# FINANCIAL ACCOUNTING AND REPORTING 2

This book caters for degree students pursuing accounting and business courses at institutions of higher learning. Aligned with the framework-based teaching of International Financial Reporting Standards (IFRS) pedagogy, this comprehensive book contains 10 chapters that build on the knowledge and skills introduced in *Financial Accounting and Reporting 1*. It exposes students to more complex items, while exploring topics such as property, plant and equipment, inventory, intangible assets, investment property, biological assets, financial instruments, leases, deferred tax, introduction to group accounts, as well as impairment of assets.

Students are guided in a systematic and progressive manner to acquire the required technical competencies in MFRS. The discussions are aptly punctuated with relevant worked examples to enhance the students' understanding of various concepts and issues, and how these are related to the conceptual framework. They are also provided with ample review questions, application exercises and case studies to assess and reinforce their learning.

## Key Features

- Complies with the latest Malaysian Financial Accounting and Reporting Standards (MFRS)
- Adheres to the financial accounting syllabuses of local universities, based on the *Hala Tuju 3*
- Presents important topics and concepts in a systematic and accessible manner
- Discusses the fundamentals and issues with worked examples to enhance students' grasp of the topics
- Provides ample review questions, application exercises and case studies to assess and reinforce students' technical competencies in MFRS

**S. Susela Devi** is the Dean and Professor of the Faculty of Business Technology and Accounting, UNITAR International University.

**Nurmazilah Mahzan** is an Adjunct Professor at UNITAR International University.

**Akmalia Mohamad Ariff** is a senior lecturer at the School of Maritime Business and Management, Universiti Malaysia Terengganu (UMT).
