ABSTRACT

The website is implemented to address the difficulties of residents of Mahallah Hafsa in order to know the latest information and news about their mahallah. Currently, students have to look at the mahallah's notice board to know any latest news or information about the mahallah. There may be some students who are very busy and do not have time to see what is the latest information put on the notice board. So, when Mahallah Hafsa has its own website, all residents can visit this website. They can know more about their mahallah latest news and because there is a lot of information that can be included in the website. They only have to go to the lab, cyber café or surf Internet at their home in order to visit the website. In addition, the students' room information system that included in this website can make the students complete their online registration at mahallah office quickly because they already know all the information about their new room and other related information such as either they have imposed any penalty or not. Students can check their new room with this system at the end of every semester. Currently, the students have to queue for a long time to register at mahallah office because one student will spend much time to settle their registration. Islamically, students should be exposed to current development of their surroundings, their website should assist muslimah in setting news in Islamic manner.

16.1 Introduction

Mahallah Hafsa was opened around 1998 after the opening of International Islamic University Malaysia (IIUM). Among other residence hostels, it was the first residence hostel in IIUM to be opened.
