2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 Tokyo Main Library: Periodicals Counter Stacks 1201601596905

#### Articles in this material

#### [Contribution to Heat Flux to Anode Affected by Frequency in Pulsed TIG Welding with Iron Vapor](#)

TML

Articles Tatsuro Tanaka, Shinji Yamamoto, Toru Iwao, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.1-7

#### [Analysis of Arc Conductance Decay in Post Arc Using Electromagnetic Thermal Fluid Simulation](#)

TML

Articles Yoshifumi Maeda, Yuya Ishikawa, Ken Sato, Seisui Ono, Shinji Yamamoto, Toru Iwao, Yusuke Mori, Takahiro Otsuka, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.9-13

### Magnetohydrodynamic simulation of arc-circuit instability in a high voltage direct current circuit breaker

TML

**Articles** Satoshi Hirayama, Hikari Sato, Yoshitaka Inui, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.15-20

### Numerical Research on the coupled Fluid-Mechanical Dynamic Analysis of High-voltage Self-blast circuit breakers

TML

**Articles** Jee-yong Park, Ming Cui, Chae-yoon Bae, Young-geun Kim, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.21-26

### Understanding Switching Arcs and Dielectric Capability of a SF<sub>6</sub> Self-Blast Interrupter

TML

**Articles** Won-Ho Lee, Jeong-Ho An, Jong-Chul Lee, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.27-30

### Three-Dimensional LTE Simulation on SF<sub>6</sub> Gas-Blast Arcs in a Nozzle Space

TML

**Articles** Kosuke Murai, Tomoyuki Nakano, Yasunori Tanaka, Yoshihiko Uesugi, Tatsuo Ishijima, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.31-36

### EARLY DETERIORATION OF PALM FATTY ACID ESTERS (PFAE) OIL

TML

**Articles** Abdul Rajab, Motoo Tsuchie, Masahiro Kozako, Masayaki Hikita, Takashi Suzuki, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.37-40

### Characteristics of atmospheric-pressure glow discharge surrounded by mist-flow

TML

**Articles** Tomoyuki Tanaka, Naoki Shirai, Satoshi Uchida, Fumiyoshi Tochikubo, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.41-44

### Development of Compact Pulsed Power Modulator for Microscope

TML

**Articles** 福村 諒, 草場 勇介, 佐久川 貴志, 秋山 秀典, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.45-50

### Development of High Voltage Pulsed Power Generator for Inactivation of Cyanobacteria

TML

**Articles** Keisuke Oura, Akira Matsuo, Takashi Sakugawa, Tomohiko Yamashita, Hidenori Akiyama, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135 · 136 · 138-142 · 145-152 · 154 · 156 · 159 · 160 · 162-166 · 168-170):2016.11.5 p.51-55

### The Development of The Next Generation Ignition System Using The Nanosecon

TML

### d Pulse Power in The Gasoline Internal Combustion Engine

**Articles** Hitoshi Ueda, Ryo Nakamura, Hideaki Nariai, Takahiro Watanabe, Hidenori Akiyama, Takashi Sakugawa, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.57-61

### Microprojection heating caused by approach of microparticle

**Articles** Haruki Ejiri, Akiko Kumada, Kunihiko Hidaka, Taiki Donen, Mitsuru Tsukima, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.63-66

TML

### Influence of surface flashover and charging characteristics in vacuum on alumina ceramics exposed to intense X-ray irradiation

**Articles** Ryoto Yamashita, Yasushi Yamano, Inamoto Takayuki, Abe Ryo, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.67-72

TML

### Concurrent flashover phenomena of a parallel gap configuration : Effects of gap length and residual voltage

**Articles** Takatoshi Shindo, Megumu Miki, Toru Miki, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.73-76

TML

### Particle-initiated Surface Flashover Characteristics for Various Ribbed Profile in SF<sub>6</sub> Gas

**Articles** Dong-Hun Oh, Jae-Hong Koo, Bang-Wook Lee, Chae-Min Lee, Dong-Hoon Jeong, Jae-Kyu Seong, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.77-80

TML

### Study on improvement of discharge characteristics of a surge arrester with a spark gap

**Articles** Hibiki Horie, Takuma Miyake, Tatsuya Sakoda, Tatsuya Tokunaga, Katsutaka Kubo, Manabu Mizutani, Takato Fukano, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.81-85

TML

### A New Approach for Aging Estimation by using the Used Cable Diagnosis of 3D Matrix

**Articles** Seung-Won Lee, Su-Hwan Kim, Hwi-Gon PARK, Jee-Hyeok HEO, Jang-Seob Lim, Young-Hyun Kim, Tae-Wan Kim, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.87-91

TML

### A Proposed Economical Replacement of Oil-Filled Cables using the Health Index

**Articles** Su-Hwan Kim, Seung-Won Lee, Jang-Seob Lim, Ji-Won Kang, Chae-Kyun Jung, Hwang-Sok Park, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.93-96

TML

### Transient Recovery Voltage at Transformer Limited Fault Interruption

TML

**Articles** Masaya HIRAIDE, Tadashi KOSHIZUKA, Eiichi HAGINOMORI, Yasuhiko TANIGUCHI, Hisatoshi IKEDA, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.97-102

### Proposal of Treating Method Regarding a Vertical Power Cable in EMTP

**Articles** Ryoji Oshiro, Yuto Hachiman, Eiji Kaneko, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.103-106

TML

### Rail Model for Lightning Surge Analysis Based on FDTD Simulation Results

**Articles** Akinori Hori, Hiroki Tanaka, Naoto Nagaoka, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.107-112

TML

### Improvement of Convergence Properties of Interface Problems in Iterative Domain Decomposition Method Applied Double-Double Precision

**Articles** Takehito Mizuma, Amane Takei, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.113-116

TML

### FDTD Computation of the Transient Electric Field of an Arrester

**Articles** Alfonse K. Nzengula, Ryo Murakami, Shunsuke Imato, Yoshihiro Baba, Naoto Nagaoka, Naoki Itamoto, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.119-122

TML

### FDTD Analysis of the Error of Estimated Lightning Electromagnetic Field Direction due to the Presence of a Grounded Structure

**Articles** Shohei Araki, Yoshihiro Baba, Naoto Nagaoka, Toshihiro Tsuboi, Shigemitsu Okabe, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.123-128

TML

### Evaluation on the legitimacy of "assumption of plane waves" in the result in numerical calculation in surge impedance $Z_p$ in peaks $E_p$ and $B_p$ in the electric fields $E$ and magnetic fields $B$ caused by the vertical first lightning return strokes to the flat ground of downward flashes in conventional methods

**Articles** Hiroshi Kurita, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.129-135

TML

### Effect in "rising steepness on the vertical first lightning return strokes to the flat ground of downward flashes" et al. on the result in numerical calculation in peaks $E_p$ and $B_p$ in the extremely far electric fields $E$ and extremely far magnetic fields $B$ caused by the vertical first lightning return strokes in 50 kA in peaks in conventional methods

**Articles** Hiroshi Kurita, <Z43-224>

Periodical Title 電気学会研究会資料. ED = The papers of technical meeting on electrical discharges, IEE Japan / 放電研究会 [編] 2016(135・136・138-142・145-152・154・156・159・160・162-166・168-170):2016.11.5 p.137-143
