Small traditional university press transformation

=> open access online publishing endeavour with international presence

- University of Zagreb Faculty of Humanities and Social Sciences (FFZG)
 - humanities and social sciences
 - books and journals
 - scientific periphery

Current state

- openness?
- output type?
 - monographs and proceedings vs journals
 - digital/hybrid vs print only
- language?
- compliance with international standards?
 - metadata & identifiers
 - digital formats
 - content licencing
 - editorial practices & ethical conduct
 - usage data & citation data
- visibility and discoverability?

Journals

- All are present on Hrčak (not all are active!)
- 9 FFZG journals + 3 co-published with private publishers + 13 published by professional societies (but located and edited at FFZG)
- OJS: 2
- DOI: 6 (+6)
- Indexing:
 - DOAJ: 3 (+4)
 - Scopus: 5 (+6)
 - WoS: 1 (ESCI) (+4)
- Editorial practices & ethical conduct - non-uniform!
- Licencing - unclear!

Improvements?

- online support for editing and reviewing process (local support for OJS)
- CrossRef services
 - DOI assignment
 - Similarity Check
 - depositing publicly available references
- use of identifiers
- additional formats (xml, html, epub)
- defining policies on:
 - open access
 - copyright
 - plagiarism
 - licencing

Student journals

Goals:

- timeliness
- continuity
- platform
- archiving

Books

- *FF-press*: copyediting, proofreading, page layout & design, distribution
- monographs, edited volumes & proceedings, textbooks
- non-commercial (excl. textbooks)
- print-only (but existing digital formats for last 15 years)
- invisible in online environment!
- losing potential readers

We need:

- **Publishing platform / online catalog** for FFZG e-books
- High-quality structured metadata (**DC, ONIX, MARC**)
- Open access files (**pdf**, html, epub, xml) - for books & chapters
- Identifiers
 - **ISBN** (for every edition)
 - **DOI** (for books and chapters)
 - ORCID iD
- Multilingual platform
- **Copyright agreements with authors & open licences**
- Open references
- Archiving policy
- Business model & usage data
- Diverse distribution channels (DOAB, OAPEN, Google Scholar, Google Books, library catalogs and discovery systems, A&I databases, citation indexes...)

Choosing a platform

- own digital platform with open source software?
 - OMP – Open Monograph Press from Public Knowledge Project
- joining existing platforms?
 - Ubiquity
 - Knowledge Unlatched Open Services
 - OpenEdition
 - Open Book Publishers
 - OAPEN
- national collaboration? (with MorePress, hed-biblioteka...)

Ubiquity Press

- <https://www.ubiquitypress.com/site/publish/#partner-presses>
- supports publishing by academic societies and university presses
- Providing “a fully featured and completely re-branded platform hosting academic journals and books, and including all systems required to manage and operate the press”
- **APC/BPC model**

Knowledge Unlatched Open Services

- <http://www.knowledgeunlatched.org/ku-open-services/>
- Hosting, archiving, indexing, discovery
- Usage reports
- **No support for editorial and production process**
- One time fee per title: 150 € EUR

OpenEdition Books

- <https://books.openedition.org/books/397>
- Access to digital publishing software
- content structuring using XML-TEI
- Usage statistics
- Discoverability
- **Freemium model**

Open Book Publishers

- <https://www.openbookpublishers.com/section/23/1>
- Book production and distribution
- Open access
- new technologies for the book format (e.g. embedding multimedia content)
- Freemium (but with free pdfs)

OAPEN

- <http://www.oapen.org/content/join-publishers>
- Quality assurance
- Aggregation and digital preservation
- Dissemination and discovery
- Support with metadata
- Reporting
- Fee upon request
