ACKNOWLEDGEMENT

In the name of Allah.

I would like to thank all those who have helped me in numerous ways to complete this thesis.

My deepest gratitude goes to Dr. Roland Newman, to whom I feel deeply indebted for his untiringly motivating discussion, valuable comments and advice to me throughout the course of this work. His concern and support during critical and difficult times has had no limit of time and place.

My very special thanks go to my Director of Studies, Mrs. Valerie Bacon, who not only contributed her valuable comments, advice and discussion but also untiringly gave moral support during difficult times throughout. A word of thanks also goes to Mrs. Ackrill for her vast knowledge and valuable comment and support in the task of writing this thesis. Further acknowledgements must be made to Professor Jenks, Professor Dr. Rohaty Mohd Majzub and Professor Christine Pascal for their valuable comments on the earlier part of this study. Warmest thanks also goes to Zainal Abidin Zainal and Dr. Halim Ahmad from the Malaysian Ministry of Education for their contribution to the sections concerning the Malaysian pre-school provision.

Acknowledgements must be made to the Malaysian Government and the MARA Institute of Technology for the financial support that enabled the research to be undertaken.

A very special thanks to all the headteachers and teachers of all the case-studies for their time and contribution and permission to use the buildings, both in the U.K. and in Malaysia. Many thanks to staff of Dasar Architect for their assistant to make this book a reality.

This book is dedicated to my husband, Abdul Samad b. Ali, my daughters, Nur Amirah and Siti Khadijah, my sister, Siti Hasnah bt. Abdul Rahim and my family.

Glossary

Bibliography

Chapter 1

INTRODUCTION	1
The Research Problem	1
The Research Approach	4

Chapter 2

EARLY CHILDHOOD EDUCATION AND TEACHING METHODS	7
Introduction	7
Development of Early Childhood Education in the U.K.	10
Early Childhood Education in Malaysia	19
Theories of Teaching Methods Used in Early Childhood Education	27
The Impact of New Developments on Teaching Methods in Early Childhood Education In U.K. and Malaysia	40

Teaching Methods and the Design of Buildings for Early Childhood Education	54
Summary	58

Chapter 3

BUILT ENVIRONMENT AND PHYSICAL SETTINGS IN BUILDINGS FOR EARLY CHILDHOOD EDUCATION

Introduction	61
Open Plan and Multi-cellular Layouts	61
Multi-cellular and Open Plan in Primary School Buildings	65
Research on the Built Environment And Physical Settings in Buildings For Early Childhood Education	72
The Built Environment	79
Development of Research During the 1980s and 1990s	87
The Impact of Built Environment on Children's Behaviour and Development	91
Built Environment and Cognitive Development	94
Recent Research on Two Dimensions of the Environment	96
Toward an Interactional Theory of Child/Environment Relations	107
Unresolved Issues	108
Studies of Built Environment and Child Development by Researchers from Different Profession	111

Problems of Buildings for Early Childhood Education in Accommodating Mismatch of Teaching Method and Building Type	112
--	-----

Chapter 4

FLEXIBILITY IN THE DESIGN OF BUILDINGS	115
Introduction	115
Early Studies Relevant to the Concept of Flexibility	117
Adaptability in the Built Environment	118
Nature of Changes and Anticipating Future Requirements	122
Flexibility and Adaptability	125
Flexibility and Adaptability in Educational The Definition of Flexibility Used in this Research	131
Summary	137
	138

Chapter 5

THE RESEARCH PROBLEM AND METHODOLOGY	143
Introduction	143
The Research Problem	143
The Hypothesis	146
The Research Approach	149

The Selection of Sample	155
Methods of Data collection and the Methods Used	161
Pilot Study	170
Data Analysis	173
Summary	182
Chapter 6	
CONCLUSIONS	183
Introduction	183
Recommendations	186
