INTRODUCTION

The *Institute of Integrative Omics and Applied Biotechnology (IIOAB)*, India (www.iioab.webs.com / www.iioab.ac.in) is a non-profit scientific organization that aims to provide a global platform for multidisciplinary research and advocacy. Other aspects of the organization are promotion of higher education, R and D, and to serve science, society, and the mankind. To fulfil its mission, IIOAB is now introducing a new open access, peer-reviewed, scientific international journal- the "*IIOAB Letters*" that will publish articles covering all aspects of biological sciences. The journal is dedicated to students, who are our future, and will provide a platform to all scientific community to publish their articles.

The journal is a collaborative effort of IIOAB and University Library System (ULS), Office of Scholarly Communication, Publishing and Web Services from University of Pittsburgh, USA. for putting their all valuable efforts in successfully launch the journal using Open Journal System (OJS).

The journal will publish basic and applied research articles, invited review articles, interviews, letters, reports etc. This journal will also provide a global forum for ethical and business knowledge exchange through publishing papers from all over the world. Another aspect of the journal is rapid review and fast publication.

The journal will be indexed in well known indexing agencies soon.

As an open access journal, the journal will be highly dynamic and interactive and all articles will be available freely immediately after publication. Therefore, all published article will be visible to researchers, teachers, students, and scientific community and industry people without delay.

We are simply convinced that this is the right time for introduction of this new journal and we are confident that the *IIOAB Letters* will be a very successful new launch and will be essential to all scientific community. Comments, suggestions and criticisms are always welcome.

Success of any journal depends on strong international and dedicated Editorial Board and fortunately, we have a respectable board consisting of highly qualified personalities from multidisciplinary Biological Science background and from across the geographical regions. During the end of this year, *IIOAB Letters* also will invite distinguished members for Editorial Board expansion. In the near future our efforts will be focused to increase the publication of high quality research papers and to get a good impact factor as soon as possible.

EDITORIAL BOARD

At present, we are glad to announce the current Editorial Team as:

Editor-in-Chief

Vasudeo Zambare, *PhD, FISBT, FSLSc, FSASc, FIIOAB*
Center for Bioprocessing Research & Development,
South Dakota School of Mines & Technology, USA

Debmalya Barh, *MSc, MTech, MPhil, PhD, PGDM*
Institute of Integrative Omics and Applied
Biotechnology (IIOAB), INDIA

International Advisory Board Member

Kent Blum, *PhD*
University of Florida, USA

Managing Editor

Marcela Pagano, *PhD*
Universidade Federal de São João del-Rei, BRAZIL

Joseph Antony, *PhD*
Sunnybrook Health Sciences Center, CANADA

Editorial Board

Eugenia Yiannakopoulou, *MD, PhD*
Technological Educational Institute of Athens,
GREECE

Rathinam Raja, *PhD*
Aquatic Energy LLC, USA

Usman Sumo Friend Tambunan, *DSc*
Universitas Indonesia, INDONESIA

Devarai Santhosh Kumar, *PhD*
Center for Cellular and Molecular Biology, INDIA

Juan Sebastian Yakisich, *PhD*
Karolinska Institute, SEWDEN

Mirza Hasanuzzaman, *M.Sc, (PhD)*
Kagawa University, JAPAN

CALL FOR PAPER

Dear Colleagues and Students,

We are glad to take the opportunity to invite you to submit your valuable research findings, review articles, short communications, case reports, letters etc. for publication in the first and subsequent issues of the *IIOAB Letters*.

We are confident that publishing in the *IIOAB Letters* will be a rewarding experience.

The journal will accept articles throughout the year and articles will be immediately published upon acceptance. Our efforts will always be to inform authors about the decision on their manuscript (s) within four weeks of submission and online publication within 45 days from submission of the manuscript.

Please submit your manuscript(s) using journal's online submission system that can be accessed from <http://iioablett.pitt.edu>. The manuscript must be submitted following the prescribed guidelines available at the journal website and using MS Word: 1997 or 2000 version.

Looking forward to publish your works.

Best regards,

Editor-in-Chief,
IIOAB Letters
