Title : The Effect of Economy of the Farmer Worker Family on Social Religious Activities in the Desa Simangambat Kecamatan Hutaraja Tinggi Kabupaten Padang Lawas North Sumatra

Economy is a discipline studying about the effort of the society to use limited resources to fulfill its needs (which is not limited) on goods and services. The need for living cost among farmer workers has stopped them to join weekly social religious activities in the Desa Simangambat due to economic problems. They must work every day even though they get limited income. This research discusses about The Effect of Economy of the Farmer Worker Family on Social Religious Activities in the Desa Simangambat Kecamatan Hutaraja Tinggi Kabupaten Padang Lawas North Sumatra. The objective of the research is to know The Effect of Economy of the Farmer Worker Family on Social Religious Activities in the Desa Simangambat Kecamatan Hutaraja Tinggi Kabupaten Padang Lawas North Sumatra. This research uses quantitative method. Data is analyzed based on product moment coefficient correlations using the SPSS 20.0. Data is collected from observation, interview and documentation. The populations are farmer workers consisting of 30 people. The samples are selected based on total sampling technique. This research shows that there is an effect with the coefficient score about 0,613 or 61,3%. This means that there is a strong correlation between two variables in the interval 0,60-0,799 so that the  $H_a$  is accepted and  $H_o$  is rejected. This thesis concludes that there is a correlation between the Economy of the Farmer Worker Family and Social Religious Activities in the Desa Simangambat Kecamatan Hutaraja Tinggi Kabupaten Padang Lawas North Sumatra.
