DEDICATIONS

To my beloved wife, Suriza Ahmad Zabidi,

My lovely children, Muhammad, Zubair, Muaz, Sofwan and Yaasir,

For their love and company

To my father, Ihsan Hj. Awang and mother, Chong Kee Yin @ Aisah Abdullah

May Allah bless and grant upon them mercy

In this world and hereafter...

ACKNOWLEDGEMENTS

First and foremost, gratitude and appreciation is for Allah, the Most Merciful and Most Compassionate for granting me a precious opportunity to complete this work and granted me health and strength for the realization of this endeavor.

I would like to gratefully thank my supervisor, Dr. Waleed Fekry Faris for his scholarly guidance and tireless effort in assisting me in this very work. Truly this work shall not be completed without his continuous encouragement and support.

I would also like to thank to my co-supervisor, Prof. Dr. Ahmed Ali Shaaban Ashour for his motivation and guidance in keeping me going with the work and always making himself available for any assistance.

My sincere thank to my co-supervisor, Prof. Dr. Mehdi Ahmadian for his guidance and support, especially while hosting me as a visiting scholar at the Virginia Tech. Indeed the short visit was very valuable to this work and a big portion of it was as the outcome of the visit. Of course I will never forget the warm reception and helpful assistance from colleagues at the Virginia Tech. throughout the four months visit. Among all are Emmanuel Blanchard, Florin, Benny, Mohammed, Brendan and many more.

This work would not be possible without the scholarship provided by the Government of Malaysia and International Islamic University Malaysia throughout the study period. Also I must mention about the special fund granted by IICM for me to visit the Virginia Tech. as a visiting scholar.

Of course, I owe the greatest debt of gratitude to my beloved wife, Suriza Ahmad Zabidi, for her patience, support, understanding, assistance and prayer throughout my study. It would surely be impossible for me to complete this work without her contribution. Also gratitude to my sons – Muhammad, Zubair, Muaz, Sofwan and Yaasir for making my life very exciting and lively. Not to forget my deepest gratitude to my beloved mother, Chong Kee Yin@Aisah Abdullah and father, Ihsan Hj. Awang for their love and prayers.

TABLE OF CONTENTS

Dedication	i
Acknowledgements.....	ii
List of Tables	v
List of Figures	vi
List of Abbreviations	ix
List of Symbols	x
CHAPTER 1: INTRODUCTION	1
1.1 Overview	1
1.2 Ride Quality Criteria	2
1.3 Vehicle Suspension System	5
1.4 Scope of the Thesis	7
1.4.1 Research Objectives	8
1.4.2 Research Methodology	8
1.4.3 Layout Of The Thesis	9
CHAPTER 2: LITERATURE REVIEW	11
2.1 Introduction	11
2.2 Human Response to Vibration	11
2.3 Vehicle Response to Excitations	15
2.4 Ride Quality Testing	23
CHAPTER 3: MODELING AND PERFORMANCE CRITERIA	27
3.1 Introduction	27
3.2 Modeling in Vibration Engineering	27
3.3 Passive System and Semiactive Control Schemes	28
3.3.1 Passive Suspension System	28
3.3.2 Semiactive Control Schemes	31
3.3.2.1 Skyhook Control	32
3.3.2.2 Groundhook Control	33
3.3.2.3 Hybrid Control	33
3.4 Model Derivations	35
3.4.1 Quarter-car 2-DOF Model	35
3.4.2 Half-car 4-DOF Model	38
3.4.3 Full-car 7-DOF Model	42
3.5 Performance Criteria	47
3.5.1 Frequency-domain Analysis	48
3.5.2 Time-domain Transient State Analysis	49
3.5.3 Time-domain Steady State Analysis	51
CHAPTER 4: FREQUENCY RESPONSE COMPARISON	53
4.1 Introduction	53
4.2 All model comparison.....	53
4.2.1 Sprung Mass Acceleration	53
4.2.2 Suspension deflection	55
4.2.3 Tire deflection	57
4.3 H-car and F-car comparison on pitch response	60
4.4 Concluding Remarks	61

CHAPTER 5: TRANSIENT STATE RESPONSE COMPARISON	63
5.1 Introduction	63
5.2 All model comparison.....	63
5.2.1 Sprung Mass Acceleration	63
5.2.2 Suspension deflection	65
5.2.3 Tire deflection	67
5.3 H-car and F-car comparison on pitch response	70
5.4 Concluding Remarks	71
CHAPTER 6: STEADY STATE RESPONSE COMPARISON	73
6.1 Introduction	73
6.2 All model comparison.....	73
6.2.1 Sprung Mass Acceleration	73
6.2.2 Suspension deflection	75
6.2.3 Tire deflection	78
6.3 H-car and F-car comparison on pitch response	81
6.4 Concluding Remarks	82
CHAPTER 7: RMS ANALYSIS OF HALF-CAR 2-DOF	83
7.1 Introduction	83
7.2 Model Formulation	83
7.3 Mean Square Responses of Interest	85
7.4 Relationship between the Various State Variables	88
7.4.1 Transfer Function Analysis	90
7.4.2 RMS Analysis	95
7.5 Concluding Remarks	101
CHAPTER 8: CONCLUSIONS AND RECOMMENDATIONS	102
8.1 Highlights and Contributions of the Study	102
8.2 Conclusions	102
8.3 Recommendations for Future Studies	103
BIBLIOGRAPHY	105
APPENDIX A: H-CAR 2-DOF TRANSFER FUNCTIONS	109
APPENDIX B: H-CAR 2-DOF MEAN SQUARE VALUES	117
