-time status.

Financial Aid

There are several forms of financial assistance available to graduate students. To be eligible for any form of assistance, the student must first be admitted to the Graduate School. Detailed information (stipends, allowances, tenure, etc.) on the fellowships, scholarships, and assistantships described below is available from the Graduate School Office and is included in the *Graduate Student Manual*. Fellowships and scholarships are awarded by the Dean of the Graduate School to students selected from nominees submitted by department chairpersons. Students are advised to request nomination for these awards by the chairperson of the department in which they plan to study or are currently enrolled at the University.

Fellowships. Fellowships are awarded to graduate students in recognition of achievement and promise as scholars. They are intended to enable students to pursue graduate studies and research without rendering any service to the University. A fellow's stipend is not considered compensation, but a gift. Graduate fellows are required to be full-time students and may not engage in additional remunerative work without the specific advance approval of the Dean of the Graduate School.

Special Fellowships are supported by various industrial firms, private foundations and individuals, and are usually restricted to students in particular areas of study and research. The stipends and supplemental allowances of these fellowships are not uniform.

A limited number of *University of Rhode Island Graduate Fellowships* is awarded each year. URI Fellows receive a stipend of \$3500 for the

academic year and have tuition remitted by the University.

Graduate Assistantships and Graduate Research Assistantships. Assistantships are awarded to full-time graduate students to provide them with teaching and research training. Assistants may be required to provide service for up to 20 hours per week. Appointments are initiated by department chairpersons. To be eligible for such an appointment, students must first be admitted to the Graduate School. Their applications for the assistantships should be submitted to the department chairperson by February 15. Appointments are announced about April 1.

Graduate Assistants assist, under supervision, with instructional and/or research activities of a department. Not more than ten hours per week will be in classroom contact. Graduate assistant stipends for the 1979-80 academic year range from \$3400 to \$3800, depending upon qualifications and experience. In addition, tuition and the registration fee are remitted for 10 credits in each semester of the academic year of the appointment. Additional remuneration is given for any work done during the summer, although such work cannot be guaranteed.

Graduate Research Assistants are assigned to

individual research projects sponsored either by the University or by an outside agency. On supported research contracts and grants, the graduate research assistants are judged to be employed on a half-time basis (based on a 40-hour week). For this they normally receive a stipend ranging from \$4316 to \$5498 for nine months without remission of tuition or fees. Additional remuneration is given for any work done during the summer months.

Other Assistance. Tuition scholarships, which provide for the remission of tuition and enrollment fees, are awarded by the Dean of the Graduate School from University funds. These scholarships are awarded to qualified students demonstrating need of financial assistance. Application forms are available in the Graduate School Office.

Loans are available for qualified students. For information contact the Student Financial Aid Office in Roosevelt Hall, which administers them.

Veterans' benefits information may be obtained from the Veterans' Liaison Officer in the Registrar's Office. All students receiving veterans' benefits are required to report to the Veterans' Liaison Officer upon withdrawing from or dropping any course, or upon withdrawal from the University. Failure to do so will result in the termination of veterans' benefits.

Graduate Programs

This section must be read in conjunction with the preceding sections on Degree Requirements and on Admission and Registration. The specific admission and program requirements listed below are included within the general requirements set forth in the preceding sections, and do not reduce those general requirements. For example, scores on the Verbal and Quantitative Aptitude Tests of the Graduate Record Examination (GRE) are required of all applicants unless another nationally-administered test such as Graduate Management Admission Test (GMAT) or the Miller Analogies Test (MAT) is specified below. Scores on the GRE Advanced (subject matter) Tests are required only where specified below.

Please note that the specific program requirements given on the following pages are minimum requirements. For example, additional course credits may be required for individual candidates whose academic background is insufficient.

The availability of programs of study and areas of specialization set forth in this section, as well as their administrative location, requirements and titles, are subject to change without notice.

Each graduate program at the University of Rhode Island is designed primarily as a learning experience for the student. The University experience is designed to provide the successful student with a range of knowledge and skills which can be utilized in a variety of ways after graduation provided that they are combined with appropriate motivation and initiative. Options available to

students vary from the traditional liberal education to programs which are heavily professionally oriented. Successful completion of any course of study at the University, however, does not guarantee that the student will find either a specific kind or level of employment.

Students who are interested in the career opportunities related to particular programs of study are encouraged to discuss their interests with the appropriate department chairperson or director of graduate studies as listed in this bulletin, with the deans of the Graduate School, and/or with the staff of the Office of Career Planning and Placement. Students who are uncertain about their career choice are invited to inquire about the services offered by the Counseling Center.

Accounting

M.S.

GRADUATE FACULTY

Associate Professor Martin, chairperson. Professor Vangermeersch; Associate Professors Brandon, Matoney, Wood; Assistant Professors Bracken, Cairns, Looney, St. Pierre, Schwarzbach, Swanson.

MASTER OF SCIENCE

Admission requirements: undergraduate grade point average of approximately B or above and a score at the fiftieth percentile or above on the GMAT examination. Applicants for whom English is not the native language will be expected to demonstrate proficiency in written and oral communications (TOEFL score of 575 or above), or they may be required to correct deficiencies by taking selected courses for no program credit.

Program requirements: from 30 to 60 credits depending upon undergraduate program. A thesis is optional but candidates are required to take ACC 681 if they elect the non-thesis option. A written comprehensive examination is required and an oral examination is optional at the discretion of the department.

MASTER OF BUSINESS ADMINISTRATION

See Business Administration program, page 21.

All 500- and 600-level courses offered by departments in the College of Business Administration are open to matriculated graduate students only.

Animal Pathology

M.S., Ph.D. (Biological Sciences)

GRADUATE FACULTY

Professor Meade, chairperson. Professors Chang, Yates; Associate Professor Wolke; Special

Lecturer Brown; Adjunct Professors Dardiri, Walsh.

SPECIALIZATIONS

Animal virology and marine pathology with specialization in the characterization of avian viral infections; recovery of viruses from inland estuaries, streams and ponds; ichthyopathology; invertebrate pathology; and the effect of environmental pollution on marine organisms.

MASTER OF SCIENCE

Admission requirements: GRE and an undergraduate major in biological science with a concentration in animal science, microbiology or biology; one year of organic chemistry and physics. Courses in statistics, histology and physiology are strongly recommended.

Program requirements: animal virology option: thesis and APA 501, 502, 534, 536; BCP 581, 582; MIC 432, 533.

Marine pathology option: thesis and APA 501, 502, 534, 536, 555, 556; EST 408; suggested courses: ASC 483, 584.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Admission requirements: same as for master's degree; Ph.D. qualifying examination.

Program requirements: animal virology option: courses listed under M.S. degree and APA 538; MIC 552, 641; suggested courses: BCP 622, 624.

Marine pathology option: courses listed under M.S. degree and BCP 581, 582; MIC 533, ZOO 512; suggested courses: BCP 622, 624; OCG 509, 568.

Animal Science

M.S.

GRADUATE FACULTY

Associate Professor Gray, *chairperson*. Professor L. T. Smith, *director of graduate studies*. Professors Durfee, Meade; Associate Professors Golet, Gould, Henderson, Hinkson; Assistant Professors Husband, Nippo.

SPECIALIZATIONS

Aquaculture: nutrition, physiology, genetics, aquaculture systems. *Wildlife management*: game bird propagation, habitat management. *Small animals*: physiology.

Research in aquaculture is a cooperative effort supported by the National Sea Grant Program and the R.I. Agricultural Experiment Station.

MASTER OF SCIENCE

Admission requirements: GRE. A bachelor's

degree in agriculture or biological science is preferred.

Program requirements: thesis.

Biochemistry and Biophysics

M.S., Ph.D. (Biological Sciences)

GRADUATE FACULTY

Professor Fisher, *chairperson*. Professors Bell, Constantinides, Dain, Hartman, Purvis, Tremblay; Adjunct Professors Douglas, Hammond.

SPECIALIZATIONS

Nutrition and enzyme regulation, structure and function of enzymes, developmental neurochemistry, mammalian cell culture and tumor viruses, structure and functions of nucleic acid and viruses, electron microscopy and protozoology, endocrinology, enzymology, mitochondriology, nitrogen metabolism in mammalian tissues, structure and function of biological membranes.

MASTER OF SCIENCE

Admission requirements: GRE (including advanced test) and a bachelor's degree in some field of science or engineering including 2 semesters each in organic chemistry with laboratory, biological sciences, and calculus, and 1 semester in physics. Students may be accepted with deficiencies which must be made up without program credit.

Program requirements: thesis and BCP 435, 521, 541, 581, 582 and 3 credits in a 600-level course from any department exclusive of seminar, special topics or research.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Admission requirements: same as for master's degree; M.S. degree not required to enroll in Ph.D. program. Qualifying examination required if admitted without master's degree.

Program requirements: same as listed under master's degree; plus BCP 595, 596 and at least 6 credits of BCP at the 600 level, exclusive of BCP 699.

Botany

M.S., Ph.D. (Biological Sciences)

GRADUATE FACULTY

Professor Goos, *chairperson*. Professors Albert, Beckman, Hauke, Palmatier, Smayda; Associate Professors Hargraves, Harlin, Mottinger, Swift;

Assistant Professors Killingbeck, Koske, Sheath, Swanson; Adjunct Professors Halvorson, Simons; Emeritus Professors Caroselli, Lepper.

SPECIALIZATIONS

Aquatic botany (marine and freshwater), cell biology, genetics and cytogenetics, mycology, plant development, plant ecology, plant physiology, plant taxonomy, plant ultrastructure.

MASTER OF SCIENCE

Admission requirements: GRE including advanced test and undergraduate major in the sciences. Candidates lacking undergraduate courses in organic chemistry, physics, mathematics through introductory calculus, and fundamental courses in biological sciences may be required to make up deficiencies without graduate credit.

Applicants are normally admitted for September only. Deadline for receipt of applications and all supporting documents is April 1.

Program requirements: thesis and BOT 581, 582.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Admission requirements: same as for master's degree, which is normally required. Oral diagnostic proficiency examination required during the first semester for those accepted with the master's degree. Qualifying examination required for those accepted without the master's degree.

Program requirements: dissertation, one foreign language or proficiency in a research tool; BOT 581, 582. Comprehensive examination will require competency in major areas of botany.

Business Administration

M.B.A.

GRADUATE FACULTY

Professor Weeks, *dean*, College of Business Administration; Professor Johnson, *associate dean and director of M.B.A. program*.

Accounting: Associate Professor Martin, *chairperson*. Professor Vangermeersch; Associate Professors Brandon, Matoney, Wood; Assistant Professors Bracken, Cairns, St. Pierre, Schwarzbach, Swanson.

Business Law: Assistant Professors Laviano, Sisco.

Finance and Insurance: Professor Booth, *chairperson*. Professors Brainard, Poulsen; Associate Professors Dash, Fitzgerald; Assistant Professors Koveas, Lord, Miles.

Management: Associate Professor Overton, *chairperson*. Professors Coates, deLodzia, Schmidt; Associate Professors Allen, Callaghan, Comerford.

Management Science: Professor Rogers, *chairperson*. Professors Jarrett, Koza, Shen; Associate Professors Ageloff, Armstrong, Budnick, McLeavey; Assistant Professor Mangiameli.

Marketing: Professor Nason, *chairperson*. Professors Alton, Johson; Associate Professors Della Bitta, Hill, Loudon.

SPECIALIZATIONS

Accounting, finance, insurance, management science, marketing, organizational management, international management, health care administration.

MASTER OF BUSINESS ADMINISTRATION

The Master of Business Administration program is designed for students who desire a broad preparation for executive and administrative positions in business, government and nonprofit organizations. The program is offered on the Kingston campus for full-time and part-time students and in the evening at the Division of University Extension for part-time students. Candidates may begin the program in June, September or January of each year. Applications to the Dean of the Graduate School should specify the M.B.A. program and indicate on which campus study is to be undertaken.

Admission requirements: undergraduate grade point average of approximately B or above and a score at the 50th percentile or above on the Graduate Management Admissions Test (GMAT). Applicants for whom English is not the native language will be expected to demonstrate proficiency in written and oral communications (TOEFL score of 575 or above), or they may be required to correct deficiencies by taking selected courses for no program credit.

Program requirements: the non-thesis program requires 60 credit hours. There are 24 credit hours of foundation courses providing the basic tools for administration: ACC 510, BSL 500, ECN 590, FIN 540, MGS 579, 580, 581, 585; MGT 530, MKT 550. These foundation course requirements may be satisfied by: (1) taking the course, (2) having passed a similar course or courses at an accredited institution (subject to review), or (3) passing a proficiency examination within one year after entry to the program.

After completing the foundation courses, the student will complete the remaining 36 credit hours: ACC 611, ECN 690, FIN 641, 645; MGS 671, 682; MGT 626, 681; MKT 651; plus nine credit hours of elective courses in the College of Business Administration or outside the College of Business Administration, provided the student obtains prior permission from the M.B.A. director.

All 500- and 600-level courses offered by departments in the College of Business Administration are open to matriculated graduate students only.

Business Education

M.S.

GRADUATE FACULTY

Associate Professor Langford, *chairperson*. Associate Professors Allred, Smith, Sink.

SPECIALIZATIONS

Administration and supervision of business education, use of audiovisual equipment and materials in business education, consumer education, innovations in teaching business education, survey of office and distributive occupations, cooperative education programs, business communications.

MASTER OF SCIENCE

Admission requirements: undergraduate grade point average of approximately B or above and a score at the 50th percentile or above on the MAT examination for full admission.

Program requirements: undergraduate credit hours in accounting, finance, economics, marketing, management, production, statistics and business law. Candidates lacking undergraduate courses in business education may be required to make up deficiencies. Thirty credit hours without a thesis, including BED 524, 525, 526; six credits selected from BED 520, 522, 528; three credits in economics numbered above 400, three credits selected from EDC 572 and BED 428; six credits in academic business subjects selected from accounting, business law, computer science, economics, finance, insurance, management science and marketing courses; plus three credits of graduate-level free electives numbered above 500.

All 500- and 600-level courses offered by departments in the College of Business Administration are open to matriculated graduate students only.

Chemical Engineering

M.S., Ph.D.

GRADUATE FACULTY

Professor Thompson, *acting chairperson*. Professors Giellisse, Shilling, Votta; Associate Professors Barnett, Knickle, Rockett, Rose; Adjunct Associate Professor DiMeglio; Adjunct Assistant Professors Sahagian, Spano.

SPECIALIZATIONS

Biochemical Engineering: Fermentation processes, food engineering.

Materials: Ceramics, corrosion, electron microscopy, metal finishing, metal oxidation,

metallurgy, materials engineering, X-ray metallography.

Transfer Processes: Adsorption, desalination, distillation, ion exchange, liquid extraction, membrane processes; dispersion processes, fluid dynamics, heat transfer, mass transfer, phase equilibria.

Energy Engineering: Nuclear technology, fuel technology, thermodynamics, pollution control, water resources.

MASTER OF SCIENCE

Admission requirements: GRE including advanced test in area of applicant's specialization. Bachelor's degree in chemical engineering; candidates from other engineering fields or from mathematics, biology, chemistry, or physics may be accepted into the program with possible addition of prerequisite courses.

Program requirements: thesis option: CHE 501, 502. Non-thesis option for part-time students, with permission of the department: master's examination and comprehensive report with oral examination; CHE 501, 502.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE including advanced test in area of applicant's specialization and M.S. degree in engineering (may be waived for University of Rhode Island graduate students who pass qualifying examination with superior performance).

Program requirements: a candidate's program will be determined in consultation with his or her committee and be based on his or her background and career goals. There is no general language requirement but a student's committee may require a foreign language or research tool which may be necessary for the candidate's program. In addition to an acceptable dissertation, a candidate must submit the manuscript of a paper, based on his or her research, suitable for transmission to a technical journal; CHE 501, 502.

Chemistry

M.S., Ph.D.

GRADUATE FACULTY

Professor Cruickshank, *chairperson*. Professors Abell, C. Brown, Fasching, Gonzalez, Goodman, MacKenzie, Nelson, Petersen, Rosie, Vittimberga; Associate Professors P. Brown, Cheer, Kirschenbaum, Rosen; Assistant Professors Freeman, Forcé.

SPECIALIZATIONS

In addition to studies in the four traditional areas, research programs and special facilities are available in organic geochemistry, molecular

spectroscopy — theoretical and applied — separations techniques, X-ray crystallography, methods of trace analysis, spectroelectrochemistry, theoretical calculations, heterogeneous catalysis, synthesis of antiviral and anti tumor agents, kinetics and mechanisms of organic and inorganic reactions, data management systems, pattern recognition techniques, organic and inorganic synthesis and structure, and photochemistry. Interdisciplinary studies in environmental (air, ocean and freshwater analyses) and biomedical problems.

MASTER OF SCIENCE

Admission requirements: GRE, including advanced test. Minimum TOEFL score of 560. Preference is given to candidates with undergraduate majors in chemistry or chemical engineering with mathematics through calculus.

Program requirements: placement examination to determine specific program requirements, successful completion of master's qualifying examinations; for thesis option (30 credit hours): 12 credit hours of graduate core courses in at least three of the four areas of chemistry, CHM 641 or 642 and thesis; for non-thesis option (36 credit hours): 18 credit hours of graduate core courses, CHM 641 or 642 and CHM 551, 552.

DOCTOR OF PHILOSOPHY

Admission requirements: same as for master's degree.

Program requirements: successful completion of qualifying examination; 18 credit hours of graduate core courses, CHM 641-642 (3 credits), reading proficiency in one foreign language (French, German or Russian) or a research tool (computer science).

Child Development and Family Relations

M.S.

GRADUATE FACULTY

Associate Professor Spence, *chairperson*. Professors Cohen, Fitzelle; Associate Professors Greene, Rae; Assistant Professors Blackman, Blood, Cooper, Darnley, Schroeder; Adjunct Assistant Professor Mosher; Emeriti Professors M. Smart, R. Smart.

SPECIALIZATIONS

Human development, family studies, early childhood development, adulthood, gerontology.

MASTER OF SCIENCE

Admission requirements: GRE or MAT and 18 undergraduate credit hours distributed among at

least three of the following areas: child development and family relations, psychology, sociology, biology, education.

Program requirements: 24 course hours plus 6 credits toward thesis or 6 related action research credits (30 credit hours total).

STATE PROVISIONAL CERTIFICATION

Persons wishing to meet state provisional teacher certification requirements (Nursery-Kindergarten) must apply for admission to teacher certification (non-degree status). Official transcripts of all previous course work, plus two letters of recommendation are required. As a prerequisite to enrolling in courses which meet certification requirements, accepted applicants must complete or have completed the equivalent of an undergraduate degree in CDFR.

Civil and Environmental Engineering

M.S., Ph.D.

GRADUATE FACULTY

Associate Professor Kelly, *chairperson*. Professors Moulthrop, Nacci, Poon, Silva; Associate Professors Fang, Lavelle, Marcus, McEwen, Sussman; Assistant Professor Urish; Adjunct Associate Professor Apostol.

SPECIALIZATIONS

Environmental Engineering: water supply and treatment facilities, municipal and industrial waste treatment, flocculation and coagulation of wastes, pollution of marine sediments, solid waste management, modeling of environmental systems, ground water pollution, salt water intrusion.

Soil Mechanics: properties of marine sediments, deep anchor systems, seabed disposal of radioactive waste, sediment sampling, dredge material deposition, ground water hydrology, modeling of aquifers, deep sea sedimentary processes, sediment transport, geophysical methods.

Structural Engineering: matrix and finite element analysis, computer and numerical methods, photoelastic stress analysis, curved highway bridges, marine structures, structural stability, thin-walled structures, coastal structures.

MASTER OF SCIENCE

Admission requirements: GRE and bachelor's degree in civil or environmental engineering. Candidates in other engineering fields or in mathematics, biology, chemistry or physics may be accepted with the possible addition of prerequisite courses.

Program requirements: thesis or non-thesis option. 30 credit hours plus CVE 601, 602; a minimum of two courses taken outside the de-

partment. Non-thesis option requires comprehensive report and comprehensive examination.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE and master's degree in civil or environmental engineering or in a related field.

Program requirements: Ph.D. qualifying examination. 30 course credits beyond the master's degree; one language; a three-course and a two-course minor from outside the department which may include work at the master's level.

Community Planning and Area Development

M.C.P.

GRADUATE FACULTY

Professor Hammerschlag; Associate Professors Cushman, Feld, Foster, Kupa; Assistant Professor Muniak; Adjunct Professors Barber, Thomas.

SPECIALIZATIONS

A focus on preparation of professional planners based on disciplinary skills, special techniques and integrative methodology leading to competence in general community planning. Concentrated studies in regional, environmental and inner-city/social planning are options open to students and central to their preparation. Special concentrations in urban design, land-use, coastal planning and natural resources planning are available.

MASTER OF COMMUNITY PLANNING

Admission requirements: GRE; undergraduate background in the social sciences, architecture, landscape architecture, natural resources, engineering or geography preferred. Students are normally not admitted for January matriculation and only a limited number of part-time students can be admitted.

Program requirements: CPL 501, 505, 506, 507, 508, 601, 603, 608; EST 408, thesis or nonthesis option; summer internship or equivalent professional experience. The two-year program of 60 credit-hours is distributed one-half in core courses and about one-half in elected concentration and thesis. Students normally take 15-credits per semester to complete studies within two years. Not all CPL courses are necessarily offered in each academic year.

Computer Science

M.S.

GRADUATE FACULTY

Professor Hemmerle, chairperson. Professors Carney, Merenda, L. Smith; Associate Professors Bass, Carrano, Hanumara, Heltshe, Lawing, Weiderman; Assistant Professors Lamagna, Tet-reault.

SPECIALIZATIONS

Operating systems, statistical computations, simulation, numerical analysis, artificial intelligence, programming languages, theory of programming, information retrieval, performance evaluation, theory of computation, computer-aided education, computer organization.

MASTER OF SCIENCE

Admission requirements: bachelor's degree including the equivalent of MTH 141, 142, Introductory and Intermediate Calculus with Analytic Geometry; MTH 243 Calculus and Analytic Geometry of Several Variables; MTH 215 Introduction to Linear Algebra; CSC 201, 202, Introduction to Computing I and II; CSC 311 Machine and Assembly Language Programming; CSC 350 Introduction to Numerical Computation; CSC 382 Introduction to Job Control Language; and CSC 283 Introduction to PL/I Coding. GRE including advanced test in computer science, mathematics, or undergraduate major field is required for admission.

Thesis option program requirements: a minimum of 24 credits (exclusive of thesis) is required. At least 12 of these credits must be in CSC courses at the 500-level (exclusive of CSC 591, 592 unless approved by the major professor and department chairperson). Every candidate must complete CSC 411 and at least one course from each of the following four groups: 1) CSC 412, 413; 2) CSC 500, 551; 3) CSC 502, 515; 4) CSC 525, 535. A thesis is required.

Non-thesis option program requirements:

1) Substantial computational experience obtained through employment (normally two years).

2) 33 credit hours of course work with at least 15 credit hours at the 500-level or above, as follows: a) At least 24 credit hours selected from: CSC 412, 413, 500, 502, 512, 515, 525, 535, 551; EST 409, 412. b) Up to 6 credit hours of electives (or CSC 491/492, CSC 591/592 provided that these are conducted as seminar or lecture courses rather than project courses). c) A 3-credit-hour seminar (CSC 591). A written library research paper and an oral presentation of same is required. d) CSC 411 or equivalent is required, but may not be counted towards program credit.

3) Written comprehensive examination covering eight of the courses selected from 2a) above.

Economics

M.A.

GRADUATE FACULTY

Professor Sabatino, *chairperson*. Professors Dirlam, Haller, Hellman, Rayack, Schurman; Associate Professors Barnett, Ramsay, Starkey; Assistant Professors Latos, Mead, Suzawa.

SPECIALIZATIONS

Economic development, economic theory, industrial organization, international economics, money and banking, public finance, econometrics, mathematical economics. Combinations with business administration, public administration, community planning, computer science and statistics are available.

MASTER OF ARTS

Admission requirements: GRE (verbal and quantitative) and, normally, some undergraduate training in economics. Some training in mathematics and statistics is also desirable.

Program requirements: thesis or non-thesis option, 30 credit hours, including, for Track I, ECN 512, 527, 528, 575, 576, and 515 or 516 or thesis. This track is strongly advised for students desiring to pursue further studies in the mainstream of contemporary thought or to prepare themselves for professional work in business, government and teaching at the university level. For Track II, ECN 512, 527, 528 and 515 or 516 or thesis. This track is available to students who prefer a wider range of courses and more freedom of choice. Track III is a terminal program in applied economics combined with training in an area of vocational or professional interest such as business administration, public administration, computer science or community planning. The programs in this track will be designed separately for each individual student. For all tracks, the remaining credit hours required to complete a thirty credit-hour program will be worked out with the major professor.

Economics (Interdepartmental)

Ph.D. in Economics - Marine Resources

Please see listing under Resource Economics on p. 41.

Education

M.A.

GRADUATE FACULTY

Professor Long, *chairperson*. Associate Professor Croasdale, *director of graduate studies*.

Adult Education: Professor P. Kelly; Associate Professors Croasdale, MacKenzie, May; Assistant Professors Bristow, Morton.

Counseling and Guidance: Associate Professors Gunning, Maynard, Pascale, Schaffran.

Educational Research: Professors Long, Purnell; Associate Professors Pezzulo, Soderberg; Assistant Professors Horwitz, Morton, Sullivan.

Elementary Education: Professor Nally; Associate Professors W.F. Kelly, Nagel; Assistant Professors Sullivan, Whitcomb.

Reading Education: Professor McGuire; Associate Professor Bumpus; Assistant Professors Bristow, DiBiasio, Farstrup.

Science Education: Associate Professors Croasdale, Kellogg.

Secondary Education: Professor Heisler, Long, Russo; Associate Professors Allen, Brittingham, Calabro, Nelson, Willis; Assistant Professor Howard.

Enrollment of foreign students is limited; minimum TOEFL score of 600 is required.

The Master of Arts degree is offered in the following areas of study. Applicants should specify the area of specialization on the application form.

ADULT EDUCATION

Admission requirements: MAT or GRE, teaching certificate or sound background in general education and/or social sciences, interview with program faculty.

Program requirements: thesis or non-thesis option. EDC 505, 529, 580 or 581; 582, 583 or 584; 585; and a minimum of 18 credit hours of education or other electives including six hours of thesis or non-thesis seminar. All courses are offered in late afternoon and/or evening.

COUNSELING AND GUIDANCE

(Administered by the Department of Human Development, Counseling and Family Studies)

Admission requirements: MAT or GRE, minimum of twelve semester hours in the behavioral sciences (to include background in developmental theory, personality theory, and abnormal psychology), and personal interview. Concentrations are available in agency counseling, elementary and secondary school counseling, higher education student affairs services, and gerontological counseling. Teacher certification required for school counseling.

Program requirements: thesis or field-work option. Minimum 36-credit-hour program. HCF 450, 551, 553, 554, 560; EDC 529 and thesis or HCF 580, 581. Additional hours planned with adviser.

EDUCATIONAL RESEARCH

Admission requirements: MAT or GRE, teaching certificate, strong background in mathematics or statistics.

Program requirements: thesis; EDC 503, 514 or 574, 529, 570 or 571; PSY 410, 434, 510, 520; and computer science elective.

ELEMENTARY EDUCATION

Admission requirements: MAT or GRE and teaching certificate, one year teaching experience or equivalent desirable.

Program requirements: thesis or non-thesis option. EDC 529, 570; 572 or 577; 21 to 24 hours of course work including 3 hours of foundations, 3 hours of methods, 3 hours of free elective, 6 hours of thesis or non-thesis seminar and 6 hours taken outside of Education Department.

READING

Admission requirements: MAT or GRE and teaching certificate, one year teaching experience or equivalent.

Program requirements: thesis or non-thesis option. EDC 503, 529; PSY 434; 24 credit hours of courses approved for the preparation of reading specialists including a thesis or six credit hours of clinic or practicum experience, and one or more electives.

SCIENCE EDUCATION

Admission requirements: MAT or GRE and teaching certificate, undergraduate major in science, interview with faculty. Certain courses in this option must be taken during the academic year.

Program requirements: EDC 529; 12-18 credit hours of education electives including six hours of thesis or non-thesis seminar and a minimum of 12 hours of science courses.

SECONDARY EDUCATION

Admission requirements: MAT or GRE and teaching certificate, one year's teaching experience desirable, undergraduate major in academic area of secondary education, interview with appropriate faculty.

Program requirements: thesis or non-thesis option. EDC 529; 571, 572 or 574; 3 hours of foundations; 6-12 credit hours of education courses including six hours for thesis or non-thesis seminar and a minimum of 12 credit hours in academic area. For areas specializing in secondary education see Departmental Bulletin.

Electrical Engineering

M.S., Ph.D.

GRADUATE FACULTY

Professors Haas, Jackson, Jaron, Lengyel, Lindgren, Mardix, Mitra, Polk, Poularikas,

Sadasiv, Spence, Tufts; Associate Professors Birk, Daly, Kelley; Assistant Professors Krikorian, Ohley; Adjunct Professors Cooper, Hall, Karlson, McCollough, Middleton, Most, Williams.

SPECIALIZATIONS

Acoustics and underwater acoustics: information processing in acoustic channels, speech processing, modeling of electro-acoustical devices.

Biomedical engineering: physiological control systems, control of artificial organs, heart assist devices, physiologic systems modeling, medical instrumentation, medical diagnostic techniques, biological effects of electromagnetic radiation, pattern recognition applied to medicine, biological signal processing, computers in health care.

Computer engineering: microprogrammed systems, multi-processing, high-speed signal processing, pattern recognition and computer vision.

Digital signal processing: parameter estimation methods, digital filter synthesis, applications of adaptive filtering, algorithmic design.

Electromagnetic wave propagation and optics: tropospheric and ionospheric propagation, atmospheric electricity, ELF noise and geomagnetic micropulsations; fiber optics, infrared guides, optical information processing; non-linear optics, X-ray techniques.

Energy systems: feasibility analysis of small-scale hydro-power installations.

Robotics: Applications of digital techniques to visual acquisition, orientation, transportation, and placement of workpieces. Kinematics and design of robots. Digital image processing.

Solid state electronics: optical properties of non-metallic solids, characterization of amorphous semiconductors, laser-matter interaction; solar cells, heterojunction structures, photocathodes; performance analysis of displays, imaging devices (infrared to X-ray); crystallographic techniques for sub-micron X-ray lithography.

System dynamics and control: time varying and distributed parameter systems, electro-optical systems.

MASTER OF SCIENCE

Admission requirements: GRE and B.S. in electrical engineering, engineering science, physics, mathematics, or computer science. Preparation in related fields such as aeronautical, civil, chemical and mechanical engineering or in the life sciences may be acceptable.

Program requirements: thesis or non-thesis option. Individual programs are designed in accordance with the students' backgrounds and interests. Thesis or non-thesis option: minimum of 18 credit hours in electrical engineering or in other areas of science and engineering. Programs of study require departmental and Graduate School approval.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE and M.S. degree or equivalent in electrical engineering, engineering science, physics, mathematics or computer science.

Program requirements: for the comprehensive examination, background in several of the following areas is required — linear and non-linear systems, communication and control systems, design of digital systems, electromagnetic theory and solid state physics. Most students find it essential to become thoroughly familiar with the application of digital computer techniques. Attendance at the departmental seminar (ELE 601/602) is required of all students in graduate residence. Dissertation research makes use of major modern laboratories in the listed areas of specialization.

English**M.A., Ph.D.****GRADUATE FACULTY**

Professor Miller, *chairperson*; Associate Professor Kunz, *director of graduate studies*. Professors Goldman, Gullason, MacLaine, Mathews, Neuse, Petrie, Potter, Seigel, Smith, Sorlien, Steeves, Towers, White; Associate Professors Barker, Campbell, Cane, Donnelly, Hills, Malina, Marshall, McCabe, Murphy, Reaves, Stineback, Tutt; Assistant Professors Arakelian, Burke, Dvorak, Jacobs, Leo, Mensel.

SPECIALIZATIONS

For the M.A. and for the Ph.D., all fields of English and American literature.

MASTER OF ARTS

Admission requirements: GRE and a minimum of 21 credits in English with a B average in all English courses.

Program requirements: 24 credits plus thesis (6 credits); OR 30 credits (including two 600-level seminars) plus comprehensive examination in three fields.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE with advanced test (Literature in English) and M.A. in English or equivalent.

Program requirements: reading knowledge of one foreign language, unless waived by doctoral committee in consultation with director of graduate studies. 24 credits (including four 600-level seminars) plus 18 credits of dissertation research. Written comprehensive examination in four areas (various options available: historical periods, genres, major figures, cross-disciplinary

studies). Oral comprehensive examination in area of specialization. At least one course must be taken in each historical period in which a student does not write a comprehensive examination (courses taken for the M.A. may fulfill this requirement).

Environmental Health Sciences**M.S.****GRADUATE FACULTY**

Professor Worthen, *program director*.

This interdisciplinary 36-credit program involves graduate faculty from the Colleges of Arts and Sciences, Engineering, Pharmacy, and Resource Development. Representative faculty from each of these colleges comprise a Steering Committee that supervises the program and advises the students.

SPECIALIZATIONS

Curriculum is designed to prepare people for working in public health laboratories. In addition to a core curriculum, students are able to specialize in such areas as microbiology, environmental engineering or food chemistry.

MASTER OF SCIENCE

Admission requirements: GRE, bachelor's degree in biology, chemistry, engineering or allied field.

Program requirements: CVE 570, 571, 572 (2 of these 3 courses); EHS 562 (Interdisciplinary Seminar); EHS 563 (Public Health Administration); Biostatistics or a suitable substitute; FSN 432, 521 and MIC 412 or equivalent courses. Students are also required to take a course which involves an assigned project including a comprehensive written report. A summer internship in an approved, cooperating laboratory, such as the Rhode Island State Department of Health, is required for those persons with very limited or no practical experience.

Experimental Statistics**M.S.****GRADUATE FACULTY**

Professor Hemmerle, *chairperson*. Professors Carney, Merenda, Smith; Associate Professors Bass, Carrano, Hanumara, Heltshe, Lawing, Weideman; Assistant Professors Lamagna, Tet-reault.

SPECIALIZATIONS

Experimental design, multivariate methods,

statistical computations, sequential methods, non-parametric methods, sampling methods, industrial statistics, genetics, psychometrics, ecological statistics, biostatistics.

MASTER OF SCIENCE

Admission requirements: bachelor's degree including the equivalent of MTH 141, 142, Introductory and Intermediate Calculus with Analytic Geometry; MTH 243 Calculus and Analytic Geometry of Several Variables; MTH 215 Introduction to Linear Algebra; CSC 201 Introduction to Computing; MTH 451 Introduction to Probability and Statistics or EST 409 Statistical Methods in Research I. GRE including advanced test in mathematics or undergraduate major field are required for admission.

Program requirements: a minimum of 24 credits (exclusive of thesis) is required. MTH 451, EST 409, and EST 412 are required; however, a maximum of six credits in these courses may be applied as program credit. All candidates must complete twelve credits at the 500-level; nine of these credits must be selected from EST 500, 511, 520, 541, 550. A thesis is required.

Food Sciences

M.S., Ph.D.

GRADUATE FACULTY

Associate Professor Bergan, *chairperson*. Professors Chichester, Constantinides, Dymsza, Lee, Olney, Rand, Simpson; Associate Professors Barnett, Eshleman, Goshdigian; Associate Research Professor P. T. Brown; Assistant Professors Caldwell, Patel; Adjunct Professors Brunser, Katayama, Silverman; Adjunct Assistant Professors Coduri, Howe.

The department of Food and Nutritional Science and the department of Food Science and Technology have been merged into the department of Food Science & Technology, Nutrition and Dietetics. Reorganization of the graduate programs is under consideration. The programs listed below are currently available; applicants will be informed by the Graduate School of changes.

FOOD AND NUTRITIONAL SCIENCE SPECIALIZATIONS

Human nutrition and dietetics, nutritional status evaluation, nutritional biochemistry and metabolism, hyper-nutrition, life-cycle requirements. Nutritional value of new food sources, nutrition education, international and domestic public nutrition improvement programs. Marine food preservation, food enzymology, utilization of fish and marine species, food safety.

FOOD AND NUTRITIONAL SCIENCE MASTER OF SCIENCE

Admission requirements: GRE and a bachelor's degree with adequate preparation for the proposed area of study.

Program requirements: thesis, two semesters of seminar (FSN 511, 512) and graduate courses approved by department. Advanced courses selected on the basis of the student's background and interests.

FOOD AND RESOURCE CHEMISTRY SPECIALIZATIONS

Seafood science and technology, effects of processing on nutritional content of foods, international food technology programs, pesticide chemistry, enzyme technology, food safety and toxicology, chemistry of agricultural and marine products, organic geochemistry, soil biochemistry, microbial protein production.

FOOD AND RESOURCE CHEMISTRY MASTER OF SCIENCE

Admission requirements: GRE and a bachelor's degree in food science, biological science or physical science.

Program requirements: thesis, FSN 511, 512 and advanced courses selected on the basis of the student's background and interests.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Admission requirements: same as for master's degree, and M.S. degree with thesis requirements.

Program requirements: dissertation, FSN 511, 512 and advanced courses determined in consultation with the candidate's committee.

French

M.A.

GRADUATE FACULTY

Associate Professor Dornberg, *chairperson*, Department of Languages. Associate Professor Morello, *section head*. Professors Porter, Rothschild, Waters; Associate Professors Chartier, J. Hyland, Rogers, Toloudis.

SPECIALIZATIONS

French studies which include French literature, French-Canadian literature, black-French studies, linguistics.

MASTER OF ARTS

Admission requirements: GRE or MAT, 24 semester hours, or equivalent, of French, of which

a minimum of nine must be literature.

Program requirements: thesis, eight 500-level courses and comprehensive examination; or, for non-thesis program, ten 500-level courses and comprehensive examination. A maximum of nine credits from 400-level courses may be counted toward the thesis or the non-thesis program.

Geography

M.A.

GRADUATE FACULTY

Professor Alexander, *chairperson*, Department of Geography and Marine Affairs. Professor Michel; Associate Professors Cameron, Havens, Juda, West; Assistant Professors Krausse, Nixon.

SPECIALIZATIONS

Marine geography, recreation and transportation; economic and political geography; environmental impact assessment; comparative urban processes; techniques of cartographic analysis, and applied meteorology and climatology.

MASTER OF ARTS

Admission requirements: GRE. The advanced examination in geography is not required, but candidates should have, or be prepared to make up without graduate credit, the equivalent of 12 credits of introductory work in physical geography (or earth science), cultural, economic, and political geography. Another 15 credits in related social or natural sciences are desirable as are introductory courses in cartography and computer science.

Program requirements: thesis and, normally, GEG 421, 502, 591 or 592.

Geology

M.S.

GRADUATE FACULTY

Professor Cain, *chairperson*. Professor Fisher, Hermes; Associate Professors Frohlich, Tynan; Assistant Professor Boothroyd.

SPECIALIZATIONS

Coastal geomorphology: analysis and mapping of coastal processes and landforms using remote sensing aerial and satellite imagery. Techniques include use of zoom transfer scope and electronic rapid sediment-analyzer.

Sedimentation: emphasis on field projects. a) Measurement of recent beach and estuarine processes and investigation of facies. b) Recent fluvial processes and products with emphasis on braided

streams and alluvial fans. c) Depositional systems of ancient rocks; presently studying carboniferous coal-bearing rocks of S.E. New England.

Glacial geology: sedimentary aspects of Pleistocene and recent glacial geology of New England and Alaska; environmental mapping.

Petrology-geochemistry: field and laboratory studies including volcanology, mantle-derived nodules and xenoliths, petrology of S.E. New England, metamorphism of Narragansett Basin, environmental geochemistry of sediments and water.

Geohydrology: analysis of geologic factors affecting groundwater quantity and quality, utilizing geologic and hydrologic mapping techniques as well as subsurface geoelectric and surface-flow field surveys. Presently studying groundwater salinity interfaces in glacial, bedrock and coastal materials.

Applied geophysics: gravity and magnetics related to structural and plutonic geology in Southern New England. Near-surface geophysics such as geoelectrics, gravity, and refraction seismic for groundwater and related topics.

Palynology: taxonomy, morphology, and stratigraphic distribution of various plant and animal microfossils — such as spores, pollen, archaeomonads, silicoflagellates, hystrichosphaerids, etc. Also, studies in modern and Quaternary spores and pollen.

Resource and environmental studies: relevant aspects of the above specializations.

Individual programs may include courses and/or research in conjunction with the Graduate School of Oceanography and other departments; interdisciplinary studies are encouraged.

MASTER OF SCIENCE

Admission requirements: GRE and bachelor's degree in science or engineering. By the end of the first year, students lacking an undergraduate major in geology will be required to demonstrate, through course work and/or a qualifying examination, satisfactory knowledge of geology and related fields.

Program requirements: thesis, departmental seminar, defense of thesis.

Gerontology

Professor Donald L. Spente, *director*.

The gerontology program blends a strong and comprehensive gerontological background with the various professional skills offered in five University master's degree programs. It is designed to prepare professional practitioners to serve their older clients with a high level of excellence and understanding, the program is limited to 15 new students annually with acceptance into one of the

following degree programs as a prerequisite: Child Development and Family Relations; Education (Adult Education and Counseling and Guidance); Home Economics Education; Physical Education; Textiles, Clothing and Related Art. Please see the listing of the above programs to determine admission and program requirements.

Although scholarship and interest in aging are primary factors in considering applicants, every effort will be made to choose students from various disciplines for each entering group. Each student is expected to develop a thorough understanding of four basic areas:

1. The processes of aging in the human being, including physiological and psychomotor changes and the psychological effects of those processes on the individual;
2. The social setting in which the aging individual lives and operates and the consequences of his interaction with this environment;
3. The overall organization of society including extended family structures and the private and state agencies which serve the aging specifically or which deal with elderly clients as part of a larger population served;
4. The prevailing cultural ideologies, including persistent myths and stereotypes of aging and how these collective beliefs influence the quality of life of the aged.

In addition to the program requirements listed under the participating degree program, specialization requirements include: SOC 438, Aging in Society; HCF 520, Developmental Issues in Later Adulthood; a third course to be taken within the student's individual degree program which addresses the issues of aging in relation to the skills or knowledge of that discipline. Each student must also participate in a common practicum seminar and complete at least six credit hours of the research or practicum requirement specified in the program requirements for the participating department.

History

M.A.

GRADUATE FACULTY

Professor Gutchen, *chairperson*. Assistant Professor Silvestri, *director of graduate studies*. Professors Briggs, Cohen, Findlay, Kim, Klein, Metz, Weisbord; Associate Professors Bryan, Costigliola, Strom, Thurston; Assistant Professors Brown, Daniel, Honhart, Quinney, Roughton, Schach-Cook; Adjunct Associate Professor Klyberg.

SPECIALIZATIONS

History of the United States; Europe prior to 1789; Europe since 1789; Third World area studies. These four areas of specialization include

courses in: American, diplomatic, East Asian, African, black, Latin American and women's history; imperialism; history of science; modern English history; modern European history; state and local history.

In addition to the courses listed in this catalog, the History Department offers many courses at the 300 level which deal with subject matter that may be of value to graduate students not only in history, but in other disciplines as well. In such cases, the graduate student may register for HIS 502 (if the 300-level course deals with European history), HIS 536 (for American history), or HIS 588 (Third World history). The student will audit the lectures of the 300-level course and, in addition, will meet in tutorial sessions with the lecturer, in order to pursue the topic at greater depth. These 500-level tutorial courses may be repeated for different 300-level courses in each area but no more than five of these tutorials will be permitted in a graduate program. Arrangements must be made with the instructor at the beginning of the semester. For a listing of the 300-level courses, see the *Undergraduate Bulletin*.

MASTER OF ARTS

Admission requirements: GRE (advanced test desirable) and bachelor's degree with at least 24 credits in history. Majors in related fields may be admitted with permission of the department.

Program requirements: thesis option (30 credit hours) to include four courses at 500 level, at least one of which must be a colloquium and one must be a seminar; non-thesis option (30 credit hours) to include five courses at the 500 level, at least one of which must be a colloquium and two must be seminars. Both options require a four-hour written examination and an oral examination. Two courses in a related field are allowed.

Home Economics Education

M.S.

GRADUATE FACULTY

Professor Long, *chairperson*. Professor P. S. Kelly; Associate Professors MacKenzie, May.

This program, leading to the master of science degree, allows individuals flexibility in the selection of courses to meet their needs and interests. Personalized plans of study with an emphasis on instruction, curriculum, supervision, and research can be developed around a thesis or action research option.

A student may elect a secondary concentration in an associated home economics area such as textiles and clothing, child development and family relations, nutrition, consumer affairs, gerontology, education, or adult education.

The home economics education program also

offers courses to meet the Rhode Island certification requirements for a permanent teaching certificate. Thirty-six credits or an M.S. are required within six years of receiving one's Provisional Secondary Certificate in Home Economics.

SPECIALIZATIONS

Innovative practices in methods and teaching techniques; curriculum development with specialization in middle school, secondary, adult, recurrent, consumer and nutrition education; teacher education and supervision; gerontology.

MASTER OF SCIENCE

Admission requirements: B.S. or B.A. in home economics education; GRE with Advanced Test in Education.

Program requirements: for thesis option (30 credits), research methods course, basic knowledge of statistics, four-hour written comprehensive examination, two-hour oral defense of thesis; for non-thesis option (36 credits), action research project, research methods course, four-hour written comprehensive examination, oral presentation of action research project.

Industrial Engineering

M.S.

GRADUATE FACULTY

Professor James, chairperson. Professors Nichols, Rubinsky; Associate Professors Lawing, Olson, Shao; Assistant Professor Odrey.

SPECIALIZATIONS

Operations research: mathematical programming, stochastic processes, queuing theory, simulation, networks, applied statistics and probability, optimization, combinatorial models.

Production systems: quality control, reliability, inventory systems, sequencing and scheduling theory, production functions, forecasting, line balancing, manufacturing systems.

Materials processing: processing of materials, metrology, tool material research, NC, CAD/CAM, adaptive control of processing systems.

Human factors: biomechanics, occupational safety and health, other human factors studies.

Other: health systems, industrial-ocean engineering, urban engineering.

MASTER OF SCIENCE

Admission requirements: GRE with advanced test and B.S. degree in industrial engineering. An applicant with a B.S. degree in another field of engineering, or in mathematics, physics, chemistry, or computer science will be considered; gener-

ally such applicants will be required to complete some deficiency courses.

Program requirements: thesis or non-thesis option. One course each in operations research and computer science, two courses in probability-statistics, or equivalent.

SPECIAL FINANCIAL AID

Research assistantships, part-time professional employment in local industries and hospitals.

International Studies

International studies are represented by international orientations in many graduate programs as well as by the specialized programs described below. Inquiries concerning international orientations available through the various combinations of electives within existing degree programs may be addressed to the department in which the student plans to enroll or to the Dean of the Graduate School. Further information may also be obtained from Theodore A. Suddard, director for International Student Affairs.

SPECIALIZATIONS

Master of Arts in Political Science with International Relations Specialization. The Department of Political Science offers over 20 courses in international relations and area studies enabling students to fashion programs suitable to their special interests. To insure an interdisciplinary approach, the department encourages students to take up to 12 credits of relevant course offerings in economics, history, geography, or sociology. For requirements, see Political Science.

Graduate Certificate Program in International Development Studies. A five-course, 15-credit program leading to a Graduate Certificate awarded by the Dean of the Graduate School is offered in each spring semester by the Departments of Economics, Geography, Political Science, and Resource Economics. The Department of Sociology and Anthropology also participates in certain aspects of this program, which is designed to provide a supplemental, interdisciplinary concentration on the problems and processes of modernization and international development.

Admission requirements: GRE and master's degree or equivalent in one of the participating disciplines or concurrent enrollment in a participating master's program.

Program requirements: interdisciplinary core seminar (REN 595 — Problems of Modernization in Developing Countries); two specialized seminars selected from PSC 510, ECN 566, REN 430; 3 credits of directed study selected from PSC 556, ECN 515, 516, REN 491, 492, or GEG 591, 592; and

3 credits of approved elective. When the graduate certificate is pursued concurrently with a master's degree, the certificate credit requirements must be taken in addition to all requirements for the master's degree. Completion of the master's degree program is required to receive the certificate.

Requests for further information and for application forms should be directed to the Dean of the Graduate School. Initial inquiries should indicate in which of the above disciplines and from which institution the applicant holds the master's degree, or whether he is interested in pursuing the master's degree at this University concurrently with the graduate certificate program, and where his particular research interests lie. Such information will assist the administering committee in selecting an adviser for the student and in designing a program adapted to his needs. Assistantships or scholarships are not available for participants in the graduate certificate program as such, but may be held by students who are concurrently enrolled in one of the participating master's programs.

Library Science

M.L.S.

GRADUATE FACULTY

Professor Schlessinger, dean, *Graduate Library School*. Professor Bergen; Associate Professors Salvatore, Schneider, Tryon; Assistant Professors Bohnert, Jensen, Surprenant, Woods.

SPECIALIZATIONS

The overall goal of the School is to educate librarians who will not only function effectively, but also demonstrate the capacity to affect the course of librarianship.

Through consultation with advisers, students prepare for careers in academic, school, public or special libraries. They may also plan for specialization in areas such as children's service, reference and bibliography, cataloging, special collections, media programs, information science, computer service, administration, young adult services, and library history.

MASTER OF LIBRARY SCIENCE

Admission requirements: MAT or GRE and the bachelor's degree. All materials required for application should be received by the Graduate School by November 15 for spring semester admission, February 15 for summer admission, and April 15 for fall admission. Notification of acceptance or rejection is mailed approximately six weeks after receipt by the Graduate School.

Program requirements: 36 credit hours consisting of: LSC 500, 502, 503, 504 and 505; one course selected from LSC 520, 521, 522, or 523; 18 hours of electives of which up to 9 may be taken in

courses outside library science when relevant to the student's specialization. Up to 24 hours may be taken at the Regional Centers at University of Connecticut, University of Massachusetts, and the University of New Hampshire.

COOPERATIVE PROGRAM (M.A. and M.L.S.)

By proper selection of course work, a student may earn simultaneously the degrees Master of Arts in History and Master of Library Science.

Admission requirements: GRE (advanced test desirable) and other requirements listed for history and library science. Applicant must apply and be accepted in both programs. Applications (in quadruplicate) should indicate History/Library Science as the field of specialization.

Program requirements: student must submit individual 30-credit (minimum) programs of study for each degree that satisfy specific core requirements for these programs. Since a maximum of six credits of course work may be jointly used to satisfy degree requirements, a minimum of 54 credits total is required to satisfy the requirements for both degrees.

Marine Affairs

M.A., M.M.A.

GRADUATE FACULTY

Professor Alexander, chairperson, *Department of Geography and Marine Affairs*. Professors Knauss, Marshall, Rorholm, Sainsbury; Associate Professors Cameron, Fisher, Havens, Juda, Motte, West; Assistant Professors Krausse, Nixon.

SPECIALIZATIONS

Coastal zone management, marine transportation and port planning, fisheries law and management, international marine policy and law.

MASTER OF ARTS (M.A.)

Admission requirements: GRE and bachelor's degree in related science or social science. For international students, minimum TOEFL score of 575. Applicants are admitted for September only.

Program requirements: thesis and MAF 483, 651, 652, GEG 571, OCG 401 or appropriate oceanography substitute, REN 514 or appropriate resource economics substitute, plus a minimum of 18 elective credits for a total of 42 credits.

MASTER OF MARINE AFFAIRS (M.M.A.)

Admission requirements: GRE, prior graduate degree or five years of equivalent experience in marine areas. For international students, minimum TOEFL score of 575. Applicants are admitted for September only.

Program requirements: non-thesis program; MAF 483, 651, 652, GEG 571, REN 514, OCG 401 or appropriate oceanography substitute, plus 12 elective credits for a total of 30 credits.

GRADUATE CERTIFICATE PROGRAM IN COMMERCIAL FISHERIES

As an adjunct to the Master of Marine Affairs program, an additional 15-credit program, leading to a graduate certificate awarded by the Dean of the Graduate School is offered in Commercial Fisheries. The joint 45-credit program is designed to combine the evaluative, use and control aspects of the M.M.A. curriculum with the technology and performance of the marine commercial fisheries.

Admission requirements: GRE, appropriate background or undergraduate preparation, and concurrent enrollment in the M.M.A. program.

Program requirements: FMT 518, 591, 592, plus 15 credits selected from the following electives, of which 9 credits are applied towards the M.M.A. program and 6 towards the graduate certificate: APG 411, FMT 416, 452, 521, OCG 568, REN 543.

Financial aid: assistantships, fellowships and scholarships are not available to participants in the graduate certificate program as such, but may be held by students concurrently enrolled in the M.M.A. program.

Mathematics

M.S., Ph.D.

GRADUATE FACULTY

Professor Roxin, chairperson. Professors Driver, Fraleigh, Ladas, Liu, Shisha, Sine, Suryanarayan; Associate Professors Beauregard, Datta, Finizio, Grove, Levine, Lewis, Montgomery, Pakula, Papadakis, Schwartzman, Verma; Assistant Professors Barron, Caldwell; Adjunct Professor Bordelon; Adjunct Assistant Professor D. Wood.

SPECIALIZATIONS

Ordinary, functional, and stochastic differential equations, partial differential equations, abstract differential equations, functional analysis, approximation theory, probability, fluid mechanics, control theory and differential games.

MASTER OF SCIENCE

Admission requirements: GRE with advanced test in mathematics, bachelor's degree with strong undergraduate background in mathematics. Applicants with deficiencies in mathematics may be accepted subject to taking certain undergraduate courses in addition to the graduate program requirements. Applicants without a bachelor's degree who have completed at least 60 credits of undergraduate work and have an outstanding re-

cord in mathematics as evidenced by transcripts, letters of recommendation and outstanding performance on the Graduate Record Examination also may be accepted.

Program requirements: 30 credit hours (or 24 plus thesis), including at least 18 credits in mathematics of which at least 12 must be at the 500 level or higher, and written comprehensive examination. Recommended courses include MTH 513, 515, 525, 535, 536, and 562.

DOCTOR OF PHILOSOPHY

Admission requirements: same as for master's program.

Program requirements: MTH 513, 515, 525, 535, 536, and 562, plus specialized courses and electives. Reading ability (in candidate's specialty and with a dictionary) in one language chosen from French, German, or Russian. The M.S. comprehensive examination serves as the written portion of the department's Ph.D. qualifying examination. This is followed by oral qualifying examination, which is required of all candidates.

Mechanical Engineering and Applied Mechanics

M.S., Ph.D.

GRADUATE FACULTY

Professors Bradbury, G. Brown, Dally, DeLuise, Dowdell, Ferrante, Hagist, Kim, Nash, Schenck, Test, White, Wilson; Associate Professors Goff, Hatch, Lessman, Palm, Sadd; Assistant Professors Datseris, Halliday; Adjunct Assistant Professors Messier, Patton; Adjunct Research Professor Dunlap.

SPECIALIZATIONS

Applied mechanics: elasticity, plasticity, advanced dynamics, lumped and distributed parameter vibration theory, nonlinear mechanics, plates and shells, elastic instability, computer methods, finite element methods.

Fluid mechanics: boundary layer theory, flow noise, turbulence, flow instrumentation, fluidics, magneto-fluid mechanics, wind-generated power, coastal zone modeling, advanced computer applications; wind-wave interactions.

Interdisciplinary studies: biomechanics, generalized fatigue failure of biological structure, global pollution problems, sociotechnological problems, computer simulation, oil spill prevention and dispersion, offset costs of pollution, human body vibration.

Machine design: fatigue failure, advanced kinematics, lubrication theory, thermal stress analysis, advanced mechanics of materials, reliability analysis and prediction, scuba safety, com-

puter topics, impact, mechanisms optimization processes.

Systems: mathematical modeling of control systems, stability, nonlinear systems, lag systems, biological applications, advanced computer applications, optimization processes, energy conservation systems analysis, fisheries production models, home heating optimization.

Thermal science: direct energy conversion, advanced heat transfer, advanced thermodynamics, solar energy developments, new engine developments, thermal pollution, two-phase flow, energy conservation, digital computer methods, liquid natural gas problems, wind effects on solar collectors, solar collector systems.

MASTER OF SCIENCE

Admission requirements: GRE, B.S. degree in mechanical engineering, applied mechanics, or aerospace engineering, or in a related field such as engineering science, civil engineering, applied mathematics, applied physics.

Program requirements: completion of a minimum of 30 credit hours exclusive of seminar, a thesis is required for all students, two advanced-level courses in mathematics (or one in mathematics and one in computer science) or equivalent, one course outside area of specialization; MCE 501, 502, graduate seminar, required of all on-campus students. Almost all specializations require use of digital computer techniques.

Financial aid: a number of graduate and research assistantships are available for qualified M.S. students.

DOCTOR OF PHILOSOPHY

Admission requirements: master's degree and GRE.

Program requirements: dissertation, two advanced-level courses beyond M.S. in mathematics or computer science, one course outside area of specialization; research tool or associated studies in two areas; completion of a minimum of 30 course credits beyond master's exclusive of seminar and research tools; MCE 501, 502, graduate seminar, required of all on-campus students. All specializations require use of digital computer techniques.

Financial aid: a number of graduate and research assistantships are available for qualified Ph.D. students. Temporary instructorships may be available for highly qualified Ph.D. students.

Medicinal Chemistry

M.S., Ph.D. (Pharmaceutical Sciences)

GRADUATE FACULTY

Professor C. Smith, *chairperson*. Professors Abushanab, Turcotte; Assistant Professor Panzica;

Adjunct Professor Modest; Emeritus Professor Bond.

SPECIALIZATIONS

Design and synthesis of potential medicinal agents, including antihypertensives, steroids, antimetabolites, antitumor agents, complex lipids, anthelmintics, and molluscicides; development of methods of drug analysis; drug instabilities.

MASTER OF SCIENCE

Admission requirements: GRE, including advanced test in chemistry, and bachelor's degree in pharmacy, chemistry, or allied sciences.

Program requirements: thesis; physical chemistry and CHM 425, 521; MCH 443, 444, or equivalent; MCH 621, 622; placement examination to determine specific program requirement; one modern foreign language recommended.

DOCTOR OF PHILOSOPHY (PHARMACEUTICAL SCIENCES)

Admission requirements: GRE, including advanced test in chemistry and master's degree in pharmacy, chemistry, or allied sciences or bachelor's degree in one of these with evidence of superior ability.

Program requirements: thesis, reading knowledge of scientific German; CHM 522; MCH 621, 622; primary emphasis in organic and medicinal chemistry or pharmaceutical analysis, and secondary emphasis in related areas, e.g., physical chemistry, biochemistry, pharmacology, physical pharmacy, or pharmacognosy; placement examination to determine specific program requirements.

Qualifying examination is required for candidates accepted without M.S. degree.

Microbiology

M.S., Ph.D. (Biological Sciences)

GRADUATE FACULTY

Professor N.P. Wood, *chairperson*. Professors Cabelli, Cohen, Fisher, Houston, Sieburth, Traxler; Associate Professors Hufnagel, Laux; Assistant Professor Sperry; Adjunct Professor Chapple; Adjunct Associate Professor Prager; Adjunct Assistant Professor Dufour; Emeritus Professor Carpenter.

SPECIALIZATIONS

Medical microbiology: pathogenesis, immunology, mycology, virology, tumor immunology.

Microbial genetics, physiology, molecular microbiology: transcriptional and translational control mechanisms, messenger RNA metabolism in

procaryotes and eucaryotes, virus multiplication, control of transport and metabolism, mechanisms of survival in water and membrane structure.

Cell biology, cellular development, ultrastructure: ciliogenesis in protozoa, electron microscopy, ultrastructure of electrically conducting systems, cell culture, cellular immunity.

Microbial ecology, industrial microbiology, pollution: soil microbiology, marine microbial ecology, biodeterioration, food and sanitary bacteriology, coliform ecology.

MASTER OF SCIENCE

Admission requirements: GRE and two semesters each of introductory courses in biology (zoology, botany), inorganic and organic chemistry, mathematics, and physics; a semester each of microbiology, genetics, quantitative analysis, and biochemistry.

Program requirements: thesis; BCP 581; MIC 411, 599, 695, and 696; major portion of courses in microbiology, including one from an area other than bacteriology (virology, mycology, phycology, cell biology, protozoology); written comprehensive examination.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Admission requirements: same as for master's degree and two semesters of calculus, BCP 435, and statistics. Proficiency in one foreign language may be required by the student's major professor. Master's degree normally required; outstanding candidates may be accepted without an M.S. degree.

Program requirements: same as for master's degree plus BCP 582; MIC 533, 552, and dissertation. A course in microbial physiology (MIC 641, BOT 534, OCG 663 or equivalent). Of the credits earned beyond the master's degree, 18 should be in course work. Qualifying examination is required. Prior to the last semester, the candidate must pass written and oral comprehensive examination in the major areas of microbiology.

Music

M.M.

GRADUATE FACULTY

Associate Professor Burns, chairperson. Professors Abusamra, Giebler, Motycka, Rankin; Associate Professors Ceo, Dempsey, Fuchs, Gibbs, Kent, Pollart; Assistant Professor Wry, and part time instructors in special performance areas.

SPECIALIZATIONS

Music with interest options in several categories: (A) performance, (B) performance/

essay, (C) musical aesthetics, (D) sociology of music, or (E) thesis.

MASTER OF MUSIC

Admission requirements: undergraduate major in music (option B also requires considerable studio teaching experience or, as in options C-E, an undergraduate degree in music education) with a grade point average of 2.5 or above, GRE with Advanced Test in Music. For a concentration in performance, an audition is required in the applicant's major performance subject before acceptance into the program. Voice majors are expected to have skills in German, French and Italian diction.

Program requirements: entrance placement examinations in music history, literature and theory determine whether background deficiencies must be made up for no graduate program credit. A post-admission audition is given to help in choosing electives. The performance option requires twelve credit hours in MUS 561 culminating in a public recital (MUS 565), MUS 548, and six credits distributed as follows according to the major performance subject: for pianists, MUS 481, 482 and two credits in 598; for vocalists, MUS 483, 484 and two credits in 598; for performers on guitar, organ or recorder, two credits in 598, one credit in ensemble elective and three credits of music electives; for other instrumentalists, MUS 512, two credits in 598 and one credit of ensemble elective. Options in performance/essay, musical aesthetics, sociology of music or thesis require as prerequisite MUS 539, 540, 545 and 548. All options require a minimum of nine hours of electives taken from music history and literature, theory and composition, and/or performance (no more than six hours in any one of the three areas), and performance only if the performance/essay or performance options are not selected. Students in the thesis option must pass qualifying examinations given between 15 and 24 credit hours. Students in non-thesis options must make a formal essay presentation in MUS 570 and pass written comprehensive examinations.

Nursing

M.S.

GRADUATE FACULTY

Professor Tate, dean. Professors Garner, Kang; Associate Professors Boucher, Castro, Hirsch, Schwartz-Barcott; Assistant Professors Feather, Manfredi, O'Flynn-Comiskey.

SPECIALIZATIONS

Education, administration, and primary health care.

MASTER OF SCIENCE

Admission requirements: MAT or GRE, a bachelor's degree from an NLN-accredited program with an upper division major in nursing and an undergraduate course in statistics. Additional for the area of concentration in primary health care: two years of professional nursing practice and NUR 500 or equivalent.

Program requirements: 36 credit hours for education and administration concentration; 39 credit hours for primary health care concentration including NUR 501, 502, 505, 510, 12 credits in area of concentration (NUR 521, 522, 541, 542 for education; NUR 521, 522, 551, 552 for administration and NUR 531, 532, 533, 534 for primary health care); 3 credits in physiological sciences. 3 credits in social/behavioral sciences, 3 credits related to area of concentration and 3 credits of free elective.

Ocean Engineering**M.S., Ph.D.****GRADUATE FACULTY**

Professors Haas, Kowalski, Middleton, Nacci, Silva, White; Associate Professors Heidersbach, LeBlanc, Rose, Spaulding, Stepanishen; Assistant Professor Cornillon; Adjunct Professors DiNapoli, Moffett, Sherman; Emeritus Professor Sheets.

SPECIALIZATIONS

Underwater acoustics, hydrodynamics, data collection and analysis, ocean systems, materials and corrosion, marine geotechnics, numerical modeling of ocean processes.

MASTER OF SCIENCE

Admission requirements: GRE and B.S. degree in engineering, physics, applied mathematics or other technical disciplines. Students with a non-engineering background may be required to make up deficiencies by taking undergraduate courses in thermodynamics, fluid flow, strength of materials, electrical engineering, or applied mathematics. Applications should be submitted as early in the senior year as possible.

Program requirements: thesis and three courses selected from OCE 512, 521 or 534, 560 or 561, 565, 571, 587, 610, 653; one course selected from OCG 501, 521, 540, 561; and at least 12 course credits of electives.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE and M.S. degree and master's thesis in engineering or other technical discipline, or equivalent; ocean engineering and oceanography core courses as in master of science program. Requirements must have been

taken previously or will have to be made up for no program credit.

Program requirements: Ph.D. qualifying examination, dissertation, one advanced applied mathematics course, one additional oceanography and two additional ocean engineering core courses, completion of 30 course credits beyond master's.

SPECIAL FINANCIAL AID

Link Foundation or other industrial fellowships for M.S. candidates; a limited number of graduate and research assistantships are available for highly qualified students.

Oceanography**M.S., Ph.D.****GRADUATE FACULTY**

Professor Knauss, provost, *Marine Affairs*, and dean, *Graduate School of Oceanography*; Associate Professor Napora, assistant dean for students. Professors Duce, Jeffries, Kennett, Kester, McMaster, Marshall, Moore, Pilson, Quinn, Rossby, Saila, Sastry, Schilling, Sieburth, Smayda, Stern, Winn; Associate Professors, Bender, Hargraves, Nixon, Sigurdsson, Swift, Wimbush; Assistant Professors Detrick, Evans, Watts; Adjunct Professors Butman, deBoer, Eisler, Elmgren, Heath, Imbrie, Lambert, Phelps, Schneider, Sherman, Shonting, Tenore, Weisberg; Lecturers Laine and Oviatt.

SPECIALIZATIONS

Biological, chemical, geological, and physical oceanography.

MASTER OF SCIENCE

Admission requirements: GRE (verbal, quantitative and advanced in the applicant's undergraduate major) and bachelor's degree (B average) in some field of the natural sciences or engineering. Applicants are admitted for September only. Due to the limited number of students that can be accepted as degree candidates, no application will be considered showing an undergraduate average of less than B unless there is post-baccalaureate work indicating outstanding ability. Applications should be completed by April 15.

Program requirements: thesis, OCG 501, 521, 540, 561, 695; participation in a regular ocean research cruise.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE (verbal, quantitative and advanced in the applicant's undergraduate major); master's degree is not required, but bachelor's degree (B average) in some field of

natural sciences or engineering. Applicants are admitted for September only. Due to the limited number of students that can be accepted as degree candidates, no application will be considered showing an undergraduate average of less than B unless there is post-baccalaureate work indicating outstanding ability. Applications should be completed by April 15.

Program requirements: B grade in core courses, OCG 501, 521, 540, 561; six additional course credits in oceanography at the 600 level (excluding problems and research courses and OCG 695); participation in regular ocean research cruise. Although there is no general language requirement, the individual student's major professor may require the demonstration of ability in one or more foreign languages.

SPECIAL FINANCIAL AID

There is a limited number of research assistantships for master's and doctoral candidates.

GENERAL INFORMATION

It is anticipated that approximately 25 students will be admitted to the program for the 1980-81 academic year.

Pharmacognosy

M.S., Ph.D. (Pharmaceutical Sciences)

GRADUATE FACULTY

Professor Worthen, chairperson. Professors Shimizu, Youngken; Assistant Professor Lasswell; Adjunct Professor Nakanishi.

SPECIALIZATIONS

Biosynthesis of drug plant constituents, natural product chemistry including the isolation and structural elucidation of materials of potential medicinal interest, screening of natural products for physiologically-active agents including materials from both land and marine sources.

MASTER OF SCIENCE

Admission requirements: GRE, bachelor's degree in pharmacy, chemistry or biology.

Program requirements: thesis, PCG 445, 446, or equivalent; PCG 548, PCL 441, 442.

DOCTOR OF PHILOSOPHY (PHARMACEUTICAL SCIENCES)

Admission requirements: GRE and master's degree in pharmacy, chemistry or biology, or bachelor's degree in one of these with evidence of superior ability. Qualifying examination is required for candidates accepted without the master's degree.

Program requirements: PCG 551, 552, 633, 634, MCH 549 or equivalent. A candidate entering the Ph.D. program with a bachelor's degree must also meet the M.S. program requirements.

Pharmacology and Toxicology

M.S., Ph.D. (Pharmaceutical Sciences)

GRADUATE FACULTY

Professor DeFeo, chairperson. Professor Lal, DeFanti, Fuller; Associate Professor Swonger; Assistant Professor Carroll; Adjunct Professors Cardinale, Dexter, Giambalvo, Kaplan, Karkalas, Lundgren, Malcolm, Miller, Pogacar, Smith, Turner, Verrier, Vidins and Villatico.

SPECIALIZATIONS

Behavioral, biochemical, cardiovascular and environmental pharmacology; toxicology; forensic toxicology.

MASTER OF SCIENCE

Admission requirements: GRE and bachelor's degree in pharmacy, science or psychology.

Program requirements: thesis; mathematics through calculus; physical chemistry; one course in statistics; principles of pharmacology; PCL 441, 442, 521, 522. Other courses and research training will be included to complete the program, in accordance with the student's interest and background.

DOCTOR OF PHILOSOPHY (PHARMACEUTICAL SCIENCES)

Admission requirements: GRE and bachelor's or master's degree in pharmacy, science or psychology.

Program requirements: M.S. degree must be earned prior to Ph.D. if admission is granted without it. Additional courses and special training included according to the requirements of each student's program. Independent research topics will be selected in accordance with the student's interests.

Pharmacy

M.S., Ph.D. (Pharmaceutical Sciences)

GRADUATE FACULTY

Professor Rhodes, chairperson. Professors Osborne, Paruta; Associate Professor Lausier; Assistant Professor Greene; Assistant Professors (Clinical) Mattea, Moleski; Adjunct Professor Schwartz.

SPECIALIZATIONS

Pharmaceutics, with emphasis on physical pharmacy, biopharmaceutics, pharmacokinetics, formulation and manufacturing pharmacy, and clinical pharmacy.

MASTER OF SCIENCE

Admission requirements: GRE and bachelor's degree in pharmacy or equivalent.

Program requirements: thesis, PHC 521, 522, one modern foreign language strongly recommended.

**DOCTOR OF PHILOSOPHY
(PHARMACEUTICAL SCIENCES)**

Admission requirements: same as for master's degree. Qualifying examination is required for candidates admitted without the master's degree.

Program requirements: PHC 521, 522.

Pharmacy Administration

M.S.

GRADUATE FACULTY

Professor Campbell, *chairperson*. Assistant Professor Curtiss; Special Lecturer Hachadorian.

SPECIALIZATIONS

Development and utilization of pharmacy resources in health care systems involving the organization, financing, and delivery of health care services and materials and the legal and socioeconomic constraints.

MASTER OF SCIENCE

Admission requirements: GRE or MAT and first professional degree in pharmacy.

Program requirements: thesis; PAD 599, 621, 622, 651, 652, EST 408 or equivalent.

SPECIAL FINANCIAL AID

Fellowships from the American Foundation for Pharmaceutical Education.

Philosophy

M.A.

GRADUATE FACULTY

Associate Professor Wenisch, *chairperson*. Professors Freeman, Kim, Peterson, Schwarz, Young; Associate Professors Hanke, Zeyl; Assistant Professors Johnson, J.G. Kowalski.

SPECIALIZATIONS

Programs of studies are offered in the following general areas: logic and philosophy of science, axiology and history of philosophy.

MASTER OF ARTS

Admission requirements: GRE, 18 credit hours in basic philosophy courses (students whose undergraduate preparation did not include at least 18 credit hours in basic philosophy courses will be required to take these in addition to the graduate program requirements).

Program requirements: thesis option: 24 credit hours in course work, 6 credit hours in master's thesis research. Non-thesis option: 30 credit hours in course work, comprehensive examination. Students in both options will normally include 6 credits of course work in disciplines other than philosophy. Proficiency in a foreign language will be required if the student's program committee considers it essential for the topic of the thesis or of the substantial paper involving significant independent research to be written by a student choosing the non-thesis option.

Physical Education

M.S.

GRADUATE FACULTY

Associate Professor Polidoro, *chairperson*. Professors Massey, Nedwidek, Reid; Associate Professors Bloomquist, Cohen, Crooker, DelSanto, Mandell, O'Donnell, Polidoro, Sherman, Sonstroem; Assistant Professor Rivera; Emeritus Professor Leathers.

SPECIALIZATIONS

Physical education, health education, recreation education, adapted physical education, gerontology, and psychology of sport.

MASTER OF SCIENCE

Admission requirements: MAT or GRE with B.S. degree in physical education, health and physical education, or health education. In exceptional cases, a candidate without a physical education major, but with a strong emphasis in physical education, is accepted.

Program requirements: thesis (30 credit hours) and PED 510, 530, 520 and 599; for non-thesis option, (33 credit hours), PED 510, 530, 520, and 591. Non-thesis option requires a written comprehensive examination.

Physics

M.S., Ph.D.

GRADUATE FACULTY

Professor Pickart, *chairperson*. Professors Desjardins, Dietz, Letcher, Malik, Northby; Associate Professors Bonner, Choudry, Cuomo, Hartt, Kaufman, Kirwan, Nunes.

SPECIALIZATIONS

At the doctoral level, research is concentrated in the areas of neutron physics and liquid state physics.

Programs in neutron physics include precision measurement of total cross sections, incoherent scattering measurements of the phonon density of states, neutron optics, magnetic and nuclear scattering from crystalline and amorphous alloys, scattering from biological materials, small-angle scattering from inhomogeneous substances, neutron polarization experiments and neutron irradiation effects in solids. Neutron scattering, diffraction and radiational experiments are carried out at the Rhode Island Nuclear Science Center on the Narragansett Bay campus and in conjunction with Brookhaven National Laboratory on Long Island.

Liquid state research includes physical acoustics, underwater acoustics, Brillouin scattering in liquids, ultrasonic propagation and attenuation in liquid crystals, liquid metal alloys and sea water, viscosity measurements, turbulence in liquids, properties of superfluid helium, ion formation in cryogenic helium vapor, and theoretical studies of critical phenomena, phase transitions, and interatomic potentials in liquids.

Other areas in which theses may be done are: few nucleon interactions, computational physics, theoretical nuclear and elementary particle physics, optical effects in semiconductors, and stellar photometry using the department's 16" reflecting telescope.

MASTER OF SCIENCE

Admission requirements: GRE with advanced test; bachelor's degree with major in physics preferred.

Program requirements: thesis and PHY 510, 520, 530, 570 and either 560 or 565. For non-thesis option, the student shall complete 36 course credits, with at least one course requiring a substantial paper involving significant independent study. Twelve of the course credits shall be in the 500- or 600-level physics courses that are in addition to those core courses listed above. The non-thesis student shall successfully complete a final oral examination that will not exceed one and one-half hours in length.

DOCTOR OF PHILOSOPHY

Admission requirements: GRE with advanced

test; bachelor's degree with major in physics preferred. Master's degree is not required. Qualifying examination is required for those accepted without the master's degree.

Program requirements: PHY 510, 511, 520, 525, 530, 531, 570, 571, 650, 660 and either 560 or 565 and 651 or 661. There is no formal departmental language requirement, however, the candidate's committee may require language proficiency.

Plant and Soil Science

M.S.

GRADUATE FACULTY

Professor McGuire, *chairperson*, Professors Felbeck, Hindle, Hull, Larmie, Skogley, Wakefield; Associate Professors Brown, Duff, Golet, Gould, Jagschitz, Krul, Shaw, Wright; Assistant Professors Gough, Husband.

SPECIALIZATIONS

Turfgrasses, woody ornamentals, and soils. Program emphasis may be developed in soil-plant nutrient relations, soil properties and land use, organic geochemistry, plant propagation including tissue culture, stress physiology, weed science, and crop ecology. Additional areas include landscape ecology, floriculture, wetland and forest ecology, fruit science, plant breeding, and forage management.

MASTER OF SCIENCE

Admission requirements: B.A. or B.S. degree with undergraduate courses in botany, agronomy or horticulture, chemistry, mathematics, physics, and soils passed with grades of A or B. Deficiencies in these areas must be corrected without graduate program credit. GRE score (verbal and quantitative) totaling approximately 1000 or higher is expected. An area of interest corresponding to a field of program emphasis must be indicated. Applicants are encouraged to contact a faculty member in their area of interest who would be willing to serve as their major professor. Initial contact may be made with the chairperson of the Plant and Soil Science Graduate Affairs Committee which reviews all graduate applications. No student will be accepted unless a tentative program adviser has been identified.

Program requirements: Thesis and supporting study in botany, chemistry, geology, plant and soil science, and statistics as determined by the student and program committee. Three departmental seminars which include a final thesis seminar.

GENERAL INFORMATION

Work beyond the M.S. degree in these specializations may be developed in cooperation with

other departments offering Ph.D. degree in biological sciences.

Plant Pathology-Entomology

M.S., Ph.D. (Biological Sciences)

GRADUATE FACULTY

Professor Traxler, *chairperson*. Professors Beckman, Jackson, Mueller; Assistant Professors Casagrande, Englander, LeBrun; Adjunct Professor Kaplan.

SPECIALIZATIONS

Plant pathology: disease resistance mechanisms, fine structure of pathogen-host interactions, epidemiology of turfgrass and woody ornamentals diseases. *Entomology*: insect ecology, pest management. *Plant protection*: plant disease and plant insect topics.

MASTER OF SCIENCE

Admission requirements: GRE with undergraduate major in biological, agricultural or physical sciences. Fundamental courses in biological sciences, math and chemistry may be required to make up deficiencies without graduate credit.

Deadline for the receipt of applications and all supporting documents is April 1 for September admission. We discourage application for mid-term or summer sessions.

Program requirements: course work as determined by graduate committee and thesis.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Limited to plant pathology specializations.

Admission requirements: GRE and preferably a master's degree in botany or plant pathology; other requirements same as master's degree; qualifying examination required if admitted without master's degree.

Program requirements: course work as determined by graduate committee; dissertation.

Political Science

M.A., M.P.A.

GRADUATE FACULTY

Associate Professor Killilea, *chairperson*. Professors Hennessey, Leduc, Milburn, Stein, Warren, Wood, Zucker; Associate Professor Rothstein; Assistant Professors Murphy, Tyler.

SPECIALIZATIONS

American government, international relations, politics of the developing areas, urban affairs, comparative governments, public administration.

MASTER OF ARTS AND MASTER OF PUBLIC ADMINISTRATION

Admission requirements: GRE with undergraduate credit in basic political science and political theory.

Program requirements: M.A. has a thesis and non-thesis option; non-thesis option requires oral examination in addition to comprehensive examination, PSC 553 required. M.P.A. has only the non-thesis option with comprehensive examination and internship required. Competency in two of three areas, accounting, computer science or statistics is required and can be demonstrated by a basic course at the undergraduate level or by examination.

An interdisciplinary program involving 15 additional credits in associate fields leads to a graduate certificate in International Development Studies awarded by the Dean of the Graduate School as an adjunct to the M.A. in political science. See International Studies for details.

Psychology

M.S., Ph.D.

GRADUATE FACULTY

Professor Merenda, *acting chairperson*.

Full-time: Professors Berger, Berman, Biller, Cain, Grebstein, A. Lott, B. Lott, Prochaska, Silverstein, Smith, Steinman, Vosburgh, Willoughby; Associate Professors Gross, Kulberg, Valentino, Velicer; Assistant Professors Collyer, Hurley, Stevenson, Tyne; Instructor French.

SPECIALIZATIONS

Programs: Clinical, experimental and school psychology; specialties are offered within the program. The clinical program offers a specialty in family clinical. Students in the experimental program tend to concentrate in one of the following five areas: (1) human perception and learning; (2) conditioning and behavior change; (3) psychophysiology; (4) methodology and quantitative psychology; (5) personality/social/community basis of behavior. Additional individual specialties can be developed within each of the program areas.

MASTER OF SCIENCE (SCHOOL PSYCHOLOGY ONLY)

Admission requirements: GRE with advanced test. Undergraduate major in psychology recom-

mended. Applicants are admitted for September only. Applications must be completed by February 15.

Program requirements: non-thesis; internship; total of 60 credits of which a minimum of 30 for the master's degree plus additional credits for certification as a school psychologist.

DOCTOR OF PHILOSOPHY (CLINICAL, EXPERIMENTAL AND SCHOOL PSYCHOLOGY)

Admission requirements: GRE with advanced test; evidence of research competency. Applicants are admitted for September only. Applications must be completed by February 1 for clinical, by February 15 for school, and by March 1 for experimental. Prospective applicants are asked to address initial inquiries concerning the desired specialization to the department, but formal application materials must be obtained from and returned directly to the Graduate School Office. Applicants to clinical program having post-baccalaureate experience are given special consideration.

Due to limited facilities, new admissions to the doctoral programs must be limited to a small number per year. Although test scores and cumulative averages are not the sole criteria for admission, those with overall quality point averages of less than 3.0 on a 4.0 scale, or whose two highest GRE scores do not total above 1200, are advised that there is little chance for admission.

Program requirements: academic requirements for all Ph.D. programs in psychology consist of general core courses and specific courses. The general core course requirements are: (1) methodology: two courses, experimental design and multivariate methods. (2) general content: three courses from psychophysiology, learning, cognition and perception, social, developmental, personality, history and systems, and psychopathology; and (3) applications: master's thesis or research competency. Requirements at the specific level are: (1) methodology: one course; (2) content area: three courses, typically all dealing with a specific content area; and (3) applications: dissertation research. Each of the three programs also has specific requirements in addition to the general outline above.

The objective of our Ph.D. program is to give our students the knowledge and skills they will need to be effective psychologists in their chosen area. Scientific training and research experience as well as knowledge and technical skills are a part of each student's program, but his/her program is individually designed around his/her needs and goals.

In the clinical and school programs, practicum and individual research projects can be specifically tailored to help the student prepare for the professional role of his/her choice. These programs also have a strong experiential base including field

activity in each year. Students are expected to be involved in research for a substantial portion of their program.

The department emphasizes a close working relationship between faculty and students. No single theoretical or philosophical model is espoused.

Resource Economics

M.S.

GRADUATE FACULTY

Associate Professor Grigalunas, *chairperson*. Professors Holmsen, Lampe, Rorholm, Spaulding; Associate Professors Gates, McConnell, Wallace, Weaver; Assistant Professors Bockstael, Opaluch, Sutinen, Tyrrell; Adjunct Assistant Professor Wang.

SPECIALIZATIONS

Marine economics, resource economics, international resource development, land use and community development.

MASTER OF SCIENCE

Admission requirements: GRE and a strong undergraduate record in economics is highly desirable.

Program requirements: 24 hours of course work which must include REN 534, written comprehensive examination and a thesis.

DOCTOR OF PHILOSOPHY IN ECONOMICS - MARINE RESOURCES (Interdepartmental)

This interdepartmental program offers study in the economics of marine resources. It is administered by the Department of Resource Economics with advice by graduate advisory faculty from several disciplines.

GRADUATE FACULTY

Resource Economics: Associate Professor Grigalunas, *chairperson*. Professors Holmsen, Lampe, Rorholm, Spaulding; Associate Professors Gates, McConnell, Wallace, Weaver; Assistant Professors Bockstael, Opaluch, Sutinen, Tyrrell; Adjunct Assistant Professor Wang.

Economics: Professors Dirlam and Sabatino; Associate Professor Ramsay; Assistant Professors Meade, Suzawa.

College of Business Administration: Professors Booth, Jarrett, Rogers; Associate Professors Comerford, Dash, Della Bitta; Assistant Professors Callaghan, Lord, Mojena.

SPECIALIZATIONS

Marine minerals and living resources of the sea; land use, water resources, domestic and international fisheries development and policy, recreation and environmental quality in the coastal zone.

Admission requirements: GRE including the advanced test in economics, six semester hours of statistics and the following courses or their equivalents: ECN 327, 328 and 375.

Program requirements: The Ph.D. qualifying examination is required of students admitted without the master's degree. ECN 527, 576, 628; REN 534, 602, 630, 634, 635 and 676. Additional courses may be elected from appropriate offerings in economics, resource economics, engineering, geography, oceanography, mathematics, political science, statistics, computer science and management science. The dissertation will be written on a problem involving marine resources or an associated industry, such as minerals, petroleum, fisheries, water, transportation, recreation or waste disposal.

Sociology**M.A.****GRADUATE FACULTY**

Associate Professor Reilly, *acting chairperson*. Professors England, Gardner, Gersuny, Poggie, Rosengren, Spaulding; Associate Professors Basis, Carroll, Gelles, Loy, Pollnac, Turnbaugh, Wells; Assistant Professors Guthrie, Lynch, Peters, Sennott, Shea, Travisano.

SPECIALIZATIONS

Crime, deviance and social control; health and illness; inequality and social welfare; students may also develop an interdisciplinary specialization with the permission of their advisers and the graduate committee.

MASTER OF ARTS

Admission requirements: GRE (verbal, quantitative analytic and advanced in sociology) preferred, MAT acceptable; background in social sciences and/or experience in social science research methods suggested; courses for "no program credit" may be required to remedy deficiencies in suggested areas.

Program requirements: all students must complete 30 credit hours including SOC 501, 502, 507 and EST 408, nine credits in one specialty area, and either SOC 505 or SOC 552. The thesis option requires 24 course credits plus completion and defense of a thesis. The non-thesis option requires 30 course credits plus successful completion of written and oral comprehensive examinations in theory, methods and one specialty area.

Spanish**M.A.****GRADUATE FACULTY**

Associate Professor Dornberg, *chairperson*, Department of Languages. Assistant Professor Mantega, *section head*. Professor Hutton, *director*, graduate program; Associate Professor Navascués; Assistant Professor Morin.

SPECIALIZATIONS

The master of arts in Spanish is designed for those who wish to perfect their undergraduate achievement in the general area of Hispanic Studies, including language mastery and understanding of literature in the total context of civilization and culture. The literary production of Spain, Spanish America and the Spanish-speaking peoples of the United States will be studied. Any one of these areas could provide a field for specialization.

MASTER OF ARTS

Admission requirements: MAT or GRE, undergraduate major in Spanish or equivalent, including 12 credits in Spanish or Hispanic-American literature. Qualified students may be admitted with less than 12 credits but must make them up without graduate credit.

Program requirements: all work carried out in Spanish. For thesis option, SPA 501, the seven core courses (21 credits), and thesis (6 credits). For non-thesis option, SPA 501, the seven core courses, and 2 elective courses from a wide variety of disciplines (6 credits).

Speech Pathology and Audiology**M.A., M.S.****GRADUATE FACULTY**

Assistant Professor Singer, *director of graduate programs*. Professors Beaupre, FitzSimons; Associate Professors Bailey, Grubman; Assistant Professor Hurley; Clinical Assistant Professor Regan.

SPECIALIZATIONS

Audiology and speech pathology.

MASTER OF ARTS AND MASTER OF SCIENCE

Admission requirements: MAT or GRE; 24 undergraduate credit hours in general speech, speech science, speech development, language development, child development, psychology, education. Although test scores and cumulative average are not the sole determining criteria for admission to the graduate programs in speech pathology and

audiology, those applicants with overall quality point averages of less than 3.0 on a 4.0 scale, or whose highest GRE verbal scores are not 500 or above, or whose highest MAT scores are not 50 or above, are advised that there is little chance for admission.

Program requirements: for M.A. in speech pathology (39 credit hours), thesis, SPE 504, 24 credit hours in speech pathology, 6 credit hours in audiology. For M.A. in audiology (39 credit hours), thesis, SPE 504, 24 credit hours in audiology, 6 credit hours in speech pathology. For M.S. in speech pathology (39 credit hours), no thesis; written comprehensive examination; SPE 504, 30 credit hours in speech pathology and 6 credit hours in audiology. For M.S. in audiology (39 credit hours), no thesis; written comprehensive examination; SPE 504, 30 credit hours in audiology and 6 credit hours in speech pathology. For either the M.A. or M.S. programs in speech pathology or audiology, students must complete 25 hours of directed observations and a minimum of 300 supervised clock hours of practicum in addition to the academic requirements. Because program requirements in both speech pathology and audiology include clinical responsibilities, the average length of time to complete any of the programs is two academic years. Completed applications for either the summer or fall semester must be received no later than March 1. No applicants are admitted for January.

Textiles, Clothing and Related Art

M.S.

GRADUATE FACULTY

Professor V.V. Carpenter, *chairperson*. Associate Professors Helms and Weeden; Assistant Professor Higa.

The department offers a wide variety of individualized programs in close association with other departments such as history, art, chemistry, education, marketing, human development, counseling and family studies, and various social science fields.

SPECIALIZATIONS

Social-psychological aspects of textiles and clothing, textile science, historic textiles and costume, marketing textiles, gerontology and other special populations.

MASTER OF SCIENCE

Admission requirements: GRE and a bachelor's degree with adequate preparation for the proposed area of study.

Program requirements: thesis or non-thesis option, 30 credits. For thesis option: TXC 524, 533, 580, courses in statistics recommended; other

courses chosen in accordance with student's background, interest, and needs; written comprehensive examination; oral defense of thesis. For non-thesis option: TXC 524, 533, 550, 560, 580; other courses chosen in accordance with student's background, interest and needs; written comprehensive examination. A maximum of twelve credits may be elected in allied fields for either thesis or non-thesis option.

Zoology

M.S., Ph.D. (Biological Sciences)

GRADUATE FACULTY

Professor Wilde, *chairperson*. Professors Chipman, Costantino, Goertemiller, Hammen, Heppner, Hill, Hyland, Salla, Shoop, Winn; Associate Professors Bibb, Bullock, Cobb, Kass-Simon, Krueger, Mottinger; Assistant Professors Foresman, Hairston; Adjunct Professors Eble, Farish, Gibbs, Tilly; Adjunct Associate Professor Miller; Emeritus Professor Zinn.

SPECIALIZATIONS

Acarology, animal behavior, cytology, ecology, electron microscopy, embryology, entomology, fisheries biology, genetics (developmental, ecological, population), herpetology, histology, ichthyology, invertebrate zoology, limnology, mammalogy, neurobiology, ornithology, parasitology, physiological ecology, physiology (cellular, comparative, mammalian), radioecology, reproductive biology, taxonomy, tissue culture, and molecular biology.

MASTER OF SCIENCE

Admission requirements: GRE with advanced test (biology) and bachelor's degree with major in zoology, biology or allied field. Applicants are normally admitted for September only. Applications should be completed by February 15.

Program requirements: thesis.

DOCTOR OF PHILOSOPHY (BIOLOGICAL SCIENCES)

Admission requirements: master's degree is not required. GRE with advanced test (biology) and bachelor's degree with major in zoology, biology or allied field.

Program requirements: dissertation, two languages (one of which may be waived with faculty approval), qualifying examination required for all candidates except holders of M.S. degree from the University of Rhode Island.

F = offered Fall 1979 semester - as of 2/20/80 section file (KINGSTON)
 F = offered Fall 1979 semester at EXT as of 1/03/80 - semester file
 S = offered Spring 1979 semester as of 3/25/80 section file (KINGSTON) - adjusted as of final section file 5/30/80.
 S = offered Spring 1979 at EXT as of 4/6/80 semester file counting (ACC)

Courses of Instruction

All graduate-level courses are described in full on the following pages. Undergraduate courses numbered at the 400 level, permitted for graduate credit in some cases, are described in the *Undergraduate Bulletin* and are listed here for reference only. Courses at the 500 level comprise the majority of course work between the bachelor's and the master's degrees. Those at the 600 level are advanced graduate courses. The 900-level courses are special types of graduate courses including graduate courses for which no degree credit is given. They include courses offered to remedy deficiencies as well as workshops, institutes, and courses offered one time only by visiting faculty.

Courses with two numbers, e.g. APA 501, 502, indicate a year's sequence and the first course is either a prerequisite for the second or at least the two cannot be taken in reverse order without special permission. Parentheses after a course number enclose either the old course number or, in cases of multiple listings, the departments and numbers under which the course is also offered.

The roman numeral indicates the semester the course will normally be offered; some courses, however, are offered only in alternate years and a few less frequently. The *Schedule of Courses* issued by the registrar at the November and May registration period must therefore be consulted to determine which courses will be offered in the following semester. The arabic numeral indicates the credit hours; distribution of class hours each week is in parentheses. The instructor's name follows the course description.

- 413 Contemporary Accounting Issues (I, 3)
- 415 Accounting-Computer Systems (I, 3)
- 422 Advanced Cost Accounting (II, 3)
- 431 Advanced Accounting (II, 3)
- 443 Federal Tax Accounting (I, 3)
- 461 Auditing (II, 3)

F 510 Financial Accounting (I and II, 3) Concepts of financial accounting in the analysis and interpretation of financial statements; emphasis on accounting principles. (Lec. 3) Staff

F 513 Accounting Systems (I, 3) Principles and problems related to design and installation of accounting control systems with emphasis on automated data processing. (Lec. 3) Pre: 312 or permission of department. Staff

S 535 Advanced Problems in Accounting (II, 3) General and specialized accounting problems that constitute the subject matter of CPA examinations. (Lec. 3) Pre: 431. Staff

F 544 Topics in Federal Taxation (II, 3) Special topics in areas of partnerships, corporations, trusts and estates. (Lec. 3) Pre: 443 and permission of department. Staff

S 548 Accounting for Non-Commercial Entities (II, 3) Principles and practices of fund accounting as applied to municipalities, educational institutions, hospitals and similar organizations, with particular emphasis upon municipal records and statements. (Lec. 3) Pre: permission of instructor. Staff

F 611 Managerial Accounting (I and II, 3) Determination of accounting information for the purposes of decision making, control, and evaluation with emphasis on decision models using accounting information. (Lec. 3) Pre: 510, MGS 580, 581 or equivalent. Staff

F 618 Current Accounting Theory (I, 3) Critical examination of accounting theory and practice to develop research techniques with emphasis on financial accounting. (Lec. 3) Pre: 510. Staff

S 619 Current Accounting Theory (II, 3) Critical examination of accounting theory and practice with respect to cost and managerial accounting. (Lec. 3) Pre: 321 or 611. Staff

F 662 Advanced Auditing (II, 3) Statements on auditing standards, auditing electronic systems, auditor's reports, statistical sampling in auditing, regulations of SEC, and cases in auditing. (Lec. 3) Pre: 461, MGS 581. Staff

F 681 Accounting Policy (II, 3) Development of accounting policy with respect to managerial planning and control. Emphasis on analytical evaluation of cases with major research project. (Lec. 3) Pre: graduate standing and completion of all foundation courses. Staff

F 691, 692 Directed Study in Accounting (I and II, 1-3) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Adult and Extension Education (ADE)

- 487 The Cooperative Extension Service in Today's Society (II, 3)

- 488 Methods and Materials for Adult Extension Education (I, 3)**
- 489 Utilization of Paraprofessionals in Adult and Extension Education (I, 3)**
- 491, 492 Special Problems in Adult Education (I and II, 1-3 each)**
- 575 Adult and Cooperative Extension Programming for Older Adults (I, 3)** Designing and conducting programs that will meet the learning needs of older adults. Useful for persons working with older adults in a variety of institutional settings. (Sem. 3) Jones
- 536 Virology Laboratory (II, 2)** Methods employed in diagnosis and for the investigation of the biological, physical, and chemical properties of animal viruses. (Lab. 6) Pre: 534. (May be taken simultaneously.) Chang
- 538 Epidemiology of Viral and Rickettsial Diseases (II, 2)** Principles of epidemiology. Interrelationships of host, environment and agent in viral and rickettsial diseases. (Lec. 2) Pre: 534. (May be taken simultaneously.) In alternate years, next offered 1980-81. Chang
- 555, 556 Pathology Rotation (I, II, 3)** Applied anatomical and clinical pathology of aquatic animals including necropsy duty and/or clinical hematology, chemistry, microbiology and parasitology. Attendance at weekly histopathology seminar and research/case report required. (Lab. 6) Pre: a course in histology or ZOO 323, MIC 432, and/or permission of instructor. Wolke
- 591, 592 Special Projects (I and II, 1-3 each)** Research projects in animal pathology and virology. Pre: permission of department. Staff
- 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- 699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Animal Pathology (APA)

401 Introduction to Pathology (I or II, 3)

461 (or ASC 461) Laboratory Animal Technology (I, 3)

501, 502 Seminar (I and II, 1 each) Preparation and presentation of scientific papers on selected subjects in animal pathology and virology. Staff

534 Animal Virology (II, 3) Basic properties, classification and evolution of animal viruses. Individual agents are studied in detail. (Lec. 3) Pre: MIC 432, 533 and permission of department. Yates and Chang

 474 **Population Genetics in Animal Breeding** (II, 3)
 476 **The Genetics of Fish** (II, 2)
 483 **Salmonid Aquaculture** (I, 3)
 491, 492 **Special Projects** (I and II, 1 each)

F 501, 502 **Animal Science Seminar** (I and II, 1 each)
 Preparation and presentation of papers on recent scientific developments and selected subjects in animal and poultry science and food science. (Lec. 1) Pre: senior standing. Staff

S 512 **Advanced Animal Nutrition** (II, 3) Digestion and metabolism of protein, carbohydrate, and fat by ruminant and nonruminant animals. Role of vitamins and minerals in metabolism. Experimental methods in animal nutrition. Emphasis on the ruminant animal. (Lec. 2, Lab. 2) Pre: 412, CHM 124 or BCP 581 and permission of department. In alternate years, next offered 1979-80. Hinkson

S 532 **Experimental Design**
 See Experimental Statistics 532.

580 **Experimental Animal Techniques**
 See Electrical Engineering 580.

F 584 **Advanced Aquaculture Systems** (II, 3) Development of design criteria, operational analysis and management of selected species in water re-use systems. (Lec. 2, Lab. 2) Pre: MIC 361 or equivalent or permission of instructor. In alternate years, next offered 1979-80. Meade

F 586 **Fish Nutrition** (I, 3) Digestion and metabolism of carbohydrate, protein and lipids by fish. Role of vitamins and minerals in metabolism and associative nutritional diseases resulting from deficiencies. Inadvertent toxic factors in fish feeds. (Lec. 3) Pre: 412 and CHM 228 or equivalent. In alternate years, next offered 1979-80. Meade

F 591, 592 **Research Problems** (I and II, 3 each) Research problems to meet individual needs of graduate and honors students in the field of animal breeding, nutrition, or physiology and food science. (Lab. 6, TBA) Pre: permission of department. Staff

S 599 **Masters Thesis Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Anthropology (APG)

- 401 **History of Anthropological Theory** (I or II, 3)
 402 **Methods of Anthropological Inquiry** (I or II, 3)
 405 **Psychological Anthropology** (I or II, 3)
 407 **Economic Anthropology** (I or II, 3)
 409 **Anthropological Linguistics** (I or II, 3)
 411 **Peoples of the Sea** (I, 3)
 412 **Primate Behavior and Organization** (I or II, 3)
 470 **Problems in Anthropology** (I and II, 3)

Art (ART)

- 403, 404 **Studio—Seminar I and II** (I and II, 3-6 each)
 405, 406 **Studio—Seminar III and IV** (I and II, 3-6 each)
 461 **Topics in Methods, Theory and Criticism** (I or II, 3)
 462 **Contemporary Art Seminar: Art since 1945** (II, 3)
 469, 470 **Art History—Senior Projects** (I and II, 3-6 each)
 480 **Advanced Topics in European and American Art** (I and II, 3)
 484 **Advanced Topics in Architectural History** (I or II, 3)
 F 501, 502 **Graduate Studio Seminar I and II** (I and II, 3 each) Intensive independent studio work under guidance of instructors. Periodic critiques and discussions related to work of all participants in the course. (Studio 6) Pre: 48 credits in studio for 501; 501 for 502. Staff

Astronomy (AST)

- 408 **Introduction to Astrophysics** (II, 3)

Biochemistry and Biophysics (BCP)

- 401 (or MIC 401) **Quantitative Cell Culture** (I, 3)
 403 (or MIC 403) **Introduction to Electron Microscopy** (I, 2)
 405 (or MIC 405) **Electron Microscopy Laboratory** (I, 2)
 411 **Biochemistry Laboratory** (II, 3)
 435 (or CHM 435) **Physical Chemistry for Life Sciences** (I, 3)
 491, 492 **Research in Biochemistry and Biophysics** (I and II, 1-6)

S 521 **Introductory Biophysics** (II, 3) Use of viscosity, diffusion, ultracentrifugation, light scattering, spectrophotometry and X-ray diffraction to study the size, shape, structure, and molecular weight of biological macromolecules. (Lec. 3) Pre: permission of instructor. Hartman

F 523, 524 **Special Topics in Biochemistry and Biophysics** (I, II, 1-6 each) Advanced work arranged to suit the individual needs of the student. Lecture and/or laboratory according to the nature of the problem. Credits not to exceed a total of 12. Pre: permission of department. Staff

F 541, 542 **Laboratory Techniques in Biochemistry** (I, II, 3 each) Biochemical techniques of enzyme preparation and purification, cell fractionation, ion-exchange and paper chromatography, manometry, fluorometry, polarography, radioactive tracer. Assigned research on advanced level using techniques. (Lab. 9) Pre: permission of department. Staff

F 581, 582 **General Biochemistry** (I, II, 3 each) Systematic treatment of the principles of biochemistry. Basic course dealing with chemistry of biological substances and transformations in living organisms. (Lec. 3) Pre: CHM 228, 229. Staff

F 595, 596 **Seminar in Biochemistry and Biophysics** (I, II, 1 each) Presentation of papers on selected subjects in biophysics. (Lec. 1) Staff

F 599 **Masters Thesis Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

- F** 601 **Enzymes (I, 3)** Factors affecting the rate of catalysis in enzymic reactions. Thermodynamic and kinetic characteristic of enzymes' profiles. (Lec. 1½, Lab. 8) Pre: 581, 582, and/or permission of department. In alternate years, next offered 1979-80. Purvis and Tremblay
- S** 76 **602 The Mitochondrion (II, 3)** Detailed study of the structure, properties and functions of the mitochondrion. (Lec. 3) Pre: 581, 582, and/or permission of department. In alternate years, next offered 1979-80. Purvis
- F** 78 **611 Metabolism (I, 3)** Intensive study of metabolic pathways of carbohydrates, lipids and nitrogenous compounds, their interrelationships. Effects of hormonal and nutritional status on activity of these pathways. (Lec. 3) Pre: 581, 582, and/or permission of department. In alternate years. Purvis and Tremblay
- S** 79 **612 Biochemical Regulation of Cellular Metabolism (II, 3)** Biochemical regulatory mechanisms of cellular metabolism in micro-organisms and mammalian systems, at the level of the genome, protein synthesis and enzyme catalysis. (Lec. 3) Pre: 581, 582, and/or permission of department. In alternate years. Tremblay
- F** 79 **622 Advanced Electron Microscopy**
See Microbiology 622.
- F** 79 **624 Advanced Electron Microscopy Laboratory**
See Microbiology 624.
- F** 651, 652 **Research in Biochemistry and Biophysics (I, II, 3 each)** Student is required to outline a research problem, conduct necessary literature survey and experimental work and present the observations and conclusions in a report. (Lab. 6) Pre: graduate standing. Staff
- F** 699 **Doctoral Dissertation Research (I, II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Botany (BOT)

- 402 **Systematic Botany (I, 3)**
- 418 **Marine Botany (II, 3)**
- 419 **Freshwater Botany (I, 3)**
- 424 **Plant Ecology (II, 3)**
- 426 (526) **Plant Geography (II, 3)**
- 432 **Mycology: Introduction to the Fungi (I, 4)**
- 445 **Advanced Plant Physiology (II, 3)**
- 453 **Cytology (I, 3)**
- 455 (or ZOO 455) **Marine Ecology (I, 3)**
- 457 (or ZOO 457) **Marine Ecology Laboratory (I, 1)**
- S** 77 **511 Developmental Plant Anatomy (II, 3)** Ontogeny of plant structures is studied from zygote through seed production with emphasis on recent experimental studies which elucidate the morphogenetic mechanisms. Ecological anatomy is included. (Lec. 2, Lab. 3) Pre: 311 or equivalent. In alternate years, next offered 1980-81. Hauke
- S** **512 Morphology of Vascular Plants (II, 3)** Comparative survey of development, form and anatomy of extinct and extant vascular plants and modern interpretation of evidence concerning their interrelationships. (Lec. 2, Lab. 2) Pre: 311 or equivalent. In alternate years. Hauke
- F** 75 **520 Tidal Marsh Plant Ecology (I, 3)** Vegetation of tidal marshes and consideration of the ecological, geological, historical and sociological aspects. (Lec. 2, Lab. 2) Pre: 262; 315 and 323 recommended. Staff
- S** **524 Methods in Plant Ecology (I, 3)** Methods in analysis of vegetation and microenvironments. Emphasis on quantitative techniques in analysis of vegetation, soil and microclimate, techniques in physiological ecology. (Lec. 2, Lab. 3) Pre: 111 and 424 or equivalent; EST 412 desirable. In alternate years, next offered in 1979-80. Killingbeck
- F** 76 **534 Physiology of the Fungi (I, 3)** Life processes of fungi with particular emphasis on chemical composition, organic and mineral nutrition, toxic and stimulating agencies, and metabolism. Also stresses phenomena of variation of growth and sporulation as affected by various environmental factors. (Lec. 2, Lab. 2) Pre: 332, or permission of department. In alternate years, next offered 1979-80. Koske
- F** **538 Ecology of Fungi (I, 3)** Interactions of fungi with plants, animals, and the environment with emphasis on the role of fungi in the ecosystem. Individual project required. (Lec. 1, Lab. 4) Pre: 432 or permission of instructor. In alternate years, next offered 1979-80. Koske
- S** **540 Experimental Mycology (II, 3)** Growth and reproduction of fungi as affected by nutritional, environmental and genetic factors, with emphasis on experimental methods. (Lec. 1, Lab. 4) Pre: 432 and MIC 201 or 211 or permission of instructor. In alternate years, next offered in 1979-80. Goos
- S** **542 Medical Mycology (II, 3)** Fungi pathogenic for humans and animals. (Lec. 1, Lab. 4) Pre: 432 or MC 201 or 211 or permission of instructor. In alternate years, next offered in 1980-81. Goos
- F** **551 Seminar in Aquatic Botany (I, 1)** Readings and discussion on current research involving algae and other aquatic plants. (Lec. 1) Pre: permission of instructor. Harlin, Sheath
- F** **554 Cytogenetics (I, 4)** Comparisons of various types of crossing-over, chromosomal aberrations and their effects, mutation and other cytogenetic phenomena in fungi and higher organisms. Laboratory studies of meiosis in maize, identification of chromosomes and induced rearrangements. (Lec. 2, Lab. 4) Pre: 352, 453, or permission of instructor. Mottinger
- F** **559 Physiological Ecology of Marine Macroalgae (I, 4)** Comparative studies designed to investigate those environmental factors regulating distribution, physiology and development of macroalgae through field, laboratory and library research. (Lec. 2, Lab. 4) Pre: 418 or equivalent, or permission of instructor. In alternate years, next offered 1979-80. Harlin
- S** **562 Seminar in Plant Ecology (II, 2)** Recent topics and investigations pertinent to plant ecology. Library research, oral presentation of reports, and group discussions. (Lec. 2) Pre: 424 or equivalent, and permission of instructor. Killingbeck
- F** **579 Advanced Genetics Seminar**
See Zoology 579.
- F** **581, 582 Botany Seminar (I and II, 1 each)** Preparation and presentation of papers on subjects in selected areas relating to botany. (Lec. 1) Pre: required of graduate students majoring in botany. S/U credit. Staff
- F** **591, 592 Botanical Problems (I and II, 1-3 each)** Special work arranged to meet the needs of individual students who are prepared for and desire advanced work in botany. Offered only by arrangement with staff. (Lec. 1-3, Lab. 2-6) Staff

^{FS}
593, 594 Botanical Problems (I and II, 1-3 each) Similar to 591, 592, but arranged to meet needs of students desiring further advanced work in botany. Offered only by arrangement with staff. (Lec. 1-3, Lab. 2-5) Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

640 Advanced Mycology Seminar (I and II, 1 each) Specialized and advanced treatment of biology and research in the major groups of the fungi, including systematics, physiology, and ecology. (Lec. 1) Pre: permission of instructor. May be repeated. Goos

645 Environmental Plant Physiology (I, 3) Influence of environmental factors on growth and development at organismic and cellular levels. Explanation of effects through cellular mechanisms. Pre: 445, BCP 582 or FSN 452 or equivalent or permission of instructor. In alternate years, next offered 1979-80. Albert

^S
659 Seminar in Physiological Ecology of Macroalgae (II, 1) Readings and discussion of specialized and advanced research, stressing mechanism of environmental adaptation. (Lec. 1) Pre: 559, or permission of instructor. Harlin

^{FS}
661 Phytoplankton Taxonomy
 See Oceanography 661.

663 Phytoplankton Physiology
 See Oceanography 663.

^S
664 Phytoplankton Ecology
 See Oceanography 664.

^S
667, 668, 669 Advanced Phytoplankton Seminars
 See Oceanography 667, 668, 669.

^{FS}
691, 692 Botanical Problems (I and II, 1-6 each) Special work to meet needs of individual students who are prepared to undertake special problems. (Lec. 3 or Lab. 6) Pre: permission of department. Staff

^{FS}
693, 694 Research in Botany (I and II, 3 each) Assigned research, subject matter of which is to be arranged with a member of department and with the approval of the head of the department. (Lab. 6) Staff

^S
699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Business Education (BED)

428 Coordinating and Developing Curriculum for Cooperative Vocational Business and Distributive Education (I, 3)

^S
520 Research and Methods in Teaching Office Occupations Subjects (I, 3) Psychological principles of skill building, content, methods of teaching, curriculum materials, current thought, and evaluation in the teaching of office occupations subjects. (Lec. 3) Staff

^S
522 Improvement of Instruction in Social Business Subjects (II, 3) Research, objectives, methods of instruction, curriculum materials, current thought, and evaluation in the teaching of such subjects as economics, consumer economics, economic geography, business law and general business. (Lec. 3) Staff

524 Foundations and Recent Developments in Business Education (II, 3) Philosophy and objectives of business education, principles of curriculum development and evaluation, supervisory problems, organization and administration of cooperative part-time programs, historical developments, legislation, recent developments, and current status of business education. (Lec. 3) Staff

525 Research Seminar in Business Education (I, 3) Analysis of research studies in the field. Research technique applied to business education. Emphasis on reading, interpretation and application of research findings. Planning research projects. Planning and approval of outline for a field study project required. (Lec. 3) Pre: a basic course in statistics and permission of department. Staff

526 Field Study and Seminar in Business Education (I and II, 3) Carrying out of the field study project approved in 525 with attendance and participation in seminar meetings. (Lec. 3) Pre: a basic course in statistics and 525. Staff

527 Communication for Business (I and II, 3) Development of communication principles and practices for business and industry. Emphasis on reporting—written and oral—and correspondence as well as other forms of business communications. Staff

^S
691, 692 Directed Study in Business Education (I and II, 1-3) Advanced work under the supervision of a member of the staff and arranged to suit individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Business Law (BSL)

442 Property Interest (II, 3)

450 Consumer Law Legislation (I, 3)

^S
500 Legal Environment of Business (I and II, 2) Outline of American legal system; substantive rules of law in contemporary business environment; legal aspects of business transactions. (Lec. 2) Staff

501 Law and Accounting (I, 3) Introduction to CPA law exam, question and answer techniques, coverage of most accounting related legal subjects currently included on CPA exam. (Lec. 3) Pre: 500 or permission of department. Sisco

^S
691, 692 Directed Study in Business Law (I and II, 1-3) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Chemical Engineering (CHE)

403, 404 (or OCE 403, 404) Introduction to Ocean Engineering Processes I and II (I and II, 3 each)

425 Process Dynamics and Control (II, 3)

437 Materials Engineering (I and II, 3)

447 (or FSN 447) Food Engineering I (I, 4)

464 Industrial Reaction Kinetics (I, 3)

471 Analysis of Engineering Data (I or II, 3)

^S
501, 502 Graduate Seminar (I and II, 1 each) Seminar discussions including the presentation of papers based on research or detailed literature surveys. (Lec. 1) At-

tendance is required of all students in graduate residence, but a maximum of 1 credit per year is allowed, no more than 2 credits for the entire period. Staff

plate thicknesses. (Lec. 2, Lab. 3) Pre: PHY 340 or 341. Staff

530 Polymer Chemistry (I, 3) Polymer structure, molecular forces, glass and crystalline transitions, solution properties, polymerization kinetics, molecular weight distribution, fractionation, viscoelastic properties and transport processes. (Lec. 3) Pre: CHM 222 and 332 or permission of instructor. Barnett

573 Mechanical Metallurgy (I or II, 3) Behavior and response of metals to mechanical plastic forming. Property control by analysis and design of industrial metal processing. Principles of annealing, forging, rolling, extruding, rod, wire and tube drawing. Recent advances and developments. (Lec. 3) Pre: permission of instructor. Staff

531 Polymer Engineering (II, 3) Polymer processing and mechanical properties of polymers. (Lec. 3) Pre: 342 or 344 and 530, or permission of instructor. Barnett

574 Biochemical Engineering (I, 3) Introduction to biotechnology. Includes properties of biological materials, dynamics, control and operation of biological systems and processing of biological materials. (Lec. 3) Pre: permission of instructor. In alternate years. Thompson

532 Ceramic Engineering (I, 3) Properties of ceramic materials as related to starting materials and forming, densification and finishing processes. Emphasis on resulting phases and microstructure. Application of physical and chemical principles to tailor properties to engineering needs. (Lec. 3) Pre: 437 or equivalent. Rockett

575 (or FSN 575) Biochemical Engineering II (II, 3) Examines current issues in biochemical engineering with emphasis on developing alternate sources of food energy and chemicals. (Lec. 2, Lab. 3) Pre: 574 or permission of instructor. Barnett

533 Engineering Metallurgy (II, 3) Structures and properties of metals and alloys required to meet typical engineering problems; proper selection of tool materials; properties of stainless steels; materials of special importance in nuclear fields, etc. (Lec. 2, Lab. 3) Pre: 333 or consent of instructor. Mairs

581 Introduction to Nuclear Engineering
See Nuclear Engineering 581.

534 Corrosion and Corrosion Control
See Ocean Engineering 534.

582 Radiological Health Physics
See Nuclear Engineering 582.

535 Advanced Course in Corrosion
See Ocean Engineering 535.

583 Nuclear Reactor Theory
See Nuclear Engineering 583.

537 Advanced Materials Engineering (II, 3) Engineering properties, molecular design and applications of materials. Synthesis, fabrication and processing of materials. Effects of environment on materials, materials products, devices and systems. (Lec. 3) Pre: 437 and PHY 340 or 341. Gielisse

585 Measurements in Nuclear Engineering
See Nuclear Engineering 585.

538 Nuclear Metallurgy
See Nuclear Engineering 538.

586 Nuclear Reactor Laboratory
See Nuclear Engineering 586.

539 Electron and Light Microscopy of Solids (I, 3) Theory and physical principles governing the design and use of light and electron optical systems in identification, analysis and structural characterization of metals, ceramics, polymers, glasses and composites. Emphasis on polarized light and scanning electron microscopy. (Lec. 3) Pre: 437 or equivalent. Gielisse and Rockett

591, 592 Special Problems (I and II, 1-6 each) Advanced work, under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problem. Credits not to exceed a total of 12). Pre: permission of department. Staff

540 Phase Equilibria (II, 3) Interpretation, construction and thermodynamics of one, two, three to n-component phase diagrams with examples of their use in chemical, ceramic, metallurgical and mineral engineering. Pre: CHM 341 or equivalent. Rockett

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

548 (or FSN 548) Food Engineering II (II, 3) A study of methods of concentration used in the food industry for preservation and isolation of products. (Lec. 2, Lab. 3) Pre: 447 or 348. Barnett and Rand

613 Advanced Chemical Engineering Thermodynamics (I, 3) Applications of the first, second and third laws of thermodynamics and their relation to chemical engineering processes. Emphasis on properties of fluids, chemical and physical equilibria and refrigeration. (Lec. 3) In alternate years. Votta

549 (or FSN 549) Food and Biochemical Engineering III (II, 3) Processing of biochemicals with emphasis on protein production, unit operations of protein recovery, immobilized enzyme reactors and hydrocolloid rheology. (Lec. 2, Lab. 3) Pre: 447 or FSN 431 or permission of instructor. Barnett and Rand

614 Advanced Chemical Engineering Thermodynamics (II, 3) Continuation of 613. (Lec. 3) Pre: 613. In alternate years. Votta

572 X-ray Diffraction and Fluorescence (I, 3) Fundamentals, properties, and applications of X-rays for identification and chemical analysis of materials, determination of lattice parameters, phase transformations, textures, residual stresses, grain and particle sizes, film and

625 Automatic Process Control (II, 3) Theory of automatic control as applied to industrial processing systems. (Lec. 3) In alternate years. Shilling

627 (or IDE 641) Molecular Aspects of Materials Processing (I or II, 3) Detailed analysis of fundamental physical and chemical aspects of generation, fabrication and application of materials in processing. Includes major material groups, molecular nature of material interaction, and mechanical, chemical, and thermal theories of specific processing modes. (Lec. 3) Pre: 437 or permission of instructor. Gielisse

640 Transport Phenomena I (I, 3) Analysis of transport processes in fluids with emphasis on diffusion of matter. (Lec. 3) Pre: MTH 244 and CHE 343 or permission of instructor. Knickle

5 **641 Transport Phenomena II (II, 3)** Interphase transfer, turbulent transport processes and boundary layer theory, with application to fixed and fluid bed processes, membrane processes, biochemical, biomedical and electrochemical systems. (Lec. 3) Pre: 640. Barnett

F **78** **643 Fluid Dynamics (II, 3)** Advanced problem course dealing with isothermal and nonisothermal flow of compressible and incompressible fluids. (Lec. 3) In alternate years. Staff

F **75** **644 Process Heat Transfer (II, 3)** Advanced study of heat transfer by conduction in the steady and unsteady state; radiation and convection. (Lec. 3) In alternate years. Knickle

S **12** **645 (or MCE 645) Boiling Heat Transfer and Two-phase Flow (I, 3)** Nucleation and bubble growth, pool boiling, and flow boiling. Hydrodynamics of two-phase flow, the boiling crisis, and instabilities in boiling systems. (Lec. 3) Pre: MCE 546, CHE 644 or permission of instructor. In alternate years. Test and Staff

S **646 Radiation Heat Transfer**
See Mechanical Engineering 646.

F **647 Mass Transfer I (I, 3)** Advanced course dealing with the application of mass transfer theory in the distillation of binary, multi-component, and complex mixtures. (Lec. 3) In alternate years. Thompson

S **648 Mass Transfer II (II, 3)** Advanced study of vapor-liquid equilibria and mass-transfer theory applied to gas-liquid systems; humidification and gas absorption, simple and multicomponent systems, with and without chemical reaction. (Lec. 3) In alternate years, next offered 1980-81. Staff

new
78-79 **649 Mass Transfer III (II, 3)** Advanced study of industrial liquid extraction, adsorption, and ion exchange; liquid-liquid, liquid-solid, and gas-solid phase equilibria; separation cascades, stages, and differential separations: design and performance characteristics. (Lec. 3) Pre: advanced graduate standing or permission of instructor. In alternate years, next offered 1980-81. Staff

F **76** **651, 652 Advanced Design (I and II, 3 each)** Advanced course in the coordination of chemical or nuclear engineering principles and economics to the design of complete industrial plants. Students work design problems on an individual basis, with the guidance of one or more instructors. Staff

S **78** **664 Applied Reaction Kinetics (II, 3)** Application of principles of chemical reaction kinetics to industrial processes. (Lec. 3) In alternate years. Shilling

F **77** **682 Radiation Shielding**
See Nuclear Engineering 682.

F **77** **683 Advanced Nuclear Reactor Theory**
See Nuclear Engineering 683.

S **76** **687 Nuclear Chemical Engineering**
See Nuclear Engineering 687.

F **691-692 Special Problems (I and II, 1-6 each)** Advanced work, under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problem. Credits not to exceed a total of 12.) Pre: permission of department. Staff

F **699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Chemistry (CHM)

401 Intermediate Inorganic Chemistry (I, 3)

412 Instrumental Methods of Analysis (II, 3)

414 Instrumental Methods of Analysis Laboratory (II, 2)

425 Qualitative Organic Analysis (I, 2)

427 Intermediate Organic Chemistry (I, 3)

431, 432 Physical Chemistry (I and II, 3 each)

435 (or BCP 435) Physical Chemistry for Life Sciences (I, 3)

F **501 Advanced Inorganic Chemistry I (I or II, 3)** Systematic analysis of bonding schemes and structural aspects of molecular systems encountered in inorganic chemistry. Special emphasis on electron density distributions, physical methods of analysis, and practical applications of quantum mechanics. (Lec. 3) Pre: 401. Staff

S **502 Advanced Inorganic Chemistry II (II, 3)** Modern inorganic chemistry approached from experimental, theoretical and descriptive points of view. Includes electronic structure and bonding in coordination chemistry, topology, thermodynamics of complex formation, mechanisms, lanthanides and actinides. (Lec. 3) Pre: 401 or equivalent. Staff

S **76** **504 Physical Methods of Inorganic Chemistry (II, 3)** Theory and application of principal physical methods used in the preparation, analysis, and investigation of properties of inorganic chemicals, with emphasis on investigations concerning molecular structure and electron density distributions in molecular systems. (Lec. 2, Lab. 3) Pre: 322. Petersen

F **511 Advanced Analytical Chemistry I (I, 3)** Principles of aqueous and non-aqueous titration. Theory of separations including distillation, solvent extraction, and especially gas and liquid chromatography. Statistical treatment of experimental data. (Lec. 3) Pre: 412 or permission of instructor. Staff

S **512 Advanced Analytical Chemistry II (II, 3)** Continuation of 412 with emphasis on principles and recent developments in application of physicochemical phenomena to solution of chemical problems. (Lec. 3) Pre: 412, PHY 340, and MTH 243. Staff

F **78** **518 Radiochemistry (II, 3)** Theory and principles of nuclear science as applied to the various fields of chemistry. Radioactivity, radiation detection and measurement, preparation and separation of radionuclides, emphasis on solution of chemical and environmental research problems with the techniques of nuclear chemistry. (Lec. 3) Pre: 432, PHY 214 or permission of instructor. Fasching

F **521 Advanced Organic Chemistry I (I, 3)** Emphasis on fundamental organic structure theory and reaction mechanisms. (Lec. 3) Pre: 228 and 230. Vittimberga

S **522 Advanced Organic Chemistry II (II, 3)** Modern synthetic reactions and their applicability to such areas as natural products and heterocyclic chemistry. (Lec. 3) Pre: 521 or permission of instructor. Cheer

F **531 Advanced Physical Chemistry I (I, 3)** Principles and applications of classical physical chemistry. Includes the three laws of thermodynamics, thermochemistry, phase equilibria, kinetic rate laws, and mechanisms of gas phase reactions. (Lec. 3) Pre: 432 or permission of instructor. Staff

- 532 Advanced Physical Chemistry II (II, 3)** Introduction to modern chemistry with emphasis on quantum chemistry and statistical thermodynamics. Includes development of quantum theory, applications of quantum theory, development and application of statistical distribution functions. (Lec. 3) Pre: 432 or permission of instructor. Staff
- 535 Chemical Applications of Group Theory (I, 2)** Fundamental principles of group theory developed as used in simplifying problems of a chemical nature. Group theoretical approach to several typical problems such as hybrid orbitals, molecular orbitals, and molecular vibrations. (Lec. 2) Pre: 432. Brown
- 536 Molecular Spectroscopy and Structure (II, 3)** Theory of molecular dynamics, interaction of electromagnetic radiation with matter. Absorption and emission spectra in infrared, far-infrared, and microwave regions. Raman scattering in the visible region. Use of spectral results in determining physical properties and elucidating molecular structures will be emphasized. (Lec. 3) Pre: 535 or permission of instructor. Brown
- 544 Data Processing in Chemistry (II, 3)** An introduction to the use of computers for acquisition, storage, and analysis of chemical data. Types of computer systems and software packages available to the chemist, and their effective integration into chemistry-related projects. (Lec. 2, Lab. 3) Pre: 431 and a one-semester course in FORTRAN programming or equivalent. In alternate years, next offered in 1980-81. Petersen
- 551, 552 Non-thesis Masters Research (I and II, 3 each)** Research on original problem for fulfillment of research requirement of non-thesis master's degree. Literature survey, laboratory work and detailed report required. (Lab. 9) Pre: permission of department.
- 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee. A minimum of six credits is required of students who have chosen the thesis option for the master's degree.
- 602 The Transition Metals (I, 3)** Ligand field theory and its applications. Basic quantum mechanical calculations involving thermodynamical, spectral and magnetic properties of transition metal compounds. (Lec. 3) Pre: 530. In alternate years, next offered in 1980-81. Nelson
- 608 Inorganic Reaction Mechanisms (II, 3)** Kinetics and mechanisms of reactions in aqueous solution: techniques, results, and theoretical interpretation. Instrumentation for studying rapid reactions in solution, relaxation methods, electron transfer rates, hydrolytic and solvolytic reactions, metal ion complexation, reactions of biochemical significance. (Lec. 3) Pre: 502 or permission of instructor. Kirschenbaum
- 615 Trace Analysis of Inorganic Substances (I, 3)** Principles of trace analysis. Emphasis on techniques and instrumentation. The advantages and limitations of such techniques as atomic absorption spectroscopy, neutron-activation analysis, flame emission X-ray fluorescence will be presented. (Lec. 3) Pre: 511 or permission of instructor. Fasching
- 616 Applied Analytical Techniques (II, 3)** Application of analytical instrumentation and techniques to practical problems. Limitations and specific difficulties of analyzing complex matrices in practical research. Problem oriented presentation. (Lec. 3) Pre: 511 and 512 or permission of instructor. P. R. Brown
- 617 Advanced Instrumentation (I, 3)** Basic design and theory of design of instruments. Discussion of advantages and limitations of specific instruments. Current research in instrument design and critical evaluation of designs. (Lec. 3) Pre: 511 and ELE 220 or 537 or its equivalent. Forcè and Fashing
- 618 Theory of Separations (II, 3)** Companion to 615. In-depth presentation of theory of separation processes. Emphasis on methods development, advanced topics and current advances using gas and liquid chromatography. (Lec. 3) Pre: 511 or permission of instructor. P. R. Brown
- 622 Advanced Organic Synthesis (II, 3)** Discussion of modern synthetic methods for the construction of complex chemical structures. (Lec. 3) Pre: 522. Staff
- 626 Free Radicals and Photochemistry (I, 3)** Theory of formation and detection of free radicals and photoexcited states. Bond homolysis, additions, oxidation, polymerization, rearrangements and other free radical reactions. (Lec. 3) Pre: 521, 522 or equivalent. Abell
- 627 Organic Intermediates (I, 3)** The formation, reaction and decomposition of short-lived organic intermediates will be explored with special emphasis on the carbonium ion, carbanion and carbene species. (Lec. 3) Pre: 521. Staff
- 628 Organometallic Chemistry (II, 3)** The interaction of the organic and inorganic moieties and their effects upon each other. Special emphasis will be placed on the interaction of organic moieties with the transition and main group metals. (Lec. 3) Pre: 502. Rosen
- 636 Advanced Topics in Physical Chemistry (II, 3)** Advanced topics in quantum chemistry and statistical thermodynamics. Time-dependent and independent perturbation theory, interaction of light with matter, electronic structure of atoms and molecules, Hartree-Fock theory, classical and quantum statistical mechanics. (Lec. 3) Pre: 529, 532, or permission of instructor. Freeman
- 641, 642, 643, 644 Graduate Seminar (I and II, 1 each)** Results of detailed literature surveys are presented orally and in writing. Required for candidates for advanced degrees in chemistry. (Lec. 1) S/U credit. Staff
- 691 Special Topics (I and II, 1-3)** Covers the following special research interests: (a) carbohydrate chemistry, (b) chemical kinetics, (c) clinical chemistry, (d) computer techniques in analytical chemistry, (e) forensic chemistry, (f) free-radical rearrangements, (g) recent advances in analytical chemistry, (h) light scattering, (i) molecular orbital theory, (j) pericyclic reactions, (k) surface chemistry, (l) X-ray analysis of organic molecules. (Lec. 2) May be repeated up to a maximum of 6 credits. Pre: permission of instructor. Staff **F-691C, D, E S-691C**
- 699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Child Development and Family Relations (CDF)

See Human Development, Counseling and Family Studies (HCF).

Civil and Environmental Engineering (CVE)

- 442 Traffic Engineering (I, 3)
 447 Highway Engineering (II, 3)
 453 Computer Analysis of Structures (I, 3)
 472 Industrial Air Pollution (I or II, 3)
 473 Analysis of Air Pollutants (I or II, 3)
 478 Solid Waste Disposal and Management (II, 3)
 481 Soil Behavior (I, 3)
 482 Soil Engineering (II, 3)
 483 Foundation Engineering (II, 3)
 491, 492 Special Problems (I and II, 1-6 each)
 495 Civil and Environmental Engineering Systems (I, 3)

521 Advanced Strength of Materials (I or II, 3) Relations between stresses at a point on different planes passing through the point. Stress concentrations and localized stress. Introduction to the analysis of statically indeterminate stresses in which methods involving elastic strain energy are used. Consideration of the plastic analysis of structures. (Lec. 3) Staff

524 (or OCE 524) Marine Structural Design (II, 3) Includes the design of marine structures, consideration of marine construction materials, waterfront structures, ocean towers and underwater structures. (Lec. 2, Lab. 3) Pre: 351. McEwen

551 Advanced Structural Analysis (I or II, 3) Deflections of planar structures using energy concepts and elastic curve principles. Analysis of indeterminate planar structures using advanced techniques. Flexibility and stiffness matrices. (Lec. 3) Pre: permission of department. Staff

565 Response of Structures to Dynamic Loads (I or II, 3) Behavior of materials and components in civil engineering structures. Numerical and exact methods applied to response in the elastic and inelastic range. Matrix analysis. (Lec. 3) Pre: permission of department. Staff

570 Sanitary Chemistry (I, 3) Application of analytical chemistry to analysis of natural waters; physical chemistry and organic chemistry of aqueous media; chemical principles applicable to operations of sanitary engineering. (Lec. 3) Pre: permission of instructor. Sussman

571 Sanitary Chemistry Laboratory (II, 3) Applications of chemical laboratory procedures to control of water and waste water treatment processes. (Lec. 2, Lab. 3) Pre: 570. Sussman

572 Biosystems in Sanitary Engineering (I or II, 3) Microorganisms which constitute the biological systems in water pollution, water purification and waste water treatment. Application of principles of microbiology and biochemistry to analysis and design in fields of sanitary engineering and water resources. (Lec. 2, Lab. 3) Pre: permission of instructor. Poon

575 Open Channel Hydraulics (I or II, 3) Analysis of uniform, critical, varied flow, and unsteady flow in open channels. Principles will be applied to open channel design. (Lec. 3) Pre: MCE 354. Poon

584 Principles of Pavement Design (I or II, 3) Design of flexible and rigid type pavements. Design and control of concrete paving mixes, bituminous concrete paving mixes and current research on pavement design. Emphasis on soil engineering including stabilization, moisture movement and frost considerations. (Lec. 2,

Lab. 3) Pre: 380 and permission of instructor. Moulthrop and Nacci

585 Soil Stabilization (I or II, 3) Factors that affect soil stability. Mechanisms of soil stabilization. Design and analysis of stabilized soils. (Lec. 2, Lab. 3) Pre: 380 and permission of instructor. Staff

586 Physico-chemical Properties of Soils (I, 3) Influence of physico-chemical properties of soils on engineering characteristics and performance. Application of mineralogy, ion exchange and colloidal theory; effect of marine environment, and the nature of soil water. Pre: 481 or permission of instructor. Offered in the fall of odd calendar years. Staff

587 Groundwater Flow and Seepage Pressures (I, 3) Hydrodynamics of fluid flow through porous media. Analytical methods for steady and unsteady seepage in aquifers; theoretical analysis with practical modification of seepage problems involving foundations, drainage structures, earth dams and wells. (Lec. 2, Lab. 3.) Pre: 380 and permission of instructor. Offered in the spring of odd calendar years. Kelly

588 Groundwater Hydrology (II, 3) Quantitative methods of groundwater hydrology including determination of aquifer properties and yield. Modeling of groundwater systems for management quantity of water and movement of contaminants. Field and laboratory measurements. (Lec. 2, Lab. 3) Pre: MCE 354 and CVE 380 or equivalent. Offered in spring of even calendar years. Kelly

596 Numerical Methods in Structural Engineering (I or II, 3) Methods of successive approximations and numerical procedures in the solution of stress, vibration and stability problems in structural members. Nonuniform members, elastic supports, plates, torsion. (Lec. 3) Pre: permission of department. Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

601, 602 Graduate Seminar (I and II, 1 each) Discussions and presentation of papers based on research or detailed literature surveys. (Lec. 1) Required of all students in graduate residence, but a maximum of 1 credit per year is allowed, no more than 2 credits for the entire period. Staff

650 Advanced Structural Analysis (I or II, 3) Continuation of 551. Analysis of indeterminate trusses, structures with nonprismatic members, and shell and folded plate structures. Investigation of secondary stresses. (Lec. 3) Pre: permission of department. Staff

651 Plate Structures (I or II, 3) Fundamental theories of bending and buckling of plates with practical application to the design of structural plate components of metal and reinforced concrete. (Lec. 3) Pre: permission of instructor. Staff

652 Shell Structures (I or II, 3) Membrane and bending theories of thin shells and their practical application to the design of shell and folded-plate structures of metal and reinforced concrete. (Lec. 3) Pre: 651 or permission of instructor. Staff

653 Analysis of Space Structures (I or II, 3) Analysis of three-dimensional determinate and indeterminate beams, frames, and trusses by matrix methods. Deflections and indeterminate analysis using virtual work, conjugate structure, and slope deflection procedures. Emphasis on

numerical solutions using the digital computer. (Lec. 3). Pre: 396, 551. Lavelle

(Lec. 3) Pre: 681. Offered in the spring of even calendar years. Staff

655 Matrix Methods in Structural Analysis (I or II, 3) Development of finite-element methods of structural analysis. Application to stress problems and to plate and shell structures. (Lec. 3) Pre: permission of instructor. Fang

685 (or OCE 685) Seminar in Marine Geotechniques (I, 1) Class discussions of selected topics in marine geotechniques based on extensive reading in the scientific literature. A research paper by each student and lectures will supplement discussions. (Lec. 1) Pre: permission of instructor. Offered in the fall of odd calendar years. Staff

671 Advanced Waste Water Treatment (I or II, 3) Latest developments in biological and physiochemical treatment processes. Emphasis on the tertiary treatment of sewage and the ultimate treatment of industrial wastes. Laboratory measurements. (Lec. 2, Lab. 3) Pre: 570 or permission of instructor. Poon and Sussman

691, 692 Special Problems (I and II, 1-6 each) Advanced work, under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problems.) Credits not to exceed a total of 12. Pre: permission of department. Staff

672 Water Pollution Control and Treatment of Waste Water (I or II, 3) Waste water characteristics, effects and purification in natural water, government control strategies and impacts, cost of control, theory and mathematical concepts of secondary and tertiary treatment process, their limitations and late developments. (Lec. 3) Pre: one year chemistry, biology, MTH 243, CVE 572 or their equivalent and permission of instructor. Poon

696 Numerical Methods in Structural Engineering (II, 3) Continuation of 596. Applications of relaxation, finite differences, ordinary and partial differential equations to blast loads on structures, bending of plates, and buckling of beams. (Lec. 3) Pre: 596 or permission of instructor. Staff

673 Theory of Water Purification and Treatment (I, 3) Principles of modern water purification and engineering practices. Aeration, deodorization, sterilization, coagulation, filtration, water softening, iron removal, disinfection and corrosion control. (Lec. 3) Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee. Staff

674 Sanitary Engineering Laboratory (I or II, 3) Advanced phases of sewage treatment and purification including sludge digestion, sludge gas analysis, biochemical oxygen demand, conditioning of sludge, activated sludge, sewage trickling filters and chemical precipitation. (Lec. 2, Lab. 3) Pre: permission of instructor. Poon

Community Planning (CPL)

410 Fundamentals of Urban Planning (I or II, 3)

434 Introduction to Environmental Law (I, 3)

675 Sanitary Engineering Design (I or II, 3) Functional design of modern water treatment plant providing treatment of water for domestic and industrial consumption. (Lec. 1, Lab. 6) Pre: permission of instructor. Poon

501 Introduction to Community Planning History and Theory (I, 3) The development of community planning in the U.S., history of governmental planning and evolution of the planning profession, and theoretical elements and constructs basic to contemporary planning practice. (Lec. 3) Foster

676 Sanitary Engineering Design (I or II, 3) Functional design of modern sewage treatment works providing treatment of sewage. (Lec. 1, Lab. 6) Pre: 673. Staff

505 Planning Methods (I, 3) Examination of contemporary planning methods of community planning through readings, classroom discussion, field work and student presentation with emphasis on basic planning techniques. (Lec. 3) Pre: permission of instructor. Feld

677 Stream and Estuarine Analysis (I or II, 3) Fundamentals and mathematical concepts of physical and biological factors applied to the evaluation of the pollution capacity of streams and estuaries. (Lec. 3) Pre: MTH 244. Staff

506 Planning Methods II (II, 3) A basic planning methods course focusing on urban policy analysis, economic analysis, public facilities planning, and integrative systems planning. (Lec. 3) Pre: 505. Staff

678 Industrial Waste Water Treatment (I or II, 3) Advanced considerations of industrial waste disposal problems of major waste producing industries, including waste producing processes, composition of waste waters, treatment methods, and in-plant abatement techniques. (Lec. 3) Pre: permission of instructor. Poon and Sussman

507 (506) Planning Studio I (II, 6) Primary professional experience, within the curriculum, in group expertise in integration of social, physical, economic and implementation aspects of program planning and development. Includes a client-based problem with practical outcomes. (Lec. 3, Lab. 3) Pre: 506. Feld and Foster

681 Advanced Soil Mechanics (I, 3) Index properties and physical properties of soils. Laboratory and field procedures for soil identification. Permeability and flow of water through soils. Compressibility characteristics of soils and consolidation theories as applied to settlement analysis. (Lec. 2, Lab. 3) Pre: 521 or equivalent. Offered in the fall of even calendar years. Staff

508 Research Methodology (II, 3) A basic foundation for independent research directed toward the production of a thesis at the master's degree level. Basic concepts of problem definition, formulation and testing of hypotheses, and the relation of research to theoretical concepts. (Lec. 3) Muniak

682 Advanced Soil Mechanics (II, 3) Stress analysis, elastic theory of stress distribution in soils. Application of consolidation theory. Shearing phenomena in soils with application to bearing capacity, earth pressure and slope stability. Pile foundation analysis. Special topics.

515 Social Planning (II, 3) An examination of the policy and techniques of social planning through readings, classroom discussion and field clinic experience focusing on the fundamental issues of poverty, race and ethnicity. (Lec. 2, Lab. 3) Feld

520 Seminar in Regional Planning and Development (II, 3) Regional development issues and policies in ad-

vanced and developing countries. Regional planning, development theories, methodologies, distribution of economic activities, and settlement patterns. Role of infrastructure in stimulating development processes. (Lec. 3) Staff

521 (or REN 532) Land Resources Economics (I, 3) The study of economic relationships of man and scarce natural and man-made resources. Supply and demand, rent theory, resources conservation and the impact of public policy and law. (Lec. 3) Staff

531 Seminar in Urban Design (I, 3) Significant concepts of historical and contemporary urban form ranging in scale from the city as a whole to architectural detail of public projects. Use of slides and films to illustrate the visual impact and importance of excellence in design. (Lec. 3) Hammerschlag

532 Site Planning (II, 3) Site analysis and planning, including street design, principles of house grouping, and residential subdivision layout. (Lec. 2, Lab. 3) Hammerschlag

534 Environmental Law (II, 3) Alternative policy approaches involving economical, ecological, and political sciences, technological, planning and legal disciplines in the conceptualization of protection, control and development of the environment are examined. (Lec. 3) Cushman

540 Housing in American Society (II, 3) Housing, a process and facility; policy and market analysis at regional, state and local levels; role of government in providing housing for the poor; alternative strategies for housing the poor. (Lec. 3) Cushman

541 Employment Planning (I, 3) A review of employment planning at all levels of government. Concentration on the problems of unemployment in the central city; labor supply and demand, employment forecasting and projection techniques. (Lec. 3) Staff

544 Urban Planning and Politics in the Metropolis (II, 3) Significance and impact of urban planning on growth and betterment of cities and metropolitan areas. The planning process as it relates to the formulation of community development policies and the institutional framework from which they are produced. (Lec. 3) Pre PSC 422 or equivalent. Foster

552 Values and Prediction in Planning (I or II, 3) Examines human needs and wants, and how decisions are influenced by society and nature. Provides a framework for the measurement and analysis of qualitative data, and for the prediction of human behavior relative to planning. (Lec. 3) Staff

570 Plan Implementation (I or II, 3) Survey of tools of plan implementation, including public tools such as zoning, subdivision control, capital budgets, renewal, taxation, federal and state programs, and private tools such as mortgaging and easements. (Lec. 3) Muniak

589 Masters Project Research (I and/or II, 1-6) A substantial, self-directed planning project, by one or several students, under general guidance of a major professor. Number of credits to be determined each semester. Staff

591, 592 Special Problems in Planning (I or II, 3 each) Individual investigation of special problems in planning. Staff

593-598 Special Problems in Planning (I or II, 3 each) Group investigation of special problems in planning. Staff

5-594, 595, 596 593-576
5-593B (new 74-75)

599 Masters Thesis Research (I or II, 1-6) Number of credits is determined each semester in consultation with the major professor or program committee.

601 Planning Law Seminar (I, 3) General review and discussion of legal principles and thought concerned with property rights, political power, and the legal aspects pertinent to the planning and development of public and private activities. (Lec. 3) Cushman

603 Planning Studio III (I, 6) Semester-long project integrating and applying previously acquired knowledge and skills on graphic, audio-visual, oral and written communication. Preparation of an appropriate planning report. Emphasis varies depending on topic: urban design, regional analysis, capital budgeting, federal, state and legal requirements, transportation, commercial or industrial activities or ecology. (Lec. 3, Lab. 6) Hammerschlag

606 Seminar in Professional Planning Practice (II, 3) Current planning operations in public and private organizations, staff and client relations, ethical responsibilities, interdisciplinary cooperation; work programming, new trends, legislation and planning opportunities on local, state and national levels. (Lec. 3) Staff

608 Seminar in Planning Theory (I or II, 3) Critical survey of planning theories and contemporary planning concepts. Values, assumptions, and processes of various planning paradigms as they relate to decisions in community planning. (Lec. 3) Staff

623 Seminar in Transportation Planning (I, 3) The range of issues confronting planning for urban transportation systems; the variety of policies governments pursue in issues and problems; technical and political constraints, transportation studies, and demand analysis techniques. (Lec. 3) Barber

624 State and Metropolitan Planning (II, 3) Institutional aspects of state and metropolitan planning; the agencies in which planning is done and the intergovernmental context of coordination and implementation. Programming, staffing, budgeting and project evaluations are examined. (Lec. 3) Staff

654 Advocacy Planning (I or II, 3) Relationships between residents of an urban slum and public officials in governmental agencies; citizen participation in urban renewal areas, enforcement of housing laws, selected problems of city schools, public assistance, and civil disobedience. Relationships reviewed on the basis of statutory, administrative, or contractual material. (Lec. 3) Staff

691, 692 Special Problems in Planning (I or II, 3) Advanced work, under the supervision of a member of the staff and arranged to suit the individual requirements of the student. Staff

693-698 Special Problems (I or II, 3) Advanced work, under the supervision of a member of the staff and arranged to suit the requirements of a group of students. Staff 579-694, 695, 696
577-697, 698

Comparative Literature Studies (CLS)

450 Studies in Comparative Literature (I or II, 3)

510 Introduction to Comparative Literature (I or II, 3) Theoretical and practical concerns of comparative litera-

new 74-75

ture: its nature and scope, methods, bibliography, and special problems. (Lec. 3) Pre: graduate standing or permission of department. Staff

new 79-80 **520 Literary Theory and Criticism (I and II, 3)** Metacriticism: literary criticism as theory and practice and the relationship between literary and critical discourse. (Lec. 3) Pre: graduate standing or permission of department. May be repeated once with a change of topic. Topic: *The Role of History in Criticism*. Viglionese

new 79-80 **530 Approaches in Comparative Literature (I or II, 3)** Study of theme/myth, movement/era, genre/forms in two or more literatures, or interrelations with other disciplines. (Lec. 3) Pre: graduate standing or permission of department. May be repeated once with a change of topic. Topic: *The "Decadence" in Literature and the Visual Arts*. Leo

Computer Science (CSC)

410 Introduction to Computer Science and Algorithmic Processes (I and II, 3)

411 Computer Organization and Programming (I and II, 3)

412 Programming Systems (II, 3)

413 Data Structures (I, 3)

491, 492 Problems in Computer Science (I and II, 1-3 each)

F **500 Scientific Applications of Digital Computers I (I, 3)** Algorithms, techniques, practical procedures for digital computers related to applications of numerical methods. Approximation methods, numerical quadrature, solution of differential equations, zeros of functions, optimization methods, error analysis. (Lec. 3) Pre: 350 and permission of instructor. Carrano, Hemmerle

S **502 Theory of Algorithmic Languages and Compilers (II, 3)** Formal description of procedure-oriented languages and the techniques used in translating algorithms written in these languages into computer programs. (Lec. 3) Pre: credit or concurrent registration in 413. Bass, Lamagna and Tetreault

F **505 Design of Digital Circuits**
See Electrical Engineering 505.

F **512 Advanced Programming Systems (I, 3)** Advanced analysis of monitor and executive systems. Several topics from 412 will be studied in greater depth, along with recent developments in the field. (Lec. 3) Pre: 412 and 413. Bass, Tetreault and Weideman

F **515 Theory of Computation (I, 3)** Formal examination of several abstract models of computing machines. Functions that can and cannot be computed on the various models are characterized. (Lec. 3) Pre: 6 credits of CSC at the 300 level or above or permission of instructor. Bass

S **525 (or IDE 525) Simulation (II, 3)** Discrete simulation models. Comparison of discrete change simulation languages. Methodology including generation of random variates, design of simulation experiments for optimization, and validation of models and results. Selected applications. Pre: 202, 6 credits of statistics. Carney and Shao

S **535 Information Organization and Retrieval (II, 3)** Construction and accessing of large data bases; document classification, retrieval, and evaluation techniques; au-

tomatic dictionary and thesaurus construction; natural language content analysis; question answering systems. (Lec. 3) Pre: 413. Weideman

S **551 Scientific Applications of Digital Computers II (II, 3)** Algorithms, techniques and practical procedures for digital computers emphasizing linear computations and statistical applications. Monte Carlo methods. Matrix calculations, simultaneous linear equations, matrix inversion. Least square analysis, multiple regression. Characteristic value problems. (Lec. 3) Pre: 350. Hemmerle and Carrano

F **581 (or ELE 581) Artificial Intelligence (I or II, 3)** Formal theories of human information processing. State-space representation and search. Problem-reduction representations. Predicate calculus for theorem-proving and problem-solving. Semantic information processing. Artificial intelligence programming languages. (Lec. 3) Pre: permission of instructor. Birk

S **582 Robotics**
See Electrical Engineering 582.

S **583 Computer Vision**
See Electrical Engineering 583.

F **591, 592 Problems in Computer Science (I and II, 1-3 each)** Advanced work in computer science. Conducted as seminars or as supervised individual projects. (Lec. or Lab. arranged). Staff

F **599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Economics (ECN)

401 Poverty in the United States (I or II, 3)

402 Urban Economics (I or II, 3)

403 Theory and Topics in the Economics of Crime (I or II, 3)

404 Political Economy of Inequality (I or II, 3)

464 Comparative Economic Systems (I or II, 3)

F **503 Development of the United States Economy (I, 3)** Process of economic development, as illustrated by the economy of the United States. (Lec. 3) Pre: 126, and either HIS 141, 142 or ECN 302, or permission of instructor. Haller

S **512 History of Economic Analysis (II, 3)** Advanced work on formative developments in economic thought from classical political economy to modern welfare economics. Emphasis on relationships between doctrines and their institutional setting. (Lec. 3) Pre: permission of instructor. Schurman

F **515, 516 Economic Research (I and II, 1-3 each)** Independent research. *S/U* credit. Staff

F **527 Macroeconomic Theory (I, 3)** Static and dynamic models of aggregate economic behavior developed and analyzed. (Lec. 3) Pre: 327 and 375 or equivalent, or permission of instructor. Mead

F **528 Microeconomic Theory (I, 3)** Analytic tools of optimization. Neoclassical price and distribution theory. Linear programming and production theory. General equilibrium and welfare economics. (Lec. 3) Pre: 328 and 375 or equivalent, or permission of instructor. Rayack

- F** 532 **Industrial Organization and Public Policy** (II, 3) Theoretical and empirical analysis of structure of industrial markets; behavior and performance of business firms in the American economy; government-business relationship and its effect on formulation of public economic policy. (Lec. 3) Pre: 337 or permission of instructor. Dirlam
- F** 538 **International Economics: Theory and Policy** (I or II, 3) Theory of international trade and applications to current problems. (Lec. 3) Pre: 327 and 328 or permission of instructor. Suzawa
- F** 539 **Welfare Economics** (I or II, 3) Welfare criteria; conditions of optimality, causes of non-optimality and implied correctives; alternative social decision-making techniques. (Lec. 3) Pre: 327 and 328 or permission of instructor. Staff
- F** 543 **Public Finance and Fiscal Policy** (I, 3) Analysis of private wants and public needs. Serves as introduction to a searching examination of such federal and federal-state fiscal problems as budgetary theory and procedures, tax theory and reform. (Lec. 3) Pre: 342 or permission of instructor. Starkey
- S** 552 **Monetary Theory and Policy** (II, 3) Analysis of structure and functioning of monetary and banking systems; discussion of contemporary monetary theories; evaluation of monetary policies. (Lec. 3) Pre: 334 or permission of instructor. Barnett
- S** 566 **Economic Planning and Public Policy in Developing Nations** (II, 3) Resource and financial planning in public and private sectors of developing nations with emphasis on planning tools, allocation of domestic and foreign resources, and on national economic policies. (Lec. 3) Pre: 327 and 363 or 464, or equivalent, or permission of instructor. Suzawa
- F** 575 **Introduction to Mathematical Economics** (I, 4) Application of basic quantitative methods to economic analysis. Dynamic and static economic models will be studied with emphasis on obtaining solutions. (Lec. 3, Lab. 2) Pre: 327, 328 and MTH 141 or permission of instructor. Mead
- S** 576 **Econometrics I** (II, 4) Application of statistics and mathematics to economic analysis. Implication of assumption required by statistical methods for testing economic hypotheses. Current econometric methods examined and discussed. (Lec. 3, Lab. 2) Pre: 575 or equivalent, EST 408 or equivalent, or permission of instructor. Ramsay
- S** 577 **Econometrics II** (II, 3) Continuation of Econometrics I. (Lec. 3) Pre: 576 or permission of instructor. Ramsay
- F** 590 **Principles of Economics** (I and II, 3) Survey of micro- and macroeconomic theory. (Lec. 3) Graduate credit for matriculated M.B.A. students only. Staff
- S** 595 **Problems of Modernization in Developing Nations** See Resource Economics, 595.
- F** 599 **Masters Thesis Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.
- S** 627 **Advanced Macroeconomic Theory** (II, 3) Post-Keynesian macroeconomic theory, growth and cyclical models, current development in national income analysis. (Lec. 3) Pre: 527 and 528 or permission of instructor. Staff
- F** 628 **Advanced Microeconomic Theory** (II, 3) Neoclassical value and distribution theory. Theories of imperfect competition, general equilibrium theory and dynamic analysis. (Lec. 3) Pre: 527 and 528 or permission of instructor. Staff
- F** 630 (or REN 630) **Resource Analysis** (II, 3) Development and application of welfare theory to natural resource use. Welfare concepts such as consumer surplus, producer surplus, and marginal cost pricing in policy decisions for agriculture and natural resources. Pre: 628 or permission of instructor. Staff
- F** 676 (or REN 676) **Advanced Econometrics** (I, 3) A course covering the tools necessary for professional research in resource economics. Reviews the general linear model, but emphasis is on simultaneous equation models. Assumes a knowledge of introductory econometrics, statistical theory, and matrix algebra. Pre: 576 or its equivalent. Staff.
- F** 690 **National Income** (II, 3) Advanced macroeconomic theory. (Lec. 3) Pre: 126 or 590 or permission of instructor. Staff
- S** 699 **Doctoral Dissertation Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Education (EDC)

- 401 **Development and Utilization of Instructional Materials** (I and II, 3)
- 403 **History of Education** (I, 3)
- 407 **Philosophy of Education** (II, 3)
- 410, 411 **Seminar and Supervised Field Practicum in Education of the Aging** (I and II, 3 each)
- 424 **Teaching of Reading** (I and II, 3)
- 435 (or WRT 435) **The Teaching of Composition** (I and II, 3)
- 450 (or HCF 450) **Introduction to Counseling** (I and II, 3)
- 451 (or HCF 421) **Death, Dying and Bereavement** (II, 3)
- 461 **The Learning Disabled Reader: Elementary** (I or II, 3)
- 462 **The Learning Disabled Reader: Secondary** (I or II, 3)
- 478, 479 **Problems in Education** (I and II, 0-3 each)
- 480, 481 **Problems in Reading/Learning Disabilities** (I and II, 0-3 each)
- S** 501 **Comparative Education in International Perspective** (I or II, 3) Comparing foreign systems of education with particular emphasis on cultural developments and significant education experiences; sampling of national systems in Western Europe, USSR, Far East, East Africa, and South America. (Lec. 3) Pre: senior or graduate standing. Whitcomb
- F** 502 **The Modern Curriculum Movement** (I, 3) Development of recent thinking of American curriculumists. The nature of curriculum development analyzed through the traditionalist, social scientific and reconceptualist schools of thought. (Lec. 3) Willis
- F** 503 **Education in Contemporary Society** (II, 3) Leading educators' responses to issues and challenges confronting American education. Emphasis upon identification and analysis of contemporary theories and practices reflecting relationship between characteristics of society and educational values. (Lec. 3) Russo, Willis

- F504 Adult Basic Education (I and II, 3)** Teaching of adults whose educational level is below high school completion. Physical, social and psychological characteristics of disadvantaged adults and various techniques and materials useful in motivating and teaching them. (Lec. 3) Pre: permission of instructor. McCreight and Staff
- F505 Principles and Practices of Leadership Development for Youth and Adult Programs (I or II, 3)** Philosophy and interrelationships of vocational-technical and general education with extension education and other community educational agencies; leadership concepts and implications; methods and techniques for increasing the effectiveness of organizations. (Lec. 3) Pre: permission of instructor. McCreight
- new 79-80**
509 Critique of Public Policy in Human Services and Education (I and II, 3) Use of ideological assumptions in formulating and developing interpretive, normative, and critical perspectives on recent public policy proposals in various areas of human services and education. (Lec. 3) Pre: permission of department. Willis, Calabro, Russo
- F 77**
510 Practicum in Incorporating Televised Media (I, 3) Students develop skills in scripting and producing educational television programs. Application of knowledge of directing video tapes. (Lec. 1, Lab. 4) Pre: 401 or permission of department. Hicks
- S**
511 Evaluation of Film and Recorded Material (I, 3) Theory and principles of basic educational film processes. History of educational motion pictures, social and cultural implications of film, and standards for its evaluation and use in the schools. (Lec. 1, Lab. 4) Pre: 401 or permission of department. Howard
- new 73-74**
512 Organization and Administration of Audiovisual Programs (II, 3) Organization and administration of media departments in public schools. Media design and logistics, facility design, finance and organization. Planning in-service training programs. (Lec. 2, Lab. 2) Pre: 401 or permission of department. Staff
- S 79**
513 Research and Theory in Instructional Technology (II, 3) Research methodology in the field of media as it applies to education. Research designs including survey, descriptive and experimental types evaluated. (Lec. 2, Lab. 2) Pre: 401 or permission of department. Howard
- F 76**
514 Current Trends in Elementary Education (I, 3) For teachers and administrators, the most effective use of instructional materials, media of communication, and personnel in elementary school. (Lec. 3) Pre: 529 or permission of department. In alternate years, next offered 1979-80. Nally
- S**
516 Teaching English as a Second Language to Adults (II, 3) Methods and materials for educators who teach English as a second language to adults. (Lec. 3) Pre: permission of instructor. Jones
- F 518**
F 5
520 Teaching of Arithmetic (I, 3) For the experienced teacher, examination of the principles underlying teaching of arithmetic in the elementary school, comprehensive survey of materials and methods available for the classroom teacher of arithmetic. (Lec. 3) Pre: senior or graduate standing. In alternate years, next offered 1980-81. Nally
- S**
526 Teaching the New Grammars (I, 3) Implications of the newer grammars for the teaching of English, including a review of the history of grammar, traditional grammar and, as needed, the linguistic theory necessary to an understanding of the newer grammars. (Lec. 3) Pre: graduate standing and/or certification to teach English. DiBiasio
- F 78**
528 Teaching Language Arts (II, 3) Phonics, grammar, lexicography, and usage in American English for the elementary school classroom teacher. Presentation, use, evaluation, and development of methods and materials for students in the classroom. (Lec. 3) In alternate years, next offered 1980-81. Nagel
- F 5**
529 Foundations of Educational Research (I and II, 3) Analysis of the current major research approaches to educational problems with emphasis on interpreting published research involving the language of statistics. Functional skills in basic descriptive statistics needed prior to enrolling. (Lec. 3) MacMillan and Purnell
- S**
530 Qualitative Evaluation (I or II, 3) Qualitative methods of obtaining and using data to formulate descriptions, interpretations, and warranted judgments, with special attention to the evaluation of educational and social service programs. Critical, ethnographic, and phenomenological traditions considered. (Lec. 3) Pre: permission of department. Willis
- F 78**
534 Mathematics in the Secondary School (II, 3) Implementation of a modern mathematics program in the secondary school through a study of modern mathematics concepts, experimental programs, and instructional planning. (Lec. 3) Pre: 15 credits in mathematics. Croasdale
- F**
541 Reading in Secondary School Content Subjects (I and II, 3) Designed especially to help junior and senior high school teachers to cope with the reading problems in their subject areas. (Lec. 3) Pre: 313 or permission of department. Staff
- F**
544 Assessing Learning Disorders in Reading (I, 3) Types of learning disorders; informal, criterion-referenced and standardized tests used; administration, analysis and interpretation of results; practice in the case study approach; team approaches. (Lec. 3) Pre: 568 or permission of department. DiBiasio
- new 78**
F 78
545 Strategies for Teaching the Learning Disabled Reader (II, 3) Federal and state guidelines; principles for teaching; strategies based on task analysis and learning modalities; resource teacher models. (Lec. 3) Pre: 578 or permission of department. DiBiasio
- new 78**
F 78
546, 547 Field Practicum in Reading (I and II, 3 each) Practical application of classroom management and selection of materials to meet individual needs in a classroom situation. Pre: 424; enrollment in a non-degree certification program and concurrently teaching. Not for graduate program credit. (Lec. 3) In alternate years. Baker
- F 548**
548 The Application of Secondary School Content Area Reading Skills (II, 3) Teacher participation in planning and implementing a developmental reading approach to subject matter reading areas. Emphasis on teaching reading skills necessary for student understanding of subject area materials. (Lec. 3) Pre: 541 and actively teaching. Staff
- S**
550 Vocational Information and Career Development See Human Development, Counseling and Family Studies 550.
- F 551**
551 Counseling Techniques See Human Development, Counseling and Family Studies 551.
- S 73**

- F 552 Group Procedures in Counseling**
See Human Development, Counseling and Family Studies 560.
- F 553 Counseling Practicum**
See Human Development, Counseling and Family Studies 553.
- S 554 Individual Appraisal in Guidance**
See Human Development, Counseling and Family Studies 554.
- F 555, 556 Supervised Field Work and Seminar in Guidance and Counseling**
See Human Development, Counseling and Family Studies 580, 581.
- F 557 Principles and Practices of Student Personnel Services in Higher Education**
See Human Development, Counseling and Family Studies 567.
- S 558 Organization and Administration of Student Personnel Services in Higher Education**
See Human Development, Counseling and Family Studies 568.
- S 559 Practicum in Group Counseling**
See Human Development, Counseling and Family Studies 561.
- F 561 Analysis of Reading Disabilities (I, 3)** Causes of reading difficulties and the administration of diagnostic reading tests. Emphasis on construction and use of informal tests and standardized measures. Practice in analyzing data from case histories and in making individual case studies. (Lec. 3, Lab. 2) Pre: 424 and permission of instructor. McGuire
- S 562 Techniques in Remedial Reading (II, 3)** Practices effective in teaching remedial reading in both the regular classroom and remedial reading clinics. Analysis of published materials. Methods of building new materials, discussion and demonstration of their practical application. (Lec. 3, Lab. 2) Pre: 561 and permission of instructor. McGuire
- F 563 Reading Programs for the Disadvantaged (I, 3)** Impact of the culture of the disadvantaged upon the child and his response to learning and the school, with special emphasis on reading and the adjustment of reading materials and methods to individual socio-economic-cultural differences. (Lec. 3) Pre: 424 or permission of instructor. Bumpus
- S 564 Beginning Reading Programs (II, 3)** Analysis of various approaches to reading instruction (other than the basal method) including phonetic, linguistic, language arts, programmed, and other experimental systems. Current materials analyzed and classified. (Lec. 3) Pre: 424. Staff
- S 565 Analysis and Evaluation of Current Research in Reading (II, 3)** Concise analysis of the latest research in reading. Criteria for the evaluation of reading research data as it applies to both teacher and learner. Location and application of current research to reading programs. (Lec. 3) Pre: 424 and permission of instructor. In alternate years, next offered 1979-80. McGuire
- SS 566, 567 Practicum in Reading (I and II, 3 each)** Supervised case studies, practicum and seminar reports on an individual reading project at either elementary or secondary level. Lecture and/or laboratory. 120 hours plus seminar. Pre: 562 and permission of instructor. McGuire
- S 568 Reading and Learning Disabilities (I, II, 3)** This course, designed for classroom teachers and reading specialists, focuses on instructional strategies for meeting the reading needs of learning-disabled children. (Lec. 3) Pre: 6 credits in reading or permission of instructor. Staff
- F 569 Elementary School Curriculum (II, 3)** Modern curriculum in the elementary school with emphasis on the needs of children. Covers language arts, social studies, science, arithmetic and special subjects. (Lec. 3) Pre: 503, 529 or equivalent. In alternate years, next offered 1979-80. Staff
- F 571 The Secondary School Curriculum (II, 3)** Intensive study of basic principles and procedures utilized in developing curriculum materials. Emphasis given to content of all curriculum areas in junior and senior high schools. (Lec. 3) Pre: 503, 529. In alternate years, next offered 1980-81. Whitcomb
- F 572 Cooperative Supervision (I and II, 3)** Analysis of function, principles and techniques of democratic cooperative supervision of teachers and other school officials. Application of these principles to supervisory problems of principals, heads of departments, special supervisors and critic teachers. (Lec. 3) This course meets certification requirements for Critic Teacher Certificate. Heisler
- S 573 Seminar—Educational Research (I and II, 1)** For master's degree candidates developing a thesis. Presentations of thesis topics, research designs, and research findings. Orderly development of research studies. Graduate students who require assistance with their thesis problems must enroll for this course unless they are enrolled for thesis credit. Pre: registration for thesis. Staff
- S 574 Current Trends in Secondary Education (I and II, 3)** Effective use of instructional materials, media of communication, and organization of personnel and current research. Pre: 529, 571 or permission of department. Staff
- S 575, 576 Supervised Field Study and Seminar in Elementary or Secondary Education (I and II, 3 each)** For non-thesis candidates. Lectures, seminars and field work. Candidates plan and carry out a field study project approved by the instructor. The completed project report must be successfully defended during semester. Pre: admission to a master's program in education and permission of instructor. Staff
- F 577 Organization and Administration in Elementary School (I, 3)** Functions and duties of elementary school principals. (Lec. 3) In alternate years, next offered 1979-80. Nagel
- S 580 Organizing and Administering Youth Programs (I or II, 3)** Planning, organization, instruction and supervision of youth programs. Includes vocational-technical and general education in their relationship to extension education and other community agencies. Youth guidance and psychological development emphasized. (Lec. 3) Pre: 505 or permission of instructor. McCreight
- S 581 Organizing and Administering Programs of Adult Education (I or II, 3)** Planning, organization, instruction and supervision of continuing education for adults in both vocational-technical and general education as conducted by extension education and other community agencies. (Lec. 3) Pre: 505, or permission of instructor. McCreight
- S 582 Curriculum Development in Vocational-Technical and Extension Education (I, 3)** Principles and processes

involved in the basic concepts affecting vocational-technical and extension education programs. Emphasis on planning, execution and evaluation. (Lec. 3) Pre: 580 or 581 or permission of instructor. McCreight

F 583 Analyzing Community Needs and Resources for Youth and Adult Programs (I, 3) Helps the student function effectively in the role of change-agent in a community setting. Concepts of goals, change, power and community will be considered in the relation to student's community experiences. (Lec. 3) Pre: permission of instructor. Bromley

F 584 The Adult and the Learning Process (I and II, 3) Examination of the adult as a learner with emphasis on the factors that affect adult learning. (Lec. 3) Pre: 581 or permission of instructor. Bromley

S 585 Seminar on Leadership for Youth and Adult Programs (II, 3) Students will participate in a non-structured group to observe the emergence of leadership and the effects of individual behavior on self and others. (Lec. 3) Pre: open to program majors with permission of instructor. Bromley

F 586, 587 Problems in Education (I and II, 0-3 each) Advanced work for graduate students in education. Courses conducted as seminars or as supervised individual projects. (Lec. or Lab.) Pre: permission of department. May be repeated for additional credit as problems and topics vary. Staff

F 588, 589 Supervised Field Practicum and Seminar in Youth and Adult Education (I and II, 3 each) Leadership principles and practices applied in selected clinic systems. 200 clock hours of practicum are required in addition to the seminar. (Lec. 2, Lab. 3) Pre: 582, 583, or 584 and 529, or permission of instructor. Bromley, McCreight

590 Social Issues in Urban Education (II, 3) Current social problems confronting teachers in urban education. Emphasis on current problems from perspective of sociology, social welfare, psychology and education. Field trips, visiting lecturers and sensitivity training all utilized in development of issues. (Lec. 3) Pre: 102. Staff

F 591, 592 Problems in Reading/Learning Disabilities (I and II, 0-3 each) Advanced, individually planned work in reading instruction for graduate students, conducted as seminars, supervised individual projects. (Lec. or Lab.) Pre: permission of department. Staff

F 594 Organization and Supervision of Reading Programs (II, 3) Various roles of the reading specialist in relation to the other line-staff personnel. Problems concerning the orientation of new teachers, reading research and development, in-service programs, and community support. (Lec. 3) Pre: 562. In alternate years, next offered 1979-80. Staff

S 596 Organization Development in Education
See Human Development, Counseling and Family Studies 562.

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Electrical Engineering (ELE)

401 Laser, Optical Systems and Communication (I or II, 3)

403 Optical Systems and Communications Laboratory (I or II, 3)

405 Digital Computer Design (II, 3)

417 Direct Energy Conversion (II, 3)

427 Electromechanical Devices and Systems (I, 3)

432 Electrical Engineering Materials II (II, 3)

433 Electrical Engineering Materials Laboratory (II, 3)

436 Communication Systems (I and II, 3)

443 Electronics II (I, 5)

444 Electronics III, Pulse and Digital Circuits (II, 4)

457 Feedback Control Systems (I, 3)

458 Systems Laboratory (II, 3)

481, 482 Biomedical Engineering Seminar I and II (I and II, 1 each)

484 Modeling of Physiological Systems (II, 3)

491, 492, 493 Special Problems (I and II, 1 each)

495 Electrical Engineering Practice I (I, II or SS, 3)

496 Electrical Engineering Practice II (II, 6)

F 501 Linear Transform Analysis (I, 3) Fourier and Laplace transform analysis of continuous-time systems, causality and spectral factorization, evaluation of inverse transforms, z-transform analysis of discrete-time systems, Hilbert transforms, discrete Fourier transforms, generalized transforms. (Lec. 3) Staff

S 502 Non-linear Systems Analysis (I and II, 3) Iteration and perturbation techniques, phase plane and state space concepts, Liapunov's direct method, stability criteria for non-linear systems. (Lec. 3) Pre: 501 or equivalent. Lindgren

F 503 (or MCE 503) Linear Control Systems (I or II, 3) State variable description of continuous and discrete-time systems, matrices and linear spaces, controllability and observability, pole placement methods, observer theory and state reconstruction, modern control systems design. (Lec. 3) Pre: 313 or MCE 366 or equivalent. Lindgren or Palm

F 504 (or MCE 504) Optimal Control Theory (II, 3) Quadratic performance indices and optimal linear control, frequency response properties of optimal feedback regulators, state estimation, separation theorem, optimal control of nonlinear systems, Pontryagin's minimum principle. (Lec. 3) Pre: 503. Lindgren or Krikorian

F 505 (or CSC 505) Design of Digital Circuits (I, 3) Design techniques for digital computers and controllers. Combinatorial and sequential circuits, minimization techniques, fast arithmetic circuits, memory and control circuits, floating-point hardware, Turing machines, coders and decoders, microprogramming, sequence generators. (Lec. 3) Pre: 405 or equivalent. Staff

F 506 Digital Signal Processing (II, 3) Digital representations of signals and noise, digital filtering and spectral analysis, design of digital circuits for signal parameter estimation and signal detection. (Lec. 3) Pre: one course from: 509, OCE 561, IDE 411, or MTH 451. Tufts and Jackson

F 508 Computer Architecture (I and II, 3) Hardware architecture of modern minicomputers and microcomputers. Instruction sets, memory organization, peripheral interfacing and control, bus structures, microprogramming, microcomputer systems, techniques for real-time operation, software aids and requirements. (Lec. 3) Pre: 405 or CSC 311 or equivalent. Staff

F 509 Systems with Random Inputs (I or II, 3) Discrete and continuous linear systems with random inputs. Introduction to random processes in the context of linear systems. Applications to detection, smoothing and pre-

diction. (Lec. 3) Pre: knowledge of differential equations, linear systems and transform methods. Staff

510 Communication Theory (II, 3) Communication theory for discrete and continuous channels. Optimum receiver principles and signal design. Calculation of channel capacity and reliability functions, coded systems, channel models, modulation techniques and performance. (Lec. 3) Pre: 509. Staff

511 Electromagnetic Fields (I, 3) Review of electrostatics and magnetostatics. Maxwell's equations, wave propagation in dielectric and conducting media. Boundary phenomena. Radiation from simple structures. Relations between circuit and field theory. (Lec. 3) Staff

513 Solar to Electric Energy Conversion (II, 3) Review of the theory of thermal radiation. Collection of radiant energy as heat and direct conversion to electricity. Concentration on photovoltaic solar cells. (Lec. 3) Pre: 331 or equivalent. Permission of instructor. Mardix

514 Microwave Electronics (I or II, 3) Electronic engineering at microwave frequencies, microwave circuit theory, impedance transformation and matching, passive microwave devices, microwave tubes, semiconductor microwave electronics, microwave masers, parametric amplifiers. (Lec. 3) Pre: 411 concurrently or permission of instructor. Daly

515 Quantum Electronics (I or II, 3) Laser engineering and applications, interaction of radiation with atoms, optical resonators, electro-optic modulation, harmonic generation, parametric oscillation and frequency conversion, noise in laser amplifiers and oscillators. (Lec. 3) Pre: PHY 341 or permission of instructor. Daly, Lengyel

516 Planetary Electrodynamics (I or II, 3) Introduction to description and theory of natural electric and magnetic phenomena on the earth and in the solar system such as lightning, natural geomagnetic and interplanetary magnetic fields, origin and properties of ionospheres, the "solar wind" and natural radio noise. (Lec. 3) Pre: permission of instructor. Polk

517 Magnetofluidmechanics
See Mechanical Engineering 517.

520 Fourier Optics (I or II, 3) Application of Fourier analysis in optical imaging and data processing. Systems concepts are stressed. Scalar diffraction, lenses, coherent and incoherent imaging, spatial filtering and optical information processing, and holography. (Lec. 3) Pre: 313 or an equivalent basic knowledge of Fourier analysis. Staff

531 Solid State Engineering I (I and II, 3) Periodicity of solids; dielectric, thermal, optical and electromagnetic properties of electronically interesting solids. (Lec. 3) Pre: 331 or equivalent. Staff

532 Solid State Engineering II (I and II, 3) Semiconductor physics, transport properties. Applications including solid state lasers, piezoelectric, ferroelectric and magnetic devices. (Lec. 3) Pre: 531 or equivalent. Staff

535 Transistor Circuits (I and II, 3) Semiconductors, characteristics of junction transistors. Analysis and design of single and multistage amplifiers including feedback. High frequency considerations, applications to systems. (Lec. 3) Staff

536 Semiconductor Electronics (I or II, 3) Theory and technology of semiconductor devices. Junction, field effect, optoelectronic and microwave devices. Integrated circuits. (Lec. 3) Pre: 331 or equivalent. Sadasiv

537 Electronic Instrumentation and Control Circuits (I and II, 3) Analysis and design of special amplifiers, operational circuitry, measurement of non-electrical quantities, transducers. (Lec. 3) Staff

538 Principles of Remote Sensing (I or II, 3) Theory and techniques of remote sensing including spaceborne photometry and radiometry. Applications selected from the following topics: planetary atmospheres, geology and earth resources, environmental problems. (Lec. 3) Pre: 323, PHY 406, or permission of instructor. Staff

539 Infrared Imaging Techniques (I or II, 3) Elemental detectors and their application in radiometers and scanners. Principles of infrared imaging devices. Thermal radiation and its propagation through the atmosphere. (Lec. 3) Pre: 437 or equivalent. Staff

542 Analog Filter Design (I or II, 3) Introduction to passive network synthesis. Analysis and design of active circuits and filters with operational amplifiers, generalized impedance converters, gyrators. Introduction to the design of thick-film hybrid microcircuits. (Lec. 3) Pre: 444 or equivalent. Krikorian

545 Optimization and Variational Problems in Electrical Engineering (I or II, 3) Application of variational and approximation techniques to boundary value field problems, extremal control of dynamic systems, optimization in communication theory and optimal filter theory. (Lec. 3) Pre: 501 or 511 or permission of instructor. Poularikas

560 Introduction to Data Collection Systems
See Ocean Engineering 560.

571 (or OCE 571) Underwater Acoustics I (I, 3) Wave equation, energy, pressure and particle velocity. Acoustic properties of the sea. Elementary sources, refraction, reflection, ray theory, normal modes and scattering, with emphasis on sound propagation in the ocean. (Lec. 3) Stepanishen

575 Electroacoustical Engineering I (I and II, 3) Theory and design of electroacoustic transmission channels and the psychoacoustic aspects of their use for high-quality music transmissions. (Lec. 2, Lab. 3) Pre: permission of instructor. Staff

576 Electroacoustical Engineering II (I and II, 3) Storage of sound, studio-design and acoustical measurements. (Lec. 2, Lab. 3) Pre: 575. Staff

580 (or ASC 580 or PCL 580) Experimental Animal Techniques (II, 3) Aseptic surgical techniques on laboratory mammals. Proper selection of animal models for specific purposes. Standards for humane experimentation. Techniques applicable to research interests of students. (Lec. 2, Lab. 3) Pre: ZOO 442 or permission of instructor. Radovsky and DeFeo

581 Artificial Intelligence
See Computer Science 581.

582 (or CSC 582) Robotics (I or II, 3) Description, design and control of industrial and research robots. Tactual and visual sensing systems. Computer control of manipulators. Object descriptions for manipulation. Obstacle avoidance. Applications. (Lec. 3) Pre: knowledge of matrix algebra and Laplace transforms or permission of instructor. Birk

583 (or CSC 583) Computer Vision (I, 3) Algorithms used to extract information from two-dimensional images. Picture functions. Template matching. Region analysis. Contour following. Line and shape descriptions. Perspective transformations. Three dimensional

reconstruction. Image sensors. Interfacing. Applications. (Lec. 3) Pre: MTH 362 or equivalent. Staff

- F 584 (or EST 584) Pattern Recognition (II, 3)** Random variables, vectors, transformations, hypothesis testing and errors. Classifier design: linear, non-parametric, approximation procedures. Feature selection/extraction: dimensionality reduction, linear and non-linear mappings, clustering and unsupervised classification. (Lec. 3) Pre: 509 and CSC 410 or introductory probability and statistics, knowledge of computer programming. Kelley
- S 585 Clinical Engineering (I or II, 3)** Clinical training in engineering aspects of patient care. Technological problems of patient monitoring, diagnosis and treatment. Computers in chemical analysis, cardiac catheterization, surgery, medical research. Course held at neighboring hospitals. (Lec. 1, Lab 6) Pre: one semester of residency in biomedical engineering graduate program, permission of department. Jaron
- F 586 Biomedical Electronics I (I, 3)** Measurement techniques in medical and biological research. Pressure, flow and temperature transducers. Bioelectric potentials and electrodes. Signal conditioners and display systems. Electrical safety. (Lec. 3) Pre: ZOO 345 or equivalent, knowledge of differential equations, senior or graduate standing. Staff
- S 587 Biomedical Electronics II (II, 3)** Instrumentation systems in medical diagnosis and therapy. Cardiovascular, respiratory and chemical measurements. Patient monitoring, computers in biomedical systems. (Lec. 3) Pre: ZOO 345 or equivalent, knowledge of differential equations, senior or graduate standing. Staff
- F 588 Biomedical Engineering I (I, 3)** Modeling of biosystems. Electrical properties of biological materials. Electrocardiography, vectorcardiography. Models of nerve propagation. (Lec. 3) Pre: ZOO 345 or equivalent, knowledge of differential equations, senior or graduate standing. Staff
- S 589 Biomedical Engineering II (II, 3)** Mechanical properties of biological materials. Application of ultrasound to medical diagnosis and treatment. Hemodynamics, pulmonary and renal dynamics. Artificial organs. (Lec. 3) Pre: ZOO 345 or equivalent, knowledge of differential equations, senior or graduate standing. Staff
- S 591, 592 Special Problems (I and II, 1-3 each)** Advanced work under supervision of a staff member. Arranged to suit individual requirements of student. Credits not to exceed a total of 6. Pre: permission of department. Staff
- B 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- F 601, 602 Graduate Seminar (I and II, 1 each)** Seminar discussions including the presentation of papers based on research or detailed literature surveys. (Lec. 1) Attendance is required of all students in graduate residence, but a maximum of 1 credit per year is allowed, no more than 2 credits for the entire period. Staff
- S 606 Digital Filter Synthesis (I, 3)** Review of z-transforms and discrete-time systems, properties of digital-filter networks, design of finite and infinite-impulse-response filters, accuracy considerations for coefficients and data, hardware implementation, system examples. Pre: 506 or equivalent. Jackson
- S 616 Advanced Topics in Electromagnetic Theory (II, 3)** Electromagnetic theory of inhomogeneous and anisotropic media. Ferrite devices. Introduction to the theory of plasmas. Ionospheric radio propagation. (Lec. 3) Pre: 511, or equivalent. Daly or Polk
- F 631 Electronics of Solids I (I and II, 3)** Properties of conductors, semiconductors, and insulators from quantum mechanical principles. Band theory of solids, superconductivity, thermoelectricity. (Lec. 3) Pre: PHY 570 or equivalent. Mitra
- S 632 Electronics of Solids II (I and II, 3)** Extension of 631, directed toward the examination of theoretical concepts fundamental to solid state electronics. Topics in current research programs and selected from areas such as quantum electronics, transport properties in strong electric and magnetic fields, and superconductivity. (Lec. 3) Pre: 631 or equivalent. Mitra
- S 636 Solid State Electronic Devices (I or II, 3)** Selected topics of current research interest. Materials will be drawn from recent literature on solid state electronic devices. (Lec. 3) Pre: 536. Sadasiv
- S 637 Photo-electronics I (I, 3)** Optics, including photometry, radiometry, natural illumination, irradiance, luminance, radiance, temperature. Theory, analysis and specifications of photodectors, scanners and associated systems. Direct-viewing image tubes, their components and electron optics. (Lec. 3) Pre: 437 or equivalent. Staff
- S 638 Photo-electronics II (II, 3)** Continuation of 637: theory, analysis, specifications of signal generating (remote) tubes and solid state devices, including transfer characteristics, spectral responses, limiting resolution modulation transfer function, quantum detective efficiency. Applications to medicine, space, night vision. (Lec. 3) Pre: 637. Sadasiv
- S 641 Advance Engineering Analysis I (I, 3)** Analytical techniques for the solution of problems involving a finite number of degrees of freedom with applications to linear and non-linear systems. (Lec. 3) Pre: advanced graduate standing and permission of instructor. Staff
- S 651 Feedback Control Systems I (I, 3)** Analysis of synthesis of complex control systems. Extension of feedback control theory to handle random disturbances, sampled data, and non-linearities. System optimization. (Lec. 3) Pre: 457 or equivalent. Staff
- S 660 Advanced Topics in System Theory (I or II, 3)** Seminar for advanced students. Selected topics of current research interest. Material will be drawn primarily from recent literature. (Lec. 3) Pre: permission of instructor. Staff
- S 661 Estimation Theory (I or II, 3)** Extraction of information from discrete and continuous data, best linear estimation, recursive estimation, optimal linear filtering, smoothing and prediction, non-linear state and parameter estimation, design and evaluation of practical estimators. (Lec. 3) Pre: 503 and 509. Lindgren or Tufts
- S 665 Modulation and Detection (I or II, 3)** Advanced treatment of modulation and detection theory. Minimum meansquare error, maximum likelihood, and maximum posterior probability estimators. Applications to communication systems and to radar and sonar systems. (Lec. 3) Pre: 510. Tufts
- F 670 Advanced Topics in Signal Processing (I or II, 3)** Seminar for advanced students. Selected topics of current research interest. Material will be drawn primarily from recent literature. (Lec. 3) Pre: 506 and 606. Staff

672 (or OCE 672) **Underwater Acoustics II** (II, 3) Transducers, radiators and receivers, directivity (array structures), equivalent circuits, efficiency; piezoelectricity, magnetostriction, sonar principles, measurements and calibration. (Lec. 3) Stepanishen

691, 692 **Special Problems** (I and II, 1-3 each) Advanced work under supervision of a staff member. Arranged to suit individual requirements of student. Credits not to exceed a total of 6. Pre: permission of department. Staff

699 **Doctoral Dissertation Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

English (ENG)

430 **American English and its Dialects** (I, 3)

436 **The Language of Literature** (II, 3)

440 **Literary Heritage of New England to 1860** (I, 3)

444 **The American Writer and the Negro** (II, 3)

446 **Modern American Drama** (II, 3)

447* **Twentieth Century American Poetry** (I and II, 3)

448* **The Nineteenth Century American Novel** (I, 3)

449* **The Twentieth Century American Novel** (I and II, 3)

454 **Modern British and European Drama** (I, 3)

455* **Twentieth Century British Poetry** (I, 3)

458* **The British Novel** (I, 3)

459* **The British Novel of the 19th Century** (II, 3)

460* **The British Novel of the 20th Century** (II, 3)

462 **The Medieval and Modern Epic** (II, 3)

468* **The European Novel to 1850** (I, 3)

469* **The European Novel After 1850** (II, 3)

470* **Chaucer** (I, 3)

472*, 473* **Shakespeare** (I and II, 3 each)

474* **Milton** (II, 3)

477 **The Elizabethan Drama** (II, 3)

478 **English Drama of the Restoration and Eighteenth Century** (I, 3)

485 **American Authors** (I or II, 3)

486 **British Authors** (I or II, 3)

510 **Bibliography and Literary Research** (II, 3) Use of descriptive and analytical bibliography, various modes of literary criticism, and other scholarly tools in the solution of literary research problems. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1982. Reaves

530 **History of the English Language** (I, 3) Historical study of development of English syntax, sounds, vocabulary and usage. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered fall 1980. Staff

531 **History of Critical Theory** (II, 3) Important critical theories from Aristotle to the twentieth century. Emphasis upon orientation of theories to various aspects of the literary situation. Some study of modern attitudes toward earlier critics. Open to graduate students and senior English majors. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1980. Murphy

532 **Modern Literary Criticism** (I, 3) Dominant modes and schools of criticism exemplified by T. S. Eliot, T. E. Hulme, I. A. Richards, Edmund Wilson, John Crowe Ransom, and other important critics. Pertinent related liter-

ary works. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered fall 1981. Goldman

535 **Old English** (I, 3) Introduction to the language and literature. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered fall 1980. Malina and Mensel

536 **Problems in Linguistics and Literature** (II, 3) Recent developments in linguistics and their application to the study of literature. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1981. Arakelian

540 **Modern American Novel** (I, 3) Important American novelists of the twentieth century with emphasis on major developments in ideas and techniques. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered fall 1979. Marshall, Gullason and R. Tutt

545 **Problems in American Realism and Naturalism** (I, 3) Readings, discussions, and papers on stylistic, thematic, and philosophic issues relating to literary artists like Howells, James, Crane, Dreiser, Hemingway, and others. (Lec. 3) Pre: graduate standing or permission of instructor. Gullason

546 **Problems in American Romanticism** (II, 3) Major themes and works of such authors as Poe, Emerson, Thoreau, Hawthorne, Melville, Whitman, and others. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered spring 1980. Collins

547 **Early American Literature to 1800** (II, 3) Thorough examination of colonial and federal literature, some discussion of beginnings of Romanticism. Special attention to Taylor, Edwards, Franklin, Freneau and Charles Brockden Brown. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1982. Schoonover and Marshall

548 **American Poetry to 1900** (II, 3) Important colonial and nineteenth century American poets with emphasis on major trends in ideas and techniques. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1981. Potter and Collins

549 **Modern American Poetry** (I, 3) In-depth study of several major American poets, such as Eliot, Pound, Frost, Stevens, Williams, and others; or of a school such as the Imagists, the Fugitives, and others. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered fall 1980. Goldman and Potter

550 **Middle English Literature** (I or II, 3) Selections from Middle English literature exclusive of Chaucer. Works by Malory, the Pearl Poet, Gower, the Wakefield Master, and others. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered 1980-81. MacLaine

551 **The Metaphysical Poets** (I, 3) Intensive analysis and interpretation of poetry of Donne, Herbert, Vaughan, Crashaw, and Marvell. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1981. Sorlien

554 **Modern British Poetry** (I, 3) In-depth study of several major British poets, such as Yeats, Lawrence, Auden, Thomas, MacNeice, and others; or of a school such as the War Poets (WWI), and others. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered fall 1979. Goldman and Mathews

555 **Modern British Novel** (I, 3) Important British novelists of twentieth century with emphasis on major

trends in ideas and techniques. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered fall 1979. Staff

F556 English Literature of the Sixteenth Century (I, 3) Early humanism. Tudor poetry and its continental antecedents. Satire and translation. Elizabethan voyage literature. Writers chosen from More, Erasmus, Skelton, Wyatt, Surrey, Sidney, Spenser, Marlowe, Hakluyt, Lodge, Shakespeare and others. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered fall 1979. Murphy, Sorlien and Hills

557 English Literature of the Seventeenth Century (I, 3) Selected poets and prose writers, studied for their contribution to the dominant themes and modes of expression of the Stuart and Cromwellian eras. (Lec. 3) Pre: graduate standing or permission of instructor. Next offered fall 1981. Sorlien and Jacobs

F558 English Literature of the Eighteenth Century (II, 3) Intensive study of major and selected minor figures of the eighteenth century. Emphasis on verse and non-fiction prose, some attention to developments of the drama. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1981. Kunz and Reaves

559 English Literature of the Romantic Period (I, 3) Selections from the major works and writers of the Romantic Movement. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered in fall 1981. Petrie, Seigel and Tutt

560 English Literature of the Victorian Period (II, 3) Selections from the major works and writers of the Victorian period. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1981. Goldman and Seigel

F561 Modern European Novel (II, 3) Major developments in European novel during twentieth century. Special attention to Proust, Mann, Kafka, Moravia, Silone, Lagerkvist, Malraux and Camus. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1981. Gullason

570 Anglo-Irish Writers (II, 3) The Celtic Renaissance as a literary movement, its importance and influence. AE, Lady Gregory, Joyce, O'Casey, O'Flaherty, Stephens, Synge, Yeats, and others. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1982. Murphy

571 Problems in Chaucer (I, 3) Intensive study of selected aspects of Chaucer's achievement as a poet. Emphasis on *The Canterbury Tales*. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered fall 1980. MacLaine, Malina, Mensel and Neuse

F572 Spenser (II, 3) The major poetry, with special emphasis on *The Faerie Queene*. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1982. Neuse

573 Problems in Shakespeare (II, 3) Primarily a discussion course, concentrating on plays and characters that offer most interesting problems for student analysis. Solutions by leading critics are examined. (Lec. 3) Pre: permission of instructor. Smith

574 The Scots' Poetic Tradition through Robert Burns (II, 3) Intensive study of the poetry of Robert Burns, Ferguson, Ramsay, and others who sparked the Scottish

revival. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1980. MacLaine

575 Modern Southern Literary Renaissance (II, 3) Comprehensive study of a major literary movement. Representative works by Faulkner, Wolfe, Warren, Williams, Porter, Welty, O'Connor, and others. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1982. Gullason and R. Tutt

F576 English Novel of the Eighteenth Century (I, 3) Selected novels of Defoe, Richardson, Fielding, Smollett, Sterne, and Austen, with consideration of major criticism and of disparate influences on the emergence of the novel. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered fall 1979 and fall 1981. Kunz and Reaves

F577 English Novel of the Nineteenth Century (I, 3) Important British novelists of the nineteenth century with emphasis on trends in ideas and techniques of Victorian novelists. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered fall 1981. McCabe and Seigel

578 Problems in Milton (II, 3) Emphasis on the major poetic works. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years, next offered spring 1980. Neuse

F590 Selected Topics (I and II, 3) Selected topics in American and British literature, and topics of special interest not covered by traditional department offerings. (Lec. 3) Pre: graduate standing or permission of instructor. Fall, 1979: Whitman, Thoreau, Dickinson, Marshall. Spring, 1980: Victorian Prose, Seigel. Fall, 1980: Literature of World War II, Goldman. Fall, 1980: Elizabethan Sonnets, Hills **F-590L S-590N**

F599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

631 Seminar in Old English (II, 3) Advanced readings in Old English literature. (Lec. 3) Pre: 535. In alternate years, next offered spring 1982. Malina and Mensel

Courses 640 through 661 are lectures, discussions, extensive readings, individual research, and a substantial research paper. (Lec. 3) Pre: permission of department.

F640, 641 Seminar in American Literature before 1900 (F-640F) and II, 3 each) Fall, 1979: Puritan and American Fiction, Stineback. Fall, 1980: Poe and Dickinson, R. M. Tutt

F642, 643 Seminar in Modern Literature (American) and II, 3 each) Spring, 1980: Vietnam War Narrative, Kunz. Spring, 1982: Modern American Drama, Miller **IS-643E F78-642C**

F650, 651 Seminar in English Literature of the Middle Ages (I and II, 3 each) Fall, 1979: Troilus, MacLaine. Spring, 1982: Alliterative Revival, Mensel **F-650A**

F652, 653 Seminar in English Literature of the Sixteenth Century (I and II, 3 each) Fall, 1979: Marlowe and Johnson, Campbell. Spring, 1981: Skelton and Sydney, Neuse. Spring, 1982: Love-Wyatt to Donne, Sorlien **F-652A**

F654, 655 Seminar in English Literature of the Seventeenth Century (I and II, 3 each) Spring, 1980: Andrew Marvell, Jacobs. Fall, 1980: 17th Century Literature and Art, Jacobs **S-655A F78-654B**

F656, 657 Seminar in English Literature of the Eighteenth Century (I and II, 3 each) Spring, 1981: Burns, MacLaine. Fall, 1981: Swift and Defoe. Reaves **S-657C**

F 658, 659 Seminar in English Literature of the Nineteenth Century (I and II, 3 each) Fall, 1980: Carlyle in America, Seigel. Spring, 1981: British Romantic Essayists, R. M. Tutt **F-658F**

F 660, 661 Seminar in Modern Literature (English) (I and II, 3 each) Spring, 1980: Literature of Decent, Cuddy **F-660F**

F 691, 692 Special Problems (I and II, 3 each) Advanced study of an approved topic, under the supervision of a member of the staff. (Lec. 3) Pre: permission of department. Staff

F 699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Environmental Health Science (EHS)

F 562 Interdisciplinary Seminar (I, 2) Topics in environmental health are examined in light of underlying general principles of economics, quantitative analysis, management, politics and government. (Sem. 2) Pre: permission of director. Staff

S 563 Public Health Administration (II, 3) This course is intended to aid in the preparation for an administrative role in a public health department. It introduces the student to the complex problems in today's state and federal health agencies. Topics covered include decision making, program budgeting, and planning. (Lec. 3) Pre: permission of instructor or department. Staff

Experimental Statistics (EST)

408 or 409 Statistical Methods in Research I (I and II, 3)

412 Statistical Methods in Research II (II, 3)

413 Data Analysis (II, 3)

491, 492 Problems in Experimental Statistics (I and II, 1-3 each)

S 500 Nonparametric Statistical Methods (II, 3) Rank and sign tests, permutation tests and randomization, run test, tests of goodness of fit, order statistics, estimation, and comparison with parametric procedures. Examples illustrating the applications of non-parametric techniques. (Lec. 3) Pre: 408 or 409. Callahan, Lawing and Hanumara

F 511 Linear Statistical Models (I, 3) Review of mathematical and statistical concepts. Multivariate normal distribution. Distribution of quadratic forms. Power of the F-test. Basic linear models: general linear hypothesis, regression models, experimental design models, variance component models, mixed models. (Lec. 3) Pre: MTH 215 and EST 412 or MTH 452. Carney and Hemmerle

new 517 Small N Designs
See Psychology 517.

S 520 Fundamentals of Sampling and Applications (II, 3) Simple random sampling; properties of estimates, confidence limits. Sample size. Stratified random sampling; optimum allocation, effects of errors, and quota sampling. Regression and ratio estimates; systematic and multi-stage sampling. (Lec. 3) Pre: 408 or 409. Carney, Hanumara, and Lawing

S 532 (or ASC 532 or PSY 532) Experimental Design (I and II, 3) Application of statistical methods to biological

and psychological research and experimentation. Experimental situations for which various ANOVA and ANCOVA designs are most suitable. (Lec. 3) Pre: 408 or 409 or equivalent. Smith or Velicer

F 541 Multivariate Statistical Methods (I, 3) Review of matrix analysis. Multivariate normal distribution. Tests of hypotheses on means, Hotelling's T^2 , discriminate functions. Multivariate regression analysis. Canonical correlations. Principal components. Factor analysis. (Lec. 3) Pre: 412 or PSY 510. Hanumara, Heltshe and Hemmerle

F 550 Ecological Statistics (I, 3) Application of statistical methodology to the following topics: population growth, interactions of populations, sampling and modeling of ecological populations, spatial patterns, species abundance relations, and ecological diversity and measurement. (Lec. 3) Pre: 409 or permission of instructor. Heltshe

576 Econometrics I

See Resource Economics 576.

577 Econometrics II

See Resource Economics 577.

584 Pattern Recognition

See Electrical Engineering 584.

F 591, 592 Problems in Experimental Statistics (I and II, 1-3) Advanced work in experimental statistics. Conducted as seminars or as supervised individual topics. Pre: permission of department. Staff

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

S 610 Factor Analysis

See Psychology 610.

S 635 Response Surfaces and Evolutionary Operations

See Industrial Engineering 635.

Finance (FIN)

433 Bank Financial Management (I, 3)

440 Portfolio Theory and Management (II, 3)

452 Multinational Finance (I, 3)

491, 492 Directed Study (I and II, 3 each)

495 Advanced Financial Management (I and II, 3)

496 Advanced Financial Institutions and Capital Markets (II, 3)

F 540 Theory of Finance (I and II, 2) Uses of financial instruments, problems of capital financing, financial expansion and reorganization, operations of specialized financial institutions. (Lec. 2) Pre: ACC 510, MGS 580. Staff

F 641 Advanced Financial Theory (I and II, 3) Role of the financial manager in analysis, profit planning and control activities. Emphasis on goals, basic concepts and tools of decision-making as applied to working capital management, capital budgeting and capital structure decisions. (Lec. 3) Pre: 540. Dash

F 645 Managerial Economics (I and II, 3) The applications of economic theory and methodology to business problems. (Lec. 3) Pre: all foundation courses. Booth

S 648 Financial Cases and Readings (I and II, 3) Problems and decisions as to the management of funds. Case method used. (Lec. 3) Pre: 641. Staff

- 649 Seminar in Finance (I and II, 3)** Independent research. Individual topics based on readings and research interests of the students. (Lec. 3) Pre: 641. Staff
- 652 Advanced International Financial Management (I and II, 3)** Analysis of issues relevant to the international financial manager. The financial operations of multinational enterprises are examined through both the theoretical and case approach. Pre: 540. Koveos
- 685 Health; Financial Management and Insurance**
See Management Science 685.
- 686 Public Policy Issues in the Health System**
See Management Science 686.
- 691, 692 Directed Study in Finance (I and II, 1-3)** Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff
- 503 Nutrition Research Methods (I, 3)** Comprehensive study of literature. Practice in techniques and methods as applied to animal and human nutrition research. (Lec. 1, Lab. 4) Pre: permission of department. Staff
- 505 Marine Foods Seminar (I, 1)** Presentations specifically related to marine foods such as processing, preservation, nutritive value and consumer acceptability. (Lec. 1) Pre: graduate standing or permission of department. Staff
- 511, 512 Food Science and Nutrition Seminar (I and II, 1 each)** Studies and discussions of recent research and other significant developments in the field. Oral and written presentation of papers on selected topics or on individual research. (Lec. 1) Graduate students must earn a total of 2 credits. Pre: graduate standing or permission of department. Staff

Fisheries and Marine Technology (FMT)

- 416 Marine Transportation (II, 3)**
- 452 (or ASC 452) Industrial Fishery Technology (II, 3)**
- 518 Marine Fisheries Technology (I, 3)** The commercial resource, its exploitation and use. Capture techniques and equipment. Aspects of commercial activities, fishing vessel operations and technology. (Lec. 3) Pre: permission of instructor. Sainsbury
- 521 Fishing Gear Technology (II, 3)** Evaluation of fishing gear behavior and performance using theoretical, model scaling and statistical analysis techniques. Field and laboratory measurement procedures. (Lec. 3) To be taken concurrently or following 518. Pre: permission of instructor. Motte
- 591, 592 Special Problems (I and II, 1-3 each)** Advanced work, under the supervision of a staff member, arranged to suit individual needs of students in various fields of fisheries and marine technology. (Lec. and/or Lab. according to nature of problem) Pre: permission of department. Staff

Food Science & Technology, Nutrition and Dietetics (FSN)

- 411 (or PLS 411) Soil Chemistry and Fertilizers (I, 3)**
- 412 (or PLS 412) Soil Biochemistry (II, 3)**
- 421 Food Analysis (I, 4)**
- 431 Biochemistry of Foods (I, 3)**
- 432 Biochemistry of Food Processing (II, 3)**
- 433 Food Quality (II, 3)**
- 438 Experimental Food Science (II, 3)**
- 441 Advanced Human Nutrition (I, 3)**
- 444 Nutrition and Disease (II, 3)**
- 447 (or CHE 447) Food Engineering I (I, 4)**
- 451, 452 Field Experience in Food and Nutrition (I and II, 1-3 each)**
- 456 Community Nutrition (I and II, 4)**
- 461 Food Safety (II, 3)**
- 472 Plant Biochemistry (II, 3)**
- 491, 492 Special Projects (I and II, 1-3 each)**
- 502 Advanced Experimental Foods (II, 3)** Application of the principles of food science and technology in the development of food products, considering effective methods of preparation, processing and preservation, and the control and evaluation of food product quality. (Lab. 6) Pre: permission of department. Staff
- 542 Minerals and Vitamins (II, 3)** Recent research in minerals and vitamins as related to human nutrition. Discusses the interrelationship between minerals, vitamins and other nutrients as they relate to nutrition status. (Lec. 3) Pre: 441 or permission of department. In alternate years, next offered 1979-80. Caldwell and Bergan
- 548 Food Engineering II**
See Chemical Engineering 548.
- 549 Food and Biochemical Engineering III**
See Chemical Engineering 549.
- 575 Biochemical Engineering II**
See Chemical Engineering 575.
- 591, 592 Special Research Problems (I and II, 2-4 each)** Advanced work under supervision of a staff member. Arranged to suit individual requirements of students. Pre: permission of department. For graduate students only. Staff
- 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- 691, 692 Research in Food Science and Technology (I and II, 1-3 each)** Assigned research on an advanced level. Student is required to outline problem, conduct the necessary literature survey and experimental work, and to present his observations and conclusions in a report. Staff
- 699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Forest and Wildlife Management (FOR)

- 401 Forest Influences (I, 3)
 402 Wildlife Populations (II, 3)
 423 Wetland Ecology (I, 3)
 424 Wetlands and Land Use (II, 3)
 491, 492 Special Projects (I and II, 1-3 each)

French (FRN)

- 402 French Phonetics (II, 3)
 411 Medieval Literature (I, 3)
 422 Sixteenth-Century Literature (I or II, 3)
 433 Seventeenth-Century Literature (II, 3)
 443 Eighteenth-Century Literature (I, 3)
 453 Nineteenth-Century Literature Until 1848 (I, 3)
 454 Nineteenth-Century Literature Since 1848 (I, 3)
 461 Twentieth-Century Theatre (II, 3)
 465 Twentieth-Century Prose (I, 3)
 473 French Canadian Literature (II, 3)
 474 Black Literature in French (II, 3)
 497, 498 Directed Study (I and II, 3 each)

F 501 Advanced Composition (II, 3) Stylistics to prepare undergraduate and graduate majors to write expository French prose. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years. Porter

3
79 503 History of the French Language (II, 3) Linguistic development of French from the Serments de Strasbourg to the end of the Middle Ages. Particular attention to sound and form changes. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years. Porter

Note: Courses 513 through 594 include lectures, discussions, readings, individual research and a research paper.

F 513 Seminar in Medieval Literature (I, 3) Pre: graduate status or permission of instructor. Porter

new
77-78 523 Seminar in Sixteenth-Century Literature (I, 3) Pre: graduate status or permission of instructor. Rothschild

5
79 533 Seminar in Seventeenth-Century Literature (I, 3) Pre: graduate status or permission of instructor. Morello

5
78 544 Seminar in Eighteenth-Century Literature (II, 3) Pre: graduate status or permission of instructor. Rothschild

F 554, 555 Seminar in Nineteenth-Century Literature (I and II, 3) Pre: graduate status or permission of instructor. Touloudis and Chartier 78-554A

F 564 Seminar in Modern Poetry (I, 3) Pre: graduate status or permission of instructor. Waters

5
78 565 Seminar in Twentieth-Century Theatre (II, 3) Pre: graduate status or permission of instructor. Waters

5
78 566 Seminar in Twentieth-Century Prose (I, 3) Pre: graduate status or permission of instructor. Waters

F 594 Special Topics (I and II, 3) Group and/or individual investigation of special problems in French literature. Staff

5
76 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

F 901, 902 Reading Course in French for Graduate Students (I and II, 0) 901: Fundamentals of grammar and

syntax necessary to develop reading knowledge. Assumes no prior knowledge of French. 902: Exercises in reading scholarly and scientific texts. Hyland

Geography (GEG)

403 Meteorology and Climatology I (I, 3)

404 Applied Meteorology and Climatology (II, 3)

405 Introduction to Synoptic Meteorology and Climatology (I, 3)

406 Microclimatology (II, 3)

411 Urban Geography (I, 3)

421 Introductory Cartography (I, 3)

422 Advanced Cartography (II, 3)

432 Seminar in Political Geography (II, 3)

446 Geography of the Polar Regions (II, 3)

452 Transportation Geography (II, 3)

461 Coastal Zone Uses (I, 3)

471 Island Systems (II, 3)

472 Marine Recreation (II, 3)

481 History and Philosophy of Geography (I, 3)

482 Quantitative Methods in Geography (I, 3)

491, 492 Special Problems in Geography (I and II, 3 each)

499 Directed Study (I and II, 1-3)

F 502 Research Methods in Geography (I, 3) Fundamentals of geographic research, including techniques of field observation and interpretation, and the introduction to the use of the computer laboratory and computer package program. (Lec. 3) Pre: 482 or permission of department. Staff

S 503 Seminar in Climatology (I or II, 3) Selected topics in theoretical and applied climatology. (Lec. 3) Pre: 403, 404 or equivalent. Havens

F 512 Seminar in Urban Geography (I, 3) Urban patterns, their development, sizes, spacing, structure, and relationship to the global urban network. The urban environment as a context for geographic studies. (Lec. 3) Pre: 100 or permission of department. In alternate years, next offered in 1979-80. Krause

S 542 Seminar in Economic Geography (II, 3) Analytical approaches to rational utilization of the world's re-

sources. Emphasis on agricultural and industrial location theory, diffusion of ideas and innovations, and recreational analysis. (Lec. 3) Pre: permission of department. Staff

F 571 Marine Geography (I, 3) The marine region as a unique complex of physical and cultural elements. The purpose is to analyze functional relationships within the region and to assess forms of regional organization and control. (Lec. 3) Pre: permission of department. Alexander

S 572 Geography of Ocean Regions (II, 3) A global study of the nature and use of ocean basins, semi-enclosed seas, and other marine areas, with special emphasis on regional arrangements and regimes. (Lec. 3) Pre: 571 or permission of department. In alternate years. Alexander

F 591, 592 Directed Study or Research (I and II, 3) Areas of special research interests of graduate students. (Lec. 3) Pre: permission of department. Staff

7 595 Problems of Modernization in Developing Nations See Resource Economics 595.

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Geology (GEL)

410 Geomorphology (I, 4)

425 Principles of Geochemistry (II, 3)

440 Introduction to Paleontology (I, 4)

450 Introduction to Sedimentation and Stratigraphy (I, 4)

465 Introduction to Geophysics (I, 3)

475 Geology of Petroleum (II, 3)

S 79 510 Coastal Geomorphology (II, 3) Coastal development and interpretation in relation to endogenetic and exogenetic shore processes. Experimental model wave tank studies and applied field studies. (Lec. 3) Pre: 410, 450, or permission of instructor. Offered in spring of odd calendar years. Fisher

S 79 515 (415) Glacial Geology (II, 4) Investigation of late Cenozoic glaciation including areas with presently-existing glaciers. Primary stress on sedimentology and geomorphology of glacial deposits. Field trips in New England area. (Lec. 3, Lab. 2) Pre: 450 or permission of instructor. Staff

F 525 Advanced Mineralogy and Petrography (I, 3) Crystal-chemical relationships of the petrologically important mineral groups and advanced petrographic study (including U-stage methods) of textures, and mineral reactions. (Lec. 2, Lab. 2) Pre: 321 or permission of instructor. Offered in fall of odd calendar years. Hermes

S 527 Analytical Geochemistry (II, 3) Fundamentals and principles of rapid chemical analyses of geological materials. Application of atomic absorption spectroscopy, selected gravimetric methods, and miscellaneous techniques currently used in student research. (Lec. 1, Lab. 6) Pre: CHM 212 and senior status, or permission of instructor. Hermes

S 530 Igneous Petrology (I, 3) Tectonic and chemical bases for igneous phenomena stressing the association concept of igneous activity. Evaluation of the criteria used in petrogenetic interpretations. (Lec. 2, Lab. 3) Pre:

321 or permission of instructor. Offered in spring of even calendar years. Hermes

F 78 531 Metamorphic Petrology (II, 3) Facies concept and other methods of interpreting metamorphic mineral assemblages. Chemical and fabric changes during metamorphism, including principles of structural petrology. (Lec. 2, Lab. 3) Pre: 321 or permission of instructor. Offered in fall of even calendar years. Cain

F 541 Animal Micropaleontology (I, 3) Concentrated study of animal microfossils with primary emphasis on taxonomy, morphology, ecology, and stratigraphic occurrence. (Lec. 2, Lab. 3) Pre: 440 or permission of instructor. Offered in fall of even calendar years. Tynan

S 542 Plant Micropaleontology (II, 3) Concentrated study of plant microfossils with primary emphasis on taxonomy, morphology, ecology, and stratigraphic occurrence. (Lec. 2, Lab. 3) Pre: 541 or permission of instructor. Offered in spring of odd calendar years. Tynan

F 550 Sedimentary Processes (I, 3) Physical and chemical processes of sedimentation with emphasis on fluvial, beach and estuarine environments. Stress on field applications of theory, with independent project and reading. (Lec. 3) Pre: 450 or permission of instructor. Offered in fall of even calendar years. Boothroyd

S 553 Basin Analysis (II, 3) A depositional systems and facies model approach to interpretation of sedimentary rocks. In-depth study of various ancient depositional basins using models developed from recent sedimentary environments. Field trips. (Lec. 3) Pre: 450 or permission of instructor. Offered in spring of even calendar years. Boothroyd

F 555 Biostratigraphy (I, 3) Principles and methods used to analyze and interpret areal and time relationships of stratified rocks and history of life contained in the rocks. (Lec. 2, Lab. 3) Pre: 440 and 450 or permission of instructor. Offered in fall of odd calendar years. Tynan

S 79 556 Advanced Interpretation in Applied Geophysics (II, 3) Interpretation of geophysical data using theoretical models. Reflection, refraction and surface propagation of seismic energy. Computer analysis of gravity and magnetic potential data. D.C. geoelectrical potential over horizontally stratified medium. (Lec. 2, Lab. 2) Pre: MTH 243, PHY 214, GEL 465 or equivalent course in physics with permission of instructor. Offered in spring of odd calendar years. Frohlich

S 556 Seismology and Plate Tectonics (II, 3) Earthquakes, intensity and magnitude determination, fault plane solution; earth's interior, crustal and upper mantle structure related to plate boundaries. Seismic zones and margins of tectonic plates. Earthquake control and prediction (Lec. 2, Lab. 3) Pre: MTH 142, PHY 214, GEL 465, or equivalent course in physics or mathematics with permission of instructor. Offered in spring of even calendar years. Frohlich

S 581 (or OCE 581) Coastal Engineering Geology (II, 3) Interaction of geological factors and coastal structures. Shore materials, energy-material relationships, interference of man-made structures with the natural regimen emphasized. (Lec. 3) Pre: 302 or 410 and 450, or OCG 540 or permission of instructor. Offered in spring of even calendar years. Fisher

F 585 Geohydrology (I, 3) Ground-water hydrology and drainage basin analysis related to geomorphology, glacial geology and environmental impact. Analysis of water resources in various geologic environments.

Geophysical methods of investigation. (Lec. 3) Pre: 302 or 410 and 450 and permission of instructor. Offered in fall of odd calendar years. Fisher

Concurrent audit of parallel 300-level course required. May be repeated. Staff

590 Special Problems (I and II, 1-3) Advanced work under the supervision of a member of the staff arranged to suit the individual requirements of the student. (Lec. and/or Lab. according to the nature of the problem.) Pre: permission of instructor. Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Note: for other related courses see PHY 522 and OCG 540, 544, 545, 621, 630, 641, 642, 643, 644, 645, 646, 647, 648, 649, 651.

515 Seminar in Twentieth-Century Diplomacy (II, 3) Research in the history of international relations since 1900. (Lec. 3) Pre: 410 or 411 or permission of department. In alternate years. Schach-Cook

521, 522 Readings and Research in European History (I and II, 3 each) Intensive study of selected topics in European history. With permission of the department, this course may be taken twice for credit. (Lec. 3) Pre: graduate or senior standing, permission of department. Staff

535 Colloquium in American History (I or II, 3) Intensive study of major interpretative works in American history. (Lec. 3) Pre: graduate or senior standing, permission of department. Staff

536, 537 Special Readings in American History (I and II, 3 each) Intensive tutorial work, research and readings in American history. Pre: graduate standing and permission of instructor. Concurrent audit of parallel 300-level course required. May be repeated. Staff

540 Seminar in American Colonial History: The Seventeenth and Eighteenth Centuries (I or II, 3) Intensive research on selected topics in the Colonial period of American history. (Lec. 3) Pre: permission of department. Staff

541 Seminar in Nineteenth-Century American History (I and II, 3) Intensive research on selected topics in the broad period between adoption of the Constitution and World War I. (Lec. 3) Pre: permission of department. Staff

542 Seminar in Twentieth-Century United States History (I and II, 3) Intensive research on selected topics in United States history since 1900. (Lec. 3) Pre: permission of department. Staff

543 Seminar in the History of the United States Foreign Relations (II, 3) Research in the history of the U.S. foreign relations since 1775. All aspects of foreign relations, including both internal and external factors and historiographical problems will be considered. (Lec. 3) Pre: permission of instructor. Costigliola

550 Seminar in Black Nationalism and the International Race Problem (I or II, 3) Examination of the historical roots of black nationalism in the United States and the international implications of racial conflicts in selected areas of the world. (Lec. 3) Pre: permission of instructor. Weisbord

560 Research in Local History (II, 3) Directed research in secondary and primary materials on topics of interest to the individual. (Lec. 3) Pre: 141 and 142. Metz

580 Colloquium in Latin-American History (I or II, 3) Intensive study of major interpretative works in Latin-American history. (Lec. 3) Bryan

588, 589 Special Readings in Third World History (I and II, 3 each) Intensive tutorial work, research and readings in Third World history. Pre: graduate standing and permission of instructor. Concurrent audit of parallel 300-level course required. May be repeated. Staff

591 Directed Study or Research (I and II, 3) Directed readings, research, or study designed to meet the particular needs of individuals or small groups of graduate students. Staff

593 Seminar in Historical Studies (I and II, 3) Advanced study in the major literature of American or European

German (GER)

409 History of the German Language (I, 3)

431 German Literature from 800 to 1700 (II, 3)

441, 442 German Literature of the Eighteenth Century (I and II, 3 each)

451, 452 German Literature of the Nineteenth Century (I and II, 3 each)

485, 486 Special Studies (I and II, 3 each)

497, 498 Directed Study (I and II, 3 each)

901, 902 Reading Course in German for Graduate Students (I and II, 0) 901: Fundamentals of grammar and syntax necessary to develop reading knowledge. Assumes no prior knowledge of German. 902: Exercises in reading scholarly and scientific texts. Staff

Greek (GRK)

497, 498 Directed Study (I and II, 3)

History (HIS)

405 Western Europe in the High Middle Ages (I, 3)

406 The Renaissance (II, 3)

408 History of Europe, 1648-1789 (I, 3)

409 The French Revolution and Napoleon (I, 3)

410 History of Europe, 1815-1914 (I, 3)

411 History of Europe since 1914 (II, 3)

426 German History, 1640-1914 (I, 3)

432 History of Russia to 1917 (I, 3)

451 Historical Society and Museum Administration (II, 3)

469 The Protestant and Catholic Reformation I (I, 3)

470 The Protestant and Catholic Reformation II (II, 3)

473 History of Modern China (II, 3)

474 History of Modern Japan (I, 3)

475 History of Modern Korea (II, 3)

501 Colloquium in European History (I or II, 3) Intensive study of major interpretative works in European history. (Lec. 3) Pre: graduate or senior standing, permission of department. Staff

502, 503 Special Readings in European History (I and II, 3 each) Intensive tutorial work, research and readings in European history. Pre: graduate standing and permis-

F-502A,B

history. Emphasis placed upon problems of historiography and historical criticism. (Lec. 3) Pre: permission of department. Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Home Economics Education (HED)

478, 479 Problems in Home Economics Education (I and II, 1-3 each)

482 Field Experience (I and II, 1-3) S/U

483 Teaching Alternatives (I, 8) S/U

490 Teaching Home Economics: Grades 1 through 6 (II, 2)

491 Teaching Home Economics: Adults (II, 3)

495 Career Education Concepts in Home Economics (I, 3)

F 506 Instructional Communications (I or II, 3) Selection, organization, and use of instructional materials, methods, and techniques for effective home economics teaching in a formal or informal educational setting. (Lec. 3) In alternate years. P. Kelly

F 507 Curriculum Development (I or II, 3) New developments in curriculum planning as related to organization and administration of comprehensive and occupational home economics and other vocational programs; evaluation as it relates to an effective program. (Lec. 3) Pre: one year teaching experience or permission of instructor. In alternate years. MacKenzie

S 508 Supervision of Student Teachers (I or II, 3) For teachers desiring to supervise students preparing for provisional certificates in agriculture, business, distributive education or home economics. Meets requirements for a Critic Teacher Certificate in the areas listed. (Lec. 3) Pre: at least one year teaching experience and permission of department. In alternate years. Kelly and May

S 509 Seminar in Home Economics Education (I or II, 3) Study of current trends and issues as they affect home economics education; critical study of research literature and techniques appropriate to solution of problems. (Lec. 3) In alternate years. P. Kelly

S 531 (or FSN 531) Teaching of Nutrition (I or II, 3) Development of curriculums in nutrition education for teachers in grades K through 12 and appropriate programs for community nutrition educators. Emphasis on innovative teaching techniques using latest nutrition knowledge. (Lec. 3) Pre: graduate standing and permission of department. Dymsza and MacKenzie

F 532 (or HMG 532) Consumer Education (II, 3) Curriculum development in consumer problems for teachers in grades K-12 and for adult education. Application of current consumer information and issues through the use of innovative teaching strategies. (Lec. 3) Pre: HMG 320, HED 334 or its equivalent and permission of instructor. MacKenzie and Christner

F 586, 587 Problems in Home Economics Education (I and II, 3 each) Advanced work for graduate students in home economics education. Conducted as seminars or as supervised individual projects. (Lec. or Lab.) Pre: permission of department. Staff

F 595 Masters Project: Action Research (I and II, 1-6) Candidates plan and carry out an action research project

approved by the instructor. Number of credits is determined each semester in consultation with major professor. A maximum of six credits is allowed. Pre: admission to a master's program in home economics education, a course in research methods and permission of instructor. Staff

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Home Management (HMG)

401 Home Management Problems of Deprived Families (II, 3)

420 Consumer Protection (I, 3)

422 Current Consumer Topics (II, 3)

470 Special Problems in Home Management (I and II, 2-4)

532 Consumer Education

See Home Economics Education 532.

S 570 Special Problems in Home Management (I, 3) Advanced study to be selected from areas of home management theory and its application, work simplification, family economics and equipment. (Lab. TBA) Staff

Human Development, Counseling and Family Studies (HCF)

400 (CDF) Child Development: Advanced Course (I, 3)

406 (CDF) Growth and Development During Infancy (I, 3)

420 (CDF 403) Human Development During Adulthood (I and II, 3)

421 (or EDC 451) Death, Dying and Bereavement (II, 3)

430 (CDF 450) Family Interaction (I, 3)

431 (CDF 451) Family and the Elderly (II, 3)

432 (CDF 407) Perspectives on Parenting (II, 3)

433 (CDF 460) Family Life Education (II, 3)

434 (CDF 480) Children and Families in Poverty (II, 3)

450 (or EDC 450) Introduction to Counseling (I and II, 3)

497, 498 (CDF) Special Problems (I and II, 2-4 each)

S 500 (CDF) Child Development Seminar (I or II, 3) Intensive study of selected topics, such as development of cognitive processes, individual and group differences in development of language, hereditary factors in physical growth. Review papers by students presented to class. (Lec. 3) Pre: 400 or permission of department. Staff

S 520 (CDF 504) Developmental Issues in Later Life (I, 3) Theoretical and philosophical foundations for understanding the normal changes, pathological developments, clinical assessments, and intervention strategies associated with late life. (Sem.) Pre: graduate standing. Spence

S 530 (CDF 550) Family Relations Seminar (II, 3) Intensive study of selected topics, such as maternal deprivation, child rearing practices and attitudes, homogamy and complementary needs in marital choice. Review papers prepared by students presented to the class. (Lec. 3) Pre: 355 or permission of department. Staff

535 Families Under Stress: Coping and Adaptation (I or II, 3) Theoretical models of family interaction, development, and stress as applied to understanding of family behavior in managing stress or events. Concepts of stress, vulnerability, adaptability, coping, regenerative power, social supports, and related research. (Lec. 3) Pre: 430, 570 or equivalent graduate course, work in family development or family sociology and permission of instructor. Maynard

550 (or EDC 550) Vocational Information and Career Development (I and II, 3) Classification and description of jobs and industries; study of occupational trends; needs of special groups entering the labor market; vocational development theories and counseling for long-range career planning. (Lec. 3) Pre: 450 and graduate standing. Maynard

551 (or EDC 551) Counseling Techniques (I and II, 3) Foundation of the theory and practice, with special emphasis upon approaches to counseling in various educational settings; primarily designed for preparation of school counselors and student personnel educators. (Lec. 3) Pre: 450 and graduate standing. Gunning

553 (or EDC 553) Counseling Practicum (I and II, 3) Advanced counseling. Multiple counseling sessions using tapes and supervised observation to help measure individual assessment of growth and competence. (Lec. 1, Lab. 5) Pre: 450, 550, 551 PSY 434, and permission of instructor. Gunning

554 (or EDC 554) Individual Appraisal in Guidance (II, 3) Nature of the appraisal process and data essential to understanding the educational, vocational and social needs of persons. Emphasis on the team approach in pupil personnel services and the use of case materials. (Lec. 3) Pre: PSY 434 and HCF 551. Gunning

560 (or EDC 552) Group Procedures in Counseling (I and II, 3) Principles and techniques of group counseling applied to education, counseling, and student personnel work. An experiential and didactic approach with emphasis upon facilitation techniques, leadership patterns, and counseling skills. (Lec. 3) Pre: permission of instructor. Maynard

561 (or EDC 559) Practicum in Group Counseling (II, 3) Supervised practice in counseling groups, preferably in the setting in which the student intends to work; systematic evaluation of progress through observations and tapes with an emphasis on interpersonal perception, communications, and research. (Lec. 2, Lab. 4) Pre: 560 and permission of instructor. In alternate years. Maynard

562 (or EDC 596) Organization Development in Education (II, 3) Theory and technology of organization development as applied in educational agencies; entry diagnosis, implementation, and evaluation strategies, skills practice in consulting and training; evaluation and research of change efforts. (Lec. 2, Lab. 4) Pre: 560. In alternate years, spring. Maynard

567 (or EDC 557) Principles and Practices of Student Personnel Services in Higher Education (I, 3) Survey of the historical, psychological, organizational, and educational factors which have evolved and combined to form student personnel work. (Lec. 3) Pre: 553 and 554. Staff

568 (or EDC 558) Organization and Administration of Student Personnel Services in Higher Education (II, 3) Systematic analysis of current practices in the alignment and operation of student personnel services, with con-

tinuing review of their interrelationships with the total educational program. (Lec. 3) Pre: 553, 554 and 567. Staff

570 (CDF 501) The Study of Children and Families (I, 3) Historical, philosophical, and procedural foundations of scientific inquiries of children and families. Exploration of various perspectives applicable to the acquisition of information about human development and family relationships. (Lec. 3) Pre: graduate standing or permission of department. Staff

580, 581 (or EDC 555, 556) Supervised Field Work and Seminar in Guidance and Counseling (I and II, 3 each) Students apply and integrate guidance and counseling theories and skills in selected school systems. 200 clock hours of laboratory experience required in addition to the seminar for two semesters' work. (Lec. 2, Lab. 3) Pre: 554 and permission of instructor. Staff

582 (CDF 570) Field Experience with Exceptional Children (I and II, 3) Interdisciplinary seminar and laboratory with observation and supervised projects with exceptional children. Psychological, physical and social factors pertinent to teaching in child development centers. (Lec. 1, Lab. 4) Pre: 303 or equivalent and permission of department. Staff

595 (CDF) Master Project: Action Research (I and II, 1-6) Number of credits is determined each semester in consultation with the major professor. Minimum of six credits is required of students who have chosen the action-thesis option. One to six credits may be taken. S/U credit.

597, 598 (CDF) Advanced Study (I and II, 3 each) Survey of important research contributions significant to understanding of human development and relationships. (Lec. 3) Staffs 598, 598A, B

599 (CDF) Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee. Minimum of six credits is required of students who have chosen the thesis option.

Industrial Engineering (IDE)

404 Engineering Economy (I, 3)

411 Engineering Statistics I (I, 3)

412 Engineering Statistics II (II, 3)

422 Production Facilities Design (II, 3)

430 Design and Analysis of Compensation Systems (II, 3)

432 Operations Research I (I, 3)

433 Operations Research II (II, 3)

435 Introduction to Operations Research (I and II, 3)

440 Materials Processing and Metrology I (II, 3)

491, 492 Special Problems (I and II, 1-6 each)

500 Network Application in Industrial Engineering (II, 3) Industrial system problems that can be formulated in terms of flows in networks. Critical path scheduling, transportation problems, allocation, sequencing, line balancing, etc. (Lec. 3) Pre: 432 and permission of instructor. In alternate years. Shao

510 Human Factors (II, 3) Analytic relationships between man and his working environment. Design of equipment, facilities and environmental controls to meet the capabilities and limitations of the human being. (Lec. 3) Pre: permission of instructor. Rubinsky

- F 513 Statistical Quality Control (I, 3)** Topics in statistical quality control systems. Single, multiple, and sequential sampling. Design and analysis of a wide variety of statistical control systems used in conjunction with discrete and continuous data, for several kinds of data emission. (Lec. 3) Pre: 412 or equivalent. Nichols
- F 514 Special Topics in S.Q.C. (I, 3)** Quality control evaluation and monitoring systems for short-run production processes; analysis of critical specifications in small limited sample opportunities; sequential analyses; statistical procedures for trouble shooting; small sample strategies. (Lec. 3) Pre: 412 or equivalent or permission of the instructor. Nichols
- F 517 Applied Control Theory in Industrial Engineering (I, 3)** Complex control mechanisms will be studied and applied to production and manufacturing operation. Automatic control systems for production and manufacturing will be designed and analyzed. (Lec. 3) Pre: 404, MTH 244 and permission of instructor. Staff
- F 520 Material Handling (I, 3)** Development of principles for engineering design and evaluation of equipment to move industrial materials in and between processes, including chemical and physical characteristics of material to be handled, rates of material flow, queuing and economics. (Lec. 3) Pre: MCE 263, CVE 220, IDE 404. Rubinsky
- S 525 Simulation**
See Computer Science 525.
- F 533 Advanced Statistical Methods for Research and Industry (I, 3)** Estimation and testing; regression and correlation; analysis of variance and related topics. Applications in industrial operations and engineering research. (Lec. 3) Pre: 411 or permission of instructor. James
- F 535 Industrial Reliability Engineering (II, 3)** Theories of reliability applicable to the design and operations of manufacturing processes and product quality assurance control systems. Quantitative analyses of economic specifications, performance levels, maintenance levels, and redundancy systems. (Lec. 3) Pre: permission of instructor. Nichols
- F 540 Production Control and Inventory Systems (I, 3)** Theory and practice of industrial production control and inventory systems. A broad spectrum of mathematical models for static, dynamic, perpetual, and periodic inventory systems as they affect and relate to production. (Lec. 3) Pre: permission of instructor. Staff
- F 541 Materials Processing and Metrology II (I, 3)** Continuation of 440. Engineering analyses in the processing of materials. Dynamic coupling, tool-work-piece interaction, energy and thermal analysis; mechanics of material removal and displacements, advanced topics in mechanical electrical systems for processing of materials. (Lec. 3) Pre: 440 or permission of instructor. Staff
- F 545 Manufacturing Engineering: Design, Analysis, Synthesis (II, 3)** Production and logistic systems, quantitative models introduced in and applied to congestion problems, industrial planning, control, scheduling, other problem areas of the industrial enterprise. (Lec. 3) Pre: 350 or permission of the instructor. Nichols
- F 550, 551 Advanced Topics in Probabilistic Operations Research I and II (I and II, 3 each)** Concepts of simple random processes and their application in the analysis of industrial problems. Random walk, branching processes, recurrent events, discrete and continuous Markov chains, birth and death models and their application to inventory, replacement, reliability, and waiting line problems. (Lec. 3) Pre: 411, MTH 215, or equivalent. Staff
- F 555, 556 Engineering Applications of Mathematical Programming I and II (I and II, 3 each)** Sensitivity analysis and pricing problems, practical problems in degeneracy and duality, decomposition methods for large-scale systems, applied convex, integer, nonlinear and quadratic programming methods. An introduction to stochastic programming. (Lec. 3) Pre for 555: 432 and permission of instructor. Pre for 556: 555 and permission of instructor. In alternate years. Staff
- F 565 Theory of Scheduling (II, 3)** Sequencing problems, finite sequencing for a single machine n/m job shop problems with analytical and heuristic procedures, networks applied to scheduling, queuing systems in scheduling, probabilistic scheduling problems. Survey of selected literature. (Lec. 3) Pre: permission of instructor. In alternate years, next offered 1979-80. Shao
- F 570 Operations Research Modeling in Health Care (II, 3)** Introduction to major areas of application of operations research in health care systems; emphasis on modeling and other analytical techniques used in hospitals, ambulatory care centers, planning and regulatory agencies and health systems research organizations. (Lec. 3) Pre: 435 and EST 409 or equivalent. Staff
- F 591, 592 Special Problems (I and II, 1-6 each)** Advanced work under supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to the nature of the problem) Credits not to exceed a total of 12. Pre: permission of department. Staff
- F 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- F 610 Topics in Applied Queuing Theory (I, 3)** Poisson and Erlang queues, imbedded chains, M/G/1 and G/M/1 queues, and related topics in queuing theory. Analysis of a wide variety of queues with an applications orientation. (Lec. 3) Pre: 433 or permission of instructor. In alternate years, next offered 1979-80. Staff
- F 634 Design and Analysis of Industrial Experiments (II, 3)** Further development of topics in analysis of variance. Randomized blocks, Latin squares and related designs, factorial experiments, confounding and fractional replications, and split-plot designs. Design and analyses of engineering experiments. (Lec. 3) Pre: 533. Lawing
- F 635 (or EST 635) Response Surfaces and Evolutionary Operations (II, 3)** Methods of determining the response surface for multiple factors over a specified range and techniques for seeking an optimum. First and second order response surfaces. Rotatable second order design. Central composite rotatable designs. Multivariable EVOP programs and other topics in evolutionary operations. (Lec. 3) Pre: 533 or equivalent. Lawing
- F 641 Molecular Aspects of Materials Processing**
See Chemical Engineering 637.
- F 642, 643 Advanced Topics in the Processing of Materials I, II (I or II, 3 each)** Extensive studies of contemporary and classical research in material processing. Systems study of problems of processing modern material technological achievements in processing. 642: Metallic materials. 643: Non-metallic materials. (Lec. 3) Pre: 541 or permission of instructor. In alternate years, next offered 1979-80. Staff

F 657 Geometric and Dynamic Programming (II, 3) Basic concepts of geometric programming, the duality theorem, approximation and limiting techniques. Nature of dynamic programming, deterministic and stochastic sequential decision problems. Lagrange multipliers in both geometric and dynamic programming. (Lec. 3) Pre: 555. In alternate years, next offered 1979-80. Shao

S 660 Methods of Optimization (II, 3) Methods of optimization: indirect, direct elimination, climbing. Geometric programming. Problems and other topics in applied optimization. (Lec. 3) Pre: CSC 500 and permission of instructor. In alternate years, next offered 1979-80. Staff

F 691, 692 Advanced Special Problems in Industrial Engineering (I and II, 1-6 each) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problems) Credits not to exceed a total of 12. Pre: permission of department. Staff

Insurance (INS)

491, 492 Directed Study (I and II, 3)

new 79-80
510 Risk and Insurance (I, 3) Non-speculative business and personal risks and their treatment through insurance. Discussions will include the application of insurance to risks arising from life, health, property and liability contingencies. (Lec. 3) Fitzgerald and Lord

S 560 Management of Insurance Enterprises (II, 3) Functional analysis of the operations and problems of stock and mutual insurance organizations in the life, property, and liability insurance industry. Emphasis is upon legal organization, management and control, and financial management of insurers. (Lec. 3) Pre: permission of instructor. Fitzgerald

new 72-73
570 Risk Management (II, 3) Analysis of nature of risk, the identification, measurement and control of pure risk within firm and society. Teaching methodology includes lectures, group discussion and analysis of case problems. (Lec. 3) Pre: permission of instructor. Staff

new 77-78
685 Health: Financial Management and Insurance
See Management Science 685.

new 77-78
686 Public Policy Issues in the Health Systems
See Management Science 686.

F 691, 692 Directed Study in Insurance (I and II, 1-3) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Italian (ITL)

408 The Italian Language (I or II, 3)

455 Selected Italian Authors (I or II, 3)

465 Topics in Italian Literature (I or II, 3)

481, 482 The Works of Dante Alighieri (I and II, 3)

497, 498 Directed Study (I and II, 3 each)

Journalism (JOR)

400 Opinion and Interpretation in Journalism (I and II, 3)

434 Contemporary Issues in Mass Communication (II, 3)

435 Theory of Communication (I, 3)

436 Fundamentals of Communication Research (II, 3)

438 Governmental and Legal Aspects of Mass Communication (I, 3)

441 International Communications (I, 3)

442 Independent Study and Projects in Mass Communications (I and II, 1-3)

452 Public Relations Principles and Publications (I, 3)

461 Internship in News Writing and Reporting (I and II, 3)

462 Internship in Editing (I and II, 3)

463 Internship in Broadcast Journalism (I and II, 3)

Latin (LAT)

497, 498 Directed Study (I and II, 3 each)

Library Science (LSC)

F 500 Introduction to Libraries and Librarianship (I and II, 3) Overview of the field covering the language and literature of librarianship, the history and functions of libraries, the nature of the various types of libraries, the library profession, and library operations. (Lec. 3) Bergen and Staff

S 502 Library Administration (I and II, 3) Libraries and their governing agencies, scientific management principles, organization and operation of library departments, personnel problems and procedures, budget preparation, statistics, quarters and planning. (Lec. 3) Bohnert and Staff

S 503 Collection Development (I and II, 3) Study of and practice in using the principles involved in the selection of books and nonbook materials for collections of all types of libraries. (Lec. 3) Tryon

S 504 Reference and Information Services (I and II, 3) Practical experience in the use of basic reference materials, with readings and discussion of the philosophy and administrative aspects of reference work. (Lec. 3) Schneider

S 505 Organization of Library Materials (I and II, 3) Introduction to the principles and practice of descriptive and subject cataloging and classification using the Dewey decimal classification and Sears subject headings, with an introduction to the Library of Congress classification. Emphasis is on books and booklike materials. (Lec. 3) Jensen

F 506 Technical Services (I and II, 3) Principles and policies employed in the acquisition, organization, conservation, and circulation of book and nonbook materials in libraries of various kinds. (Lec. 3) Jensen

F 510 History of Books and Printing (I or II, 3) Western civilization as affected by the book arts and the extension of culture through the printed book, with stress on literary property and censorship as related to printing and libraries. (Lec. 3) Tryon

F 511 Comparative Librarianship (I and II, 3) The practice of librarianship in selected countries, including the social, economic, and political factors influencing its de-

velopment, with consideration of the role of cooperation among international organizations. (Lec. 3) Bergen

F512 History of Libraries and Librarianship (I or II, 3) The development of libraries and librarianship within a cultural, social, and economic context from antiquity to the present. Western civilization will be emphasized. (Lec. 3) Bergen

S513 Intellectual Freedom and Censorship (I or II, 3) Historical development and current status of the concept of intellectual freedom and the restraints that past and present societies have imposed on it. Special attention given the librarian's role in defense of intellectual freedom. (Lec. 3) Tyron

S514 The Library in Society (I, 3) Character and function of the library as a social agency, with special attention to the philosophies of contemporary librarianship. (Lec. 3) Bergen

F515 The Library and the Communication Process (I, 3) The importance of applying communication theories to the study of librarianship. Basic concepts and models of the communication and information transfer process. (Lec. 3) Staff

F520 The School Library/Media Center (I and II, 3) The school library in relation to the school curriculum, other community library resources, and extra-curricular needs of the students. Special problems in the selection of materials, budgets, and standards for the library as a materials center with an active part in the teaching function of the school. (Lec. 3) Pre: 502. Salvatore

S521 Public Library Service (I or II, 3) Reading on and discussion of the backgrounds, aims, and problems of the American public library, with particular attention to larger unit systems. (Lec. 3) Pre: 502. Woods

S522 College and University Library Service (I or II, 3) Philosophic and practical considerations implicit in the functions, organization, and management of college and university libraries as these differ from other types of libraries. (Lec. 3) Pre: 502. Tryon

S523 Special Library Service (I or II, 3) Organization, management, and regular and special procedures as they apply to special libraries, with particular emphasis upon standards and planning for space and equipment. (Lec. 3) Pre: 502. Bohnert

F526 Automation in Libraries (I or II, 3) The application of technology and systems analysis to the operation of various types of libraries. (Lec. 3) Pre: permission of instructor. Staff

F527 Seminar in Library Administration (I and II, 3) Intensive study of selected problems in important areas of library administration by means of discussion, readings, special lectures, and the presentation of papers based on literature surveys or research. (Lec. 3) Pre: permission of instructor. Staff

F528 Multi-Media in the Library (I and II, 3) The role of A-V materials in media centers and other types of libraries. (Lec. 3) Pre: 520. Surprenant

S75 529 Library Cooperation (II, 3) Library cooperation including the development of library systems, the role of government in the development of such systems, and the problems inherent in the development of cooperation. (Lec. 3) Staff

F530 Reading Interests of Children (I or II, 3) Survey of children's literature, analyzing current trends, the

limited-vocabulary book at various levels, and the significance of illustrations for the reading process. Main emphasis on informational books as recreational reading. (Lec. 3) Pre: 503. Salvatore

S531 Reading Interests of Adolescents (I or II, 3) Materials of special interest to high school students in school and public libraries, stressing nonfiction but including fiction for the age group and for adults and the responsibility of the library in the drop-out problem. (Lec. 3) Pre: 503. Salvatore

S532 Reading Interests of Adults (I or II, 3) Examination of the range and depth of books as a source of appeal to adults with emphasis on reading, annotations and discussion to develop critical faculties. (Lec. 3) Tryon

F533 Children's Library Materials (I and II, 3) Books and related library materials in the area of creative literature for children: history, bibliography, selection, evaluation and presentation. (Lec. 3) Pre: 503. Salvatore

S536 Storytelling (I, 3) Selection, adaptation, and presentation of stories for children of all ages, including attention to sources of materials, planning the story hour, and training and practice in the art of storytelling. (Lec. 3) Staff

S537 Health Sciences Librarianship (I or II, 3) Introduction to the operation and characteristics of health science libraries and an overview of the area of health science bibliography. (Lec. 3) Pre: 502 or permission of instructor. Schlessinger

F540 Library Materials in the Humanities (I and II, 3) Important library resources in the humanities, including the major works, serial publications, and reference and bibliographical materials thereof. (Lec. 3) Pre: 504. Schneider

S541 Library Materials in the Social Sciences (I and II, 3) Important library resources in the social sciences, including the major works, serial publications, and reference and bibliographical materials thereof. (Lec. 3) Pre: 504. Bergen or Schneider

S542 Library Materials in Science and Technology (I and II, 3) Important resources in science and technology including the major works, serial publications, and reference and bibliographical materials thereof. (Lec. 3) Pre: 504. Bohnert

S543 Government Publications (I or II, 3) Survey of the publishing activities and publications of national, state, and local governments with emphasis on the publications of the United States government. (Lec. 3) Pre: 504. Schneider

S544 Information Science for Librarians (I or II, 3) Introduction to information storage and retrieval (analysis, semantics, thesaurus building, and data banks and their implications) as it applies to librarianship. (Lec. 3) Bohnert

F545 Technical Information Centers (I and II, 3) Study of centers which provide publication, consultant, and question-answering services, emphasizing the differences between them and technical libraries and professional societies. (Lec. 3) Pre: permission of instructor. Bohnert

F546 Library Batch System Automation (I or II, 3) In-depth introduction to the principles of systems analysis as applied in batch system applications in libraries; treatment of hardware and software systems in library applications and the basics of format design and FOR-

TRAN programming for library automation. (Lec. 3) Pre: permission of instructor. Schlessinger

ITL 409, 410 History of the Italian Language
SPA 409 History of the Spanish Language

550 Advanced Cataloging (I or II, 3) Theory and problems in descriptive and subject cataloging. Comparative analysis of different classification schemes with emphasis on the use of Library of Congress classification and subject headings. Includes organization of nonbook materials. (Lec. 3) Pre: 505. Staff

551 Organization of Nonprint Materials (II, 3) A practical and theoretical study of the development of procedures for intellectual and physical access to materials not in conventional print form, such as audio, graphic, audiovisual, and video material, as well as microforms, maps and vertical file materials. (Lec. 3) Pre: to be taken concurrently with or following 505. Surprenant

556 Research in Librarianship (I or II, 3) Methods of investigating problems in library science and an introduction to and evaluation of the literature of the field. (Lec. 3) Pre: permission of instructor. Bohnert

562 Administration of Special Collections, Archives, and Manuscripts (I or II, 3) Principles and techniques for administering manuscript and archival repositories, including acquisitions policies, appraisal criteria, methodology, and preservation practices. (Lec. 3) Pre: core courses in library science or permission of instructor. Maslyn

564 Introduction to Library Conservation (I or II, 3) Fundamentals of library conservation essential for effective management of programs of preventive and restorative conservation for books, documents, prints, maps, broadsides, works of art on paper, and other library materials. (Lec. 3) Staff

570 Library Buildings and Facilities (I or II, 3) The presentation of the steps needed in planning a variety of library facilities including an examination of the social, economic, professional and human aspects of the planning. Pre: 502 or permission of instructor. Staff

591, 592, 593 Independent Work (By Appt., 1-3 respectively) Supervised reading or investigation in areas of special interest to students who obtain written approval for such study prior to registration for the semester for which it is proposed. Pre: 18 hours of library science with a B average. Staff

595 Professional Field Experience (I, II, 3-6) Directed field experience applying theory to practice in libraries, information centers and related organizations under the joint supervision of a member of the faculty and the professional staff of the cooperating institutions. (45 hrs. per credit) Pre: completion of at least 18 hours of library science with a B average. Staff

Linguistics (LIN)

402 Syntactic Analysis (I and II, 3)

431 Applied Linguistics in the Language Laboratory (I, 1)

497, 498 Directed Study (I and II, 3 each)

The following are related, specialized courses in historical linguistics offered in the Departments of English and Languages.

ENG 530 History of the English Language

FRN 503 History of the French Language

GER 409 History of the German Language

Management (MGT)

407 Organization and Management Theory (I and II, 3)

408 Organization Development and Change (I or II, 3)

410 Business Policy (I and II, 3)

422 Labor Law and Legislation (II, 3)

423 Labor Relations (II, 3)

431 Advanced Management Seminar (I or II, 3)

480 Small Business Management (I and II, 3)

491, 492 Special Problems (I and II, 3 each)

504 Business Policy (II, 3) Determination of objectives and planning programs of action, creating an organization and launching a program; controlling execution of plans; reappraising objectives. Studies of administrative situations. (Lec. 3) Pre: permission of department. Staff

530 Management Theory and Practice (I and II, 2) Management applied to business; objectives, policies, organization staffing and control; production; personnel; behavioral science applications; the role of quantitative methods. (Lec. 2) Staff

626 Organizational Behavior (I and II, 3) Incorporates the insights gleaned from the disciplines of psychology, sociology, anthropology and the social sciences of politics, economics and history in the study of the behavior of organizations and of their principal actors. (Lec. 3) Pre: 530 or equivalent. Staff

627 Advanced Organization Theory and Behavior (I and II, 3) Previous knowledge of classical and traditional management thought used to provide concepts, analytical approaches, and skills for understanding how behavioral sciences influence complex organizational systems. (Lec. 3) Pre: 626. Staff

631 Human Resources Management (I and II, 3) Role of human resources management, its functional relationship within an organization with emphasis on behavioral concepts and their application. Text, cases and research. (Lec. 3) Pre: 530. Staff

638, 639 Seminar in Industrial Management (I and II, 3 each) Class discussion of typical cases, original research work in the field of industry with discussion of data collected and analyzed by individual students. (Lec. 3) Pre: permission of department. Staff

655 International Business Management (I, 3) Examines the problems and characteristics of international management by focusing on the role of the multinational corporation in a cross-cultural setting. (Lec. 3) Pre: 530 or equivalent. Staff

670 Business Environmental Analysis (II, 3) Advanced analysis of increasingly complex interrelationships between the business organization and its environment. Emphasis on conceptual foundations of business and the impact of contemporary socio-political issues on management decision-making. (Lec. 3) Pre: 530 or equivalent. Staff

681 Administrative Policy and Decision-making (I and II, 3) Review of the functional areas of marketing, production, finance, economics, accounting, quantitative methods, organizational theory, interpersonal relationships, control and motivation systems, and communications. Includes the M.B.A. written comprehensive exam-

ination according to Graduate School requirements. (Lec. 3) Pre: all M.B.A. foundation courses or undergraduate equivalents and a minimum of 21 M.B.A. credits at the 600 level which must include MKT 651, FIN 641, ACC 611. Staff

F691, 692 Directed Study in Management (I and II, 1-3) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Management Science (MGS)

445 Managerial Application of Simulation (I, 3)

458 Advanced Production Management (II, 3)

483 (383) Data Processing Systems (I and II, 3)

485 Management of Databases (I, 3)

486 (476) Management Systems Analysis and Design (II, 3)

491, 492 Special Problems (I and II, 3 each)

F579 Computing in Management (I, 2) Computer concepts and programming in a high level language such as BASIC, FORTRAN, PL/I. Assigned problems emphasize the use of computing as an administrative and analytical tool for applications in management. (Lec. 2) Staff

F580 Quantitative Methods for Management Analysis (I, 3) Mathematical tools useful to managers. Depth coverage given to differential and integral calculus, vectors and matrices. (Lec. 3) Staff

581 Management Statistics (II, 3) Statistical methods as tools of management; the collection and interpretation of data; statistical inference and decision-making; regression and correlation. (Lec. 3) Pre: 580 or equivalent. Staff

F585 Production and Operations Management (II, 2) Concepts and problems associated with the design and development of systems for the creation of products and services. (Lec. 2) Staff

F601, 602 Advanced Management Statistics (I and II, 3 each) Theory and application of regression and correlation analysis, analysis of variance and experimental design, and other multivariate data analyses. (Lec. 3) Pre: 581 or permission of instructor. Staff

F663 Management Information Systems (II, 3) Concepts and problems associated with the design, implementation, and management of information systems. (Lec. 3) Pre: 579 or equivalent or permission of instructor. Staff

S664 Health Information Systems (I or II, 3) Concepts associated with the design, implementation, management and evaluation of administrative and clinical health information systems. (Lec. 3) Pre: 579 or equivalent or permission of instructor. Armstrong, Koza, Humphrey

F671 Methods of Business Research (I and II, 3) An understanding of research methodology and the culmination of such methodology into a term project. (Lec. 3) Pre: 581 or equivalent and permission of department. Staff

S681 Advanced Operations Management (I, 3) Problems facing the manager of production and other business processes which are devoted to the creation of capital as well as consumer goods and services are examined and analyzed, employing modern decision-making techniques. (Lec. 3) Pre: 581 and 585 or permission of instructor. Staff

F682 Quantitative Management Analytical Techniques (I and II, 3) Development and application of the principal mathematical and statistical techniques used in model building and decision-making under certainty and uncertainty. (Lec. 3) Pre: 581 or permission of instructor. Staff

F683 Business Decision Theory (I, 3) A statistical analysis of managerial decision-making under uncertainty. Bayesian statistical inference and subjective probability are stressed. Comparisons between Bayesian method and classical statistics are discussed and applications to business problems are emphasized. (Lec. 3) Pre: 580, 581 or equivalent. Staff

S684 Advanced Programming Methods in Management Decisions (II, 3) Introduction to integer, nonlinear and dynamic programming. Emphasis on application of modern mathematical optimization techniques in single-stage and multiple-stage management decision problems. (Lec. 3) Pre: 580 and 682 or equivalent. Staff

new F685 (or FIN 685 or INS 685) Health: Financial Management and Insurance (I, 3) Financial and economic analysis of the interactions between consumers and providers of health care, and public and private prepayment and insurance programs. (Lec. 3) Staff

new F686 (or FIN 686 or INS 686) Public Issues in the Health System (II, 3) A systematic review of the development and present status of selected policy issues in the social and economic status of the health and medical care system. (Lec. 3) Staff

S691, 692 Directed Study in Management Science (I and II, 1-3) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Marine Affairs (MAF)

410 Problems in Marine Affairs (II, 3)

483 International Ocean Law (I, 3)

S521 Coastal Zone Law (II, 3) Examination of the authority of different levels and agencies of government to make decisions affecting coastal regions. Survey of existing and proposed state and national legislation affecting coastal regions. (Lec. 3) Cameron

S523 Fisheries Law and Management (II, 3) Examination of the relationship between law and fisheries policy on the international and national level, law relating to fisheries, jurisdictional levels, function of law in implementing fisheries management policy. (Lec. 3) Pre: permission of instructor. Cameron

F526 Admiralty Law (I, 3) Fundamentals of admiralty law: collisions at sea, bills of lading, marine insurance, and rights of seamen. Case studies of marine transportation problems, and their resolution by law. (Lec. 3) Pre: previous or concurrent enrollment in FMT 416 or waiver by both departments. Nixon

S524 Port Geography and Policy (II, 3) Analysis of coastal and international trade routes and the response of ports. Special emphasis on the container revolution, liquid natural gas transportation, and deep water ports for supertankers. (Lec. 3) In alternate years. Pre: FMT 416 or waiver by both departments. Staff

- 578 International Ocean Organizations (II, 3)** International organizations involved in marine-related activities, including their planning, management, and regulatory and assistance functions. Attention to the impact of these organizations on national policies in the developed and developing worlds. (Lec. 3) Pre: 483. In alternate years. Juda
- 586 Environmental Impact Assessment and Analysis (II, 3)** A survey of environmental legislation and proposed guidelines, together with a review of physical and socio-economic methods of environmental analysis and assessments. Preparation of environmental impact statements. (Lec. 3) Pre: BOT (or ZOO) 262 or permission of instructor. West
- 591, 592 Directed Study (I and II, 1-3)** Individual study of areas of special interest. Pre: permission by a member of the staff. Staff
- 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee. Staff
- 602 Federal Ocean Policy and Organization (II, 3)** Ocean policy development and implementation by the executive and legislative branches of government. Allocation of powers and analysis of the decision-making process for the oceans. (Lec. 3) Pre: permission of department. In alternate years. Juda
- 604 Intergovernmental Relations: Coastal Resource Management (I, 3)** Allocation of authority between federal, state, local and regional governments on resource management. Innovative governmental approaches to coastal management, environmental protection, and energy facility siting. (Lec. 3) Pre: 521 or permission of department. Cameron
- 651, 652 Marine Affairs Seminar (I and II, 3 each)** Interdisciplinary seminar conducted by Marine Affairs Program faculty supplemented by guest speakers from industry and government. Focuses on problems of marine resources development and management at the local/state, national and international policy levels. (Lec. 3) Pre: permission of director. Alexander, Cameron, Juda, Nixon and West

Marketing (MKT)

- 410 Product Management (I, 2)**
- 411 Marketing Communications (I, 2)**
- 417 Channels of Distribution (II, 2)**
- 419 Pricing Decisions (II, 2)**
- 432 (332) Sales Management (I, 3)**
- 443 Retail Store Management (I, 3)**
- 452 International Marketing (II, 3)**
- 462 Marketing Research (II, 3)**
- 464 Marketing Policy and Problems (II, 3)**
- 466 Quantitative Marketing Management (II, 3)**
- 474 Advertising Seminar (I, 3)**
- 475 Advertising Campaigns (II, 3)**
- 481, 482 Directed Study (I and II, 3 each)**
- 550 Marketing Theory and Practice (I and II, 2)** Analytical approach to contemporary theory and practice of marketing management. (Lec. 2) Staff
- 651 Marketing Management (I, 3)** Analysis of marketing problems and determination of marketing policies in product development, promotion, pricing, channel selection; legal aspects. (Lec. 3) Pre: 550 or equivalent. Staff
- 652 Consumer Behavior (I or II, 3)** Analysis of major factors influencing the behavior and demand of consumers. Emphasis on using these factors to identify and segment target markets and to assess the effects of these factors on markets. (Lec. 3) Pre: 550 or permission of instructor. Della Bitta and Loudon
- 653 Advertising Management (I or II, 3)** A course oriented to managers responsible for planning, appraising and administering advertising and promotion activities. (Lec. 3) Pre: 651 or permission of instructor. Hill and Nason
- 654 Product Management (I or II, 3)** Development of product policies and strategies. Emphasis on organizing the marketing function to deal with various product-related activities including new product development, life cycle strategies, and product deletion. (Lec. 3) Pre: 651. Loudon and Hill
- 656 International Marketing Management (I and II, 3)** Marketing policy-making for the multinational firm; organizing for international marketing; its opportunities, pricing, channels, promotion, research. (Lec. 3) Pre: 550 and 651. Staff
- 658, 659 Seminar in Marketing (I and II, 3 each)** Preparation and presentation of papers on selected topics in marketing. (Lec. 3) Pre: 550, 651, or permission of instructor. Staff
- 691, 692 Directed Study in Marketing (I and II, 1-3)** Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. 1-3) Pre: permission of instructor. Staff

Mathematics (MTH)

- 418 Matrix Analysis (II, 3)**
- 425 Topology (I, 3)**
- 435, 436 (335, 336) Introduction to Mathematical Analysis I and II (I and II, 3 each)**
- 437, 438 Advanced Calculus and Applications (I and II, 3 each)**
- 441 Introduction to Partial Differential Equations (I, 3)**
- 444 Ordinary Differential Equations (II, 3)**
- 451 Introduction to Probability and Statistics (I, 3)**
- 452 Mathematical Statistics (II, 3)**
- 456 Probability (II, 3)**
- 461 Methods of Applied Mathematics (I, 3)**
- 462 Functions of a Complex Variable (II, 3)**
- 471 Introduction to Numerical Analysis I (I and II, 3)**
- 472 Introduction to Numerical Analysis II (I, 3)**
- 492 Special Problems (I and II, 1-3)**
- 513 Linear Algebra (I or II, 3)** Linear spaces and transformations, linear functionals, adjoints, projections, diagonalization, Jordan form of matrices, inner products; positive, normal, self-adjoint and unitary operators; spectral theorem, bilinear and quadratic forms. (Lec. 3) Papadakis
- 515, 516 Algebra I, II (I and II, 3 each)** Groups, rings, modules, commutative algebra. (Lec. 3) Pre: 316. Beauguard
- 525 Topology I (I, 3)** Topological spaces, separation properties, connectedness, compactness, uniformities.

- Function spaces, spaces of continuous functions and complete spaces. (Lec. 3) Pre: 425 or equivalent. Grove
- 526 Topology II (II, 3)** Homotopy, fiberspaces, homology and cohomology. Notions of homological algebra. Products. (Lec. 3) Pre: 525. Staff
- 535, 536 Measure Theory and Integration (I and II, 3 each)** Elements of topology and linear analysis. Lebesgue measure and integration in \mathbb{R} , in \mathbb{R}^n and in abstract spaces. Convergence theorems. Bounded variation, absolute continuity, and differentiation. Lebesgue-Stieltjes integral. Fubini and Tonelli theorems. The classical Banach spaces. (Lec. 3) Pre: 436. Pakula
- 545, 546 Ordinary Differential Equations I, II (I and II, 3 each)** Existence and uniqueness theorems. Continuous dependence on parameters and initial conditions. Singularities of the first and second kinds, self-adjoint eigenvalue problems on a finite interval. Oscillation and comparison theorems. Elements of asymptotic theory. Elements of stability theory of Lyapunov's second method. (Lec. 3) Pre: 435 and 462. Staff
- 550 Probability and Stochastic Processes (I, 3)** Review of probability theory. Generating functions, renewal theory, Markov chains and processes, Brownian motions, stationary processes. (Lec. 3) Pre: 451, 435, or 437, or permission of instructor. Liu
- 551 Mathematical Statistics (I, 3)** Theory of estimation and hypothesis testing. Large sample methods. Regression and analysis of variance. (Lec. 3) Pre: 451, 435 or 437 or permission of instructor. Staff
- 561 Advanced Applied Mathematics (II, 3)** Linear spaces, theory of operators, Green's functions, eigenvalue problems of ordinary differential equations. Application to partial differential equations. (Lec. 3) Pre: 461. Verma
- 562 Complex Function Theory (I, 3)** Analytic continuation, Riemann surfaces. The theory of conformal mapping. Representation theorems and applications. Entire functions. (Lec. 3) Pre: 462. Sine
- 572 Numerical Analysis (II, 3)** Further numerical methods of solution of simultaneous equations, partial differential equations, integral equations. Error analysis. (Lec. 3) Pre: 472. Staff
- 591, 592 Special Problems (I and II, 1-3 each)** Advanced work, under the supervision of a member of the department and arranged to suit the individual requirements of the student. Pre: permission of department. Levine
- 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- 629, 630 Functional Analysis I, II (I and II, 3 each)** Banach and Hilbert spaces, basic theory. Bounded linear operators, spectral theory. Applications to analysis. Application to a special topic such as differential operators, semigroups and abstract differential equations, theory of distributions, or ergodic theory. (Lec. 3) Pre: 536 and permission of instructor. Staff
- 641 Partial Differential Equations I (I, 3)** First order systems. The Cauchy-Kowalewsky theorem. The Cauchy problem. Classification of partial differential equations. Hyperbolic equations. Mainly the theory of the subject. Students interested in techniques for the solution of standard equations should take 441. (Lec. 3) Pre: 215, 435, and 462. Levine
- 642 Partial Differential Equations II (II, 3)** Elements of potential theory. Elliptic equations. Green's function. Parabolic equations. Introduction to the theory of distributions. (Lec. 3) Pre: 641. Levine
- 645, 646 Selected Topics in Differential Equations I, II (I and II, 3 each)** Advanced topics of current research in differential equations will be presented with a view to expose the students to the frontiers of the subject. (Lec. 3) Pre: permission of department. Staff
- 691, 692 Special Topics I, II (I and II, 3 each)** Advanced topics of current research in mathematics will be presented with a view to expose the students to the frontiers of the subject. (Lec. 3) Pre: permission of department. Staff
- 699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Mechanical Engineering and Applied Mechanics (MCE)

- 406 (or PHY 406) Atmospheric Physics I (I, 3)**
- 407 (or PHY 407) Atmospheric Physics II (II, 3)**
- 423 Design of Machine Elements (I, 3)**
- 424 Dynamics of Machines (I, 3)**
- 425 Lubrication and Bearings (I, 3)**
- 426 Advanced Mechanics of Materials (I, 3)**
- 427 (or ZOO 427) Modeling and Analysis of Dynamic Systems (I, 3)**
- 428 Mechanical Control Systems (II, 3)**
- 429 Comprehensive Design (II, 3)**
- 432 Alternate Energy Systems (I, 3)**
- 434 Thermal Environmental Engineering (II, 3)**
- 438 Internal Combustion Engines (I, 3)**
- 439 Applied Energy Conversion (II, 3)**
- 448 Heat and Mass Transfer (I, 3)**
- 455 Advanced Fluid Mechanics (I, 3)**
- 457 Fluidics (II, 3)**
- 463 Intermediate Dynamics (I, 3)**
- 464 Vibrations (II, 3)**
- 466 Advanced Mechanics of Solids (II, 3)**
- 491, 492 Special Problems (I and II, 1-6 each)**
- 501, 502 Graduate Seminar (I and II, 1 each)** Discussions, presentation of papers based on research or detailed literature surveys. Attendance is required of all students in graduate residence. (Lec. 1) Staff
- 503 Linear Control Systems**
(See Electrical Engineering 503.)
- 504 Optimal Control Theory**
(See Electrical Engineering 504.)
- 515 (or CHE 515) Combustion (II, 3)** Combustion phenomena including chemical reactions and kinetics, ignition and quenching, flame propagation, detonation waves, propellant combustion; applications to heat engines, propulsion devices, control of unwanted fires, and pollution due to combustion. (Lec. 3) Pre: 342 and 354 or CHE 313 and 342 or 344 or equivalent. Staff
- 517 (or ELE 517) Magnetofluidmechanics (I or II, 3)** Basic concepts and equations governing the interaction between electromagnetic fields and a moving, electrically conducting, continuum fluid. Wave motions in MFM systems and engineering applications. (Lec. 3) Pre:

455 and ELE 511 or PHY 431, or permission of instructor. Lessmann

F 521 Reliability Analysis and Prediction (II, 3) Statistical analysis of failure of complex engineering systems, design factors contributing to functional system survival, failure, distribution functions, redundancy, confidence, reliability testing. (Lec. 3) Pre: MTH 451 or equivalent, MCE 423 or permission of instructor. Nash

S 524 Advanced Kinematics and Linkage Design (I, 3) Systematics of mechanisms and synthesis of linkage design. (Lec. 3) Pre: 423. Hatch, Datseris

S 531 Underwater Power Systems
See Ocean Engineering 531.

F 532 Coastal Zone Power Plants
See Ocean Engineering 532.

S 540 Environmental Control in Ocean Engineering
See Ocean Engineering 540.

F 541 Thermodynamics (I, 3) Advanced study of classical thermodynamics with emphasis on basic concepts, laws, and thermodynamic relations. (Lec. 3) Pre: 341, 354. Brown, DeLuise, Wilson

S 542 Statistical Thermodynamics (II, 3) Irreversible thermodynamics, kinetic theory of gases, statistical thermodynamics and the development and application of the partition function. (Lec. 3) Pre: 341. Brown, Wilson

F 545 Heat Transfer (I, 3) Conduction in two and three dimensions and conducting systems with radiation and fluid motion. Solutions obtained by mathematics, computer-numerical methods, and analog devices. (Lec. 3) Pre: 448. Test, Wilson

S 546 Convection Heat Transfer (II, 3) Relationship between heat transfer and fluid flow with emphasis on the solution of governing equations by exact methods, integral methods and similarity techniques. (Lec. 3) Pre: 448. Test

F 550 Theory of Continuous Media (I, 3) Basic course for first-year graduate students which develops and unifies the laws of mechanics as applied to the behavior of continua. Application to solids and fluids. (Lec. 3) Pre: CVE 220, MCE-354, 372, or permission of instructor. Kim

F 551 Fluid Mechanics I (I, 3) Basic treatment of real fluid flows using the continuum approach. Solutions of the fundamental system of equations with and without temperature variations. (Lec. 3) Pre: 354 or its equivalent. Dowdell, Hagist, Lessmann, White

S 552 Fluid Mechanics II (II, 3) Continuation of 551 including incompressible irrotational flow, laminar and turbulent shear flows and other special topics of current interest. (Lec. 3) Pre: 551. Dowdell, Hagist, Lessmann, White

F 553 Flow of Compressible Fluids (II, 3) Fundamental equations of compressible fluid flow. Solutions of these equations for subsonic, transonic, supersonic, and hypersonic velocities. (Lec. 3) Pre: 551 or permission of instructor. Hagist, White

F 563 Advanced Dynamics (I and II, 3) Dynamics of a system of particles, Lagrange's equations from an advanced point of view. Variational methods, nonconservative and non-holonomic systems; matrix-tensor specifications of rigid body motions, normal coordinates. Hamilton's equation of motion, canonical transformation, Hamilton-Jacobi theory. (Lec. 3) Pre: 463 or permission of instructor. Datseris, Nash

F 564 Advanced Vibrations (I, 3) Theory of vibration of systems with concentrated masses and stiffness; systems with one degree of freedom, vibration isolation systems with many degrees of freedom, matrix methods, dynamic vibration absorbers, torsional vibration, approximate numerical methods. Experimental methods and design procedures. (Lec. 3) Pre: 464. Bradbury, Palm, Nash

S 565 Advanced Vibrations (II, 3) Theory of vibration with continuously distributed mass and stiffness. Wave, characteristic function and integral equation methods of solution of string, longitudinal and torsional systems. Vibration and critical speeds of beams and rotating shafts, the methods of Rayleigh, Ritz, and Stodola, and self-excited vibrations. (Lec. 3) Pre: 564. Bradbury, Nash

S 572 Theory of Elasticity (II, 3) Advanced theory of elasticity of isotropic and anisotropic bodies; plane stress and plane strain analysis via classical and Muskhelishvili's method, three-dimensional applications in torsion, bending, and semi-infinite solids. (Lec. 3) Pre: 550 or permission of instructor. Kim

F 573 Theory of Plates (I and II, 3) Theory of plates and application to plates of various shapes under various loadings. (Lec. 3) Pre: CVE 220, MTH 244, MCE 372, or permission of instructor. Kim, Nash

F 574 Energy Methods in Solid Mechanics (II, 3) Introduction to calculus of variations, variational principles in solid mechanics and approximate solution techniques; static and dynamic application involving beams, frames, plates. (Lec. 3) Pre: 550. Kim

F 575 Elastic Stability (I and II, 3) Stability analysis of bars under separate and combined axial, lateral, and torsional loadings; buckling of plates and shells, energy methods and numerical methods. (Lec. 3) Pre: CVE 220, MTH 244, MCE 372, or permission of instructor. Goff, Kim

S 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

S 645 Boiling Heat Transfer and Two-phase Flow
See Chemical Engineering 645.

S 646 (or CHE 646) Radiation Heat Transfer (I or II, 3) Radiant exchange between surfaces. Radiative properties of surfaces. Exchange among non-ideal surfaces. Gas-radiative exchange. Radiative exchange with volume emitters. Furnace design applications. (Lec. 3) Pre: 545 or CHE 644 or permission of instructor. Brown

F 651 Turbulent Flows (I, 3) Turbulent flows from both the phenomenological and statistical points of view. Applications to meteorology, boundary layers and turbulent diffusion. (Lec. 3) Pre: 551 or permission of instructor. Hagist

F 652 Experimental Methods in Fluid Mechanics (II, 3) An overview of measurement techniques and instrumentation used in the current practice of experimental fluid mechanics. Course emphasizes hot wire, hot film and laser anemometry. Provides practical laboratory experience. (Lec. 2, Lab. 3) Pre: 551 or permission of instructor. Hagist, Lessmann

S 666 Nonlinear Mechanics (I and II, 3) Dynamics of nonlinear systems, free and forced oscillations; graphical methods, integral curves, singular points, limit cycles and stability. Van der Pol equation, perturbation methods, approximate methods, application to ecological systems. (Lec. 3) Pre: 564. Nash

673 Thermal Stress Analysis (I, 3) Theory of stress and deformation in bodies subjected to thermal environments and restraints. Application to problems in thermoelasticity, thermal fatigue, thermoplasticity, and creep analysis. (Lec. 3) Pre: 448, 550. Kim, White

674 Theory of Shells (I and II, 3) Development and application of membrane and bending theories of shells of various shapes. Variational methods and buckling of shells. (Lec. 3) Pre: CVE 220, MCE 573, or permission of instructor. Kim

677 Fatigue Failure and Fracture Mechanics (II, 3) Advanced study of fracture induced by repeated loading, damage theories, fundamental theories of microscopic crack initiation and growth, statistical aspects of fatigue failure, theory of crack propagation. (Lec. 3) Pre: 429, 550, MTH 451, or permission of instructor. Nash

679 Plasticity and Creep (II, 3) Stress-induced flow of nominally solid materials, effect of temperature, combined stress problems; stress-dependent creep of metals at elevated temperatures, creep buckling, anelastic creep, related dislocation theory. (Lec. 3) Pre: 550 or permission of instructor. Sadd

691, 692 Special Problems (I and II, 1-6 each) Advanced work, under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problem.) Credits not to exceed a total of 12. Pre: permission of department. Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Medicinal Chemistry (MCH)

443, 444 Organic Medicinal Chemistry (I and II, 3 each)
497, 498 Special Problems (I and II, 1-5 each)

501 Radiopharmaceuticals (I, 3) The theoretical and applied aspects of the commonly used isotopes of pharmaceutical significance with emphasis on the diagnostic, therapeutic, and tracer applications in biological systems and techniques of development, formulation, quality control, and safe utilization. (Lec. 2, Lab. 3) Pre: CHM 228 and PHY 112, or permission of department. Smith

526 Lipid Chemistry
See Food Science and Technology 526.

533 Advanced Drug Assay (I and II, 2-4) Advanced chemical and physical methods of analytical control related to pharmaceutical research and industrial pharmacy. (Lec. 1, Lab. 3-9) Pre: 342. Smith

548 (or PCG 548) Physical Methods of Identification (II, 3) Utilization of physical methods (primarily spectroscopic) in the structure elucidation of complex organic molecules. Emphasis on interpretation of ultraviolet, infrared, nuclear magnetic resonance, mass and optical rotatory dispersion spectra. (Lec. 3) Pre: CHM 425 and/or permission of instructor. Abushanab, Shimizu and Turcotte

549 Synthesis (I and II, 3) Theoretical and applied aspects in synthesis of selected organic compounds of medicinal significance. (Lab. 9) Pre: permission of department. Abushanab and Turcotte

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

621, 622 Seminar (I and II, 1 each) Seminar discussions including presentation of papers on selected topics in medicinal chemistry. (Lec. 1) Students attend seminar each semester while in graduate residence, but a maximum of 1 credit per year is allowed. No more than 3 credits allowed for the entire period of residence. Staff

643 Advanced Organic Medicinal Chemistry (II, 3) Synthesis, modes of action, and effects on pharmacological activity. Analgesics, cholinergics, folic acid antagonists, diuretics, and sulfonamides are included. (Lec. 3) Pre: CHM 522 and permission of instructor. In alternate years, next offered 1979-80. Staff

646 Alkaloids (I, 3) Advanced course dealing with proof of structure, synthesis, chemical properties and biological activity of various alkaloids. (Lec. 3) Pre: permission of department. Abushanab

697, 698 Research in Medicinal Chemistry (I and II, 1-3 each) Literature survey, laboratory work and a detailed research report on one or more assigned topics in medicinal chemistry. (Lab. 3-9) Pre: permission of department. Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Microbiology (MIC)

401 (or BCP 401) Quantitative Cell Culture (I, 3)

403 (or BCP 403) Introduction to Electron Microscopy (I, 2)

405 (or BCP 405) Electron Microscopy Laboratory (I, 2)

408 (or ZOO 408) Introduction to Protozoology (II, 4)

411 Advanced Bacteriology (I, 4)

412 Food Microbiology (II, 3)

422 (or PLP 422) Industrial Microbiology (II, 3)

432 Pathogenic Bacteriology (II, 3)

495, 496 Seminar in Microbiology (I and II, 1 each)

521 Recent Advances in Cell Biology (I, 2) Reading of current papers in the area of cell biology and preparation of written and oral reports. Emphasis on animal cells. (Lec. 2) Pre: at least one of the following courses or an equivalent course emphasizing cell structure and function: ZOO 315, 441, BOT 453, 432, 445 and MIC 408; graduate status or permission of instructor. Hufnagel and Goertemiller

533 Immunity and Serology (I, 3) Various immune reactions, nature of antigens and antibodies, and formation and action of latter. (Lec. 2, Lab. 3) Pre: 201 or 211 and one semester organic chemistry and senior standing. Staff

552 Microbial Genetics (II, 3) Recent research on the mechanisms of mutation and genetic recombination, the process of DNA replication, the genetic code, and regulation of DNA, RNA, and protein synthesis in microorganisms. (Lec. 2, Lab. 3) Pre: 201, BOT 352, and BCP 311. Cohen

576 Heterotrophic Microbiology of the Sea
See Oceanography 576.

577 Marine Epimicrobiology
See Oceanography 577.

593, 594 The Literature of Bacteriology (I and II, 1 each) Thorough study of original literature of some phase of bacteriology. Written abstracts or papers on assigned

topics are discussed in weekly conferences with instructor. (Lec. 1-2): Staff

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

F 621 Systematic Bacteriology (I, 4) Conferences, assigned readings, and laboratory work designed to give a knowledge of principles of classification of bacteria as well as methods of identifying and describing unknown species. (Lec. 3, Lab. 3) Pre: 432 and either 412 or 533. In alternate years, next offered 1979-80. Houston

S 19 622 (or BCP 622) Advanced Electron Microscopy (II, 2) The physical functioning of electron microscopes; high resolution microscopy of macro-molecules; newly available EM histochemical procedures; and computer processing of electron images. (Lec. 2) Pre: 403, 405 or permission of department. Hufnagel

S 19 624 (or BCP 624) Advanced Electron Microscopy Laboratory (II, 2) Cleaning and aligning the electron microscope; development of independent projects utilizing advanced techniques, and formal presentation of results of individual projects to the class. (Lab. 6) Pre: prior or concurrent registration in 622 or permission of department. Hufnagel

S 19 641 Physiology of Bacteria (I, 4) Bacterial structure and function, including growth, nutrition, environmental factors, metabolism, biosynthesis, and energy-yielding reactions. (Lec. 3, Lab. 3) Pre: 201 or 211, 2 semesters of organic chemistry and one semester of biochemistry. Wood

S 19 654 Advances in Immunology (II, 2) Assigned readings concerning latest developments in the field of cellular and humoral immunity presented and discussed by students. Research paper and critical review of a scientific paper required. (Lec. 2) Pre: 553, BCP 311, or permission of instructor. In alternate years, next offered 1979-80. Laux

F 19 656 Mechanism of Bacterial Pathogenesis (II, 4) Study of recent research on the mechanisms of pathogenesis. Students expected to participate in roundtable discussions of recent pertinent literature. (Lec. 3, Lab. 3) Pre: 432, 552, BCP 311. In alternate years, next offered 1980-81. Thorne

F 691, 692 Special Problems in Microbiology (I and II, 3) Assigned research on an advanced level. Student required to outline problem, conduct the necessary literature and experimental work, and present observations and conclusions in a report. (Lab. 6) Pre: graduate standing, Staff

F 695, 696 Graduate Research Seminar (I and II, 1 each) Reports of research in progress or completed. (Lec. 1) Required of all graduate students in microbiology. Staff

F 699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Note: for Virology, see Animal Pathology and Plant Pathology; for Mycology, see Botany.

- 418 Composition (II, 3)
- 419 Composition (I, 2)
- 420 Counterpoint (I, 3)
- 422 Advanced Orchestration (II, 2)
- 423 Sixteenth Century Counterpoint (I or II, 3)
- 431 The Baroque Era (I, 3)
- 432 The Classical Era (II, 3)
- 433 The Romantic Era (I, 3)
- 434 The Modern Era (I, 3)
- 438 Topics in Elementary School Music (I, 3)
- 441 Special Projects (I and II, 3)
- 446 Teaching General Music (II, 3)
- 451 Performance as Minor or Elective (I and II, 2)
- 452 Upper Level Performance as Minor (I and II, 2)
- 455 Senior Recital (I or II, 0)
- 461 Performance as Major (I and II, 4)
- 465 Senior Recital for Performance Majors (I or II, 0)
- 481, 482 Piano Literature and Pedagogy (I and II, 2 each)
- 483, 484 Vocal Literature and Pedagogy (I, II, 2 each)

F 512 Advanced Instrumental Conducting (I, 3) Critical study of orchestral and chamber music scores with reference to interpretation and performance. Development of technical command and expressive skill. Includes supervised rehearsal and conducting of university ensembles. (Lec. 3) Pre: knowledge of basic baton as evidenced in audition or 312. Ceo

F 539 Advanced Principles of Music Education I (I, 3) Analysis of philosophical, psychological, and historical foundations of music education. Development and significance of objectives and principles of music education in the United States. (Lec. 3) Pre: graduate standing in music. Motycka

F 540 Advanced Principles of Music Education II (II, 3) Critical study of principles of objectives, program, method, administration, supervision, and evaluation of music education in the United States. (Lec. 3) Pre: 539. Motycka

F 545 Musical Aptitude and Achievement (I, 3) Intensive analysis of musical aptitude and achievement, from a thorough examination of existing devices to the consequent realization of research data via basic statistical concepts. (Lec. 3) Pre: graduate standing in music, EDC 371 or PSY 434 or equivalent. Motycka

F 548 Research in Music (II, 3) Examination of research techniques as applied to the art of music. Extant major project procedures and data in the research categories: historical, analytical, experimental, descriptive, and philosophical. (Lec. 3) Pre: 545. Motycka

F 551 Performance as Minor or Elective (I and II, 2) Private instruction. One 40-minute lesson and scheduled practice hours each week. One level, one year as prescribed in performance minor syllabi. Afternoon recital required each semester. (Studio 6) Pre: completion of applied minor in undergraduate upper division and permission of department. May be repeated. Staff

Select area of instruction from the following and add to course number as MUS 551B, Piano:

- | | | |
|-------------------------|-----------------------|--------------------------|
| F3 A Voice | F3 H Bass Viol | F3Q French Horn |
| F3 B Piano | F3J Flute | F3R Trombone |
| F3 C Organ | F3K Oboe | F3S Baritone Horn |
| D Harpsichord | F3L Clarinet | F3T Tuba |
| F3 E Violin | F3M Bassoon | F3U Percussion |
| F3 F Viola | F3N Saxophone | F3V Guitar |
| F3 G Violoncello | F3P Trumpet | BW |
| | | B-Y |

Music (MUS)

- 407 The Symphony (II, 3)
- 408 The Opera (II, 3)

- 561 Performance Major** (I, II, 6 each) Private instruction for graduate performance concentrators only. One 60-minute lesson each week. Recital performance as required by department and instructor. (Studio 60 minutes) See under 551 for areas of instruction. Pre: audition demonstration of proficiency and comprehension equivalent to that required for the completion of the B.M. in performance. May be repeated. Rankin and Fuchs.
- 565 Graduate Recital for Performance Major** (I and II, 0) Performance of advanced repertoire of various styles in a public program of at least 55 minutes performing time after faculty acceptance. Pre: concurrent registration in 561 and 6 or more credits in 561. Rankin and Fuchs
- 570 Graduate Project** (I and II, 3) Independent study tasks specifically relating music to various cognate areas, resulting in a major essay. Pre: all course work in Master of Music Degree program. Staff
- 591 University Symphony Orchestra** (I and II, 1 each) Pre: audition at graduate level of performance. (Lec. 3). May be repeated. Ceo
- 594 Symphonic Wind Ensemble** (II, 1) Pre: audition at graduate level of performance. (Lec. 3). Pollart
- 595 Concert Choir** (I and II, 1 each) Pre: audition at graduate level of performance. (Lec. 3). Abusamra
- 598 Chamber Music Ensemble** (I and II, 1 each) Chamber music ensembles are designated as A. Keyboard Ensemble, B. String Ensemble, C. Woodwind Ensemble, D. Brass Ensemble, E. Percussion Ensemble, F. Stage Band, G. Madrigal Singers, H. Guitar Ensemble. Select appropriate letter and small ensemble from the list and add to course number, as 598B String Ensemble. Other ensemble combinations may be added. Small instrumental ensembles are normally restricted to one performer per part. Pre: graduate standing in music and evidence by audition of graduate level performance. (Lec. 2). May be repeated. Staff
- 599 Masters Thesis Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee. May be repeated. Staff
- 583 (or CHE 583) Nuclear Reactor Theory** (II, 3) Elementary theory of self-sustained nuclear reactors. Diffusion and slowing-down theory of neutrons and the determination of the critical size and homogeneous thermal reactors with and without reflectors. One-group, two-group and modified two-group approaches. (Lec. 3) Pre: PHY 340 or 341. Knickle
- 585 (or CHE 585) Measurements in Nuclear Engineering** (I, 3) Basic techniques used in measuring the interaction of radiation and matter. Principles of ionization chambers, proportional and Geiger-Mueller counters, scintillation counters, related circuitry. Laboratory stresses thorough familiarization with these instruments. (Lec. 2, Lab. 3) Pre: PHY 340 or 341 or permission of department. Rose
- 586 (or CHE 586) Nuclear Reactor Laboratory** (II, 3) Theoretical and experimental determination of reactor characteristics. Experimental equipment includes a neutron howitzer, a subcritical training reactor and a one megawatt swimming pool reactor. Digital and analog computer facilities are utilized in calculation. (Lec. 1, Lab. 4) Pre: 585. Rose
- 599 Masters Thesis Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.
- 682 (or CHE 682) Radiation Shielding** (II, 3) Detailed study of the problems involved in radiation shielding. The principles of radiation protection are briefly reviewed first. (Lec. 3) Pre: 581. In alternate years. Knickle
- 683 (or CHE 683) Advanced Nuclear Reactor Theory** (II, 3) Advanced treatment of nuclear reactor theory, emphasizing the transport theory and multi-group calculations. Determination of critical size of heterogeneous reactors. Time-dependent transient behavior and basic theory of reactor control. Use of digital and analog computers. (Lec. 3) Pre: 583. Rose
- 687 (or CHE 687) Nuclear Chemical Engineering** (II, 3) Applications of chemical engineering to the processing of materials for and from nuclear reactors. (Lec. 3) Pre: 581 and permission of instructor. In alternate years. Rose

Nuclear Engineering (NUE)

Nursing (NUR)

- 538 (or CHE 538) Nuclear Metallurgy** (II, 3) Metallic materials of particular interest in nuclear engineering. Production and physical metallurgy of uranium, thorium, the transuranium elements, and the rare earths; protection against corrosion, radiation damage. (Lec. 3) Pre: CHE 332. Staff
- 581 (or CHE 581) Introduction to Nuclear Engineering** (I and II, 3) Survey course of the field emphasizing the special application of principles learned in the several specialized branches of engineering. Major topics are nuclear physics, problems in design of reactor cores, materials of construction, instrumentation and control, and health physics. (Lec. 3) Pre: PHY 340 or 341. Knickle
- 582 (or CHE 582) Radiological Health Physics** (I, 3) Fundamentals of health physics and radiation protection are covered. Calibration and use of survey and monitoring equipment are emphasized in the laboratory. (Lec. 2, Lab. 3) Pre: permission of instructor. In alternate years. Rose
- 500 Advanced Assessment Skills** (I or II, 3) Advanced study of normative and pathological ranges of anatomy and physiology, with application in developing diagnostic skills. Pre: admission to certificate or graduate program, or permission of instructor; ZOO 442. Castro and O'Flynn-Comiskey
- 501 Theoretical Study of Phenomena in Nursing** (I or II, 3) Major theories and concepts in nursing. Emphasis on the theoretical study of nursing phenomena commonly found in client and client-nurse systems. (Lec. 3) Pre: graduate standing, must be taken concurrently with 502. Kang and Schwartz-Barcott
- 502 Practicum in the Study of Phenomena in Nursing** (I or II, 3) Field study of selected nursing phenomena in health care agencies. Emphasis on the clinical application of selected theoretical or conceptual frameworks. (Lab. 6) Pre: graduate standing, must be taken concurrently with 501. Kang and Schwartz-Barcott

- F505 Nursing Research (I or II, 3)** An overview and study of nursing research. Emphasis on the analysis of current research in nursing focusing on patient care. Research skills developed further by designing a research project. (Lec. 3) Pre: graduate standing and a course in statistics. Kang, Schwartz-Barcott and Hirsch
- F506 Independent Study in Nursing (I and II, 2-6)** Intensive study of a specific area of interest, a problem or issue in nursing under guidance of the faculty. Pre: permission of graduate faculty. Staff
- F-509 F-508 F-509**
510 Advanced Leadership and Nursing Role Development (I or II, 3) Factors at various levels of social institutions that influence client and client-nurse systems. Emphasis on role development, leadership and change in effecting patient care. (Lec. 3) Pre: graduate standing. Manfredi and O'Flynn-Comiskey
- 511 Advanced Mental Health Nursing I (I or II, 3)** Investigation of theories of healthy and psychopathological patterns of individual behavior from a mental health perspective. (Lec. 3) Pre: graduate standing, graduate level course in psychoneurology or psychobiology, must be taken prior to or concurrently with 512. Garner and Feather
- 512 Practicum in Advanced Mental Health Nursing I (I or II, 3)** Field experience to develop competence in the practice of advanced mental health nursing. Emphasis on application of relevant theories in solving individuals' mental health problems. (Lab. 6) Pre: graduate standing, graduate level course in psychoneurology, must be taken concurrently with 511. Feather and Garner
- 513 Advanced Mental Health Nursing II (I or II, 2)** Theoretical analysis of current modes of advanced mental health intervention in order to explain strategies for solution of family, group and community problems. (Lec. 2) Pre: 511, 512, must be taken concurrently with 514. Garner and Feather
- 514 Practicum in Advanced Mental Health Nursing II (I or II, 4)** Field experience to develop increased competence in the practice of mental health nursing intervention. (Lab. 8) Pre: 511, 512, must be taken concurrently with 513. Feather and Garner
- 521 (503) Theoretical Study of Major Problems in Nursing Practice (I or II, 3)** Major theories and concepts for developing strategies in nursing practice. Emphasis on developing nursing strategies through theoretical analysis of problems viewed in the context of organizational and societal systems. (Lec. 3) Pre: 501, 502 and 505, must be taken concurrently with 522. Schwartz-Barcott, Hirsch and Kang
- 522 (504) Practicum in the Study of Major Problems in Nursing Practice (I or II, 3)** Field study of major nursing problems with emphasis on examination, evaluation, and revision of nursing strategies for problems in the context of organizational and societal systems. (Lab. 6) Pre: 501, 502 and 505, must be taken concurrently with 521. Schwartz-Barcott, Hirsch and Kang
- 531 Primary Health Care Nursing I (I or II, 3)** Theoretical knowledge and skills for the development of nursing strategies in analyzing, managing, and preventing health related problems common to primary health care clients as individuals. (Lec. 3) Pre: 500, 501, 502, ZOO 442. Castro and O'Flynn-Comiskey
- 532 Practicum in Primary Health Care Nursing I (I or II, 3)** Clinical application of theoretical knowledge and skills as presented in NUR 531. (Lab. 6) Pre: must be taken concurrently with 531. Castro and O'Flynn-Comiskey
- 533 Primary Health Care Nursing II (I or II, 3)** Theoretical study for the development of increased nursing competency in primary care practice. Emphasis on health care strategies to assist individuals and families in coping with health-related problems. (Lec. 3) Pre: 531, 532, must be taken concurrently with 534. Castro and O'Flynn-Comiskey
- 534 Practicum in Primary Health Care Nursing II (I or II, 6)** Application of theoretical knowledge skills for the development of nursing strategies for health promotion and management of health related problems common to families. (Lab. 12) Pre: 531, 532, must be taken concurrently with 533. Castro and O'Flynn-Comiskey
- 541 Theoretical Study of Nursing Education (I or II, 3)** Investigation of theories, concepts and models applicable to nursing education. Emphasis on theoretical analysis to develop and explain strategies for the teaching of nursing. (Lec. 3) Pre: 521, 522 or permission of instructor, must be taken concurrently with 542. Hirsch
- 542 (508) Practicum in Nursing Education (I or II, 3)** Field experience in nursing education. Emphasis on the instructional design and the development of strategies for the teaching of nursing based on theoretical knowledge. (Lab. 6) Pre: 521, 522 or permission of instructor, must be taken concurrently with 541. Hirsch
- 551 Theoretical Study of Nursing Administration (I or II, 3)** Study of theories of organization and management as they relate to nursing administration. The emphasis is on theories to develop or explain management strategies in nursing administration. (Lec. 3) Pre: 521, 522 or permission of instructor, must be taken concurrently with 552. Manfredi
- 552 (509) Practicum in Nursing Administration (I or II, 3)** Field experience in nursing administration. Emphasis on the examination, development and implementation of strategies in nursing administration. (Lab. 6) Pre: 521, 522 or permission of instructor, must be taken concurrently with 551. Manfredi
- F-909**
995 Reading and Research in Nursing (I or II, 1-6) Advanced work by individual student on a selected issue in nursing under the direction of a faculty member. (Lec. 1-6) Not for program credit. Pre: graduate standing. Staff

Ocean Engineering (OCE)

- 401, 402 (or MCE 401, 402) Introduction to Ocean Engineering Systems I and II (I and II, 3 each)**
- 403, 404 (or CHE 403, 404) Introduction to Ocean Engineering Processes I and II (I and II, 3 each)**
- 410 (or MCE 410) Basic Ocean Measurements (I or II, 3)**
- 500 Basic Ocean Engineering (II, 3)** Introduction for non-engineering students to the classic engineering disciplines as they relate to marine affairs. Course is descriptive and deals with current engineering practice. (Lec. 3) Pre: senior standing. No program credit for graduate engineering students. Offered in even calendar years. Staff
- 512 Hydrodynamics of Floating and Submerged Bodies I (I, 3)** Hydrodynamic principles associated with floating and submerged bodies: resistance, propulsion, static and

dynamic stability. (Lec. 3) Pre: MCE 455 or equivalent. Kowalski

S 513 **Hydrodynamics of Floating and Submerged Bodies II (II, 3)** Continuation of 512. Problems of maneuvering, control, and motions in waves. (Lec. 3) Pre: MCE 455 or equivalent. Kowalski

F 78 521 **Materials Technology in Ocean Engineering (I, 3)** Requirements for ocean engineering materials. Material characteristics, fracture toughness, notch sensitivity, energy absorption, speed of loading and fatigue in salt water. Steel, aluminum, titanium, plastics, concrete, and applicable regulations. (Lec. 3) Pre: permission of instructor. Staff

S 524 **Marine Structural Design**
See Civil Engineering 524.

new 71 **F** 78 531 (or MCE 531) **Underwater Power Systems (II, 3)** Low output power systems. Overall considerations appropriate to the determination of power requirements for underwater systems. (Lec. 3) Pre: MCE 342, 448 or permission of instructor. Brown and Rose

F 78 532 (or MCE 532) **Coastal Zone Power Plants (I, 3)** Overall systems consideration for coastal zone power plants. Consideration of factors such as political and legal problems, thermal pollution, and multi-use of plants (aquaculture, etc.). (Lec. 3) Pre: MCE 342, 448 or permission of instructor. Brown and Rose

F 534 (or CHE 534) **Corrosion and Corrosion Control (I, 3)** Chemical nature of metals, electrochemical nature of corrosion. Types of corrosion, influence of environment, methods of corrosion control, behavior of engineering materials, all with special emphasis on the ocean environment. (Lec. 3) Pre: permission of instructor. Heidersbach

S 535 (or CHE 535) **Advanced Course in Corrosion (II, 3)** Various types of corrosion problems occurring in modern industry. In-depth comparison of the various methods available to avoid, reduce, or eliminate corrosion. Continuation of 534. (Lec. 3) Pre: 534 or permission of instructor. Staff

S 79 540 (or MCE 540) **Environmental Control in Ocean Engineering (II, 3)** Application of the principles of thermodynamics, heat transfer, and fluid dynamics to the requirements of human survival and engineering operations in deep and shallow water. (Lec. 3) Pre: permission of instructor. Schenck

S 560 (or ELE 560) **Introduction to Data Collection Systems (I, 3)** Practical problems of data collection. Probes and sensors, interfaces, signal conditioning, and storage. Examples found among the current research areas within ocean engineering will be emphasized. (Lec. 3) Pre: graduate standing in engineering or permission of instructor. Haas

S 561 **Introduction to the Analysis of Oceanographic Data (I, 3)** Design of oceanic experiments to determine spatial and temporal sampling rate,recision, accuracy, signal-to-noise ratio, etc. Description of typical ocean data collection and analysis systems. Development of relevant techniques. (Lec. 3) Pre: IDE 411, MTH 451 or equivalent. LeBlanc

F 78 565 **Ocean Laboratory I (I or II, 3)** Measurements, experiments, operation of apparatus in the ocean and in the laboratory. Statistical theory, planning multivariable experiments, checking of data, etc. (Lec. 1, Lab. 6) Pre:

graduate standing in engineering or oceanography, or permission of instructor. Middleton and LeBlanc

S 566 **Ocean Laboratory II (I or II, 3)** Planning long-term experiments in the ocean. Carrying out a synoptic ocean program using vessels, buoys, underwater sensors and locations of opportunity. Student manages experiment, and writes technical report. (Lab. 6-8) Pre: 565. Middleton and LeBlanc

F 571 (or ELE 571) **Underwater Acoustics I (I, 3)** Wave equation, energy, pressure and particle velocity. Acoustic properties of the sea. Elementary sources, refraction, reflection, ray theory, normal modes and scattering, with emphasis on sound propagation in the ocean. (Lec. 3) Middleton and Stepanishen

S 76 581 **Coastal Engineering Geology**
See Geology 581.

S 587 **Submarine Soil Mechanics (I, 3)** Soil mechanics principles as applied to submarine slope stability, heaving, sinkage and anchorage problems with emphasis on effective stress principle and selection of shear strength of marine sediments. (Lec. 3) Pre: CVE 380 or equivalent. Nacci

F 591, 592 **Special Problems (I and II, 1-6 each)** Advanced work under the supervision of a member of the staff and arranged to suit the individual requirement of the student. (Lec. or Lab. according to nature of problem) Pre: permission of department. Staff

E 599 **Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

F 605, 606 **Ocean Engineering Seminar (I and II, 1 each)** Seminar discussions including presentation of papers based on research or literature survey. (Lec. 1) Attendance is required of all students in graduate residence. A maximum of 1 credit per year is allowed, no more than 2 credits for the entire period. Staff

S 610 **Engineering Ocean Mechanics (II, 3)** Applied concepts of ocean flow processes; waves due to gravity, wind, and layered media; large and small scale turbulence; prediction of flow instability; wave forces on structures. (Lec. 3) Pre: CHE 344, MCE 354 or equivalent. White

F 653, 654 **Ocean Engineering System Studies (I and II, 3 each)** Systems engineering study of an advanced ocean engineering problem. Students will operate as a complete engineering team with specific subsystems designs done with individual faculty members. (Lec. 3) Kowalski

S 78 661 **Analysis of Oceanographic Data Systems (I, 3)** Design of systems for deep ocean and estuarine data collection and processing. Space-time sampling, multivariate analysis and convergence of moments as applied to ocean data estimation and system design. Current topics in ocean data systems. (Lec. 3) Pre: ELE 506 or equivalent. LeBlanc

S 672 (or ELE 672) **Underwater Acoustics II (II, 3)** Transducers, radiators and receivers, directivity (array structures) equivalent circuits, efficiency; piezoelectricity, magnetostriction, sonar principles, measurements and calibration. (Lec. 3) Stepanishen

F 78 673 **Advanced Course in Underwater Acoustic Propagation (I, 3)** Analysis of propagation from a concentrated acoustic source in the ocean by methods, such as advanced normal mode theory, numerical integration and Fast Fourier Transforms. Applications to ocean features

such as surface ducts, shadow zones, deep sound channel, etc. (Lec. 3) Pre: 571 or equivalent. DiNapoli and Stepanishen

674 Nonlinear Acoustics (II, 3) Topics in the nonlinear acoustics of fluids. Propagation and interactions of finite-amplitude sound waves. Parametric sonar. Sound generation by turbulence. Cavitation noise. Shock waves. Underwater explosions. Radiation pressure and acoustic streaming. (Lec. 3) Pre: 571 or permission of instructor. Moffett

675 Processing of Underwater Acoustic Data (II, 3) Description of the underwater acoustic environment. Methods of measuring underwater acoustic signals. Data analysis of passive and active signals. Applications of underwater acoustics to oceanographic survey. (Lec. 3) Pre: ELE 506 or equivalent. LeBlanc

676 Acoustic Radiation from Underwater Vibrators (II, 3) Fundamentals of acoustic radiation from submerged structures. Radiation from planar, cylindrical and spherical surfaces. In-vacuo and in-fluid vibration of elastic bodies. Acoustic coincidence and fluid loading effects on radiation from elastic bodies. Pre: 571 or approval of instructor. Stepanishen

685 Seminar in Marine Geotechniques
See Civil and Environmental Engineering 685.

691, 692 Special Problems (I and II, 1-6 each) Advanced work under supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problem) Pre: permission of department. Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Oceanography (OCG)

401 General Oceanography (I and II, 3 each)

501 Physical Oceanography (I, 3) Basic course covering physical properties of seawater, heat budget, distribution of variables, dynamics, water masses and general circulation, waves and tides. (Lec. 3) Pre: PHY 213, MTH 141. Knauss

509 Ecological Aspects of Marine Pollution (I, 3) Biological, chemical, physical aspects of selected domestic agricultural, industrial wastes discharged into saline environments. Case histories emphasizing toxicological effects. The concept of bioassay is developed. Research paper required. (Lec. 3) Pre: 401 or permission of instructor. Eisler

510 Descriptive Physical Oceanography (II, 3) Observed distributions of temperature, salinity, currents; methods of deducing deep flow; physical properties of seawater; flow in estuaries; practical work in the analysis of oceanographic data; study of recent literature. (Lec. 3) Pre: 501. Watts

521 Chemical Oceanography (II, 3) Processes regulating the composition of seawater, and the distribution of chemical species. The interaction of marine chemistry with the ocean floor, atmosphere and marine organisms. (Lec. 2, Lab. 2) Pre: CHM 101, 112 and PHY 213. Quinn

524 Chemistry of the Marine Atmosphere (II, 3) Chemistry and physics of marine aerosols, trace gases, and pre-

cipitation; cycles and budgets of atmospheric nitrogen, sulfur, halogen, and carbon compounds; effects of man on the marine atmosphere. (Lec. 3) Pre: 521 and CHM 432 or permission of instructor. In alternate years, next offered 1980-81. Duce

540 Geological Oceanography (II, 3) Origin of ocean basins; geomorphology, sediments, volcanism, structure and tectonics of the deep-sea floor; character and development of continental margins, beaches and estuaries. (Lec. 2, Lab. 2) Pre: GEL 103 or ESC 105 and 106, or permission of instructor. McMaster

544 Seminar in Petrogenesis (I, 3) Selected reading and class discussion of topics in igneous petrology and closely related mineral deposits e.g.: genesis of andesites and basalts, kimberlite-diamond, anorthosite-magnetite-ilmenite, layered intrusive-chromite-platinum deposits, etc. (Lec. 3) Pre: GEL 530 or equivalent. In alternate years, next offered fall 1980. Schilling and Sigurdsson

545 Geomagnetism and Paleomagnetism (I, 3) Description of past and present magnetic fields of the Earth. Principles, methods, results of the application of paleomagnetism to diverse geological, geophysical, and paleontological problems. Lectures and seminars. Pre: PHY 213 and/or 214 and MTH 142 and/or 243 and/or 244 and some geology, GEL 103 and/or 104, or permission of instructor. Staff

547 Seminar in Biomagnetism (I, 2) Effect of weak and strong magnetic fields on marine and terrestrial organisms in the present and in the past. Introductory lectures on artificial and natural magnetic fields, followed by seminars by students and guests. (Lec. 2) Pre: permission of instructor. Staff

561 Biological Oceanography (I, 3) Nature of life in the sea; adaptations, patterns of distribution and production of plankton, nekton and benthos, their interrelationships and interaction with the environment. (Lec. 2, Lab. 2) Pre: ZOO 111. Swift

568 Fishery Biology (II, 3) Biology of fish populations and methods of fishery research, including influence of environmental factors on morphology, physiology, abundance and distribution of fishes, estimation of stocks, growth, aging, mortality, measurement of fish production and theory of fishery regulation. (Lec. 3) Pre: permission of instructor. Saila

571 Benthic Environment (I, 3) Lectures, readings, seminar presentations, discussion and project work on the physical-chemical properties and total ecology of the benthic marine environment. Includes tidal marshes, rocky intertidal areas, estuarine shoals, coral reefs and deep-sea benthos. (Lec. 2, Lab. 2) Pre: permission of instructor. Nixon

574 Biology of Marine Mammals (II, 3) Migration, reproduction, social organization, classification, anatomy, populations, physiology and communications of cetaceans and pinnipeds. (Lec. 2, Lab. 2) Pre: permission of instructor. In alternate years, next offered 1980-81. Winn

576 (or MIC 567) Heterotrophic Microbiology of the Sea (I, 3) The role of bacteria, fungi, apochlorotic algae, flagellates, sarcodines and ciliates in the cycling of organic matter is discussed in the context of their structure, habitats, trophic modes, ecology, processes and taxonomy. (Lec. 2, Lab. 3) Pre: CHM 103 and MIC 201 or 211 or permission of instructor. Sieburth

- 577 (or MIC 577) Marine Epimicrobiology (I, 3)** An individual problem in fouling, decay or its prevention, using scanning electron microscopy as the major tool, will be selected by the student in consultation with the instructor. (Lab. 9) Pre: permission of instructor. Sieburth
- 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee. Staff
- 605 Dynamical Oceanography (I, 3)** Simple steady state theories applied to ocean motion. Review of well-known force balances in oceanography, wind-driven circulation, thermohaline circulation, the thermocline, oceanic boundary layers, near shore circulation, diffusion. (Lec. 3) Pre: 501. In alternate years, next offered 1981. Rossby
- 607 Geophysical Models (I, 4)** Selected laboratory experiments modeling the motions of oceans and atmospheres. Comparison of effects of rotation and stratification. Thermal and thermohaline convection, inertial waves and boundary layer phenomena. Emphasis on experimental research techniques and preparation of technical reports. (Lec. 3, Lab. 3) Evans
- 609 Dynamics of Mixing (II, 3)** Theories of thermocline and the problem of vertical mixing. Relation of mean vertical mixing coefficients to detailed mechanisms of mixing. Internal waves, shear instabilities, lateral spreading and entrainment, thermohaline convection, small scale turbulence. (Lec. 3) Pre: permission of instructor. In alternate years, next offered 1981. Evans
- 610, 611 Geophysical Fluid Dynamics (I and II, 3 each)** Physics of ocean circulation; surface wave generation, rotating fluids, density currents, quasi-geostrophic motion, laminar viscous flow, turbulence, wind-driven ocean circulation, stratification, convection, thermohaline convection, horizontal convection and thermoclines. (Lec. 3) Pre: a prior course in fluid dynamics, and permission of instructor. Stern
- 612 Seminar in Marine Pollution (II, 2)** Analysis of case histories of pollutants in marine environments. Emphasis on recent examples having major health and ecological implications. Student and guest presentations, class discussions. (Sem. 2) Pre: 509 or permission of instructor. Eisler
- 613 Waves (II, 3)** Generation, propagation and decay of surface waves, internal waves, and Rossby waves in the ocean. (Lec. 3) Pre: MCE 550 or permission of instructor. In alternate years, next offered 1980. Wimbush
- 614 Tides (I, 1)** Generation, propagation, and dissipation of ocean tides. Relation between theory and observation. (Lec. 1) Pre: 501. In alternate years, next offered 1981. Wimbush
- 620 Chemical Distributions (II, 3)** Interdisciplinary study of the processes responsible for oceanic chemical distributions with emphasis on conservative properties, biologically active constituents, and radionuclides. Includes projects involving data processing analysis. (Lec. 3) Pre: 501, 521, 540 and 561 or permission of instructor. Kester
- 621 (or REN 621) The Estuary and Coastal Zone (II, 3)** Multidisciplinary course on characteristics of estuaries and adjacent coastal waters and ecological, economic, engineering and other considerations applicable to development, management, and conservation of such waters. (Lec. 2, Rec./Proj. 1) Pre: advanced (second year) graduate standing and approval of course chairperson. Marshall and Lampe
- 623 Physical Chemistry of Seawater (I, 3)** Characterization of dissociation, solubility and redox equilibria in seawater. Partial molar volumes, conductivity and diffusion of ions in seawater. Kinetic studies in seawater; effects of temperature, salinity and pressure on physicochemical properties in seawater. (Lec. 3) Pre: 521 and CHM 432 or permission of instructor. Kester
- 625 Organic Geochemistry (I, 3)** Chemistry of organic matter in seawater and recent marine sediments. Topics include source, characterization, significance and fate of dissolved, particulate and sedimentary organic compounds. (Lec. 3) Pre: CHM 228 or permission of instructor. Quinn
- 630 Geochemistry (I, 3)** Introduction to the study of distribution of the elements in the natural environment. Emphasis on an understanding of the chemical principles and chemical processes which govern this distribution. (Lec. 3) Pre: CHM 112 and GEL 103 or permission of instructor. In alternate years, next offered 1981. Schilling
- 631 Seminar in Marine Chemistry (I and II, 1)** Discussion of problems of current interest in marine chemistry. (Lec. 1) Pre: 521 or permission of instructor. Staff
- 641, 642 Geology of Continental Margins I and II (I and II, 3 each)** 641: geomorphology, sedimentology, and structure of continental shelves, borderlands, slopes and rises with consideration of origin and developmental sequence of continental margins. 642: characteristics of continental margins compared with those of island arcs, small ocean basins and geosynclines. Origin and evolutionary relationships considered within the framework of global tectonics. (Lec. 3) Pre: 540, 641 (for 642) GEL 370 and 550. In alternate years, next offered 1979 for 641, 1980 for 642. McMaster
- 643 Seminar in Deep-Sea Geology (I, 3)** Class discussion of selected topics in deep-sea geology based on extensive reading in the scientific literature. A research paper by each student and lectures will supplement the discussions. (Lec. 3) Pre: permission of instructor. Staff
- 644 Thermodynamics of the Earth's Interior (I, 3)** Review and application of thermodynamics to geological problems. Crystal-melt equilibria, phase transitions, hydration reactions; coprecipitation laws and fractionation processes; effect of the geothermal and pressure gradients, convection. (Lec. 3) Pre: GEL 103 and a course in thermodynamics such as CHM 431, 432, or PHY 420, or CHE 313 and 314, or MCE 341 or permission of instructor. In alternate years, next offered 1980. Schilling
- 645 Petrology of the Oceanic Crust (II, 3)** Nature and origin of igneous and metamorphic rocks of the oceanic crust of the earth; mineralogy, petrology and petrogenesis of sea-floor rocks; metamorphism of the ocean crust. (Lec. 3) Pre: permission of instructor. In alternate years, next offered 1981. Sigurdsson
- 646 Deep-Sea Sediments and Process (II, 3)** Deep-sea sediments and their relation to oceanic processes such as solution, productivity and dilution. Sedimentary distributions in time and space as related to tectonic models. Paleoclimatology, and past water mass distributions and conditions. Term paper. (Lec. 3) Pre: permission of instructor. In alternate years, next offered 1980. Moore
- 647, 648 Recent Sedimentary Environments I and II (I and II, 3 each)** Concentrated study of sedimentary envi-

ronments with primary emphasis on the relationships between sediment properties of each environment and its environmental conditions. 647: beach, lagoon, estuary and bay. 648: continental shelf, slope and rise. (Lec. 3) Pre: 501, 540, GEL 550. In alternate years, next offered 1980-81. McMaster

F 78 649 Marine Paleoecology (I, 3) Concepts of paleoecology. Review of Pleistocene and Tertiary paleoceanography, paleoclimatology and paleoecology. Criteria and methods used in marine paleoecology, especially those related to foraminifera radiolaria. Biogeography and paleoecology of Cenozoic planktonic faunas. (Lec. 2, Lab. 1) In alternate years, next offered fall 1980. Kennett

S 78 650 The Micropaleontology of Radiolaria (II, 3) Advanced course in the biostratigraphy of Radiolaria and their use in paleoecologic studies. Emphasis is placed on the development of skill in radiolarian biostratigraphy of the Mesozoic and Cenozoic. (Lec. 1, Lab. 4) Pre: permission of instructor. In alternate years, offered spring of 1981. Moore

F 651 Cenozoic Marine Stratigraphy (I, 2) Extensive reading and class discussion of concepts and methods of biostratigraphy, chronostratigraphy and lithostratigraphy as applied to the Cenozoic. Stratigraphic nomenclature. Problems and advances in correlation and dating of marine sediments from distinct oceanographic regimes including type European sections. (Lec. 2) In alternate years, next offered 1981. Kennett and Moore

F 78 660 Ecological Concepts in Marine Research (I, 3) Advanced course in ecology, emphasis on marine environment. Ecological theory pertaining to stability and diversity of natural communities and perturbed systems. Field work in Narragansett Bay on zooplankton, benthos, nekton. (Lec. 1, Lab. 4) Jeffries

F 78 661 (or BOT 661) Phytoplankton Taxonomy (I, 3) Classical and modern systems and techniques for the identification, nomenclature, and classification of planktonic algae, with emphasis on marine forms. Phylogeny will be briefly considered. (Lec. 1, Lab. 4) Pre: permission of instructor. In alternate years, next offered fall 1980. Hargraves

F 663 (or BOT 663) Phytoplankton Physiology (I, 3) Metabolic processes and methods of their investigation in phytoplankton with primary emphasis on functions pertinent to their ecology. Includes adaptation, uptake of nutrients, excretion, rhythms, pigments, and photosynthesis. (Lec. 3) Pre: permission of instructor. Swift

S 78 664 (or BOT 664) Phytoplankton Ecology (II, 3) Biology and ecology of the pelagic marine microscopic algae with emphasis on their adaptations, physiological ecology, distribution, succession, production, and regional and seasonal dynamics. (Lec. 3) Pre: permission of instructor. Smayda

S 666 Zooplankton (II, 3) Biology of marine zooplankton, dealing with morphology; adaptation, distribution, physiology, production and interrelationships with other members of the marine biota. (Lec. 1, Lab. 4) Pre: permission of instructor. Napora

S 78 667, 668, 669 (or BOT 667, 668, 669) Advanced Phytoplankton Seminars (II, 2 each) Specialized and advanced areas of phytoplankton biology and research, including systematics, physiology and ecology. (Sem. 3) Pre: permission of instructor. Hargraves, Smayda and Swift

S 672 Marine Invertebrates and Environment (I, 3) Physiological responses of marine invertebrates to seasonal and geographical changes in the environment. Survival, metabolism, reproduction and larval development of the populations. Mechanisms in adaptation during stages in life cycle examined in relation to changes of certain environmental factors. Physiological variation of populations related to speciation process. Lectures, reading and discussion. Research project. (Lec. 3) Pre: 561 and permission of instructor. Sastry

F 78 679 (or ZOO 679) Animal Communication (I, 2) Visual, chemical and auditory communication in animals, including receptor systems, feedback and redundancy. Functional aspects and organization of communication. Discussion of readings. Research problem can be taken under 691 or ZOO 693. (Lec. 2) Pre: ZOO 467 or equivalent and permission of instructor. In alternate years, next offered 1980-81. Winn

F 691, 692 Individual Study (I and II, 1-6 each) Individual study of assigned topics or special problems, involving literature search and/or original investigation under one or more members of the staff. (Lec., Lab. TBA) Staff

S 693, 694 Special Studies (I and II, 1-4 each) Studies of specialized topics in the marine sciences. (Lec., Lab. TBA) Staff S-694N, O, P

S 695 Seminar in Oceanography (I and II, 1 each) Students to give seminar reports on problems and current research in various areas of oceanography. Attendance and registration are required of all students in graduate residence but no more than 4 hours are allowed for a program of study. (Lec. 1) Staff

S 699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Note: graduate students in oceanography choose from supporting courses in other departments.

Pharmacognosy (PCG)

445, 446 General Pharmacognosy (I and II, 3 each)

447 General Pharmacognosy Laboratory (I and II, 1)

459 Public Health (I and II, 3)

F 521, 522 Seminar (I and II, 1 each) Seminar discussions including presentation of papers on selected topics in pharmacognosy. (Lec. 1) Students attend seminar each semester while in graduate residence, but a maximum of 1 credit per year is allowed. No more than 3 credits for entire period. Staff

S 532 Pharmaceutical Sterile Products (I, 3)
See Pharmacy 532.

F 533 Medicinal Plants (I, 2) Problems in drug plant chemotaxonomy with field work in the drug plant gardens. Emphasis is placed on certain alkaloid, glycoside and oil-yielding plants. Weedicides and insecticides as related to measures for control. (Lec. 1, Lab. 3) Pre: 446 or permission of department. Staff

F 536 Antibiotics (II, 3) Advanced course on concept of antibiosis, biosynthesis pathways of antibiotic production, testing, chemistry, mechanism of action, medicinal and pharmaceutical uses of antibiotics. Phenomena of sensitivity and resistance; emphasis on entities of importance in pharmaceutical research and production. (Lec.

3) Pre: permission of department. In alternate years. Worthen

548 Physical Methods of Identification
See Medicinal Chemistry 548.

551, 552 Chemistry of Natural Products (I and II, 3 each) Introduction to chemistry of certain groups of natural products especially in relation to their chemotaxonomic position in plant classification. Topics limited to secondary metabolites: e.g. terpenoids, phenolic compounds, aromatic compounds, phytosterols, alkaloids. (Lec. 3) Pre: CHM 228 and 230. In alternate years, next offered 1979-80. Shimizu and Lasswell

597, 598 Special Problems (I and II, 1-3 each) Special graduate student project assignments in the study of natural drug research under the supervision of faculty. Credits not to exceed total of six. Pre: permission of department. For graduate students only. Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

633, 634 Biosynthesis (I and II, 3 each) Biogenesis of medicinally active principles of biological origin. Emphasis given to organic acids, polysaccharides, glycosides, steroids and certain nitrogenous compounds. (Lec. 3) In alternate years, next offered 1980-81. Staff

635, 636 Pharmacognosy Techniques (I and II, 3-4 each) Physical and chemical factors influencing growth and development of active principles of drug plants. Certain biological analysis of results are performed. (Lec. 1, Lab. 6-9) Staff

697, 698 Research in Pharmacognosy (I and II, 1-3 each) Literature survey, laboratory work and a detailed research report on one or more assigned topics. (Lab. TBA) Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Pharmacology and Toxicology (PCL)

436 (or PSY 436) Psychotropic Drugs and Therapy (II, 3)

438 (or PSY 438) Psychotropic Drugs and Behavior (I or II, 3)

441, 442 General and Clinical Pharmacology (I and II, 4 each)

443, 444 General Pharmacology Laboratory (I and II, 1 each)

497, 498 Special Problems (I and II, 1-3 each)

521, 522 Seminar (I and II, 1 each) Seminar discussions and presentation of papers on selected topics in pharmacology. (Lec. 1) Students attend seminar each semester while in graduate residence, but a maximum of 1 credit per year is allowed, no more than 3 credits for entire period. Staff

542 Evaluation of Drug Effects (II, 5) Theory, methods and techniques involved in the determination of qualitative and quantitative activity and relative toxicity of drugs. (Lec. 2, Lab. 9) Pre: 441 and 442, MGS 501, or equivalent and permission of department. In alternate years. DeFanti and DeFeo

544 Forensic Toxicology (II, 3) Theoretical and practical aspects of poisoning including the isolation and identification of toxic materials from pharmaceuticals, body fluids and tissues. Isolation and identification of physiological fluids from stains, hairs, and tissue with application to forensic medicine. (Lec. 2, Lab. 3) Pre: 441, 442 and permission of department. In alternate years, next offered 1979-80. DeFanti

546 Advanced Toxicology (II, 3) Toxic effects of selected drugs and other xenobiotics on physiological and biochemical processes. (Lec. 3) Pre: 441 and 442 and permission of department. In alternate years. Carroll

550 Operant Analysis of Behavior
See Psychology 550.

562 Psychopharmacology (II, 3) Effects of drugs on animal and human behavior and on related biochemical processes. (Lec. 3) Pre: 441 or equivalent and/or permission of department. In alternate years. Lal

564 Psychopharmacology Laboratory (II, 1-3) Laboratory exercises to demonstrate effects of drugs on animal and human behavior. To earn more than one credit, the student will engage in original work of limited scope. (Lab. 3-9) Pre: 441 or equivalent and/or permission of department. Lal

572 Neural Bases of Drug Action (II, 3) Review of neuroanatomy, neurochemistry, and neurophysiology as they are related to drug action. (Lec. 3) Pre: 441 or equivalent and/or permission of department. In alternate years. Lal

580 Experimental Animal Techniques
See Electrical Engineering 580.

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

641 Biochemical Pharmacology (I, 3) Theory and application of pharmacological studies at the cellular and subcellular levels and their significance to drug action in the intact organism. (Lec. 3) Pre: 441 and 442 and permission of department. In alternate years. Fuller

643 Advanced Pharmacology and Techniques (I, 4) Mechanism of action of drugs on living tissues, organs and organisms with particular emphasis on cellular physiology as a basis of explanation of tissue response. Advanced laboratory techniques as employed for pharmacological testing. (Lec. 2, Lab. TBA) Pre: 442, and permission of department. In alternate years. DeFeo

697, 698 Research in Pharmacology (I and II, 1-5 each) Literature survey, laboratory work and a detailed research report on one or more assigned topics. (Lab. TBA) Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Pharmacy (PHC)

425 History of Pharmacy (I and II, 3)

451, 452 Pharmacotherapeutics I, II (I and II, 2 each)

490 Clinical Pharmacy Clerkship (I and II, 6)

497, 498 Special Problems (I and II, 1-3 each)

501 Drug Information Pertaining to Institutional

Pharmacy Practice (I, 3) Discussion and evaluation of drug information sources, and how to use these sources. Includes the methodology of establishing and maintaining drug information services. (Lec. 2, Pract. 3) Moleski and Staff

521, 522 Seminar (I and II, 1 each) Seminar discussions including presentation of papers on selected topics in pharmacy. (Lec. 1) Students attend seminar each semester while in graduate residence, but a maximum of 1 credit per year is allowed, not more than 3 credits for entire period. Staff

532 (or PCG 532) Pharmaceutical Sterile Products (II, 3) Manufacturing principles of sterile dose forms and their clinical applications. Aspects of sterile products such as fluid balance, incompatibilities, microbial contamination, particulate matter are discussed. Aseptic techniques and clinical technique are developed. (Lec. 2, Lab. 3) Mattea

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

621, 622 Manufacturing Pharmacy (I and II, 2-5 each) Theory of and practice in the manufacture of pharmaceuticals and the principles of operation of the equipment used for their production. (Lec. 2, Lab. 0-9) Paruta

631 Advanced Physical Pharmacy (I, 3-5) Application of physical-chemical principles to problems in pharmaceutical research, with emphasis on methods by which properties of new medicinal and pharmaceutical agents are determined. (Lec. 3, Lab. 3-6) Pre: CHM 432 or permission of department. Paruta

632 Advanced Physical Pharmacy (II, 2-4) Application of physical-chemical principles to problems in pharmaceutical research, with emphasis on methods by which properties of new medicinal and pharmaceutical agents are determined. (Lec. 2, Lab. 0-6) Pre: 631. Paruta

662 Biopharmaceutics (I, 3) Pharmacokinetic principles as applied to absorption, metabolism, and excretion of drugs from finished dosage forms. Includes oral, parenteral, topical and sustained release forms. (Lec. 3) Pre: 384. In alternate years, next offered 1979-80. Rhodes

663 Pharmacokinetics (II, 3) Application of pharmacokinetic principles to the disposition of drugs in the body. Includes effect of disease states on drug absorption, distribution and elimination. (Lec. 3) Pre: MTH 141, PHC 338, PCL 422, PHC 662 or equivalent, department permission and graduate standing. Greene

697, 698 Research in Pharmacy (I and II, 1-3 each) Literature survey, laboratory work and a detailed research report on one or more assigned topics in pharmacy. (Lab. TBA) Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Pharmacy Administration (PAD)

405 Personnel Administration (I, 3)

406 Pharmacy Retailing (II, 4)

453 Drug Marketing Principles (II, 2)

480 Prepaid Drug Plans (I, 3)

497, 498 Special Problems (I and II, 1-3 each)

570 Case Studies in Pharmacy Law (II, 3) Case studies and a detailed analysis of the FDC, Controlled Substances Act, health insurance laws. (Lec. 3) Pre: 351. In alternate years. Campbell

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee. Staff

621, 622 Seminar (I and II, 1 each) Seminar discussions and presentation of papers on selected topics in pharmacy administration. (Lec. 1) Students attend seminar each semester while in graduate residence, but a maximum of 1 credit per year is allowed, no more than 3 credits for entire program. Staff

625, 626 Hospital Pharmacy Administration (I and II, 2 each) Hospital organizations, including intra- and inter-department relationships, the medical and service staff problems, the administrator, personnel management, pharmaceutical service with relation to patient care, medical and pharmaceutical research. In alternate years. (Lec. 3) Staff

651, 652 Health Care Systems I and II (I and II, 3 each) Arrangements for utilizing pharmaceutical resources in public and private systems of health care in the U.S. and other countries. Variations in quality and distribution of care among socio-economic groups. (Lec. 3) Pre: 480 and EST 408 or 409, or equivalent. Campbell

680 Legal Environment in Health Administration (I, 3) Application of specialized statutory and regulatory provisions in federal and state law to the delivery of health care. (Lec. 3) Pre: graduate standing. Campbell

697, 698 Research in Pharmacy Administration (I and II, 1-3 each) Literature survey, laboratory work and a detailed research report on one or more assigned topics in pharmacy administration. (Lab. TBA) Staff

Philosophy (PHL)

401, 402 Special Problems (I and II, 3 each)

414 Advanced Studies in Ethics (I or II, 3)

440 Philosophy of Language (I or II, 3)

441 Metaphysics (I or II, 3)

442 Epistemology (I or II, 3)

443 The Nature of an Academic Discipline (I or II, 3)

451 Symbolic Logic (I or II, 3)

452 Philosophy of Science (I or II, 3)

453 Philosophy of Psychology (II, 3)

455 Aesthetics (I or II, 3)

502, 503, 504, 505 Tutorial in Philosophy (I and II, 3 each) Discussion by the staff and advanced students of research problems in philosophy. Presentation and criticism of original papers. (Lec. 3) Pre: graduate standing or permission of instructor. Staff

513 General Axiology (I or II, 3) Intensive historical and systematic study of issues such as nature and kinds of values, their ontological status, their relation to culture, their relation to emotions, relation of axiology to other disciplines. (Lec. 3) Pre: graduate standing or permission of instructor. Wenisch or Staff

530 Philosophy of Plato (I or II, 3) Selected dialogues from the later period. Particular attention will be given to the areas of metaphysics, epistemology, cosmology, and ethics. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years. Zeyl

- 531 Philosophy of Aristotle** (I or II, 3) Selected texts with emphasis on the major concepts of Aristotle's metaphysics, theory of knowledge, and ethics. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years. Zeyl
- 542 Advanced Studies in Patristic and Scholastic Philosophy** (I or II, 3) Intensive studies of one or more thinkers belonging to the Patristic or Scholastic tradition. The specific subject may change from year to year. (Lec. 3) Pre: graduate standing or permission of instructor. Young or Peterson
- 551 Philosophical Logic** (I or II, 3) Intensive consideration of such issues as the nature, structure and function of propositions, predication, analysis of the "is" relation. Relation between propositions and facts. Nature of logic and criterion of the logical, relation of logic to language, psychology and ontology. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years. Young
- 555 Philosophy of the Arts and of Literature** (I or II, 3) An intensive study of one or more thinkers concerned with philosophical problems arising from our experience of the arts and of literature. The phenomenological tradition will be stressed. (Lec. 3) Pre: graduate standing or permission of instructor. Hanke
- 562 Advanced Studies in Empiricism and Rationalism** (I or II, 3) Intensive study of one or more thinkers belonging to the empiricist or rationalist tradition. The specific subject may change from year to year. (Lec. 3) Pre: graduate standing or permission of instructor. Young or Staff
- 570 Philosophy of Immanuel Kant** (I or II, 3) Intensive analysis of major texts. Special attention will be given to *The Critique of Pure Reason*. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years. Peterson or Staff
- 580 Nineteenth-Century Philosophy** (I or II, 3) Intensive analysis of the work of a major philosopher or philosophical movement. Attention will be given to such major figures as Hegel, Kierkegaard, C.S. Peirce, or James. The specific subject changes from year to year. (Lec. 3) Pre: graduate standing or permission of instructor. In alternate years. Young or Staff
- 582 Advanced Studies in Contemporary Philosophy** (I or II, 3) Intensive studies of one or more thinkers of philosophical movements of the twentieth century. The specific subject may change from year to year. (Lec. 3) Pre: graduate standing or permission of instructor. Young or Staff
- 599 Masters Thesis Research** (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.
- 966 Student Teaching in Philosophy** (I or II, 3) Discussion of purpose of teaching philosophy in various types of institutions, of alternative syllabi for various philosophy courses, actual classroom teaching under supervision, critical evaluation of teaching performance. Restricted to graduate students in philosophy. For non-program credit only. Staff
- 510 Current Issues in Physical Education, Health and Recreation** (I and II, 3) Designed to develop student awareness of contemporary situations that are of concern to the above professions. Extensive review of contemporary literature. Critical analysis of selected issues, their components and effects. (Lec. 3) Pre: permission of instructor. Staff
- 520 Curriculum Construction in Physical Education** (I or II, 3) Analysis of criteria and procedures for curriculum construction in physical education. Standards for the evaluation and revision of elementary and secondary school physical education courses. (Lec. 3) Pre: permission of instructor. Staff
- 530 Research Methods and Design in Health and Physical Education** (I or II, 3) Introduction to methodology in experimental, laboratory, curriculum, action, and historical research. (Lec. 3) Pre: competence in basic statistics and permission of instructor. Staff
- 540 Principles of Recreation Leadership** (I or II, 3) Modern concepts of responsibilities involved in program planning in schools and community agencies. Leadership of committees and board relations as well as practical program promotional techniques. (Lec. 3) Pre: permission of instructor. Staff
- 543 Outdoor Recreation and Education** (I or II, 3) Investigation of the present scope and significance of the present-day outdoor recreation and education movements and an examination of current ideas and practices. (Lec. 3) Pre: permission of instructor. Staff
- 550 Administration of Physical Education** (I or II, 3) Problems and procedures for administering a physical education program studied from the viewpoint of the physical education administrator, the school administrator and the faculty. Emphasis is placed upon the study of administrative cases. (Lec. 3) Pre: 380 or permission of instructor. Staff
- 560 Seminar in Health, Physical Education and Recreation** (I or II, 3) Selected topics within the three areas, depending on availability of specialized instruction including visiting professorship. (Lec. 3) Pre: permission of instructor. Staff
- 570 Major Health Problems and Curriculum Planning in Health Education** (I or II, 3) Major health problems related to personal and community health with emphasis on health education, curriculum planning and evaluation. (Lec. 3) Pre: permission of instructor. Staff
- 575 Perceptual-motor Education** (I or II, 3) Role of motor activity in enhancing perceptual development. How the physical educator can become involved with other school personnel in the implementation and continuing development of perceptual-motor programs. For teachers in elementary schools and in special education who wish to incorporate motor activities into their programs. (Lec. 3) Pre: PSY 113, 232 and permission of instructor. Staff
- 580 Physical Education for the Mentally Retarded** (I, 3) Introduction to the contributions of physical education to the growth and development of mentally retarded. Basic movement, rhythms, games, sports, stunts, tumbling, gymnastics, apparatus, etc. for both educable and trainable mentally retarded. (Lec. 3) Pre: permission of instructor. Staff
- 581 Psychological Aspects of Physical Activity** (II, 3) Scientific principles and research from psychology related to physical activity. Educational program situa-

Physical Education (PED)

- 410 Corrective and Adapted Physical Education** (I, 3)
466 Modern Dance Choreography (I and II, 3)

- 581 Psychological Aspects of Physical Activity** (II, 3) Scientific principles and research from psychology related to physical activity. Educational program situa-

tions amenable to research and application of psychological principles are isolated. Recommendations for improvements in physical education methodology. (Lec. 3) Pre: PSY 113, 232 and permission of instructor. Staff

F 585 Adapted Physical Activities for Special Populations (I, 3) Characteristics and needs of special populations: retarded, emotionally disturbed, learning disabled, sensory impaired, and obese. Adapted activities based on individual needs. Effects of federal legislation on programs discussed. (Lec. 3) Pre: permission of instructor. Bloomquist

F 591 Special Problems (I or II, 3) Written paper reporting an in-depth investigation of a pertinent problem in the field, including a review of relevant literature, analysis and solution of the problem based on scientific methodology, with recommendations for improved practices. Limited to and required of all master's degree candidates in physical education who elect the non-thesis option. Staff

F 595 Independent Study (I or II, 3) Development of an approved project supervised by a member of the Graduate Faculty. Pre: permission of department and instructor/staff. May not be substituted for 591 or 599. Staff

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee. Staff

Physics (PHY)

401, 402 Seminar in Physics (I and II, 1 each)

406 (or MCE 406) Atmospheric Physics I (I, 3)

407 (or MCE 407) Atmospheric Physics II (II, 3)

420 Introduction to Thermodynamics and Statistical Mechanics (I, 3)

425 Acoustics (I, 3)

451 Atomic and Nuclear Physics (I, 3)

452 Nuclear Physics (II, 3)

455 Introduction to Solid State Physics (II, 3)

483, 484 Laboratory and Research Problems in Physics (I and II, 3 each)

491, 492, 493 Special Problems (I and II, 1-6 each)

F 510, 511 Mathematical Methods of Physics (I and II, 3 each) Definition of a vector, vector algebra and calculus, scalar and vector fields, linear vector operators, coordinate transformations, vector operations in curvilinear coordinates, dyadics, tensors, simple applications of the theory of finite groups. Partial differential equations of physics and their solutions, diffusion equation, wave equation, Schrodinger equation, Klein-Gordon equation, elements of the theory of probability. (Lec. 3) Pre: permission of department. Staff

F 520 Classical Dynamical Theory I (I, 3) Lagrange's equations, holonomic and non-holonomic constraints, applications to dynamical systems, non-inertial systems, alternate formulations of mechanics, theory of small vibrations, variational principles, Hamiltonian formulation of dynamics, canonical transformations. (Lec. 3) Pre: 421, 510. Staff

522 Topics in the Physics of the Earth (II, 3) Physics of the earth. Topics chosen from: elasticity, seismology, and the structure of the earth; terrestrial electricity, gravity, heat flow, magnetism, radioactivity, and tides; physics of the upper atmosphere. (Lec. 3) Pre: permission

of department. In alternate years, next offered 1979-80. Dietz

F 525 Statistical Physics (I, 3) Probability distributions, information theory, ensembles in classical and quantum physics, partition functions, fluctuation and noise, statistics of identical particles. Applications to solids, liquids and gases. (Lec. 3) Pre: 420. Staff

530 Electromagnetic Theory I (I, 3) Coulomb's law, Gauss' law, scalar potential, boundary value problems, multipole expansion, dielectrics, magnetic field due to stationary currents, scalar and vector potential, magnetic materials, Faraday's law, Lorentz force, conservation laws. Maxwell's equations. (Lec. 3) Pre: 431, 510. Staff

F 531 Electromagnetic Theory II (I, 3) Scalar and vector wave equations and their solutions, retarded and advanced potentials. Lienard-Wiechert potentials, radiation from an arbitrarily moving charge, multipole radiation, wave guides, cavity resonators, plasma oscillations, theory of relativity. (Lec. 3) Pre: 511, 530. Staff

550 Physical Acoustics (I, 3) Physical properties of gases, liquids and solids as revealed by the propagation of acoustic waves. Ultrasonic generation and measurement techniques, irreversible thermodynamics, mechanisms for absorption and dispersion of acoustic waves. (Lec. 3) Pre: permission of department. Letcher

F 560 Introduction to Neutron Physics (I, 3) Introduction to the field of neutron interaction with matter. Properties of the neutron, instrumentation, scattering theory. Applications to diffraction from magnetic and non-magnetic systems, solution scattering, and inelastic scattering. (Lec. 2, Lab. 2) Pre: permission of instructors. Nunes and Malik

565 Introduction to Liquid State Physics (II, 3) Equations governing macroscopic flow, description of turbulence. Macroscopic correlations (temperature, velocity, etc.), microscopic correlations and intermolecular forces. Liquid-liquid phase transitions, and quantum fluids. Laboratory work will be required as appropriate. (Lec. 2, Lab. 2) Pre: permission of instructor. Staff

570 Quantum Mechanics I (II, 3) Wave packets, Schrodinger equation, one-dimensional problems, hydrogen atom, harmonic oscillator, WKB approximation, operator formalism and matrix mechanics, angular momentum, perturbation theory, scattering and partial wave analysis, semiclassical treatment of the radiation field. (Lec. 3) Pre: permission of department. Staff

F 571 Quantum Mechanics II (I, 3) Dirac equation, spin orbit energy, theory of positrons, Feynman diagrams, Compton scattering, pair production and bremsstrahlung. Second quantization and application to selected topics. (Lec. 3) Pre: 570. Staff

585 Acoustic Measurements (II, 1-2) Techniques for the measurement and analysis of sound in fluids and solids. (Lab. 3-6) Pre: permission of department. Staff

F 590, 591 Special Problems (I and II, 1-6 each) Advanced work under the supervision of a member of the staff and arranged to suit the individual requirements of the student. (Lec. or Lab. according to nature of problem) Credits not to exceed 12. Pre: permission of department. Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

620 Quantum Statistical Mechanics (II, 3) Advanced statistical mechanics, density matrices, Ising and

6
22

Heisenberg models. Application to theory of liquids, critical phenomena, percolation theory and other areas of current research interest. (Lec. 3) Pre: 525 or permission of instructor. Staff

F 70 **630 Electromagnetic Theory III (I, 3)** After developing the covariant formulation of electrodynamics, selected topics of current interest in electromagnetic theory such as accelerator design, etc., will be discussed. (Lec. 3) Pre: 531. Staff

F 70 **650, 651 Solid State Physics (I and II, 3 each)** Quantum theory of electrons, phonons and other elementary excitations, Hartree-Fock approximation, many body problem, super conductivity, band theory and Fermi surface. (Lec. 3) Pre: 455, 570. Staff

F 78 **660, 661 Nuclear Physics (I and II, 3 each)** General properties of the nucleus. Two body problem at low, intermediate and high energy. Three and four body problems, nuclear forces, special models, nuclear spectroscopy and reactions, decay of nuclei, many body problem, structure of nucleons. (Lec. 3) Pre: 511, 571. Staff

S 71 **670, 671 Advanced Quantum Theory (I and II, 3 each)** Relativistic quantum field theory, free and interacting fields, the S-matrix and the perturbation expansion, quantum electrodynamics, dispersion relations, symmetry operations and invariance properties. (Lec. 3) Pre: 571. Staff

F 5 **699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Plant and Soil Science (PLS)

401, 402 Plant and Soil Science Seminar (I and II, 1 each)

405 Propagation of Plant Materials (II, 3)

411 (or FSN 411) Soil Chemistry and Fertilizers (I, 3)

412 (or FSN 412) Soil Biochemistry (II, 3)

413 Plant Cell and Tissue Culture (I, 2)

420 Crop Ecology (I, 3)

433 (432) Floriculture and Greenhouse Crop Production (I, 3)

434 (432) Greenhouse Crop Production and Postharvest Handling (II, 3)

442 Professional Turfgrass Management (II, 3)

444 Environmental Aspects of Landscape Design (II, 3)

446 Landscape Construction (II, 3)

450 Soil Conservation and Land Use (I, 3)

454 Identification of Basic Ornamental Plants (II, 3)

461 Weed Science (II, 3)

468 Soil Genesis and Classification (I, 4)

472 Plant Improvement (II, 3)

475 Plant Nutrition and Soil Fertility (II, 4)

491, 492 Special Projects and Independent Study (I and II, 1-3 each)

F-503
3-504
501 to 504 Graduate Seminar in Plant and Soil Science (I and II, 1 each) Presentation of technical reports and discussion of current research papers in soil science, landscape ecology, growth and development of economic crops and production and management of economic crops. (Lec. 1) Pre: permission of instructor.

new
79-80
511 Plant Growth Regulators (II, 3) Synthesis, metabolism, translocation, mode of action and applications of endogenous and synthetic growth regulators.

(Lec. 3) Pre: BOT 245. In alternate years. Taught in spring of odd numbered years. Krul

S 512 Plant Growth and Development (II, 3) Developmental physiology of plants, from seed formation to senescence. (Lec. 3) Pre: BOT 445 and 311. In alternate years. Taught in spring of even numbered years. Krul

F 513 Laboratory Plant Tissue Culture (I, 1) Techniques for initiation and continuous culture of plant cells; protoplast isolation, fusion and selection; micropropagation, somatic embryogenesis and production of haploid plants via pollen and another culture. (Lab. 3) Pre: BOT 245, concurrent registration in 413, and permission of instructor. Krul

S 518 Recent Advances in Soil Science (II, 3) Critical analysis and presentation of technical reports of recent advances in soil science. Topics will vary according to background of students enrolled. With departmental permission can be taken more than once. (Lec. 3) Pre: six credits in soil science or permission of instructor. In alternate years, next offered 1979-80. Wright

S 519 Post-Harvest Physiology of Economic Crops (I, 3) Factors affecting post-harvest physiology of fruits, vegetables, flowers, ornamentals and sod. Influence of pre-harvest factors on post-harvest condition. Principles of preservation and storage. Individual or group projects. (Lec. 3) Pre: BOT 445 or equivalent. In alternate years, next offered 1980-81. Staff

F 576 Physiology of Plant Productivity (I, 3) Critical analysis of contemporary views on energy conversion and transformation in primary plant production. Topics include photosynthesis, phosphorylation, photorespiration, transport mechanisms, nitrogen assimilation and symbiosis. (Lec. 3) Pre: organic chemistry, plant physiology, biochemistry or with permission of instructor. In alternate years, next offered 1979-80. Hull

F 591, 592 Non-Thesis Research in Plant and Soil Science (I and II, 1-3 each) Advanced work under supervision of research staff to expand research experience into areas other than those related to thesis research. Arranged to suit individual requirements. (Lab. 3-9) Pre: permission of department. Staff

S 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

F 699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Plant Pathology-Entomology (PLP)

401 Applied Insect Ecology (II, 3)

422 (or MIC 422) Industrial Microbiology (II, 3)

442 Diseases of Turfgrasses, Trees and Ornamental Shrubs (II, 3)

443 Plant Disease Laboratory (I, 1)

482 Nematology (II, 3)

F 511 The Nature of Plant Disease (I, 3) Analysis of the nature of plant disease, the processes of infection and pathogenesis, and the structural and physiological responses that determine resistance to disease. (Lec. 3) Pre: BOT 332 or equivalent. In alternate years, next offered 1980-81. Beckman and Mueller

- F 561 Plant Virology (I, 3)** Nature and properties of plant viruses, survey of plant diseases caused by viruses and experience in basic techniques. (Lec. 3) Pre: BOT 332 or equivalent. In alternate years, next offered 1979-80. Mueller
- F 591, 592 Research Problems (I and II, 1-3 each)** Individual or group study supervised by a faculty member in fields of plant virology, nematology and disease mechanisms, economic entomology or plant pathology, agricultural and industrial mycology and related subjects. Written reports. (Lec. 1-3, Lab. 2-6) Staff
- F 599 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- F 699 Doctoral Dissertation Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.
- Note: for other related courses see BOT 332, 432 and ZOO 381, 482, 581, 586.

Political Science (PSC)

- 401 (301) Comparative European Politics (I and II, 3)**
- 407 The Soviet Union: Politics and Society (II, 3)**
- 408 African Government and Politics (I, 3)**
- 420 Dissent, Non-Violence and Change (I, 3)**
- 422 Comparative American State Politics (II, 3)**
- 431 International Relations (I, 3)**
- 432 International Government (II, 3)**
- 434 American Foreign Policy (II, 3)**
- 443 Twentieth-Century Political Theory (I, 3)**
- 444 Marxist Political Thought (II, 3)**
- 455, 456 Directed Study or Research (I and II, 3 each)**
- 460 Urban Politics (I and II, 3)**
- 461 The American Presidency (I, 3)**
- 464 International Law (II, 3)**
- 466 Urban Problems (II, 3)**
- 470 Problems and Principles in the American Political Process (II, 3)**
- 471 Constitutional Law (I, 3)**
- 472 Civil Liberties (II, 3)**
- 474 Criminal Justice Systems (II, 3)**
- 481, 482 Political Science Seminar (I and II, 3 each)**
- 483 Political Process: Policy Formulation and Execution (I or II, 3)**
- 486 Intentional Communities (II, 3)**
- 491 Principles of Public Administration (I, 3)**
- 495 Comparative Urban Politics (I, 3)**
- 498 Public Administration and Policy Formulation (II, 3)**
- F 501 Administrative Theory (I and II, 3)** Theoretical constructs and models in fields of public administration; theories of Weber, Riggs, Dorsey, Simon, Presthus. Lower level models in subfields of organization, communications and decision-making. Task-oriented subject matter such as personnel, budget and program administration related to theoretical formulations which seek to explain them. (Lec. 3) Pre: 491 or permission of department. Grossbard
- F 502 Techniques of Public Management (I and II, 3)** Principles and techniques employed in the administration of staff activities of the public service such as administrative planning, project scheduling and budgeting. (Lec. 3) Pre: 491 or permission of department. Staff
- F 503 Problems in Public Personnel Administration (I or II, 3)** Development of personnel administration, including problems of recruitment, examination, promotion and staffing within public service. Emphasis on evaluation of employee performance and collective bargaining in public service. (Lec. 3) Pre: graduate standing or permission of department. Grossbard
- F 504 Politics of Developing Areas: Asia (II, 3)** Analysis of developments in newly independent, "third world" nations, particularly of Asia. Emerging political structures in relation to the processes of social, economic, and psychological change. (Lec. 3) In alternate years, next offered 1979-80. Stein
- F 505 (or SOC 505) Public Program Evaluation (II, 3)** Research design and methodologies associated with the evaluation of governmental programs and activities. (Lec. 3) Pre: EST 408 or equivalent or permission of instructor. Hennessey
- F 506 Seminar in Budgetary Politics (I, 3)** Examination of federal, state and local fiscal and budgetary processes, focusing on the politics of the budgetary process and models of budgeting with emphasis on contemporary issues. (Lec. 3) Staff
- F 507 The U.S.S.R. and China in World Affairs (II, 3)** Seminar of Russian and Chinese world outlook and study of their foreign policies—how they deal with each other, the West, other communist nations and developing nations. (Lec. 3) Pre: 407 or department approval. Stein
- S 510 Developing Nation State: Africa (II, 3)** Analysis of developmental policy formation with emphasis upon the governmental processes in the new nations with major focus on African countries. (Lec. 3) Pre: permission of instructor. Milburn
- F 512 Seminar in Marine Science Policy and Public Law (II, 3)** Multi-disciplinary teams of faculty and selected graduate students tackle unresolved problems in creating rules or institutions to cope with new uses of the marine environment, e.g., freedom of the seas, fisheries regulation, deep-sea mining, or weather modification. Team meetings at team convenience; plenary sessions; backup studies for team meetings plus final report. Pre: permission of department. Staff
- new 522 Comparative American Local Politics (I, 3)** Comparative study of American local government and politics. Emphasis on the determinants of local public policy. (Lec. 3) Pre: 221 or urban related course, EST 408. Leduc
- F 523 Seminar in Comparative Public Administration (I, 3)** Theory, practice, and organization of selected European and developing nations' administrative systems. Analysis of selected policies. Influence of English and French systems on developing systems. Structure-function and ecological analysis. (Sem. 3) Pre: 491, 501 or permission of instructor. Milburn
- F 524 Seminar in Public Policy Problems (I and II, 3)** Exploration in depth of selected problems of policy formulation—intergovernmental relations, regionalization, citizen participation and control, priority setting for public sector programs. (Lec. 3) Pre: 491, 501 or permission of department. Grossbard
- S 544 Democracy and Its Critics (I, 3)** Seminar examining the roots of modern democracy in the social contract theories and analyzing the quality and limits of self-determination in these theories in the light of contemporary politics. (Lec. 3) Pre: 341, 342, or permission of department. Killilea

F 75 553 Scope and Methods of Political Science (I, 3) Development of political science in relation to other social sciences. Political concepts, theories, and analytic systems surveyed in relation to the methodology. Latest trends and interests in the discipline. Research papers and reports explore individual problems. Required for graduate students. (Lec. 3) Tyler

554 Advanced Research in Political Science (II, 3) Fundamental concepts and techniques in political science with emphasis on advanced quantitative and qualitative analysis and the application of these methods to individual research projects. (Lec. 3) Pre: 553 or permission of department. Staff

F 555, 556 Directed Study or Research (I and II, 3 each) Special work arranged to meet the individual needs of graduate students in political science. (Lec. 3) Pre: permission of department. Staff

556 American Political Thought (II, 3) Origins and development of American political thought. Intensive study, including European influences, of the growth of ideas about democracy in America. Locke, DeTocqueville, Jefferson, Lincoln, and other representative theorists. (Lec. 3) Pre: 341, 342 or permission of instructor. In alternate years. Wood

S 79 568 Jurisprudence (II, 3) Introduction to the philosophy of law, treating the sources, the nature, and the consequences of major systems of legal thought. Emphasis on the relationship between legal reasoning and judicial decision-making in the United States. (Lec. 3) Pre: 471, 472, or permission of instructor. In alternate years, next offered 1979-80. Wood

F 74 572 Problems in International Relations (I, 3) Examination of such major current problems in international relations as control of atomic energy, the flowering of nationalism in Asia, the role of the United Nations, western European problems, the problem of Germany and the role of ideologies in international relations. (Lec. 3) Pre: 431 or permission of department. Staff

F 573 (473) Administrative Law (I, 3) Legal aspects of interaction between government agencies, individuals, and public interest. Systematic analysis of leading cases, evaluating the courts as an instrument for protecting the individual's rights in administrative action. (Lec. 3) Pre: 113. Rothstein

578 International Law and Politics of the Oceans (II, 3) Chronological view of interaction between political processes and resulting international law of the oceans. Special emphasis on international conferences on law of the sea. Open to graduate students in Master of Marine Affairs Program and Department of Political Science; other graduate students with permission of instructor. (Lec. 3) Nixon

F 590 Internship in Public Administration (I and II, 3-6) Participation at an administrative agency under supervision of agency head and a member of the faculty. Planning, personnel management, research organization, budgeting, interdepartmental relations, informal liaisons that are the hallmark of effective administration. May be taken as one 6-credit unit or two 3-credit units. Pre: permission of Bureau of Government Research. Staff

595 Problems of Modernization in Developing Nations See Resource Economics 595.

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Psychology (PSY)

410 Quantitative Methods in Psychology II (I, 3)

432 Advanced Developmental Psychology (II, 3)

434 Introduction to Psychological Testing (I and II, 3)

435 The Psychology of Social Behavior (I and II, 3)

436 (or PCL 436) Psychotropic Drugs and Therapy (II, 3)

438 (or PCL 438) Psychotropic Drugs and Behavior (I or II, 3)

445 Group Processes and Individual Behavior (I and II, 3)

450 Cognitive and Behavioral Analysis of Communication (II, 3)

461 The Alcohol Troubled Person: Psychological and Social Issues (I or II, 3)

464 Humanistic Psychology (II, 3)

479 Contemporary Problems for Modern Psychology (I and II, 3-12)

480 The Female Experience (II, 3)

489, 499 Problems in Psychology (I and II, 3 each)

F 505 Community Psychology (I, 3) Introduction to community psychology; study and change of individual's interaction with community systems; theoretical and empirical models, intervention strategies, and research methods relevant to community psychology. (Lec. 3) Pre: permission of department. Hurley and Stevenson

S 510 Intermediate Quantitative Methods (II, 3) Complex statistical techniques useful in practical psychological research including multiple correlation and regression analysis, multiple correction for restriction in range, and introductory multivariate analysis methods. (Lec. 3) Pre: permission of department. Merenda and Cain

S 517 (or EST 517) Small N Designs (II, 3) A survey of Small N experimental methodology, including hypothesis of quasi-experimental designs and the application of interrupted time series. Applications in applied research, particularly behavioral intervention. (Lec. 3) Pre: 510, 532. In alternate years. Velicer

F 520 Psychometric Methods (I or II, 3) Techniques for investigating areas of attitude and opinion research, morale and leadership, personality and perception. Includes techniques of test construction. Q-methodology, and psychometric scaling. (Lec. 3) Pre: 434, 510. In alternate years. Merenda and Staff

F 532 Experimental Design
See Experimental Statistics 532.

S 534 Clinical Interpretation of Standardized Psychological Tests (II, 3) Clinical use of standardized assessment techniques such as MMPI. Critical review of theory and research underlying objective, group assessment of human characteristics. Development and interpretation of individualized evaluations based on profile analysis. (Lec. 3) Pre: 434. Staff

F 542 The Exceptional Child (I or II, 3) Definition and proper classification of types of exceptional children; social, psychological, and physical factors involved. Problems of rehabilitation and psychological treatment. Types of exceptional children; e.g. superior, retarded, physically handicapped, those suffering from developmental aberrations. (Lec. 3) Pre: 232, 254 and permission of department. Weiner

S 550 (or PCL 550) Operant Analysis of Behavior (I or II, 3) Introduction to the principles of operant conditioning with emphasis on the use of these principles in the

analysis of behavior. (Lec. 3) Pre: permission of department. Smith

554 Alternate Therapies (I or II, 3) Theory and practice of those individual and group techniques which can be integrated into one's present style of helping; (a) existential, (b) body therapies, (c) cognitive therapies, and (d) other contemporary approaches. Students may participate in a maximum of five distinct workshops. (Lec. 2, Lab. 2) Pre: professional and/or graduate status and permission of the coordinator. Staff

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

600 Advanced General Psychology (I or II, 3-15) Series to provide incoming graduate students with intensive preparation in major areas of general psychology: (a) psychophysiology, (b) learning, (c) cognition and perceptual processes, (d) developmental, (e) social. (Lec. 3) May be repeated up to five times. Pre: permission of department. Staff **F - 600, 600E, F 5-600A, D**

608 Theories and Systems (I, 3) An in-depth analysis of the origin and logical structure of major systematic approaches to psychology. Emphasis on significant recurrent controversies. (Lec. 3) Pre: graduate standing. Staff

610 (or EST 610) Factor Analysis (II, 3) Comparison among various procedures of factor analysis including tetrad differences, bi-factor, group centroid, principal components, canonical methods. Interpretation of factors. Estimation of factor loadings and specific variances. Methods for factor rotation. Estimation of factor scores. (Lec. 3) Pre: EST 541. In alternate years, next offered 1979-80. Merenda and Staff

611 Methods of Psychological Research and Experimental Design (I or II, 3) Provides the student of psychology with a knowledge of research methodology and the techniques of experimental designs. It prepares for the development of thesis problems of graduate students in psychology and related disciplines. (Lec. 3) Pre: 510, 532. In alternate years, next offered 1979-80. Merenda and Staff

615 Collaborative Research in Psychology (I or II, 0-3) Collaborative approaches to psychological research. Special emphasis on topics that can involve students at varying levels of research skill. Format includes weekly topical seminar and biweekly colloquium combining all topical interest groups. Pre: 300, 301, 532 or equivalent and permission. (Sem. 3, Colloquium 1) May be repeated. Maximum of six credits. Kulberg and Staff

616 Methodology and Design in Research in School Psychology (I or II, 3) Models of research design and methodology particularly applicable to the school situation are explored. (Lec. 3) Pre: 510, 532, permission of department. Staff

617 Methodology and Design in Research in Clinical Psychology (I or II, 3) Models of research design and methodology particularly pertinent to the area of clinical psychology with emphasis on mental designs appropriate to research problems, using specific experiments and original research. (Lec. 3) Pre: 510, 532, permission of department. Biller

620 Seminar: Classical Conditioning (I and II, 3) History and nature of the conditional reflex, with emphasis placed on understanding the role of the conditional reflex and contemporary behavioral research and theory. (Lec. 3) Pre: permission of department. Smith

621 Seminar: Human Learning and Memory (I or II, 3) Experimental analysis of major problem topics of learning and retention studies in humans. Emphasis on systematic studies of verbal habits, dimensional analysis of the critical variables influencing these habits, and the interference theory of forgetting. (Lec. 3) Pre: permission of department. Silverstein

640 Personality Dynamics I (Advanced Personality) (II, 3) Readings from the original sources of the major contemporary personality theorists. Emphasis on the possible integration of these theories, and the development of synthetic theory according to individual preferences. (Lec. 3) Pre: permission of department. In alternate years. Cain

660 Personality Dynamics II (Advanced Psychopathology) (I or II, 3) Empirical literature with regard to etiological factors involved in the formation of pathological character trends and deviations. Evaluation of clinical theory and classification systems as related to the psychotherapeutic process. (Lec. 3) Pre: permission of department. Prochaska

661 Psychological Services I (Administration and Interpretation of Cognitive Tests) (I, 3) Instruction and practice in administration and interpretation of cognitive tests; individual intelligence tests of both general and specific abilities. Rationale, research evidence, clinical application of Stanford-Binet, Wechsler, Leiter International. (Lec. 3) Pre: permission of department. Berman

662 Psychological Services II (Administration and Interpretation of Personality Tests) (II, 3) Instruction and practice in the administration and interpretation of instruments used in the assessment of personality. Emphasis upon projective tests such as Rorschach, TAT. Rationale, research evidence and clinical application. (Lec. 3) Pre: permission of department. Staff

663 Seminar to Accompany Field Experience in Psychological Services (I and II, 3) All students meet in seminar to discuss and investigate specific diagnostic, therapeutic, research problems emerging in connection with internship experience. (Lec. 3) Pre: 670. Staff

664 Advanced Diagnostic Problems (I or II, 3) Use and interpretation of cognitive, projective, and neural psychological tests. Focus on integrated data into meaningful description of total personality functioning. Use of the diagnostic interview. (Lec. 3) Pre: 661, 662 and permission of instructor. In alternate years. Berman

665 Seminar: Behavior Disorders in Childhood (I or II, 3) Emphasis on etiological factors, diagnostic and treatment consideration, and experimental research findings related to the psychological maladjustments in infancy and childhood; treatment procedures, resources and methods used in dealing with behavior and personality problems. Lectures, discussions, and case demonstrations. (Lec. 3) Pre: 660. In alternate years, next offered 1979-80. Berman

666 Seminar: The Professional Psychologist in the Community (I and II, 3) Ethical and professional standards related to the practice of psychological services. Discussion and guest lectures by members of related disciplines. Special emphasis upon the role of the professional psychologist in the community: (a) clinical psychology, (b) school psychology. (Lec. 3) Pre: permission of department. Staff

- 670 Field Experience in Psychological Services (I and II, 6-12)** Training placements and internships are available in a variety of institutional agencies and school settings under supervision which must be acceptable to the department. Pre: equivalent of 1 year full-time graduate work, clinical practices sequence, permission of department. Staff
- 671 Clinical Practices I (Diagnostic) (I or II, 3)** Supervised practice in the assessment of problem behavior. Emphasis on the integration of data from psychological tests, case histories, and other sources in the assessment of personality. Practicum facilities available in several agencies. (Lec. 2, Lab. 2) Pre: 661, 662, and permission of department. In alternate years, next offered 1979-80. Berger
- 672 Individual Clinical Practicum (I or II, 3-9)** Introductory experience in dealing with clinical problems in a variety of clinical settings. Individual supervision to be arranged. (Lec. 3) May be repeated up to three times. Pre: 661, 662 and permission of department. Staff
- 673 Seminar: Introduction to Clinical Psychotherapy (I, 3)** Theories and techniques of psychotherapeutic procedures involving directive and nondirective and play therapies. Theoretical rationale and empirical research with special emphasis on the child area. (Lec. 3) Pre: permission of department. Willoughby and Staff
- 674 Clinical Practices II (Therapy) (I or II, 3-21)** Specialized techniques of clinical interviewing, counseling, and psychotherapy. Critical discussions of the student's own supervised therapy sessions: (a) individual, (b) behavior, (c) group, (d) sensitivity, (e) family, (f) childplay, (g) specialized techniques. (Lec. 3) May be repeated up to seven times. Pre: 640, 660, 673, and permission of department. Staff
- 675 Experimental Psychopathology (I or II, 3)** Relates recent experimental methodology and findings to prevalent theoretical positions. Emphasis on reviewing experimental literature in specialized clinical areas. (Lec. 3) Pre: permission of department. Prochaska
- 676 Neurological Correlates of Psychopathology (I and II, 3)** Functioning and physiology of central nervous system with particular attention to determining how neurological disruption and injury are manifested in behavioral disorder. Techniques used to evaluate and interpret neuropsychological functioning. (Lec. 3) Pre: permission of instructor. In alternate years, next offered 1979-80. Berman
- 678 Seminar: Physiology of Learning and Memory (II, 3)** Examination of theories of learning and memory in terms of biochemical changes and neurological processes. Neuroanatomy and function of higher brain systems are reviewed and related to learning and memory processes. (Lec. 3) Pre: 381 or permission of instructor. In alternate years, next offered 1979-80. Staff
- 680 School Practices I (Diagnostic) (I and II, 3-9)** Testing procedures and devices in the diagnosis of organicity, personality problems, special learning problems, visual, auditory, and memory problems; includes administration, interpretation, and special adaptation of tests in the school situation. (Lec. 3) May be repeated up to three times. Pre: 434, 661 and permission of department. Staff
- 681 Special Problems in School Psychology (I or II, 3-9)** Role of the psychologist in the school setting. Several theoretical and practical issues concerned with the value of psychological theory, administrative philosophy, and school organization are explored. (Lec. 3) May be repeated up to three times. Pre: 680 and permission of department. Vosburgh, Staff
- 682 Individual Practicum in School Psychology (I or II, 3-9)** Accompanies student's internship in the school setting. Techniques for adapting psychological services to function within the school system. Individual supervision to be arranged. (Lec. 3) May be repeated up to three times. Pre: permission of department. Vosburgh
- 683 Psychology of the Exceptional Child (I, 3)** Social, psychological and educational factors that constitute the matrix of concerns with the exceptional individual in the school and community. Recent innovations in public and private education and habilitation. Research issues and legislation discussed evolve into student studies. (Lec. 3) Pre: permission of department. Staff
- 684 Learning Disabilities (I, 3)** Introduction to developments in the field of disorders of learning in the school-age child, stressing recent conceptualizations of underlying psychological parameters essential to basic processes involved in learning. Interdisciplinary approaches to diagnosis; innovation of prescriptive teaching introduced. (Lec. 3) Pre: 683 and/or permission of instructor. Gross
- 685 Psychology of Mental Retardation (II, 3)** Etiological factors, including biogenetic, physiological and social origins of mental retardation. The epidemiology and ecological aspects considered as they interact with social and cultural forces. Historical and current philosophy of habilitation and education of school-age children and adults. (Lec. 3) Pre: permission of instructor. Staff
- 686 Psychology and Education of the Emotionally Disturbed (I, 3)** Current thinking on treatment and education of residential and day-care programs for the emotionally disturbed. Meaning of the various concepts of schizophrenia, autism and hyperkinetic impulse disorder for treatment. Application of operant techniques for shaping socially appropriate behavior. Overview of origins of current operant methods in hospitals and schools. (Lec. 3) Pre: permission of instructor. Gross
- 690 Seminar: Contemporary Issues in Psychology (I and II, 3-12)** Recent developments and current issues. Rigorous exploration of experimental and theoretical literature. Study limited each semester to one of the following areas: developmental, clinical, motivation, perception, psychophysics, and scaling problem solving and thinking. A maximum of 4 seminars may be taken. (Lec. 3) Pre: permission of department. Staff
- 691 Individual Practicum in Teaching Psychology (I or II, 3-6)** Seminar and supervised experience in the teaching of psychology primarily at the undergraduate level. Students will be involved in laboratory and discussion groups under supervision. (Lec. 3) May be repeated up to two times. Pre: permission of department. Camp and Staff
- 692, 693 Directed Readings and Research Problems (I or II, 3-6 each)** Directed readings and advanced research work under the supervision of a member of the staff arranged to suit the individual requirements of the students. Pre: permission of department. Staff
- 694 Special Problems in Clinical Psychology (I or II, 3-12)** Instruction and clinical practicum training in unique problem areas of clinical psychology. Development of specialized evaluation instruments and proce-

dures. (Lec. 3) May be repeated up to four times. Pre: permission of department. Staff

576 Econometrics I (I, 3)
See Economics 576.

569 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

577 (or EST 577) Econometrics II (II, 3) Continuation of Econometrics I. (Lec. 3) Pre: 576. Lampe

595 (or ECN 595, GEG 595, PSC 595 or SOC 595) Problems of Modernization in Developing Nations (II, 3) Selected regional problems in the environmental complex, agricultural systems, population dynamics, distribution systems, political integration, urbanization-industrialization, popular participation, integrated theories of modernization. (Lec. 3) Pre: permission of instructors. Brand (Geography), Weaver (Resource Economics), Poggie (Sociology and Anthropology), Milburn (Political Science), and Suzawa (Economics)

Recreation (RCR)

- 416 Physical Aging and Leisure Skill (II, 3)
- 485 Planning and Supervision of Recreation Facilities (I, 3)

Resource Development Education (RDE)

- 444 (or EDC 444) Teaching Agribusiness and Natural Resources (I, 3)
- 486 Internship (I and II, 1-6)

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

602 Research Methodology (I and II, 3) Evaluation of alternative research methods and techniques. Development of specific research projects. (Lec. 3) Staff

Resource Economics (REN)

- 430 International Resource Development (II, 3)
- 435 Aquacultural Economics (II, 4)
- 440 Development and Evaluation of Natural Resource Projects (I, 3)
- 455 Economics of Land, Forestry and Recreation Resources (II, 3)
- 460 Economics of Ocean Management (II, 3)
- 491, 492 Special Projects (I and II, 1-3 each)

610 Advanced Studies (I and II, 3) Advanced topics in resource economics. Mathematical models in resource management. May be repeated for different topics. (Lec. 3) Staff

621 The Estuary and Coastal Zone
See Oceanography 621.

630 Resource Analysis
See Economics 630.

634 Economics of Resource Development II (I, 3) Concepts of economic efficiency applied to natural resources with emphasis on marine resources. Application of welfare and institutional economics to resource development; analysis of optimum allocation among users. (Lec. 3) Pre: 534. Opaluch

635 Marine Resources Policy (I, 3) Analysis of public policy problems relating to the development and management of marine resources, including fisheries, minerals, petroleum, water and recreation. (Lec. 3) Pre: 534. Staff

676 Advanced Econometrics
See Economics 676.

677 Econometric Applications in Resource Economics (II, 3) Special topics in econometrics as applied to agriculture and natural resources. Topics include time series models, Bayesian analysis and dichotomous dependent variables. Pre: 676. Staff

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

514 Economics of Marine Resources (I, 3) Role of economics in development of marine resources. Particular attention to problems of multiple use of resources and to the conflicts between private and public goals. (Lec. 3) Pre: M.M.A. students or permission of instructor. Rorholm

527 Macroeconomic Theory
See Economics 527.

528 Microeconomic Theory
See Economics 528.

532 Land Resource Economics
See Community Planning 521.

534 Economics of Resource Development I (II, 3) Economic theory applied to the development of human and natural resources with topics drawn from current resource use problems. Analytical techniques treated are simulation techniques, cost-benefit analysis, input-output models, growth models. Cobb-Douglas functions, and Markov chains. (Lec. 3) Pre: 532 and ECN 528 or equivalent, or permission of instructor. Gates

543 Economic Structure of the Fishing Industry (I, 3) Analysis of U.S. and world fishing industries from standpoint of activity and efficiency. Problems related to common property resources, government policy, labor, and legal and institutional factors. (Lec. 3) Pre: ECN 427 and 428 or permission of instructor. Holmsen

550 The Economics of Exhaustible Marine Resources (II, 3) Theory and application of natural resource analysis specifically applied to such marine resources as petroleum, sand and gravel, manganese, and other minerals. (Lec. 3) Pre: ECN 328 or permission of instructor. Grigalunas

Resource Mechanics (REM)

- 451 Soil Conservation Technology (I, 3)
- 484 Structures (II, 3)

Respiratory Therapy (RTH)

- 499 Special Problems (I and II, 1-3)

Russian (RUS)

460, 461 **The Russian Novel** (I and II, 3 each)
497, 498 **Directed Study** (I and II, 3 each)

901, 902 **Reading Course in Russian for Graduate Students** (I and II, 0 each) 901: Fundamentals of grammar and syntax necessary to develop reading knowledge. Assumes no prior knowledge of Russian. 902: Exercises in translating scholarly and scientific texts. Staff

Sociology (SOC)

tion and androgyny. (Lec. 3) Pre: 202, 342 or permission of instructor. In alternate years. Reilly and Shea

516 **Seminar in Law and Society** (II, 3) Social forces in the creation and function of law in American society. Roles of law enforcers. Influences of social classes and interest groups on law as an instrument of social control and change. (Lec. 3) Pre: 314 or 330 or permission of instructor. England

518 **Social Welfare: Planning and Policy** (II, 3) Theories shaping attitudes toward institutional and residual welfare. U.S. programs and agencies, their development, scope and format. Poverty and myths; welfare reform proposals and the role of social scientists. (Lec. 3) Pre: 492, 507 or permission of instructor. In alternate years. Reilly

520 **Seminar in Sociological Topics** (I or II, 3) Advanced study of selected topics in sociology. (Lec. 3) Pre: graduate or senior standing, and permission of department. Staff

521 **Behavior Systems in Crime** (I, 3) Criminal behavior studied in categories useful for sociological analysis. Linkages of criminal behavior systems to the larger society; behavior systems in causal theorizing, justice, prevention and corrections. (Lec. 3) Pre: 330 or equivalent. In alternate years. Carroll and England

522 **Issues in Corrections** (II, 3) Justifications for punishment and corrections; historical development; intensive survey of current research on deterrence, effectiveness of treatment, prison, violence and other issues. (Lec. 3) Pre: 330, EST 408, SOC 507 or permission of instructor. In alternate years. Carroll and England

523 **Institutional Racism** (I, 3) Consideration of varying models of race and ethnic relations; examination of recent research on issues such as residential segregation, school desegregation, affirmative action and racial disorders; comparisons of U.S. with other societies. (Lec. 3) Pre: EST 408, SOC 507 or permission of instructor. In alternate years. Carroll and Reilly

524 **Issues in Medical Care Delivery Systems** (II, 3) Impediments to a broad extension of health care, access to health care, cost differentials, "technical" versus "humanistic" care, peer review and legal issues in medicine, cost benefits, evaluating delivery systems. (Lec. 3) Pre: senior standing, graduate student status and permission of instructor. In alternate years. Rosengren

525 **Seminar in Teaching Undergraduate Sociology** (II, 3) Seminar on issues and problems in instructing undergraduate sociology. Setting instructional goals, course planning, alternative course organizations and relevant ancillary teaching materials. (Lec. 3) Pre: permission of instructor. In alternate years. Gelles

571, 572 **Directed Study or Research** (I and II, 3 each) Designed to cover areas of special research interests of graduate students not covered in other courses. (Lec. 3) Pre: permission of department. Staff

595 **Problems of Modernization in Developing Nations** See Resource Economics 595.

598 **Field Placement and Seminar** (I and II, 6) Supervised field experience with an emphasis upon the application of sociological research to needs assessments, program planning and evaluation; biweekly seminars; preparation of an original report based upon the placement experience. Pre: EST 408, SOC 507 and permission of the department. Staff

410 **Complex Organizations in Modern Society** (I or II, 3)

414 **Demography** (I or II, 3)

416 **Deviant Behavior** (II, 3)

418 **Collective Behavior** (I or II, 3)

422 **The Sociology of the Arts** (I or II, 3)

423 **Mortality and Morbidity** (I, 3)

430 **Social Pathology and Social Change** (I or II, 3)

434 **Urban Sociology** (I or II, 3)

436 **Sociology of Politics** (I or II, 3)

438 **Aging in Society** (II, 3)

440 **Sociology of Mental Disorder** (I or II, 3)

442 **Sociology of Education** (I or II, 3)

444 **Sociology of Religion** (I or II, 3)

446 **Sociology of Knowledge** (I or II, 3)

452 **Class and Power** (II, 3)

492 **History of Sociological Thought** (I or II, 3)

501 **Classical Sociological Theorists** (I, 3) An in-depth study restricted to the works of Emile Durkheim, Karl Marx and Max Weber with an emphasis on their contributions to contemporary sociological thought. Pre: 492 or permission of instructor. Gardner

502 **Contemporary Sociological Theory** (I or II, 3) Critical examination of the theories and systems of contemporary sociologists. (Lec. 3) Pre: 12 credits of sociology or permission of instructor. Gardner

505 **Public Program Evaluation**
See Political Science 505.

507 (505) **Methods of Sociological Research** (I, 3) The logic of sociological inquiry with particular emphasis on the interrelationship between theory and fact through an examination of a variety of methodological procedures. (Lec. 3) Pre: graduate standing or permission of instructor. Bassis

508 **Individual and Social Organization** (I or II, 3) Sociology of the individual as the creator, preserver and participant in society. Emphasis upon symbolic interaction in the growth of personal idiom, the development of social structure, and of the content of social change. (Lec. 3) Pre: permission of department. Staff

510 **Seminar in Deviance** (I or II, 3) Deviation from social expectations analyzed as a social phenomenon. Emphasis on deviation theories and research pertaining to individuals, subcultures, and social systems. Discussions, oral and written reports. (Lec. 3) Pre: permission of department. England

513 **Sexual Inequality** (I or II, 3) Development of sexual inequality. Critique of various theories explaining inequality. Sociological interpretation of theories of sexuality. Some effects of inequality: American women; minority women; women's work. Discussion of libera-

F 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

its heritage in the art, folklore, and language of the United States, and an analysis of the literature of the Spanish-speaking peoples. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years, next offered fall, 1980. Hutton

Spanish (SPA)

- 401 Oral and Dramatic Presentation of Hispanic Literature (I, 3)**
409 History of the Spanish Language (II, 3)
430 Castilian Literature of the Sixteenth and Seventeenth Centuries (II, 3)
451 The Spanish Novel of the Nineteenth Century (I, 3)
461 The Generation of 1898 (I, 3)
470 Topics in Spanish-American Literature and Culture (I and II, 3)
481 Don Quijote (I, 3)
485 The Modern Spanish Novel (II, 3)
488 The Drama of the Golden Age (II, 3)
497, 498 Directed Study (I and II, 3 each)

F 501 Pedagogical, Artistic, and Cultural Perspectives (I, 3) Introduction to the use of culture and the arts in effective language teaching, as well as to methods of literary interpretation. (Lec. 3) Pre: graduate status or permission of instructor. Hutton

S 502 Language Structure and Expression (II, 3) Advanced study of grammar, syntax, and lexical usage. Practice in speaking and composition. Recommended for present and prospective teachers and those working with Spanish-speaking people. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years, next offered spring 1980. Navascués

new 571 Modern Spanish-American Authors (I, 3) Analysis of human and artistic values in the drama, poetry, and narrative of selected modern Spanish-American authors. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years, next offered fall, 1979. Navascués

F 572 Evolution of Spanish-American Culture and Thought (II, 3) Development of Spanish-American thought and cultural trends, as portrayed in major works of artists and thinkers. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years, next offered spring 1980. Morin

F 581 Spanish Writers (I, 3) An examination of literature as artistic and cultural expression through intensive study of a selection of major works. Pre: graduate status or permission of instructor. (Lec. 3) In alternate years, next offered fall, 1980. Manteiga

S 582 Cervantes: Theater and Novels (II, 3) Reading and critical interpretation of selections from *Comedias* and *Entremeses*, *Las novelas ejemplares*, *La Galatea*, *Persiles y Sigismunda*. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years, next offered spring, 1981. Hutton

S 584 Interpretations of Modern Spain (I, 3) Development of Spanish thought particularly with respect to sociological and cultural problems from the eighteenth century to the contemporary period as seen through the writings of significant essayists. (Lec. 3) Pre: graduate status or permission of instructor. In alternate years, next offered spring, 1982. Hutton

new 590 The Hispanic Presence in the United States (II, 3) A study of the establishment of the Hispanic presence and

S 599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Speech Communication (SPE)

- 400 Rhetoric (I, 3)**
410 Semantics (II, 3)
415 The Ethics of Persuasion (II, 3)
417 Speech in the Elementary School (I and II, 3)
420 Seminar in American Public Address and Criticism (II, 3)
430 Political Communication (I, 3)
431 Readers Theatre (II, 3)
433 Chamber Theatre (I, 3)
471, 472 Internship in Speech Communication (I and II, 3 each)
475 Gestural Communication (I, 2)
491, 492 Special Problems (I and II, 1-3 each)

F 504 Speech and Hearing Research (I, 3) Types of research in speech pathology, audiology, and communication science; critiques of representative models with special emphasis on experimental research; individual pilot projects or master's thesis. (Lec. 3) Pre: admission to graduate programs in speech, or permission of instructor. Grubman

F 551 Measurement of Hearing (I, 2) History of hearing evaluation techniques; methods and practicum in basic audiological assessment; types of hearing losses and their implications for rehabilitation. (Lec. 2) Staff

S 552 Advanced Measurement of Hearing (II, 2) Speech audiometry; recruitment phenomena; functional hearing losses; education and rehabilitation problems associated with electronically assisted hearing. (Lec. 2) Pre: 551 or equivalent. Staff

S 553 Pedaudiology (I, 2) Hearing evaluation problems associated with infants and preschool children; instrumentation and procedures; behavioral characteristics of hearing-impaired children. (Lec. 2) Staff

S 554 Auditory Training and Speechreading (II, 2) Rationale and techniques for auditory training programs; speechreading as a communication system; evaluation of methodologies for developing speechreading skills; practicum with children and adults. (Lec. 2) Pre: 551 or permission of instructor. Staff

F 555 Electronically Assisted Hearing (I, 2) Principles of selective amplification and acoustical control; evaluation of various devices including wearable hearing aids; methods of instruction in the use of acoustical instruments. (Lec. 2) Pre: 552 or permission of instructor. Staff

S 556 Automatic Audiometry (II, 2) Bekesy principle; continuous, discrete, and pulsetone measurements; diagnostic implications of various type tracings; research findings and current issues; practicum. (Lec. 2) Pre: 552 or permission of instructor. Regan

F 561 Disorders of Articulation (I, 2) Types and causes of articulation disorders; rationale for case selection, S-R-L syndrome; special emphasis on rehabilitation proce-

- dures associated with individual involvements; practicum. (Lec. 2) Grubman
- F 562 Disorders of Voice (I, 2)** Type and cause of voice disorders, rationale for case selection; medical implications; special emphasis on rehabilitation procedures associated with individual involvements; practicum. (Lec. 2) Beaupre
- 69 563 Disorders of Rate and Rhythm (II, 2)** Types and causes of rate, rhythm and stress disorders; rationale for case selection; survey of stuttering theories, special emphasis on rehabilitation procedures associated with individual involvements; practicum. (Lec. 2) FitzSimons
- 5 564 Disorders of Symbolization (II, 2)** Types and causes of language symbolization disorders; rationale for case selection; childhood aphasia and autism; special emphasis on rehabilitation procedures associated with individual involvements; practicum. (Lec. 2) FitzSimons
- F 565 Diagnostic Procedures: Voice and Articulation (I, 2)** Instrumentation, tests, and procedures for evaluating individuals with voice and articulation disorders; practicum in speech and hearing centers; principles of differential diagnosis and report writing. (Lec. 2) Pre: permission of instructor. Grubman
- 5 566 Diagnostic Procedures: Rhythm and Symbolization (II, 2)** Instrumentation, tests, and procedures for evaluating individuals with disorders of rate, rhythm and symbolization; problems in differential diagnosis; practicum in speech and hearing centers. (Lec. 2) Pre: permission of instructor. Grubman
- F 567 Clinical Practicum in Speech Pathology (I and II, 1-3)** Supervised diagnostic and therapeutic procedures with persons experiencing communicative disorders. Differential diagnosis, parent counseling, and cooperation with allied personnel. Practicum held on campus and within institutional and school settings. (Lab. 3-9) Pre: permission of adviser. Staff
- F 568 Clinical Practicum in Audiology (I and II, 1-3)** Supervised clinical practicum concerned with audiological assessment of hearing disorders and auditory rehabilitation with the hearing impaired. Practicum held on campus and within institutional and school setting. (Lab. 3-9) Pre: permission of adviser. Staff
- F 70 571 Audiometric Screening and Surveying Techniques (I, 3)** Rationale, instrumentation, and techniques for selecting and administering group and individual screening tests; records and interpretations; current research and professional issues. (Lec. 3) Pre: admission to graduate program in audiology. Staff
- F 572 Medical Audiology (II, 3)** Diagnostic implications of audiometry for various organic disorders; supportive audiological information relevant to medical and surgical interventions; differential data associated with otosclerosis, Meniere's disease, VIIIth cranial nerve tumors, and malingering. (Lec. 3) Pre: admission to graduate program in audiology. Staff
- F 573 Contemporary Problems in Audiology (I, 3)** Critical review of current research and controversial issues within the profession; student selects one topic for independent study. (Lec. 3) Pre: admission to graduate program in audiology and permission of instructor. Staff
- 5 574 Environmental Audiology (II, 3)** Hearing problems in industry, in the military, and other high noise level environments; medico-legal aspects of hearing loss; hearing conservation programs in public schools. (Lec. 3) Pre: admission to graduate program in audiology or permission of instructor. Staff
- 5 575 Speech and Language for Deaf or Hard of Hearing Child (I, 3)** The audiologist as hearing therapist in public school settings, medical clinics, and pre-school programs; responsibilities as part of the educational, psychological and medical team for active intervention with speech and language problems. (Lec. 3) Pre: admission to the graduate program in audiology or permission of instructor. Staff
- 5 576 Speech and Language for Deaf or Hard of Hearing Adult (II, 3)** The audiologist as hearing therapist and consultant for adults with agenerative or degenerative hearing deficits; responsibilities as part of the rehabilitation team for active intervention with speech and language problems. (Lec. 3) Pre: admission to graduate program in audiology or permission of instructor. Staff
- F 581 Cerebral Palsy (I, 3)** Identification of types of cerebral palsy by location of lesion, motor symptomatology and additional handicaps; role of the speech clinician on the team; types of speech therapy with emphasis on the Bobath approach; current research and controversial issues. (Lec. 3) Pre: admission to graduate program in speech pathology. Grubman
- F 582 Stuttering and Cluttering (II, 3)** Analysis of the various etiological theories of stuttering and tachyphemia; techniques and implications of the several therapies; developing a rationale for intervention and case selection. (Lec. 3) Pre: admission to graduate program in speech pathology. FitzSimons
- 5 583 Cleft Palate and Other Orafacial Deformities (I, 3)** Relationship of prosthetic, surgical, and orthodontic intervention to speech rehabilitation; role of speech clinician on the cleft palate team; assessment of therapeutic approaches; current research and controversial issues. (Lec. 3) Pre: admission to the graduate program in speech pathology or permission of instructor. Staff
- 5 584 Delayed Speech and Language (II, 3)** Problems in differential diagnosis for deafness, aphasia, autism, and learning disorders; demonstrations and critiques of clinical interventions with children who have speech and language learning deficits including dyslexia and acalculia. (Lec. 3) Pre: admission to the graduate program in speech pathology. FitzSimons
- 5 585 Aphasia and Allied Language Disorders (I, 3)** Types of adult aphasia; central and peripheral dysarthrias; role of speech clinician on the rehabilitation team; other degenerative disorders such as Parkinsonism and dystonia; current research and controversial issues. (Lec. 3) Pre: admission to graduate program in speech pathology or permission of instructor. Grubman
- 5 79 586 Alaryngeal Speech (II, 3)** Voice and speech rehabilitation for individual without a functional larynx; social, emotional and medical considerations; clinical procedures for esophageal, pharyngeal and buccal speech; implications for use of artificial larynx; current research. (Lec. 3) Pre: admission to graduate program in speech pathology. Beaupre
- 5 589 Masters Thesis Research (I and II)** Number of credits is determined each semester in consultation with the major professor or program committee.

Statistics

Economics

- 576 Econometrics I
577 Econometrics II

Experimental Statistics

- 408 or 409 Statistical Methods in Research I
412 Statistical Methods in Research II
413 Data Analysis
491, 492 Problems in Experimental Statistics
500 Nonparametric Statistical Methods
511 Linear Statistical Models
517 Small N Designs
520 Fundamentals of Sampling and Applications
532 Experimental Design
541 Multivariate Statistical Methods
550 Ecological Statistics
591, 592 Problems in Experimental Statistics

Industrial Engineering

- 411 Engineering Statistics I
412 Engineering Statistics II
513 Statistical Quality Control
533 Advanced Statistical Methods for Research and Industry
634 Design and Analysis of Industrial Experiments
635 Response Surfaces and Evolutionary Operations

Management Science

- 581 Fundamental Business Statistics
601, 602 Advanced Business Statistics

Mathematics

- 451 Introduction to Probability and Statistics
452 Mathematics Statistics
456 Probability
550 Advanced Probability
551 Advanced Mathematical Statistics I
552 Advanced Mathematical Statistics II

Mechanical Engineering and Applied Mechanics

- 521 Reliability Analysis and Prediction

Psychology

- 410 Quantitative Methods in Psychology II
510 Intermediate Quantitative Methods in Psychology
517 Small N Designs
610 Factor Analysis

Resource Economics

- 576 Econometrics I
577 Econometrics II

Textiles, Clothing and Related Art (TXC)

- 403 Textile Performance (II, 3)
405 Advanced Clothing (I and II, 3)
416 Interior Design II (I and II, 3)
422 Field Experience in Fashion Merchandising (I and II, 5)
433 Textiles and Clothing Industry (I and II, 3)
440 Historic Textiles (I, 3)
455 Clothing for Special Needs (II, 3)

502 Seminar in Textiles and Clothing (I and II, 3) Original investigations in areas of clothing problems. (Lec. 3) Pre: permission of department. Carpenter

503 Advanced Textiles (I and II, 3) Analysis of fabrics; methods and techniques of testing fabrics; evaluation of

fabric data in relation to end-use performance and to existing quality standards. (Lec. 2 Lab. 2) Pre: 303. Helms

513 Detergency (II, 3) Study of chemical and mechanical interactions of textile fibers, fabrics, laundering products, equipment, and soils. Laboratory experience in evaluation of laundry products and fabric durability during laundering. (Lec. 2, Lab. 2) Pre: graduate standing, 303 or equivalent, and permission of instructor. In alternate years, next offered spring 1981. Helms

524 Social and Psychological Aspects of Textiles and Clothing (II, 3) Seminar in social and psychological aspects of textiles and clothing. Theories and assumptions concerning relevance of clothing to individuals and groups. (Lec. 3) Pre: 224 or permission of instructor. Carpenter

533 Textile and Clothing Economics (I and II, 3) Economic development of production and distribution of textiles and clothing. (Lec. 3) Staff

540 Special Problems in Textiles and Clothing (I and II, 3) Supervised independent study in specific areas of textiles and clothing. Pre: permission of department. Staff

550 Seminar and Practicum (I and II, 3) Professional role of the textiles and clothing specialist. Pre: permission of department. Staff

560 Special Problems in Textiles and Clothing (I and II, 3) Supervised independent study in specific areas of textiles and clothing. Pre: permission of department. Staff

570 Seminar in Textiles and Clothing Research (I and II, 3) Critical study of research literature and research techniques. Pre: permission of department. Staff

580 Research Methods in Textiles and Clothing (I, 3) Development and execution of research in textiles and clothing following the historical, descriptive, and experimental methods. Analysis of current research in the field. (Lec. 3) Carpenter

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

Theatre (THE)

- 420 Advanced Directing Practice (I and II, 1-3)
450 Advanced Costuming (I and II, 1-3)
460 Advanced Scene Design (I and II, 1-3)

Urban Affairs (URB)

- 498, 499 Urban Affairs Senior Seminar (I and II, 3 each)

Writing (WRT)

- 435 (or EDC 435) The Teaching of Composition (I and II, 3)

999 Methods of Teaching College Writing (I and II, 0) Materials and multiple methods of teaching writing on

the college level. Required of teaching assistants who will teach in the College Writing Program unless waived by the chairperson of English graduate studies, the supervisor of teaching assistants, and the director of the College Writing Program. Swan and Staff

Zoology (ZOO)

environment, including osmotic balance, gaseous exchange and transport, nutrition, intermediary metabolism, nitrogen excretion, shell formation. Hammen and Hill

543 Biology of Reproduction in Animals (I, 3) Aspects of reproduction in animals of different phyla. Hormonal interrelationships, environmental control and adaptive mechanisms. (Lec. 2, Lab. 3) Pre: 345 and 545. In alternate years, next offered 1980-81. Chipman

545 Endocrinology (I, 3) Comparative anatomy, histology, embryology, physiology of the endocrine glands of vertebrates. Lectures, demonstrations, student reports. (Lec. 3) Pre: 316 or 321 and 323 or equivalent. Staff

548 Neurophysiology (II, 4) Fundamental processes occurring in the nervous systems of invertebrates and vertebrates. Structure and functions of nervous elements with emphasis on integration and coordination. (Lec. 3, Lab. 3) Pre: 345, MTH 141 or equivalent recommended and permission of instructor. In alternate years, next offered in 1981-82. Kass-Simon

554 Seminar in Morphogenetic Theory (II, 2) Recent investigation in developmental physiology, and the control of differentiation and development. Reference to original papers. (Lec. 2) Pre: 323 or equivalent, and permission of instructor. Wilde

561 Behavioral Ecology (I, 3) The interaction of animal behavior, ecology and evolution. Topics include predator-prey relationships, resource partitioning, competition, territoriality and reproductive behavior. Term project required. (Lec. 1, Rec. 2) Pre: a course in animal behavior and a course in ecology. In alternate years, next offered 1979-80. Cobb

562 Seminar in Behavioral Ecology (I, 1) Special topics in the relationships between animal behavior and ecology, such as social organization of animals, evolution of behavior, competition and habitat selection. Discussion and presentation of individual reports. (Lec. 1) Cobb

563 Ichthyology (I, 3) Fishes of the world. Their structure, evolution, classification, ecology and physiology. Emphasis on local marine and freshwater fauna. Several field trips. (Lec. 2, Lab. 3) Pre: 316 or 321 and 466. Krueger

564 Oceanic Ichthyology (II, 3) Fishes of the great ocean basins. Their systematics, adaptations, vertical distribution and zoogeography. Emphasis on mesopelagic and bathypelagic forms in the North Atlantic. (Lec. 2, Lab. 3) Pre: 563 or permission of instructor. In alternate years, next offered 1979-80. Krueger

565 Mammalogy (II, 3) Characteristics and adaptive significance of mammals encompassing their evolution, classification, distribution, life-histories, population dynamics and behavior. Methods and techniques of identification, collection, and preparation of local mammals for study. Field work. (Lec. 2, Lab. 3) Pre: 466 or equivalent. In alternate years, next offered 1980-81. Chipman

566 Herpetology (II, 3) Biology of recent orders of amphibians and reptiles; emphasis on adaptations and evolution, world faunal relationships past and present, current systematic problems. Selected herpetological material in laboratory, field trips. (Lec. 2, Lab. 3) Pre: 316 or 321 or permission of instructor. Shoop

568 Ornithology (II, 2) Biology of birds, with emphasis on the role of birds in biological research. Areas covered

408 (or MIC 408) Introduction to Protozoology (II, 4)

421 Principles of Taxonomy (I, 3)

427 (or MCE 427) Modeling and Analysis of Dynamic Systems (I, 3)

441 General (Cellular) Physiology (I, 3)

442 Mammalian Physiology (II, 3)

455 (or BOT 455) Marine Ecology (I, 3)

457 (or BOT 457) Marine Ecology Laboratory (I, 1)

463 Animal Ecology (II, 3)

465 Limnology (I, 4)

466 Vertebrate Biology (II, 3)

467 Animal Behavior (II, 3)

475 Causes of Evolution (II, 3)

476 Human Genetics (II, 3)

482 Systematic Entomology (II, 3)

505 Biological Photography (I, 2) Application of scientific photography to biological subjects living and prepared. Photomacrography and photomicrography. Principles of photography as applied to the specialized needs of biological research and publication. (Lab. 6) Pre: permission of instructor. Heppner

508 Seminar in Zoological Literature (II, 1) Survey of zoological literature including traditional methods of bibliographic control, contemporary information retrieval services and the development of a personalized information system. (Lec. 1) Pre: graduate standing in zoology. Gleisner

512 Fine Structure (II, 4) Experimental evidence correlating the fine structure and function of cell organelles, including especially the plasma membrane, endoplasmic reticulum, mitochondria, ribosomes, centrioles, lysosomes and cilia. Introduction to instrumental and to cytochemical methods for study of each cell. Emphasis on the examination of electron micrographs. (Lec. 3, Lab. 3) Pre: 323. In alternate years, next offered 1980-81. Goertemiller

518 Mechanisms of Development (I, 2) Current concepts of mechanisms responsible for developmental changes. Morphological, chemical, and genetic aspects of development are treated in discussions of morphogenetic movements, cell differentiation, and organogenesis. (Lec. 2) Pre: 316 or 320 or equivalent; BOT 352 recommended. Bibb, Goertemiller, Hufnagel, Wilde

531 Advanced Parasitology Seminar (II, 2) Advanced topics in the host-parasite relationships of protozoan and metazoan parasites. Reading knowledge of one foreign language assumed. Topics vary from year to year. (Lec. 2) Pre: 331 or equivalent. Hyland

541, 542 Comparative Physiology (I and II, 3 each) Comparison of physiological mechanisms by which animals maintain life, emphasis on marine invertebrates. (Lec. 2, Lab. 3) Pre: 345 and 354. 541 is not prerequisite for 542. 541: Responses to external environment mediated by receptors, nervous systems, effectors. Living control systems for muscular activity and circulation. Hill. 542: Processes related to maintenance of internal

include systematics, evolution, physiology, ecology and behavior. Discussion of current topics in ornithology. (Lec. 2) Pre: 466 or permission of instructor. Heppner

F77

666 Physiological Ecology (I, 3) Comparative study of physiological adjustments which animals make in response to environmental factors, with emphasis on the physiological basis of animal distribution and evolution. (Lec. 3) Pre: one year of physiology and a course in ecology. Chipman

573 Developmental Genetics (II, 3) Genetic control of gametogenesis and fertilization. Survey of modern approaches to the problem of gene regulation during embryogenesis with animal systems. (Lec. 3) Pre: BOT 352 or ASC 352 or equivalent and permission of instructor. Surver

670 to 675 Advanced Ecology Seminars (I and II, 2 each) Specialized and advanced areas of ecological research and theory, including zoogeography, pleistocene ecology, population dynamics, energy flow in ecosystems and radiation ecology. Pre: 463 and permission of department. Shoop, Hairston and Staff
 671-F72, 672-F73, 675-F77
679 Animal Communication
 See Oceanography 679.

576 Ecological Genetics (II, 4) Hereditary structure of populations, population strategy in heterogeneous environment, species area-diversity patterns, strategy of colonization, stepping stones and biotic exchange. (Lec. 3, Lab. 3) Pre: one semester of genetics. Costantino

691, 692 Assigned Work (I and II, 1-3 each) Subject matter adapted to meet needs of student. May be arranged with any member of the staff, with the permission of the head of the department. (Lec. 3 or Lab. 6) Staff

579 (or BOT 579) Advanced Genetics Seminar (I and II, 1) Current topics in genetics, including cytological, ecological, molecular, physiological, population, quantitative and radiation genetics. (Lec. 1) Pre: BOT 352 or ASC 352 and permission of instructor. Costantino and Mottinger

693, 694 Zoological Problems (I and II, 1-3 each) Special work to meet needs of individual students who are prepared to undertake special problems. (Lec. 1-3 or Lab. 2-6) Pre: permission of department chairman. Staff

581 General Acarology (I, 3) Detailed study of mites and ticks, their structure, life histories, and classification. Free-living forms as well as plant and animal feeders. (Lab. 6) Pre: 331 or 481 or 586, and permission of instructor. In alternate years, next offered 1979-80. Hyland

699 Doctoral Dissertation Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

586 Medical and Veterinary Entomology (II, 3) Life histories, classifications, habits and control of insects and other arthropods which affect the health of man and animals. Duties of the entomologist on public health team, including field practice in methods of insect surveys, control measures and subsequent surveys to determine success of control measures. (Lec. 1, Lab. 4) Pre: 331 or 381 or equivalent. In alternate years, next offered 1980-81. Hyland

595, 596 Graduate Seminar in Zoology (I and II, 1 each) Consideration of philosophy and techniques of research and information presentation at the graduate level. Reports by students, critique and discussion by class. Pre: graduate standing. S/U credit. Chipman

599 Masters Thesis Research (I and II) Number of credits is determined each semester in consultation with the major professor or program committee.

641-F78 645-574
 642-577
 673-573

640 to 645 Seminar in Physiology (I and II, 1-3 each) Reports and discussions on topics of current research in physiology. Subject matter adapted to meet interests of staff and students. (Lec. 1-3) Pre: 345. Hill and Staff

646 Advanced Mammalian Physiology (II, 2) Reports and discussions on topics of current research in mammalian physiology, coordinated with 442. Assigned research projects using advanced physiological techniques and instrumentation. (Lec. 1, Lab. 3) Pre: concurrent enrollment in 442 or permission of instructor. Hill

648, 649 Seminar in Environmental Physiology (I and II, 2 each) Reading, library research, special lectures on topics of current research interest in environmental physiology. (Lec. 2) Pre: one year of physiology, and at least one course in ecology or permission of department. Staff

664 Seminar in Ichthyology (II, 2) Reading, library research, reports and class discussion on problems of current research interest in the biology of fishes. (Lec. 2) Pre: 563 or permission of department. In alternate years, next offered 1980-81. Krueger

Graduate Faculty

First date after title indicates appointment to present position; the second date, when the first fails to do so, indicates first appointment in the University.

Abell, Paul Irving, *Professor of Chemistry, 1964, 1951. B.S., 1948, University of New Hampshire; Ph.D., 1951, University of Wisconsin.*
 Abusamra, Ward, *Professor of Music, 1975, 1952. B.S., 1950, M.A., 1951, Columbia University.*
 Abushanab, Elie, *Associate Professor of Medicinal Chemistry, 1973, 1970. B.S., 1960, American University of Beirut; M.S., 1962, Ph.D., 1965, University of Wisconsin.*
 Ageloff, Roy, *Associate Professor of Management Science, 1977, 1972. B.S., 1965, University of New York*

- at Buffalo; M.B.A., 1967, University of Connecticut; Ph.D., 1975, University of Massachusetts.
- Albert, Luke S., Professor of Botany, 1970, 1960. B.S., 1950, Lebanon Valley College; M.S., 1952, Ph.D., 1958, Rutgers — The State University.
- Alexander, Lewis M., Professor of Geography, 1960. A.B., 1942, Middlebury College; M.A., 1948, Ph.D., 1949, Clark University.
- Allen, Anthony J., Associate Professor of Education, 1978, 1969. B.S., 1960, Loyola University; M.Ed., 1967, Ph.D., 1970, Boston College.
- Allen, William R., Associate Professor of Management, 1977, 1973. B.S., 1960, U.S. Coast Guard Academy; M.B.A., 1971, Ph.D., 1975, University of Florida.
- Allred, Hilda, Assistant Professor of Business Education and Office Administration, 1974. B.A., 1966, M.Ed., 1969, Southeastern Louisiana University; Ed.D., 1974, Louisiana State University.
- Alton, Aaron John, Professor of Marketing, 1961. A.B., 1942, Miami University, Ohio; M.B.A., 1947, Harvard Business School; Ph.D., 1956, Ohio State University.
- Anderson, Judith L., Associate Professor of Speech Communication, 1975, 1970. B.A., 1962, M.A., 1963, University of Kansas; Ph.D., 1970, Indiana University.
- Arakelian, Paul G., Assistant Professor of English, 1976. B.A., 1969, California State University, Los Angeles; Ph.D., 1975 Indiana University.
- Armstrong, Charles P., Associate Professor of Management Science, 1976, 1971. B.S., 1961, M.B.A., 1965, University of Illinois; Ph.D., 1973, University of Arizona.
- Bailey, Richard E., Associate Professor of Speech Communication, 1972, 1967. B.A., 1951, Otterbein College; M.A., 1954, United Theological Seminary; M.A., 1964, Ph.D., 1968, Ohio State University.
- Barker, Walter L., Associate Professor of English, 1973, 1966. B.A., 1960, M.A., 1962, University of Rhode Island; Ph.D., 1966, University of Connecticut.
- Barnett, Harold, Associate Professor of Economics, 1979, 1970. B.A., 1965, Miami University, Ohio; Ph.D., 1973, Massachusetts Institute of Technology.
- Barnett, Stanley M., Associate Professor of Chemical Engineering, and Food Science and Technology, 1975, 1969. B.A., 1957, Columbia College; B.S., 1958, Columbia University; M.S., 1959, Lehigh University; Ph.D., 1963, University of Pennsylvania.
- Barron, Robert Alfred, Assistant Professor of Mathematics, 1956. A.B., 1951, Princeton University; M.A., 1955, Fordham University.
- Bass, Leonard J., Associate Professor of Computer Science, 1975, 1970. B.A., 1964, M.A. 1966, University of California, Riverside; Ph.D., 1970, Purdue University.
- Bassis, Michael S., Associate Professor of Sociology, 1977, 1971. A.B., 1967, Brown University; M.A., 1968, Ph.D., 1974, University of Chicago.
- Beaupre, Walter J., Professor of Speech Communication, 1968. A.B., 1947, Bates College; M.A., 1951, Lehigh University; Ph.D., 1962, Columbia University.
- Beauregard, Raymond A., Associate Professor of Mathematics, 1973, 1968. A.B., 1964, Providence College; M.S., 1966, Ph.D., 1968, University of New Hampshire.
- Beckman, Carl Harry, Professor of Plant Pathology-Entomology and Botany, 1969, 1963. B.S., 1947, University of Rhode Island; Ph.D., 1953, University of Wisconsin.
- Bell, Robert G., Professor of Biochemistry and Biophysics, 1979, 1971. A.B., 1959, Bradley University; Ph.D., 1964, St. Louis University, School of Medicine.
- Bender, Michael L., Associate Professor of Oceanography, 1977, 1972. B.S., 1965, Carnegie Institute of Technology; Ph.D., 1970, Columbia University.
- Benesch, Marlene, Assistant Professor of German, 1979. B.A., 1961, University of Rochester; M.A., 1962, Middlebury College; Ph.D., 1979, Brown University.
- Bergan, James G., Associate Professor of Food Science and Nutrition, 1975, 1971. B.S., 1966, Ph.D., 1970, University of Illinois.
- Bergen, Daniel P., Professor of Library Science, 1975, 1970. A.B., 1957, University of Notre Dame; A.M., 1961, University of Chicago; M.A., 1962, University of Notre Dame; M.A., 1968, Ph.D., 1970, University of Minnesota.
- Berger, Stanley I., Professor of Psychology, 1965, 1963. B.A., 1950, Brooklyn College; M.A., 1955, Ph.D., 1957, University of Kansas.
- Berman, Allan, Professor of Psychology, 1976, 1968. B.A., 1962, University of Massachusetts; M.Ed., 1963, Boston University; Ph.D., 1968, Louisiana State University.
- Bibb, Harold D., Associate Professor of Zoology, 1973, 1972. B.A., 1962, Knox College; M.S., 1964, Ph.D., 1969, University of Iowa.
- Biller, Henry B., Professor of Psychology, 1975, 1970. A.B., 1962, Brown University; Ph.D., 1967, Duke University.
- Birk, John R., Associate Professor of Electrical Engineering, 1976, 1970. B.E., 1966, The Cooper Union; M.S., 1968, Ph.D., 1970, University of Connecticut.
- Blackman, Nancy, Assistant Professor of Human Development, Counseling and Family Studies, 1977. B.A., 1953, Wilson College, M.A., 1954, Haverford College; M.A., 1957, Columbia University; Ph.D., 1976, University of Maryland.
- Blood, Linda L., Assistant Professor of Human Development, Counseling and Family Studies, 1968, 1965. B.S., 1962, University of Maine; M.S., 1965, Oklahoma State University.
- Bloomquist, Lorraine C., Associate Professor of Physical Education, 1977, 1967. B.S., 1966, M.S., 1968, University of Rhode Island; Ed.D., 1974, Boston University.
- Bohnert, Lea M., Assistant Professor of Library Science, 1970. B.A., 1942, M.A., 1947, University of Chicago.
- Bockstael, Nancy E., Assistant Professor of Resource Economics, 1976. A.B., 1971, Connecticut College; M.A., 1973, Brown University; Ph.D., 1976, University of Rhode Island.
- Bond, Howard W., Professor of Medicinal Chemistry, Emeritus, 1976, 1966. B.S., 1936, University of Arkansas; M.S., 1938, Ph.D., 1941, University of Illinois.
- Bonner, Jill C., Associate Professor of Physics, 1977, 1976. B.S., 1959, Ph.D., 1968, King's College, University of London.
- Booth, G. Geoffrey, Director of Research Center in Business and Economics and Professor of Finance, 1979, 1970. B.B.A., 1964, M.B.A., 1966, Ohio University; Ph.D., 1971, University of Michigan.
- Boothroyd, Jon C., Assistant Professor of Geology, 1975. B.A., 1962, University of New Hampshire; M.S., 1972, University of Massachusetts; Ph.D., 1974, University of South Carolina.

- Boucher, Rita J., R.N., Assistant Dean of the College of Nursing and Associate Professor of Nursing, 1977. B.S., 1956, Salve Regina College; M.S., 1971, C.A.G.S., 1963, Ed.D., 1970, Boston University.
- Bracken, Robert M., Assistant Professor of Accounting, 1976. B.S., 1963, Waynesburg College; M.B.A., 1968, Pennsylvania State University.
- Bradbury, Donald, Professor of Mechanical Engineering and Applied Mechanics, 1953, 1950. B.S., 1939, Tufts College; M.S., 1940, S.D., 1950, Harvard University.
- Brainard, Calvin H., Professor of Finance and Insurance, 1961, 1953. A.B., 1935, Columbia University; M.B.A., 1948, Ph.D., 1951, New York University.
- Brandon, Charles H., Associate Professor of Accounting, 1976, 1973. B.S., 1967, M.S., 1968, Florida State University; Ph.D., 1972, University of Georgia; C.P.A.
- Briggs, Josiah Morton, Professor of History, 1975, 1969. A.B., 1951, Dartmouth College; A.M., 1957, Ph.D., 1962, Columbia University.
- Bristow, Page S., Assistant Professor of Education, 1978. B.A., 1967, Queens College; M.S., 1971, Ed.S., 1974, Indiana University; Ph.D., 1978, University of Georgia.
- Brittingham, Barbara, Associate Professor of Education, 1977, 1973. B.S., 1967, M.S., 1969, Ph.D., 1973, Iowa State University.
- Brown, Burton G., Jr., Assistant Professor of History in the Division of University Extension, 1971, 1967. B.A., 1956, Northeastern University; M.A., 1961, University of Rhode Island; Ph.D., 1973, Boston University.
- Brown, Christopher W., Professor of Chemistry, 1976, 1968. B.S., 1960, M.S., 1962, Xavier University; Ph.D., 1967, University of Minnesota.
- Brown, George A., Professor of Mechanical Engineering and Applied Mechanics, 1966. S.B., S.M., 1952, Sc.D., 1960, Massachusetts Institute of Technology.
- Brown, James Henry, Jr., Associate Professor of Forest and Wildlife Management, 1969, 1958. B.S., 1956, University of Connecticut; M.S., 1958, University of Rhode Island; D.F., 1965, Duke University.
- Brown, Phyllis R., Associate Professor of Chemistry, 1977, 1973. B.S., 1944, George Washington University; Ph.D., 1968, Brown University.
- Brown, Phyllis Tucker, Associate Professor of Nutrition, 1976, 1950. B.A., 1945, Wheaton College; M.S., 1955, University of Rhode Island.
- Brown, Robert S., Special Lecturer in Animal Pathology, 1977, 1976. B.S., 1970, University of Maryland; Sc.D., 1975, Johns Hopkins University.
- Bryan, Anthony T., Associate Professor of History, 1974, 1969. B.A., 1964, M.A., 1967, Ph.D., 1970, University of Nebraska.
- Budnick, Frank S., Associate Professor of Management Science, 1976, 1971. B.S., 1966, Rutgers—The State University; M.B.A., 1968, D.B.A., 1973, University of Maryland.
- Bullock, Robert Craig, Associate Professor of Zoology, 1978, 1974. B.S., 1966, Gordon College; M.S., 1968, University of Maine; A.M., 1970, Ph.D., 1972, Harvard University.
- Bumpus, Marguerite, Associate Professor of Education, 1974, 1969. B.S., 1950, Fitchburg State College; M.Ed., 1965, C.A.G.S., 1966, Ed.D., 1969, University of Massachusetts.
- Burke, Sally F., Assistant Professor of English in the Division of University Extension, 1972, 1967. B.A., 1960, M.A., 1967, University of Rhode Island; Ph.D., 1978, University of Connecticut.
- Burns, Donald B., Associate Professor of Music, 1969, 1960. B.M., 1949, Indiana University; M.A., 1960, Ball State Teachers College.
- Cabelli, Victor J., Professor of Microbiology, 1979. A.B., 1948, Ph.D., 1951, University of California, Los Angeles.
- Cain, J. Allan, Professor of Geology, 1971, 1966. B.Sc., 1958, University of Durham; M.S., 1960, Ph.D., 1962, Northwestern University.
- Cain, Leila Scelonge, Professor of Psychology, 1976, 1966. B.A., 1957, DePauw University; M.A., 1959, Northwestern University; M.S., 1963, Ph.D., 1964, Western Reserve University.
- Cairns, Scott N., Assistant Professor of Accounting, 1978. B.S., 1971, M.S., 1973, Pennsylvania State University.
- Calabro, Hilda A., Associate Professor of Education, 1973, 1967. A.B., 1945, Pembroke College; M.A., 1950, Brown University; Ph.D., 1965, Boston College.
- Caldwell, Marjorie J., Assistant Professor of Nutrition, 1972. B.S., 1960, University of Washington; M.S., 1963, Ph.D., 1972, Cornell University.
- Caldwell, Roderick P.C., Professor of Mathematics, 1979, 1962. A.B., 1953, Harvard University; M.A., 1955, Ph.D., 1962, University of Illinois.
- Callaghan, Dennis W., Associate Professor of Management, 1978, 1975. B.S., 1969, Purdue University; M.S., 1972, University of Wyoming; Ph.D., 1975, University of Massachusetts.
- Cameron, Francis X., Associate Professor of Master of Marine Affairs Program, 1978, 1972. B.A., 1968, J.D., 1971, University of Pittsburgh; M.M.A., 1972, University of Rhode Island.
- Campbell, Henry, Professor of Civil and Environmental Engineering, Emeritus, 1953, 1946. B.S., 1938, Northeastern University; S.M., 1940, Harvard Graduate School of Engineering.
- Campbell, Josie P., Associate Professor of English, Division of University Extension, 1977, 1972. B.A., 1965, Dickinson College; M.S., 1968, University of Rhode Island; Ph.D., 1972, Pennsylvania State University.
- Campbell, Norman A., Professor of Pharmacy Administration, 1976, 1970. B.S., 1957, Rhode Island College of Pharmacy; M.B.A., 1961, University of Wisconsin; J.D., 1968, New England School of Law; Ph.D., 1972, University of Wisconsin, Madison.
- Cane, Walter, Associate Professor of English, Division of University Extension, 1974, 1967. B.A., 1950, Stetson University; M.A., 1963, Ph.D., 1966, Vanderbilt University.
- Capasso, Henry, Professor of Italian, 1968, 1945. A.B., 1938; A.M., 1946, Brown University; D.M.L., 1960, Middlebury College.
- Carney, Edward J., Professor of Computer Science and Statistics, 1974, 1967. A.B., 1951, M.S., 1958, University of Rochester; Ph.D., 1967, Iowa State University.
- Caroselli, Nestor Edgar, Professor of Botany, Emeritus, 1977, 1954. B.S., 1937, M.S., 1940, University of Rhode Island; Ph.D., 1954, Brown University.
- Carpenter, Philip L., Professor of Microbiology, Emeritus, 1975, 1942. B.S., 1933, Middlebury Col-

- lege; Sc.M., 1934, Brown University; Ph.D., 1937, University of Wisconsin.
- Carpenter, Virginia V., *Professor of Textiles and Clothing*, 1964, 1949. A.B., 1941, Fairmont State Teachers College; M.S., 1948, Cornell University; Ph.D., 1963, Iowa State University.
- Carrano, Frank M., *Associate Professor of Computer Science*, 1975, 1969. B.A., 1964, Harpur College; M.S., 1966, Ph.D., 1969, Syracuse University.
- Carroll, Leo, *Associate Professor of Sociology*, 1977, 1972. A.B., 1963, Providence College; M.A., 1964, Fordham University; Ph.D., 1974, Brown University.
- Carroll, Paul T., *Assistant Professor of Pharmacology and Toxicology*, 1976. A.B., 1966, University of California, Berkeley; M.A., 1969, San Jose State College; Ph.D., 1973, University of Maryland.
- Casagrande, Richard A., *Assistant Professor of Plant Pathology-Entomology*, 1976. B.S., 1969, Rutgers—The State University; M.S., 1972, Ph.D., 1975, Michigan State University.
- Cashdollar, Stanford E., *Associate Professor of Classics*, 1974, 1967. B.A., 1962, University of Tennessee; M.A., 1964, Ph.D., 1969, University of Illinois.
- Castro, Concepcion Y., R.N., *Associate Professor of Nursing*, 1977, 1969. Diploma in Nursing, 1948, University of the Philippines; B.S., 1954, University of Texas; M.S., 1959, University of Colorado.
- Ceo, Joseph S., *Associate Professor of Music*, 1976. B.A., 1954, Carnegie-Mellon University; M.S., 1956, University of Illinois; D.M.A., 1976, Catholic University of America.
- Chang, Pei Wen, *Professor of Animal Pathology*, 1966, 1955. D.V.M., 1951, Michigan State College; M.S., 1960, University of Rhode Island; Ph.D., 1965, Yale University.
- Chartier, Armand B., *Assistant Professor of French*, 1971. A.B., 1959, Assumption College; M.A., 1968, Ph.D., 1970, University of Massachusetts, Amherst.
- Cheer, Claire J., *Associate Professor of Chemistry* 1973, 1968. B.A., 1959, Kenyon College; Ph.D., 1964, Wayne State University.
- Chichester, Clinton O., *Professor of Food Science and Technology* 1970. B.S., 1949, Massachusetts Institute of Technology; M.S., 1951, Ph.D., 1954, University of California.
- Chipman, Robert Kenneth, *Professor of Zoology*, 1968. A.B., 1953, Amherst College; M.S., 1958, Ph.D., 1963, Tulane University.
- Choudry, Amar, *Associate Professor of Physics*, 1974, 1967. B.Sc., 1956, M.Sc., 1958, Delhi University; Ph.D., 1967, Columbia University.
- Coates, Norman, *Professor of Management*, 1971. B.A., 1957, Sir George Williams University; M.S., 1959, Ph.D., 1967, Cornell University.
- Cobb, J. Stanley, *Associate Professor of Zoology*, 1975, 1970. B.A., 1964, Harvard University; Ph.D., 1969, University of Rhode Island.
- Cohen, Greta L., *Associate Professor of Physical Education*, 1975, 1966. B.S., 1964, Sargent College, Boston University; M.Ed., 1966, Temple University.
- Cohen, Joel A., *Professor of History*, 1979, 1965. B.A., 1960, University of Rhode Island; M.A., 1962, Ph.D., 1967, University of Connecticut.
- Cohen, Paul Sidney, *Professor of Microbiology*, 1975, 1966. A.B., 1960, Brandeis University; A.M., 1962, Ph.D., 1964, Boston University.
- Cohen, Stewart, *Professor of Human Development, Counseling and Family Studies*, 1978, 1972. B.A., 1961, The City College of New York; M.S., 1963, University of Oklahoma; Ph.D., 1967, Purdue University.
- Collyer, Charles E., *Assistant Professor of Psychology*, 1976. B.A., 1971, McMaster University; M.A., 1974, Ph.D., 1975, Princeton University.
- Comerford, Robert A., *Associate Professor of Management*, 1979, 1975. B.A., 1970, M.B.A., 1972, Ph.D., 1976, University of Massachusetts.
- Constantinides, Spiros M., *Professor of Food Science and Technology and Biochemistry*, 1974, 1968. B.S., 1957, University of Thessaloniki, Greece; M.S., 1963, Ph.D., 1966, Michigan State University.
- Conta, Lewis D., *Professor of Mechanical Engineering*, 1969. B.S., 1934, M.S., 1935, University of Rochester; Ph.D., 1942, Cornell University.
- Cooper, Constance E., *Assistant Professor of Human Development, Counseling and Family Studies*, 1973. B.S., 1946, University of Maine, M.S., 1950, Cornell University.
- Cornillon, Peter C., *Assistant Professor of Ocean Engineering*, 1976. B.S., 1968, Ph.D., 1973, Cornell University.
- Costantino, Robert F., *Professor of Zoology*, 1978, 1972. B.S., 1963, University of New Hampshire; M.S., 1965, Ph.D., 1967, Purdue University.
- Costigliola, Frank, *Associate Professor of History*, 1978, 1972. B.A., 1968, Hamilton College; M.A., 1971, Ph.D., 1973, Cornell University.
- Croasdale, William, *Associate Professor of Education*, 1970, 1965. B.S., 1959, University of Rhode Island; M.S., 1962, University of Pennsylvania; Ed.D., 1966, Teachers College, Columbia University.
- Crooker, Jeannette E., *Associate Professor of Physical Education*, 1967, 1955. B.S., 1953, University of New Hampshire; M.S., 1959, University of Rhode Island.
- Cruickshank, Alexander Middleton, *Professor of Chemistry*, 1969, 1953. B.S., 1943; M.S., 1945, University of Rhode Island; Ph.D., 1954, University of Massachusetts.
- Cuddy, Lois, *Assistant Professor of English*, 1978. Ed.B., 1956, Rhode Island College; M.A., 1969, University of Rhode Island; Ph.D., 1975, Brown University.
- Cuomo, Frank William, *Associate Professor of Physics*, 1975, 1959. B.S., 1959, M.S., 1961, University of Rhode Island.
- Curtiss, Frederick R., *Assistant Professor of Pharmacy Administration*, 1977. B. Pharm., 1974, Washington State University; M.S., 1976; Ph.D., 1977, University of Minnesota.
- Cushman, Mitchell, *Associate Professor of Community Planning*, 1978. B.A., 1959, Claremont Men's College; M.S., 1968, University of Southern California; Ph.D., 1973, University of Washington.
- Dain, Joel A., *Professor of Biochemistry*, 1973, 1962. B.S., 1953, University of Illinois; Ph.D., 1957, Cornell University.
- Dally, James W., *Dean of the College of Engineering, Director of the Division of Engineering Research and Development and Professor of Mechanical Engineering and Applied Mechanics*, 1979. B.S., 1951, M.S., 1953, Carnegie Institute of Technology; Ph.D., 1958, Illinois Institute of Technology.
- Daly, James Caffrey, *Associate Professor of Electrical Engineering*, 1974, 1969. B.S., 1960, University of Connecticut; M.E.E., 1962, Ph.D., 1967, Rensselaer Polytechnic Institute.
- Daniel, Charles E., Jr., *Assistant Professor of History*,

- 1968, 1967. A.B., 1951, M.A., 1957, University of Missouri; M.A., 1958, Harvard University; Ph.D., 1968, Ohio State University.
- Darnley, Frederick, Jr., Assistant Professor of Human Development, Counseling and Family Studies, 1977. A.B. 1971, Duke University; M.S., 1973; Ph.D., 1975, University of North Carolina.
- Dash, Gordon H., Jr., Associate Professor of Finance, 1979, 1974. B.A., 1968, Coe College; M.B.A., 1977, University of Colorado.
- Datseris, Philip, Assistant Professor of Mechanical Engineering and Applied Mechanics, 1977. B.S., 1973; M.S., 1974; M. Phil., 1976; Ph.D., 1977, Columbia University.
- Datta, Dilip K., Associate Professor of Mathematics, 1973, 1967. B.A., 1958, Gauhati University; M.A., 1960, Ph.D., 1963, Delhi University.
- DeFanti, David Rockwell, Professor of Pharmacology, 1973, 1961. A.B., 1955, Colgate University; M.S., 1957, Ph.D., 1962, University of Rhode Island.
- DeFeo, John Joseph, Professor of Pharmacology, 1965, 1957. B.S., 1951, University of Connecticut; M.S., 1953, Ph.D., 1954, Purdue University.
- Della Bitta, Albert J., Associate Professor of Marketing, 1975, 1971. B.S., 1964, University of Connecticut; M.B.A., 1966, Ph.D., 1971, University of Massachusetts.
- deLodzia, George, Professor of Management 1975, 1970. B.A., 1956, College of the City of New York; M.S., 1963, Ph.D., 1969, Syracuse University.
- DelSanto, Frank, Associate Professor of Health and Physical Education, 1976, 1965. B.S., 1952, Ed.M., 1957, Ed.D., 1976, Boston University.
- DeLuise, Frank, Professor of Mechanical Engineering and Applied Mechanics, 1979, 1950. B.S., 1948, M.S., 1950, University of Rhode Island.
- Demitroff, John F., Registrar, 1975. B.A., 1951, Iowa State Teachers College; M.A., 1959, University of Iowa.
- Dempsey, John David, Associate Professor of Music, 1976, 1973. B.M., 1963, Baldwin-Wallace College; M.M., 1964, Eastman School of Music, University of Rochester.
- Desjardins, John Scott, Professor of Physics, 1976, 1960. B.A., 1947, St. John's College; M.A., 1951, Ph.D., 1959, Columbia University.
- Detrick, Robert S., Jr., Assistant Professor of Oceanography, 1979. B.S., 1971, Lehigh University; M.S., 1974, Scripps Institution of Oceanography; Ph.D., 1978, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution.
- DiBiasio, Marie C., Assistant Professor of Education, 1978, 1977. B.S., 1961, M.A., 1968, University of Rhode Island; Ph.D., 1978, Boston University.
- Dietz, Frank Tobias, Professor of Physics, 1964, 1954. B.S., 1942, Bates College; M.A., 1946, Wesleyan University; Ph.D., 1951, Pennsylvania State University.
- Dillavou, George J., Professor of Speech Communication, 1971. B.A., 1946, University of Illinois; M.A., 1951, Columbia University; Ph.D., 1970, University of Chicago.
- Dirlam, Joel B., Professor of Economics and Resource Economics, 1964. A.B., 1936, Ph.D., 1947, Yale University.
- Donnelly, Dorothy F., Associate Professor of English, Division of University Extension, 1979, 1965. B.A., 1963, University of Rhode Island; A.M., 1965, Brown University; Ph.D., 1979, Brandeis University.
- Donovan, Gerald A., Dean of the College of Resource Development, Director of the Agricultural Experiment Station, Director of the Cooperative Extension Service, and Professor of Animal Science, 1973. B.A., 1950, M.S., 1952, University of Connecticut; Ph.D., 1955, Iowa State University.
- Dornberg, Otto, Associate Professor of German, 1973, 1963. A.B., 1956, A.M., 1958, Ph.D., 1966, Ohio State University.
- Dowdell, Rodger B., Professor of Mechanical Engineering and Applied Mechanics, 1971, 1966. B.E., 1945, Yale University; Sc.M., 1952, Brown University; Ph.D., 1966, Colorado State University.
- Driver, Rodney D., Professor of Mathematics, 1974, 1969. B.S., 1953, M.S., 1955, Ph.D., 1960, University of Minnesota.
- Duce, Robert A., Professor of Oceanography, 1973, 1970. B.A., 1957, Baylor University; Ph.D., 1964, Massachusetts Institute of Technology.
- Duff, Dale Thomas, Associate Professor of Plant and Soil Science, 1975, 1967. B.S., 1957, M.S., 1964, Ohio State University; Ph.D., 1967, Michigan State University.
- Durfee, Wayne King, Professor of Animal Science, 1978, 1951. B.S., 1950, M.S., 1953, University of Rhode Island; Ph.D., 1963, Rutgers—The State University.
- Dvorak, Charles F., Associate Dean of the College of Resource Development, Associate Director of the Cooperative Extension Service and Professor of Resource Development Education, 1977. B.S., 1962, M.S., 1964, University of Connecticut; Ph.D., 1975, Cornell University.
- Dvorak, Wilfred P., Assistant Professor of English, Division of University Extension, 1972, 1968. B.A., 1962, Loras College; M.A., 1964, Kansas State University; Ph.D., 1972, Indiana University.
- Dymsza, Henry A., Professor of Food Sciences and Nutrition, 1970, 1966. B.S., 1943, Pennsylvania State University; M.S., 1950, University of Wisconsin; Ph.D., 1954, Pennsylvania State University.
- Edwards, Richard A., Director of Admissions, 1978. B.S., 1960, Hanover College; M.Ed., 1963, Ohio University; Ph.D., 1970, Purdue University.
- England, Ralph W., Jr., Professor of Sociology, 1964, 1960. B.A., 1941, University of Michigan; M.A., 1947, Ph.D., 1954, University of Pennsylvania.
- Englander, Larry, Assistant Professor of Plant Pathology-Entomology, 1972. B.S., 1964, Pennsylvania State University; M.S., 1967, Cornell University; Ph.D., 1973, Oregon State University.
- Eshleman, Ruth E., Associate Professor of Nutrition, 1976. B.S., 1955, Pennsylvania State University; Ed.M., 1957, Tufts University; Ed.D., 1975, Columbia University Teachers College.
- Evans, David, Assistant Professor of Oceanography, 1978. B.A., 1968, University of Pennsylvania; Ph.D., 1975, University of Rhode Island.
- Fang, Pen Jeng, Associate Professor of Civil and Environmental Engineering, 1975, 1970. B.S., 1955, National Taiwan University; M.S., 1960, Oklahoma State University; Ph.D., 1966, Cornell University.
- Farish, Donald J., Assistant Dean, College of Arts and Sciences and Adjunct Professor of Zoology, 1979. B.S., 1963, University of British Columbia; M.S., 1965, North Carolina State University; Ph.D., 1969, Harvard University; J.D., 1976, University of Missouri.
- Farstrup, Alan, E., Assistant Professor of Education, 1977. B.A., 1965, University of Iowa; Teaching Cer-

- tificate, 1968, University of California; Ph.D., 1976, University of Michigan.
- Fasching, James L., *Professor of Chemistry*, 1979, 1969. B.S., 1964, North Dakota State University; S.M., 1967, Ph.D., 1970, Massachusetts Institute of Technology.
- Feather, Roberta Brown, *Assistant Professor of Nursing*, 1974, 1973. B.S., 1963, M.S., 1965, University of North Carolina.
- Felbeck, George T., Jr., *Professor of Soil Science*, 1970, 1964. B.S., 1949, Massachusetts Institute of Technology; M.S., 1955, Ph.D., 1957, Pennsylvania State University.
- Feld, Marcia, *Associate Professor of Community Planning*, 1975. B.A., 1956, Brooklyn College, CUNY; M.C.P., 1959, University of Pennsylvania; Ph.D., 1973, Harvard University.
- Feldman, Sylvia D., *Affirmative Action Officer and Adjunct Professor of English*, 1977, 1976. B.A., 1957, George Washington University; M.A., 1960; Ph.D., 1965, Stanford University.
- Ferrante, William Robert, *Vice President for Academic Affairs and Professor of Mechanical Engineering and Applied Mechanics*, 1972, 1956. B.S., 1949, University of Rhode Island; M.S., 1955, Brown University; Ph.D., 1962, Virginia Polytechnic Institute.
- Findlay, James F., Jr., *Professor of History*, 1971. A.B., 1952, Drury College; M.A., 1954, Washington University, St. Louis; Ph.D., 1961, Northwestern University.
- Finizio, Norman J., *Associate Professor of Mathematics*, 1975, 1963. B.S., 1960, M.S., 1962, University of Rhode Island; Ph.D., 1972, Courant Institute of Mathematical Sciences, New York University.
- Fisher, Harold W., *Professor of Biophysics, Biochemistry, and Microbiology*, 1968, 1963. B.S., 1951; M.S., 1953, University of Michigan; Ph.D., 1959, University of Colorado.
- Fisher, John J., *Professor of Geology*, 1979, 1964. A.B. 1958, Rutgers — The State University; M.S., 1962, Ph.D., 1967, University of North Carolina.
- Fitzelle, George Thornton, *Professor of Human Development, Counseling and Family Studies*, 1969, 1959. A.B., 1947, University of Rochester; M.A., 1948, Harvard Graduate School of Education; Ph.D., 1952, Cornell University.
- Fitzgerald, John F., Jr., *Associate Professor of Finance and Insurance*, 1974, 1971. B.S., 1961, M.B.A., 1964, Northeastern University; Ph.D., 1971, University of Wisconsin; C.L.U., C.P.C.U.
- FitzSimons, Ruth M., *Professor of Speech Communication*, 1972, 1969. B.Ed., 1940, Rhode Island College; M.Ed., 1951; D.Ed., 1955, Boston University.
- Forcé, R. Kenneth, *Assistant Professor of Chemistry*, 1975. B.S., 1970; Ph.D., 1974, University of Nebraska.
- Foresman, Kerry R., *Assistant Professor of Zoology*, 1979. B.S. 1971, University of Montana; M.S., 1973, Ph.D., 1977, University of Idaho.
- Foster, Howard H., Jr., *Associate Professor of Community Planning*, 1973, 1963. B.A., 1959, Harvard University; M.C.P., 1963, Yale University; Ph.D., 1970, Cornell University.
- Fraleigh, John Blackmon, *Professor of Mathematics*, 1978, 1962. B.A., 1952, University of Vermont; M.A., 1956, Princeton University.
- Freeman, David Hugh, *Professor of Philosophy*, 1962, 1957. B.A. 1947, Calvin College; M.A., 1952, Ph.D., 1958, University of Pennsylvania.
- Freeman, David L., *Assistant Professor of Chemistry*, 1976. B.S., 1967, University of California, Berkeley; Ph.D., 1972, Harvard University.
- French, Doran, *Instructor in Psychology*, 1979. B.A., 1973, University of California, Berkeley.
- Frohlich, Reinhard K., *Associate Professor of Geology*, 1979, 1973. B.S.C., 1959, University of Bonn; M.S.C., 1962, University of Mainz; D.I.C., 1963, Imperial College, London; Ph.D., 1966, University of Clausthal-Zellerfeld.
- Fuchs, Henry Carl, *Associate Professor of Music*, 1974, 1968. B. Mus., 1960, Eastman School of Music; M.Mus., 1961, University of Michigan.
- Fuller, George C., *Professor of Pharmacology*, 1977, 1966. B.S., 1959, M.S., 1963, Wayne State University; Ph.D., 1967, Purdue University.
- Gaines, Abner J., *Special Collections and Rare Books Librarian and Associate Professor, Library*, 1971, 1963. A.B., 1944, University of Michigan; B.S.L.S., 1947, Columbia University; M.A., 1951, University of Pennsylvania.
- Gardner, Robert V., *Professor of Sociology*, 1976, 1949. B.A., 1942, Northwestern State College; M.A., 1944, State University of Iowa; Ph.D., 1959, University of Illinois.
- Garner, Grayce, R.N., *Professor of Nursing*, 1977. Diploma, 1944, Cambridge Hospital School of Nursing; B.S., 1954, M.S., 1956, Boston University; Ed.D., 1963, Columbia University-Teachers College.
- Gates, John M., *Associate Professor of Resource Economics*, 1976, 1969. B.S., 1962, McGill University; M.S., 1965, University of Connecticut; Ph.D., 1969, University of California.
- Gelles, Richard J., *Associate Professor of Sociology*, 1976, 1973. A.B., 1968, Bates College; M.A., 1970, University of Rochester; Ph.D., 1973, University of New Hampshire.
- Gersuny, Carl, *Professor of Sociology*, 1977, 1968. A.B., 1948, Columbia University; M.A., 1965, Ph.D., 1968, Western Reserve University.
- Gibbs, Geoffrey David, *Associate Professor of Music*, 1975, 1965. Mus. B., 1962, Mus. M., 1963, D.M.A. 1974, Eastman School of Music, University of Rochester.
- Giebler, Albert C., *Professor of Music*, 1972, 1957. B.M., 1946, Ft. Hays Kansas State College; M.M., 1950, Ph.D., 1957, University of Michigan.
- Gielisse, Peter J., *Professor of Materials and Chemical Engineering*, 1968. B.M., 1953, College of Maritime Engineering; M.S., 1959, Boston College; Ph.D., 1961, Ohio State University.
- Goerke, Glenn A., *Dean, Division of University Extension*, 1978. B.A., 1952, M.A., 1955, Eastern Michigan University; Ph.D., 1964, Michigan State University.
- Goertemiller, Clarence Christian, Jr., *Professor of Zoology*, 1977, 1965. Ed.B., 1959, University of Maryland; Sc.M., 1962, Ph.D., 1964, Brown University.
- Goff, Robert H., *Associate Dean of the College of Engineering and Associate Professor of Mechanical Engineering and Applied Mechanics*, 1977, 1958. B.S., 1952, Worcester Polytechnic Institute; M.S., 1956, Cornell University.
- Goldman, Mark Irving, *Professor of English*, 1970, 1958. B.A., 1949, Syracuse University; M.A., 1950, Ph.D., 1959, University of Minnesota.
- Golet, Francis C., *Associate Professor of Forest and Wildlife Management*, 1978, 1972. B.A., 1967, Brown University; M.S., 1969, Cornell University;

- Ph.D., 1973, University of Massachusetts.
- Gonzalez, Richard Donald, Professor of Chemistry, 1977, 1965. B.Ch.E., 1961, Rensselaer Polytechnic Institute; M.A., 1963, Ph.D., 1965, The Johns Hopkins University.
- Goodman, Leon, Professor of Chemistry, 1970. B.S., 1941, University of California, Berkeley; Ph.D., 1950, University of California, Los Angeles.
- Goos, Roger D., Professor of Botany, 1972, 1970. B.A., 1950, M.S., 1955, Ph.D., 1958, University of Iowa.
- Goshdigian, Mabel B., Associate Professor of Food Science and Nutrition, 1977, 1956. B.S., 1942, M.S., 1960, University of Rhode Island.
- Gough, Robert E., Assistant Professor of Plant and Soil Science, 1976. B.S., 1970, M.S., 1973, Ph.D., 1977, University of Rhode Island.
- Gould, Walter Phillip, Associate Professor of Forest and Wildlife Management, 1962, 1954. B.S., 1950, University of Massachusetts; M.F., 1951, Yale University; Ph.D., 1966, Syracuse University.
- Gray, H. Glenn, Assistant Professor of Animal Science, 1969. B.S. 1959, University of Tennessee; M.S., 1964, Ph.D., 1966, Cornell University.
- Grebstein, Lawrence C., Professor of Psychology and Director, Psychological Consultation Center. 1975, 1964. A.B., 1958, Brown University; M.A., 1961, Ph.D., 1964, University of Kentucky.
- Greene, Douglas S., Assistant Professor of Pharmacy, 1976. B.S., 1972, Rensselaer Polytechnic Institute, Ph.D., 1976, University of Connecticut.
- Greene, Helen Finch, Associate Professor of Human Development, Counseling and Family Studies, 1973, 1971. B.A., 1942, Elmira College; M.A., 1943, Teachers College, Columbia University; Ph.D., 1954, Florida State University.
- Greene, Jennifer C., Assistant Professor of Education, 1977. B.A., 1971, Wellesley College; M.A., 1972, Ph.D., 1976, Stanford University.
- Grigalunas, Thomas A., Associate Professor of Resource Economics, 1976, 1971. B.S., 1965, M.S., 1967, Northeastern University; Ph.D., 1972, University of Maryland.
- Gross, Alice D., Assistant Dean, University College, and Adjunct Assistant Professor of Education, 1978, 1972. B.A., 1961, The City University of New York; M.A., 1969, University of Illinois; M.A., 1971, University of Rhode Island; Ph.D., 1977, Boston University.
- Gross, Ira, Associate Professor of Psychology, 1974, 1967. B.A., 1956, Queens College; M.S., 1961, The City College; Ph.D., 1967, University of Illinois.
- Gross, Walter A., Assistant Cooperative Extension Professor of Animal Science, 1976. B.S., 1962, Delaware Valley College; M.S., 1964, Michigan State University.
- Grove, Edward A., Associate Professor of Mathematics, 1976, 1968. B.S., 1962, University of Arizona; Ph.D., 1969, Brown University.
- Grubman, Stephen David, Associate Dean of the Graduate School and Associate Professor of Speech Communication, 1977, 1972. B.S., 1967, M.A., 1969, Temple University; Ph.D., 1972, State University of New York, Buffalo.
- Gullason, Thomas Arthur, Professor of English, 1964, 1954. B.A., 1948, Suffolk University; M.A., 1949, Ph.D., 1953, University of Wisconsin.
- Gunning, Thomas Joseph, Associate Professor of Human Development, Counseling and Family Studies, 1973, 1961. A.B., 1950, Providence College; Ed.M., 1960, Ed.D., 1966, Boston University.
- Gutchen, Robert M., Professor of History, 1976, 1964. B.S., 1955, M.A., 1957, Ph.D., 1966, Columbia University.
- Guthrie, Stewart E., Assistant Professor of Anthropology, 1976, 1973. B.A., 1963, University of Iowa; M. Phil., 1969, Ph.D., 1976, Yale University.
- Haas, Robert Sheldon, Professor of Electrical and Ocean Engineering, 1974, 1948. B.E.E., 1948, Marquette University; M.S., 1965, Northeastern University.
- Hachadorian, Charles, Jr., Special Lecturer in Pharmacy Administration, 1973. B.S., 1955, Rhode Island College of Pharmacy; M.P.A., 1969, University of Rhode Island.
- Hagist, Warren Mellor, Professor of Mechanical Engineering and Applied Mechanics, 1977, 1951. B.S., 1948, University of Pennsylvania; M.S., 1949, M.E., 1961, Harvard University.
- Hairston, Nelson G., Jr., Assistant Professor of Zoology, 1977. B.S., 1971, University of Michigan; Ph.D., 1977, University of Washington.
- Haller, William, Jr., Professor of Economics, 1971, 1958. B.A., 1936, Amherst College; M.A., 1938, Ph.D., 1949, Columbia University.
- Halliday, Kenneth R., Assistant Professor of Mechanical Engineering and Applied Mechanics, 1979. B.S., 1973, Western New England College; M.S., 1974, Ph.D., 1977, University of Massachusetts.
- Hammen, Carl Schlee, Professor of Zoology, 1971, 1963. B.A., 1947, St. John's College; M.A., 1949, Teachers College, Columbia University; S.M., 1952, The University of Chicago; Ph.D., 1958, Duke University.
- Hammerschlag, Dieter, Professor of Urban Design, 1976, 1965. M. Arch., 1954, M.C.P., 1955, Yale University.
- Hanke, John Warren, Associate Professor of Philosophy, 1974, 1966. B.A., 1951; M.A., 1956, Gonzaga University; Ph.D., 1967, Indiana University.
- Hanumara, R. Choudary, Associate Professor of Statistics, 1975, 1968. B.A., 1956, Madras University; M.A., 1958, Gujarat University; M.S., 1962, Michigan State University; Ph.D., 1968, Florida State University.
- Hargraves, Paul E., Associate Professor of Oceanography and Botany, 1976, 1968. B.S., 1963, M.S., 1965, University of Rhode Island; Ph.D., 1968, College of William and Mary.
- Harlin, Marilyn, Associate Professor of Botany, 1976, 1971. B.A., 1956, M.A., 1957, Stanford University; Ph.D. 1971, University of Washington.
- Hartman, Karl A., Jr., Professor of Biophysics, 1976, 1967. B.S., 1958, Lehigh University; Ph.D., 1962, Massachusetts Institute of Technology.
- Hartt, Kenneth L., Associate Professor of Physics, 1966. B.A., 1952; M.S., 1955, State University of Iowa; Ph.D., 1963, University of Nebraska.
- Hatch, John Palmer, Associate Professor of Mechanical Engineering and Applied Mechanics, 1957, 1953. B.S., 1939, Duke University; M.M.E., 1949, New York University.
- Hauke, Richard Louis, Professor of Botany, 1969, 1959. B.S., 1952, University of Michigan; M.A., 1954, University of California; Ph.D., 1960, University of Michigan.
- Havens, James M., Associate Professor of Geography and State Climatologist, 1972, 1970. A.B., 1953, Middlebury College; M.S., 1956, Florida State University; M.Sc., 1962, Ph.D., 1969, University of London.

- Heidersbach, Robert H., Jr., *Associate Professor of Ocean Engineering*, 1977, 1974. Met., Eng., 1963, Colorado School of Mines; M.E., 1968, Ph.D., 1971, University of Florida.
- Heisler, Walter Christoff, *Professor of Education*, 1978, 1964. A.B., 1940, Western Michigan University; M.A., 1948, Ed.D., 1956, Michigan State University.
- Hellman, Richard, *Professor of Economics*, 1971, 1970. A.B., 1934, Ph.D., 1967, Columbia University.
- Helms, Patricia Ann, *Associate Professor of Textiles and Clothing*, 1976, 1971. B.S., 1958, Bradley University; M.S., 1970; Ph.D., 1971, Florida State University.
- Heltshe, James F., *Associate Professor of Statistics*, 1979, 1973. B.A., 1968, Millersville State College; M.S., 1970, Ph.D., 1973, Kansas State University.
- Hemmerle, William J., *Professor of Computer Science and Statistics*, 1965. B.S., 1950, University of Colorado; M.S., 1951, University of Wisconsin; Ph.D., 1963, Iowa State University.
- Henderson, Bancroft Winslow, Jr., *Associate Professor of Animal Science*, 1959, 1946. B.S., 1940, Iowa State College; M.S., 1950, University of Rhode Island.
- Hennessey, Timothy M., *Professor of Political Science*, 1978, 1976. A.B., 1962, Brown University; Ph.D., 1968, University of North Carolina.
- Heppner, Frank H., *Professor of Zoology*, 1979, 1969. B.A., 1962, University of California, Berkeley; M.A., 1964, San Francisco State College; Ph.D., 1967, University of California, Davis.
- Hermes, O. Don, *Professor of Geology*, 1978, 1968. A.B., 1961, Washington University; M.S., 1963, Ph.D., 1967, University of North Carolina.
- Higa, Misako, *Assistant Professor of Textiles, Clothing and Related Art*, 1977. A.B., 1955, Berea College; M.S., 1959, University of Tennessee; Ph.D., 1973, University of Minnesota.
- Hill, Conrad Rolph, *Associate Professor of Marketing*, 1965. B.A., 1950, University of Michigan; M.A., 1957, Stanford University; Ph.D., 1964, State University of Iowa.
- Hill, Robert B., *Professor of Zoology*, 1975, 1968. S.B., 1952, Tufts University; A.M., 1954, Ph.D., 1957, Harvard University.
- Hills, Mathilda M., *Associate Professor of English*, 1977, 1970. B.A., 1954, Radcliffe College; M.A., 1964, Ph.D., 1970, Duke University.
- Hindle, Robinson J., *Professor of Plant and Soil Science*, 1976, 1962. B.S., 1949, M.S., 1955, Ph.D., 1964, University of Rhode Island.
- Hinkson, Raymond S., Jr., *Associate Professor of Animal Science*, 1971, 1965. B.S., 1959, Colorado State University; M.S., 1961, University of New Hampshire; Ph.D., 1965, University of Maine.
- Hirsch, Janet I., R.N., *Associate Professor of Nursing*, 1971. R.N., 1952, Rhode Island Hospital; B.S., 1955, M.S., 1963, Ed.D., 1978, Boston University.
- Hoffman, Robert J., *Director, Bureau of Government Research, and Adjunct Professor of Political Science*, 1973. B.S.C.E., 1959, M.P.A., 1962, University of Pittsburgh.
- Holmes, Wendy B., *Assistant Professor of Art*, 1976, 1974. B.S., 1963, M.F.A., 1965, Pratt Institute; Ph.O., 1976, Ohio University.
- Holmsen, Andreas, *Professor of Resource Economics*, 1970, 1963. B.S., 1955, Royal Norwegian Agricultural College; Ph.D., 1960, Cornell University.
- Honhart, Michael W., *Assistant Professor of History*, 1972, 1971. B.A., 1966, Carleton College; M.A. 1968, Ph.D., 1972, Duke University.
- Horwitz, Stephen P., *Assistant Professor of Education*, 1975. B.A., 1967, M.Ed., 1973, Florida International University; Ph.D., 1976, Florida State University.
- Houston, Chester Warren, *Professor of Microbiology and Director of Medical Technology*, 1972, 1948. B.S., 1939, M.S., 1940, Ph.D., 1947, University of Illinois.
- Howard, Richard C., *Acting Director of Audiovisual Service and Assistant Professor of Education*, 1970. B.S., 1953, SUNY, Oneonta; M.A., 1964, San Francisco State College.
- Hufnagel, Linda A., *Associate Professor of Microbiology and Biophysics*, 1979, 1973. B.A., 1961, M.S., 1963, University of Vermont; Ph.D., 1967, University of Pennsylvania.
- Hull, Richard J., *Professor of Plant and Soil Science*, 1979, 1969. B.S., 1957, M.S. 1959, University of Rhode Island; Ph.D., 1964, University of California.
- Hurley, Daniel, Jr., *Assistant Professor of Psychology*, 1976. B.A., 1970, Boston College; M.A., 1975, Ph.D., 1976, University of Maryland.
- Hurley, Raymond M., *Assistant Professor of Speech Communication*, 1976. B.S., 1966, M.A., 1968, Kent State University; Ph.D., 1975, University of Michigan.
- Husband, Thomas P., *Assistant Professor of Forest and Wildlife Management*, 1977. A.B., 1972, University of Michigan-Flint; M.S., 1974, Ph.D., 1977, Michigan State University.
- Hutton, Lewis J., *Professor of Hispanic Studies*, 1973, 1966. A.B., 1942, A.M., 1946, Columbia University; M.Div., 1944, Princeton Theological Seminary; S.T.M., 1950, Union Theological Seminary of New York; A.M., 1948, Ph.D., 1950, Princeton University.
- Hyland, Jean Scammon, *Associate Professor of French*, 1968, 1964. A.B., 1948, MacMurray College; M.A., 1953, Western Reserve University; Ph.D., 1959, University of Kansas.
- Hyland, Kerwin Ellsworth, Jr., *Professor of Zoology*, 1966, 1953. B.S., 1947, Pennsylvania State University; M.S., 1949, Tulane University; Ph.D., 1953, Duke University.
- Jackson, Leland B., *Professor of Electrical Engineering*, 1979, 1974. S.B., S.M. 1963, Massachusetts Institute of Technology; Sc.D., 1970, Stevens Institute of Technology.
- Jackson, Noel, *Professor of Plant Pathology-Entomology*, 1975, 1965. B.Sc., 1953, Kings College, Newcastle, University of Durham; Ph.D., 1960, University of Durham.
- Jacobs, Dorothy, *Assistant Professor of English*, 1968. B.A., 1950, M.A., 1960, Ph.D., 1968, University of Michigan.
- Jagschitz, John A., *Associate Professor of Plant and Soil Science*, 1975, 1956. B.S., 1952, University of Rhode Island; M.S., 1954, Cornell University.
- James, Charles F., Jr., *Professor of Industrial Engineering*, 1969, 1967. B.S., 1958, M.S., 1960, Ph.D., 1963, Purdue University.
- Jaron, Dov, *Professor of Electrical Engineering*, 1977, 1973. B.S., 1961, University of Denver; Ph.D., 1967, University of Pennsylvania.
- Jarrett, Jeffrey E., *Professor of Management Science*, 1974, 1971. B.B.A., 1962, University of Michigan; M.B.A., 1963, Ph.D., 1967, New York University.
- Jeffries, Harry Perry, *Professor of Oceanography*, 1973, 1959. B.S., 1951, M.S., 1955, University of Rhode Island; Ph.D., 1959, Rutgers—The State University.
- Jensen, Patricia, *Assistant Professor of Library Science*, 1977. A.B., 1950, Colby College; M.Ed., 1961, Uni-

- versity of New Hampshire; M.S., L.S., 1969, Southern Connecticut State College.
- Johnson, Eugene M., Professor of Marketing Management, 1975, 1971. B.S., 1962, M.B.A., 1964, University of Delaware, D.B.A., 1969, Washington University.
- Johnson, Galen A., Assistant Professor of Philosophy, 1976. B.A., 1971, Wheaton College; M.A., 1973, Northern Illinois University; Ph.D., 1977, Boston University.
- Juda, Lawrence, Associate Professor of Geography and Marine Affairs, 1979, 1977. B.A., 1966, City College of New York; Ph.D., 1973, Columbia University.
- Kang, Hesook S., R.N., Professor of Nursing, 1979, 1973. B.S., 1962, M.S., 1963, Indiana University; M.A. 1972, Ph.D., 1977, Brown University.
- Kass-Simon, Gabriele, Associate Professor of Zoology, 1978, 1973. B.A., 1956, University of Michigan; M.A., 1959, Columbia University; D.Phil., 1967, University of Zurich.
- Katula, Richard A., Associate Professor of Speech Communication, 1979, 1973. B.A., 1966, Western Michigan University; M.A. 1968, Northern Illinois University; Ph.D., 1974, University of Illinois.
- Kaufman, Charles, Associate Professor of Physics, 1973, 1964. B.S., 1956, University of Wisconsin; M.S., 1959, Ph.D., 1963, Pennsylvania State University.
- Kelley, Robert Burns, Associate Professor of Electrical Engineering, 1976, 1966. B.S., 1956, New Jersey Institute of Technology; M.S., 1958, University of Southern California; Ph.D., 1967, University of California, Los Angeles.
- Kellogg, Theodore M., Associate Professor of Education, 1976, 1970. B.A., 1963, Colby College; M.S., 1965, Ph.D., 1971, Florida State University.
- Kelly, Patricia Marie Smith, Professor of Home Economics Education, 1975, 1969. B.S., 1953, University of Massachusetts; M.S., 1961, University of Bridgeport; Ph.D., 1969, Ohio State University.
- Kelly, William, Associate Professor of Education, 1970, 1966. A.B., 1950, M.A., 1954, Boston College; M.Ed., 1956, Ed.D., 1965, Boston University.
- Kelly, William E., Associate Professor of Civil and Environmental Engineering, 1976, 1972. B.S., 1965, M.S., 1969, Ph.D., 1972, University of Notre Dame.
- Kennett, James P., Professor of Oceanography, 1974, 1970. B.Sc., 1962, University of New Zealand; B.Sc., 1963; Ph.D., 1965, D.Sc., 1976, Victoria University of Wellington.
- Kent, George Edgar, Associate Professor of Music, 1973, 1969. B.S., 1958, University of Rhode Island; M.M., 1960, New England Conservatory of Music.

- Killilea, Alfred G., Associate Professor of Political Science, 1974, 1969. B.A., 1963, University of Notre Dame; M.A., 1965, Ph.D., 1969, University of Chicago.
- Killingbeck, Keith T., Assistant Professor of Botany, 1979. B.S., 1972, Purdue University; Ph.D., 1976, University of North Dakota.
- Kim, Chong Sun, Professor of History, 1979, 1965. B.S., 1955, Pusan Engineering College; M.A., 1961, Ph.D., 1965, University of Washington.
- Kim, Thomas Joon-Mock, Professor of Mechanical Engineering and Applied Mechanics, 1979, 1968. B.S., 1959, M.S., 1963, Seoul National University; M.A., 1964, Villanova University; Ph.D., 1967, University of Illinois.
- Kim, Yong Choon, Professor of Philosophy, 1979, 1971. B.A., 1960, Belhaven College; B.D., 1963, Th.M., 1964, Westminster Theological Seminary; Ph.D., 1969, Temple University.
- Kirschenbaum, Louis J., Associate Professor of Chemistry, 1976, 1970. B.S., 1965, Howard University; M.S., 1967, Ph.D., 1968, Brandeis University.
- Kirwan, Donald F., Associate Professor of Physics, 1975, 1967. B.S., 1963, M.S., 1964, Ph.D., 1969, University of Missouri.
- Klein, Maurice Nickell, Professor of History, 1973, 1964. B.A., 1960, Knox College; M.A., 1961, Ph.D., 1965, Emory University.
- Knauss, John Atkinson, Provost for Marine Affairs, Dean of the Graduate School of Oceanography and Professor of Oceanography, 1969, 1962. B.S., 1946, Massachusetts Institute of Technology; M.A., 1949, University of Michigan; Ph.D., 1959, University of California.
- Knickle, Harold Norman, Associate Professor of Chemical Engineering, 1974, 1969. B.S., 1962, University of Massachusetts; M.S., 1965, Ph.D., 1969, Rensselaer Polytechnic Institute.
- Koske, Richard E., Jr., Assistant Professor of Botany, 1978. B.S., 1967, California State Polytechnic University; Ph.D., 1971, University of British Columbia.
- Koveos, Peter E., Assistant Professor of Finance, 1977. B.A., 1968, American International College; M.A., 1970, Ph.D., 1977, Pennsylvania State University.
- Kowalski, James G., Associate Professor of Philosophy, 1978, 1971. B.S., 1966, M.A., 1970, Ph.D., 1975, University of Notre Dame.
- Kowalski, Tadeusz, Professor of Ocean Engineering, 1976, 1969. B.S., 1944, Glasgow University; M.S. 1963, Stevens Institute of Technology; Ph.D., 1969, University of Waterloo.
- Koza, Russell C., Professor of Management Science, 1979, 1977. B.S., 1962, Northeastern University; M.S., 1966, Ph.D., 1968, Rensselaer Polytechnic Institute.
- Kraus, Douglas L., Professor of Chemistry, Emeritus, 1971, 1947. B.S., 1934, Brown University; Ph.D., 1937, University of California.
- Krause, Gerald H., Assistant Professor of Geography, 1975, 1973. B.A., 1966, University of Hawaii; M.S., 1970, Northern Illinois University; Ph.D., 1975; University of Pittsburgh.
- Krikorian, John S., Jr., Assistant Professor of Electrical Engineering, 1973. B.S., 1963, University of Rhode Island; M.S., 1967, Ph.D., 1968, Syracuse University.
- Krueger, William H., Associate Professor of Zoology, 1973, 1964. A.B., 1959, M.A., 1960; Ph.D., 1967, Boston University.
- Krul, William R., Associate Professor of Plant and Soil Science, 1977. B.S., 1961, University of Connecticut; M.S., 1963, University of Rhode Island; Ph.D., 1967, Purdue University.
- Kulberg, Janet, Associate Professor of Psychology, 1974. B.S., 1955, Iowa State University; M.A., 1957, Teachers College, Columbia University; Ph.D., 1967, George Peabody College.
- Kumekawa, Glenn R., Associate Professor of Community Planning and Area Development and Special Assistant to the Vice President for Academic Affairs, 1972, 1969. B.A., 1950, Bates College; M.A., 1956, Brown University.
- Kunz, Don R., Associate Professor of English, 1974, 1968.

- B.A., 1964, Kansas State University; M.A., 1965, University of Texas; Ph.D., 1968, University of Washington.
- Kupa, John J., Associate Professor of Forestry, 1969, 1963. B.S., 1956, University of Maine; M.S., 1958, University of Massachusetts; Ph.D., 1966, University of Minnesota.
- Ladas, Gerasimos, Professor of Mathematics, 1975, 1969. B.S., 1961, University of Athens; M.S., 1966, Ph.D., 1968, New York University.
- Laine, Edward P., Lecturer in Oceanography, 1978. B.A., 1969, Wesleyan University; Ph.D., 1977, MIT/Woods Hole Oceanographic Institution Joint Program in Oceanography.
- Lal, Harbans, Professor of Pharmacology and Toxicology, and Psychology, 1971, 1967. B.S., 1952, Punjab University; M.S., 1958, University of Kansas; Ph.D., 1962, University of Chicago.
- Lamagna, Edmund A., Assistant Professor of Computer Science, 1976. A.B.-Sc.B., 1970, Sc.M., 1971, Ph.D., 1975, Brown University.
- Lampe, Harlan C., Professor of Resource Economics, 1969, 1968. B.S., 1949, University of Minnesota.
- Langford, Thomas E., Associate Professor of Business Education and Office Administration, 1974, 1970. B.S., 1966, Indiana University of Pennsylvania; M.S., 1967, Ed.D., 1971, Syracuse University.
- Larmie, Walter Esmond, Professor of Plant and Soil Science, 1973, 1949. B.S., 1949, M.S., 1954, University of Rhode Island.
- Lasswell, William L., Assistant Professor of Pharmacognosy and Environmental Health, 1978. B.S., 1973, Florida State University; Ph.D., 1977, University of Mississippi.
- Latos, Charles, Assistant Professor of Economics, 1977, 1969. B.S., 1968, University of Rhode Island; Ph.D., 1977, Brown University.
- Lausier, Joan M., Associate Professor of Pharmacy, 1977, 1971. B.S., 1967, Ph.D., 1971, University of Rhode Island.
- Laux, David Charles, Associate Professor of Microbiology, 1978, 1973. B.A., 1966, Washington and Jefferson College; M.S., 1968, Miami University; Ph.D., 1971, University of Arizona.
- Lavelle, Francis Harold, Associate Professor of Civil Engineering, 1958, 1957. B.E., 1947, M.Eng., 1948, Yale University.
- Laviano, Andrew, Assistant Professor of Business Law, 1978. B.S., 1962, Fordham College; J.D., 1965, New York University School of Law.
- Lawing, William Dennis, Jr., Associate Professor of Industrial Engineering, and Experimental Statistics, 1969. B.S., 1957, M.S., 1959, North Carolina State University; Ph.D., 1965, Iowa State University.
- LeBlanc, Lester R., Associate Professor of Ocean Engineering, 1975, 1971. B.S., 1962, M.S., 1963, Ph.D., 1966, University of Rhode Island.
- Lebrun, Roger A., Assistant Professor of Plant Pathology-Entomology, 1977. A.B., 1968, Providence College; M.S., 1973, Ph.D., 1977, Cornell University.
- Leduc, Edgar Clarence, Professor of Political Science, 1976, 1969. B.A., 1958, M.A., 1960, University of Rhode Island; Ph.D., 1963, Indiana University.
- Lee, Tung-Ching, Professor of Food Science and Nutrition, 1979, 1972. B.S., 1963, Tung-Hai University; M.S., 1966, Ph.D., 1970, University of California, Davis.
- Lengyel, Gabriel, Professor of Electrical Engineering, 1971, 1966. B.A., Sc., 1949, Technical University of Budapest; Ph.D., 1964, University of Toronto.
- Leo, John R., Assistant Professor of English, Division of University Extension, 1973. B.A., 1965, Yale University; M.A., 1967, Ph.D., 1972, Northwestern University.
- Lepper, Robert, Jr., Professor of Botany, Emeritus, 1977, 1948. B.S., 1936, M.S., 1938, University of Rhode Island; Ph.D., 1954, University of Connecticut.
- Leslie, James W., Vice President for Development and University Relations, 1974, 1963. B.A., 1952, University of Rhode Island; M.S., 1952, Columbia University.
- Lessmann, Richard C., Associate Professor of Mechanical Engineering, 1975, 1969. B.S.M.E., 1964, Syracuse University; Sc.M., 1966, Ph.D., 1969, Brown University.
- Letcher, Stephen Vaughan, Professor of Physics, 1975, 1963. B.S., 1957, Trinity College; Ph.D., 1964, Brown University.
- Levine, Howard A., Associate Professor of Mathematics, 1975, 1973. B.A., 1964, University of Minnesota; M.A., 1967, Ph.D., 1969, Cornell University.
- Lewis, James T., Associate Professor of Mathematics, 1975, 1969. B.S., 1963, University of Notre Dame; M.S., 1966, Ph.D., 1969, Brown University.
- Lindgren, Allen G., Professor of Electrical Engineering, 1970, 1964. B.E.E., 1955, Clarkson College of Technology; M.S., 1959, Ph.D., 1963, University of Connecticut.
- Liu, Pan-Tai, Professor of Mathematics, 1979, 1968. B.S., 1963, National Taiwan University; Ph.D., 1968, State University of New York, Stony Brook.
- Long, John V., Jr., Professor of Education, 1979, 1971. B.A., 1964, State University of New York, Albany; M.S., 1969, Ph.D., 1971, Syracuse University.
- Looney, Daniel J., Jr., Assistant Professor of Accounting, 1965, 1961. B.S.B.A., 1950, Boston College; M.B.A., 1960, Northeastern University, C.P.A. (Rhode Island); J.D., 1971, Suffolk University.
- Lord, Blair Morrill, Assistant Professor of Finance and Insurance, 1976. B.A., 1970; Ph.D., 1975, University of California.
- Lott, Albert J., Professor of Psychology, 1969. B.S., 1950, M.S., 1952, Pennsylvania State University; Ph.D., 1958, University of Colorado.
- Lott, Bernice, Professor of Psychology, 1975, 1970. B.A., 1950, Ph.D., 1954, University of California, Los Angeles.
- Loudon, David L., Associate Professor of Marketing, 1976, 1971. B.S., 1966, M.B.A., 1967, Ph.D., 1971, Louisiana State University.
- Loy, James D., Associate Professor of Anthropology, 1978, 1974. B.S., 1965, University of Tennessee; M.A., 1966, Ph.D., 1969, Northwestern University.
- Lucietto, Lena L. (Mrs. Richard D. Gonzalez), Acting Dean, University College and Adjunct Professor of Education, 1978, 1973. A.B., 1953, Rosary College, Illinois; A.M. 1954, Ph.D., 1969, University of Chicago.
- Lynch, Robert N., Assistant Professor of Anthropology, 1971, 1970. A.B., 1961, M.A., 1966, Brown University; Ph.D., 1971, University of Minnesota.
- MacKenzie, Louise W., Associate Professor of Home Economics Education, 1972, 1963. B.S., 1941, University of Missouri; M.S., 1946, University of Minnesota.
- MacKenzie, Scott, Professor of Chemistry, 1966, 1951. B.S., 1942, University of Pennsylvania; M.S., 1944,

- Ph.D., 1947, University of Illinois.
- MacLaine, Allan Hugh, Professor of English, 1962. B.A., 1945, McGill University; Ph.D., 1951, Brown University.
- MacMillan, Robert W., Dean, College of Human Science and Services and Professor of Education, 1979, 1966. B.A., 1951, University of Rhode Island; M.Ed., 1963, Framingham State College; Ph.D., 1966, University of Texas.
- Mairs, Kenneth Herbert, Professor of Metallurgy, Emeritus, 1977, 1946. B.S., 1934, M.S., 1935, Met.E., 1950, Pennsylvania State University.
- Malik, Surendra Singh, Professor of Physics, 1974, 1962. B.S., 1953, M.S., 1956, Ph.D., 1960, Agra University.
- Malina, Marilyn J., Associate Professor of English, 1977, 1967. A.B., 1949, Hiram College; M.A., 1964, Trinity College; Ph.D., 1967, University of Virginia.
- Mandell, Barbara, Associate Professor of Physical Education, 1968, 1960. B.S., 1949, New York University; M.A., 1959, Columbia University.
- Manfredi, Claire M., R.N., Assistant Professor of Nursing, 1977. B.S., 1962, Seton Hall University; M.A., 1966, M.Ed., 1970, Ed.D., 1976, Teachers College, Columbia University.
- Mangiameli, Paul M., Assistant Professor of Management Science, 1977. B.S., 1972, M.B.A., 1974, New York University, Ph.D., 1979, Ohio State University.
- Manteiga, Robert, Assistant Professor of Spanish, 1976. B.A., 1969, University of Virginia; M.A., 1971, New York University; Ph.D., 1977, University of Virginia.
- Marcus, Alan Samuel, Associate Professor of Civil and Environmental Engineering, 1977, 1969. B.S., 1955, M.S., 1964; Ph.D., 1969, University of Massachusetts.
- Mardix, Shmuel, Professor of Electrical Engineering, 1978, 1970. M.S., 1966, Ph.D., 1969, University of Jerusalem.
- Marks, Barry A., Dean of the College of Arts and Sciences and Professor of English, 1974. A.B., 1948, Dartmouth College; M.A., 1949, Ph.D., 1957, University of Minnesota.
- Marshall, James M., Associate Professor of English, 1968, 1965. B.A., 1949, Denison University; M.A., 1951, State University of Iowa; Ph.D., 1961, Syracuse University.
- Marshall, Nelson, Professor of Oceanography and Marine Affairs, 1972, 1959. B.S., 1937, Rollins College; M.S., 1938, Ohio State University; Ph.D., 1941, University of Florida.
- Martin, Spencer J., Associate Professor of Accounting, 1974, 1970. B.S., 1965, Bryant College; M.S., 1967, University of Rhode Island; Ph.D., 1970, University of Illinois, C.P.A.
- Maslyn, David C., University Archivist, Special Collections Librarian and Associate Professor of Library, 1977, 1974. B.A., 1960, St. Bonaventure University; M.A., 1963, M.S.L.S., 1967, Syracuse University.
- Massey, M. Dorothy, Professor of Physical Education, 1960, 1945. B.S., 1943, Bouvé-Boston School of Physical Education, Tufts College; M.Ed., 1950, Ed.D., 1957, Boston University.
- Mathews, Francis X., Professor of English, 1977, 1967. A.B., 1957, Fairfield University; M.A., 1958, Ph.D., 1964, University of Wisconsin.
- Matoney, Joseph P., Jr., Associate Professor of Accounting, 1973. B.S., 1967, M.B.A., 1968, Duquesne University; Ph.D., 1973, The Pennsylvania State University, C.P.A. (Rhode Island).
- Mattea, Edward J., Assistant Professor of Pharmacy, 1974. B.S., 1971, Pharm.D., 1974, Philadelphia College of Pharmacy and Science.
- May, Doris Elizabeth, Associate Professor of Home Economics Education, 1968, 1958. B.S., 1941, Framingham State Teachers College; M.S., 1958, University of Connecticut.
- Maynard, Peter E., Associate Professor of Human Development, Counseling and Family Studies, 1975, 1971. A.B., 1961, Our Lady of Providence Seminary; Ed.M., 1966, Ph.D., 1969, State University of New York, Buffalo.
- McCabe, Thomas H., Associate Professor of English, 1974, 1965. B.S., 1953, Union College; M.A., 1958, Columbia University; Ph.D., 1968, University of Wisconsin.
- McCarthy, Mark Redmond, Instructor in Theatre, 1974. B.F.A., 1972, Drake University; M.A., 1973, Yale University.
- McConnell, Kenneth E., Jr., Associate Professor of Resource Economics, 1977, 1973. B.A., 1964, M.A., 1966, University of Florida; Ph.D., 1973, University of Maryland.
- McEwen, Everett E., Associate Professor of Civil Engineering, 1967. B.S., 1954, University of Rhode Island; M.S., 1956, University of Illinois; D.Eng., 1964, Rensselaer Polytechnic Institute.
- McGuire, John Joseph, Professor of Plant and Soil Science, 1977, 1962. B.S., 1958, Rutgers — The State University; M.S., 1961, Ph.D., 1968, University of Rhode Island.
- McGuire, Marion Louise, Director, Graduate Reading Center, and Professor of Education, 1976, 1965. Ed.B., 1942, Rhode Island College; M.A., 1961, C.A.G.S., 1966, Ph.D., 1968, University of Connecticut.
- McLeavey, Dennis W., Associate Professor of Management Science, 1976. B.A., 1968, University of Western Ontario; M.B.A., D.B.A., 1972, Indiana University.
- McMaster, Robert Luscher, Professor of Oceanography, 1969, 1953. A.B., 1943, Columbia University; M.S., 1949, Ph.D., 1953 Rutgers — The State University.
- McNab, Gregory R., Jr., Associate Professor of Portuguese, 1978, 1971. B.A., 1962, Washington and Lee University; M.A., 1965, Tulane University; Ph.D., 1973, New York University.
- Mead, Arthur C., Assistant Professor of Economics, 1978, 1976. B.A., 1971, Ph.D., 1978, Boston College.
- Meade, Thomas L., Professor of Animal Science, 1975, 1968. B.S., 1950, M.S., 1951, Ph.D., 1953, University of Florida.
- Mensel, William Langley, Jr., Assistant Professor of English, 1973, 1969. A.B., 1964, Williams College; M.A., 1966, Ph.D., 1974, University of Washington.
- Merenda, Peter F., Professor of Psychology and Statistics, 1965, 1960. B.S., 1947, Ed.M., 1948, Tufts University; C.A.S., 1951, Harvard University; Ph.D., 1957, University of Wisconsin.
- Metz, William DeWitt, Professor of History, 1960, 1945. B.A., 1937, Bates College; Ph.D., 1945, University of Wisconsin.

- Pascale, Alfred C., Associate Professor of Human Development, Counseling and Family Studies, 1967, 1965. B.S., 1949, Boston University; M.A., 1950, Columbia University; Ed.D., 1958, Boston University.
- Patel, Kusum, Assistant Professor of Food Science and Nutrition, 1976. B.Sc., 1961, M.Sc., 1963, University of Baroda; M.S., 1970, Ph.D., 1973, Kansas State University.
- Patric, Earl F., Associate Dean of the College of Resource Development, Associate Director of Agricultural Experiment Station and Professor of Forestry, 1974, 1969. B.S., 1950, University of Connecticut; M.S., 1952, Ph.D., 1958, New York State University College of Forestry, Syracuse.
- Penhallow, William Scott, Associate Professor of Physics, 1973, 1959. Sc.B., 1955, Brown University; M.S., 1957, University of Maine.
- Peters, Calvin B., Assistant Professor of Sociology, 1978. B.A., 1971, Westmont College; M.A., 1973, Ph.D., 1977, University of Kentucky.
- Petersen, Harold, Jr., Professor of Chemistry, 1979, 1967. B.S., 1962, University of Massachusetts; Ph.D., 1966, University of Illinois.
- Peterson, John F., Jr., Professor of Philosophy, 1979, 1964. A.B., 1959, Boston College; Ph.D., 1965, Indiana University.
- Petrie, Paul James, Professor of English, 1969, 1959. B.A., 1950, M.A., 1951, Wayne State University; Ph.D., 1957, State University of Iowa.
- Petrocelli, Americo W., Vice President for Business and Finance and Adjunct Professor of Chemistry, 1977. B.S., 1954, M.S., 1958, Providence College; Ph.D., 1960, University of Rhode Island.
- Pezzullo, Thomas R., Assistant Vice President for Academic Affairs and Associate Professor of Education, 1975, 1970. Ed.B., 1964, Rhode Island College; M.A., 1968, University of Illinois; Ph.D., 1971, Boston College.
- Pickart, Stanley Joseph, Professor of Physics, 1974. B.A., 1949, St. Mary's Seminary; M.A., 1951, University of Iowa; Ph.D., 1959, University of Maryland.
- Pilson, Michael E.Q., Professor of Oceanography, 1978, 1966. B.Sc., 1954, Bishop's University; M.Sc., 1959, McGill University; Ph.D., 1964, University of California, San Diego.
- Poggie, John J., Jr., Professor of Anthropology, 1975, 1969. B.A., 1959, University of Connecticut; M.A., 1962, Louisiana State University; Ph.D., 1968, University of Minnesota.
- Polidoro, J. Richard, Associate Professor of Physical Education, 1975, 1969. B.S., 1962, M.S., 1967, D.P.E., 1969, Springfield College.
- Polk, Charles, Professor of Electrical Engineering, 1959. B.S., 1948, Washington University; S.M., 1953, Ph.D., 1956, University of Pennsylvania.
- Pollart, Gene John, Associate Professor of Music, 1976. B.M., 1963, M.M., 1967, University of Colorado.
- Pollnac, Richard B., Associate Professor of Anthropology, 1976, 1973. B.A., 1968, Pennsylvania State University; Ph.D., 1972, University of Missouri.

- Poon, Calvin Po-Chuen, *Professor of Environmental Engineering*, 1975, 1965. B.S., 1958, National Taiwan University; M.S., 1960, University of Missouri; Ph.D., 1964, University of Illinois.
- Porter, Lambert C., *Professor of French and Linguistics*, 1964, 1961. B.A., 1939, M.A., 1941, Indiana University; Docteur ès lettres, 1953, University of Paris, University of Toulouse.
- Potter, Nancy Angeline, *Professor of English*, 1963, 1947. A.B., 1946, Jackson College; M.A., 1947, Tufts College; Ph.D., 1954, Boston University; L.H.D., 1967, University of Rhode Island.
- Poularikas, Alexander D., *Professor of Electrical Engineering*, 1976, 1965. B.S., 1960, M.S., 1963, Ph.D., 1965, University of Arkansas.
- Poulsen, Roy George, *Professor of Finance*, 1967, 1948. B.S., 1941, M.B.A., 1948, Boston University; Ph.D., 1961, Clark University.
- Prochaska, James Otto, *Professor of Psychology*, 1977, 1969. B.A., 1964, M.A., 1967, Ph.D., 1969, Wayne State University.
- Purnell, Richard F., *Professor of Education*, 1977, 1970. B.A., 1963, City College of New York; Ph.D., 1966, University of Texas.
- Purvis, John L., *Professor of Biochemistry*, 1968, 1961. B.Sc., 1952, M.Sc., 1954, Ph.D., 1956, McGill University.
- Quina-Holland, Kathryn, *Assistant Professor of Psychology*, 1978. B.S., 1969, Stetson University; M.S., 1971, Ph.D., 1973, University of Georgia.
- Quinn, James G., *Professor of Oceanography*, 1978, 1968. B.S., 1960, Providence College; M.S., 1964, University of Rhode Island; Ph.D., 1967, University of Connecticut.
- Quinney, Valerie Raleigh, *Assistant Professor of History*, 1974. A.B., 1956, Woman's College, University of North Carolina; M.A., 1958, Ph.D., 1967, University of Wisconsin.
- Rae, Gwenneth, *Associate Professor of Human Development, Counseling and Family Studies*, 1973. B.A., 1961, M.A., 1965, California State College; Ed.D., 1972, University of California.
- Rainville, A. Robert, *Assistant Vice President for Student Life and Adjunct Assistant Professor of Human Development, Counseling and Family Studies*, 1977, 1966. B.S., 1964, M.A., 1969, University of Rhode Island.
- Ramsay, Glenworth A., *Associate Professor of Economics*, 1978, 1973. B.A., 1967, Brown University; M.S., 1968, Ph.D., 1974, Boston College.
- Rand, Arthur Gorham, Jr., *Professor of Food Science and Technology*, 1975, 1963. B.S., 1958, University of New Hampshire; M.S., 1961, Ph.D., 1964, University of Wisconsin.
- Rankin, W. Donald, *Professor of Music*, 1979, 1963. A.B., B.Mus., 1961, Oberlin College; M.Mus., 1963, University of Illinois; D.M.A., 1970, Boston University.
- Rayack, Elton, *Professor of Economics*, 1966, 1958. B.A., 1949, George Washington University; M.A., 1951, Ph.D., 1957, University of Chicago.
- Reaves, R.B., Jr., *Associate Professor of English*, 1975, 1968. B.A., 1961, M.A., 1962, Texas Christian University; Ph.D., 1971, University of Wisconsin.
- Reid, James P., *Professor of Physical Education*, 1976. B.S., 1950, M.A., 1952, Michigan State University; Ed.D., 1970, Stanford University.
- Reilly, Mary Ellen, *Associate Professor of Sociology*, 1978, 1973. B.A., 1962, College of Our Lady of the Elms; M.A., 1971, Ph.D., 1973, University of Massachusetts.
- Rivera, Miguel, *Assistant Professor of Physical Education*, 1979. B.S., 1972, Inter-American University; M.A., 1973, San Jose State University; M.S. and Ph.D., 1978, University of Pittsburgh.
- Rhodes, Christopher T., *Professor of Pharmacy*, 1975. B.Pharm., 1961, Ph.D., 1964, Chelsea College, University of London.
- Robb, Margaret, *Associate Dean, College of Arts and Sciences, and Adjunct Professor of Physical Education*, 1977, 1976. B.S., 1954, Oregon State University; M.S., 1957, University of Washington; Ph.D., 1966, University of Michigan.
- Rockett, Thomas J., *Associate Professor of Materials and Chemical Engineering*, 1971. B.S., 1956, Tufts University; M.S., 1958, Boston College; Ph.D., 1963, Ohio State University.
- Rogers, Kenneth H., *Associate Professor of French and Linguistics*, 1976, 1968. B.A., 1961, Boston University; M.A., 1963, Ph.D., 1970, Columbia University.
- Rogers, Warren F., *Professor of Management Science*, 1975. B.S., 1950, University of Dublin; M.S., 1966, U.S. Naval Postgraduate School; Ph.D., 1971, Stanford University.
- Rorholm, Niels, *Coordinator of Sea Grant Programs and Professor of Resource Economics*, 1971, 1954. B.S., 1946, Naesgaard, Denmark; Ph.D., 1954, University of Minnesota.
- Rose, Vincent C., *Associate Dean of the Graduate School and Associate Professor of Nuclear and Ocean Engineering*, 1973, 1963. B.S., 1952, M.S., 1958, University of Rhode Island; Ph.D., 1964, University of Missouri.
- Rosen, William M., *Associate Professor of Chemistry*, 1975, 1970. B.S., 1963, University of California, Los Angeles; Ph.D., 1967, University of California, Riverside.
- Rosengren, William R., *Professor of Sociology*, 1968, 1967. A.M., 1953, University of Chicago; D.S.Sc., 1958, Syracuse University; M.A., 1963, Brown University.
- Rosie, Douglas McDonald, *Assistant Vice President for Academic Affairs and Professor of Chemistry*, 1972, 1958. B.S., 1951, University of Rhode Island; Ph.D., 1955, Cornell University.
- Rosshy, Hans Thomas, *Professor of Oceanography*, 1975. B.S., 1962, The Royal Institute of Technology, Sweden; Ph.D., 1966, Massachusetts Institute of Technology.
- Rothschild, H. Dorothy, *Professor of French*, 1974, 1962. A.B., 1948, Wellesley College; M.F.S., 1950, University of Maryland; Ph.D., 1959, Columbia University.
- Rothstein, Lawrence, *Associate Professor of Political Science*, 1979, 1976. B.A., 1966, Carleton College; J.D., 1969, University of Illinois Law School; Ph.D., 1976, University of Massachusetts.
- Roughton, Richard Allen, *Assistant Professor of History*, 1971, 1968. B.A., 1960, Westminster College, Missouri; M.A., 1963, Ph.D., 1971, University of Maryland.
- Roxin, Emilio O., *Professor of Mathematics*, 1967. Dipl. Eng., 1947; Ph.D., 1959, University of Buenos Aires.
- Rubinsky, Stanley, *Professor of Industrial Engineering*, 1975, 1954. B.M.E., 1938, Polytechnic Institute of Brooklyn; M.M.E., 1950, University of Delaware.
- Russo, Francis Xavier, *Professor of Education*, 1973, 1966. A.B., 1953, M.A., 1955, Brown University; Ph.D., 1964, Boston University.

- Sabatino, Richard Albert, *Professor of Economics*, 1956, 1952. B.S., 1940, Temple University; M.A., 1947, Ph.D., 1950, University of Pennsylvania.
- Sadasiv, Angaraih Ganesan, *Professor of Electrical Engineering*, 1976, 1969. B.S., 1950, Saugar University, India; M.S., 1952, Allahabad University, India; Ph.D., 1963, Purdue University.
- Sadd, Martin H., *Associate Professor of Mechanical Engineering and Applied Mechanics*, 1979. B.S., 1966, M.S., 1967, University of Illinois; Ph.D., 1971, Illinois Institute of Technology.
- Sage, Nathaniel M., Jr., *Coordinator of Research and Lecturer in Geology*, 1968. B.S., 1941, M.S., 1951, Ph.D., 1953, Massachusetts Institute of Technology.
- Saila, Saul Bernhard, *Professor of Oceanography and Zoology*, 1967, 1956. B.S., 1949, University of Rhode Island; M.S., 1950, Ph.D., 1952, Cornell University.
- Sainsbury, John Charles, *Professor of Fisheries and Marine Technology*, 1974, 1967. B.Sc., 1957, University of Durham; Ph.D., 1966, University of Southampton.
- St. Pierre, E. Kent, *Assistant Professor of Accounting*, 1979. B.S., 1971 M.B.A., 1972, Eastern Illinois University; C.P.A., Illinois.
- Salomon, Milton, *Professor of Food and Resource Chemistry, Emeritus*, 1962, 1939. B.S., 1937, University of Rhode Island; M.S., 1938, Virginia Polytechnic Institute; Ph.D., 1952, North Carolina State College.
- Salvatore, Lucy V., *Associate Professor of Library Science*, 1974, 1964. A.B., 1943, Pembroke College; M.S.L.S., 1958, University of Illinois.
- Sastry, Akella N., *Professor of Oceanography*, 1977, 1966. B.Sc., 1954, M.Sc., 1955, Andhra University; Ph.D., 1961, Florida State University.
- Schach-Cook, Kathrine, *Assistant Professor of History*, 1974. B.A., 1968, M.A., 1970, Ph.D., 1974, University of Nebraska.
- Schaffran, Jerome A., *Associate Professor of Human Development, Counseling and Family Studies*, 1977, 1971. B.A., 1964, St. Cloud State College; M.A., 1970, Ph.D., 1971, University of Iowa.
- Schenck, Hilbert Van N., Jr., *Professor of Mechanical Engineering and Applied Mechanics and Ocean Engineering*, 1967. B.A., 1950; M.S., 1952, Stanford University.
- Schilling, Jean-Guy, *Professor of Oceanography*, 1974, 1966. Ingenieur, 1956, Ecole Supérieure Technique de Geneve; B.Sc., P.Eng., 1961, Ecole Polytechnic de Montreal; Ph.D., 1966, Massachusetts Institute of Technology.
- Schlessinger, Bernard S., *Dean, Graduate Library School and Professor of Library Science*, 1977. B.S., 1950, Roosevelt University; M.S., 1952, Miami University; Ph.D., 1955, University of Wisconsin; M.L.S., 1975, University of Rhode Island.
- Schmidt, Charles T., Jr., *Professor of Industrial Relations*, 1973, 1968. B.S., 1958, University of Massachusetts; M.B.A., 1962, Northeastern University; M.I.L.R., 1964, Cornell University; Ph.D., 1968, Michigan State University.
- Schneider, Stewart P., *Associate Professor of Library Science*, 1974, 1964. B.A., 1948, Haverford College; M.A., 1950, Columbia University; M.S., 1964, Certificate in Advanced Librarianship, 1974, School of Library Service, Columbia University.
- Schroeder, Karen A., *Assistant Professor of Human Development, Counseling and Family Studies*, 1972, 1968, *Ombudsman, 1978-80*. B.S., 1967, Oklahoma State University; M.A., 1968, Ph.D., 1977, University of Connecticut.
- Schurman, Bernard, *Professor of Economics*, 1959, 1948. B.S.S., 1939, The City University of New York; M.A., 1947, Ph.D., 1958, Columbia University.
- Schwartz-Barcott, Donna, R.N., *Associate Professor of Nursing*, 1979, 1975. B.S., 1966, University of Washington; M.S., 1970, M.A., 1972, Ph.D., 1978, University of North Carolina.
- Schwartzman, Sol, *Associate Professor of Mathematics*, 1969, B.A., 1948, Brooklyn College; Ph.D., 1953, Yale University.
- Schwarz, Stephen D., *Professor of Philosophy*, 1979, 1963. B.A., 1955, Fordham University; M.A., 1958, Ph.D., 1966, Harvard University.
- Schwarzbach, Henry R., *Assistant Professor of Accounting*, 1976. A.B., 1968, University of California; M.B.A., 1972, University of Hawaii; D.B.A., 1976, University of Colorado, C.P.A.
- Seigel, Jules P., *Professor of English*, 1976, 1965. B.S., 1959, State University of New York, Cortland; M.A., 1962, Ph.D., 1965, University of Maryland.
- Sennott, Roger S., *Assistant Professor of Sociology*, 1971. B.A., 1966, Washington and Lee University; M.A., 1968, Ph.D., 1971, University of Pennsylvania.
- Shao, David M., *Associate Professor of Industrial Engineering*, 1976, 1969. B.S., 1960, Cheng-Kung University; M.S., 1966, University of Houston; Ph.D., 1970, State University of New York, Buffalo.
- Shaw, Richard J., *Associate Professor of Plant and Soil Science*, 1976, 1970. B.S., 1961, University of Rhode Island; M.S., 1963, Ph.D., 1966, University of Missouri.
- Shay, John E., Jr., *Vice President for Student Affairs and Adjunct Assistant Professor of Education*, 1974, 1971. B.A., 1955, University of Florida; M.A., 1960, Columbia University; Ph.D., 1966, University of Michigan.
- Shea, Gail Anne, *Assistant Professor of Sociology and Anthropology*, 1975. B.S., 1963, Marquette University; M.A., 1965, University of Connecticut; Ph.D., 1975, Brown University.
- Sheath, Robert G., *Assistant Professor of Botany*, 1978. B.S., 1973, Ph.D., 1977, University of Toronto.
- Shen, Randolph F.C., *Professor of Management Science*, 1977, 1966. B.A., 1945, National Wuhan University; M.A., 1951, University of California, Los Angeles; Ph.D., 1964, University of Illinois.
- Sherman, Arthur L., *Associate Professor of Physical Education*, 1976, 1959. A.B., 1950, University of Rhode Island; M.Ed., 1964, Ed.D., 1976, Boston University.
- Shilling, George David, *Professor of Chemical Engineering*, 1964, 1952. B.Ch.E., 1942, University of Delaware; M.S., 1943, Ph.D., 1950, University of Wisconsin.
- Shimizu, Yuzuru, *Professor of Pharmacognosy*, 1977, 1969. B.Sc., 1958, M.Sc., 1960, Ph.D., 1962, Hokkaido University.
- Shisha, Oved, *Professor of Mathematics*, 1976, 1974. M.S., 1955, Ph.D., 1958, Hebrew University.
- Sieburth, John McNeil, *Professor of Oceanography and Microbiology*, 1966, 1960. B.S.A., 1949, University of British Columbia; M.S., 1951, Washington State University; Ph.D., 1954, University of Minnesota.
- Sigurdsson, Haraldur, *Associate Professor of Oceanography*, 1974. B.Sc., 1965, Queen's University of Belfast; Ph.D., 1970, Durham University.

- Silva, Armand J., *Professor of Ocean and Civil Engineering*, 1976. B.S., 1954, M.S., 1956, Ph.D., 1965, University of Connecticut.
- Silverstein, Albert, *Professor of Psychology*, 1974, 1963. B.A., 1957, Cornell University; M.S., 1958, Yale University; Ph.D., 1963, University of California.
- Silvestri, Gino, *Assistant Professor of History*, 1969, 1965. B.A., 1956, State College for Teachers, Albany; Ph.D., 1969, Syracuse University.
- Simpson, Kenneth L., *Professor of Food Science and Nutrition*, 1972, 1964. B.S., 1954, M.S., 1960, Ph.D., 1963, University of California.
- Sine, Robert C., *Professor of Mathematics*, 1977, 1971. B.S., 1958, University of Illinois; M.S., 1959, Massachusetts Institute of Technology; Ph.D., 1962, University of Illinois.
- Singer, Jay, *Assistant Professor of Speech Communication*, 1977. B.A., 1971, Brooklyn College; M.A., 1972, University of Florida; Ph.D., 1976, Case Western Reserve University.
- Sink, Clay V., *Associate Professor of Business Education and Office Administration*, 1974, 1969. B.S., 1958, Pfeiffer College; M.S., 1964, University of Tennessee; Ph.D., 1968, Ohio State University.
- Sisco, Richard C., *Assistant Professor of Business Law*, 1976. B.S., 1961, University of Rhode Island; J.D., 1964, Georgetown University.
- Skogley, Conrad Richard, *Professor of Plant and Soil Science, and Secretary of the University Faculty*, 1971, 1960. B.S., 1950, M.S., 1952, University of Rhode Island; Ph.D., 1957, Rutgers—The State University.
- Smart, Mollie S., *Professor of Child Development and Family Relations, Emerita*, 1973, 1954. B.A., 1936, University of Toronto; M.A., 1946, University of Michigan; Ph.D., 1970, University of Delhi.
- Smart, Russell C., *Professor of Child Development and Family Relations, Emeritus*, 1976, 1953. A.B., 1934, Dartmouth College; M.A., 1935, Ph.D., 1938, University of Minnesota.
- Smayda, Theodore John, *Professor of Oceanography and Botany*, 1970, 1959. B.S., 1953, Tufts University; M.S., 1955, University of Rhode Island; Dr. Philos., 1967, University of Oslo.
- Smith, Charles Ivel, *Professor of Medicinal Chemistry*, 1974, 1960. B.S., 1944, Ph.D., 1950, University of Maryland.
- Smith, Kathleen F., *Associate Professor of Business Education and Office Administration*, 1962, 1955. B.S., 1942, Skidmore College; M.Ed., 1954, Ed.D., 1973, Boston University.
- Smith, Lewis Turner, *Station Statistician and Professor of Animal Science and Statistics*, 1971, 1964. B.S., 1950, University of Rhode Island; M.S., 1953, North Carolina State University; Ph.D., 1962, Iowa State University.
- Smith, Nelson F., *Professor of Psychology*, 1975, 1965. B.A., 1959, Colgate University; M.A., 1961, College of William and Mary; Ph.D., 1963, Princeton University.
- Smith, Warren Dale, *Professor of English*, 1955, 1942. A.B., 1934, M.A., 1940, Ph.D., 1948, University of Pennsylvania.
- Soderberg, Lanny O., *Associate Professor of Education*, 1973, 1967. B.A., 1962, Bemidji State College; M.A., 1964, Ph.D., 1967, University of Iowa.
- Sonstroem, Robert J., *Associate Professor of Physical Education and Director of Research in Health and Physical Education*, 1974, 1969. B.S., 1956, M.S., 1957, Springfield College; Ph.D., 1968, University of Minnesota.
- Sorlien, Robert Parker, *Professor of English*, 1968, 1946. A.B., 1938, Harvard College; M.A., 1942, Harvard University; Ph.D., 1955, Brown University.
- Spaulding, Irving A., *Professor of Resource Economics and Rural Sociology*, 1960, 1949. B.S., 1941, Iowa State University; M.S., 1942, University of Kentucky; Ph.D., 1944, Cornell University.
- Spaulding, Malcolm L., *Associate Professor of Ocean Engineering*, 1977, 1973. B.S., 1969, University of Rhode Island; M.S., 1970, Massachusetts Institute of Technology; Ph.D., 1972, University of Rhode Island.
- Spence, Donald L., *Director, Program in Gerontology and Associate Professor of Human Development, Counseling and Family Studies*, 1973. B.A., 1959, Long Beach State College; Ph.D., 1965, University of Oregon.
- Spence, John E., *Professor of Electrical Engineering*, 1974, 1962. B.S., 1957, Bradford Durfee College of Technology; M.S., 1960, Ph.D., 1962, University of Wisconsin.
- Sperry, Jay, F., *Assistant Professor of Microbiology*, 1977. B.S., 1968, M.S., 1971, University of Nebraska; Ph.D., 1974, University of Kansas.
- Starkey, James L., *Associate Professor of Economics*, 1975, 1967. B.S., 1964, Ph.D., 1971, Boston College.
- Steeves, Edna L., *Professor of English*, 1974, 1967. B.A., 1932, University of California; M.A., 1936, University of Chicago; Ph.D., 1948, Columbia University.
- Stein, Arthur, *Professor of Political Science*, 1974, 1965. B.A., 1958, Pennsylvania State University; M.A., 1962, Ph.D., 1965, University of Pennsylvania.
- Steinman, Warren M., *Professor of Psychology*, 1975. B.A., 1960, University of California at L.A.; M.A., 1963, Ph.D., 1966, University of Washington.
- Stepanishen, Peter R., *Associate Professor of Ocean Engineering*, 1977, 1974. B.S., 1963, Michigan State University; M.S., 1966, University of Connecticut; Ph.D., 1969, Pennsylvania State University.
- Stern, Melvin Ernest, *Professor of Oceanography*, 1964. B.E.E., 1950, The Cooper Union School of Engineering; M.S., 1961, Illinois Institute of Technology; Ph.D., 1956, Massachusetts Institute of Technology.
- Stevenson, John F., *Assistant Professor of Psychology*, 1974, 1973. B.A., 1965, University of Rochester; Ph.D., 1974, University of Michigan.
- Stineback, David C., *Associate Professor of English*, 1977. B.A., 1965, Stanford University; M.A., 1967, Ph.D., 1969, Yale University.
- Strom, Sharon Hartman, *Associate Professor of History*, 1975, 1969. B.A., 1962, Whittier College; M.A., 1968, Ph.D., 1969, Cornell University.
- Sullivan, Richard E., *Assistant Professor of Education*, 1971. Ed.B., 1964, M.A.T., 1966, Rhode Island College; M.A., 1969, University of Rhode Island; Ph.D., 1971, University of Texas, Austin.
- Surprenant, Thomas T., *Assistant Professor, of Library Science*, 1979. B.A., 1964, Siena College; M.S., 1967, Catholic University of America; M.S., 1975, University of Wisconsin, Lacrosse; Ph.D., 1979, University of Wisconsin, Madison.
- Suryanarayan, E. Ramnath, *Professor of Mathematics*, 1973, 1960. B.Sc., 1951, M.Sc., 1952, University of Mysore; Ph.D., 1961, University of Michigan.
- Sussman, Donald L., *Associate Professor of Civil Engineering*, 1976, 1967. B.S., 1958, City College of

- New York; Ph.D., 1966, Polytechnic Institute of Brooklyn.
- Sutinen, Jon G., Assistant Professor of Resource Economics, 1973. A.A., 1962, Lower Columbia College; B.S., 1964, San Francisco State College; Ph.D., 1973, University of Washington.
- Suzawa, Gilbert S., Assistant Professor of Economics, 1973, 1971. B.A., 1965, M.A., 1967, University of Hawaii; Ph.D., 1973, Brown University.
- Swanson, Edward P., Assistant Professor of Accounting, 1976. B.S., 1969, University of Rhode Island; M.B.A., 1974, Ph.D., 1977, University of Wisconsin.
- Swanson, Elizabeth S., Assistant Professor of Botany, 1978. A.B., 1966, Wheaton College; M.A., 1967, Miami University; Ph.D., 1971, University of California, Riverside.
- Swift, Elijah, V., Associate Professor of Oceanography and Botany, 1974, 1969. B.A., 1960, Swarthmore College; M.A., 1964, Ph.D., 1967, The Johns Hopkins University.
- Swonger, Alvin K., Associate Professor of Pharmacology and Toxicology and Chairman, Faculty Senate, 1977, 1971. B.A., 1967, Boston University; Ph.D., 1971, Dartmouth College.
- Tate, Barbara L., R.N., Dean of the College of Nursing and Professor of Nursing, 1969. Diploma, 1942, Mountainside Hospital School of Nursing; B.A., 1945, Elmira College; M.A., 1951, Ed.D., 1961, Teachers College, Columbia University.
- Test, Frederick Laurent, Professor of Mechanical Engineering and Applied Mechanics, 1962, 1949. B.S., 1945, M.S. 1947, Massachusetts Institute of Technology; Ph.D., 1956, Pennsylvania State University.
- Tetreault, David E., Assistant Professor of Computer Science, 1971, 1967. B.S., 1963, M.S., 1972, University of Rhode Island.
- Thompson, A. Ralph, Director, Rhode Island Water Resources Center, and Professor of Chemical Engineering, 1966, 1952. B.A.Sc., 1936, University of Toronto; Ph.D., 1945, University of Pennsylvania.
- Thurston, Gary, Associate Professor of History, 1976, 1966. B.A., 1962, Grinnell College; M.A., 1965, Ph.D., 1973, Columbia University.
- Toloudis, Constantin, Associate Professor of French, 1977, 1966. B.A., 1963, University of British Columbia; Ph.D., 1969, Rice University.
- Towers, Tom H., Professor of English, Division of University Extension, 1979, 1971. B.A., 1951, University of Chicago; B.A., 1958, M.A., 1959, University of New Mexico; Ph.D., 1971, Tulane University.
- Travisano, Richard Vito, Assistant Professor of Sociology, 1973, 1969. B.A., 1961, University of Connecticut; M.A., 1967, Ph.D., 1973, University of Minnesota.
- Traxler, Richard W., Professor of Plant Pathology-Entomology and Microbiology, 1971. B.A., 1951, M.S., 1955, Ph.D., 1958, University of Texas.
- Tremblay, George C., Professor of Biochemistry, 1975, 1966. B.S., 1960, Massachusetts College of Pharmacy; Ph.D., 1965, St. Louis University.
- Tryon, Jonathan Stedman, Associate Professor of Library Science, 1977, 1969. A.B., 1955, Brown University; M.S., 1963, Columbia University; M.A., 1970, University of Rhode Island; Certificate in Advanced Librarianship, 1974, Columbia University.
- Tufts, Donald W., Professor of Electrical Engineering, 1967. B.A., 1955, Williams College; S.M., 1958, Sc.D., 1960, Massachusetts Institute of Technology.
- Turcotte, Joseph George, Professor of Medicinal Chemistry, 1977, 1967. B.S., 1958, M.S., 1960, Massachusetts College of Pharmacy; Ph.D., 1967, University of Minnesota.
- Turnbaugh, William A., Associate Professor of Anthropology, 1978, 1974. A.B., 1970, Lycoming College; Ph.D., 1973, Harvard University.
- Turyn, Andrew S., Assistant Professor, Library, 1971, 1962. B.S., 1952, M.S.L.S., 1962, University of Illinois.
- Tutt, Ralph M., Associate Professor of English, 1971, 1964. A.B., 1954, University of Florida; M.A., 1958, Kent State University; M.A., 1961, Ohio State University; Ph.D., 1966, Duke University.
- Tyler, Gerry Ruth Sack, Associate Dean of the College of Arts and Sciences and Assistant Professor of Political Science, 1971, 1966. B.A., 1960, University of Pittsburgh; M.A., 1961, Ph.D., 1972, Yale University.
- Tynan, Eugene J., Associate Professor of Geology, 1968, 1959. B.A., 1954, University of Connecticut; M.S., 1956, University of Massachusetts; Ph.D., 1962, University of Oklahoma.
- Tyne, Thomas F., Assistant Professor of Psychology, 1975. B.A., 1969, University of Dayton; M.S., 1972, Hunter College; Ph.D., 1975, University of Connecticut.
- Tyrrell, Timothy J., Assistant Professor of Resource Economics, 1978. B.A., 1969, University of South Florida; M.A., 1977, University of Tennessee; Ph.D., 1978, Cornell University.
- Urish, Daniel W., Assistant Professor of Civil and Environmental Engineering, 1978. B.S., 1954, University of Illinois; M.S., 1964, University of Washington; Ph.D., 1978, University of Rhode Island.
- Valentino, Domenic, Associate Professor of Psychology, 1978, 1973. B.A., 1963, California State University; M.A., 1966, Ph.D., 1971, University of California.
- Vangermeersch, Richard, Professor of Accounting, 1979, 1971. B.S.A., 1959, Bryant College; L.A.C., 1962, M.S., 1964, University of Rhode Island; Ph.D., 1970, University of Florida; C.P.A. (Rhode Island).
- Velicer, Wayne F., Associate Professor of Psychology, 1977, 1973. B.S., 1966, University of Wisconsin; M.S., 1969, Ph.D., 1972, Purdue University.
- Verma, Ghasi Ram, Associate Professor of Mathematics, 1968, 1964. B.A., 1950, Birla College; M.A., 1954, Banaras Hindu University; Ph.D., 1957, Rajasthan University.
- Viglianese, Paschal, Associate Professor of Italian, 1976, 1964. B.A., 1955, Rutgers — The State University; M.A., 1959, University of California, Berkeley; Ph.D., 1969, Rutgers — The State University.
- Vittimberga, Bruno M., Professor of Chemistry, 1971, 1961. B.S., 1952, Massachusetts Institute of Technology; M.S., 1954, University of Rhode Island; Ph.D., 1957, University of Illinois.
- Vosburgh, William Thomas, Professor of Psychology and Director, School Psychology Program, 1973, 1965. B.A., 1951, University of Maine; M.A., 1958, Ph.D., 1965, Syracuse University.
- Votta, Ferdinand, Jr., Professor of Chemical Engineering, 1974, 1946. B.S., 1939, M.S., 1941, University of Rhode Island; D.Eng., 1958, Yale University.
- Wakefield, Robert C., Professor of Plant and Soil Science, 1965, 1954. B.S., 1950, University of Rhode Island; M.S., 1951, Ph.D., 1954, Rutgers — The State University.

- Wallace, William Henry, Associate Extension Professor of Resource Economics, 1961, 1953. B.S., 1948, M.S., 1951, University of New Hampshire.
- Warren, David Daniel, Professor of Political Science, 1967, 1953. A.B., 1948, Brown University; M.A., 1949; Ph.D., 1959, Fletcher School of Law and Diplomacy.
- Waters, Harold Arthur, Professor of French, 1969, 1962. A.B., 1949, Harvard College; M.A., 1954, Ph.D., 1956, University of Washington.
- Watts, D. Randolph, Assistant Professor of Oceanography, 1974. B.A., 1966, University of California; Ph.D., 1973, Cornell University.
- Weaver, Thomas F., Associate Professor of Resource Economics, 1977, 1971. B.S., 1958, Pennsylvania State University; M.S., 1962, Ph.D., 1966, Cornell University.
- Weeden, Patricia J., Associate Professor of Textiles, Clothing and Related Art, 1978, 1961. B.S., 1948, M.S., 1961, University of Rhode Island.
- Weeks, Richard R., Dean of the College of Business Administration and Professor of Marketing, 1970. B.S., 1955, University of Illinois; M.B.A., 1960, D.B.A., 1966, Washington University.
- Weideman, Nelson H., Associate Professor of Computer Science and Director of the Academic Computer Center, 1977, 1971. B.A., 1967, M.S., 1969, Ph.D., 1971, Cornell University.
- Weisbord, Robert G., Professor of History, 1973, 1966. B.A., 1955, New York University; M.A., 1960, Ph.D., 1966, New York University Graduate School.
- Wells, Alan, Associate Professor of Sociology, 1978. B.A., 1966, University of California, Davis; M.A., 1968, Ph.D., 1970, Washington University, St. Louis.
- Wenisch, Fritz, Associate Professor of Philosophy, 1974, 1971. L.B.A., 1964, Salzburg, Austria; Ph.D., 1968, University of Salzburg.
- West, Niels, Associate Professor of Geography and Marine Affairs, 1976. B.A., 1965, Boston University; M.S., 1968, Clark University; Ph.D., 1973, Rutgers—The State University.
- Whitcomb, Charles L., Assistant Professor of Education, 1969. B.S., 1936, State College at Bridgewater; Ed.M., 1952, Harvard University; Ed.D., 1965, Boston University.
- White, Frank Mangrem, Professor of Mechanical and Ocean Engineering, 1967, 1964. B.M.E., 1954, Georgia Institute of Technology; S.M., 1956, Massachusetts Institute of Technology; Ph.D., 1959, Georgia Institute of Technology.
- White, Sidney Howard, Professor of English, Division of University Extension, 1973, 1966. B.S., 1950, Loyola University; M.A., 1951, Ph.D., 1962, University of Southern California.
- Wilde, Charles E., Jr., Professor of Zoology, 1975. A.B., 1940, Dartmouth College; M.A., 1947, Ph.D., 1949, Princeton University.
- Willis, George H., Associate Professor of Education, 1977, 1971. A.B., 1964, Hamilton College; M.A.T., 1965, Harvard University; Ph.D., 1971, Johns Hopkins University.
- Willoughby, Alan, Professor of Psychology, 1974, 1968. A.B., 1949 Brown University; M.A., 1955, Ph.D., 1959, University of Connecticut.
- Wilson, Mason P., Jr., Professor of Mechanical Engineering and Applied Mechanics, and Director of University Center for Energy Studies, 1976, 1968. B.S., 1957, State University of New York; M.S., 1960, Ph.D., 1968, University of Connecticut.
- Wimbush, Mark, Associate Professor of Oceanography, 1977. B.A., 1957, Oxford University; M.A., 1963, University of Hawaii; M.A., 1964, Oxford University; Ph.D., 1969, Scripps Institution of Oceanography.
- Winn, Howard Elliott, Professor of Oceanography and Zoology, 1965. B.A., 1948, Bowdoin College; M.S., 1950, Ph.D., 1955, University of Michigan.
- Wolke, Richard E., Associate Professor of Animal Pathology, 1975, 1970. B.S., 1955, D.V.M., 1962, Cornell University; M.S., 1966, Ph.D., 1968, University of Connecticut.
- Wood, Norris P., Professor of Microbiology, 1972, 1963. B.S., 1949, Hartwick College; M.S., 1951, Cornell University; Ph.D., 1955, University of Pennsylvania.
- Wood, Porter Shelley, Associate Professor of Accounting, 1957, 1955. B.S., 1935, Tennessee Polytechnic Institute; M.A., 1950, University of Kentucky; C.P.A. (Rhode Island).
- Wood, Stephen B., Professor of Political Science, 1970, 1967. Ph.B., 1948, M.A., 1954, Ph.D., 1964, University of Chicago.
- Woods, Lemuel B., Assistant Professor of Library Science, 1977. B.S.E., 1960, Henderson State University, M.L.S., 1969, Ph.D., 1977, University of Texas.
- Worthen, Leonard Robert, Director of Environmental Health Sciences and Professor of Pharmacognosy, 1970, 1957. B.S., 1950, Massachusetts College of Pharmacy, M.S., 1952, Temple University; Ph.D., 1957, University of Massachusetts.
- Wright, William Ray, Associate Professor of Plant and Soil Science, 1978, 1972. B.S., 1966, Wisconsin State University, River Falls; M.S., 1969, Ph.D., 1972, University of Maryland.
- Wry, Ora E., Assistant Professor of Music, 1978. B.S., 1966, Villanova University; M.M., 1969, D.M.A., 1976, Temple University.
- Yates, Vance Joseph, Professor of Animal Pathology, 1955, 1949. B.S., 1940, D.V.M., 1949, Ohio State University; Ph.D., 1960, University of Wisconsin.
- Young, William, Professor of Philosophy, 1973, 1960. B.A., 1938, Columbia University; Th.D., 1944, Union Theological Seminary; B.Litt., 1958, University of Oxford.
- Youngken, Heber W., Jr., Provost for Health Science Affairs, Dean of the College of Pharmacy, and Professor of Pharmacognosy, 1969, 1957. A.B., 1935, Bucknell University; B.S., 1938, Massachusetts College of Pharmacy; M.S., 1940, Ph.D., 1942, University of Minnesota.
- Zeyl, Donald J., Associate Professor of Philosophy, 1977, 1971. B.A., 1966, University of Toronto; Ph.D., 1972, Harvard University.
- Zinn, Donald J., Professor of Zoology, Emeritus, 1974, 1946. S.B., 1933, Harvard University; M.S., 1937, University of Rhode Island; Ph.D., 1942, Yale University.
- Zucker, Norman L., Professor of Political Science, 1969, 1966. B.A., 1954, M.A., 1956, Ph.D., 1960, Rutgers—The State University.

Graduate Adjunct Faculty

- Apostal, Michael C., Adjunct Associate Professor of Civil and Environmental Engineering, 1978. B.S., 1967, University of Rhode Island; M.S., 1974, University of Connecticut; Ph.D., 1974, State University of New York at Buffalo.

- Barber, Brian K., *Adjunct Assistant Professor of Transportation Planning*, 1975, 1974. B.S., 1960, Florida State University; M.U.P., 1962, University of Washington.
- Bordelon, Derrill, *Adjunct Professor of Mathematics*, 1978. B.S., 1942, Louisiana State University; M.A., 1956, Ph.D., 1963, University of Maryland.
- Brunser, Oscar, *Adjunct Professor of Food Science and Technology*, 1976. B.S., 1954, M.D., 1961, University of Chile.
- Butman, Bradford, *Adjunct Professor of Oceanography*, 1978. A.B., 1969, Cornell University; Ph.D., 1975, Massachusetts Institute of Technology.
- Cardinale, George J., *Adjunct Associate Professor of Pharmacology and Toxicology*, 1975. B.S., 1957, Fordham University; Ph.D., 1965, Ohio State University.
- Chapple, Paul J., *Adjunct Professor of Microbiology*, 1975. B.S., 1957, Ph.D., 1960, University of Bristol.
- Coduri, Richard J., Jr., *Adjunct Assistant Professor of Food and Resource Chemistry*, 1976, 1972. B.S., 1964, M.S., 1971, University of Rhode Island.
- Conway, Roger L., *Associate Director of Student Activities, Adjunct Professor of Human Development, Counseling and Family Studies*, 1974. A.B., 1966, Rutgers - The State University; M.A., 1969, University of Rhode Island.
- Cooper, George N., *Adjunct Assistant Professor of Electrical Engineering*, 1974. B.S., 1957, St. Joseph's College; M.D., 1961, Seton Hall College of Medicine.
- Dardiri, Ahmed H., *Adjunct Professor of Animal Pathology*, 1968. B.V.S., 1939; M.V.S., 1945, Cairo Vet. College; M.S., 1939, Ph.D., 1950, Michigan State University.
- DeBoer, Jelle, *Adjunct Professor of Oceanography*, 1969. B.S., 1958, M.S., 1961, Ph.D., 1963, University of Utrecht.
- Dexter, Daniel L., *Adjunct Assistant Professor of Pharmacology and Toxicology*, 1979. B.S., 1963, Ph.D., 1972, University of Wisconsin.
- DiMeglio, A. Francis, *Adjunct Associate Professor of Nuclear Engineering*, 1965. B.S., 1952, Providence College.
- DiNapoli, Frederick R., *Adjunct Associate Professor of Mathematics*, 1979, 1970, B.S., 1962; M.A., 1965; Ph.D., 1969, University of Rhode Island.
- Douglas, William Henry James, *Adjunct Associate Professor of Biochemistry*, 1975. B.S., 1963, State University of New York at Plattsburgh; M.A.T., 1967, Ph.D., 1970, Brown University.
- Dunlap, Richard M., *Adjunct Professor of Mechanical Engineering and Applied Mechanics*, 1979. B.S., 1941, M.S., 1941, Massachusetts Institute of Technology.
- Eble, Albert F., *Adjunct Professor of Zoology*, 1979. B.A., 1952, Hofstra College; M.S., 1953, University of Miami; Ph.D., 1963, Rutgers - The State University.
- Eisler, Ronald, *Adjunct Professor of Oceanography*, 1970. B.A., 1952, New York University; M.S., 1957, Ph.D., 1961, University of Washington.
- Elmgren, S. Ragnar, *Adjunct Professor of Oceanography*, 1978. B.S., 1966, Ph.D., 1976, University of Stockholm.
- Giambalvo, Cecilia T., *Adjunct Assistant Professor of Pharmacology and Toxicology*, 1979. B.S., 1970, Ph.D., 1975, University of Connecticut.
- Gibbs, Robert H., *Adjunct Professor of Zoology*, 1971. A.B., 1951, Ph.D., 1955, Cornell University.
- Hall, James A., *Adjunct Professor of Electrical Engineering*, 1973. B.S., 1942, Brown University; Ph.D., 1971, University of Rhode Island.
- Halvorson, William L., *Adjunct Professor of Botany*, 1978. B.S., 1965, Arizona State University; M.S., 1967, University of Illinois; Ph.D., 1970, Arizona State University.
- Hammond, Rupert P., *Adjunct Professor of Biochemistry*, 1970. B.S., 1955, Northeastern State College; M.S., 1958, State University of Iowa; Ph.D., 1968, Brown University.
- Heath, Ross G., *Adjunct Professor of Oceanography*, 1978. B.S., 1960, Adelaide University; Ph.D., 1968, Scripps Institution of Oceanography.
- Howe, Jeffrey L., *Adjunct Assistant Professor of Food Science and Nutrition*, 1979. B.S., 1967, Iowa State University; M.S., 1972, University of Massachusetts.
- Imbrie, John, *Adjunct Professor of Oceanography*, 1976. B.A., 1948, Princeton University; M.S., 1949, Ph.D., 1951, Yale University.
- Kaplan, Arthur M., *Adjunct Professor of Plant Pathology-Entomology*, 1969. B.S., 1939, Massachusetts State College; M.S., 1941, Washington State College; Ph.D., 1948, University of Massachusetts.
- Kaplan, Stephen R., M.D., *Adjunct Associate Professor of Pharmacology and Toxicology*, 1977. B.A., 1959, Wesleyan University; M.D., 1963, New York University College of Medicine.
- Karkalas, Yani, *Adjunct Professor of Pharmacology-Toxicology and Psychology*, 1970, 1969. B.S., 1948, M.D., 1953, University of Istanbul.
- Karlson, Karl E., *Adjunct Professor of Electrical Engineering*, 1974. B.S., 1942, Bethel College; M.B., 1944, M.D., 1945, Ph.D., 1952, University of Minnesota.
- Katayama, Teruhisa, *Adjunct Professor of Food Science and Nutrition*, 1979. B.S., 1943; Ph.D., 1949, University of Kyushu, Japan.
- Kavarnos, George J., *Adjunct Professor of Chemistry*, 1978. B.A., 1964, Clark University; Ph.D., 1968, University of Rhode Island.
- Klyberg, Albert T., *Adjunct Associate Professor of History*, 1977, 1976. A.B., 1962, College of Wooster; M.A., 1963; Ph.D., 1967, University of Michigan.
- Knott, J. Eugene, *Adjunct Assistant Professor of Human Development, Counseling and Family Studies*, 1975. B.S., 1966, Xavier University (Ohio); M.A., 1968, Ph.D., 1974, University of Maryland.
- Lambert, Richard B., *Adjunct Associate Professor of Oceanography*, 1974, 1968. A.B., 1961, Lehigh University; Sc.M., 1964, Ph.D., 1966, Brown University.
- Lundgren, Raymond G., Jr., *Adjunct Associate Professor of Pharmacology and Toxicology*, 1975. B.S., 1954; M.S., 1960, University of Rhode Island; Ph.D., 1963, University of Missouri.
- Malcolm, Alexander P., Jr., *Adjunct Assistant Professor of Pharmacology and Toxicology*, 1979. B.S., 1964, M.S., 1970, Ph.D., 1977, University of Rhode Island.
- McCullough, William V., *Adjunct Assistant Professor of Electrical Engineering*, 1977. B.S., 1969, Carnegie-Mellon University; M.S., 1973, Ph.D., 1976, University of Rhode Island.
- Messier, Richard H., *Adjunct Assistant Professor of Mechanical Engineering and Applied Mechanics*, 1977. Sc.B., 1968, Sc.M., 1970, Ph.D., 1975, Brown University.
- Miller, Donald C., *Adjunct Professor of Zoology*, 1979, 1975. B.A., 1957, University of Delaware, Newark; M.S., 1960, Ph.D., 1965, Duke University.

- Miller, Eugene, *Adjunct Assistant Professor of Pharmacology and Toxicology*, 1970. B.Sc., 1955, Butler University; Ph.D., 1967, University of Chicago.
- Modest, Edward J., *Adjunct Professor of Medicinal Chemistry*, 1971, 1968. A.B., 1943, Harvard College; A.M., 1947, Ph.D., 1949, Harvard University.
- Moffett, Mark B., *Adjunct Associate Professor of Ocean Engineering*, 1974, 1970. B.S., M.S., 1959, Massachusetts Institute of Technology; Ph.D., 1970, Brown University.
- Most, Albert S., *Adjunct Assistant Professor of Electrical Engineering*, 1974. B.S., 1958, Amherst College; M.D., 1962, Johns Hopkins University.
- Nakanishi, Koji, *Adjunct Professor of Pharmacognosy*, 1974. B.S., 1947, Ph.D., 1954, Nagoya University.
- Owen, Albert J., *Adjunct Assistant Professor of Biochemistry*, 1978. B.S., 1969, University of Rhode Island; Ph.D., 1974, Harvard University.
- Patton, Alexander J., *Adjunct Assistant Professor of Mechanical Engineering and Applied Mechanics*, 1977. B.S., 1967, University of Rhode Island; M.S., 1968, University of Michigan; Ph.D., 1972, University of Rhode Island.
- Phelps, Donald K., *Adjunct Assistant Professor of Oceanography*, 1969. B.A., 1951, M.S., 1958, Ph.D., 1964, University of Rhode Island.
- Pogacar, Srecko J., *Adjunct Assistant Professor of Pharmacology*, 1969. M.D., 1953, University of Ljubljana.
- Prager, Jan C., *Adjunct Associate Professor of Microbiology*, 1967. B.Sc., 1954, M.Sc., 1956, University of Cincinnati; Ph.D., 1961, New York University.
- Sahagian, Charles S., *Adjunct Assistant Professor of Chemical Engineering*, 1970. B.S., 1950, Boston College.
- Schneider, Eric, *Adjunct Professor of Oceanography*, 1974. B.A., 1962, University of Delaware; M.S., 1965, Ph.D., 1969, Columbia University.
- Schwartz, Joseph B., *Adjunct Associate Professor of Pharmacy*, 1976. B.S., 1963, Medical College of Virginia School of Pharmacy; M.S., 1965, Ph.D., 1967, University of Michigan.
- Sherman, Charles H., *Adjunct Associate Professor of Ocean Engineering*, 1974. B.A., 1950, Massachusetts Institute of Technology; M.S., 1957, Ph.D., 1962, University of Connecticut.
- Sherman, Kenneth, *Adjunct Professor of Oceanography*, 1977. B.S., 1954, Suffolk University; M.S., 1959, University of Rhode Island.
- Shonting, David H., *Adjunct Professor of Oceanography*, 1975. B.S., 1955, M.S., 1958, University of New Hampshire; Sc.D., 1966, Massachusetts Institute of Technology.
- Silverman, Gerald, *Adjunct Professor of Food and Nutritional Science*, 1969. B.S., 1950, M.S., 1952, Ph.D., 1954, Cornell University.
- Simmons, Emory G., *Adjunct Professor of Botany*, 1972. A.B., 1941, Wabash College; A.M., 1946, DePauw University; Ph.D., 1950, University of Michigan.
- Smith, James R., *Adjunct Associate Professor of Pharmacology and Toxicology*, 1976. B.S., 1963, University of Missouri; M.Ph., 1968, Ph.D., 1970, Yale University.
- Spano, Leo A., *Adjunct Assistant Professor of Chemical Engineering*, 1967. B.S., 1943, M.S., 1948, University of Rhode Island.
- Tenore, Kenneth R., *Adjunct Professor of Oceanography*, 1976. A.B., 1965, St. Anselm College; M.S., 1967, Ph.D., 1970, North Carolina State University.
- Thomas, Carol J., *Adjunct Professor of Community Planning and Area Development*, 1971. B.S., 1948, Syracuse University; M.S., 1948, University of Connecticut.
- Tilly, Lawrence J., *Adjunct Professor of Zoology*, 1974. B.S., 1952, Elmhurst College; M.S., 1953, University of Illinois; Ph.D., 1965, State University of Iowa.
- Turner, Michael D., M.D., *Adjunct Professor of Pharmacology and Toxicology*, 1979. M.D., 1950, University of Bristol, England; Ph.D., 1964, University of Rochester, New York.
- Verrier, Richard L., *Adjunct Assistant Professor of Pharmacology and Toxicology*, 1976. B.A., 1965, University of New Hampshire; Ph.D., 1969, University of Virginia.
- Vidins, Eva I., M.D., *Adjunct Associate Professor of Pharmacology and Toxicology*, 1977. M.D., 1966, University of Toronto.
- Villatico, Alfred V., *Adjunct Assistant Professor of Pharmacology and Toxicology*, 1979. B.S., 1942, University of Rhode Island.
- Walsh, Alexander H., *Adjunct Professor of Animal Pathology*, 1976. D.V.M., 1957, Cornell University; Ph.D., 1972, University of Wisconsin.
- Wang, Der-Hsiung, *Adjunct Assistant Professor of Resource Economics*, 1978. B.S., 1964, M.S., 1967, Chung-Hsing University, Taiwan; Ph.D., 1975, Oregon State University.
- Weisberg, Robert, *Adjunct Professor of Oceanography*, 1976. B.S., 1969, Cornell University; M.S., 1972, Ph.D., 1975, University of Rhode Island.
- Williams, David O., *Adjunct Assistant Professor of Biomedical Engineering*, 1977. B.S., 1965, Trinity College; M.D., 1969, Hahnemann Medical College.
- Wincze, John, *Adjunct Assistant Professor of Psychology*, 1978. B.A., 1965, Wesleyan University; M.A., 1967, Boston College; Ph.D., 1970, University of Vermont.
- Wood, David, *Adjunct Assistant Professor of Mathematics*, 1976. B.S., 1961, University of Utah; M.S., 1968, Lehigh University; Ph.D., 1972, University of Rhode Island.

Graduate Clinical Appointments

- Daher, Douglas M., *Clinical Adjunct Assistant Professor of Psychology*, 1976. B.A., 1971, M.A., 1973, Ph.D., 1976, University of Notre Dame.
- Regan, J. Barry, *Clinical Assistant Professor of Speech Communication*, 1972. B.A., 1953, M.A., 1954, Emerson College; D.Ed., 1967, Boston University.
- Yashar, J. John, *Clinical Lecturer in Pharmacology*, 1963. M.D., 1950, American University and Teheran University.

Graduate School Calendar

IMPORTANT NOTE: Requests for scheduling examinations must be submitted to the Graduate School Office at least 10 days prior to the date(s) requested. Oral and written examinations, including qualifying and comprehensive examinations and defenses of theses, will not be scheduled during periods when the University is in recess. During the winter intersession and summer session, such examinations will be scheduled only at the convenience of the faculty members involved and depending upon the availability of the candidate's program committee and additional qualified examiners. Students wishing to take any such examinations during these sessions should first check as to the availability and convenience of the faculty members. Each faculty member must initial the request for scheduling the examination to indicate willingness to serve. If they are not registered for course work or research during the summer sessions, students should register for Continuous Registration.

Fall Semester 1979

- September 4, Tuesday
Graduate registration, 8:00 a.m. to 6:00 p.m. Tootell Gymnasium. Fees must be paid at the time of registration. There is a late fee for continuing students who register after September 4.
- September 5, Wednesday
Classes begin, 8:00 a.m.
- September 18, Tuesday
Final date for dropping courses without \$5 penalty fee.
Final date for adding courses.
Final date for pass/fail options and audit requests.

- October 1, Monday
Final date for January master's degree candidates and June doctoral degree candidates to submit thesis proposals. Final date for nominations for January graduation due.
- October 8, Monday
Holiday, Columbus Day.
- October 10, Wednesday
Monday classes meet.
- October 22-26
Advance registration for 1980 spring semester, 9:00 a.m. to 4:00 p.m., Memorial Union.
- October 24, Wednesday
Mid-semester.
Final date for dropping courses without grading and to change from pass/fail option to grade.
- November 12, Monday
Holiday, Veterans' Day.
- November 22, Thursday
Thanksgiving recess begins 8:00 a.m.
- November 26, Monday
Classes resume, 8:00 a.m.
- November 30, Friday
Final date for nominations from departments for tuition scholarships for spring semester. Nomination must be accompanied by a statement of financial need.
- December 14, Friday.
Classes end.
- December 17-22
Final examinations.
- December 21, Friday
Programs of study due for students admitted for fall semester 1979.
- December 27, Thursday
Last day for grades, 4:00 p.m.
- January 2, Wednesday
Final date for January candidates to submit completed master's and doctoral theses in a form acceptable for examination purposes along with the request for oral defense of thesis. **NO EXTENSIONS OF TIME WILL BE GRANTED.** Theses must be submitted at least ten days prior to the date requested for the oral defense. Selection of date should allow sufficient time for necessary revisions and retyping before submission in final form. See deadline below and note at beginning of this calendar regarding scheduling examinations during the winter intersession.

Spring Semester 1980

- January 14, Monday
Graduate registration, 8:00 a.m. to 6:00 p.m., Tootell Gymnasium. Fees must be paid at the time of registration. There is a late fee for continuing students who register after January 14.
Final date for January degree candidates to submit master's and doctoral theses, which have been successfully defended in final form, 9:00 a.m. **NO EXTENSIONS OF TIME WILL BE GRANTED.**

January 15, Tuesday
Classes begin, 8:00 a.m.

January 18, Friday
Final date for June master's degree candidates and August doctoral degree candidates to submit thesis proposals.
Final date for nominations for June graduation.
Final date for submission of annual reviews of doctoral candidates.

January 28, Monday
Final date for dropping courses without \$5 penalty fee.
Final date for adding courses.
Final date for pass/fail options and audit requests.

February 18-19
Washington's Birthday Recess. No classes.

February 29, Friday
Final date for nominations from departments for URI fellowships.

March 7, Friday
Mid-semester.

March 11, Tuesday
Final date for dropping courses without grading, and to change for pass/fail option to grade.

March 31, Monday
Spring recess begins, 8:00 a.m.

April 7, Monday
Classes resume, 8:00 a.m.
Final date for August master's degree and January doctoral degree candidates to submit thesis proposals.
Final date for nominations from departments for tuition scholarships for the 1980-81 academic year.
Nominations must be accompanied by a statement of financial need.

April 7-11
Graduate advance registration for 1980 fall semester, 9:00 a.m. to 4:00 p.m., Memorial Union.

April 21, Monday
Final date for June degree candidates to submit completed master's and doctoral theses in a form acceptable for examination purposes, along with the request for oral defense of thesis, 9:00 a.m. NO EXTENSIONS OF TIME WILL BE GRANTED. Theses must be submitted at least ten days prior to the date requested for the oral defense. Selection of date should allow sufficient time for necessary revisions and retyping before submission in final form. See deadline below.

May 6, Tuesday
Last day of classes.

May 9, Friday
Programs of study due for students admitted in January 1980.

May 9-16
Final examinations.

May 19, Monday
Last day for grades, 4:00 p.m.

May 21, Wednesday
Final date for all June degree candidates to submit master's and doctoral theses, which have been successfully defended in final form, 9:00 a.m. NO EXTENSIONS OF TIME WILL BE GRANTED.

May 26, Monday
Holiday, Memorial Day.

June 1, Sunday
Commencement.

Summer Session 1980

NOTE: All courses taken by graduate students during summer sessions are subject to the same regulations regarding inclusion in programs of study and calculation of overall academic average, etc., as are courses taken during the regular academic year. Students wishing to take directed studies or special problems courses during summer sessions must obtain individual approval for these courses from the Summer Session Office unless the specific offering is listed in the *Summer Session Bulletin* for that year. Students wishing to enroll for thesis or dissertation research during summer sessions must ascertain first that their major professors and/or members of their thesis or dissertation committees will be available and are willing to provide the necessary supervision. See also the important note at the beginning of this calendar regarding scheduling of examinations, including defenses of theses, during summer session.

See Summer Session *Bulletin* available at the Summer Session Office.

June 11, Wednesday
Final date for nomination for August graduation.

August 4, Monday
Final date for all August degree candidates to submit completed master's and doctoral theses in a form acceptable for examination purposes, along with the request for oral defense of the thesis. NO EXTENSIONS OF TIME WILL BE GRANTED. Theses must be submitted at least ten days prior to the date requested for the oral defense. Selection of date should allow sufficient time for necessary revisions and retyping before submission in final form. See deadline below.

August 25, Monday
Final date for all August degree candidates to submit master's and doctoral theses, which have been successfully defended in final form, 9:00 a.m. NO EXTENSIONS OF TIME WILL BE GRANTED.
