<b>SUMMARY</b>	<b>i</b>
<i>SUMARI (En Català)</i>	1
<b>ACKNOWLEDGEMENTS</b>	<b>ii</b>
<b>1. INTRODUCTION</b>	<b>1</b>
<b>2. OBJECTIVE</b>	<b>4</b>
<i>2. OBJECTIUS (En Català)</i>	4
<b>3. METHODOLOGY</b>	<b>5</b>
<b>3.1 Upholstery leather cleaners</b>	<b>6</b>
<b>3.2 Non-Typical leather cleaners</b>	<b>8</b>
<b>3.3 Ink soiling</b>	<b>9</b>
<b>3.3.1 Test ink penetration over time</b>	<b>9</b>
<b>3.3.2 Surface examination by optical microscope</b>	<b>9</b>
<b>3.3.3 Surface examination by SEM</b>	<b>11</b>
<b>3.3.4 Chemical contamination by ATR</b>	<b>13</b>
<b>3.4 Mechanism of soiling</b>	<b>15</b>
<b>4. METHOD</b>	<b>16</b>
<b>4.1 Upholstery leather cleaners</b>	<b>16</b>
<b>4.1.1 Upholstery leather samples</b>	<b>16</b>
<b>4.1.2 Upholstery leather cleaners</b>	<b>17</b>
<b>4.1.3 Leather/cleaners table</b>	<b>18</b>
<b>4.2 Non-Typical leather cleaners (and possible contaminants)</b>	<b>18</b>
<b>4.2.1 Non-Typical leather cleaners table</b>	<b>19</b>
<b>4.3 Ink soiling</b>	<b>19</b>
<b>4.3.1 Test ink penetration over time</b>	<b>20</b>
<b>4.3.1.1 Inks tested</b>	<b>20</b>
<b>4.3.1.2 Inks remover tested</b>	<b>20</b>

<b>4.3.2 Surface examination by optical microscope</b>	<b>21</b>
<b>4.3.3 Surface examination by SEM</b>	<b>21</b>
<b>4.3.4 Chemical contamination by ATR</b>	<b>21</b>
<b>4.4 Mechanism of soiling</b>	<b>21</b>
<b>4.4.1 Surface Charge</b>	<b>22</b>
<b>4.4.2 Surface Tension</b>	<b>22</b>
<b>4.4.3 Soiling by Martindale</b>	<b>22</b>
<b>5. RESULTS</b>	<b>23</b>
<b>5.1 Upholstery leather cleaners</b>	<b>23</b>
<b>5.2 Non-Typical leather cleaners</b>	<b>30</b>
<b>5.3 Ink soiling</b>	<b>31</b>
<b>5.3.1 Surface examination by optical microscope</b>	<b>31</b>
<b>5.3.2 Surface examination by SEM</b>	<b>33</b>
<b>5.3.3 Chemical contamination by ATR</b>	<b>35</b>
<b>5.4 Mechanism of soiling</b>	<b>35</b>
<b>5.4.1 Surface Tension</b>	<b>35</b>
<b>5.4.2 Soiling by Martindale</b>	<b>37</b>
<b>6. DISCUSSION</b>	<b>38</b>
<b>6.1 Upholstery leather cleaners</b>	<b>38</b>
<b>6.2 Non-Typical leather cleaners</b>	<b>39</b>
<b>6.3 Ink soiling</b>	<b>40</b>
<b>6.4 Mechanism of soiling</b>	<b>44</b>

<b>7. CONCLUSION</b>	<b>45</b>
<b>7.1 Upholstery leather cleaners</b>	<b>45</b>
<b>7.2 Non-Typical leather cleaners</b>	<b>46</b>
<b>7.3 Ink soiling</b>	<b>46</b>
<b>7.4 Mechanism of soiling</b>	<b>47</b>
<i>7. CONCLUSION ( En Català )</i>	<i>48</i>
<i>7.1 Netejadors per cuir</i>	<i>48</i>
<i>7.2 Productes per cuir i altres</i>	<i>49</i>
<i>7.3 Netejadors per tinta</i>	<i>50</i>
<i>7.4 Mecanisme d'embrutiment</i>	<i>50</i>
<b>8. FUTURE WORK</b>	<b>51</b>
<b>9. PUBLISHED WORK</b>	<b>51</b>
<b>10. REFERENCE</b>	<b>52</b>
<b>11. LIST OF FIGURES</b>	<b>54</b>

<b>13. APPENDIX 2 - Instruments</b>	
<b>14. APPENDIX 3 - ATR spectra</b>	
<b>15. APPENDIX 4 – Published work</b>	

## **SUMMARY**

The work reported in this document discusses the cleaning products used to clean upholstery leather finishes. The products examined range from leather cleaners, non-typical leather cleaners such as washing up liquids, furniture polishes, leather dressings, etc. Possible contaminants e.g. hair spray and finally ink removers. As a section of the project, an initial trial examining the mechanism of soiling of upholstery leather surfaces was carried out. The techniques discussed include optical microscope, scanning electron microscope and attenuated total reflectance.

## **SUMARI**

*El treball descrit en aquest document aborda l'estudi de productes de neteja del cuir i els seus efectes. Els productes examinats estan dividits en tres apartats:*

- *Netejadors específics per tapissaria de cuir; tant per tapissaria domèstica com per automòbil.*
- *Productes no específics aplicables en cuir (betums, netejadors multi ús per tapissaria i abrillantadors per mobiliari) i altres (sabó renta plats, lleva taques, laques i gel pel cabell).*
- *Netejadors per taques de tinta. Es va examinar a nivell microscopi la superfície del cuir després de la seva aplicació i la contaminació química soferta.*

*En la part final d'aquest treball es va iniciar un estudi sobre la tensió superficial de l'acabat ( capa més externa del cuir ) per determinar si aquesta propietat física té una possible implicació en el procés d'embrutiment de la tapissaria de cuir. Les tècniques emprades inclouen microscopía óptica, microscopía electrònica d'escombrat i reflectància total atenuada.*

## **ACKNOWLEDGEMENTS**

I would like to thanks BLC Leather Technology Centre and with special mention David Langridge for give me the opportunity to develop this final dissertation. Without them this work wouldn't had been possible. This year and a half working and living in Northampton has brought me incredible and amazing time. Not only for my professional performance or academy knowledge, also in my personal experience. I will never forget it.

I would also like to thanks all those people that directly or indirectly were or are around me; family, friends, teachers... receiving the best of all of you, I'm giving the best of me.
