2008-09 Academic Catalog

A Baptist University of Arts, Sciences, and Professional Programs
Established in 1887

The Cedarville University Catalog is published annually by the admissions office. While every effort is made to provide accurate and up-to-date information, the University reserves the right to change, without notice, statements in the catalog concerning policies, fees, curricula, course offerings, and other matters.

A Word from Our President

Cedarville University's Christ-centered learning community provides an exceptional environment in which to prepare for your life's career and ministry.

We pray each student's experience at Cedarville is marked by tremendous growth – intellectually, physically, emotionally, socially, and spiritually. Those of us in the Cedarville family are committed to equipping students for lifelong leadership and service for our Lord by offering an education marked by excellence and grounded in biblical truth.

Christians have countless opportunities to engage the world for Christ through business, medicine, law, engineering, education, the pastorate, missions, public office, counseling, and many other professions. At Cedarville, we strive to challenge you in pursuing a heart for God, forming a mind for truth, making friends for life, and committing to service for eternity. We want you to be both a committed Christian and a competent professional so that you can make a difference in this world for Jesus Christ.

This catalog is designed to answer many questions you may have. All of us in the faculty, staff, and administration at Cedarville stand ready to assist and encourage you.

God Bless,

Bill Brown
President, Cedarville University

History

Cedarville College was established on January 26, 1887, through the vision of five godly men who dreamed of a college that would provide Christian young people with an education that was offered within a spiritual framework. Affiliated with the Reformed Presbyterian Church, the College attracted many area students and built its first building, “Old Main,” now called “Founders Hall,” in 1895. Year after year, Cedarville attracted a record number of students and soon gained a reputation not only for its Bible teaching but also for its liberal arts program.

The turbulence of the first 50 years of the 20th century led to hard times for the College. Following World War II and one final attempt at revitalization, the trustees realized that the enrollment could not support expenses. The College would either have to find another church group to assume its operation or close its doors.

At that time the trustees of the Baptist Bible Institute of Cleveland, Ohio, were seeking a campus on which to expand. Hearing of Cedarville College, they visited the campus and were convinced that Cedarville was the site that God had chosen for their school. Upon mutual agreement by both trustee boards, ownership of the College was transferred on April 4, 1953. Cedarville College became a Baptist college of arts and sciences. James T. Jeremiah, the pastor who first suggested the Baptist Bible Institute-Cedarville College connection, was called to be the College’s president.

Soon the College was alive and flourishing. By 1959, the enrollment had grown to 255. Faculty, staff, and facilities were added. Six years later the student body had nearly tripled to 763. By the end of Dr. Jeremiah’s 25-year tenure as president in 1978, the College’s enrollment had grown to more than 1,200 students.

Paul Dixon was then called to lead Cedarville College. Through his leadership, the College flourished in every area, with nearly 3,000 students, more than 100 programs of study, and many new facilities.

In April of 2000, the Board of Trustees voted to change the designation of the institution from college to university effective September 1, 2000. Under the leadership of the current University president, Dr. Bill Brown, the future looks bright for Cedarville University as it seeks God’s continued blessing and enters its 121st year of service with approximately 3,000 students.

Profile

Cedarville University is a Christ-centered, Baptist university of arts, sciences, and professional and graduate programs. Since its founding, Cedarville has coupled a balanced liberal arts program with a conservative theological position in regard to doctrine and patterns of conduct. All classes are taught by dedicated Christian professors who integrate the knowledge of their respective fields with biblical perspectives.

In keeping with the liberal arts concept, the undergraduate curriculum centers on a basic program of general studies including biblical education, communications, global studies, humanities, physical education, science and mathematics, and the social sciences. Following this program, students choose a major field of concentrated study related to their abilities, interests, and career goals. Upon completion, students receive the baccalaureate degree. The University also offers graduate coursework.

Mission

Cedarville University is a Christ-centered learning community equipping students for lifelong leadership and service through an education marked by excellence and grounded in biblical truth.

To achieve this purpose the University seeks to accomplish the following objectives:

1. To undergird the student in the fundamentals of the Christian faith and to stimulate each student to evaluate knowledge in the light of scriptural truth.
2. To encourage growth in Christian character in each student and to help the student accept responsibility for faithful Christian service.
3. To increase each student’s awareness of the world of ideas and events that are influencing our contemporary culture and to prepare each student to participate knowledgeably in our society.
4. To enable each student to develop sound critical and analytical reasoning.
5. To provide sufficient opportunities for each student to practice the skills of communication.
6. To offer opportunities for academic specialization and preparation for graduate study and to assist each student in selecting and preparing for a vocation.
7. To foster each student’s appreciation of and participation in wholesome avocational and cultural activities.

Recognition, Accreditation, and Licensure

Cedarville University is a four-year and graduate degree-granting institution chartered by the State of Ohio and certified by the Ohio Board of Regents. The University is approved by the State Department of Education and the Association of Christian Schools International for the education and licensure of teachers. The Bachelor of Science in Nursing degree is accredited by the Commission on Collegiate Nursing Education (CCNE). The Bachelor of Science in Mechanical Engineering degree and the Bachelor of Science in Electrical Engineering degree are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET). The Bachelor of Science in Social Work program is accredited by the Council on Social Work Education (CSWE). The Bachelor of Arts in Athletic Training program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The Bachelor of Arts in Business Administration program is accredited by the Association of Collegiate Business Schools and Programs (ACBSP). The Bachelor of Arts in Music program, the Bachelor of Music programs, and the Bachelor of Music Education programs are accredited by the National Association of Schools of Music (NASM).

The University holds membership in the North Central Association of Colleges and Schools, web: www.ncahlc.org, phone: 312-263-0456. This recognition signifies that the University is accredited.

The University also holds membership in the Council for Christian Colleges and Universities. For a listing of additional memberships, visit www.cedarville.edu/accreditation.

Information concerning accrediting agencies and respective accreditation requirements is available in the office of the academic vice president.

The Setting

Cedarville University is located on 400 acres at the north edge of the village of Cedarville, Ohio, a quiet town with a population of approximately 4,000. Founded in 1816 at the junction of two state routes, the village and its surrounding area have long provided a wholesome environment for learning.

This pleasant setting continues today. "Downtown Cedarville" features the historic Cedarville Opera House, two banks, haircutting establishments, post office, pharmacy, convenience store/gas station, a few restaurants, the ever-helpful Cedarville Hardware, and a coffee shop where many students like to relax and socialize with friends. Massie's Creek and an adjacent park offer hours of recreation, adventure, and reflection within a mile of the University.

Rolling hills and prospering farms border the village and University. This beautiful area, which extends westward to John Bryan State Park, has been recognized as one of the most scenic in the Midwest and serves as a popular spot for students.

Cedarville University is conveniently situated within easy access to shopping areas in the small cities of Xenia and Springfield. The University lies in the center of a triangle formed by three interstate highways, I-70, I-75, and I-71, and thus enjoys quick access to Columbus, Dayton, and Cincinnati. These metropolitan areas offer fine dining, professional sporting events, concerts, and employment opportunities.

Facilities

Alford Auditorium

Initially built as a church in 1853 and renovated by the University in 1903, Alford Auditorium has served the University in several capacities, such as a gymnasium, chapel, and theatre. The building with its newer annex now functions as classrooms and faculty offices.

Apple Technology Resource Center

The Apple Technology Resource Center was renovated in 1998 to further strengthen Cedarville's position as a national leader in instructional technology. The 24,000 square-foot facility houses four general classrooms, a 40-station general usage computer laboratory, a video-conferencing center, a computerized testing room, student lounges, and 17 offices. New electronic media facilities were added in 2004. These include four studios: a recording studio outfitted with a Mackie D8B and 2496 hard disc recording system, a television studio/control room equipped with three digital video cameras and "green screen" wall, a broadcast studio, and an audio computer studio.

Athletics and Recreation Complex

This complex features the Callan Athletic Center, Doden Field House, Fitness Center, and University Medical Services. It provides space for academic programs in the departments of athletic training, and exercise and sport science as well as for fitness and recreational activities.

Callan Athletic Center

Constructed in 1981, the Callan Athletic Center provides year-round recreation and training. This sports center features three full-length basketball courts, five volleyball courts, 11 badminton courts, a free weight room for athletes, team and general use locker rooms, and a laundry facility to meet athletic team needs. It seats more than 3,000 fans for basketball games. The newly renovated second floor, opened in January 2003, includes the varsity room, six new classrooms, an exercise science lab, and office space for faculty and coaches in the School of Social Sciences and Human Performance.

Doden Field House

The largest section of the complex is the Doden Field House, added in 2003. This 60,000 square-foot area features four courts that can be used for indoor soccer, basketball, volleyball, and other sports. It also includes three batting cages, a 200-meter track, and bleachers to seat 1,000 spectators. This track is used for individual walking and jogging as well as full indoor track meets.

Fitness Center

Also added in 2003, the fitness portion of the complex is an open, inviting area. A climbing wall, reaching 40 feet in height, captures the attention of all who enter. This fitness area provides a significant number of cardiovascular machines, free weights, and Nautilus strength-training machines. Students can also enjoy a room for aerobic classes and workouts, three racquetball courts, and a vending and lounge area. There is a new state-of-the-art athletic training room complex. Several staff offices and a storage area for outdoor recreation equipment are also located in the Fitness Center.

University Medical Services

Another section added to the complex in 2003 is University Medical Services, which provides ambulatory health care with a staff that consists of physicians and College Health Certified registered nurses. University Medical Services offers many health care services such as preventative care, illness care, wellness education, over-the-counter medications, allergy injection management, laboratory services, prescription medications, rehabilitation treatment, and an insurance claim service. See pages 9 and 264 for more information.

CDR Radio Network Center

This facility houses the CDR Radio Network, the University's radio ministry. Listeners worldwide "tune in" to CDR through a Real Audio Internet broadcast from the University website. A listener-supported ministry, the network offers a quality mix of praise and inspirational Christian music, Bible-centered programming, and relevant news and information.

Centennial Library

The 66,000 square-foot, two-story library served as the cornerstone of the University's 1987 centennial celebration. This structure brings together the latest information technologies for higher learning and provides general study and specialized seating for over 800 students. Designed to house a collection of up to 250,000 volumes, the library also contains the MediaPLEX, the Center for Teaching and Learning, the Curriculum Materials Center, computer and media-supported classrooms, a variety of individual and group study facilities, and the University archives.

The library presently houses approximately 200,000 volumes and provides almost 1,000 periodical subscriptions in print form and over 7,000 subscriptions in full-text computer format. As a member of OhioLINK, a cooperative of 86 institutional libraries, students and faculty have access to more than 10,000,000 unique titles in a centralized computer catalog. In addition, through an online computer network, OCLC, the library has access to approximately 50,000,000 books and other library materials in over 46,000 libraries in all 50 states, Canada, and many foreign countries.

Center for Biblical and Theological Studies

Situated on Cedar Lake, this innovative 59,000 square-foot structure supports Cedarville's Bible minor — where students will be grounded in God's word — as well as the nine Bible programs that prepare them for vocational ministry. It includes a technology-equipped homiletics lab, two lecture halls, 17 classrooms, accessible faculty offices, e-mail stations, a multimedia lab and a 40-station computer lab, along with a lounge, gallery and vending areas. The building also houses the University's Academic Enrichment Center, which provides tutoring and testing areas assisting more than 200 students with various disabilities.

Introduction

Collins Hall

Collins Hall houses the department of history and government, the travel study office, and the office for summer school and continuing education.

Dixon Ministry Center

The 120,000 square-foot Dixon Ministry Center, completed in 1996, includes the Jeremiah Chapel, the Christian ministries division, the department of music, art, and worship, and seven classrooms.

The 3,400-seat chapel is the site of daily chapel services that bring the University family together for worship and instruction from God's Word. This auditorium features a nine-foot Steinway grand piano and a Rodgers 960 organ.

The department of music, art, and worship facilities include 14 instructional studios, 20 practice rooms, four rehearsal halls, a piano pedagogy suite, a piano laboratory, a computer laboratory, three specialized classrooms, a large conference room, and a beautiful 250-seat recital hall.

Engineering, Nursing, Science Center

This facility demonstrates the University's firm commitment to providing a quality Christian education in the sciences. This 95,000-square-foot, three-story academic center contains 10 classrooms, including a 200-seat auditorium, 10 independent study laboratories, five conference rooms, 36 discipline-specific laboratories, 50 offices, and several lounges. The building also contains a 40-station general-use computer laboratory and features video and data connectivity in all offices, classrooms, and laboratories. Special features include three computer-equipped classrooms, a reflecting telescope with a 16-inch mirror, an audio visual learning laboratory, a simulated hospital ward, and an engine test cell.

Engineering Projects Laboratory

The 8,800-square-foot Engineering Projects Laboratory was opened in 2005 and houses a projects lab complete with a machine shop, welding area, ventilated paint and fiberglass booth, wood shop, and bays for up to six projects. The single-story steel building also features a multi-purpose conference room and six faculty offices.

Fine Arts Building

Located two blocks south of the main campus, this stately structure, donated by Andrew Carnegie, supports Cedarville's art program with a classroom, general art studio, photography darkroom, and faculty offices.

Founders Hall

This historic facility was renamed Founders Hall on Centennial Charter Day, January 26, 1987. Today this stately structure serves as Cedarville's administrative and academic headquarters with offices for the president, academic vice president, and Bible department faculty.

Human Resource and Safety Center

Following its renovation in 2001, the Human Resource and Safety Center houses the administrative offices of human resources, campus safety, and the copy center.

Milner Business Administration Building

Opened in 1987 and featuring the latest in instructional technology, the George Milner Business Administration Building contains 10 general classrooms, a computer classroom, the trading center, the center for business innovation, and faculty offices for the department of business administration.

Tyler Digital Communication Center

This facility, renovated in 2002, includes a graphic design lab, writing center, multimedia lab, three computer classrooms, seven general classrooms, and faculty offices. Offices for alumni, public relations, creative services, advancement, and computer services are also located in this building.

Patterson Hall

Formerly the home of the University's medical clinic, Patterson Hall now provides faculty office space for the department of communication arts.

Williams Hall

Providing classrooms and offices, Williams Hall serves as the home of the academic departments of education, language and literature, and psychology.

Stevens Student Center

This student-friendly facility houses the dining hall, snack shop, bookstore, six classrooms, general computer lab, post office, game room, student radio station, career services office, theatre, and student government. The 150,000-square-foot building is also the home of the admissions, financial aid, registrar, counseling, student life, and student life programs offices.

The main cafeteria serves 21 "all-you-can-eat" meals per week. Students have the option of choosing either the full 21-meal plan or the 14-meal plan. The President's Dining Room features formal dining in an elegant setting. Used by the University's president, it may also be reserved by students who wish to enjoy a formal dining occasion.

The bookstore endeavors to provide students with the materials necessary to enjoy a successful college experience. It offers everything from sweatshirts to textbooks and greeting cards to Christian music.

The theatre complex includes a 400-seat theatre, movement studio, makeup suite, scene design lab, scene shop, offices, and dressing rooms. The theatre has a 36-foot by 18-foot proscenium arch, 38 lines with full fly space, and a Gala electronic lift system for the orchestra pit.

Computer Network

Cedarville University is known nationally as a leader in campus computer networking and instructional technology, providing networked computers in each of the residence hall rooms, laboratories, and offices. One of the major advantages to the network, called CedarNet, is that students have access to over 150 commercial software packages directly from the residence hall rooms without going to a specialized laboratory.

CedarNet is a winner of the CAUSE Award for Excellence in Campus Networking. This prestigious national award recognizes colleges and universities that exemplify best practices in campus networking in higher education.

Equipment

The network features Intel or AMD computers with 1 GB or more of RAM, hard disk drive, DVD-RW/CD-RW drive, USB ports, Ethernet interface, and monitor. In addition, each networked residence hall room contains an inkjet printer/scanner. All computer laboratories offer high-quality laser printers and flatbed scanners. The library computer laboratory also features color printers, digital cameras, and other specialized equipment. Cedarville is a participant in Internet 2, which means that Internet traffic goes over the fastest-available connections. Each residence hall room has two 100-Mbps network connections, for use by the University-provided computer and for student-provided systems. Students who bring their own notebook computers have wireless access in all campus buildings and in many outdoor areas.

Access

All students living in a residence hall benefit from 24-hour access to the network. Residence hall computers are replaced on a three-year cycle so that students always have current technology available. To enable students to take further advantage of the network, public laboratories are conveniently open to on-and off-campus students with a total of 180 stations available.

Wireless network access is provided in classroom areas, co-ed lounges, dorm rooms, and in large gathering areas such as the Centennial Library, the Stevens Student Center, and the Dixon Ministry Center. Wireless access is also available outdoors on campus lawns and athletic fields.

Benefits

Students using the network can:

- Communicate electronically on campus with professors, friends, and classmates, or with friends and family around the world.
- Manage, display, and analyze data using spreadsheet, statistical, and database software.
- Search library holdings for personal and class research projects, papers, or presentations, even when the library is closed.
- Access their course schedule, college transcript, or business office account.
- Learn to use the network through online tutorials and training seminars for commonly used software applications.

Technology Advisory Council

The Technology Advisory Council consists of corporate leaders and professionals representing a variety of technology-oriented businesses. Annually, these experts advise the University and evaluate its plans for further strengthening Cedarville's position as a leader in instructional technology.

University Services

The University recognizes the importance of providing our students with a high level of support and provides a full range of student services including career services, counseling, and a strong orientation program for new students.

Career Services

The career services office seeks to assist students in determining their God-given skills and interests. Students use assessment tools to translate abilities, values, and aspirations into a plan of action for sound career/ministry decisions.

Career services provides materials for job-search techniques, resumé writing, interviewing, and gaining admission to graduate school. Interest inventory tests and a computer-assisted career development program are available to help students in determining majors and occupations. In addition to a career library, the career services home page (www.cedarville.edu/career) links to the very latest in network-based job search programs, guides to major employers, and directories for graduate schools.

Career Link Days are held each year to provide an opportunity for prospective employers to meet with students. Potential employers also visit the University for individual on-campus recruiting days. Video conferencing is available for employer/student interviews.

Registered students are placed in a job-match database that enables career services personnel to provide resumé to employers and publish them on the Internet. The office maintains credential files for all education majors and provides seniors and alumni with a reference/credential service.

Career Services Advisory Board

The Career Services Advisory Board consists of professionals from non-profit and for-profit sectors, other college career offices, and graduate school programs. The board meets annually to advise and evaluate Cedarville's plans for further strengthening the career and ministry placement services.

Counseling Services

The counseling services office provides a place where students can find understanding, encouragement, and counsel as they deal with personal, interpersonal, and spiritual concerns.

Staffed by licensed professional counselors, this service offers individual, 50-minute counseling sessions that work around each student's class schedule. Support groups that address specific topics of concern are available throughout the academic year. This service, for which students pay no additional charge, is offered by appointment. In the case of a crisis, the service is provided as needed.

Additional resources for counsel and guidance include the vice president for Christian ministries, faculty members, and staff members. Counseling services also offers referrals to both local and national mental health professionals. Faculty advisors are particularly prepared to assist students in program and course selection.

Health Care and Medical Services

Student health care is provided by University Medical Services (UMS), a full-service ambulatory care facility that provides health care services similar to a family practice office. UMS is located adjacent to the Doden Field House and contracts with several local physicians and practitioners so that health care services are available to students right on campus. UMS is staffed by expert physicians, nurses, and paramedics that love caring for young adults and are committed to providing quality health care. The services of UMS include physician and nursing appointments, physicals for athletics and ministry participation, academic physicals, laboratory services, prescription dispensary services, allergy clinic services, immunization clinic, and travel immunization services, to name a few. UMS also works closely with area hospitals and specialists to coordinate referrals for students to specialty physicians and for other medical services such as radiology testing.

Most services at UMS are free as a benefit of tuition, regardless of whether or not a student has insurance. Examples of free services include over-the-counter medications, equipment loans, and visits to see the nurse due to illness or injuries. There is a \$15 charge for physician and nurse practitioner visits and a nominal charge for prescription medications, immunizations, and lab testing. Students will be given a receipt for any fees incurred at UMS, and any charges will be placed on the student's account. Because UMS is not set up to bill any insurance company, it is recommended that students contact their private insurance

company or the student health insurance office for any insurance benefits to which they may be entitled.

Phone: 937-766-7862

Fax: 937-766-7865

Web: www.cedarville.edu/ums

E-mail: univmed@cedarville.edu

Another health care service available to students on campus is Cedarville University Emergency Medical Services (CUEMS), a volunteer EMS ambulance ministry manned by students who are nationally and state certified EMTs and/or paramedics. CUEMS responds primarily to emergencies on campus. Also, CUEMS provides mutual aid to the Cedarville Township and the surrounding community when needed. The students who are involved in the ministry volunteer their medical expertise to the Cedarville University family and strive to demonstrate Christ's love and compassion to their fellow students in time of need. To learn more about the ministry of CUEMS, visit the following website: www.cedarville.edu/ums. For information about how you can become an EMT, refer to page 22.

Housing

Residence hall living is an integral part of the educational process at Cedarville. All single students under 23 years of age, except those commuting from the home of their parents or legal guardian, are required to live in University residence halls. Students 25 years of age and older must secure off-campus housing.

Approximately 80% of the student body lives on campus in University housing. Men and women are housed in separate residence halls. All offer convenient laundry and lounge areas and house just two students per room. Each room is fully furnished and "phone ready," permitting students to dial and receive calls directly. Every residence hall room is equipped with a networked computer and printer.

Housing assignments are made by the student life office. Upperclassmen who have paid reservation fees are given priority for reserving rooms. New students are assigned rooms after they have been admitted and have submitted their reservation deposits. Complete information concerning residence hall staffing, furnishings, and policies is found in the student handbook at www.cedarville.edu/studenthandbook. A student handbook will be mailed to new students prior to their arrival on campus.

Married students may find housing at Cedar Park, a University-owned apartment complex, or in one of many area apartments.

New Student Orientation

At the start of each semester, new students are provided with opportunities designed to facilitate adjustments to their new surroundings. The program includes orientation for parents. Special interest sessions, question and answer times, small group meetings, and social activities provide opportunities to adjust to a new environment. Placement testing may be required during orientation.

Vehicles

There are no restrictions on vehicle registration, however, for academic reasons, freshmen are discouraged from bringing a vehicle their first semester. Please understand that parking is limited and upperclassmen are given priority. All vehicles parked on campus must be registered at www.cedarville.edu/campusafety.

Chapel

Dr. Dixon, Cedarville's chancellor, has said many times, "The heartbeat of every Christian university is chapel."

Five days a week the Cedarville family and guests meet in the 3,400-seat James T. Jeremiah Chapel. At 10 a.m. the auditorium comes alive as the University family laughs, cries, sings, prays, and worships together. It is a place to connect as a strong family does.

Speakers from far and near grace the chapel platform to inspire and challenge. People like Dr. David Jeremiah, Dr. John Piper, Dr. Howard Hendricks, Rev. D.Z. Colfield, Mike Haley, Donna VanLier, Dr. Voddie Bauchman, Jr., and Carol Kent share personal testimonies or messages from God's Word.

Alumni often mention chapel as one of the things they miss most after graduation. Many return to sit in on one more chapel experience.

Christian Ministries

The Christian ministries division coordinates all University-sponsored student ministries. Cedarville views individual ministry involvement as a vital and necessary part of each student's education and personal growth. Students are taught that biblical Christianity demonstrates a servant's heart in all areas of life. All are challenged to consider how their academic disciplines, interests, and abilities can be used to demonstrate their faith. Cedarville endeavors to stretch students' vision of ministry and develop a constant awareness of God's call upon their lives.

Directed by the vice president for Christian ministries and coordinated through full-time and part-time staff members, the Christian ministries division provides training and assistance to the hundreds of students who volunteer each year.

Community Ministries

Weekly Ministry Teams

Cedarville University is located in a region known as the Miami Valley. The cities of Columbus, Dayton, and Cincinnati are close by, as well as hundreds of smaller communities. Approximately 80 teams serve the local communities and churches each week. Ministry teams seek to serve individuals and churches of this area by providing assistance in specialized areas, including crisis pregnancy/abstinence and counseling ministries, evangelism/urban outreach ministries, public school tutoring/teaching english ministries, youth and children's ministries, jail/detention center

ministries, hospital ministries, nursing home/elderly visitation ministries, special needs ministries, and local church ministries.

Spring Break Ministry Teams

A number of teams are available to give students the opportunity to minister during spring break. Ministries include, but are not limited to, the following: Child Evangelism Fellowship (PA), Project Genesis (NYC), Inner City Impact (Chicago), The Master's Mission (NC), Open Air Evangelism (NYC), Shepherd's Ministries (WI), Urban Hope (Philadelphia), and Urban Impact (NYC).

Cross-Cultural Ministries

The University's own Missions Involvement Services (MIS) provides unique opportunities for students to experience missions firsthand. Each year during breaks and in the summer, more than 350 students minister around the globe. This involvement in missions aids missionaries in their work and helps students discern God's direction in their own lives. Participants raise their own financial and prayer support prior to leaving and report on their ministries upon returning.

MIS participants have served nearly 70 countries since the program started in 1970. For specific information concerning potential ministries and selection procedures, students should contact the MIS director, Brian Nester.

Students considering international careers in education often take advantage of the MIS program to gain cross-cultural experience while completing the student teaching segment of their education requirements. Students interested in this option should contact the education department for information and approval.

The majority of students who participate in the MIS program do so as members of teams. Created to perform a particular service such as singing, drama, puppets, medical assistance, technical assistance, orphan care, teaching English as a second language, or physical labor, teams are typically selected each fall. Students interested in team ministries should contact the MIS director for details.

Discipleship Ministries

While many ministries concentrate on "outreach" from campus, the focus of discipleship ministries is "in-reach" on campus. Opportunities include approximately 100 student-led small group Bible studies as well as several prayer groups. Discipleship ministries are excellent avenues for students to grow in their walk with God and find opportunities to minister to fellow Cedarville University students.

Student Life

Cedarville seeks to maintain a culture that reflects the values of the Kingdom of Heaven and the spirit of Jesus Christ. The student life program is designed to support this kind of environment and to contribute to each student's growth intellectually, spiritually, socially, and physically. In each of these areas, the University recognizes the relevancy and authority of the Bible and accepts it as the final authority for faith and practice. Core values that shape the culture include love for God, love for neighbors, excellence in effort, and integrity in conduct.

Spiritual Emphasis

The University desires that each student grow in his or her relationship with Christ. Consequently, students are urged to regularly practice spiritual disciplines including worship, prayer, and Bible study. Daily chapel services provide spiritual encouragement and enrichment. Additionally, all students are required to maintain regular worship at a local church and to engage in other activities that enhance their spiritual formation.

Spiritual growth is further encouraged through student prayer groups that meet regularly to pray for special needs. One day a year is set aside as a "Day of Prayer," a time when the entire University family gathers to pray together.

Community Covenant

Cedarville recognizes and values the Bible as an authoritative guide for how Christians should live. It also recognizes that God uses community and relationships with other believers to encourage growth. The Cedarville family believes that behavior, as individuals and as a community, should bring honor to God and reflect obedience to His Word. At the beginning of each year, all students are asked to affirm their desire to abide by the following Community Covenant:

- We covenant together to express our love for God through our obedience to the authority of His Word, our practice of spiritual disciplines, and regular expressions of worship and Christian service.
- We covenant together to express our love for others through acts of kindness, wholesome and uplifting speech, redemptive expressions of confrontation and forgiveness, merciful acts to those in need, and loving proclamation of the Gospel.
- We covenant together to be people of integrity and self control, truthful in our speech, honest in our conduct, and morally pure in both thought and action.
- We covenant together to pursue excellence in all that we do as an expression of our gratitude to God and desire to be good stewards of all God's gifts, including our talents, time, and resources.
- As members of this community, we voluntarily submit ourselves to all of the guidelines in *The Cedarville Experience* and agree to uphold them with integrity and honesty.

The student handbook, *The Cedarville Experience*, is designed to help each student be successful academically, spiritually, and socially. It includes specific prohibitions to behaviors that are either sinful or harmful to this community, such as sexual immorality, use of alcohol, tobacco, or illegal drugs, and racial or sexual harassment. It also outlines some of the values that define and shape the culture here, including a simple dress code that seeks to remind students to dress and behave modestly and to take their academic work seriously. *The Cedarville Experience* can be accessed online at www.cedarville.edu/studenthandbook.

Touring Team Ministries

Touring teams offer an exciting opportunity to minister and represent Cedarville University. Selected on an audition basis, all team members receive a salary. Teams rehearse approximately six hours a week and travel five weekends each semester and nine weeks during the summer. Auditions are held each year during the first week of school.

- **Lifeline Players** (*six members*) use drama to encourage and challenge youth and adults in their faith (team selection is held in the spring).
- **The Master's Puppets** (*six members*) use puppetry and a variety of other teaching methods to minister to children.
- **HeartSong** is a talented group of students that present a fresh expression of their faith through music. Whether at a large conference or a small youth event, their quality of music and desire to serve provide a clean picture of the type of students at Cedarville University.

OneVoice Gospel Choir

OneVoice is a music ministry that is open to all students and uses various music styles including black gospel and contemporary Christian to spread the Gospel of Jesus Christ and encourage believers to celebrate the joy of the Lord.

Selecting a Ministry

All students participate in Christian ministries voluntarily. As a result of the large number of ministries available, deciding which way to serve can seem overwhelming.

In selecting a ministry, students should apply the following:

1. Consider your interests. Select a ministry that allows you to do something you enjoy.
2. Consider your vocational goals. There are many ministries that are directly related to the majors offered at Cedarville University. A Christian ministry related to your chosen field can help you decide if you have made the right choice and in some cases may lead to an internship, reference, or employment.
3. Talk with upperclassmen. Find someone who has experience in the ministry you are considering.
4. Talk with the Christian ministries staff in the Dixon Ministry Center. The staff is available to answer questions you might have.
5. Attend organizational meetings, many of which occur during the first two weeks of fall semester.

Guidelines

1. All students are encouraged to participate in the University's volunteer Christian ministries program.
2. Students are asked to record their current area of ministry involvement each semester.
3. University-owned transportation or mileage reimbursement is provided for those ministries approved through the Christian ministries division.

Students interested in participating on an intercollegiate athletic team should contact the admissions office or the respective coach. A limited amount of athletic financial aid is available for outstanding athletes. <http://yellowjackets.cedarville.edu/>

Campus Recreation

The campus recreation program provides 30 intramural sports, various outdoor pursuit trips, fitness programming, special events, and the 40-foot-high indoor climbing wall to help meet the fitness and recreational needs and interests of our University family. For a listing of activities and additional information, visit www.cedarville.edu/recreation.

Student Life Programs

The office of student life programs provides cultural, social, educational, and recreational activities. Programs include Christian concerts with groups like Newsboys, Jars of Clay, Third Day, and David Crowder Band; musical specialists; talent nights; all-school parties; special interest trips; retreats; topical discussions; and guest speakers. Involvement in campus organizations provides additional opportunities for learning and social interaction.

Leadership Opportunities

Student life programs provide opportunities for leadership development. The Leadership Institute at Cedarville University is designed to enhance the character traits, knowledge base, and skills of developing student leaders. The philosophy of the Leadership Institute assumes that inherent leadership potential varies in individuals based on personality strengths, intellect, and spiritual giftedness, but that all students can increase their leadership ability over time. Opportunities include, but are not limited to, the following:

- The Excel Initiative – Workshops for all students who desire enhanced leadership skills.
- The Character Forum – Panel discussions, chapel series, and awards develop and recognize strong character.
- Mentoring Programs – Veranda Life (women) and MMM (men) connect students with proven leaders for personal reflection and accountability.

Events that facilitate contact between students, faculty and staff are also planned. Ten/24 works in support of the community and family programs office, a department under the office of student life programs.

Admission Criteria

Cedarville University invites applications from high school students and transfer students who are able to present strong academic records and a clear testimony of faith in Jesus Christ. In selecting students, the admissions committee admits students who are most likely to contribute positively to the University community and to graduate. They carefully consider all factors that demonstrate the applicant's ability to succeed at Cedarville University. Students who wish to attend the University on a part-time basis should also follow these admission procedures.

Criteria for selection include:

1. Evidence of a personal relationship with Jesus Christ and a consistent Christian lifestyle.
2. High school transcript, recommendations, and rank in class.
3. Scores from the ACT or SAT tests.
4. College transcripts for all previous college coursework (if applicable)

ACT scores are preferred. Because test scores are used for placement purposes, transfer students may be asked to submit them.

Applicants with the best prospects for admission have academic credentials that include a college-preparatory high school curriculum, at least a "B" grade average, a rank in the upper half of the class, and an ACT or SAT test score above the national average.

Except for those admitted under the early admission program, students must give evidence of high school completion by the time they begin taking courses at the University.

The University does not discriminate on the basis of race, color, sex, or national origin. The University admits students with various disabilities.

High School Course Recommendations

Although the University does not prescribe actual high school course requirements, it recommends that students follow a college preparatory curriculum that includes:

- 4 units of English (grammar, composition, and literature)
- 3-4 units of mathematics (algebra I, II, geometry, and trigonometry)
- 3 units of natural science (physical science, biology, and chemistry)
- 3 units of social studies (history and government)
- 2-3 units of a single foreign language

Students planning to study engineering, science, mathematics, or nursing should take as many mathematics and science courses as possible in their secondary school curricula.

High school electives should be chosen to develop interests and skills in related practical fields. Skill in keyboarding is of real value in completing many course assignments and is of particular importance to students who plan to enroll in college computer courses. Keyboarding skill enables students to take full advantage of the extensive computer resources at the University.

Home-schooled Students

The University welcomes applications from students with non-traditional high school experiences. Scores from standardized tests such as the ACT or SAT are used to help assess readiness for college-level academic work. To assist students unable to take the ACT locally, the University offers the ACT on campus for prospective students by appointment.

Early Admission

Students who have completed their junior year of high school with advanced standing may apply for early admission. This is especially helpful for students who anticipate a lengthy graduate program after graduation from college. In addition to following normal application procedures, early-admission applicants should submit superior academic records, strong recommendations from high school teachers, and a statement of approval from parents or guardians. An interview is also suggested.

Early College

For information concerning The Cedarville Academy and Summer Studies see page 21.

Admission Procedure

Students are encouraged to apply online at www.cedarville.edu/myapplication. Paper applications are available from the admissions office.

To be considered for admission to Cedarville University, a student must:

1. Complete and return an application for admission with a \$30 application fee.
2. Send ACT or SAT score reports to Cedarville University. (Use the ACT code of 3245 or SAT code of 1151 when you register for the tests to have your scores sent directly to Cedarville.) The application for admission may be submitted before taking these tests.
3. Request that high school transcripts and a recommendation from the high school counselor be sent to Cedarville. Transcripts should include grades and class rank through at least the junior year.
4. Request a recommendation from the pastor or a church leader of the church the applicant attends.
5. Transfer students should request that official copies of transcripts for work completed at other colleges be sent to Cedarville University.
6. Students transferring from a Christian college must submit a recommendation from the dean of students.

Students who have been offered admission for a particular semester may request to defer their enrollment to a subsequent semester by notifying the admissions office in writing at least one month before the semester begins.

Transfer Students

Students who wish to transfer to Cedarville must submit, along with their application for admission, official transcripts of credit from all colleges attended. College-level credits earned at accredited colleges are usually transferable. Applicants with the best prospect of admission have academic credentials that include at least a “B” grade average (3.0 on a 4.0 scale) in a full-time college-level class schedule. Courses in which less than a “C-” is earned are not granted transfer credit.

Grades for courses taken at other colleges and transferred to Cedarville are not included in the Cedarville cumulative grade point average. Only the work completed at Cedarville is included.

To help in the transition to Cedarville University and to meet other new transfer students, all transfer students are required to attend a new student orientation.

Information concerning the transfer of credits is available from the office of the registrar. Specific course equivalencies can be determined upon receipt of official transcripts.

Deadlines and Notifications

In most cases, Cedarville University follows a rolling admissions procedure. An application is reviewed by the admissions committee as soon as the file is complete. A completed file includes an application for admission, a \$30 application fee, ACT or SAT scores, a high school transcript, a college transcript (if applicable), a high school counselor’s recommendation, and a pastor’s recommendation. Applicants are typically notified by letter within two weeks after the admissions committee acts upon the completed file.

There are times when the admissions committee recommends that an applicant’s file be held for later review. This process is known as deferred decision. Deferred decisions occur in December and March and involve a thorough review of the applicant’s academic credentials as well as a variety of personal factors. Applicants who are held for deferred decision will be notified by letter.

Re-admission

Cedarville students who miss the course registration deadline or sit out for one semester or more must apply for readmission. A student wanting to re-enroll should submit their application for readmission at least two months before the start of the semester.

Readmission forms are available online or from the admissions office. An updated recommendation from the pastor or church leader of the church you’re attending is needed. If college-level work has been completed elsewhere, official transcripts should accompany the application for readmission.

A student who has been readmitted after one year away from Cedarville University must complete the graduation requirements as outlined in the catalog in use at the time of re-enrollment.

Reservation Deposit

A reservation deposit must be submitted by new students as an indication of their intention to enroll. The amount of the deposit is \$250. This money is credited to the student’s account and used to cover first semester expenses. A student must submit a reservation deposit to register for courses.

The reservation deposit is fully refundable if the request for refund is received before the reservation deposit deadline. No refunds are available after the deposit deadline. All refund requests must be made in writing by the student.

Reservation deposit deadlines are as follows:

Term	Deadline
Fall Semester	May 1
Spring Semester	Nov. 1
Summer Session I	April 15
Summer Session II	May 15
Summer Session III	June 15

Students admitted after the reservation deposit deadlines must submit their reservation deposits within two weeks of notification of admission.

International Students

Cedarville University welcomes applications for admission from students of all nations. The University was approved for the acceptance of non-immigrant enrollment by the United States Citizenship and Immigration Services in 1959. The University highly values the international students in the student body and has special programs to aid in their adjustment and development.

International students should follow the University admissions procedures carefully, submitting their applications well in advance of deadlines so that sufficient time is available for processing and communication. Those coming from countries in which English is not the native language may need to demonstrate their proficiency in English by taking the Test of English as a Foreign Language (TOEFL) examination and earning a paper-based score of 550 (or better) or an Internet-based score of 80 (or better). All international applicants are required to submit TOEFL, ACT, or SAT scores. Cedarville’s institution code for the TOEFL /SAT is 1151 and for the ACT is 3245.

To satisfy United States Citizenship and Immigration Services requirements, Cedarville University is required by law to verify the financial resources of each international applicant prior to issuing the Certificate of Eligibility (Form I-20 for F-1 visa applicants or Form DS-2019 for J-1 visa applicants). In addition to completing application for admission materials to Cedarville University, applicants must also submit the Affidavit of Financial Support form (with supporting documents). Prior to final enrollment, international students must deposit funds to cover one year’s worth of expenses at the University in United States currency. University expenses include tuition, room, board, and variable costs.

Questions concerning immigration issues should be directed to the international student advisor.

International students may qualify for some academic institutional scholarships by submitting either SAT or ACT scores along with their transcripts. Campus employment is also available during the school year and summer.

Academic Information

The Cedarville University academic program is designed to meet the educational, moral, physical, social, and spiritual needs of young people who desire to honor God with their lives. The total program represents a balance between the knowledge gained through the courses studied, the co-curricular activities, and worship in the regular chapel and church services. In such a setting, truth from Scripture is integrated with the knowledge taught in each course to provide effective learning and enduring life values. The knowledge and skills learned from the courses give students an excellent background for professional competence in their chosen fields.

Calendar and Credits

The regular college year consists of two semesters of 15 weeks each plus final exam days, extending from August to May. Credits are earned in terms of semester hours; a semester hour equals one 50-minute period each week for one term. As an illustration, a student completing a course that meets 50 minutes a day, three days a week, for 15 weeks receives three semester hours credit. Laboratory sessions, applied music courses, physical education courses, compressed courses, and internships are exceptions to this pattern.

Classification of Students

Regular students are those who have met the requirements for admission, are enrolled in a degree program, and are carrying at least 12 semester hours of credit from Cedarville University in that academic semester. **Special students** are those who are not enrolled in degree programs. **Part-time students** are those who have met all admission requirements, are seeking a degree, and are taking fewer than 12 semester hours. **Transfer students** are those who have studied full time for at least one term at another accredited college or university after graduation from high school. **High school students** are those who have not completed high school graduation requirements.

Assignment to Classes

Official class membership is determined according to the following schedule:

Class	Hours Completed
Freshman	0-30.99
Sophomore	31-60.99
Junior	61-90.99
Senior	91+
Special	Assigned

Class Attendance

In general, regular attendance is necessary for the student to receive full benefit from the college experience. Since there are several different ways in which ideal class attendance may be achieved, official faculty policy allows each faculty member to determine and develop attendance standards that will meet the particular needs of the course.

Graduate Study

The Cedarville University graduate academic program is designed to meet the professional, personal, and spiritual needs of adults who desire to honor God with their careers and lives. Truth from Scripture is integrated with the knowledge taught in each course to provide effective learning and enduring life values. The knowledge and skills learned from the curricular experiences provide adults with an excellent background for professional competence in education in their chosen fields.

The **Teacher-Leader Program** is a 34 semester hour Master of Education degree (M.Ed.). This program serves educators interested in enhancing their classroom effectiveness and becoming instructional leaders in their schools.

The **Principal Licensure Program** is a 15 semester hour extension of the Teacher-Leader program. This program can be individually tailored to meet Ohio licensure requirements for elementary, middle school, or high school. Electives permit students to develop specific areas of emphasis that correspond to their particular interests.

Three benchmarks make the Cedarville University graduate program worth consideration.

- Convenience – Program design works well with active professionals.
- Cost – Tuition is competitively priced with other graduate programs.
- Content – Biblical truth is integrated into all course content.

For information about available graduate opportunities at Cedarville, an application, or a graduate catalog, contact the graduate admissions office at 1-888-CEDARVILLE (233-2784), e-mail gradprog@cedarville.edu, or visit the graduate program website at www.cedarville.edu/graduate.

Undergraduate Study

Degree Requirements

Cedarville University grants a master's degree and eight baccalaureate degrees: Master of Education (M.Ed.), Bachelor of Arts (B.A.), Bachelor of Music (B.M.), Bachelor of Music Education (B.M.E.), Bachelor of Science (B.S.), Bachelor of Science in Computer Engineering (B.S.Cp.E.), Bachelor of Science in Electrical Engineering (B.S.E.E.), Bachelor of Science in Mechanical Engineering (B.S.M.E.), and Bachelor of Science in Nursing (B.S.N.).

A degree candidate should carefully study the requirements for that degree as well as the special requirements for graduation found in this catalog. Careful attention to these requirements will enable the student to avoid doing unnecessary work.

Students are responsible to see that graduation requirements are met. Bachelor's degree requirements are listed below.

1. Meet all admission and proficiency requirements.
2. Complete at least 128 semester hours (not including proficiency), 32 hours of which must be of upper-division work (3000-4000 level courses).
3. Maintain an overall cumulative grade point average of not less than 2.0.
4. Maintain a grade point average in the major of not less than 2.0.
5. Establish minimum residency of one year (32 semester hours, normally the senior year).
6. Complete the general education requirements.
7. Complete the specific course and professional requirements for the desired major. At least one-third of the course requirements within a major must be taken from Cedarville University.
8. Pass ENG-1400 Composition.
9. Satisfy the appropriate global awareness requirement.
10. Participate in the University testing and assessment program when asked.
11. Complete an application for graduation.

Specific curricular requirements are outlined in each departmental section of the catalog.

Requirements for a Second Degree

If a student has a baccalaureate degree from Cedarville University and desires to earn a second degree, the student must:

1. Meet all the admission requirements.
2. Have fulfilled each of the general education courses in biblical education.
3. Earn a minimum of 160 credits (32 credits beyond the 128 minimum required for a first baccalaureate degree). At least 22 of the credits earned after 128 must be taken at Cedarville University.
4. Earn at least 43 credits in upper division courses (3000-4000 level courses).
5. Fulfill the requirements of a designated major of the second baccalaureate degree. Any appropriate coursework from the first degree may be applied toward the second degree.
6. Earn at least a 2.0 grade point average in the major.
7. Participate in the University testing and assessment program when asked.
8. Complete an application for graduation.

If a student has a baccalaureate degree from another institution and desires to earn a second degree, the student must:

1. Have earned the first baccalaureate degree from a regionally accredited institution of higher education or from an institution specifically approved by Cedarville University.

2. Meet all the admission and proficiency requirements.
3. Earn at least 32 credits from Cedarville University, including at least 22 credits of upper division courses (3000-4000 level courses).
4. Fulfill the equivalent of the Cedarville University general education requirements.
5. Fulfill the requirements of a designated major for the second baccalaureate degree.
6. Earn at least a 2.0 grade point average in the major.
7. Participate in the University testing and assessment program when asked.
8. Complete an application for graduation.

Graduation

All students must realize that it is their own responsibility to check on their progress toward meeting all requirements for graduation. They are urged to plan the class schedule for both semesters of the senior year at early registration time at the end of the junior year. This plan should be approved by the faculty advisor and checked to see that when it is completed all degree requirements will have been met.

To participate in the May commencement ceremony, students must submit applications for graduation by February 1st of the year they plan to graduate. This includes May, August, and December graduates.

IMPORTANT

The catalog in use when a student first enrolls governs that student's graduation requirements, unless that catalog is over 10 years old or that student has left and then re-enrolled more than one year later. Consequently, that catalog should be retained and used as a guide in case changes are made in the course or graduation requirements during the time the student is enrolled. A student may select a subsequent catalog if the student wishes; however, all requirements from that catalog must be completed.

Early Commencement

Students who cannot complete their graduation requirements before the end of the spring semester of their senior year, but who can complete them during the following summer or fall semesters, must apply to participate in commencement before degree requirements are met. Students who have more than 18 semester hours to complete after the spring semester must obtain approval from the office of the registrar to participate in commencement. Information concerning eligibility for August or December graduation and early commencement is available in the office of the registrar.

Academic Programs and Majors

Admission to Academic Programs

Some academic programs have unique requirements. For example, music students must audition for entry to that department; engineering candidates must meet a minimum test score requirement; students in education, social work, and nursing apply for admission to their respective programs during their sophomore year after the program prerequisites have been satisfied; admission into the athletic training program is competitive and limited to the top 10 eligible students. Therefore, students should review the specific entrance requirements outlined in the respective departmental sections of the catalog. Admission to the University does not guarantee admission to an academic program.

Selecting a Major

Many students have not chosen a major field of study by the time they enroll at Cedarville. Others change their major at some time during their collegiate studies. The University offers special advising and other services to help students make these important decisions through the academic assistance center.

Students uncertain of a major begin as “undeclared” majors. They work with academic advisors who specialize in helping students who have not yet chosen a field of study. Until they choose a particular major, undeclared students typically take courses specified as meeting the general education requirements. They are also encouraged to utilize the resources of the career services office. This office offers career profiles, interest inventories, and counselors so that students in the midst of making career decisions have good information.

Most undeclared students select a major by the middle of the sophomore year. In many instances, delaying the choice of major does not extend the time needed to graduate from Cedarville. However, in programs of study with extensive specific course requirements, delaying the choice of that major even one semester can cause students to take longer to complete degree requirements. The suggested four-year curricula listed with each major outlines the recommended course sequences.

Requirements of a Major

The amount of work for a typical major field approximates 36 semester hours and must include the requirements of the department. Comprehensive majors are typically from 48 to 60 hours. Specific requirements are listed at the beginning of department course offerings.

In order to graduate, a student must satisfy the requirements for at least one major field of study. With proper scheduling, he or she may concurrently complete the requirements for more than one major. Majors involving fewer than 42 semester hours of coursework lend themselves to this approach.

Major courses in which “D” grades are received may count as meeting the requirements of the major field if permitted by departmental policy. If “D” grades are not permitted, the department chair may approve a course substitution as an alternative to repeating a course.

To qualify for graduation, students must maintain at least a 2.0 grade point average for their major.

Major Fields of Undergraduate Study

The University offers 68 major fields of undergraduate study. Some of the majors represent combinations of two or more areas of study; these are denoted with an asterisk (*). Course requirements for each of the majors are outlined in the respective departmental sections of the catalog. Major fields of study include:

- Accounting
- Allied Health
- American Studies*
- Applied Psychology
- Athletic Training
- Bible Teacher Education*
- Biology
- Chemistry
- Chemistry Education
- Christian Education
- Church Music Ministries

- Theatre
- Women's Ministry
- Writing for the Professions
- Youth Ministry

Electives

The provision of elective choice is based upon the premise that students should have an opportunity to strengthen their major field or minor field or broaden their background by selecting courses in areas of inadequacy or interest. Elective choice also provides students with some flexibility should they decide to change major fields.

Special Academic Programs

Cedarville offers several special programs designed to enhance the collegiate experience and/or to help prepare for a particular career.

One-Year Bible Program

The University offers a concentrated program for the student who desires a formal education in Bible before pursuing a vocation at home or engaging in a field of technical study not available in a Christian school. It is designed so that a student can function as a more knowledgeable layperson at church. This curriculum is outlined in the biblical education section of this catalog.

Pre-professional Programs

Many students seek specialized training in professions after attending Cedarville University. A number of pre-professional programs are available. The preseminary curriculum, which prepares students for seminary studies and the gospel ministry, is outlined in the biblical education section of this catalog. The prelaw curriculum prepares students for law school and is explained in the history government section of this catalog. Preprofessional curricula in dentistry, medical technology, medicine, optometry, osteopathy, pharmacy, physical therapy, and veterinary medicine are described in the science and mathematics section of this catalog.

Other Programs

- Computer/Technology Teaching Endorsement
- Honors
- Medical Technology
- ROTC – Army and Air Force
- TESOL – Teaching Endorsement (Teaching English to Speakers of Other Languages)

Descriptions of these programs are located in the academic departments sponsoring the programs.

Early College: The Cedarville Academy and Summer Studies

High school juniors and seniors may enroll in The Cedarville Academy and take one online course each fall and spring semester at deeply discounted tuition rates. Designed for learners with the flexibility to take college courses as part of a high school curriculum, students may earn up to 12 semester hours of credit before arriving on campus as a freshman. Participants may be eligible for an Academy scholarship of up to \$2,000 to attend Cedarville University. Visit www.cedarvilleacademy.com.

Students who have completed their junior year of high school and who display sufficient academic strength may apply for the two week residential Summer Studies program held in mid-June. Designed to provide the full Cedarville experience, students enroll in one course and enjoy chapel, residence life, student activities, and ministry opportunities. Visit www.cedarville.edu/summerstudies.

Continuing Education

Cedarville University offers a variety of non-credit classes for lifelong learning through continuing education. Classes are open to students, faculty, staff, and adults from surrounding communities. Some courses and seminars are offered to fulfill CEU requirements for various professions.

Non-credit courses do not accumulate toward a degree or certificate, but are the same high quality programs that you expect from Cedarville University. They can be useful for career enhancement, personal improvement, or taken just for fun.

Typical classes include Reading Rate and Comprehension, EMT-Basic, and Beginning Sign Language, as well as non-credit certificate programs in Faith Community Nursing and STEPS (Seminar Training to Equip People for Service). New courses are periodically added; visit www.cedarville.edu/continuing for current course offerings.

EMT Classes and Special Credit

The Cedarville University Emergency Medical Services Education program was developed by the Center for Lifelong Learning to meet the needs of the Cedarville University EMS squad, local fire departments, and local EMS departments who are providing skilled emergency medical care to the communities they serve. Classes are offered on campus each semester and during the summer. After students complete and obtain state EMT-basic certification, they will be qualified to provide emergent care in a pre-hospital setting to their level of certification. The program is based upon the National Standard Curriculum EMT Basic 1994, prepared by the U.S. Department of Transportation.

Cedarville University will grant credit for EMT and paramedic training. Upon receipt of bona fide copies of National Registry certificates of completion, the University will grant three semester hours of elective credit for EMT basic training, two additional semester hours for EMT-intermediate training, and five semester hours for paramedic training.

In 2004 the University was granted authorization to conduct EMT-basic training by the State Board of Emergency Medical Services (Accreditation #387). Re-accreditation was granted in 2007 for another three years.

Summer Terms

The University offers two summer sessions on campus. Students can earn up to six credits in the three-week May Term that begins the week after graduation. A two-week session is held in June in which three credits can be completed.

The summer sessions appeal to a variety of students. Some wish to accelerate their college program. Students from other institutions may desire Bible courses that are not available at their institutions. Teachers find the summer terms a convenient means by which to update themselves in their disciplines. Others enjoy the advantages of smaller summer classes. Incoming international students recognize summer attendance as an excellent opportunity to become acclimated to academic pursuits before campus activities begin in the fall.

Continuing students interested in attending summer school should contact the Center for Lifelong Learning. New students should contact the admissions office. Visit www.cedarville.edu/summerschool.

International Study Opportunities

Students are encouraged to take advantage of a semester at one of Cedarville's satellite campuses. Participants remain enrolled at Cedarville, continue to receive financial aid, and take classes for Cedarville credit. Programs are mainly open to juniors and seniors. Advanced planning is highly recommended. For additional information and help with planning, contact Cedarville University's travel studies director. Application procedures and program details are also listed at www.cedarville.edu/internationalprograms.

Council for Christian Colleges and Universities (CCCU) Study Programs

Cedarville University participates with the CCCU in offering programs for students in the places listed below. Students interested in any program should contact the office of international programs (OIP) for more information.

- American Studies Program (Washington, D.C.)
- Australia Studies Centre
- China Studies Program
- Contemporary Music Program (Martha's Vineyard)
- Latin American Studies Program
- Los Angeles Film Studies Center
- Middle East Studies Program (Egypt)
- Oxford Honors Program and Oxford Summer Program
- Russian Studies Program
- Scholars' Semester in Oxford
- Uganda Studies Program
- Washington Journalism Center

ISEPS Program

The Instituto Sevillana de Estudios y Prácticas (ISEPS) is an independent, educational, and socio-cultural institute that offers programs in Spanish in Seville, Spain. Of special note is the **unique ISEPS** hands-on real-world internships in a wide range of professional disciplines for those students who wish to seriously develop genuine professional experience prior to graduation. ISEPS is available for students who want to study a semester, a year, or six weeks in the summer.

IBI – International Business Institute

The International Business Institute is a cooperative overseas program in international economics and business management. This 10-week program takes place in key locations in the major political and economic centers of Scandinavia, Russia, Eastern Europe, Western Europe, and the United Kingdom. It is open to students only during the summer after completing their junior year. Currently students receive credit for the following Cedarville courses: ECON-3350, ECON-3360, MRKT-4620, and MGMT-3570.

Additional International Programs

Cedarville has cooperating agreements with the following programs. Applications must be processed through the office of international programs (OIP).

- Brethren Colleges Abroad – BCA (several countries)
- Central College Abroad – CCA (several countries)
- Council of International Educational Exchange – CIEE (several countries)
- Creation Care Study Program – CCSP
- Dublin Business School & School of Humanities – DBS
- Focus on the Family Institute
- IBEX (The Master's College in Israel)
- Jerusalem University College – JUC
- Oxford Study Abroad Program – OSAP
- Romanian Studies Program (Social Work majors)

CCTECC Student Teaching Abroad Program

CCTECC is the Christian Coalition Teacher Education Coordinating Council, which is made up of Christian colleges from around the US. Since the late 1980s, this organization has been helping its member institutions place quality student teachers in quality schools on every continent except Antarctica. Cedarville students have taught in over 20 different countries. Literally speaking, the sun never sets on Cedarville student teachers.

Students apply for this program early in their junior year. Only those with a good academic record, strong character, and spiritual and professional performance references are allowed to go overseas. Only schools and cooperating teachers who meet Cedarville's standards and the requirements of the Ohio Department of Education participate with us. CCTECC helps ensure that students are placed in environments that are safe and nurturing both personally and spiritually. Students interested in this program should contact Dr. Brenda MacKay

Au Sable Institute of Environmental Studies

Students enrolled in the environmental biology curriculum may take advantage of courses offered by the Au Sable Institute, including field botany, land resources, limnology, marine biology, animal ecology, and restoration ecology. Students may choose to attend any of five Au Sable Institute locations: Au Sable Great Lakes (Mancelona, Michigan), Au Sable Pacific Rim (Whidbey Island, Washington), Au Sable East (Chesapeake Bay, Virginia), Au Sable Africa (Nairobi, Kenya), and Au Sable India (Tamil Nadu, South India). Au Sable courses provide academic content, field experience, and practical tools for stewardship of creational resources. The Institute grants vocational certificates for environmental analysts, land resource analysts, water resource analysts, and naturalists. Qualified students are awarded the Au Sable Fellowship that normally provides 50% of tuition costs. One or more Institute Grants-in-Aid of at least \$400 are also available each year. Honors scholarships of \$500 and Au Sable stewardship awards equal to the cost of room and board are granted to returning students. Interested students should contact Dr. John Silvius, Cedarville University's Au Sable Institute representative.

ARRIBA

ARRIBA, Academic Residency and Research Internship for Baptists Abroad, is a work/study program sponsored by Faith Baptist Bible College in Ankeny, Iowa, in cooperation with Baptist Mid-Missions. Cedarville students in any major may earn up to 30 semester hours of credit in Spanish, sociology, biology, religion, missions, cross-cultural studies, and general electives. Students involved in the program spend 11 months in Peru, South America, where classroom theory is integrated with practical application and experience in cultural studies, church planting, and alpine and rainforest studies, under the direction of experienced missionaries and college professors. Students interested in the program should contact Dr. John Silvius for additional information.

Cedarville Specific International Programs

The office of international programs is continually working with professors who desire to teach a specialized course in another location. Each summer there are opportunities for students to take general education and upper level courses through our own programs. Current program locations are listed below.

- Geology of National Parks (location varies)
- Germany
- International Business (country varies)
- Oxford

Academic Support Services

Each student is assigned to an academic advisor who offers counsel concerning course scheduling. A student who has not declared a major will be assigned to a special advisor equipped to offer assistance in selecting a field of study. Students are encouraged to consult their academic advisor prior to registration, whenever an academic problem is encountered, or when considering any changes in their educational program. A student with low grades in a major or minor field may be advised to select another field of study.

Academic Enrichment Program

The University offers a supplemental academic assistance program to serve students whose academic backgrounds do not reflect their collegiate academic potential. Components of this program include an orientation course entitled COLL-1000 Transitions, special advising, tutoring when necessary, and in some cases, diagnostic testing. Admission to the academic enrichment program is determined by the admissions committee. Students selected for this program usually take a typical freshman course of study comprised of general education requirements.

Students who complete the program find that this assistance during the first year of college helps them establish an excellent foundation for academic success in the future. A complete description of this program is available from the admissions office.

Students with Disabilities

Reasonable and appropriate adjustments or modifications are implemented for students with disabilities to ensure equal access and the opportunity to achieve educational objectives. Students with qualified disabilities seeking assistance at the post-secondary level must "self identify" in a timely fashion to the coordinator of disability services. Accommodations are determined on a case-by-case basis with the provision of documentation from a qualified professional. For additional information, contact the coordinator of disability services.

Tutoring

Tutoring is available to students desiring supplemental learning opportunities through a certified tutoring program offered by the academic assistance center. The center provides one-on-one tutoring, as well as free group sessions through the Student Government Association. Sessions include the following courses: GMTH-1040 Calculus for Business, CHEM-1000 Principles of Chemistry, GBIO-1000 Principles of Biology, GSS-1100 Politics and American Culture, and other classes as needed. Faculty assistance is available for all courses during office hours. The University encourages scholarship and academic success.

General Education Requirements

The University requires a pattern of proficiencies and courses to help achieve institutional objectives. These objectives are designed to provide an educational experience that broadens the student's outlook and knowledge.

The general education pattern is:

I. English and Mathematics Proficiency 0-5 hrs

Each student upon initial enrollment at the University must demonstrate proficiency in English and mathematics. Proficiency examinations should be taken before the end of the first semester of matriculation.

A. English.....(0-3)

Students may satisfy the English proficiency requirement through any one of the following methods:

1. Score 21* or higher on the English section of the ACT; or
2. Score 500* or higher on the verbal section of the recentered SAT; or
3. Score 53 or higher on the CLEP English Composition Examination; or
4. Score 32 or higher on the Cedarville University English Proficiency Examination; or
5. Complete a course equivalent to Cedarville University ENG-1000 Basic English with a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning prior to matriculation at Cedarville. The credits will not be transferred, but proficiency will be established and enrollment in ENG-1400 Composition will be permitted; or
6. Complete a college-level composition course with a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning. Proficiency will be satisfied and transfer credit will be awarded; or
7. If proficiency is not verified by any of the means listed above, the required proficiency must be achieved through a successful completion of the course ENG-1000 Basic English (three semester hours), **which is to be taken during the first semester of matriculation. These three credits do not apply toward the 128 credits needed for graduation.**

B. Mathematics.....(0-2)

Students may satisfy the mathematics proficiency requirement through any one of the following methods:

1. Score 19* or higher on the mathematics section of the ACT; or
2. Score 500* or higher on the quantitative section of the recentered SAT; or
3. Score 53 or higher on the CLEP College Algebra exam; or
4. Complete the ALEKS assessment with a score of 100 on the mathematics section and a score of 80 or higher on the algebra section; or

5. Complete a course equivalent to DEV-0900 Intermediate Algebra with at least a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning. The credits will not be transferred, but proficiency will be established and enrollment in college-level quantitative courses will be permitted; or
6. Complete a course equivalent to the Cedarville University GMTH-1020 College Algebra with a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning. Proficiency will be satisfied and transfer credit will be awarded; or
7. If proficiency is not verified by any of the means listed above, the required proficiency must be achieved through successful completion of the course DEV-0900 Intermediate Algebra (two semester hours), which should be completed during the first semester of matriculation at Cedarville University and **must be completed no later than the last term of the sophomore year. These two credits do not apply toward the 128 credits needed for graduation.**

II. Biblical Education 16 hrs

| Any second year foreign language course | 4 |
| Any other 3-hour literature course | 3 |

*Standardized test scores (ACT, SAT) earned more than three years before matriculation will not be accepted to meet the proficiency requirement.

**ANTH-1800 Cultural Anthropology may satisfy either the Humanities elective or the social science elective, but not both.

***In satisfying requirements B and C, students may not take more than one course from their major field of study. Education majors, however, may take EDUC-2400 Children's Literature and EDUC-4500 Philosophy of Education to fulfill criterion C; otherwise, EDUC-4500 Philosophy of Education does not count toward meeting this requirement.

V. Global Awareness

Students pursuing a **Bachelor of Arts (B.A.), Bachelor of Music (B.M.), or Bachelor of Music Education (B.M.E.)** degree must meet one of the following requirements:

- A. Pass three years of the same foreign language* in high school or one term of an intermediate college-level foreign language*; or
- B. Live in a non-U.S. cultural immersion experience for at least one school year after the age of 12; or
- C. Pass two years of the same high school foreign language* or pass the second semester of a college-level foreign language*, and one of the following:
 - 1. A global awareness course selected from the list under letter D below.
 - 2. An approved intercultural experience of at least four weeks.

Students pursuing a **Bachelor of Science (B.S., B.S.Cp.E., B.S.N., B.S.E.E., and B.S.M.E.)** degree must complete one of the following:

- A. Pass two years of the same foreign language* in high school; or
- B. Pass the second semester of a college-level foreign language*; or
- C. Live in a non-U.S. cultural immersion experience for at least one school year after the age of 12; or
- D. Complete a global awareness course from the following:
- E. ANTH-1800 Cultural Anthropology

NSG-4200 Culture and Health
PYCH-1800 Cross-Cultural Psychology
SPAN-3680 Understanding Hispanic Cultures; or
- F. Complete an approved intercultural experience of at least four weeks.

*American Sign Language courses do not satisfy the foreign language component of the global awareness requirement.

VI. Physical Education 2 hrs

- A. PEF-1990 Physical Activity and the Christian Life 1
- B. One general physical education activity course chosen from PEA-1000 through PEA-2120 1

VII. Science and Mathematics..... 10-16 hrs

- A. One laboratory course from the biological sciences..... 3.5
- B. One laboratory course from the physical sciences..... 3.5
- C. At least three semester hours selected from the following quantitative courses:
 - BUS-2110, 2120 Statistics 4
 - EDUC-2800 Principles of Mathematics II 3
 - GMTH-1010 Introduction to Mathematics 3
 - GMTH-1020 College Algebra 3
 - GMTH-1030 Pre-calculus 4
 - GMTH-1040 Calculus for Business 4
 - GSS-3630 Data Analysis and Research Methodology 4
(or SWK-3610 Data Analysis..... 3)
 - PYCH-2610 Statistics 3
 - Any 3 credit MATH course 3
- D. Students pursuing Bachelor of Science degrees (B.S., B.S.N., B.S.Cp.E., B.S.E.E., and B.S.M.E.) must complete an additional six semester hours. These hours must be selected from courses with BIO, CHEM, ESCL, GBIO, GSCL, GMTH, MATH, and PHYS designators; decision sciences; statistics; or computer application courses selected from the following:
 - EGCP-1010 Digital Logic Design 3
 - MIS-2300 Introduction to Programming..... 3

VIII. Social Sciences and History 9 hrs

- A. GSS-1100 Politics and American Culture 3
- B. One course in history 3
- C. One course selected from the following:..... 3
 - A second HIST course or
 - Any course with a designator of ANTH**, CRJU, GEO, INTL, POLS, PUAD, SOC, and SWK or PYCH-1600 General Psychology

**ANTH-1800 Cultural Anthropology may satisfy either the humanities elective or the social science elective, but not both.

Total General Education Requirements..... 52-63

Many of these courses also satisfy the requirements for major fields of study.

General Education Course Sequence

Many of the general education requirements provide important background for advanced courses that are required as a part of a major field of study. Consequently, in most programs many of these requirements are taken in the first two years of the four-year curriculum. The sample four-year curriculum found by each major field of study in the catalog outlines this sequence.

Because of the importance of several of the requirements to all students, **the following six courses must be completed before the beginning of the junior year or before a student earns 61 semester hours:**

- BEGE-1710 Christian Life and Thought
- BEGE-1720 Spiritual Formation
- COM-1100 Fundamentals of Speech
- ENG-1400 Composition
- PEF-1990 Physical Activity and the Christian Life
- The VII, C. Quantitative Course Requirement

Course Load

Assuming that proficiency requirements have been satisfied, a minimum of 128 semester hours is required for graduation. A student should average at least 16 credit hours each semester to graduate upon completion of the 8th semester. A normal course load is 15-18.5 hours each semester. Students working more than 20 hours per week are advised not to carry a full course of studies.

A student's academic load is subject to reduction or limitation by a school dean or by the academic vice president for poor scholarship or excessive work outside of school hours. Students who wish to take more than 18.5 credit hours must obtain permission through the following procedure:

To request 19-21.5 credit hours

The following students require advisor approval:

- SENIORS with at least a 2.3 cumulative GPA
- SOPHOMORES and JUNIORS with at least a 2.5 cumulative GPA
- FRESHMEN with at least a 2.7 cumulative GPA
- All students without a Cedarville University GPA who scored at least a 25 or equivalent on the ACT

The following students require department chair approval:

- Any student not meeting the criteria above
- Any student whose advisor is not available

The following students require dean approval:

- Any student whose department chair is not available

To request 22 or more credit hours

- All students require approval of advisor, department chair, and dean

The following situation requires academic vice president approval:

- When dean is not available

Credit By Examination

Advanced Placement

High school students may receive advanced collegiate standing by participating in the advanced placement program. Up to 40 semester credits may be earned through this program or by other test-out procedures. Hours earned through the advanced placement program do not count as hours in residence toward graduation with honors.

To earn credit through advanced placement, students must enroll in specific advanced placement courses offered by their respective high schools. Upon completing these courses, students take individual advanced placement examinations in each advanced placement course. Students may earn college credit for advanced placement scores of three, four, or five.

Students should request that scores from these examinations be sent directly to Cedarville University by entering code number 1151 on their registration forms. Upon receipt of an official score report, the University awards the appropriate amount and type of credit for each examination as determined by each academic department. No fees, other than the fees accompanying the examinations, must be paid in order to receive the University credit. In some cases, sophomore standing in particular subject areas may be earned through these examinations. Students should contact their local high schools to obtain advanced placement course and registration information.

College Level Examination Program (CLEP)

Students earn credit through CLEP by taking nationally standardized examinations in a variety of subject areas. These tests may be taken at local colleges before enrolling at Cedarville or at Cedarville after enrolling. To have CLEP scores sent directly to Cedarville University, students should enter code number 1151 on their CLEP registration forms. An official copy of the score report must be received before CLEP credit will be evaluated and recorded. By earning scores above specified levels, students receive college credit in specific course areas. Up to 40 semester credits may be earned through this program or by other test-out procedures. A complete list of the appropriate tests and respective Cedarville courses, as well as registration information, is available from the admissions office, the office of the registrar, or the University website. No fee, other than those accompanying the examinations, must be paid in order to receive college credit through CLEP.

Students who wish to use CLEP examinations to satisfy general education requirements in foreign language, literature, humanities, mathematics, natural sciences, and social sciences must earn credit-satisfying scores on the respective CLEP examinations by the time they earn 61 semester credits. Students may not pursue CLEP credit for courses in which they were enrolled previously, nor may they pursue CLEP credit for a course if they have taken a more advanced-level course in that discipline.

Transfer students transferring more than 61 credits must earn credit-satisfying scores on respective CLEP examinations by the end of their first semester of full-time attendance at Cedarville. Hours earned through CLEP do not count as hours in residence toward graduation with honors.

Institutional Test Out

Qualified students may earn credit toward graduation by passing the appropriate examinations with a grade of B or better. A student interested in testing out should obtain a course test-out form from the office of the registrar, obtain the approval of the chair of the department in which the course is offered, and contact the instructor of the course to schedule the test.

A student may not test out of a course previously audited. Tests must be taken during registration week or during the first two full calendar weeks of the semester.

Upon testing out of a course, a student must pay one-half tuition for the course credit. Credit for the course and a designation of test-out will appear on the student's transcript with a grade of CE (credit by examination). This grade is not computed into the cumulative grade point average. Credits earned by test-out during a semester do not count toward the 12 semester hours required for full-time status. No student may earn more than 40 semester hours of test-out credit through tests administered at the University, CLEP, AP, IB, or any other recognized testing agency. Hours earned by test-out do not count as hours in residence toward graduation with honors.

International Baccalaureate

The International Baccalaureate (IB) is an internationally recognized program that enables students to follow a special curriculum and take specific examinations to fulfill secondary school graduation requirements. Students can earn up to 18 semester hours for IB Higher Level examinations on which they earn scores of five, six, or seven. A maximum of six credits is permitted in any one group. To receive credit, students should submit IB transcripts to the admissions office.

Distance Education

Cedarville University does not offer correspondence credits, and it does not accept correspondence credits from institutions that do not have accreditation from a recognized United States regional accrediting agency. In some unusual circumstances, the University may accept correspondence credits from regionally accredited institutions of higher learning, but a student may not utilize more than 10 semester hours of correspondence credits toward fulfilling degree requirements.

Cedarville University does offer several online learning courses, and it does accept this type of course from institutions that are accredited by a US regional accrediting agency. Distance learning courses are subject to the same policies and restrictions as normal transfer courses.

The University reviews and processes credits received for distance learning and correspondence study in the same manner as transfer credits. For additional information, contact the office of the registrar.

Transient Study

Coursework to be completed at other institutions by a student enrolled at Cedarville University must be approved before the course is taken by securing the signatures of the transfer coordinator, the student's academic advisor, and the chair of the academic department governing the course requirement that the transferred course is to satisfy. Transient Study Applications are available in the office of the registrar. An official transcript must be received before transfer credit will be evaluated and recorded.

Registration for Classes

Continuing at the University

The University assumes that a student will continue taking courses from semester to semester unless the student graduates, is asked to leave for academic or disciplinary reasons, or withdraws voluntarily. To assist in planning each academic term, the University asks each student to register for the upcoming academic term during early registration. This secures courses for the student and enables the University to make enrollment decisions for that term. A student who owes money to the University may not register for future academic terms.

Enrolled students register for fall semester courses at the end

of each spring semester. To retain these course selections and confirm the intention to enroll in the fall semester, each student must submit a reservation deposit of \$250 by May 1. This deposit also reserves a place in college housing for single students under 25 years of age. The deposit is credited to the student's account and may be used to help cover fall semester expenses. Should the student decide to withdraw from the University before July 1, \$150 of this deposit is refundable. After July 1, the \$250 deposit is nonrefundable.

A student who does not register and submit the continuing student reservation deposit by June 1 or make other special arrangements with the student life office will be considered withdrawn. Any student who withdraws voluntarily or is involuntarily withdrawn must apply and be approved for readmission to return as a student to the University. Readmission forms and information are available from the admissions office.

Course Registration

Registration dates for each session are listed in the annual academic calendar. Early registration periods may be designated for currently enrolled students. During early registration, the University allows students to register for courses for the upcoming academic term. Students register for courses by academic classification and are strongly encouraged to take advantage of this early registration opportunity, rather than registering after the start of an academic term. Students who register early for a term but do not return the following semester must notify the office of the registrar of their change in status.

Registration information, including printed registration instructions and course schedules for the semester, is distributed by the office of the registrar prior to the respective registration periods. Additionally, registration information, including available course offerings and sections, is available on the University website.

Prior to processing a registration, each student meets with an academic advisor to discuss career direction, course options, and class schedules. While selecting courses, students and advisors should discuss alternative courses as a contingency for course closings and cancellations. Although each student has an academic advisor to help with scheduling, the student is ultimately responsible for the chosen class schedule and course of study. Students should become very familiar with the course requirements for their chosen major.

Class schedules are selected using the online registration process on the University website. The online registration process may be completed from the academic advisor's computer or from any other computer through which the student has internet access. Instructions for using the online registration program are available on the registrar's website or from the office of the registrar.

A registration access code is required to complete the online registration process. This code is assigned by the computer services office prior to each registration period and is given to the student's academic advisor. The registration access code may be utilized by the academic advisor to complete the student's registration during the advising process, or the advisor may give the code to the student to enable the student to complete the registration process from another computer. After the online registration process has been completed, the student's confirmed schedule becomes an active registration in the administrative computer system.

To finalize their registration, students must make financial arrangements for payment of the amount due listed on their billing invoice (see the financial section of the catalog for information concerning costs and payment plans).

Adding and Withdrawing from a Course

Students are responsible to verify the accuracy of their course registration at the beginning of each semester. All registrations must be finalized by the end of the second week of the semester. No classes may be added after this time unless approval is granted from the course instructor, chair of the department that offers the course, and the dean of the respective school. In the absence of the dean, the academic vice president may approve a late registration. A late registration fee of \$50.00 will be charged to process a registration or add a class after the deadline.

Changes in a student's course schedule must be made through the drop/add process. This may be completed online within seven calendar days after classes begin. After this time, a drop/add form is required to complete a schedule change. Forms for course changes are available in the office of the registrar and must be signed by both the course instructor and the student's academic advisor. The student is required to make up any work missed due to late entrance. Changes in a schedule caused by cancellation of courses will not result in financial penalty.

When a course is dropped, the action is recorded as follows:

Week Course Is Dropped	Action
Before the end of the 1st full calendar week	No record on transcript
During 2nd full calendar week through 9th calendar week	W – Withdrawn
10th and 11th calendar weeks or	WP – Withdrawn Passing WF – Withdrawn Failing
Week 12 through the end of the semester	Drops not permitted

Course changes are complete when the office of the registrar receives the completed drop/add form. The effective date of the course change is the date the office of the registrar receives the completed form. Failure to properly drop a class will result in a grade of Z, which counts the same as an F.

Refund information is listed in the financial information section of the catalog. This information is also available on the registrar's web page.

Auditing

Auditing involves attending and participating in a course without earning credit. A course may be changed from credit to audit before the end of the first week of the semester. Courses may be changed from audit to credit, with permission of the instructor, before the end of the first week of the semester. A student may not test out of a course already audited. Registration to audit a class will not be processed until the first day of the semester to accommodate students requiring regular registration status.

Independent Study

Independent study allows students to develop a high degree of independence in their ability to choose and investigate problems. The objectives of the program include providing opportunities to explore areas not covered in normal course structure, recognizing foreign travel experiences, rewarding self-motivated students, and encouraging joint study by faculty and students on specialized projects.

Individual students and faculty members develop the specific criteria that must be met for the successful completion of specific independent study projects. However, the following guidelines govern the independent study program:

1. Only one independent study project may be undertaken in an academic term, unless permission is granted from the department chair and dean of the student's primary major.

2. The maximum credit that may be earned for an independent study project is three semester hours.
3. The faculty member supervising the independent study, the student's advisor, and the department chair must sign the student's independent study form. Registration for the independent study must occur at the beginning of the semester in which the work is to be completed.
4. No more than six semester hours in independent study may be counted toward the major field, no more than three semester hours toward a minor field, and no more than 12 semester hours toward graduation. Independent study taken outside major and/or minor fields must be approved by the department chair and the dean of the supervising faculty member.
5. Supervising an independent study is a privilege a faculty member may extend to a student. It is not a right that a student has.
6. Supervising faculty members determine the grade (letter grade or credit/no credit) for the independent study.

Internships

Many of the major fields of study include opportunities to receive credit for supervised, on-the-job activities. Interested students should contact the respective department chair for details.

Out-of-Class Courses

In order for students with irreconcilable conflicts to be able to complete graduation requirements on schedule, it is sometimes necessary to allow instruction in an out-of-class setting. To take a course out of class:

1. The course must be 2000-, 3000-, or 4000-level.
2. Students must obtain approval from the department chair, the faculty member teaching the class, and the advisor.

Out-of-class course approval forms are available in the office of the registrar. Exceptions to the course level requirement listed above must be approved by the respective faculty member, advisor, and department chair.

Course Numbers and Designations

The course numbers are designed to help students select courses at the appropriate level. The University uses the following system:

1. The first number indicates the year in which the course is usually taken. Freshmen normally take 1000-level courses; sophomores, 1000-level or 2000-level courses; juniors, 2000-level or 3000-level courses; and seniors, 3000-level or 4000-level courses. Courses beyond the student's classification should be taken with the consent of the instructor and academic advisor.
2. The alphabetical prefixes in the course designations indicate content divisions within academic departments. For example, the prefix "BETH" indicates that the course is a theology course in the department of biblical education.

The semester that the course is offered is shown following the course title as follows: Fa – fall; Sp – spring; and Su – summer. The number to the right of the course title indicates credit given in semester hours. The University reserves the right to offer or withhold any of the courses listed.

Alternate Year Courses

Some departments offer courses on alternate years. These are designated as "even years" or "odd years" based on the first school year number. Example: 2008-09 is an even year.

Grading System

- A** Recognizes excellent achievement. It is indicative of superior quality work and reveals a thorough mastery of the subject matter. The student receiving this grade should demonstrate enough interest to do some independent investigation beyond the actual course requirements.
- B** Indicates work and achievement that are well above average. The student receiving this grade should be capable of doing advanced work in this field. The quality of the work should be considered better than that achieved by the average student.
- C** Indicates average achievement and a satisfactory meeting of requirements.
- D** Reveals inferior accomplishment and is generally unsatisfactory from the standpoint of course requirements. This is the lowest grade for which credit can be earned.
- F** Failing grade. It indicates very unsatisfactory work. No course credit is earned.
- AU** Given when a course is audited. To receive this notation, the student must attend and participate in the course. No credit is earned.
- CR** Given when credit has been granted. It also applies to the credit/no credit program in which credit is received for satisfactory ("C" average or above) performance in the course. A course in which a CR has been earned counts toward the total graduation requirements but is not used in the computation of grade point averages.
- CE** Credit for the course has been earned by an examination administered by the University or another recognized testing agency or program.
- I** Signifies an incomplete and is a temporary grade given when a student is unable to complete the coursework on time because of extraordinary circumstances, such as illness, emergency, or other reasonable cause. This temporary grade does not influence the student's grade point average. To be considered for an incomplete, the student must be passing the course and have completed the majority of the coursework. The instructor giving the incomplete will establish an appropriate completion date with the student. This date may extend to the end of the semester following the one in which the course was taken. If the work is not completed by the designated date, the "I" will be changed to an "F" and will be calculated as such in the student's grade point average.
- INC** Indicates a permanent incomplete, a grade assigned in special situations by the faculty member with the approval of the academic vice president. This permanent grade does not influence the student's grade point average. To receive a permanent incomplete, the faculty member should submit the appropriate form to the registrar identifying the circumstances warranting this special grade. If a permanent incomplete is awarded, the grade may not be changed at a future date. To receive credit for the course, the student must again register for the course and complete the course requirements.
- K** Signifies credit and accompanies courses transferred from other colleges or universities. It has no effect upon cumulative grade point average.
- NC** Indicates no credit has been earned. Credit hours for which an "NC" has been earned are not used in the computation of grade point averages.
- NP** Indicates that the student did not pass a course where the credits do not count toward the graduation requirements. Basic English and Intermediate Algebra are examples of such courses.
- NR** Indicates that the faculty member did not submit the grade in time for it to appear on the grade card.

- P** Indicates that the student performed satisfactory work ("C-" average or better) in a course where the credits do not count toward graduation, such as Basic English or Intermediate Algebra.
- W** Indicates that the student withdrew from the course between the second and ninth weeks of the semester.
- WP** Indicates that the student is passing when a course is dropped during the tenth and eleventh weeks of the semester.
- WF** Used during the tenth and eleventh weeks of the semester if the student is failing at the time of withdrawal.
- Z** Indicates that the student did not complete the course but did not officially withdraw. A "Z" is treated in the same manner as an "F" grade when figuring the grade point average.

Credit/No Credit Program

The grade designation "credit/no credit" may be assigned by faculty members in courses such as student teaching, laboratories, independent studies, electives, and one-hour courses in physical education and music. The opportunity to take elective courses on a credit/no credit (CR/NC) basis offers students the opportunity to develop background in new areas of study without threatening cumulative grade point averages.

The following guidelines govern involvement in the program:

1. A student of any classification may choose to earn credit/no credit or a letter grade in one semester hour, non-major physical education courses. This choice may be made at the end of the semester.
2. To earn credit, a student must maintain an average of "C" or better in the course.
3. A student must be at least a junior in classification (have earned at least 61 semester hours) to take an elective course on a credit/no credit basis. An elective is a course that will not count toward the student's general education, major, minor, or cognate requirements.
4. A student may take just one elective course per term under the credit/no credit designation.
5. The total number of courses (other than one-hour physical education courses) that may be taken under the credit/no credit designation is determined by the student's cumulative grade point average:
 - 2.0-2.49 one course
 - 2.5-2.99 two courses
 - 3.0-3.49 four courses
 - 3.5 and above six courses
6. A student taking an elective course who wishes to change from the credit/no credit designation to the regular grading designation must do so before the end of the fourth week of the semester.
7. A student who wishes to change an elective course to the credit/no credit designation must do so before the end of the first full calendar week of the semester.

Grade Points and Point Averages

Cedarville University uses the “four-point system” to determine academic averages. Grade points are awarded as follows:

Grade	Grade Points
A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0
C-	1.7
D+	1.3
D	1.0
D-	0.7
F	0.0

The grade point average is computed by dividing the total grade points earned by the total hours attempted. Grades are issued at the end of each semester. The student is responsible for discussing his or her academic achievement with his or her instructor.

Academic Progress, Warning, and Suspension

To satisfy the minimum graduation requirements, a student must earn a cumulative grade point average of 2.0. The minimum cumulative grade point average needed to maintain good academic standing is also 2.0.

The University recognizes that some students may have difficulty earning and/or maintaining the minimum cumulative grade point average required for good standing and for graduation. To assist them, the following academic progress chart outlines the minimum cumulative grade point averages needed according to the credit hours earned.

Academic Progress Chart

Credits Attempted	Minimum Cumulative GPA for Academic Probation	Minimum Cumulative GPA for Academic Warning
0-18.99	1.00	1.45
19-36.99	1.25	1.60
37-64.99	1.50	1.75
65-96.99	1.75	1.90
97-112.99	1.90	—
113-128.99	1.95	—

Some academic programs have stricter academic progress requirements than those listed above. Students should check academic department sections of the catalog for the specific grade point requirements of their majors.

Students who are not in good academic standing will be notified by the dean of their school. First-semester freshmen who do not meet the 1.0 average will usually not be academically suspended in order to provide some additional time for them to make the adjustment to college life.

Any student who does not meet the minimum cumulative grade point average required for academic probation will be suspended for at least one semester. Any student on academic probation for two successive semesters who is not making satisfactory academic progress is subject to academic suspension. Any student whose term grade point average is not above 1.0 for two successive semesters and who is not making satisfactory academic progress is subject to suspension. The dean of a school may make exceptions to the academic progress guidelines when appropriate.

A student receiving veterans benefits who is on academic probation for two successive semesters without making satisfactory progress will be reported to the Veterans Administration. The veterans benefits for such a student will be terminated unless the student is making progress toward meeting the minimum academic requirements for graduation.

Faculty members and other counselors are available to discuss student progress. The student experiencing academic difficulty should utilize these personnel, as well as resources available in the academic assistance center, to help find solutions to academic problems.

Students on academic warning or probation may be required to take a special study skills course as a condition for continuing at the University. Academic warning may preclude involvement in certain University activities. Students facing academic warning or probation should consult with the coaches, advisors, or directors of their activities to learn of academic requirements or restrictions that may apply to those activities.

A student must maintain satisfactory academic progress to receive financial aid. Students receiving aid should check the financial aid section of the catalog to obtain the academic progress requirements that pertain to particular aid programs.

A student suspended for academic reasons may apply for readmission during any semester in the regular academic year following the semester of suspension. A student who is subject to suspension for a second time may be permanently dismissed.

Repeating Courses

While adjusting to academic life at Cedarville, some new students earn grades they consider to be unsatisfactory. Consequently, any students who earn an unsatisfactory grade as a freshman (student with fewer than 31 credits) may repeat the course at Cedarville University before the end of their sophomore year (student with 31 to 60 credits). Under this freshman repeat policy, the cumulative grade point average will be recalculated using the second grade instead of the first.

A similar policy applies to a transfer student. Under the transfer repeat policy, courses taken during the first semester of attendance may be repeated within the succeeding two regular semesters. The cumulative grade point average will be recalculated using the second grade instead of the first.

Under these repeat policies, any course may be repeated. Although the first grade is no longer calculated into the cumulative grade point average, the course and grade information does remain on the student’s transcript. In all other cases when a student repeats a course, both grades are calculated into the cumulative grade point average. However, credit hours for a repeated course may count only once toward the credits needed for graduation.

Academic Honors

Dean's Honor List

Until final awards are announced at commencement, the highest academic honor possible to attain at Cedarville University is to be included on the dean's honor list. This list of high-ranking students is published at the end of each regular semester. Lists are not published following the summer sessions.

The requirements for the dean's honor list are as follows:

1. A student must have a 3.75 grade point average or higher for the semester.
2. A student must have no grade for the semester lower than a "B."
3. A student must carry a minimum of 12 semester hours, excluding CR hours. Exceptions are made for those enrolled in field experiences or internships granting credit/no credit, provided they take at least two regularly graded courses.
4. A student must complete every course being taken by the end of the semester when grades are turned in by the faculty.

Dean's List

Published at the end of each regular semester, the dean's list is issued with the following requirements:

1. A student must maintain a 3.50 average for the semester.
2. A student must be carrying at least 12 semester hours, excluding CR hours. Exceptions are made for those enrolled in field experiences or internships granting credit/no credit, provided they take at least two regularly graded courses.
3. A student must complete every course being taken by the end of the semester when grades are turned in by the faculty.

Graduation with Honors

Upon recommendation of the faculty, a student who earns a grade point average of at least 3.5 will graduate "with honor"; one who earns a grade point average of at least 3.75 will graduate "with high honor"; and one who earns a grade point average of at least 3.9 will graduate "with highest honor." A student must be in residence at least two full years (61 semester hours) to qualify for graduation with honors. Hours earned by examination (test-out) do not count as hours in residence toward graduation with honors. The cumulative grade point average at the end of the fall semester prior to spring commencement is used to determine recognition for graduation with honors at commencement. However, actual graduation with honors, as recorded on the final transcript, includes grades from all subsequent academic terms required to complete degree requirements.

See the financial aid section of this catalog for a list of additional academic awards.

Withdrawing from the University

Proper withdrawal from the University begins in the office of the registrar, where the student completes an official withdrawal form. Refund requests should be submitted to the business office at least three days prior to withdrawal. A student's ID card and dorm key must be returned to the office of the registrar on the last day the student is on campus. No student should leave Cedarville University without completing proper withdrawal through the office of the registrar.

Student transcripts will be marked with the appropriate grade once withdrawal is complete in accordance with the established University policy. (See Adding and Withdrawing from a Course.)

Withdrawal for Military Reasons

Students serving in reserve units of the armed forces may be called up to active duty during an academic term. Students who withdraw up to the end of the fourth week of the semester will receive refunds according to the following schedule:

Tuition: 100%

Room: prorated on a per diem basis

Board: prorated on a per diem basis

Fees: 0

Students who withdraw after the fourth week of the semester may file a request for "permanent incomplete." This classification provides students the opportunity to complete the coursework upon returning to the University without having to pay tuition again. Forms may be picked up in the office of the registrar.

Approval for the awarding and removal of the entry "permanent incomplete" resides with the academic vice president. Refunds for room, board, and fees will be disbursed according to the previously mentioned schedule.

To initiate the withdrawal procedure, students are to bring a copy of their orders to the office of the registrar and obtain the appropriate forms. Withdrawals will be processed according to the standard procedures listed in the University catalog.

Family Educational Rights and Privacy Act

Cedarville University complies with the Family Educational Rights and Privacy Act (the Buckley Amendment), which is designed to protect the privacy of educational records, to establish the right of students to inspect and review their records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. The University has adopted a policy that explains in detail the procedures followed for compliance with provisions of the act. Copies of the policy are available in the office of the registrar and the student life office.

Mission Statement

Our Lord Jesus Christ commissioned His followers to “go and make disciples of all nations, baptizing them ... and teaching them to observe all that I commanded you ...” (Matt. 28:19). The Apostle Paul is an example of how the early believers embraced this mission and carried it forward. “We proclaim him (Christ),” Paul declared, “admonishing every man and teaching every man with all wisdom, so that we may present every man complete in Christ” (Col.1:28). Indeed, over the centuries there is an unbroken chain of men and women who have found life doing the same. So it is the mission of the department of biblical education at Cedarville University to stand firmly in that line of those who have faithfully carried forward Christ’s commission. With Peter we are convinced that it is Christ alone who has “the words of eternal life” (John 6:68).

As a department, we are privileged to carry out this commission on two levels. First, we are engaged in training men and women professionally and academically. Professionally, we want to equip graduates for full-time ministry in the church by preparing men and women with a theologically informed philosophy of ministry accompanied by the skills and experience needed to actualize it in the church. Majors that particularly facilitate this are Christian education, youth ministries, pastoral studies, world missions, and international studies-missiology. Academically, we want to inspire men and women to use their minds for the glory of God. We want to raise up a generation of scholars whose desire is to bring every thought into submission to Christ for the glory of God. Majors geared toward this purpose are comprehensive Bible, pre-seminary Bible, and philosophy.

Second, we have the institution-wide opportunity of influencing each student through the required Bible minor. On this level we endeavor to aid students from all disciplines in developing a distinctively God-centered world and life view. We believe it to be crucially important that all those who will be appointing the pastors and missionaries of the future, doing the work of the ministry, and serving God through their vocations know how to handle the word of truth accurately.

To this end, we commit ourselves to facilitating the development in every student of a biblically based, theologically sound, philosophically defensible, and life-transforming view of life under God.

Personal Requirements

Students planning to pursue careers in vocational ministries should possess a commitment to intense study of the Scriptures, a heart for ministering to the needs of others, and a reputation for Christ-like character, which would provide a platform for authentic spiritual leadership. In addition to classroom expectations, students should seek to gain as much practical experience in ministries as possible. Biblical education majors find the opportunities provided by the Christian ministries program to be excellent avenues for applying truths learned in the classroom and developing necessary skills for effective ministry.

Department Requirements

To graduate with a major from the department of biblical education, students must earn a cumulative average of 2.0 or above and a “C-” or above in all courses included in the major with the exception of Greek.

Co-Curricular Opportunities

Several organizations exist campus-wide, which assist in the development of character and ministry skills. Many Bible faculty serve as advisors for these organizations, and our students are encouraged to take full advantage of them. For example:

Chi Delta Nu

Chi Delta Nu encourages students going into youth ministry through prayer, fellowship, and service.

Timilathians

Timilathians is an organization devoted to promoting critical thinking through philosophical and theological inquiry into issues central to the Christian worldview and our contemporary culture.

Career Opportunities

Graduate schools, professional schools, and seminaries welcome Cedarville University graduates. Careers pursued by graduates include:

- Bible teacher
- Camp director
- Christian education director
- Missionary
- Pastor
- Philosopher
- Writer
- Youth pastor

Bible Teacher Education

The **Bible teacher education major** is designed for students anticipating teaching Bible primarily in a Christian school. The major provides a unique combination of content from Bible courses and pedagogy from education courses to manage a classroom and teach the Bible effectively. The Bible content portion of the program is modeled after the preseminary major with the exception of the requirement of Greek. Thus, a student could easily use this program as the foundation for further graduate study in seminary. This program would also lay the foundation for a person who, after having gained some experience in teaching, chooses to pursue a master's degree in education. The Association of Christian Schools International also approved Cedarville to offer ACSI certification in integrated Bible for this major.

Philosophy

The **philosophy major** is designed primarily for students anticipating graduate study in philosophy, theology, religion, or law. It serves to develop intellectual abilities important for life as a whole, beyond the knowledge and skills required for any particular profession. It cultivates the capacities and appetite for self-expression and reflection, exchange and debate of ideas, lifelong learning, and dealing with problems for which there are no easy answers. Philosophy is applicable to any subject matter and any human context, making it an ideal undergraduate major for those going on to specialized graduate work. Candidates for graduate study should consult graduate school catalogs to determine specific undergraduate requirements and adjust their programs at Cedarville University accordingly.

Course requirements involve 43 semester hours including:

World Missions

Students seeking to be involved in cross-cultural ministries on international fields or in America need to be prepared with an understanding of cultural engagement, a Biblical model of mission, and the skills to study and teach Scripture. “International Studies” is a degree name generally recognized internationally and reduces barriers associated with the name “world missions” in some contexts. For these reasons, see the major “International Studies: missiology concentration” (page 115 and 116) for a description of the major integrating studies within Bible and other departments to effectively prepare for cross-cultural ministries. See below for a summary of this concentration.

International Studies – Missiology

The **international studies major** utilizes courses from several academic disciplines to prepare students for a variety of internationally focused careers. A distinct international studies core provides the foundation for all the concentrations available in this major.

Course requirements involve 21 semester hours of core requirements and 60 hours of concentration requirements. See the major: “International Studies” (page 116) for details on other concentrations.

Department of

Business Administration

Mission Statement

The mission of the Cedarville University Department of Business Administration is to facilitate the development of business men and women who are personally discerning and professionally competent and who will influence their organizations, professions, and culture through service and leadership anchored in biblical truth.

Given our vision as a department, our broader mission is to provide students with an education in business theory and practice from a distinctly Christian worldview.

- To effectively foster academic achievement and personal character, we purpose to create an environment characterized by excellence in teaching, service, intellectual contribution, and collegiality.
- Essential to our mission is the creation of a learning environment that encourages, stimulates, and challenges students and faculty to maximize their personal potential in their chosen field of academic endeavor.
- To facilitate this learning environment, we will use a value-centered curriculum enhanced by an extensive information technology system and a series of personal and professional development seminars.
- In addition, across the curriculum, we have integrated ethical considerations, global awareness, and an emphasis on oral and written communication skills.
- The distinctive competency of our program is the integration of biblical truth within each of the business disciplines.

In light of our mission, the department has established the following goals:

1. We will create a learning environment that encourages, stimulates, and challenges students to maximize their personal potential in the chosen field of academic endeavor.
2. We will create a value-centered curriculum enhanced by an emphasis on topics critical to the student's competency in the world of work.
3. We will provide faculty with professional and academic opportunities to enhance both teaching competencies and intellectual contributions.
4. We will encourage the relationship between the department and significant constituencies that impact our mission and its implementation.

Accreditation

The department of business administration is accredited by the Association of Collegiate Business Schools and Programs (ACBSP).

Personal Requirements

A college preparatory curriculum in high school provides the best preparation for the bachelor degree programs in the department of business administration. Three or four years of high school mathematics, including calculus, are recommended for students anticipating study in business. No previous coursework in business is necessary. Because of extensive computer utilization in the business curriculum, electives in computer programming or software packages may prove to be helpful.

Department Requirements

Although students in the department of business administration are not required to apply for admission to the department, continuation is based upon performance in the core business requirements and satisfactory completion of course prerequisites.

Students entering their junior year will be reviewed for

continuation by the department chair.

- Students majoring in business must earn at least a 2.0 grade point average in all sophomore-level business courses required for their major in order to graduate with a degree in a business major.
- Students majoring in business must earn a "C-" in any prerequisite business course before being allowed to enter the subsequent course for which that course is a prerequisite. Waivers to this requirement are made only in exceptional circumstances, and such waivers require the approval of the chair of the department in consultation with the professor responsible for the subsequent course.
- In general, business majors should complete all 2000-level business core courses before beginning a 3000-level business course.
- Before taking a 4000-level business course, students must have satisfactorily completed all 2000-level business administration core courses required for their major. Waivers to this requirement are made only in exceptional circumstances, and such waivers require the approval of the department chair.
- To graduate with a major from the department of business administration, students must earn at least a 2.0 cumulative average in all courses required for their major and at least a "C-" in all courses taken to meet a specific requirement in their major (cognate courses not included).
- Every major and minor offered by the department of business administration requires that a minimum of 50% of the business courses in the business administration core and 50% of the specific business courses required for each major or minor be earned at Cedarville University. Any CLEP or advanced placement credits earned are not considered to be earned at Cedarville University.

Department of

Communication Arts

Mission Statement

The Cedarville University Department of Communication Arts is a diverse community of communication professionals committed to educating students to change the world as they biblically engage their culture with the heart and mind of Christ. The department recognizes the importance of balancing the professional side of our discipline with a rigorous academic grounding. Contemporary issues and theories are evaluated and discussed in the perspective of Scripture. To achieve these goals, the department has set the following objectives. We seek:

1. To achieve excellence in communication skills and critical thinking.
2. To foster a desire for knowledge and an enthusiasm for creative expression.
3. To aid students in formulating problem-solving techniques in applied contexts.
4. To encourage the evaluation of performance-based communication as a reflection of culture.
5. To develop innovative leaders for positions in media, politics, business, and entertainment.

Personal Requirements

Students planning to pursue a major in communication arts are best prepared by taking a college preparatory curriculum in high school. Successful students in the major are individuals with abilities in creative expression, critical thinking, problem-solving and interpersonal interaction.

Department Requirements

All students in the department take Introduction to Communication Arts as the entry course in the major. Within each specific program of study, students complete classes in the history, theory, research, and ethics of their particular field of communication. Majors are required to complete a senior capstone project in research, production, internship, or performance to graduate. The nature of the project is determined by the emphasis area of the student.

Technical Resources

The department provides state of the art audio and video equipment with which students learn the skills of the electronic media.

A new, modern theatre and accompanying equipment and facilities are available to theatre majors.

The computer network provides tools and resources for public speaking, debate, and forensics.

Journalism students learn news writing and design in a newly developed media lab. This facility also features print, broadcasting, and online media resources for classroom instruction and research.

Programs of Study

The department of communication arts offers the following programs of study:

Co-Curricular Opportunities

Alpha Psi Omega

Alpha Psi Omega is the Cedarville University chapter of the national honorary theatre organization. The organization stimulates interest in theatre activities at the University and provides a forum for social interaction among students.

Debate

Cedarville University has had a successful debate program for two decades, earning the national championship title in 1999, 2000, and 2003 within the National Education Debate Association. In 2003, Cedarville joined the National Parliamentary Debate Association (NPDA), the largest debate organization in the U.S., and is currently ranked #8 in the nation (the top 2%) for the 2007–08 season, surpassing other nationally recognized teams such as UC-Berkeley and Notre Dame. Cedarville debaters are also the 2008 National Champions among Christian colleges and universities. Contact the director of debate for audition and scholarship information.

Forensics

Forensics is intercollegiate speech competition, including events in public speaking, oral interpretation, limited preparation, and Lincoln-Douglas debate. For the past 20 years, Cedarville has been ranked #10 in their division nationally. In recent years, Cedarville has been state champions in Ohio and national champions among Christian colleges and universities. Contact professor Derrick Green, assistant professor of communication arts, for audition information. Scholarships are available.

Lamda Pi Eta

Lamda Pi Eta is the National Communication Honor Society for undergraduate students. It recognizes, fosters, and rewards outstanding scholastic achievement. In addition, Lamda Pi Eta promotes and encourages professional development among majors, while providing an opportunity to discuss and exchange ideas in the field of communication.

Miriam Maddox Forum

The Miriam Maddox Forum is an honorary alumni society of the department of communication arts for alumni and graduating seniors with a continuing interest in communication within the public sphere.

Society for Human Resource Management

Communication arts majors interested in organizational communications and human resources are encouraged to join the Cedarville University chapter of the Society for Human Resource Management (SHRM). SHRM members investigate the field of human resources by developing their own human resource management programming and activities and by attending other professional human resource meetings and conferences.

Theatre

Each semester the department communication arts presents a major theatrical production. In recent years the department has produced *Arsenic and Old Lace*, *A Doll's House*, *Romeo and Juliet*, *Mousetrap*, *You're a Good Man, Charlie Brown*, *Alice in Wonderland*, *The Imaginary Invalid*, and *Crossing Delancy*. Performances are often sold out and always greatly appreciated by the University family as well as many community guests.

Resound Radio

Students of all majors interested in developing their skills in electronic media are encouraged to join the staff of Resound, the University's award winning on-line professional student radio station. Students are involved in planning, programming, and managing the station. Students enjoy a fun working environment

and a large, responsive audience. Popular programs, music, and personalities have made this station an important part of the campus life at Cedarville. The station can be found at www.resoundradio.com.

Career Opportunities

Careers in communications are varied and vast. Graduates in the communications studies major excel in careers in public relations, personnel management, communication consulting, media communication, political communication, cross-cultural communication, and corporate education training.

Students who major in electronic media receive excellent training for careers in audio and video production, station management, digital media production, journalism, interactive media design, and management.

The theatre program prepares students for a variety of careers in different aspects of drama and professional theatre. The program allows students to prepare for jobs in acting and directing or for opportunities in theatre design, technology, and management. Graduates not only find employment options for these positions in the arts but also in social, educational, and ministry contexts.

These majors also equip students to pursue graduate studies in communication and other fields such as law, theology, and business.

Other career opportunities include:

- Actor
- Advertising executive
- Anchorperson
- Arts administrator
- Business manager
- Communication consultant
- Communication statistician

Electronic Media

The **electronic media major** prepares students for careers in a wide range of media – radio, television, non-broadcast audio/video production, and online and computer-based media. Because of the paraprofessional nature of this program and the balance of practical and theoretical aspects of media work, Cedarville graduates have excelled in careers across all of these media.

Through specifically designed courses, students have the opportunity to work in environments in which radio stations are streaming alternate music formats on the web, television is digital and interactive, and the Internet's broadband capacity provides video on demand. Students receive a broad perspective to prepare them to work in a rapidly changing media environment and will also select a concentration for specialization.

Course requirements involve 53 semester hours – 32 semester hours of core courses that provide the student with an overview of these media and develop skills in common with all of them and a 21-hour concentration. The concentrations provide specialized courses in audio production (radio and non-broadcast audio), video production (television and non-broadcast video), management/sales (covering the business side of the field), and interactive media (online and computer-based media).

Internships are strongly recommended but are dependent upon availability and placement.

Course requirements involve 53 semester hours including:

Journalism

The **journalism major** prepares students for careers in a wide range of media — print, broadcasting, and public relations.

The uniqueness of the major is based in Cedarville University's approach to integrating faith and learning. In this program of study, students will be educated to develop a Christ-centered approach to the collection and dissemination of information.

The scope of the major provides both breadth and depth. The convergent aspect of the program provides academic and professional development across media. There is depth in the progression through the core and concentration subjects.

Entrance into the journalism program is contingent on passing the GSP (Grammar/Spelling/Punctuation) Test.

Retention requirements at the end of fall semester of sophomore year: Journalism majors must have a minimum GPA of 2.5 and a GPA of 2.30 to continue.

Course requirements involve 48–49 semester hours: 30 semester hours of core courses and 18-19 hours of concentration.

Theatre

The **theatre major** provides training in acting, directing, theatre design/technology, and theatre history/dramaturgy. The program allows the student to declare a concentration in either performance or design. A special emphasis is placed upon the challenges faced by the Christian in theatre and the use of drama in worship and Christian ministry.

In addition to studio and classroom instruction, students gain practical experience through working on department productions and serving on production teams. This practical experience work is supervised by the theatre technical staff and may include set construction, scenic painting, lighting, properties, costumes, and other projects.

While many theatre majors anticipate a career in theatre, other students may want to combine the theatre major with a specific minor to help prepare them for the diversity of theatre-related professions including Christian education, youth ministry, arts management, arts law, and arts education. The program culminates in a Senior Theatre Project designed to feature the student's level of expertise and assist the student in preparation for graduate school or the selected area for employment or ministry.

Department of

Education

Mission Statement

The Cedarville University Department of Education seeks to prepare compassionate, professional educators who are committed to the integration of faith, learning, and life as demonstrated in teaching competence and Christ-like character through leadership and service.

Department Distinctives

- **Accreditation:** Cedarville University is accredited by the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602-2502, phone: 312-263-0456. The University's teacher preparation programs are approved by the State of Ohio Department of Education.
- Each year approximately 10% of the senior education students pursue cross-cultural student teaching experiences. They teach under the supervision of experienced, certified teachers in approved, accredited, overseas institutions that use an American curriculum.
- The University's award-winning technology resources enable upper-level students to develop lessons and curriculum resource materials for K-12 partner technology schools. Because of training in the use of educational technology, graduates are sought by schools to help integrate technology into their curricula.
- Intensive clinical experiences accompany methods classes. As a result, many schools comment that Cedarville graduates possess experience and confidence uncommon in most first-year teachers.
- Cedarville's reputation for producing exceptional teachers generates significant demand from school systems. Each year more than 100 Christian and public schools visit the campus to recruit teacher education graduates.

Licensure – Public Schools

The education licensure programs listed in the catalog are subject to revision at any time given changes in national and state requirements for the Teacher Education programs in Ohio, which may also result in adjustment to your graduation requirements.

All programs leading to licensure at Cedarville University are approved by the State of Ohio Department of Education. Ohio bases its requirements and approval processes on standards set by the National Council for Accreditation of Teacher Education (NCATE). Cedarville is not a member of NCATE and thus programs are not approved directly by NCATE. Ohio is a participant in the Interstate Agreement on Qualifications of Educational Personnel and has an implementation agreement (reciprocity) with 42 states. This agreement provides for recognition of Ohio Department of Education-approved programs by member states.

Although reciprocal licensure contracts exist with 42 states, in many cases, students must meet additional requirements to obtain extended or permanent licensure for those states. Also, because of the nature of Ohio's teacher licensing standards, graduates with an Ohio license will normally be granted a license of "best fit" with the state in which the graduate wishes to teach. State licensure requirements are changing in many states; therefore, students who wish to teach outside of Ohio should obtain a current description of certification requirements from the department of education for each state in which they would like to teach. Many states have their certification requirements posted electronically, and these can be accessed through the Cedarville University Education Department home page on CedarNet.

Licensure – Christian Schools

Individuals completing the program receive certification from the Association of Christian Schools International (ACSI). Christian

schools around the world recognize this certification.

Demographic Profile

The number of teacher education program completers for the 2006-07 reporting period was 116. The demographic profile of program completers for the 2006-07 reporting period is:

	Number	Percent
White	113	97.4
African American	1	0.86
Hispanic	1	0.86
Asian	1	0.86
Other	0	0.0
Male	20	17.2
Female	96	82.7

Personal Requirements

Students interested in the teacher education program should enjoy the teaching and learning process and enjoy working with people. The best teachers are those who are life-long learners and enjoy serving others; they are people who are motivated more by making a difference in others' lives than in making a lot of money. Cedarville University desires to work with students who are becoming a professional in their treatment of others, in their dress and demeanor, and in punctuality and responsibility for tasks. Because of the increasingly stringent standards for teachers nationwide, teacher candidates must be able to demonstrate their preparedness to teach by achieving good grades and passing state-mandated tests for teachers.

Co-Curricular Opportunities

Numerous opportunities exist for tutoring in public schools, mentoring K-12 students, and becoming involved in local church ministries to children and adolescents.

Teacher Education Program Admission Requirements

Students admitted to Cedarville University must also make application for formal admission to the Teacher Education Program (TEP) usually late in the sophomore year. To be admitted, students must meet the following requirements at least one semester before enrolling in the first methods of teaching course for their particular program. These requirements apply to all students seeking a degree and/or license in either early childhood education, middle childhood education, special education, multi-age education, or adolescent/young adult education (i.e., secondary education). Students seeking a degree/licensure in a program offered by another department should review the requirements of that department as well.

1. Minimum cumulative GPA of 2.7 in all courses and 2.7 GPA in all TEP core curriculum courses. All TEP core courses must be completed with a grade of "C-" or above.
2. Combined GPA of 2.65 and a grade of "C-" or above in both general education communications courses: COM-1100 Fundamentals of Speech and ENG-1400 English Composition.
3. Minimum GPA of 2.5 in the teaching field content area(s), and content core for early childhood education.
4. No grade of less than "C-" in teaching field or concentration area courses. For early childhood and special education, this includes general education courses in the content areas of humanities, science, mathematics, and social science.
5. Minimum passing scores on the Praxis I (Pre-Professional Skills Test): Reading, 175; Writing, 174; Mathematics, 175.
6. Satisfactory completion of all introductory field experiences: EDUC-1050 Contemporary Christian Schools, EDUC-2200 Multicultural Field Experience, and EDSP-2050 Special Education Field Experience.

7. Recommendation of the education department's admission interview committee based on application, resumé, interview, and letters of recommendation.
8. Valid "No Record" background check for the State of Ohio and an additional FBI background check.

Teacher Education Program Retention and Completion Requirements

To maintain regular standing in the teacher education program and/or to receive a degree, students must maintain and/or complete the following requirements:

- Maintain a GPA of 2.7 or above in all courses.
 1. Obtain a "C-" or above in all methods courses.
 2. Satisfactorily complete field and clinical experiences.
 3. Earn a passing score on state-required Praxis II exams before enrolling in student teaching (licensure only).
 4. Satisfactorily complete the internship experience.

Programs of Study

The department of education offers instruction with the purpose of providing excellent Christian teachers for Christian, public, international, and missionary schools. The University is approved by the Ohio Department of Education for programs leading to a teaching license or endorsement in several areas.

Adolescent/Young Adult and Multi-Age Licensure Programs

The **adolescent/young adult licensure** programs prepare teachers to work with students in grades 7 to 12. The Ohio Department of Education has approved Cedarville University to issue adolescent/young adult licenses for teachers in the areas of integrated science (comprehensive), integrated life science, integrated physical science, integrated physics, integrated chemistry, integrated mathematics, integrated language arts, and integrated social studies. In addition to approving the previously listed programs, the Association of Christian Schools International has also approved Cedarville to offer ACSI certification in integrated Bible.

The **multi-age licensure** education programs prepare students to work with students in grades pre-K to 12. The Ohio Department of Education has approved Cedarville University to issue multi-age licenses in the areas of music education, Spanish education, physical education, and health education.

The course requirements for each licensure field are outlined in the catalog under the department that offers the major; however, the following courses are common to all adolescent/young adult and multi-age education majors and are prerequisites for admission to the teacher education program and upper-level classes.

Teacher Education Core courses	15
COM-2300 Voices of Diversity	3
EDSP-2050 Special Education Field Experience	1
EDSP-2000 Teaching Children with Exceptionalities	2
EDUC-1000 The Education Profession.....	1
EDUC-1050 Contemporary Christian Schools.....	0
EDUC-2000 Introduction to Teaching	2
EDUC-2100 Technology in the Classroom	2
EDUC-2200 Multicultural Field Experience	1
EDUC-2500 Educational Psychology	3

Upon completion of the Teacher Education Core and before enrolling in the Principles of Teaching block, students must make formal application to the TEP. The requirements for admission to the TEP are outlined earlier in this section of the catalog. Most adolescent and young adult and multi-age teacher education majors apply for admission during their junior year. The education department's licensure and testing coordinator provides students with specific information on procedures for admission to the TEP.

Principles of Teaching Block (all AYA majors and MA Spanish)

The following courses are to be taken together just prior to the student teaching experience.

EDSE-4100 Principles of Teaching: AYA	5
¹ EDSE-3300 Developmental Reading	3
² EDSE-4000 Reading in the Content Area: AYA	3
EDSE-4450 AYA Clinical Experience.....	3

<i>Additional Requirements:</i>	
³ EDUC-4500 Philosophy of Education.....	2
EDSE-4900 Student Teaching and Seminar: AYA	10-12
(or EDUC-4900 Student Teaching and Seminar:MA.....)	10-12

¹AYA integrated language arts majors only

²AYA integrated language arts does not take this course. AYA math majors may take this course out-of-class in the summer.

³Must have been admitted to the TEP or achieved junior status. Normally taken concurrently with student teaching.

Department of

Engineering and Computer Science

Mission Statement

The Elmer W. Engstrom Department of Engineering and Computer Science offers accredited programs in Computer, Electrical, and Mechanical Engineering, as well as Computer Science. Our philosophy centers on a rigorous, back-to-basics education that is rich with hands-on opportunities to apply classroom theory. Our faculty share a common vision that states: "We, the Elmer W. Engstrom Department of Engineering and Computer Science, seek to honor the Lord Jesus Christ in every endeavor and earnestly desire to cultivate technical professionals who are committed to moral excellence and who are exemplary in character, conduct, and skill. Therefore, we strive to provide an excellent educational environment that will nurture our students to honor the Lord in all things and help them to grow in spiritual maturity, wisdom, knowledge, and expertise for purposeful lives of service."

Programs of Study

The department of engineering and computer science offers the following programs of study:

Majors

- Computer Science (B.S.)
- Computer Engineering (B.S.Cp.E.)
- Electrical Engineering (B.S.E.E.)
- Mechanical Engineering (B.S.M.E.)

Minors

- Biomedical Engineering
- Computer Science

Special Programs

- Cooperative Education Program
- Engineering Honors Program

Accreditation

The B.S.E.E. and B.S.M.E. programs are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET). Accreditation for Computer Science and Computer Engineering is pending approval in July 2007.

Registration as a Professional Engineer

Senior engineering majors and graduate engineers are eligible to take the NCEES Fundamentals of Engineering (FE) Examination offered by the Ohio Society of Professional Engineers. This exam is the first of two required to become a registered professional engineer and is offered each spring at Cedarville University (CU). CU seniors have passed the FE exam at a rate that is consistently higher than the national pass rates.

Personal Requirements

Students interested in one of the programs housed within the department of engineering and computer science should possess a strong aptitude in mathematics and physical sciences. Those students who flourish in our programs typically enjoy applying their aptitude toward solving problems. Successful engineers and computer scientists are individuals who enjoy designing solutions to problems.

Department Requirements

New Students

Entering students are required to have an ACT composite score of at least 22 (or an SAT of at least 1010) in order to declare a major in the department. Students who do not meet this standard or do not demonstrate equivalent competency may request admission to the department on a provisional status.

To prepare for engineering or computer science, high school students should take a college preparatory curriculum that includes:

- 4 units of English
- 4 units of mathematics (algebra, geometry, trigonometry, and advanced mathematics or precalculus)
- 4 units of science (physical science, biology, chemistry, and physics)
- 3 units of social science
- 2 units of the same foreign language

Experience with spreadsheets and word processors is helpful, but not required for entry.

Retention Requirement

Engineering students must demonstrate proficiency in certain lower-level courses to advance into upper-level 3000- and 4000-level courses. Therefore, all students must earn an overall GPA of at least 2.0 by the end of their sophomore year. In addition, each program within the department has its own specific retention requirements as follows.

Computer Engineering

To advance into the junior year, CpE majors must earn a combined GPA of at least 2.0 in the following engineering courses: EGCP-1010, EGGN-1110, EGEE-2010, and EGME-1810 and 2510.

In addition, CpE majors must earn a combined GPA of at least 2.0 in the following cognate courses: CS-1210, 1220, and 2210; MATH-1710, 1720, 2740 and MATH-3110; and PHYS-2110 and 2120.

Electrical Engineering

To advance into the junior year, EE majors must earn a combined GPA of at least 2.0 in the following engineering courses: EGCP-1010, EGGN-1110, EGEE-2010, and EGME- 1810, 2510, and 2630.

In addition, EE majors must earn a combined GPA of at least 2.0 in the following cognate courses: CS-1210; MATH-1710, 1720, 2710, and 2740; and PHYS-2110 and 2120.

Mechanical Engineering

To advance into the junior year, ME majors must earn a combined GPA of at least 2.0 in the following engineering courses: EGCP-1010, EGGN-1110, EGEE-2050, and EGME-1810, 2050, 2530, and 2630.

In addition, ME majors must earn a combined GPA of at least 2.0 in the following cognate courses: MATH-1710, 1720, 2710, and 2740 and PHYS-2110 and 2120.

Graduation Requirements

1. Earn a cumulative GPA of at least 2.0 in all major and cognate courses.
2. All engineering majors must take an assessment exam similar to the NCEES FE exam.
3. CS majors must achieve a grade of at least a C- in the following courses: CS-1210, 1220, 2210, 3410, 4810, and MATH-1710, 2510.

Technical Resources

Our modern laboratories include the following: fluids lab with an 18-inch cross-section wind tunnel, heat transfer, refrigeration, mechanics, materials testing, internal combustion engines, and dynamometers, CNC manufacturing, vibrations, dynamics of machines, electrical machines, feedback controls, circuits, electronics, communications, digital logic design, microprocessors, surface-mount soldering, and a parallel computing cluster. We also have extensive PC-based laboratories in which students use computer-based circuit design, 3-D solid modeling, FEA, CFD, CNC, and industry-standard IDE software.

Co-Curricular Opportunities

Engineering freshmen participate in an annual Cardboard Canoe Challenge. Other course-based competitions include statics and dynamics design competitions for sophomores, an Advanced Digital Logic Design competition, and an annual programming contest. The department provides students with opportunities to participate in national and international design competitions organized by professional engineering societies such as ACM, ASME, IEEE, SAE, ASEE, and SWE. Our students participate in Aero Design®, Formula SAE®, international programming, Mini Baja®, robotics, Solar Splash®, and Supermileage® competitions.

Career Opportunities

Engineering and computer science both involve the application of scientific and mathematical principles, experience, judgment, and common sense to develop devices which help people. Engineers redesign products to work more efficiently, more quickly, and less expensively. They design EKG and ultra-sound machines that help doctors diagnose medical problems, electrical engineering plants to power our cities, and more fuel-efficient cars and airplanes. Computer programmers develop the software solutions that are used to pilot spacecraft, combat terrorism, prevent collisions at airports, and keep our cars running.

Computer scientists and engineers spend a great deal of time interacting and communicating with others, often working on a team. Because of their strong background in science, mathematics, and technology, they often rise to leadership positions in organizations, managing programs in research, development, design, construction, production, operations, marketing, and sales.

In this era of rapid technological change, an engineering or computer science education serves our society well. In the decades ahead, society's needs and problems will call for technical contributions on a scale not previously experienced.

Engineering Educational Objectives

The Elmer W. Engstrom Department of Engineering and Computer Science educational objectives define God-honoring characteristics of our students three to five years after graduation from Cedarville University.

1. They are successful in a profession related to their field of study.
2. They are prepared for graduate-level education programs.
3. They continue to develop professionally and remain current in their field.
4. They make sound professional and ethical decisions based upon biblical truths.
5. They actively serve in and support Christian ministries, both in their communities and around the world.

Educational Philosophy for Engineering Programs

Each engineering program requires 140 hours to complete; of these, at least 67 hours are engineering topics. The programs are designed to give our graduates a solid background in engineering science and a meaningful design experience at the senior level appropriate to the chosen field of study. Although there are distinctives between the specific engineering programs (see the department website), the educational philosophy for all of the engineering programs can be summarized as follows:

1. Expose students to the basic laws of nature to encourage an understanding of the creation.
2. Equip students with mathematical modeling tools that will enable them to describe the behavior of systems.
3. Require students to apply theoretical models, computer simulations, and laboratory experimentation to analyze engineering systems.
4. Require students to use analytical and numerical techniques to systematically solve engineering problems.
5. Require students to work in teams to solve engineering problems.
6. Equip students to evaluate designs for conformance to technical and ethical standards.
7. Require students to demonstrate effective oral and written communication skills.
8. Promote engineering as a profession, encourage participation in engineering organizations, and foster professional development.
9. Encourage students to see engineering in the broader context of general education, to grow in their relationship with Jesus Christ, and to apply a Christian worldview to all life and learning.

The educational philosophy supports ABET's Criterion three desired outcomes (a) through (k).

David Denlinger, Mechanical Engineering Technician. At Cedarville since 1993.

James Landers, Computer and Electrical Engineering Technician. *Education:* Gateway Electronics, Microsoft, FCC. At Cedarville since 2005.

Engineering Advisory Council

The Engineering Advisory Council consists of professional engineers, researchers, and business leaders representing a variety of engineering-related businesses. Through annual meetings, these experts advise the University and evaluate its programs and plans for building upon Cedarville's reputation for excellence in undergraduate engineering education.

Council members include:

Eugene Apple, General Electric Corporation, retired
Ronald Baker, Hi-Tech Aero Spares
Carl Bertsche, Jr., Production Engineering Company
James Brandeberry, Wright State University
Joe Buonodono, Johnson Controls, Inc.
Hal Carter, University of Cincinnati

Minors

Biomedical Engineering Minor

The **biomedical engineering minor** will help prepare computer, electrical, and mechanical engineering students for careers in the biomedical engineering field, graduate study in biomedical engineering, or medical school. While not required for the emphasis in biomedical engineering, students intending to pursue medical school should have two semesters of general chemistry and organic chemistry, as well as a semester of zoology, cell biology and junior level biochemistry.

Course requirements for the **biomedical engineering minor** involve 13.5-14 semester hours including:

GBIO-1000 Principles of Biology	3.5
(or BIO-1110 Introduction to Biology	4)
GBIO-2010 Human Anatomy and Physiology	4
EGGN-3610 Biomedical Engineering Systems.....	3
GBIO-2720 Bioethics and the Human Experience	3

Chose one elective from the following

EGEE-4610 Medical Imaging	3
EGME 4560 Biomechanics and Biomaterials	3

Computer Science Minor

The **computer science minor** allows students to take a focused set of courses which will enable them to effectively employ programming within their own discipline. Proficiency in computer programming is a skill which can be a strong asset in virtually every discipline. Course requirements for the **computer science minor** involve 27 semester hours including:

CS-1210 C++ Programming	2
CS-1220 Object-Oriented Design Using C++	3
CS-2210 Data Structures Using JAVA	3
CS-3410 Algorithms	3
EGCP-1010 Digital Logic Design	3
MATH-1710, 1720 Calculus I, II	10

Electives chosen from the following

EEGE-3370 Probability and Random Processes	3
MATH-3110 Probability and Statistics I.....	3

Special Programs

Cooperative Education Program

The **cooperative education program** option has been a traditional program option for engineering education for the last 100 years. The co-op program offers students who want to work an opportunity to gain industrial experience as part of their formal education. Co-op is the established program that the industry has developed with academic institutions to provide supervised work experiences for students. Engineering and computer science students who select this option will require an extra year to obtain their B.S. degree; they will receive a certificate stating that they have satisfactorily completed the co-op program option.

Course requirements for the cooperative education program include:

EGGN-3910 Co-Op I	0
(or EGGN-3911 Co-Op IA	0)
(and EGGN- 3912 Co-Op IB	0)
EGGN-3920 Co-Op II	0
(or EGGN-3921 Co-Op IIA.....	0)
(and EGGN- 3922 Co-Op IIB	0)
EGGN-3930 Co-Op III	0
(or EGGN-3931 Co-Op IIIA.....	0)
(and EGGN- 3932 Co-Op IIIB	0)

Engineering Honors Program

The **engineering honors program** is designed to challenge exceptional students and encourage them to reach their highest possible potential. Because the program is integrated with the University's honors program, students who wish to participate must first be admitted into the honors program; the details are listed in the Interdisciplinary Studies section of the catalog. Admission can occur in either the freshman or sophomore year. Admission to the engineering honors program occurs after the student completes the sophomore year. A cumulative GPA of 3.5 or above is required for participation.

Engineering coursework involves taking the honors version of three courses and one additional engineering elective course. These engineering honors courses are the regularly scheduled courses and are taken with other students, but they have enrichment opportunities and exposure to advanced topics through special assignments and extra sessions with the professor.

Course requirements for the **engineering honors program** include:

HON-1010 and 1020 Making of the Modern Mind (substitutes for HUM-1400 and HIST elective).....	10
EGXX-4XXX Additional Engineering Elective	3

Honors version of the following courses:

Requirements for computer engineering majors include:

EGCP-3210 Computer Architecture	3
EGCP-3010 Advanced Digital Logic Design.....	3
EGEE-3210 Electronics I	3

Requirements for electrical engineering majors include:

EGEE-3210 Electronics I	3
EGEE-3330 Communications Theory.....	4
EGEE-4410 Feedback Controls.....	4

Requirements for mechanical engineering majors include:

EGME-3110 Thermodynamics	5
EGME-3850 Mechanical Design	3
EGME-4660 Automatic Controls	3

Students who earn a "B" or above in HON-1010 and 1020, earn a "B" or above in all engineering honors courses, and graduate with a cumulative GPA of 3.5 or higher will earn the "engineering honors graduate" designation.

Department of

Exercise and Sport Science

Mission Statement

The Cedarville University Department of Exercise and Sport Science seeks to:

1. Equip students for careers in sport-and exercise-related professions.
2. Enable students to view knowledge in light of scriptural truth.
3. Help students apply and model knowledge to the vocation and world in which they work and live.
4. Encourage growth in Christian character.

Personal Requirements

Students planning to pursue a major within the department of exercise and sport science are best prepared in high school by taking a college preparatory curriculum. Students planning to pursue a multi-age physical education or sport and exercise studies major should take as many physical education courses as possible. Those considering majors in exercise science allied health and athletic training should take biology, chemistry, physics, and mathematics courses at least through algebra II. Business courses such as accounting and economics are good preparation for students considering a major in sport management.

Department Requirements

Once students declare a major within the department of exercise and sport science, they are expected to maintain a level of personal physical fitness which demonstrates a commitment to professionalism and biblical stewardship. A semi-annual cardiovascular fitness assessment is used to evaluate the status of the student's fitness.

Multi-age physical education and sport and exercise studies majors have courses in their respective curricula that have motor skill performance proficiencies. While meeting the proficiency standards is not required to receive a passing grade in all classes, satisfactory completion of all of the proficiencies is a degree requirement. See pages 70 and 71 for the department of education admission and retention requirements for multi-age physical education and multi-age health education.

Programs of Study

The department of exercise and sport science offers the following programs of study:

Bachelor of Arts (B.A.) in:

- Athletic Training
- Exercise Science
- Physical Education – Multi-Age (certification for teaching pre-K to 12)
- Sport and Exercise Studies
- Sport Management

Bachelor of Science (B.S.) in:

- Allied Health
- Exercise Science

Minors

- Coaching
- Health Promotion
- Health Education – Multi-Age (certification for teaching pre-K to 12)
- Sport Ministry

Co-Curricular Opportunities

The department of exercise and sport science has several opportunities for students to increase their professional skills and awareness by being involved in the following Cedarville University approved organizations:

- Exercise science majors – Health and Fitness Association
- Multi-age physical education and sport and exercise studies majors – Phi Epsilon Omega (Physical Education Organization)
- Sport management majors – Sport Management Organization

Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates include:

- Administrator of youth activities and youth organizations
- Athletic director
- Coach
- Community health opportunities
- Exercise physiologist
- Exercise specialist
- Fitness and recreation management
- Health teacher (pre-K to 12)
- Personal trainer
- Physical education teacher (pre-K to 12)
- Professional athletic team management
- Sport marketing and promotion
- Sport ministry organization management

Faculty

Evan Hellwig, *Chair*. Professor of Athletic Training. Certified athletic trainer (BOC); licensed physical therapist. *Education*: B.S., Mankato State University, 1984; Physical Therapy Certificate, University of Iowa School of Medicine, 1986; Ph.D., University of Virginia, 1992. At Cedarville 1986-89, 1992-present.

Benson Belleman, Assistant Professor of Exercise and Sport Science. Coach, men's soccer. *Education*: B.A., Cedarville University, 1979; M.A., University of Akron, 1990. At Cedarville since 2001.

Jeffrey Bolender, Assistant Professor of Exercise and Sport Science. Coach, men's and women's track and field. *Education*: B.A., Cedarville University, 1991; M.S., Baylor University, 1996. At Cedarville since 2001.

Donald Callan, Professor Emeritus of Exercise and Sport Science. Founder, Missions Involvement Services (MIS); NAIA Hall of Fame, 1990. *Education*: B.S., Taylor University, 1955; M.A., Ball State Teachers College, 1960; Ph.D., The Ohio State University, 1968. At Cedarville since 1960.

Teresa Clark, Associate Professor of Exercise and Sport Science. *Education*: B.A., Cedarville University, 1975; M.S., Indiana University, 1986. At Cedarville since 1996.

April Crommett, Assistant Professor of Exercise and Sport Science. *Education*: B.S., Mississippi State University, 1991; M.S., Memphis State University, 1993; Ph.D., The University of Mississippi, 2000. ACSM Certified Health Fitness Instructor. At Cedarville since 2003.

Christopher Cross, Assistant Professor of Athletic Training. Head athletic trainer (BOC). *Education*: B.S., Alderson-Broaddus; M.S., West Virginia University. At Cedarville since 2004.

Robert Duchardt, Assistant Professor of Athletic Training. Certified athletic trainer (BOC). *Education*: B.S., Taylor University, 1965; M.S., Union College, 1973; graduate study, West Chester State College, 1977. At Cedarville since 1989.

Patrick Estep, Assistant Professor of Exercise and Sport Science. Coach, men's basketball. *Education*: B.A., Cedarville University, 1998; M.Ed., Cedarville University, 2008. At Cedarville since 2008.

Kathleen Freese, Associate Professor of Exercise and Sport Science. *Education*: B.S., Bowling Green State University, 1971; M.Ed., Bowling Green State University, 1981. At Cedarville since 1991.

Alan Geist, Assistant Professor of Sport Management. Director of Athletics. *Education*: B.A., Cedarville University, 1983; M.S., United States Sports Academy, 1989; Ph.D., The Ohio State University, 2001. At Cedarville since 2005.

Pamela Diehl Johnson, Dean: School of Social Sciences and Human Performance. Senior Professor of Exercise and Sport Science. *Education*: B.S., University of Dayton, 1970; M.A., The Ohio State University, 1971; Ph.D., The Ohio State University, 1974. At Cedarville since 1974.

Elvin King, Associate Professor of Exercise and Sport Science. Coach, women's cross country; founder, NCCAA National Track Meet; NCCAA Hall of Fame, 1993. *Education*: B.S., Kent State University, 1964; M.Ed., Bowling Green State University, 1967. At Cedarville since 1969.

Kirk Martin, Assistant Professor of Exercise and Sport Science. Coach, women's basketball. *Education*: B.A., Cedarville University, 1976; M.S., University of Dayton, 1981. At Cedarville since 2001.

John McGillivray, Associate Professor of Exercise and Sport Science. Coach, women's soccer; NAIA Hall of Fame, 1993. *Education*: B.S., Cedarville University, 1970; graduate study, Wright State University, 1972-74; M.S., University of Dayton, 1976. At Cedarville since 1974.

Delyte Morris, Adjunct Professor of Exercise and Sport Science. Coach, women's tennis. *Education*: B.S., Geneva College, 1959; M.S., Indiana University, 1960; Ph.D., Indiana University, 1966. At Cedarville since 1998.

Paul Orchard, Assistant Professor of Exercise and Sport Science. Coach, men's cross country; Assistant Coach, men's and women's track and field. *Education*: B.S., Taylor University, 1983; M.A., Miami University, 1986. At Cedarville since 1993.

Steven Patterson, Assistant Professor of Athletic Training. Certified athletic trainer (BOC). *Education*: B.S., Vanguard University, 1998; M.S., Palm Beach Atlantic University, 2002; all work completed for Ed.D. except dissertation, Nova Southeastern University. At Cedarville since 2008.

Elizabeth Shearer, Instructor of Exercise and Sport Science. *Education*: B.A., Cedarville University, 1980. At Cedarville since 2002.

Athletic Training Mission Statement

The Mission of the Cedarville University Athletic Training Education Program (ATEP) is to advance the Kingdom of the Lord Jesus Christ by equipping godly men and women to be competent certified athletic trainers for excellence in service to Christ in strategic fields of Christian ministry.

This is to be accomplished through an educational program that practices the skills associated with the prevention, diagnosis, and intervention of emergency, acute and chronic medical conditions involving impairment, functional limitations and disabilities.

Students will be able to:

1. Provide quality health care including prevention, diagnosis, and intervention to patients and clients who participate in physical activity.
2. Utilize therapeutic techniques and equipment safely, appropriately, and effectively.
3. Manage an athletic training facility.
4. Instruct patients and clients in areas of prevention, stewardship, and convalescence.
5. Locate and interpret research.
6. Conduct themselves professionally.

The athletic training major prepares students for a career as a Certified Athletic Trainer (or ATC), which is the official credential awarded when students successfully pass the certification exam administered by the BOC. Cedarville's athletic training program meets the requirements set forth by the National Athletic Trainers' Association (NATA) and the Commission on Accreditation of Athletic Training Education (CAATE).

Personal Requirements

Athletic training requires a significant level of scientific and clinical preparation. Prospective athletic training students are encouraged to take college preparatory courses in high school, including biology, chemistry, physics, and advanced math. An ACT composite score of 24 (or SAT composite of 1100) or greater is highly recommended.

Typically, the student who is interested in athletic training as a potential career has a history of being involved in athletics personally and may even wish to pursue participating in athletics at the collegiate level. Students need to be aware that the Cedarville University Athletic Training Education Program depends on the varsity athletics program at CU to provide the primary "laboratory" experiences for the clinical education component of the program. Therefore, attempting to participate in varsity athletics while simultaneously pursuing the athletic training major may prove to be a significant conflict of interest.

Students are, however, expected to model appropriate stewardship of their physical bodies by being involved in a consistent program of regular exercise and activity. An annual one and a half-mile run is used to evaluate the status of the student's fitness.

Program Requirements

Admission and Retention

Athletic training clinical education is a labor-intensive product to deliver. Because there is a finite number of quality sports medicine opportunities available on campus, the ATEP limits each academic class to no more than 12 students each (i.e., 12 seniors, 12 juniors, and 12 sophomores). There is currently no limit to how many freshmen may declare athletic training as their major, but if more than 12 students desire to continue as athletic training majors beyond the freshman year, the competitive admission process is enforced. Transfer students are considered on an individual basis but are only eligible to be admitted directly into the ATEP if: 1) there is space available in their graduating class and 2) they have met all the admission criteria. Anyone thinking about transferring to Cedarville for the purpose of being an athletic training major should contact the program director as early in the process as possible. Admission criteria include:

1. Cumulative grade point average of 2.5 or better
2. Completion of college-level biology and chemistry courses with a grade of "C-" or better
3. Completion of college-level first aid and basic athletic training courses with a grade of "B-" or better
4. Completion of at least 150 clinical hours in the Cedarville University Athletic Training Facility
5. Satisfactory physical exam
6. Hepatitis B vaccine or signed declination
7. Signed acceptance of technical standards, available at www.cedarville.edu/athletictraining
8. Current certification in cardiopulmonary resuscitation (CPR) including AED

Retention criteria include:

1. Earning a grade of "C-" or better in all athletic training courses
2. Maintaining a cumulative grade point average of 2.25
3. Maintaining current CPR/AED certification
4. Successfully completing clinical proficiencies established for each term
5. Positive recommendation by the faculty/clinical instructors of the ATEP

Graduation requirements include:

1. Earning a grade of "C-" or better in all athletic training courses
2. Member of the NATA
3. Successful completion of all clinical proficiencies
4. Meeting University requirements for graduation

Students are encouraged to combine the athletic training major with another program of study depending upon their career objectives. Possible options include a business minor for those planning to be employed in the sports medicine clinic setting, or a teaching certificate for those planning to be employed in the high school setting, and exercise science or biology electives for those pursuing graduate education or employment in higher education. Students need to be aware that preparing to be a marketable athletic trainer may require more than the traditional four years of college.

A complete description of the general education requirements is found on page 24.

Athletic Training

Clinical Requirements

The clinical experience is an integral part of the ATEP. Accreditation standards require that the clinical education component of the curriculum be at least two full years in duration. Athletic training majors need to be routinely available during typical varsity practice and game times in order to fulfill the clinical education requirements. Freshmen will need to accumulate at least 150 hours in order to be eligible for admission into the ATEP. Sophomores will be scheduled to work (approximately 8-10 hours per week) with every team each semester on a rotation basis to expose them to all aspects of collegiate athletic training services. The junior and senior years are devoted to completing extensive clinical assignments, including assisting a certified athletic trainer with a lower extremity sport, an upper extremity sport, an equipment intensive sport (football), and a general medical clinical education rotation. Upperclassmen can anticipate working 12-18 hours per week. Students majoring in athletic training are not encouraged to participate in intercollegiate athletics.

Allied Health

A Bachelor of Science interdisciplinary program designed to prepare students for admission into graduate level allied health care provider programs especially physical therapy and occupational therapy. The **allied health major** is not necessarily designed to prepare students for the medical profession. Students seeking admission to medical school should consider majoring in the premed program offered in the department of science and mathematics.

Minors

Coaching Minor

The **coaching minor** prepares students to work as coaches in organized athletic programs at any level. Although formal education is not currently required of coaches, this particular program combines theoretical, scientific, and practical components to provide students with the knowledge and the skills they will need to succeed in this competitive yet rewarding area of service. The course requirements of the coaching minor make it a suitable complement to any major field of study offered by the University.

Course requirements for a minor in coaching involve 18 semester hours including:

CCHG-3670 Fundamentals of Coaching	3
CCHG-3680 Scientific Basis of Coaching	2
Select one course from CCHG-3700 through CCHG-3760

Health Promotion Minor

The **health promotion minor** is a non-certificate area for those students not seeking K-12 teaching certification in health education. It is designed to prepare students for health promotion employment opportunities in educational, community, health agency, sport, and leisure settings. It complements the coursework in physical education, athletic training, business, exercise science, sport and exercise studies, or psychology.

Course requirements for a minor in health promotion involve 21 semester hours including:

ESS-1400 First Aid and Safety Education	2
ESS-3890 Human Anatomy and Physiology for the Physical Educator.....	5
MAHE-1000 Introduction to the Health Profession	1

Department of

History and Government

Mission Statement

The goal of the Cedarville University Department of History and Government is to develop ethical and capable professionals who can refine and integrate a Christian world and life view with their respective fields as they serve in a multicultural society and the global community.

Department Objectives

1. History and Government students will evidence knowledge of the basic components of their respective academic disciplines.
2. History and Government students will participate in graduate study and/or practice as professionals in public and private professions.
3. History and Government students will demonstrate competence in the methods and tools of original quantitative and qualitative research and the ability to formulate and express the results.
4. History and Government students will exhibit critical analysis in evaluating historical and/or contemporary issues.
5. History and Government students will display the ability to integrate biblical truth with their academic disciplines through the investigation and study of society.

Personal Requirements

A solid high school college preparatory program provides an excellent background for students entering the various majors in the department.

Department Requirements

To graduate with a degree from the department of history and government, students must earn a cumulative average of 2.0 or above and a "C-" or above in all courses required by their selected major. In addition, **all** majors must complete the following:*

1. Complete senior research project under the direction of a faculty advisor. This research project will also be directed by a three-member committee that shall be selected with the advice of their research director and will include at least one professional member outside the department of history and government.
2. A presentation of selective senior research projects presented to invited faculty, students, and guests.
3. Complete the Major Fields Test (ETS) in their area at the scheduled time during spring semester of their senior year (as appropriate).

Technical Resources

A large number of computer software programs are available to students, including:

- A variety of presentation programs
- Database programs
- Spreadsheet programs
- Statistical analysis programs
- Various search engines
- Word-processing programs
- Web and HTML programs

Several of the department programs prepare students for careers directly following graduation. Through a variety of modalities (including field work and class presentation by practitioners), students are able to network with actual career representatives and on occasion be exposed to the technologies being utilized by a career area.

Programs of Study

The department of history and government offers the following programs of study:

Bachelor of Arts (B.A.) in:

- American Studies
- History
- History and Political Science
- International Studies – Social Science
- Political Science
- Prelaw
- Public Administration
- Social Studies Education – Integrated

Minors

- History
- International Studies
- Political Science
- Public Administration

Co-Curricular Opportunities

Each major has several professional organizations in which students may participate. Students can also broaden their understanding and knowledge through a variety of travel opportunities, internships, and student organizations.

Omega Mu

Omega Mu is the Cedarville University chapter of Pi Sigma Alpha – the National Political Science Honor Society. The goal of this honor society is to promote the scholarly investigation of politics and to assist its members in developing their leadership potential in their sphere of influence.

CU Republican Club

CU Republican Club is an organization dedicated to the development of Christian leaders in the political arena.

Model United Nations Team

Model United Nations Team is a simulation of the United Nations system. Students assume the roles of ambassadors to the United Nations and negotiate current global issues. The Cedarville University Model UN Team participates in an intercollegiate competition in which participants seek to deal with complex global concerns such as the environment, economic development, refugees, AIDS, disarmament, and human rights. As representatives of UN member nations, team members must master a great deal of detailed information about national policies while remaining in character – responding to debates and negotiations in the same manner as a UN delegate from that nation.

Renaissance Guild

Renaissance Guild increases learning and awareness of the medieval and Renaissance eras and provides fellowship with like-minded individuals.

Center for Political Studies

The Center for Political Studies at Cedarville University was founded to articulate a biblical view of government through the study of politics, law, history, and public policy; to educate Cedarville University faculty, staff, students, and constituents; and to engage and influence American political culture. The Center sponsors, among other programs, regular lecture series and an annual roundtable discussion of contemporary political issues.

Career Opportunities

Graduates of the department have attended some of the nation's outstanding graduate and professional schools. Careers pursued by graduates include:

- Administrator
- Archaeologist
- Archivist
- Attorney
- Community developer
- Diplomat
- Government worker
- Historical researcher
- Politician
- Public administrator

Department of

Interdisciplinary Studies

Mission Statement

Interdisciplinary programs at the University are designed to encourage the thinking, research, and applications that help students understand the interrelationships among disciplines that are characteristic of a true liberal arts education. Drawing from several academic disciplines, these programs promote learning that broadens and deepens the student's view of knowledge and the world as a whole.

Personal Requirements

Students who choose interdisciplinary programs typically possess a unique love for learning. They desire to know about many areas and enjoy discovering the relationships among the various academic disciplines that comprise the body of knowledge. Though most college preparatory curricula provide a good measure of breadth through their coverage of the basic disciplines, students interested in interdisciplinary programs should choose electives that sharpen their thinking skills and expand their intellectual horizons. Advanced high school courses in writing, literature, mathematics, science, economics, world history, or social science are recommended.

Although background in foreign language is not required for admission to the programs, foreign language competency is necessary for effective international service. Consequently, two or more units of foreign language in high school are strongly recommended.

Programs of Study

The University offers the following interdisciplinary programs:

- Honors Program
- Individualized Studies
- International Studies, with the following concentrations:
 - Global Economics and International Business
 - Missiology
 - Social Science
 - Reserve Officer Training Corps (ROTC)
 - Air Force
 - Army

Co-Curricular Opportunities

Tau Delta Kappa provides an opportunity for fellowship, ministry, exchange of ideas, and support of students involved in the honors program. TDK students also tutor school children in the Cedarville area.

Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates include:

- Diplomat
- Government worker
- International relations
- Military officer
- Missionary

Honors Program

The **honors program** is designed to challenge gifted students to reach their academic potential through a specially designed course of study. The courses designated as "honors courses" are rigorous and demanding, challenging students to aspire to greater heights in their academic progress.

Admission to the program for entering freshmen is based upon ACT/SAT scores, extracurricular and work experience, and a sample of expository writing. Prospective students must complete a separate application, which is available through the admissions office.

A limited number of students are admitted into the program each fall. Students enrolled in the honors program are required to complete four honors courses in addition to a senior seminar or project.

Two of these courses are taken in the freshman year in a sequence entitled "The Making of the Modern Mind," which traces the development of philosophic, cultural, and artistic traditions against the background of the history of western civilization. These two courses meet general education requirements in humanities, philosophy, and history.

In the sophomore and junior years, honors students take two integrative seminars. Typically, each honors seminar provides an interdisciplinary perspective on the topic of study. Enrollment in honors seminars is limited to twenty students.

In the senior year, each honors student participates in the honors colloquium during the two semesters of the academic year. This senior seminar stresses the development of a Christian worldview in the midst of the contemporary pluralistic society.

Through the honors program, Cedarville University encourages superior scholarship, allows a thorough integration of the various disciplines, and provides the student an opportunity to better understand how all knowledge relates to its source in God. The honors program offers an adventure in the world of ideas, coupled with practical incentives for transcribing faith and learning into the larger culture for the glory of God and the benefit of men and women in His image.

Course requirements for the honors program involve 16 semester hours including:

I. Freshman Colloquia: ¹The Making of the Modern Mind	10
HON-1010 The Classical and Medieval Ages	5
HON-1020 Renaissance, Reformation, and Revolutions.....	5
II. Honors Integrative Seminars	4
Two seminars, typically 2 hours each, taken in the sophomore and junior years.	
III. Honors Research Project/Thesis	2
Participation in a one-hour interdisciplinary colloquium each semester (HON-4910, HON-4920) or an interdisciplinary research project (HON-4950).	

¹If taken together, these two courses replace the following general education requirements:

HUM-1400 Introduction to the Humanities.....	3
Humanities Elective	3
(or 2000-level philosophy course if required for the major)	
History Elective.....	3

If either of these two courses are taken individually, the course may be designated as 5 semester hours of credit toward either the humanities or history general education requirements.

Individualized Studies

The **individualized studies** program serves students with specialized career aspirations that may not fit with a particular major program offered at Cedarville University or those who desire a traditional, broad undergraduate program before proceeding to graduate school. The program leads to a Bachelor of Arts degree and includes the following provisions:

1. A student interested in an individualized studies program may submit a proposal after completing 20 semester hours at Cedarville University, exclusive of Advanced Placement, CLEP, and transfer credits, with a minimum 3.25 grade point average.
2. The student must define the focus of the intended individualized program on the program approval form. In addition, the student must demonstrate that the proposed program objective cannot adequately be achieved through an existing major at Cedarville University. The program approval form must be signed by a faculty sponsor and by the department chair of one of the major components of the program.
3. Each program must be approved by the standing Individualized Studies Committee appointed by the academic vice president. Decisions of this committee may be appealed to the Deans Council.
4. When the Individualized Studies Committee approves a student's proposed program, it will assign an academic advisor for the student.
5. Changes to the approved program must be approved by the faculty advisor and the Individualized Studies Committee.
6. For transcript purposes, the program will typically be called a B.A. degree with an individualized program in liberal arts.
7. The individualized program must meet all of the Cedarville University bachelor's degree requirements as detailed in the University catalog. In particular, the following items must be satisfied:
 - A grade point average in the program of at least 2.5.
 - At least one-third of the program courses must be taken at Cedarville University.
 - At least one-third of the program courses must be taken at the 3000-level or above.
 - D grades will not count as meeting the requirements of the individualized program.
 - A capstone course or experience appropriate to the individualized program and approved by the Individualized Studies Committee.

International Studies

The **international studies major** utilizes courses from several academic disciplines to prepare students for a variety of internationally focused careers. A distinct international studies core provides the foundation for all the concentrations available in this major. Courses in anthropology, business, communications, culture, geography, history, linguistics, and political science provide students with the basic understanding they need to appreciate the diverse international community. Concentration options enable students to focus upon a particular area of interest within the international context. Three concentrations are available.

Course requirements involve 21 semester hours of core requirements and 33-60 hours of concentration requirements, depending on the selected concentration.

Reserve Officer Training Corps (ROTC) Air Force Aerospace Studies

As a Cedarville University student, you have the opportunity to become an Air Force officer while the Air Force helps pay for your education. We offer the ROTC program to full-time Cedarville University students pursuing a baccalaureate or master's degree. While all courses are taken through Cedarville University, leadership laboratories and classes for junior and senior years are taught at Wright State University, the host site of the area Air Force ROTC detachment. Cedarville University provides transportation.

The Air Force ROTC program is designed to produce Air Force officers who will be successful leaders and managers. All officers will be placed in positions of responsibility, facing challenging and rewarding career opportunities while using the most advanced technology in the world.

The Air Force ROTC program is organized in two portions: the General Military Course (GMC), typically taken during freshman and sophomore years, and the Professional Officer Course (POC), usually taken during junior and senior years or during the last two years prior to graduation. At minimum, officers will need to complete the POC portion of the program.

- The GMC is a **no-obligation** introduction to the Air Force. The course covers the development and history of air power and the organization of the contemporary United States Air Force.
- The POC curriculum covers communicative skills, Air Force management and leadership, American defense policy, and regional world studies.

Air Force ROTC students have additional opportunities to participate in challenging and rewarding activities that include skydiving, piloting a sail-plane, trips to Air Force bases, orientation flights, official military functions and ceremonies, and one-on-one mentoring with an active duty Air Force officer.

This program is open to **all majors**. All Air Force ROTC students have the opportunity to apply for **scholarships** that pay partial or full tuition, books, and fees, in addition to a \$250 - \$400 monthly stipend depending on your progress in the program. These scholarships are available on a competitive basis to students who demonstrate academic and leadership potential. Scholarships with the greatest availability are in the areas of engineering, mathematics, computer science, physics, and nursing.

High school students should apply for a scholarship no later than December 1 of their senior year. Apply at www.afrotc.com. In-college students will apply for scholarships through their ROTC instructor.

If you are a freshman seeking a challenge or wish to give Air Force ROTC a trial run, sign up for the Aerospace Studies 1210 course that is offered to you without tuition cost by Cedarville. Interested students should visit the Cedarville ROTC website www.cedarville.edu/rotc or contact the Cedarville University Admissions Office at 1-800-CEDARVILLE.

Army

Reserve Officer Training Corps (ROTC) instruction leading to a commission as a second lieutenant in the United States Army is available to Cedarville University students. Freshman- and sophomore-level classes are taught at Cedarville University. Junior- and senior-level classes, as well as drills, are conducted at Central State University, located four miles west of Cedarville. All Army ROTC courses are taken through Cedarville University.

The objectives of the Army ROTC program are:

1. To prepare students to serve as commissioned officers in the Regular Army, the Army National Guard, or the United States Army Reserve.
2. To provide an understanding of the fundamental concepts of military art and science.
3. To provide students with leadership and managerial training, a basic understanding of military professional knowledge, a strong sense of personal integrity, honor, individual responsibility, and an appreciation of the requirements for national security.

The standard four-year ROTC program involves two phases: the basic course during the first two years and the advanced course during the final two years. One can qualify for advanced placement by being a veteran, a member of the United States Army Reserve or National Guard, or by attending six weeks of paid summer training following his or her sophomore year of college.

Students enrolled in the advanced course earn \$250 per month for a maximum of 10 school months per year.

Two- and three-year merit scholarships, which pay for tuition, fees, textbooks and supplies are available. Recipients of these scholarships also receive \$250 per month for 10 months of the school year each school year the scholarship is in effect.

Students interested in pursuing a dual civilian and military career should request information about the Guaranteed Reserve Forces Duty Scholarships and Reserve Duty options.

Interested individuals should visit the Cedarville ROTC website www.cedarville.edu/rotc or contact the Cedarville University Admissions Office.

Army ROTC course requirements count as elective credits in the 128 semester hours required for graduation.

Department of

Language and Literature

Mission Statement

The Cedarville University Department of Language and Literature seeks to achieve the following objectives:

1. To instruct students to write effectively.
2. To encourage students to read and appreciate literature.
3. To teach students to evaluate literature intelligently.
4. To provide a general knowledge of the chronology and the social and intellectual background of English, American, and Spanish literature.
5. To prepare students for graduate work in the fields of English, Spanish, and technical communication.
6. To prepare teachers of English and Spanish.
7. To prepare students for careers in technical communication.

Personal Requirements

Students who choose English as a major are expected to acquire a high level of competency in the discipline of the English language. Those who wish to study foreign language will benefit from taking foreign language in high school. No previous foreign language experience is required to take elementary-level foreign language.

Department Requirements

To graduate with a major from the department of language and literature, students must earn at least a 2.0 cumulative average in all courses required for their major and at least a "C-" in all courses taken to meet specific requirements in their major.

Programs of Study

The department of language and literature offers the following programs:

Majors

- English
- Language Arts Education – Integrated
- Spanish Education – Multi-Age
- Spanish
- Technical and Professional Communication

Minors

- Creative Writing
- Editing and Publishing
- German
- Literature
- Spanish
- Spanish for Professionals
- TESOL (Teaching English to Speakers of Other Languages)
- Writing for the Professions

Co-Curricular Opportunities

Cedars

Students comprise the editorial staff of Cedarville's semi-monthly campus newspaper.

German Club

Provides opportunities to practice language skills and learn about cultures through extracurricular activities.

Miracle

Students with writing, photography, editorial, and layout and design talent have the opportunity to compile and edit the University's yearbook.

The Society for Technical Communication Student Chapter

Serves students in the technical and professional communication major. STC promotes communication in technical

fields. Benefits of membership include job referral services, networking with professionals, and numerous social activities among faculty and students.

Spanish Club

Provides opportunities to practice language skills and learn about cultures through extracurricular activities.

The Cedarville Review

Students submit and publish fiction, photography, creative nonfiction, and poetry, as well as select, prepare, and format manuscripts for publication in this annual literary journal.

Sigma Tau Delta

The International English Honor Society seeks to confer distinction for high achievement in English language and literature studies, promote interest in literature and the English language, and foster the discipline of English in all its aspects, including creative and critical writing.

Study Abroad Opportunities

ISEPS Program

The Instituto Sevillano de Estudios y Prácticas (ISEPS) is an independent, accredited educational and socio-cultural institute that offers a series of four unique overseas studies programs in Seville, Spain. These programs are carefully developed to address the requirements of undergraduates with particular abilities and interests leading to an international study abroad career preparation. Every ISEPS program is designed to be an educationally viable learning process that responds proportionately to the individual Spanish language level of each program participant. More information can be found at www.SevilleStudies.com. Students interested in the program should contact Dr. Andrew Wiseman for additional information. *ISS (Institute of Spanish Studies)*

The Institute of Spanish Studies was established in 1950 in cooperation with the Universities of San Francisco and Valencia. In 1985, the institute became an independent program; at present, it is associated with Longwood University of Virginia. Classes in Valencia, Spain, are held at the American Institute, with its own fully equipped premises. More information can be found at www.spanish-studies.com. Students interested in the program should contact Dr. Barbara Loach or Dr. Andrew Wiseman for additional information.

CIEE (Council on International Educational Exchange)

CIEE offers study abroad opportunities at its 60 CIEE Study Center programs in 29 countries around the world. The CIEE Study Centers provide curricula specifically designed with the US undergraduate in mind and offer superior student services and activities that help students derive maximum benefit from the experience. More information can be found at www.ciee.org. Students interested in the program should contact Dr. Andrew Wiseman for additional information.

Technical Resources

Cedarville's **Writing Center** serves the University community as a place to build skills for better writing across the disciplines. It also functions as a training ground for students who tutor there, assist in administration, or aid faculty with research projects related to writing centers.

Students also have industry-standard software available to strengthen their professional skills, including:

- Reading and writing skill builders
- Language tutorials
- Publication design

Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates of this department include:

- Creative writing
- International business
- Journalism
- Law
- Publishing
- Missions
- Teaching
- Technical communication
- Technical marketing communication
- Web design

Technical and Professional Communication Industry Advisory Board

The TPC industry advisory board aims to enable the department to adequately position the TPC major and its graduates for the future.

Board members include:

- Scott Bennett, Procter and Gamble*
- Chrystal Dunson, Watson Dunson & Associates, Inc.*
- Guy Margiotta, Nationwide*
- Sylvia Miller, CDO Technologies*
- Carole Rennie, SaBER Corporation*
- Walt Staudenmaier, Bastion Consulting*
- Jim Visgaitis, SaBER Corporation*
- Phil Wittmer, Lexis/Nexis*
- Tom Zimmerman, GE Medical Systems*

A complete description of the general education requirements is found on page 24.

Foreign Language

As students become acquainted with the language, lifestyles, and belief systems of another culture, they can develop greater insight into that culture. Knowledge of a second language can become a valuable support skill for careers in business, Christian ministry, education, government, and social services. The department provides a variety of language courses that allow students to develop basic communication skills and cultural awareness.

Guidelines for satisfying the General Education Requirement for foreign language are found on page 25. Language students are also encouraged to consider the study abroad options listed under Travel Study Opportunities.

Spanish

The **Spanish major** enables students to develop skills in reading, writing, speaking, and comprehending spoken Spanish to gain cultural understanding that will enable them to interact appropriately in a variety of social contexts. Studying the language, history, and literature of the Hispanic peoples provides students with opportunities to practice their language skills and gain appreciation for the contributions and values of the Hispanic culture. Students are encouraged to enhance their program by participating in an approved cross-cultural experience such as a study abroad program or missions outreach.

Department of

Music, Art, and Worship

Mission Statement

The purpose of the Cedarville University Department of Music, Art, and Worship is to help develop an appreciation and understanding of the musical and visual arts consistent with a biblical worldview. The department seeks to help students gain an understanding of the responsibility of stewardship, service, and worship that is placed upon those to whom God has given musical and artistic talents.

Students completing programs in music, art, and worship will be able to:

1. Demonstrate an understanding of technical skills necessary for the solo performance of music and the individual creation of art.
2. Articulate a biblical philosophy of fine and performing arts which reveals an understanding of the integration of faith and learning.
3. Demonstrate awareness of historical as well as new styles of music, art, and worship.
4. Manifest attitudes necessary to guide others toward an increased understanding of the arts.
5. Participate in performances or presentations that contribute to the artistic cultures of the University and the community.

The music programs of study are accredited by the National Association of Schools of Music (NASM).

Personal Requirements

Auditions

Applicants who wish to major in music should follow the standard procedures for admission. Satisfactory completion of an audition is required for approval as a music major.

Students should check the website at www.cedarville.edu/academics/musicandart to obtain requirements and contact the department of music, art, and worship to schedule an audition.

Scholarships

Scholarship assistance is available to music majors who qualify on the basis of audition, academic record, and references. Additional academic scholarships and other types of financial assistance are available to qualified individuals through the Cedarville University Financial Aid Office.

Music Theory Exams

All incoming students are required to pass the Music Theory Competency Exam. This test assures that students have the minimum knowledge necessary for college-level music theory courses. The exam is scheduled during Getting Started Week activities.

Students who have had significant music theory training prior to attending Cedarville may take the Music Theory Test-Out Exam. Contact the department of music for additional information regarding this test.

Portfolio

Applicants who wish to major in studio art or graphic design should follow the standard procedure for admission. A portfolio submission for either major is encouraged but is not a requisite for admission into the program. Portfolios should be submitted on a CD or at an arranged on-campus interview.

Department Requirements

To graduate with a major from the department of music, art, and worship, students must earn at least a 2.0 cumulative average in all courses required for their major and at least a "C-" in all courses taken to meet specific requirements in their major.

Graphic Design and Studio Art Requirements

Freshman Review

All entering freshmen are admitted into the graphic design and studio art majors on a conditional basis. After the second semester of study, freshmen are evaluated by the graphic design and studio art faculty to determine whether they are making adequate progress to continue in their respective programs and/or exhibit the talent necessary to be successful in their chosen field. Students who do not show satisfactory progress and/or talent will be advised to consider other majors unless they show significant improvement.

Sophomore Portfolio Review

At the end of the second semester of the sophomore year, graphic design and studio art majors are required to apply to the department for upper-divisional standing. The student is required to present a portfolio representing every area of his or her work in graphic design and/or studio art courses at the University. The portfolio should include original two-dimensional work and a CD of images of three-dimensional work. The graphic design and studio art faculty will evaluate the student on the basis of academic progress, grade averages in major courses, and the portfolio that is submitted. Students who do not pass their sophomore review will not be allowed to continue in the major.

Transfer Review

All students who wish to transfer from another college or university and enroll at Cedarville University as either a graphic design or a studio art major on the junior or senior level must submit the same material requested for the sophomore portfolio review. The graphic design and studio art faculty will review this material before acceptance into the program is granted.

Music Requirements

Music Student Handbook

The *Music Student Handbook* is the authoritative statement on all department policy as it applies to the student. Each music student is responsible for following the policies and procedures contained in both the handbook and the University catalog. The handbook can be found online at www.cedarville.edu/academics/musicandart/studentresources.htm

Private Lessons

Private lessons are open to all music majors and minors with curricular need. Students are expected to take private lessons on their major instrument for each semester they are enrolled. Exceptions to this include students who are student teaching and other circumstances as deemed appropriate by the chair.

Semester Performance Juries

All music majors perform a jury in their primary performing area every semester. The jury is a short performance for a committee of music faculty. The grade from the jury counts for 25% of the final grade in private lessons for the semester. For performance majors, the jury counts for 33% of the final grade in private lessons.

Freshman Review

After the second semester of study, freshmen are evaluated by a committee of music faculty to determine whether they are making adequate progress to continue in the music program. Students who do not show satisfactory progress may be asked to change majors.

Sophomore Check

While the primary screen for continuance in the music program occurs at the Freshman Review, student achievement is also checked at the end of the sophomore year to confirm adequate progress toward degree completion and admittance to upper-level music courses.

Piano Proficiency

All music majors are expected to meet the minimum proficiency requirements for piano as established by the department. Piano placement is done during Getting Started Week. Complete piano proficiency requirements are available in the music office.

Technology Proficiency

All music majors are expected to meet proficiency requirements for technology as established by the department. This requirement can be met by successfully passing a technology proficiency test or by passing THMU-1500 Introduction to Music Technology.

Ensemble Participation

Music majors are expected to participate in at least one ensemble every semester they are enrolled. Once the credit requirements for their majors are fulfilled, they may enroll for 0 credit.

Recital and Program Attendance

Attendance is required of all music majors and minors. All students must complete recital and program attendance each semester they are enrolled as a music major. Minors must take two consecutive semesters.

Capstone Recital or Project

In addition to performance in general student recitals throughout the college experience, all music majors are required to exhibit a level of performance for graduation that meets the requirements and standards of the department. For all majors, the capstone requirement is a senior recital or project.

Fees

Instrumental rental fee per semester: \$50; practice room fee per semester: \$100 (each hour of lesson credit). Classes that involve labs or University-provided student equipment may also have similar fees.

Programs of Study

The department of music, art, and worship offers the following programs of study:

Bachelor of Arts (B.A.) in:

- Music
- Graphic Design
- Studio Art
- Worship

Bachelor of Music (B.M.) in:

- Church Music Ministries
- Composition
- Keyboard Pedagogy
- Performance

Bachelor of Music Education (B.M.E) in:

- Choral
- Instrumental

Minors

- Studio Art
- Church Music Ministries
- Graphic Design
- Music

Technical Resources

The department of music, art, and worship relies heavily on the use of technology to accomplish its educational objectives. Music students will spend time in a state-of-the-art music computer/synthesizer lab that allows them to practice ear training, produce printed musical scores, and complete fully-orchestrated compositions. Graphic design students render and complete class assignments in a fully-equipped Macintosh computer lab using industry-standard programs.

Co-Curricular Opportunities

All students are invited to audition for the numerous choral and instrumental ensembles that perform in many different venues throughout the academic year. Students may also participate in one of a growing number of small chamber music groups. Music education majors are required to participate in the collegiate chapter of MENC: The National Association for Music Education. This award-winning chapter offers many professional and service opportunities to its members.

Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates of this department include:

- Graphic artist
- Music supervisor
- Music therapist
- Performer
- Recording studio technician
- Retail music salesperson
- School teacher (elementary and secondary Christian or public schools)
- Studio teacher
- College professor
- Community arts manager
- Composer/arranger

Church Music Ministries

The church music ministries major prepares the music student for graduate studies or for ministry of music in churches that embrace evangelical traditions. Upon completing this course of study, students should be able to:

1. Demonstrate an understanding of and appreciation for the development of western civilization as it relates to life in general and to the music of the church.
2. Perform with expertise, making application to the evangelical traditions when appropriate.
3. Evaluate the musical and spiritual needs of a congregation and develop a music ministry program to meet those needs, integrating music into the total life, mission, and purpose of the local evangelical church in its individual cultural setting.
4. Demonstrate an understanding of and ability for developing, organizing, and administering a church music teaching and training program for evangelical churches.

Students pursuing this major must complete the general education core.

Graphic Design

The **Bachelor of Arts in graphic design** prepares students for a career in visual communication. The artist is generally identified as a graphic designer, visual designer, design consultant, or communication designer. More specifically, career opportunities include the design of advertising, exhibitions, publications, corporate identity, packaging, books, signs, magazines, multimedia presentations, and web pages. Every industrial, social, educational, service, and governmental organization needs communication items. Employment may be with an organization or business, a design agency, or in a freelance capacity.

Students may choose to combine the major with a specific minor that enhances their potential for a wide diversity of graphic design-related career options, including professional writing, marketing, business management, or electronic media.

Department of

Nursing

Mission Statement

As a Christ-centered learning community, the Cedarville University Department of Nursing is dedicated to influencing the profession of nursing for Jesus Christ, domestically and globally. In this environment, we contribute to the body of nursing knowledge, provide leadership in nursing and health care arenas, and produce graduates who are grounded in biblical truth and demonstrate mastery in four primary areas: care, culture, godly living, and information management.

Accreditation and Licensure

National

The department of nursing program is accredited by the Commission on Collegiate Nursing Education.

State

The department of nursing has full approval by the Ohio Board of Regents and the Ohio Board of Nursing.

Registration

Graduates are eligible for admission to the National Council Licensure Examination (NCLEX-RN) for licensure as a registered nurse in any state.

Personal Requirements

Students who wish to apply for admission to Cedarville University and major in nursing need a strong commitment to leading a godly lifestyle and to learning ways to use nursing as a ministry for Christ. A college preparatory curriculum including four years of both mathematics and science (algebra, biology, and chemistry are required) provides the best academic preparation for the nursing major. An ACT composite score of 24 (or SAT composite of 1100) or greater is required.

Department Requirements

Admission to Nursing Clinical Courses

Students apply for admission to the department of nursing clinical courses during the *spring semester of their sophomore year*. Students who meet the following criteria are admitted on a competitive basis:

1. Earn a cumulative grade point average of 3.0 or higher. Students with a GPA of 2.8-2.99 will be admitted on probation.
2. Earn a "C-" or above in all required courses.
3. Write and have approved a statement of career goals.
4. Provide a recommendation from the respective academic advisor.
5. Provide appropriate health information.
6. Pay an application fee (\$25 non-refundable).
7. Provide evidence of liability insurance (\$1 million/\$3 million limits).
8. Obtain current certification in cardiopulmonary resuscitation (CPR).
9. Valid "No Record" FBI criminal background check including fingerprinting.
10. Demonstrate computer literacy.
11. Demonstrate a level of health consistent with safe nursing practice.
12. Complete required prerequisite courses prior to enrollment in clinical nursing courses. (Students may have no more than three outstanding general education or Bible courses prior to beginning nursing clinical courses.)
13. Have a plan for provision of own transportation to clinical experiences.

Retention Requirements

1. Earn a grade of "C-" or above in all nursing courses.
2. Maintain a cumulative GPA of 2.5 or higher at the end of each semester junior and senior year.
3. Maintain current CPR certification and professional liability insurance.
4. Attain clinical objectives.
5. Receive a positive recommendation by the faculty of the department of nursing.

Graduation Requirements

1. Earn a grade of "C-" or above in all nursing courses.
2. Register for admission to the examination for state licensure as a registered nurse.
3. Earn a passing score on a national standardized nursing examination selected by the faculty and taken during the spring semester of the senior year.
4. Receive a positive recommendation by the faculty of the department of nursing.
5. Meet University requirements for graduation.

Financial Aid

Federal Nursing Student Loans are available to qualified students who have been admitted to the nursing program. Some additional scholarships are available through our endowments although primarily offered to upperclassmen accepted into the department of nursing clinical courses. Information is available in the department office, the financial aid office, and on the financial aid website at www.cedarville.edu/finaid.

Programs of Study

Cedarville's nursing program leads to a Bachelor of Science in Nursing (B.S.N.) degree. Nursing students may also select a minor in cross-cultural nursing.

Licensed Nurses Who Wish to Earn a B.S.N.

The curriculum plan for the R.N. and L.P.N. is individually designed on the basis of previous coursework. Interested students should request R.N.-B.S.N. or L.P.N.-B.S.N. education information from the department of nursing. Specific information concerning transfer admission and the transfer of college credit is in the admissions section of this catalog.

Co-Curricular Opportunities

Christian Nurses Association

The Christian Nurses Association promotes spiritual growth and professional development for nurses and service for the community. Membership is open to all nursing students.

Technical Resources

- **Barrett Clinical Lab** Industry-standard technology for onsite learning of basic clinical skills required for nursing care
- **24-Station Multi-Media Lab** Equipped with a variety of software programs to supplement out-of-class student learning

Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Nursing graduates obtain positions in the following settings: medical centers, public health departments, home health agencies, clinics, nursing homes, schools, work sites, mental health facilities, and mission fields.

Clinical Activity Information

Facilities

All clinical activity is conducted under the supervision of the Cedarville University Department of Nursing faculty. The program utilizes a number of community resources including public and private, large and small hospitals, health departments, mental health services, rehabilitation centers, clinics, homes for the aged, and physicians' offices.

Students are responsible for transportation to and from clinical settings. Car pools are encouraged to help defray transportation costs.

Health Information

Prior to clinical nursing courses, students must provide documentation of:

1. Complete physical examination.
2. Rubella and Rubeola immunity.
3. Negative Mantoux test. Clinical agencies require a negative chest x-ray in the event of a positive TB skin test.
4. History of chicken pox or results of a Varicella Titer.
5. Childhood immunizations.
6. Tetanus booster (within past 5 years).
7. Hepatitis B vaccine series or signed declination.
8. Hep Vax (Hepatitis A) vaccine recommended.

Uniforms and Equipment

Each student must secure uniforms and photo identification prior to the first clinical experience. Students must purchase books and equipment needed in clinical settings.

A complete description of the general education requirements is found on page 24.

Nursing Course Requirements

In addition to completing the general education requirements, nursing majors must take the following courses. These requirements are divided into two segments, *support cognate requirements and nursing major requirements*.

Department of

Psychology

Mission Statement

The Cedarville University Department of Psychology seeks to:

1. Develop understanding of biblical content that has psychological impact and to investigate all psychological concepts in the light of scriptural truth.
2. Provide an analysis of the person from physical, emotional, rational, and spiritual levels.
3. Aid students in their personal adjustment to everyday life through an understanding of human behavior.
4. Prepare students for graduate study in psychology and related areas.
5. Train students desiring to use counseling in vocational ministry and in biblical counseling contexts.
6. Introduce students to the work world through internships, Christian ministries, guest lecturers, and advisement.
7. Provide courses in psychology necessary for teacher certification.

Personal Requirements

Some students who pursue a major in psychology are interested in providing human services to populations with special needs. Other psychology majors choose to focus on graduate school preparation, including research interests.

Department Requirements

All psychology majors must obtain a cumulative 2.0 grade point average or higher in their major for graduation.

Programs of Study

The department of psychology offers a Bachelor of Arts degree in the following programs of study:

Majors

- Psychology
- Applied Psychology with emphases in:
 - Family Studies
 - Counseling

Minor

- Psychology

While significant flexibility exists in both the psychology and applied psychology majors, the latter program is particularly useful for students not intending to pursue graduate studies subsequent to earning the bachelor's degree. The applied psychology major provides more in-depth coursework geared specifically toward human service jobs in child and family and counseling fields.

The psychology program is particularly useful to students who wish to earn a minor field of study at Cedarville, earn a double major, or take a sequence of courses in preparation for graduate school.

Co-Curricular Opportunities

Psychology majors have the opportunity to present papers at the Mid-America Undergraduate Psychology Research Conference and the Ohio Undergraduate Psychology Conference. In addition, the department sponsors the Psi Kappa Theta (PKT) Psychology Club for qualifying psychology majors.

Technical Resources

Psychology students are able to conduct data analysis utilizing the University's SPSS software system. Counseling skill courses involve participation in simulated role-playing experiences. Personality inventories are utilized as part of courses in personality and psychological measurement.

Career Opportunities

The Cedarville University Psychology Department has a strong track record in seeing alumni placed in quality graduate psychology and counseling programs. In addition, graduates of the applied psychology major find ready placements in human service agencies after graduation. Careers pursued by psychology majors include:

- Author
- Behavior specialist
M/R populations
- Chaplain
- Child therapist
- College counselor
- College professor
- Correctional institution counselor
- Counselor in local church
- Crisis pregnancy center director
- Dean of men/women
- Forensic psychologist
- Geriatric center counselor
- Guidance counselor
- Health psychologist in a hospital
- High school psychology teacher
- Industrial psychologist
- Marriage and family therapist
- Missions agency counselor
- Private practice
- Psychologist (clinical)
- School psychologist
- Social agency counselor
- State hospital counselor
- Substance abuse counselor

Applied Psychology

The **applied psychology major** provides students with strong undergraduate preparation in the areas of child and family studies and counseling. Applied psychology majors complete the same core courses as do the general psychology majors.

In addition, students take courses that are useful for pursuing jobs in human service fields after completing their baccalaureate degrees. The applied psychology major may be attractive to students who do not wish to declare a formal minor (other than Bible) and instead wish to complete additional psychology courses as part of their four-year program of study.

Course requirements include 37 semester credits of core psychology courses and an additional 23 credits in their applied emphasis.

Minor

Psychology Minor

The **minor in psychology** helps students who find that additional coursework in psychology will support their major field of study. In particular, understanding people and human dynamics and applying the scientific method to problem-solving strengthens students' vocational preparation and ultimate job success. The psychology minor is constructed to allow maximum flexibility across a large cross-section of majors at Cedarville University.

Course requirements involve 16 semester hours including:

PYCH-1600 General Psychology	3
PYCH-2640 Abnormal Psychology	3
Electives in psychology.....	10

Department of

Science and Mathematics

Mission Statement

The Cedarville University Department of Science and Mathematics offers curricula in biology, chemistry, physics, mathematics, the earth-space sciences, and secondary science and mathematics education. The department seeks to present the natural sciences and mathematics as disciplines through which students can learn to understand creation and its Creator. They will learn how to exercise stewardship of this knowledge as professionals who seek to make a difference in their vocations for the glory of God and the benefit of family, church, community, and environment.

This department seeks to:

1. Provide a meaningful learning experience in the sciences and mathematics as part of the liberal arts core curriculum.
2. Aid students in developing clear and orderly thinking processes through the use of the techniques of science and mathematics.
3. Assist students in developing a biblical perspective of the sciences, which is essential in understanding controversial issues such as origin of life, biomedical ethics, and genetic engineering.
4. Prepare students for graduate study or further professional study in the medical, environmental, or agricultural sciences.
5. Prepare secondary teachers with a biblical perspective of science.
6. Prepare students to serve in other science-related vocations.

Personal Requirements

Students who enjoy and excel in high school mathematics and science courses possess the greatest potential for success as graduates of this department. Therefore, to prepare for the mathematics and science curricula, students should take a college preparatory curriculum which includes:

- Four units of English
- Four units of mathematics (algebra, geometry, and trigonometry)
- Four units of science (physical science, biology, chemistry, and physics)
- Three units of social science
- Three units of a single foreign language
- Electives in computers may also be helpful.

Programs of Study

The department of science and mathematics offers the following programs of study:

Bachelor of Arts (B.A.) in:

- Biology
- Chemistry
- Chemistry Education
- Life Science Education
- Mathematics
- Mathematics Education – Integrated
- Physical Science Education
- Physics
- Physics Education
- Science Comprehensive Education – Integrated

Bachelor of Science (B.S.) in:

- Biology
- Chemistry
- Environmental Science
- Forensic Science
- Mathematics
- Molecular and Cellular Biology
- Physics

Minors

- Actuarial Science
- Biology
- Bioethics
- Chemistry
- Earth Science
- Mathematics
- Physics

Special Programs

- Environmental Biology
- Medical Technology
- Preagriculture
- Premedical (pre-health professions)
- Prepharmacy
- Pre-physical Therapy

Co-Curricular Opportunities

- Chi Theta Pi (pre-health professions organization)
- P.R.A.I.R.I.E. (Prairie Restoration and Initiative for Research, Inspiration, and Earthkeeping)
- Emergency Medical Services Squad
- Math Club
- Omega Theta Kappa (science education)

Technical Resources

- A.D.A.M. Interactive Anatomy
- Biology and chemistry laboratory support
- Chem Sketch
- DPGraph 2001
- Laboratory simulations
- LaTeX
- Maple 10.0
- Matlab 7.20
- Molecular Modeling Software
- MicroCalc 7.0
- RasMol
- SigmaPlot 10.0 ®
- Statistical analysis tools

Career Opportunities

Graduates of this department have gained admission to outstanding graduate and professional schools around the nation. Careers pursued by graduates include:

- Agricultural consultant
- Biologist
- Botanist
- Business actuary
- Chemist
- Chiropractor
- Environmental scientist
- Environmental toxicologist
- Health professional
- Laboratory technician
- Mathematician
- Pharmacist
- Physical therapist
- Physicist
- Physician
- Researcher
- Statistician
- Science educator
- Wildlife biologist

Faculty

Dennis Flentge, *Chair*: Professor of Chemistry. *Education*: B.S., Texas Lutheran College, 1969; Ph.D., Texas A&M University, 1974; Postdoctoral Research Fellow, University of Florida, 1974-75; Texas A&M University, 1976; Summer Faculty Research Fellow, Wright-Patterson Air Force Base, 1981, 1982, 1984-1988, 1990, 1996, 1997, 2001; graduate study, University of Wisconsin, summer, 1984. At Cedarville since 1980.

Donald Baumann, Professor of Biology and Chemistry. *Education*: B.S., Iowa State University, 1960; M.S., Iowa State University, 1962; Ph.D., Iowa State University, 1964. At Cedarville since 1964.

Edwin Braithwaite, Professor of Mathematics. *Education*: B.A., Western Washington University, 1966; M.A., Western Washington University, 1968; Ph.D., University of Illinois, 1975. At Cedarville since 1976.

Xidong Chen, Associate Professor of Physics. *Education*: B.S., Shandong University, China, 1989; M.S., Institute of Physics, Chinese Academy of Sciences, 1992; Ph.D., University of Illinois, Urbana-Champaign, 1997; Postdoctoral Research Scientist, Argonne National Laboratory, 1997-2001. At Cedarville since 2001.

Leroy Eimers, Professor of Physics and Mathematics. *Education*: B.S., Hobart College, 1963; M.S., Syracuse University, 1966; Ph.D., Syracuse University, 1970. At Cedarville since 1981.

Darrin Frey, Associate Professor of Mathematics. *Education*: B.S., University of Nebraska, 1989; Ph.D., University of Michigan, 1995. At Cedarville since 1997.

Mark Gathany, Assistant Professor of Biology. *Education*: B.S., Grace College, 2002; M.S.E.S & Conservation Biology Certificate, Ohio University, 2004; Ph.D., Colorado State University. At Cedarville since 2007.

Sarah Gilchrist, Assistant Professor of Mathematics. *Education*: B.S., Cedarville University, 2000; M.S., Wright State University, 2004. At Cedarville since 2004.

Steven Gollmer, Associate Professor of Physics. *Education*: B.S., Pillsbury Baptist Bible College, 1982; B.S., Northern Illinois University, 1985; M.S., University of Illinois, 1986; Ph.D., Purdue University, 1994. At Cedarville since 1994.

Larry Helmick, Senior Professor of Chemistry. *Education*: B.S., Cedarville University, 1963; Ph.D., Ohio University, 1968; postdoctoral research, University of Florida, 1974-75 and summers of 1969, 1970, 1971; University of Illinois, summers of 1972, 1973, 1974; Summer Faculty Research Fellow, NASA-Lewis Research Center, 1980-1987 and 1990-1993, 1998; National Research Council Senior Research Fellow, 1988-1989; Wright Laboratory, Wright-Patterson Air Force Base, 1994-1997. At Cedarville since 1968.

Nathan Hnatiuk, Assistant Professor of Chemistry. *Education*: B.S., Houghton College, 2003; ABD, University of Connecticut. At Cedarville University since 2008

Aaron Hutchinson, Assistant Professor of Chemistry. *Education*: B.A., Cedarville University, 1998; Ph.D., University of Kentucky, 2007. At Cedarville University since 2003.

William Jones, Assistant Professor of Biology. *Education*: B.A., Cedarville University, 1981; M.A., University of Akron, 1999; Ph.D. candidate, The Ohio State University. At Cedarville since 1999.

Heather Kuruvilla, Associate Professor of Biology. *Education*: B.S., Houghton College, 1992; Ph.D., State University of New York at Buffalo, 1997. At Cedarville since 1997.

Dali Luo, Associate Professor of Mathematics. *Education*: B.S., South China Institute of Technology, 1982; M.S., Claremont Graduate School, 1988; Ph.D., Washington State University, 1992; M.A., Grand Rapids Baptist Seminary, 2001; Th.M., Calvin Theological Seminary, 2003. At Cedarville, 1992-1998, 2001-present.

Mark McClain, Professor of Chemistry. *Education*: B.A., Cedarville University, 1989; Ph.D., University of Michigan, 1994; Postdoctoral Fellow, Sandia National Laboratories, 1994-96; Summer Faculty Research Fellow, Air Force Research Laboratory, 1997, 1999, 2000, 2001, 2002; National Research Council Senior Research Associate, 2003-2004. At Cedarville since 1996.

Douglas Miller, Professor of Chemistry. *Education*: B.S., University of Rochester, 1977; Ph.D., University of Colorado, 1981; postdoctoral research, University of Iowa, 1982; City University of New York, 1982-1984; Summer Faculty Research Fellow, NASA-Lewis Research Center, 1986-1990, 1992. At Cedarville since 1984.

Terry Phipps, Professor of Biology. *Education*: B.S., Cedarville University, 1970; M.S., Wright State University, 1974; Ph.D., The Ohio State University, 1987. At Cedarville since 1978.

Kevin Roper, Associate Professor of Mathematics. *Education*: B.S., Southampton University, England, 1979; M.Ed., University of South Carolina, 1988; M.A., University of Kentucky, 1992; Ph.D., University of Kentucky, 1995. At Cedarville 1995-97, 2000-present.

Alicia Schaffner, Associate Professor of Biology. *Education*: B.S., Purdue University, 1992; Ph.D., The Ohio State University, 2000. At Cedarville since 2000.

Robert Schumacher, Assistant Professor of Mathematics and Computer Science. *Education*: B.S., Computer Science, United States Air Force Academy, 1970; M.S., Operations Research, Air Force Institute of Technology, 1979. At Cedarville since 1993.

Jennifer Secor, Assistant Professor of Mathematics. *Education*: B.S.; Cedarville University, 2001; M.A., Miami University, 2003; Additional graduate study, Auburn University, 2003-2005. At Cedarville since 2005.

John Silvius, Senior Professor of Biology. *Education*: B.A., Malone College, 1969; graduate study, Western Michigan University, 1970; Ph.D., West Virginia University, 1974; postdoctoral study, University of Illinois, 1974-76. At Cedarville since 1979.

Dennis Sullivan, Professor of Biology. *Education*: B.S., Youngstown State University, 1974; M.D., Case Western Reserve University, 1978; Diplomate, American Board of Surgery, 1985; Fellow, American College of Surgeons, 1996; M.A. (Ethics), Trinity International University, 2004. At Cedarville since 1996.

John Whitmore, Associate Professor of Geology. *Education*: B.S., Kent State University, 1985; M.S., Institute for Creation Research, 1991; Ph.D., Loma Linda University, 2003. At Cedarville since 1991.

Cynthia Wingert, Assistant Professor of Biology. *Education*: B.A., Cedarville University, 2001; M.S., Wright State University, 2005. At Cedarville 2001-2003, 2005-present.

Otis Wright, Associate Professor of Mathematics. *Education*: B.Sc. (Hons.), The University of Sydney, Australia, 1987; M.A., Princeton University, 1989; Ph. D., Princeton University, 1991. Postdoctoral research, University of North Carolina at Chapel Hill, 1998-1999. At Cedarville since 2002.

Daniel Wetzel, Professor Emeritus of Physics and Mathematics. *Education*: B.S., Morehead State College, 1955; M.S., University of Cincinnati, 1963; Ph.D., The Ohio State University, 1971. At Cedarville since 1963.

Technical Support Staff

Eric Johnson, Science Laboratory Technician. *Education*: B.A., Cedarville University, 1988. At Cedarville since 2003.

Elizabeth Rambikur, Biology Laboratory Instructor. *Education*: B.S., Cedarville University, 2008. At Cedarville since 2008.

Emphasis requirements.....	12

Each student must complete 12 hours in an emphasis area that is an extension of the major. Examples of such tracks include public policy, geoscience, and molecular ecology. At least 8 of these credits must come from 3000 or 4000 level courses. The courses in the emphasis will be selected by the student and his/her advisor and must be approved by the department chair. This set of courses will be sent to the registrar and will become part of the student's academic file.

Molecular and Cellular Biology

The **Bachelor of Science degree with a major in molecular and cellular biology** prepares students for graduate-level training in the context of a broad biological background based in a biblical worldview. This degree allows students to become holistically thinking molecular biologists and will enhance the student's depth of knowledge in this competitive and growing field.

Mathematics – Bachelor of Arts

The **Bachelor of Arts degree with a major in mathematics** provides coursework and training in advanced mathematics. Because of the general nature of this curriculum and opportunity to complement the major with electives from other fields of study, this curriculum provides excellent preparation for graduate study in areas that require good quantitative and/or analytical skills such as philosophy, business, and theology. This liberal arts major also prepares students for a wide variety of career opportunities that require a general Bachelor of Arts degree. The flexibility of this major enables students to select their mathematics and other electives to meet educational or career goals.

Students should include courses in astronomy, chemistry, and physics as general electives.

Course requirements involve 54 semester hours including:

Mathematics Core Requirements	42
CS-1210 C++ Programming.....	2
MATH-1710, 1720, 2710 Calculus I, II, III	13

Teacher Education Licensure Programs Adolescent and Young Adult

The department of science and mathematics joins with the education department to offer adolescent/young adult licensure programs in the following areas:

- Chemistry
- Life Science
- Mathematics – Integrated
- Physical Science
- Physics
- Science Comprehensive – Integrated

The course requirements for each licensure field are outlined under each major. However, the following courses are common to all adolescent/young adult majors in this department:

Teacher Education	39
COM-2300 Voices of Diversity	3
EDSE-4000 Reading in the Content Area: AYA.....	3
EDSE-4100 Principles of Teaching	5
EDSE-4450 Adol/Young Adult Clinical Experience	3

Chemistry Education (Bachelor of Arts)

The chemistry education major prepares young people to engage the culture as chemistry teachers in the middle school and high school setting, both public and private institutions. Preparing future educators with a heart for Christ and a high view of God's Word.

Course requirements involve 94.5 semester hours including:

Chemistry Core Requirements	55.5
CHEM-1010 Principles of Biochemistry	5
CHEM-1110, 1120 General Chemistry I, II	8
CHEM-2210 Analytical Chemistry I.....	3
CHEM-2800 Introduction to Research in Chemistry.....	1
CHEM-3210 Environmental Chemistry.....	4

Prepharmacy

Cedarville University is in the process of developing and obtaining accreditation for a School of Pharmacy which will culminate in the degree of Doctor of Pharmacy. Our **prepharmacy curriculum** is designed as a three-year curriculum preparing students for entrance to our School of Pharmacy. Students admitted to the prepharmacy program who meet required standards each of the three years and pass other entrance requirements being developed for the School of Pharmacy are guaranteed admission to Cedarville's four-year professional program. Entrance to the prepharmacy program is competitive and requires completion of special admissions processes including an on-campus interview. It is recommended that students apply to the University for admission into the prepharmacy program by the end of November prior to their entrance to the University.

The prepharmacy requirements listed below fit well with several existing degree programs offered by the science and mathematics department. These include the Bachelor of Science degree with a major in biology, the Bachelor of Arts degree with a major in biology, and the Bachelor of Arts degree with a major in chemistry.

Cedarville's development of a School of Pharmacy and offering of the Doctor of Pharmacy degree is contingent upon receipt of accreditation by the Accreditation Council for Pharmacy Education; the Ohio Board of Regents; and The Higher Learning Commission of the North Central Association of Colleges and Schools (www.ncahlc.org).

The following 100-hour program should be included in the three or four years the prepharmacy student attends Cedarville.

Special Programs

Preagriculture Curriculum

The **preagriculture curriculum** is designed to satisfy the technical and non-technical requirements of the first two years of a typical agriculture program. Students should research agricultural schools to which they wish to transfer at the junior level so that application materials can be completed in advance of deadlines. The preagriculture students should confer with their advisor to select electives based on the following criteria:

- The requirements of the school to which they will transfer after leaving Cedarville University
- The specific agricultural program they wish to enter

Course requirements include core requirements and an emphasis in either agriculture business or agriculture science.

Core requirements include:

BEGE-1710 Christian Life and Thought.....	3
BEGE-1720 Spiritual Formation.....	3
BIO-1110 Introduction to Biology.....	4
CHEM-1110 General Chemistry I.....	4
ENG-1400 Composition.....	3
GMTH-1030 Precalculus.....	4
(or MATH-1710 Calculus I.....)	5)
GSS-1100 Politics and American Culture.....	3
HUM-1400 Introduction to the Humanities.....	3

Agriculture Business Emphasis

The **agriculture business emphasis** prepares students for careers in the industry and business phases of agriculture.

Course requirements include:

Two courses selected from.....10

ACCT-2110 Principles of Accounting.....	3
BIO-1120 General Zoology.....	4
BIO-2500 General Botany.....	4
BIO-2600 General Ecology.....	3

Social Science Elective.....3

Agriculture Science Emphasis

The **agriculture science emphasis** prepares students for careers including agronomy, animal science, food science, and horticulture.

Course requirements include:

BIO-1120 General Zoology	4
BIO-2500 General Botany	4
BIO-2600 General Ecology	3
CHEM-3510, 3520 Organic Chemistry I, II	10
MATH-1720 Calculus II	5
MATH-3110 Probability and Statistics I	3
Biological Science Elective	4
(or CHEM-3710 Biochemistry	4)
Humanities elective	3
Social Science elective	3

Medical Technology Option

A **medical technology** option is available within the biology major. The student must spend one year in a hospital internship program to become a certified medical technologist. Prerequisites to the hospital internship include: 16 hours of biology, 16 hours of chemistry, one mathematics course, and completion of all general education requirements.

Students may do an internship during their senior year with 32 hours of transfer credit applied to the biology major upon successful completion of the internship. Many students complete the requirements for a biology major first and then take the internship after graduation from Cedarville University.

Predental, Premedical, Preoptometric, Preosteopathic, and Preveterinary Medicine

Cedarville University students have been successful in gaining admission to medical and professional schools. For many of these schools, no specific major is required; however, students typically choose majors in biology or chemistry. In addition to general degree requirements, the following courses are recommended for admission:

Biology courses:

BIO-1110 Introduction to Biology	4
BIO-1120 General Zoology	4
BIO-2210 Microbiology	4
BIO-3300 Genetics	4
BIO-3420 Vertebrate Zoology	3
(or BIO-4410 Developmental Biology	4)
BIO-3450, 3460 Human Structure and Function I, II	7
BIO-4710 Principles of Bioethics	3
(or BIO-4770 Pathophysiology	3)

Chemistry courses:

CHEM-1110, 1120 General Chemistry I, II	8
CHEM-3510, 3520 Organic Chemistry I, II	10
CHEM-3710 Biochemistry	4

Additional courses:

MATH-1710, 1720 Calculus I, II	10
PHYS-1010, 1020 College Physics I, II	10
(or PHYS-2110, 2120 General Physics I, II	8)

Note: Students who desire admission to physician assistant programs will also need to have 1,000 hours or more of direct health care experience. Specific requirements vary from one program to another.

Prephysical Therapy

Most Cedarville students who successfully apply to graduate programs in physical therapy have completed the B.A. in biology. Students should contact the specific schools they wish to attend to determine the exact prerequisites. Physical therapy schools usually require 40 to 100 hours of experience assisting a licensed physical therapist prior to application. In addition to general degree requirements, the following courses are recommended for admission to most physical therapy schools:

Biology courses:

BIO-1110 Introduction to Biology	4
BIO-1120 General Zoology	4
BIO-3300 Genetics	4
BIO-3450, 3460 Human Structure and Function I, II	7
BIO-4770 Pathophysiology	3

Chemistry courses:

CHEM-1110, 1120 General Chemistry I, II	8
CHEM-3510 Organic Chemistry I	5
CHEM-3710 Biochemistry	4

Additional mathematics and science courses:

GMTH-1030 Precalculus	4
PHYS-1010, 1020 College Physics I, II	10

Psychology:

PYCH-1600 General Psychology	3
PYCH-2600 Human Development: Lifespan	3
PYCH-2610 Statistics	3
PYCH-2640 Psychology of Abnormal Behavior	3

Other highly recommended electives:

ATRN-2650 Therapeutic Exercise for Athletic Injuries	3
ATRN-3660 Modalities in Athletic Training	5
BIO-4710 Principles of Bioethics	3
ESS-3920 Biomechanics	3
ESS-3940 Structural Kinesiology	1
ESS-3900 Physiology of Exercise	3

Department of

**Social Work, Criminal
Justice, and Sociology**

Mission Statement

The department of social work, criminal justice, and sociology's mission is to provide students with an educational experiential learning environment in the context of a biblical worldview which will prepare them for service and leadership in our world.

Department Objectives

1. Students will develop a Biblical worldview of their respective academic discipline.
2. Students will exhibit critical thinking skills in their respective discipline.
3. Students will be prepared for graduate study and/or become practitioners in their discipline.
4. Students will understand ethical integrity that is based on Scripture and is applicable to their discipline.
5. Students will understand the characteristics of diverse populations.
6. Students will exhibit effective oral and written communication skills.
7. Students will understand the value of service to the local and greater community.

Personal Requirements

A solid high school college preparatory program provides an excellent background for students entering the various majors in the department.

Department Requirements

To graduate with a degree from the department of Social Work, Criminal Justice, and Sociology, students must earn a cumulative average of 2.0 or above and a "C-" or above in all courses required by their selected major. In addition, all majors must complete the following:*

1. Attend an integration seminar during the fall of their senior year, offered in conjunction with the senior capstone experience.
2. A complete senior research project under the direction of a faculty advisor. This research project will also be directed by a three-member committee that shall be selected with the advice of their research director and will include at least one professional member outside the department of social sciences and history.
3. A presentation of selective senior research projects presented to invited faculty, students, and guests.
4. Complete the Major Fields Test in their area at the scheduled time during spring semester of their senior year (as appropriate).

*Admissions and graduation requirements for social work are listed on page 187.

Programs of Study

The department of Social Work, Criminal Justice, and Sociology offers the following programs of study:

Bachelor of Arts (B.A.) in:

- Criminal Justice
- Sociology

Bachelor of Science (B.S.) in:

- *Forensic Science
- Social Work

*In cooperation with science and mathematics; see page 165.

Minors

- Criminal Justice
- Sociology

Co-Curricular Opportunities

Each major has several professional organizations in which students may participate. Students can also broaden their understanding and knowledge through a variety of travel opportunities, internships, and student organizations.

Alpha Delta Nu

Alpha Delta Nu provides criminal justice students with the opportunity to enhance their professional development. Members are students who believe that a career in criminal justice is a ministry in a God-ordained institution, which is government. This organization promotes Christian character, leadership, and service through training, information, and networking to supplement academic studies. The society assists students to prepare for a transition to their professional field as practitioners.

Epsilon Alpha Pi

Epsilon Alpha Pi is a professional organization for social work majors that seeks to promote professional development, political and social awareness, and community outreach.

Epsilon Omega

Epsilon Omega is a local chapter of Phi Alpha Honor Society, the National Social Work Honor Society, committed to promoting a high standard of education for social workers.

Technical Resources

A large number of computer software programs are available to students, including:

- A variety of presentation programs
- Database programs
- Spreadsheet programs
- Statistical analysis programs
- Various search engines
- Web and HTML programs
- Word-processing programs

Several of the department programs prepare students for careers directly following graduation. Through a variety of modalities (including field work and class presentation by practitioners), students are able to network with actual career representatives and on occasion be exposed to the technologies being utilized by a career area.

Career Opportunities

Graduates of the department have attended some of the nation's outstanding graduate and professional schools. Careers pursued by graduates include:

- Administrator
- Adoption social worker
- Minister
- Children's services social worker
- Community developer
- Probation officer
- Forensic scientist
- Government worker
- Medical social worker
- Mental health social worker
- Parole agent
- Police officer
- Prison caseworker
- Prison manager (warden)
- Federal law enforcer
- School social worker
- Senior citizen center outreach worker

Forensic Science

Interested students may consider a Bachelor of Science degree with a major in **forensic science**. This is an undergraduate interdisciplinary degree program with an emphasis on advanced (upper-level) coursework and substantial laboratory work in the sciences. Student completing this program will also earn a minor in criminal justice and participate in an internship in a state crime laboratory their junior and senior years. This program is provided in partnership with the science and mathematics department. Program requirements can be found on page 165.

A complete description of the general education requirements is found on page 24.

Sociology

The **sociology major** examines the social interaction of individuals in groups, organizations, and institutions. Particular attention is given to the cultural environment in which people live. Courses evaluate the influence of that environment and the relationships established in them, in light of scriptural norms and a biblical view of God, society, and the individual.

Social Work

The **social work major** prepares students for future ministries/careers in professional social work, professional church and church-related specializations, and informal assistance. The wide range of opportunities within the social work field provides graduates with numerous ways of investing in the lives of individuals, families, groups, and communities.

The social work program is accredited by the Council of Social Work Education. Social work graduates are eligible for licensure.

Mission Statement

The mission of the Cedarville University Social Work Program is to prepare students to lead in serving those in need as professional generalist social workers by empowering them with the knowledge, values, and skills of the profession from a Biblical worldview.

Goals

The goal of the social work program is ultimately to enable students to integrate the knowledge, values, and skills of the social work profession into competent practice by:

1. Providing content about social work practice from a generalist perspective with client systems of various sizes and types.
2. Preparing students with the skills, values, and knowledge to practice with diverse populations at risk.
3. Providing content about social contexts, the changing nature of those contexts, the behavior of organizations, and the dynamics of change.
4. Preparing students who are aware of their responsibility to continue their professional growth and development.
5. Preparing students to practice with populations at risk with unique discrimination and oppressive histories (with a special focus on poverty).
6. Integrating biblical principles throughout the curriculum so that students can appropriately integrate their faith and that of their clients into the helping relationship.
7. Laying a foundation of core skills essential to a high caliber of social work practice (i.e., problem solving, listening, verbal and written communication, and critical thinking).
8. Creating an appreciation for the profession as well as an understanding of the history, personalities, and issues and events that helped to shape it.
9. Infusing throughout the curriculum the values and ethics that guide professional social workers in their practice.

Objectives

Graduates of the Cedarville University baccalaureate social work program will be able to:

1. Apply critical thinking skills within the context of professional social work practice.
2. Integrate Christian beliefs and values with professional social work values and ethics as set forth in the code of ethics.
3. Practice without discrimination and with respect, knowledge, and skills related to client's age, class, color, culture, political ideology, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, political and sexual orientation.
4. Identify the issues underlying the conditions of poverty, oppression, and discrimination and apply strategies of advocacy and social change that advance social and economic justice nationally and globally.
5. Comprehend and interpret the history of the social work practice and its contemporary structures and issues.

6. Apply the knowledge and skills of generalist social work to practice with systems of all sizes and in the context of the church.
7. Apply knowledge of bio-psycho-social-spiritual variables and use theoretical frameworks supported by empirical evidence to interpret individual development and behavior across the life span and the interaction among individuals and between individuals and families, groups, organizations, and communities.
8. Analyze, formulate, and influence social policies.
9. Evaluate research studies, apply research findings to practice under supervision, and evaluate their own practice interventions.
10. Use communication skills differentially across client populations, colleagues, and communities
11. Utilize supervision and consultation appropriate to generalist practice.
12. Function within the structure of organizations and service delivery systems and, under supervision, seek necessary organizational change.

Senior course for preseminary and comprehensive Bible majors. Students demonstrate the ability to articulate and defend an appropriate systematic theology. Capstone course.

BEST-4950 Men and Women in Leadership–Fa 3 hours

A complementary perspective of men and women providing leadership for the body of Christ within the current cultural milieu.

BEST-4990 Topics in Special Topics–Fa, Sp 1-3 hours

Investigation of special topics in Bible and theology, which have intrinsic worth and engage student interest. Permission of instructor required for non-majors.

Biblical Studies - Theology (BETH)

BETH-2350 Theological Foundations of Ministry–Fa 3 hours

An examination of theological issues critical for the formation of a biblical philosophy of ministry, as well as a critical survey of historical developments in Christian educational ministries in light of those theological discussions. *Prerequisite: BEGE-1710 Christian Life and Thought.*

BETH-2920 3 hours

Scriptural Interpretations of Gender Issues and Roles–Fa

A survey of key biblical components that delineate what it means to be male and female in Christ. The course includes a study of various views held within the evangelical community, a survey of women in the Bible, and a discussion of gender within the current cultural milieu. *Prerequisite: BEGE-1720 Spiritual Formation (Crosslisted with BEST-2920)*

BETH-3330 Christian Evidences and Apologetics–Fa 3 hours

Study of the basis for, and the nature of, evidence for Christianity. Emphasis on biblical revelation and its use in the defense and confirmation of the Gospel. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor.*

BETH-3350 Bibliology and Theology Proper–Fa 3 hours

Study of bibliology, the doctrine of the Scriptures. Emphasis on its revelation, inspiration, canonicity, and illumination; and theology proper, the doctrine of the being of God with attention given to His existence, attributes, trinitarian relationships, and decrees. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor. (odd years)*

BETH-3360 Angelology and Anthropology–Sp 3 hours

Study of angelology, the doctrine of the unfallen angels, the fallen angels, and Satan; and anthropology, the doctrine of man, with stress on his creation, constitution, fall, and sinful condition. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; BEGE-3750 Christian Worldview Development; or permission of instructor. (odd years)*

BETH-3400 Current Religious Movements–Sp 3 hours

Survey of new religious movements with attention given to their history, beliefs, and practices, as well as to critical assessment and appropriate response. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor.*

BETH-3720 Spiritual Formation II–Fa 3 hours

This course will develop a biblical theology of spiritual formation, explore alternative models of spiritual formation, and engage students in personal and corporate study and practice of spiritual disciplines as informed by influential thinkers through the history of the church. *Prerequisites: BEGE-1710 Christian Life and Thought; BEGE-1720 Spiritual Formation; BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; major status or permission of instructor.*

BETH-3730 Theology of Worship–Fa 3 hours

This course explores the theology, history, and practice of Christian worship, with particular attention to how worship practices both reflect and shape theological commitments. Various elements of Christian worship will be examined in light of diverse cultural contexts and theological perspectives with the goal of enabling the student to plan appropriately and to lead worship in a particular ministry setting. *Prerequisites: BEGE-1710 Christian Life and Thought; BEGE-1720 Spiritual Formation; BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature.*

BETH-4320 Contemporary Theology–Sp 3 hours

Critical study of traditions, trends, issues, and major thinkers in contemporary theology. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; BEPH-2200 Introduction to Philosophy; or permission of the instructor.*

BETH-4370 Soteriology and Christology–Fa 3 hours

Study of soteriology, the doctrine of salvation, including election, the atonement, and eternal security; and Christology, the doctrine of Christ with emphasis upon His deity, humanity, and redemptive work. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor. (even years)*

BETH-4380 Pneumatology and Ecclesiology–Fa 3 hours

Study of pneumatology, the doctrine of the person and work of the Holy Spirit; and ecclesiology, the doctrine of the church with stress on the universal church and the local church. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; BEGE-3750 Christian Worldview Development; or permission of instructor. (even years)*

BETH-4390 Eschatology–Sp 3 hours

Study of eschatology, the doctrine of last things with attention given to the rapture of the church, the tribulation, the millennium, the eternal state, and the distinctives of dispensationalism. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor. (even years)*

BETH-4900 1-3 hours

Independent Study in Theology–Fa, Sp, Su

Students will investigate a significant topic of theology of special interest with a view toward integration of knowledge. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor.*

BETH-4990 Topics in Theology–Fa, Sp 1-3 hours

Investigation of special topics in Bible and theology, which have intrinsic worth and engage student interest. Permission of instructor required for non-majors. *Prerequisite: BEGE-2730 Old Testament Literature; BEGE-2740 New Testament Literature; or permission of the instructor.*

Biology (BIO)

BIO-1110 Introduction to Biology–Fa 4 hours

Structure and function of plant and animal cells with emphasis in central concepts. This is the first biology course for majors, open to others with high school biology and chemistry backgrounds. Three lectures and one 2-hour laboratory per week. (Fee: \$100)

BIO-1120 General Zoology–Sp **4 hours**

This course will provide an integrative study of the diversity of organisms that make up the animal kingdom. Morphology, physiology, and ecology of the major phyla will be integrated with principles of population dynamics to study the continuities and discontinuities among the animal taxa. Two fifty-minute lectures and two 2-hour labs per week. *Prerequisite: BIO-1110 Introduction to Biology.* (Fee: \$100)

BIO-2210 Microbiology–Fa **4 hours**

A study of the characteristics, culture, and control of bacteria, viruses, and fungi. A major emphasis is placed on microorganisms and disease, with some coverage of industrial and environmental topics. Laboratory techniques are emphasized. Two lectures and two two-hour laboratories per week. *Prerequisite: CHEM-1000 Principles of Chemistry; CHEM-1010 Principles of Biochemistry or equivalent.* (Fee: \$100)

BIO-2250 Cell Biology–Sp **4 hours**

Foundational knowledge of cell biology including basic mechanisms of prokaryotic and eukaryotic metabolism, division, and physiology. Three fifty-minute lectures and one three-hour laboratory. *Prerequisite: BIO-1110 Introduction to Biology, BIO-1120 General Zoology, and BIO-2500 General Botany* (Fee: \$100)

BIO-2500 General Botany–Fa **4 hours**

A survey of the phyla of the plant kingdom and autotrophic prokaryotes and protists. Laboratory experiences will focus upon field botany, plant communities, and opportunities to investigate plant processes. Special emphasis will be upon the growth and development and the anatomy and physiology of flowering plants. Three lectures and one three-hour laboratory per week. *Prerequisites: BIO-1110 Introduction to Biology, BIO-1120 General Zoology.* (Fee: \$100)

BIO-2600 General Ecology–Sp **3 hours**

A study of the interrelationships among plants, animals, and microbes and with their environment. Basic theory of biotic communities and ecosystems will provide insights about energy flow, nutrient cycling, and responses to natural and human disturbances of terrestrial, aquatic, and wetland systems. Two lectures and one three-hour laboratory per week. *Prerequisites: BIO-1120 General Zoology, BIO-2500 General Botany.* (Fee: \$100)

BIO-3300 Genetics–Fa **4 hours**

This is an integrative course of the areas of classical and molecular genetics. Focus on the principles of heredity in prokaryotic and eukaryotic organisms, which includes the understanding of transmission genetics on a molecular level. The molecular nature of genes, including gene expression, mutations, and manipulation of DNA will be emphasized. Three lectures and one three-hour laboratory per week. *Prerequisite: BIO-1110 Introduction to Biology; BIO-2250 Cell Biology.* (Fee: \$100)

BIO-3410 Invertebrate Zoology–Fa **3 hours**

This course will provide an overview of the diversity of invertebrates. It will take an integrative approach to learning about invertebrate taxonomy, ecology, morphology, and physiology. Field collections of local fauna will be used to learn the principles of invertebrate classification and to study local biological diversity. *Prerequisite: BIO-1120 General Zoology.* (Fee: \$100) (even years)

BIO-3420 Vertebrate Zoology–Sp **3 hours**

This course is a study of the diversity among the vertebrate classes with an emphasis on continuity and discontinuity of morphological form and physiological function of vertebrate systems. *Prerequisite: BIO-1120 General Zoology.* (Fee: \$100)

BIO-3450 Human Structure and Function I–Fa **4 hours**

Study of the structure and function of the human body with an emphasis on body systems. Includes human tissues, skeletal, muscular, nervous, and endocrine systems. Two lectures and one three-hour laboratory per week. *Prerequisite: BIO-1120 General Zoology.* (Fee: \$100)

BIO-3460 Human Structure and Function II–Sp **3 hours**

Study of the structure and function of the human body with an emphasis on body systems. Includes cardiovascular, respiratory, gastrointestinal, and renal systems. Three lectures per week. *Prerequisite: BIO-3450 Human Structure and Function I.*

BIO-3510 Plant Physiology–Sp **3 hours**

A study of the physiological aspects of vascular plants with emphasis upon plant-soil water relationships, mineral nutrition, photosynthesis, and plant growth and development. Two lectures and one 3-hour laboratory per week. *Prerequisite: BIO-2500 General Botany, BIO-2600 General Ecology.* (Fee: \$100) (odd years)

BIO-3520 Plant Taxonomy–Sp **3 hours**

A study of the naming and classification of common vascular plants with emphasis upon field identification in the context of plant community and taxonomic family, plant collecting and herbarium techniques, and the importance of plants in global stewardship and missions. Two lectures and one three-hour laboratory per week. Includes a travel study opportunity during spring break. *Prerequisite: BIO-2500 General Botany, BIO-2600 General Ecology.* (Fee: \$100) (even years)

BIOA-3600 Topics in Environmental Biology–Sp, Su **4 hours**

Enrollment in this course signifies that the student has chosen to enroll in two or more Au Sable Institute courses in an upcoming term taught by faculty of various evangelical Christian colleges and universities. Course descriptions of the more than 20 Cedarville-approved Au Sable courses are available in the Au Sable Institute Bulletin available from the department Au Sable representative or at the Au Sable website. Enrollment begins when the student contacts the University Au Sable representative. Appropriate course titles will appear on the student's transcript with letter grades when the studies are completed. More information on Au Sable Institute is available under Travel Studies Opportunities or at www.ausable.org. *Prerequisite: acceptance to attend Au Sable Institute.*

BIO-3610 Environmental Physiology and Ecology–Sp **4 hours**

A study of both physiological ecology and field ecology. The course begins with field and laboratory studies of adaptations to winter at the organismic and cellular levels and includes a travel study experience in the "North Woods." Spring emphasis shifts to field ecology with emphasis on aquatic, forest, and prairie ecosystems. Three lectures and one 3-hour laboratory per week. *Prerequisites: BIO-1120 General Zoology; BIO-2500 General Botany, BIO-2600 General Ecology.* (Fee: \$100)

BIO-3710 Biochemistry–Sp **4 hours**

A study of the chemical and physical properties of macromolecules such as proteins, carbohydrates, lipids, and nucleic acids, and the metabolic pathways, enzyme kinetics, and thermodynamics associated with these molecules. Four lectures per week. *Prerequisites: BIO-1110 Introduction to Biology; CHEM-3510 Organic Chemistry I.*

BIO-3800 Biological Research–Fa, Sp **2 hours**

Student will undertake an original research project under the direction of a departmental faculty mentor or approved mentor within a summer research program or within an approved academic internship experience geared toward completion of the capstone experience. *Prerequisites: junior status; permission of instructor.* (Fee: \$150)

Course Descriptions

BIO-3810 – BUS-3180

BIO-3810 Biological Research Internship–Fa 1-2 hours

Student will participate in an 8-10 week summer undergraduate research program of his or her choosing at an accredited university or medical facility. Prior to participation in the research program, the student must have the program approved by the biology faculty member in charge of the course. In addition, the student will receive a progress report form which will be filled out by the student and signed by the student's research advisor. To receive credit for the course, the student must turn in the progress report along with a copy of his or her laboratory notebook or research log, submit a 5-10 page research summary, and meet with the faculty member in charge of the course. *Prerequisite: completion of the first two years of the biology core.*

BIO-4210 Advanced Cell Biology–Fa 4 hours

In-depth study of the cell includes the following topics: normal cell physiology and division, differentiation, basic signaling pathways and programmed cell death. Study of cell pathogenesis, aberrant signaling mechanisms, and other elective topics of current agricultural or biomedical interest may be included. Three lectures and one three-hour laboratory per week. *Prerequisites: BIO-1110 Introduction to Biology; BIO-1120 General Zoology; BIO-2500 General Botany, BIO-2600 General Ecology; BIO-2250 Cell Biology; BIO-3300 Genetics.* (Fee \$100)

BIO-4220 Signal Transduction–Fa 3 hours

Study of major cellular signaling pathways in normal function and in disease. Original research will emphasize signaling pathways, and data collected will further advance the field. Two lectures and one three-hour laboratory per week. *Prerequisites: BIO-1110 Introduction to Biology; BIO-1120 General Zoology; BIO-2500 General Botany, BIO-2600 General Ecology; BIO-3300 Genetics.* (Fee: \$100) (odd years)

BIO-4300 Molecular Biology of the Cell–Fa 4 hours

Study of the molecules that make up the living cell, with emphasis on nucleic acid biology and protein biology. Other topics include origin of life, abiogenesis, and a historical analysis of the discovery of DNA and proteins. *Prerequisites: BIO-1110 Introduction to Biology; CHEM-3510 Organic Chemistry.* (Fee: \$100)

BIO-4350 Immunology–Fa 4 hours

Study of the human immune system, including descriptions of basic immunological phenomena, biochemistry of antibodies and antigens, the cellular and genetic components of the immune response, and immunopathology. Two lectures and one lab per week. *Prerequisite: BIO-1110 Introduction to Biology.* (Fee: \$100) (even years)

BIO-4410 Developmental Biology–Sp 4 hours

Systematic study of the mechanism of reproduction, gametogenesis, and organogenesis, with an emphasis on human development. Morphological laboratory study of selected vertebrates will reinforce the lecture material. Three lectures and one lab per week. *Prerequisites: BIO-3420 Vertebrate Zoology and BIO-3450 Human Structure and Function I.* (Fee: \$100)

BIO-4710 Principles of Bioethics–Fa 3 hours

Christian principles of bioethics, with an emphasis on personhood and the sanctity of human life. Three lectures per week. *Prerequisites: completion of core biology curriculum; junior status.*

BIO-4770 Pathophysiology–Fa 3 hours

Study of the abnormal functions of the human body during disease. Includes case study discussions and research writing. Three lectures per week. *Prerequisite: BIO-3460 Human Structure and Function II.*

BIO-4800 Senior Seminar–Biology–Fa, Sp 1 hour

In this capstone course required of all senior biology majors, students compile data from laboratory, field study, or extensive literature research and give an oral presentation. Approval of the topic must be given by the student's academic advisor. The student must also attend a minimum of 10 seminars during the senior year. *Prerequisites: BIO-1110 Introduction to Biology; BIO-1120 General Zoology; BIO-2500 General Botany, BIO-2600 General Ecology; BIO-3300 Genetics; senior status; attendance of a minimum of 10 seminars prior to the senior year.*

BIO-4880 Topics in Biology 1-3 hours

Topics of special interest by the biology faculty from the areas of modern biology. *Prerequisites: BIO-1110 Introduction to Biology; BIO-1120 General Zoology; BIO-2500 General Botany, BIO-2600 General Ecology; BIO-3300 Genetics.*

BIO-4900 Independent Study: Biology–Fa, Sp 1-3 hours

Supervised independent study of a particular biological phenomenon. Submission and approval of a research proposal must precede registration. *Prerequisites: major in biology; permission of advisor.*

BIO-4910 Environmental Biology Internship–Fa, Sp 4 hours

An opportunity to participate in an internship experience involving research projects with field biologists, ecologists, environmental health scientists, or environmental educators, depending upon the student's vocational preference. Involves department faculty or faculty in conjunction with local or state agencies or private institutions. Provides practical experience in field biology and ecology techniques related to habitat characterization, monitoring, management, and restoration. *Prerequisites: BIO-1120 General Zoology; BIO-2500 General Botany, BIO-2600 General Ecology; permission of instructor.* (Fee: \$25)

Business Administration (BUS)

BUS 1410-Topics in Business–Su 1-3 hours

A variety of courses are covered under this heading on an experimental basis. This allows the department to meet the changing needs of the students without formally adding or dropping courses.

BUS-2100 Business Communication–Fa 3 hours

Instruction for writing business letters, memos, and business reports. Oral business presentations, small group communication, and the communication process in general are also discussed. *Prerequisite: ENG-1400 Composition.*

BUS-2110 Statistics I–Fa, Sp 2 hours

An introduction to statistical methods used in business decision making, including descriptive statistics, probability, probability distributions, estimation, and hypothesis testing. *Prerequisite: GMTH-1040 Calculus for Business*

BUS-2120 Statistics II–Fa, Sp 2 hours

An extension of Statistics I to include tests of hypothesis, analysis of variance, chi-square, simple and multiple regression models. *Prerequisite: BUS-2110 Statistics I*

BUS-2180 Business Law I–Fa, Sp 3 hours

A study of the legal business law environment, contracts, sales, bailments, and property.

BUS-3150 Operations Analysis–Fa, Sp 2 hours

Introduces mathematical methods of decision analysis. Topics include probability, forecasting, decision under uncertainty, decision trees, inventory models, linear programming, and networks. *Prerequisites: BUS-2120 Statistics II; junior status.*

BUS-3180 Business Law II–Sp 3 hours

A study of employee law, negotiable instruments, agency, partnership corporations, insurance, and will. *Prerequisite: BUS-2180 Business Law I.*

BUS-3280 3 hours

Entrepreneurship and Service Practicum–Fa

In this course, students will apply concepts from the corequisite courses in which they are enrolled to their own start-up business ventures and to community service projects. Students in the class will form a 30- to 35-person company. Each company will develop a plan of organization to form and operate a business for the semester, as well as an organizational and operating plan to complete a community service project. *Prerequisites: MIS-1500; MIS-1510; ACCT-2110; ACCT-2120; BUS-2120; BUS-2180; ECON-2330; ECON-2340. Corequisites: MRKT-3600; MGMT-3500; FIN-3710 (Blocked courses).*

BUS-3400 1-3 hours

Independent Study in Business Administration–Fa, Sp, Su

Research in problems of accounting, management information systems, general business, economics, finance, management, or marketing.

BUS-3410 Topics in Business–Fa, Sp, Su 1-3 hours

A variety of courses are covered under this heading on an experimental basis. This allows the department to meet the changing needs of the students without formally adding or dropping courses.

BUS-3450 Business Internship 3-12 hours

A work-study program designed for junior and senior business administration majors to receive a variety of job-related experiences in a business environment. The program is arranged and administered by the department.

BUS-3910 International Business–Fa, Sp 3 hours

To give a global perspective of the business environment, international business terms are defined and the interactions of the various actors, firms, institutions, countries, and groups of countries are developed. An environmental approach including both cultural and financial perspectives develops a broad view of the world economy.

BUS-3990 Professional Development–Fa, Sp 0 hours

A program of activities that prepares students to investigate career alternatives and initiate a job search strategy. Junior business majors are required to maintain enrollment in this program for both semesters of their junior year. (Fee: \$30)

BUS-4420 2 hours

Business Ethics and Social Responsibility–Fa, Sp

Ethics asks questions about what goals one should pursue and what actions are appropriate in attempts to achieve these goals. The class examines alternative frameworks for analyzing difficult situations. Social responsibility refers to business decision making linked to ethical values, compliance with legal requirements, and respect for people, communities, and the environment. Ultimately, the class will deal with how our biblical worldview defines and drives the choices we face in the business world. Open only to seniors in business administration.

BUS-4990 Executive Development–Fa, Sp 0 hours

A program of professional development activities that prepares students to move into a corporate environment. Senior business majors are required to maintain enrollment in this program during both semesters of their senior year. (Fee: \$20)

CCHG-3680 Scientific Basis of Coaching–Fa 2 hours

Practical study of physiological and kinesiological principles of training and their application to various sports. (odd years)

CCHG-3700 through CCHG-3760 Coaching 2 hours each

Organization, skills, techniques, and strategies of the following sports:

CCHG-3700 Coaching Volleyball–Fa (even years) 2 hours

CCHG-3720 Coaching Basketball–Fa (odd years) 2 hours

CCHG-3730 2 hours

Coaching Track and Field and Cross Country–Sp (odd years)

CCHG-3740 2 hours

Coaching Softball and Baseball–Fa (even years)

CCHG-3760 Coaching Soccer–Sp (odd years) 2 hours

CCHG-4850 1-3 hours

Independent Study in Coaching–Fa, Sp

Independent study in the area of coaching by students pursuing the coaching minor. *Departmental approval is required.*

CCHG-4950 Internship in Coaching–Fa, Sp 3 hours

Field experience at the University or a nearby high school involving actual coaching experience for a minimum of 100 hours. *Departmental approval is required. Credit/no credit.*

Conducting (CDMU)

CDMU-2600 Introduction to Conducting–Fa 2 hours

The basic technique of the conductor's art: score reading, conducting patterns, interpreting, cueing, rehearsal procedures, and stylistic conceptualization. *Prerequisite: THMU-1210 Music Theory I or permission of instructor. (Fee: \$20)*

CDMU-3610 Choral Conducting–Sp 2 hours

Concentrated focus upon the choral conductor's stylistic gestures and verbal communication as they impact ensemble intonation, diction, tone, blend, and balance. This course emphasizes diagnostic listening, problem solving, observation of professional conductors, the conducting of larger choral/instrumental works, and student rehearsal of various music department choral ensembles. *Prerequisite: CDMU-2600 Intro to Conducting or permission of instructor. (Fee: \$20).*

CDMU-3620 Instrumental Conducting–Sp 2 hours

Designed to take the student beyond basic conducting techniques and present the special characteristics of instrumental conducting. The student will develop skills in rehearsal technique and score analysis while learning to conceptualize musical fundamentals such as tone, intonation, balance, rhythmic ensemble, and interpretation. *Prerequisite: CDMU-2600 Introduction to Conducting or permission of instructor.*

CDMU-3630 Choral Methods–Fa 2 hours

Further development of conducting skills with special emphasis placed upon the organization of a comprehensive school choral curriculum. Rehearsal strategies and vocal techniques are discussed and practiced as they apply to choirs of all levels and voicings. *Prerequisite: CDMU-2600 Introduction to Conducting or permission of the instructor. (Fee: \$20)*

CDMU-4990 Independent Study in Conducting 1-3 hours

Independent and intensive study in a particular area of conducting for individual students who demonstrate special interests and ability. *Prerequisite: CDMU-3620 Instrumental Conducting; CDMU-3630 Choral Methods; or equivalent.*

C

Coaching (CCHG)

CCHG-3670 Fundamentals of Coaching–Fa 3 hours

Overview of the philosophy, psychology, organization, and general responsibilities of an athletic coach. Knowledge of motor learning and development and an overview of the organizational fundamentals of coaching for all the major sports. (even years)

Course Descriptions

CHEM-1000 – CHEM-3710

Chemistry General Education (CHEM)

Except where noted, general education courses are designed to meet the general education requirements for graduation. These courses will not count toward graduation requirements for majors found in the department of science and mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

CHEM-1000 Principles of Chemistry–Fa 5 hours

For non-science majors, an introduction to atomic structure, ionic and covalent bonding, stoichiometry, kinetic theory, solutions and equilibria, nuclear chemistry, nomenclature, structure, and reactions of organic compounds. Four lectures and one two-hour laboratory per week. (Fee: \$100)

CHEM-1010 Principles of Biochemistry–Sp 5 hours

For non-science majors, an introduction to organic compounds not covered in CHEM-1000 and a study of the nomenclature and metabolism of proteins, carbohydrates, lipids, and nucleic acids. Four lectures and one two-hour laboratory per week. *Prerequisite:* CHEM-1000 *Principles of Chemistry*. (Fee: \$100)

CHEM-1050 Chemistry for Engineers–Fa 3.5 hours

Fundamental concepts of chemistry are developed with applications of chemistry to engineering disciplines. Students learn measurement, number handling, the Periodic Table, descriptive properties of atoms, elements, molecules, and ions, chemical reactions, stoichiometry, chemical bonding, equilibrium, thermodynamics, gas laws, and the nature of solids and liquids. Three lectures per week, and one bi-weekly two-hour laboratory. (Fee: \$75)

Chemistry (CHEM)

CHEM-1110 General Chemistry I–Fa 4 hours

Fundamental concepts of physical, inorganic, and analytical chemistry are developed. Students are introduced to the physical chemistry concepts of atomic theory, chemical bonding, molecular structure, intermolecular forces, states of matter, and thermodynamics. Inorganic concepts of reaction types and stoichiometry are included. Lab stresses analytical techniques including quantitation, separation, titration, and statistical analysis of data. Many of the lab reports require use of spreadsheets or other computer software. Three lectures and one three-hour lab per week. *Prerequisite:* satisfactory performance on the chemistry placement exam. (Fee: \$100)

CHEM-1120 General Chemistry II–Sp 4 hours

A continuation of General Chemistry I, including the physical chemistry concepts of kinetics and equilibrium. Inorganic topics include acids and bases, oxidation-reduction reactions, nuclear chemistry, and the descriptive chemistry of the main group and transition metal elements. Lab exercises stress quantitative analytical techniques and application of visible light spectroscopy. Lab reports require use of spreadsheets or other computer software and statistical analysis of data. Three lectures and one three-hour lab per week. *Prerequisite:* CHEM-1110 *General Chemistry I*. (Fee: \$100)

CHEM-2210 Analytical Chemistry I–Fa 3 hours

A study of the fundamental concepts and skills of analytical chemistry including measurement, statistical treatment of data, equilibrium constant calculations, acid-base equilibria, electrochemistry, and volumetric analysis. The laboratory sessions focus on volumetric methods such as precipitation titrations, acid-base titrations, complexation titrations, and redox titrations in which accurate measurement of volume is essential. Two lectures and one three-hour laboratory per week. *Prerequisite:* CHEM-1120 *General Chemistry II*. (Fee: \$100)

CHEM-2220 Analytical Chemistry II–Sp 3 hours

Detailed study of analytical instrumentation, including electro-analytical methods such as potentiometry, coulometry, voltammetry, spectrochemical analysis, and analytical separations, including various types of chromatography. Two lectures and one three-hour laboratory per week. *Prerequisite:* CHEM-2210 *Analytical Chemistry I*. (Fee: \$100)

CHEM-2800 Introduction to Research in Chemistry–Fa 1 hour

An introduction to the purpose and methodology of research in chemistry, including keeping a laboratory notebook, retrieving information, using the chemical literature, and writing research reports. One lecture per week. *Prerequisite:* CHEM-1120 *General Chemistry II*. (Fee: \$100)

CHEM-3210 Environmental Chemistry–Sp 4 hours

A detailed study of energy resources, atmospheric chemistry, and surface water chemistry, with an emphasis on the application of principles from previous classes to current environmental issues. Three lectures and one three-hour lab per week. *Prerequisite:* CHEM-2220 *Analytical Chemistry II* and CHEM-3510 *Organic Chemistry II*, or permission of the instructor. (Fee: \$100) (odd years)

CHEM-3410 Inorganic Chemistry–Fa 3 hours

Detailed study of inorganic compounds, including atomic structure, the structure of solids, molecular structure and bonding, molecular symmetry and its applications, acids and bases, and oxidation and reduction. Lab stresses synthesis and characterization using instrumental methods. Two lectures and one three-hour lab per week. *Prerequisite:* CHEM-2210 *Analytical Chemistry I*. (Fee: \$100)

CHEM-3510 Organic Chemistry I–Fa 5 hours

Detailed study of the structure, nomenclature, stereochemistry, physical properties, spectra, syntheses, reactions, and reaction mechanisms of alkanes, alkenes, alkynes, alkyl halides, alcohols, and ethers. Biological and medical applications are included. Lab includes basic techniques, procedures, and instruments, as well as syntheses and reactions. Four lectures and one three-hour lab per week. *Prerequisite:* CHEM-1120 *General Chemistry II*. (Fee: \$100)

CHEM-3520 Organic Chemistry II–Sp 5 hours

Continuation of Organic Chemistry I, including the detailed study of conjugated aliphatics, aromatics, aldehydes, ketones, carboxylic acids, anhydrides, esters, acyl halides, amines, phenols, and aryl halides. Lab includes systematic qualitative organic analyses using modern instrumental methods (H-NMR, C-NMR, FTIR, GC/MS). Three lectures and two three-hour labs per week. *Prerequisite:* CHEM-3510 *Organic Chemistry I*. (Fee: \$100)

CHEM-3525 Organic Chemistry II for Biologists–Sp 4 hours

Continuation of Organic Chemistry I, including the detailed study of conjugated aliphatics, aromatics, aldehydes, ketones, carboxylic acids, anhydrides, esters, acyl halides, amines, phenols, and aryl halides. Lab includes systematic qualitative organic analyses using modern instrumental methods (H-NMR, C-NMR, FTIR, GC/MS). This course satisfies the organic chemistry II requirement for the B.S. in biology and may be used as an elective for the B.A. in biology. Three lectures and one three-hour lab per week. *Prerequisite:* CHEM-3510 *Organic Chemistry I*. (Fee: \$100)

CHEM-3710 Biochemistry–Sp 4 Hours

A study of the chemical and physical properties of macromolecules such as proteins, carbohydrates, lipids, and nucleic acids, and the metabolic pathways, enzyme kinetics, and thermodynamics associated with these molecules. Four lectures per week. *Prerequisites:* BIO-1110 *Introduction to Biology*; CHEM-3510 *Organic Chemistry I*.

CHEM-4210 Advanced Chemistry Lab–Sp 2 hours

This laboratory course will integrate organic and inorganic synthetic methodology with the application of various characterization techniques. Analytical, physical, and instrumental analysis techniques will be utilized. One three-hour lab per week. *Prerequisite: CHEM-4320 Physical Chemistry II.* (Fee: \$100)

CHEM-4310 Physical Chemistry I–Fa 4 hours

A study of the laws of thermodynamics, chemical equilibrium, solutions, and kinetics. Three lectures and one three-hour lab per week. *Prerequisites: CHEM-2210 Analytical Chemistry I; PHYS-2120 General Physics II.* (Fee: \$100)

CHEM-4320 Physical Chemistry II–Sp 4 hours

A study of the states of matter, surface phenomena, quantum mechanics, bonding, and spectroscopy. Three lectures and one three-hour lab per week. *Prerequisite: CHEM-4310 Physical Chemistry I.* (Fee: \$100)

CHEM-4410 Advanced Inorganic Chemistry–Sp 3 hours

Study of d-metal complexes, the systematic chemistry of the elements, and advanced topics in inorganic chemistry. Topics may include main group organometallics, d- and f-block elements, catalysis, and bioinorganic chemistry. Three lectures per week. *Prerequisite: CHEM-3410 Inorganic Chemistry.*

CHEM-4800 Senior Seminar–Chemistry–Sp 1 hour

Capstone course for majors in chemistry. Students present a paper from library or laboratory research. Before enrollment, each student must obtain approval of the topic from his or her advisor and the seminar instructor and set the date of presentation. The students must also attend a minimum of 10 seminars during the senior year. Guest lecturers or faculty members may present papers at the invitation of the instructor. *Prerequisites: senior status; attendance of a minimum of 10 seminars during the sophomore and junior years.*

CHEM-4830 Research in Chemistry–Sp 3 hours

Investigation of a chemical research project and its culmination in a scholarly research report. Submission and approval of a research proposal must precede registration. May be repeated once for credit. *Prerequisites: CHEM-2800 Introduction to Research in Chemistry; CHEM-4310 Physical Chemistry I.* (Fee: \$150)

CHEM-4880 Topics in Chemistry 1-3 hours

Topics of special interest are selected by the chemistry faculty from the areas of modern chemistry. *Prerequisites: CHEM-2210 Analytical Chemistry I; junior status; permission of instructor.*

CHEM-4900 Independent Study in Chemistry 1-3 hours

Supervised independent study of some chemical phenomena. Submission and approval of a research proposal must precede registration. *Prerequisites: CHEM-2210 Analytical Chemistry I; CHEM-3510 Organic Chemistry I; CHEM-4310 Physical Chemistry I.*

CHEM-4910 Chemistry Internship–Fa, Sp, Su 1-3 hours

Students will gain experience in the chemistry profession in a departmentally approved work environment. A technical report detailing the skills and techniques utilized and a supervisor's evaluation will be the basis for successful completion. *Prerequisite: CHEM-2220 Analytical Chemistry II or CHEM-3520 Organic Chemistry II.*

CS-1220 Object-Oriented Design Using C++—Fa, Sp

3 hours

Continuation of CS-1210 C++ programming to include pointers, the object paradigm, and abstract data types; advanced topics include exception handling, event-driven programming, and Graphical User Interface (GUI); principles of object-oriented design are applied to programming tasks in both the UNIX and Windows environments. *Prerequisite: CS-1210 C++ Programming.* (Fee: \$50)

CS-2210 Data Structures Using Java—Fa, Sp

3 hours

Introduction to the proper use of data structures for developing efficient software; data structures include stacks, queues, priority queues, hash tables, trees, and graphs. Students will develop skill in object-oriented design and the Java programming language. Design project required. *Prerequisite: CS-1220 Object-Oriented Design Using C++.* (Fee: \$50)

CS-3210 Programming Language Survey—Sp

3 hour

Systematic study of the principles, concepts, and mechanisms of computer programming languages: their syntax, semantics, and pragmatics; the processing and interpretations of computer programs; programming paradigms; and language design. Illustrative examples will be selected from a variety of programming language paradigms. *Prerequisite: CS-2210 Data Structures Using Java.* (Fee: \$50)

CS-3310 Operating Systems—Fa

3 hours

A state of the art survey of operating system principles. Covers fundamental technology and contemporary design issues such as threads, real-time systems, multiprocessor scheduling, distributed systems, security, and object-oriented design. Course content is developed through lectures, student research of the relevant literature, presentations, and programming projects using both C++ and Java. *Prerequisite: CS-2210 Data Structures Using Java.* (Fee: \$50)

CS-3410 Algorithms—Fa

3 hours

Introduction to classical algorithms that have broad application in solving computer science problems; topics include analysis of algorithms, advanced data structures, graph algorithms, numerical methods, and NP-completeness. *Prerequisite: CS-2210 Data Structures Using Java; MATH-2510 Discrete Math for Computer Science* (Fee: \$50)

CS-3510 Compiler Theory and Practice—Sp

3 hours

Introduction to the foundational technology of modern compilers, with emphasis on underlying theory and practical techniques for implementing a compiler by applying object-oriented and appropriate data structures. Design project typically developing a compiler is required. *Prerequisite: CS-3410 Algorithms.* (Fee: \$50) (even years)

CS-3610 Database Organization and Design—Sp

3 hours

Introduction to the analysis, design, and implementation of relational databases and The Structured Query Language (SQL); topics include data modeling techniques, data model to logical schema conversion techniques, relational algebra, SQL, database file organizations, query evaluation, transaction management, and client-server application architectures. Design project required. *Prerequisites: CS-2210 Data Structures Using Java; MATH-2510 Discrete Mathematics for Computer Science.* (Fee: \$50)

CS-3920 Computer Science Internship—Fa, Sp

1-3 hours

An opportunity for a computer science student to work closely with an industrial advisor. Specific attention is given to solving a particular problem(s) in the industry or firm. A faculty advisor assists in supervising and approving the internship, including assessing the number of credit hours. A final report (approximately seven pages per credit hour) describing the experience, including the problem and solution, is required. Must be arranged with a faculty sponsor and work supervisor before starting. No more than one hour of CS-3920 can be used to fulfill program technical elective requirements. *Prerequisites: junior or senior computer science major status; faculty advisor permission.*

CS-4220 Web Applications—Sp

3 hours

Introduction to the design and implementation of web-based applications using tools such as JavaScript, PHP, JSP, and Java servlets; applications will be developed using both the IIS and Apache servers. Multiple design projects required. *Prerequisite: CS-2210 Data Structures Using Java.* (Fee: \$50)

CS-4320 Network Security—Fa

3 hours

Introduction to network security, including policy, malicious code, intrusion detection, prevention, response, cryptographic protocols for privacy and integrity, tradeoffs between risk of misuse, cost of prevention, and societal issues. *Prerequisite: CS-3310 Operating Systems.* (Fee: \$50)

CS-4410 Parallel Computing—Fa

3 hours

Introduction to the exploitation of parallelism to solve computationally intensive problems; explores schemes for achieving parallelism, architectures required for parallel computing, performance analysis, and parallel algorithm design; uses common standards for message passing (e.g., MPI), local clusters and remote supercomputer systems. *Prerequisites: CS-3410 Algorithms.* (Fee: \$50) (even years)

CS-4710 Computer Graphics—Fa

3 hours

Introduction to two- and three-dimensional computer graphics; topics include analytic geometry of computer graphics (vectors, planes, clipping, visibility testing) and techniques for enhancing graphical realism such as lighting and shading, texture mapping, bump mapping, and reflection. *Prerequisite: CS-3410 Algorithms, MATH-2510 Discrete Math for Computer Science.* (odd years) (Fee: \$50)

CS-4810 Software Engineering I—Fa

3 hours

The capstone design experience for computer science majors. Introduction to software engineering principles focusing on requirement development, detailed design, project scheduling, quality assurance, and testing. Student teams meet regularly to develop a project management plan, a requirements document, a detailed design, and begin to implement their project that will be completed in CS-4820. *Prerequisite: CS-3410 Algorithms.* (Fee: \$50)

CS-4820 Software Engineering II—Sp

4 hours

Continuation of CS-4810 Software Engineering I. Student teams will complete the implementation, testing, and release of their capstone project, submit regular progress reports, prepare a final report, and make a formal project presentation. *Prerequisite: CS-4810 Software Engineering.* (Fee: \$50)

CS-4880 Topics in Computer Science—Fa, Sp 1-3 hours

Selected topics in computer science that will complement or extend existing courses or expose students to topics not taught in other courses such as distributed computing, artificial intelligence, robotics, advanced algorithms, and numerical methods; may be proposed by a computer science faculty or student. *Prerequisite: faculty advisor and instructor's permission.*

CS-4900 Independent Study in Computer Science 1-3 hours

Opportunity to perform independent study or research in computer science and allied fields of application. A formal proposal for study must be approved by the faculty advisor before registering for this course. *Prerequisites: major in computer science; permission of the research instructor*

D

Developmental (DEV)

DEV-0900 Intermediate Algebra—Fa, Sp 2 hours

Review of algebraic principles, which are then extended to the solution of polynomial equations, systems of linear equations, rational and radical equations, functional notation, exponential functions, and logarithmic functions with emphasis on computational proficiency. This course is designed to prepare the student for GMTH-1020 College Algebra or other mathematics courses of comparable difficulty. The class time consists of two hours of lecture and two one-hour laboratories each week. May not be applied toward the 128 semester hours needed for graduation nor toward the science and mathematics General Education Requirement.

E

Economics (ECON)

ECON-2110 Essentials of Economics—Sp 3 hours

The course provides an introduction to the essential principles of economics. These principles would include such areas as supply and demand, elasticity, productivity and cost analysis, economic efficiency, national income, the consumer price index, monetary and fiscal policy, business cycles, and economic performance. Course not applicable to any major from the department of business administration and also not open to students with credit for ECON-2330 Microeconomics and/or ECON-2340 Macroeconomics.

ECON-2330 Microeconomics—Fa, Sp 3 hours

The area of economic inquiry that is concerned with the effect of human behavior on the conduct of affairs within rather narrowly defined units. It is the study of decision making regarding consumption, production, and exchange that is carried on by individual households and by business firms.

ECON-2340 Macroeconomics—Fa, Sp 3 hours

The area of economic study that focuses on how human behavior affects outcomes in highly aggregated markets, such as the market for labor or for consumer products. It is a study of the behavior of the economy as a whole, including the study of economic phenomena such as interest rates, the price level and national income, and output and employment. *Prerequisite or corequisite: ECON-2330 Microeconomics or permission of instructor.*

ECON-3130 Government and Business—Sp 3 hours

A study of the governmental agencies and their effect on American business. Case studies and current events are developed to show the trends and status of various laws and regulations. The economic impact and difficulties that arise in managing a business are reviewed. *Prerequisite: ECON-2330 Microeconomics. (odd years)*

ECON-3310 Money and Financial Markets—Sp 3 hours

A study of money, banking, and monetary theory, with particular emphasis on international financial markets. *Prerequisite: ECON-2340 Macroeconomics or permission of instructor. Crosslisted with FIN-3310.*

ECON-3340 History of Economic Thought 3 hours

Principal figures in the development of economic ideas and the contribution of each period of economic thought from the mercantilist to the present. *Prerequisite: ECON-2330 Microeconomics. (even years)*

ECON-3350 Comparative Economic Systems—Fa 3 hours

Analysis of different types of economic systems. Special emphasis is placed on centralized planning from both a theoretical and empirical perspective. Centralized economic planning is compared and contrasted with a free-market distribution of resources. Individual country case studies are included. *Prerequisite: ECON-2340 Macroeconomics or permission of instructor. (odd years)*

ECON-3360 International Trade and Economics—Fa 3 hours

A study of international economic theory and international trade policy. The economic basis of trade and factor mobility, the benefits of international trade, and the barriers to international trade flows will be examined. *Prerequisite: ECON-2330 Microeconomics or permission of instructor.*

ECON-3370 Labor Economics—Sp 3 hours

An examination of the role of unions and the labor market in a free enterprise system. Emphasis is given to the impact of unions as a social institution in the collective bargaining process. Labor legislation and the labor movement are studied from both a historical and current perspective. *Prerequisite: ECON-2330 Microeconomics. (even years)*

ECON-3380 Economic Development and Political Economy—Sp 3 hours

A study of the interaction of political and economic systems to produce economic development and growth of nation states. A framework for analysis of development is explored and applied to specific case studies of both industrial and developing economics that have recently undergone significant change. *Prerequisite: ECON-2340 Macroeconomics or permission of instructor.*

ECON-3390 Public Finance—Sp 3 hours

A consideration of the financing of local, state, and federal governments. Much attention is given to three functions of government: stabilization, distribution, and allocation. All major taxes that are present in the United States are studied as to structure, revenue gained, and present status. *Prerequisite: ECON-2340 Macroeconomics. (odd years)*

Early Childhood/Special Education (ECSP)

ECSP-2500 Young Children with Special Needs—Sp 3 hours

An introduction to the education of young children with special needs. The course will focus on child development and factors affecting development, partnership with families, as well as strategies for nurturing language and cognitive development. *Prerequisite: EDUC-1000 The Education Profession, Introduction to Teaching Block.*

Course Descriptions

ECSP-3500 – EDEC-4880

ECSP-3500

3 hours

Assessing & Teaching Young Children w/ Special Needs—Sp

A study of educational tests and materials for teaching and assessing young children with disabilities. Teacher candidates will develop assessment strategies and lesson plans for children in pre-Kindergarten special education programs. *Prerequisite: EDUC-1000 The Education Profession, Introduction to Teaching Block, ECSP-2500 Young Children with Special Needs.*

ECSP-3550

3 hours

Clinical: Young Children w/ Special Needs—Sp

The course provides a clinical experience for the development of skills and strategies for instruction of students with exceptional educational needs in a pre-Kindergarten setting. Emphasis is on understanding of development and adaptation of curriculum, materials, and teaching skills. *Prerequisite: ECSP-2500 Young Children with Special Needs, ECSP-3500 Assessing & Teaching Young Children with Special Needs.* (Fee: \$140)

Early Childhood Education (EDEC)

EDEC-2100

2 hours

Art, Music, and Drama for Early Childhood—Fa, Sp

An overview of the use of art, music, and drama to enhance the early childhood classroom. A strong emphasis on practical techniques and projects for personal expression based on an understanding of the importance of art, music, and drama at the system, school, classroom, and individual levels. *Prerequisite: EDUC-1000 The Education Profession.* (Fee: \$20)

EDEC-2300 Phonics and the Reading Process—Fa, Sp 4 hours

The study of phonics and the place of phonics in the overall reading program. The course focuses on the four parts of the reading process: reading, speaking, listening, and writing. Special emphasis on literacy and reading readiness. *Prerequisite: EDUC-1000 The Education Profession.*

EDEC-3500 Early Childhood Education—Fa, Sp 3 hours

An introductory descriptive overview of current early childhood education, including various approaches, programs, and curricula. Emphasis on the development, implementation, and evaluation of early childhood programs. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.* (Fee: \$10)

EDEC-3600

3 hours

Issues in Early Childhood Administration—Fa, Sp

An examination of program issues important to both teachers and administrators. Includes examination of models for leadership and for developing and maintaining personal and community working relationships. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.*

EDEC-3800

4 hours

Teaching Reading and Language Arts: Early Childhood—Fa, Sp

An introduction to the objectives, skills, instructional strategies, teaching aids, resource materials, and assessment techniques for teaching reading and the language arts to the early childhood student. An associated clinical experience provides theory-driven application. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.*

EDEC-3900

1 hour

Field Experience in Early Childhood Education—Fa, Sp

An observation and participation experience in which teacher candidates spend 12-15 full consecutive days focusing on classroom routines and instruction in a kindergarten or other preschool classroom. Designed to give a practical field-based aspect to all of the courses in the Early Childhood Methods I block. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.* (Fee: \$45)

EDEC-3950 Early Childhood Clinical I—Fa, Sp 3 hours

Teacher candidates spend 14-17 full consecutive days in an early childhood classroom including 12-15 days of teaching. The implementation of reading and language arts objectives, skills, strategies of instruction, teaching aids, and resource materials is practiced in a University-supervised setting. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.* (Fee: \$135)

EDEC-3990

1-3 hours

Independent Study in Early Childhood Education—Fa, Sp, Su

An investigation of contemporary topics in early childhood education through reading, writing, or creative projects.

EDEC-4000

2 hours

Reading in the Content Areas: Early Childhood—Fa, Sp

An introduction to the dimensions, strategies, and programs for learning and teaching the reading process, including the nature of the reading process, assessment techniques, and instructional strategies to increase comprehension of the textual material of the various disciplines taught in the elementary grades. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the Early Childhood Methods II block.*

EDEC-4100

4 hours

Teaching Mathematics: Early Childhood—Fa, Sp

An introduction to the objectives, skills, instructional strategies, teaching aids, and resource materials for teaching mathematics to the young child, based on the Ohio Model and NCTM Standards. An associated clinical experience provides theory-driven application. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.*

EDEC-4200

3 hours

Teaching Science: Early Childhood—Fa, Sp

An examination of science curricula for the young child with particular emphasis on the Ohio Model and the National Science Standards. Instructional methodologies that emphasize an inquiry approach will be modeled and practiced with attention given to a hands-on approach to instruction. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.* (Fee: \$35)

EDEC-4300

3 hours

Teaching Social Studies: Early Childhood—Fa, Sp

An examination of social studies curricula for the young child with particular emphasis on the Ohio Model, the NASS Standards, and the integration of social studies with other disciplines. Instructional methodologies that emphasize the teaching of thinking, student interaction, and the use of instructional technologies will be modeled and practiced. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.*

EDEC-4450 Early Childhood Clinical II—Fa, Sp 3 hours

Teacher candidates spend 20-25 days in an early childhood classroom, including 17-22 days teaching mathematics, social studies, and science. This field experience provides theory-driven application to instruction with an emphasis on reflective teaching and collegial teamwork. Teacher candidates are formally supervised and evaluated by University supervisors using Praxis/Pathwise criteria. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.* (Fee: \$105)

EDEC-4880

1-3 hours

Topics in Early Childhood Education—Fa, Sp, Su

Selected topics in early childhood education that will complement or extend existing courses or expose candidates to topics not taught in other courses; may be proposed by an EDEC faculty or student. *Prerequisites: faculty advisor and instructor's permission*

EDEC-4900	10-12 hours	EDMC-4000	3 hours
Student Teaching and Seminar: Early Childhood –Fa, Sp		Reading in the Content Area: Middle Childhood –Fa	
A teaching experience in an early childhood setting under the supervision of the cooperating teacher and a university supervisor. Required seminars encourage reflection on the teaching experience, as well as discussion of issues of importance to educators. <i>Prerequisite: successful completion of the E.C. Methods II block.</i> (Fee: \$180)		An introduction to the range of strategies and programs for teaching the reading process, including the nature of the reading process, assessment techniques, and instructional strategies to increase comprehension. The use of trade books and informational books in the content areas across the disciplines taught in the middle childhood grades is emphasized. <i>Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.</i>	
Middle Childhood Education (EDMC)			
EDMC-3300	3 hours	EDMC-4050	2 hours
Topics in Middle School Mathematics –Sp		Responsive Schools for Middle Childhood –Fa	
An investigative approach to selected mathematics topics that are taught in middle schools. Topics include logic, mathematics modeling, formulating, and problem solving in both mathematical and every day life situations. Real world connections with opportunities for exploration and communication by written, oral, and technological presentations are provided. <i>Prerequisite: EDUC-2800 Principles of Mathematics II.</i>		An examination of the developmental periods of later childhood and early adolescence from a psychological and sociological perspective. The course will also examine how school programs can be designed and implemented to deal with the unique aspects of these developmental periods. <i>Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.</i>	
EDMC-3500	3 hours	EDMC-4100	3 hours
Principles of Teaching Middle School –Sp		Teaching Mathematics: Middle Childhood –Fa	
Teacher candidates learn to develop instruction and various types of assessment based on observable learning objectives aligned with curriculum guides. Emphasis will be given to instructional models most appropriate for middle school students, including use of instructional technology. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the M.C. Methods I block.</i>		An introduction to the objectives, skills, and instructional strategies for teaching middle school mathematics, based on the Ohio Model and NCTM Standards. An associated clinical experience provides opportunity for theory-driven application of knowledge and skills. <i>Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.</i>	
EDMC-3600	3 hours	EDMC-4200 Teaching Science: Middle Childhood –Fa	3 hours
Phonics and the Structure of Language –Sp		An introduction to the objectives, skills, and instructional strategies for teaching middle school science, based on the Ohio Model and NSTA Standards. The course provides a particular emphasis on hands-on science instruction, the scientific method, and the integration of science with other disciplines. <i>Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.</i> (Fee: \$95).	
An introduction to the rationale, skills, instructional and assessment strategies, teaching aids, resource materials, and appropriate technologies for the teaching of phonics. Emphasis given to the source, structure, function, and history of spoken language. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the M.C. Methods I block.</i>		EDMC-4300	3 hours
EDMC-3700	4 hours	Teaching Social Studies: Middle Childhood –Fa	
Teaching Reading Through Middle School Literature –Sp		An introduction to the objectives, skills, and instructional strategies for teaching middle school social studies, based on the NSSA Standards. The course provides a particular emphasis on the Ohio Model and the integration of social studies with other disciplines. <i>Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.</i> (Fee: \$75)	
A survey of the early history, major types, and modern trends of literature for children in grades 4-9. The social and personal value of literature is studied along with methods for using trade books to support reading instruction in an integrated reading/writing/language arts program. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the M.C. Methods I block.</i>		EDMC-4440 Middle Childhood Clinical II –Fa	2 hours
EDMC-3800	3 hours	This clinical experience allows the teacher candidate to apply the theories, principles, and techniques provided in the associated methods courses. <i>Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.</i> (Fee: \$135)	
Writing Process and Language Arts Methods for Middle School –Sp		EDMC-4880	1-3 hours
A study of the curriculum, methods, and resources for assessing and teaching of the language arts at the middle school level. Emphasis will be on an integrated reading/writing/language arts program and its importance across the curriculum. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the M.C. Methods I block.</i>		Topics in Middle Childhood Education –Fa, Sp, Su	
EDMC-3950	2 hours	Selected topics in middle childhood education that will complement or extend existing courses or expose candidates to topics not taught in other courses; may be proposed by an EDMC faculty or student. <i>Prerequisites: faculty advisor and instructor's permission.</i>	
Middle School Clinical I: Teaching Reading –Sp		EDMC-4900	10-12 hours
This experience provides for implementation of the objectives, skills, and strategies of instruction relative to middle grade reading instruction in a field-based setting. Teacher candidates are formally supervised and evaluated by cooperating teachers and university supervisors using Praxis/Pathwise criteria. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the M.C. Methods I block.</i> (Fee: \$115)		Student Teaching and Seminar: Middle Childhood –Fa, Sp	
EDMC-3990	1-3 hours	A teaching experience in a middle childhood setting under the supervision of the cooperating teacher and the University supervisor. Required seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. <i>Prerequisite: successful completion of the M.C. Methods II block.</i> (Fee: \$210)	
Independent Study in Middle Childhood Education –Fa, Sp, Su			
An investigation of contemporary topics in middle childhood education through reading, writing, or creative projects.			

Course Descriptions

EDMU-1000 – EDUC-2400

Music Education (EDMU)

EDMU-1000 MENC—Fa, Sp 0 hours

The National Association for Music Education is to advance music education by encouraging the study and making of music by all. MENC is the primary professional organization for music educators. The campus chapter provides informative seminars including a focus on Value Added Assessment along with service activities. MENC offers music educators a connection to the professional world of music education and increased understanding of the role of MENC in the field of music teaching. All music education majors are required to enroll in this course as part of their professional development and career preparation. A minimum of 8 semesters of satisfactory participation is required. (Fee: \$30)

EDMU-2730 Wind and Percussion Methods—Sp 2 hours

Overview of the history, pedagogy, and performance techniques of all band instruments. Required for the vocal major pursuing the B.M.E. degree and instrumental performance majors; open to others by permission of the instructor. (Fee: \$40) (even years)

EDMU-2870 Brass Methods—Fa 2 hours

This course presents a framework of learning environments and varied activities through which students gain the knowledge and acquire the skills requisite to playing and teaching the brass instruments (i.e., trumpet, horn, trombone, baritone, tuba). (Fee: \$40) (even years)

EDMU-2900 Guitar Methods—Sp 1 hour

Study of the historical background and pedagogical and performance techniques of the guitar. Required of music education majors pursuing the choral track. Open to other students by permission of instructor. (Fee: \$40)

EDMU-2910 Woodwind Methods—Sp 2 hours

This course presents a framework of learning environments and varied activities through which students gain the knowledge and acquire the skills requisite to playing and teaching the woodwind instruments (i.e., flute, oboe, clarinet, saxophone, and bassoon). (Fee: \$40) (even years)

EDMU-2930 String Methods—Fa 2 hours

This course presents a framework of learning environments and varied activities through which students gain the knowledge and acquire the skills requisite to playing and teaching the string instruments (i.e., violin, viola, cello, string bass). (Fee: \$40) (odd years)

EDMU-2950 Percussion Methods—Sp 2 hours

Concentration in snare drum techniques and an introduction to tympani and tuned percussion methods. (Fee: \$40) (odd years)

EDMU-3710 Music for Early Childhood—Fa 3 hours

Music literature and teaching aids for children, including basic music theory, development of skills on keyboard, classroom instruments, and voice; music in the curriculum; and teaching music concepts. (Fee: \$30)

EDMU-3720 Music for Adolescent/Young Adults—Sp 3 hours

The history of and basis for music in the secondary curriculum, administration of the music program, methods of teaching music in groups, and sources of materials for instruction. (Fee: \$30)

EDMU-3730 Vocal Pedagogy—Fa 2 hours

Philosophy, objectives, and techniques of offering vocal instruction at all levels with emphasis on vocal production and pedagogical approaches. *Prerequisite: CLMU-1860 Voice Class or completion of sophomore vocal review.*

EDMU-3750 Instrumental Pedagogy—Fa 2 hours

The study of techniques and literature for the teaching of wind, percussion, brass, and string students in the private studio. Investigation of studio teaching through readings, interaction and discussion. *Prerequisite: PLMU 1000 and 2000-levels.* (odd years)

EDMU-3910 Instrumental Administration—Fa 3 hours

A course designed to present the philosophy, learning process, and organizational problems associated with beginning, intermediate, and advanced bands. Along with classroom instruction, students will be involved in marching band field experiences and hands-on instruction in the basic repair of band instruments. (Fee: \$50) (even years)

EDMU-4990 1-3 hours

Independent Study in Music Education

Independent and intensive study in a particular area of music education for individual music education majors who demonstrate special interests and ability.

Education (EDUC)

EDUC-1000 The Education Profession—Fa, Sp 1 hour

An introduction to the rewards and requirements of the teaching profession, including social issues and historical context of the profession. Focus is on the five domains of good teaching, teacher licensure, professional issues, and an overview of the mission statement, conceptual framework, and requirements of the teacher education program at Cedarville University. (Fee: \$129)

EDUC-1050 Contemporary Christian Schools—Fa, Sp 0 hours

Teacher candidates arrange a field experience for five consecutive full days in a Christian school setting where they observe and participate in classroom activities. A follow-up report is required. *Prerequisite: EDUC-1000 The Education Profession or permission of instructor.*

EDUC-1800 Principles of Mathematics I—Fa, Sp 3 hours

A framework for the content of this course is Ohio's Competency Based Comprehensive Programs for Mathematics (NCTM Standards). The course utilizes a problem-solving approach and makes connections to real-world situations and other disciplines. *Prerequisite: EDUC-1000 The Education Profession.*

EDUC-2000 Introduction to Teaching—Fa, Sp 2 hours

An introduction to the structure, culture, governance, and philosophies of public schools in the United States. A history of American public education is presented, focusing on multicultural issues that affect American schooling. A general introduction to techniques of instruction and class management is presented. *Prerequisites: EDUC-1000 The Education Profession; ENG-1400 Composition; COM-1100 Fundamentals of Speech. Corequisites: other courses in the Introduction to Teaching block.* (Fee: \$40)

EDUC-2100 Technology in the Classroom—Fa, Sp 2 hours

Teacher candidates learn to use a wide range of technology for developing and enhancing classroom instruction. The class focuses on the technology required for projects to be done in EDUC-2000 Introduction to Teaching and in the upper-level methods courses. *Prerequisite: EDUC-1000 The Education Profession.*

EDUC-2200 Multicultural Field Experience—Fa, Sp 1 hour

An introduction to the professional side of schooling through a four-week field experience in a multicultural school setting. Some field-based assignments focus on issues of multicultural education. *Prerequisites: EDUC-1000 The Education Profession; ENG-1400 Composition; COM-1100 Fundamentals of Speech. Corequisites: other courses in the Introduction to Teaching block.* (Fee: \$90)

EDUC-2400 Children's Literature—Fa, Sp 3 hours

A survey of the early history, major types, and modern trends of literature for children in preschool through grade 5. The social and personal value of literature is studied along with methods for using trade books for reading instruction. *Prerequisite: EDUC-1000 The Education Profession.*

EDUC-2500 Educational Psychology—Fa, Sp **3 hours**

An introduction to the principles of child and adolescent development, learning theories, and the principles and processes that affect teaching and learning. The class focuses on learning theory and the skills necessary to create and maintain an optimal learning environment in a diversity of settings. *Prerequisite: EDUC-1000 The Education Profession.*

EDUC-2600 Topics in Children’s Literature—Su **3 hours**

An overview of current topics and trends in children’s literature. May be credited toward the reading/language arts middle school concentration. Offered during Summer School Session III and intermittently by arrangement with instructor. *Prerequisite: EDUC-2400 Children’s Literature or permission of department chair.*

EDUC-2800 Principles of Mathematics II—Fa, Sp **3 hours**

A course building on the NCTM standards-based framework begun in Principles of Math I and including a development of new mathematical topics that are connected to real world situations and other disciplines. *Prerequisite: EDUC-1800 Principles of Mathematics I.*

EDUC-3030 Computers in Education—Su **3 hours**

This course prepares the teacher candidate to use computers and related technology to support instruction in the K-12 setting. Productivity tools, assistive technologies, and instructional strategies prepare the student for the practicum experience. *Prerequisite: EDUC-2100 Technology in the Classroom. Offered in fall or spring on an as-needed basis only.*

EDUC-3560 Practicum in Educational Technology—Fa, Sp, Su **3 hours**

A placement in a K-12 setting under the supervision of a qualified technology director during which the teacher education teacher candidate assists in operation of the technology program. *Prerequisite: completion of 75% of the computer/technology endorsement or permission of instructor.*

EDUC-3570 Supervised Field Experience **1-3 hours**

A 30-90 clock hour supervised placement in an early, middle, or adolescent/young adult classroom. Designed to give a transfer teacher candidate or a teacher candidate repeating other field experiences an analogous experience to those in the University’s teacher education program.

EDUC-3600 Principles Value Added Assessment—Fa, Sp **2 hours**

A study of assessment concepts and procedures in the K-12 school setting, including the Ohio Model of Values Added Assessment. Application of Skills in the field is required. *Prerequisite: Enrollment in methods block. Corequisite: Methods I block and Principles of Teaching.*

EDUC-3610 Practicum—Fa, Sp, Su **2 hours**

Independent teaching of ESL students under the general supervision of a master teacher. In a K-12 placement under the supervision of a qualified ESL teacher, the student will practice teaching in a formal classroom situation. During this experience, the student will be provided opportunities to establish goals and objectives and design curricula that reflect Ohio’s grade-level learning outcomes in content areas. The student will also be given opportunities to select, adapt, create, and use varied resources appropriate to age, cultural groups, and different learning styles. Activities should include integrating technology in planning and delivering instruction and strategies for creating and maintaining communication with families. Practicum will also provide the student with knowledge and skills in assessment. Ongoing during this experience, the student will analyze, evaluate, reflect on, and describe his/her field experience. *Prerequisite: LING-3700 Methods of Teaching Foreign Language. (Fee: \$45)*

EDUC-3990 Independent Study in Education **1-3 hours**

An investigation of contemporary topics in education through reading, writing, or creative projects. *Prerequisite: 15 semester hours in education.*

EDUC-4000 Reading in the Content Area: Multi-Age—Su (Out-of-Class) **3 hours**

An introduction to the range of strategies and programs for learning and teaching the reading process, including the nature of the reading process, assessment techniques, and instructional strategies to provide increased comprehension of the textual material of the disciplines represented by students in the class. This course is for AYA Mathematics and MA Music and Physical Education teacher education program majors. *Prerequisite: admission to the teacher education program or senior status and permission of department chair.*

EDUC-4500 Philosophy of Education—Fa, Sp **2 hours**

A critical analysis of foundational educational philosophies in the context of history and their impact on Christian educational philosophy. Examines current ethical and moral issues relevant to education, schooling, and the family. *Prerequisite: admission to the teacher education program or permission of department chair. Normally taken with student teaching.*

EDUC-4510 Seminar in Cross Cultural Student Teaching—Fa, Sp **0 hours**

This seminar for students who will be student teaching cross culturally in a subsequent semester will introduce the requirements for completing Philosophy of Education while student teaching and address issues related to the cross cultural student teaching experience.

EDUC-4850 Internship in Applied Education **3-12 hours**

Juniors and seniors who have been accepted into the teacher education program may, with the approval of the education department chair, engage in an internship that involves the meaningful use of knowledge gained in previous education courses and experiences. A departmental faculty member will assist with the internship, arrangements, and evaluation of the experience. The department chair will approve the number of credit hours to be granted for the experience. *Prerequisite: permission of the education department chair. (Fee: \$25)*

EDUC-4880 Student Teaching (Nonlicensure) and Seminar—Fa, Sp **10-12 hours**

A teaching experience working with students in a range of age levels under the supervision of the cooperating teacher and University supervisor. Seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. *Prerequisite: Completion of all TEP requirements except internship. (Fee: Early Childhood \$180; Middle Childhood \$210; AYA education \$180; Special Education \$180; MultiAge \$210; and Early Childhood/Special Education \$300)*

EDUC-4900 Student Teaching and Seminar: Multi-Age—Fa, Sp **10-12 hours**

A teaching experience working with students in a range of age levels under the supervision of the cooperating teacher and the University supervisor. Seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. Capstone for the Multi-Age Physical Education Major. (Fee: \$210)

EDUC-4910 Special Student Teaching **3-10 hours**

Occasionally, unusual situations arise that entail special provisions (e.g., summer school student teaching for experienced teachers, repeated experiences, etc.). (Fee: \$100)

Course Descriptions

EDUC-4950 – EDSP-2700

EDUC-4950 **12 hours**
Student Teaching and Seminar in Special Education and Early Childhood–Fa, Sp

A full semester teaching experience with significant exposure in both special education and early childhood education settings. The student teacher will work under the supervision of cooperating teachers and University supervisors in each field. Seminars encourage reflection upon the teaching experience and discussion of issues of importance to educators. (Fee: \$300)

Adolescent / Young Adult Education (EDSE)

EDSE-3100 **3 hours**
Contemporary Young Adult Literature–Sp

A study of contemporary young adult literature, addressing issues of interpretation, analysis, and personal response with an emphasis on literature that reflects a diversity of gender, race, and ethnicity. *Prerequisite:* admission to the teacher education program. *Corequisite:* other courses in the AYA Principles of Teaching block or permission of department chair.

EDSE-3300 **3 hours**
Developmental Reading–Sp

This course focuses on the reading goals and processes used in teaching English, language arts, and literature by language arts teachers at the secondary level. *Prerequisite:* admission to the teacher education program. *Corequisite:* other courses in the AYA Principles of Teaching block or permission of department chair. (Fee: \$60)

EDSE-3800 **2 hours**
Teaching Social Studies: Adolescent and Young Adult–Fa

An emphasis on the identification, examination, and implementation of the methods and materials that are appropriate for each teacher candidate's discipline area. *Prerequisite:* admission to the teacher education program. *Corequisite:* other courses in the AYA Principles of Teaching block or permission of department chair.

EDSE-3900 **2 hours**
Music Education Clinical–Fa, Sp

This supervised experience in a K-12 school prepares the teacher candidate for the student teaching experience by providing an opportunity to practice teaching methods. Candidates will be evaluated and must show potential to be successful in student teaching to receive credit. *Prerequisites:* Admission to the Teacher Education Program and completion of or concurrent registration in EDMU-3710 Music for Early Childhood; and/or EDMU-3720 Music for Adolescent/Young Adults. (Fee: \$90)

EDSE-3990 **1-3 hours**
Independent Study in Adolescent and Young Adult Education–Fa, Sp, Su

An investigation of contemporary topics in adolescent and young adult education through reading, writing, or creative projects.

EDSE-4000 **3 hours**
Reading in the Content Areas: Adolescent and Young Adult–Fa

An introduction to the range of strategies and programs for learning and teaching the reading process, including the nature of the reading process, assessment techniques, and instructional strategies to provide increased comprehension of the textual material of the disciplines represented by teacher candidates in the class. This class is for MA Spanish and AYA teacher education program majors. *Prerequisite:* admission to the teacher education program. *Corequisites:* other courses in the AYA Principles of Teaching block or permission of department chair. (Fee: \$60)

EDSE-4100 **5 hours**
Principles of Teaching: Adolescent and Young Adult–Fa, Sp

An introduction to the objectives, skills, and instructional strategies needed for the teaching of adolescent and young adult students. An associated field experience gives opportunity to apply the knowledge and skills learned in the course. *Prerequisite:* admission to the teacher education program. *Corequisites:* other courses in the AYA Principles of Teaching block.

EDSE-4450 **3 hours**
Adolescent / Young Adult Clinical Experience–Fa, Sp

An opportunity for the implementation of the objectives, skills, and instructional strategies in a setting appropriate for each discipline area. Teacher candidates teach two-three periods a day for five weeks. *Prerequisite:* admission to the teacher education program. *Corequisites:* other courses in the AYA Principles of Teaching block. (Fee: \$90)

EDSE-4880 **1-3 hours**
Topics in Adolescent and Young Adult Education–Fa, Sp, Su

Selected topics in adolescent and young adult education that will complement or extend existing courses or expose candidates to topics not taught in other courses; may be proposed by an EDSE faculty or student. *Prerequisite:* faculty advisor or instructor's permission.

EDSE-4900 **10-12 hours**
Student Teaching and Seminar: Adolescent / Young Adult–Fa, Sp

A teaching experience in an adolescent/young adult setting under the supervision of the cooperating teacher and the University supervisor. Required seminars encourage reflection on the teaching experience, as well as discussion of issues of importance to educators. (Fee: \$180)

Special Education (EDSP)

EDSP-2000 **2 hours**
Teaching Children with Exceptionalities–Fa, Sp

An exploration of the implications of federal laws with an emphasis on the definitions, characteristics, and strategies for intervention in inclusive settings. The course includes an introduction to the use of assistive technology. *Prerequisite:* EDUC-1000 The Education Profession. *Corequisites:* other courses in the Introduction to Teaching block.

EDSP-2050 **1 hour**
Special Education Field Experience–Fa, Sp

A field-based experience in special education in which the teacher candidate observes and participates with the teacher in assisting learners with special educational needs. *Prerequisites:* COM-1100 Fundamentals of Speech; ENG-1400 Composition; EDUC-1000 The Education Profession. *Corequisites:* other courses in the Introduction to Teaching block.

EDSP-2400 **2 hours**
Language Development–Sp

An introduction to speech and language development for teachers of students with exceptional learning needs. (Fee: \$110).

EDSP-2500 **1 hour**
Survey of Mental Retardation and Developmental Disabilities: Early Childhood–Su (Out of class)

Survey of the multidisciplinary perspectives, identification, early influences, causation, levels of support, and practices related to the education of individuals with mental retardation and developmental disabilities in early childhood. Offered summers only in a mediated (out-of-class) format. (Fee: \$60)

EDSP-2700 **3 hours**
Teaching Children with Mild to Moderate Disabilities–Fa

An overview of mild to moderate disabilities with a focus on instructional strategies and accommodations for students in inclusive settings. *Prerequisite:* TEP Acceptance, Early Childhood Methods I. (Fee: \$10)

EDSP-3100	3 hours	EDSP-4300	2 hours
Diagnostic and Remedial Reading–Fa, Sp		Behavioral and Instructional Management–Fa	
An introduction to the use of formal and informal assessment techniques for identification and remediation of reading difficulties. Teacher candidates learn practical instructional strategies for teaching students with reading problems and apply the techniques by working with elementary students in a school setting. <i>Prerequisite: EDUC-2300 Introduction to the Reading Process. For Early Childhood majors. (Fee: \$60)</i>		A presentation of the learning theory, motivation, and behavioral approaches to management of the social and academic environment of learners with mild-moderate special educational needs. Emphasis is on applied behavior analysis and functional assessment. <i>Prerequisite: admission to the teacher education program. Corequisites: other courses in the Special Education block.</i>	
EDSP-3150	3 hours	EDSP-4400 Assessment in Special Education–Fa	4 hours
Intervention and Diagnosis in Reading for Special Educators–Sp		Study in the administration and interpretation of formal and informal educational assessment instruments to identify and place students with mild-moderate needs in special education and the development of appropriate education goals and objectives. <i>Prerequisite: admission to the teacher education program. Corequisites: other courses in the Special Education block.</i>	
Study and implementation of individual testing and teaching strategies for skill development in reading, analysis of programs and materials, and development of individualized plans for remediation of specific skill deficits. <i>Prerequisites: the Introduction to Teaching block; EDUC-2300 Introduction to the Reading Process. For Special Education majors. (Fee: \$60)</i>		EDSP-4450	3 hours
EDSP-3500 Special Education Law–Su	1 hour	Special Education Clinical: Middle Childhood–Fa, Sp	
An overview of special education law with an emphasis on the history of the law and children with disabilities and understanding the implementation and accountability mechanisms of inclusive education. <i>Prerequisites: Introduction to Education block, Corequisites: Intro block may be taken during the same summer. (Fee: \$150)</i>		An opportunity to implement the objectives, skills, and instructional strategies for teaching mathematics, science, and social studies to students with mild to moderate needs at the middle childhood level. <i>Prerequisite: successful completion of the E.C. Methods I block. Corequisites: other courses in the E.C. Methods II block. (Fee: \$135)</i>	
EDSP-3950	3 hours	EDSP-4550	3 hours
Special Education Clinical: Early Childhood–Fa, Sp		Special Education Clinical: Adolescent and Young Adult	
An introduction to the objectives, skills, instructional strategies, teaching aids, and resource materials for teaching reading and the language arts to students with and without mild-moderate needs at the early childhood level. <i>Prerequisites: admission to the teacher education program; major in special education. Corequisite: other courses in the Early Childhood Methods I block. (Fee: \$135)</i>		An opportunity to use the skills learned developing and implementing individualized educational plans and behavior intervention strategies for adolescent and young adult students with mild to moderate special educational needs. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the Special Education block. (Fee: \$135)</i>	
EDSP-4000 Principles of Inclusion–Fa, Sp	1 hour	EDSP-4880	1-3 hours
An examination of the theories, research, and practices of adapting and modifying curriculum, instruction, and the learning environment for students with special educational needs. An accompanying clinical experience allows teacher candidates to implement what they have learned. <i>Prerequisite: admission to the teacher education program. Corequisite: enrollment in the appropriate upper-level methods block.</i>		Topics in Special Education–Fa, Sp, Su	
EDSP-4100 Adaptive Curriculum and Instruction–Fa	2 hours	Selected topics in special education that will complement or extend existing courses or expose candidates to topics not taught in other courses; may be proposed by an EDSP faculty or student. <i>Prerequisites: faculty advisor and instructor's permission.</i>	
An introduction to the curriculum, intervention strategies, instructional materials, and educational technology used with students with mild-moderate special educational needs. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the Special Education block.</i>		EDSP-4900	10-12 hours
EDSP-4150 Career and Occupational Training–Fa	2 hours	Student Teaching and Seminar: Special Education	
A look at the role of occupational training in the special education curriculum, including the techniques used in developing occupational interests and abilities at various age levels. <i>Prerequisite: admission to the teacher education program. Corequisite: other courses in the Special Education block.</i>		A teaching experience for special education only majors with students who have mild-moderate special educational needs under the supervision of the cooperating teacher and the University supervisor. Seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. <i>Prerequisite: successful completion of the Early Childhood Methods II and Special Education blocks. (Fee: \$180)</i>	
EDSP-4250	2 hours		
Communication, Collaboration, and Inclusion Skills–Fa, Sp			
A presentation of the techniques of collaboration and consultation needed to enhance the teacher candidate's communication with individuals with special needs, parents, educational team members, and other professionals. Also includes strategies for adapting and modifying instruction for students with special needs. <i>Prerequisite: admission to the teacher education program. Corequisite: Other courses in the Methods II block.</i>			

Computer Engineering (EGCP)

EGCP-1010 Digital Logic Design–Fa, Sp	3 hours
Introduction to digital logic design, number systems, Boolean algebra, Karnaugh maps, computer simulation tools, combinational network design, flip flops, counters, state machines, and sequential networks. Circuits are designed in class and are built and evaluated in the laboratory. Two lecture hours and one two-hour laboratory per week. (Fee: \$100)	
EGCP-2110 Microprocessors–Fa	3 hours
Introduction to the fundamentals of microprocessors, including assembly language programming, memory hierarchies, peripheral device interfacing, interrupts, and microcomputer design. Two lecture hours and one two-hour laboratory per week; design project required. <i>Prerequisite: EGCP-1010 Digital Logic Design. (Fee: \$100)</i>	

Course Descriptions

EGCP-3010 – EGEE-2050

EGCP-3010 Advanced Digital Logic Design—Sp 3 hours

Advanced treatment of digital logical design techniques and practices with emphasis on rapid electronic prototyping and effective use of advanced computer-aided design tools; schematic, textual, and VHDL design entry; arithmetic circuits, advanced finite-state machines, and advanced controller implementations. Three lecture hours per week with periodic integrated laboratory; multiple projects and laboratory experiences including a class design contest usually involving a robot. *Prerequisites:* EGCP-1010 *Digital Logic Design*; CS-1210 *C++ Programming*; junior status or permission of instructor. (Fee: \$100)

EGCP-3210 Computer Architecture—Sp 3 hours

Introduction to computer architecture with an emphasis on hardware, RISC vs. CISC, pipeline and vector processing, I/O, and memory hierarchy including caches. Students design and construct a small microprocessor using a logic simulator and then write an assembler for their processor. *Prerequisites:* EGCP-2110 *Microprocessors*; CS-1210 *C++ Programming*.

EGCP-3510 Software Engineering—Fa 3 hours

Discussion of the engineering process as it applies to software development, life-cycle analysis and modeling, software metrics and management tools, project cost and size estimation, system requirement analysis, software design paradigms, and software testing and verification. *Prerequisites:* CS-3410 *Algorithms*; CS-3310 *Operating Systems*.

EGCP-3920 Computer Engineering Internship 1-3 hours

An opportunity for a computer engineering student to work closely with an industrial advisor. Specific attention is given to solving a particular problem(s) in that industry or firm. A faculty advisor assists in supervising and approving the internship, including assessing the number of credit hours. A final report (approximately seven pages per credit hour) describing the experience, including the problem and solution, is required. Must be arranged with a faculty sponsor and work supervisor before starting and cannot be used to satisfy elective credit requirements. *Prerequisites:* junior or senior engineering major status; faculty advisor's permission.

EGCP-3950 Topics in Computer Engineering—Fa, Sp 1-3 hours

Selected topics in computer engineering at the 3000-level that will complement or extend existing 2000- and 3000-level courses or expose students to topics not taught in other courses; may be proposed by the engineering faculty or students. *Prerequisite:* instructor's permission.

EGCP-3980 1-3 hours

Independent Study in Computer Engineering

Opportunity to perform independent study or research in computer engineering and allied fields of application. A formal proposal for study must be approved by the faculty advisor before registering for this course. Up to three credit hours of engineering electives can be satisfied by an equivalent number of independent-study hours. *Prerequisites:* junior or senior engineering major status; faculty advisor's permission.

EGCP-3990 1-3 hours

Project Design in Computer Engineering

An elective course for students to get academic credit for extracurricular design work in computer engineering; project may be related to a design competition, ministry, industry, or personal interest. Cannot be used to satisfy engineering elective requirements. *Prerequisite:* instructor's permission.

EGCP-4210 Advanced Computer Architecture—Fa 3 hours

Advanced study of computer architecture with an emphasis on performance, performance metrics, benchmarks, integer and floating point concepts, data-path and control, super-scalar processing and pipelining, memory hierarchy, I/O and peripherals, vector, array and parallel processors, and multiprocessors. *Prerequisites:* EGCP-3010 *Advanced Digital Logic Design*; EGCP-3210 *Computer Architecture*. (Fee: \$100)

EGCP-4310 Computer Networks—Fa 3 hours

Introduction to the basic concepts of computer networking. The course will present the layered network architecture protocols and examine each of the layers in depth. Important topics such as packet switching, internetworking, client-server computing, wireless networking, and network security will be addressed.

Prerequisites: CS-2210 *Data Structures Using Java*; *Co-requisite:* CS-3310 *Operating Systems*. (Fee: \$50)

EGCP-4810 4 hours

Computer Engineering Senior Design I—Fa

Design and development of electronic products to meet specific requirements. Introduction to computer system design, power supply design, hardware-software co-design, software engineering, system performance trade-offs, electronic design tools, prototype methods, estimating and managing time and cost constraints, and project management. Student teams prepare a project proposal, design and prototype a microprocessor-based system or sub-system, use computerized design tools, submit weekly progress reports, and conduct design reviews. Three lecture hours and one two-hour laboratory per week. *Prerequisite:* EGEE-3210 *Electronics I*, CS-3410 *Algorithms*, CS-3310 *Operating Systems*, and Senior status in computer engineering *Corequisite:* EGCP-4210 *Advanced Computer Architecture*. (Fee: \$100)

EGCP-4820 4 hours

Computer Engineering Senior Design II—Sp

Continuation of EGCP-4810 Computer Engineering Senior Design I. Student teams will complete their capstone project, submit weekly progress reports, prepare a formal final report, and make a formal design review presentation. *Prerequisite:* EGCP-4810 *Computer Engineering Senior Design I*. (Fee: \$100)

EGCP-4950 1-3 hours

Advanced Topics in Computer Engineering

Selected topics in computer engineering at the 4000-level that expand the depth of existing 3000- and 4000-level courses or expose the students to advanced concepts not taught in other courses. Topics may be proposed by the engineering faculty or students. *Prerequisite:* instructor's permission.

Electrical Engineering (EGEE)

EGEE-2010 Circuits—Sp 5 hours

Introduction to basic circuit analysis using Ohm's law, Kirchoff's laws, independent and dependent sources, Thévenin and Norton equivalency and source transformations, transient responses in RC, RL, and RLC circuits, phasor analysis of RLC circuits, power in AC circuits, introduction to 3-phase circuits, mutual inductance, frequency response, Transforms, Laplace circuit analysis, Fourier Series, and introduction to transfer functions. Computer simulations and bread-board circuits are constructed and evaluated in the laboratory. Four lecture hours and one two-hour laboratory per week. *Prerequisites:* PHYS-2120 *General Physics II*; MATH-2740 *Differential Equations*. (Fee: \$100)

EGEE-2050 Circuits and Instrumentation—Sp 4 hours

Introduction to basic circuit analysis using Ohm's law, Kirchoff's laws, independent and dependent sources, Thévenin and Norton equivalency and source transformations, transient responses in RC, RL, and RLC circuits, operational amplifiers, and introduction to polyphase AC circuits. Circuit applications for transducers such as resistance strain gages, piezoelectric load cells, piezoelectric accelerometers, and thermocouples are emphasized along with measurement uncertainty analysis and statistical methods. Circuits are designed, simulated, constructed, and tested in the laboratory. Three lecture hours and one two-hour laboratory per week. This course does not satisfy the EGEE-2010 Circuits requirement for the Electrical or Computer Engineering majors. *Prerequisites:* PHYS-2120 *General Physics II*; MATH-2740 *Differential Equations*. (Fee: \$100)

- EGEE-3110 Linear Systems**–Fa **3 hours**
 Introduction to linear time-invariant analysis of continuous and discrete-time systems, using both time and frequency domain methods that include convolution, Fourier Series, Fourier, Laplace, and Z transforms; classical and computer solution methods are utilized. *Prerequisite: EGEE-2010 Circuits.*
- EGEE-3150 Analog Filters**–Sp **3 hours**
 Introduction to theory, design, and implementing passive and active analog filters; basic filter structures, passive network synthesis, operational amplifier limitations, multiple-amplifier filters, and filter realization methods. *Prerequisite: EGEE-3110 Linear Systems.* (odd years)
- EGEE-3210 Electronics I**–Fa **3 hours**
 Introduction to the analysis of semiconductor electronic device theory and application, diodes, bipolar-junction transistors (BJTs), field-effect transistors (FETs), and the non-ideal characteristics of operational amplifiers. Two lecture hours and one two-hour lab or recitation period per week. *Prerequisite: EGEE-2010 Circuits.* (Fee: \$100)
- EGEE-3220 Electronics II**–Sp **5 hours**
 Continuation of EGEE-3210 Electronics I to include differential amplifiers, frequency response of amplifier circuits, multi-stage amplifiers, power amplifiers, feedback circuits, power supplies, filters, digital logic families, and oscillators. Four lecture hours and one two-hour lab per week. *Prerequisite: EGEE-3210 Electronics I.* (Fee: \$100)
- EGEE-3310 Electromagnetics**–Fa **3 hours**
 Engineering applications of vector calculus, phasors, and Maxwell's equations to electrostatic, magnetostatic and time varying fields, transmission lines, Smith Chart, propagation of uniform plane waves, and single-stub matching. Laboratory exercises introduce field-plotting, transmission line concepts using wave guides, single stub-tuning, introduction to the network analyzer, polarization, and radiation fields. Two lecture hours and one two-hour laboratory or recitation period per week. *Prerequisites: MATH-2710 Calculus III; EGEE-2010 Circuits.* (Fee: \$100)
- EGEE-3330 Communications Theory**–Sp **4 hours**
 Introduction to analog and digital communications theory. Probability and random processes are developed to facilitate noise analysis in modulation techniques. Three lecture hours and one two-hour laboratory per week; design project required. *Prerequisite: EGEE-3110 Linear Systems.* (Fee: \$100)
- EGEE-3370 Probability and Random Processes for Engineers**–Sp **3 hours**
 Introduction to sample points, sample spaces, probability, random variables, random vectors, statistical averages, linear transformations, random processes, linear system response to stochastic input, spectral analysis with application of the central-limit theorem, and Gaussian processes to engineering problems. May be used to satisfy the mathematics elective requirement for electrical engineers. *Prerequisite: EGEE-3110 Linear Systems.*
- EGEE-3510 Power Electronics**–Sp **3 hours**
 Introduction to the fundamentals of power electronics, characteristics and application of semiconductor switches, motor control, device applications, and power processing design. Design project required. *Prerequisite: EGEE-3210 Electronics I.* (odd years)
- EGEE-3530 Electrical Machines**–Fa **3 hours**
 Introduction to the fundamentals of power circuits and the principles of analysis and characteristics of transformers and AC and DC rotating machines. Two lecture hours and one two-hour laboratory per week. *Prerequisite: EGEE-2010 Circuits; or EGEE-2050 Circuits and Instrumentation.* (Fee: \$100)
- EGEE-3920 Electrical Engineering Internship** **1-3 hours**
 An opportunity for an electrical engineering student to work closely with an industrial advisor. Specific attention is given to solving a particular problem(s) in that industry or firm. A faculty advisor assists in supervising and approving the internship, including assessing the number of credit hours. A final report (approximately seven pages per credit hour) describing the experience, including the problem and solution, is required. Must be arranged with faculty sponsor and work supervisor before starting and cannot be used to satisfy elective credit requirements. *Prerequisites: junior or senior engineering major status; faculty advisor's permission.*
- EGEE-3950 Topics in Electrical Engineering**–Fa, Sp **1-3 hours**
 Selected topics in electrical engineering at the 3000-level that will complement or extend existing 2000- and 3000-level courses or expose students to topics not taught in other courses; may be proposed by the engineering faculty or students. *Prerequisite: instructor's permission.*
- EGEE-3980 Independent Study in Electrical Engineering** **1-3 hours**
 Opportunity to perform independent research or study in electrical engineering and allied fields of application. A formal proposal for study must be approved by the faculty advisor before registering for this course. Up to three credit hours of engineering electives can be satisfied by an equivalent number of independent-study hours. *Prerequisites: junior or senior engineering major status and faculty advisor's permission.*
- EGEE-3990 Project Design in Electrical Engineering**–Fa, Sp **1-3 hours**
 An elective course for students to get academic credit for extracurricular design work in computer engineering; project may be related to a design competition, ministry, industry, or personal interest. Cannot be used to satisfy engineering elective requirements. *Prerequisite: instructor's permission.*
- EGEE-4110 Digital Signal Processing**–Fa **2 hours**
 Introduction to digital signal processing with emphasis on FIR and IIR filter design, application of Z-transforms and Fourier Transforms, spectral analysis, realization and frequency response of discrete-time systems, and properties and design of FIR and IIR filters with infinite and finite word-length processors. Filter designs are implemented in Matlab. Design project required. *Prerequisites: EGEE-3110 Linear Systems; CS-1210 C++ Programming.*
- EGEE-4250 CMOS VLSI Design**–Sp **3 hours**
 Introduction to CMOS VLSI design with emphasis on circuit analysis, modeling, mask layout, simulation, and design verification; both theoretical concepts and CAD tools are used together for circuit design and verification. Three lecture hours per week with integrated laboratory. *Prerequisite: EGEE-3210 Electronics I.*
- EGEE-4330 Advanced Communications and Networks**–Fa **3 hours**
 Analysis of the performance of analog and digital communication systems and networks in the presence of noise, M-ary signals, signal space concepts, orthogonal signals, and introduction to communication networks. *Prerequisite: EGEE-3330 Communications Theory. Corequisite: EGEE-3370 Probability and Random Processes for Engineers or instructor's permission.*
- EGEE-4410 Feedback Control Systems**–Fa **4 hours**
 Introduction to the analysis and design of analog feedback control systems with emphasis on modeling, transfer functions, root locus, frequency response, Bode plots, Nyquist Criterion, stability, compensator design for performance and robustness, PID, phase-lead, phase-lag, lead-lag, and performance indices. Three lecture hours and one two-hour laboratory or recitation per week. Design project required. *Prerequisite: EGEE-3110 Linear Systems.* (Fee: \$100)

Course Descriptions

EGEE-4450 – EGGN-3930

EGEE-4450 Digital Control Systems—Sp 3 hours

Introduction to analysis and design of discrete-time sampled-data control systems, signal sampling, A/D and D/A conversion, quantization, application of Z-domain transfer function techniques, transient response, frequency response, stability and performance of computer controlled systems, digital compensation, and controller design. Design project required. *Prerequisite: EGEE-4410 Feedback Control Systems.*

EGEE-4510 Power Systems—Sp 3 hours

Principles of electrical power generation, transmission, and distribution, three-phase power circuits, power system analysis, load flow, symmetrical components, fault currents, system protection, and stability. *Prerequisite: EGEE-3310 Electromagnetics.* (Fee: \$50) (even years)

EGEE-4610 Medical Imaging—Sp 3 hours

Introduction to the physics, phenomenology, and engineering aspects of major medical imaging modalities: photon radiation, radiography, computed tomography, ultrasound, and magnetic resonance imaging. Matlab will be used to process imagery. *Prerequisite: EGEE-3110 Linear Systems.* (odd years)

EGEE-4810 4 hours

Electrical Engineering Senior Design I—Fa

Design and development of electronic products to meet specific requirements using the top-down design method. Introduction to serial communication design, design for reliability, product cost and safety, environmental issues, project management, electronic design tools, prototype methods, noise analysis in data conversion, and circuit-board layout. Student teams prepare a project proposal, design and prototype electronic subsystems using analog and digital integrated circuits and microcontrollers, use computerized design tools, and conduct design reviews. Three lecture hours and one two-hour lab per week. *Prerequisites: EGEE-3220 Electronics II; EGCP-2110 Microprocessors; EGEE-3110 Linear Systems; senior status in electrical engineering.* (Fee: \$100)

EGEE-4820 4 hours

Electrical Engineering Senior Design II—Sp

Continuation of EGEE-4810 implementing the top-down design method. Students design, build, and test a working electronic product to meet specific requirements within budget. Engineering time, team management costs, and component costs are incorporated into the total cost and grade for the final product. Formal design reports and presentations required. Two three-hour laboratories per week. *Prerequisite: EGEE-4810 Electrical Engineering Senior Design I.* (Fee: \$100)

EGEE-4950 1-3 hours

Advanced Topics in Electrical Engineering—Sp

Selected topics in electrical engineering at the 4000-level that expand the depth of existing 3000- and 4000-level courses or expose the students to advanced concepts not taught in other courses; topics may be proposed by the engineering faculty or students. *Prerequisite: instructor's permission.*

General Engineering (EGGN)

EGGN-1110 The Engineering Profession—Fa 1 hour

Introduction to the basic concepts and skills necessary to function effectively as a Christian engineer; ethical and moral issues in engineering practice and engineering computer applications. Term project introduces Christian heritage in science and engineering; students participate in group activities and design projects. (Fee: \$50)

EGGN-1960 Competition Project—Sp 0 hours

Engineering freshmen on a department of engineering intercollegiate design competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

EGGN-2960 Competition Project—Sp 0 hours

Engineering sophomores on a department of engineering intercollegiate design competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

EGGN-3110 Professional Ethics—Sp 3 hours

Introduction to the theories of morality and philosophical issues of determining what is true and what is good. Applications are made to professional conduct, engineer-client relations, and product liability. Legal problems and the engineering code of ethics are discussed from a biblical perspective.

EGGN-3610 Biomedical Engineering Systems—Fa 3 hours

Introduction to the field of biomedical engineering and the application of engineering to the field of medicine; fundamental aspects of measuring and modeling physiological systems, biomedical device design, tissue engineering, bioelectric phenomena, biosensors, physiological modeling, biomedical imaging, and biomaterials. Team taught by ME and EE professors. *Prerequisites: Engineering major with junior standing; GBIO-1000 Principles of Biology*

EGGN-3910 Co-op I 0 hours

First term for an engineering or computer science student to work in industry for one semester. A final report is required. Students completing a co-op work assignment and registered for this course are granted full-time student status. *Prerequisite: junior status in engineering or computer science and enrollment in the co-op program.* (Fee \$75).

EGGN-3911 Co-op IA 0 hours

First half of the first term for an engineering or computer science student to work in industry part-time for one semester. A final report is required. Students enrolled in part-time co-op must register for six or more credit hours to maintain full-time student status. *Prerequisite: junior status in engineering or computer science and enrollment in the co-op program.* (Fee \$40).

EGGN-3912 Co-op IB 0 hours

Second half of the first term for an engineering or computer science student to work in industry part-time for one semester. A final report is required. Students enrolled in part-time co-op must register for six or more credit hours to maintain full-time student status. *Prerequisite: EGGN-3911 Co-op IA.* (Fee \$40).

EGGN-3920 Co-op II 0 hours

Second term for an engineering or computer science student to work in industry for one semester. A final report is required. *Prerequisite: EGGN-3910 Co-op I or EGGN-3912 Co-op IB.* (Fee \$75).

EGGN-3921 Co-op IIA 0 hours

First half of the second term for an engineering or computer science student to work in industry part-time for one semester. A final report is required. Students enrolled in part-time co-op must register for six or more credit hours to maintain full-time student status. *Prerequisite: EGGN-3910 Co-op I or EGGN-3912 Co-op IB.* (Fee \$40).

EGGN-3922 Co-op IIB 0 hours

Second half of the second term for an engineering or computer science student to work in industry part-time for one semester. A final report is required. Students enrolled in part-time co-op must register for six or more credit hours to maintain full-time student status. *Prerequisite: EGGN-3921 Co-op IIA.* (Fee: \$40).

EGGN-3930 Co-op III 0 hours

Third term for an engineering or computer science student to work in industry for one semester. A final report is required. *Prerequisite: EGGN-3920 Co-op II or EGGN-3922 Co-op IIB.* (Fee: \$75). May be repeated.

EGGN-3931 Co-op IIIA

0 hours

First half of the third term for an engineering or computer science student to work in industry part-time for one semester. A final report is required. Students enrolled in part-time co-op must register for six or more credit hours to maintain full-time student status. *Prerequisite: EGGN-3920 Co-op II or EGGN-3922 Co-op IIB.* (Fee \$40). May be repeated.

EGGN-3932 Co-op IIIB

0 hours

Second half of the third term for an engineering or computer science student to work in industry part-time for one semester. A final report is required. Students enrolled in part-time co-op must register for six or more credit hours to maintain full-time student status. *Prerequisite: EGGN-3931 Co-op IIIA.* (Fee \$40). May be repeated.

EGGN-3960 Competition Project–Sp

0 hours

Engineering juniors on a department of engineering intercollegiate design competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

EGGN-4010 Senior Seminar–Fa

0 hours

Required weekly meeting of senior engineering majors to discuss the transition into the professional work environment. *Prerequisite: senior status in engineering or computer science.* (Fee: \$35)

EGGN-4960 Competition Project–Sp

0 hours

Engineering seniors on a department of engineering intercollegiate design competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

Mechanical Engineering (EGME)

EGME-1810 Engineering Graphics–Fa

1 hour

Introduction to basic techniques of sketching, drawing, dimensioning, multiple views, sectioning, multi-view projections, and pictorial views. Introduction to commercial software for three-dimensional solid modeling and preparing engineering drawings. (Fee: \$25)

EGME 2050 Computational Methods–Sp

4 hours

Introduction to computer programming and the numerical methods for solving roots of equations, simultaneous linear algebraic equations, ordinary differential equations, integration, introduction to finite-difference approximations, and least-squares curve fits. *Pre- or Corequisites: MATH-2710 Calculus III; MATH-2740 Differential Equations.*

EGME-2310 Manufacturing and Finance–Fa

3 hours

Introduction to the fundamentals of manufacturing and contemporary materials processing, molding, casting, forming, machining, inspection techniques, and quality assurance. Applications to the time value of money, break-even and payback analysis, and economic analysis of engineering alternatives. *Prerequisite: EGME-2410 Properties of Engineering Materials.* (Fee: \$55)

EGME-2410 Properties of Engineering Materials–Fa

4 hours

Introduction to the properties of metallic, ceramic, polymeric, and composite materials; plastic deformation, strengthening, fracture, fatigue, corrosion, diffusion, equilibrium and nonequilibrium processes, phase diagrams, electrical and magnetic properties, and application to materials selection. Three lecture hours and one two-hour laboratory per week. *Prerequisite: EGME-2530 Statics and Mechanics of Materials.* (Fee: \$100)

EGME-2510 Statics–Fa

3 hours

Introduction to analyzing forces in isolated and connected rigid-body systems; vector analysis, forces, moments, resultants, two- and three-dimensional equilibrium, centroids, moment of inertia, friction, trusses, frames, and machines. Design project required. *Prerequisites: EGME-1810 Engineering Graphics; PHYS-2110 General Physics I; MATH-1720 Analytical Geometry and Calculus II.* (Fee: \$10)

EGME-2530 Statics and Mechanics of Materials–Fa

5 hours

Introduction to analyzing forces in isolated and connected rigid-body systems; vector analysis, forces, moments, resultants, two- and three-dimensional equilibrium, centroids, distributed loading, moment of inertia, friction, trusses, frames, and machines. Introduction to the theoretical and experimental analysis of deformable bodies subject to applied loads; normal and shear stress and strain, strain energy, torsion, stresses in beams, deflection of beams, combined stress, stress transformation, failure theories, and buckling of columns. Design project required. *Prerequisites: EGME-1810 Engineering Graphics; PHYS-2110 General Physics I; MATH-1720 Calculus II.* (Fee: \$25)

EGME-2630 Dynamics–Sp

3 hours

Introduction to kinematic and kinetic analysis of particles, systems of particles, and rigid bodies; position, velocity, acceleration, non-rotating and rotating frames of reference, Newton's laws, work, energy, impulse, momentum, conservative and non-conservative systems, and vibration of single-degree-of-freedom systems. Design project required. *Prerequisite: EGME-2510 Statics or EGME-2530 Statics and Mechanics of Materials. Pre- or Corequisite: MATH-2740 Differential Equations.* (Fee: \$10)

EGME-3010

2 hours

Mechanical Engineering Laboratory I–Fa

Experiments using the wind tunnel, engine test cell, testing machines in the mechanics laboratory, vibrations laboratory, fluids laboratory, refrigeration laboratory, and heat transfer laboratory are conducted. Students measure mechanical phenomena such as acceleration, force, pressure, temperature, strain, fluid flow, viscosity, and heat transfer using transducers, instrumentation, and PC-based data acquisition. Students design some of the experiments. Two 2-hour laboratories per week. *Prerequisites: EGME-2630 Dynamics; EGEE-2050 Circuits and Instrumentation. Corequisites: EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics.* (Fee: \$100)

EGME-3020

2 hours

Mechanical Engineering Laboratory II–Sp

Continuation of EGME-3010. Two two-hour laboratories per week. *Prerequisite: EGME-3010 Mechanical Engineering Laboratory I. Corequisite: EGME-3150 Heat Transfer.* (Fee: \$100)

EGME-3050

3 hours

Introduction to Finite Element Analysis–Sp

Introduction to basic components of the finite element method including element selection, shape functions, strain-displacement and stress-strain relations, formulation of the stiffness matrix for 1-D, 2-D, and 3-D elements, linear strain and isoparametric formulations, application of boundary conditions, and interpretation of results; application to 2-D and 3-D problems and experience using a commercial code. *Prerequisites: EGME-2050 Computational Methods; EGME-2530 Statics and Mechanics of Materials.* (Fee: \$25)

EGME-3110 Thermodynamics–Fa

5 hours

Introduction to engineering thermodynamics, properties of pure substances, work, heat, first and second laws of thermodynamics, energy, enthalpy, and entropy. Specific application to power, refrigeration cycles, and combustion processes. *Prerequisites: CHEM-1050 Chemistry for Engineers; MATH-2710 Calculus III.*

Course Descriptions

EGME-3130 – EGME-4410

EGME-3130 Internal Combustion Engines–Sp 3 hours

Introduction to internal combustion engines, fuel-air cycles, engine simulation, emissions, engine performance and alternative fuels. *Prerequisites:* EGME-2630 Dynamics; EGME-3110 Thermodynamics.

EGME-3150 Heat Transfer–Sp 3 hours

Introduction to conduction, convection, and radiation heat transfer in one and two dimensions; free and forced convection, analytical and computational techniques applied to Fourier's Law of conduction, Newton's Law of cooling, and Stefan-Boltzman's Law of thermal radiation. A heat exchanger design project is required. *Prerequisites:* EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics. *Corequisite:* EGME-2050 Computational Methods.

EGME-3170 Thermal Systems–Sp 2 hours

Introduction to engineering thermodynamics, properties of pure substances, work, heat, enthalpy, and first law of thermodynamics. Introduction to conduction and convection modes of heat transfer. *Prerequisites:* CHEM-1050 Chemistry for Engineers; MATH-2740 Differential Equations.

EGME-3210 Fluid Mechanics–Fa 3 hours

Introduction to fluid properties, fluid statics, and the concepts, definitions, and basic equations for subsonic fluid dynamics; Navier-Stokes equation, viscous and inviscid fluid flows, potential flow analysis, boundary layers, laminar and turbulent flows, analytical and computational solutions, vector fields, and finite-integral-control-volume method. *Prerequisites:* MATH-2710 Calculus III; MATH-2740 Differential Equations.

EGME-3430 Principles of Physical Metallurgy–Sp 3 hours

Introduction to the physical and mechanical properties of metals and alloys; crystal structure, phase equilibria, defects, strengthening mechanisms, and kinetics of reactions. *Prerequisite:* EGME-2410 Properties of Engineering Materials.

EGME-3450 Plastic and Composite Materials–Sp 2 hours

Introduction to the properties and processing of plastics, resins, and adhesives; rheology, creep-deformation history, and injection molding. Fiber-reinforced, carbon-carbon, and metal-matrix composites are analyzed for strength, anisotropy, and applicability. *Prerequisite:* EGME-2410 Properties of Engineering Materials.

EGME-3610 3 hours

Kinematics and Design of Machines–Sp

Introduction to the analysis and synthesis of motion in planar mechanisms and linkages; velocity and acceleration analysis, cam design, gears, simple and compound gear trains, computer solution and simulation. Design project required. *Prerequisite:* EGME-2630 Dynamics. (Fee: \$40)

EGME-3850 Mechanical Design–Sp 3 hours

Further development of load determination, stress, strain, deflection and failure theories; integration of an iterative problem solver in the design process; and analysis of fatigue failure. Introduction to the design of mechanical components including shafts, keys, couplings, bearings, gears, springs, and fasteners. *Prerequisite:* EGME-2410 Properties of Engineering Materials.

Corequisites: EGME-3020 Mechanical Engineering Laboratory II; EGME-3610 Kinematics and Design of Machines. (Fee: \$25)

EGME-3920 Mechanical Engineering Internship 1-3 hours

An opportunity for a mechanical engineering student to work closely with an industrial advisor. Specific attention is given to solving a particular problem(s) in that industry or firm. A faculty advisor assists in supervising and approving the internship, including assessing the number of credit hours. A final report (approximately seven pages per credit hour) describing the experience, including the problem and solution, is required. Must be arranged with faculty sponsor and work supervisor before starting and cannot be used to satisfy elective credit requirements. *Prerequisites:* junior or senior engineering major status; faculty advisor's permission.

EGME-3950 1-3 hours

Topics in Mechanical Engineering–Fa, Sp

Selected topics in mechanical engineering at the 3000-level that will compliment or extend present 2000- or 3000-level courses or expose students to topics not taught in other courses; may be proposed by the engineering faculty or students. *Prerequisite:* instructor's permission.

EGME-3980 1-3 hours

Independent Study in Mechanical Engineering

Opportunity to perform independent study or research in the various branches of engineering and allied fields of application. A formal proposal for study must be approved by the faculty advisor before registering for this course. Up to three credit hours of engineering electives can be satisfied by an equivalent number of hours of independent study. *Prerequisites:* junior or senior engineering major status; faculty advisor's permission.

EGME-3990 1-3 hours

Project Design in Mechanical Engineering

An elective course for students to get academic credit for extracurricular design work in mechanical engineering; project may be related to a design competition, ministry, industry, or personal interest. Cannot be used to satisfy engineering elective requirements. *Prerequisite:* instructor's permission.

EGME-4050 2 hours

Finite Difference Methods In Engineering–Fa

Finite-difference approximations for derivatives and differential equations applied to solve engineering problems; consistency, stability, truncation error, and introduction to grid generation. *Prerequisites:* EGME-2050 Computational Methods; MATH-2710 Calculus III.

EGME-4060 2 hours

Computational Fluid Dynamics–Sp

Introduction to computational fluid dynamics for solving 2-D and 3-D engineering problems. Formulations of the Navier-Stokes equations will be examined. The basis of the numerical methods in advanced CFD commercial codes will be studied for understanding how to intelligently use engineering software to solve problems. Topics include: formulation of new problems, generating CAD grids, identifying and writing appropriate boundary/initial conditions, selecting solution techniques and turbulence models available in the code, and running and interpreting the validity of the results. *Prerequisites:* EGME-3210 Fluid Mechanics; EGME 4050 Finite Difference Fluid Methods.

EGME-4160 Radiation and Solar Energy–Fa 2 hours

Introduction to the fundamentals of radiation heat transfer including shape factors, wave-length dependence, and material properties. Applications to solar energy engineering and design problems. *Prerequisite:* EGME-3150 Heat Transfer.

EGME-4250 Propulsion–Fa 2 hours

Introduction to the principles of thrust production, compressible flow of gases, thermodynamics of jet propulsion systems, and parametric performance analysis of jet engines. *Prerequisites:* EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics.

EGME-4270 Compressible Fluid Flow–Sp 2 hours

Introduction to the compressible flow of gases in engineering systems; isentropic flow in variable-area passages, shock and expansion waves; and flow with wall friction and heat transfer. *Prerequisites:* EGME-2050 Computational Methods; EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics.

EGME-4410 3 hours

Introduction to Fracture Mechanics–Sp

Introduction to failure modes caused by static and dynamic loading, brittle fracture criteria, elastic behavior, stress fields around cracks, fatigue failure, stress corrosion cracking, and strain hardening mechanisms. *Prerequisite:* EGME-2410 Properties of Engineering Materials.

EGME-4530 Advanced Mechanics of Materials–Fa 3 hours

Advanced treatment of stress and strain including coordinate transformations, the eigenvalue problem, Mohr's circle and linear constitutive equations. Failure theories and energy methods, including Castigliano's theorems, are studied; applications to classical topics including analysis of beams with non-symmetrical sections, non-circular torsion, thin-wall beams, and beams on elastic foundations. *Prerequisite: EGME-2530 Statics and Mechanics of Materials.*

EGME-4560 Biomechanics and Biomaterials–Sp 3 hours

Introduction to biomechanics of the human body, reactions of biological tissue and synthetic materials to load, and the biomechanics of biomaterials. Advanced mechanical analysis of rigid and deformable bodies and fluid mechanics applied to bone, muscle, connective tissue and blood. This course will provide foundational knowledge to the engineering student for occupations in medical device manufacturing, health and sport sciences industries, and advanced fields of study. *Prerequisites: EGME-2410 Properties of Engineering Materials, PHYS-2120 General Physics II and MATH-2740 Differential Equations. (odd years)*

EGME-4610 Dynamics of Machines–Fa 3 hours

Dynamic analysis of machines and mechanisms; Newton's laws of motion, energy methods, force analysis, shaking forces, static and dynamic balancing, engine dynamics, multi-cylinder engines, and cam dynamics. *Prerequisite: EGME-3610 Kinematics and Design of Machines.*

EGME-4660 Principles of Automatic Controls–Fa 3 hours

Introduction to theoretical and experimental analysis of classical analog feedback control systems with emphasis on modeling, transfer function formulation, frequency response, root locus, Bodé plots, stability, and compensator design. Three lecture hours and one two-hour laboratory or recitation per week; design project required. *Prerequisite: EGEE-2050 Circuits and Instrumentation. (Fee: \$100)*

EGME-4710 Vibrations–Sp 3 hours

Free and forced vibrations of mechanical systems having lumped mass and elasticity, single and multiple degree-of-freedom systems, matrix formulation, eigenvalues and eigenvectors, normal mode theory, Laplace Transform, dissipative systems, introduction to random, continuous, nonlinear vibrations, and engineering applications. *Prerequisite: EGME-2630 Dynamics. (Fee: \$15)*

EGME-4720 Vibrations Lab–Sp 1 hour

Laboratory experiments to demonstrate and support EGME-4710 Vibrations; function and calibration of instrumentation and motion detection transducers, measuring the frequency response and impulse response function, electrodynamic shakers, instrumentation, Fast Fourier Transform, spectral analysis, and experience using a commercial FFT analyzer. One two-hour laboratory per week. *Pre- or Corequisite: EGME-4710 Vibrations. (Fee: \$100)*

EGME-4750 3 hours

Random Vibrations and Signature Analysis

Introduction to vibration analysis of discrete and continuous systems to random excitation, harmonic vibration, transient response, convolution integral, Laplace and Fourier Transform, Discrete Fourier Transform, Fast Fourier Transform, random variables, coherence, correlation, auto- and cross-correlation, power spectral density, transfer function, and modal analysis; experience using a commercial FFT analyzer. Design project required. *Prerequisite: EGME-4710 Vibrations. (Fee: \$100)*

EGME-4810 3 hours

Mechanical Engineering Senior Design I–Fa

This is the senior capstone design project for mechanical engineers. Student teams work independently on a design project to find a solution consistent with stated specifications using principles studied in previous courses. Work in this semester includes writing the proposal and performing background research and preliminary design. Students conduct a mid-term design review and end-of-semester oral and written presentation. Projects are advised by a faculty committee; course includes weekly written progress reports and meetings with the faculty project advisor. *Prerequisites: EGME-3850 Mechanical Design; EGME-3610 Kinematics and Design of Machines; EGME-3150 Heat Transfer; EGME-3020 Mechanical Engineering Lab II; and senior status. (Fee: \$100)*

EGME-4820 3 hours

Mechanical Engineering Senior Design II–Sp

A continuation of EGME-4810, emphasizing detailed design, prototyping, troubleshooting, design modifications, project completion, reporting, and oral presentation. Students submit written progress reports and attend meetings each week with the faculty project advisor, conduct an oral presentation, and prepare the final report. *Prerequisite: EGME-4810 Mechanical Engineering Senior Design I. (Fee: \$100)*

EGME-4950 1-3 hours

Advanced Topics in Mechanical Engineering–Sp

Selected topics in mechanical engineering at the 4000-level that expand the depth of existing 3000- and 4000-level courses or expose the students to advanced concepts not taught in other courses. Topics may be proposed by the engineering faculty or students. *Prerequisite: instructor's permission.*

Electronic Media (EMTC)

EMTC-1110 Introduction to Electronic Media–Fa 3 hours

A survey of electronic media, including history and development, types, audience research, regulations, and globalization.

EMTC-1120 Audio Production–Fa, Sp 3 hours

Students receive instruction and training in the operation of electronic equipment used in electronic media. This course emphasizes the roles of sound designer and engineer; the student will be introduced to the techniques of audio production and will produce a variety of media projects. (Fee: \$45)

EMTC-1210 Media Performance–Sp 3 hours

Examines all types of announcing and applies each with particular emphasis to radio and television performance. Emphasis is on the use of the voice as a tool for communication of ideas on a one-to-one basis. (Fee: \$45)

EMTC-2061 Proficiency in HTML–Fa, Sp 0 hours

The student will demonstrate the ability to create web pages using an HTML editor. A list of resources is available from the interactive media faculty to help the student prepare to pass this proficiency requirement. (Fee: \$10)

EMTC-2062 Proficiency in Photoshop–Fa, Sp 0 hours

The student will demonstrate the ability to create screen designs for television and interactive media in Photoshop. A list of resources is available from the interactive media faculty to help the student prepare to pass this proficiency requirement. (Fee: \$10)

EMTC-2063 Proficiency in Illustrator–Fa, Sp 0 hours

The student will demonstrate the ability to create vector-based designs in Illustrator. A list of resources is available from the interactive media faculty to help the student prepare to pass this proficiency requirement. (Fee: \$10)

Course Descriptions

EMTC-2110 – EMTC-3370

- EMTC-2110 Video Technical Training–Sp** **3 hours**
This course provides hands-on training with all video production equipment, including cameras, lighting, sound, and editing. The student will learn basic television skills and technical terms. (Fee: \$45)
- EMTC-2130 Writing for Electronic Media–Fa** **3 hours**
Covers the form and style of writing for radio, television, and interactive media. Work in the course includes news writing, public service announcements, promotional announcements, advertisements, video scripting, and writing for the web.
- EMTC-2310 Introduction to Photography–Sp** **2 hours**
Acquaints students with basic principles of photography (light, exposure, composition, and darkroom skills) through lecture, laboratory sessions, and photographic assignments. (Fee: \$45)
- EMTC-2320 Pre-production and Planning for Video and Film–Fa** **3 hours**
This course examines the framework for preparation for video and film production in fiction and nonfiction programming. The duties of the producer and director are covered as they relate to scripting, budgets, legalities, scheduling, site surveys and other related preproduction duties for studio and field productions. (Fee \$30)
- EMTC-2601 Interactive Interface Design with Flash–Fa** **3 hours**
Development of interactive interfaces for websites, interactive CDs and interactive television using industry-standard Flash software. Open to all students. For interactive media students who do not have a background in Flash, the course will provide them with some directed help in preparing for EMTC-3061 Proficiency in Flash. Crosslisted as GDES. *May not be counted as major hours for electronic media majors.* (Fee: \$35)
- EMTC-2606 Introduction to Computer Animation for Electronic Media–Fa** **2 hours**
An introduction to the use of 3D animation software. Intended for students who do not have a background in 3D animation and who need some directed help in preparing for EMTC-3065 Proficiency in Maya. May not be counted as major hours for Electronic Media majors. (Fee: \$35)
- EMTC-2610 Preproduction Planning–Fa** **3 hours**
Examines the preproduction phase of television and multimedia productions. Topics covered include planning, specifications, contracts, scheduling, budgeting, and evaluation. Special emphasis is placed on project management and research to understand the design and effectiveness of television and multimedia projects.
- EMTC-3061 Proficiency in Flash–Fa, Sp** **0 hours**
The student will demonstrate the ability to create Flash animations and interactive programs. A list of resources is available from the interactive media faculty to help the student prepare to pass this proficiency requirement. (Fee: \$10)
- EMTC-3062 Proficiency in Director–Fa, Sp** **0 hours**
The student will demonstrate the ability to create interactive media products using Director. A list of resources is available from the interactive media faculty to help the student prepare to pass this proficiency requirement. (Fee: \$10)
- EMTC-3065 Proficiency in Maya–Fa, Sp** **0 hours**
The student will demonstrate the ability to create 3D models and animations in Maya. A list of resources is available from the interactive media faculty to help the student prepare to pass this proficiency requirement. (Fee: \$10)
- EMTC-3111 Survey Research for Electronic Media–Sp** **3 hours**
The study of survey research methodologies used in electronic media, including audience analysis; program and screen design testing; station and website ratings. Includes an introduction to academic research in electronic communication using survey methodologies. *Prerequisite: EMTC-1110 Introduction to Electronic Media.*
- EMTC-3112 Content Research for Electronic Media–Fa** **3 hours**
Introduces media students to research and paper writing and provides knowledge and practical experience in conducting content analyses of electronic media. The course instructs students in the library tools for media research, content coding procedures, and writing final research reports. *Prerequisite: EMTC-1110 Introduction to Electronic Media.*
- EMTC-3150 Electronic Media Ethics–Fa** **2 hours**
Development of an applied theistic ethic for media practitioners. Topics for ethical examination include media content, business practices, advertising, journalism, privacy, and intellectual property rights. *Prerequisite: junior or senior status.*
- EMTC-3151 Christian Approaches to Electronic Media–Sp** **2 hours**
Builds upon theistic critiques of the connections between society and technology to develop an understanding of how Christians approach the electronic media, both as consumers and practitioners.
- EMTC-3210 Advanced Audio Production–Fa, Sp** **3 hours**
This class is designed to teach the theories, principles, and practices of multi-track studio production. Emphasis will be given to the use of digital recording technologies and their usage related to other media. (Fee: \$45)
- EMTC-3310 Advanced Video Production–Fa** **3 hours**
Taught from the producer's perspective. Hands-on training dealing with all the variables of making a video production, including pre-production, production, and post-production, and including linear and non-linear editing techniques. *Prerequisite: EMTC-2110 Video Technical Training.* (Fee: \$45)
- EMTC-3330 Screenwriting–Fa** **2 hours**
An advanced writing course for students interested in learning the formal construction involved in writing a professional screenplay, with emphasis on dramatic writing and strong character development. *Prerequisite: EMTC-2130 Writing for Electronic Media.*
- EMTC-3350 Documentary Film–Fa** **2 hours**
An overview of the origins, development, and current trends in the production of documentary films. Emphasis is given to the viewing and analysis of selected documentary programs. (Fee: \$25) (even years)
- EMTC-3360 Documentary Film-Style Prod. I–Fa** **3 hours**
Study of the framework for non-fiction film-style production. Emphasis on theory, pre-production planning, funding, writing, and interviewing unique to documentary programming. Will select a topic and complete a finished treatment, which will be the basis for the actual program produced in Documentary Film-style Production II. *Prerequisites: EMTC-2110 Video Technical Training; and EMTC-3310 Advanced Video Production.*
- EMTC-3370 Documentary Film-Style Prod. II–Sp** **3 hours**
Further study of the framework for non-fiction film-style production. Emphasis is placed on cinematography, interviewing, paper editing, directing, post-production, and distribution unique to documentary programming. Students will take the treatment completed in Documentary Film-style Production I and produce a final program. *Prerequisite: EMTC-1110 Introduction to Electronic Media; EMTC-2110 Video Technical Training; EMTC-3360 Documentary Film-style Production I.*

- EMTC-3410 Electronic Media Sales**—Fa **3 hours**
 Emphasis on conducting a customer needs analysis and developing sales presentations. Sales executives work with the class to develop technique, copywrite, and presentation skills. *Prerequisite: EMTC-3111 Survey Research for Electronic Media or EMTC-3112 Content Research for Electronic Media.* (Fee: \$45)
- EMTC-3420 Electronic Media Management**—Sp **3 hours**
 This class is designed to acquaint the student with the concerns facing the management of a media company including legal requirements of the FCC, personnel management, implementation of programming, and station acquisition. *Prerequisite: EMTC-3111 Survey Research for Electronic Media or EMTC-3112 Content Research for Electronic Media.*
- EMTC-3610 Visual Design for Electronic Media**—Sp **3 hours**
 This course applies the theory and principles of visual communication to screen design for interactive media. Emphasis is placed on designing for both NTSC and wide-screen HDTV aspect ratios. *Prerequisites: ART-1100 Introduction to Art or COM-3220 Visual Communication; EMTC-1110 Introduction to Electronic Media.* (Fee: \$35)
- EMTC-3630 Principles of Computer Animation**—Sp **3 hours**
 Application of the principles of traditional cell-based animation to computer animation, as well as the effective use of animation for communication. *Prerequisite: EMTC-3065 Proficiency in Maya.* (Fee: \$35)
- EMTC-3640 Issues in Mobile Electronic Media**—Sp **3 hours**
 Examines a variety of issues associated with portable communication devices such as personal digital assistants and web-capable cell phones. Topics covered include applications of traditional media theories to wireless communication, diffusion, regulation of wireless technology, e-commerce, and industrial and sociological implications of media mobility. *Prerequisite: junior or senior status.* (Fee: \$35)
- EMTC-3720 Audio Production Practicum**—Fa, Sp **1 hour**
 The practicum is designed to place the student in a variety of professional settings on and off campus, with the purpose of allowing the student to practice audio skills acquired in earlier classes. The course is repeatable for a total of two hours. *Prerequisites: EMTC-1110 Introduction to Electronic Media; EMTC-1120 Audio Production.* (Fee: \$45)
- EMTC-3731 Video Production Practicum**—Fa, Sp **1 hour**
 Production on a video crew in large auditorium production as assigned by the instructor. The course is repeatable for a total of six hours. *Prerequisites: EMTC-2110 Video Technical Training; junior or senior status; permission of instructor.* (Fee: \$25)
- EMTC-3732 Directing Practicum**—Fa, Sp **1 hour**
 Production on a video crew in large auditorium production as assigned by the instructor. The course is repeatable for a total of three hours. *Prerequisites: EMTC-2110 Video Technical Training; junior or senior status; permission of instructor.*
- EMTC-3733 Sports Production Practicum**—Fa, Sp **1 hour**
 Production on a video crew in sports production as assigned by the instructor. The course is repeatable for a total of six hours. *Prerequisites: EMTC-2110 Video Technical Training; junior or senior status; permission of instructor.* (Fee: \$25)
- EMTC-3741 Sales and Management Practicum**—Fa, Sp **1 hour**
 The practicum is designed to place the student in a variety of professional settings on and off campus, with the purpose of allowing the student to observe and practice sales and management skills acquired in earlier classes. The course is repeatable for a total of three hours. *Prerequisites: EMTC-3410 Electronic Media Sales; EMTC-3420 Electronic Media Management; junior or senior status; permission of the instructor.*
- EMTC-3761 Interactive Media Practicum**—Fa, Sp **1 hour**
 The student will develop an interactive medium product, such as a web page or Director-based program, either individually or as a member of a production team under the supervision of a faculty mentor. Repeatable for a total of 2 credit hours. *Prerequisites: EMTC-2061, 2062, 3061, 3062 Proficiencies in HTML, Photoshop, Flash, and Director.* (Fee: \$25)
- EMTC-3765 Animation Practicum**—Fa **1 hour**
 The student will develop an animation project individually or with a team, working under the supervision of a faculty mentor. Repeatable for a total of 2 credit hours. *Prerequisites: EMTC-3630 Principles of Computer Animation; permission of faculty mentor.* (Fee: \$25)
- EMTC-4110 Electronic Media Law & Regulation**—Fa **3 hours**
 A study of the legal protections and requirements placed upon the electronic media. Emphasis is placed upon court decisions that help to define First Amendment freedoms for those in the media, as well as regulations placed upon the electronic media.
- EMTC-4155 Image and Word in a Visual Culture**—Sp **3 hours**
 An inquiry into the tension between image and word in Jewish and Christian thought and the implications for Christians living in a visual culture. Traces this tension through the art of Judaism and the Medieval church, the iconoclastic controversies of early Byzantium and the English Civil Wars, and recent and contemporary religious thinkers. Crosslisted as HON-4155.
- EMTC-4310 Film-Style Production**—Sp **2 hours**
 An advanced production class taught from a film-maker's perspective, with a direct emphasis on single camera technique and non-linear editing. *Prerequisite: EMTC-3310 Advanced Video Production.* (Fee: \$25)
- EMTC-4610 Media Convergence**—Sp **3 hours**
 Examines the ways in which traditional electronic mass media and interactive media are converging. Students will engage in research to investigate the historical trends toward convergence, models for convergence, and economic, programming, and regulatory implications of converging media.
- EMTC-4700 Special Topics in Electronic Media**—Fa, Sp **3 hours**
 Available to advanced students who desire intense study in special areas of electronic media. *Prerequisites: junior or senior status as an electronic media major; permission of the faculty mentor.*
- EMTC-4710 Independent Study: Electronic Media** **1-3 hours**
 Taken to allow the student to study an area beyond what is provided through regular course offerings. The student must make a proposal of what is to be studied for the term when applying to a faculty mentor. The student will then follow a schedule approved by the faculty mentor for studying the topic and submitting a report. Repeatable to a total of 6 credit hours in the field. *Prerequisite: approval of proposal by faculty mentor.*
- EMTC-4810 Senior Seminar**—Fa, Sp **1 hour**
 A transition to the professional world. Includes development of resumes, resume tapes, and portfolios; interviewing skills; and business etiquette. Students enrolled in Senior Seminar must take the Tek.Xam, a national, standardized assessment tool that measures technology applications and problem-solving skills within the technology environment. The cost for Tek.Xam is covered by the course fee. Capstone course. *Prerequisite: senior status as electronic media major.* (Fee: \$50)

Course Descriptions

EMTC-4920 – ENG-4200

EMTC-4920 Senior Project 3 hours

The student selects one of two options: 1) a paper reporting on the student's original research that investigated a topic in electronic media or 2) a media production. A proposal detailing the student's plan for the senior project must be submitted and approved by the faculty mentor prior to registration for the class. Capstone course. *Prerequisites: EMTC-3111 Survey Research for Electronic Media or EMTC-3112 Content Research for Electronic Media; GPA of 3.0 in major classes; senior status; permission of EMTC faculty. (Fee: \$35)*

EMTC-4930 Electronic Media Internship 3-12 hours

Students are placed with media companies to gain experience in actual career situations. The work must be done under the supervision of an employee of the company approved by the faculty mentor. Students should discuss this option with their advisors at least one semester prior to the internship. Internship agreements must be signed by the student, job supervisor, and faculty mentor prior to registration for the experience. Internships depend upon availability and approval by the electronic media faculty. Capstone course. *Prerequisites: GPA of 3.0 in major classes; senior status; approval by the electronic media faculty.*

English (ENG)

ENG-1000 Basic English–Fa 3 hours

Study of nomenclature, identification, and application in the linguistic process. Admission by departmental designation only. May not be applied toward the hours needed for graduation.

ENG-3060 The English Language–Fa 3 hours

Historic treatment of the growth and change in the English language with some attention to the ideologies implicit in the development of variant conventions. *Prerequisite: ENG-1400 Composition.*

ENG-3070 3 hours

Advanced Grammar for Adolescent Teachers–Fa, Sp

Review of standard grammar with emphasis on current teaching methods of grammatical analysis. Required of all majors with English as a teaching field.

ENG-3110 Style and Mechanics for Writers–Sp 3 hours

Provides reliable principles that make writing clear, concise, coherent, and cohesive as students apply these principles to various texts. (*Not for technical and professional communication majors.*) *Prerequisite: ENG-1400 Composition.*

ENG-3220 Advanced Journalism–Sp 2 hours

Designed for the student who anticipates writing as a vocation or avocation. The emphasis is on reporting and writing for newspapers and magazines. Topics of study include: beat reporting, developing the in-depth features and series, investigative practices, standards and ethics, community and publisher relations, and manuscript production. *Prerequisite: ENG-2210 Principles of Journalism.*

ENG-3300 Developmental Reading–Sp 3 hours

Includes basic philosophies, testing, evaluation, clinical methods, and materials utilized in the prescriptive teaching of basic reading skills in the language arts content area for adolescent/young adult teachers. Field and clinical experiences included. *Prerequisite: admission to the teacher education program. (Fee: \$25)*

ENG-3550 Writing Center Theory and Training–Sp 2 hours

Designed to orient students to writing center theory and practice. Will train students for employment opportunities in the writing center. *Prerequisite: ENG-1400 Composition; permission of instructor.*

ENG-3620 Practicum in Journalism–Fa, Sp 1 hour

Experience in the varied tasks of the journalistic enterprise. *Prerequisite: ENG-2210 Principles of Journalism.*

ENG-4030 Advanced Workshop: Fiction–Fa 2 hours

Course provides an opportunity to do high-level work in fiction writing. Workshop environment will be rigorous and diagnostic, but also supportive. *Prerequisite: ENG-3030 Creative Writing: Fiction (odd years)*

ENG-4040 Advanced Workshop: Poetry–Sp 2 hours

Course provides an opportunity to do high-level work in poetry. Workshop environment will be rigorous and diagnostic, but also supportive. *Prerequisite: ENG-3040 Creative Writing: Poetry (odd years)*

ENG-4050 Advanced Workshop: Nonfiction–Sp 2 hours

Course provides an opportunity to do high-level work in creative nonfiction. Workshop environment will be rigorous and diagnostic, but also supportive. *Prerequisite: ENG-3050 Creative Writing: Nonfiction. (even years)*

ENG-4200 Methods of Teaching Writing–Fa 2 hours

This course will prepare students to teach writing. Course content will include instructional methodology and conferencing and assessment techniques. *Prerequisite: EDSE-4100 Principles of Teaching: Adolescent and Young Adult; currently enrolled in student teaching or by permission of instructor.*

ENG-4230 Independent Study in English—Fa, Sp **1-3 hours**
Independent study in a selected field for students with special interests and demonstrated ability.

ENG-4345 Creative Writing: Portfolio and Performance—Fa, Sp **1 hour**

Course provides an opportunity to prepare a final collection of creative writing in close consultation with the advising professor. Students will also organize and present a public reading of their work. *Prerequisite: any two 4000-level creative writing workshops.*

Environmental Science (ENVS)

ENVS-1010 Introduction to Environmental Science—Sp **1 hour**

An entry level course for environmental science majors to introduce the environmental curriculum, initiate camaraderie among students and faculty, and provide guidance in vocational planning. One lecture per week; occasional field trips. *Prerequisite: permission of instructor.*

ENVS-2100 Principles of Geographic Information Systems—Fa **3 hours**

An introduction to the use of geographical information systems (GIS). Topics of emphasis are related to the fields in which these systems are used including, biology, environmental chemistry, epidemiology, geography, geology, and economics. Students will analyze geographical data in order to present potential solutions to a variety of situations. Two one-hour lectures and one two-hour lab per week. *Prerequisite: GMTH-1030 Precalculus or GMTH-2110 Biostatistics, or permission of instructor. (Fee: \$100)*

ENVS-3200 Ecosystem Science—Fa **3 hours**

The ecosystem is recognized as the fundamental unit of ecology (as the cell is in cell biology). Emphasis will be placed on determining patterns and identifying the processes connecting the physical environment (climate, soil, and water) and living organisms (microbes, plants, and animals). Three one-hour lectures per week, with occasional field exercises. *Prerequisites: BIO-1120 General Zoology; CHEM-1120 General Chemistry II; ENVS-2100 Principles of Geographic Information Systems; GMTH-2110 Introduction to Biostatistics. (Fee: \$50)*

ENVS-3600 Environmental Ethics—Sp **1 hour**

An introductory study of ethical systems that addresses the relationship and responsibility of humankind toward the natural world. Emphasis will be upon the biblical environmental stewardship ethic and its application to contemporary environmental issues. Three lectures per week. *Prerequisites: BIO-2600 General Ecology; junior status; permission of instructor.*

End-User Information Systems (EUIS)

EUIS-1000 Word Processing Concepts and Applications **3 hours**

Designed to develop a working knowledge of word processing software and hardware components and to apply these concepts to various software applications. The student will create, format, edit, store, retrieve, and print different types of documents as well as apply advanced features of the software to expand basic documents. Also an overview of the current operating system.

EUIS-1010 Presentation Graphics Concepts and Applications—Sp **3 hours**

Designed to explain basic concepts of graphics software, give detailed information about the types of graphics that are available and when to use each type, demonstrate how to create each of the major types of graphics, and teach basic design concepts.

EUIS-2010 Spreadsheet and Database Concepts and Applications—Sp **3 hours**

Designed to identify concepts and terminology used with electronic spreadsheets and to identify tasks that can be accomplished with spreadsheet software. The students will be able to use the computer to create, format, edit, store, retrieve, and print worksheets, graphs, and charts. The course will also introduce the student to database management systems. Fundamentals of database management concepts will be covered using a microcomputer database application package. Topics will include table design, query, maintenance, and reports. *Prerequisite: MIS-1510 Software Tools for Business.*

EUIS-2200 Desktop Publishing **2 hours**

Writing, assembling, and designing publications commonly found in businesses, such as newsletters, brochures, reports, and promotional materials using PageMaker software.

Exercise and Sport Science Education (ESED)

ESED-2900 Health and Movement Education for the Young Child—Fa, Sp **2 hours**

An investigation of current trends, methods of instruction, and curriculum design in health and physical education for early childhood classrooms, including review of appropriate Ohio models. Emphasis is given to the importance of nutrition, safety, and movement education for the young child, including a look at basic nutritional, health, and safety management, especially in relationship to childhood illnesses and communicable diseases. *Prerequisite: EDUC-1000 The Education Profession.*

Earth Science (ESCI)

Except where noted, general education courses are designed to meet the general education requirements for graduation. These courses will not count toward graduation requirements for majors found in the department of science and mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

ESCI-2310 Introduction to Oceanography—Fa **4 hours**

An introductory survey of the oceans and the processes that occur in and around them. Major topics will include ocean currents, coastlines, plate tectonics, marine sediments, waves, tides, composition of sea water, interaction of the ocean with the atmosphere, marine life forms, and their habitats. A field trip will visit a local aquarium. Lecture three times per week and one laboratory per week. This course satisfies the physical science requirement of the general education requirements. (Fee: \$100) (odd years)

ESCI-2410 General Meteorology—Fa **4 hours**

A survey of basic meteorological principles and weather systems. Topics covered will include the vertical structure of the atmosphere, cloud development and precipitation, optical effects of the atmosphere, wind systems, air masses, fronts, and severe weather. Labs will be used to develop basic meteorological skills such as observation of local weather, decoding and interpretation of meteorological data, and introductory weather forecasting. Three lectures and one two-hour laboratory per week. This course satisfies the physical science requirement of the general education requirements. *Prerequisite: high school physics; GMTH-1030 Precalculus or equivalent; or permission of instructor. (Fee: \$100) (even years)*

Course Descriptions

ESCI-2510 – ESSE-4850

ESCI-2510 Introduction to Astronomy–Fa 4 hours

An introduction to the structure and composition of the universe. Topics covered will include measurement of celestial objects, structure of the solar system and galaxy, composition and history of the universe. Time will be spent in the discussion of various cosmological models and their implications. Three weekly lectures and one two-hour laboratory per week. Variations in the laboratory schedule will be made to accommodate field observations. This course satisfies the physical science requirement of the general education requirements. *Prerequisite: GMTH-1030 Precalculus or equivalent or permission of instructor.* (Fee: \$100) (odd years)

Exercise and Sport Science (ESS)

ESS-1350 Foundations of Exercise and Sport Science–Sp 2 hours

Orientation to the history, philosophy, and scope of modern exercise and sport science from a theistic perspective.

ESS-1400 First Aid and Safety Education–Fa, Sp 2 hours

American Red Cross Standard First Aid and C.P.R. certificate may be granted at the end of the course. (Fee: \$30)

ESS-1550 Athletic Training Essentials–Fa, Sp 2 hours

Principles of prevention, recognition, management, and rehabilitation of athletic injuries are presented for the student anticipating professional employment as a supervisor of individuals engaged in recreation and sport activities. (Fee: \$35)

ESS-2100 Leadership and Ethics in Sport–Fa 3 hours

This course will include the study of principles of biblical leadership and the ethics involved, various laws and theories of leadership, theories of ethics, and how the development of leadership relates to individuals and the domain of sport.

ESS-2380 Motor Learning and Development–Sp 3 hours

A study of the stages in motor development and the factors affecting the acquisition of motor skills and learning as it relates to motor skill acquisition. The course provides cognitive and psychomotor knowledge of fundamental locomotor, non-locomotor, and manipulative motor skills.

ESS-3800 Sport Psychology–Fa, Sp 2 hours

Surveys the concepts and issues related to the human psyche in the context of sports and from a biblical perspective. *Prerequisite: PSYCH-1600 General Psychology, junior status, or permission of instructor.*

ESS-3890 5 hours

Human Anatomy and Physiology for the Physical Educator–Fa

This course is designed to be a study of the structure and function of the human body from a Christian theistic perspective with particular emphasis on applications and understanding for physical educators. *Prerequisite: GBIO-1000 Principles of Biology.*

ESS-3900 Physiology of Exercise–Sp 3 hours

A study of the physiological processes of the body and how they are affected by and adapt to varying exercise conditions. *Prerequisite: GBIO-2010 Human Anatomy and Physiology or ESS-3890 Human Anatomy and Physiology for the Physical Educator.*

ESS-3920 Biomechanics–Fa 2 hours

Application of the facts and principles of basic physics to body movement, sports performance, and teaching of physical education skills. *Prerequisite: GMTH-1020 College Algebra.*

ESS-3940 Structural Kinesiology–Fa 3 hours

Application of physical laws and analysis of human movement with special reference to anatomical principles underlying human movement. *Prerequisites: GBIO-2010 Human Anatomy and Physiology or ESS-3890 Human Anatomy and Physiology for the Physical Educator.*

ESS-4600 2 hours

Research in Athletic Training and Exercise Science–Sp

Designed to develop an appreciation for the importance of and need for quality research in athletic training and/or exercise science. Orientation to methods and procedures utilized, emphasizing basic principles of conducting research, and for interpreting and critically reviewing articles representative of the athletic training/exercise science domains. Capstone course for Athletic Training major.

ESS-4850 1-3 hours

Independent Study in Exercise & Sport Science–Fa, Sp

Independent study in the area of exercise and sport science.

Prerequisite: Departmental approval is required.

ESS-4900 1 hour each

Physical Education Senior Seminar–Fa, Sp

A study of current issues in physical education and the implications of physical education and sport on society. Students will also study sport law and methods of research and evaluation.

Exercise and Sport Science Elective (ESSE)

ESSE-1350 Foundations of Sport Ministry–Sp 3 hours

This introductory course will give an overview of sport ministry. It will explore the breadth of such a ministry as it attempts to establish a Biblical base for sports evangelism. It will also attempt to demonstrate the balance of a spirit-filled life and the impact it can have in reaching the world with the message of Christ through sports.

ESSE-2100 Wilderness Ministry–Su 3 hours

Preparation for and participation in a backpacking trip provides the backdrop for addressing the purpose, benefits, and effective use of the wilderness backpacking experience for maximum spiritual impact on both individuals and groups. Credit/no credit. *If prior arrangements are made for fulfilling the activity requirement, this course can fulfill the Physical Education General Education activity course requirement.* (Fee: \$340)

ESSE-2300 through ESSE-2320 Sports Officiating 2 hours

Lectures, reading, class discussions, and field experiences in officiating. Ohio High School Athletic Association certification may be earned in selected sports.

ESSE-2300 Basketball Officiating 2 hours

ESSE-2310 Volleyball Officiating 2 hours

ESSE-2320 Track and Field Officiating 2 hours

ESSE-2810 Introduction to Camping–Sp 2 hours

The development and scope of camping including philosophies of centralized and decentralized camping, standards, administration, and basic campcraft skills. Special arrangement only. (Fee: \$40) (even years)

ESSE-2830 Recreational Leadership–Sp 2 hours

Survey of the recreational aspects of games and activities from a noncompetitive perspective. Small and large group activities are planned, such as new games and challenge initiatives to enhance individual and group development and recognize group process and dynamics. Practical work in planning, implementing, and evaluating recreational programs for all ages in schools, youth group outings, Bible clubs, and camps are provided. (odd years)

ESSE-4850 Independent Study in Sport Ministry 1-3 hours

Independent study in the area of Sport Ministry by students pursuing the Sport Ministry minor. *Prerequisites: Departmental approval is required.*

Exercise Science (EXSC)

EXSC-2000 Worksite Observation—Fa, Sp, Su 0 hours

Students are required to arrange a field experience for five consecutive full days (minimum of 30 contact hours) in an exercise science work setting approved by their advisor where they can observe and participate in exercise science worksite activities. *Prerequisites: Departmental approval and a follow-up report are required. Credit/no credit.*

EXSC-3000 Exercise Science Practicum—Fa, Sp 1 hour

This practicum is a minimum of 30 contact hours assisting or instructing in group aerobics, muscle strength conditioning instruction and workout supervision, muscle toning instruction and workout supervision, or personal training. *Departmental approval is required. Credit/no credit.*

EXSC-3010 Campus Exercise Science Practicum—Fa, Sp 1 hour

This practicum is a minimum of 30 contact hours assisting or instructing on-campus experiences such as group aerobics, strength conditioning, workout supervision and personal training. *Departmental approval is required. Credit/No Credit.*

EXSC-3020 Community Exercise Science Practicum—Fa, Sp 1 hour

This practicum is a minimum of 30 contact hours and is intended to provide a hands-on experience in either a sports enhancement facility, hospital cardiac rehabilitation center, or similar facility. *Departmental approval is required. Credit/No Credit.*

EXSC-3180 Legal Issues in the Sport Industry—Sp 3 hours

This course will focus on the three major areas of law that have a direct impact on the management of sport: tort liability and risk management, contract law, and constitutional law. *Prerequisite: Junior status.*

EXSC-3860 Basic Exercise Testing—Fa 3 hours

This course includes guidelines and techniques of evaluation for basic fitness testing with emphasis on aerobic capacity, flexibility, strength, and body composition. Basic concepts of EKG interpretation, including electrode placement, arrhythmia, and electrophysiology, are introduced. The content is consistent with the skills necessary to prepare students for the American College of Sports Medicine health fitness instructor certification. *Prerequisite: GBIO-2010 Human Anatomy and Physiology or ESS-3890 Human Anatomy and Physiology for the Physical Educator; GMTH-1020 College Algebra. (Fee:\$15)*

EXSC-3870 Basic Exercise Prescription—Sp 3 hours

This course stresses the scientific foundations of conditioning with specific attention to exercise programming using the components of frequency, duration, intensity, mode, and progression, for apparently healthy individuals. The content is consistent with the skills necessary to prepare students for the American College of Sports Medicine health fitness instructor certification. *Prerequisite: EXSC-3860 Basic Exercise Testing. (Fee:\$15)*

EXSC-4600 Research in Exercise Science—Sp 3 hours

Designed to develop an appreciation for the importance of and need for research in exercise science. Orientation to methods and procedures utilized in exercise science research, emphasizing basic principles of conducting research using the case study, literature review and typical outcomes measurement. *Prerequisite: Junior status or permission of the instructor.*

EXSC-4810 Organization and Administration of Exercise Science—Fa 3 hours

This course is designed to provide the knowledge and begin to develop the skills and abilities necessary to organize, administer, manage, promote, and deliver quality health/fitness programs effectively, safely, and efficiently, meeting the needs and desires of both the client and the employer. *Prerequisites: ESS-1350 Foundations of Exercise and Sport Science; EXSC-2000 Worksite Observation; EXSC-3860 Basic Exercise Testing; EXSC-3870 Basic Exercise Prescription.*

EXSC-4850 Independent Study in Exercise Science—Fa, Sp 1-3 hours

Independent study in the area of exercise science by students pursuing the exercise science major. *Prerequisite: Departmental approval is required.*

EXSC-4880 Exercise Testing and Prescription for Special Populations—Fa 3 hours

This course will prepare exercise science students to do exercise testing and prescriptions for individuals who are either acutely or chronically distinct from the “apparently not at risk” adult population. These include individuals who are children, elderly, or pregnant, as well as those who have acute or chronic illness or disease conditions that might affect the testing protocol or details of the exercise prescription. *Prerequisites: ESS-1350 Foundations of Exercise and Sport Science; EXSC-2000 Worksite Observation; EXSC-3860 Basic Exercise Testing; EXSC-3870 Basic Exercise Prescription. (Fee: \$15)*

EXSC-4990 Internship in Exercise Science—Fa, Sp 6-12 hours

This is an actual work experience in an exercise science setting for a minimum of 300 work hours for 9 credit hours and up to 400 work hours for 12 credit hours with a minimum of 30 work hours per week. Capstone course for Exercise Science major. *Prerequisite: Senior status and departmental approval is required. Credit/no credit (Fee \$35)*

F

Finance (FIN)

FIN-1710 Personal Finance—Fa, Sp 3 hours

This course is designed to educate and inform the undergraduate student about personal finance, with the view towards practical application, both currently and upon graduation. The course integrates principles of personal finance with biblical principles. Topics include: biblical stewardship, work, financial planning, budgeting, giving, taxation, use of credit, investments, asset protection, retirement and estate planning. (This course is a general elective course.)

A study of the principles and procedures of the financial management of the local church organization. (Credit not applicable to meet business elective requirements.) Crosslisted with BEPT-2730.

FIN-3310 Money and Financial Markets—Sp 3 hours

A study of money, banking, and monetary theory, with particular emphasis on international financial markets. *Prerequisite: ECON-2340 Macroeconomics or permission of instructor.* Crosslisted with ECON-3310.

FIN-3710 Principles of Finance—Fa, Sp 3 hours

A study of the theoretical and practical aspects of financial decision making. Topics include financial statement analysis, financial markets, risk and return, determinants of interest rates, time value of money, valuation of financial assets, cost of capital and capital budgeting, dividends, multi-national financial management, and financial planning and forecasting. *Prerequisites: ACCT-2110 Principles of Accounting I; BUS-2120 Statistics II.*

FIN-3730 Investments—Sp 3 hours

A study of the various types of investments including stocks, bonds, mutual funds, commercial, paper, options, and commodities. Particular emphasis is given to return and risk in developing investment strategies. *Prerequisite: FIN-3710 Principles of Finance. (Fee \$50)*

Course Descriptions

FIN-3740 – GBIO-4700

FIN-3740 Insurance—Sp 3 hours

An overview of the insurance industry and various insurance products. Insurance is described theoretically and practically as a tool for risk management in the areas of life, health, property, and other insurable categories. *Prerequisites:* FIN-3710 *Principles of Finance* or FIN-1710 *Personal Finance*.

FIN-3750 International Finance—Sp 3 hours

Discussion and analysis of financial management within a global context. Topics include international financial markets, foreign exchange rates & risk, exchange risk management, and other financial management issues relative to the multinational firm. *Prerequisite:* FIN-3710 *Principles of Finance*

FIN-3770 3 hours

Security Analysis and Portfolio Management—Fa

The theory and practice of security analysis techniques and portfolio management objectives. Students research securities in order to make informed buy/sell recommendations and evaluate security and portfolio performance with a particular emphasis on common stocks. Students manage a funded portfolio. *Prerequisite:* FIN-3730 *Investments*. (Fee: \$50)

FIN-4700 Seminar in Finance—Fa, Sp 1 hour

A forum to discuss contemporary topics and issues in finance and provide guidance in areas of student career interest.

Prerequisites: ACCT-3120 *Intermediate Financial Accounting II*; FIN-3310 *Money and Financial Markets*; FIN-3710 *Principles of Finance*; FIN-3730 *Investments*.

FIN-4710 3 hours

Advanced Security Analysis and Portfolio Management Practicum—Sp

An in-depth application of investment theory and techniques. Students research securities in order to make informed buy/sell recommendations and evaluate security and portfolio performance with a particular emphasis on common stocks. Students manage a funded portfolio. *Prerequisite:* FIN-3770 *Security Analysis and Portfolio Management*. *Admission to this course is limited and requires instructor approval*. (Fee: \$50)

FIN-4750 Financial Institution Management—Sp 3 hours

An integrated and comprehensive analysis of the management of financial institutions considering the unique problems faced by each type of institution. *Prerequisite:* FIN-3710 *Principles of Finance*. (Fee: \$20)

FIN-4770 Advanced Financial Management—Fa 3 hours

An in-depth analysis of topics of concern to financial managers of modern corporations. Topics include capital budgeting, financial forecasting, working capital management, and valuation of merger and acquisition candidates. *Prerequisite:* FIN 3710 *Principles of Finance*.

Forensic Science (FORS)

FORS-3400 Forensic Science—Fa 4 hours

This course will apply a student's knowledge of chemistry and biology to specific forensic analyses. Topics to be covered will include matching of paint and glass samples, use of GC/Mass Spectrometry and IR spectroscopy to identify controlled substances, analysis of explosives and fuel residues, DNA typing, fingerprint examination, document examination, and giving of expert testimony. *Prerequisites:* BIO-2250 *Cell Biology*; CHEM-2220 *Analytical Chemistry II*; CHEM-3510 *Organic Chemistry I*; CRJU-3390 *Criminal Evidence*. (Fee: \$100)

FORS-4800 Forensic Science Capstone—Sp 1 hour

Capstone course for the forensic science major. Students will research a specific forensic procedure and give a brief explanation of it. This will be followed by a series of detailed questions from a panel of faculty members, designed to simulate the examination of an expert witness. Students will be graded on their knowledge and professional presentation. *Prerequisites:* BIO-3710 *Biochemistry*; CHEM-3520 *Organic Chemistry II*; FORS-3400 *Forensic Science*.

French (FREN)

FREN-1910, 1920 Elementary French I & II 4 hours/sem

Development of basic skills in reading, writing, speaking, and listening in French, along with an introduction to French culture.

FREN-2910, 2920 Intermediate French I & II—Fa 4/3 hours/sem

Development of all four language skills through grammar review, composition, conversation and readings in French literature and culture. *Prerequisite:* FREN-1920 *Elementary French II*; *instructor's approval or placement by exam*.

FREN-3910 French Conversation—Fa 3 hours

Designed to increase the student's aural comprehension and oral communication in French. Attention given to pronunciation, vocabulary building, communication strategies, and effective cross-cultural communication. *Prerequisite:* FREN-2920 *Intermediate French II*; *instructor's approval or placement by exam*.

FREN-3920 Contemporary French Culture—Sp 4 hours

Exploration of beliefs, behaviors, and values of Francophone cultures through a comparative approach that provides a framework for describing France and the French in relation to others and themselves. *Prerequisite:* FREN-2920 *Intermediate French II*; *instructor's approval or placement by exam*.

A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

GBIO-1000 Principles of Biology—Fa, Sp, Su 3.5 hours

Emphasizes basic life processes and the principles by which these processes operate at the ecological, organismic, and cellular levels of organization with emphasis on human responsibility toward life at all levels. Three lectures each week and one two-hour, bi-weekly laboratory. (Fee: \$75)

GBIO-2010 Human Anatomy and Physiology—Fa 4 hours

Survey of the principal systems of the human body with emphasis on both structure and function. Includes the skeletal, muscular, nervous, endocrine, cardiovascular, and respiratory systems. Three lectures and one two-hour laboratory per week. *Prerequisite:* GBIO-1000 *Principles of Biology*; or CHEM-1000 *Principles of Chemistry*. (Fee: \$100)

GBIO-2020 Advanced Clinical Physiology—Sp 4 hours

Advanced study in human structure and function, including the digestive, urinary, and reproductive systems, as well as metabolism and acid-base balance. The pathophysiology of disease is presented using a case-study format. Three lectures and one two-hour laboratory per week. *Prerequisite:* GBIO-2010 *Human Anatomy and Physiology*. (Fee: \$100)

GBIO-2720 Bioethics and the Human Experience—Sp 3 hours

An integrative survey of bioethics, emphasizing human personhood, human sexuality and reproduction, end-of-life issues, and biomedical decision making. *Prerequisite:* GBIO-1000 *Principles of Biology*.

GBIO-4700 Bioethics Colloquium—Sp 1 hour

An integrative bioethics project, including a written paper and oral presentation. *Prerequisite:* *Completion of other elements of Bioethics minor*.

Graphic Design (GDES)

GDES-1100 History of Graphic Design–Fa 1 hour

Survey of graphic design from pre-history through current practice. Highlighting significant stages in its development and pivotal influences including technological advances, individual works, key movements, schools of thought, and approaches relative to their time(s) and culture(s).

GDES-1150 Digital Image/Illustration–Fa 3 hours

An introduction to media and professional techniques used in digital illustration. GD majors and minors only. (Fee: \$50)

GDES-1220 Digital Image/Photography–Fa 3 hours

An introduction to digital imaging technology and professional techniques for image editing and photo manipulation. The course will provide opportunities for becoming proficient with the tools and techniques associated with Adobe Photoshop, the industry-standard software for image editing, through classroom discussion, reading, research, and studio assignments. GD majors and minors only. (Fee: \$50)

GDES-1300 Graphic Design for Non-Majors–Fa, Sp 3 hours

An introduction to graphic design, emphasizing the fundamentals of design and typography as applied to the development of effective print and web communication. (Fee: \$50)

GDES-2100 Typography–Fa 3 hours

An introduction to the study of typography and its role in the structuring of visual language and its relationship to the discipline of graphic design. The course will examine the history of letterforms, their sources, and their influences and will provide opportunities for learning principles and guidelines for the effective use of type in visual communications for a variety of media and messages. Students will learn to structure intelligent, creative type solutions through classroom discussion, reading, research, and studio assignments, including editorial, promotional, and informational applications of typography. *Prerequisites:* ART-1230 Design I; GDES-1150 Digital Image/Illustration. GD Majors and minors only. (Fee: \$50)

GDES-2601 3 hours

Interactive Interface Design with Flash–Fa

Development of interactive interfaces for websites, interactive CDs, and interactive television using industry-standard Flash software. Open to all students. For interactive media students who do not have a background in Flash, the course will provide them with some directed help in preparing for EMTC-3061 Proficiency in Flash. Crosslisted as EMTC. *May not be counted as major hours for electronic media majors.* (Fee: \$35)

GDES-3110 Portfolio–Fa, Sp 1 hour

This course will focus on developing professional presentation materials and communication skills required to present project work to design professionals and prospective employers. Previous project work will be refined along with additional project work necessary to emphasize interest in a particular area of specialization. Students will be required to develop a portfolio along with written communications for documenting their education, experience, and technical skills. Emphasis will also be given to developing verbal skills required for the interview process.

GDES-3220 Graphic Design I–Fa 3 hours

An introduction to the study of graphic design with emphasis on using the principles of design to communicate information and ideas in visual form. The course will provide opportunities to learn principles of visual communication and steps in the design process necessary to produce effective design solutions. Learning will be achieved through classroom discussion, reading, research, and studio assignments that center on producing concepts for both printed and electronic forms of information design. *Prerequisites:* GDES-2100 Typography; GDES-1220 Digital Image/Photography. GD majors and minors only. (Fee: \$50)

GDES-3230 Production Design I–Sp 3 hours

An introduction to the technical processes required for the production of graphic design solutions in a variety of media. The course will provide opportunities to gain understanding of guidelines and requirements necessary for producing design documents in both conventional and electronic media. GD majors and minors only. (Fee: \$50)

GDES-3300 Web Design–Su 3 hours

Students will learn to design websites, pages, and content while integrating creative visual design, layout, and usable navigation features to effectively guide users to content. Concepts in visual, user-centered design will be explored while students develop practical skills in HTML, CSS, and web-publishing applications such as Macromedia Dreamweaver. *Prerequisites:* GDES-1150 Digital Image/Illustration, GDES-1220 Digital Image/Photography, GDES-3220 Graphic Design I, or permission of instructor.

GDES-4220 Graphic Design II–Fa 3 hours

An in-depth study of visual communication design and its role in creating corporate and brand identity programs. *Prerequisites:* GDES-1150 Digital Image/Illustration; GDES-1220 Digital Image/Photography; GDES-3220 Graphic Design I; GDES-3230 Production Design I; or permission of the instructor. GD majors and minors only. (Fee: \$50)

GDES-4230 Production Design II–Sp 3 hours

An in-depth study of production methods and practices for application to 2-dimensional and 3-dimensional design concepts. *Prerequisites:* GDES-1150 Digital Image/Illustration; GDES-1220 Digital Image/Photography; GDES-3220 Graphic Design I; GDES-3230 Production Design I; or permission of the instructor. (Fee: \$50)

GDES-4300 Advanced Web Design–Sp 3 hours

Students will learn advanced concepts and techniques in web design including visual design, navigation, usability, grid layout, scripting, coding, and other skills necessary to produce professional, visually enhanced media for delivery via the web. Students will use industry standards, including software, to develop websites and digital media that integrate motion, sound, and interactivity to add value and enhance the user experience for web-based advertising, marketing, and other communication needs. *Prerequisites:* EMTC-2601 Interactive interface Design w/Flash; GDES-1220 Digital Image/Photography or TPC-3000 Production Tools; GDES-3300 Web Design. (Fee: \$25)

GDES-4900 Graphic Design Internship–Fa, Sp, Su 2-9 hours

The graphic design internship will give the student an opportunity to gain actual on-the-job experience with professionals in the graphic design industry. This opportunity will allow students to gain insight into the professional practices and approaches to solving communication challenges for a variety of business models and client types. This experience will become a valuable asset in competing for an entry-level position upon graduation.

Geography (GEO)

GEO-3080 History of Russia and the Soviet Union–Fa 3 hours

The course will cover not only Soviet history but also major events of Russian history up to the Bolshevik Revolution. Soviet history will be studied in detail, with attention given to the development of non-Russian peoples in the empire. The political, economic, social, and foreign policy aspects of Soviet history will all be covered, emphasizing Perestroika and the Soviet collapse. Crosslisted as GEO, HIST, INTL, or POLS

GEO-3200 History and Politics of Latin America–Fa 3 hours

Analysis of the major historical, political, geographical, social, and diplomatic developments that have shaped contemporary Latin America. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

Course Descriptions

GEO-3210 – GMTH-1040

GEO-3210 History and Politics of Asia–Sp 3 hours

Study of the historical, political, geographical, social, and diplomatic developments of Asia from the 18th century to the present. Crosslisted as GEO, HIST, INTL, or POLS. (odd years)

GEO-3220 History and Politics of the Middle East–Sp 3 hours

Analysis of the major historical, political, geographical, and social forces, such as religion and nationalism, that have shaped the contemporary Middle Eastern states. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

GEO-3230 History and Politics of Western Europe–Sp 3 hours

This course will cover the development of Western European history and politics from approximately the year 1900 to the present. Concentration will be on the great European powers, but will include the smaller states. The political, economic, and social histories of the nations of Europe will be covered, as well as several macro-European issues. Crosslisted as GEO, HIST, INTL, or POLS. (odd years)

GEO-3240 History and Politics of Eastern Europe–Sp 3 hours

This overview course will cover the geography, history, politics, and international relations of Eastern Europe from prehistory to the present. While special attention will be given to the religious and ethnic conflict, the course will also cover the region's social histories, economic, gender, and class issues. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

GEO-3250 3 hours

History and Politics of Central & South Asia–Fa

This overview course will cover geography, history, politics, and international relations of Central and South Asia to the present. While special attention will be given to religious and ethnic conflict, the course will also cover the region's social histories, economic, gender, and class issues. Crosslisted as GEP, HIST, INTL, or POLS. (odd years)

GEO-3510 3 hours

World Regional Geography–Western Hemisphere–Fa

Spatial survey of various regions in the western hemisphere with an emphasis on the cultural, economic, and political developments in relation to the geographical environment.

GEO-3520 3 hours

World Regional Geography–Eastern Hemisphere–Sp

Survey of various regions in the eastern hemisphere with an emphasis on the cultural, economic, and political developments in relation to the geographical environment.

GEO-3540 History and Politics of Africa–Sp 3 hours

This course will begin with the landing of the Ark on Ararat, discuss the origins of the Hamitic, Semitic, and the Japethitic peoples of Africa, and trace their histories to the modern day. The problems of slavery, colonialism, socialism, Islam, de-colonization, corruption, poverty, AIDS, tropical diseases, and women's issues. This class should not be taken by freshmen. Crosslisted as GEO, HIST, INTL, or POLS. *Prerequisite: permission of instructor.* (even years)

GEO-4440 Special Topics-Geography 1-3 hours

Investigation of specific topics in Social Science and History that have intrinsic worth and engage student interest.

GEO-4920 1-3 hours

Independent Study in Geography

Provides the means whereby gifted and interested students may explore, in a more in-depth and intensive manner, general information acquired in the major courses. Further, independent study provides a logical way to complete required hours not obtained in normal sequencing. *Prerequisite: permission of the instructor.*

Geology (GEOL)

Except where noted, general education courses are designed to meet the general education requirements for graduation. These courses will not count toward graduation requirements for majors found in the department of science and mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

GEOL-1110 Introduction to Physical Geology–Fa 4 hours

An introductory study of the earth and its geological processes, including various alternative interpretations of earth history. Laboratory exercises will complement the lecture material and will include local field trips. Three weekly lectures and one weekly laboratory experience. This course satisfies the physical science requirement of the general education requirements. (Fee: \$100)

GEOL-1120 Historical Geology–Sp 4 hours

The earth's geological history from its beginning to the present. Topics of study include plate tectonics, biological evolution and the meaning of the fossil record, correlation, dating methods, and alternative views of earth history. Required field trips will study local fossils. Three lectures and one laboratory per week. *Prerequisites: GEOL-1110 Introduction to Physical Geology.* (Fee: \$100)

General Mathematics (GMTH)

Except where noted, general education courses are designed to meet the general education requirements for graduation. These courses will not count toward graduation requirements for majors found in the department of science and mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

GMTH-1010 Introduction to Mathematics–Fa, Sp 3 hours

Introduction to mathematical concepts including voting theory, apportionment and fair division, models of population growth, and graph theory. *Prerequisite: proficiency in mathematics.*

GMTH-1020 College Algebra–Fa 3 hours

Introduction to methods of algebraic analysis. Includes (but may not be limited to) many topics of intermediate algebra: the field axioms, linear functions, inequalities, systems of equations, determinants, and quadratic functions. This course, in conjunction with GMTH-1030 Precalculus, is designed to prepare the student for calculus. *Prerequisite: proficiency in mathematics; two years of high school mathematics; or permission of instructor.*

GMTH-1030 Precalculus–Fa, Sp 4 hours

Introduction to the principles of trigonometry and some advanced topics in algebra. Coverage includes, but may not be limited to, exponential, logarithmic, trigonometric, and circular functions, triangle problems, and vectors. This course, in conjunction with GMTH-1020 College Algebra, is designed to help prepare the student for calculus. *Prerequisites: proficiency in mathematics; GMTH-1020 College Algebra or equivalent; or permission of instructor.*

GMTH-1040 Calculus for Business–Fa, Sp 3 hours

Introduction to the concepts of differential and integral calculus for students of business. Numerous applications from these areas will be considered. Does not apply toward major in mathematics. *Prerequisite: proficiency in mathematics.*

GMTH-2110 Introduction to Biostatistics–Sp 3 hours

An introduction to statistical methods that are of particular interest to biologists for experimental design and interpretation. *Prerequisites: BIO-1120 General Zoology; BIO-2500 General Botany.*

GMTH-3010 Proof and Mathematical Modeling–Sp 3 hours

Proof by contradiction, contrapositive, and induction will be explored along with direct proof in the verification of conjectures and other mathematical propositions. Additionally, the formulation of discrete, statistical, and algebraic mathematical models, along with their use in solving problems, will be studied. Appropriate educational technology, including graphing calculators, spreadsheets, and geometric manipulation software will be used throughout. Does not count toward the B.A. or B.S. majors in mathematics or the B.A. in integrated mathematics education. *Prerequisites: EDUC-1800 Principles of Mathematics I; EDUC-2800 Principles of Mathematics II; GMTH-1020 College Algebra; MATH-1710 Calculus I.*

GMTH-3100 Theory of Interest–Sp 3 hours

Interest: simple and compound. Effective rate of interest. Time value of money; present and future. Cash flow calculations: loans, bonds, and investments. Annuities: due and immediate. Perpetuities. Yield. Amortization and sinking funds. Interest rate risk. Immunization. Financial derivatives. *Prerequisites: FIN-3710 Principles of Finance; MATH-1720 Calculus II. (even years)*

General Music (GMUS)

GMUS-1000 Music Philosophy and Aesthetics–Fa 1 hour

Philosophical and scriptural foundation for the Christian concepts of musical creativity, musical worship, and stewardship. Understanding the unique teacher-student relationship in music. A first attempt at codifying a coherent, personal, Christian philosophy of music.

GMUS-1030 Recital and Program Attendance–Fa, Sp 0 hours

Music majors and minors must attend a prescribed number of programs and recitals each semester. Majors must enroll each semester. For a music minor, students must enroll for two consecutive semesters.

GMUS-2910 0 hours

Sophomore Review - Multi-Age Music Education –Sp

A requirement for the Music Education major. It is a mid-point review by the entire music faculty to discern and decide the future direction of the candidate. Is he or she ready and competent to continue as a music education major? Criteria will include music core grades, faculty observations, and performance ability. The student will prepare case studies, a private lesson evaluation, and a technology portfolio.

GMUS-4980 Special Topics - General Music–Fa, Sp 1-3 hours

Study of selected topics in music.

German (GER)

GER-1810, 1820 Elementary German I & II 4 hours/sem

Development of basic skills in reading, writing, speaking, and listening in German, along with an introduction to German culture.

GER-2810, 2820 Intermediate German I & II 4/3 hours/sem

Development of all four language skills through grammar review, composition, conversation, and readings in German literature and culture. *Prerequisite: GER-1820 Elementary German II or equivalent.*

GER-3800 Directed Readings in German–Sp 1-3 hours

Topic chosen by the student and professor, based upon need and interests. *Prerequisite: GER-2820 Intermediate German II or equivalent.*

GER-3810 German Conversation–Fa 3 hours

Oral practice in German through speeches and oral reports along with a review of pronunciation. Designed to improve both day-to-day communication and academic communication. *Prerequisite: GER-2820 Intermediate German or equivalent.*

GER-3820 Germanic History and Culture–Fa 3 hours

Topic chosen by the student and professor, based upon need and interests. *Prerequisite: GER-2820 Intermediate German or equivalent.*

GER-3830 Survey of German Literature–Sp 3 hours

A survey of German literature from the Middle Ages through the 20th century designed to provide the student with an understanding of the literature and its reflection of the culture. Readings in German and English. *Prerequisite: GER-2820 Intermediate German or equivalent.*

General Science (GSCI)

Except where noted, general education courses are designed to meet the general education requirements for graduation. These courses will not count toward graduation requirements for majors found in the department of science and mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

GSCI-1010 Principles of Earth Science–Fa, Sp 3.5 hours

A survey of the sciences of geology, oceanography, and meteorology. Major lecture topics include discussion of earth's geological history, minerals, rocks, dating, plate tectonics, glaciers, volcanoes, ocean currents, marine life, waves, the atmosphere, and weather systems. When appropriate, contrasting views of these subjects will be examined. Laboratory experiences include field trips to areas of local geological interest. Lecture three times per week and laboratory on alternate weeks. Satisfies the physical science requirement of the general education requirements. (Fee: \$75)

GSCI-1020 Principles of Physical Science–Fa, Sp 3.5 hours

A survey of the sciences of physics, chemistry, and astronomy. Major lecture topics include motion, force, energy, heat, waves, electricity, optics, quantum effects, periodic table, chemical bonds, chemical reactions, astronomical measurements, and the origin of the universe. Content of this course will be related to social and philosophical issues to emphasize a Christian's responsibility in a technological society. Lecture three times per week and laboratory on alternate weeks. This course satisfies the physical science requirement of the general education requirements. (Fee: \$75)

GSCI-1030 Geology of the National Parks–Su 3.5 hours

This course will explore the geology of the national parks and surrounding areas in specific regions of the United States. It is a two-week travel study course that fulfills the three and a half-hour laboratory physical science requirement. Trip locations may vary from year to year. Six or more major areas will be explored on each trip. Students will be expected to complete a photographic atlas with appropriate geological descriptions of each stop. Special emphasis will be placed on how geologic history is interpreted and placed into biblical and conventional frameworks. Students will learn how to make geological observations and take field notes. No previous geological knowledge is required. It is necessary for students to be in good physical shape for occasional hiking in rough terrain and at high altitudes, although requirements can be modified for students unable to do so. Special equipment may be required. Special course fees apply and will vary from year to year.

Course Descriptions

GSCI-2010 – HIST-3070

GSCI-2010 Physical Science for Teachers—Fa, Sp 4 hours

Introduction to a selection of core concepts of physics and chemistry for preservice elementary education teachers. Students will develop methods of learning science, with emphasis on inquiry, scientific method, and integrating common everyday objects and experiences with a view toward cultivating the excitement of studying God's creation. Three lectures with one weekly one-hour lab. Does not satisfy the physical science general education requirement. (Fee: \$75)

GSCI-3010 Concepts in Middle School Science—Sp 4 hours

This lab course highlights key concepts in middle school science by reviewing and extending concepts from previous science courses with an emphasis on the integration of earth sciences, physical sciences, and life sciences. Concepts addressed include the scientific process, theory of evolution, cell theory, and the concept of disease. *Prerequisites:* GBIO-1000 *Principles of Biology*; CHEM-1000 *Principles of Chemistry*; GSCI-1010 *Principles of Earth Science*; GSCI-2010 *Physical Science for Teachers*. (Fee: \$75)

GSCI-3060 Environmental Science for Middle School Educators—Sp 4 hours

Introduction to the study of the dynamic relationships that exist between the earth's organisms and their environment and how man affects these relationships. There will be an emphasis on the intricate design and resilience of God's creation. This course will include laboratory investigations, field trips, group work, review of environmental news, lecture-discussions, videos, small projects, and pertinent ideas for teaching the environment in a middle school setting. Three lectures and one laboratory session per week. This course does not satisfy the general education requirement for biology. *Prerequisites:* GBIO-1000 *Principles of Biology*; middle childhood education major; or permission of instructor. (Fee: \$100)

General Social Science (GSS)

GSS-1010 Contemporary Worldviews—Su 2-3 hours

An exploration of the assumptions of contemporary approaches to issues in society. Includes the study of naturalism, transcendentalism, theism and post-modernism with an emphasis in the areas of ethics, sociology, political science, history, economics, and law. *Prerequisite:* completion of the Summit Ministries Leadership Conference for a choice of two or three hours of academic credit.

GSS-1100 Politics and American Culture—Fa, Sp 3 hours

This course serves as an introductory study of America's constitution and political institutions, with emphases on political participation, political culture, and public policy.

GSS-3630 Data Analysis and Research Methodology—Fa 4 hours

This course will train social science students in the use of statistical techniques that range from central tendency through bivariate regression, and it introduces students to the primary issues of research methodology, which includes levels of measurement, sampling, internal and external validity, and reliability. Students must also master the use of one piece of statistical software. *Prerequisite:* students must have satisfied Cedarville's mathematics proficiency requirement before enrolling in GSS-3630.

GSS-3810,3820 Clinical Teaching in the Social Sciences—Fa, Sp 1 hour each

Practical, on-campus, one credit hour experience in which a student is assigned to assist a college instructor in the preparation of tests and quizzes, grading, research, and other teaching responsibilities. A student will be expected to participate for 30 clock hours for each semester hour of credit. A student may arrange to do either of the following with the director of this experience in his or her discipline:

1. One 30-hour experience for two different semesters.
2. A 60-hour experience for one semester.

Prerequisite: admission to the teacher education program.

GSS-4990 Social Science/History Internship 3-12 hours

Majors who participate in government service, historical research, public administration, international studies, criminal justice, or other approved activities related to the social sciences may earn up to 12 hours of credit.

H

History (HIST)

HIST-1110 United States History I—Fa 3 hours

HIST-1120 United States History II—Sp 3 hours

Analysis of the development of the United States from the colonial period to the present. Attention is given to the dominant Christian influences that have tended to mold the philosophy and ideology of our cultural, social, and political development.

HIST-2000 Introduction to History—Fa 2 hours

An introduction to the field of history as it pertains to both the academic and the public historian. Emphasis will be given to historical inquiry, source evaluation, analysis and synthesis, research methodology, formal historical writing, and career opportunities. Introduction to History should be taken in the sophomore year.

HIST-2010 History of Civilization I—Fa 3 hours

HIST-2020 History of Civilization II—Sp 3 hours

This survey of human history begins at the advent of civilized life in the ancient Near East and continues into the 20th century. It presents the religious, social, political, and intellectual development of mankind from a Christian interpretive point of view.

HIST-3000 Introduction to Historiography—Fa 3 hours

Introduction to the history of historical writing, methods of research, and the philosophy of history. Required of history majors. Should be taken in the junior year.

HIST-3030 History of Christianity: Pre-Reformation—Sp 3 hours

Survey of ancient and medieval church history with emphasis given to doctrinal and institutional developments. (even years)

HIST-3040 History of Modern Britain—Fa 3 hours

A survey of the events, major individuals, and ideas of modern Great Britain, including Scotland and Ireland, from the time just prior to the Reformation to the twentieth century. The class will focus on the influence of British ideas on American Culture and religion, the rise of classical liberalism and the free market system, the role of socialism, the age of colonialism, the common law, Reformed theology from Puritanism and Scottish Presbyterianism, and other movements and ideas.

HIST-3050 Renaissance and Reformation Europe—Fa 3 hours

A survey of the period spanning the fourteenth through the seventeenth centuries, focusing on the origins, rise, nature, and waning of the Renaissance, especially humanism, and the origins, development, and influence of the Protestant Reformations and the Roman Catholic Counter-Reformation. A special emphasis will be placed on the continuities and discontinuities between the two movements. (odd years)

HIST-3070 Europe in the 18th & 19th Centuries: Continuity & Change—Sp 3 hours

A survey of the period spanning the mid-seventeenth century through about 1918, including the Enlightenment. The course will include the many political, social, and ideological changes of the eighteenth and nineteenth centuries. (even years)

HIST-3080 History of Russia and the Soviet Union–Fa 3 hours

This course will cover not only Soviet history but also the major events of Russian history up to the Bolshevik Revolution. Soviet history will be studied in detail, with attention given to the development of non-Russian peoples in the empire. The political, economic, social, and foreign policy aspects of Soviet history will all be covered, emphasizing Perestroika and the Soviet collapse. Crosslisted as GEO, HIST, INTL, or POLS.

HIST-3110 Early American History–Fa 3 hours

Analysis of the development of American civilization from colonization to 1820. Political, religious, social, economic, and cultural institutions will be examined. *Prerequisite: HIST-1110 United States History or permission of instructor.*

HIST-3120 History of Recent and Contemporary America–Fa 3 hours

Intensive study of the domestic and foreign policies of the United States since 1945. Particular emphasis is given to American society in the 1950's, the Cold War, the Civil Rights Movement, the cultural revolution of the 1960's, American involvement in Vietnam, the Welfare State, Watergate, and the Reagan Revolution. *Prerequisite: HIST-1120 United States History or permission of instructor.*

HIST-3130 Civil War and Reconstruction–Sp 3 hours

Study of the sectional crisis, the military and nonmilitary aspects of the Civil War, and the social and political phases of Reconstruction. *Prerequisite: HIST-1110, 1120 United States History. (odd years)*

HIST-3200 History and Politics of Latin America–Fa 3 hours

Analysis of the major historical, political, geographical, social, and diplomatic developments that have shaped contemporary Latin America. May be credited to geography, history, international studies, or political science. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

HIST-3210 History and Politics of Asia–Fa 3 hours

Study of the historical, political, geographical, social, and diplomatic developments of Asia from the 18th century to the present. May be credited to geography, history, international studies, or political science. Crosslisted as GEO, HIST, INTL, or POLS. (odd years)

HIST-3220 History and Politics of the Middle East–Sp 3 hours

Analysis of the major historical, political, geographical, and social forces, such as religion and nationalism, that have shaped the contemporary Middle Eastern states. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

HIST-3230 History and Politics of Western Europe–Sp 3 hours

This course will cover the development of Western European history and politics from approximately the year 1900 to the present. Concentration will be on the great European powers, but will include the smaller states. The political, economic, and social histories of the nations of Europe will be covered, as well as several macro-European issues. Crosslisted as GEO, HIST, INTL, or POLS. (odd years)

HIST-3240 History and Politics of Eastern Europe–Sp 3 hours

This overview course will cover the geography, history, politics, and international relations of Eastern Europe from prehistory to the present. While special attention will be given to the religious and ethnic conflict, the course will also cover the region's social histories, economic, gender, and class issues. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

HIST-3250 History and Politics of Central & South Asia–Fa 3 hours

This overview course will cover geography, history, politics, and international relations of Central and South Asia to the present. While special attention will be given to religious and ethnic conflict, the course will also cover the region's social histories, economic, gender, and class issues. Crosslisted as GEO, HIST, INTL, or POLS. (odd years)

HIST-3540 History and Politics of Africa–Sp 3 hours

This course will begin with the landing of the Ark on Ararat, discuss the origins of the Hamitic, Semitic, and the Japethitic peoples of Africa, and trace their histories to the modern day. Special emphasis will be given to the problems of slavery, colonialism, socialism, Islam, de-colonization, corruption, poverty, AIDS, tropical diseases, and women's issues. This class should not be taken by freshmen. Crosslisted as GEO, HIST, INTL, or POLS. (even years)

HIST-3710 History of Political Thought I: Ancient Through Medieval–Fa 3 hours

Study of the development of political thought in the ancient and early medieval era with special attention given to the works of Plato and Aristotle. Course may also explore topics in political philosophy. Crosslisted as HIST or POLS. *Prerequisite: major or minor in history or political science or permission of instructor.*

HIST-3720 History of Political Thought II: Modern & Contemporary–Sp 3 hours

Study of the development of political thought in the late medieval era and modern era with special attention given to the works of Thomas Hobbes and Friedrich Nietzsche. Course may also explore topics in political philosophy. Crosslisted as HIST or POLS. *Prerequisite: major or minor in history or political science or permission of instructor.*

HIST-3750 Social Movements–Fa, Sp 3 hours

Study of the influence of ideas and institutions upon social movements in America. Crosslisted as HIST or SOC.

HIST-4050 Issues in International Diplomacy–Sp 3 hours

Examines diplomatic relations among the world's most powerful nations, focusing on 20th century diplomacy and the future of international relations in the 21st century. Crosslisted as HIST, INTL, or POLS. *Prerequisite: POLS/INTL-3650 International Relations or permission of instructor.*

HIST-4110 Interpretations in American History–Fa 3 hours

Study of selected historical problems in America. Emphasis placed on new interpretations and their impact.

HIST-4440 Special Topics-History 1-3 hours

Investigation of specific topics in Social Science and History that have intrinsic worth and engage student interest.

HIST-4700 Research in American History–Fa, Sp 3 hours

Honors (HON)

Freshman Humanities Sequence: HON-1010,1020

The Making of the Modern Mind 10 hours

HON-1010 The Classical and Medieval Ages 5 hours

Explores those historical, religious, philosophical, and artistic beginnings that have shaped the modern mind or what some are now calling the “postmodern” mind. The story begins, naturally enough, at the beginning, in the mind of God and continues through the development of classical Greek and Roman culture. Concludes with a study of the rise of Christianity and its dominance of Western culture in the Middle Ages.

HON-1020 5 hours

Renaissance, Reformation, and Revolutions

Explores the changing balance of power in Western culture: from church to state, from faith to reason, from religion to science, and from piety to humanism. Traces out the implications of these shifts for cultural expressions and revolutions in the arts, religion, science, and philosophy and culminates in a study of late twentieth century postmodernism.

Honors Seminars

(Seminar offerings vary from year to year.)

HON-3040 Gender, Politics, and Communication 2 hours

Study of noteworthy English authors from 1800 to the present. Although this course may be taken for general education credit, it is primarily designed for majors. *Prerequisite: ENG-1400 Composition.*

- LIT-3170 American Literature: 1820-1865–Sp 3 hours**
 Intensive study of American authors who are representative of the literary traditions of Romanticism and Transcendentalism and their influence on a period of history often called the American Renaissance. Authors may include Emerson, Thoreau, Fuller, Whitman, Dickinson, Douglass, Jacobs, Stowe, Poe, Hawthorne, Melville and others. *Prerequisite: LIT-2390 Survey of American Literature to 1900.* (even years)
- LIT-3180 American Literature: 1865-1914–Sp 3 hours**
 Intensive study of American authors who are representative of the literary traditions of Realism and Naturalism, with attention to their influence on developments in American history between the Civil War and World War I. Authors may include Twain, Howells, James, Wharton, Piatt, Jewett, Freeman, Chesnut, Crane, London, Dreiser, Norris, Alcott, and others. *Prerequisite: LIT-2390 Survey of American Literature to 1900.* (odd years)
- LIT-3200 Methods of Teaching Integrated Language Arts–Sp 3 hours**
 This course is designed to explore the various methods and materials essential to teaching language arts in the secondary classroom. *Prerequisite: EDUC-2000 Introduction to Teaching, currently in EDSE-3100 Principles of Teaching AYA, or permission of instructor.*
- LIT-3230 Directed Readings–Fa, Sp 1-3 hours**
 Selected readings designed to strengthen the major by providing primary and secondary material in preparation for an independent study of a major writer, literary genre, or literary period.
- LIT-3240 Directed Writings–Fa, Sp 1-3 hours**
 Students will work in close consultation with a faculty member on the creation and production of a significant project in one of the following genres: poetry, fiction, creative nonfiction. (*Prerequisite: any 3000-level creative writing workshop.*)
- LIT-3310 The English Novel–Fa 3 hours**
 Reading and critical analysis of representative novels written in English. Authors include Fielding, Barnes, Rushdie, Gordimer, and Greene. *Prerequisite: LIT-2090 Literary Analysis and LIT-2430 Survey of British Literature to 1800 or LIT-2440 Survey of British Literature from 1800 to Present; or permission of instructor.* (even years)
- LIT-3320 Renaissance Literature–Sp 3 hours**
 A study of Metaphysicals, Milton, and other selected Renaissance writers. *Prerequisite: LIT-2090 Literary Analysis; LIT-2430 Survey of British Literature to 1800; or permission of instructor.*
- LIT-3330 18th Century British Literature–Fa 3 hours**
 Study of British writers from the Restoration through the Age of Johnson. *Prerequisite: LIT-2090 Literary Analysis; LIT-2440 Survey of British Literature from 1800 to Present; or permission of instructor.*
- LIT-3340 19th Century British Literature–Sp 3 hours**
 Study of the major Romantic Victorian writers, giving emphasis to Wordsworth, Byron, Shelley, Keats, Browning, Arnold, and Tennyson. *Prerequisite: LIT-2090 Literary Analysis; LIT-2440 Survey of British Literature from 1800 to Present; or permission of instructor.*
- LIT-3350 Shakespeare–Fa 3 hours**
 Representative comedies, history plays, tragedies, and sonnets. *Prerequisite: LIT-2090 Literary Analysis; LIT-2430 Survey of British Literature to 1800; or permission of instructor.*
- LIT-3380 Contemporary British Literature–Fa 3 hours**
 Study of representative and significant 20th century British writers, especially those reflective of modern ideologies. *Prerequisite: LIT-2090 Literary Analysis; LIT-2440 Survey of British Literature from 1800 to Present; or permission of instructor.*
- LIT-3400 Studies in Contemporary World Literature–Sp 3 hours**
 Study of contemporary literature outside the American and British traditions. Writers may include Chinua Achebe, Nadine Gordimer, Duong Thu Huong, Gabriel Garcia Marquez, Haruki Murakami, V.S. Naipaul, Moniru Ravanipur, Jose Saramago, Tatyana Tolstoya, Luisa Valenzuela, Gao Xingjian, and others. *Prerequisite: major status or permission of the instructor.* (even years)
- LIT-3420 American Novel–Fa 3 hours**
 Study of the historical development of the American novel and an analysis of the writings of major American novelists from Cooper to Roth. *Prerequisite: LIT-2090 Literary Analysis; or permission of instructor; or major status.* (odd years)
- LIT-3430 Literature of the American South–Sp 3 hours**
 Study of the literature of the American South, covering its historical development, its major themes and authors, and its contemporary status. *Prerequisites: major status or permission of the instructor.* (even years)
- LIT-3440 Multiethnic American Literature–Fa 3 hours**
 A survey of literature produced by writers from diverse ethnic groups, including (but not limited to) Native American, African American, Chicano, Jewish, and Asian American. *Prerequisites: LIT-2090 Literary Analysis, LIT-2390 Survey of American Literature to 1900.*
- LIT-3460 Contemporary East Asian Literature–Sp 3 hours**
 This course introduces students to contemporary literature from East Asia focusing primarily on works in translation from China, Japan, and Korea. *Prerequisites: major/minor status or permission of the instructor.* (even years)
- LIT-3510 Modern American Literature–Sp 3 hours**
 Study of major American authors of the 20th century. *Prerequisite: LIT-2090 Literary Analysis; LIT-2390 Survey of American Literature to 1900; or permission of instructor.*
- LIT-3520 C.S. Lewis and The Inklings–Sp 3 hours**
 Study of Lewis' contributions in the fields of literature, criticism, and apologetics. Special attention will be placed on understanding Lewis' personal and intellectual development, his relationships with contemporary scholars and writers, and his continuing influence. *Prerequisite: major status or permission of instructor.* (even years)
- LIT-4220 English Seminar–Sp 3 hours**
 Designed to help the student synthesize his or her major areas of study. Required of all senior English majors. Capstone course.
- LIT-4230 Independent Study in Literature–Fa, Sp 1-3 hours**
 Independent study in a selected field for students with special interests and demonstrated ability.
- LIT-4310 Literary Theory–Fa 3 hours**
 A study of theoretical literary contexts. Special consideration will be given to economic, political, psychological, linguistic and cultural contexts. *Prerequisite: LIT-2090 Literary Analysis.*
- LIT-4420 European Novel–Fa 3 hours**
 Study of the 19th and 20th century influence on the novel from Balzac to Camus. *Prerequisite: major status or permission of instructor.*
- LIT-4450 Milton: Poetry and Selected Prose–Fa 3 hours**
 A study of Milton's early poetry, *Paradise Lost*, *Paradise Regained*, *Samson Agonistes*, and selected prose works. *Prerequisite: LIT-2090 Literary Analysis; LIT-2430 Survey of British Literature to 1800; or permission of instructor.* (even years)
- LIT-4490 Special Topics–Fa, Sp 1-3 hours**
 Investigation of such literary phenomena that have intrinsic worth and engage student interest.

Course Descriptions

LIT-4510 – MAPE-4850

LIT-4510

3 hours

Recent American Literature 1945-Present–Sp

A study of the social, political, economic, and religious issues that defined the American experience in the last half of the 20th century. Diverse poetry, short stories, drama, novels, and films will be analyzed to give students an understanding of the myriad subjectivities that have shaped American values and attitudes since World War II. *Prerequisite: any 2000-level literature course.*

M

Multi-Age Health Education (MAHE)

MAHE-1000

1 hour

Introduction to the Health Profession–Fa

Introductory course for students planning career involvement in health and health-related professions. The students will be introduced to health careers by providing descriptions of jobs, the educational and legal requirements, the work environment, and additional information about specific fields.

MAHE-1350 Foundations of Health Education–Sp 2 hours

Orientation to the history, philosophy, and scope of modern health education from a theistic perspective.

MAHE-2100 Personal Health Issues–Fa 3 hours

This course will explore various health topics, including but not limited to emotional and mental well being, gerontological health issues, and death and dying. Course content may be revised to reflect changing health needs and priorities. (Even years)

MAHE-3030 2 hours

Nutrition for Health & Weight Control–Fa

A study of the science of nutrition, together with the study of eating habit formation and modification for optimal wellness, presented from a Christian perspective.

MAHE-3070 Current Issues in Health–Sp 1 hour

Designed to explore, from a Christian perspective, health-related issues that challenge our society. This course recognizes the reality that there are “no easy answers” as ethics, technology, and economics merge to generate new dilemmas of increasing complexity every day.

MAHE-3100 Drug Education–Sp 3 hours

Students will investigate the physical, social, emotional, intellectual, and spiritual factors influencing consumer health behavior with specific application to use/misuse of dietary supplements and herbal preparations, prescription drugs, over-the-counter drugs, alcohol, stimulants, opiates, hallucinogens, and steroids.

MAHE-3130 School Health Program–Sp 3 hours

Analysis of the scope of the school health program, including health services, healthful school living, and health instruction.

MAHE-3500 Community Health Concepts–Fa 2 hours

Analysis of current community health problems and how solutions can be achieved in and through existing community health programs.

MAHE-4400 Health Education In-Service–Fa, Sp 0 hours

Students are required to organize and conduct a health fair or make a presentation on a health-related issue to other health professionals, parents, faculty, or school personnel at the site of their student teaching experience or on campus to faculty, staff, and students. Students will prepare the information and materials for the health fair and/or presentation as part of the course Community Health Concepts. *Prerequisite: Departmental approval is required. MAHE-3500 Community Health Concepts. Credit/no credit.*

MAHE-4610 Teaching Health–Fa

5 hours

This course provides methods of instruction with emphasis on the teacher’s role in comprehensive school health education, including an introduction to the health status of youth, at-risk students, objectives for A Healthy People 2010, components of comprehensive school health education, the role of the teacher in school health services, and special health concerns of today’s preschool children through post-secondary youth, as well as curriculum development, behavioral objectives, life skills, scope and sequence of learning, teaching strategies, philosophy of wellness, and responsible decision making. *Prerequisite: admission to the teacher education program. (Odd years)*

MAHE-4850

1-3 hours

Independent Study in Health Education–Fa, Sp

Independent study in the area of health education by students pursuing multi-age health education teaching licensure or a health promotion minor. *Departmental approval is required.*

MAHE-4960 Field Experience in Health Education–Fa, Sp 4 hours

An eight-week field experience, including the teaching of health. *Prerequisite: admission to the teacher education program. Credit/no credit. (Fee: \$35)*

MAHE-4990 Internship in Health Promotion–Fa, Sp 3 hours

This is an actual work experience in a health promotion setting for a minimum of 10 hours per week for a minimum of ten weeks. *Departmental approval is required. Credit/no credit.*

Multi-Age Physical Education (MAPE)

MAPE-1210 Team Sports–Fa

2 hours

Theory and practice in soccer, basketball, softball, baseball, volleyball, and novelty sports with attention given to various teaching methods, skills, and rules.

MAPE-2200 Individual and Dual Sports I–Fa 2 hours

Theory and practice in tennis, golf, archery, and bowling with attention to various teaching methods, skills, psychomotor skill development, and knowledge in rules, terminology, strategies, safety, and etiquette. (Fee: \$20)

MAPE-2210 Individual and Dual Sports II–Sp 2 hours

Theory and practice in badminton, racquetball, table tennis, and track and field with attention to various teaching methods, skills, psychomotor skill development, and knowledge in rules, terminology, strategies, safety, and etiquette. (Fee: \$15)

MAPE-3600 5 hours

Physical Education in the Elementary School–Sp

An overview of the place of physical education in the elementary school curriculum with an emphasis on the study of current program content design, teaching techniques, and types of evaluations, as well as modifying activities for the purpose of inclusion for the physically challenged.

MAPE-4500 3 hours

Curriculum Development in Physical Education–Fa

Overview of the curriculum process in physical education, specifically giving attention to the theoretical base, process of curriculum design, and curriculum development for elementary through high school educational programs.

MAPE-4850

1-3 hours

Independent Study in Physical Education–Fa, Sp

Independent study by major students of advanced standing toward the understanding and appreciation of problems in physical education. This course gives students an opportunity to develop skills in the use of literature and in the appropriate techniques of problem solving. *Prerequisite: Departmental approval is required.*

MAPE-4950 3 hours

Methods of Teaching Secondary Physical Education–Fa

This course provides the study of methods of instruction and practice and the study of planning and implementing units of instruction, as well as evaluating the effectiveness of various teaching strategies for teaching physical education at the secondary level. Also included is the study of understanding and developing assessment techniques in physical education and developing strategies for working with handicapped students. *Prerequisite: admission to the teacher education program.*

MAPE-4960 Field Experience–Fa 4 hours

An eight-week field experience taken in conjunction with MAPE-4950 Methods of Teaching Physical Education. *Prerequisite: admission to the teacher education program. Credit/no credit. (Fee: \$35)*

MAPE-4970 2 hours

Field Experience in Physical Education–Special Populations–Fa, Sp

A five-week adapted physical education teaching field experience taken in conjunction with EDSE-4900 Student Teaching and Seminar: Adolescent/Young Adult that seeks to provide the opportunity for application of adapted physical education content and theory studied in MAPE-3600 Physical Education in the Elementary School and MAPE-4950 Methods of Teaching Physical Education. *Prerequisites: admission to the teacher education program; MAPE-4950 Methods of Teaching Physical Education; MAPE-4960 Field Experience. (Fee: \$35)*

Mathematics (MATH)

MATH-1710 Calculus I–Fa, Sp 5 hours

First course of a two-course sequence covering basic concepts of analytic geometry and single variable calculus. Includes limits, transcendental functions, derivatives, applications of the derivative, single variable integration with introduction to numeric integration techniques, applications of integration including some solutions of differential equations, and additional integration techniques. *Prerequisite: GMTH-1030 Precalculus or equivalent; or permission of instructor.*

MATH-1720 Calculus II–Fa, Sp 5 hours

The second course of a two-course sequence covering the basic concepts of analytic geometry and single variable calculus. Includes sequences, series, expansion of functions into Taylor and power series, conic sections, plane curves, parametric equations, polar coordinates, vectors and geometry in three-space, vectors, and vector calculus. *Prerequisite: MATH-1710 Calculus I or equivalent or permission of instructor.*

MATH-1990 3 hours

Beautiful Math Structures and Thinking–Fa

This course introduces freshmen math majors to interesting mathematical ideas and applications beyond the usual scope of standard math courses. Topics include an introduction to propositional logic, function theory, and infinite sets. Other topics will be chosen from elementary number theory, modular arithmetic, error-correcting codes, Fibonacci numbers and the golden ratio, fractals, discrete dynamical systems and chaos, Euler and Hamilton Circuits, democracy and impossibility theorems, game theory, the Platonic solids, n-dimensional space, and other topics up to the discretion of the instructor.

MATH-2210 Logic and Methods of Proof–Fa 3 hours

Introduction to formal mathematical logic; emphasis on preparing students for the abstraction of upper-division courses. Special attention is given to the development of students' skills with a variety of methods of proof, using examples from numerous areas. *Prerequisites: MATH-1720 Calculus II; MATH-1990 Beautiful Math Structures and Thinking; or permission of instructor.*

MATH-2510 Discrete Math for Computer Science–Sp 3 hours

An introduction to mathematical foundations of computer science, including propositional and predicate calculus, methods of proof, sets and relations, recurrences, graphs and trees, and program correctness and proofs. This course does not satisfy any requirements for the B.A. or B.S. in mathematics or the B.A. in integrated mathematics education. *Prerequisite: MATH-1710 Calculus I.*

MATH-2710 Calculus III–Fa, Sp 3 hours

Introduction to differential and integral calculus of several variables, multiple integrals, vector analysis, line integrals, and surface integrals. *Prerequisite: MATH-1720 Calculus II or equivalent or permission of instructor.*

MATH-2740 Differential Equations–Fa, Sp 3 hours

Study of the standard techniques employed in the solution of differential equations with emphasis on those arising from physical problems. *Prerequisite: MATH-1720 Calculus II or equivalent.*

MATH-2800 LaTeX for Technical Documents–Sp 1 hour

In this course students will be introduced to the typesetting language of LaTeX through the use of tutorials, example documents, and homework assignments. They will learn to easily prepare professional-looking theses, conference papers, and journal papers. They will also learn how to create professional-looking presentations, homework, quizzes, examinations, syllabi, resumes, and curriculum vitae.

MATH-3050 4 hours

Algebraic Structures for Secondary Education Majors–Fa

An introduction to the basic ideas of number theory, abstract algebra, and linear algebra. Factorization of integers, congruence modulo m , Fermat's Theorem, groups, rings, integral domains, fields, vector spaces, systems of linear equations, determinants and inverses, linear transformations, eigenvalues, and eigenvectors. **Does not count towards B.A. or B.S. majors in mathematics.** *Prerequisites: MATH-2210 Logic and Methods of Proof; MATH-1720 Calculus II.*

MATH-3110 Probability & Statistics I–Fa 3 hours

Probability models, random variables, probability distributions, estimation, and hypothesis tests are studied from theoretical and practical viewpoints. *Prerequisite: MATH-1720 Calculus II.*

MATH-3240 Introduction to Operations Research–Fa 3 hours

Formulation and analysis of mathematical models for the optimal solution of decision making problems under certainty. Course content includes linear programming; the simplex method, duality and sensitivity analysis. This course applies probabilistic analysis to such nondeterministic models as queueing models, elements of dynamic programming, and Markov decision analysis. *Prerequisites: MATH-3610 Linear Algebra; MATH-3110 Probability and Statistics; or permission of the instructor. (even years)*

MATH-3500 Number Theory–Fa 3 hours

Introduction to most of the topics of elementary number theory such as modular arithmetic, prime factorizations, linear diophantine equations, the Chinese remainder theorem, quadratic reciprocity, Pythagorean triples, number theoretic functions, and related topics. Concrete examples will illustrate the concepts and abstract reasoning will develop the theories considered in the course. *Prerequisite: MATH-2210 Logic and Methods of Proof. (odd years)*

MATH-3550 Discrete Math: Graph Theory–Fa 3 hours

Introduction to the basic concepts of graph theory and discrete mathematics problem-solving. Topics covered include elements of graph theory, covering circuits, graph coloring, trees and searching, and network algorithms. *Prerequisite: MATH-2210 Logic and Methods of Proof. (odd years)*

Course Descriptions

MATH-3560 – MGMT-3510

MATH-3560 Discrete Math: Combinatorics–Sp 3 hours

Study of combinatorial reasoning, focusing on enumeration. Intended to develop a proficiency in methods of enumerative problem solving. Topics chosen from areas such as counting methods for arrangements and selections, permutations and combinations, generating functions, partitions, and recurrence relations. *Prerequisite: MATH-2210 Logic and Methods of Proof.* (odd years)

MATH-3610 Linear Algebra–Sp 3 hours

Introduction to the algebra of linear equations, including determinants, matrices, vector spaces, eigenvalues, eigenvectors, and linear mappings. *Prerequisite: MATH-1720 Calculus II or equivalent.*

MATH-3710 Advanced Calculus–Sp 3 hours

Topics in function theory, vector analysis, differential calculus of several variables, vector differential calculus of several variables, integral calculus of several variables, vector integral calculus of several variables, and infinite series. *Prerequisite: MATH-2710 Calculus III or equivalent or permission of instructor.* (even years)

MATH-3740 Complex Variables–Sp 3 hours

Introduction to complex arithmetic, differentiation: analytic functions, Cauchy-Riemann equations, harmonic functions, elementary functions and their mapping properties, integration: Cauchy's Theorem, Cauchy's Integral Formula, Taylor and Laurent series, poles, residues, and the residue theorem. *Prerequisite: MATH-1720 Calculus II.* (odd years)

MATH-3750 Introduction to Dynamical Systems–Sp 3 hours

Topics include one-dimensional flows and bifurcations, phase portraits, linearization and classification of equilibrium points, limit cycles, chaos, one-dimensional maps, and fractals. *Prerequisite: MATH-2740 Differential Equations.* (even years)

MATH-3760 Numerical Analysis–Sp 3 hours

Analysis of computational error, solutions of equations of one variable, interpolation, numerical differentiation and integration, finite difference methods for solving ordinary differential equations, solving linear algebraic systems, and least squares approximations. *Prerequisite: CS-1210 C++ Programming; MATH-2710 Calculus III; MATH-2740 Differential Equations.* (odd years)

MATH-3800 Research Methods–Sp 1 hour

This course will introduce the mathematics major to the various resources and methods available for researching topics in mathematics. This could include the use of library resources at Cedarville University, use of Internet resources, WWW searches, and a tour of the library at a larger university, where journals and indices of importance can be referenced. *Prerequisites: MATH-2210 Logic and Methods of Proof; ENG-1400 English Composition.* (Fee: \$50)

MATH-4110 Probability and Statistics II–Sp 3 hours

Second course of a two-course sequence covering basic concepts of statistics. Topics chosen from the following: hypothesis tests, regression analysis, quality control, and non-parametric statistics. *Prerequisites: MATH-3110 Probability and Statistics I.*

MATH-4210 Mathematical Methods for Physicists–Fa 3 hours

Advanced mathematical methods used in the solution of physics problems. Topics include curvilinear coordinates, vector analysis, and solutions to partial differential equations using Fourier, Bessel and Legendre functions. *Prerequisites: MATH-2710 Calculus III; MATH-2740 Differential Equations.* (even years)

MATH-4410 3 hours

Euclidean and Non-Euclidean Geometry–Sp

Rigorous treatment of the foundations of Euclidean geometry; an introduction to hyperbolic geometry with emphasis on its Euclidean models. *Prerequisites: MATH-2210 Logic and Methods of Proof.*

MATH-4450 Topology–Fa 3 hours

An introduction to elementary point set topology with emphasis on illustrating how the familiar concepts of closed and open intervals, continuity of functions, distances, and various geometrical properties have been generalized from classical mathematics. Topics include: metric spaces, topological space theory, separation axioms, covering properties, compactness, connectedness, metrizable, and complete metric spaces. *Prerequisite: MATH-2210 Logic and Methods of Proof.* (even years)

MATH-4610, 4620 Abstract Algebra I, II–Fa, Sp 3 hr/sem

Introduction to and development of the basic ideas of algebraic systems, groups, rings, integral domains, fields, and other advanced topics. *Prerequisite: MATH-2210 Logic and Methods of Proof.* (even years)

MATH-4710, 4720 Real Variables I, II–Fa, Sp 3 hr/sem

Introduction to the real number system's algebraic order, completeness, and cardinality properties, the topology of Cartesian spaces R^n and functions including continuity and uniform continuity, connectedness, convexity, compactness, various types of convergence, limits, differentiability, and Riemann integration, measurability, and L_n . *Prerequisites: MATH-2210 Logic and Methods of Proof.* (odd years)

MATH-4800 3 hours

Capstone Experience in Mathematics–Fa, Sp

The course will allow students to deeply research an important topic in mathematics, both individually and collectively, and to present their findings from library research as well as personal work. *Prerequisites: MATH-3800 Research Methods in Mathematics; 15 hours of courses beyond MATH-1720 Calculus II; permission of instructor.* (Fee: \$20)

MATH-4880 Topics in Mathematics–Fa, Sp 1-3 hours

Some typical topics are linear programming, numerical analysis, stochastic calculus, non-parametric statistics, partial differential equations, or mathematical modeling. This course is intended to be a topic not in the current curriculum that is a logical extension and development of the student's academic plan. *Prerequisite: permission of instructor.*

MATH-4900 1-3 hours

Independent Study in Mathematics–Fa, Sp

Independent research in the various branches of mathematics and allied fields of application. Submission and approval of a research proposal must precede registration. *Prerequisite: major in mathematics or permission of research advisor.*

Management (MGMT)

MGMT-3500 3 hours

Principles of Organization and Management–Fa, Sp

An examination of the policies, principles, practices, and problems involved in the management of organizations as they are currently being applied in the United States and around the world to meet or exceed customer's expectations.

MGMT-3510 Entrepreneurship I–Fa 3 hours

This course will introduce students to small business and entrepreneurship. Topics will include personal characteristics of entrepreneurs, issues involving the uniqueness of family businesses, what small business owners can expect, the difference between a small business and entrepreneurial business, an overview of business models, an introduction to finding and/or evaluating a business opportunity, and the operational basics of starting and running a small or entrepreneurial business.

MGMT-3511 Entrepreneurship II–Sp	3 hours	MGMT-3570 International Management–Sp	3 hours
This course will focus on looking for, identifying, and evaluating business opportunities, then matching business models to take advantage of them. Content will include creativity, opportunity recognition, evaluation, cognitive processes of entrepreneurs, environmental scanning, entrepreneurial business models (strategy), and will introduce initial financial elements of opportunity evaluation.		Focuses on the principles of management in a global economy. Exporting and foreign direct investment are analyzed from the multinational perspective. Strategy, organizational structure, and control techniques are developed in a world environment. <i>Prerequisite: MGMT-3500 Principles of Organization and Management.</i>	
MGMT-3512 Entrepreneurship III–Sp	3 hours	MGMT-4510 Administrative Policy and Strategy–Fa, Sp	3 hours
This course will focus on the finance, accounting, and tax issues involved in operating a small business, entrepreneurial high growth firm, or family business. Content will include small business and high growth financial issues, managing cash flow, attracting financial resources, accounting issues such as the role of a forward-thinking accountant, setting up accounting systems that serve the firm strategy, and tax planning. It will also include financial elements of opportunity evaluation and exploitation as well. <i>Prerequisite: MGMT-3510 Entrepreneurship I</i>		Strategic issues faced by organizations are analyzed in a comprehensive manner. Skills in strategic analysis are developed through lectures and from diverse industries, nonprofit, and quasi-public institutions. Open only to seniors in business administration within 2 semesters of graduation. Capstone course. <i>Prerequisites: FIN-3710 Principles of Finance; MGMT-3500 Principles of Organization and Management; MRKT-3600 Principles of Marketing.</i>	
MGMT-3514 Entrepreneurship V–Fa, Sp	3-12 hours	MGMT-4520 Supply Chain Management–Sp	3 hours
This course will be a practicum for SB&E students to gain experience in a small business or entrepreneurial setting that is appropriate for their future goals. These experiences will be in the form of internships, shadowing entrepreneurs, working in a small business or entrepreneurial firm on significant projects or in significant roles, or consulting with these types of firms. Due to the dynamic nature of opportunities provided by small business people and entrepreneurs, it can be taken, with the permission of the lead professor, at any time during the SB&E program. In addition, since each experience is unique, it can be taken more than once for up to 12 semester hours. <i>Prerequisite: Permission of instructor.</i>		Introduces students to key concepts in supply chain design, planning, and operations. Typical content includes the supply chain strategic environment, designing appropriate networks, forecasting demand and supply, planning and managing inventories, sourcing and transporting products, supply chain coordination, and the impact of technology on supply chain management. Course methodology emphasizes application of concepts through case study, plant tours, and presentations. <i>Prerequisites: BUS-2120 Statistics II; MGMT-3520 Production and Operations Management. (Fee: \$50)</i>	
MGMT-3520 Production and Operations Management–Fa, Sp	3 hours	MGMT-4530 Industrial Relations Management–Sp	3 hours
Introduction to the concepts, methodologies, and application of production and operations management. Designed to develop problem-solving and decision-making skills to apply in the operations and production areas of the firm. Designed to develop an appreciation for the interaction of operations management with the management systems of organizations and the processes associated with “lean” thinking necessary to create value for the customer. <i>Prerequisites: ACCT-2120 Principles of Accounting II; BUS-2120 Statistics II; MGMT-3500 Principles of Organization and Management; or permission of instructor. (Fee: \$50)</i>		The interplay between market forces and institutional rules that determine the employment relationship. Labor history, the effects of changing public policies, trade unions, and collective bargaining are viewed from various international perspectives. <i>Prerequisites: MGMT-3500 Principles of Organization and Management.</i>	
MGMT-3530 Human Resources Management–Fa, Sp	3 hours	MGMT-4550 Advanced Organizational Behavior–Sp	3 hours
An analysis of the principle functions, processes, and problems involved in the management of personnel policies; selection, training, promotion, compensation, and discharge of personnel; labor turnover, safety, health, and recreation. <i>Prerequisite: MGMT-3500 Principles of Organization and Management or permission of instructor.</i>		This is an advanced course about managing people and organizations at the dawn of the 21st century, intended for seniors who will soon face the challenge of leadership and influence in their respective workplaces. This course will integrate many of the most salient OB topics in today’s volatile workplace environment. <i>Prerequisite: MGMT-3550 Organizational Behavior or permission of instructor.</i>	
MGMT-3550 Organizational Behavior–Fa	3 hours	MGMT-4560 Organizational Change and Development–Fa	3 hours
A study of the impact of human behavior within and upon the organizational structure. Emphasis is given to behavior as it relates to employment, absenteeism, employee turnover, productivity, human performance, and management. <i>Prerequisite: MGMT-3500 Principles of Organization and Management or permission of instructor.</i>		This course focuses on the theories, concepts, processes, and tools of leading successful organizational change, as changes involve sensitivity to issues that arise at the individual, interpersonal, and institutional levels as well as building the organization’s capacity to both adapt to change and generate innovation. <i>Prerequisite: MGMT-3500 Principles of Organization and Management or permission of instructor.</i>	
MGMT-3560 Project Management–Sp	3 hours	MGMT-4570 Advanced Operations Management–Sp	3 hours
This course will lay a foundation for an understanding of project management principles. It will examine principles, processes, and tools project managers have developed to effectively manage and lead projects.		This course expands on critical topics in the field of operations management, including the operations management strategy and tools and contemporary topics such as “Lean” techniques, value-stream mapping, and Fundamentals of Six Sigma. <i>Prerequisite: MGMT-3520 Production and Operations Management or permission of instructor. (Fee: \$50)</i>	
Army ROTC (MIL)			
MIL-1000 Leadership Lab I			0 hours
Applied Army ROTC training. Taken concurrently with 1000-level MIL courses.			

Course Descriptions

MIL-1010 – MIS-3910

MIL-1010,1020 Military Science I **2 hours/sem**

Introduction to the history, role, and organization of the Army and ROTC, as well as the U.S. Army Reserve and U.S. Army National Guard, and the available career options. Introduces officership, military customs and traditions, map reading, land navigation, field training, first-aid procedures, and physical fitness training. Familiarize with rank structure, drill and ceremony, military courtesies, weapons, marksmanship, and communications equipment. Discuss styles and fundamentals of leadership and develop leadership skills.

MIL-2000 Leadership Lab II **0 hours**

Applied Army ROTC training. Taken concurrently with 2000-level MIL courses.

MIL-2010,2020 Military Science II **2 hours/sem**

Course of study includes emergency first-aid procedures, field survival practices, physical fitness, orienteering, and small-unit leadership training. Explores the various career management fields within the Army. Students will begin to receive leadership assignments and responsibility within the cadet battalion. Introduction to advanced course of study.

MIL-3000 Leadership Lab III **0 hours**

Applied Army ROTC training. Taken concurrently with 3000-level MIL courses.

MIL-3010,3020 Military Science III **3 hours/sem**

The junior year of military science is completely dedicated to developing leadership skills and preparing students for the six-week Advanced Camp in the summer of the junior year. Subjects covered are drill, leadership, marksmanship training, squad and team tactics with leadership exercises and advanced navigation training on day and night courses. Students learn to inspect soldiers' equipment, draft and issue orders, and plan and conduct training as a small-unit leader. *Prerequisite: approval of professor of military science.*

MIL-4000 Leadership Lab IV **0 hours**

Applied Army ROTC training. Taken concurrently with 4000-level MIL courses.

MIL-4010,4020 Military Science IV **3 hours/sem**

The senior year of military science provides senior cadets with advanced managerial leadership skills. Army staff procedures and functions are taught. These staff skills are put into practice through the assignment of seniors to major leadership positions within the cadet battalion. Seniors learn to command, lead, manage, plan, and supervise as they prepare for commissioning as officers in the United States Army. Senior students will receive instruction on military professionalism and ethics. *Prerequisite: approval of professor of military science.*

Information Systems (MIS)

MIS-1500 **2 hours**

Information Technology for Business—Fa, Sp

This course will focus on understanding the broad nature of information technology and how it fits in today's business world. Students will learn the nature of information technology, its application, and unique business models, as well as how to manage technology from a business value perspective. Fundamentals of the industry, technologies, and application of that technology are developed. Students will experience the IT industry through practical exploration of its breadth and depth.

MIS-1510 Software Tools for Business—Fa, Sp **2 hours**

This course emphasizes the use of software in a business environment. Students will develop a working knowledge of spreadsheet, database, and other software packages appropriate to the current business environment. (Fee: \$10)

MIS-2200 Fundamentals of MIS—Fa **3 hours**

This course is an introduction to the field of Management Information Systems (MIS). It is a demanding course that takes students through the process of developing an information system. While working through this process, students will be introduced to the primary topics and techniques used in MIS. Case study is the primary method used in teaching the course. Gateway course to the MIS major.

MIS-2300 Introduction to Programming—Sp **3 hours**

Intended as the first programming course for MIS majors, this course will introduce the student to the process of programming and to the syntax and usage of the Java programming language. The programming assignments will encourage students to analyze problems in a logical, intentional, and structured manner so that they can develop well constructed programs using structured and object-oriented programming techniques. *Prerequisite: MIS-2200 Fundamentals of MIS (Fee: \$20)*

MIS-3100 Database Development—Fa **3 hours**

This course teaches students database fundamentals while providing a broad survey of the field's major topics. Students learn information systems and the critical nature of databases within IS contexts. Topics include storage & retrieval, data modeling, logical & physical design, relational and object-oriented databases, data warehousing, databases and the internet, and data security. Students apply essentials by creating, exercising, and administering databases. *Prerequisite: MIS-2200 Fundamentals of MIS. (Fee: \$20)*

MIS-3300 **3 hours**

Advanced Topics in Programming Languages—Sp

Advanced concepts in programming and programming languages using one or more programming languages. Theories of program design and implementation. Some discussion of the design of programming languages and the comparison of strengths and weaknesses in performing different types of tasks. *Prerequisite: MIS-2300 Introduction to Programming. (Fee: \$20)*

MIS-3400 Data Communications and Networking—Fa **3 hours**

A study of the basic concepts of data and voice communications and current networking technology. Discussion of physical-layer considerations, higher-layer implications, and network operating systems. The concepts will be applied through a hands-on project of network design, implementation, and documentation. *Prerequisite: MIS-2200 Fundamentals of MIS or permission of instructor. (Fee: \$50)*

MIS-3500 Web Development—Sp **3 hours**

This course will expose students to the process of developing information systems for the World Wide Web. The focus will be on advanced webpage creation including dynamic content, scripting, applets and server issues. *Prerequisites: MIS-2200 Fundamentals of MIS, MIS-2300 Introduction to Programming.*

MIS-3800 Systems Analysis and Design—Sp **3 hours**

Provides an understanding of the duties of the systems analyst together with an understanding of the specific methods and techniques for conducting a systems project from its preliminary investigation through its systems implementation and evaluation. *Prerequisite: MIS-3100 Database Development.*

MIS-3910 Advanced Topics in MIS—Fa, Sp **3 hours**

This course heading covers a variety of MIS courses offered on a temporary basis. The dynamic nature of the field of MIS gives rise to the need to address recent changes in technologies, methods, and systems.

MIS 4100 Advanced Database Design–Sp 3 hours

This course is a systematic study of the use of databases in dynamically generated web pages in e-commerce systems. The course focuses on the integration of database management systems and other software such as CRM, ERP, and supply chain management systems in the design and development of scalable E-commerce systems. *Prerequisites: MIS-3100 Database Development; MIS-3500 Web Development.* (Fee: \$20)

MIS-4500 System Development–Sp 3 hours

Students hone their skills of analysis, design, and project management as they work in teams to develop IT projects that solve real-world problems proposed by end-users both inside the University and in outside organizations. The projects usually encompass aspects of system analysis, user-interface design, database development, web development, end-user training, documentation, and presentation to customers. Capstone course. *Prerequisites: MIS 3500-Web Development; MIS-3800 System Analysis and Design.*

Marketing (MRKT)

MRKT-3600 Principles of Marketing–Fa, Sp 3 hours

Survey of the marketing function in the business environment; product, price, promotion, and distribution as well as consumers organizations; service, nonprofit, and international markets. *Prerequisite: junior status or permission of instructor.*

Principles employed in the development, administration, and strategy of a sales force. Professional selling from a Christian perspective along with training, managing, compensating, and motivating a sales force. *Prerequisites: MGMT-3500 Principles of Organization and Management; MRKT-3600 Principles of Marketing.*

MRKT-3630 Marketing Research–Sp 3 hours

Role of market research in marketing development. Decision making in an atmosphere of uncertainty. Determination of hypotheses. Planning research designs: survey, observational, experimental, and simulation. Execution of survey design: questionnaire construction, sample design, interviewing, tabulation, analysis, interpretation of results, and presentation. *Prerequisite: MRKT-3600 Principles of Marketing.*

MRKT-3650 Buyer Behavior–Sp 3 hours

Introduction to the psychological, sociological, cultural, and economic determinants of consumer behavior. Emphasis on exploration of various concepts and theories for the purpose of building understanding and providing an exposure to a variety of viewpoints. *Prerequisite: MRKT-3600 Principles of Marketing.*

MRKT-3660 Promotion Strategy–Fa 3 hours

Advertising as a tool in marketing management. Decision making relative to market analysis. Media selection, budgeting, production and layout, and measurement of effectiveness. *Prerequisite: MRKT-3600 Principles of Marketing or permission of instructor.*

MRKT-3670 Business to Business Marketing–Fa 3 hours

A study of the industrial market sector, which includes buying behavior, applied demand analysis, and segmentation techniques. Designed to provide the student with decision-making capabilities for use in the industrial setting. *Prerequisite: MRKT-3600 Principles of Marketing.*

MRKT-3680 Nonprofit Marketing–Fa 3 hours

Designed to acquaint the student with skills, abilities, and attitudes necessary to effectively implement marketing practice in nonprofit organizations. *Prerequisite: MRKT-3600 Principles of Marketing or permission of instructor.*

MRKT-3690 Services Marketing–Sp 3 hours

Designed to act as an introduction to the field of service-oriented business concerns and their subsequent marketing.

MRKT-4610 Marketing Strategy–Sp 3 hours

Computer simulation will be used to acquaint the senior marketing student in a realistic fashion to a variety of marketing situations and allow “hands-on” solutions to be implemented and tested. *Prerequisites: senior status; twelve hours of marketing including MRKT-3600 Principles of Marketing.*

MRKT-4620 International Marketing–Fa 3 hours

An intensive investigation of the problems, regulations, and challenges facing US manufacturers seeking to expand their markets to countries abroad. *Prerequisite: MRKT-3600 Principles of Marketing.*

Mathematics Education (MTED)

MTED-3110 Clinical Teaching in Mathematics–Fa, Sp 1 hour

Students are assigned to assist a college instructor in classroom and laboratory teaching, evaluation, and related responsibilities. The student must complete 40 clock hours of clinical involvement in each teaching field for which licensure is desired. *Prerequisite: completion of Introduction to Education Block.*

MTED-3120 Teaching Mathematics–Fa 3 hours

Designed to introduce prospective secondary school science teachers to the curriculum, materials, and methods of classroom teaching. *Prerequisite: admission to the teacher education program.*

N

Nursing (NSG)

NSG-1010 Member of Nursing Profession I–Fa 1 hour

An introduction to nursing education, practice, theory, and research. Includes discussion of professional ethics and factors that motivate and influence Christian nurses. As members of the nursing profession, students are introduced to the use of information-management skills to provide culturally sensitive care, that is consistent with godly living.

NSG-1020 Provider of Nursing Care I–Sp 2 hours

An introduction to the role of the nurse as a provider of nursing care. Emphasis on supervised practice and validation of foundational nursing skills. Assessment and decision-making processes are introduced within the Cedarville University five-dimensional nursing model. (Fee: \$200)

NSG-2010 Member of Nursing Profession II–Fa, Sp 1 hour

An introduction to and application of professional nursing roles within the US and global health care systems. Includes a focus on ways of thinking and an introduction to analytical judgment as a member of a profession from a Christian framework. *Prerequisite: NSG-1010 Member of Nursing Profession I.*

NSG-2020 Provider of Nursing Care II–Sp 2 hours

An introduction to clinical decision-making processes with application to various pathophysiological conditions in providing nursing care. Focus is on the development of systematic approaches to assessing the health balance of individuals. Includes elements of a health history, performing physical examination, analysis and categorizing of physical response patterns, and communicating findings in appropriate terminology. *Prerequisite: NSG-1020 Provider of Nursing Care I.* (Fee: \$200)

NSG-2150 Nutrition–Sp, Su 2 hours

Study of normal nutrition and food consumption patterns of individuals and families of all ages within various cultures. Metabolism of food and nutrient utilization is described in a health balance framework. The use of nutrition as a resource to promote health is discussed. *Prerequisite: CHEM-3710 Biochemistry; GBIO-2010 Anatomy and Physiology; or permission of instructor.*

Course Descriptions

NSG-2200 – NSG-4010

NSG-2200 Cross-Cultural Interactions—Fa, Sp 1 hour

Cross-cultural interactions are planned and purposeful experiences designed to gain information and understanding of missions and/or cross-cultural nursing. *Prerequisite: permission of instructor.*

NSG-3010 6 hours

Maternity and Women's Health Nursing—Fa, Sp

Course content and clinical experiences provide the student with the opportunity to facilitate the health balance of women and the childbearing family across the five dimensions. Students interact to support family members in their changing roles as they manage resources in response to new demands. Cultural implications for care of the childbearing family are presented.

Prerequisites: NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; NSG-3020 Provider of Nursing Care III (or corequisite) NSG-3110 Pharmacology (or corequisite). (Fee: \$200)

NSG-3020 Provider of Nursing Care III—Fa 2 hours

Students learn information management skills of documentation, medical terminology, and abbreviations and develop technical skills for providing nursing care in various settings, including medication administration and providing preoperative care. Consideration is given to development of clinical role responsibilities of the nurse to development of clinically appropriate nursing interventions using a case study approach. *Prerequisites: NSG-2010 Member of Nursing Profession II; nursing courses; NSG-2020 Provider of Nursing Care II.* (Fee: \$200)

NSG-3050 Nursing in Relationships—Fa, Sp 6 hours

Introduces aspects of developing therapeutic relationships involving one-to-one and group interactions to achieve client-focused and professional goals. Focus is on effective communication as a member of the profession and provider of care. Using a Christian worldview, students analyze frameworks for promoting and restoring healthy relationships. Students participate in integration of care with other members of the interdisciplinary health care team in a variety of settings. Emphasis is on imbalances in thinking, emotions, and behaviors that interfere with individual and group processes and require external intervention to promote balance. *Prerequisites: PSYCH-1600 General Psychology; NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II.* (Fee: \$200)

NSG-3070 2 hours

Nursing Care of Diverse Populations—Sp

Students develop information-management skills when investigating societal structures that determine the cultural patterns of diverse populations. Issues of similarity and difference are explored as a basis for culturally sensitive practice. Concepts of health and illness direct examination of complex forces that maintain, threaten, and promote the health balance of individuals, families, and communities. *Prerequisites: NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; admission to clinical nursing courses; or permission of instructor.*

NSG-3080 6 hours

Concepts in Medical-Surgical Nursing—Fa, Sp

Focus on concepts of nursing necessary to provide care to adults across the five dimensions. Critical thinking, assessment, and communication skills consistent with biblical principles will be utilized to manage information and provide culturally appropriate care to individuals and family groups. Students begin to demonstrate competency in technical skills and the professional nursing role within the clinical and laboratory settings. *Prerequisites: NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; NSG-3020 Provider of Nursing Care III (or corequisite); NSG-3110 Pharmacology (corequisite).* (Fee: \$200)

NSG-3090 Public Health Nursing—Fa, Sp 6 hours

Students focus on theoretical models of primary health care and health promotion. Contemporary health issues are examined in light of social policy initiatives and their impact on community building and disease prevention. Students use epidemiological and community resources to analyze and apply strategies for implementing community focused nursing practice. *Prerequisite: NSG-2010 Member of Nursing Profession II, NSG-2020 Provider of Nursing Care II, NSG-3070 Nursing Care of Diverse Populations; NSG-3110 Pharmacology (corequisite).* (Fee: \$200)

NSG-3110 Pharmacology—Fa 3 hours

Pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories are discussed as they are used to restore health balance. Special emphasis is given to the ways in which pharmacological agents may create new health demands. Nursing actions to prevent or minimize these demands are discussed. *Prerequisites: CHEM-1010 Principles of Biochemistry; GBIO-2020 Advanced Clinical Physiology; and permission of instructor.*

NSG-3150 Concepts in Gerontological Nursing—Sp 2 hours

An overview of health, wellness, and changes in health in older adults across the five dimensions. Emphasis is on understanding the concepts of aging; access to care; assessment of functional, psychosocial, cognitive, and spiritual status; functional and psychosocial aspects of syndromes common to older adults; living with chronic health imbalances; medication management issues; elder mistreatment; promoting quality of life; and end-of-life care. *Prerequisites: NSG-3020 Provider of Care III; NSG-3110 Pharmacology*

NSG-3200 1-3 hours

Cross-Cultural Nursing Internship—Fa, Sp, Su

Students actively participate in health-related activities in a facility established to provide care for persons in cultures different from theirs. The length of time involved in the internship may vary according to the student needs. *Prerequisites: NSG-3080 Concepts in Medical-Surgical Nursing; permission of instructor.*

NSG-3800 Nursing Externship—Su 1-4 hours

The focus is on exploration of nursing roles within precepted clinical experiences. Students apply critical thinking to promote and restore health using the Cedarville University Department of Nursing Curricular Model. Emphasis is given to application of Biblical truth in health care delivery and in addressing common ethical and legal issues encountered by nurses. *Prerequisites: Completion of all Junior-level nursing courses.*

NSG-4010 Adult/Child Health Nursing—Fa 14 hours

Focus is on common physiological imbalances of adults and children and the nursing care required to restore or promote health balance across the five dimensions. Special emphasis is given to the application of biblical truth concerning illness, suffering, helping, and compassion, along with common moral and ethical issues encountered by nurses. Students gain increasing independence in professional nursing role development as designers and coordinators of care. *Prerequisites: NSG-2150 Nutrition; NSG-3080 Concepts in Medical-Surgical Nursing; NSG-3090 Public Health Nursing; NSG-3110 Pharmacology.* (Fee: \$200)

NSG-4050 Leaders as Managers in Clinical Nursing 10 hours

Focuses on the observation and development of leadership/management skills and the nursing management of individuals or groups experiencing complex multidimensional health imbalances. Special emphasis is given to the biblical view of successful leadership/management. Students assume professional nursing roles working under the supervision of faculty, RN preceptors, clinical specialists, and/or various levels of nurse managers in their clinical area of choice. Students work full-time for five weeks following the preceptor's schedule and shift, including nights, weekends, and holidays. *Prerequisite: NSG-4010 Adult/Child Health Nursing or permission of instructor.* (Fee: \$200)

NSG-4090 Public Health Project—Fa, Sp 1 hour

Nursing students work in a collaborative relationship with a community to assess, intervene, and evaluate the capacity to improve the health of a population. *Prerequisites: NSG-3070 Nursing Care of Diverse Populations; NSG-3090 Public Health Nursing.* (Fee: \$50)

NSG-4200 Culture and Health—Fa 3 hours

Situations in which cross-cultural dilemmas emerge from the interaction of culture and health are analyzed to derive models for resolution. *Prerequisite: junior/senior status or permission of instructor.*

NSG-4800 Independent Study in Nursing—Sp 1-3 hours

Independent learning to secure an extensive background in a specialized area of nursing. May be repeated once. *Prerequisite: signed contract between student and instructor in which work to be completed is described.*

NSG-4830 Theory in Nursing—Sp 2 hours

Theories of nursing and borrowed theory are studied to demonstrate conceptual frameworks for nursing care used to restore balance of resources and demands. Students comparatively analyze a data set using Christian nursing theory and at least one other set of assumptions. *Prerequisite: NSG-4010 Adult/Child Health Nursing.*

NSG-4930 Nursing Research—Fa 3 hours

The research process is studied as an information management tool applied to the investigation of health balances and imbalances. Basic elements of the research process, including ethical issues, are discussed and applied to published nursing research and student proposals. *Prerequisites: NSG-3080 Concepts in Medical-Surgical Nursing; PSYCH-2610 Statistics.*

NSG-4950 Seminar in Nursing—Sp 3 hours

Focuses on trends in professional nursing. Students are challenged to integrate a Christian philosophy of nursing as they adopt the role of professional nurse. The political, legal, economic, social, and ethical factors that disrupt the balance of resources and demands in health care are debated. Capstone course. *Prerequisite: NSG-4010 Adult/Child Health Nursing.*

P

Physical Education Activity Courses (PEAX)

PEAF-1110 Personal Exercise Program: Men 1 hour and PEAF-1290 Personal Exercise Program: Women 1 hour

The personal exercise program courses are individually developed to meet the unique activity needs of students with physical disabilities or conditions that preclude them from being safely or effectively involved in physical education activity courses. Departmental approval is required.

PEA-1240 through PEA_-2100 Courses 1-2 hours each

Each course is designed to develop knowledge and skills in the respective activity area. Course requirements include examinations covering the activity subject, skills tests, class participation, and aerobics requirements. Grading options include letter grades or credit/no credit. These courses may be used by non-majors to satisfy the physical education component of the general education requirements and by majors to satisfy specific curricular requirements.

PEAE-1240 Self Defense: Women—Fa, Sp 1 hour

PEAE-1300 Contemporary Aerobics: Women—Fa, Sp 1 hour

PEAE-1320 Aquaerobics: Women (Fee: \$60)—Sp 1 hour

PEAE-1400 Weight Training: Coed—Fa, Sp 1 hour

PEAE-1450 Intermediate Weight Training—Fa, Sp 1 hour

Prerequisite: PEAE-1400 Weight Training: Coed

PEAI-1430 Badminton: Coed—Sp 1 hour

PEAI-1460 Bowling: Coed (Fee: \$70)—Fa, Sp 1 hour

PEAI-1540 Golf: Coed (Fee: \$15)—Fa 1 hour

PEAI-1550 Intermediate Golf: Coed (Fee: \$25)—Fa 1 hour

PEAI-1600 Racquetball: Coed (Fee: \$15)—Fa, Sp 1 hour

PEAI-1770 Tennis: Coed—Fa, Sp, Su 1 hour

PEAI-1780 Advanced Tennis: Coed 1 hour

PEAL-1420 Backpacking: Coed (Fee: \$30)—Fa, Sp 1 hour

PEAL-1510 Cycling: Coed—Fa 1 hour

PEAL-1610 Rock Climbing: Coed (Fee: \$25)—Fa, Sp 1 hour

PEAL-1620 1 hour

Intermediate Rock Climbing: Coed (Fee: \$125)—Sp

Prerequisite: PEAL-1610 Rock Climbing: Coed

PEAR-2100 Rhythmics: Coed—Fa 1 hour

PEAS-1120 Tumbling: Coed—Sp 1 hour

PEAS-1130 Apparatus: Men—Sp 1 hour

PEAS-1140 Apparatus: Women—Sp 1 hour

PEAT-1020 Basketball: Coed—Sp 1 hour

PEAT-1050 Soccer: Coed—Fa, Sp 1 hour

PEAT-1820 Volleyball: Coed—Fa, Sp 1 hour

PEAT-1830 Advanced Volleyball: Coed 1 hour

PEAS-1700 Swimming I-Beginners: Coed—Fa 1 hour

Designed for nonswimmers or swimmers with minimal swimming background; introduces and develops three strokes: front crawl, back crawl, and elementary back. (Fee: \$35)

PEAS-1720 Swimming II-Intermediate: Coed—Fa 1 hour

Focuses on refining the front crawl, back crawl, elementary backstroke, side stroke, and breast stroke. Emphasis on increased endurance and conditioning level. *Prerequisites: PEAS-1700 Swimming I; American Red Cross Level IV certificate.* (Fee: \$35)

PEAS-1730 Swimming III-Advanced: Coed—Sp 1 hour

Designed for swimmers who have gained experience through lessons or competitive swimming. Course develops stroke proficiency for all strokes including the butterfly. Includes an introduction to training regimen for lifetime fitness. (Fee: \$35)

PEAS-1740 Lifeguarding Today: Coed—Sp 2 hours

Provides lifeguards and lifeguard candidates with skills and knowledge necessary to keep the patron of an aquatic facility safe in and around the water. Teaching of lifeguarding skills and knowledge needed to prevent and respond to aquatic emergencies, preparing candidates to recognize emergencies, respond quickly and effectively to emergencies, and prevent drownings and other incidents. *Prerequisite: age 15 or older; swim 500 yards continuously using front crawl, breast stroke, and side stroke; surface dive and submerge to a minimum depth of seven feet, retrieve a 10 pound object and return with it to the surface; tread water for two minutes using legs only.* (Fee: \$120)

Course Descriptions

PEAS-1750 – PHAR-2014

PEAS-1750 Water Safety Instructor: Coed–Sp 2 hours

This course prepares, equips, and certifies individuals in American Red Cross swimming and water safety with the purpose of teaching water exploration, primary skills, stroke readiness, stroke refinement, skill proficiency, advanced skills, basic water safety, emergency water safety, and water safety instructor aide. (Fee: \$135) (even years)

Physical Education Fitness (PEF)

PEF-1990 1 hour

Physical Activity and the Christian Life–Fa, Sp, Su

Study of the role of physical activity in the Christian life from a scriptural, physiological, and psycho-sociological perspective. Emphasis is placed upon developing and continuing active, healthy, Christian life practices. Letter-graded course.

Music Performance (PFMU)

PFMU-3100 Piano Ensemble–Fa, Sp 0-1 hours

The Piano Ensemble is an organization of advanced pianists that meets weekly to perform duet and duo piano literature. The Ensemble performs publicly on a regular basis.

PHAR-2013 1 hour

Profession of Pharmacy-Careers–Fa, Sp

The profession of pharmacy has experienced tremendous growth over the past twenty years, both in terms of numbers in the profession as well as opportunities. In this course, the student will learn of many career options available to the pharmacist. Practicing pharmacists within different career paths will be giving lectures regarding current opportunities as well as projected growth within his/her field of practice. *Prerequisite: admission to prepharmacy program; PHAR-1011 Profession of Pharmacy-History and Issues; PHAR-1012 Profession of Pharmacy-History and Issues.*

PHAR-2014 1 hour

Profession of Pharmacy-Careers–Fa, Sp

The profession of pharmacy has experienced tremendous growth over the past twenty years, both in terms of numbers in the profession as well as opportunities. In this course, the student will learn of many career options available to the pharmacist. Practicing pharmacists within different career paths will be giving lectures regarding current opportunities as well as projected growth within his/her field of practice. *Prerequisite: admission to the prepharmacy program; PHAR-1011 Profession of Pharmacy-History and Issues; PHAR-1012 Profession of Pharmacy-History and Issues.*

PHAR-2100 Biostatistics–Sp

3 hours

In this course, the student preparing to enter the field of pharmacy will learn to understand and distinguish between statistical tests. Components of the course will include methods of data collection and study design, data analysis, and report writing. The students will design their own study and explain statistical methods as well as present at a journal club. *Prerequisite: third-year prepharmacy student; PHAR-1011 Profession of Pharmacy-History and Issues; PHAR-1012 Profession of Pharmacy-History and Issues.*

PHAR-3000 Pharmacy Activity–Fa, Sp

1-2 hours

While there are many career options in the field of pharmacy, many students are unsure or unaware of the opportunity available. In this course, prepharmacy students will have the opportunity to work with a pharmacist in their practice setting and/or observe non-traditional settings where a pharmacist might work. During the course, the student will observe a pharmacist or pharmacy-related setting 3 hours weekly and will meet as a class for one hour every week. *Prerequisite: admission to prepharmacy program; PHAR-1012 Profession of Pharmacy-History and Issues; PHAR-2014 Profession of Pharmacy-Careers*

PHAR-3200 Pharmacy Calculations–Fa

2 hours

In this course, skills will be developed to apply pharmaceutical mathematics to safely and accurately calculate dose, rate of infusion, and/or compound prescriptions. Basic elements will include conversion between units, understanding weights and measures, and methods of expressing concentration. *Prerequisites: third-year prepharmacy student; PHAR-1012 Profession of Pharmacy-History and Issues; PHAR-2014 Profession of Pharmacy-Careers.*

Physics: General Education (PHYS)

Except where noted, general education courses are designed to meet the general education requirements for graduation. These courses will not count toward graduation requirements for majors found in the department of science and mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for a science or mathematics major or minor may also count toward fulfilling general education requirements.

PHYS-1010 College Physics I–Fa

5 hours

Basic concepts of mechanics and thermodynamics using algebra and trigonometry. This is the first of a two-course sequence intended for students in the life sciences and pre-professional programs. Topics include kinematics, motion in two dimensions, forces and motion, work and energy, momentum, circular motion, gravitation, waves, phases of matter, heat, and the laws of thermodynamics. Four lectures and one two-hour laboratory per week. *Prerequisite: high school trigonometry; or GMTH-1030 Precalculus or equivalent.* (Fee: \$100)

PHYS-1020 College Physics II–Sp

5 hours

Basic concepts of electricity and modern physics using algebra and trigonometry. This is the second of a two-course sequence intended for students in the life sciences and pre-professional programs. Topics include electricity, magnetism, AC circuits, geometrical and physical optics, relativity theory, quantum theory and other modern physics topics. Four lectures and one two-hour laboratory per week. *Prerequisite: PHYS-1010 College Physics I or equivalent.* (Fee: \$100)

Physics: Major (PHYS)

PHYS-2110 General Physics I–Fa, Sp

4 hours

Basic concepts of mechanics using calculus. This is the first of a three-course sequence intended for students in the physical sciences and engineering programs. Topics include linear and rotational motion in three dimensions, oscillatory motion, gravitation, fluid mechanics, and basic concepts of wave motion. Three lectures and one two-hour laboratory per week. *Prerequisites: MATH-1710 Calculus I; MATH-1720 Calculus II; MATH-1720 may be co-enrolled with permission of instructor.* (Fee: \$100)

PHYS-2120 General Physics II–Fa, Sp

4 hours

Basic concepts of electricity and magnetism, light, and optics using calculus. This is the second of a three-course sequence intended for students in the physical sciences and engineering programs. Topics include electricity, magnetism, Maxwell's equations, DC and AC circuits, geometrical and physical optics. Three lectures and one two-hour laboratory per week. *Prerequisites: MATH-1720 Calculus II; PHYS-2110 General Physics I.* (Fee: \$100)

PHYS-2130 General Physics III–Fa

2 hours

Basic concepts of thermodynamics and modern physics using calculus. This is the third of a three-course sequence intended for students in the physical sciences programs. Topics include heat and thermodynamics, relativity theory, quantum theory, atomic and nuclear physics. *Prerequisites: MATH-1720 Calculus II; PHYS-2120 General Physics II; PHYS-2120 may be co-enrolled with permission of instructor.*

PHYS-3110 Intermediate Physics Laboratory–Fa

2 hours

Designed to reinforce concepts of the advanced physics courses and develop critical research and analysis skills. This course provides laboratory experience in such topics as oscillatory motion and waves, mechanics, electricity and magnetism, thermodynamics, and quantum mechanics. During this semester the student will develop his or her prospectus for his or her advanced laboratory project. Laboratory skills for planning, setup, documentation, and analysis using the scientific method will be emphasized. *Prerequisite: 3 hours of a 3000- or 4000-level physics course.* (Fee: \$100)

PHYS-3310 Theoretical Mechanics I–Sp

3 hours

Derivation of the motion of a point object through 3-dimensional space. Topics include an advanced treatment of Newtonian mechanics in three dimensions, oscillatory motion, accelerated frames of reference, central forces, and an introduction to Lagrangian mechanics. *Prerequisites: PHYS-2120 General Physics II; MATH-2740 Differential Equations; MATH-2740 may be co-enrolled with permission of instructor.* (even years)

PHYS-3330 Acoustics–Fa

3 hours

This course will study the generation, transmission and reception of sound. Topics include wave propagation through the air, resonance conditions for strings, bars, membranes and air cavities, acoustic filters, measurement and human perception of sound. Applications will be made to musical instruments, room acoustics, microphones, and speakers. *Prerequisites: MATH-2710 Differential Equations; PHYS-2110 General Physics I.* (even years)

PHYS-3350 Thermal Physics–Fa

3 hours

Study of the relationship between energy and matter through the use of thermodynamics and statistical mechanics. Topics include the laws of thermodynamics, heat, work, entropy, phase transformations, statistical distributions, and kinetic theory. *Prerequisite: PHYS-2130 General Physics III.* (odd years)

PHYS-3410 Electromagnetic Theory I–Fa

3 hours

Electricity and magnetism from an advanced viewpoint using the methods of vector calculus. Includes electrostatics, Gauss' Law, Poisson's equation, Laplace's equation, dielectric media, electric currents, and magnetostatics. *Prerequisites: PHYS-2120 General Physics II; MATH-2710 Calculus III.* (odd years)

Course Descriptions

PHYS-3510 – PHYS-4900

PHYS-3510 Modern Physics–Sp 3 hours

Introduction to relativity theory, quantum theory, including Schrodinger's Equation, and its basic applications, and atomic structure. *Prerequisite: PHYS-2130 General Physics III.*

PHYS-3800 Research Methods in Physics–Sp 1 hour

Reinforces concepts of the advanced physics courses and develops critical research and analysis skills. This course will focus on basic library, research, and laboratory skills for planning, setup, documentation, and analysis using the scientific method. Selected software will be introduced and used to collect data, analyze results, and document findings. There will be several laboratory sessions with experiments selected from oscillatory motion and waves, intermediate mechanics, intermediate electricity, intermediate magnetism, thermodynamics, or quantum mechanics. *Prerequisite: PHYS-2130 General Physics III.* (Fee: \$50)

PHYS-4110 Advanced Physics Laboratory–Sp 2 hours

The advanced laboratory experience is designed to reinforce concepts of the advanced physics courses and to develop critical research design, documentation, analysis, and presentation skills. The advanced laboratory provides additional experience in optical, radiation, wave, advanced mechanics, advanced electromagnetism, advanced thermodynamics, and quantum mechanics. During this semester the students will be conducting their advanced laboratory project, collecting data, and documenting results. Laboratory skills for planning, setup, documentation, analysis, and briefing using the scientific method will be emphasized. *Prerequisite: PHYS-3110 Intermediate Physics Lab.* (Fee: \$100)

PHYS-4210 Mathematical Methods for Physicists–Fa 3 hours

Advanced mathematical methods used in the solution of physics problems. Topics include curvilinear coordinates, vector analysis, and solutions to partial differential equations using Fourier, Bessel and Legendre functions. *Prerequisites: MATH-2710 Calculus III; MATH-2740 Differential Equations; 3 hours of a 3000 or 4000-level physics course.* (even years)

PHYS-4310 Theoretical Mechanics II–Fa 3 hours

Principles of mechanics applied to systems of particles. Topics include rigid body motion, Hamilton's equations, continuous media and nonlinear oscillators. *Prerequisites: PHYS-3310 Theoretical Mechanics I.* (odd years)

PHYS-4410 Electromagnetic Theory II–Sp 3 hours

Continuation of PHYS-3410. Includes magnetic properties of matter, electromagnetic induction, magnetic energy, slowly varying currents, Maxwell's equations and their applications, and introductory electrodynamics. *Prerequisite: PHYS-3410 Electromagnetic Theory I.* (odd years)

PHYS-4450 Optics–Fa 3 hours

Introduction to the study of classical and modern optics, including geometric optics, wave optics, and quantum optics. Topics include thin lenses, thick lenses and systems of lenses, mirrors, aberrations, lens design, interference, coherence, diffraction, polarization, and holography. *Prerequisites: PHYS-2120 General Physics II; MATH-2710 Calculus III.* (even years)

PHYS-4520 Quantum Mechanics I–Fa 3 hours

An introduction to the principles and theory of quantum mechanics including: the wave function, the time-independent Schrodinger's Equation, mathematical formalism of quantum mechanics, quantum mechanics in three dimensions, and systems of identical particles. *Prerequisite: PHYS-3510 Modern Physics.* (even years)

PHYS-4530 Quantum Mechanics II–Sp 3 hours

Continuation of Quantum Mechanics I. Topics treated include identical particles, spectral hyperfine structure, magnetic properties of matter, external fields, atomic spectroscopy of outer electrons, atomic spectroscopy of inner electrons, high-energy photon effects, molecular binding and spectra, emission and absorption of light, many particle system, W.K.B. approximation, angular momentum theory. *Prerequisite: PHYS-4520 Quantum Mechanics I.* (even years)

PHYS-4550 Solid State Physics–Sp 3 hours

Studies of basic concepts and important applications in solid physics; discussion topics include crystal structures, crystal dynamics, free electron model, energy bands in periodic potentials, semiconductor and semiconductor devices, magnetic order. *Prerequisite: PHYS-3350 Thermal Physics.* (odd years)

PHYS-4800 Senior Seminar–Physics–Fa 1 hour

A presentation of the basic principles of the major disciplines of the sciences with a focus on the interrelationships of the science disciplines to each other. Students present a paper from library or laboratory research in their area of physics with a focus on integration. Each student must obtain approval of the topic from his or her advisor and seminar instructor and must set the date of presentation before enrolling in the course. Material for this course is an outgrowth of a topic chosen by the student in PHYS-4110 Advanced Physics Lab. A paper and oral presentation are required that include the background, setup, data collection, analysis, and conclusions from his or her research. Guest lecturers and faculty members may present papers at the invitation of the instructor. *Prerequisite: PHYS-4110 Advanced Physics Lab; permission of instructor.*

PHYS-4880 Topics in Physics 1-3 hours

Study of topics of interest from modern and classical physics such as quantum theory, relativity, statistical mechanics, lasers, solid state physics, advanced classical mechanics, and atmospheric physics. *Prerequisites: PHYS-2130 General Physics III; MATH-2710 Calculus III.*

PHYS-4900 Independent Study in Physics 1-3 hours

Independent research in the various branches of physics and allied fields of application. Submission and approval of a research proposal must precede registration. *Prerequisite: permission of instructor.* (Fee: \$25/hour)

Music Private Study (PLMU)

Private instruction for credit in piano, voice, guitar, orchestral and band instruments, and composition is available to all music majors. Students with majors outside of the department of music, art, and worship need special approval from the department chair.

Credit in performance lessons is based on a minimum of six hours of practice and one half-hour lesson per week for one hour of credit. An audition is required for initial registration. Continued registration is based on satisfactory progress as determined each semester by the instructor. (Fee: \$100 per credit)

PLMU-1000, 2000, 3000, 4000 Organ 1-2 hours
PLMU-1100, 2100, 3100, 4100 Piano 1-2 hours
PLMU-1200, 2200, 3200, 4200 Voice 1-2 hours
PLMU-1300, 2300, 3300, 4300 Trumpet 1-2 hours
PLMU-1310, 2310, 3310, 4310 Trombone/Baritone Horn 1-2 hours

PLMU-1320, 2320, 3320, 4320 French Horn 1-2 hours
PLMU-1330, 2330, 3330, 4330 Tuba 1-2 hours
PLMU-1400, 2400, 3400, 4400 Clarinet 1-2 hours
PLMU-1410, 2410, 3410, 4410 Flute 1-2 hours
PLMU-1420, 2420, 3420, 4420 Saxophone 1-2 hours
PLMU-1430, 2430, 3430, 4430 Oboe 1-2 hours
PLMU-1440, 2440, 3440, 4440 Bassoon 1-2 hours
PLMU-1500, 2500, 3500, 4500 Violin 1-2 hours
PLMU-1510, 2510, 3510, 4510 Viola 1-2 hours
PLMU-1520, 2520, 3520, 4520 Cello 1-2 hours
PLMU-1530, 2530, 3530, 4530 Double Bass 1-2 hours
PLMU-1550, 2550, 3550, 4550 Harp 1-2 hours
PLMU-1600, 2600, 3600, 4600 Guitar 1-2 hours
PLMU-1700, 2700, 3700, 4700 Percussion 1-2 hours
PLMU-1810 Contemporary Piano–Fa, Sp 1-2 hours

Prerequisites: music or worship student, or instructor approval.

PLMU-1820 Contemporary Voice–Fa, Sp 1-2 hours
Prerequisites: music or worship student, or instructor approval.

PLMU-1830 Contemporary Guitar–Fa, Sp 1-2 hours
Prerequisites: music or worship student, or instructor approval.

PLMU-2800, 3800, 4800 Music Composition 1-2 hours

PLMU-3900 Junior Recital 1 hour

Music major performance emphasis students should register for this course the semester they are ready to present their junior recital. Program is presented in a half recital format. (Fee: \$75)

PLMU-3910 Junior Seminar–Sp 1 hour

Group preparation for Senior project capstone presentation.

Prerequisite: junior status.

PLMU-4900 Senior Recital 1 hour

Music majors should register for this course the semester in which their recitals are to be presented. Capstone course.

(Fee: \$75)

PLMU-4910 Senior Seminar–Fa, Sp 1 hour

One-on-one preparation for the senior project capstone presentation. *Prerequisite: PLMU-3910 Junior Seminar* (Fee: \$100)

PLMU-4920 Senior Project–Sp 1 hour

The capstone project for the B.A. in Music degree. Students may register for this course at the same time as Senior Seminar.

(Fee: \$75)

Political Science (POLS)

POLS-2000 Introduction to Political Science–Fa 3 hours

This course offers students a window into the discipline of political science. Students will be exposed to basic methods of the discipline, the fundamental issues of biblical integration and political science, as well as the dominant sub-fields: American politics, comparative politics, international relations, and political philosophy.

POLS-2100 American Political Institutions–Sp 3 hours

This course is an introduction to the legislative, executive, and judicial branches of government. This course focuses on the constitutional structure of all three branches, as well as their historical and political development, and it introduces students to the variety of approaches scholars use when studying the branches of government.

POLS-2250 Popular Culture and Politics–Sp 3 hours

This course will consider the relationship and effects which various forms of popular culture have had with/upon social and political movements as well as public policy initiatives both in America and International politics. The class will listen to, consider, and analyze a variety of cultural-artistic genres and the sociopolitical movements these engendered and supported in the 19th, 20th, and 21st centuries. Attention will be given to any or all of the following: music, film, art, and literature as well as to the historical, political, and social context. Crosslisted as POLS and SOC.

POLS-2620 American State and Local Government–Sp 3 hours

The organization and function of states and their political subdivisions form the basis of study in this course.

POLS-3080 3 hours

History of Russia and the Soviet Union–Fa

See course description for GEO-3080 History of Russia and the Soviet Union.

POLS-3100 Public Budgeting–Fa 3 hours

See course description for PUAD-3100 Public Budgeting.

POLS-3190 Global Issues–Sp 3 hours

See course description for INTL-3190 Global Issues.

POLS-3200 History and Politics of Latin America–Fa 3 hours

See course description for GEO-3200 History and Politics of Latin America. (even years)

POLS-3210 History and Politics of Asia–Fa 3 hours

See course description for GEO-3210 History and Politics of Asia. (odd years)

POLS-3220 3 hours

History and Politics of the Middle East–Sp

See course description for GEO-3220 History and Politics of the Middle East.

POLS-3230 3 hours

History and Politics of Western Europe–Sp

See course description for GEO-3230 History and Politics of Western Europe. (odd years)

POLS-3240 3 hours

History and Politics of Eastern Europe–Sp

See course description for GEO-3240 History and Politics of Eastern Europe. (even years)

POLS-3250 3 hours

History and Politics of Central & South Asia–Fa

See course description for GEO-3250 History and Politics of Central & South Asia. (odd years)

POLS-3360 American Judicial System–Fa 3 hours

Federal and state court systems, duties and responsibilities of the prosecutor, defense counsel, jury, and judge including related topics ranging from plea bargaining to sentencing. Crosslisted as CRJU or POLS. *Prerequisite: CRJU-1310 Introduction to Criminal Justice.*

POLS-3540 History and Politics of Africa–Sp 3 hours

See course description for GEO-3540 History and Politics of Africa. (even years)

POLS-3600 Public Administration–Fa 3 hours

See course description for PUAD-3600 Public Administration.

POLS-3640 Campaigns and Elections–Fa 3 hours

This course examines the fluid nature of political campaigns and elections in modern American politics. Students will study the strategies of political campaigns, including use of the media, fund raising, and resource allocation, as well as individual-level voting behavior as it is practiced in the context of campaigns. *Prerequisite: GSS-1100 Politics and American Culture.* (even years)

POLS-3650 International Relations–Fa 3 hours

A survey of contemporary international affairs and principles of interstate relations, focusing on forces that unite and divide our world. Crosslisted as INTL or POLS.

Course Descriptions

POLS-3690 – PSYCH-3130

- POLS-3690 Public Policy**–Sp **3 hours**
See course description for PUAD-3690 Public Policy.
- POLS-3710 History of Political Thought I: Ancient Through Medieval**–Fa **3 hours**
See course description for HIST-3710 History of Political Thought I: Ancient Through Medieval.
- POLS-3720 History of Political Thought II: Modern & Contemporary**–Fa **3 hours**
See course description for HIST-3720 History of Political Thought II: Modern and Contemporary.
- POLS-3790 Comparative Politics**–Fa **3 hours**
The purpose of this class is to familiarize the student with the major historical and political debates of comparative politics. Particular emphasis will be placed on the topics of political economy, new institutionalism, ethnic conflict, state and nation building, sources of prosperity, corruption, political communication, and political parties. Other important topics covered will be the role of women in society, economic development, ideology, cultural values and traditions, and religion in politics. (even years)
- POLS-4050 Issues in International Diplomacy**–Sp **3 hours**
See course description for HIST-4050 Issues in International Diplomacy.
- POLS-4440 Special Topics-Political Science** **1-3 hours**
Investigation of specific topics in Social Science and History that have intrinsic worth and engage student interest.
- POLS-4620 Religion and American Politics**–Fa **3 hours**
This course examines the intersection of religion and American politics by studying the historical, constitutional, and cultural contexts of the interaction. Special attention is paid to America's founding and to the politics of evangelical and fundamentalist Protestantism in the twentieth century. (odd years)
- POLS-4630 American Constitutional Law**–Sp **3 hours**
In-depth analysis of selected Supreme Court decisions and their relevance to political, social, economic, and religious dimensions of American life.
- POLS-4700 Prelaw Seminar**–Fa, Sp **3 hours**
Individual projects acquaint the student with legal procedures and research in areas such as briefs and contracts.
- POLS-4800 Seminar in International Studies**–Fa **3 hours**
A seminar/readings course intended to prepare senior students for graduate study. Through readings and discussion, students explore classical writings on international relations and international issues that are shaping our contemporary and future world. Crosslisted as INTL or POLS.
- POLS-4900 Research in Political Science**–Fa, Sp **3 hours**
Senior capstone thesis course in which students engage in original research and writing for the completion and defense of thesis before a committee of professors. Course emphasizes substantive cross-disciplinary and biblical integration within research topic. *Prerequisite: all political science major requirements or permission of instructor.* (Fee: \$100)
- POLS-4930 Independent Study in Political Science** **1-3 hours**
Provides the means whereby gifted and interested students may explore, in a more in-depth and intensive manner, general information acquired in the major courses. Further, independent study provides a logical way to complete required hours not obtained in normal sequencing. *Prerequisite: permission of the instructor.*
- Psychology (PSYCH)**
- PSYCH-1000 Orientation to Psychology**–Fa, Sp **1 hour**
Acquaints the psychology major with various areas and issues in the field of psychology. Included will be its specialties, graduate school information, vocational opportunities, and legal and ethical matters. Should be taken during the freshman year.
- PSYCH-1600 General Psychology**–Fa, Sp, Su **3 hours**
Designed to provide a survey of modern scientific psychology. The course content centers on such topics as the foundations of psychology, development over the life span, how we experience the world, learning and thinking, motivation and emotion, personality, and social behavior. (Fee: \$5)
- PSYCH-1800 Cross Cultural Psychology**–Fa, Sp **3 hours**
A survey course designed to make students sensitive to the impact of culture on life.
- PSYCH-2600 Human Development: Life Span**–Fa, Sp **3 hours**
An analysis of the physiological, social, and psychological development of the individual from conception through the total life span.
- PSYCH-2610 Statistics**–Fa, Sp, Su **3 hours**
Designed to provide an elementary coverage of descriptive and sampling statistics commonly used in psychology. Includes problems of measurement, measures of central tendency and dispersion, linear correlation, prediction, and simple tests of significance. (Fee: \$5)
- PSYCH-2640 Abnormal Psychology** –Fa, Sp **3 hours**
Focus upon etiology, symptomatology, and prognosis of psychological disturbance. *Prerequisite: PSYCH-1600 General Psychology.*
- PSYCH-2725 Child Development**–Fa, Sp **2 hours**
A study of the physiological, social, and spiritual growth of the child from conceptual through preadolescence. Emphasis on the developmental research on family systems theory, the importance of developmentally appropriate learning objectives including play, and the influence of cultural practice and beliefs on family systems. (Fee: \$10)
- PSYCH-2735 Child-Adolescent Development**–Fa, Sp **3 hours**
A study of the physiological, social, and spiritual growth of the child from conceptual through adolescence. Emphasis on the developmental research on family systems theory, the importance of developmentally appropriate learning objectives including play, and the influence of cultural practice and beliefs on family systems. (Fee: \$10)
- PSYCH-2750 The Parent and the Child** **3 hours**
Designed to explore the basic value requisites for effective family living. Basic concepts such as love, communication, and parental modeling will be stressed.
- PSYCH-2751 Family and Couple Interventions**–Sp **3 hours**
Exploring the dynamics of marriage relationships and family systems. Scriptural, psychological, and Christian-life issues spanning pre-marriage through family life cycle are studied.
- PSYCH-2800 Addictions** **3 hours**
This course examines a variety of addictions, including alcohol, drugs, food, sex, gambling, computer games/Internet, and codependence. The course will focus on symptoms, causes, treatments, and impact on society. Students will be challenged to develop a biblical perspective.
- PSYCH-2840 Concepts of Chemical Dependency**–Sp **3 hours**
Available to all students. Designed to investigate the concept of chemical dependency. Course emphasis is on the various drugs of abuse and methods of assessment, intervention, and treatment.
- PSYCH-2850 Psychology of Adjustment** **3 hours**
The systematic process of applying psychological principles to everyday issues of human life. Biblical perspectives are integrated into problem-solving paradigms for the development of a psychologically healthy personality.
- PSYCH-3130 Intimate Relationships**–Fa **3 hours**
Explores friendship, love, and romance from historical, theoretical, and philosophical perspectives. *Prerequisite: PSYCH-1600 General Psychology.*

PYCH-3380 Health Psychology –Fa	3 hours	PYCH-3730 Research Methods –Fa, Sp	3 hours
Designed to investigate the research and theory of many disciplines to understand how psychology and health are interconnected. The focus is on the major topics and problem areas in health psychology. (Fee: \$5) (even years)		An introduction to methods utilized in psychological research; emphasis upon experimental methodology and research design. <i>Prerequisite: PYCH-2610 Statistics or permission of instructor.</i> (Fee: \$5)	
PYCH-3420 Human Sexuality –Sp	3 hours	PYCH-3740 Qualitative Research –Fa	3 hours
Study of biblical content regarding human sexuality and an analysis of contemporary concepts within a framework of Christian thought. Crosslisted with SOC-3420 Human Sexuality. <i>Prerequisite: PYCH-1600 General Psychology.</i>		An investigation of a scientific method of inquiry utilizing qualitative rather than quantitative methodologies. Research methodologies such as participant observation and in-depth interviewing will be emphasized. A significant portion of the course will involve students actively engaging in qualitative research projects and preparing papers for potential presentation and publication.	
PYCH-3520 Counseling and Mentoring Women –Fa	3 hours	PYCH-3750 Psychological Testing	3 hours
Study of the distinctives of biblical counseling specifically applied to counseling women, the mandate and skill of mentoring woman to woman, and biblical responses to life struggles that are specific to women. Crosslisted as BECE.		A survey of instruments frequently utilized in psychology. Assessments include intellectual, personality, and vocational interest inventories. Students have opportunities for self-assessment and are introduced to report writing and ethical principles of psychological testing. <i>Prerequisite: PYCH-1600 General Psychology.</i> (Fee: \$20)	
PYCH-3610 History and Systems of Psychology –Fa, Sp	3 hours	PYCH-3900 Physiological Psychology –Fa, Sp	3 hours
Major trends in the development of psychology from its beginning to the present. Emphasis is placed upon contemporary theory. <i>Prerequisite: PYCH-1600 General Psychology.</i>		Explores the physiological, biological, and anatomical mechanisms responsible for behavior. <i>Prerequisite: PYCH-1600 General Psychology.</i>	
PYCH-3630 Testing and Measurement –Fa	3 hours	PYCH-3901 Medications and Behavior –Sp	3 hours
Emphasis on measurement theory and its applications, including concepts of validity, reliability, and test construction and selection. <i>Prerequisite: PYCH-2610 Statistics.</i> (Fee: \$20)		An overview of the major categories of psychotropic medications. Emphasis is on general understanding of how these medications affect behavior, their mechanism of action, and common side effects. <i>Prerequisite: PYCH-1600 General Psychology.</i> (even years)	
PYCH-3640 Industrial/Organizational Psychology	3 hours	PYCH-4400 Counseling Skills –Fa, Sp	3 hours
Psychology applied to the work world. Emphasis is on methodology and activities of industrial/organizational psychologists. <i>Prerequisite: PYCH-1600 General Psychology or permission of instructor.</i>		Emphasis is on assisting individuals in ways of dealing with solving or transcending their problem situations. The methods and skills of helping others are investigated.	
PYCH-3650 Psychology of Learning and Cognition –Fa, Sp	3 hours	PYCH-4640 Literature Seminar in Psychology –Fa,Su	3 hours
Concepts and theories of learning and cognition with emphasis placed on personal applications of accepted procedures. <i>Prerequisite: PYCH-1600 General Psychology.</i>		Reports and discussions of research literature in psychology. Required of all psychology majors during their senior year. <i>Prerequisite: permission of instructor.</i>	
PYCH-3660 Fundamentals of Counseling –Fa, Sp	3 hours	PYCH-4650 Special Topics Seminar	1-3 hours
An introductory course emphasizing the underlying philosophies, current theories, and accepted procedures of counseling. <i>Prerequisite: PYCH-1600 General Psychology.</i>		Various topics to be offered as interest demands. Available to students with special interests in psychology. <i>Prerequisite: permission of instructor.</i>	
PYCH-3670 Group Dynamics –Sp	3 hours	PYCH-4700 Behavioral Problems in Children –Fa	3 hours
Group processes in a variety of group settings are the focus as this course explores the interaction of individuals and groups. Each student participates in a growth group as part of the course.		An in-depth analysis of the effects of genetic, family, and environmental factors on the developmental patterns of children. A special emphasis will be placed on behavioral disorders of dysfunctional families.	
PYCH-3690 Social Psychology –Fa, Sp	3 hours	PYCH-4950 Senior Research Project –Fa, Sp	3 hours
The study of the behavior of individuals as it is influenced by past and/or present interactions with social factors. <i>Prerequisite: PYCH-1600 General Psychology.</i>		Provides opportunities for students to conduct an independent research project on a topic of interest and prepare a publishable paper under the supervision of an individual faculty advisor. (Fee: \$20)	
PYCH-3700 Adolescent Development	3 hours	PYCH-4960 Independent Study in Psychology	1-3 hours
Recent research dealing with adolescents will be emphasized. Emphasis is placed on the interaction of cultural, social, and personal family variables. Spiritual variables are integrated into the developmental process. <i>Prerequisite: PYCH-1600 General Psychology.</i>		Independent research carried out by the advanced psychology student in an area of interest and usefulness to the student. <i>Prerequisite: permission of instructor.</i>	
PYCH-3701 Counseling Adolescents –Fa, Sp	3 hours	PYCH-4990 Psychology Internship –Fa, Sp, Su	1-9 hours
This course introduces students to counseling interventions for helping adolescents who are struggling with common developmental and adjustment problems. <i>Prerequisite: PYCH-1600 General Psychology</i>		Junior and senior psychology majors may, with approval of the department, engage in psychological activity at a human service setting. One member of the psychology department will supervise the student's internship. The department will determine the number of credit hours that will be given for individual work experience. Repeatable to nine hours. Capstone course. <i>Prerequisite: permission of instructor.</i> (Fee: \$20)	
PYCH-3710 Adult Development and Aging –Sp	3 hours		
The study of physical, psychological, social, and spiritual development and experience in the adult years. <i>Prerequisite: PYCH-1600 General Psychology.</i>			
PYCH-3720 Psychology of Personality –Fa, Sp	3 hours		
Contemporary theories of the development, organization, and dynamics of personality. (Fee: \$15)			

Course Descriptions

PUAD-3100 – SMGT-2910

Public Administration (PUAD)

PUAD-3100 Public Budgeting–Fa 3 hours

Analysis of public sector budgeting at all levels of government in the United States with an emphasis on budgets as reflectors of priority, power, and control. Crosslisted as POLS or PUAD.

PUAD-3390 Public Finance–Sp 3 hours

A consideration of the financing of local, state, and federal governments. Much attention is given to three functions of government: stabilization, distribution, and allocation. All major taxes that are present in the United States are studied as to structure, revenue gained, and present status. *Prerequisite:* ECON-2340 *Macroeconomics*.

PUAD-3600 Public Administration–Fa 3 hours

Introduction to public administration both as a discipline and profession, including organization theory, budgeting, public policy analysis and evaluation, and public sector administration. Crosslisted as POLS or PUAD.

PUAD-3690 Public Policy–Sp 3 hours

Focus on decision making, problem solving, and methods of program analysis. Crosslisted as POLS or PUAD. *Prerequisites:* HIST-1110, 1120 *U.S. History*; POLS-2610 *American National Government*.

PUAD-4440 Special Topics-Public Administration 1-3 hours

Investigation of specific topics in Social Science and History that have intrinsic worth and engage student interest.

PUAD-4640 Strategies for Public Administration–Fa 3 hours

Designed to acquaint the advanced student in public administration or international studies with some of the policy decisions facing American government. All three levels of American government, federal, state, and local, will be examined in light of their particular relationships with foreign governments. (odd years)

PUAD-4800 Applied Public Administration–Fa 3 hours

Financial Registration Policy

To enable the University to be responsible in meeting its financial responsibilities, students must make provision for the payment of their bill on the due dates established by the University each semester. A student's registration for classes indicates a commitment to pay for related charges as stated in the University catalog.

The following payment plan schedule was established to help students care for this responsibility:

	Fall 2008	Spring 2009
First Payment Due:	August 1, 2008	January 1, 2009
Second Payment Due:	September 1, 2008	February 1, 2009
Third Payment Due:	October 1, 2008	March 1, 2009
Fourth Payment Due:	November 1, 2008	April 1, 2009

A student is not considered financially registered until at least the first one-fourth payment has been received by the cashier's office.

Students who do not make financial arrangements for the first payment due on their university bill will not be permitted to attend the University. Failure to make subsequent payments could result in the loss of cafeteria and library privileges and the withholding of grades and online registration.

Making Payment

Students and parents now will be able to pay their University bill using several payment methods. Payments can be made by check, cash (in person), or online through our EZPAY system. For your protection, please do not mail cash.

Please send payments made payable to:

Attn: Cashiers
Cedarville University
251 N. Main Street
Cedarville, OH 45314

*Please remember to include your student ID# and student name on all checks. Payment by Internet, please visit: www.cedarville.edu/ezpay

For more information on payment options, visit the cashier's office website at www.cedarville.edu/cashiers.

Notification of the University Bill

Students who pre-register will receive an invoice based on their pre-registration schedule 20 to 30 days before the semester begins. You are responsible for making your payments by the due dates. A statement of the student account is generated each month that the account has activity. Invoices and student statements are sent to the student at his/her campus post office box unless directed otherwise in writing. Students wishing to have their invoices and statements sent to their home address may obtain a form from the cashier's office. You may view your student account history at any time by using CedarInfo and selecting "View your student account."

Invoices and Statements Online

Students may view their student account, most recent invoice, and most recent transactions online using CedarInfo. Students may also assign their parents a password, giving them access to their student account and invoices. Parents can view this information by logging onto the campus homepage through their own Internet service provider.

Payment Penalties

Students who fail to make acceptable payment arrangements within a reasonable period of time will be denied access to the cafeteria and library until such arrangements are made. Students who do not make payments by the stated due dates will be charged \$25. Students with unpaid balances at the end of the semester may be denied, grade reports, transcripts, diploma, or enrollment in the next semester. Students with past due accounts will also be responsible for any fees incurred in the collection of their past due account.

Interest Rates

An annual interest rate of 13% (1.083% per month) will be charged during the academic year on accounts of current students. An annual interest rate of 15% (1.25% per month) will be charged during the academic year on accounts of students no longer enrolled and on all student accounts during the summer months.

Prepayment Incentive Credit Plan (PIC-Plan)

This plan enables a student to earn interest on their student account that has a credit balance of \$500 or more on the first day of the calendar month. The PIC-Plan account and the student account are one and the same. PIC-Plan interest is taxable and anyone earning \$10 or more in interest will receive a 1099-INT form. Please call 937-766-7665 for the maximum deposit amount and the current interest rate.

Withdrawals From a Student Account

A student may withdraw cash from their student account during the semester, provided they have a credit balance. Cash withdrawals may not exceed \$50 per week. No more than two cash withdrawals may be made per week. Withdrawals of amounts greater than \$50 are issued by check; requests can be made by contacting the cashier's office or using CedarInfo by selecting **Request a check from your student account under Financial Transactions**. Checks are issued within two to three business days of the request.

Student Health Insurance

Due to increasing complexities in dealing with Health Maintenance Organizations (HMOs) and the many and varied Preferred Provider Plans (PPPs), medical insurance is provided for all students taking six or more credits at no additional cost. Students taking less than six credit hours may purchase the Student Health Insurance Plan. Married students may also purchase the Student Health Insurance Plan for their spouse and dependants. For more details, please contact the student health insurance coordinator at 937-766-7864, visit online at www.cedarville.edu/ums, or e-mail stuhealth@cedarville.edu (fax: 937-766-3646).

New Student Reservation Deposit Refund

A reservation deposit must be submitted by new students as an indication of the intention to enroll. The amount of the deposit is \$250. This money will be credited to the student's account and used to cover first semester expenses. A student must submit a reservation deposit in order to be registered for courses.

The reservation deposit is fully refundable if the request for refund is received in writing before the reservation deposit deadline. No refunds are available after the deposit deadline date.

Reservation deposit deadlines are as follows:

Term	Deadline
Fall Semester	May 1
Spring Semester	Nov. 1
Summer Session I	April 15
Summer Session II	May 15
Summer Session III	June 15

Continuing Student Reservation Deposit Refund

Full (100%) refunds will be made to continuing students who notify the University by June 1 of their intent to withdraw. If a continuing student notifies the University between June 2 and July 1 of his/her intention not to return fall semester, \$150 of his/her deposit will be refunded. No refunds will be made after July 1.

Withdrawal Refunds

Tuition and Science Laboratory Fees

Students withdrawing from the University before the end of a semester may request a refund from the cashier's office. Refunds may be requested anytime after the beginning of a semester. The effective date of the withdrawal from the University is the last day of class attendance as determined by the office of the registrar.

Processing of refunds will begin the third week of the semester. Tuition and science laboratory fee refunds for withdrawal are granted on this schedule:

Refund	Fall 2008	Spring 2009
100%	thru Aug. 29	thru Jan. 16
75%	thru Sept. 5	thru Jan. 23
50%	thru Sept. 12	thru Jan. 30
25%	thru Sept. 19	thru Feb. 6
No Refund	after Sept. 19	after Feb. 6

Course offerings changed or deleted by the University entitle a student to a full refund of tuition and related course fees. Students withdrawing from a course or courses will be granted a full tuition refund to apply toward courses added. If the new total hours are fewer than the original total, the above refund schedule will apply.

Board

Board charges will be refunded on a prorated weekly basis. Board weeks begin on Sunday and end on Saturday. Board refunds are computed based on the last day of residency. Board contracts are required for all students living in the residence halls. Students may choose from six available meal-plan options.

Room

Rooms are reserved for each student for an entire semester. No refund of room rent is made except in cases of severe illness or incapacity. Written confirmation of the illness or incapacity must be provided by the director of University Medical Services or a physician. Room rent will then be refunded on a prorated basis.

Other Fees

No other fees are refundable except for withdrawal within the first calendar week of the semester.

Federal Refund Policy

Programs that are included:

1. Federal Pell Grant
2. Academic Competitiveness Grant
3. National SMART Grant
4. Federal SEOG Grant
5. Federal Perkins Loan
6. Federal Stafford Loans
7. Federal Parents PLUS Loan
8. Federal TEACH Grant

A portion of Title IV grant or loan funds, but not FWS funds, must be returned to the Title IV programs upon a Title IV recipient's withdrawal from the school.

Withdrawal date

The day the student withdraws is the date (determined by the school):

- The student began the withdrawal process prescribed by the school;
- The student otherwise provided the school with official notification of the intent to withdraw; or
- For the student who does not begin the school's withdrawal process or notify the school of the intent to withdraw, the mid-point of the period of enrollment for which Title IV assistance was disbursed (unless the institution can document a later date).

If the school determines the student did not begin the withdrawal process or notify the school of the intent to withdraw due to illness, accident, grievous personal loss, or other such circumstances beyond the student's control, then the school may determine the appropriate withdrawal date.

Percentage of the payment period or period of enrollment completed

The percentage of the period of enrollment for which assistance was awarded that was completed is determined by dividing the total number of calendar days comprising the period of enrollment for which assistance is awarded into the number of calendar days completed in that period as of the day the student withdrew.

Calculation of Title IV assistance earned

To calculate the amount of Title IV assistance earned by a student, the school must first determine the percentage of Title IV assistance the student earned. Up through the 60% point of time, the percentage of assistance earned is equal to the percentage of the period of enrollment for which it was awarded that was completed as of the day the student withdrew. If the student withdrawal occurs after the 60% point, then the amount is 100%.

Calculation of Title IV assistance not earned

The amount of the Title IV grant and loan assistance not earned by the student is calculated by determining the complement of the percentage of assistance the student earned and applying it to the total amount of grant and loan assistance that was disbursed (or that could have been disbursed) to the student, or on the student's behalf, for the period of enrollment as of the day the student withdrew.

Difference between amounts earned and amounts received

The school will follow the regulations for late disbursement if the student received less grant or loan assistance than the amount earned. If the student has received more grant or loan assistance than the amount earned, then the unearned funds shall be returned by the school or the student or both.

Responsibility of the school

The school shall return the lesser of the unearned amount of Title IV assistance or an amount equal to the total institutional charges the student incurs for the period of enrollment of which the assistance was awarded, multiplied by the unearned percentage of awarded Title IV grant and loan assistance.

Responsibility of the student

Students shall return unearned Title IV assistance minus the amount the school returns.

Order of return of Title IV funds

Excess funds returned by the school or student are credited to outstanding Title IV loan balances for the student or made on the student's behalf for which a return of funds is required. Excess funds must be credited to outstanding balances in the following order:

1. Unsubsidized Stafford loans
2. Subsidized Stafford loans
3. Federal Perkins loans
4. FFEL PLUS loans
5. Federal Pell grant
6. Academic Competitiveness Grant
7. National SMART Grant
8. Federal SEOG grant
9. Federal TEACH Grant

Veterans Training Benefits and Dependents Educational Assistance

Cedarville University is approved under Title 38, Chapters 30, 31, 32, 35, 1606 and 1607, US Code for Education of Veterans and their Dependents. Students under Chapters 30, 32, 35, 1606, and 1607 are required to pay the school for all charges. The Veterans Administration in turn pays them a monthly allowance based upon their training load. Veterans under Chapter 31 are paid a monthly allowance and the Veterans Administration pays the school for tuition, fees, books, and supplies.

Inquiries concerning eligibility should be directed to the contact office of a Veterans Administration Regional Office. Students planning to study under one of the education laws should receive approval prior to enrolling. A Veterans Administration training officer will contact the University in the disabled cases to accomplish this requirement for the student.

Cedarville University students eligible for veterans benefits should contact the veterans benefits counselor in the office of the registrar.

Deferred Payment Plan for Veterans

For Option Deferred Payment Plan for Veterans (under chapters 30, 31, 32, and 35) receiving the Educational Assistance Allowances, consult the office of the registrar.

Payments by veterans receiving their Educational Assistance Allowance checks one month behind will be as follows:

Fall Semester:	1st payment by 10/1
	2nd payment by 11/1
	3rd payment by 12/1
	Final payment by 1/1
Spring Semester:	1st payment by 2/1
	2nd payment by 3/1
	3rd payment by 4/1
	Final payment by 5/1

A late payment charge of \$25 is applicable for accounts unpaid after the payment due date.

Veterans receive eight monthly VA checks that must pay for eight deferred payments on the semester system.

Financial Aid

When completing the FAFSA, the Title IV Code for Cedarville University is **003025**.

General Information

Cedarville University offers a variety of financial aid programs to assist students with education-related expenses. Although Cedarville University supports the premise that the primary responsibility for financing a college education rests with the student and family, aid programs are available to supplement personal resources.

Some of the financial aid available at the University is considered to be *need-based aid*. Students are asked to complete the Free Application for Federal Student Aid (FAFSA) and submit the form to the Central Processing Center. The FAFSA should be submitted to the central processor by February 10, but not before January 1 preceding the academic year for which aid is being requested. It is not necessary to have filed your federal taxes before completing your FAFSA. Estimated data can be used. An analysis of the family's financial data is performed and the results are used to determine the eligibility for need-based assistance. New aid applicants may obtain the FAFSA from their high school guidance counselor or from the Cedarville University Financial Aid Office. For filing online, obtain a PIN number for **both** the parent and student at www.pin.ed.gov and complete the FAFSA at www.fafsa.ed.gov.

In addition to *need-based aid*, the University also offers *merit-based aid* to students who demonstrate recognized achievement or talent. Merit scholarship categories include academic, leadership, athletic, music, forensics, theatre, and debate.

The financial aid office serves as a resource center to assist students and their families in exploring alternative sources of educational funding. The financial aid homepage has direct links to several scholarship databases. Students are encouraged to investigate privately-funded scholarships through the use of the Internet and accessing www.cedarville.edu/finaid.

Students should advise the financial aid office when they receive additional assistance from sources other than Cedarville University. This assistance will be considered when preparing award packages and at times may result in the revision of a previously prepared package.

A financial aid award notification will be provided to students after reviewing completed application data and after a student is accepted for admission to Cedarville University. Financial aid is applied for and awarded on a yearly basis. Aid applicants must continue to meet program qualifications in order to retain eligibility.

All questions may be directed to the financial aid office at 937-766-7866 or 1-800-444-2433. Visit Cedarville's financial aid website at www.cedarville.edu/finaid and the FAFSA website at www.fafsa.ed.gov.

Students who are residents of Ohio and have a family income of less than \$35,000 may be eligible for an Ohio Instructional Grant. Application may only be made through the completion of the FAFSA. The filing deadline is October 1.

Ohio Academic Scholarship Program

A \$2,205 scholarship is awarded to the top graduating senior in each accredited Ohio high school. The student is chosen according to GPA and scores on the ACT. The recipient must attend an eligible Ohio college or university. The scholarship is renewable each year, providing the student remains full time and is making satisfactory academic progress. For more information, contact your high school counselor.

Ohio Air National Guard Tuition Assistance Program

This program assists Ohio National Guard members who are full-time students, at least 17 years old, and enlisted for a period of six years. Up to eight semesters of instructional and general fees will be paid for the student. After basic and specialty training, guardsmen meet one weekend a month and two weeks during each summer. In addition to the tuition assistance, the time spent on duty is paid according to rank. Both men and women are accepted into this program, and proof of financial need is not a requirement. For more information, call collect 937-323-6704 or write to: Ohio National Guard, Educational Opportunities, 2825 West Granville Rd., Worthington, OH 43085.

Ohio War Orphans Scholarship

This scholarship is awarded to students who are children of deceased or disabled veterans. The student must be enrolled full-time and be making satisfactory academic progress. For more information, contact the Ohio Board of Regents, Student Assistance Office, Ohio War Orphans Scholarship, 3600 State Office Tower, 30 East Broad Street, Columbus, OH 43215.

State Grant Refund Policy

Students who qualify for state grant funds must be registered for at least 12 credit hours per semester in order to receive benefits. Students withdrawing or dropping below full-time status during the semester will have their grant payments adjusted according to grant refund policy. Questions pertaining to refund policy should be directed to the financial aid office.

Other State Grants

Students from the following states may be eligible for state grant programs. Contact your state's higher education authority for eligibility criteria. The first step in applying for a state grant is to complete the FAFSA.

- Michigan – 1-888-95-MERIT

Federal Grants

Federal Pell Grant

A student who is a United States citizen, or who is in the United States for other than a temporary purpose and intends to become a permanent resident, or who is a permanent resident of the Trust Territories of the Pacific Islands or of the Northern Mariana Islands, may be eligible for a federal grant through the department of education. All students with financial need are encouraged to apply for this grant by using the FAFSA.

Students who meet the Pell eligibility requirements and have an expected family contribution of \$4,041 or less as calculated on the FAFSA are eligible for a Pell Grant. Grants currently range from \$890-\$4,731 per year.

All awards are based on full-time enrollment (12 hours or more). Students who enroll for fewer than 12 hours will have their awards prorated according to the following schedule:

- 12 hours or more = Full award
- 9-11 hours = 3/4 award
- 6-8 hours = 1/2 award
- 1-5 hours = Partial award – Federal Pell Grant only

Academic Competitiveness Grant (ACG)

The Academic Competitiveness Grant provides up to \$750 for the first year of undergraduate study and up to \$1,300 for the second year of undergraduate study to full-time students who are US citizens, eligible for a Federal Pell Grant, and who have successfully completed a rigorous high school program, as determined by the state or local education agency and recognized by the Secretary of Education. Second year students must also have maintained a cumulative grade point average (GPA) of at least 3.0. The program will be available for the first time for the 2006-07 school year for first year students who graduated from high school after January 1, 2006, and for second year students who graduated from high school after January 1, 2005. The Academic Competitiveness Grant award is in addition to the student's Pell Grant award.

National Science and Mathematics Access to Retain Talent Grant (SMART)

The National SMART Grant provides up to \$4,000 for each of the third and fourth years of undergraduate study to full-time students who are US citizens, eligible for a Federal Pell Grant, and pursuing the specified majors in physical, life, or computer sciences; mathematics; technology; or engineering; or a foreign language determined critical to national security. The student must also have maintained a cumulative grade point average (GPA) of at least 3.0 in coursework required for the major. The National SMART Grant award is in addition to the student's Pell Grant award.

Federal Supplemental Educational Opportunity Grant (SEOG)

A Federal grant for the Department of Education that is awarded to students with exceptional need. Exceptional need is described as being eligible to receive a Pell grant. However, due to limited funding, being Pell-eligible does not guarantee SEOG eligibility. The maximum SEOG grant at Cedarville University is \$1,000.

Teacher Education Assistance for College and Higher Education Grant (TEACH)

The TEACH Grant provides up to \$4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. The TEACH Grant has conditions which must be met, otherwise the grant is converted into a direct unsubsidized Loan. The following websites provide the full details for the TEACH Grant: <http://studentaid.ed.gov/PORTALSWebApp/students/english/index.jsp>

Special Institutional Grant and Scholarship Funds

Alumni and other people who have a special interest in the growth and progress of Cedarville University have generously donated funds to help defray educational expenses of students who have special and exceptional financial needs. These funds, which are listed below, are for the most part under the control of the director of financial aid, who determines who is eligible and the award that will be provided according to specific guidelines for each fund. The minimum cumulative GPA necessary to obtain assistance from these funds is 2.0 unless otherwise stipulated by the donor.

Most of our institutional grant and scholarship agreements require students to be full-time (12 hours) in order to receive an award from the endowment funds. If attendance status is not addressed in the endowment document, the following adjustments will be made:

- 12 hours or more = Full award
- 6-11 hours = Prorated
- less than 6 hours = No award

Federal Family Education Loan Programs

Federal Stafford Student Loan

Federal Stafford Student Loan funds are available to dependent and independent undergraduate students. Requests for loan assistance from this program may be made through the FAFSA. Cedarville University processes applications electronically through the Great Lakes Higher Education Corporation and its participating lenders. Applications will be mailed directly to the student from the guarantee agency. The federal government will subsidize (pay) the interest on loans while the student is in school and during a six month grace period following withdrawal or graduation if the student has demonstrated financial need as determined by the FAFSA calculations. The interest rate, as of July 1, 2006, is a fixed rate at 6.8%. Freshmen can borrow a maximum of \$3,500, sophomores \$4,500, and juniors and seniors \$5,500. Loan origination and insurance fees totaling 3% of the loan amount will be deducted by the lender.

Federal Unsubsidized Stafford Student Loan

Federal Unsubsidized Stafford Student Loan funds are available to students who do not qualify for all or part of the need-based subsidized Stafford Loan. The annual loan limits are the same, as stated above, for the subsidized, unsubsidized, or any combination of the two programs. In this program, all the terms are the same as the subsidized Stafford; however, the federal government does not cover the interest expenses while the student is in school or during the six-month grace period. The student does have the option to defer interest payments during in-school and grace periods; however, the interest continues to accrue. Independent

students are eligible to borrow additional funds through the Unsubsidized Stafford. Freshmen and sophomores may borrow an additional \$4,000 and juniors and seniors may borrow an additional \$5,000 per year.

Additional Unsubsidized Stafford Loan

A new loan program that was started in the 2008–09 school year which allows students to borrow an additional \$2,000 for each academic year. This is in addition to the base Subsidized and Unsubsidized Stafford Loans that are previously described. Eligibility, repayment, cancellation, and deferment criteria are the same as for the original Stafford loans.

Federal Parent Loan to Undergraduate Students (PLUS)

Federal Parent Loan to Undergraduate Students (PLUS) funds are available for creditworthy parents to borrow on behalf of their students. This loan program is not based on financial need and may be used to replace all or part of the expected family contribution. Parents may borrow any amount up to the cost of education less any financial aid the student is receiving. The fixed interest rate is 8.5%. The lender will deduct 3% of the loan amount to cover the origination and insurance fee. Repayment does begin within 60 days following full disbursement of the loan funds. Further information and applications for this program may be obtained by contacting the financial aid office.

Students should be aware that funds awarded from these programs are considered to be awarded for the entire loan period requested by the borrower. Should the student withdraw before the end of the loan period, a proportionate refund of the loan funds may be returned to the lender. In addition, if a student is enrolled for less than a full academic year immediately preceding graduation, the annual loan limit may be pro-rated based on the number of credits remaining to complete the program of study. Specific questions relating to the federal regulations outlined above may be directed to the financial aid office.

Federal Perkins Loans

Federal Perkins Loans are available through the University to students who are citizens of the United States and who demonstrate exceptional financial need. Funds are awarded to Federal Pell Grant recipients first. Other applicants are awarded pending availability of funds.

The Federal Perkins Loan Fund was established to help students pursue their courses of study at their chosen institutions of higher education. Students are eligible if they are: (1) a citizen of the United States, in the United States for other than a temporary purpose and intend to become a permanent resident thereof, a permanent resident of the Trust Territory of the Pacific Islands, or the Northern Mariana Islands; (2) in need of the amount of the loan to pursue a course of study at an eligible institution; (3) capable, in the opinion of the institution, of maintaining good standing in such course of study; and (4) accepted for enrollment as at least a half-time undergraduate student. Continuing students must be in good standing and enrolled as at least a half-time undergraduate.

The standard Perkins Loan amount is \$1,500. However, the annual amount may be increased as funding allows.

Repayment begins nine months after graduation or when a student leaves school for other reasons. One may have up to 10 years to pay back the loan, depending upon the aggregate amount borrowed. During the repayment period, the borrower will be assessed 5% interest on the unpaid balance of the loan principle.

Exit interviews will be conducted for graduates and withdraws to explain loan deferment and cancellation provisions for borrowers who continue their education or go into certain fields of teaching or specified military duty.

Student Employment

Federal Work Study

This federally-funded program is designed to provide work opportunities for university students. Students in this program may qualify for up to 20 hours of work a week during the academic year, providing they show a demonstrated need based on their FAFSA. Actual hiring is done by the department supervisors who will employ the students. As with campus employment, actual job placement, number of hours worked, and total dollar amount earned cannot be guaranteed by the financial aid office. Community service positions are also available in this program. Visit www.cedarville.edu/studentemployment for more information.

Campus Employment

Although unable to guarantee actual job placement, the number of hours worked, or total dollar amount earned, Cedarville University assists needy students by recommending them for part-time employment. Students are employed in various part-time jobs on campus such as maintenance, cafeteria, housekeeping, and others.

Part-time student employment is not restricted to upperclassmen and is encouraged at all levels.

Off-Campus Employment

Because of the University's reputation for attracting quality students, many area employers contact the career services office to employ students on a part-time basis. Though no formal restrictions pertain to this employment, students are encouraged to limit their working hours to approximately 20 hours per week to ensure sufficient time to study.

Standards of Satisfactory Academic Progress for Recipients of Financial Aid Policy

Financial aid recipients at Cedarville University are required to achieve satisfactory academic progress to be eligible to continue to receive federal financial assistance. The purpose of this policy is to define the requirements for satisfactory academic progress as it pertains to recipients of Title IV federal aid programs.

The University recognizes that conditions that create the need for financial assistance may also create other educational needs that require extra time and slower progress in achieving educational goals. Students who, because of exceptional educational needs, must make slower progress than outlined in the policy or who find themselves victims of unusual circumstances, are encouraged to discuss their situations with their academic advisors and the financial aid office. Where legally possible, because of mitigating circumstances, exceptions to this policy can be considered.

When the Congress of the United States enacted the Higher Education Amendments of 1976, eligible institutions were directed to define and enforce standards of progress for students receiving federal financial assistance.

The programs directly involved at Cedarville University are:

1. Unsubsidized Stafford loans
2. Subsidized Stafford loans
3. Federal Perkins loans
4. FFEL PLUS loans
5. Federal Pell Grant
6. Academic Competitiveness Grant
7. National SMART Grant
8. Federal SEOG Grant

Full-Time Students

To be eligible for full benefits of Federal Title IV funds, undergraduate recipients of financial aid must enroll for a minimum of 12 credit hours of classes during each semester that aid is received. All students are required to have a cumulative grade point average of 2.0 (C) in order to graduate from Cedarville University. The following academic requirements would be appropriate in achieving this goal by "carrying to completion" the required credit hours. In order to meet academic progress standards, students must complete a minimum number of credit hours based on a percentage of work to be completed and maintain a minimum cumulative grade point average consistent with the requirements for graduation. The following illustrates the academic progress policy:

Hours attempted	1-30	31-60	61-90	91-192
Completed (percent)	65%	70%	75%	80%
Minimum cumulative GPA	1.70	1.90	2.00	2.00

Satisfactory academic progress means that first-time students must, after a reasonable probationary period not to exceed one semester, have registered the minimum cumulative grade point average each semester thereafter as indicated above. In addition, these students must complete 65% of attempted course work the first academic year, 70% the second year, 75% the third year and 80% the fourth year.

Note: *Academic progress is measured at the end of each academic term. (Satisfactory progress for summer coursework will be evaluated at the end of the fall semester when fall term academic progress is evaluated.) It is assumed that the majority of students will graduate in the normal time frame. However, no student may continue more than six years as a full time student in order to complete his/her academic program. Regardless of the credit hours a full-time student attempts and received aid for, (which cannot exceed 192) they must complete the percentage of work attempted and have the appropriate cumulative grade point average as stipulated above.*

Aid recipients who fail to complete the required percentage of work attempted as listed above during the applicable semester and/or do not meet the minimum cumulative grade point requirements each semester will be considered as not making satisfactory academic progress. These students will be subject to having their federal aid discontinued unless there are mitigating circumstances involved that may affect a student's academic progress.

Students who withdraw from all courses during any semester will be encouraged to confer with the financial aid office. If permitted to continue, students who withdraw from all courses during each semester for two consecutive semesters will be considered as not making satisfactory academic progress and will be discontinued from receiving federal financial aid.

In conjunction and addition to the academic policy listed in the University catalog, the grading marks F, I, W, WF & WP will not be considered as successful completion of courses attempted. The attempt of these courses will be considered in quantitative (percent completion) analysis of SAP but not the qualitative (GPA) analysis. The incomplete (I) grades will be considered into the qualitative (GPA) analysis when completed according to the provisions in the University catalog. When an incomplete grade changes to another grade notation, that change will be picked up in the next SAP review.

Repeat course credits earned are averaged into the cumulative grade point averages; however, credit hours are counted only once towards the graduation requirement, but both attempts towards the percent of completion calculation.

Credit hours in which a “CR” has been earned count toward total graduation requirements but are not used in the computation of grade point averages. Non-credit hours for which “NC” has been earned are not used in the computation of grade point averages.

Audit (AU) classes do not constitute hours attempted or completed and are not used in the computation of grade point averages.

Repeat course credits earned are averaged into the cumulative grade point averages; however, credit hours are counted only once.

Summer school credit hours earned will be included in the academic year to which summer sessions are assigned. They will be evaluated the same as hours earned in regular semester sessions.

Part-time Students

Students who enroll for less than full-time (12 hours per semester) will receive proportionately less financial aid than a full-time student as dictated by lower school costs and federal regulations. Similar academic progress requirements for full-time apply to part-time enrollment on a proportional basis. Financial aid (except the Federal Pell Grant) will not be awarded to students who enroll for fewer than six credit hours per semester (half-time).

Transfer Students

Transfer students who have never attended Cedarville University will be treated as new students in regard to the probationary period (one semester). The transfer credits plus the credits received at Cedarville will be used for the percent of completion measurement; however, only the cumulative grade point average earned at Cedarville will be the evaluating factor to determine if progress is being made, based on the current satisfactory academic progress policy.

How to Re-establish Eligibility

When a student is denied aid because of lack of academic progress, additional courses at Cedarville University must be taken at the student's own expense. This will be necessary until the minimum cumulative grade point average and the percentage of completion requirements meet the academic progress criteria. In all cases, each student, upon completion of these requirements, must schedule an appointment with the assistant director of financial aid to determine his or her future eligibility for federal assistance.

Method for Appeal

Students who have been denied federal aid due to unsatisfactory academic progress have the right to appeal and can do so by a written request to the assistant director of financial aid. All appeals must include substantive reasons for failure to comply with this policy.

The assistant director of financial aid along with the appeal committee will review the appeal and the assistant director will respond by letter with either an approval or rejection of the student's appeal. On an individual basis, future progress requirements may be placed on a student whose appeal is approved. If the appeal is approved, the student's financial aid will be reinstated for the term.

If necessary, further appeals may be made to the vice president for enrollment management.

Student Rights

1. You have the right to know what financial aid programs are available at your school.
2. You have the right to know the deadlines for submitting applications for each of the financial aid programs available.

3. You have the right to know how financial aid will be distributed, how decisions on that distribution are made, and the basis for these decisions.
4. You have the right to know how your financial need was determined. This includes how costs for tuition and fees, room and board, travel, books and supplies, personal and miscellaneous expenses, etc., are considered in your budget.
5. You have the right to know what resources (such as parental contribution, other financial aid, your assets, etc.) were considered in the calculation of your need.
6. You have the right to know how much of your financial need as determined by the institution has been met.
7. You have the right to request an explanation of the various programs in your student aid package.
8. You have the right to know your school's refund policy.

Student Responsibilities

1. You must complete all application forms accurately and submit them on time to the right place.
2. You must provide correct information. In most instances, misreporting information on financial aid application forms is a violation of law and may be considered a criminal offense that could result in indictment under the U.S. Criminal Code.
3. You must return all additional documentation, verification, corrections, and/or new information requested by either the financial aid office or the agency to which you submitted your application.
4. You are responsible for reading and understanding all forms that you are asked to sign and for keeping copies of them.
5. You must accept responsibility for all agreements that you sign.
6. You must perform the work agreed upon in accepting a University employment award.
7. You must be aware of and comply with the deadlines for application or reapplication for aid.
8. You should be aware of your school's refund procedures.

All schools must provide information to prospective students about the school's programs and performance. You should consider this information carefully before deciding to attend a school.

Board of Trustees

Cedarville University is governed by an autonomous, self-perpetuating board of trustees. Board members are selected for three-year terms. One-third of the board members are eligible for re-election each year. The executive committee of the board consists of the chair, vice chair, secretary, treasurer, chairs of the standing committees, and the president of the University. The board meets in January, May, and October.

Doctrinal Statement

All trustees, administrators, full-time faculty, and staff support and adhere to the doctrinal statement and lifestyle commitment of Cedarville University.

We believe in the Scriptures of the Old and New Testaments as verbally inspired by God and inerrant in the original writings, embracing all matters which the biblical authors address, and believe that they are of supreme and final authority in faith and life. II Timothy 3:16,17; I Peter 1:19-21.

We believe in one God—eternal, omnipotent, omniscient, and omnipresent existing as three Persons—Father, Son, and Holy Spirit, one in nature, attributes, power, and glory. Genesis 1:1,26; Proverbs 30:4; Mark 12:29; Matthew 28:19; II Corinthians 13:14; John 1:1-4, 14,18; Acts 5:3,4.

We believe that the Lord Jesus Christ was begotten by the Holy Spirit, born of the virgin Mary, and that He is both true God and true man. Matthew 1:18-25; Luke 1:26-35; Philippians 2:6-11; Isaiah 7:14; John 1:14.

We believe in the literal six-day account of creation, that the creation of man lies in the special, immediate, and formative acts of God and not from previously existing forms of life. Genesis 1:26,27; 2:7-9,16,17; 3:1-19.

We believe that man was created perfect in the image of God, that he sinned and thereby incurred not only physical death, but also that spiritual and eternal death, which is separation from God, and that all human beings are born with a sinful nature and are sinners in thought, word, and deed. Genesis 3:1-6; Romans 1:18,32; 3:10-19; 5:12,19.

We believe that the Lord Jesus Christ died for our sins according to the Scriptures as a representative and substitutionary sacrifice and rose again for our justification; and that all who believe in Him are justified on the grounds of His shed blood and are saved by grace through faith wholly apart from human merit and works. Acts 13:39; 16:31; Romans 3:21-28; Ephesians 2:8-10; Titus 3:3-8.

We believe that all who receive by faith the Lord Jesus are born again by the Holy Spirit through the Word of God and thereby become the children of God forever and are eternally secure. John 1:12,13; 3:3-16; 5:24; 10:28,29; I Peter 1:23; II Peter 1:4-11.

We believe that the Holy Spirit is a divine Person, equal with God the Father and God the Son; that He was active in creation; that He convicts of sin, righteousness, and judgment; that He is the Agent in the new birth; that He baptizes all believers into the body of Christ at conversion; that He indwells, seals, endues, guides, teaches, witnesses, sanctifies, and helps the believer. Psalm 139:7-12; John 14:16,17; 16:13,14; Romans 8:9; I Corinthians 6:19.

We believe that the sign gifts of the Holy Spirit are completed and are not applicable to the work of the Holy Spirit today. I Corinthians 12:8-10, 28-30; 14:1-40.

We believe in the imminent “Blessed Hope,” the Rapture of the church before the tribulation, when the “Lord shall descend from heaven” to catch up His bride to meet Him in the air and “so shall we ever be with the Lord.” John 14:1-3; I Thessalonians 4:13-18; I Corinthians 15:15-58.

We believe in the literal, bodily resurrection of the crucified Lord, His ascension into Heaven, His present life there as our High Priest and Advocate, and His personal, bodily, visible return to the earth at the end of the tribulation to establish His millennial Kingdom on earth, and to reign as the only Potentate, the King of Kings, and Lord of Lords. Luke 24:36-43; John 20:24-29; Acts 1:9-11; I Corinthians 15:25; Revelation 1:5-7; 19:11-16; 20:6.

We believe in the bodily resurrection of all the dead: the saved to a life of eternal glory and bliss in Heaven with God; the unsaved to eternal judgment of conscious suffering and woe in the lake of fire. John 5:28,29; Revelation 20:6,11-15; 21:1-8; Matthew 10:28; 18:8,9; 25:41,46; Mark 9:43-49; II Thessalonians 1:6-9.

We believe in personal separation from all practices and influences of the world which hinder a spirit-filled life. We believe in biblical separation from all forms of ecclesiastical apostasy. Romans 12:1; James 4:4; I John 2:15-17; II Corinthians 6:14; 7:1; Colossians 3:1-17; Romans 6:1-14; Galatians 5:16-25.

We believe that it is the privilege and responsibility of every believer to be a personal soul winner and to do his utmost to give the Gospel of Christ to the whole world. Mark 16:15; Acts 1:8; John 17:18; 20:21; II Corinthians 5:20.

We believe that the local Church is an organized congregation of immersed believers, associated by covenant, observing the ordinances of Christ, having the offices of pastor and deacon, exercising the gifts, rights, privileges, and responsibilities given them by His Word, and that it has the absolute right of self-government. We believe that the Church which is His Body includes all New Testament believers. Matthew 18:15-17; I Corinthians 1:2; 7:17; 11:16; I Timothy 3:1-15; I Corinthians 12:28; Ephesians 1:22,23; 2:14,15; 5:23-32.

We believe that the Scriptural ordinances of the local church are Baptism and the Lord’s Supper; that Baptism, by immersion, should be administered to believers only, as an identifying symbol of their belief in the death, burial, and resurrection of our Lord and Savior Jesus Christ, and our death to sin and resurrection to a new walk in life, and that it is a prerequisite to local church membership; that the Lord’s Supper is a commemoration of His death and should be preceded by believer’s baptism and solemn self-examination. Matthew 28:19,20; Acts 8:36-39; 18:8; Romans 6:3-5; Colossians 2:12; I Corinthians 11:23-32.
