“Meta-Objects in the IR: Using Sample Works as Training Tools”
Christy Shorey, University of Florida

<http://ufdc.ufl.edu/IR00010291/00001>

Created a fictional conference of IR example works. Each work for the “conference” shows how to load that type of item into the IR. e.g. Conference paper that explains how to load a conference paper. The metadata for the objects is the example used in the work.
