## The problems facing the agricultural sector in Nigeria and the prospect of muzara'ah and supply chain model (Article)

Oladokun, N.O., Larbani, M., Mohammed, M.O.

International Islamic University of Malaysia, Kuala Lumpur, Malaysia

### Abstract

[View references \(26\)](#)

**Purpose** – The purpose of this paper is to develop a **Muzara'ah-supply chain model** for the purpose of enhancing **agricultural** financing and productivity in **Nigeria**. **Design/methodology/approach** – In this paper, an expert survey approach was employed to validate the newly developed **model**. **Findings** – A survey result on **the model** reveals that majority of the respondents agreed with **the Muzara'ah-supply chain model** and preferred it to the existing **models**. **Research limitations/implications** – The main limitation of this study is limited number of respondents. **Practical implications** – With this newly developed financing **model** that is based risk sharing principles, the application of this **model** could help to reduce moral hazard and enhance **agricultural** productivity. **Originality/value** – To the best knowledge of the researchers, such kind of study for financing agriculture does not exist in the case of **Nigeria**. © Emerald Group Publishing Limited.
