## Philosophical Readings

*Online Yearbook of Philosophy*

*Philosophical Readings*, ISSN 2036-4989, features articles, discussions, translations, reviews, and bibliographical information on all philosophical disciplines. *Philosophical Readings* is devoted to the promotion of competent and definitive contributions to philosophical knowledge. Not associated with any school or group, not the organ of any association or institution, it is interested in persistent and resolute inquiries into root questions, regardless of the writer's affiliation. The journal welcomes also works that fall into various disciplines: religion, history, literature, law, political science, computer science, economics, and empirical sciences that deal with philosophical problems. *Philosophical Readings* uses a policy of blind review by at least two consultants to evaluate articles accepted for serious consideration. *Philosophical Readings* promotes special issues on particular topics of special relevance in the philosophical debates. *Philosophical Readings* occasionally has opportunities for Guest Editors for special issues of the journal. Anyone who has an idea for a special issue and would like that idea to be considered, should contact the Executive editor.

**Executive editor:** Marco Sgarbi, *Università di Verona*.

**Associate editor:** Eva Del Soldato, *University of Pennsylvania*.

**Assistant editor:** Valerio Rocco Lozano, *Universidad Autónoma de Madrid*.

**Review editor:** Laura Anna Macor, *Università di Padova*.

**Editorial Advisory Board:** Laura Boella, *Università Statale di Milano*; Elio Franzini, *Università Statale di Milano*; Alessandro Ghisalberti, *Università Cattolica di Milano*; Piergiorgio Grassi, *Università di*

*Urbino*; Margarita Kranz, *Freie Universität Berlin*; Sandro Mancini, *Università di Palermo*; Massimo Marassi, *Università Cattolica di Milano*; Roberto Moradacci, *Università Vita e Salute San Raffaele di Milano*; Ugo Perone, *Università del Piemonte Orientale*; Stefano Poggi, *Università di Firenze*; Riccardo Pozzo, *Consiglio Nazionale delle Ricerche*; José Manuel Sevilla Fernández, *Universidad de Sevilla*.

**Editorial Board:** Raphael Ebgi, *Università San Raffaele di Milano*; Luca Gili, *Katholieke Universiteit Leuven*; Eugenio Refini, *Villa I Tatti. The Harvard University Center for Italian Renaissance Studies*; Alberto Vanzo, *University of Warwick*; Francesco Verde, *Università "La Sapienza" di Roma*; Antonio Vernacotola, *Università di Padova*.

**Board of Consultants:** This board has as its primary responsibility the evaluation of articles submitted for publication in *Philosophical Readings*. Its membership includes a large group of scholars representing a variety of research areas and philosophical approaches. From time to time, *Philosophical Readings* acknowledges their service by publishing the names of those who have read and evaluated manuscripts in recent years.

**Submissions:** Submissions should be made to the Editors. An abstract of not more than seventy words should accompany the submission. Since *Philosophical Readings* has adopted a policy of blind review, information identify the author should only appear on a separate page. Most reviews are invited. However, colleagues wishing to write a review should contact the Executive editor. Books to be reviewed, should be sent to the Executive editor.

## Introducing the New Schiller

.....  
*Laura Anna Macor*

*Dipartimento di Filosofia, Sociologia,  
Pedagogia e Psicologia Applicata  
Università degli Studi di Padova  
(Italy)*  
.....

A decisive shift has occurred in Schiller-scholarship over the past decade: from being passed off as a dilettante and amateur in the field of philosophy, Schiller has now emerged as a key-player. Notwithstanding all the customary allegations of inconsistency, lack of method, and wholesale inaccuracy, Schiller appears to have carved himself a new niche in the philosophical firmament owing to a slow but accelerating process of general reassessment.

Following the valuable but by now distant attempts by the Neo-Kantians,<sup>1</sup> the first steps in this direction were made in the Eighties by scholars of German literature: Hans-Jürgen Schings (1982, 1996),<sup>2</sup> Dieter

<sup>2</sup> Hans-Jürgen Schings, “Schillers ‘Räuber’. Ein Experiment des Universalhasses”, in: *Friedrich Schiller. Kunst, Humanität und Politik in der späten Aufklärung*, ed. by Wolfgang Wittkowski (Tübingen: Niemeyer, 1982), 1–25; Hans-Jürgen Schings, *Die Brüder des Marquis Posa. Schiller und der Geheimbund der Illuminaten* (Tübingen: Niemeyer, 1996).

Borchmeyer (1987, 1989),<sup>3</sup> and Wolfgang Riedel (1985, 1995)<sup>4</sup> set research on a crucial new footing, the fruits of which are only now becoming apparent. Indeed, it is only in the last decade that a programmatic process of reinterpretation and requalification has been undertaken. Frederick Beiser (2005) has the merit of having diagnosed and partially delivered Schiller-scholarship from the malady that afflicted it, first by highlighting the complete absence of philosophical studies on Schiller’s writings and thought, then proposing a solution of his own.<sup>5</sup>

Interdisciplinary collaboration and methodological cross-fertilization between Philosophy and German Studies increased sharply in subsequent years with the result that publications on Schiller have emerged from both sides. Whether as collections of essays or monographs, publication in this area has intensified, and, more importantly, has expanded geographically: alongside the more traditional German and English, Italian, French, and Spanish have also become important languages, with significant contributions being published in each of them. In terms of the innovative character of contributions over the past years, even the titles of some of the more insightful works may serve to convey a first impression: *Schillers Rebellionskonzept und die Französische Revolution*,<sup>6</sup> *L'âme suspecte. L'anthropologie littéraire dans les premiers œuvres de Schiller*,<sup>7</sup> *La tragedia como conjuro. El problema de lo sublime en Friedrich Schiller*,<sup>8</sup> *Friedrich Schiller. Der unterschätzte Theoretiker*,<sup>9</sup> *Il giro fangoso dell'umana destinazione. Friedrich Schiller*

<sup>16</sup> Yvonne Nilges, *Schiller und das Recht* (Göttingen: Wallstein, 2012).

merely a reader of Kant and passive – as well as allegedly incompetent – popularizer of his theories, but a fully conscious Schiller who, in theoretical terms, is both lucid and fully present. Furthermore, no longer exclusively the mature Schiller, indebted to Kant for the initial push to start doing philosophy, but also and above all the young Schiller studying philosophy at the *Karlschule*, who, even after finishing his studies in 1780, continued to read, study and revisit themes and authors that belong officially to the philosophical canon. Therefore also no longer only the Schiller who was interested in aesthetics, but also the Schiller who was deeply engaged in moral, political, and juridical questions. No longer the Schiller who derived from the historical and cultural context of his time the drive to adopt certain arguments and positions, but a Schiller who developed well-rounded political ideas prior to the outbreak of the French Revolution, and above all before the despotic developments which accompanied the massacres of September 1792, which were eventually marked by the execution of the King Louis XVI and the annihilation of the Girondists. No longer a Schiller claiming to share Kant's rigorism without actually espousing it; no longer a Schiller totally lacking in inner consistency, but a writer with deviations, unfinished narratives, perhaps even contradictions, just like every other great Western mind.<sup>17</sup>

<sup>17</sup> For a concrete example, I refer here to my: "Kant

Given the enormous scale of the reassessment, which is still ongoing, it is entirely legitimate to speak in terms of a full-scale "paradigm-shift within Schiller-scholarship".<sup>18</sup>

This book aims to be a part of this new trend in Schiller studies, and draws upon the combined efforts of scholars of German literature and historians of philosophy while taking into account the recent territorial expansion. The multi-lingual nature of this collection aims to capture this new geographical and cultural scope of research, as does the manner in which the essays are set out and their thematic range.

*Reading Schiller* takes its lead from texts by Schiller, from their "letter", with a view to showing how genuine, unprejudiced attention to Schiller's arguments can serve to break down many of the interpretational myths of the 20th century, at the same time restoring Schiller to the full theoretical stature he deserves. For this reason, all the texts may be seen as an inquiry in the form of a "spiral", starting with one or more texts and moving towards a wider context, only to return to the start with new historiographic tools. Major works are analyzed, such as *Ueber die ästhetische Erziehung des Menschen*, *Über das Erhabene*, *Wallenstein*,

---

and Schiller on Pure Ethics: Why Philosophers Should Concern Themselves with German Literature (and vice versa)", *Estudos Kantianos*, I (2013), 125–138.

<sup>18</sup> Valerio Rocco Lozano, "Los cambios de paradigma de la 'Schiller-Forschung'", *Daimon. Revista Internacional de Filosofía*, 46 (2009), 205–213.

and *Die Braut von Messina*, as well as early works and works usually considered marginal, such as the first *Rede* held in the *Karlschule*, the poetic work *Resignation*, the fragmentary novel *Philosophische Briefe*, and the essays from *Etwas über die erste Menschengesellschaft nach dem Leitfaden der mosaïschen Urkunde* and *Über die notwendigen Grenzen beim Gebrauch Schöner Formen* to *Bürger-Rezension* and *Matthisson-Rezension*.

The thematic scope is broad and aims to cover the extremely wide range of interests and areas of expertise of the author, from metaphysics and religion to politics, aesthetics and ethics. The reviews included at the end of the book seek to give due acknowledgement to the most important works published recently and their highly innovative character. Here, too, the international and multi-lingual nature of the research has been closely attended to, ensuring that the nationalities of reviewer and reviewed, as well as the language of the book being reviewed and its review, are different.

Overall, the selection of authors (of the essays, reviews, and reviewed books) reflects as faithfully as possible the current, state-of-the-art research on this topic, and includes high-profile, internationally renowned scholars as well as promising young researchers who are just starting their academic careers. In other words, an encouraging picture, which raises hopes that the current climate of research shall endure.
